

COLQUITT SPEAKS HERE ON SENATORIAL QUESTIONS

Former Governor is Candidate for the United States Senate from Texas

Ex-Governor O. B. Colquitt was in the city Monday on his tour of the Panhandle in behalf of his candidacy for the United States Senate from the state of Texas.

Governor Colquitt was met in Amarillo by a committee of citizens and brought to Canyon in an auto. He began to speak at three twenty and spoke interestingly of the affairs of the day for two hours.

In introducing Gov. Colquitt, President R. B. Cousins reviewed the accomplishments of the visitor, and what he had done while Governor for the Normal. To Gov. Colquitt is due the credit of having insurance upon the old building at the time of the fire. He kept the insurance money at interest instead of placing it in the state treasury, thus increasing the fund by fifteen hundred or more dollars.

Gov. Colquitt launched at once into the discussion of the questions of the day. He based his remarks upon his record as chief executive of the state as to what he would do if elected to the higher office.

Since prohibition is a question in the present race, he spoke against national prohibition, as being a question of state's rights, and being impossible to enforce the question, since if placed in the hands of the federal government, it would cost huge sums to maintain a police force of national officers to take care of the violations that are now in the hands of the local peace officers.

He advocates rural credit. He believes that the public lands should be sold and the money loaned to farmers at a low rate of interest in order that all may buy and own homes. He says that while he believes in national defense and preparedness, yet if the national credit is carried out properly, it will not be necessary to keep a large army, as the home owners will always fight for the preservation of their homes.

He devoted much of his time to the discussion of the Mexican situation upon which he has been so greatly criticized by his opponents. He reviewed what he had done for maintaining law and order along the border where the national government had failed to do its duty. He told many interesting events, of which the general public know but little of.

Irish Play Tonight

A charming Irish play "The Twig of Thorn," given by the Dramatic Club of the Normal college will open the Commencement festivities tonight. The play is one of the most pleasing of the short Irish plays which have met with so great favor in America during the past three or four years. Irish pleasant customs and a bit of Irish fairy lore are delightfully presented, together with an interesting plot, and a beautiful love story. The club has worked on the play until it goes smoothly and will be well worth seeing.

As a curtain raiser another group of the Dramatic Club members will present a colonial sketch. The chorus and orchestra, under the direction of Miss Kline, will assist in the plays which are directed by Miss Mary Morgan Brown, the teacher of expression. Tickets will be 25 cents, seats are reserved, so that people may know exactly where they are to sit. Proceeds of the play will be used to pay for the costumes and to buy permanent equipment for the auditorium stage.

R. M. Teague, president of the San Dimas, California, Citrus Nurseries, reports that his firm recently shipped 10,000 Marsh's Seedless Pomelo trees to the Rio Grande Valley in Texas. The McMillan & Graffin company of Spadra also made a shipment of 6,000 orange and 6,000 lemon trees to the same place.

MUSICAL RECITAL FRIDAY NIGHT AT THE NORMAL

The chorus of the Normal and the choral club will repeat the Loreley at the Normal auditorium Friday night at eight o'clock. This is one of the events selected by the faculty as a part of the entertainment for the large number of visitors who are expected to attend the Normal commencement.

Opening the evening's program, Miss Francis Gallison of Amarillo will sing two songs. Miss Gallison is a contralto who has received high praise in the musical work for her ability.

Miss Elsie B. Eggleston of Amarillo will play a piano solo. Miss Eggleston is well known in Canyon and is always welcomed by our people on a musical program.

Mrs. Edward R. Mayer, who sang the solo parts in the previous rendition of The Loreley will appear again, and in the opening will sing a group of songs.

The men's Glee Club of the Normal will sing one selection.

Mr. J. F. Copeland will sing a solo. The Loreley will then close the evening's program, with the same chorus and soloist and orchestra that presented the opera recently.

The program will be free to all.

MISS VERA NOBLE SHOT AND KILLED NEAR FLOYDADA

The people of Canyon were greatly shocked this morning to hear that Miss Vera Noble had been shot and killed at Floydada yesterday. She had graduated from the Normal last year.

Her assailant went to the school where she was teaching and shot Miss Noble. He then turned the gun upon himself, but at last report he was still alive.

No cause for the murder has been given by the Floydada people.

Milton Jones was the man who did the shooting.

GOOD ISSUE OF THE NORMAL MAGAZINE JUST OFF PRESS

The April number of the Normal magazine "Llano Estacado" is just off the News press. The magazine is a very creditable piece of work, and compares very favorably with magazines of the large schools.

The business management states that the sale has been very large among the students of the school, and that they highly appreciate the efforts of the students and members of the faculty who have contributed to the success for the magazine.

Makes Fine Record With Dairy Cows

Rev. A. B. Haynes says that he noticed in the News the record made by a citizen of Glazier with dairy cows and that he has made one that is better than the Glazier report.

During the month of December he had six cows, but sold one on the 20th of the month. The proceeds from the sale of butter and milk from the cows during that month was \$48.65. The Glazier record was only a little money for more cows.

Normal and Town Games

The Normal baseball season will close tomorrow afternoon with a game with the town team. These teams have played two games during the season, both of which were taken by the town bunch. In the game last Friday the score was 12 to 6.

The games Friday promises to be a good one, which all of the fans will want to see.

New Sanitary Service

The City Pharmacy has installed at the store the new Vortex Sanitary Service, which will highly please the most fastidious from a sanitary point of view. In this service the hands do not touch the vessels while serving creams or drinks. All vessels are burned after used.

Canyon is the educational center of Northwest Texas. Come here to live.

METHODIST CONFERENCE BEGINS NEXT WEDNESDAY

District Conference to be Held in Canyon of the Amarillo District for Three Days.

The district conference of the Methodists of the Amarillo district will be held in Canyon beginning with next Wednesday, May 17th. The program in full is printed on page seven of today's edition.

Indications are that there will be a very large number of delegates in the city for the three days session.

SOLDIER BOYS CALLED TO THE MEXICAN BORDER TUESDAY

The National Guard of Texas was called out Tuesday by the President to serve on the Mexican border. The call took from Canyon a dozen young men who were members of the Amarillo troupe of cavalry.

The boys received the call Tuesday night and started to Amarillo on the noon train yesterday. They left Amarillo with their officers and other men yesterday evening.

The National Guard will be mobilized at San Antonio. Whether or not they will be put on the border at once or not is hard to say. It is likely that they will see parol service within the next few days, and again it is just as likely that they will not be taken near the border until there is more imminent danger from Mexico.

Cousins Society Win

The Cousins Society won in the debate Thursday night over the Palo Duro Society. The question was well handled by both sides.

TRY A WANT AD IN THE NEWS

PANHANDLE CHAMPIONSHIP PRACTICALLY WON TUESDAY

Normal Wins Over Clarendon in Two Games by Decisive Scores—Good but Snort Season.

The Normal won both games from Clarendon college Monday and Tuesday, thus practically winning the baseball championship of the Panhandle.

The game Monday resulted in a victory for the Normal by a score of 8 to 6. Tuesday game was 12 to 10 in favor of the Normal team. In both games the Normal team allowed most of the visitors scores through errors. The Normal team was clearly the better in both games.

The Normal has practically won the title of championship of the Panhandle by winning these games. Seth Ward is the closest competitor in the Panhandle Scholastic Association, but if she does not play more games this season the championship comes to the Normal team.

While the season has not been successful for any of the schools owing to the bad spring weather, yet the Normal team has showed up well in spite of losing two of its best men during most of the games. The team has played consistent ball during the spring and developed some good material much of which will be in school next year.

Alumni Banquet in Amarillo

The Alumni Association of the Normal will hold the annual banquet at the Harvey House in Amarillo on Saturday night. The Canyon people will take the 6:53 train to Amarillo and will return on the 11:20, which will be held to give plenty of time for the banquet.

COMMENCEMENT PROGRAM BEGINS TONIGHT AT NORMAL

The Sixth Annual Commencement Exercises of the West Texas State Normal College will be held in the new building, beginning with the play tonight and concluding with the commencement exercises Monday morning.

The following is the program for the five days:

Thursday Evening, May Eleventh, 8:30— (a) A Colonial Sketch: "Journeys End in Lovers' Meeting." (b) Play: "A Twig of Thorn." Marie Josephine Warren. Students. Admission 25 cents, Lyceum benefit.

Friday Evening, May Twelfth, 8:30— (a) Musical Program. (b) The Loreley.

Saturday Morning, May Thirteenth, 10 o'clock— Senior Class Day.

Saturday Afternoon, May Thirteenth, 3 o'clock— Program and Business Meeting of the Alumni Association.

Saturday Evening, May Thirteenth, 8 o'clock— Alumni Banquet. (Admission by special invitation).

Sunday Morning, May Fourteenth, 11 o'clock— Commencement Sunday Services.

Monday Morning, May Fifteenth, 10 o'clock— Certification and Graduation.

Note: Admission Thursday evening 25 cents. Every other program is free and the public is invited to attend.

The following is the program for Sunday morning:

Sunday Morning, May 14, 1916, 11 a. m.

Prelude, "Flower Song"-----College Orchestra

### A Bell Telephone

Always a Friend in Need

In case of sickness or accident, the doctor can be summoned by telephone in less time than it takes to harness a horse. If he is some distance away, he can give instructions over the telephone that may save a life.

It is a time-saver when time is most valuable.

The Southwestern Telephone & Telegraph Company

### WILLIAM LORIMER IS FOUND NOT GUILTY

Chicago, Ill., May 4.—The jury in the Lorimer case returned a verdict of not guilty at 12:30 o'clock this morning.

The jury in its verdict held that the former United States Senator had no part in any violation of the banking laws in connection with the career of the La Salle Street Bank nor in any violation of the criminal laws in the bank's failure and that he had no knowledge of such violations.

The verdict was the same on both the charge of conspiracy to defraud and that of embezzlement, the Judge having instructed the jury that a separate verdict on each charge would have to be returned.

As the clerk read the verdict a shout went up in the courtroom and there was a rush of spectators to shake the hand of Lorimer as he stood smiling in front of the Judge's bench.

After the confusion had subsided somewhat Lorimer addressed the jury in a trembling voice. After thanking them, he said:

"I want to say to you that in giving me liberty the people who deposited money in the La Salle Street Bank, beginning with those who can least afford to lose, will have all of my services, all of the money I can earn, with the exception of that necessary to support my family, until every obligation has been discharged and every dollar has been paid back."

him a great interest. He agrees to pay it and then when fall comes, or pay day, he raises a great howl. Who is to blame? If you don't want to pay the high interest don't agree to pay it and don't borrow the money. I do hate to see people howl about anything after agreeing to do it.

I know one man in my neighborhood who takes his eggs and butter to town. The merchant who takes his eggs and butter owes him about \$40 now. We can't all do this, but we can stop romping on the other fellow for our own mistakes. The only thing that keeps the growler from doing the same as the banker and the merchant is that he hasn't got the chance. There always have been rich people and there always will be. There always have been poor people and there always will be.—J. R. Dunham, R. 1, Tishomingo, Johnson Co., Texas.

From Judge Scott.

Pulaski, Tenn., May 2, 1916.

C. W. Warwick, Canyon, Texas,

Dear Friend Warwick:—

You will find enclosed check for \$1.50 subscription to your paper for another year.

We are always glad to get it and feel very much interested in your people. I have been practicing law here for about two and one-half years. Am doing very well.

With best wishes for your prosperity

I remain your Friend,

W. D. SCOTT.

# Commencement Presents

### Says Raise What You Eat And You'll Have No Kick

Dallas Farm News—I have been a reader of The Farm News for some time and consider it an all-round paper for everybody. I think it is one of the finest papers I ever read. I see some are romping on the bankers and merchants. I am a farmer, or am trying to farm. Am making a living at it, any way. Some people would still kick, even if they had thousands. The reason why some people kick about hard times is that they put in so much of their time sitting on the streets whittling. If they would work part of the time they would have more, and the merchant and banker wouldn't be blamed so much.

Of course, I don't like the way the farmer has been and is being treated. I will admit that it is not right. There is but one way to prevent it, and that is for the farmer to live at home, raise what he eats and eat what he raises. If he will do that in place of sitting on the streets and hollering hard times, we will have more to eat and people will think more of us.

The farmer is to blame to a great extent for the way he is treated, or the way he claims he is treated. He goes to the bank; the bank charges

### SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months.

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

At all druggists.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 34-page book, "Special Treatment for Women," in plain words.—B. G. 135

### War Costing \$90,000,000 Daily.

New York, April 26.—War now is costing the Nations of Europe more than \$90,000,000 a day, according to estimates prepared in a booklet to be issued by the Mechanics and Metals National Bank of this city. Of this enormous total the principal burden falls on the estimates that cost per hour to England, France and Russia is approximately \$2,500,000 while the Teutonic empties the cost is in excess of \$1,000,000.

The total cost of the war if it is still in progress August 1 next, will have been \$45,000,000,000. Of this sum Great Britain's share will have been \$11,600,000,000, Germany's a trifle less and France's \$9,250,000,000.

### Invigorating to the Pale and Sickly

The Old Standard general strengthening tonic, GROVE'S TASTELESS CHILI TONIC, drives out Malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 50c

### The Hand Out.

The most of us are working hard to stock the cupboard shelves to purchase coal and lime and lard, to clothe and feed ourselves. We plug along the best we can, and always strive to keep a quarter for the fellow-man who has no place to sleep. The boys are always needing shoes, the girls for dresses call, and so we strain our weary thighs, to raise the wherewithal. Down to our tasks we're always bent, to meet each pressing need, and have a quarter for the gent who has no place to feed. We turn no beggar from the door, however hard we're pressed; we think, "Ere many years are o're like him we may be dressed; like him we may be unemployed, and look as tough as he, and have a dull and aching void where fodder ought to be. Like him we may be glad to sleep in some abandoned well; the cost of living is so steep who can our fate forget? And when we for a handout plead, for hungry kids and frau, may people help us in our need, as we help others now."

### AMARILLO WILL HAVE NEW HOTEL BUILDING

Amarillo, Texas, May 3.—A fire proof building containing 300 rooms will be erected here at a cost of about \$225,000 as an annex of the Hotel Amarillo. H. P. Canode, proprietor of the hotel announced yesterday that plans for the structure has been accepted.

Canyon is the educational center of Northwest Texas. Come here to live.

### Mr. Morris Makes the Venture

Waco Tribune:

It is not a new departure to see ambitious and plucky men challenge the aspirations of a Texas Governor who seeks re-election. Such things occur in Texas with enough of frequency to eliminate the feature of rarity. As a rule such enterprises, no matter how patriotic and commendable the spirit of the venture, fail. The Governor who is in office gets a second term. We have some distinct, not to say painful memories along that line (though this editor was never Governor or a candidate for Governor) that "what might have been" didn't come to pass—not by a long shot.

Most people have to take some lessons in the school of experience. If we could say a warning word to a useful citizen, good man over in East Texas—and he would be warned—we might save him some expense and lots of hard work. But we have found that when a man makes up his mind to run for office he wants to be let alone. He doesn't want advice not to run. He may not be joined to any idols, but as in the case of Ephraim of old, "we let him alone."

The Hon. Charles H. Morris, of Winnsboro, estimable and successful as a business man and citizen, is a candidate for Governor of Texas. He opened his campaign at Sulphur Springs last Monday.

We can believe that Mr. Morris is a patriotic and well-meaning man. But, in view of the record that Jim Ferguson has made as Governor of Texas—in view of what his people may hope for as to further service from Jim Ferguson—and remembering the fate of men who aspired to retire one-term Governors, we are persuaded that Mr. Morris has pluck and confidence in wonderful degree, or he is more easily lured than he ought to be from the path of sound judgment—for it is to get conceivable that he runs just to get in the lime light of publicity. That is not his record.

### And why?

Because the necessity of saving has been beaten into them in a stern schooling—poverty!

In the homes of many native Americans thrift is scorned because it is considered a sort of neighborhood disgrace to be poor.

If Willie Jones' papa gives him a dime any time he wants it, Jonnie Smith's daddy has just naturally got to do the same.

Willie and Jonnie straightway exchange this money for luxuries and repeat the "touch" the next day.

The thoughtless expenditure of small sums of money is one of the chronic symptoms of this American disease—of being "broke."

And being "broke" is not a vocation, al malady; it attacks the man-in-business-for-himself just as it fastens itself upon the humblest wage-earner, only that its efforts is not comparative.

Somehow, it seems that the middle-class worker—and we can not deny that in democratic America we deliberately cultivate a certain class distinction, determined by one's earning (and spending) capacity—is the victim of this disease.

Great honors await the scientist who discovers the germ of improvi-

### dence and a curative serum therefor.

## We Sell Chandler Coal from the Chandler Mine

Chandler is Mined in the Canyon City District of Fremont County, Colorado

Note the Difference:

Canon Coal is not Chandler. There is only ONE Chandler, but a dozen kinds of so-called Canon. The coal companies say to us their Canon Coal is as good as Chandler. Never has one claimed to us yet their's is better. Now, if Chandler is so good, (which it is) that competing companies acknowledge its merits, why take any risk? Buy the GENUINE Chandler, which is the best—and you can't better the best.

FOR HEAT WITHOUT SOOT GET CHANDLER

### S. A. Shotwell

**A WORD FOR MOTHERS**

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.  
If your work is tiring; if your nerves are excited; if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes just such conditions.  
It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength.  
Scott's is strengthening thousands of mothers—and will help you. No alcohol.  
Scott & Downe, Bloomfield, N. J.

Chump and big can Baking Powders do not save you money. Calumet does—It's Pure and far superior to sour milk and soda.

**SOCIETY NOTES**

Mrs. Hillary entertained the Merry Maids and Matron club Monday afternoon at the home of Mrs. Guenther. The house was decorated with purple iris. Refreshments were served of chicken salad, sandwiches, olives, coffee, anglefood cake and maple nut cream. The guests of the club were Mesdames Cousins, Stafford, Geller, Marquis, Alleh, Blaine, Misses Hudspeth, Billingsly, Thomson and Wharton.

Mrs. Grady Holland entertained the Cosmos Club Wednesday night. Refreshments were served of starwberries, cream, cake and punch. Carnations were given as favors. The guests of the club were Mr. and Mrs. Terrill and Mr. and Mrs. Holland.

The Merry Maids and Matrons Club held its semi-annual business-meeting last Thursday afternoon at the home of Mrs. Jarrett. Mrs. S. L. Ingham was unanimously elected president, Miss Lola Word Secretary and Mrs. C. E. Coss Treasurer. It was decided that the spring party should be held at the home of Mrs. C. O. Keiser, on a date not yet determined.

**Short Items of News.**

The farmers in the Canton, Texas, trade territory have obligated themselves to plant some 800 acres in peanuts.

The United States lighthouse service is charged with the task of maintaining aids to navigation along 47, 192 miles of coast line and river channel. In 1915 there were 5,155 lights of all classes and 577 fog signals. The service employs 5,792 persons.

A carload of seed peanuts has been purchased by the First National Bank of Waco, and will be distributed by the Chamber of Commerce here to farmers in McLennan county at actual cost. The peanuts are to be stored in the municipal warehouse here, from which place they will be distributed.

Goats cannot be exported from Turkey, and the entire European livestock export business has been cut off. Senator Sheppard of Texas introduced a bill recently authorizing the state department to begin negotiations with foreign nations to have the laws prohibiting exportation of animals for breeding purposes changed in those countries.

There is increased employment of women in commercial life in South Africa at present, according to consular reports received at Washington. It is peculiarly noticeable in the vicinity of Port Elizabeth, because women heretofore have not been commonly employed commercially. Several of the banks have engaged women clerks, and commercial houses generally are doing likewise.

Ninety-two care of horses recently were shipped from Oklahoma City to Portland, Maine, for shipment to the allies' battle-fields. The consignment valued at \$300,000, was the largest single shipment of war horses that was ever shipped from Oklahoma City. The animals were purchased for the French and Italian armies. Ten of the care came from Kansas, four from Texas, and the remainder from Oklahoma points. They cost from \$125 to \$150.

When two horses pull unevenly on a load, which horse carries the larger part of the burden, the one that is a little ahead or the one that is somewhat behind? The experts of the Minnesota Agricultural College have upset a common belief by proving that it is the horse that lags behind, says the Youth's Companion. The experiments showed that, if the load is a ton, the horse that keeps its end of the evener tight inches ahead of the other end pulls only 988 pounds, whereas the slower horse pulls 1,012 pounds.

A farm preparedness move of continental scope was announced in the formation of the National Agricultural Organization society. This organization, created by the delegates to the third national conference on marketing and from credits that met in Chicago last winter, will from cooperative societies among farmers.

Such societies will include the sale of farm products, the purchase of farm supplies, cooperative implement rings and rural credit associations. The society will also investigate land tenure systems and conditions in America with a view to constructive measures for land reform.

The plan of work is modeled after the operations of similar societies in Ireland, Scotland, England and British South Africa. The Rochdale

plan of cooperation and the nonprofit-making corporations will be advocated.

Have you ever noticed what a number of scientific appliances have been named after animals? And can you furnish an example?

A maniac puts his work upon a horse or bear, and he punches or leads it by a convenient bear. London Answers states. Hoisting is done by a crab, a convenient cat is part of the outfit of a ship crane, and a kit of tools is ever at hand.

A crow helps to strengthen work; a jack to lift it; a mule pulley helps to drive machinery which a donkey engine turns. A fish connects parts end to end, shells are used all over, while to worm does quiet, but powerful, work.

Herring bone gears are used by the best builders; turtles fit printing press cylinders, and fly wheels are running all over the world. In drilling, even, an old man is called into service, and doctors prevent faulty lathe work.

**The Quinine That Does Not Affect The Head**  
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor injure the head. Remember the full name and look for the signature of E. W. GROVE, Inc.

10,000,000 Snails a Year.

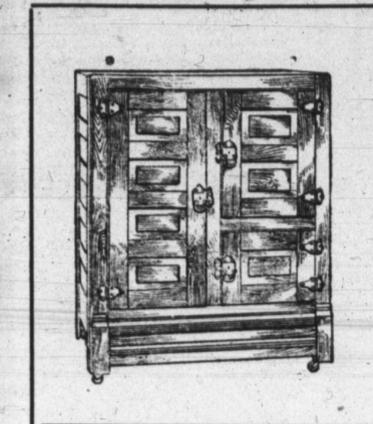

The epicurean taste of the people of Paris requires annually, 10,000,000 snails. Formerly when Burgundy was happy and not sulphuretted by the vine growers it sent to Paris the greater part of these 10,000,000 snails demanded by the palates of the great city. But since Burgundy is struggling against the diseases that visit its vines and is obliged to use sulphates, it is able to furnish only 250,000 snails. The sulphates cure the vines but kill the snails. When this reduction of snails in Burgundy came about the Germans did not fail to profit by the situation and threw upon the Paris market as a French paper says, "heavy squadrons of fat, white snails." And now it is said that with the war this importation has stopped and unscrupulous French dealers buy empty white shells into which they put snails called "little grays," which they sell as snails of Burgundy!—Indianapolis News.

**Evil of Careless Talk.**

Conversation is the index to the man. The noble man expresses himself in a noble manner. Slang is the medium through which the careless, shallow life is displayed.

To the ear of one whose habits and character are formed, slang may be only a discord, but to the child or youth it may be a weakening force. Slang shows up in its true light to the disinterested and helpless listener to the conversation. It is then we wonder if we have ever been guilty of using those silly, meaningless words. It is then we search our supply of words and silently strive to express the uttered thoughts in English. It is then we realize how prevalent is

**REFRIGERATORS**

**THOMPSON HDW. CO.**

the use of slang and we resolve to more carefully voice our thoughts. The use of slang is a habit, the conquering if which will not only be helpful discipline, but will greatly add to the elegance of our speech.

**How True.**

A rural civilization that will hold men to the soil must be satisfactory materially, intellectually, socially, and spiritually, to the boys and girls born and bred on the soil.

So long as we think of country life as competitive instead of co-operative we shall never have an ideal rural civilization.

So long as our children are taught in the rural schools in terms of the city, by these hers who in their secret thought regard the life in the city as the only life worth living, these children when grown up will prefer the city.

So long as our religion is taught in abstract terms which the people who need most the blessings of the gospel do not understand, without illustrations from rural life, and by preachers whose ambition is to fill or at least occupy a city pulpit, the vacant pews in the rural church will be in the majority.—HENRY WALLACE.

**AFTER FOUR YEARS**

Canyon Testimony Remains Unshaken

Time is the best test of truth. Here is a Canyon story that has stood the test of time. It is a story with a point which will come straight home to many of us.

R. E. Hileman, Prop. bicycle repair shop, Canyon, says: "Doan's Kidney Pills gave me positive relief from lameness across the small of my back and weak kidneys. I am quite free from all these troubles since I used them." (Statement given January, 1911.)

On November 13, 1915, Mr. Hileman said: "I still have the same faith in Doan's Kidney Pills today as when I gave my former recommendation. They have never failed to relieve me when I have used them."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Hileman has twice publicly recommended. Foster - Milburn Co., Props., Buffalo, N. Y.

Mr. and Mrs. Thorat Buckner of Canadian visited Sunday at the home of her mother, Mrs. Dale, who has been quite ill for the past three weeks.

I do all kinds of light hauling on quick notice. J. A. Harbison, phone 101.

For Sale—Large tomato plants, choicest varieties. 15c per dozen, \$1.00 per 100. Phone 96. 7t2

Democratic Convention Tuesday.

The democrats of Randall county held the county convention Tuesday afternoon at the court house. In the absence of D. A. Park, County Chairman, C. W. Warwick presided. Only one precinct held a convention on last Saturday to elect delegates to the county convention, number one. At the county convention Tuesday there were delegates from three precincts which had not held elections and these were given seats in the convention.

Worth A. Jennings and M. S. Park were elected delegates to the state convention to be held in San Antonio May 23rd.

A resolution highly praising President Wilson and the national administrative acts was passed.

A resolution endorsing the candidacy of Judge R. W. Hall as a member of the supreme court was passed.

Gathing-Turner Wedding.

J. Otus Turner Jr. and Miss Kate Gathing of Roscoe were married at the parental home in Canyon Sunday. A reception was given the young couple by Mr. and Mrs. Turner. A three course six o'clock dinner was served for a few friends.

Miss Gathing is a graduate of the Normal and has been teaching in Higgins the past year. Mr. Turner has lived in Randall county for a number of years and is associated with his father in the cattle business. He is an enterprising young man. Monday they left for Vega where they will make their home on a ranch. Mr. Turner recently purchased their many friends in Canyon extend hearty congratulations.

Duff Caraway Married.

Two weeks ago Duff Caraway went to Hico to visit friends. On Tuesday of last week he and Miss Bueja Johnson were united in marriage. They arrived in the city Thursday, and will make Canyon their future home.

Mr. Caraway is one of the well known young men of the city, having been engaged in the motion picture business. While a stranger in the city Mrs. Caraway will receive a hearty welcome from the citizens, who join in wishing Mr. and Mrs. Caraway a very happy wedded life.

Ellerd Spoke Here Yesterday.

Hon. R. M. Ellerd, spoke in the city yesterday at the court house on the issues of the present campaign.

Mr. Ellerd is a candidate for congress from this the 13th congressional district. He received a good hearing from the voters. He is making a strenuous campaign of the district and is confident that he will receive the nomination of the party in July.

Republican Meeting.

The republicans met Tuesday night at the court house and elected delegates to the republican state convention. D. N. Redburn was chosen as the representative of the party in this county. D. L. Hickcox was elected alternate.

H. E. Taylor visited yesterday and today in Plainview.

Ben Winkelman was in Amarillo Monday.

**ANNOUNCEMENT**

We are pleased to announce to the people of Canyon that the city council has ordered all-night light service. This will add 33 lights on the streets of Canyon. It will necessitate changes which will take until July 1 for completion.

**All-Night Service Will Start on This Date**

We are sure that the people will be highly pleased with this additional light service.

**Canyon Power Co.**

**COME to US FIRST**

It's lots of trouble to "hunt around" for what you want. If you will come straight to us first you will save yourself this trouble time and worry. Nor will you worry afterwards; you will find WHAT you want; you can rely upon the correctness of the style and depend upon the justness of the price. We are building our business bigger by giving good goods and keeping the price as little as we can.

**Redfearn & Co.**

(State Senator)

**H. L. DARWIN.**

of Delta County

Candidate for

**CONGRESSMAN-AT-LARGE**

Subject to Democratic Primary Election, July 22, 1918.

Your support earnestly solicited.

**MY PLATFORM:**

I am for Woodrow Wilson for President; I favor Rural Credits, Marketing Bureau, Government aid to Good Roads, Organized Labor, Public Health, Preparedness, Prohibition, Flood Control, Levy and Drainage, Improvements of Harbors and worthy Waterways, Competitive Cattle Market, Merchant Marine, and oppose "Pork Barrel" appropriations of every nature.

Yours to serve,

H. L. DARWIN.

Resolutions adopted at Cooper, Texas, March 18th, 1916, at the organization of the Darwin Club:

"Whereas, Senator H. L. Darwin of Delta County is a candidate for Congressman-at-Large in the July Primary, and we, the voters and Democrats of Delta County, know his qualifications to be in every way such as to enable him to make a valuable Representative in Congress; therefore,

"We commend his candidacy to every Democrat in Texas, because he represents the best interest of all Texas, and Texas will be ably and favorably represented in his election. He is broad-minded, liberal and fair in all things.

"He is a graduate of the University of Texas, and the East Texas Normal College. He has represented the Second Senatorial District in the Texas Senate for the past four years, and was an able and conscientious member. Was prominent in advocating Workman's Compensation Act, "Blue Sky Law," Compulsory Education, Good Roads, Levy and Drainage, Property Rights of Married Women, Labor Legislation, Warehouse and Marketing Law, Rural Credits, Pure Seed Bill, Public Health, and opposed useless expenditure of Public funds of every nature. He was loyal to the best interest of the State, whether North, East, South or West, and no section appealed to him in vain when its best interests were involved.

"Senator H. L. Darwin possesses the highest educational training, which, combined with his native ability, energy and courage, will enable him to render valuable service in Congress. He represents the best the State affords in a personal, political and industrial way.

"Therefore, we urge all Democrats in Texas to support Senator H. L. Darwin of Delta County for Congressman-at-Large."

**Resolution No. 2.**

"We, the Farmers of Delta County, recommend Senator H. L. Darwin to the voters of Texas for their support."

"He was raised on a farm in Delta County, and now owns and operates a farm in this county. He has equipped himself with the best education the State affords. As a member of the State Senate he was a supporter of better agriculture, better marketing, better roads, better schools and better public health. He is an active member of the State Corn Growers' Association, the Farmers' Institute, and Farmers' Union. He is one of those who is working to better the condition of the farming interest in every way.

"He will make an efficient Congressman, and we recommend him as one of our number to every farmer and voter in Texas. The business interests will be ably and fairly represented in his election, and the producing class will have one of their number in Congress and one who will faithfully render a service to the State and Nation."

Respectfully submitted,

W. S. Miller, W. White, Jack Lemmons, G. Skeen, Arch Hendrix, J. W. Russell, and 800 others.

**B. Frank Buie**

ATTORNEY

Office in Post Office Building  
Will Take Civil and Criminal Business  
in any court in Texas.

Iva M. Buie, Notary Public.  
CANYON, TEXAS.

Again, a cook shuts off the water; a ram lifts it. A printing press has a fly, the first locomotive had a grasshopper valve motion, and butterfly valves are common.

**Democratic Calendar.**

May 6—Precinct conventions to elect delegates to county conventions.

May 9—County conventions to elect delegates to state convention.

May 23—State convention, San Antonio, to elect delegates to national convention, choose Texas national committeeman and nominate Presidential electors.

June 5—Last date for filing with state chairman for state office.

June 14—National convention, St. Louis, to nominate candidate for President and frame platform.

June 17—Last date for filing with county chairman for county and precinct office.

June 19—County executive committee arranges ballot.

July 10—Primary committee of county executive committee makes up official ballot.

July 22—General primary.

August 26—Run-off primary.

Since candidates for county and precinct offices must foot the bill for nominating the Democratic candidate for the United States senator, while a county executive committee may not collect more than one dollar from any candidate for the senatorial nomination, the cost of running for a county or precinct office this year will be more than that of former years.

Under the orders of the Democratic state executive committee, there must be a run-off primary August 26 if no candidates for the senatorial nomination is given a majority at the general primary July 22. That there will be no majority nominations is probable, for there are eight candidates for the senatorial nomination: Charles A. Culberson, O. B. Colquitt, T. M. Campbell, S. P. Brooks, Robert L. Henry, John Davis, R. E. Heller, and G. W. Riddle.

**Whenever You Need a General Tonic Take Grove's**

The Old Standard Grove's Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

**Swat The Rooster.**

Swat the rooster on May 20th and sell infertile eggs during the summer. It insures greater profits to the producer, the dealer can handle them on a smaller margin, and the consumer gets better eggs to use which increases the demand.

The presence of male birds in the flock does not increase egg production but from two to three per cent of the females are injured by the males which lowers the egg yield from the entire flock.

Feeding the male birds after the breeding season is a useless expense. Many produce dealers pay more for the roosters on Swat the Rooster Day in order to courage their sale.

If an egg contains the fertilizing germ proper heat is the principal factor which will cause the germ to grow. The summer temperature will cause the germ to develop, and if it is chilled or killed in any way, it is the point where decomposition begins. If there is no germ in the egg there is no point for decomposition to eat in except from an outside source. Therefore, infertile eggs are more satisfactory for all concerned.

It should not be understood that infertile eggs should be kept longer or cared for improperly, for that would mean no improvement over old methods. Infertile eggs should be marketed just as often and cared for just as carefully as fertile eggs, which will insure an improved product going on to the market.

All eggs should be sold on the loss-off basis, i. e., all eggs should be candled and only the good eggs paid for. It will be seen that ten dozen infertile eggs, all good, will bring more money than twelve dozen fertile eggs if three dozen are candled out, being bad.

If you have a valuable male bird which has proven to be a good breeder, don't sell him, but place him in a pen with half a dozen of the best hens and late hatching may be done from this pen.

Don't keep any males in the flock during the summer.—Missouri Experiment Station.

**Plies Cured in 6 to 14 Days**

FEW druggists will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. The first application gives Ease and Rest. 50c.

Texas pay their governor \$4,000 a year. Regents of the state university have fixed the salary of President Vincent at \$6,000 a year. No doubt he is worth it and more, but why should a governor be compelled to worry along at the salary fixed by the constitution? The governor should be paid \$10,000 a year and the university head should receive the same. Efficient men are entitled to princely salaries inefficient men just what they can get.—Ft Worth Record.

COME TO CANYON TO LIVE.

# PAIGE

*The Standard of Value and Quality*

**I**N the earlier days of the automobile industry, wealth and social position traveled almost exclusively in the car which bore a foreign maker's name.

But times have changed — standards of value have changed—personal view points have changed.

People of wealth and social position still insist upon luxury and elegance in their motor cars. But, now, they also demand at least a fair return upon their motor car investment.

It is for this reason that the Paige, Fairfield "Six-46" has been so universally adopted by well-to-do people in all sections of the nation.

In beauty of line and design, this car rivals the most artistic productions of Europe. It is refreshingly distinctive, and embodies every convenience and luxury that a critical motorist could desire.

It is a big car, a powerful car, a comfortable car—and, withal, an economical car. It is literally and actually "the standard of Value and Quality."

The price—complete—is \$1295.

## E BURROUGHS

CANYON, TEXAS

**INTIMATED CULBERSON SUPPORT BY BAILEY**

Former Senator Expects to Make Speeches in Texas During Campaign.

Washington, May 3.—Former Senator J. W. Bailey expects to go to Texas soon to make speeches in the campaign and the intimation given in Washington is that he will support Senator Charles A. Culberson for reelection. Whether Bailey proposes to actively take the stump for his former colleague is not known, but his friends say that in making speeches before Texas audiences, the fact as to whom he will support in the senatorial race is certain to develop. With this goes the prediction that a large portion of Senator Bailey's following not already in the Culberson camp will go to him.

Texas in Washington are viewing the senatorial race with no little interest and if the gossip may be relied upon the result is calculated to gauge the future desires of some political aspirants. There is considerable speculation as to the effect the New York letters will have upon the support of former Governor Colquitt and some

here are inclined to believe not a great change will work out. On the other hand, a well-known Texan here during the last few days expressed belief that the Colquitt strength will be considerably affected. Members of the House of Representatives, some of whom he has served with for fifteen years, manifest a keen interest in the success of Robert L. Henry.

The discussion revives the story of Senator Bailey becoming a candidate in 1918 against Senator Sheppard, but his close friends seem sure in the prediction that he will not seek office. As Washington understands it, Governor Ferguson is the most likely candidate against Senator Sheppard two years hence, when the issue will clearly be drawn on the prohibition question. At the same time, the name of Postmaster General Burleson is associated with the race for Governor.

With President Wilson re-elected, Burleson will continue as a member of the Cabinet and it is doubted that he would be willing to leave National affairs before the close of the second Wilson administration.

Why pay 75 cents for typewriter ribbons when you can buy them for ONLY 60 cents at the News office?

The Paris paper, the Little Parisian, says that in 15 days more than 5,000,000 projectiles of all caliber were fired by the Germans at the fort of Verdun. The ground before the fort is a veritable iron mine. The shells which fell upon it weighed not less than 250,000,000 tons. To transport them would have required 25,000 railroad wagons of 10 tons' capacity.

**A WOMAN'S BURDENS**  
are lightened when she turns to the right medicine. If her existence is made gloomy by the chronic weakness, delicate derangements, and painful disorders that afflict her sex, she will find relief and emancipation from her troubles in Dr. Pierce's Favorite Prescription. If she's overworked, nervous, or "run-down," she finds new life and strength. It's a powerful, invigorating tonic and nerve which was discovered and used by an eminent physician for many years, in all cases of "female complaints" and weaknesses. For young girls just entering womanhood; for women at the critical "change of life" in bearing-down sensations, periodical pains, ulceration, inflammation, and every kindred ailment, the "Favorite Prescription" is guaranteed to benefit or cure. Dr. Pierce's Pellets cure biliousness.

- For Animal and Hide Inspector—**R. E. FOSTER**

# What Would We Do Without Sugar?

GATHERING SUGAR CANE

We are so used to sugar that we are likely to forget to give it its properly important place. Right now if somebody asked you what sugar was good for you'd probably say—"Old to put in coffee and tea and for making candies and desserts." That's it—we all think of sugar as a sweetener and overlook its value as a food.

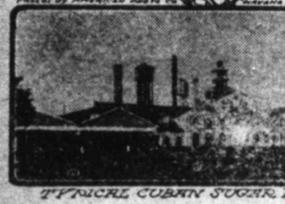

The chemists classify sugar as a hydrocarbon—that name may or may not be interesting to us, but what is interesting is their statement that it has, as a hydrocarbon, equal food value with the starchy foods and by digestion largely adds to the fatty tissues of the body.

Why do we eat sugar anyway? Your first answer might be: "Because it is sweet and tastes good." Of itself the answer would be correct, but the more important fact is that the body craves sugar because it needs it. And when the body craves something it gives us an appetite for it. So primarily that's why we like sugar and things made with sugar and not just because they are sweet.

In view of the fact that sugar has gone up so tremendously of late these facts

are interesting because we find that instead of the luxury sugar having gone up in price the FOOD sugar that has raised its price. Yet—even though the price is up we have to have our sweet food just the same.

Certainly the makers of that delicious beverage Coca-Cola must have discovered that sugar is up, because one of the principal ingredients in making Coca-Cola syrup is fine cane sugar. Think of it—they use an average of 30 tons of sugar a day—about 4 carloads. But unlike many manufacturers that company has itself borne the raise and so you and I pay just the same today for our bottle or glass of Coca-Cola that we've always paid. Incidentally, this phase of the situation is a good reminder of the benefits one gets from drinking a beverage as pure and good as Coca-Cola. Not only do we please our palates and derive wholesome refreshment from the drink but we also give our systems that bit of sugar sweetness that they crave and which is necessary to health and fitness. Is it any wonder then that Coca-Cola is so popular and so universally drunk that it has been called "the drink the nation drinks"?

THE WORLD'S TWO BEST TWO-ROW CULTIVATORS

BACKED BY AN UNQUALIFIED GUARANTEE

The **P.O.** Two-Row Cultivator covers every essential feature for perfect work, ease of adjustment and adaptability of all conditions of soils. The simplest and strongest Two-Row Cultivator made. "It's the way we build them". Frame as strong as a bridge. Axles of improved construction prevents wheel widening in front; make light draft. Fine depth adjustment; each gang controlled independently. Four levers do the work of six on other styles, as the inside levers control the inside gangs independently, and also raise or lower the gangs in pairs. Easy working adjustable foot levers. The wheels can be pivoted alone or in connection with the lateral gang movement. The pressure springs are center hung, insuring proper tension in all conditions of the ground and in any position of gangs. The parallel movement of gangs insures each shovel cutting the proper width and depth. Furnished with any style gang.

**No. 27 2-Row Lister Cultivator**

We make a complete line of DRY-FARMING tools, prominent among which is the No. 27 Lister Cultivator, which has many superior features, consisting of two sets of gangs mounted slidingly on a trussed spreader pipe. Turn table construction evenly distributes weight on the gangs, holding them level and preventing one side from going in deeper. Each gang follows its own row. Roller connection between the gangs and spreader pipe. Gangs can be raised as a unit, or shovels can be raised separately. Frame balances with tongue when raising gangs. Easy change from first to second cultivation. Extra high clearance for large corn, with long shield for small corn. Eight shovel attachments can be furnished when ordered.

If your dealer will not supply you IT ONLY TAKES A POSTAL to get our new 1916 catalog and special introductory prices.

- Preaching at 11 a. m. and 7:45 p. m. each day.

## Prince Albert gives smokers such delight, because

- its flavor is so different and so delightfully good;
- it can't bite your tongue;
- it can't parch your throat;
- you can smoke it as long and as hard as you like without any comeback but real tobacco happiness!

On the reverse side of every Prince Albert package you will read:

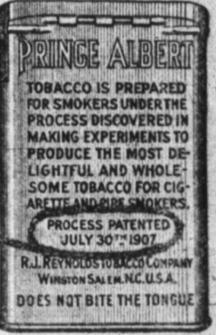

"PROCESS PATENTED JULY 30th, 1907"

That means to you a lot of tobacco enjoyment. Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

# PRINCE ALBERT

the national joy smoke

YOU'LL find a cheery howdy-do on top no matter how much of a stranger you are in the neck of the woods you drop into. For Prince Albert is right there—at the first place you pass that sells tobacco! The tippy red bag sells for a nickel and the tudy red tin for a dime; then there's the hand-some pound and half-pound tin humidor and the pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such bang-up trim all the time!

This is the reverse side of the Prince Albert tudy red tin. Read this "Patented Process" message to you and realize what it means in making Prince Albert so much to your liking.

in goodness and in pipe satisfaction is all we or its enthusiastic friends ever claimed for it!

It answers every smoke desire you or any other man ever had! It is so cool and fragrant and appealing to your smokeappetite that you will get chummy with it in a mighty short time!

Will you invest 5c or 10c to prove out our say-so on the national joy smoke?

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

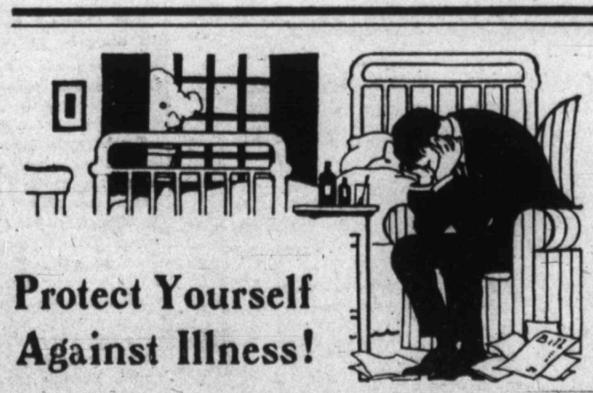

"The Shacks," A Parody.  
(Ruth Downing)  
All leave the shacks now,  
The rooms are vacant and still  
But in my heart still bideth a love  
For the "Shacks" by the windmill.  
The walls are plain, the roof how simple  
The furnishings show nothing of skill  
But plain and neat those dear folks too,  
Who dwell in "Shacks" by the windmill.  
The stately Normal by its side  
Can ever my longing fulfill,  
But I still look back with a hungering heart  
To the "Shacks" by the windmill.

Let the People Rule.  
(From Leslie's.)  
A teamster in Media, Pa., asked for an increase in pay because of the birth of quadruplet.  
A former college professor and lecturer on agricultural subjects has just been arrested in New York on a charge of swindling.  
While a negro was being tried in an Oklahoma court room for assault-

ing a child, a mob rushed in and hanged him from the balcony of the court house, in spite of the protests of the presiding judge.  
A beggar who asked a New York policeman to direct him to the bread-line proved to be the son of a wealthy man. This beggar had gambled away \$60,000 in two years and was living on an allowance of \$17.  
Let some of the people rule!

## Plainview Nursery

has the largest and best stock of home grown trees that they have ever had, propagated from varieties that have been tested and do the best. We make a specialty to grow the kinds that seldom get killed by late frost. We are agents for Warnock's Tree Paint, which is guaranteed to protect trees from rabbits and disease, also for arsenate of lead in 50 and 100 lb. cans only and spray pumps.  
PLAINVIEW, TEXAS.

## Protect Yourself Against Illness!

You may be enjoying the best of health today. There may come a siege of illness. ARE YOU PREPARED FOR IT?  
Doctor's bills and enforced idleness are expensive. When you have a bank account you are prepared to combat illness.  
Can you conceive of anything more tragic than a long period of illness without any funds?

Therefore, if You Haven't a Bank Account, Start One Today

**IN TRUTH, COW BOY IS A MASTER MAN**

Artists, Singers, Savers and Poets Predominate Among the Range Riders.

"Backward, turn backward, O Time with your wheels, Aeroplanes, wagons and automobiles! Dress me once more in sombrero that flaps, Spur, and a flannel shirt, slicker and chaps; Put a six-shooter or two in my hand; Show me a yearling to rope and to brand; Out where the sage brush is dusty and gray— Make me a cowboy again for a day!"

By CLARENCE J. MARTIN.

The above verse, one of four stanzas of a parody written by a cow boy, is familiar to all cattle men.

One conception of the cow boy, with those who do not know him, is that he cares no more for poetry than a hobo does for soap; that he always speaks with exclamations and uses descriptive adjectives that would burn

a hole in asbestos paper; that he drinks booze so strong that the janitor of the Washington School could scrub windows with it and that he is so deeply submerged in iniquity that he has to use a periscope to get sight of the shore of a sunken island.

**It's All Wrong.**

No greater mistake could be made. The writer has spent years among the cattle men in many parts of Colorado and Western Nebraska and of late years along the Texas Panhandle and I find among them some of the gentlest men I ever knew. I find men in the saddle in the Colorado hills, who, before going West, held educational chairs in colleges; some who can leave the corral to deliver a fitting eulogy over the dead; many who can serve as toast master at a banquet or stand with steady legs at a wedding while presenting the gifts to the bride.

Often there is real talent among the cattlemen. One of the most pleasant memories of my life is of many weeks of association with a cow boy at Perry, Okla., who would sit for hours, at a piano, arrayed in boots, chaps and sombrero, charming the

crowds with his musical skill. Yes, he played by note. There are artists among them and some of them have attracted the attention of the public. An illustration of this is C. F. Russel, of Wyoming, whose paintings of western men and horses have even found place in the art galleries of Paris.

**Popular as Remington.**

It is conceded that Frederic Remington's paintings of Western life are no more popular than Russel's. Mrs. J. F. Johnson, wife of a well known Canadian, Tex., cattle man, is an artist of rare skill and the walls of the big Johnson residence in Canadian are decorated with her oil paintings. Many works of art are in the homes of such cattle men at E. H. Brainerd, W. C. Isaacs, Thomas Moody, Mr. Lockhart and others.

Another misconception concerning the cattle men is that he has to sleep on the ground to keep watch of his herds and that he is obliged to eat his meals from the rear of a "chuck wagon", on the open prairie. The fact is he lives in a house in hewn which costs as high as \$20,000 and he eats his meals from a white linen table cloth, embroidered with water nymphs, pond lilies and swans. He retires at night in a mahogany bedstead and sinks to sleep on a mattress as soft as the powdered marshmallow found in the toe of your stocking on Christmas Morn.

**Would Make Correction.**

I feel that it time to correct some of the mistaken ideas concerning the western cattle man.

A moving picture film displayed at a popular theatre not long ago in Amarillo, represented a western cattle man as being so illiterate he could not sign his name. The audience was disgusted. A local stock man, one of the spectators had that very day written a two column article on a scientific subject for the press and another "illiterate" cow man had signed his name that day to checks calling for the payment of over \$50,000 in cash. Cattle men like Thomas Moody of Canadian, P. H. Landergerin of Amarillo or Charles O. Keiser of Canyon, could buy the whole movie circuit from Kansas City to Brazos and then contribute liberally to a Salvation Army collection with no financial embarrassment whatever. Mr. Keiser recently took over heavy copper interests in New Mexico and has sold several hundred thousand acres West Texas land in the last few years. Verily some means should be devised to educate the "movies" to the character and condition of the Western cattle man.

**Poets and Singers.**

There are poets and singers among the cow men. Day in the open, nights under the star, long journeys in silent deserts, sleep by laughing mountain streams have taught the cow boy song. The hot sun has given him joy; the deserts have given him philosophy; the stars have taught him worship. Dear old Scott Cummings, the "Oklahoma Bard," though bowed now with age, still sings his songs of cheer in his little cabin in the red hills of Woods County, Oklahoma. If yop talked with him an hour you would want to pitch tent there and stay.

If John Masefield, the English poet will settle in Amarillo the citizens will buy him a home by popular subscription and place a brazen British lion on each side of the door; J. L. Pope will give him a position on the News and Jamison and Waggoner will print his rhymes on the editorial page and Superintendent Fox will give him a pass on the Santa Fe from Roswell to Wichita.

The American people know where his home is, but they know where

**Correspondent Courses in the University of Texas.**

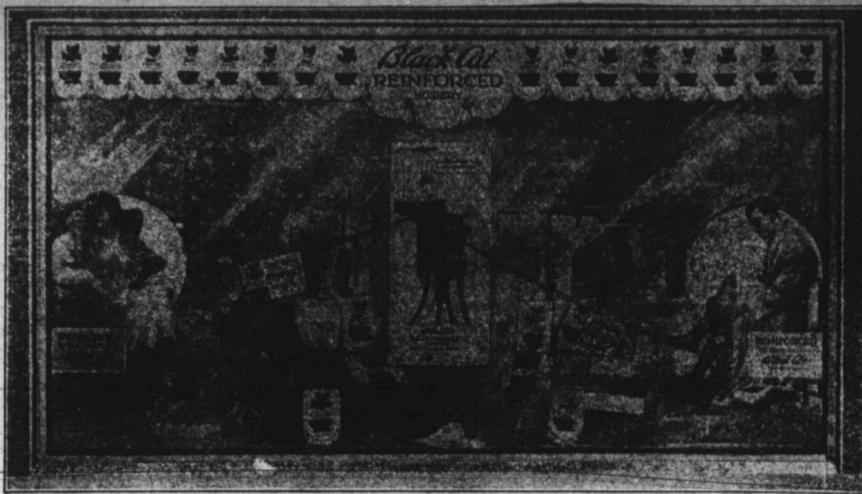

Teachers, Lawyers, Business Men, Students, Home Makers, and many others are profiting greatly by the courses now offered through the University Extension Department. High school graduates and applicants for state teachers' certificates will find the University courses particularly helpful. In the new correspondence catalog which is just coming from the press there are announced over two hundred courses in English, Mathematics, Foreign Languages, History, Economics, Education, Law, Bookkeeping, etc.

If you are interested in preparing yourself better to do your work in life, why not consider these courses, by means of which, in your spare time, you can accomplish so much toward bettering your condition? Fill out and mail the blank below, and full information will be sent you free.

**THE CORRESPONDENT DIVISION, UNIVERSITY OF TEXAS, AUSTIN, TEXAS.**

Gentlemen: Please send me a copy of your latest correspondence catalog.

**Look for this Window**

It shows you the ideal hosiery for men---for women---for children---the one brand which offers perfect satisfaction in every material and color "for all the family."

This is Spring Hosiery Week with us—the time for you to lay in your supply of

**Black Cat Reinforced Hosiery.**

Come in and let us show you this brand---the mother's favorite for over 30 years. See the reinforced heels, and toes, the double soles, the non-tearing garter hems. Toes don't go through; heels don't rub out. Feel the triple knees in boy's stockings.

**Learn How Black Cat Abolishes the Darning Basket**

You know from experience that this store is not given to crying "Extra Value!" unless the extra value is really here. And it is here---this week in hosiery---the genuine Black Cat! Be sure you see it.

Turn In When You Come to the Window Pictured Above!

**CANYON SUPPLY CO.**

**Delicious Drinks**

Our pure ice cream and real fruit flavors make the refreshments that you get at our fountain really nourishing food. And we try to keep our serving dishes and receptacles as clean and wholesome as the best housewife in this town keeps her kitchen.

**Stop In Here**

and get a thirst-quencher; then take a pail of cream or sherbet home to the family.

**BURROUGHS & JARERTT**

A FILM of oil is a small thing, but on just that hinges the economy of your motor and a great deal of the pleasure in motoring.

The film which is maintained between the rings and cylinder walls when Texaco Motor Oil is used proves this:

- First:—It doesn't allow the mixture to leak through. All the "gas" is used to produce power.
- Second:—It checks wear by preventing metal-to-metal contact.
- Third:—It means no excess oil is sucked up into the combustion chamber.

When you use Texaco Motor Oil, you find that your spark plugs won't foul and that there is no heavy carbon deposit to get in the valve seats or to clog the exhaust.

You ride easier with less juggling of the throttle and with freedom from back fires and other annoyances.

Get some Texaco Motor Oil and at the same time, try Texaco Gasoline. This is the other partner of the Texaco Winning Combination.

**The Texas Company**  
General Offices: Houston, Texas

rhymes are published, but they know where he got the inspiration for his marvelous songs.

**He is Gentle.**

I said the cow boy is gentle, and I still so affirm. I have known him to swear at his favorite horse when it stumbled over a rock during a wild plunge after cattle down a stony mountain side and then later, heard him say foolish tender words to that same horse when it lay with a broken leg, its head pillowed on his arm, while he caressed its nostrils dilated with pain. When he could not summon courage to shoot his old mount, I did the deed and during an association with him after that of three years he could never again speak the horse's name.

I knew a cow boy in Idaho in 1903—he came from Old Georgia to the West where he was not known, and had fought successfully a fierce appetite for rum—who never smiled at a drunken man. I have known him to dismount from his horse when driving cattle and rest in the earth a small prairie daisy that had been uprooted by the hoofs of the herd. And then to excuse his action and said, "There are lots of stickers (cactus) in this country, but daisies are few." Robison, for that was his name, regarded a child almost with Madonna love. He carried a photograph in his inside pocket that no companion ever saw.

**A Prize Book.**

Once while hunting big game, in the Colorado Rockies, 35 miles from any human habitation, in company with Ed Stephens, a typical cow boy, while sitting by our lonely campfire, I took from my pocket a small book and presented it to Ed. He was not profuse with thanks but I could see he was much moved. Fourteen years later I returned to Ed's mountain home and found him still in possession of the gift. He had shot a deer, dressed and cured the hide, cut out and sewed with his own hands a buckskin case in which he had carried the book waiting my return.

He had married the best girl in the North Fork Valley and had a splendid home. He and his wife had committed most of the contents of the book of memory. By its suggestions he declared he had been helped to give up drinking and gambling and save his money. It was my turn to be moved. I think the moisture in my eyes was not entirely due to the sud-

den chill that came in on the breeze from the river near by. Some may prefer the autocrat or the plutocrat but the cow boy is still good enough for me.

**At The Presbyterian Church.**

All regular activities of the Presbyterian Church will be carried on during the week beginning Sunday, May 14.

Due to the Commencement exercises of the Normal, no service will be held Sunday morning. Sunday table work in handling the subject.

school will begin at 9:30, to give plenty of time for reaching the Normal auditorium following the Sunday School exercises. Evening services will be held at the church beginning at 8:30.

DAVID H. TEMPLETON, Minister

**Palo Duros Defeat Guenthers.**

The Palo Duro boys defeated the Guenther boys in debate Saturday night. Both teams did highly creditable work in handling the subject.

**TWO TUNES**

The minstrel who declared that his musical neglected said that he knew two tunes. One was "On the Banks of the Wabash," and the other was not

There are two kinds of trade in Randall County, the trade you have and the trade you have not. It is the trade that you have not that you need in your business. To get this trade you must advertise. To get it in the quickest, surest and least expensive way, you should advertise in the Randall County News.

It may be there is trade in Randall county that comes to you without advertising. It may be regular trade, but it is more likely to be spasmodic and intermittent. Be it regular or otherwise, it is not sufficient to pre-emptuate your business.

Our people have a thirst for news which your ad may satisfy. Put news in your ad; put the ad in The News, and it will receive attention and bring you the trade you are now without.

The News goes to people it will pay you to reach—people who can afford to buy what they like. If you will speak through its columns, you will reach a large audience of appreciative listeners.

Think it over.
