J. L. VanNatta, Secretary, announces that they have over 90 entries in the harness races, some races having as many as 18 starters. It is with a great deal of satisfaction that this announcement is made, since it has always been very difficult to get race men to come to Amarillo on account of it being so far away from all other meetings in the circuits. This race program will far exceed anything that has ever been seen in Amarillo or in the Panhandle, as this is three or four times as many horses as have ever been entered in a program at the Pan. handle State Fair. Some of these horses are the very best in their class and the lovers of harness races are sure to be more than entertained. In connection with the racing program, there will be slow mule races staged on Wednesday, Thursday, Friday and Saturday, with a purse of \$35 each day. The slowest mule or the one finishing last wins all the money. No entrance fee is charged and no money deducted from the winner, which fact will insure enough entries to make these races very entertaining and

Using the Old-Style Jack YOUR BACK

Simply a few pulls on its chain and the heaviest car is raised or lowered without danger and without exertion.

Every motorist has dreaded using the ordinary jack-an unpleasant operation, to say the least, and constantly fraught with danger and much tiresome work. Now all the unpleasant, disagreeable features have been entirely eliminated by the Weed Chain-Jack. With it, whether raising or lowering the car, you are always out of harm's way-No knocking of head, or soiling of clothes against springs or other projections - No skinning of knuckles or flying up of a "handle"-No chance of the car coming down, often resulting in serious bodily injury-Infinitely easier to operate than any jack on the market.

To operate a Weed Chain-Jack it is not necessary to get down in a cramped, strained position and grovel in mud, grease or dust under a car towork a 'handle' that is apt to fly up, with unpieasant results. To life a ear with the Weed Chain-Jack, simply give a few pulls on its endless chain while you stand erect—clear from springs, tire carriers and other projections. To lower a car pull the chain in opposite direction, Up or down—there's no labor.

Once in place you never have to touch a Weed Chain-Jack, You do not have to crawl underneath to either raise or lower the car and after the car is lowered, you haul the jack out from under the car by the chain. Much superior in safety, economy, utility, simplicity and construction.

You will never be satisfied with any other if once you use a

Weed Chain-Jack

Powerful—Safe—Easily Operated

Has a strong cap, providing the kind of support from which an axle will not slip, while a broad base prevents the jack from upsetting on uneven roads. Every Weed Chain-Jack is submitted to a lifting test and will support over twice the weight it is ever required to lift. Never gets out of order. Gears and chain wheels protected by a stamped-steel housing. Chain heavily plated to prevent rusting.

Size	Height When Lowered	Height When Raised	Height When Raised with Auxiliary Step Up	
8 inch	8 inches	12½ inches	14½ inches	
10 inch	10 inches	15½ inches	17% inches	
12 inch	12 inches	18½ inches	No Aux. Step	
12 inch Truck	12 inches	19¼ inches	No Aux. Step	

The 8 inch and 10 inch sizes are made with an auxiliary step as illustrated above. When in operative position this step adds two inches to the height of the Jack.

Simply a few pulls on its chain and the heaviest car is raised or lowered without danger and without exertion.

Every motorist has dreaded using the ordinary jack-an unpleasant operation, to say the least, and constantly fraught with danger and much tiresome work. Now all the unpleasant, disagreeable features have been entirely eliminated by the Weed Chain-Jack. With it, whether raising or lowering the car, you are always out of harm's way-No knocking of head, or soiling of clothes against springs or other projections - No skinning of knuckles or flying up of a "handle" - No chance of the car coming down, often resulting in serious bodily injury-Infinitely easier to operate than any jack on the market.

To operate a Weed Chain-Jack it is not necessary to get down in a cramped, strained position and grovel in mud, grease or dust under a car towork a handle that is apt to fly up, with unpleasant results. To lift a ear with the Weed Chain-Jack, simply give a few pulls on its endless chain. Much superior in safety, economy, utility, simplicity and construction. strained position and grovel in mud, grease or dust under a car towork a handle that is apt to fly up, with unpleasant results. To lift a car with the Weed Chair-jack, simply give a few pulls on its endless chain while you stand erect—clear from springs, tire carriers and other projections. To lower a car pull the chain in opposite direction. Up or down—there's no labor.

You will never be satisfied with

Weed Chain-Jack

Powerful-Safe-Easily Operated

Has a strong cap, providing the kind of support from which an axle will not slip, while a broad base prevents the jack from upsetting on uneven roads. Every Weed Chain-Jack is submitted to a lifting test and will support over twice the weight it is ever required to lift. Never gets out of order. Gears and chain wheels protected by a stamped-steel housing. Chain heavily placed to prevent rusting.

When the Skin Seems Ablaze With Itching and Burning

There's just one thing to do.

If your skin seems ablaze with the fiery burning and itching of Eczema, real and lasting relief can only come from treatment that goes below the surface—that reaches down to the very source of the trouble. So-called skin-diseases come from a disordered condition of the blood, and the proper treatment is through the blood.

Search far and near, and you can
not find a blood remedy that approaches S. S. S. for real efficiency. It has been on the market for fifty years, during which time it has been giving uniform satisfaction for all manner of blood disorders. If you want prompt and lasting relief, you can rely upon S. S. That's the idea, when men are engaged in such great work they do not stop to think of the non-essentials. They feel like fellow men, like brothers. It is only in the small and piping times of peace that men stop to quarrel about religious differences, or think that his salvation depends on whether he was baptised in this church or that, whether he carries a crucifix or crescent even. Those are the differences that men exaggerate in times when they have nothing else to do. The Most Beautiful Car in America

The New Home of the Paige

Paige cars have become a familiar sight wherever automobiles are encountered.

These cars have "backed up" every last claim that has been made for them. Through sheer merit of the product, they now occupy an unchallenged position of leadership in the moderate price field.

Never have we witnessed such a tidal wave of demand as that which has developed for the two Paige six-cylinder models.

So, there was only one thing to do-secure the sales rights for Paige

cars in this territory. And that is precisely what we have done.

The New Home of the Paige, we frankly believe, is one of the most completely equipped retail automobile establishments in this territory.

Beyond the slightest shadow of doubt—the Paige Sixes have become leaders in the "light Six field."

These cars have been instantly recognized as the greatest six-cylinder values now available.

No other construction can be placed upon such overwhelming preference on the part of men who know motor cars. And—in conclusion—please remember—

When you buy a car from us we insist upon sharing the responsibility.

That car is our reputation running around on four wheels, and it is the first duty of every man in this organization to see that your Paige continues to run-every day in the week-every week in the year.

This is what we mean by service.

But come in. We shall do our best to make your visit interesting.

CATTLE AND SHEEP RANCHES IN NEW MEXICO

New Mexico, the ideal range

New Mexico, the ideal range country for cattle for sheep, now offers to stockgrowers the final opportunity to buy desirable grasing lands at reasonable prices.

I offer exceptionally good grasing propositions in New Mexico at attractive prices to stockmen who are ready to do business now. These properties come in deeded land, 'leased land, open range and in combinations; stocked or clear. They are well located and possess all the essentials of first-class stock ranches. They are both large and small and include a few very large properties.
