

CHAUTAQUA CLOSES SATURDAY NIGHT VERY SUCCESSFUL PROGRAM

The Canyon Chautauqua closed on Saturday night a very successful and profitable program.

From a financial standpoint, the local committee was able to pay all expenses and there remains a little money in the treasury.

The program Thursday afternoon was opened by the Hungarian Ladies Quartet. This organization was the only number during the five days that universally failed to please.

The pooriness of this organization was offset by the splendid lecture of Dr. D. T. Robertson who discussed the subject: "The Mutations of a Dollar."

At the night program, after the preliminary music by the Hungarian Quartet, Dr. H. V. Adams entertained the audience by one of the best lectures ever heard in the city upon "Grapes of Gold."

message just before he went on the platform that his wife was seriously ill and must undergo a serious operation.

Friday was a big day at the Chautauqua. The Berkeley Sextette gave the afternoon program, with a great diversity of music and entertainment.

Saturday was Kilties day. In the morning the Kilties were unwise enough to challenge the Canyon baseball team for a game and received a thorough drubbing to the tune of 14 to 2.

Just keep in mind that there will be a Chautauqua next summer, and get a season ticket early

EVANGELIST LOCKETT ADAIR

Great interest is being manifested in the union revival meeting which is to begin in Canyon on Sunday, August 5.

BUSINESS MEN TO MEET AT NEWS OFFICE FRIDAY NIGHT

A meeting of the Canyon Business Men's Association has been called at the News office Friday night at 8:30 for the purpose of arranging for a big day for the August Trades Day and to take up other matters of interest.

BURKHALTER URGES CONSERVATION OF MOISTURE

J. M. Burkhalter was a business caller in the city Friday from his farm east of Happy. He says that in his community the rains of last week were much heavier than around Canyon.

Mr. Burkhalter is an advocate of early plowing and the conservation of the summer and fall moisture by the use of the disc harrow. He says that there are field after field of the finest row crops this year in his community that he has ever seen on the plains.

Come to Canyon to live.

LEGISLATURE CALLED BY SPEAKER TO IMPEACH GOVERNOR FERGUSON

Speaker Fuller of the House, has called the legislature to meet in extraordinary session on August 1st for the purpose of instigating impeachment charges against Governor Jes. E. Ferguson.

The Speaker states as his reason that Ferguson misrepresented facts in the location of the West Texas A. & M. college. He gives further reason for impeachment, in the governor's veto of the university appropriation.

The call of the legislature at this time has caused little comment, as the call has been discussed and urged so forcefully that an extra session was generally expected.

No Work on Permanent Tabernacle

While the general opinion seems to favor the building of a permanent tabernacle, and building it this year, no steps have been taken toward the project.

A number of business men in discussing the proposition this week stated that the erection of temporary tabernacles every year was the most foolish waste of money they knew of in Canyon. Hardly a year passes without the expenditure of \$150 to \$250 on temporary tabernacles, which are far from satisfactory.

The Chautauqua Company has offered to pay from \$75 to \$100 for the use of a permanent tabernacle every year. The local Chautauqua committee could easily add \$15 to this amount in the saving of local expenses.

Second Examinations Close.

The second series of examinations will close today at the Normal. In the first series of examinations two weeks ago there were 240 students. In the second series there were 221 students. Over two hundred will leave for their homes this week.

Parent-Teachers Meeting.

The regular meeting of the Parent-Teachers Association will be held tomorrow, Friday, afternoon at 3:30 at the Normal auditorium. Mrs. Ernest Brown, Pres.

Trouble at City Wells.

The big well at the city pumping station was out of commission from Friday until Tuesday owing to a break in the pump, making it necessary to pull the piping. During that period water became very scarce in Canyon Saturday it was necessary to cut off the pressure and Saturday night at midnight the lights were put out as the small well could not furnish water enough to run the light plant and give water to the city.

The repairs were made by Tuesday noon and the water situation is in normal state.

The city needs larger storage capacity, as we barely have enough water to last twenty-four hours when a breakdown occurs.

Mr. and Mrs. C. W. Patterson and daughters, Misses Chloe and Francis of Amarillo, visited at the E. F. Miller home over Saturday and Sunday.

RANDALL COUNTY MUST FURNISH 34 MEN FOR THE NEW ARMY DRAWN

Yesterday afternoon the Randall County News received the following telegram regarding the men to be furnished for the new army from Randall County:

Ft. Worth, Texas, 3:35 p. m., July 25, 1917. THE NEWS, Canyon, Texas.

Randall County quota for new draft army announced today as 34.

STAR-TELEGRAM.

While this news is of great interest to the young men in the county, as yet not much light is shed on their standing, as it has not yet been announced whether or not this county is entitled to any credits for the men who have volunteered.

PRACTICALLY ALL MEN IN RANDALL COUNTY DRAWN FRIDAY FOR ARMY

On page two of this edition will be found the names of the men who were drawn Friday for the new army.

It will be noted that a number of names have not been drawn, or at least the News has no record of the same. The News was furnished telegraphic service Friday by the Ft. Worth Star-Telegram. The first part of the list as given out by the News was practically correct, but some errors were made in the transmission of the messages.

Full instructions as sent out by the government are printed on page three of this edition. Read these instructions carefully.

The local board of exemption composed of Oscar Smith, W. D. Morrel

and Dr. M. Stewart has not yet received instructions from Washington for further procedure. It will be necessary for them to first get the lists as drawn Friday in order to know who will be notified.

All men drawn should keep in mind that the government will mail them a notice but the local board will post a list of the men drawn in the post-office and it is every man's duty to find out where he stands on the list. This posted notice will be sufficient to call the man before the board, no matter should the mailed notice fail to reach him.

The young men of Randall county who are near the top of the list are ready to respond to the call of the country. It is not yet known just how many will be taken from Randall county but it is likely that on the first call the number will not be large. Every man on the list is expecting to be called at least by December first.

It is worthy of note that men who are called have an opportunity to volunteer before the local board asks them to appear. They may volunteer in any branch of the service that they may choose up until the local board receives their numbers from Washington.

Value of Good Roads.

The Dallas News of Tuesday put the cause of good roads in a short, concise manner, which should be brought forcefully to the minds of all county commissioners and all business men:

Good roads always had a "commercial value," but it was left for the automobile to make them a commercial necessity for the town or city that hopes to keep pace with the progress of its rivals. For the automobile twenty miles over a good road make a shorter distance than ten miles over a bad, or even an indifferent, one. The automobile will make the twenty-mile trip over a good road more economically than it will the ten-mile trip over a bad or indifferent one; more economically as to time and expense in wear and tear of the machine. Hence a town or city which seese a rival providing itself with good roads without doing anything to provide good roads for itself, is virtually surrendering trade territory to its rival. It is, as one might say, moving its customers over into convenient neighborhood of its rival. Distance is nothing, provided the road is good, but something quite important, provided the road is bad.

BUSINESS OF THE COUNTY COURT DURING THIS WEEK

The J. H. Waller estate was entered to probate during the County Court. Mrs. Waller was named administrator under the terms of the will.

G. O. Walker et al vs. Mrs. Phrosne Allen et al, judgment for the plaintiff.

State of Texas vs. Martine Torris, theft, \$1 fine assessed.

State of Texas vs. Harry Zimmerman theft, fine of \$1 assessed.

State of Texas vs. G. T. Dunn, a preemptory charge of not guilty was given.

State of Texas vs. Emory Turner, fine of \$25 for shooting Rexie Price and fine of \$25 for shooting Will Hood. The case against Mr. Turner for shooting the Turner boy was dismissed.

Presbyterian Services.

Rev. J. R. Rozell will preach at the Presbyterian Church Sunday morning. Mr. Rosell is here in the interest of the Lockett Adair meeting which will begin August 5th

COME TO CANYON TO LIVE.

Even Broader Service Available Through Increased Capital

Anticipating the growing banking needs of Canyon and vicinity, our capital has been increased from \$15,000.00 to \$25,000.00.

Always abreast of the times, it is the fixed policy of the FIRST STATE BANK of Canyon to place at the disposal of all, facilities and resources not only adequate but ample for every need.

Well equipped to handle new business, we extend a cordial invitation to consult with us whenever we can be of service.

The First State Bank Texas Canyon (The Only Guaranty Fund Bank in Randall County)

LISTEN

PEOPLE are acquiring automobiles, oriental rugs and finery, more rapidly these days than they are those things that make for their permanent success and ultimate good.

CALOMEL SALIVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

Canyon City Club Notice

Members will take notice that the by-laws will be strictly enforced. You MUST secure a permit when you take guests on the grounds and otherwise comply with the written rules of the club or suffer the consequences for non-compliance. The directors have information that such rules are being violated and this is to inform you that such conduct will not from this time on go unpunished.

Permits can be obtained from the secretary, or from Mrs. Morelock, at their home.

The general public is also notified that the club has secured the exclusive rights to fishing privileges on the J. M. Meyers section adjoining the club grounds on the east and that trespassing either on the club grounds or on said Meyers section will not be tolerated.

By order Board of Directors.
H. W. MORELOCK, Secretary.

BULLETIN OF INFORMATION FOR PERSONS DRAWN

Call for Examination.

As soon as quotas are assigned to each State and each board each board will call upon persons whose cards are in its jurisdiction instructing them to present themselves for examination. This call will be posted at the office of the local board and the papers will be requested to print it. A notice will also be mailed to you, but the posting of the list at the office of the board will be deemed sufficient notice to charge you with the duty of presenting yourself. The law therefore makes it your duty to inform yourself when you are called. The mailing is for your convenience, but if the letter never reaches you, you cannot make that an excuse.

Watch the lists at the office of your board and see when you are called for examination.

VI.

Physical Examination.

You must report for physical examination on the day named in your call.

(a) If you are found physically disqualified the board will give you a certificate which will explain to you what your further duties are.

(b) If you are found physically qualified and file a claim for exemption within 7 days after your call you will be given 10 days after filing your claim of exemption to file proof in support of your claim of exemption. See (VII) below.

(c) If you are found physically qualified and file no claim for exemption, or if you do not appear for physical examination, your name will be posted to the district board as one who was called for military service and was not exempted or discharged.

On the eighth day after call, or within two days thereafter, copies of the list of persons so posted to the district boards will be given to the press with a request for publication, will be posted in a place at the office of the local board accessible to the public view, and notice will be mailed to you at the address on your registration card.

Therefore watch the notices posted in the office of the board about 10 days after the day you were called and make arrangements for the prompt receipt of mail.

VII.

Seven Days to File Claims of Exemption or Discharge.

(Except for Industrial or Agricultural reasons.)

Note.

(a) No claim of discharge on account of the industry in which you are engaged can be directed by a local board. (See Par. XV, below.)

(b) Whether you file a claim of exemption or not, you must present yourself for physical examination on the day named in the notice.

From the day notice that you are called is mailed and posted you have seven days in which you may file a claim of exemption or discharge. The

CONSTIPATION

And Sour Stomach Caused This Lady Much Suffering. Black-Draught Relieved.

Meadorsville, Ky.—Mrs. Pearl Patrick, of this place, writes: "I was very constipated. I had sour stomach and was so uncomfortable. I went to the doctor. He gave me some pills. They weakened me and seemed to tear up my digestion. They would gripe me and afterwards it seemed I was more constipated than before. I heard of Black-Draught and decided to try it. I found it just what I needed. It was an easy laxative, and not bad to swallow. My digestion soon improved. I got well of the sour stomach, my bowels soon seemed normal, no more griping, and I would take a dose now and then, and was in good shape."

I cannot say too much for Black-Draught for it is the finest laxative one can use. Theodor's Black-Draught has for many years been found of great value in the treatment of stomach, liver and bowel troubles. Easy to take, gentle and reliable in its action, leaving no bad after-effects, it has won the praise of thousands of people who have used it.

form for filing this claim is simple. If you wish to file such a claim—

(a) Go to the board and get Form 110 for exemption or Form 121 for discharge. If the board has not the printed forms ask to consult the form pamphlet and copy the form shown there.

(b) Fill out the proper form and file it with the board.

(c) Do this within seven days of the posting and mailing of notice to you to present yourself.

The following are the only grounds for exemption:

1. That you are an officer, legislative, executive, or judicial of the United States, a State or Territory, or the District of Columbia.

2. That you are regular or duly ordained minister of religion.

3. That you were on May 18, 1917, a student preparing for the ministry in any recognized theological or divinity school.

4. That you are in the military or naval service of the United States.

5. That you are a subject of Germany, whether you have taken out papers or not.

6. That you are a resident alien who has not taken out first papers.

In addition to claims for exemption claims for discharge may be made on any of the following grounds, which are the only grounds for discharge by a local board.

1. That you are a county or municipal officer.

2. That you are a customhouse clerk.

3. That you are employed by the United States in the transmission of mails.

4. That you are an artificer or workman employed in an armory, arsenal, or navy yard of the United States.

5. That you are employed in the service of the United States (under certain conditions). See paragraph (e) of section 20, Regulations.

6. That you are a licensed pilot regularly employed in the pursuit of your vocation.

7. That you are a meriner actually employed in the sea service of any citizen or merchant within the United States.

8. That you are a married man with a wife or child dependent on you for support.

9. That you have a widowed mother dependent on your labor for support.

10. That you have aged or infirm parents dependent upon your labor for support.

11. That you are the father of a motherless child under 16 dependent upon your labor for support.

12. That you are a brother of an orphan child or children under 16 dependent on your labor for support.

13. That you are a member of any well-recognized religious sect or organization organized and existent May 18, 1917, and whose then-existing creed or principles forbade its members to participate in war in any form and whose religious convictions are against war or participation therein in accordance with the freed or principals of said religious organization.

These are the only grounds for exemption or discharge by a local board. Another person can file a claim in your behalf, but must use different forms in filing the claim.

VIII.
Ten Days After Filing Claim to File Proof.

Your claim of exemption or discharge must be filed within seven days of the day on which notice to you that you were called was posted and mailed. But after you have filed your claim for exemption or discharge you have ten days within which to file proof.

A BANK'S SUCCESS-- COMMUNITY'S GAIN

In conducting the affairs of this bank, the management has always believed that men of good business judgment and conservative ideas appreciate the sound, progressive bank conducted on safe and strictly business lines; that its growth and success are the community's gain; that such a bank best protects the interests of its depositors, and thus proves its greatest help to the commercial development and credit of the community.

The Citizens Bank Of Canyon

(Unincorporated)

THE BANK THAT APPRECIATES YOUR BUSINESS

Deposits June 18th, \$148,664.06.

The method of proving claims is very simple but it is rather exact. If you follow the rules given below you will have done what is required of you.

First. Go to the local board and consult the regulations to find out the form number of the affidavits that you must submit for your particular claim.

Second. Ask the board for the blank affidavits that are necessary in presenting your proof; if the board has not the forms, ask to consult the pamphlet of forms.

Third. Have the affidavits properly accomplished and return them to the board within the time limit assigned you—10 days from the filing of your claim.

Remember:

(a) You must submit your proof in the prescribed form and the board has no authority to exempt or discharge you unless you submit all the affidavits required by regulations.

(b) There will be no argument before the board and no proof other than the prescribed affidavits unless the board calls for other proof which it will do in only a limited number of cases.

IX. When Claims Are Decided.

Every claim for discharge or exemption will be decided by the local board within three days after your affidavits have been filed.

X. Certificate of Exemption or Discharge

If your claim is allowed a certificate of exemption or discharge will be issued to you.

Remember:

(a) This certificate may be recalled at any time.

(b) If it is temporary or conditional, it becomes of no effect when the time or the condition named are fulfilled.

(c) You have been drawn for military service and when the condition that has postponed your posting to the colors ceases you may be recalled at any time.

(d) Remember that your case may still be appealed to the district board by the Government and on this appeal your certificate may be withdrawn at once. When so withdrawn you stand precisely as though you had been selected for military service by the local board.

XI. Adverse Decisions on Claim.

If your claim is disallowed by the local board your name will be certifi-

ed and sent by the local board to the district board as one who has been called for military service and not exempted or discharged. Within two days thereafter, if practicable, a list of those so certified to the district will be given to the press with a request for publication, will be posted in the offices of the local board accessible to the public view, and notice will be mailed to the address on your registration card.

Therefore, if you have filed a claim for exemption and proof in support thereof, watch the notices in the office of the local board beginning about five days after you have filed your proof to see what disposition was made of your case and make arrangements for the prompt receipt of mail.

XII. How to Claim Appeals to District Boards.

Claims of appeal may be made by a person within 10 days after the day when notice has been posted and mailed that such person's name has been certified to the district board as one who has been called for service and not exempted or discharged.

Therefore if you desire to appeal—

XIII. Proving Your Appeal.

1. Go to the local board and get or copy Form 153 or 154 for filing your claim of appeal.

XIV. Decisions on Appeal.

The decision on your appeal must be made within five days of the closing of proof and you will be notified by mail of the action of the board on your appeal.

XV. Claims for Discharge on Industrial Grounds.

Only the district board can receive claims for discharge on the ground that you are engaged in industry, including agriculture found to be necessary to the maintenance of the military establishment, the effective operation of the military forces, or the maintenance of national interest during the emergency.

Such claims must be filed with the district board on or before the fifth day after the mailing and posting of notice that you have been certified by the local board as one who has been called for service and not exempted or discharged.

If you desire to file such a claim:

1. Get or copy at the local district board Form 161a.

2. Fill the form out properly.

3. File it with the district board within five days after the mailing and posting of notice that your name has been certified from the local board to the district board.

See section 44, Regulations. (Continued on page 6)

2. Get or copy also Form 151 or 152 for notifying the district board of appeal.

3. File your claim of appeal (153 or 154) with the local board.

4. Send your notice of appeal (Form 151 or 152) to the district board.

5. Do this within 10 days from the day when notice that your name was certified to the district board was posted and mailed.

Remember:

1. You can only appeal the final order of the board exempting or discharging or refusing to exempt or discharge you. You can not appeal other orders or action of the local board.

XIII. Proving Your Appeal.

You have five days after the district board receives your notice that you have filed a claim of appeal in which to file evidence additional to that filed by you in the local board, but all such evidence must consist of affidavits.

XIV. Decisions on Appeal.

The decision on your appeal must be made within five days of the closing of proof and you will be notified by mail of the action of the board on your appeal.

XV. Claims for Discharge on Industrial Grounds.

Only the district board can receive claims for discharge on the ground that you are engaged in industry, including agriculture found to be necessary to the maintenance of the military establishment, the effective operation of the military forces, or the maintenance of national interest during the emergency.

Such claims must be filed with the district board on or before the fifth day after the mailing and posting of notice that you have been certified by the local board as one who has been called for service and not exempted or discharged.

If you desire to file such a claim:

1. Get or copy at the local district board Form 161a.

2. Fill the form out properly.

3. File it with the district board within five days after the mailing and posting of notice that your name has been certified from the local board to the district board.

See section 44, Regulations. (Continued on page 6)

HAVE YOU BEEN SICK?

Then you realize the utter weakness that robs ambition, destroys appetite, and makes work a burden. To restore that strength and stamina that is so essential, nothing has ever equalled or compared with Scott's Emulsion, because its strength-sustaining nourishment invigorates the blood to distribute energy throughout the body while its tonic value sharpens the appetite and restores health in a natural, permanent way. If you are run down, tired, nervous, overworked or lack strength, get Scott's Emulsion to-day. It is free from alcohol. Scott & Bowne, Bloomfield, N. J.

The Randall County News

Incorporated under the laws of Texas
C. W. Warwick, Managing Editor

Entered at postoffice at Canyon, Texas, as second class matter. Office of publication, West Houston St.

SUBSCRIPTION, \$1.50 PER YEAR

The complain has been registered that instead of becoming more democratic, President Wilson is driving us toward autocratic. Why blame him, with the burdens of the world war on his hands and petty fights on every hand in this country as the Denman-Goethel episode. Give Wilson a free hand and the war will soon be over—bind down the country under the load of petty jealous politicians, and we have years of hard fighting.

The young men of Randall county appreciated the service the News was able to give during the drawing of numbers Friday. The News in turn is indebted to the Ft. Worth Star-Telegram for sending us this information. The Star-Telegram is a great friend of the country newspaper man and believes in serving him whenever possible.

It is amusing to watch the expression on the faces in an audience when national airs are being played. Only a few know the Star Spangled Banner when it starts, and a bunch of other folks will stand up on most any national air, rather than miss the Star Spangled Banner. Let's learn our one national hymn, even if it is hard to learn.

Joe Warren has sold the Clarendon News to Sam M. Braswell, an instructor in the University of Texas School of Journalism. Warren put out one of the best papers in Texas and the new man will have a job to keep the paper up to its standard during the past six years—but his first issue was a good one. Luck to you Joe; greetings—Sam.

A meeting will be held in Sweetwater today to discuss methods of procedure in handling the West Texas A. & M. mis-location at Abilene.

The gospel of the clean plate should be preached in every home. Save the waste and win the war. The saving from many dinner plates would feed soldiers for a day or more.

The Chautauqua is over, and you have before you twelve months to meditate upon the good things you heard and contemplate the good things you will hear next year.

Canyon has a live bunch of business men when it comes to putting over things that are good. Let all help them.

The men who were drawn Friday have the privilege of enlisting in the army or national guard until they are called, if they so chose.

You have not yet learned the true meaning of life if your daily task is a grind instead of a glory.

The government is urging that every available acre be planted to wheat this fall, Randall county will do her share.

It will be surprising, indeed, if the legislature acts favorably in the case of impeaching Governor Ferguson when it meets in extra session on August first. The Governor has acted very unwisely and has taken possession of the affairs of the state in a high handed manner, but has not gone so far as to bring impeachment charges close his door. However, one never knows what he may expect from a legislature and right now may be a splendid time for the thunder makers.

Peddlers in Kansas are charged with selling pedicels which bring deadly diseases. Leave them alone at all times. The manufacturer who will not allow his goods to be sold by the local merchant has shoddy stuff which he could not sell the local man even if he wanted to.

Under the terms of the Food Bill which was passed by Congress the farmer is guaranteed \$2 per bushel for his wheat. It has been as high as \$2.60 in Canyon during the past week but little has been delivered.

The row crop is making a wonderful growth after the rains of last week. With continued hot weather, there will be much grain made this year in Randall county in spite of the drought.

The Russians have made great drives along the Austrian border, but are again disrupted. A few thousand U. S. boys on that line would do much to keep the Russians on the job.

Our "Sammies" seem to be enjoying themselves in France. Here's hoping they will soon enjoy the scenery of Berlin.

We hope that most people have profited enough by the Chautauqua to spell the word properly.

Siam has declared war upon Germany. That makes it bad for Germany.

What is LAX-FOS

LAX-FOS IS AN IMPROVED CASCARA
A Digestive Liquid Laxative, Cathartic and Liver Tonic. Contains Cascara Bark, Blue Flag Root, Rhubarb Root, Black Root, May Apple Root, Senna Leaves and Pepsin. Combines strength with palatable aromatic taste. Does not gripe. 50c

Whenever You Need a General Tonic Take Grove's
The Old Standard Grove's Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

NORMAL NOTES.
The resident men of the faculty gave the visiting members a stag party at the canyon Friday afternoon. Miss Hudspeth has as her guests her niece and nephew, Elizabeth and Claude Hudspeth, of El Paso.
Miss Stewart, student secretary of the Y. W. C. A. visited us last week and gave an inspiring talk in chapel Saturday morning.
Miss Nita Jaeggli, a former student of the Normal, is visiting Miss Viola Cherry at Huntleigh Hall this week.
Will and Merritt are visiting at the

Nature Needs Assistance In Keeping You Well

A little help goes a long ways.

If you would keep your body in a healthy and robust condition, throbbing with that splendid vitality that indicates freedom from all ailments, first of all see that your blood is kept pure. Any slight impurity that creeps into your blood will soon effect the well-being of your whole system. A few bottles of S. S. S. will give just the assistance that nature needs

in keeping the blood absolutely free of all impurities. This old remedy is a wonderful purifier and tonic, and has no equal for keeping the blood rich and pure. It builds up the appetite and tones up the entire system. S. S. S. is sold by druggists everywhere. It has been successfully used for more than fifty years, and people in practically every state testify to its great worth. Write for booklets and free medical advice to Swift Specific Co., Dept. E Atlanta, Ga.

home of their sister, Mrs. Cleveland Baker. The former spent last year in our school.

The regular meeting of the Y. W. C. A. will be held Thursday evening on Miss Hudspeth's lawn. The program will consist of story-telling and games. This should be of interest to every rural teacher.
Mr. Marquis and family spent Monday in Amarillo.
Miss McGinley, our librarian, spent Sunday and Monday in Amarillo.
Misses Eunice Thompson, Effie Renfro, Callie Stinebaugh and Polly Criswell of the Reid boarding house, who have been attending the summer normal, will leave for their homes tonight.
Miss Rambo visited Amarillo Monday in the interest of the Red Cross work.
Dick Boll, a former student, is visiting friends in the city.
D. M. Hopper, who has been teaching in Meteor, Floyd county, is visiting friends in the city.
M. M. Dupree of Lubbock, who is teaching in the Normal, is spending a few days at home.

The excitement concerning the numbers drawn at Washington last week made its way into our school. Three faculty members, Mr. Stilwell of the English department, and Messrs. Cleveland Baker and Herman Glass of the Training School were drawn. The following is a list of the students drawn: W. E. Richardson, Henry Baker, W. J. Holloway, Kenneth Hunt, Earle Standlee, Dick Harding, Mr. Bullock, E. Gatewood, Edd Jay, Knox Kinard, Mr. Smith and Mr. Tucker.
Supt. J. W. Bird and wife of Memphis have been visiting the Normal for several days.
Miss Leone Underwood visited with friends in Tulsa Sunday and Monday.
Miss Nettie Moore, who has been home on account of illness, is now back in school.
The second summer normal examina-

tions will close today. The students are leaving as rapidly as their work is finished.

B. M. Harrison of Hereford and Mr. Dufflot of Amarillo, who have been teaching in the summer normal, leave tonight for their homes.
Miss Vera Bigby and Miss Ellen McMaster visited friends in Amarillo Saturday night and Sunday.
Mr. Curtis, a former student, visited friends in Canyon last week.
The Y. M. C. A. and Y. W. C. A. met in a joint session last Sunday. An address was delivered by Rev. Faris, pastor of the Christian Church. About two hundred were present.
Homer Jackson of Vernon is visiting friends in Canyon.
Last Monday a party consisting of Miss Hudspeth, Claude and Elizabeth Hudspeth, Mrs. Blaine, Herman Glass, Floyd Glass, Abbie Clibourne, Misses Bell, Hibbets and Ritchie, Mrs. Bowen, Miss O'Keefe, Brunette Francis and George Ritchie, spent the afternoon and evening at the Canyon. The party visited the "Light House", took supper at a ranch house spring on return and reached home at 9:30.

To Cure a Cold in One Day
Take LAXATIVE BROMO Quinine. It stops the Cough and Headache and works off the Cold. Druggists refund money if it fails to cure. E. W. GROVE'S signature on each box. 25c.

Happy Happenings.
Several from here attended the Chautauqua Saturday night. Among those who attended were Clark Neff, Jim Gurley, Elmer Zoellers, John Pope, Misses Ida and Mildred Zoellers, Ava O. Bear, and Wm. F. Miller and family.
Mrs. Roy Smith returned to her home at Abernathy last Sunday.
Mrs. Holden is visiting her daughter, Mrs. Ben Hogue.
Mr. and Mrs. Money, Mrs. Howard Stephenson and family visited relatives in Silvertown Sunday.
Grandpa Hogue had another bad spell with his heart last Sunday and is still confined to his bed.
Miss Mildred McManigal who is attending the Normal at Canyon spent Sunday with home folks.
Miss Detrich and Miss Lois Cantrell of Tulsa visited over Sunday at the J. J. Bauer home.
Miss Mary Wooten of Cordell, Okla. arrived this week to visit her brother here.
Miss Ava O. Rear went to Canyon last Saturday to attend the Chautauqua and visit friends over Sunday.
Little Miss Eula Stratton, who has been visiting her aunt, Mrs. W. C. White the past month, left Monday to

visit her uncles, Bob and Chas. Stratton, before returning to her home at Wichita Falls.

Rev. Corney of Ft. Worth gave a temperance lecture last Sunday morning at the Methodist church.
Miss Marion McNaughton entertained her Sunday school class last Monday night at the home of her parents, Mr. and Mrs. J. M. McNaughton. Ice cream and cake were served.
Mrs. E. A. Patterson is on the sick list this week.
Quite a number from here were drawn in the draft: Among them are Clark Neff, John Zook, Lester, Archie Havey and Ed Jones, Charles Innis, George Walker, Joe Evans, A. H. Garaway, C. F. Shenefelt, John Fletcher.
Miss Alkinson of Tulsa is visiting her aunt, Mrs. Finley, this week.
Mrs. Parker is on the sick list this week.
Mr. Baker visited this week at the McCreery home at Wayside.

Sheriff's Notice of Election.
(Original School Tax)

THE STATE OF TEXAS, County of Randall.
NOTICE IS HEREBY GIVEN that an election will be held on the 18th day of August 1917, at Knox School House in Common School District No. Nine of this County, as established by order of the Commissioners' Court of this County of date the 11th day of May 1909, which is recorded in Book Two, pages 197, of the Minutes of said Court (a) to determine whether a majority of the legally qualified tax-paying voters of that District desire to tax themselves for the purpose of supplementing the State Fund apportioned to said District, and to determine whether the Commissioners' Court of this County shall be authorized to levy, assess and collect annually a tax of and at the rate of not exceeding fifty cents on the \$100 valuation of all taxable property in said District for said purpose.
All persons who are legally qualified voters of this State and of this County, and who are resident property taxpayers of said District, shall be entitled to vote at said election.
Said election was ordered by the County Judge of this County by order made the 24th day of July 1917, and this notice is given in pursuance of said order.
Dated this 24th day of July 1917.
1813 WORTH A. JENNINGS,
Sheriff Randall County, Texas.

Licenses to marriage were issued Monday to Percy Lewis Walters and Miss Maud Rachel Beasley, both residents of the southeast part of the county, in the Ceta community.

Miss Lela Hill of Silverton visited Miss Locha Mae Myers last week.

Ed L. Nowels of Slaton was a week end guest at the Judge Buie home.

J. B. Younger stated yesterday that his son, John, was now a member of the aviation corps at Austin. Another son, James, is in the Leon Springs training camp.

Dewey Foster is back in the post-office, taking the place of clerk under the new second class office regulation.

Mr. and Mrs. J. E. Pennington and Tom McClure and family of Claude spent Sunday at the S. B. McClure home. Mrs. J. E. Pennington is a sister and Mr. McClure a brother of S. B. McClure.

Mrs. Lilburn Thompson of Amarillo is spending the week at the parental J. E. Rogers home.

Lilburn Thompson has accepted a position with the Santa Fe, as civil engineer, with headquarters in Amarillo.

Miss Kathryn Willingham visited at her home in Amarillo over Sunday.

OUR SOLDIERS

Called to the front. There will be great rejoicing when you return and tell how you planted civilization where only "Kultur" grew before. In the meantime, your friends will want a good picture of you to look at when they think of you daily on the battlefield. The logical place to have them made is the Lusby Studio where prices are so reasonable. t1

City Taxes Due. City taxes for the year 1917 in the city of Canyon City, Texas, are due and payable August 1st, 1917. On September 1, 1917, they go to the delinquent list and penalty and interest added.

J. E. ROGERS, Collector

LOCAL NEWS

Mr. and Mrs. J. B. Gamble are home from Iowa, where Mrs. Gamble has been visiting for six weeks. Mr. Gamble went up last week with a shipment of his cattle.

ATTENTION!

I would like to sell 220 acres, improved, two miles south of Canyon. Do you want to figure with me. W. W. Lynch, Box 1402, Amarillo, Texas 1713

Rev. and Mrs. Hawkins and son Marcellus were here over Sunday from Wellington. Marcellus leaves next week with the National Guard for the training camp.

Lyman Davis has returned from McKinney where he has been visiting for a few weeks.

Mrs. L. Angel was an Amarillo caller Tuesday.

Cecil Tate left Tuesday for Tucumcari where he will work at the light plant of that city.

W. E. Bates was in Amarillo on Tuesday.

Baily Leverton returned Tuesday from his ranch in New Mexico.

Clyde Baird was an Amarillo caller Tuesday.

Herb Miller and Ben Winkelman were Amarillo callers Sunday.

Oscar Gamble was an Amarillo caller Sunday.

Ben Winkelman has joined Cap. Barton's new company of Texas National Guard in Amarillo.

Clint Bybee drove to Amarillo on Sunday.

Red Cross Material Here.

The first consignment of Red Cross material has been received by Mrs. D. M. Stewart, president of the local chapter. The room in the Court House will be open for work next Tuesday morning.

A number of girls will be needed to assist in winding yarn.

Calling cards printed or engraved at News office. t1

It is reported that Saturday night's storm destroyed a windmill on the Beaver ranch and a barn on the C. C. Davis ranch 22 miles southeast of here.—Kenna (N.M.) Record.

Which Is More Profitable. Is it more profitable to sell butter-fat to the creamery or butter to the merchant?

Texas produced sixty-five million pounds of butter in 1909 and sold twelve million pounds to merchants; at the same time one million two hundred thousand pounds of butter-fat were sold to creameries, or one pound of butter-fat was sold to creameries for each ten pounds of butter sold to merchants, while in New York thirty pounds of butter-fat were sold to the creameries for each ten pounds of butter sold to merchants; and with one-half more milk cows in New York than in Texas; New York farmers made fifteen times more money from selling milk and milk products than Texas farmers. These are U. S. Government figures.

It is hard to make good butter under average farm conditions, and the larger part bought by merchants and paid for in trade goes to the soap factories or is "processed." The creamery is specially equipped for butter-making, while the farmer is not, and through being able to maintain a certain, even temperature, can get every particle of butter from the cream. Therefore the creamery can pay for every pound of butter-fat in the cream, while the farmer's wife, with the limited means at her disposal, has to trust a whole lot to luck and very often loses a large per cent of the butter-fat in the buttermilk. The creamery makes butter always under the same conditions and turns out a uniform product, which she cannot hope to do without ice. The creamery pays for butter-fat with cash; unless country butter is of high quality the merchant does not want it and takes it largely as an accommodation, paying for it in trade in which his profit on the goods and re-sale of the butter is counted off. If what butter-fat brings in cash will buy more goods at the store than what the butter buys in trade, it is more profitable to sell butter-fat when it is as easy to get to the creamery as to the store, and one has saved the work of making butter, besides.—Porter A. Whaler, Secretary Panhandle Dairy Association.

Expert After Rabbits.

The Melrose, New Mexico Farm Bureau has secured the services of a government expert to deal with the rabbit situation in Curry county. J. G. Crick, of the Biological Survey, has been in that section and says that the rabbits can be entirely eliminated but it will require the organized efforts of every farmer in the county for some time. He recommends the following formula for poisoning the pests:

"Mix 1 tablespoon of starch in 1/2 teacup of cold water and stir into 1 pint of hot water to make a clear thin paste. Mix 1 ounce of powdered strychnine with one ounce of powdered bicarbonate of soda, (cooking soda) and stir with the starch to a smooth, creamy mass. Stir in 1-10 ounce saccharine. Apply to 12 quarts of good clean milo maize, and mix thoroughly to coat each kernel. Scatter sparingly along rabbit trails about a teaspoonful in a place or expose more liberally where stock will not be endangered.

Irrigation in Ellis County.

Mr. G. W. Brink who lives south of Gage, has recently installed a small irrigation plant and it is now in working order. He has four or five acres under the irrigation and is able to furnish plenty of water at a small expense. He has out potatoes, tomatoes, peanuts, melons, etc., and they are looking fine.

Mr. Booth on Ivanhoe creek out west of Gage has about fifteen acres under the ditch which is planted to potatoes. These are looking fine, and has plenty of water.

COME TO CANYON TO LIVE.

GERMANS DESERT ARMY IN DROVES

Story From Holland Says Uhlans Were Sent to Shoot Them Down.

BEG FOOD AT DUTCH BORDER

Weary of War and Depressed by Hunger They No Longer Believe in German Victory, but Are Eager for Peace.

By W. J. L. KIEHL. (Special Correspondence of the Chicago Daily News.)

The Hague, Holland.—On the southern border of Holland desertions from the German army occur on a large scale nowadays. At first it was only a single soldier here and there, then they came by threes and fives, later in groups of ten and twenty, but now as many as seventy and eighty come in at a time. A few days ago a little army tried to desert—some 500 to 600 men, mostly fusiliers, marines and land-sturm.

The Dutch report says that they attempted to cross near Cadsand, but the German military authorities got wind of it, and 200 Uhlans with two machine guns were dispatched from Bruges to head them back. A formal battle raged between the two forces; it was viewed from Holland. The machine guns got in their deadly work, and almost all the would-be deserters were either killed or captured; only eight wounded men succeeded in reaching Dutch soil and safety.

Every fresh arrival, deserter or escaped prisoner, tells the same story of famine conditions in Belgium and Germany, and depression among the soldiers, who dread being sent to the front. They no longer believe in German victory, but are eager for peace. Only one escaped prisoner had a different story to tell, and that man was a Russian general, who arrived in Maastrecht accompanied by two German "flight lieutenants" who had escaped with him.

Russian Gets Through Lines.

This general believed the Germans can never be reduced by hunger. "They will eat grass or the dust from the street rather than surrender on the allies' terms," he said. He told how bad the treatment and the food was in the German prison camps; he had been in seven, so he could judge. After every attempt to escape he had been transferred to a different camp, but everywhere the prisoners were treated brutally, the officers as well as the men. How he had at last succeeded in getting away with his two companions he preferred not to say—because he feared that would make escape more difficult for his comrades still in captivity. He did, however, say that what made escape very difficult was that it caused great surprise to people in German towns and villages to see three able-bodied men walking about, and he and his companions had been obliged to invent all sorts of tales about having been wounded and being now on leave to account for their absence from the front.

German soldiers frankly beg for food on the Dutch border. The officers don't go quite as far as that. There is a sort of neutral zone along the frontier where Germans and Hollanders can meet. There the German officers often congregate and make overtures of comradeship to their colleagues on the other side. Friendly relations exist, and when the luncheon hour comes, the Netherlands see what poor provisions the Germans have, they invite the Germans to lunch. A picnic is held and the Germans consume incredible quantities of rolls, sausages or ham sandwiches, and loudly praise the coffee the orderlies of their Dutch comrades serve. They say they never get good coffee any more.

Although the Dutch officer often meets his German colleagues, it must not be supposed he always agrees with their methods of discipline toward their own men. Both officers and soldiers in Holland, by far the greater number of them at least, strongly disapprove of the brutal and heartless way in which most German officers treat their men. The younger officers show this by chaffing the Germans about it.

Merchant Ranks Over Noble.

How the spirit of caste still rules in the German ranks is instanced by a little anecdote told me by a Dutch officer. He had come on friendly, "coffee" terms with a German officer, Von S., the personification, to the very monicle, of those "schneidige lieutenants" often lampooned in Germany. One day Von S. came to lunch bubbling over with indignation, for a simple "bourgeois," a former Berlin merchant, had been given the post of captain in his regiment, and he himself was first lieutenant.

"Denken sie sich, lieber Kamerad!" he exclaimed. "Ich! Von S. Unter einem Kaufmann aus Berlin!" He felt disgraced. But officers are beginning to get scarce in Germany, so the reserve officers who have acquitted themselves creditably have to be promoted to positions they would never have attained in peace times.

Fussed Up Her Hair.

Elyria, O.—Katie Fuss, in her divorce petition, says Steve Fuss fussed up her hair and exhibited a bunch of it to friends to prove he was victor in the broll.

Minor's Bandbox

Millinery and Accessories for Milady

The summer sun brings out White Satin, White Felt, and White Velour Hats, and we are showing every worthy style fresh from the workrooms of the best millinery houses in America.

We have your special style and design, a hat that will be becoming and be a pleasure to you. The numbers that we are showing are seen on Fifth Avenue, New York City, on State and Adams Street in Chicago, in Boston, Baltimore, Cleveland, Cincinnati—in fact, every city that shows all the up-to-the-minute styles.

Our prices are really less than you would find in most of the big cities. We will be glad to have you come in and try on as many as you like, even if you do not want to buy right now.

The prices range from \$1.50 to \$10.00—no two alike. And by the way, we have just finished many improvements and our Bandbox is now the most complete, coolest, cleanest and commodious millinery shop in the entire Panhandle country.

Formaldehyde for Bloat.

W. A. McPherson of Powers county tells how he fixed a case of bloat: "A neighbor came to me the other day and said very anxiously, 'Say, did you ever stick a cow? One of mine is bloated; she was down and I thought she would die anyway. Won't you come over and help me?' I had never stuck a cow but I had read that formaldehyde was a good remedy in case of bloat. I had some formaldehyde, a 2 ounce syringe and some iodine. Taking these along I went with him to where the cow was lying. She was sure enough down. I told him to get me a gallon of water and I poured into it about an ounce of formaldehyde and with the syringe began pumping the mixture into her stomach. I didn't know what the result would be but thought I couldn't kill her in quicker time than it would take her to die anyway. But behold a miracle. I hadn't used over six ounces of the mixture when the cow belched and got up. I then treated with iodine the wound he had made in sticking her. Using a smaller syringe I injected iodine into the wound. I left what remained of the mixture with him. A few days after he called and told me that the next day after I was there another cow became bloated and he had to use only a small amount of the formaldehyde mixture to cure her; also that the iodine had proved a wonderful healing remedy. I was very glad to be the means of saving the two cows and the remedy will be equally beneficial in other cases."—Field and Farm.

Invest in New Factory.

If I should come to your town asking for a \$30,000 bonus to establish a factory with an annual payroll of \$80,000 you would conclude that it would be good business because your merchants and bankers could figure that 10 per cent profits could be derived from the expenditure of this amount. In other words your town would realize \$6,000 a year clear profit on your investment of \$30,000.

The \$30,000 would purchase 200 head of cows that would produce over 15,000 pounds of milk per year. Fifteen thousand pounds of milk testing 3.8 per cent would amount to 570 pounds of butter fat, this at 30 cents per pound would be \$171.00. 12,500 pounds of skim milk fed to pigs and poultry is worth 75c per hundred pounds. 570 lbs. butterfat at 30c...\$171.00 12,500 lbs. skim milk at 75c... 93.75 75 per cent valuation of calf... 15.00

Total.....\$279.75 Revenue from 200 cows.....\$55,950.00

Not only this the factories are increasing from year. Your adjacent farm lands are increasing in fertility and value. Your educational and church facilities are increased, and best of all you are helping to build a better civilization. — A. K. SHORT, Agricultural Agent, Wichita Falls.

Mesa Farmers' Wheat Pays for Land.

Geo. Wagter expects to sell the wheat of 35 acres of land he bought last year to pay for the half section. He estimates it at 30 bushels per acre.

BACKACHE AND RHEUMATISM.

Dear Mr. Editor:
 "For the benefit of others, I gladly give this statement regarding the merits of Dr. Pierce's Anurie Tablets. Am nearly 76 years of age. I suffered from backache, weak back, rheumatism, and could not control the excretion of the kidneys. I can safely say that 'Anurie,' the new discovery of Dr. Pierce, Buffalo, N. Y., has done me more real good than anything I have ever taken for these ailments."
 Mrs. N. M. FLYNN,
 Dawson, Texas.

Note—"Anurie" prolongs life because old people usually suffer from hardening and thickening of walls of arteries, due to the excess of uric acid in blood.
 Dr. Pierce, Buffalo, N. Y., has been testing this medicine. The relief obtained by sufferers has been so satisfactory that he has placed "Anurie" with the druggists in town. If not obtainable, send 10 cents to Dr. Pierce for large trial package, or 50 cents for full treatment.

Texas Farmers Congress, College Station, July 30-August 4. Tickets on sale July 29-30, limit August 6, \$10.35 for the round trip.

Fall market buying season, Dallas, July to September. First meeting July 29 to Aug. 7. Round trip \$14.75, certificate plan.

XVI.
Proof in Support of Industrial Claim.
 Only affidavits can be used in filing proof before the district board of a claim for exemption on industrial grounds. All such affidavits must be filed within five days after the filing of the claim.

XVII.
Decisions of District Board on Industrial Claim.
 Within five days after the closing of proof in any industrial claim the district board must decide the claim. If the decision of the district board is in favor of the claim the board will issue a certificate of discharge. If the decision is against the claim the district boards will so notify you.

Remember that you have been called for military service and that the certificate of the district board is only conditional on your remaining in the kind of industrial service on account of which you were discharged. No such exemption shall continue when a course therefor no longer exists and your certificate of discharge may be withdrawn or modified by the district board at any time that the district board shall determine that the circumstances require it.

XVIII.
Appeals of Industrial Claim to the President.

Only decisions of district boards on industrial claims for discharge can be appealed.

If you desire to appeal the decision of the district boards to the President, you may do so within seven days of the date of mailing to you of the decision of the district board. To perfect your appeal--

1. Get or copy from the district or local board Form 163.
2. Fill out the form and file it with the district board.
3. Do this within seven days after the mailing of notice to you of the decision of the district board in your case.

XIX.
How You Will be Notified That You Have Been Selected For Military Service.

As soon as your case is finally disposed of, the adjutant general of your State will notify you by mail that you have been selected for military service.

Your local boards will post a list of all persons selected for military service in a place at the office of the local boards accessible to public view. The local board will also give lists of persons selected for military service to the press with requests for publication.

XX.
 Notice that you have been selected for military service will not necessarily order you into service.

The notice to report for military service will come when the Government is ready to receive you.
 E. H. CROWDER,
 Provost Marshal General.

An Eight-Hour Day for Ministers.

That most Preachers work hard for little pay is generally accepted as fact, and less for better remuneration for the clergy are of frequent occurrence in the pages of the religious press. The Lutheran (Lebanon, Pa.) remarks that while some ministers may take it easy, most of them fully earn their salaries. Where, it asks, "is the faithful minister who knows of such a thing as an eight-hour day?" "If he did work on an eight-hour basis, to carry out the following routine of labor, his year, as estimated by the industrious statistician quoted by The Lutheran, would be 534 days long instead of 365:

- 156 Sermons, study, and reflection..... 165 days
- 156 Sermons, writing (780,000 words)..... 78 days
- 52 Sundays..... 52 days
- 3 Hours a week given to church finances..... 20 days
- 1/2 Hour a week given to church music..... 3 days
- 1 Hour a week for funerals, weddings and christenings..... 6 days
- 1200 Half-hour parochial calls 75 days
- 6 Half-hour sick and distress calls a week..... 20 days
- 600 Miles, walking to pay calls..... 25 days
- 1 Hour a week, conferences with church officers..... 6 days
- 1 Hour a week attending church and Sunday-school organizations..... 6 days
- 1/2 Hour a week preparation for Bible School..... 3 days
- 1 Hour a week, denominational conferences..... 6 days
- 1 Hour a day given to civic and community work..... 39 days
- 1 Hour a day for unclassified work..... 39 days

We are reminded that this leaves no allowance "for much-needed recreation, which is as necessary to the workman as eating and drinking." The workman being mentioned, The Lutheran thinks it well to open the eyes of people who may not know that "laborers and citizens of all kinds are

YES! LIFT A CORN OFF WITHOUT PAIN!

Cincinnati authority tells how to dry up a corn or callus so it lifts off with fingers.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezeone applied directly on a tender, aching corn or callus, stops soreness at once and soon the corn or hardened callus loosens so it can be lifted out, root and all, without pain.

A small bottle of freezeone cost very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freezeone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.

much better paid than preachers." So it presents another little table, comparing workmen's wages with the average income of ministers, outside of the large cities, belonging to various denominations. The contrast, it is remarked, "would seem vastly more striking were ministers' salaries compared with those of baseball players, prize-fighters, football coaches, actors, actresses, and circus-clowns." Here are The Lutheran's figures:

Denomination of Minister	Average Salary
Southern Baptist	\$234
Disciples	526
United Brethren	547
M. E. Church, South	681
Northern Baptist	683
M. E. Church, North	741
Lutheran	744
Presbyterian	857
Congregational	880
Reformed Church	923
Presbyterian, North	977
Universalists	987
Protestant Episcopal	994
Unitarian	1,221

Trades	Average Yearly Income
Workers in bakeries	\$ 804
R. R. car-shop workers	907
Photo-engravers	1,087
Soap-makers	1,107
Fancy-box makers	1,145
Furniture-makers	1,194
Machine-shop workers	1,257
Paint and varnish-makers	1,441
Wall-paper workers	1,508
Billiard-table makers	1,511
Paper and pulp-makers	1,813
Carpet and rug-makers	1,825
Pencil-makers	1,869
Moving-picture men	1,913

Piles Cured in 6 to 14 Days
 Your druggist will refund money if PAZO OINTMENT fails to cure any case of itching, blind, bleeding or protruding Piles in 6 to 14 days. The first application gives Ease and Rest. 50c.

One hopes that the British Government will not go in for reprisals, as urged by a citizens' meeting in London. Let Teutonia bear alone the banner with the device we suggested a year or so ago: "Women and children first!"—Chicago Tribune.

PAY OF ARMY AND NAVY ON FOREIGN SERVICE

Men of the army and navy of all ranks will receive a 20 per cent increase in pay while on foreign service. The increase is figured on the 1908 schedules.

The revised schedule of the army and Marine corps, just issued at Washington, is as follows:

Rank	Monthly
Lieutenant general	\$16,17
Major general	6,66.67
Brigadier general	5,00.00
Colonel	3,33.33
Lieutenant colonel	2,91.67
Major	2,50.00
Captain	2,00.00
First lieutenant	1,66.67
Second lieutenant	1,41.67
First sergeant, all arms	61.00
Battalion sergeant major	45.00
Color sergeant	44.00
Sergeant, cavalry, artillery, infantry	38.00
Corporals, all arms	26.00
Privates, first class, engineers, ordnance, signal corps, hospital corps	31.00
Privates, second class, hospital corps	31.00
Privates	30.00

Nurses will receive an advance of \$10 a month. Doctors will receive pay equal to that of an army officer of equal rank. Chief nurses in general hospitals, base hospitals and hospital

ships are to receive a \$30 a month increase.

Pay in the navy under the new schedule will be as follows:

Rank	Monthly
Admirals	\$1,125.00 to \$1,275.00
Rear admirals (1st S)	666.67 to 733.33
Rear admirals (2d S)	500.00 to 550.00
Chiefs of bureaus	500.00
Captains	333.33 to 366.67
Commanders	250.00 to 275.00
Lieutenant commanders	200.00 to 230.00
Lieutenants, junior grade	166.67 to 191.67
Ensigns	141.67 to 148.88
Midshipmen - at sea - my	80.00
Chief boatswains, gunners, carpenters, sail-makers, machinists and pharmacists	141.67 to 155.67
Medical directors	333.33 to 366.67
Medical inspectors	291.67 to 320.83
Surgeons	250.00
Pay directors	333.33 to 366.67
Pay inspectors	291.67 to 320.83
Paymasters	250.00 to 275.00

Chief petty officers will receive from \$47.00 to \$77.50 a month; second class petty officers, \$41; first class seamen, \$38.40; ordinary seamen, \$32.00, and apprentice seamen, \$32.

24,000,000 MEN AT WAR, SAYS EXPERT

Gen. Sir William Robertson Gives Graphic Facts About Present Struggle.

DEATH TOLL IS APPALLING

British in France Fired 200,000 Tons of Ammunition in Five or Six Weeks—How Transportation Difficulties Are Overcome.

London.—Gen. Sir William Robertson in a speech recently gave a graphic impression of some of the extraordinary aspects of the present war. It has become merely rite to observe that the war has now completely overshadowed every other occupation and interest in the world, but the extent to which it has done this is suggested in a most forcible way by some figures which General Robertson employed.

In the armies of all the belligerents, he said, there are now 24,000,000 men, which excludes the great civilian armies behind the front; in the Franco-Prussian war the total of all casualties was less than 500,000, while in this war the killed alone can be counted by the million.

"During the past five or six weeks we have, I suppose," said General Robertson, "expended some 200,000 tons of ammunition, which has had to be moved by road, rail and sea from the factories in England to the guns in France and man-handled probably not less than half a dozen times."

Great Transportation Task.
 Two hundred thousand tons of ammunition means rather more than 16,000 carloads as measured by the miniature freight cars commonly loading about twelve tons that are used in England. General Robertson didn't suggest, but any railroad manager with whom one talks will promptly make good the omission, that the mere transportation of this one item of war supplies at a time when freight cars have been sent to France by the thousand constitutes a terrific drain on the country's capacity to move things.

To transport ammunition is a particularly delicate and dangerous business and it is only because of splendid organization and high efficiency among railroad employees that there have been so very few accidents and practically no real disasters as incidents to this service. General Robertson paid a special tribute to the men who have organized and carried on this branch of war work.

Comparing the scale and scope of the present war with former struggles, General Robertson was particularly interesting and impressive. He observed that the greatest peculiarity of the present war is in the colossal numbers of men employed at the front. As a matter of fact, he omitted to emphasize his figures by observing that the great proportion of the civil population immediately engaged in work for the support of the army is quite as impressive a peculiarity of this struggle.

A Warfare of Machinery.
 It is a warfare of machinery and mechanisms, many of them new and heretofore almost untried. These have required to be produced, to be tested and to have great bodies of men trained for using them.

Comparing the present war with that of 1870 between Germany and France, General Robertson observed that "in the 1870 war armies were counted by the hundred thousand, and at the battle of Gravelotte, where the heaviest losses were incurred, the total casualties were only about 33,000 men on both sides, while for the whole war the total casualties of both sides were less than half a million."

"In the present war the killed alone can be counted by the million, while the total number of men engaged amounts to nearly 24,000,000. In fact, this war is not, as in the past, a war merely of opposing armies, but a war of nations, and there is not today a man or woman in the empire who is not doing something either to help or to hinder the winning of the war. A

man of great distinction told me the other day that he estimated the weight of purely military effort at only 25 per cent of the whole, the remaining 75 per cent being, strictly speaking, of a nonmilitary nature, and made up of many elements—agriculture, food, shipping, diplomacy, etc. I think he is probably not far wrong, and when people ask me, as they sometimes do, how the war is getting on, I feel inclined to reply, 'Why ask me? Why not ask yourself and the remainder of the 75 per cent?'

Allies Outnumber Enemy.
 General Robertson's figure of 24,000,000 as the number of men actually engaged in the military operations is probably based on as good information as any man in the world possesses. The British general staff knows all about the armies of the entente countries, and knows all that anybody outside Berlin and Vienna knows about those of the central powers.

He didn't suggest how the numbers are now divided between the two sides, but it is very certain that the entente nations decidedly outweigh their enemies in mere numbers. The Germanic powers on the other hand, have the great advantage of shorter lines and easier communications. With Russia comparatively inactive, it is not at all certain that the weight of numbers is now very decidedly in favor of the entente peoples. But the weight of machinery is decidedly to their advantage.

In this connection there has been some intimation in Petrograd recently of the possibility that Japan might be called upon in some fashion to take a more active part in the struggle.

The first suggestion of this sort which came from Russia was in a brief dispatch saying the government had categorically denied persistent rumors that Japan might be employed to bring pressure against Russia with the purpose of convincing Russia that it would be highly undesirable for her to repudiate her obligations to her allies. Such a suggestion of course would be most unfortunate, and the denial from Petrograd is unquestionably absolutely correct, according to the best authorities here.

World's Greatest Reserve.
 But while the employment of Japanese force as an argument with Russia is quite unthinkable there has been a renewal of the suggestion that Japan's magnificent army might yet require to be employed in some way in the European field. It represents the greatest reserve of completely prepared military force that ever stood behind an active military campaign in the world. If there were only means of moving it Japan could readily and quickly put 2,000,000, or if necessary 4,000,000, soldiers into the field.

To move any considerable proportion of such a force even into the nearest fighting areas by water is a ridiculous impossibility at this time. But there has been serious discussion, I am told, at some of the recent conferences among allied leaders of the possibility of bringing Japanese soldiers to Europe by way of the Transsiberian railway. Today this would necessitate an immense expansion of the carrying capacity of that route.

A very large part of it has now been double-tracked, and if it shall be recognized by the end of this year that the war is likely to continue several years the further development of Transsiberian tonnage capacity might be found feasible and even necessary.

One thing is certain and that is that on neither side is there at present any such prejudice as formerly existed against introducing Asiatics and Africans among the European battlefields.

The conception of this war as a war of the whole world has been strengthened very greatly since the beginning of the present year. It is looked upon by the western powers now as everybody's war, a war in which everybody has not only an interest but a duty to perform. That conception has affected the attitude of remote and detached peoples to a striking extent. For example, among tribes in Africa which would not be presumed to know anything about what is happening in Europe it is said that there is a very considerable interest and a desire to help the western nations.

Baby Drank Coal Oil and Died.
 Wheeling, W. Va.—The eighteen-month-old son of Mr. and Mrs. William Hope drank coal oil from a cup and died within a few hours in spite of attention by a physician.

YOU WANT A BETTER JOB?

Business men seeking your services will ask you that question almost daily if you take the Draughtman, Training and show ambition to rise. Colleges in U. S. States. All com'l branches taught. For prices on course AT COLLEGE or lessons BY MAIL, write: BRAUGHMAN'S PRACTICAL BUSINESS COLLEGE, C. H. Williams, Mgr., Amarillo, Texas

American Opportunities.
 Nothing is so plentiful in America as opportunity. There are more jobs for forceful men than there are forceful men to fill them.

The man who has done his best has done everything. The man who has done less than his best has done nothing.

Nothing is more fatal to success than taking one's job as a matter of course.

The man who fails to give fair service during the hours for which he is paid is dishonest. The man who is not willing to give more than this is foolish.

Captains of industry are not hunting money. America is heavy with it. They are seeking brains—specialized brains—and faithful, loyal service.

The man who attracts attention is the man who is thinking all the time, and expressing himself in little ways. It is not the man who tries to dazzle his employer by doing the theatrical, the spectacular.

—Chas. M. Schwab

The Willing Worker—there are many such—but which it he? He is the one who knows his task and cheerfully performs it.

He is the man whose mind, instead of counting the days until payday, is filled with thoughts of daily increasing his efficiency in performing his allotted tasks.

He is the man whose eyes, instead of being glued to the revolution of the minute hand on the dial of the clock, are seeking fresh opportunities to increase his productive powers.

He is the man whose ears, instead of being strained to catch the first blast of the closing whistle, are ever ready to hear the needed advice from those in authority.

He is the man whose hands, instead of shirking, are constantly employed him.

He is the man whose heart, instead of being dulled by the follies of dissipation, is kept clear by regular hours and regular habits.

In short, the willing worker is he who has an eye single to the interests of the man who pays him for his labor.

—Cal Williams in "Jeffrey Service".

The Quinine That Does Not Affect The Head
 Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor tingling in head. Remember the full name and look for the signature of E. W. GROVE, Inc.

A young captain named Ulysses G. Lee has just been assigned to duty in the regular Army. Which strikes one as being about the last word in the obliteration of "sectionalism!"—Atlanta Constitution.

Germany will see to it that never again will Belgium serve as a base of attack for English troops.—Vossische Zeitung. Yes, the way the British myriads smashed through Belgium in 1914 and fell upon poor Germany was shocking.—New York World.

TRAINING MEN TO DO UNCLE SAM'S NAVAL FIGHTING

About 8,200 Men Being Fitted for the Navy at the Great Lakes Station.

EVERY MINUTE IS OCCUPIED

Keen Determination to Make Good is the Prevailing Spirit of the Camp—Plan to Make Station Largest of Kind in World.

Great Lakes, Ill.—About 8,200 men are being fitted for fighting in the nation's first line of defense at the United States naval training station here.

Not unlike that in a big college football camp is the routine of their training. Chief petty officers are the coaches who drill the men up and down the fields in the final days of preparation for the big game—war.

Every minute is made to men something. On a dozen fields the air is filled with the authoritative commands of the officers and the pounding of thousands of heavily-shod feet on the turf. Commingling is the blare of the bands, which are directed by Lieut. John Philip Sousa, famous bandmaster, who now has 242 musicians in training and expects to develop the finest military band in the world.

But the spirit of the camp is as serious as that in a football camp. And, as evinced by the last days of November in any college, the statement is not meant lightly. Everywhere about the station the sentiment seems to be to stick to the team and make a good showing in the eyes of the coaches that a permanent place may be obtained in the greatest game of all. C. G. Smith, captain of this year's football eleven at the University of Michigan, expressed this when he said:

"We are going in with everything we have. We are going to win and make the commandant, Capt. W. A. Moffett, proud of us when we go to sea or be ground to pieces trying."

To Train 20,000 Men. Plans are under way to make the station the largest of its kind in the world. Preparations have been made to train upward of 20,000 men during the summer. The navy department, upon the suggestion of Captain Moffett, has asked congress to appropriate funds for this purpose.

Constructed originally for 100 men, the war and the resultant influx of recruits has necessitated the springing up of a white, tented city on the reservation and adjoining leased land. Camp Paul Jones, lying immediately to the north of the station proper has been fully equipped and shelters 5,000 men, among them the naval militia from the states of Michigan and Missouri.

It is believed that the station will train five-eighths of the men who go to the navy during the war. Recruits from practically every community in the middle West are expected, men from Illinois, Indiana, Ohio, Michigan, Wisconsin, Minnesota, North Dakota, South Dakota, Nebraska, Kansas, Missouri, Iowa, Kentucky and parts of other states being sent here to learn the business of a man-of-warman.

Men of Every Station. Virile young Americans, from the colleges, offices, farms and factories of the middle West, the men at the station seem to be trained for almost anything. Here one may see a civil engineer, enlisted as an apprentice seaman, using his transit to make bench marks, while over there on the corner of the reservation are the two slender, 400-foot wireless towers from which a man is sending a wireless message to the government station in Arlington, Va. In the heterogeneous personnel there is a representative of almost every trade, profession and business.

Home-sickness is a disease that has little place at the station. There is

MISS HELEN KELLER

Miss Helen Keller and her granddane "Shora" under her favorite tree.

not time for it. Lying in the sun-swept harbor of Lake Michigan, below the wooded bluffs of the reservation are United States navy warships, aboard which the men get some of their training. For the leisure hours the dimpling waters of the lake invites the more hardy to bathe.

Then there are organized athletics, under the supervision of a naval officer. Regular track meets, boxing bouts and baseball games are held. Also there is a gymnasium and a fully equipped library to occupy the time.

Earn Money on Side.

Many of the men earn money other than their pay by doing odd jobs for their fellows. There is a letter writer who for a small sum will write a descriptive letter to a parent or a burning love letter to a young woman for a mate who finds it less easy to express himself. Over in Camp Paul Jones is a tented barber shop in which several barbers are kept busy scraping the faces of their comrades. Alongside is a shoe-shining "parlor" and nearby is a cleaning and pressing establishment; all of them do good business for among the first things a recruit is taught are neatness and personal cleanliness.

Nor do the men want for a woman's interest. Mrs. Moffett, wife of the commandant, herself the mother of three small sons, tries to take a motherly interest in every man in the station. As president of the Great Lakes auxiliary of the Navy Relief society, she has direction of the caring for the needy families in the middle West of officers and enlisted men of the navy and marine corps. Gifts, received at the station, she distributes personally, frequently offering bits of kindly advice simultaneously.

And when, finally the men are ready to take their places in the American battle fleet, each seems obsessed with the idea that he, personally, must make good.

CANTON FACES TWO "TIMES" AT ONCE

Canton, O.—"Gosh, I'm an hour late this morning."

"Gee, whiz, I got to work an hour early."

Canton won't know what time it is after June 21. On that date it has been agreed that the city will adopt Eastern time, but Prosecutor Sweitzer has submitted a written opinion that to change the time on the courthouse clock, in the schools, banks or city and county offices, would be a violation of the state laws.

While the city council has established Eastern time for all other people, it must do its own business by Central time.

NEWEST OF AIR HAZARD

"Barrage Bumping" Described as Experience That Tries Soul of an Aviator.

London.—"Barrage bumping" is a new phase of air work which has developed with the war.

After the British have gained ground their artillery opens a furious barrage fire against the territory behind the German lines to prevent reinforcements from coming up for a counter-attack.

Aviators are sent out to fly over the German positions and ascertain their condition and strength. As the machines are compelled to fly at a low altitude to get a good view, they naturally have to pass through the shells from their own artillery. This is known as "barrage bumping."

One has to be "all man" to go through many "barrage bumping" exploits without losing his nerve. In addition to the shells of his own guns, the German high angle artillery is dumping shrapnel at him as fast as the gunners can load and fire, and usually he is low enough for the infantry to peck away at him with rifles.

The machine is usually kept at an altitude of about 500 feet and it sways and bounds in the "bumps" in the air caused by the passing projectiles.

The noise is appalling. Aviators say the guns sound as though they were only a few yards away.

HEIRESS WEDS AN \$18 CLERK

Connecticut Woman Failed of Happiness in Experiment With a Neighbor's Chauffeur.

Port Chester, N. Y.—Mrs. Mary Augustine Woodcock of Greenwich, Conn., who divorced Arthur Woodcock about a month ago, has married Clifford R. Wilmot, employed as a clerk at \$18 a week in the Westchester Lighting company.

The bride, daughter of the late William J. Smith, on the death of her father received \$500,000, the income of which she has spent liberally. Her first husband was chauffeur for Mrs. J. B. Converse. The wedding followed an elopement on May 11, 1910. Mr. Smith did not learn of the affair until the following January, when he forgave the couple and sent them South in his car for a two-months' bridal tour.

Mrs. Woodcock divorced the chauffeur on the ground of desertion. It was said in Greenwich that Mrs. Woodcock's marriage to Wilmot was wholly unlooked for. Several prominent men had been paying her much attention. One admirer called himself count; another was a well-known Manhattan attorney.

JACK BINNS TO FLY

Jack Binns, wireless hero of the steamer Republic may gather fresh heroic laurels in the air. He has just enrolled for the British flying corps in the new British recruiting office opened in New York, under the direction of Brig. Gen. W. A. White.

Binns will be remembered as the first wireless operator to effect a rescue at sea through persistent calls for help. Binns was the wireless man aboard the Republic when she was rammed by the Florida off Nantucket, January 23, 1901. He stuck to his post while the ship was sinking and sent out the famous S. O. S. until the Baltic responded and rescued all of the 800 persons aboard the rammed ship. Since then he has resided in America.

WALL STREET BISHOP QUILTS

Famous Street Preacher Placed on Retired List by the Trinity Corporation.

New York.—"The bishop of Wall street" has held his last service in his open-air cathedral at the corner of Broad and Wall streets, with its pavement of asphalt and its ceiling of sky. In other words, the Rev. Dr. William Wilkinson, friend of millionaires and office boys in the financial district and holder of noon-day services there for many years, has been retired by Trinity corporation, whose missioner he has been.

The crowds of rich men and poor who fill the canyon of Wall street at lunch hour will miss the stocky, white-haired figure who preached the Gospel in the heart of what the major part of the nation has come to regard as a den of wickedness.

He has enjoyed the reputation of being the highest paid street preacher in the world. From Trinity he received a salary of \$5,000 a year. No one will ever know how much of this "the bishop" expended on himself, but the poor will tell that he has always been open-handed and has never withheld his aid when money was needed to keep a home together.

He was a close friend of the late J. Pierpont Morgan, who often went to his house.

SMOKE MORE AND EAT LESS

Latest Advice Given to British People in the Food Shortage Situation.

London.—"Smoke more and eat less!"

This is the latest advice given to the British people in the food shortage situation. It comes from Sir John Rees, who says:

"It is to be hoped that the increased tobacco duty will not reduce the quantity. The less people smoke the more they are liable to eat. It is well known that the grossest eaters are non-drinkers and non-smokers."

This advice refers to women as well as men, for the smoking habit has spread widely among women since the war started. Formerly women smoked only in their homes or in restaurants. Now they can be seen in the streets and in factories puffing away at pipes, mild cigars or cigarettes.

Arrests of women for smoking in munition factories became so common that the magistrates had to impose severe penalties to break it up.

BOY MAKES BOMB OF PENCIL; LOSES HAND

Lorain, O.—Aspirations to be a real munition worker just like some of his grown-up companions, cost fourteen-year-old John Katonak his right hand and lacerated his knee. Johnny took the lead from a pencil, filled the hollow tube with powder and plugged it with a dynamite cap in each end. He attached electric wires to set off the charge and when the wires became crossed the explosion followed.

What Will You Give?

(By Phebe K. Warner)

We women are going to need a lot of funds to carry on the work that has been assigned us in the struggle for world freedom. Seven billion dollars for food, ammunition and men will help in one way. A hundred and twenty-five million dollars for Red Cross work will help in another; but there is so much needed besides money, and that is where we are all expected to help. There is a world of work to be done without pay. Will you help do it? There are so many contributions needed besides money. Will you give? Time, energy, loyalty, talent, enthusiasm, comforts, courage, cheer, all these and many more gifts will be absolutely necessary, else millions and millions of dollars cannot be utilized to advantage.

Have you more time than money to spare? Then you are just the one to join the Red Cross chapter and get busy. The Red Cross officials will furnish you with all the materials you can use for knitting and making things for the soldiers. You don't have time to knit? You are busy from early until late every day with your family duties? Then you have an inexhaustible supply of energy. Save one hour every week and give one hour or one afternoon of your energy to some kind of work that will help your community to do its part. Transmit your energy and your enthusiasm to others by sacrificing some piece of housework and giving the time and energy it would require to the cause of your own freedom. Have you talent? Can you entertain? Then give an evening from your store of classics to some struggling community that has time and is willing to do but have no funds to begin with. That's "giving a bit" as well as "doing a bit" for the cause. Have you flowers, fresh fruits or vegetables or an automobile? Send them to the sick soldiers in your town. It will remind them of home and their mother, their wife or sister. It will do them more good than money. The government will pay them in money and they will feel that they are a real individual in a great cause, when they are remembered especially by another mother. Are you sick yourself and helpless? Cannot get up and go and do and give and work for others? You can still be loyal and enthusiastic; you can still give courage and cheer to everyone who comes to see you who can work, and we all need cheer. That is your part and it is just as important to the women who are working unpaid and unknown in some humble way as band music is to the battle.

We know a dear old lady, nearly seventy-five years old. She cannot take a step alone. She cannot leave her room. She cannot go to a meeting of any kind. But she can talk. She can encourage those who come to see her. She can give cheer to everyone she meets who is interested in freedom's cause. And she does. Every afternoon there is a Red Cross

meeting in her room. Everyone who visits her finds her sitting in her chair knitting for the soldiers. She is an inspiration to everyone who thinks they cannot do anything. She has asked for registration cards that she may enlist everyone who enters her home to sign the conservation pledge.

When other women are giving their husbands and sons to the cause; when fathers, husbands and sons are giving their lives to make us free, don't say there is nothing you can give or do.

Dallas News: The gentlemen who were charged with the task of locating two superfluous normal schools earned the congratulations and gratitude of the people of the State. They have discharged their task, performed their duty. So far as we can see, they have chosen shrewdly and even wisely. That entitles them to some congratulations and gratitude. But the larger part accrues from their

feat of having made their selections in a manner which appears to be scandal-proof. They did, indeed, operate in "executive session," a seclusive circumstance which we can not bring ourselves altogether to approve. We have an old-fashioned partiality for publicity in the transaction of the public business that is somewhat offended when the door is locked and the curtains pulled down. But if these gentlemen excluded the reporters, who are the eyes of the people, they at least refrained from having, once entered into the dark room, put any blindfolds upon themselves. Each could see what the other did, which has made it possible for forty-eight hours to elapse without any one's being able to rise and challenge the correctness of the announced result. This fact marks a triumph for reform which might have been thought unworthy a few years ago, but which now merits some emphasis, and even celebration.

The Nation's Welfare

Every woman should do her duty in rearing a strong, vigorous and healthy generation. For three generations, women awaiting childbirth have used the safe, external preparation—"Mother's Friend". The drawn skin of the abdomen is made elastic, the muscles expand with ease when baby is born and the inflammation of breast glands and other soreness is soothed. The tendency to morning sickness or nausea is avoided and this makes for the future health and nature of the child. Write to The Bradford Regulator Co., Dept. F, 149 Lamar Building, Atlanta, Ga., for their book, "Motherhood and the Baby". It is free to all women. Get a bottle of "Mother's Friend" at your druggist today and do not neglect to apply it right and morning.

Notice—After the first of August my pasture will be for rent, good grass, running water and shade. W. E. Bates.

A very remarkable escape from death by lightning occurred last Thursday northwest of McIntosh. Harold Merrifield, a young farmer of that neighborhood, was struck by lightning while working in the field. His clothing and shoes were torn to shreds and he was badly burned. Mrs. Merrifield happened to see him and went to his assistance. In twenty-four hours he had rallied from the shock and appeared to be none the worse except for his burns, which will take some time to heal.—Estancia (N. M.) News-Herald.

Soap Weeds \$9.50 a Ton.

O. O. Gragg signed a contract last week for 100 cars of soap weeds at \$9.50 a ton. As we have several thousand car loads growing in this vicinity, it ought to be an easy contract for Mr. Gragg to fill. —Nara Visa News.

Has Six Tenant Houses.

J. H. Burson, commonly known as "Long John" while in town one day this week stated that he has six tenant houses on his lands, and will probably erect more. If all the large land holders would do this well, the county would be greatly benefited, and it would pay the land owner.—Silverton Star.

Looking for Oil Near Hereford.

Mr. Morris Jouvenat, representing the Empire Gas and Fuel Co. of Bartlettville, Oklahoma, was in Hereford the first of the week and declared his intention of leasing, if possible some 40,000 acres, of land in the immediate vicinity and nearby territory. From the Vega country south to some distance below Hereford and east into Randall County, already many leases have been obtained.—Hereford Brand.

A Remedy for Rats.

County Agent Midkiff suggests this plan for ridding your premises of rats: Exclude them from all water on the place. Place a board in the places they frequent with a saucer of water in center and around it a continuous line of concentrated lye. Rats always wet their feet in drinking, they step in the lye and their troubles begin. They leave.—Channing Courier.

Junk is in Demand.

A train wholly loaded with junk passed through town yesterday. In all there were forty cars of old iron which are to be used in the ammunition factories East.—Quanah Tribune-Chief.

COME TO CANYON TO LIVE.

WE WANT STAYERS.

The following editorial from the last issue of the Higgins News expresses our sentiments exactly and we reproduce for the benefit of our readers. We believe that it is a grave mistake to wait for an extra good season to bring people into a new country or to choose the best fields and crops to show them. Let them see the bad as well as the good. No country is all good and the Plains has nothing to fear from a frank disclosure of conditions just as they exist. What other country under the sun will raise anything at all with as little rainfall as the Plains? And we are right now harvesting a very fair crop.

Editor Shaw says:

One of our exchanges says that this is not a good time to bring folks into the country to show them land. Perhaps and perhaps. But did you ever notice that the people who come in on a boom wave, when everything is lovely and the goose hangs high are the first ones who depart when things are not so lovely and the goose has fallen off the perch? They are the ones who get disgruntled and give the country a black eye because they are disappointed because things do not pan out to suit their fancy. They have found flies in their ointment and are not wise enough to make the best of matters. Instead they sacrifice to get to some place that seems better and become drifters, not stayers. There are drawbacks in every country. No place under the sun can be at its best all the time. And the wise are the ones who are the stayers. The man who sees the country at a bad time is not going to be numbered with the disgruntled. He knows what it really is and has no false views of the country. He is worth more than a dozen men who see the best and expect only the best. He will go to work to make things better and profit by the experience of those who have been in the country long enough to know conditions thoroughly and have made good. —Booms are not country builders. They are spurts that soon spurt out and leave conditions that are worse than they were before. The speculator and the grafter do a land office business for a time and then pass on to fleece another section of the country and the bottom drops out of the universe so far as the place left is concerned. On the contrary, the man who is wise enough to look a country over in the time of discouraging stress, is the one who is going to take advantage of the times to pick up good bargains. He knows a good investment when he sees one and he profits by the same. We have a good country. Come to the Panhandle.

The Texas Farmers' Short Course.

The Farmers' Short Course will be held at the A. & M. College from July 30 to August 4. The Texas Farmers' Congress will meet August 1 to 3, and the Texas Rural Letter Carriers on August 1 and 2. For these meetings the railroads have given the rate of 1 cent a mile each way. The average expenses of each person for the entire week, including railroad fare, will not be over \$12.50. These farmers' meetings offer splendid opportunity for the Texas farm people to spend a pleasant vacation and at the same time obtain valuable information.

The Short Course is a regular farmers' chautauqua where one may secure valuable information and at the same time thoroughly enjoy himself. Instruction will be given by the college teaching staff, the Experiment Station and Extension staffs, in all branches of practical agriculture. Professor H. C. Taylor, of the University of Wisconsin will deliver a special series of lectures on agricultural economics. Dr. W. P. Covington of Austin, Texas, represented the Rockefeller Board of Health will give a series of illustrated lectures on rural sanitation. Special courses in home economics for women and girls will be given by Miss Mary E. Gearing of the State University, Miss Cornelia Simpson, Miss Kate Lee Hensley, and Miss Jesse W. Harris of the Extension staff. The college is well prepared to take care of the Short Course students. The dormitories are equipped with electric lights, running water in each room, and shower baths on each floor. For room reservations and the illustrated pamphlet containing particulars concerning these meetings address E. J. Kyle, Dean of the School of Agriculture, College Station, Texas.

A Badger Fight at Silverton.

A sure enough badger fight was pulled off back of G. S. Co's store Wednesday evening, which was witnessed by quite a crowd. R. H. McClure "held and managed" the dog, (Buster Brown) who finally succeeded in completely annihilating the enemy. The badger was captured and brought to town by Zeph Fogerson.—Silverton Star.

Inaugurate Another Dairy Campaign.

At a meeting held in the Board of Development rooms, last Saturday, another dairy campaign of far reaching importance, was launched. There were present representatives from the state agricultural department, the agricultural department of the railroads of this section, the Nissley Creamery Company and secretaries from a number of the commercial organizations in the territory to be covered.

The territory was divided into seven districts which will be worked by seven teams and extends from Abilene and Sweetwater to the northern boundary of the state, and from Wichita Falls west into eastern New Mexico. The plans have not as yet been fully developed but it is proposed to start the campaign on August 20, and the personnel of the teams so far announced will be as follows: Along the Ft. Worth & Denver from Sunset to Texline, A. K. Short, agricultural agent for the road, F. L. Pou, dairy expert from A. & M. College and a representative of the DeLaval Cream Separator Company, of Chicago. Along the Wichita Valley lines from Wichita Falls to Abilene, W. H. Clements, of the Nissley Creamery Company of Ft. Worth and a representative of the Sharpless Separator Company, of Westchester, Pa. Along the Rock Island from Sayre, Okla., to Santa Rosa, N. M., A. Peterson, agricultural agent for the road, Porter A. Whaley, secretary Amarillo Board of Development, and a special dairy expert from Council Bluffs, Iowa. Along the Santa Fe from Sweetwater to Lubbock, L. L. Johnson, agricultural agent for the road, and a representative from the department of agriculture. Along the Santa Fe from Higgins to Melrose, N. M., C. M. Evans, dairy expert from the New Mexico A & M., and a representative of the De Laval Separator Company.

Z. E. Black, secretary of the Plainview, Business Men's League, and M. T. Jacobs, secretary of the Lubbock Chamber of Commerce, tendered their services in the work on the South Plains and E. P. Burdick and J. F. Brazelton, of Melrose, N. M., who attended the meeting, announced that they had engaged the services of a special dairy expert to work in the Melrose country. Messrs. Burdick and Brazelton are managers of a mercantile company at Melrose but believe that the future of their section will be best served by the introduction of dairying on the farms and are sufficiently public spirited to back the enterprise with their private capital. This is, indeed, commendable and the people of Melrose and adjacent territory should get behind the movement and prove their appreciation of the progressive spirit of these two citizens. A special dairy meeting is being held in Melrose, today, (Saturday) at which a number of representatives of the Panhandle Dairy Association, and dairy experts from this section are present.

The dairy cow has come to stay and it is confidently predicted that this will, in a comparatively short time, become the dairy country of the world. We have not so much as skimmed the possibilities of our section in the dairy by the introduction of the dairy cow. As the development of the country proceeds, the dairy industry will grow with it, and it does not require a mathematician to figure out that, with dairy cows multiplying as fast as farms and new settlements spread over the Great Southwest, there will be an enormous increase in the wealth of our country and a corresponding increase in the value of our lands. This has been the experience of every community that has gone in for dairying.

Went to Sleep on Track.

Eight convicts escaped from the Granite reformatory last Thursday afternoon and were all captured by Friday. Five of the eight were run down by a Rock Island passenger train east of Clinton about 11 o'clock last Friday night. One of the convicts a Cherokee Indian, was killed instantly and another had both legs cut off. Two more were seriously injured and the fifth escaped with slight injuries. Officers believe the men, in their efforts to escape, had walked and ran all day and when almost physically exhausted sat down on the track and went to sleep. The westbound Rock Island passenger train came along and struck them.—Cordell (Okla.) Beacon.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

Each succeeding number of the Congressional Record increases the number of laughs you can get out of a recent statement in The New Republic that the United States is now in the period "of government by intellectuals."—Kansas City Star.

"TURN TO RIGHT" says new post erected in the Center of our streets. But that is not all of them says. It also tells us what kind of horse medicine to use. It is unfortunate indeed that our little city is not able to erect their sign posts without the financial aid of some patent medicine concern. There is one consolation though, people visiting our town will not stop to graft the city. They readily realize that we have the civic pride alright, but just in this instance did not have the money to buy a sign post without advertisements on it. We trust that the Ladies-Aid Societies will at some future date have time to make up money for a new sign post for this place.—Miami Chief.

Whatever satisfaction Germany may derive from the belief that a penalty must be dissipated by knowledge that the loan was a natural outpouring.—Newark News.
