The many friends and neighbors of the bereaved loved ones extend their heart felt sympathy in this great hour of sadness.

Ernest Reid to Wed Tonight,

Ernest W. Reid left Monday for Ferris, Texas, where he and Miss Ora Margaret Hopkins will be united in marriage tonight at the home of the bride's parents, Mr. and Mrs. L.

Miss Hopkins was a student in the Normal during the past summer and it was in Canyon that the young people first met. She is a charming young lady, being very prominent in the social circles of her home city. She is an accomplished musician, and for a number of years has been soloist and pipe organist of the Methodist church.

Mr. Reid has lived in Canyon from boyhood and has a large circle of friends. He is salesman in the Canyon Supply Company, where he has held a responsible position for a number of years.

WHAT IS URIC ACID?

The Cause of Backache, Rheumatism, Gravel and Sudden Death.

Ever since the discovery of uric acid in the blood by Scheele, in 1775, and the bad effect it had upon the body, scientists and physicians have striven to rid the tissues and the blood of this poison. Because of its over-abundance in the system it causes ekache, pains here and there, rheumatism, gout, lumbago, neuralgia and sciatica. It was Dr. Pierce who discovered a new agent, called "Anuric," which will throw out and completely eradicate this uric acid from the system. He found "Anuric" 37 times more potent than lithia, and consequently you need no longer fear rheumatism, lumbago, pains here and there or many diseases which are dependent on an accumulation of uric acid within the body. Send Dr. Pierce, of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., 10 cents for a large trial package of "Anuric" Tablets, or obtain a 50c. package now at your druggist's.

An Editor's Warning.

which England will fight her trade bune has returned from Europe. He sounds a warning addressed to the President, the congress and the people of America. He says when the war ends an army of 8,000,000 war workers, including soldiers, will be demobilized in England. This mighty force will be the industrial army with which England wil fight her trade battles. He says already plans are under discussion in England for the transfer of the service of slaughter to that of commerce; that peace either on the battle field or around the council table, will in three months throw out of employment between 2,-000,000 and 3,000,000 munition workers. Half a million of these workers tive idea; that is, I believe that govare women, is the Keeley estimate, erament ownership is desirable only This isn't all that Keeley says. BRYAN AGAINST OWNERSHIP BY THE GOVERNMENT

Gives Newlands Committee His Views on Railroad Control.

COMPETITION PREFERABLE

Federal Regulation Should Not Be Allewed to Exclude Exercise of State Authority, He Contends-Thinks Railroad Stocks Should Represent Actual Value and Be Stable as Government

Washington, Dec. 11. - William J. Bryan, who startled the country ten years ago by advocating government ownership of railroads, appeared be fore the Newlands Joint Committee on Interstate Commerce last week in support of the claim that the states should be allowed to refain authority over the regulation of all transportation lines within their borders. Mr. Bryan explained that he had long regarded government ownership as inevitable, but only because of railroad opposition to

Against Government Ownership.

"Personally I cannot say that I desire government ownership," he explained, "because I lean to the indi-

way Executives' Advisory Committee. members of the Newlands Committee ter balanced and more systematic regness the national government would ship of the lines with all the evils at-

Preservation of Competition.

Mr. Bryan, on the other hand, holds that the further extension of federal the centralization of control in the would impose too great a burden upo the regulating body, would offer strong He forecasts the politics and would encourage the gen the marriage hurried up?" of power in the federal government at the expense of the states. He said that he did not object to consolidations of ago. railroad lines so long as they did nor destroy competition, that he knew of no complaint against great railway systems because of their size and that But be believed that the preservation of

Regulation of Securities.

of national regulation of railway stock go out!" and bond issues, but added that he saw no reason why that should exclude the states from acting on the same subject as to state corporations. "I would like to see the stock of a railroad, as long as it is in private hands, made as substantial and as unvarying as the value of a government bond," he as-

He suggested that railroad capitalization be readjusted to equalize it with actual valuation of the property represented, making due allowance for equities, and that when this was done the roads should be allowed to earn sufficient income to keep their stock at par and to create a surplus. The latter, he tentatively proposed, might be allowed to amount to 25 per cent

Railway Earnings Low.

This subject of railroad capitalization and the amount of railroad earnings received further attention from the committee during its recent sessions. In answer to questions by Senator Cummins, Mr. Thom submitted figures showing the net earnings of the roads in recent years. These figures show that during the five years from 1905 to 1910 the average net earnings were 5.25 per cent of the net capitalization. while for the five years from 1910 to 1915 the average was only 4,56 per cent. The total earnings on the stock computed by adding to the net oper ating income the income from the se curities owned and deducting bond in terest, were for 1910, 7.09 per cent; for 1911, 6.17 per cent; for 1912, 4.97 per cent: for 1913, 5.94 per cent; for 1914, 4.06 per cent; for 1915, 3.44 per Texas cent, thue showing an almost continnous decrease throughout this six year period. It was announced that Halford Erickson, formerly chairman of the Wisconsin Railroad Commission. would submit more complete informs tion on this subject to the Committee at a later date.
