

TRADES DAY IS GOOD

Monday, Trades Day, was cold, but there was a good crowd in Canyon to take advantage of the day.

Monday morning when the wind was blowing hard, it looked that the Trades Day would be somewhat of a failure, but before noon the wind went down and it became very pleasant during the afternoon. Before night there was a good crowd in town—much better than was expected.

Owing to the cold weather Friday the Trade Excursion was not run.

The auction sale was held during Monday afternoon, and quite a number of horses and other things sold at a good price.

Mrs. W. P. Bishop held the lucky number which drew the dress given away Monday by Redfean & Co.

Everybody get busy now and plan for a big Trades Day in February.

SCHROEDER OUT ON \$10,000.00 BOND

Henry Schroeder was released Friday from the Potter county jail after a satisfactory bond for \$10,000 had been arranged for by Mr. Schroeder and a number of his friends.

Mr. Schroeder was arrested and taken before the federal authorities in Amarillo Tuesday on the charge of sedition, for remarks he had made against the government and keeping a picture of the Kaiser in his home and threatening any who might remove it.

His case will come up at the April term of the federal court in Amarillo.

The following men signed the bond: Henry Schroeder, principal, Henry F. Miller, Henry Meyer, G. Wendelken, Wm. H. Boehning, E. A. Oberst, Paul Flugel, Herman Wragge and Herman Kuhlmann.

To the Voters of Randall County

Having carefully considered the political situation for the Office of County and District Clerk for Randall county and having been solicited to make the race for same by several influential friends, I have decided to ask the voters of Randall county to support me in running for the office.

I feel that I am qualified to fill the office, having taken a commercial course in Spaulding's Business College of Kansas City, also have had experienced as deputy clerk in Castro county.

In asking for this office I am not running against any one, simply applying to you for a job, and should you hire me will fulfill my duty as best I can.

Yours for votes
GRAYSON BELL

Thrift Campaign Organized.

The women of Canyon met Monday afternoon at the court house for the purpose of organizing for the Thrift Campaign in Randall county among the women. The purpose of the women's work is to induce the women to use less money in the home and to put all their savings in Thrift Stamps.

Mrs. R. A. Terrill was elected President and Mrs. C. W. Warwick Secretary.

Art Exhibit at Normal

The Elson Art Exhibit of 189 pictures is now on exhibit at the Normal building. The exhibit will be open all of today and tomorrow and tonight in order that all may see the pictures. Admission only 10 cents, the ticket allow holder to see the exhibit as many times as he wishes.

COME TO CANYON TO LIVE.

WORK ADVANCING ON THE PROPOSED MILITARY ROAD

County Judge C. R. Fleisher was in Roswell last Thursday where he met with representatives from practically every county between El Paso and Amarillo who had met to organize in making a pull for the new military highway which is proposed from St. Louis to El Paso. There will be a strong effort made by other sections to procure this highway and the El Paso to Amarillo line is making plans to put up a healthy scrap for the road.

A meeting is called for Oklahoma City on February 5 at which various phases of this military highway will be discussed. Dr. Johnson of Roswell, a highway expert, will have charge of the campaign for this section in the fight. He has travelled every mile of the proposed line a number of times and has interesting data to present upon the excellency of this proposed line.

First State Elects Officers

The stockholders of the First State Bank met Tuesday night and elected the following directors for the coming year: W. D. Morrel, Grady Oldham, L. A. Pierce, J. W. Reid and R. L. Marquis.

The directors chose the following officers:

W. D. Morrel—President
J. A. Pierce and J. W. Reid—Vice Presidents.

Grady Oldham—Cashier
Miss Warren—Assisiant Cashier
A dividend of ten per cent was declared by the directors.

Buys Heider Tractor.

J. J. Leavitt has a new Heider Tractor which he will use on his farm southwest of Canyon. Mr. Leavitt has been studying the tractor question for sometime and believes it will pay any farm to have one.

Farmers Union Meeting.

A meeting of the Farmers Union was held called for Friday afternoon at 2 o'clock, at which time the state organizer will here here to give instructions to the local men.

M. A. BINGAMAN, Sec'y-Treas.

Delphian Club Meeting

The Canyon Delphian Club will meet Monday, Jan. 21, at 3 o'clock at the home of Mrs. Ray Ely. Mrs. C. R. Fleisher, leader

Mrs. Alice Murdock of Gladwin, Iowa, is visiting at the home of her parents, Mr. and Mrs. E. Edmonds. Her husband will arrive next week, with a view of finding a home in the Panhandle.

Phone 270 THE B. & H. MARKET, for fresh and cured meats. Free delivery to any part of the city. We buy your hides.

A man named Carl Ballweg lives in Emporia, Kansas. He was born in Germany, but came to this country thirty years ago. Following is the Christmas card he sent out to his friends: "I speak from the viewpoint of the foreign-born. I, and millions of others like me, came to this country alone, without friends. We sponged on all America had, her free lands, her free schools, and, above all, her spirit of open-hearted comradeship. She owed us nothing, but she gave us all. We swore allegiance to her flag, her Constitution and her laws. We would be recreants, ingrates, perjurers and curs if, in the hour of her need, we counseled with her enemies and were disloyal to her cause."

LIEUT. S. R. GRIFFIN LEAVES TOMORROW FOR ARMY DUTY

Lieutenant S. R. Griffin, of the Medical Reserve Corps, has been ordered to report at Camp McArthur, at Waco, and leave tomorrow for his new work.

Dr. Griffin passed the examinations several months ago and was given the commission of First Lieutenant. He has been a very successful doctor in Canyon and will make a fine record in the army work. While his many friends regret very much to see him leave Canyon, they congratulate him upon the patriotism which prompts him to give up his practice for service for his country.

Mrs. Griffin and children will make their home in Canyon while Dr. Griffin is away.

THE RED CROSS NEEDS—

A telephone
Whist brooms
A clock
Four pairs of scissors
More sewing machines
More workers
More money for supplies
All of these things are needed at the work room in the court house

FOOD WILL WIN THE WAR— DON'T WASTE IT.

POLL TAX PAYMENTS ARE MUCH SLOWER THAN USUAL

Poll tax payments are much slower this year than usual for a political year. If Randall county is to have her usual percentage of voters, the men must get busy within the next two weeks. The following is the number of payments for each precinct:

No. 1	143
No. 2	7
No. 3	31
No. 4	22
No. 5	17
No. 6	5
No. 7	8
No. 8	26
No. 9	5
Total	262

Normal Lyceum Number

The last number of the Normal Lyceum course will be at the Normal auditorium Saturday night, the number being by the Princess Wathawaso Company. The company will give an interpretation of the American Indian life and songs. The number will be very interesting and entertaining.

Come to Canyon to live.

COLD IS VERY SEVERE

The past week has been by far the coldest of the winter, the thermometer going to 8 below zero Friday night, and hanging around zero for two days during the week.

A little snow fell Thursday but the wind was so high that most of the snow was blown into banks. A little more snow fell Tuesday morning, but neither of the snows had moisture enough to do any good so far as the farmer was concerned.

The storm of Thursday was reported to be of great severity all over the United States and deaths were reported in many cities.

Added to the cold weather, the lack of coal in most places has added to the suffering of the people. Canyon has been running short on coal for the past month and during the cold weather there was none to be had. Coal is expected in the city every day. No suffering has been reported on account of the lack of coal, but the situation will become serious unless relieved within the next few days.

During all of the cold weather no loss of consequence has been reported by the stockmen of Randall county. There have been heavy losses in other sections of the Panhandle, especially among the men who had shipped in cattle from the drought stricken districts of southwest Texas. The loss in live stock has been very heavy in all those sections.

EVAN WILLIAMS DATE POSTPONED UNTIL JANUARY 31

Notice was sent out Tuesday that the Evan Williams recital in Amarillo which was scheduled for tonight had been postponed until January 31st. Mr. Williams wired E. F. Myers on Monday that he could not get to Amarillo until the 31st.

RECORDS APPROVED FOR THE \$50,000.00 ROAD BOND ISSUE

County Judge C. R. Fleisher has been notified by the Attorney General that the records of the election on the road bond issue have been approved, and to proceed with the preparation of the bonds. After these have been printed, they will be examined by him, and if correct, will be sold.

There is a great demand for road bonds just now and there is no doubt that Randall county will soon have the \$50,000 in cash for the road work.

Red Cross Work Room Notes

Work has been resumed at the work room in good earnest since the holidays. All material for garment making and surgical bandages has been worked up. A shipment of goods is expected daily.

A large box of surgical dressings containing 875 muslin bandages went forward on January 12

There is now packed one box of hospital goods for immediate shipment.

On Friday a box of knitted goods will be shipped.

We are instructed to send all knitted goods to a branch house at Houston "until we have equipped every American soldier in an American training camp with a sweater and any other knitted articles he needs. We are not sending abroad any knitted articles from this division. All of the troops that have sailed for foreign service have been fitted with comfortable knitted outfits before they sailed."

In behalf of the Executive Committee of the local Red Cross Chapter, I desire to express our sincere appreciation for the very efficient work done by Mr. D. A. Park in managing the Christmas Red Cross membership campaign, thereby adding such a large percent of our members to the ranks of a cause whose scope of service is as broad as the needs of humanity.

I desire also to thank every one of Mr. Park's co-workers who so faithfully carried out his plans.

MRS. D. M. STEWART,
Chairman Randall County Chapter

F. S. Gray will leave this week with his family for Goldthwaite where he has bought land. He expects to make that his home.

ROGERS BARN BURNS; REWARD IS OFFERED

The barn on the J. E. Rogers farm southwest of Canyon was burned on last Thursday morning about four o'clock. No reasons can be found why the burning should have caught on fire from natural causes, and it has been pretty clearly proven that it was set by parties.

Fifty citizens of Randall county have subscribed to a \$1000.00 fund to be used as a reward for information leading up to the arrest and conviction of the party or parties who were guilty of the act.

The citizens of Randall county are anxious to weed out any person who would do such an act, if one should reside here, and are anxious to comprehend the man who might be passing through and would set fire to buildings.

The paper containing the names of the men standing good for the \$1000 reward may be seen at the First National Bank by any party who is interested in seeking out the guilty persons.

Judge Umphres for Re-Election

Judge Hugh L. Umphres announces this week his candidacy for re-election as Judge of the 47th Judicial District, composed of Randall, Potter, Armstrong and Donley counties. Judge Umphres was elected to the bench four years ago and is asking for re-election upon the merits of the record of his first term. Judge Umphres made a number of radical changes when he assumed the duties of judge four years ago, that made for economy and had much to do with expediting the work. In fact he has made a reputation for having everybody about his court attend strictly to business and to be promptly on time. The dockets of the different counties in which he sits have been cleared up of a large number of cases that have been hanging fire for years. The judge prides himself on dealing out justice impartially and is perfectly willing to stand on his record in asking the voters of this district to re-elect him. He asks his friends and the voters generally for their support.

Miss Cousins Honor Student

Austin, Jan. 14: Special to the News—The honor list of students in the University of Texas for the fall term has just been announced by E. J. Mathews, Registrar and Assistant Dean of the College of Arts. It consists of all students who made all A's, or a B average, and includes the name of Miss Edith Blair Cousins of Canyon.

Financial Forming

Conserve dollars
Cultivate thrift
Reap independence
Dollars planted in this Institution through the practise of thrift yield a plentiful harvest
Farmers are invited to plan for each succeeding year's operations by banking crop proceeds as they are received
The result is farm efficiency and financial progress

The First State Bank
Canyon, Texas
The Only Guaranty Fund Bank in Randall County

\$1000.00 REWARD

Fifty citizens of Randall County have authorized me to offer a bonafide reward of \$1000.00 cash to any person or persons who will give information leading to the arrest and conviction of the party or parties who burned my barn about four o'clock on the morning of January 10, 1918. The First National Bank of Canyon will answer any question regarding the reliability of myself and this guarantee.

J. E. ROGERS

LISTEN

No people can expect to be permanently prosperous when recklessly wasteful. Let children be taught lessons of thrift—Let every one, rich and poor alike, acquire the frugal habits of our forefathers.

GLAD TO TESTIFY

Says Watoga Lady, "As To What Cardui Has Done For Me, So As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly. . . Sometimes would go a month or two, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. Then . . . it would last . . . two weeks, and was so weakening, and my health was awful.

My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three. . . I gained, and was well and strong, and I owe it all to Cardui. I am married now and have 3 children. . . Have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others."

If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years. Begin taking Cardui today. It may be the very medicine you need.

Edwin Muldrow is here from his home in Phoenix, Arizona, to visit with relatives and friends a week before he goes into the aviation corps, to which he has passed the entrance examinations. He reports that his father, H. E., is doing well in Arizona. He saw roses blooming the day he left home, and hit zero weather in Canyon

Washington, Jan. 15.—The government has decided on draft registration of all young men as fast as they become 21 years old as the means of keeping filled the rank of the war army. It was decided against raising the draft age limit above 31 years.

An administration bill was introduced today at the request of the war department by Chairman Chamberlain of the senate military committee, to register for draft all men having reached 21 since June 5, 1917, when the draft law became effective. The administration's support seems to assure its prompt passage.

The deep-seated democracy of the Bolsheviki is indicated in Trotsky's announcement that if they don't have a majority in the Constituent Assembly they will overthrow it.—Chicago Herald.

Piles Cured in 6 to 14 Days

All Choked Up With Catarrh? Why Continue Makeshift Treatment?

Sprays and douches will never cure you. Catarrh is annoying enough when it chokes up your nostrils and air passages, causing painful and difficult breathing and other discomforts. But the real danger comes when it reaches down into your lungs. This is why you should at once realize the importance of the proper treatment, and lose no time experimenting with worthless remedies which touch only the surface. To be rid of Catarrh, you must drive the disease germs out of your blood. Splendid results have been reported from the use of S. S. S., which completely routs from your blood the Catarrh germs, for which it is a perfect antidote. S. S. S. is sold by all druggists. If you wish medical advice as to the treatment of your own individual case, write to-day to Chief Medical Adviser, Swift Specific Co., Dept. B Atlanta, Ga.

A Small Patriot.
Clayton and the rest of Union county will have to take off their patriotic hats to Archie McDonald Dunn, the 11 year old son of Ed Dunn, of west of town.

Archie is a patriot of the sort who act, rather than just talk, and his example might well be followed by all the children, and some of the grown up people of this section.

What did Archie do?
He was the first person, big or little to purchase a war saving certificate stamp in this whole broad county. And he bought two certificates with money which he earned working in his father's field and at odd jobs around the community near his home.

Archie wanted a pair of high topped boots, he explained to those interested. Wanted those boots just like anything. So he started to earning and saving money. He's been saving the little sums that a little fellow could earn all thru the hot summer. He wanted those boots to wear to school this fall. But in an issue of his daddy's paper,

The Clayton News, he read—Oh, yes! he can read, nearly as well as a grown up person—about the Junior Red Cross and the plan of the government, his daddy's government; his government!—to issue thru the post office the miniature Liberty Bonds that are known as the war savings certificate stamps and decided that he could help the soldiers who are fighting to save his government for him by buying these certificates.

So in order that the Sammys might go into the trenches well shod and fight the Germans with dry, warm, feet, Archie unselfishly gave up the thought of purchasing the high boots that had been his summer's dream and instead purchased from the local post office two certificates. The two cost him \$8.24 but he believes the money is well invested.—Clayton (N. M.) News

Ice Water For Stock.
While visiting a farmer who feeds cattle and hogs for profit, as well as pleasure, he showed me his water tank which furnished his stock during the winter. I noticed that the cattle drank freely. There was no ice in the water. By looking closer, I saw a tank heater which kept the water from freezing.

The farmer said that the tank heater cost less than \$8, and that he never had to look after the fire in it more than twice a day. He remarked that he preferred to use coal or wood to heat stock water instead of using grain and hay which cost from one and one-half cents to three cents per pound. Coal costs less than one-half cents per pound now in most places.

If ice water is drunk by a cow, it uses considerable feed to warm the water to body heat.
What farmer would burn corn to heat water for home use. Why should we burn grain to heat water for stock?
J. E. PAYNE.

Chas C. Smalley, 1½ miles west of Balko, has so far as we have been able to find out the only industry of its kind in Beaver County namely: Raising skunks for commercial purposes. For some time past, Mr. Smalley has been engaged in this work as a side line, and has had as many as eighteen skunks in his pens at one time. From now on, however he expects to import some high-bred males of the narrow stripe variety, build more pens and provide for breeding and feeding the animals on a large scale. Much waste matter is used in feeding which can be used in no other manner.—Optima (Okla.) Optimist.

THE MAN WHO DIRECTS THE FOOD FORCES

E. A. PEDEN
Federal Food Administrator
for Texas

The Food Administrator of Texas is a man who is of interest to every individual in the State. Every man, woman and child is anxious to know what manner of a man is the man who is instrumental in securing for them the necessities of life, and at prices within reach of the average wage earner.

The Federal Food Administrator for Texas is E. A. Peden. "E" and "A" both stand for names. But the signature never reads any more or any less than just "E. A. Peden." It is a brief name and a brief signature. It is a signature easily pronounceable—frank, open and above board; and just as names often suggest personality, so the name of the Federal Food Administrator of Texas suggests frankness, openness of mind, honesty of conviction and integrity of mind and purpose.

An interesting thing about Administrator Peden is that he never sought a public office; that he has always been content to be one of the stabilizing business influences of the city of Houston, wherein he has lived and prospered; and that when Herbert Hoover summoned him to Washington in September of 1917 it was more of a surprise to the iron and steel man when he was offered the job of handling the foodstuffs of Texas than it was to his friends, who are statewide and nationwide.

The administrator was hesitant about accepting, saying frankly that his life work had been in handling inorganic materials rather than organic materials; but Herbert Hoover insisted, and realizing that his country needed him quite as deeply as his own business, Mr. Peden decided to put aside his personal work for the duration of the war and to dedicate himself to the big and never-ending task of not only making Texas an economic unit in winning the war, but a spiritual unit as well in the matter of response and sacrifice and unselfishness.

The administrator is not the same type of a man as E. M. House. House is silent and enigmatic. Peden is enthusiastic and unwilling to be complex or intricate or involved. He thinks quickly, gains a point on the second; has a fine knack of starting out completely bewildered, as to the subject of a conference, and then so quickly assimilates and then separates what he wants from the mass that he is usually the best informed man on the subject present when he leaves the hall.

Yet he would discredit this idea. He is always discrediting ideas. Always resorting to reticence and a desire to assist rather than antagonize. He tries to see everything from every angle; he may render a judgment, but if someone comes along with a new viewpoint he adapts himself to the broader view. Yet he does not vacillate. He has a purpose and a goal in everything he sets out to do, and there may be divergences and tangents, but he gets to his goal.

Personally, he is a most likeable man. His voice is pleasant and congenial and his smile one of the pleasantest in the world. To be suddenly placed in a position where he must put aside personalities and deal in big problems that must be regarded largely in the abstract, is no inevitable task for him; he likes to be near men, not apart from men; and if his work calls for actions which place the nation above that of the individual, he would not hesitate a second the course to pursue; yet it is trying and difficult—yet he can do it and do it well.

For the period of three months in which he has been engaged as Federal Food Administrator, so many problems have come up to his desk requiring immediate consideration and decisions that would in no way disturb normal business operations that it has been necessary for him to literally give day and night to Federal work.

Save the Manure.
Protein, which measures the nitrogen in feeds, is usually the highest priced feeding nutrient, and nitrogen is the most expensive element in commercial fertilizers. Three-fourths of the nitrogen the cow eats with her food is excreted; one-half in the liquid manure and one-fourth in the solid excrement.

At present prices for feeds the only way to profit is to save the by-products of the feed as well as the products.

The liquid manure, being the most valuable, should be looked after first. Cement floors and gutters are necessary. Straw often allowed to go to waste, liberally used, not only keeps cows clean and comfortable; it absorbs and saves the valuable liquid. Shredded or cut corn stover, after cows have eaten the best of it, is even better than straw for bedding. Then why let all of these—straw, corn stover and liquid manure—be so wantonly wasted and the cows compelled to lie on cold, damp, hard floors?

The liquid can be more completely saved by installing drains in the cement gutters and connecting them with a manure cistern built at a reasonable distance from the barn.

Nothing makes pasture and meadow grasses grow so luxuriantly and profitably as the addition of this liquid manure. It should be pumped into a sprinkling wagon, an amount of water equal to the liquid manure should be added, and the whole sprinkled on the grass in spring and early summer.

The best way to save solid manure is to haul it direct from the barn every day and spread it on the fields, pastures or meadows. This is not always practical because at times of the year, in wet or rigorous climates, it is impossible at certain seasons. Then a cement manure pit should be built. It will cost some money, but not much, and no investment will pay better dividends by way of saving valuable fertility and keeping barn lots clean, tidy and passable.—Kimball's Dairy Farmer.

Profit in Sheep.
Mr. R. O. Tackett, County Demonstration Agent in Lubbock County, in submitting his report to Mr. T. O. Walton, Acting Director of Extension, says:
"Mr. J. C. Stanford started in this year with 849 sheep on four sections of land. This land was fenced with

For Little Folks Milder Ills

—when the food disagrees, the play has been too strenuous, or the dreaded colds are taking hold—the housewife of experience has a tried remedy at hand. It has proved her helper for many years, and she knows its value.

Peruna Tablets Are A Quick Aid

They regulate the disturbed digestion, free the overloaded stomach, overcome the cold, remove the catarrhal conditions and rebuild the strength.

Peruna Is A Reliable Family Remedy

It has proved that in innumerable households from Maine to California, and in foreign countries. It is the chief reliance in the American home for all catarrhal trouble and wherever a tonic is needed, in convalescence and as a preventive. In tablet form it is ever-ready-to-take, a real life insurance. If you haven't used it in this form, get a box today.

THE PERUNA COMPANY

Mothers of Texas, Prepare!

When a girl becomes a woman, when a woman becomes a mother, and when a woman passes through the changes of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances. Many women in Texas would testify just as do the following:

HOUSTON HEIGHTS, TEXAS.—"My mother used Dr. Pierce's Favorite Prescription. She was in very ill health, was all run down and it seemed like she could not get anything to do her any good until she took this medicine. It did her more good than anything she tried and I am always willing to recommend it to friends who need a fine tonic."—Mrs. JULIA STINSON.

FORT WORTH, TEXAS.—"I can recommend Dr. Pierce's Favorite Prescription to any woman suffering from woman's trouble or nervousness. I was very nervous and losing weight so fast I became alarmed over my condition. I could not do any housework. A friend told me about the 'Favorite Prescription' so I tried it and began gaining in weight at once."—Mrs. LIZZIE EPPERSON, 1220 Gould Avenue.

Dr. Pierce's Favorite Prescription is not a secret remedy for all the ingredients are printed on the wrapper. All druggists. Liquid or tablets. Tablets, 60 cents. Send Dr. V. M. Pierce, Buffalo, N. Y., 10 cts. for trial package.

We have this American Steel Wire in all sizes 20 to 49 inches in height in hog, poultry and rabbit fence, both light and heavy.

THOMPSON HARDWARE COMPANY

Wake Up

In a little town in Southern England a local newspaper reported recently that every house on a certain street in that town bore the sign of mingled grief and pride, signifying that a member of the household had given his life in the great war.

A French newspaper reported recently that a soldier on being given leave, refused it, saying: "My wife and only daughter have met with shame at the hands of the Germans. I do not want to go home."

Think of these things, you prosperous farmers, you, who are making high prices today because of war conditions. The life-blood and misery of others is being coined into money for you; you people who have been educated, protected, and shielded, by our government until you are in danger of losing your sense of gratitude.

Think of these things, you well-fed Americans, while you make money out of the war-time activities, then go home to a meal which is not studded by the necessities of other human beings, spend your evening with your children, and pass a dreamless night, imagining that you have done your day's duty as an American citizen.

Contrast the stories outlined with your own enviable condition, and then try to realize that you are as fully and as fully committed to the purposes of this war as are those English widows, facing life anew without the bread winner; just as truly pledged to win this war as the French soldier, suffering agonies of mind which it is difficult to fathom. These people are bearing a burden heavier than human nature should ever be asked to carry. And what are you doing? Taking things comfortably, subscribing, it may be, of your surplus wealth to the Liberty Loan, and talking about "Uncle Sam cleaning up the Germans."

Wake up! Wake up! Get out of that dream in which you are indulging.

If the first jolt has not awakened you, think of the man you know, who has a good job, or it may be a good medical practice, who threw it up, left wife, family and friends, and went to France to fight for you, besides the now dead Englishmen, and the Frenchmen who will never smile again.

If you are not awake yet think of the girls in the Department Stores, and the telephone and telegraph operators, who bought a \$69.00 Liberty Bond of each issue out of their \$10.00 to \$11.00 a week.

In charity, we will assume that you are now awake.

All you are asked to do is to speed up production in your business, contribute to the national wealth, work harder, economize in the household, cut out senseless pleasures—even pleasures which though harmless in themselves, can still be done without. Save every cent you can. If you have not bought a Liberty Bond, go and get one now at the bank, in order that you may not be branded "slacker." And whatever you do, remember that early next year you will be called upon to subscribe to another Liberty Loan.

What do you say? Are you awake now?

LET'S GET THIS THING STRAIGHT

"Why don't the Government arrange short term Loans? People don't care to tie up their money for ten, twenty, or thirty years."

How often do you hear these words. Sometimes people say these things because they really do not understand the situation, and sometimes they say them because they think it forms a good excuse for not subscribing to the Liberty Loan.

In either case, they are wrong. It is just as easy to get at the money invested in Liberty Bonds, when the term for repayment is thirty years, as when it is ten years.

Very few of the Bonds sold today will be held by the original purchaser when the Bonds are redeemed by the Government. Many purchasers will die, many will deed away their Bonds, many will sell, and probably sell at a profit, if only they will hold the Bonds until the war is over.

When you buy a bond you do it with the idea of lending the money to your Government for just as long as you can conveniently, without hurting yourself or your business. When you cannot lend this money any longer, then sell your Bond to some one else.

Remember just two things—as long as you hold the Bond and the Government has the use of the money, you are doing a sensible, patriotic act, and drawing 4% interest. When you pass the Bond to some one else, you have ceased to help your Country, you have placed your responsibilities as an American citizen upon somebody else's shoulders, and have given up the safest investment in the world.

Your banker still has some Liberty Bonds on hand which he can sell you. Go and talk it over with him. He will tell you that you could not possibly do as well with your money, as by purchasing these Bonds.

PUBLIC ONLY NOW REALIZING WORTH OF THE RED CROSS

BIGGEST ORGANIZATION OF ITS KIND IN THE WORLD, IT HAS NO RED TAPE.

BACKS UP THE ARMY AND NAVY

Success Wife of the Fighting Man and Makes His Own Surroundings as Pleasant as Possible.

The people of the United States only now are beginning to realize the force for good represented by the American Red Cross.

This statement is attested by the fact that 16,000,000 of the citizenry of this country joined the organization in the Christmas membership drive. But few of these, however, realized what the Red Cross is doing to help win the war for the United States and its allies.

The four principal divisions of the Red Cross are Woman's Work, Junior Membership, Civilian Relief and Military Relief.

Woman's work consists of the various activities which result in furnishing sweaters, helmets, wristlets, socks, surgical dressings, etc., for American soldiers who either have gone to France or who are preparing to go. It has been estimated that the work women have done in this department since America entered the war would have cost the Red Cross \$50,000,000, exclusive of material used. Of course, all the work has been done gratis.

What Women Have Done.

In the seven months ending Nov. 1, 1917, the Red Cross sent to Europe 15,000,000 separate articles, surgical dressings, hospital supplies and clothing. In addition to these, large quantities of similar supplies have been sent to camps and cantonments in the United States.

The American people will not, of course, permit families to suffer want because their bread-winners are fighting for their country.

The Red Cross chapters can and will provide also the friendly services which may be needed and acceptable because of ill health or other misfortunes or because of family conditions which, if neglected, would result in need and suffering or disaster to the home.

WHAT THE RED CROSS IS DOING AND WHAT YOU CAN DO

WOMAN'S WORK.

Under the department of Woman's Work are listed all of those articles so necessary for the recovery of the wounded and the comfort of the convalescent.

Red Cross work shops through the country are busily engaged turning out great quantities of the various types of surgical dressings so badly needed in the field dressing stations and base hospitals abroad. These dressings are made with the utmost care in hygienic surroundings and in their preparation are occupying the time of hundreds of thousands of women in the larger cities throughout the country. There can be no fear of an oversupply of hospital dressings and the need for them will become more and more imperative as the military operations are commenced with renewed vigor in the spring. There is also an urgent demand for many articles which come under the heading of hospital garments, directions for the making of which are herewith appended. These articles can be made in the home, or in the church, as women articles can be made in the home, or in church centers, as women find most convenient.

Knitting.
The demand for knitted articles continues unabated. The order of demand now stands: Sweaters, socks, helmets, wristlets, mufflers.

Send for the Red Cross pamphlet on Knitting. If you will follow its directions as to size of needle and thread, number of stitches you will get correct and serviceable garments. When the yarn is thinner than that required by the Red Cross standard a finer needle must be used, with more stitches, or, for the sweater, the thread may be doubled.

Never leave a knot in your yarn. Splice the ends by raveling for two inches, crossing in the palm of the hand and rolling into a solid thread. Socks must not have a ridge under the heel, nor at the end of the toe. Never finish a toe by placing stitches on two needles and casting off from both needles together; never do this under the heel.

Please make knitting a leisure time occupation, have it always with you; form the habit of knitting as you talk or as you listen, as you wait or as you ride. It is astonishing how the garment grows from this odd-time activity.

Hospital Garments.
Every pattern company now carries the standard Red Cross patterns. If they are not carried by your local dealer get them through your Red Cross Supply Service, 1226 Olive street, St. Louis. They give the details of putting the garment together. Order cut garments or cut your own by machinery. Do not waste time by hand cutting.

Pajamas and bed shirts are in greatest demand. Underdrawers and undershirts come next, and just so we have a call for bedspreads. They are made of colored cotton or chintz and measure seven by five feet. Comfort pillows are also in demand. Fill a white container 15x20 inches or smaller with finely snipped pieces of cotton cloth mixed half and half with shoddy cotton and enclose all in a pillow slip.

Here are directions for making hospital garments:
Pajamas—Official American Red Cross Pattern No. 60. Size large. Two sizes, medium and large. For medium size, 1/4 yard outing flannel, light or dark

The Bureau of Civilian Relief also is doing a great work in France. Existing 22,000,000 Children. Through the Junior Red Cross, which has been created in accordance with a plan credited largely to Dr. H. N. MacCracken, president of Vassar College, it is proposed to give the 22,000,000 school children of the United States an active share in the work of the Red Cross.

The purpose of the Junior Red Cross is largely educational, and its activities will be carried on entirely in the schools, as a part of the school work.

The organization of the Junior Red Cross aims at decentralization and the independence of the local unit. Contact with the Red Cross will be maintained only through the School Committee of the local chapter, the chapter, in turn, receiving its directions and material through the division director of junior membership.

The dues of each auxiliary are a sum equal to 15 cents for each member. This is required as a pledge of serious purpose, and is to be used by the auxiliaries in the purchase of materials for making supplies.

Military Relief Work.

The American army in France is received in large reception camps on the coast, and after several weeks of preliminary training the men are sent across the country to permanent training camps back of the firing lines.

Along the route followed by the troops the Red Cross has established infirmaries and rest stations, each in charge of an American trained nurse with an American man to assist her. Each infirmary contains 10 beds, a stock of drugs and other necessities. The seriously sick are cared for at French hospitals in the neighborhood. Daily calls are made upon the American sick in the hospitals by the nurse and attendant, who take with them reading matter, tobacco and other comforts.

Big Work in United States.

Dispensaries have been established in the American army zone to care for civilians and to improve health conditions in the vicinity of the American camps.

When our men reach their French base the Red Cross continues to act as a friendly agency as opportunity may offer to supplement what the army itself does to make the men comfortable. Recuperation camps have been opened at suitable places, and recreation huts provided for the sick and convalescent.

The department of Military Relief likewise does a practical and a humane work in the United States. It supplies deficiencies in camps and cantonments, distributing clothing, etc., when army and navy red tape makes it necessary. This department even has gone to the extent of supplying plumbing for cantonments.

"The Allen"

Ladies' Ready-to-Wear
7th and Polk, Amarillo

NOTICE

We have decided to close out our entire stock of Winter Coats, Coat Suits and Serge Dresses, which means that each garment will cost you exactly what it cost us, this fall in New York City, and many garments for less, than cost.

WHY WE DO THIS

Simply, because we have to have the room for our large Spring Stock and we do not intend to carry one garment over, if this sacrifice price will sell them.

We had rather have \$15 in cash now, than to have \$30 for the same garment, next season.

The way we keep our New Store New, is to sell the goods while they are new.

Will you take advantage of this sacrifice sale now, or will you wait later, and pay double the price?

School Election Notice.
The State of Texas, County of Randall.

Whereas on the 12th day of December A. D. 1917 a petition was presented to me for an election in Common School District Number Fourteen of this County on the question of issuing bonds to provide funds to be expended in payment of accounts legally contracted in building a school house and authorizing a tax upon all taxable property within said district sufficient to pay the current interest on said bonds and provide a sinking fund sufficient to pay the principle at maturity, said petition bearing the requisite number of signatures of property tax paying voters of said district, and being in every respect in conformity of law;

Now, therefore, I, C. R. Flesher, in the capacity as County Judge of Randall County, Texas, do hereby order that an election be held on the 26th day of January A. D. 1918, at the Kenran School House in said Common School District No. Fourteen of this county as established by order of the Commissioners Court of date the 5th day of March A. D. 1909, which is recorded in Volume 2, page 189 of the Minutes of said Court, and by order of the Commissioners Court of date of April 18th 1910, and recorded in Volume No. 2, page 249 and 250 of the Minutes of said Court, to determine whether a majority of the legally qualified property taxpaying voters of that district desire the issuance of Bonds on the faith and credit of said common school district in the amount of \$2,000.00, the bonds to be the denomination of \$500.00 each, numbered consecutively from ONE to FOUR both inclusive payable Twenty Years from their date and bearing Five per cent interest per annum, payable annually April 10th of each year, to provide funds to be expended in payments of accounts legally contracted in building a school house and to determine whether the Commissioners court of this county shall be authorized to levy, assess and collect annually while said bonds or any of them are outstanding, a tax upon all taxable property within said district sufficient to pay the current interest on said bonds and provide a sinking fund sufficient to pay the principle at maturity.

Henry Meyers is hereby appointed presiding officer for said election, and he shall select two Judges and two clerks to assist him in holding the same, and he shall within five days after said election has been held, make due returns thereof to the Commissioners Court of this County, as is required by law for holding a general election.

The Ballots for said election shall have printed thereon the following:

"For the Bonds"
"Against the Bonds"

All persons who are legal qualified voters of this State and of this County and who are resident property taxpayers in said district shall be entitled to vote at said election.

The sheriff of this county shall give notice of said election by posting three notices in said district and by publishing notice in a newspaper published in said County for three weeks before said election.

Dated this 1st day of January A. D. 1918.

C. R. FLESHER,
County Judge, Randall County, Texas.
(SEAL)

I hereby certify that the foregoing is a true and correct copy of the original order now in my hands.

Coal and Auto Production

Yesterday I read in a newspaper that coal miners were earning as high as \$100 per week.

The billions of dollars that will be spent in this great nation of ours for labor and materials during the next twelve months are hardly conceivable.

Think what this opening of purse strings this will mean to those who have something to sell to this vast army of highly paid workers.

Automobiles will be scarce.

The great increase in demand and the reduction of over 40% in production will make good cars hard to get before long.

Those who delay will pay more. That is a certainty.

They may wait so long that even getting delivery on a fine car like the Hudson will be an impossibility.

This difficulty of getting your car when you want it a little later is not a local situation. It is a national.

The limited number of Hudsons we have in stock are all new models, and art going fast.

Don't wait too long.

Yours very truly,

J. A. GUTHRIE

The Randall County News

Incorporated under the laws of Texas
C. W. Warwick, Managing Editor

Entered at postoffice at Canyon, Texas, as second class matter. Office of publication, West Houston St.

SUBSCRIPTION, \$1.50 PER YEAR

Every candidate for the Texas legislature must meet the question of national prohibition and woman suffrage. The prohibition amendment has been passed by congress and is ready for the action of the state legislatures. The suffrage amendment passed the house, and is likely to pass the senate. It is important that every candidate for the legislature be right on both these amendments. The prohibition amendment must be carried, while we as a nation cannot maintain our dignity and defeat the suffrage amendment. Put it up to every candidate for the legislature. He must face it, and before the people is the place to settle the question.

According to figures secured from reliable sources by the United States food administration, the average consumption of meat by the civil population in Germany is half a pound per week per person, distributed through a rigid system of food cards. Other staple food products are likewise restricted.

President Wilson has come out for women suffrage, and approves the amendment to the national constitution. The house passed the amendment. The war has done much to bring about needed national reforms in this country.

Tag Day for our coal shovels will be observed in the United States on Jan. 30. A tag will be placed on every coal shovel by the school children, asking the people to save a shovelful of coal each day in order to meet the national coal shortage.

The death rate among babies the first year of their lives is 14 per 100. The death rate among the soldiers so far in the trenches has been 2 to 100. It has been much less than other wars considering the large number of men engaged.

An American should be wholly an American. To live in our land and enjoy the protection of the government, and to thrive under the advantages of this country should be sufficient to prove to any man that a democracy is better than an autocracy.

Senator Sheppard has announced for re-election to the United States senate. There is no man in the state who can defeat him, and none will likely have nerve enough to tackle a hopeless job.

The draft law has been upheld by the supreme court and now the making of a great army can proceed without the danger of being hindered on technical points.

Tighten up your belt. Eat only such an amount of food as you actually need to run your body.

Only two more weeks to pay your poll tax.

Pay your poll tax and vote in the primary in July.

Buy a thrift stamp.

For forty years the German autocracy has refused to let the German people rule themselves and at the same time constantly assured them they ought to rule the rest of the world.—Chicago Herald.

An optimist is one who reads eagerly about Senate inquiries into the shortage of necessities.—St. Louis Globe-Democrat.

Not All Ears, Eyes and Nose.

A country newspaper publisher is just an ordinary human being. He is not composed exclusively of EARS, EYES and NOSE. It is impossible for him to HEAR everything that is that is going on. He can be in but one place at a time, and is a cinch he cannot SEE every thing that is going on. His nose may be well trained to scent out news, but even the highly trained reporters of the big dailies sometimes fail to SMELL all of the news of the day. The NEWS asks your hearty cooperation in the publication of this great religious weekly. Tell us the news. Use the telephone. Write it out and send it in. Our readers say the paper is much better than it used to be, but there is yet much room for improvements. GIVE US ALL THE NEWS.

When Teddy Was President.

Women who who only one petticoat were talked about.
Skirts at shootops were indecently short.
The Hague peace tribunal was mentioned on the first page.
The "divine Salle" was making her "farwell tour" of America.
People were getting their first good laugh out of the preposterous idea of practical submarines and airships.
The automobile industry was staggering on its last legs.
Thirty-cent porterhouse steak was called an outrage.
Some foolish women were talking about demanding the ballot.
The little Singer building was the tallest in New York.
The death of musical comedy was announced by critics.
Gasoline had reached the top-notch price of 18 cents a gallon.
Nat Goodwin had been married only three times.
Every man who owned an auto was considered a daredevil.

Another Thrifty Plains Housewife.

Mrs. John W. Donnell, who lives in the Hay Lake community, is another of our thrifty pioneer housewives who believes not only in raising a living at home, but in having some to spare to lay up for a rainy day, and, at our request, gave us the following statement of produce sold during the past year. Statements like these are very interesting and show what can be done on the farm to help along here on the Plains:

512 1/2 doz. eggs	\$145.15
344 lbs. butter	112.75
340 gals. milk	48.80
26 chickens	18.77
Vegetables	13.20
Feathers	9.00
Total	347.67

An Unique Opportunity

There is an opportunity for some fellow of an inventive inclination to win the everlasting gratitude of his government as well as his fellow citizens on the Plains, by studying up some method of compressing into convenient form for burning, the perfectly splendid crop of tumble weeds that are now an unsightly nuisance. Every one who has made a bon fire of these weeds can testify to the immense amount of heat that they give out in burning and it is said that this is due to the large amount of oil which they contain. In their natural state it would be impossible to feed them to anything but the most cavernous of furnaces but they might be utilized in ordinary stoves if compressed into fagots. Now somebody get busy and the fuel question will be solved for the Plains folks.

A Blow at the Farmer.

To manufacture oleomargarine costs vastly less than to produce butter. If ever it becomes legally permissible to color oleomargarine so that it exactly resembles butter in appearance, the price of oleomargarine will be raised and the price of butter will be lowered. Already oleomargarine is being sold as a substitute for butter. Its sales have increased by leaps and bounds during recent years, but this has not interfered with the demand for butter, because those who know that there is no substitute for butter, and those who prefer to use butter in spite of the fact that oleomargarine is cheaper, are sufficient in number to use all of the butter the farmers of this country can produce. But let oleomargarine be colored yellow, and thousands of those who are now using butter will be urged to try oleomargarine. It will look like butter, taste like butter, spread like butter, and that is as far as the average consumer will carry his investigations. He will not know that he is robbing himself and his family of the essential vitamins; he will be satisfied to save a few cents per pound on the cost of his bread-spread and the demand for butter will be decreased just that much. Gradually the dairy interest will be thrown in competition with the packing houses. The demand for butter will not suffice to pay for produc-

**WHAT THE
RED CROSS
IS DOING
AND WHAT YOU CAN DO**

JUNIOR MEMBERSHIP.

Junior Membership has developed in response to an earnest desire of pupils in many states to render patriotic service in this time of need. It was natural that the school children should wish to become a part of the great Red Cross movement for war relief. Planned and administered by educators, Junior Membership cannot fail to be of value in vitalizing the work of the schools, while their total product will be of great service to the Red Cross.

- The following important facts should be generally known:
1. That the organization was formed in response to a demand from schools.
 2. That leading educators all over the country are advisers to the organization and its activities.
 3. That President Wilson has issued a call to all school children and teachers to join in this patriotic work.
 4. That Junior membership is open to all boys and girls of school age attending public, private or parochial schools, or attending other organized educational centers, but only to such student bodies as a whole.
 5. That Junior membership is open to grades in the school, providing the school contemplates complete organization later, but not to individual pupils.
 6. That Junior membership is granted when a sum equal to 25 cents for each child in the school has been contributed to the chapter school fund or when the school is pledged to prepare Red Cross supplies or engage in other Red Cross work approved and supervised by the Red Cross chapter.
 7. That all money raised is to be spent for materials which will be used by the school for its Red Cross work. No part of the school fund is used for local Red Cross expenses, and no part goes to Washington.
- Red Cross activities for boys and girls have been classified as follows:
- Group 1—Children 8 to 10. Gun Wipes—Cut one-inch squares of flannel or flannellette or any woven material and thread 50 on a string.
 - Gun-Cleaning Rags—Cut 12 to 14 inches square from soft material. Do not hem.
 - Wash Cloths—Knit or make from toweling, with crocheted edges.
 - Baby Afghans—Knit or crochet five-inch squares of blue, pink or white wool. Sew together six squares for length and five for width.
 - Group 2—Children 10 to 14. Sleeveless Sweaters, Wristlets or Mittens—Knit according to directions in A. R. C. 408.
 - Baby Afghans—(See directions in first group).
 - Group 3—High School. Hospital Garments—(See A. R. C. 408.) All Knitted Articles—(See A. R. C. 408.) Refugee Lavette—(See A. R. C. 407.) Comfort Kits—(See A. R. C. 402.) Patterns for infant's layettes may be obtained through local chapter from Bureau of Supplies, 1230 Olive street, St. Louis, Mo.
 - Surgical Dressings—Greatly needed. For directions see A. R. C. 401, also surgical dressings, this issue; these should all be made under supervision of an instructor.
 - Work for Boys. High Schools: 1—Boxes for Red Cross shipping purposes, 2 feet by 2 feet by 2 feet, outside measurements, of 3-inch lumber. 2—Workroom furniture, for local chapter or to be sold, tables, chairs, shelving, etc. 3—Cans. 4—Clerical work, typewriting, multigraphing, etc. for local chapter.
 - Grade Schools: Knitting needles, for use of local chapter or school children. These are made 12 inches long of hard wood cut from dowels secured from a cabinet maker, sharpened at both ends with pencil sharpener, sandpapered, then rubbed in floor wax until perfectly smooth. 5—Knitting frames, a flat wooden ring 10 inches in diameter or larger, with pegs one inch apart; to be used by small children in weaving scarfs.
 - All Grades: Service in local Red Cross work—collecting newspapers to sell, helping in Red Cross campaigns, Liberty Loan campaigns, by distributing posters, running errands, etc.
- For further information address
MRB. E. R. KROEMER,
Director Junior Membership, Southwest-ern Division, A. R. C., 1617 Allway Exchange, St. Louis, Mo.

of the war, this argument will appeal to many senators and representatives unless their former constituents make it very impressive that the sum is not sufficient remuneration to the government in return for ruining the dairy industry, which eventually means the downfall of agriculture, the foundation of America's wealth, prosperity, liberty, and civilization. Even as we are sure that "a stitch in time saves nine," just that sure are we that action on the part of farmers and dairymen right now will save producers and consumers of butter from paying millions of dollars of tribute to the packers in the future. We appeal to you, therefore, to write to your own senator and congressman, urging them to oppose any bill which purports to make legal the coloring of oleomargarine yellow. It is time to act.—Kimball's Dairy Farmer.

New Russia's first donation to the cause of world-wide democracy may be the release of about a million of German prisoners whom German autocracy can use in beating up democracy.—St. Louis Star.

Back to the Farm.
We met a man on the street a few mornings ago who is receiving \$2.75 a day. This man was raised on a farm near our city and left it eight years ago because he left there was a larger opportunity in the city for making money and the work would not be quite so confining and laborious. After eight years of experience in the city he has come to the conclusion that there is no opportunity to get ahead working for a wage of \$2.75 a day. He is going back to the farm.

In the course of the conversation he said: "I wonder how people get along who are receiving but \$2.25 a day and do not own their own homes. I own my home and I find it most difficult to support my little family on the income I am receiving. We are not wasting any money and are living as close as anyone ought to live to keep in good health. I have been doing some figuring. I have been comparing myself with one or two of the neighbor boys who remained on the farm and with some of my folks who have been following farming continuously, and I find that if I had remained on the farm and had worked as industriously as I have in the city during the past eight years, I would have paid for 80 acres of land. In other words, I would have been so situated that I would have little concern about my future income; or about provisions for old age. "I am on my way now," he continued, "to make arrangements for renting this eighty and if I can secure the necessary backing, I shall return to the farm next spring. I have had my experience in working by the day and know something of the city man's side of life, so I shall go back to the farm more contented and I am sure that at the end of ten years will be in better shape for caring for myself than I would if I should remain and work at my present income."—Hoard's Dairymen.

Test Of Power.

There are three tests of power. First this, that all power shall be tested by restraint. That is law. Only people who can submit and give obedience to law attain to genuine civilization. The second test of power in a people is the measure of their feeling for art. An ugly people and one whose surroundings and environments are ugly, do not know how to use power. The last test of power is in the capacity for self-sacrifice—that is religion. A nation incapable of self-sacrifice will be judged as barbarous.—Bishop Gailor

Christening The Baby.
Brown has a lovely baby girl. The stork left her with a flutter; Brown named her "Oleomargarine." For he hadn't any but her.
Trotzky is now said to be worth \$500,000. Probably it is meant that he has picked up that amount somewhere. However, we take back the implication—Trotzky is probably worth \$500,000 to the Kaiser.—Chicago Daily News.
Let it be borne on the flag under which we rally in every exigency, that we have one Country, one Constitution, one Destiny.—Webster.
In the measure in which thou seekest to do thy duty shalt thou know what is in thee. But what is thy duty? The demand of the hour—Goethe.
Putting off an easy thing makes hard and putting off a hard thing makes it impossible.—George Horne Lorimer.

Roumania, deserted by the Russians, registered its opposition to a separate peace, but decided that it didn't want a separate war.—Seattle Post-Intelligencer.

ON GUARD!

WOMEN OF AMERICA, your country is at war against the world's mightiest military power.

We entered it when all the nations holding Germany at bay were throwing in their man-power and money-power spending their millions to end this war by winning it. And still Germany was not defeated.

We entered it when, with their farm folks in the trenches, the fields of our Allies were being plowed and sown by the **WOMEN.** But there were not enough, though they worked from dawn till dark.

Those crops have been pitifully small. The usual outside sources of supply have been cut off and our Allies must depend on us. The women will work and the soldiers will fight to the death, but against hunger they are helpless.

Germany knows. She has said that if she can only starve England she will win.

If our Allies have to yield to Germany because of hunger, America, alone will have to shoulder the burden of winning the **WORLD WAR.**

And so to save our Allies and their liberty and our own, we have pledged our youth, our wealth, our all.

But we are not prepared to throw millions of soldiers into the field at once. Our money can not buy bread and meat in Europe for our Allies. There is little there to buy.

We **MUST** give them food—**REAL FOOD!** They need wheat, meat, canned foods, fats. And though thousands of tons of it will be sunk by submarines, still we must ship, ship, until we have saved democracy with food.

But how can we do this and feed ourselves when we must send our Allies 220,000,000 bushels of wheat this

year, instead of the usual 88,000,000 bushels; when we are already sending them three times as much meat as we have sent them before? Moreover, corn meal, of which we have more than enough, can't readily be shipped to Europe now because it spoils.

Women of America, even as the women of France are guarding the fields day and night, your country calls to you to stand guard over the world's commissary. That commissary is the food supply of America. There is enough in it if you will guard it.

Your task in this war is to guard food for the soldiers and home workers of our Allies. They are fighting for YOU!

You can release shiploads of wheat for these fighters and workers by using less wheat flour in your homes and by using more corn meal, by wasting not a crust or crumb of wheat bread.

By eating less beef, mutton and pork, and by eating more fresh and preserved or dried vegetables and fish, our supply of meat animals will do for us and our Allies.

Likewise you are needed to stand guard and see that there is no waste in the world's supply of fats, sugar and milk in your homes. They are becoming scarcer. As they do, then we ourselves and our brothers on the firing lines and our sisters in the fields and munition factories will suffer.

Three times a day—at each meal—think of America's glorious privilege: To feed the world while it fights its way to freedom. Then remember that you are standing guard, that the opportunity to win this war for humanity is yours.

U. S. FOOD ADMINISTRATION

A Good Udder Important. Nothing so adds to the value of a dairy cow as a capacious, well placed udder. Either at a sale or in the show ring the udder seems to be the one point on which the final decision is based. This is the opinion of W. H. Underwood as stated in the Farm and Ranch Review. It appears to be the one thing that indicates whether or not a cow will be a non-supporter or a revenue producer. A good udder is therefore a very great essential to the dairy cow.

The udder is a very delicate organ. It is as sensitive to abuse, ill treatment and improper care as a watch. It is composed of four parts which are separated by fibrous tissues. There is no connection between these parts, so it is impossible to draw milk from one to the other. The milk glands proper are located near the udder, the remainder of which is occupied by blood vessels, nerves, muscles, ducts and tissues which make it rather open and sponge-like.

The sphincter muscle is at the lower end of the teat and keeps the milk from escaping. The upper end of the canal in the teat is connected with the milk reservoir, the size of which varies in different cows. The opening from this reservoir into the teat is also guarded by a muscle over which the cow has little control. In dealing with the udder of a cow we are therefore working with a very complex mechanism.

Length and width of the udder are of greater importance than depth. We get the length desired in an udder that is attached high behind and runs well forward on the belly. Width is determined by the conformation of the thighs. The inside of the thighs should curve outward, forming a well defined arch that begins high back its widest part at the top and inside of which the udder hangs free and easy.

An udder that is long toward the ground is a pendulous udder and very objectionable in many ways. It swings as the cow walks or runs, hitting her legs, often becoming bruised, causing bloody milk and other troubles. It comes in contact with the dirt, manure, etc., in the barn. With this kind of an udder the secretory glands are farther removed from the blood supply than in the case with the long udder that is closely attached to the body. A cow with such an udder as this is most disagreeable to milk and is very apt to be a poor producer.

Another shape of udder to guard against is the tilted udder, one that is fully developed in the hind quarters but greatly lacking in the fore quarters. Two-thirds or more of the milk is given from the hind quarters. Sometimes the teats are very close together and cause great inconvenience when milking. It is natural to suppose that were the fore quarters developed like the hind ones a much larger production of milk would be obtained from the increased capacity.

Another objectionable form of udder is what is termed the pointed udder. Such an udder is lacking in all of the quarters and comes to a point like a funnel, the teats being very close together. It is not only disagreeable to milk cows with such udders but they seldom yield very much milk.

It is really not safe to buy a cow with a large udder without first seeing her milked out. It is very difficult to detect a bad quarter when the cow's udder is large and tight from the need of milking out. The size, however, may be due to a fleshy udder as well as to not being milked out. It is not unusual to milk a cow with a very large udder, getting perhaps a little over a gallon of milk with no more to be had, even though from appearances of the udder there should still be two or three gallons produced. Such an udder has a large number of fatty cells incapable of secreting milk and the udder remains large and hard to the touch even after the cow is milked, whereas it should collapse, being soft and spongy to the touch. Since a good udder should be attached high behind there should be loose folds of soft and oily skin hanging from the attachment after the udder is milked out. Such an udder denotes quality and efficiency.—Holstein-Friesian World.

—Oklahoma Livestock News.

Siftings. There is a county in Wisconsin with about 23,000 population. The name of the county is Green. The people are all dairy farmers and in an area of 24 miles square they have 160 cheese factories, three creameries and three condenseries which paid them last year nearly \$4,000,000 for their dairy products.

In the 15 Southern states the number of community organizations of farmers formed to aid the county agents increased in a year from 1,654 with a membership of 44,548, to 2,508, with a membership of 78,660. In the 33 Northern and Western states the number of farm bureaus and similar local organizations was increased to 374, with a membership of 98,654.

Some remarkable things are going to be done in the shipbuilding line on all coasts of the United States as the shipyards get their pace. Some remarkable things are being done already. One instance will suffice for the moment: The hull of the 8800-ton steel cargo-carrier Seattle, under contract for the Shipping Board has been constructed and launched, at a Pacific port, within seventy days from the laying of the keel. And this time is to be beaten by a vessel of

We have a very limited amount of the following items which we are making unheard of prices on and prices will not be changed until all sold.

Boys' Two-Piece Underwear
Ladies' Coats
Ladies' Coat Suits
Ladies' and Men's Sweaters

Our reasons for making these ridiculous prices are, we don't want to carry anything over for next season, having bought everything we can handle, we must make sacrifices on our present stock.

Come in and let us convince you.

Redfearn & Company

MUST SAVE CANE SEED

The following warning is issued by the Panhandle Grain Dealer's Association, which should be heeded by the farmers of this section:

I want to call your attention to the fact that cane seed, maize, kaffir and feterita suitable for seed purposes is going to be very scarce in the Panhandle by seed planting time. The writer's experience has been that it often takes several plantings in order to insure a good stand of these commodities and the average farmer does not usually provide enough seed for a replanting.

Prices have been high and ordinarily the farmer figures on selling what he has and then if necessary buy it back, shipping it in at planting time. I want to call your attention to the fact that it will be impossible to ship in these commodities, especially cane seed because there are no stocks anywhere in the United States to be drawn upon. The seed that goes down state, of course, will be needed for planting purposes to provide forage. However, very little of it is allowed to mature, so that the only way there will be any next year's crop of cane seed, maize, etc., is for the Panhandle of Texas to hold back

enough seed to insure a good acreage this season.

What little cane seed business you have had this year has no doubt been profitable, but unless you hold back enough seed for your local community you will have no business in this line next fall. There is nobody else going to look after this. The responsibility rests upon you to do your bit toward saving enough seed for your local community, especially in getting the farmers in your territory to reserve enough seed for their own planting. You know the farmers will not hold back enough to supply your community and so it is up to you, Mr. Grainman, to reserve the difference. It is planted here in rows for seed and does a great deal more good for the country as a whole than in localities where it is sown broadcast, for forage only.

See your local bankers and see that they understand the desperate conditions that will confront their section next spring. They should see that their farmer customers can borrow enough so that they need not sell or feed their last bit of cane seed, maize, etc.

Eugene S. Blasdel, Secy-Treas.

Wilson Outlines War Program.

Washington, Jan. 8.—America's program of war and peace, with definite terms upon which nations, great and small, fighting together against German world domination are ready to lay down their arms, was given to the world by President Wilson today, through an address to congress, in joint session.

Fourteen concrete proposals laid down by the president began with the declaration that the days of private international understandings are gone, and the covenants of peace must be reached in the open. Briefly summarized, the other points were:

Absolute freedom of the seas in peace or war, except as they may be closed by international action; removal of economic barriers among nations associating themselves to maintain peace; guarantees of the reduction of armaments to the lowest point consistent with democratic safety; impartial adjustment of colonial claims, based on the principle that the peoples concerned have equal rights with the government; evacuation of all Russian territory and opportunity for Russia's political development; evacuation of Belgium; evacuation of French territory and fighting of the Alsace-Lorraine wrong; readjustment of Italy's frontiers along recognized lines of nationality; free opportunity for autonomous development of the peoples of Austria-Hungary; evacuation of Rumania, Serbia and Montenegro, and guarantees for all the Balkan states; sovereignty for Turkey's portion of the Ottoman empire and

autonomy for other nationalities; an independent Poland with access to the sea; and general association of nations for mutual guarantees of independence and territorial integrity to large and small states alike.

Austrian Held On Four Charges.

Frank Monfredo, a native of Franfurth, Austria-Hungary, has been turned over to Federal authorities at Amarillo on a warrant issued to L. M. Kenyon on four charges: Failure to register, burning of feed, a menace to the public, an alien enemy.

A week ago Tuesday Monfredo slept in a straw stack on T. B. Jones' ranch and in the morning went to the house for breakfast. It is supposed he got cold toward morning and therefore kindled a fire in a shed that smoldered in the dry manure and communicated to the strawstacks.

About 2 p. m. Wednesday the bank telephone rang notifying Mr. Jones that his feed stacks were burning. Others rushed out to help and by 5 o'clock two of the five stacks had been removed from danger.

As a result 15 tons of maize, kaffir and sorghum for fodder have gone up in smoke, entailing a loss of over \$300. It is a considerable loss but with an open winter Mr. Jones says his stock will get thru very nicely on oil cake.—Vega Sentinel.

The fact that British bulldog tenacity won Jerusalem after 700 years makes Germany's peace feelers seem a trifle premature. — Philadelphia North American.

Well Bred Animals "Drouth Resisters"

W. A. Beaty of Cheyenne, over in Roger Mills county, here today enroute home from a trip to south and southwest Texas, says he marvels at the staying qualities of herds in that section during the long drouth. "I expected to see dead or dying cattle everywhere," he remarked today, "but instead cattle are wintering on 'nothing' the best possible. Around Midland and Odessa where it has been bone-dry for 18 months, herds are existing just the same. Of course, pastures have been lightened by a removal to the mountains or other sections, but there is a good number of cattle around and losses are small. In my home country, we are in much better shape, yet very dry. There is some feeding going on and ample roughage to winter what cattle owners are now running. I am convinced that the improvement in breeding quality has more than this virtue. These high bred cattle are standing more drouth suffering than the old long horns could. They are better rustlers and the better breeding gives them greater vitality with which to withstand the rigors of a long drouth."

NOTICE TO TAXPAYERS

Please be advised that all taxes not paid before FEBRUARY FIRST will take 10 per cent penalty. This will only take care of them for two months. If not paid by April 1st they will go on the DELINQUENT TAX RECORD, which will make an additional cost of \$2.25 for each assessment.

Come early so you won't have to wait.

WORTH A. JENNINGS
Tax Collector
RANDALL COUNTY, TEXAS

Sheriff's Sale.

The State of Texas, County of Randall. By virtue of a certain order of sale issued out of the Honorable District Court of Potter County, on the 4th day of January 1918, by J. C. Skillman, Clerk of said Court against Mattie B. Truscott and S. M. Wilson, for the sum of Three Thousand and Three Hundred and Thirty-Seven and 62-100 (\$3337.62) Dollars and costs of suit, in cause No. 2621 in said court, styled G. W. Willingham, vs. Mattie B. Truscott et al and placed in my hands for service, I, Worth A. Jennings as Sheriff of Randall County, Texas, did, on the 7th day of January 1918 levy on certain Real Estate, situated in Randall County, described as follows, to-wit:

Lat Nos. 5 and 6, in Block No. 9, of the Conner addition to the town of Canyon, in Randall County, Texas; and levied upon as the property of said Mattie B. Truscott and S. M. Wilson, for the sum of Three Thousand and Three Hundred and Thirty-Seven and 62-100 (\$3337.62) Dollars and costs of suit, in cause No. 2621 in said court, styled G. W. Willingham, vs. Mattie B. Truscott et al and placed in my hands for service, I, Worth A. Jennings as Sheriff of Randall County, Texas, did, on the 7th day of January 1918, at the Court House door of Randall County, in the City of Canyon, Texas, between the hours of ten A. M. and four P. M. I will sell said personal property at public vendue, for cash, to the highest bidder, as the property of said H. E. Jobe and C. W. Jobe, by virtue of said levy and said order of sale.

And in compliance with law, I give this notice by publication, in the English language, once a week for 10 days immediately preceding said day of sale, in the Randall County News, a newspaper published in Randall County.

Witness my hand, this 16th day of January 1918.

The Quinine That Does Not Affect the Head
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness or ringing in head. Remember the full name and look for the signature of E. W. GROVE, JOC.

Citation By Publication.

The State of Texas. To the Sheriff or any Constable of Randall County.

Greeting: You are hereby commanded to summon John G. Sharp, and the heirs of John G. Sharp, deceased, whose names are unknown, to appear at the next regular Term of the District Court of Randall County, to be held at the Court House thereof, in the town of Canyon, in said County, on Monday, the 25th day of February, 1918, then and there to answer a petition filed in said court on the 7th day of January 1918, in a cause numbered 848 wherein Annie L. Vaughn and her husband, B. A. Vaughn, are plaintiffs and John G. Sharp, and the unknown heirs of John G. Sharp, deceased, are defendants, the cause of action being alleged in substance as follows:

The plaintiff Annie L. Vaughn is the owner in fee simple and in her own separate right of the following described premises, situated in Randall County, Texas, to-wit, 412.5 acres out of survey No. 35 in Block 9, original Grantee Beaty, Seale & Forwood, bounded as follows: Beginning at a stone 10x8x4 in middle of lane 160 varas East of the S. W. corner of Survey No. 35, this block; Thence S. 89 deg. 47 min. E. 1794 varas to S. E. corner of said survey, a stone 30x8x4 for corner marked 34 and 35 in a flat basin 5 varas S. of an old T anchor fence; Thence N. 0 deg. 20 min. W. 1950 varas to a stone 30x10x8, marked 33, 34, 35, 36, the N. E. corner of Survey 35, this block; Thence N. 89 deg. 47 min. W. 603 varas to a point in N. line of said survey; Thence S. 0 deg. 18 min. E. 975 varas; Thence N. 89 deg. 47 min. at 373 varas, stone 10x8x5 marked 14, 1277 varas to a stone 12x10x3 in lane; Thence S. 0 deg. 26 min. W. varas to Thence S. 0 deg. 26 min. W. 975 varas to place of beginning.

Plaintiff, Annie L. Vaughn, further shows that she and those whose estate she has, claiming under a deed, and deeds, duly registered, has had actual peaceable, continuous and adverse possession of the lands and tenements above described, using and enjoying the same, and paying all taxes due thereon, for a period of more than five years after the defendants' cause of action, if any they ever had, accrued, and before the commencement of this suit. That plaintiffs are entitled to the title and possession of said premises.

You are therefore commanded to so summon the defendants and to serve this citation by publishing the same once in each week for four successive weeks previous to the return day hereof, in a newspaper published in your county; but if no newspaper is published in said county, then in the nearest county where a newspaper is published. Herein fail not, but have you this writ before said court, on said first day of the next term thereof, showing how you have executed the same. Given under my hand and seal of said court, in Canyon, Texas, this 7th day of January 1918.

land was sold to defendant William Chamberlain and others owned said land, and Defendant when the land was sold to him executed certain vendors lien notes of which William Chamberlain and others were the owners of said notes, but since that time William Chamberlain has bought all the interest in said notes and is the sole owner of same.

4. That Defendant is asserting some claim to said land under a deed, or instrument in writing to be found of record in the Deed Records of Randall County, Texas, and which said deed or instrument in writing so recorded is a cloud on Plaintiff's title.

Herefore, Plaintiff prays that said Defendant be cited to appear and answer this petition, and that upon trial hereof the Plaintiff have judgment for the title and possession of said above described land and premises, free and clear of all claims and rights of said Defendant, if any he has by virtue of said instrument so recorded, and for the cancellation of said recorded instrument of defendants and the removal of said cloud; that he have his writ of possession his damages and his rents, and his costs of suit and for such other and further relief, special and general in law and in equity as he may show himself to be justly entitled to.

SECOND COUNT

2. The Plaintiff prays the Court that if his right to recover against the Defendant Albert Kalous under his first count of Trespass to Try Title be denied him that he have judgment on this his second count which is as follows:—

3. For cause of action Plaintiff represents to the Court that heretofore to-wit: On or about the 18th day of March 1910 the Defendant made, executed and delivered to Plaintiff as Trustee his five notes for the sum of \$490.00 each. Said notes are due, respectively, One, Two, Three, Four and Five years after date, and made payable to William Chamberlain Trustee, at Canyon, Texas, and bear interest at the rate of seven per cent per annum from date until maturity, and in the event of default in the payment of principal or interest on any of these notes, or any part thereof at maturity, the amount in default shall bear interest at the rate of ten per cent per annum until paid. It is further agreed that if any one of these notes or any installment of interest shall become due this will mature all of said notes above described. The failure to pay any taxes assessed on this land as hereinafter described when due shall operate to mature all of said notes immediately at the option of the holder thereof. The holders of any one of these notes are hereby authorized at their discretion at any time after taxes are payable upon said land to pay such taxes and any costs and penalties that may have accrued, and all sums of money so paid with interest thereon at ten per cent per annum from date of payment are to be considered a part of the note of this series first falling due after such payment by said holders; the same as if originally agreed that if notes or any one of the series are placed in the hands of an attorney for collection then an additional ten per cent additional on the principal and interest then owing thereon as attorney fees.

4. That said notes were given for part of the purchase money of the following described real estate, situated in the County of Randall and the State of Texas, to-wit: The East Half (½) of the South West Quarter of Section one hundred and sixty nine (169) in block six (6) I. & G. N. R. Co., land certificate number 1628. That said property was heretofore to-wit: On the 18th day of February, 1910 conveyed by Plaintiff as Trustee to Defendant by his deed of writing of that date in consideration among other thing of five vendors lien notes herein described, and that in said deed of conveyance a lien was reserved thereon to secure the payment of said notes. That all of said notes both principal and interest are unpaid and due and Defendant though often requested has failed and refuses to pay said notes each or either of them or any part thereof, but the same remains still due and unpaid.

5. That whereas, at the time this land was sold to Defendant William Chamberlain and others owned said land, and Defendant when the land was sold to him executed certain vendors lien notes of which William Chamberlain and others were the owners of said notes, but since that time William Chamberlain has bought all the interest in said notes and is the sole owner of same.

6. That said notes have been placed in the hands of Rector Lester an attorney for collection and Plaintiff has contracted to pay him the ten per cent attorney's fees stipulated therein.

7. Premises considered, Plaintiff prays the Court that the Defendant be cited in terms of the law to appear and answer this petition, that citation issue immediately for the Defendant Albert Kalous for service and that upon the trial of this cause he have judgment against the defendant Albert Kalous for the amount of his said five notes, principal, interest upon interest, attorney's fees; that he have judgment establishing his said express vendors lien on the land herein described and foreclosing said lien on said land to the amount of said notes as against the Defendant, Albert Kalous, that said land be decreed to be sold according to law; that an order of sale issued, that the Sheriff, or other officer executing an order of sale be directed that he apply the proceeds of said sale to Plaintiff's debt, principal, interest, interest on interest and his attorney's fees; that said officer shall place the purchaser of said property in possession that he have judgment for the costs in this behalf expended, and all other and further relief, special and general, in law and in equity, as he may show himself entitled to on the final hearing of this cause.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given Under My Hand and Seal of said Court, at office in Canyon, Texas, this 14th day of January, A. D. 1918.

D. 1918, in a suit, numbered on the docket of said Court, No. 851, wherein William Chamberlain is Plaintiff and John Prusek is defendant, and said petition alleging

FIRST COUNT

That Plaintiff resides in Anamosa, Iowa, in Jones County, that defendant John Prusek who is a non resident of the State of Texas, and for cause of action in this Court Plaintiff represents to the court:

2. That heretofore, to-wit, on or about the 18th day of February, 1910, the Plaintiff and other parties were lawfully seized and possessed of the following described land, situated in the County of Randall and the State of Texas, holding and claiming the same in fee simple, to-wit: The West Half (½) of the South West Quarter of Survey One Hundred and Sixty Nine (169) in Block Six (6) I. & G. N. R. Co., lands, Certificate Number 1628, and that on the day and year aforesaid the Defendant unlawfully entered upon said premises and ejected Plaintiff therefrom and unlawfully withheld from him the possession thereof to his damage three thousand dollars, that the reasonable annual rental value of said land and premises is \$50.00.

3. That whereas, at the time this land was sold to defendant William Chamberlain and others owned said land, and Defendant when the land was sold to him executed certain vendors lien notes of which William Chamberlain and others were the owners of said notes, but since that time William Chamberlain has bought all the interest in said notes and is the sole owner of same.

4. That Defendant is asserting some claim to said land under a deed, or instrument in writing to be found of record in the Deed Records of Randall County, Texas, and which said deed or instrument in writing so recorded is a cloud on Plaintiff's title.

Wherefore, Plaintiff prays that said Defendant be cited to appear and answer this petition, and that upon trial hereof the Plaintiff have judgment for the title and possession of said above described land and premises, free and clear of all claims and rights of said Defendant, if any he has by virtue of said instrument so recorded, and for the cancellation of said recorded instrument of defendants and the removal of said cloud; that he have his writ of possession his damages and his rents, and his costs of suit and for such other and further relief, special and general in law and in equity as he may show himself to be justly entitled to.

SECOND COUNT

2. The Plaintiff prays the Court that if his right to recover against the Defendant, John Prusek, under his first count of Trespass to Try Title be denied him that he have judgment on this his second count which is as follows:

3. For cause of action Plaintiff represents to the Court that heretofore to-wit: On or about the 18th day of February 1910 the Defendant made, executed and delivered to Plaintiff as Trustee his five notes for the sum of \$194.50 each. Said notes are due, respectively, One, Two, Three, Four and Five years after date, and made payable to William Chamberlain Trustee, at Canyon, Texas, and bear interest at the rate of seven per cent per annum from date until maturity, and in the event of default in the payment of principal or interest on any of these notes, or any part thereof at maturity, the amount in default shall bear interest at the rate of ten per cent per annum until paid. It is further agreed that if any one of these notes or any installment of interest shall become due this will mature all of said notes above described. The failure to pay any taxes assessed on this land as hereinafter described when due shall operate to mature all of said notes immediately at the option of the holder thereof. The holders of any one of these notes are hereby authorized at their discretion at any time after taxes are payable upon said land to pay such taxes and any costs and penalties that may have accrued, and all sums of money so paid with interest thereon at ten per cent per annum from date of payment are to be considered a part of the note of this series first falling due after such payment by said holders; the same as if originally agreed that if notes or any one of the series are placed in the hands of

Testing Plains Feeds.

The State Agricultural College is planning to carry on a maintenance test with range cows this winter in cooperation with the Tucumcari Field Station of the United States Department of Agriculture. This test will be started about the first of the year. It is intended to use cows which will drop their calves about the first of April. One pen will be fed Cowpeas hay and Kafir ensilage and the other pen will be fed Sudan Grass hay and kafir ensilage. The purpose of the test is to learn the value of these feeds for carrying over such cows during the short grass months and also to note the quality of calves brought from cows on the different feeds. It is believed by the Agricultural College that it is an economical proposition to grow feeds here for maintaining cows during the winter rather than to depend upon grass alone or

on grass and cake. In feeding tests on this station the past three winters the College has in each case purchased the feeders outright. This winter it is the intention, if the right sort of cows are available, to borrow the cows from one of the local stockmen in return for the feed given the animals. This will be a mighty good proposition for the one having the right kind of cows.

The results of a maintenance test like this will be of great value to the stockraisers in this section just as the results of the fattening tests carried on the past three winters and the results of which were published in New Mexico bulletin 108 entitled "The Utilization of Dry Farm Crops in Beef Production" will be of value to those stockmen fattening out steers. The feeding test this winter will be carried on at the Tucumcari Field Station and will be started about the first of the year.—Tucumcari (N. M.) News.

Stockmen Get Priority.

Stockmen in the drouth-stricken sections of Texas and New Mexico will be afforded quick transportation of feedstuffs from Louisiana, Oklahoma, Arkansas, Kansas and Missouri, under a priority order issued November 30, by Judge R. S. Lovett, priority officer of the Government. All common carriers in the States mentioned, as well as Texas and New Mexico, have been directed to give priority and preference in car supply and transportation to shipments of cottonseed cake and meal, hay, rice straw, hulls and forage for all points in Texas and New Mexico from the States mentioned.

Live stock and perishables, human foodstuffs, railroad supplies and materials, coal and shipments for the United States Government are excepted.—The Cattleman.

Figures on the amount of garbage collected in 83 cities of the United States having a total population of more than 22,000,000, show a decrease for September and October of this year as compared with 1916. In September the amount of garbage was 10 per cent less and in October 7 per cent less than a year ago. The "richness" of the garbage in grease according to the U. S. Food Administration has decreased 36 per cent comparing this October with last.

Try a rye-bread cottage cheese and tomato catsup sandwich. It will give your palate a thrill, one you'll probably repeat.

The State of Texas, To the Sheriff or any Constable of Randall County-Greeting: You are hereby commanded to summon Charles Wilkman, and the unknown heirs of Charles Wilkman, deceased; Elizabeth Stanley, and the unknown heirs of Elizabeth Stanley, deceased; Martin G. Mull, and the unknown heirs of Martin G. Mull, deceased; George Dickson Fisher, and the unknown heirs of George Dickson Fisher, deceased; Emily Stith, and the unknown heirs of Emily Stith, deceased; the names of the heirs of said parties and of each of them being unknown, to appear at the next regular term of the District Court of Randall County, Texas, to be held at the Court House thereof in the town of Canyon City, in said County, on the 6th Monday after the second Monday in January A. D. 1918, same being the 25th day of February, A. D. 1918, and being the fourth Monday in said month of February, then and there to answer a petition filed in said Court on the 17th day of January A. D. 1918 in Cause No. 854, wherein John Berni is plaintiff and the said Charles Wilkman, and the unknown heirs of Charles Wilkman, deceased; Elizabeth Stanley, and the unknown heirs of Elizabeth Stanley, deceased; Martin G. Mull, and the unknown heirs of Martin G. Mull, deceased; George Dickson Fisher, and the unknown heirs of George Dickson Fisher, deceased; Emily Stith, and the unknown heirs of Emily Stith, deceased, are defendants, cause of action being alleged as follows:

Plaintiff alleges that he is the owner by title in fee simple of Survey No. 179, Block No. 2, Certificate No. 636 A B & M, Randall County, Texas, patented to Calvin W. Levings by patent No. 181, Vol. 23, dated May 3rd, A. D. 1876, and containing 640 acres of land, more or less, and was such owner on January 1st, A. D. 1918; that on said last named date he had possession of said premises and was entitled to possession thereof and thereafter, to-wit, on said last named date defendants and each of them unlawfully entered upon and dispossessed plaintiff of said premises and withholds from him the possession thereof; That the plaintiff owned said land as hereinbefore described by the following chain of title, to-wit:

Patent issued by State to Calvin W. Levings, date, May 3rd, A. D. 1876; Patent No. 181, Vol. 23; Deed of Calvin W. Levings to Jot Gunter and W. R. Munson; and of Jot Gunter and W. B. Munson to Julian Gunter; Deed of Julian Gunter and Jot Gunter to W. B. Munson; Deed of W. B. Munson to Duncan Stewart; George Granville Campbell, James Graham, Thomas Arthur Fitzharringe Kingscote and George Dickson Fisher; Deed of Duncan Stewart, George Granville Campbell, James Graham, Thomas Arthur Fitzharringe Kingscote, Charles Mallard Fisher, David Fisher, and Archibald Gibson, said last named three, being executors of George Dickson Fisher, deceased, to Cedar Valley Land & Cattle Company, Limited; Deed of C. M. Fisher, David Fisher, Mararet Fisher, James Fisher, John Fisher and Jessie Stewart Fisher, Mary C. Gibson, Archibald Gibson, Catherine Jane Livingstone, a widow, Jessie Spencer Anderson, Helen Hannah Anderson, and James B. Crossley, to the Cedar Valley Land & Cattle Company, Limited; The decree of the District Court of Randall County, Texas in cause No. 59, on the Docket of said Court, entitled; Cedar Valley Land & Cattle Company, Limited vs Thomas Anderson Crossley; power of attorney of Cedar Valley Land & Cattle Company, Limited, to John Hutson and Richard Colborne Peacock, recorded in Vol. 1, pp 38 of the Records of Powers of Attorney, Randall County, Texas; Deed of Calvin W. Levings to Annie L. Mull; Deed of Annie L. Mull, a widow, who plaintiff alleges is the same person as Annie L. Mull, to W. D. Twichell; Deed of W. D. Twichell to W. H. Fuqua; Deed of Cedar Valley

Land & Cattle Company, Limited to W. H. Fuqua; Deed of W. H. Fuqua to John Berni.

As plaintiff further pleads his title and claims said land under the Statutes of Limitations of Ten and Five years which are specially pleaded and plaintiff further alleges that defendants and each of them are clearing and asserting some claim of right or title and possession of said land, but the exact nature of said claim is unknown to him, but that all of said claims are invalid, void and inferior to the title and right of possession which plaintiff has by virtue of said chain of title as hereinbefore set forth and said limitation title as hereinbefore set forth; and plaintiff further alleges that said lands are of great value, to-wit, the value of more than One Thousand (\$1,000.00) Dollars, and plaintiff prays for citation and judgment for title for quieting and of said land and for quieting and confirming his title and divesting all title out of said defendant and each of them and vesting same in plaintiff and for all such other and further relief as he may be entitled to.

You are further commanded to summon by publishing the same once in each week for four successive weeks, previous to the return date hereof in a newspaper published in your county, but if no newspaper be published in your county, then the county nearest your County.

Herein fail not but have you before said Court at the First day of said term, this writ, with you return thereon showing how you have executed the same.

Witness T. V. Reeves, Clerk of the District Court, Randall County, Texas.

Given under my hand and seal of said Court this 17th day of January A. D. 1918.

(SEAL)

T. V. REEVES, Clerk District Court, Randall County, Texas.

Issued this 17th day of January A. D. 1918.

T. V. REEVES, Clerk District Court, Randall County, Texas.

Keeps On Dreaming.

The editor of the Abilene Times is a sentimental fellow, and he just can't get away from sentiment when a division of the state is mentioned. A state government run on sentiment is a beautiful picture for the idealist. And the political bosses of the lowlands of Texas are banking on the unsophisticated men of West Texas to keep on idealizing, dreaming, swaddling about sentiment and paying taxes, the while they are getting our money by controlling the destinies of the state on a cold hard dollars and cents basis. The western man is broad, liberal and a consistent believer in the other fellow's honest intentions, but he can't swap horses on such sentiment without getting skinned. The Slatonite editor is an idealist and a dreamer by nature, but we have paid dearly for lessons that taught us that these things must be kept out of the commercial ledger if you would keep the other fellow from getting all your money. There are long headed calculating fellows in this world without a single impulse of sentiment who are figuring all the time how they can legitimately scheme you out of your money, and if you match sentiment against their mental cunning you will quickly come to grief. The business world is a constant contest of financial shrewdness and is not a reception of music and art. The beauties of life come thru sentiment, but the bread and butter does not. The trouble with this old life is that we haven't enough sentiment in it, but when we meet Mr. Business who is void of sentiment, we have to meet him on his grounds and not on ours. Finance is keeping its best brains at work to control the politics of the state. When the time comes that all men are conscientiously honest and there is no such person as a financial hog, then sentiment will reign supreme; that will be the time of the millenium. But we know that that time has not arrived, and that sentiment won't get us anything in state politics in Texas.—Slaton Slatonite.

It is mainly for the alcohol in it that beer is consumed, not for the other ingredients, and it stands to reason that, as the alcohol content in the beverage is reduced, its attraction for those who seek artificial stimulation will decline. And it might be well to say that every time the percentage of alcohol content, in beverages of all kinds, is reduced by the United States government, the percentage of manhood in the country goes up.

If you have a sweet-tooth, pull it. Potato and onion. What a salad for Saturday night when you don't expect company!

HEARD IN CANYON

How Bad Backs Have Been Made Strong—Kidney Ills Corrected.

All over Canyon you hear it. Doan's Kidney Pills are keeping up the good work. Canyon people are telling about it—telling of bad backs made sound again. You can believe the testimony of your own townspeople. They tell it for the benefit of you who are suffering. If your back aches, if you feel lame, sore and miserable if the kidneys act too frequently, or passages are painful, scanty and off color, use Doan's Kidney Pills, the remedy that has helped so many of your friends and neighbors. Follow this Canyon citizen's advice and give Doan's a chance to do the same for you.

Samuel Ash, retired farmer, Evelyn and Ninth Sts., says: "My back was weak and ached and the kidney secretions passed too frequently and I had to get up at night. The first box of Doan's Kidney Pills, procured at the Holland Drug Co., helped me and I continued using them until cured. I have noticed but few symptoms of kidney trouble since using Doan's."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ash had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

FOR UNIVERSAL SERVICE.

If the present plan of operation of the selective draft be continued and if the war go on, hundreds of thousands of unmarried men without dependents will not be forced to fight, even though they be of military age. It is planned to use all of the men who registered before making another class. That would allow the men who attain the age of 21 between this time and the time when the war will end to escape military duty.

The better plan, it seems to us, would be to call to the colors all youths who are 19 or older and to select from them as many as are physically fit and without just claims for exemption, starting their military training at once. That would make first class fighting men of them when the time should come for them to take their places in the ranks. The selective draft as it now operates does not give us universal military service.

This military training of the youths of 19 and older would be a fine thing for the boys even though they never had occasion to fight.

There are thousands and thousands of registrants who can be of much more service to their country by staying at home than they could be in the trenches. There are hundreds of thousands who have dependent families. It would be much better to leave these men here and to have their places taken by unmarried men who have become 21 since registration day or who soon will reach that age.

It has been estimated that more than 1,000,000 come of legal age each year. By confining the selection of men to those of this age (save under extraordinary necessity, such as at present exists) there would be eliminated the occasion for considering the countless grounds for exemption, as few of these youths have wives or children to support. Another thing to be considered is that these young men have not yet embarked in business and few of them have had an opportunity to become trained mechanics. Their service at the front, therefore, would not impair the efficient maintenance of production at home, as would the departure of the older men.

There would be no need for exemption boards under the system of universal service since the regular city, county and state governmental machinery could be easily adapted to care for the enrollment of those men subject to military service.

The present draft system is being administered as efficiently and as impartially, we believe, as is possible when the magnitude of its operations is taken into consideration. It was devised as an emergency measure, to meet a situation that called for immediate action. The country needed an army and that at once, and there was no time to frame and enact the more elaborate system of universal

service, nor, for that matter, may there be time before the war is ended. We realize there is no time for delay, or for long and careful study of methods, nor do we offer any criticism of the selective draft as far as it has been or may be applied pending the enactment of a broader and more comprehensive service law. We are convinced that General Crowder and the various officials, state and local, who are working under his direction, are doing all they can to make the present system as fair as possible, and we have no doubt they will think of and make many changes for the betterment of the system in its application. The selective draft has served its purpose and will serve it. But we must remember that this will not be the last war in which we shall engage, and take steps to see that we are not again called upon to hastily adopt makeshift and stop-gap measures.

It seems to us that universal service would effectually solve the problem of providing against any future contingency, and, if adopted at an early date, would do much to equalize the burden of military service during the present struggle.

The National Security league, of which Elihu Root is honorary president, is making a determined fight for universal service, believing it to be the most important matter before the American public today. The league believes that the making of universal training the permanent basis of the nation's defense is a matter of immediate necessity. A poll conducted by the league shows that forty-four senators and 167 representatives are pledged to support the universal training bill which is on the senate calendar.

However, until some other system is adopted, we must do our best to make the selective draft do what it is supposed to do, and we should continue to keep a watchful eye for slackers who may try to evade service.—Beaumont Enterprise.

Congresswoman Rankin introduced a bill to repeal the law whereby women who marry foreigners lose their American citizenship. "Men are allowed to choose their own nations and women should be accorded the same right," said Miss Rankin. "In my state of Montana, for instance," many girls along the border near Canada love Canadian boys and cannot marry them without losing their American citizenship and therefore also their Montana homesteads. It was while campaigning for election that Miss Rankin promised these lovely lassies if elected she'd try to get them the right to do as they pleased with their citizenship, their sweet heart and their property.

SOUTH SIDE SQUARE

25,000 TONS OF CAKE SENT WEST TO SAVE CATTLE

FEDERAL FOOD ADMINISTRATOR THROUGH BUREAU GIVES \$1,250,000 RELIEF TO RANCHERS.

Price Agreed on in Texas for Cotton Seed Cake Adopted in Oklahoma, Mississippi Arkansas and Louisiana.

What the National Food Administration can really do has been forcibly brought out in connection with the drouth in Texas. The resources of the United States Food Administration made it possible to save thousands of cattle at a time when their loss would have been serious not only to their owners, but to the country at large. This was accomplished by Food Administrator Peden through the Cotton Seed Department under the direction of Mr. Herbert Godwin, assisted by Mr. R. F. Crow and Mr. E. B. Spiller.

The department has handled approximately 25,000 tons of cotton seed, estimated at about \$1,250,000.

Reports from the Panhandle and Central-West Texas, following the recent blizzards, indicate that the presence of sufficient cotton seed cake through the work of the administration had made possible the saving of thousands upon thousands of live stock.

The story of the splendid work of the cotton seed products bureau of the Federal Food Administration began when Administrator Peden arranged on November 15 the conference of cotton seed crushers and cattlemen at Houston. Through the patriotism of both industries and making of concessions and sacrifices by each, the result of the conference was a price for cotton seed cake much below the prevailing price.

At the same time the United States administration authorized a request that for the time being the feeders and dairymen outside the drouth districts secure their cotton seed cake and meal from other states than Texas and Oklahoma. This request was strictly observed, and did much to relieve the situation.

The Food Administration then, in cooperation with the commission on car service, requisitioned cars enough to take 150,000 head of cattle out of the drouth-stricken districts of Texas and Southern New Mexico, and distribute them in points in Louisiana, Mississippi, Oklahoma, Kansas and sections in Colorado and New Mexico where grass and water were abundant. In this it received loyal cooperation from the railway companies, not one of which protested when called upon in the midst of their enormous pressure just now to meet the emergency.

Next an order was issued by the priorities committee that gave cotton seed meal and cotton seed cake preference in car supply and transportation to all points in Texas and New Mexico. Through the transportation division of the Food Administration the executive officers of Texas railroads were asked to do their utmost to relieve the situation.

The Federal Food Administrator of Texas, E. A. Peden, is doing his utmost with this problem that so seriously affects his State. Being a large manufacturer, he knows how to meet big emergencies. One of Mr. Peden's conclusions was that Louisiana rice straw would help to solve the problem, and he has asked John M. Parker, Louisiana Federal Food Administrator, to solicit bids from the rice farmers of that State.

All these measures are purely temporary to meet the emergency in Texas, where 1,500,000 cattle were in serious plight, a grave situation in view of the present food conditions of the world. The regulations, both official and voluntary, will be ended as soon as the emergency is passed, and already have been relaxed to a considerable degree.

Such instances show that Food Administration in its task of eking out food enough for the allies and our armies in Europe without upsetting food conditions at home is rendering economic service to the country and its industries that would be of incalculable value in peace as well as war.

As an outcome of the agreement between the cattlemen and the cotton seed crushers in Houston, Texas, on November 15, the message of their splendid work was passed on to adjoining States and the Federal Food Administrators of Louisiana, Arkansas, Oklahoma and Mississippi called meetings at their respective headquarters and secured the same low rate on cotton seed products in their States available for immediate shipment into the drouth-stricken areas.

At the time that the conference was held in Houston, November 15, cotton seed cake was being sold at from \$56 to \$60 a ton, and the cattlemen were finding difficulty in securing it at that price.

The Houston agreed price is \$43.50 for 43 per cent protein cotton seed cake, with \$1 change for each unit above or below; also a price of \$45.50 for 30 per cent protein cold pressed flakes with \$6 per unit change above or below.

The results from meatless days, inaugurated at the suggestion of the United States Food Administration, have now, for the first time, given us sufficient reserves of meat to allow us to partially comply with the requirements for shipment to the countries associated with us in the war. It should be a matter of satisfaction to the entire American people that their devotion in this matter now enables us to at least partially fulfill our duties to these countries in this respect.

E. A. PEDEN.

HOW FOOD ADMINISTRATOR GOES ABOUT GETTING FAIR PRICE LIST

Committees Represent Wholesale, Jobbing, Retail and Consumer Interests and Lists Are Guide for Buying

Shortly after the Federal Food Administrator of Texas was organized Administrator Peden began selecting his price interpreting committees for the principal trade centers of Texas.

The purpose of these committees is to bring together the wholesaler, the retailer, the jobber and the consumer. When these meetings are held it is the wish of the administrator that prices be informally discussed and that concessions be made wherever possible so as to bring food within the reach of every purse.

The first price interpreting committee appointed in Texas was in Houston. Wm. D. Cleveland, Jr., head of one of the oldest wholesale grocery houses in Texas, was named as chairman of this committee.

The committee served as a precedent for other committees of like character in the State. As soon as its first two fair price lists were published, the idea was passed on to Austin and San Antonio, where committees were appointed by Administrator Peden.

Cities now having price interpreting committees are Houston, Austin, San Antonio, Dallas and Beaumont. Other cities to have price interpreting committees will be El Paso, Amarillo, Paris, Fort Worth, Wichita Falls, Navasota, Waco, San Angelo and Lufkin.

These cities are headquarters for the fifteen districts into which the Federal Food Administration activities of Texas have been divided.

The quotations appearing in the fair price list are intended as a guide for the wholesaler, retailer and consumer in the boundaries of the district.

The committees select three products for their first list; these are usually sugar, flour and fats. The next publication carries additional items and so on until eventually the list shows the twenty-nine fundamental staples.

The purpose of the list is not to fix an exact price for every store, but to state the fair price under average conditions and show when the price is excessive. Within stated limits dealers are free to compete as heretofore, except:

The food administration has prohibited sales of food products in combination of any kind except corn meal and sugar.

The food administration has prohibited unfair competition.

The retail prices are intended to guide the housewife in intelligent buying and protect her from overcharges; the wholesale prices to inform the retailer upon market conditions. Taken together, these prices show the margin of profit, and should therefore act as a check upon dealers whose margins are unreasonable.

The prices quoted are the prices for purchases under average conditions. Where the articles are paid for in cash and carried home by the purchaser, the prices should be lower. Where the purchaser asks unusual service, such as long credits, and delivery at a long distance for small parcels, this extra service must be paid for.

COTTAGE MEETINGS

Food Facts Fearlessly Faced by the Housewives of Tom Green County.

San Angelo, Tex.—Housewives of this county have evolved a plan for co-operating with the United States Food Administration which is believed to be new. Under the direction of Mrs. Sam Crowther, county chairman of the Food Conservation Campaign, cottage meetings are being held in various sections of San Angelo and throughout Tom Green County.

Housewives attend these meetings with their crocheting, tatting and knitting and informally discuss what they are doing to save wheat, meat, fats and sugar.

It is interesting to note that at one meeting recently every housewife present said that she was observing the meatless day each week, but very few of them were observing wheatless days.

They determined to follow the program of the Food Administration and serve no meat on Tuesdays, no wheat on Wednesdays, and to have one wheatless meal and one meatless meal each day.

It is planned to have one such meeting within three blocks of every home in San Angelo.

Mrs. Crowther has also held informal meetings of the restaurant proprietors and their co-operation with the Food Administration is assured.

WHY NOT SEND CORN TO EUROPE?

We can not send them corn because they have not enough mills to grind it and are not familiar with its use as food. Even if they knew how to use corn meal, it is not suitable for shipment because it is so liable to spoiling. The oats, rye, barley, etc., that we send them will not support them unless mixed with wheat.

WE MUST SEND THEM MORE WHEAT

and to do this WE MUST EAT LESS WHEAT BREAD.

E. A. PEDEN.

Peanut Pork.

Classified by Government Inspector, State Department of Agriculture, Austin, Texas:—Culminating from an inquiry conducted by this Department last fall to determine the status of peanut pork, a conference was recently held in Fort Worth with the packers and livestock commission men to devise means of keeping the identity of peanut or mast fed hogs, sold "guaranteed," until after they are dressed and chilled 48 hours, so that the Government inspectors may pass them and certify to those he finds oily and firm.

Parties shipping hogs from peanut or acorn territory should request this inspection, as each lot of such hogs, under the same feed, where some grain has been allowed, will likely embrace both firm and oily hogs.

This inspection will be made under the direction of Dr. C. L. Norris, recently appointed Inspector in charge at Fort Worth.

J. C. PATTERSON,
Livestock Specialist.

Midkiff's Recipe for Curing Bacon.

The following recipe for "sugar curing" bacon will be found good and reliable: For each 1,000 pounds of meat use 10 qts. salt, 10 lbs. sugar, (brown) 1 lb. saltpeter, 1 lb. cayenne pepper. Mix these ingredients well and rub on both sides of meat. Let lie over night and rub with another application. Keep in a cool, shady place for 7 days, then hang and smoke.

WILL M. MIDKIFF,
County Agent.

Raise More Sheep.

It takes twenty sheep to clothe and equip one soldier. Six farms out of every seven in this country have no sheep on them. No wonder that the decrease in mutton prices has made little or no difference in the demand for breeding sheep.—Twentieth Century Farmer.

An Idea for Fuel Conservation.

Now that we are asked to make a little coal go as far as possible, it may be worth while to know that the dust in the bottom of the bin may be burned in a heating stove as well as the lumps, if it is put into empty tin cans. Put the cans in one or two at a time on a good bed of coals and they will burn and hold the heat equally as well as the larger pieces of coal.

I have grain and other feeds for sale. Call upon me for the best prices.

W. E. HEIZER

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts your liver without making you sick and not salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.
 "Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel.

TO CAR OWNERS:-

When your storage battery and starter is not working right—put your battery in box—express it to me collect and we will immediately put in good condition and return to you, or call on us when in Amarillo. We have substitute batteries you can use while we repair your battery. Free inspection of any battery any time.

EVERY HELPFUL INFLUENCE
that may be rendered the expectant mother should be promptly given her. All excitement, fear or dread should be avoided. Too much cannot be said of the wonderful message known to thousands of mothers as "Mother's Friend". It is one of the greatest of all helpful influences. There is no nervousness and the tendency to morning sickness or nausea is avoided. It makes the muscles elastic which nature is expanding and soothes the inflammation of breast glands. The pain at the erigs is infinitely less when "Mother's Friend" is used for the muscles expand easier and with less strain when baby is born. "Mother's Friend" is entirely safe and may be had of your druggist. Write the Bradford Regulator Co., Dept. A, 200 Lamar Building, Atlanta, Ga., for their interesting book, "Motherhood and the Baby". They will send it to you without charge, and you will find it very helpful. Years of use by thousands of women prove beyond all doubt that "Mother's Friend" is the greatest aid to nature. It certainly should be used by every expectant mother for she should do everything in her power to help nature in her work.

Wayside Items.
A most unusually cold spell has prevailed for a number of days. We have heard of no loss of stock in these parts. Reports of losses in other places not only of livestock but of people perishing with cold. Slight flurries of snow but not sufficient to do any good. Still cloudy and threatening.

Mrs. M. B. Wilson, formerly of Armstrong county, but now of Newport, Texas, came in this week on business and is visiting with her children.

Among the Waysiders visiting Canyon Trades Day were J. W. McCreary, J. T. McGehee, J. M. McGehee, E. M. Wilson, Mr. and Mrs. Wm. Payne, Miss Agness McGehee and Mrs. Ida Sluder.

The Wayside Literary Society met January 14 for the purpose of re-organizing. The following officers were elected: J. W. McCreary, Pres.; D. L. Adams, Vice President; Miss Viola Knox, Secretary; Miss Ruth Butterfield, Treasurer; Mrs. W. I. Lane, Editor; M. B. Small, Critic; W. L. Fisher, Sergeant-at-Arms; Guy Carter, Janitor; Mrs. W. C. McGehee, Pianist; Misses Kate Carter, Ruby Payne and Ewing McGehee, Program Committee. It was decided to meet twice a month on Friday nights beginning with Friday, 18th.

Wm. Payne and wife made a trip

to Amarillo Sunday returning Monday accompanied by Miss Flossie Payne who will visit with her brother for a while.

Four cases of chickenpox at M. L. McGehee's the past week. Convalescing at present.

Three cases of mumps at the C. F. Watson home lately. All up and getting well.

Claude and Grace Hamblen are in Dallas with their oldest daughter, Elsie for treatment. She was treated by Drs. Vineyard in Amarillo some weeks ago. She is in a very critical condition. Little hopes of her recovery.

Normal Notes.
The lectures on food conservation, which were to have been given in chapel last week, were discontinued because of the cold weather. They are being continued this week. Miss Rambo spoke on food conservation Tuesday morning.

The Freshman class have decided to present their Liberty Loan Bond to the Gregg Cousins Memorial Loan Fund.

Miss Joe Pennington of Claude has returned to school, after a brief illness.

Misses Ola Lewis and Ima Hicks are confined to their rooms with measles.

Miss O'Keefe has been kept from her work on account of illness.

Edwin Muldrow, a former student of ours who now lives in Arizona, is visiting in Canyon for a week. He attended chapel Tuesday morning.

Last Saturday evening from seven-thirty to eleven o'clock the Freshman class entertained the Juniors at the Normal with a "Kid Party". Their amusements consisted of spelling matches, laughing contests, pecan races and recitation of a number of mother Goose Rhymes. Believing that a fourth meal, at anytime is unappetizing, they served no refreshments. We congratulate them on being the first to eliminate refreshments and suggest that other organizations follow their example.

The Y. W. C. A. will meet at the Huntleigh Hall on Wednesday evening of Thursday, evening as usual. The knitting is being rapidly finished and many of the girls are now doing Red Cross bandage work.

Rev. A. B. Haynes will lecture to the Y. M. C. A. at 2:30 o'clock Sunday afternoon at the college. All the boys are urged to be present.

Mr. and Mrs. Jim Cox of Hale Center visited their son, J. W., Wednesday.

The following students will speak in the inter-normal debate try-out next Saturday afternoon: Lawrence Jones, Roscoe Wiseman, Burr Myer, Melvin Roberts, Robert Hill, Charles Condrey, Eugene Devereaux, Iru Younger, William Gibson, Moody C. Boatright, Louis Hardin, Lester Smith, Herbert Ralls and Matt Ward.

Messrs. Herman Glass and Walter have returned from San Antonio. They saw a number of the Canyon boys and gave a good report of their work.

Miss Docia English was called to her home at Crosbyton Friday on account of the death of her father.

Miss May Bell Watkins spent Saturday night and Sunday in Amarillo with friends.

Last Friday the Junior and Sophomore classes met and voted to give their Liberty Bonds to the Gregg Cousins Memorial Loan Fund.

The library furniture has arrived and is being set up.

The Normal attendance at the different Sunday schools last Sunday is as follows:

Methodist—Girls 20, boys 6.
Presbyterian—Girls 8, boys 2.
Baptist—Girls 22, boys 13.
Miss Mary Lawrence has withdrawn from school on account of sickness.

Miss Mildred McManigal spent Sunday and Monday at her home near Happy.

Mrs. W. J. Sluder visited her daughter, Grace Sunday and Monday.

Miss Agness McGehee, a former student returned home Monday after a two-week's stay with relatives in Canyon.

The following is the program for the Sesame Literary Society, January 19, 1918.

Song by Society — Star Spanglian Banner.

Reading—Lois Baumgartner.
Vocal Duett—Misses Coran and Agee
Dialectic Selection—Miss Sloniker.
Piano Solo—Ivan Luce.
Vocal Solo—Robbie Williams
Victrola Music.
Misses Sarah Ruth Haje and Mary Elizabeth Childress of Tulsa and Eugene Devereaux of Canyon entered school this week.

Happy Happenings.
Having severe cold weather the past week. Thursday we were visited by a blizzard and Friday morning the temperature dropped to 9 below zero. Very little snow having fallen here. Wheat was not benefited much. E. E. Whitley, wife and babies returned Friday from Tennessee where they were visiting the past month.

Rev. W. C. Rose was sick the first of the week but is up now.

Wm. Cowan had a light stroke of paralysis last week but is up now.

Mrs. Charles Innis and Miss Tollie Cook are visiting their mother in Oklahoma.

Mrs. Thomas and son, little Moses left last week to join Mr. Thomas at Dallas.

E. A. Patterson and family moved up near Canyon Wednesday. They are moving on the G. O. Walker place.

Miss Esta Goad is now in the drug store.

Miss Mildred McManigal spent Sunday and Monday with home folks.

Miss Lottie Garrison has the grippe this week.

Mrs. Lester Jones is quite sick with measles.

Grandma Parker is quite sick the past week.
