

F. M. LESTER DIED 10:30 MONDAY NIGHT

Seventy eight Years of Age—Father of L. T. Lester and Old Time Resident of Plains Country.

F. M. Lester died at his home Monday night at 10:30 o'clock after a serious illness of a week's duration. He has been feeble for the past three years but during most of this time he has been able to come down town regularly and to make visits in other towns with friends and relatives. The funeral services were held Tuesday afternoon at the Baptist church, conducted by Rev. B. F. Fronabarger.

Mr. Lester was born in 1837 in the state of Georgia, being 78 years of age at his death. In 1858 he was married to Miss Mary E. Clements. Two children were born to this union. L. T. Lester, the oldest, survives to mourn with his mother. The other, a daughter, died in early life. A niece of Mrs. Lester's, Mrs. L. A. Knight of Plainview, was reared in the Lester home and was like a daughter to these good people.

Mr. Lester served in the Confederate army under Jackson and made a splendid soldier.

In 1896 he came to the Plains of Texas and settled in Hale county where he made his home until 1901 when he moved to Canyon to join with his son in the banking business. He has been a stockholder and director in the First National Bank of this city for a number of years.

Mr. Lester was a member of the Baptist church and gave much of his time in looking after the interests of his denomination. He was ever ready and willing to help those who were in need.

The funeral services were in charge of the Masonic lodge of which he was a member. The floral offering to the memory of this good man were many and very beautiful.

Those attending the funeral from out of town were Mr. and Mrs. L. A. Knight, and Mr. and Mrs. Malone of Plainview.

Normal Adds Expression Department.

A new department will be added to the Normal course of instruction beginning in September—expression and public speaking. Miss Mary Morgan Brown of Birmingham, Alabama, has been selected to head this department and comes with very fine recommendations. She has taken the A. B. and A. M. degrees from the Alabama Woman's College and has spent the past year in the Emerson School of Oratory of Boston one of the best in this country.

She and Miss Kline of the Music Department, taught in the Livingston, Ala., normal school. Miss Kline pronounces Miss Brown to be a highly cultured lady with great qualifications for her work. She is well known in her native state as a reader.

Memorial Services Postponed.

On account of the revival services at the Baptist church the annual Memorial service will not be held Sunday. It is requested that all who wish to decorate the graves of their friends and loved ones in honor of the Memorial occasion to meet at the cemetery promptly at three o'clock Sunday afternoon.

Come to Canyon to live.

COUSINS LOOKING FOR MORE ROOMS

Indications for Big Summer Session is Evident—Asks People to Report to J. W. Reid at Once.

The Summer Quarter of the West Texas State Normal College will open next Tuesday morning. President Cousins asks that all of the people of Canyon who expect to take roomers and boarders to notify Prof. Reid. Following is his communication:

To the People of Canyon: Please notify Prof. J. W. Reid if you can take boarders or rent rooms. Premises connected with the city sewer system and rooms with baths will be preferred, but we shall probably need all the rooms and boarding places that can be made available. The immediate future of the Normal school will depend to some extent upon the quality and price of boarding accommodations. Let everybody help.

Dale-Jennings Wedding.

Miss Valeria C. Dale and T. C. Jennings Jr. were married yesterday by Rev. B. F. Fronabarger. Both are well known in Randall county. Miss Dale came here several years ago with her mother and has been a very successful teacher in the county schools. Mr. Jennings is the son of T. C. Jennings who is a successful ranchman in the east part of the county. Like his bride, he has been a successful teacher. They will go to Chilcothe this fall where Mr. Jennings will teach this winter.

Will Inspect the Stores.

The ladies of the Federation will begin to inspect the stores and business houses of Canyon next week. The committee is working on the rules by which the stores will be judged.

The Best Story Randall Parrish Ever Wrote

That's what everyone thinks of this great, historical romance—

The Maid of the Forest

You know that Mr. Parrish has written some of the biggest successes ever published. There's action in every line he writes. Intense interest, excitement, and an absorbing love theme are irresistibly combined. In this new story he is at his best.

Our Next Serial! Is It Necessary to Say More?

A BIT OF PHILOSOPHY FROM

A POOR MAN'S WEALTH

BY JAMES WHITCOMB RILEY

poor man? Yes, I must confess—
No wealth of gold do I possess;
No pastures fine, with grazing kine,
Nor fields of waving grain are mine;
No foot of fat or fallow land
Where rightfully my feet may stand
The while I claim it as my own—
By deed and title, mine alone.

Ah, poor indeed! perhaps you say—
But spare me your compassion, pray!
A poor man? Yes, I must confess—
No wealth of gold do I possess;
No pastures fine, with grazing kine,
Nor fields of waving grain are mine;
But ah, my friend! I've wealth, no end!
For millionaires might condescend
To bend the knee and envy me
This opulence of poverty.

75,000 ACRE WHEAT CROP IN RANDALL

15,000 Acres More of Spring Wheat and 30,000 Acres of Oats—Row Crop as Usual.

Careful estimates have been compiled during the past two weeks by two business men of Canyon which show that the winter wheat crop is much larger than usual. The crop will easily be 75,000 acres of winter wheat. There are 15,000 acres of spring wheat, 30,000 acres of oats and 10,000 acres of rye and barley.

The crop at this time shows up very fine and the prospects could not be better for a good grain crop. In many places the wheat stands above knee high and only a small part has begun to head out to any extent, although the heads are putting on rapidly.

No estimates have been made on the row crop, but it is thought to run just about the same as last year—75,000 acres.

Grow and Save Feed Crops.

(A. M. Hove.)

"We want you to raise big feed crops," says the First National Bank of Portales in a recent circular letter. "We want you to feed them to good live stock. After you have raised your feed crop the next thing is to gather it and keep it. We hear on every side today that the most profitable way to keep a feed crop is to put it in a silo."

The Portales banks have been sending out this sort of letters every month and their gospel is taking root in the Portales Valley. Every letter deals with some phase of farm development, laying especial stress on the fact that growing and feeding all manner of live stock is a safe way to farm prosperity.

Training School Opens Tuesday.

Pres. Cousins announces that the Normal Training school will open Tuesday morning at 9 o'clock. Work will be conducted in all grades, first to ninth inclusive.

Buford Steen Loses Home.

The house in which Buford Steen was living burned last night at 7:30 o'clock. All of the furniture was burned. He went home and put some water on the gasoline stove, going into another room and closing the door. Soon he thought he heard the water boil over and opening the door found the room enveloped in flame. The fire department was called but was unable to do anything to save the house. The furniture loss amounted to nearly \$600 with \$250 insurance. The house belonged to A. B. Ellis and carried some insurance but not sufficient to cover the loss.

Fine Rain Last Night.

A very fine rain fell last night all over Randall county. There was half inch moisture. The rain puts the wheat in splendid condition. Rapid progress has been made during the past few weeks with the row crops.

It's Money Well Spent!

By MOSS.

It's far better to spend \$50 or \$1,000 in advertising in this newspaper and make more net profit than it is to spend nothing for advertising and make less net profit.

Out of every ten men who succeed nine do so by liberal publicity. The tenth man is usually a freak exception.

Consistent advertising keeps you even with or ahead of your competitor.

Most of our merchants are quick to realize that the best reading element in this community—the people who buy most—take this paper and read the advertisements therein contained.

BAPTIST SERVICES DRAW GOOD CROWDS

Will Continue for Two Weeks—Special Services for Men Sunday Afternoon at Four O'clock.

The revival meetings at the Baptist church have been well attended every night this week and the interest manifested has been encouraging. Great results are expected from the services.

Evangelist Copas is an interesting and forceful speaker and the church feels fortunate in procuring his services for the meeting.

Rev. Fronabarger announces that the meeting will continue during the next two weeks. Meetings will be held every morning at 10 o'clock and every night at 8:30. Next Sunday afternoon at 4 o'clock there will be a special meeting for men.

Mr. Copas' singer was taken ill and unable to come for the meeting. Cleveland Baker has charge of the music during the services.

Four Sisters Are Teachers.

One of the families that is contributing its full share of teaching the young idea to shoot is the family of Mr. R. G. Sisk. Four of the daughters have taught school this past winter and spring, and another is a member of this year's graduating class of the Hereford High School, and will doubtless qualify as a teacher later. Miss Jessie taught at Stamford the last year, Miss Bessie near Wildorado, Miss Helen taught 30 miles north of Pampa. Miss Cotto the Free school.

Miss Goochie is in the graduating class here this spring and will doubtless teach. Another remarkable thing about these four sisters is that they all graduated from the Canyon Normal last year in the same class.—Hereford Brand

Summer School Opens Tuesday.

Pres. R. B. Cousins stated yesterday that indications were most favorable for a large attendance at the summer Normal which opens next Tuesday. He has been receiving large numbers of letters during the past week relative to the summer work. The demand for catalogues has been greater than for the past two years.

Making Concrete Floor.

The contractors have a large force of men at work making the first floor in the Normal building. The floor is of concrete. The forms were placed several weeks ago in readiness to receive the concrete as soon as the building had progressed far enough so that the floor could be laid.

LISTEN.

Too many men and women travel life's road with every day a hand-to-mouth struggle; too many find themselves oppressed by what appear to be necessities from day to day. A little saving and a little "Management" will eliminate this.

BUILD YOU A HOME Canyon Lumber Co.

Mrs. W. B. Anthony visited last week here and is now in Hereford at the parental Gass home. Mr. Anthony was formerly connected with the City Pharmacy but is now manager of the lumber yard at Robstown.

PUBLIC SCHOOLS CLOSE FOR YEAR

Miss Willie Mills and Paul Rogers Win Scholarships—Excellent Program on Friday night.

The Canyon public schools closed last Friday after a very successful year's work.

The commencement exercises were held at the Methodist church Friday night and were largely attended by the patrons and friends of the school. The seven members of the graduating class were on the program, following which Rev. B. F. Fronabarger gave a very fine class address.

Scholarship were awarded to Miss Willie Mills and Paul Rogers, they having made the highest grades during the year. These scholarships are good in several colleges and will amount to considerable money if made use of by the holders.

The following was the program for the evening:

Dewey Mae Gibson—Salutatorian—Woman's part in the formation of bad habits.

Paul Lee Rogers—Class poem. Corleta Hensley—The question of opportunity.

John Arthur Gober—After twenty years.

Kathleen Grace Stewart—The greatest American.

Lorenzo Wirt—Woman's sphere.

Willie Grace Mills—Valedictorian—Our Alma Mater.

Class address—Rev. B. F. Fronabarger.

Delivery of diplomas—Supt. E. F. King.

Wayside Items.

Rev. W. S. Boyd delivered two most excellent sermons at Bulah Sunday.

W. H. Hamblen happened to a serious accident Thursday. While handling stock he was struck on the head by a post inflicting a very painful wound. He is now in Tulsa receiving medical attention.

Mrs. J. A. Currie and Mrs. Jimmie Hollabaugh and Corine, also Mrs. Fannie Franklin and boy spent Monday at the Sluder home.

Mr. and Mrs. Jno. Stockett returned Friday from their honeymoon trip to New Mexico. Mrs. Stockett's grand parents, Mr. and Mrs. Wesley gave them a reception Friday night. A large crowd enjoyed the elegant fruit supper spread.

Earl Beasley and Lowe McGehee united with the Methodist church Sunday night.

J. M. McGehee has recently sold 1200 bushels of wheat to P. J. Neff of Happy at \$1.30 per bu.

E. M. Beasley and W. J. Sluder made a business trip to Happy Monday.

While on their way to Amarillo Saturday Payne Bro's. shot from their car, 12 hawks, 6 rabbits, and over in the Block pasture they discovered a large bobcat which they dispatched also.

Virginia, daughter of Myles and Tenona Buchanan of Grape Vine Texas, died May 22, aged 3 months 5 days.

W. J. Lane and family left Saturday for Clarendon to visit relatives. J. C. Mayo will take his place as mail carrier during his absence.

Mrs. Eva Bertha Ritter, whose home is west of Happy, was adjudged insane Tuesday. She will be kept at home until provisions can be made for her care in the state hospital.

Here You Are!

Coca-Cola

Here's a new voice for the thirsty rooster—here's a refreshment for the excited fan—here's deliciousness for all—Coca-Cola, the beverage that athletes endorse—that wise business men enjoy—that everyone welcomes for its simple, pure wholesomeness.

Carbonated in bottles—at stands and in grand stands—and at soda fountains everywhere.

Demand the genuine by full name—nicknames encourage substitution.

THE COCA-COLA COMPANY
ATLANTA, GA.

Whenever you see an Arrow, think of Coca-Cola.

WHY A DOG WAGS ITS TAIL

Italian Scientist Declares Animal Performs Action for Conversational Purposes.

Why does a dog wag its tail? No, this isn't foolish question 41144 far from it. It is a sober, solemn problem which has been given long, careful, scientific investigation and which is now submitted to us with answer attached so that we needn't worry ourselves into the slightest degree of thoughtfulness over it. Prof. Giuseppe Renato of Rome, Italy, has devoted a lot of attention to this question. So you see there must be some weight somewhere about it. Professor Renato very kindly and solemnly tells us that the dog wags its tail for conversational purposes—and if this is true, we all know dogs that are great conversationalists, don't we? Professor Renato says great injustice has been done in the past by scientists in not giving animals' tails a profound study sooner. The tail, he solemnly pointed out, from the standpoint of antiquity, is much older than other organs of the various animals, and therefore entitled to be investigated first. Biology demonstrates, he says, that in the gradual development of animal life the tail was performing various important functions and working like a Trojan possibly centuries before the animal ever began to dream that it might also be nice to have paws, or jaws or legs. He hopes his present exhaustive and profound treatment of the subject will sort of square matters with the animals, or rather with their tails, on behalf of past neglectful scientists generally. And yet, in spite of the arguments of Professor Renato, some of us will continue to exhibit far more interest in the dental development and proficiency of the dog than in the conversational ability shown in tail-wagging, won't we?—Detroit Free Press.

HONESTY ITS OWN REWARD

Act of Street Car Conductor Made Whole Class Popular With Pittsburgh Business Men.

They were talking of the work of street car conductors and of their chances for graft in comparison with politicians.

"I suppose that all men use the nimble finger in response to the nimble mind at times, but let me tell you a bit of experience which may not be at all exceptional," said a contractor of the Oakland district. "Last summer one day I put \$200 in \$20 bills in one of those long folding books and slipped it into the inside pocket of my coat, as I thought. It was a hot day and I wore no vest. I boarded a car to go down town. Another car followed closely. Before I could leave the platform of my car I saw the conductor of the other car waving his hand, holding a book that looked like mine. I clapped my hand to my pocket and no purse was there. I sprang from the steps, ran back, the other car stopped, the conductor gave me my money and I felt for something to reward him. All the paper money was in \$20 bills and I had only half a dollar in change. I offered him that and asked for his address, telling him I would send more. He replied pleasantly that he would not accept a reward for being honest, but that if he were in politics he might accept any old thing for being dishonest. After that I would trust a street car conductor as I would the cashier of my bank."—Pittsburgh Dispatch.

Skipper of Six-Master at 21. The E. R. Sterling, the only six-masted barkentine in the world, arrived in San Francisco from Nantaimo, B. C., laden with coal.

Shortly after the vessel dropped anchor she was boarded by federal operatives who made a thorough search of the hold for a high-power wireless apparatus which officials have been informed is destined to be transferred at sea to a foreign warship from some American vessel in the near future. No apparatus was found.

Capt. Edward Sterling, Jr., son of the owner of the E. R. Sterling, is only twenty-one years old and is said to be the youngest skipper of a deep-water ship to possess a master's license. The vessel requires a crew of only 12 men, as her sails are raised by donkey engines.—San Francisco Chronicle.

He Swallows Toothbrush. James Skeffington of the Providence school committee has a fine set of teeth of which he is very proud. The other morning he was polishing his ivories, and, in the course of his rubbing, his grip on the handle of the brush slipped and the brush went down Jim's throat, too far for him to recover it. Realizing the gravity of the situation, Skeffington had a hurry call sent to the Rhode Island hospital, and there the doctors lost no time in operating upon him. The brush was removed from his stomach and in the afternoon the patient was reported as doing well.—Providence Dispatch to Philadelphia Record.

The Whisperers of Paris. True, every day is like Sunday now in Paris. The church bells of Paris! Day and night calling across the muted city from Montmartre to Montparnasse! No more Baedeker studying and whispering about the Byzantine and Gothic styles in the stillness of those dim, venerable churches; for the whisperers now are the women of Paris, kneeling before the Virgin, praying each for a loved one out at the front in the trenches.—Estelle Loomis in the Century Magazine.

NOTHING STANDS AS HIGH, as a remedy for every womanly ailment, as Dr. Pierce's Favorite Prescription. It's the only medicine for women certain in its effects.

"Favorite Prescription" is an invigorating, restorative tonic, a soothing and strengthening nerve, and a complete cure for all the functional derangements, painful disorders, and chronic weaknesses peculiar to the sex.

For young girls just entering womanhood; for nursing mothers; and every woman who is "run-down," tired or overworked—it is a special, safe, and certain help.

Mrs. BERTHA GREEN, of No. 512 Grant Avenue, Fort Worth, Texas, says:

"I have used Dr. Pierce's Favorite Prescription and can say it is surely a fine medicine and will do all it is claimed to do."

How to preserve health and beauty is told in Dr. Pierce's Common Sense Medical Advisor. It is free. Send Doctor Pierce, Buffalo, N. Y., 31 one-cent stamps to cover wrapping and mailing only.

A Discovery in Steel.

A Sheffield firm has introduced "Tirth's stainless" steel, which it claims is nonrusting, unsharable and untarnishable. This steel is especially adapted for table cutlery, as the original polish is maintained after use, even when brought in contact with the most acid foods, and it only requires ordinary washing to cleanse. It is claimed that it retains a keen edge much like that of the best double shear steel, and, as the properties claimed are inherent in the steel and are not due to any treatment, knives can readily be sharpened on a "steel" or by using the ordinary cleaning machine or knifeboard. It is expected it will prove a great boon, especially to large users of cutlery, such as hotels, steamships, restaurants. The price of this steel is about twenty-six cents per pound for ordinary sizes, which is about double the price of the usual steel for the same purpose. It also costs more to work up, so that the initial cost of articles made from this new discovery, it is estimated, will be about double the present cost, but it is considered that the saving of labor to the customer will more than cover the total cost of the cutlery in the first twelve months.—Consular Report.

Novelty in Motor Vehicles.

A novel motor-driven racer is the invention of a St. Louis genius, who has given the name of the "unicycle" to the great hoop. Though a couple of small wheels, or rollers, are attached to the side of the queer craft, they merely serve to steady it when it is still, and are raised when the device is in motion. The motive power is a gas engine of the rotary type, with three cylinders, and this drives a propeller, five feet in length, at such speed that the wheel travels at a better rate than a mile a minute—74 miles an hour, to be exact. The frame which carries the engine, propeller, driver, and fuel supply is very ingeniously constructed with a set of rollers that revolve against the inner side of the big wheel. In this manner the frame remains upright while the wheel revolves. The latter is of aluminum and has a diameter of 81 inches. Its circumference is protected by a solid rubber tire.

Important Discoveries Near.

Sir William Crookes announces at the recent anniversary meeting of the Royal society, of which he is president, that "we are on the brink of striking developments in our knowledge of the structure of the elusive atom." Provisionally this has been its definition: A nuclear positive charge of electricity—exceedingly small compared with the sphere of action of the atom, and consisting of a number of unit charges—surrounded by an external shell in which a number of separate negative electrons are distributed.

Leader Recovers Goods.

The Leader has recovered about \$165 of the goods which were stolen from their store last week. The suit cases packed with the goods were discovered by the section gang under a culvert near the stock yards Wednesday. Officers were posted near the place Wednesday and men watched the goods Wednesday night with the hope of the thieves returning, but evidently they had found out that the goods were located.

The Elect.

These are some of the marks of the Elect, the Chosen People, the true Aristocracy, the real Upper Class.

They are clean. They keep their bodies clean of dirt, their minds clean of prejudice, and their spirits clean of superstition.

They have strong passions, strictly disciplined.

Their mind is clearest and their courage highest in the presence of danger.

While they may not always think correctly, they think clearly.

They do right because it is a pleasure, and have passed the apprenticeship of struggle.

Their opinion or belief cannot be coerced by authority or seduced by desire. Their intellect is as ethical as their conduct.

Love is the greatest thing in the world, but to them there is a greater thing—loyalty.

They are efficient. They make good; they do not explain why they could not.

To their employed they are just and reasonable; to their employer they are intelligently obedient.

They regulate themselves strictly; they have no wish at all to regulate others.

They love people, learn something from everyone they meet, and despise no human being.

They are characterized by simplicity in dress, in speech, in house and at table. They understand the vulgarity of luxury.

They seek justice as the true charity, paying fair wages rather than giving alms, changing evil economic conditions rather than doling bread.

They bear no grudges and never seek revenge.

Their superiority is never exclusive; the greater, stronger, and better they become, the more warmly human they grow.

These are the Elect.—Dr. Frank Crane, in Cosmopolitan Magazine.

Cures Old Sores, Other Remedies Won't Cure
The worst cases, no matter of how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves Pain and Heals at the same time. 25c, 50c, \$1.00.

Don't Be a Pessimist.

A pessimist is a queer fellow. He couldn't be much else, because he is a pessimist.

He borrows your horse and then kicks at his gait.

He begs a cigar and complains of the quality.

He profits from the prosperity of his town then gives it a kick.

He listens to a five dollar sermon and then drops a nickle on the collection plate.

In the height of prosperity he sees nothing but gloom ahead.

He gloats over his own virtues and rails at the frailties of his neighbors.

He was born with a grouch, lives the life of a grouch, dies the death of a grouch and turns hell into a realm of grouch.

Get Your Gun—Shoot Jackrabbits.

Beginning June 20 the state will pay a bounty of 5 cents for each jack rabbit you kill. \$2.00 will be paid for any kind of a wolf. The people of Randall county are preparing to make a mighty slay of rabbits beginning at that time.

Come to Canyon to live.

Fate Holds You in the Hollow of Her Hand

YOUNG people, this is meant for you. Don't laugh at fate. Prepare now for the "rainy day," when life is not all rosy sunshine. Save your pennies now. **WORK, WORK, WORK! Self Possession.

A man who does not possess himself enough to hear disagreeable things, without visible marks of anger and change of countenance, is at the mercy of every artful knave or pert coxcomb; the former will provoke or please you by design, to catch unguarded words or looks; by which he will easily decipher the secrets of your heart, of which you should keep the key yourself, and trust it with no man living. The later by this absurdity, and without intending it, produce the same discoveries of which other people will avail themselves.—Lord Chesterfield.

Piles Cured in 6 to 14 Days

Give Herefords Fair Premium.

The premium committee of the Panhandle State Fair Association announce that the total amount of the purses to be hung up, as prizes on Hereford cattle at the next fair will be in the neighborhood of \$1,600.00; in addition to the usual prizes for individual cattle. This money will be awarded somewhat as the pen money in poultry shows, the car load being the unit. The premiums will be given for the best carload lots of one to two year old, steers, one to two year old heifers, steers under one year old, heifers under one year old, Hereford "champion" steers of any age, and "champion" steers of any age and breed.

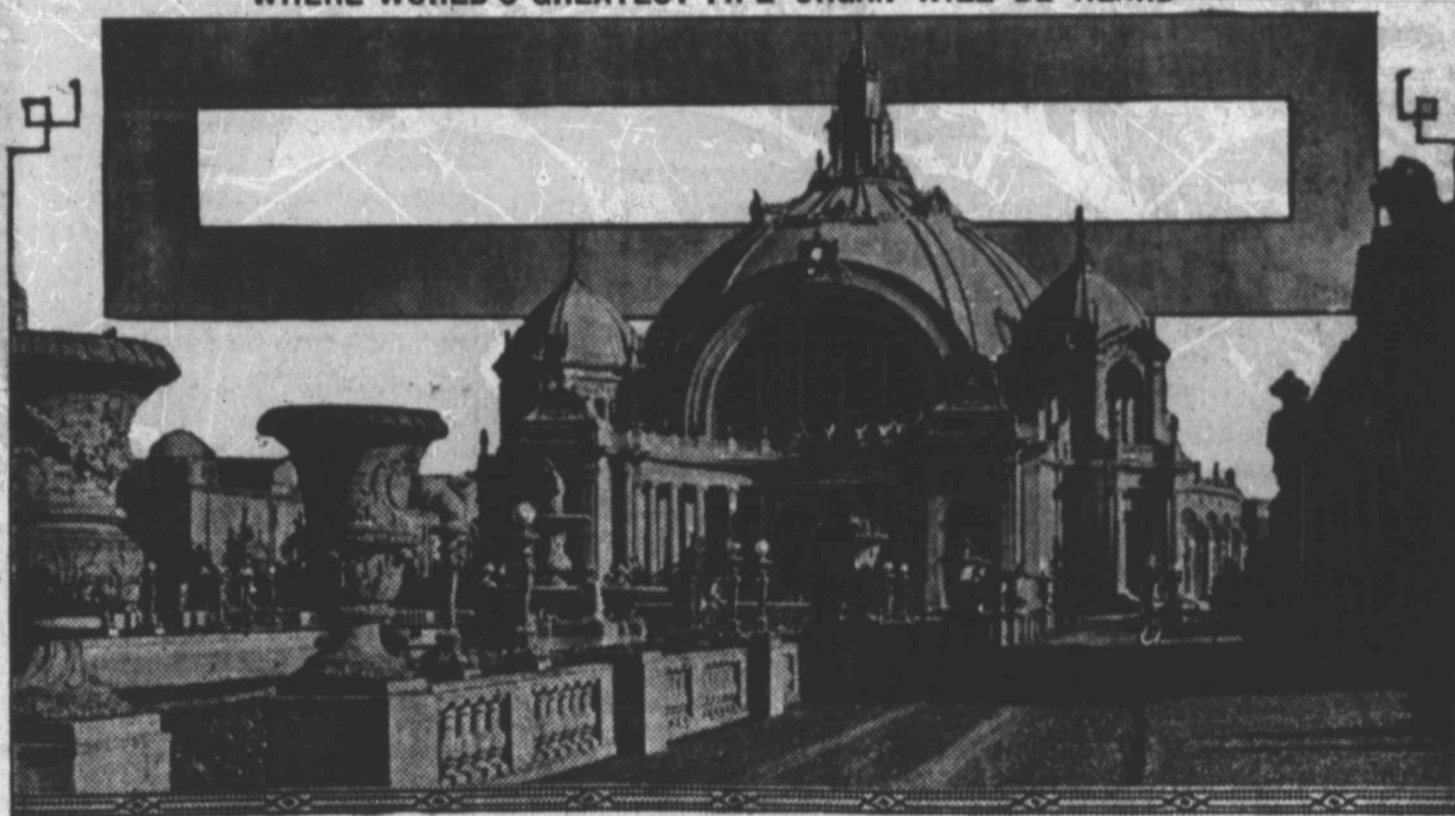

Amarillo News.

UNIVERSITY OF TEXAS DOMESTIC SCIENCE LABORATORY; FUTURE HOUSEWIVES LEARNING FOOD VALUES

Statisticians estimate that \$9,000,000,000.00 is spent annually in the United States to satisfy the primary wants of man; food, shelter, clothing. Women spend three-fourths of this vast sum. Is it not the part of wisdom for the state to see to it that they are equipped to spend this money judiciously? To teach the future housewives of Texas this important art is being attempted with splendid success by the University of Texas, at Austin, through its department of domestic economy. Girls are here afforded scientific instruction in all that pertains to home-making. The student is taught to judge textiles properly, the elements of dress-making, home decoration, the value of home-furnishings, food values, cooking, and so on. In short, girls are given a thorough course in the science and art of home-making.

WHERE WORLD'S GREATEST PIPE ORGAN WILL BE HEARD

Festival Hall—Panama-Pacific International Exposition—from the south promenade of the South Gardens, the facade of the Press building showing at the extreme right. On the great organ in this hall—one of the six greatest organs in the world—Camille Saint Saens will play an original composition, and there will be recitals by Edwin Lemare of London, Wallace Sabia and other maestros. This hall will center the intellectual, dramatic, musical and literary life of the exposition at San Francisco many of the 400 conventions of this year making it their assembly place.

The Gibson bill is dead—killed by little politicians. Gov. Ferguson says he will make it a campaign issue next year, and he will win on that platform. Democrats generally do not believe in protective tariff, but the senators of Texas believe in building a financial wall about the state for the purpose of fostering infant insurance company—many of which were organized for the purpose of defrauding the people. Many Canyon people have stock in such companies which they would like to sell for about 10 cents on the dollar.

Joe Bailey, the poor thing, got peeved the other day and absolutely threatened to withdraw from a case in which he was interested. Not the first time Joe was ever peeved. A few months before his term in the senate expired, he resigned and then changed his mind about it, because some of his colleagues didn't see things the way Joe did. Joe is strong on this "threatening business." In fact he threaten to come back into Texas politics, but surmised it better to practice law in the national capital.

The News is in favor of eliminating two words from the English language, or rather eliminate the people who constantly use them—nice and awful. Everything that happens, or don't happen, is either "nice" or "awful" and very often the combination of "awful, nice" creeps in. Let's have a rest from "awful", and "nice" business.

The fellow who sends an unsigned communication to a news-

TWICE-TOLD TESTIMONY

Canyon People Are Doing All They Can for Fellow Sufferers.

Canyon testimony has been published to prove the merit of Doan's Kidney Pills to others in Canyon who suffer from bad backs and kidney ills. Lest any sufferer doubt this evidence of merit, we produce confirmed proof—statements from Canyon people who again endorse Doan's Kidney Pills—confirm their former testimony. Here's a Canyon case:

R. T. Holton, Canyon, says: "I suffered from lameness across my kidneys, dizziness and pain in my neck. I also had trouble with the kidney secretions. I used Doan's Kidney Pills and they did me much good."

At a later date Mr. Holton said: "I still use Doan's Kidney Pills occasionally when I need a kidney medicine and they never fail to do good."

Price 50c, at all dealers. Don't simply ask for a kidney remedy get Doan's Kidney Pills—the same that Mr. Holton had. Foster-Milburn Co., Props., Buffalo, N. Y.

paper in which he gives his neighbors the dickens, is in about the same class with the person who does something he is ashamed of and comes around begging that said event be not published. Every newspaper is troubled with both classes.

An exchange thanks the Old World for war because it has made grain and stock prices so high. Why send missionaries to the heathen land while there are those at home who rejoice over war with its slaughter of thousands of men made after God's image in order that his pocketbook may be swelled a little?

Italy's decision to jump into the war will bring in a number of the small Balkan nations. It looks from this distance like a political scramble at the pie counter after a national election. The little fellows are all seeking a chunk of Austrian soil when the allies win—but this hasn't been accomplished by any means.

The family who doesn't arise a garden misses a great deal of pleasure, not only in swatting the weeds, chasing the neighbors' chickens home, poisoning the pilfering bugs, but in really gathering the genuine radishes, lettuce, etc. that looks so good and tastes better after the trials and tribulations of their raising.

One thing we like about Gov. Ferguson is that he is willing to back up any suggestion he makes to the legislature and expects the members of the body to back up any pet proposition they may have. In other words he believes in the old adage of "put up or shut up."

The extra session of the legislature closes tomorrow and the appropriation bill has not yet been passed. The members have been playing politics instead of looking after the needs of the state institutions.

Early to bed and early to rise, cut the weeds and swat the flies; mind your own business and tell no lies; don't get mad and deceive your wives; pay your debts and use enterprise and buy from those who advertise.—Ex.

The poetically inclined has plenty of material in Randall county. The green fields, pastures, flocks herds, yes even the weather, offer their services.

After the Lusitania experience, it ought not be hard to convince people the necessity of seeing America first—especially in war times.

Roosevelt ought to be willing to give Barnes a side tip for all that free advertising during the five weeks of trial.

Every farmer you meet has a smile on his face over the excellent crop prospects.

An article recently appeared in an Iowa paper making the statement that the Texas Panhandle is full of abandoned farms and weeping widows and orphans. In a recent issue, The Randall County News takes up two columns in declaring that the contributor of said article "dispenses veracity with parsimonious frugality," sustaining its contention with various and sundry bits of unimpeachable evidence. The News article was not only truthful, but convincing, and the only objection we can offer is that the author of such libel is not deserving of two columns of space in as good a paper as Brother Warwick's News.—Clarendon News.

Invigorating to the Pale and Sickly
The Old Standard general strengthening tonic, DOAN'S TASTELESS CHILL TONIC, drives out malaria, restores the blood, and builds up the system. A true tonic. For adults and children. 50c.

Mail Order House's Ten Commandments.

The following ten commandments are offered for the guidance of catalogue house patrons.

1. You shall sell your farm products for cash whenever you can but not to us. We do not buy from you.

2. You shall believe our statements and buy all you need from us, because we want to be good to you, although we are not personally acquainted with you.

3. You shall send the money in advance to give us a chance to get the goods from the factory with your money; meanwhile, you will have to wait patiently for weeks, as that is our business method.

4. You shall apply to your nearest city to aid you in building good roads, so that you can conveniently get the goods from the depot, for we cannot build country roads.

5. You shall buy church bells and church fixtures from us and forward the money in advance, for this is our business method, and you shall collect from the business men in your city as much money as you can for the churches, for it is against our rules to donate any money for country churches.

6. You shall buy your tools from us and be your own mechanic in order to drive the mechanics from your vicinity, for we wish it so.

7. You shall induce your neighbor to buy everything from us, as we have room for more money you have in your community the sooner we can put your local merchant out of business and charge you any price we please.

8. You shall look often at the beautiful pictures in our catalogues so that your wishes will increase and so you will send in big orders although you are not in immediate need of the goods, otherwise you might have some money left to buy some necessary goods from your local merchant.

9. You shall have the merchants who repair the goods you buy from us book the bills, so you can send the money for his labor to us for new goods, otherwise he will not notice our influence.

10. You shall in case of sickness or need apply to your local dealer for aid and credit, as we do not know you, nor care to—Mineaola Monitor.

To Drive Out Malaria And Build Up The System
Take the Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking, as the formula is printed on every label, showing it is Quinine and Iron in a tasteless form. The Quinine drives out malaria, the Iron builds up the system. 50 cents

The rats of Texas cost Texas \$19,452.71 per day or \$483,471.80 per month. In 1910 the United States census showed a population of 93,596,542, and Uncle Sam says that there is one rat for every person, and that they destroy one-half cent per day or \$5,811,659.60 per year.

A. R. Kennedy left Tuesday for his home in Georgetown.

Formerly with Canyon Auto Painting Co. (Discontinued)

I KNOW THE BUSINESS THOROUGHLY

NO EXPERIMENTING AT YOUR EXPENSE

Two Different Effects

The quality of food is very largely determined by the ingredients in the baking powder with which it is made. Cream of tartar baking powders, such as Dr. Price's, add only healthful qualities to the food.

The cream of tartar of Dr. Price's Cream Baking Powder as used in food has the same wholesome effect on the digestive system as the cream of tartar in grapes, from which it is derived.

In like manner it is in evidence that the unwholesome effects of alum, which is a mineral acid salt, exist in food made with alum baking powder.

There is a clause on baking powder labels which names all the ingredients. Read it and let it guide you.

DR. PRICE'S CREAM BAKING POWDER
Made from Cream of Tartar

Miss Ellen Howard of Dallas is visiting Mrs. R. E. Foster.

Ralph Stuart of Lamesa visited at the Gorman home this week.

B. A. Stafford was in Shamrock Tuesday of last week to deliver the commencement address of the high school.

W. T. Gilliam is visiting at the home of his daughter, Mrs. E. Burroughs.

Phone 101 for moving van, baggage and house moving. Prompt and reliable service.

Miss Nash left Saturday for her home in Dennison.

Prof. and Mrs. E. F. King left this morning for Floydada where they will visit until Saturday with their oldest son, Austin.

Word has been received from Miss Mamie Conner that she is on her way to visit New Orleans, New York, the Hudson, Niagara Falls and other points of interest before she returns home to spend the remainder of her vacation with the home folks. On her return trip she will stop at Booneville, Mo., to visit her father's old home.

Come to the City Restaurant for good eats. South side of square.

Miss Pearl White left Saturday for her home in Floydada.

Miss Nell Eichaker of Amarillo visited at the W. G. Word home Sunday.

E. D. Fox and C. P. Woodburn of Hereford visited Sunday in the city.

For Sale—Fine milk cow. Apply at Variety Store.

Miss Imo Lacy of San Antonio and Mrs. Barrow of Plainview spent Monday at the R. S. Picken home.

Misses Ethel Sturat and Emily Gorman returned Sunday from Harrold where they taught the past year.

I do all kinds of light hauling hauling on quick notice. J. A. Harbison, phone 101.

Mrs. Olive Dixon arrived this week with her family from Texline and will make Canyon her home for the purpose of giving her daughters an education in the Normal. As stated in the News of last week, Mrs. Dixon is the wife of Billy Dixon the famous Indian fighter of the early days.

For Rent—A good piano. William Sydow, telephone 14.

Mrs. M. H. Standlee of Higgins returned to her home in Higgins this week after a pleasant visit of several weeks with her daughter, Mrs. W. C. Turner, and grandson, Earle Standlee.

Milk from Hollabaugh's Dairy is pure and sanitary. That's why our trade is growing so rapidly.

Mr. and Mrs. Roy Wederbrook of Hereford visited at the parental John Knight home Sunday. Miss Drucilla Knight returned from Hereford with them. Mrs. Mrs. Knight and Ruth went back to Hereford with them to visit a week.

Miss Charlotte Ingham and Mrs. Dorotey Dorchmaa returned Saturday from Lipscomb where they have been teaching.

Dr. S. L. Ingham will move this week from his farm east of the city to his home in town.

Miss Horn has gone to her home in Quanah to spend the summer.

See Harbison for moving van, draying, baggage and house moving. Prompt and reliable service.

The new bulletin on diversified farming, issued by the Santa Fe Railway, is being distributed. It is written by H. M. Bainer at Amarillo and fits local conditions. The information is set out in plain English and covers every crop grown successfully here. Every farmer should have a copy of this bulletin. It is free for the asking.

J. V., Walter and Arthur Farwell, F. W. Wilson and Mr. Harding, all of Chicago and owners of the Capitol Syndicate arrived in the city Monday morning in their private car to confer with Capt. A. S. Howren regarding their lands. They expect to start extensive immigration business within a short time.

We have fresh fish every week. Vetesk Market, phone 12.

Miss Jessie M. Kline will leave Tuesday for a vacation trip to Boston, Philadelphia and Harrisburg. On June 26 she will return to Chicago to attend the summer school of the Northwestern University Conservatory. Miss Elsie Gaenther will join her there for the course. Miss Kline will return in time for the opening of the Normal in September.

Chas. Harter went to Tahkoa Wednesday to visit friends for a week.

Skating Rink—At the old opera house every afternoon from 5:30 to 5 and every night from 8 to 10:30. Under new management. Good order maintained. Good skates furnished.

A. L. Roles says that he has seven acres of the prettiest Indian corn he has ever raised. Since coming here a few years ago he has always raised a little Indian corn. Some farmers have the conception that Indian corn will not grow well here, but Mr. Roles says that the small acreage he always raises does fine.

Clean up and plant a tree.

YOU MAY PAY LESS

But you will not get work that is so good.

YOU MAY PAY MORE

But you will not get work that is any better.

These statements refer to job printing. Our facilities are complete. We use only the best material, and our prices are based on a living profit for first class work. We will do no other kind.

DID YOU EVER READ YOUR OWN LETTERHEAD?

Look it over. Is it old fashioned and out of date, or does it look "right"?

If it doesn't to you, how does it look to other folks?

Let us get up a nice, bright, business getting letterhead for you.

LISTEN

Are you running a Hotel or Boarding House for your health?

We would like very much for you to make up that list of groceries you are going to need and let The Leader figure the bill, we can deliver the goods and we can show you when it comes to prices on high grade groceries, just a chance is all we ask for at that bill. We will refund Railroad fare on all orders amounting to \$25.00 or more.

The Leader can give you more high grade coffee than you have bought in many months.

The Leader has the best stocks of every thing, so the burglars think. They had their choice of any house in town and knowing that they could make a better selection in the dark of our goods than they could of other stocks with a 1000 candle power light, choose our stock. They were kind enough to leave a good selection for you and if you don't hurry, they may come back and get the balance.

You can get fresh vegetables at The Leader almost any old day.

Just received at The Leader, ladies silk-hose all colors, Palm Beach suits, mens Koreet pants, Lion collars.

Say, have you a special dress you want to match with silk hose? If The Leader can't match same, out of stock, they know where to get them, and will.

Insure your life. Insure your wheat and oats. Insure your health by eating Leader groceries.

The Campbell school northwest of the city taught by Miss Bonnie Anderson closed Friday with a splendid program. The patrons brought a large basket dinner. During the afternoon the men of the community and the school children engaged in a ball game.

Mrs. R. L. Marquis and sons returned Friday from a visit in North Texas.

S. M. Downing shipped two cars of hogs to the Ft. Worth market Tuesday.

C. W. Whitaker of Lawton, Okla., and J. S. Ulm of Clarendon were business callers in the city Friday.

S. B. Lofton has bought the Fairbanks house where Oscar Smith has been living and is having it moved near the public school building.

J. A. Harbison left this morning for Texcoca, 35 miles west of Amarillo, where he has three teams loading gravel for the Normal.

Mesdames D. A. Park and J. W. Mayne left today for Memphis to attend the Missionary association.

Rev. B. F. Fronabarger is a business caller in Tulia today.

H. W. Stilwell was in Tulia Tuesday night to give the commencement address of the high school.

Misses Ara Stafford, Enid Grundy and Earl Sparks, teachers in the Tulia schools, are here to spend their summer vacation.

For Rent—House on West Evelyn street one block from square. G. G. Foster.

Miss Maud Davis, teacher of history in the Waxahachie high school will assist in the summer Normal in the history department.

Miss Anna Ray of Higgins visited with Mrs. W. C. Turner during the commencement exercises, returning home a few days ago.

Miss Zerah McReynolds left this morning for Memphis as a delegate to the North West Texas Missionary association.

The Quinine That Does Not Affect The Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE, Inc.

WISHED SHE COULD DIE

And Be Free From Her Troubles, but Finds Better Way.

Columbia, Tenn.—"Many a time," says Mrs. Jessie Sharp, of this place, "I wished I would die and be relieved of my suffering, from womanly troubles. I could not get up, without pulling at something to help me, and stayed in bed most of the time. I could not do my housework."

The least amount of work tired me out. My head would swim, and I would tremble for an hour or more. Finally, I took Cardui, the woman's tonic, and I am not bothered with pains any more, and I don't have to go to bed. In fact, I am sound and well of all my troubles."

Cardui goes to all the weak spots and helps to make them strong. It acts with nature—not against her. It is for the tired, nervous, irritable women, who feel as if everything were wrong, and need something to quiet their nerves and strengthen the worn-out system.

If you are a woman, suffering from any of the numerous symptoms of womanly trouble, take Cardui. It will help you. At all druggists.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for detailed literature on your case and 64-page book, "Home Treatment for Women," in plain wrapper. R. G. 138

Kidney Trouble Causes Intense Suffering

Sixteen years ago I was taken sick with kidney trouble and suffered terribly for three months. I did not work during this time and was mostly confined to the bed. After using other remedies I finally tried a bottle of Swamp-Root. I immediately began to feel better, and after using seven fifty-cent bottles, I was entirely cured and have had no kidney trouble since. I can say that I owe my good health to Swamp-Root. You may publish this letter for the benefit of other people afflicted as I was with the hope of bringing to their attention this most wonderful remedy.

Yours very truly,
HATTIE A. QUIMBY,
36 Spruce St. Waterville, Maine.
State of Maine
Kennebec County ss.

Personally appeared the above named Hattie A. Quimby, who subscribed the above statement and made oath that the same is true in substance and in fact.

ANNA M. DRUMMOND,
Authorized to administer oaths, etc.

Letter to
Dr. Kilmer & Co.,
Binghamton, N. Y.

Free what Swamp-Root will do for you.

Send ten cents to Dr. Kilmer and Co. Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Canyon Weekly Randall County News. Regular fifty cent and one dollar size bottles for sale at all drug stores.

(Advertisement)

Why be troubled with dirty gasoline when Guthrie has thoroughly filtered his before selling it to you. The prices are right.

Whenever You Need a General Tonic Take Groves

The Old Standard Groves' Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

Start a Meat Farm.

(A. M. Hove.)

This section is well adapted for making specialty of live stock. Every year feed in abundance may be produced on which every variety of farm animals may grow fat. And live stock farming is a splendid business when conducted in a business like way. No farming district prospered permanently until live stock became a leading line.

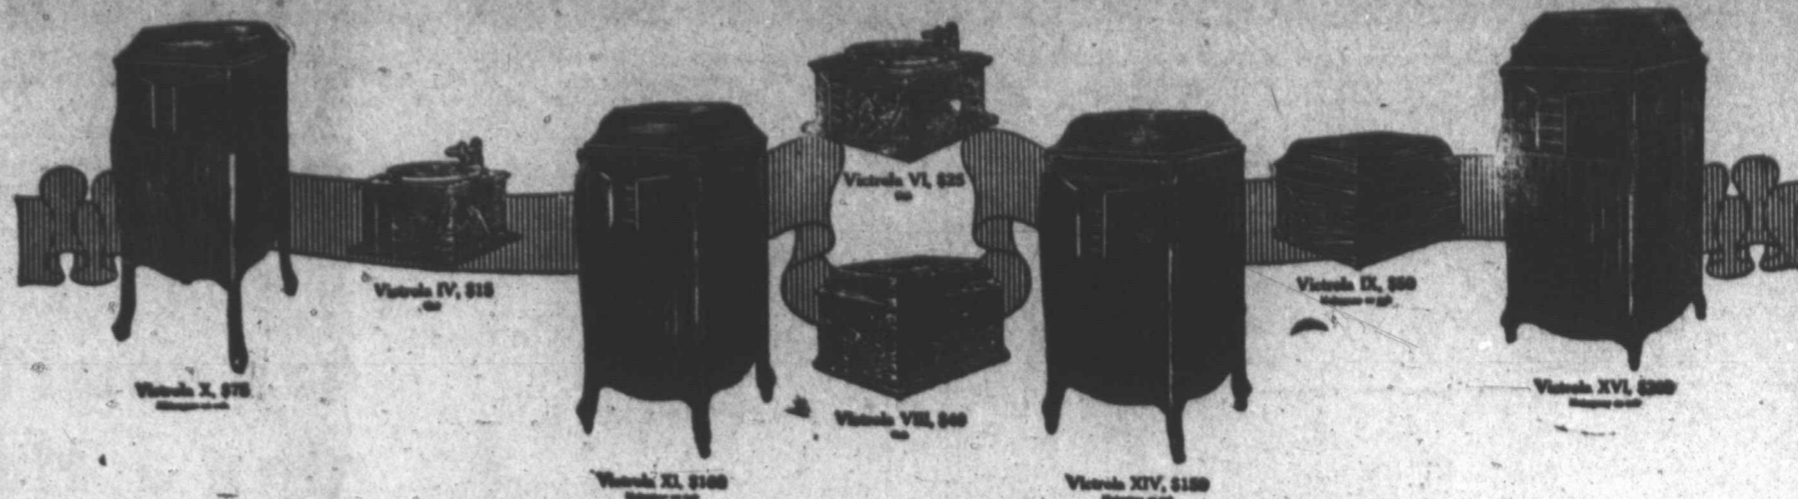

Just now is the time to plan for fall and winter operations with cattle, hogs and sheep. The planting season is still here and more kafir-corn, milo maize, feterita and sorghum may be planted. Part of the crop should go into the silo. Any way plant more feed.

Many complain though they had much feed, they were unable to buy stock to eat it. Their feed was therefore practically thrown away, barring the grain. There are those who have found it difficult to turn their kafir corn and milo maize into cash on short notice for lack of a market. They could have turned this grain through hogs, cattle and sheep, but had no money to buy the stock.

This scarcity of money for the feed lot has hampered many a man. Indications are that next fall money will be available for the responsible small feeder. Conditions are changing and feed loans are preferred by those who loan money on stock. It is a short time loan on stock which is gaining in value every day it is in the feed lot.

The farmer with plenty of feed about the place will find help to get live stock to eat it next fall and winter.

Why pay 75 cents for type-writer ribbons when you can buy them for 60 cents at the News Office.

Victor - Victrola

TRYING OUT ELECTRIC WAITER

Invention, It is Believed, Will Do Away With the Employment of Man and Woman Servitors.

An electrical invention which, it is claimed, will do away with waiters in restaurants and hotels is being experimented with. Each table in the restaurant is to be fitted with a frame bearing the menu and a series of electrical "press buttons" corresponding with each item in the menu. The customer sits down before the already laid table, with a neat pile of glistening silver on one side, chooses the dishes which he prefers, and presses the corresponding buttons in turn. In the kitchen of the restaurant the number of the table and the number of the course required are signaled on a screen to the chefs and their assistants, and in a few seconds a steaming hot dish appears in a little lift at the side of the diner's table.

The customer helps himself, presses a button, and the dish disappears as silently as it came, leaving at the side of the plate a little aluminum ticket indicating the sum to be paid.

Germs Hide for 50 Years.
A fatality which has strangely repeated itself after the passage of a half century in Raymond Millers' Fawn Grove house was attributed by health authorities and attending physicians to diphtheria germs which had lurked in the walls during the long interval.

Fifty years ago diphtheria broke out in a family which previously owned the property and caused several deaths. Shortly before the present outbreaks Miller decided to have the walls of the house papered, and a heavy coating of whitewash was scraped away and this refuse thrown in a heap outside. Warm, damp weather followed and supposedly revived germs from the previous epidemic, which had been imprisoned under the whitewash.—York (Pa.) Dispatch to the Philadelphia Record.

Five Years of Boy Scouts.
The Boy Scout movement in America is only five years old. Yet so common is the sight of the scout uniform, so far-reaching is the scout service and so deep is its impression on the American imagination that it is hard not to think that Boy Scouts have always been.

There are times when all of us despair of the future of the race, so rampant seems evil, so triumphant and arrogant seem vice and selfishness. We know of nothing that can so swiftly restore faith for humanity as the sight of a half-dozen boys in scout khaki.—Toledo Blade.

Convincing Argument.
Timid Lady (about to buy a ticket for New York)—And is the boat that sails on Thursday perfectly safe?

Agent (gravely)—Madam, I can assure you that in all the time this ship has been in service, and that is now a number of years, not once has she gone to the bottom.

Timid Lady (reassured)—Oh, then, it must be all right. What cabins have you vacant?—London Tit-Bits.

French Wheat Crop Large.
French farmers raise more wheat than the Argentine, British India or Canada, all of them great world granaries. France grows about 315,000,000 bushels a year; enough with strict economy to supply herself without help from outside.

Hoff-Weber Wedding.

Mrs. Myrtle Hoff and Frank A. Weber were married Saturday morning at the parsonage by Rev. J. W. Mayne. They left Sunday for Cleveland, Ohio, where Mr. Weber will work during the summer on a structural steel job.

Mrs. Hoff is the oldest daughter of Mr. and Mrs. J. E. Winkelman. Mr. Weber is the oldest son of Mr. and Mrs. H. J. Weber. Both families came here several years ago from Jefferson, Iowa.

Pres. R. B. Cousins was in Canadian Friday to deliver the commencement address of the public schools.

Edward Shambaugh left Friday for his home in Clinton, Iowa.

Among Acid Fumes for Three Weeks

A large manufacturer of cotton oil, fertilizer, etc., needed some roofing. Up to that time no roofing had been found which would stand the acid fumes given off in the manufacture. So his chemists thought of the strongest test they could make.

In the laboratory a cabinet was used for all experiments where dangerous acids were required; this cabinet being provided with a flue to carry off the fumes.

Up in the neck of the flue, right where all the acid fumes concentrated, different brands of roofing were placed, Texaco among the number. For three weeks they remained right in the destructive gases.

Texaco Roofing was untouched—as good as before. The rest were eaten away and partially destroyed.

Texaco Quality and Service are always ahead. All products marketed under the Red-Star-Green-T emblem are reliable under any conditions.

Remember the emblem—order from our agent.

A New Hereford Record.

Kentland, Ind., May 20—The seventh annual Orchard Lake farm sale of registered Hereford cattle, held yesterday by Warren T. McCras near this city, closed with an average of \$766.13 on 65 head sold. The total of the sale was \$57,460.

Twenty five bulls sold for \$29,945, making an average of \$1,197.80 per head; 50 cows and heifers sold for \$17,515; an average of \$550.30 per head.

Fifteen bulls by Perfection Fairfax brought \$23,130, an average of \$1,542. Six daughters of Perfection Fairfax sold for \$4,990, an average of \$831.66. Twenty one head by Perfection Fairfax brought \$25,120, an average of \$1,339.04.

The top price of the auction was \$3,800, paid by L. A. Pinard of Wessington Springs, S. D. for the yearling bull, Richard Fairfax. The second highest price was \$3,500, paid by Thompson Brothers, of Westpoint, Neb., for the 2 year old bull Elect Fairfax. The first 10 bulls sold brought an average of \$1,797.50.

The top price paid for a female was \$1,850, paid by J. Thompson of Martinsville, Ill., for the 4 year old show cow Spring Beauty.

Newspaper Ethics.

Every once in a while some one brings in printing with a request that it be kept a secret. Perhaps a little information concerning the rules of a newspaper office and printing plants will not be out of place. One of the first things an apprentice is taught, is absolute secrecy concerning anything that is done in the office. He must not give out information as to what kind of printing is being done nor give any notice of what is to appear in the paper. Another rule is that the copy hook is sacred—that is, outsiders must not read its contents, neither should they read the copy on the case before the compositor. This last is considered by the average printer as ill bred as the reading of private correspondence. All proof sheets and in fact the paper itself is considered private office property until it is delivered to the public.—Ex

Johnson Becomes College President.

Supt. B. M. Johnson of Sweetwater, who has taught in the Summer Normal here for the past two years, was elected to the presidency of the Seth Ward college at Plainview at the meeting of the trustees last week. Mr. Johnson has many friends in the city who extend congratulations and best wishes for the success of his school.

Card Of Thanks

We sincerely thank all who so kindly assisted us in our recent bereavement in the loss of our husband, father and grandfather, F. M. Lester. May God's richest blessings rest upon all.

Mrs. F. M. Lester.
L. T. Lester and Family.
Mrs. L. A. Knight.

God Gives A Boy.

A body to keep clean and healthy.

A mind to remember that which elevates.

A pair of eyes to see the beautiful and true.

A pair of hands to use for the benefit of others.

A pair of feet to run errands of love, charity and business.

A pair of lips to keep pure and unpolluted by not using tobacco and liquor.

A soul that is as pure as the snowflakes fresh from the hands of the Creator.

A pair of ears to bear the voice of God in the song of the bird, the ripple of the stream and the advice of elders.

SOOTHED THE CRYING CHILD

Escaping Convict Proved to Mother That She Need Have No Fear in His Presence.

Tenderly petting a young and crying baby which he had picked up from its crib, escaped convict Peter Tosti succeeded in convincing Mrs. Charles Kelley of San Rafael, Cal., after he had gained entrance to her home, that he would not harm her and her two children.

Tosti told Mrs. Kelley that all he wanted was something to eat and a change of wearing apparel for his prison stripes.

Mrs. Kelley was awakened by the crying of her two babies, who had been disturbed by the convict. As she awoke she saw Tosti pick up the younger one and soothingly begin to rock it. He kept this up until the child fell asleep. Noticing that Mrs. Kelley was awake, Tosti addressed her, saying:

"Don't be afraid. I am fond of children and I would not harm two like these—or their mother."

After this he kept up a running fire of conversation, and as soon as he had foraged in the kitchen for some victuals he left, apologizing for his intrusion. With Tosti went Mrs. Kelley's husband's overcoat.

Tosti had served only two years of a ten-year sentence for grand larceny committed in Merced county when he escaped from San Quentin.

HAS TO DRAW ON ENGLAND

France Feeling the Scarcity of Coal Consequent on the German Control of the Mines.

France is now compelled to call on England for coal, which was formerly mined in the north of France. Practically all the mines in that district have either been destroyed by the German artillery or are being operated by Germans. At Lievin and Courrieres the German army is carrying on extensive mining operations and producing great quantities of coal, which are being shipped into Belgium for the use of the German military forces.

France is no longer able to draw coal from Mons and Charleroi, which formerly supplied large quantities for exportation. Consequently, the residents of northern France are largely dependent upon English mines for coal, which has become very scarce.

Frequently towns and villages near the fighting lines are entirely without coal for a week. This works great hardship on hospitals, sadly in need of the fuel for hundreds of thousands of wounded and the sick soldiers of the allies who are being cared for in French towns.

Hospital Barges.

Northern France is rich in waterways, and hospital barges are already running between Paris and the battlefront, under the auspices of the Union des Femmes de France. The hold is enameled white and fitted with 40 beds, and at the end is the nurse's retiring-room. The barge-master's cabin is converted into a living-room for two surgeons. There is an operating-room, too, with washing gear, an electric plant, and a perfect system of heating. To convert a Seine barge into a gondola of this kind costs a bare \$500, and the results are beyond praise—especially to fracture cases, to whom the jolting road is agony.

The wounded are hoisted in by means of small cranes, and the barge is then towed by steam or motor yachts lent by wealthy persons, who are more than glad not only to lend their boats free of charge, but to navigate them in person, thus sharing in the work of mercy.

Dyeing War Horses.

Ever since the war broke out experiments have been made with a view to dyeing the coats of white horses, but simple as it may seem to the uninitiated a satisfactory result has not yet been obtained. Numerous inventors came forward with vaunted dyes, but after the preliminary tests only one liquid seemed to resist the rain satisfactorily. A battery of 24 white horses was consequently treated, and sent out on duty in all weathers. When they returned after a week or ten days all the beasts were of a beautiful bottle green, and are expected to retain that hue for some time to come.

Automatic Post Office in Paris.

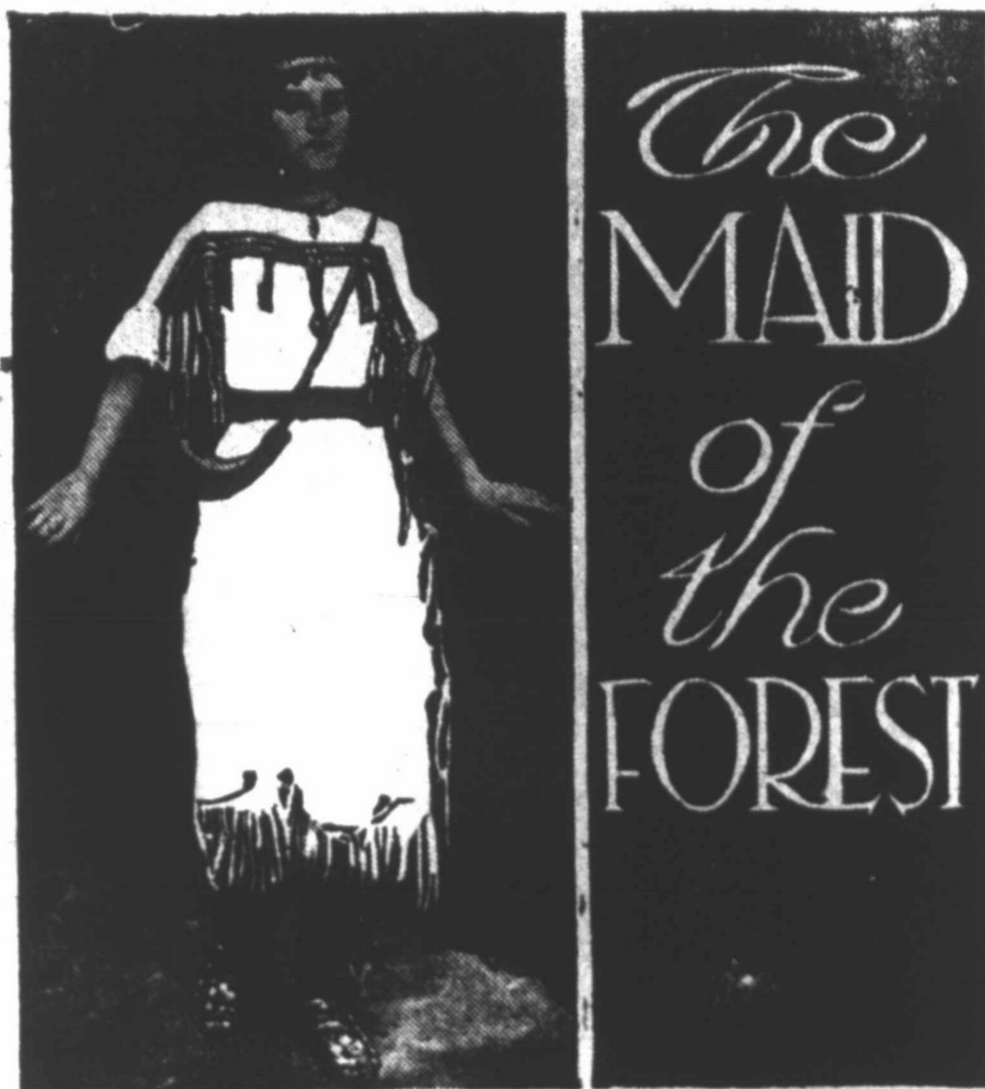

The first of the automatic post offices which are shortly to be installed at different points in Paris is already working in the great waiting room of the Gare St. Lazare. It is very much of the type of the ordinary automatic machine, but distributes, instead of chocolates and matches, stamps of the required denomination, postal cards and letter cards. The machine takes only French money, but conscientiously returns such coins as it does not accept as current. At each side of the machine are ledges on which the client can scribble his correspondence, which he can then place in the letter box.

Claims Important Discoveries.

A Savannah, Ga., man has claimed to have discovered a chemical which when applied to growing cotton turns it jet black. He also claims to be able to grow roses of a pure violet black and he believes his discovery will revolutionize the cultivation of plants generally.

The Idea.

"How is it, my man, that you can afford to give up working now?"
"Sure, sir, I'm going to be married."

The MAID of the FOREST

RANDALL PARRISH

HOSE were stirring times on our western frontier just after the War of Independence. Then the name of Simon Girty was the most hated, reviled and feared along the whole border; Hamilton, the British commander at Detroit, was stirring the Indians to revolt, and death lurked in every shadow of the forest.

It's just the setting for a real Parrish story—the kind that only he can write—the swinging, thrilling kind like "Molly McDonald" or "Keith of the Border." When we tell you that "The Maid of the Forest" is every bit as good as these two, we know you'll lose no time in reading it.

We have secured this story for our next serial and the first installment will appear soon. Watch for it

Farmers Institute Meeting.

Every member of the Randall County Farmers institute is hereby called to meet at the court house at 2 p. m. on Saturday June 5th. There will be business of importance to attend to—the selection of delegates to the state farmers institute. Also the discussion of an uniform marketing system. This will be one main feature of the meeting and expect some parties able to instruct on this to be with us at the meeting. The marketing is the final analysis of all crops. The haphazard ways in which our crops are usually sold is a discredit to the farmers as well as to the county in which they live. Let's try cooperative marketing this year. By farmers working together we can secure better markets and better prices. We would like to have every farmer in the county especially near Canyon with us at

the meeting.

Welton Winn, Pres.

To the Methodists.

I will be in Kress for a week conducting a revival. This is the only date the pastor at Kress would accept. It is the only revival I expect to hold out of my charge, although I have had several calls to hold revivals. I expect to stay with my charge.

We will have no preaching services next Sunday on account of the revival at the Baptist church. We will have Sunday School, Junior church and league services at the usual hours next Sunday. I urge all members of our church to hear Evangelist Copas at the Baptist church. He will do you good and you may do good. Please do not forget to attend the revival during the week. It is your duty to do so and a privilege to enjoy. With love, your pastor, J. W. Mayne.

Forging to the Front.

Fremont Mead finished his duties as principal of the Lipscomb school last Saturday and was immediately offered another year's contract with a handsome increase of salary as an appreciation for services rendered, but respectfully declined the offer as the young man's reputation as an instructor had gone abroad and the Canadian Board of Education wisely retained him as principal of the High School of that city. Mr. Mead is a young man of gifted ability and he knows how to impart in an effective manner his fund of information. Canadian will find Mr. Mead fully competent in all respects.—Ochiltree Eagle Investigator.

Mrs. J. A. Harbison returned yesterday from a three months visit in California and at the World's Fair.

FOR IDEAL OF RECREATION

Subject That is Worthy of Much More Study Than is Generally Given to it.

What women throughout the country still need is a freer association with other women whose standards, social, intellectual and moral, are higher than their own, writes Anne Morgan in the Woman's Home Companion. As a people we are too inclined to seek a lower standard for our recreation, to level down. We seek a companionship where no intellectual effort is necessary; we choose a theater where the entertainment furnished is a popular musical comedy, rather than a play with literary merit, interpreted by talented actors. Certain popular magazines with large circulation contain stories and articles utterly valueless in quality; other publications containing literary and historical contributions by serious authors reach but few homes. In our recreation, as in our work, we want immediate results with a minimum of effort; to be entertained generally means to be relaxed. The splendid rest and refreshment that comes with a great, but different, intellectual or physical effort is known only to the few. The ideal life would be for the daily existence to be so ordered that no definite holiday time would be necessary—each twenty-four hours would bring its own period of work, play and rest. In our complicated civilization, however, this is well nigh impossible. It has been humorously said that the only person who really needs a vacation is the man who has just returned from one.

MANKIND'S DEBT TO BIRDS

Work Done by Winged Carriers of Seeds is as a General Thing Underestimated.

Now and then we see a thriving bit of grass or a flowering plant perched in some impossible niche, high in a wall or chimney. Sometimes the wind has carried the seed there and with the help of a little dust and some rain, the seed has found sufficient encouragement to sprout.

But it is not so often the wind as it is the birds, who have deposited the seed. Sometimes it has dropped from their beaks in flight, but more often it has passed undigested through the intestines and falls well fertilized to sprout. This is especially true in dry seasons, when the birds swallow less grit and so the seeds swallowed are not so readily ground up.

If it were not for the birds our Christmas supply of mistletoe and holly would be very scarce, as in the case of the parasite mistletoe especially, the seeds from the berries would rarely, without birds' help, find their way up to the limbs of trees, where they can attach themselves to the bark and gain the needed assistance.

Sinking of Wrecks.

Very little is known as to the depth to which a ship will sink, as the depth at which observations can be made is limited. Any statement on the matter must be in the nature of conjecture. In the case of wooden ships, many did not sink, but became waterlogged and floated for years a short distance below the surface, constituting a serious danger to navigation. The more modern types of vessels have occasionally floated for some time in this way, being abandoned perhaps because of a leak, but sinking eventually. A modern liner which sinks certainly goes to the bottom in any instance where the necessary observation is possible. The greatest known depth of the ocean is about five and one-half miles, and the average, save in the Arctic and Antarctic oceans where the water is shallower, would be from two to three miles. It is a debatable point whether a liner sinks to the ocean bed in that depth, but when badly damaged, as in the case of the Titanic, it is probable that she goes a great distance below the surface and may even reach the bottom.

Complete Culture.

Matthew Arnold defined culture as acquaintance with the best that had been said, done and thought in previous ages, and regarded such acquaintance as essential to correct conceptions of life and duty and adequate enjoyment of the high privilege of living. And he was right, but not entirely so, for life is more than culture, and some of the most cultured men have been the most heartless oppressors of their fellows. That which makes man man is that he is made in God's image, is that his is a divine nature, that he is destined to see him as he is. In order to be a completely made man, he shall need to give heed in his preparation to his divine nature, to the cultivation of his divine attributes, that he may grow in greater likeness to his Father and be prepared to stand before his judgment throne unashamed.—W. A. Harper, LL.D.

Astonished the Good Lady.

A few years ago a fire occurred early one morning at a house in Liverpool, England, and as the staircase was well alight before it was discovered the occupants had to seek some other means of escape.

The companion to an elderly invalid lady was reading the newspaper report of the fire to her, which stated that one servant escaped down a water pipe at the back of the house.

At this statement the old lady exclaimed:

"But how thin the poor dear must have been!"
