This improved condition a half holiday at the end of any was brought about largely through trdies for the month. Two grades Our school holds an unusual re-

earned a half holiday last month, the cord; that is, all of our graduates for eleventh grade and the fifth grade. the last three years have entered some The names of the pupils in each grade college. Mr. King's aim seems ever to be to inspire pupils to continue

their school work beyond the high school.

As a teacher, Mr. King is scholarly, practical, thorough, and efficient. Since he has been superintendent of our schools, he has taught the subject of mathematics, and he has raised this subject to a par with that in any high school in Texas.

As an organizer, manager and executive, we believe that Mr. King has few equals and no superiors. Inspectors who have visited our schools say that they are among the best organized and disciplined in the State. This Mr. King has brought about with very little friction.

For the reasons set forth above, we take great pleasure in commending Mr. King unreservedly to any school board desiring the services of an allround good school man. Any board securing him as superintendent will be fortunate in the choice. He has our unqualified indorsement.

#### RANDALL COUNTY NEWS, CANYON, TEXAS. MARCH 29, 1917.

#### Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates ! It's mercury, Calomel acts like dynamite on a into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go elangerous calomel. Take a spoonful et ighten you up better and quicker than nasty calomel and without makang you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if wou take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

#### RESOLUTION CALLING **CONVENTION JAN. 1918**

Austin, Texas, March 19 .--- Those who advocate a new Constitution for Texas are jubilant at the action of the House today in adopting by a vote of 63 to 33 the McNealus Senate resolution calling a constitutional convention. Senator McNealus has been working seven years to secure the calling of a constitutional convention. He was in the House this afternoon when his resolution prevailed, and to. those who congratulated him he expressed immeasurable gratification. "I came to the Legislature seven

WHAT IS A DIGESTIVE LAXATIVE CATHARTIC AND LIVER TONIC LAX-Fos is not a Secret or Patent Medicine but is composed of the following old-fashioned roots and herbs: CASCARA BARK

years ago pledged to the calling of a contsitutional convention and the enactement of a child labor law and a law to protect streams from pollution he said. "All of these measures have been enacted, but I feel prouder of the constitutional convention resolution than either of the others or of any other measure which I have had a hand in enacting." Members' Allowance Discussed.

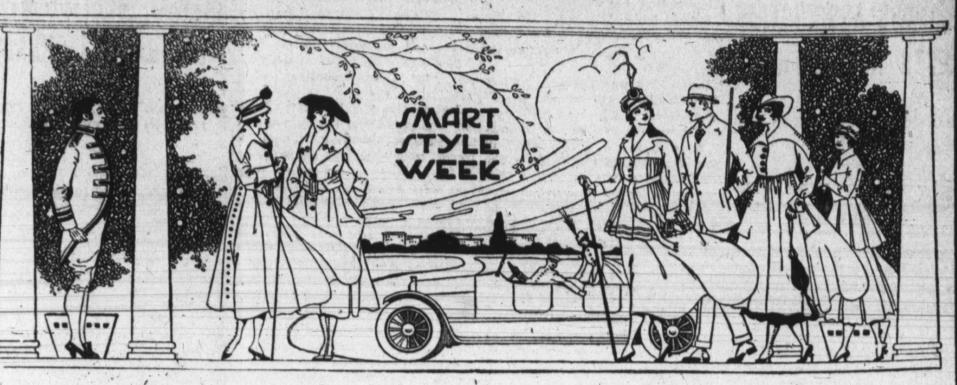

This morning the House became involved in the question of whether sluggish liver. When calomel comes Representatives should return to the into contact with sour bile it crashes State the sums they have used for postage stamps, telegraph and telephones and for newspapers. This matter, proposed by Mr. Bagby on to your druggist and get a 50 cent the ground that the Ferguson invesbottle of Dodson's Liver Tones which tigation committe reports "that exis a harmless vegetable substitute for stitute a misapplication of public penditures of a similar character conand if it doesn't start your liver and funds." remains pending, having been postponed until tomorrow afternoon, after which much debate this morning

> The Bagby resolution, however, made at least one vote for the constitutional convention. Mr. Bledsoe, who has been opposed to the constitutional convention, voted that the postage stamp discussion this morning had caused him to become a constitutional convention convert.

"If we have reached the point where every official and legislature must be called either a falsifier or a grafter. we certainly need a new Constitution to fix specifically and beyond question the exact compensation and expense of the state officials and the legislature" said Mr. Bledsoe.

Provision in McNealus Resolution. The McNealus concurrent resolution which has now been adopted by both House and Senate by a majority vote, provides that the constitutional convention shall meet in Austin on the second Tuesday in January, 1918. Delegates to the constitutional convention shall be elected on the second Tuesday in November, 1917. Each senatorial district is to elect two delegates and the State ten at large, a total of seventy-two delegates. It is further provided that at the lection for delegates voters shall also ote "for a constitutional convention," or "against a evonstitutional convention," and if a majority of the voters of the State shall vote against the convention it shall not be convened. The new Constitution framed by the convention shall be submitted to the people of the State for their

#### Why City Consumers Pay

It seems that the consumer always gets the worst of the deal when food speculators corner the market and force prices upward. The producer may sell at or below the cost of production, but this may not benefit the consumer who is often at the mercy of market manipulators for his necessities.

It is surprising the way speculators raise prices and the pretex they offer for it. The European war has been blamed for raises in prices; lack of transportation; short crops, and many other things. Some commodities have been affected by these things and others as a direct result of manipulation of the market.

The consumer is easily fleeced. He will generally accept any kind of a story as to why prices are high, pay theb ill and complain afterwards.

With the food stocks we have in this country there is no good reason for food riots and hungry people. Lack of transportation, poor business in distribution, speculation and other things are at fault.

The consumer must act before there will be any considerable relief in the high cost of living. So long as consumers accept any excuse and pay exhorbitant prices for food there will be those who will fleece them. The producer and honest dealers are enxious to meet consumers and help them save marketing cost.

How long will the consuriers submit to extortion?

If a husband and wife are addicted to drinking alcohol, are the children necessarily affected, is an oft-mooted question. Recently some experiments were made to see how the theory actually worked out, and here are the results:

Three families, with 20 children, were taken where the fathers were drnkanrds. Of these 20 children: 4 died from general weakness: 3 died of convultions before 1 month old; 4 were feeble minded; 1 was a dwarf;

1 was an epileptic;

7 were normal. Now on the other side of the picture: 10 families were taken in the same station of life. There were

62 children. Neither father nor mother drank alcoholic liquors. 3 children died from general weak-

Here is a difficult problem. If one submarine sinks eight ships in a single day and all submarines sink only ten how many submarines are there at work ?-Kansas City Star.

#### The Food Supply

The damand for bread and meat will continue strong. It matters not whether the big war in Europe continues or ends in the near future. The vast armies can not be demobilized in time for the men to take part in industry in 1917. In the mean time the millions of soldiers and more millions now engaged in the manufacture of war supplies are consumers of bread and meat produced other wheres.

Should the United States enter the war, it thereby becomes another important customer for bread and meat following students took part in the This will very materially increase program:

the state of the second st

In moving picture just as it actually occured on Col. Charles Goodnight's ranch, Goodnight, Texas, October 6, 1916

This was not a staged affair but was photographed just as it happened. The cause of the hunt was this-Col. Goodnight and his good wife were among the first on the Plains, and so far as is known he was the first to place in captivity the wild Buffalo. Afterwards he crossed the Buffalo and Black Pole cow producing the Cattlelo, said to be the finest beef to be had. The Col. and wife are growing old and desiring to give their friends a special treat they decided to kill a full blood Buffalo and give them a barbecue dinner. Then it was decided to have "Shorenuf" Indians from Oklahoma come and kill the Buffalo with bow and arrow in the old fashioned way, hence the hunt. The camera man starts with the Indians when they leave camp horseback to hunt the Buffalo out of the hills and brakes on the ranch, following them over hill, through the fuffs until they find the Buffalo and after a long chase finally cut out a few head and eventually succeed in getting one for the killing.

The camera man follows them in a Ford going thirty miles per hour at time but reeling off film all the time actually showing the arrows as they pierce the Buffalo in the side until he lays down and gives up the ghost. This is absolutely the only picture of the kind in the world so don't fail to see it.

### The Panhandle To-Day

A picture showing the rapid growth and development of the Panhandle of Texas; showing some of the High Grade Cattle, Hogs, Chickens, Homes, Alfalfa and Wheat, Gardens, Orchards and Vineyards and other views too numerous to mention. This picture was made for the Amarillo Board of City Development, to be used in the North and East, to advertise the country-so don't fail to see it before it leaves on it's mission. Now every effort has been put forth to make this picture interesting and entertaining. So do not fail to see them.

### Solid Trainload of Overland Cars

The Overland-Texas Company and their dealers got in a solid train load of Overland cars, consisting of 103 cars. The numerous dealers were all on the ground, the company had moving pictures made, starting with the arrival of the train in Amarillo, showing efficiency in unloading, and a parade from the tracks to the house. This will be shown in connection with the above pictures.

RANDALL COUNTY NEWS, CANYON, TEXAS, MARCH 29, 1917.

### The P. & O. No. 111 Lister

This lister is known to farmers wherever sold as P. & O. No. 11, but the improved type is called No. 111 on account of important improvements.

There are more of them in the hands of farmers than all other makes combined, over 2,000 sold by one dealer in one county in West Texas. The special features on this Lister made it deserving of its immense sale. Its use is not confined to preparing for row crops; it is now almost universally used for plowing for small grain crops by listing and re-listing, leaving the ground in oval waves, which not only catches and holds the moisture but prevents the loose soils of the West

from blowing away. . The adjusting link on front end of beam is an important exclusive feature on the No. 111, absolutely preventing the point from running below the desired depth. The wheels are provided with dust-proof boxes, an immense help in the sandy loam lands of the West. The feeding device absolutely deposits one seed at a time of any of the row crops, besides can be equipped for both corn and cotton. You will have to see this won-

BY-A derful improvement to appreciate it. The tilting hoppers allow change of plates rithout emptying them. Furnished with either disc or shovel coverers. This Lister embodied many other important features that will convince you that it is the best on the market.

The P. & O. No. 123 4-Wheel Lister

This lister has all the advantage of the No. 111 and in addition has rear wheels. This is desired in many incalities as it me the seed as planted. The rear wheels have cushion springs to hold them in lise with the row and following the une the ground and conform to the ridge without straining the rear frame, compelling also, the Lister to remain in proper working po-sition at all times. The friction lock disengages automatically, allowing the wheels to cautor and turn round in a very small space. We manufacture the most complete line of Two Row Implements on the market." ### If You Suffer From Catarrh

don't make the fatal mistake of re-garding it as a trifling matter. Au-thorities agree that Catarrh is an in-fection of the blood. Consequently, sprays, salves and lotions can af-ford only temporary relief, because they do not reach the source of the disease,—the blood. When you depend on these temporary remedies alone your case is likely to grow steadily worse until it becomes chronic and possibly affects the lungs. But even if the infection does not go this far, the continuous dripping of mucous in the throat, the constant
