In April, the firm of Bickerstaff, Heath, Smiley, Pollan, Kever and McDaniel of Austin was selected as the county's legal counsel in the bond issue process; and First Southwest Co. of Lubbock was selected as the financial advisor.

In July, Burns, Fletcher, Gill Architects was selected as the architectural firm for the jail project, and in September A&S Steel Construction of Amarillo was chosen to be the construction manager "at risk."

Three public hearings were scheduled in October to inform the public about the need for a new jail, and a series of question-and-answer format articles about the jail was run in

October and November. The issue was placed on the ballot with the Nov. 7 general election and failed by only 28 votes, 952 in favor to 980 against.

The Castro County Hospital District also was in the news throughout the year, with a four-fold increase in service revenue and continued expansion of services, facilities, and personnel.

> In April, the hospital announced that it would receive an estimated \$111,000 in funds from the settlement of the state's suit against tobacco companies.

Revenues and collections for the hospital both were showing an increase, as reported in July, but the hospital had to come up with a \$300,000 refund to Medicare.

In August, CCHD announced the completion of the CT scanner, purchase of an ambulance, and installation of an X-ray machine at the Medical Center, along with the addition of a speech therapy program in the rehabilitation department.

A series of town hall meetings was set in November to inform people about the hospital district and its plans for the future.

A report of a gunman 3 sighted near Dimmitt Middle School on Nov. 10 captured the attention of the entire town, as well as the surrounding area. The school nurse and another teacher both described a male suspect wearing a dark jacket and red cap, carrying a long-barreled firearm. The suspect did not point the firearm in the direction of the school. There

has still been no identification of a suspect in the incident, despite a \$500 reward offered for information

leading to an arrest and conviction.

The middle school was locked down according to the school district's security plan, and the other campuses quickly followed suit. Parents were allowed to come pick up their children, even though classes were not dismissed. Only two or three vehicles were allowed in front of the school at one time and those picking up children had to show identification.

County included in disaster declaration

Castro County farmers are eligible account the extent of losses, security for US Dept. of Agriculture (USDA) emergency farm loans because of losses caused by drought, excessive heat and other disasters that occurred during 2000.

US Agriculture Secretary Dan said Haywood. "We've known for a Glickman declared the entire state of Texas as an agriculture disaster area on Dec. 19.

"The excessive heat and drought have made it a devastating year for farmers in Texas and all over the south," Glickman said. "USDA is working to help farmers in Texas and other states during these difficult

Since 1995, Texas farmers and ranchers have lost more than \$5.5 billion to natural disasters such as drought.

"Considering that agriculture contributes about \$80 billion to the state's economy annually, and is the second-largest industry behind oil and gas, this loss is devastating," said State Sen. Tom Haywood. "But Sec. Glickman's declaration will help reverse those losses.

Curry, Eddy, Otero, Roosevelt, Dona Ana, Lea and Quay counties in New Mexico are eligible due to drought and excessive heat that occurred from Jan. 1 to the present.

Beauregard, Calcasieu, Sabine and Vernon Parishes in Louisiana are elgible due to drought and heat from Jan. 1 to the present, and due to fire that occurred from Sept. 1-7.

All other contiguous counties already have been designated or named for the same disasters.

This designation makes all qualified family-sized farm operators in both primary and contiguous counties eligible for low-interest emergency loans from the Farm Service Agency (FSA). Farmers in eligible counties have eight months from the date of this declaration to apply for the loans to help cover part of their actual losses.

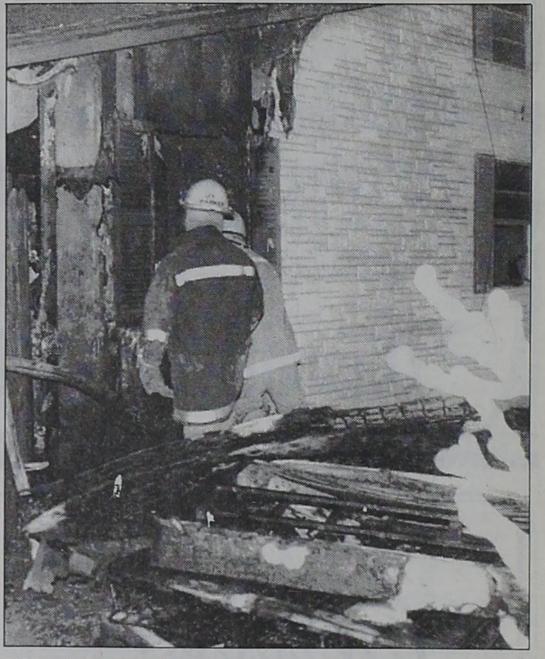

FSA will consider each loan application on its own merits, taking into

The two-story home of the Johnny Lugo family on South Broadway in Dimmitt was damaged by fire at about 7 Friday night.

Apparently the fire started in a back bedroom of the home and several mattresses stored in the unused room were in flames at the time they were thrown out the window by firefighters, according to witnesses.

The home had heavy smoke damage in two or three rooms and other smoke damage throughout the house.

No one was injured, although a bystander said at least one person was treated for smoke inhalation. Dimmitt volunteer fireman Fran-

cis Acker said about 17-18 firefighters reported to the scene, along with two fire trucks, the suburban and the rescue unit.

The flap in Hart over ag teacher Jim Tucker's racist remarks brought Hart into the news spotlight across the state, with the president of the League of United Latin American Citizens filing protests with the US Dept. of Justice and the US Dept. of Education. Spiraling natural gas prices are a continuing for consumers dreading higher bills in the face of colder winter weather. Hart received a \$20,000 grant from the Don and Sybil Harrington Foundation and the Amarillo Area Foundation to help with construction of its Centennial Pavilion and another \$20,000 came from Cargill,

Dimmitt and Nazareth both received \$10,000 grants from the Don & Sybil Harrington Foundation's Celebrate 2000 Community Beautification Project, in conjunction with the Amarillo Globe-News. Dimmitt's grant was applied to the outdoor environmental classroom at DMS and the purchase of trees for South Lake Park. Nazareth's grant was spent on establishing a city park.

The Dimmitt schools also received \$1,200 in grants from SPS; \$100,000 from the Texas Legislature for the Basic Skills Program for High School Students for establishing the

Ninth Grade Initiative; two Michael Jordan Foundation/Nike grants of \$2,500 each; two Service Learning grants from the Region 16 Service Center, one for \$3,000 and one for \$2,000; a \$3,412 RIF grant for Richardson Elementary School; and a Texas Reading Academies grant of at least \$50,000, and possibly ranging as high as \$200,000.

The City of Dimmitt also received a \$24,000 grant from the Texas Natural Resource Conservation Commission for the purchase of a wood chipper machine.

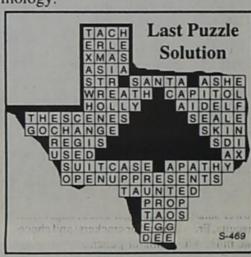

Rhoads Memorial Library was awarded a grant from the Bill and Melinda Gates Foundation. Funds allowed for the purchase of two computers with Internet connections and one laser printer.

A race horse co-owned by Bud Hill, "Eyesa Special," hit the winner's circle in two major races and was named the nation's No. 1-ranked 2-year-old quarterhorse. The horse won \$1 million by topping the field of nine in the All-American Futurity race Sept. 4 in Ruidoso Downs, N.M.; and then took a purse of \$364,524 for first place at the Texas Classic Futurity in Grand Prairie on Nov. 25, beating out nine other contenders.

Other top stories for the year included the opening of a Sonic Drive-In in Dimmitt and the hiring of Rick Auckerman as the new County Extension Agent for agriculture.

The Sonic on North Broadway opened for business the first week of August, and features a "futuristic look" in its decor.

Auckerman started serving in Castro County on Oct. 18. He had been a strong 4-H leader in Deaf Smith County, where he had worked several years in the seed industry. He also has a strong background in entomology.

Inmate extends holiday wishes

Dear Editor:

I want to wish everyone in Dimmitt a very merry Christmas and a happy New Year. I also would like to wish the best for Bobcat basketball, girls and boys.

I moved to Dimmitt from Beaumont in 1997. Right now, I'm serving a parole violation for not reporting. I have been here [in prison in Rosharon, Tx.] since Dec. 8, 1998.

My original sentence started May 5, 1980, in which I was given 20 years for theft by check. May 5, 2000, was supposed to be the end of Joe Garcia and family, and Mrs. my sentence. I got revoked after I had 18 years and four months, with only one year and eight months be- citizens of Dimmitt for being in a fore I finished.

Well, they changed my date from May 5, 2000 to 2013. The 13 years I was out they added on to my final sentence, which is 20 from 1980 to 2000. I have been studying my Bible and my faith has kept me going. The world is a cruel and harsh place.

I'm not saying I didn't do anything wrong. I did, 20 years ago, but for them to revoke me on a technical violation is unreal. The general public is not being told the truth.

For one, they said I didn't report on March 19, 1998. I reported on March 9, 1998, because I and my common-law wife drove from Dimmitt to Beaumont. Before then, I was catching the bus from Plainview to Beaumont just to report. That trip cost \$200 round trip. In the car it cost \$40 round trip. But taking off from work regularly is something I couldn't afford. Enough about me.

As I write this to meet an early deadline, Christmas hasn't happened yet. My Christmas list consists of a continuation of Christmas traditions in Dimmitt.

You've heard about these, read about them in the Castro County News and personally participated in some of them as they happened. Even so, let us reiterate how Dimmitt celebrates Christmas.

silly traditions around the world.

"In the Canadian Maritime provinces, mummers still go door-to-door dressed in masks and outlandish costumes, drinks at the ready. In Ouebec, people visit neighbors to collect money and food for charity. At each door they menacingly pronounce, 'La Guignolse,' which suggests they are ready to roast the feet of the eldest daughter unless they get a donation."

Dimmitt holds to many traditions, but there are no threats, only generous responses from warm hearts.

Dimmitt's formal Christmas season begins when the Dimmitt Chamber of Commerce has its annual "Holiday Celebration."

Angel trees are placed in the lobbies at First United Bank, First Bank of Muleshoe—Dimmitt Branch and at Hereford Credit Union in Dimmitt.

This year, 117 children in our county will receive Christmas presents because of the generous response of our residents. The gifts will be distributed by Panhandle

Most of the town's merchants I quote an article from the Ama-spruce up and lavishly decorate their rillo Daily News about sacred and places of business. There are delicious goodies served at every store and we get to register for those coveted Dimmitt Dollars.

As the parents shop and visit and eat, the children are wide-eyed and eagerly anticipating a visit from Santa Claus. While they await his coming and upon his arrival to take the kids' requests, this year the Dimmitt Middle School band and choir entertained with Christmas carols.

If some child has missed out visiting with Santa during the Christmas celebration, the Castro County News gives each one a second opportunity for contacting Santa by letter in time for him to make his rounds on Christmas Eve.

Travel was discouraged across the Texas Panhandle and South Plains and many roads were closed by the Texas Dept. of Public Safety (TxDOT) from Tuesday through midday on Wednesday.

While Castro County roads remained open Tuesday, they were snowpacked and described as "extremely slick and hazardous."

At 2 p.m. Tuesday, US 385 south toward Littlefield was open, but

travel was being discouraged. Vehicles which did attempt to negotiate the perilous road only averaged 20 miles per hour, according to officials with the Dept. of Public Safety.

US 60 from Hereford to Canyon was closed Wednesday, forcing the News to delay printing of its Dec. 28 issue by a day.

The road closures in surrounding counties also halted mail service.

Dimmitt Postmaster Karen Martin said carriers managed to deliver about 80% of the mail Tuesday before conditions worsened.

"We had no delivery from Amarillo on Wednesday," said Martin. "Nothing came in (to the post office) and nothing went out on Wednesday. We did have a truck from Amarillo this morning (Thursday), though."

Wilcox explodes with 48 points as Nazareth clips Gruver, 85-75

game is usually considered a good outside shooting night for most teams. For an individual, it would be

a spectacular effort. Nazareth's Kade Wilcox scaled that pinnacle last Thursday, as he knocked down 10 treys in the Swifts' 85-75 win over Gruver, and he paced his team with a game-high 48 points.

Nazareth picked up the big win over the talented Greyhounds in the "Box" at West Texas A&M University last Thursday.

Gruver made a crucial tactical error in the first quarter, leaving Wilcox open for the first two minutes.

He made the Greyhounds pay by popping four straight three-pointers without a miss, giving the Swifts a 12-4 lead with 5:50 left in the period.

After a Greyhound timeout, Gruver's Anthony Villalobos returned to the court and became Wilcox's shadow, chasing him all over the court.

Villalobos also sparked a brief Greyhound comeback, hitting a three and another jumper over the next minute to narrow the Nazareth lead to three, 12-9.

But when Villalobos and the Greyhounds shifted their defensive focus to shutting down Wilcox, the Swifts attacked with other weapons.

Knowles is recognized Ken Knowles, owner of Central

Bail Bonds in Plainview, which also serves clients in Castro County, has received some honors recently.

He was a guest speaker at the Newly Elected Sheriff's Seminar held Dec. 4-8 at the Dept. of Public Safety Training Academy in Austin. The seminar was sponsored by the Sheriff's Association of Texas.

Knowles is the president of the Professional Bondsmen of Texas and a founding member of the Professional Bail Agents of the US.

In October of this year, Knowles was named one of the leading bail bondsmen of the 20th century by Bail Bond Chronicles, the national trade publication for the bail bond indus-

The publication noted that this recognition was "of men and women who have devoted a great deal of their lives to the enhancement of the bail bond professional, and who have a firm grip on the wheel in steering the profession into the 21st century. These names appeared most frequently in a national survey among

Their selection was based on their status in their communities, the respect of their peers and the courts, and their personal integrity, according to the publication.

"Ken Knowles changed the late show image of the store front vestor pocket bondsmen in north central Texas. He is an active participant in community fundraisers and business organizations," said Kelley McClelland, editor of Chronicles.

He added, "How Texas goes is of much importance to our industry, and the state is in good hands with an honorable man like Ken Knowles."

Knowles, who has been in the business for 22 years, holds a Certified Bail Agent's degree, which is the highest education recognition in the industry.
