

THRIFT CAMPAIGN TO ALL PARTS OF COUNTY

Randall County is going to do its part in the great Thrift Campaign which has been inaugurated in the United States to raise money for the war purposes and to teach our people the necessity of Thrift after the war is over.

W. D. Morrel has been designed as chairman of Randall County for the entire year's campaign. He will keep in touch with the committees he has appointed and push the sale of Thrift Stamps and War Savings Stamps in every community of the county.

Mrs. T. H. Rowan has charge of the Women's Work and is appointing women in every section of Randall County to urge the women to save in every manner possible and to put their savings in Thrift Stamps and War Savings Stamps.

Judge J. W. Crudgington of Amarillo spoke in Canyon Sunday afternoon in the interest of the Thrift Campaign, stating that every man, woman and child in the United States is expected to buy \$20 worth of the Stamps during the year of 1918. Two billion dollars is expected as the goal for the campaign in the whole country. It is one of the ways to show our boys that we are in the war and in it to win.

Mr. Crudgington appealed that the people of Randall county get into the campaign and save in every way possible that our boys may have everything necessary for war purposes.

A Thrift Campaign is planned for next Sunday afternoon which will go into every part of the county. Speakers will go out to the school houses for the purpose of explaining the Thrift Campaign to the people and enlisting their co-operation in order that Randall county may buy her quota of Thrift Stamps and War Savings Certificates every month.

The following will be the speakers in the various communities: Trigg School—Rev. B.F. Fronabarger and C. R. Burrow. Burch School—R. L. Marquis and C. N. Harrison. Park School—J. A. Hill and T. V. Reeves.

SEVEN MEN WILL GO FEBRUARY 23

The local exemption board has received definite instruction to send the remainder of Randall County's quota of men on February 23. The first announcement received two weeks ago stated that the call would be for the 15th, but this date was postponed definitely last week until February 23. Randall county will send seven men on this call.

NEW LUMBER AND COAL COMPANY WILL OPEN SOON

Henry Bradford, who recently moved here from Chillicothe, will open up a lumber and coal business on East Houston street, just east of the J. B. Younger store. Mr. Bradford states that the necessary sheds will be constructed as soon as the material arrives. Owing to the difficulty in two or three months before he will have the business opened.

Mr. Bradford was formerly a resident of Canyon and has many friends here who are pleased to know that he is coming back to make this city his home.

Mrs. R. A. Terrill was in Amarillo Wednesday.

ROAD BONDS ARE SOLD FOR \$50,700.00

The bonds in the recent road election were fully approved by the attorney general, and were sold Monday to the highest bidder, the bids being opened before the Commissioners Court.

James M. Wright & Company of Denver were the highest bidders, the bonds going at par, plus the accrued interest and \$250, making a total of \$50,700 for the \$50,000 bonds.

The work on the roads will be pushed just as rapidly as it is possible.

RAIN FALLS SUNDAY NIGHT FIVE SIXTEENTHS OF INCH

The first rain for some time fell Sunday night in the Panhandle. The fall was quite uniform, ranging about half to three-quarters of an inch.

In Canyon there was 5-16 of an inch. The fall seems to have been heavier in the southeast part of the county, with a little lighter to the north part of the county.

News from Camp Travis Corporal Guy Harp is now doing paper work in the office of Brigade Supply Company instead of working in the Gents Furnishing Department.

FOUNDERS DAY AT NORMAL

The following will be the program at the anniversary of the breaking of the ground for the Normal building on February 17, 1910:

B. A. Stafford, Master of Ceremony. Chorus—"Praise Ye the Father," Gounod.

Prayer—Rev. R. A. Stewart. Scripture Reading—Rev. B. F. Fronabarger.

Anthem—"The Lord is Mindful of His Own," Mendelssohn. Address—"The College and Its Mission," President R. B. Cousins.

Chorus—"The Lord is Great," Mendelssohn. Benediction—Rev. A. B. Haynes. The program will begin promptly at eleven o'clock.

On Saturday evening, February 16, beginning at eight-thirty, the faculty of the West Texas State Normal College will give a public reception to the students, citizens, friends and the public, at the normal school building. This is an annual reception, and it is greatly desired that people meet and shake hands in honor of the beginnings of the school. In harmony with the food conservation movement, no refreshments will be served, but in place of these the musical talent of the city and of the college will render an informal musical program in the college auditorium, with possibly a few readings, after the formal reception. Every one is cordially invited.

TRADES DAY IN CANYON GOOD

Monday was a pretty day after the rain of Sunday night and there was a good crowd in town for Trades Day. The band was unable to play on account of one of the cornetists being away.

There was a good auction and much stuff sold. There was no trades excursion owing to the dust storm which came up about the time to start.

Heyser for Treasurer

S. H. Heyser announces this week that he is a candidate for re-election to the office of County Treasurer.

Mr. Heyser was elected to this office two years ago and has looked after the interests of the office well. He states that he is willing for the voters to judge by his record of the past two years whether or not he deserves the office for a second term.

Mr. Heyser is well known all over the county, and if elected will make a good official.

New Manager at Olympic

O. B. Scott of Tulia has taken the management of the Olympic in Canyon. He is an experienced picture show man and will continue the business here along the same lines as in the past.

FIFTEEN ENEMY ALIENS ARE REGISTERED IN RANDALL CO.

Last week was the time for registering the enemy aliens in the United States. Fourteen men were registered in Canyon, at the postoffice, and one at the Umberger postoffice. The following is the list:

- Willie Kontetsky, John Straub, G. C. Bram, Herman Kuhlman, Henry John Meyer, Herman Meyer, Jacob Dinkel, Henry Gerch, Jacob Schuttinger, Fred Schutte, Carl Kontetsky, Gus Leseberg, Ernest Heine, Paul Flugel. (Mr. Flugel had taken out his papers in two different counties, and there was question in his being fully naturalized, hence he registered under the law.)

RED CROSS DRIVE IS NOW ON IN COUNTY

The drive of the Randall County Red Cross Chapter is now on, commencing the first of this week.

Every family in Randall county will be visited during the drive and asked to sign checks for certain amounts payable at the first of each month for the coming twelve

# ALL ABOUT W.S.S.

## What Are They?

They are War Saving Stamps

They are of two kinds—

United States Thrift Stamps (25c each).

United States War Saving Stamps (\$4.13 each).

Sixteen U. S. Thrift Stamps plus thirteen Cents in cash in February, 1918, will purchase a War Saving Stamp, which when affixed to a War Savings Certificate is the guarantee of the Government and the people of the United States to repay on January 1, 1923, the full amount with interest at 4 per cent compounded quarterly.

The U. S. Thrift card is a pocket-sized card given free of charge to purchasers of U. S. Thrift Stamps.

The War Savings Certificate is a pocket-sized folder given to holders of War Savings Stamps. War Savings Stamps are as safe as the United States.

## Why Should I Buy Them?

BECAUSE—we are at war;

BECAUSE—the more we save, the more labor and material will be available for the use of the government and for the support of our army;

BECAUSE—we must have dollars as well as men in the fight for freedom;

BECAUSE—they establish the soundest and simplest basis of saving, which is the key to individual success;

BECAUSE—there is no safer investment in the world;

BECAUSE—War Savings Stamps must increase each month in value.

## How Can I Buy Them?

As simple as buying postage stamps.

This is the simplest security ever offered by a great government to its people. Any man, woman or child who can save twenty-five cents can obtain at any Postoffice or Bank a U. S. Government Thrift Stamp and a thrift card to which to attach it. This starts you as an investor, and puts you behind the Government.

## When Shall I Buy Them?

Buy them now, because the cost increases one cent every month. The sooner you buy them the less they cost.

The price of War Savings Stamps is \$4.13 in February, and increases one cent each month until in December, 1918, when the price will be \$4.23.

February .....	\$4.13	June .....	\$4.17	October .....	\$4.21
March .....	\$4.14	July .....	\$4.18	November .....	\$4.22
April .....	\$4.15	August .....	\$4.19	December .....	\$4.23
May .....	\$4.16	September .....	\$4.20		

No commissions are charged to you or paid to any one.

Our soldiers and sailors may give their lives; you are asked only to lend your money.

## Where can I buy Them?

At any Postoffice, Bank, Trust Company, and other authorized selling agencies.

### Why Prussians Hate Americans.

Portland Oregonian: Hatred of America among the Prussian military caste may fairly be cherished instinctively, as a result of the conflict between democracy and autocracy. It became an active passion during the Spanish War, but it was fanned to white heat by certain incidents of the allied expedition against the Boxers in 1900. As the officer of highest rank, the German commander, Field Marshal Count von Waldersee, was commander in chief, and General Adna R. Chaffee, the American commander, was his subordinate. When the allied army took Pekin, the Germans looted the oldest in the world and is sacred in the eyes of the Chinese. General Chaffee on Dec. 3, 1900, sent Lieut. Edgar T. Collins to Count Waldersee with a letter in which he said: "Having heard that the astronomical instruments are being removed from the observatory, an officer of my staff went there yesterday, and on his return confirms the report. 'I have the honor to inform Your Excellency that my Government would vehemently' denounce an officer of its service who might enter upon spoliation to learn that any nation with which it co-operated to relieve the besieged legations in Pekin authorizes or permits its troops to injure or remove any instruments or other part of the observatory. 'As commander of one of the four cooperations on Aug. 14, I make to you respectful protest in this matter, and shall inform my Government of the fact.' The Count took this letter as a serious affront, and sent the following reply: 'I beg most respectfully to inform you that the communication of this date respecting the instruments of the observatory has impressed me most unfavorably, not only in respect to its form, but regarding its substance as

## A NERVOUS WRECK

From Three Years' Suffering. Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today. NC-134

well. "I am not in a situation to receive utterances of this kind, and permit myself very respectfully to place the accompanying communication at Your Excellency's disposal."

This was the substance of the "accompanying communication."  
"I have the honor to respectfully inform you that I am very much astonished at the form and contents of your letter of Dec. 3.

"I am not in a position to stand those expressions, and I take the liberty to herewith return your letter."

The act against which General Chaffee protested was but one of a number of acts of frightfulness committed by the Germans. Officers and privates who were on the expedition say that they looted by wholesale and retail, treated the Chinese in a brutal and overbearing manner, poisoned wells and assaulted women. Their conduct inspired American soldiers with contempt—a sentiment which Chaffee entertained for Von Waldersee—and the American General's disgust finally drove him to cast aside discipline and etiquette and to address the protest to his commander in chief. Another protest, which has not been published, is said to be in the files of the War Department, in which Chaffee said to Von Waldersee: "If you don't stop it, I will."

Although upon the appointment of Von Waldersee the Kaiser wrote to President McKinley expressing his pleasure at "the decision of the United States that American and German soldiers shall fight together for the cause of civilization under one commander in chief," no official expression of appreciation for the Count's services was made by the American Government, nor, so far as the records show, by any other Government.

That expedition brought German methods of warfare into contrast with those of the United States and other Nations in one field. It inflamed the smoldering hatred of America which prevailed among the Prussian military aristocracy, and it inspired American soldiers with pro-ally sentiment.

### To The Cane Growers.

You have demonstrated your ability and patriotism by raising the largest crop ever produced and have accomplished it under rather unfavorable seasonal and labor conditions.

Now a greater opportunity and task confronts you and the earlier its magnitude is realized, the better will the country be fortified.

Last spring you had a good supply of good seed. Now a very considerable area has suffered a very dry summer and about five per cent of the grain sorghum acreage was frosted so early as to make seed saving impossible. As there is practically no hold-over supply, the frost stricken and drought stricken areas must import seed and next year's success depends upon the promptness and thoughtfulness with which these importations are made.

As considerable thoroughly mature grain is now being harvested in sections with similar climate conditions to the frost and drought stricken areas, prompt action by each planter who is not now supplied with adapted seed, can prevent a seventy-five million bushel reduction in next year's crop.

Whether you can secure another victory next year depends largely upon your action now. Each and every planter for his own sake and for his country's sake should have sufficient adapted seed set aside now or should get it without delay. To delay is to invite failure. The consequences are too serious to permit transportation problems, state lines, prices or anything to delay the securing of suitable seed for the seedless areas. Suitable seed is available now that will be used for other purposes than seed before next spring. Unadapted seed may be available next spring, but would prove costly at any price whereas well adapted seed should prove profitable at many times its cost.

I make this appeal to you personally because upon you depends the success of next year's grain crop, which is threatened through scarcity of well

### Burning Money.

It isn't what we earn that counts; it's what we put away. I took in coin in vast amounts ere I grew old and gray. I said "I'll gamble as I please and pain the foolish town, for coin is growing on the trees, and I can shake it down." On Saturday I drew my pay, a goodly roll and fat; on Monday morn I'd take my way to soak my watch and hat. All through my years of youth and health when wisser heads grew flush, I gaily threw away my cash. Then came the sad and fatal day when I woke up to find that I was old and stale and gray, not equal to the grind. There came a seige of stringent times; the boss was sad and sore; he said "I'll have to save the dimes," and fired me from his door. And after all my years of toil I had to plunk that day, to make the old tin kettle boil, or keep the wolf away. I thought of all the costly joys I'd bought in by gone years, of foolish nights with foolish boys, and shed a pack of tears. I thought of chances that were dead and gone beyond recall; and then I bumped my head against the nearest wall. But there is nothing in remorse, except an added jolt, and weeping for an old dead horse won't bring along a colt. So live, young man, that when you're old, you're no such luck as mine, and have a parcel of red gold put somewhere safe in brine. —Walt Mason.

### They Knock The Plains.

East Texas newspaper editors never lose an opportunity to knock the plains and Panhandle country. They are using the recent severe spell of weather to discourage people from coming to this great country. They say eighty per cent of some stockmen's herds have been lost. Grant that this is true (though it is not) this is an extreme case, and happens once in a quarter or a half a century. Those editors do not remember that every few years that the truck farmers in the south suffer heavy losses of vegetables, and fruit raisers lose out entirely in some of the sections supposed to be beyond the frost line. Gentlemen give us a square deal. That is all we ask for.—Lubbock Avalanche.

### Hereford Cattlemen Saw the Show.

Local cattlemen who attended the Denver stock show last week report that the show was well attended, had some excellent stuff on exhibition, and was a decided success in every way.

Hereford men who attended the show were C. R. Jowell, Ray Barber, C. H. Lupton, and J. C. Sanders. Returning from Denver these gentlemen came back by way of Alma, Okla., where they attended the Miller Sale of Hereford cattle. Mr. Barber then went to Kansas City while the balance of the party returned to Hereford.

While in Denver, Mr. Jowell purchased two head of registered calves, a bull and a heifer, for a consideration of \$2,050.00. In Oklahoma several head of fine cattle were purchased by other members of the party.

Mr. Jowell states that while in Denver he saw one man refuse \$12,500 for one two-year-old bull, and \$7,500 was offered for a yearling. Seventy-five cattle sold averaged \$838 per head.—Hereford Brand.

### The Relief We Need.

There is talk of a special session of the legislature to try to devise means to afford relief for the drought stricken section of the state. If they can devise a means to relieve the state as a whole from these expensive special sessions, we shall feel that at least one Texas Legislature has not existed in vain.—Roaring Springs Report.

## Young Women Awaiting The Great Crisis

Of all the vital times in life, the birth of a baby is the climax of nature's most wonderful evolution. After a period of anxious waiting, the hour arrives for the advent of a new life. Nature must be aided during this waiting period if the pain and danger of the crisis is to be avoided.

Three generations have found great relief from the many discomforts of approaching motherhood, by the safe, time-honored massage, "Mother's Friend". It gently softens every fibre, cord, tendon and ligament. The drawn skin becomes soft and elastic. Tension and strain upon the expanding abdominal muscles is relieved when baby arrives; morning sickness or nausea usually is not felt and the crisis is passed with infinitely less pain and danger.

"Mother's Friend" has been used by expectant mothers with the greatest success for over forty years.

Get a bottle from the druggist today and write the Bradford Regulator Co., Dept. E, 209 Lamar Building, Atlanta, Ga., for a valuable book brimful of useful information. The book will be mailed to you without charge. Do not by any means neglect to begin the use of "Mother's Friend"; the preparation is undoubtedly a real and wonderful aid to nature in her work.

## FACE the FACTS

LET us face the facts. The war situation is critical. Unless the Allies fight as they never yet have fought, defeat threatens. Hungry men cannot fight at their best; nor hungry nations. France, England, and Italy are going hungry unless we feed them!

**Wheat Savings**—They must have wheat. It is the best food to fight on. It is the easiest to ship. We alone can spare it to them. By saving just a little—less than a quarter of what we ate last year—we can support those who are fighting our battles. And we can do it without stinting ourselves. We have only to substitute another food just as good.

**The Corn of Plenty**—Corn is that food. There's a surplus of it. Providence has been generous in the hour of our need. It has given us corn in such bounty as was never known before. Tons of corn. Trainloads of corn. Five hundred million bushels over and above our regular needs. All we have to do is to learn to appreciate it. Was ever patriotic duty made so easy? And so clear?

**America's Own Food**—Corn! It is the true American food. The Indians, hardest of races, lived on it. Our forefathers adopted the diet and conquered a continent. For a great section of our country it has long been the staff of life. How well the South fought on it, history tells. Now it can help America win a world war.

**Learn Something**—Corn! It isn't one food. It's a dozen. It's a cereal. It's a vegetable. It's a bread. It's a dessert. It's nutritious; more food value in it, dollar for dollar, than meat or eggs or most other vegetables. It's good to eat; how good you don't know until you've had corn-bread properly cooked. Best of all, it's plentiful and it's patriotic.

**Corn's Infinite Variety**—How much do you know about corn? About how good it is? About the many delicious ways of cooking it? And what you miss by not knowing more about it? Here are a few of its uses:

There are at least fifty ways to use corn meal to make good dishes for dinner, supper, lunch or breakfast. Here are some suggestions:

- The recipes are in Farmers' Bulletin 565, "Corn Meal as a Food and Ways of Using It," free from the Department of Agriculture.

WHEATLESS BISCUITS.

Parched cornmeal is the feature of these excellent wheatless biscuits. First, the cornmeal—one-half a cup—is put in a shallow pan placed in the oven and stirred frequently until it is a delicate brown. The other ingredients are a teaspoon of salt, a cup of peanut butter and one and a half cups of water. Mix the peanut butter, water and salt and heat. While this mixture is hot stir in the meal which should also be hot. Beat thoroughly. The dough should be of such consistency that it can be dropped from a spoon. Bake in small cakes in an ungreased pan. This makes 16 biscuits, each of which contains one-sixth of an ounce of protein.

DELICIOUS CORN MUFFINS.

Here's an old fashioned recipe for corn muffins that has recently been revived and used with unusual success in several of the larger New York hotels: To make three and a half dozen muffins take one quart milk, six ounces butter substitute, twelve ounces of light syrup or honey, four eggs, pinch of salt, two ounces baking powder, one and a half pounds cornmeal and one and a half pounds rye flour. The butter and syrup should be thoroughly mixed; then add the eggs gradually. Pour in the milk and add the rye flour mixed with cornmeal and baking powder.

Aviators and Soldiers Can Be Seen at Daily Practice—Entries Close February 23.

The Southwestern Exposition and Fat Stock Show, which opens in Fort Worth Monday, March 11, and runs for one week, is offering a greater variety of entertainment this year for the people of the Southwest than has ever been given through a similar show. Besides the numerous livestock features the Exposition is presenting the greatest automobile show ever held in the Southwest. The show is under the direction of the Fort Worth automobile dealers and the personal supervision of a committee of dealers, headed by G. D. Wright of the Maxwell agency, as chairman; John Covey of the Moore agency; Hubb Diggs of the Ford agency; Sanford Webb of the Buick agency and R. E. Souther of the Paige agency.

An immense building, 100x155 feet, is now in course of construction on the Exposition grounds for the housing of the show. Floor space, with room for handling of cars, has been provided for sixty cars. Every inch of the floor space has been sold and the entry list closed. Just outside the building will be an exhibition of automobile trucks and motor driven agriculture implements, etc. This open air show is a part of the automobile exhibit and will be more or less under the direction of the committee.

Butting up to the automobile show and tractor exhibit will come the exhibits of the numerous silo companies and then the different carnival attractions under the management of George J. Loos. Besides the carnival attractions a congress of broncho busters and ropers will participate in the Rodeo, the afternoon and night amusement feature of the Exposition. Wild West performers from all over the world will participate.

The Exposition this year will run largely to military stunts. Due to the fact that several thousands of Texas and Oklahoma boys are stationed at Camp Bowie and now in training for service in France, features will be staged each day to the particular liking of the soldier. Special rates will be granted the men in uniform. These rates will be extended to the men of the flying branch of the army now located at Camp Tahaferro's three wings, Camp Hicks, Camp Benbrook and Camp Everman. More than 6,000 men are stationed at the aviation camp. Any one of the aviation fields is within thirty minutes ride of Fort Worth and Camp Bowie is located at Arlington Heights, within street car communication of the heart of the city.

Camp Hicks can be reached by automobile, as can Everman and Benbrook. Service cars are run between the camps and the city and Camp Everman can be reached by Interurban. Special service is given Everman by the Northern Texas Traction Company on its Cleburne line.

Flying machines are continually passing over Fort Worth. The Exposition grounds are directly in the path of the air route from Hicks to Benbrook and Hicks to Everman and from the Exposition grounds one can witness the battle formation of the air fleets and maneuvers that bespeak something of what the cadets will be up against after they receive their commissions and are sent to the Western war theater in Europe.

In addition to the great attractions of the Exposition visitors to Fort Worth can witness the intensive drilling and preparations now being made by the troops at Camp Bowie. Many of the crack horsemen of the army will participate in the horse show feature of the Exposition. At Camp Bowie are a number of world famous broncho busters. These men will be in the contests.

Ed R. Henry, manager of the Exposition, has the assurance that the show this year will be the greatest sale show ever held in Fort Worth. There is a great demand for blooded stock in the Southwest for the replenishment of the herds that have been so hard hit by the drought. This fact is attracting the breeders from Kansas, Oklahoma, Missouri, Mississippi and other states to the Fort Worth show. More than 400 entries are now in and the entry list will not be closed until Feb. 23.

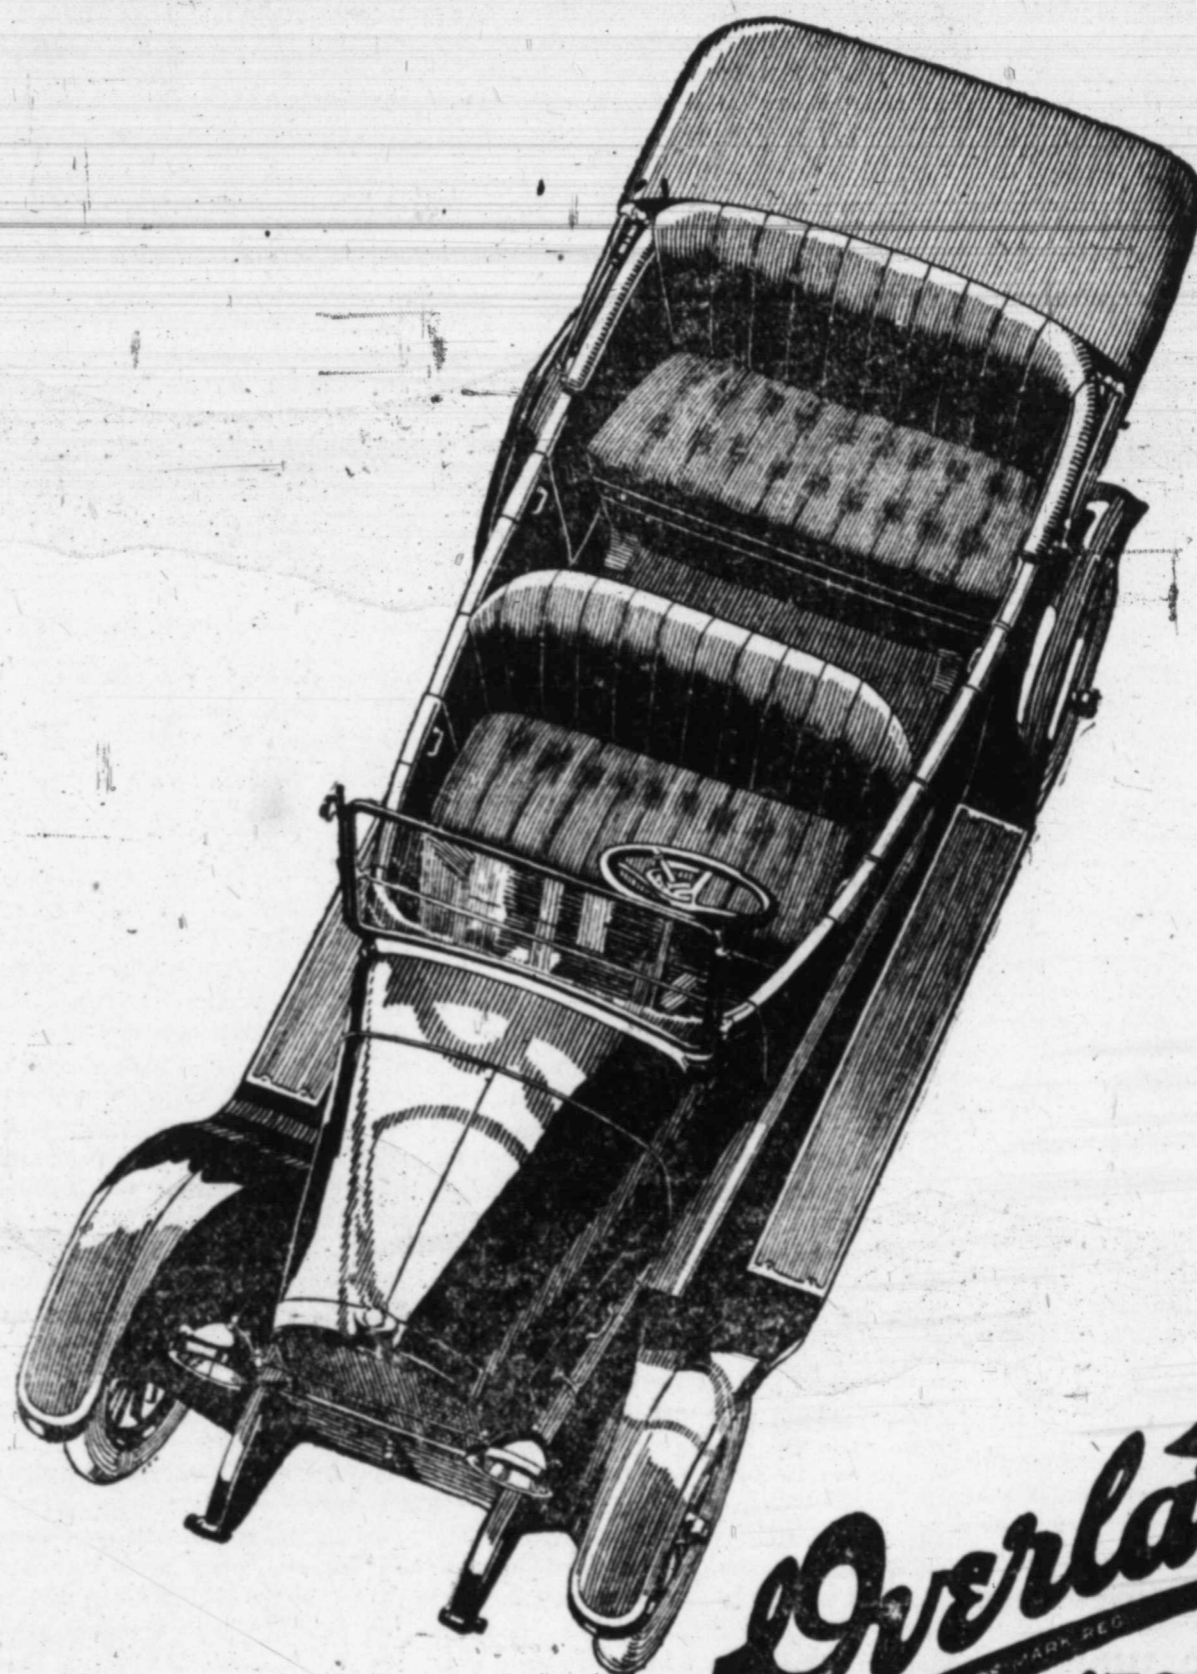

Because of the fact that practically two thirds of the cattle ranches in Texas and Oklahoma are represented at Camp Bowie and the second reason that the Cattle Raisers' Association of Texas meets at Dallas the week following the Exposition in Fort Worth, the greatest crowd in the history of the city is expected. Stockmen will come to Fort Worth a week in advance of the meeting of the Association to visit relatives at Camp Bowie and in the aviation camps and to meet with the breeders of fancy stock.

### TRY IT! SUBSTITUTE FOR NASTY CALOMEL

**Starts your liver without making you sick and can not salivate.**

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel.

### A CANYON INQUIRY

Answered By The Statement Of A Canyon Resident.

When first the long series of reports of Canyon people who have been relieved by Doan's Kidney Pills were published in the local press, great enthusiasm and interest were aroused. But Canyon is now inquiring "How are these people keeping today? How has the benefit they received withstood the test of time?" For that, after all, is the essential test of a cure. On this point doubt can no longer exist, for after many years those who have been cured, emphatically declared their cures to be lasting.

T. A. Ridgway, Canyon St., Canyon, says: "I suffered from bladder trouble, causing too frequent and profuse passages of the kidney secretions. Since using Doan's Kidney Pills, I have much better control over my kidneys."

"NEARLY FOUR YEARS LATER, Mr. Ridgway said: "I have not had any trouble with my kidneys since I used Doan's Kidney Pills. I believe the cure Doan's gave me is permanent."

A published report of the investigating committee at Austin contains a recommendation, which if adopted, will do great harm to the West Texas State Normal College and two or three other Normals of the state, giving distinct advantage to at least one or two of them. The friends of the state university seem to have gotten into their heads that the Normals of the state were trespassing upon their territory by adding a two year course to all of the Normals, and offering the A. B. degree. This degree is offered along educational lines only, and is for the purpose of equipping teachers for the large city high schools of the state a thing which the university places little or no emphasis upon, and a thing which the Normals have hitherto been unable to do. The Board of Regents made a study of the situation with the Presidents of the Normals before taking the step of adding the two years course, and were firmly convinced that the Normal schools were not fulfilling their mission to the state without this higher training for teachers who wish to enter the public schools of the big cities. The course was added by the unanimous consent of the Presidents and the Regents. Now comes the investigating committee saying it has not proven a success, and the course was added only last fall, and with little added expense to the schools. The investigating committee proposes that instead of allowing all of the Normals to continue with the A. B. degree course, that the Regents shall designate one or two schools in which the course shall be given a test. The ultimate result would be to choose the largest schools, cutting out the course in those with smaller attendance and smaller political influence, thus making it appear to the prospective student that the school which had been designated was a first-rate Normal while those not so fortunate would instinctively be classed in the student's mind as second-rate. The West Texas State Normal College as the young-

est and farthest away from the political center would be cut off from offering the A. B. degree. Thus the opportunity offered for the young men and women in this large section who have ambitions for city school positions would be thwarted unless they go a great distance to the selected A. B. degree school. The proposal is altogether unjust.

The first American transport, loaded with soldiers, has been sunk. It is significant that the submarine is thought to have been destroyed, in which case, Germany came out a much heavier loser than our country. The men were cool and handled themselves like veterans, which showed that our army has developed to a wonderful degree within the short time we have been at war. While the submarine succeeded in firing the shot without detection, the fact that few men were lost is indicative that the parolers were near at hand and that the ocean voyage for our troops is not wrought with a great deal of danger. Germany will dearly pay for the sinking of the Tuscania. The loss of those boys sent a thrill through this nation as nothing else has done. A new fighting spirit has been put into our boys for which the Boche will pay

Both President Wilson and Lloyd George have answered the Hun proposal of peace. Both are firmly convinced that there can be no peace until the Kaiser is thoroughly whipped and that his peace proposals are mere "scraps of paper." Peace is coming, but it may take the lives of thousands of Americans to bring the permanent peace for which we are fighting.

Tulia is going to vote upon the commission form of government next month. Nearly all of the principle towns of Northwest Texas are under the commission form of government. This is a suggestion to the progressive men of Canyon.

The rumor of strikes and ruptures in Germany died as quickly as they arose. The Germans are not going to revolt under their present rulers, and it is going to take outside forces to put the present rulers off the throne.

**Methodist Church Announcement**  
 As previously announced our 11 o'clock service will be adjourned in deference to the service to be held at the Normal on the occasion of the Founders Day celebration. An elaborate program has been prepared for the occasion and our people should all hear it.

The Sunday School will begin at 9:30 promptly, and will last only one hour, so that we may all get to the Normal in time for the program. I assume we all share in the desire to make this celebration of the natal day of the Normal school the greatest event in the history of the town. It will, however, require unusual effort on everyone's part to get to Sunday School at an earlier hour. We urge therefore that everyone strain a point and get out at 9:30.

The Epworth League will have a special program at 6:45 p. m., on the subject of Methodism. Preaching service at 7:30. Our second quarterly meeting comes the 4th Sunday.

There will be no preaching at the morning hour in our church. Let us make it a great day for the school, worshipping with the faculty and students, letting them know our appreciation of the work they have done, and guiding them with our prayers and Christian cheer for the still greater tasks that yet lie before them in moulding and equipping the men and women that must meet the problems

FOR STATE SENATOR

R. L. TEMPLETON  
of Wellington, Texas  
Candidate for State Senator

Mr. Templeton is a candidate for the State Senate from this district, subject to the Democratic Primary in July. He is now serving his third term as a member of the House of Representatives. He has always been friendly to the educational institutions and is opposed to the recommendation by the recent investigating committee which recommended that certain Normals be given advantages over others, which would certainly seriously injure the West Texas State Normal College.

MISTAKES OF THE HOG MEN

So closely related is milk production to pork production that one can scarce think of one without having in mind the other. By-products are valuable, none more valuable than pork. Whey, skim milk, buttermilk converted into sleek porkers offer a side line that is a winner. As a matter of fact, the success of the farmer can usually be measured by the management of his herd of swine and incidentally the feeding of dairy by-products.

For the first time in the history of farming the farmer has some assurance of a price. For the first time he can plan and figure as other manufacturers do. With the government assurance of a minimum price of \$15.50 a hundredweight, he is in a position to decide whether he can increase or decrease his herd for the coming year. If he is a wise man he will decide in the affirmative. If he is a patriotic citizen he will go to the limit. Should the war end soon, the serious shortage of feed in European countries must surely maintain a demand, a demand which will mean money to him.

Ordinarily the man who succeeds in the production of pork is a man who stays with the game year in and year out, high price or low price, cholera or no cholera. The man who goes into pigs when prices are high usually sells his pigs when prices are low, and has but few pigs to sell when

prices soar. The present situation is an exception. It is an imperative duty of every farmer to increase pork production for the coming year. Any other year one should keep such a number as, from his experience, he can take care of with an average crop.

In increasing his stock of pigs, he should likewise increase his efficiency as a feeder and as an intelligent herdsman should strengthen the weak links that are the sign posts of failure. Let us look at these for a moment and we will find them about as follows in the order of importance:

1. Lack of pasture.
2. Failure to use the hog to save labor.
3. Too small litters.
4. Winter care of brood sow.
5. Lack of breeding, poor sire, care, and selection.
6. Poor feeding, unbalanced rations.
7. Poor marketing.
8. Failure to take advantage of the hog as a manure factory.

Where fall litters are produced and winter feeding practiced, one could add poor housing and lack of water.

The average hog pasture is a joke. Hogs are turned into a field in such numbers that they eat all on top and then proceed to turn the field upside down and eat everything below, much to the disgust of the owner. Now the pig is a lazy fellow and he does not work harder than he has to. If he roots he is hungry or his feed lacks something his body needs. The most successful hog men turn their hogs into a field expecting to utilize what the hog does not eat as hay. Contrary to general opinion this is good practice as a hog will find an area equal to his needs and the only waste is the few paths running in the direction of the selected areas. Winter rye for early spring, peas and oats, or better, good clover pasture for summer feed is an imperative necessity in cheap pork production. The hog is a natural grazer and from weaning to fattening time he can not spend his time more profitably than growing bone and body in a clover or alfalfa field where one can not see much else except his broad, sleek back growing daily broader and sleeker.

In the matter of labor, the hog is not demanding much. Of late he is demanding less. The self-feeder helps wonderfully. It is in field feeding of pasture where little or no attention is given that labor is at a minimum. Supplement this in fall with field peas, early flint corn for early feeding, and later varieties for later feeding and the labor question is solved to the farmer's advantage in time and money. It is really amusing to see a bunch of pigs going to cornfield and later to rape or clover saying, if they could talk, "We know what we want, it you will give us a chance to select." Add to this feed a splendid supply of clean drinking water available at all times and the pig is in hog heaven. A dry bed of straw, shelter from cold, is demanded to make his satisfaction complete and prospective income to the owner the maximum.

In the matter of litter many fail. The cost of sow keep for a year approximates \$24. A litter of two would make the initial cost \$12. The hog is a mortgage lifter. He will never lift that personal mortgage. Double that size of litter and he can't find a way out as \$6 is a serious charge against him. By proper selection of sows from dams of large litters, by selecting and keeping serviceable productive sows, the average litter size can be increased. Care of brood sow at farrowing time will do much to increase the number of pigs per sow, and decrease cost per pig.

In this connection it must be remembered that the feeding, care, and, winter management of the brood sow bears a direct relation to size of litter; and to the strength of litter when produced. The young pig is a highly protein product, consequently protein should be provided in the feed. A sow can not produce something from nothing. Corn will not do it. Poor corn certainly can not. Roots

as mangles, oats, some oil meal or tankage, clover or alfalfa hay, skim milk or buttermilk, should be provided and, of these, the dairy by-products are most valuable. Some hog men hate to milk, but they do not hesitate to do so knowing the value of the cow in successful management of the herd. At weaning time, a critical time, there is a value in skim milk much higher than quoted values to the young pig. Some make the mistake of being too generous with feed to the brood sow at farrowing time. They cause a rush of milk to the udder. The small pigs can not take the supply. Congestion and soreness ensue. Result: a restless mother and dead pigs. Sould you desire to feed heavily, feed when the litter is three weeks old or over. Feed as liberally as you can and even supplement that feed by direct feeding to the little fellows. At farrowing, the sow for the first 24 to 48 hours requires little but water, quiet, and rest. Forced exercise and judicial feeding means strong, active youngsters and a minimum of loss.

Under the heading of breeding, too much stress can not be laid upon the use of a good sire. Buy as good blood as your money can buy, and buy it in the sire. If breeding doesn't count, the best pigs should be found where no attention was paid to breeding. Do you find it so? The 1,000-lb. hog is no accident. Uniformly good backs, deep sides, full hams are not the work of chance. The quick growing, large, growthy hog the farmer so much desires can not be obtained by accident. It is the result of careful study of form, careful selection, and mating of individuals of required character, backed by good feeding methods.

Under feeding there is a need of more protein in feed. Too many men still feed corn alone. The hog can no more build his body in an economical manner than you can build a house without material in definite quantities. Supplement corn with skim milk and he'll grow like a weed. If you have not the skim milk, oil meal or tankage will fill the bill. Flax sowed in the barley, clover or alfalfa in the rack,—how it is done matters some. It is your problem as a feeder. Home-grown products are the cheaper, but even the high priced tankage and meal can be bought and fed to advantage with present hog prices. The main point is to realize the necessity of it and to provide it.

When fed, the question of marketing is usually considered. The time to consider the market is when you do not have to sell. Get in on the market before the rush. Try and get pigs on the market when the other fellow is not quite ready. Use the stock shipping organization, grade your hogs, and market uniform lots if possible. Study what the market wants, not what you want, and fit your product so there is a demand for it on account of fish and quality. The hog game is an interesting game. Generally speaking it is a profitable game, just now it is abounding in interest because patriotic sentiment calls upon you to do your bit, and because of assured returns, a certainty new to the farmer. It is up to us to increase the pork production for the years to come. We can and will

A NOVEL SCHEME SUGGESTED.

R. H. Alexander, County Chairman for Coleman County on War Savings work, has put in practice a new scheme to interest school children on the subject of War Savings Stamps. Mr. Louis Lipsitz, State Director, says: "I endorse Mr. Alexander's idea and suggest that in every school a picture of the Kaiser be drawn and put up in the school room. Every child who buys a 25-cent Thrift Stamp is entitled to stick a pin in the Kaiser's picture and this will be a demonstration of the activity of school children in blotting out Kaiserism and autocracy and showing in a graphic way that the 25-cent piece saved and loaned to the Government in the purchase of a Thrift Stamp is going to help to save the child from autocracy and poverty."

SAVE THE CHILD FROM AUTOCRACY AND POVERTY.

This is the new slogan of the War Savings Committee engaged in selling \$91,000,000 of War Savings Stamps in Texas. The Federal Government wants every man, woman and child to save and invest their savings in stamps. These stamps mature January 1st, 1923, and earn an interest, rate of 4% compounded quarterly. This is not only the best investment possible in war times, but also as President Wilson has said, "is intended to correct our unpardonable habits of waste and extravagance." The great thing to be accomplished is to preach thrift from every pulpit, teach it in every school and practice it in the home. This is war work in which all may join; it not only helps win the war which saves our children from autocracy but it saves them from poverty as well.

QUARTER BUYS FIVE BULLETS

ONE THRIFT STAMP FILLS RIFLE'S MAGAZINE—BABY BOND GETS U. S. SOLDIER PAIR OF SHOES.

If you have an idea that your quarters won't help win the war and do lots of service when invested in thrift stamps and war savings stamps, just look over this table. The little bonds are translated in terms of soldier equipment. Here's how they stack up:

- 1 Thrift Stamp—5 Bullets.
- 1 War Savings Stamp—1 Pair of Shoes.
- 1 War Savings Stamp—2 Woolen Shirts.
- 1 War Savings Stamp—4 Winter Undershirts.
- 1 War Savings Stamp—1 Steel Helmet and \$1.12 over.
- 1 War Savings Stamp—1 Shelter Tent and part payment on Overcoat.

Those quarters will do the Government lots of good. And remember you are not giving them away, but lending them at four per cent interest compounded quarterly.

A single thrift stamp doesn't look very large and the quarter it costs doesn't seem like it would count for very much, but that thrift stamp means five bullets for one of our soldiers—a clip of cartridges, they'll fill the magazine of his rifle. With them he may save his life and the lives of two or three American heroes in France.

These little war bonds will do lots of big things. Armies can be ammunitioned with them, hungry soldiers fed, fighters kept warm in No Man's land, lives saved—enough of them will bring victory, save the Nation and liberate thousands of poor Europeans whose condition is worse than slavery.

They stand for patriotism, those little certificates which cost only a trifle. They are evidences of willingness to serve and back up the boys in the trenches. People who refrain from spending their money on unnecessary things and put it in the tiny war bonds don't have to talk about their loyalty—they are proving it, paying for it.

The price of the victory stamps can be saved or made in a thousand ways. Luxuries can be left unthought and thrift stamps purchased instead. Everyone can give up luxuries, because nearly everyone spends money for things he is not compelled to have. Money saved is money made. Let part of the money in the pay envelope be put to work for Uncle Sam and the Liberty boys. The old hen out there at the barn can help you. Every time she lays a dozen eggs you have the price of two thrift stamps—that's ten bullets. There are just lots of ways to earn the little treasury bonds.

Those little stamps stand for something else—thrift and prosperity. You help the Government when you buy them, but you also help yourself. You have saved the money, it will come in handy later on, and when you get it back will get a lot of extra nickles and dimes and dollars with it. Every minute of the time since you lent it to the Government it will have been working for you—making more money for you. When you buy thrift stamps you are not giving away a thing, you are getting paid for everything you have done.

Have the pleasure of knowing that one of those soldiers "over there" is wearing a pair of shoes you bought for him; that a coat your money purchased is keeping him warm; that the ammunition you got for him will help him out of tight places and bring him back home to those who love him.

LESLIE NOBLES OF AMARILLO HELD ON STATUTORY OFFENSE

Leslie Nobles of Amarillo is before the county court on charge of statutory offense against a young lady in Amarillo, committed in Randall county on the night of February 7. He has been in jail since that time. His attorneys attempted to postpone the hearing Tuesday but Judge Flesher ordered the case to continue.

The state placed witnesses on the stand after which court was adjourned until Friday morning when the defense will put on witnesses.

DON'T KILL PULLETS AND HENS UNTIL AFTER APR. 30

County Food Administrator D. A. Park has received a message stating that the Food Administration has ruled against killing pullets and hens

between February 11 and April 30 and wishes to have the rule enforced in Randall county.

The Food Administration believes that with care the egg production may be greatly increased and the food situation thus benefited by saving the pullets and hens.

BUSTER AND TIGE will be at the Canyon Supply Co. Feb. 20. All the boys and girls are invited to meet them at that time.

The fire alarm sounded Friday just before noon and a fire reported at the C. N. Harrison home. But the fire had been extinguished before the department got together. Jake, the younger son of Mr. and Mrs. Harrison had struck a match while hunting his hat in the closet, and had set fire to the clothing. The fire was extinguished without great loss.

## You Can't Rub It Away; Rheumatism is in the Blood

**Liniments Will Never Cure.**  
If you are afflicted with Rheumatism, why waste time with liniments, lotions and other local applications that never did cure Rheumatism, and never will?  
Do not try to rub the pain away, for you will never succeed. Try the sensible plan of finding the cause of the pain, and go after that. Remove the cause, and there can be no pain. You will never be rid of Rheumatism until you cleanse your blood of the germs that cause the disease. S. S. S. has never had an equal as a blood purifier and scores of sufferers say that it has cleansed their blood of Rheumatism, and removed all trace of the disease from their system.

## PERSHING PRAISES HIS FIGHTING MEN

HE SAYS THEY LEAD CLEANER LIVES THAN EVER DID ANY SIMILAR BODY OF MEN.

### MOTHERS MAY REST ASSURED

Feed Manufacturers and Dealers Must Secure Licenses by February 15—New Courses Added to Medical Training Camps.

(From Committee on Public Information.)

Washington.—In a recent communication to Secretary of War Baker, the commander of the American expeditionary forces said:

"There has never been a similar body of men to lead as clean lives as our American soldiers in France. They have entered this war with the highest devotion to duty and with no other idea than to perform these duties in the most efficient manner possible. They fully realize their obligation to their own people, their friends and the country. A rigid program of instruction is carried out daily with traditional American enthusiasm. Engaged in healthy, interesting exercises in the open air, with simple diets, officers and men, like trained athletes, are ready for their tasks. Forbidden the use of strong drink and protected by stringent regulations against sexual evils, and supported by their own moral courage, their good behavior is the subject of most favorable comments, especially by our allies. American mothers may rest assured that their sons are a credit to them and to the nation, and they may well look forward to the proud day when on the battlefield these splendid men will shed a new luster on American manhood."

Manufacturers of and dealers in commercial feeds for live stock, cattle and hogs must secure licenses under the food administration by February 15. This covers baled hay, shelled and ear corn and many other commodities intended for use as feeds or as ingredients in mixed feeds. The only exceptions are for millers manufacturing bran and dealers in coarse grains, who have already been placed under food administration licenses.

Applications for license should be addressed to the license division, Food Administration, Washington, D. C., specifying the nature of the business to be licensed.

Ten new sections are included in the courses for officers in medical training camps at Fort Oglethorpe, Ga., and Fort Riley, Kan. Fort Riley has a capacity of 7,000 men, and enlargement of the school at Fort Oglethorpe to the same size has been authorized. Its present capacity being 5,500. The ultimate needs of the medical department of the army look to training camps with capacities totaling 35,000 to 40,000 officers and men.

There have been graduated from medical training camps since June 1, or are now under instruction, about 9,000 officers and 20,000 enlisted men. Various groups now in active service have been trained, including officers and men, to operate ambulance companies, field hospitals, evacuation hospitals, base hospitals, and hospital trains.

For work in the enlisted Veterinary corps, 2,000 men not subject to call under the selective-service law, are wanted. They will be assigned to duty in veterinary hospitals and for other purposes in the corps. Service overseas can be expected shortly.

There is particular demand for veterinary and agricultural students, farmers, stablemen and others accustomed to handling horses. A few men of the following occupations will also be accepted: Horseshoers, saddlers, pharmacists, cooks, typists and stenographers.

Pay for enlisted men and noncommissioned officers ranges from \$30 to \$56 a month, food, clothing, and quarters. Applications for enlistment can be made at any army recruiting office.

One of the functions of the newly established war service exchange will be to answer inquiries of persons desiring to serve in the army. It will also keep informed of needs of the various branches of the service as to personnel, and direct suitable persons as to where and how to apply, and will co-operate with the department of labor and other agencies in locating and supplying men needed for special purposes by various branches of the service.

Inquiries regarding enlistment opportunities, etc., should be addressed to the War Service Exchange, room 529, State, War, and Navy Building, Washington, D. C.

To conserve tin, linseed oil, and other ingredients of paint and paint containers necessary for war use, manufacture will be limited to 32 shades of house paint after July 1. Some firms are now making 100 shades of this class of paint.

Enamels will be restricted by the manufacturers to eight shades, floor paint to eight, roof and barn paint to two, shingle stains to 12, carriage paint to eight, architectural varnishes to ten. Half-gallon cans will not be used, and some other sizes will be discontinued.

The overseas service of the American Library association is in operation. Although space is extremely valuable aboard transports, they have been provided with bookcases holding collections of books which are used as circulating libraries on the way over. The cases are emptied at port of debarkation and the books sent to the men in the field.

As a means of further increasing the supply of books among the overseas forces, the association plans to have each soldier carry a book in his kit, to be put in circulation when he reaches the other side.

Secretary Houston of the department of agriculture has set forth the policy which he thinks should be followed in highway construction during the war:

"So far as it is practicable to do so, this department will urge the maintenance of the highways already constructed; the construction and completion of those highways which are vitally important because of their bearing upon the war situation or for the movement of commodities; the postponement of all highway construction relatively less essential or not based upon important military or economic needs. The department is preparing to suggest to the state highway departments the preparation of a schedule of work for the federal aid projects for 1918 in line with this policy."

Road construction and maintenance in the United States involve an annual expenditure of about \$300,000,000.

The department of labor is arranging to bring into the United States 110,000 laborers for railroad and farm work, from Porto Rico and the Virgin Islands, according to Louis F. Post, assistant secretary of the department of labor.

Mr. Post declares there is no necessity for importing common labor from Mexico or China. Porto Rico is an agricultural territory and yet has a density of population exceeded by only three states. A considerable surplus of workers exists on the island. It can furnish 100,000 laborers, and the Virgin Islands can send 10,000 more. Arrangements are being made to bring over 50,000 men as soon as tonnage is available.

A recent report made by the United States consul in Tasmania, an island state of Australia, includes the following:

"The general scheme for the repatriation of returned soldiers contemplates placing them upon the land. At a recent conference between the commonwealth and the state authorities, it was decided that each state would have to find the land, while the commonwealth government would advance up to \$2,433 to improve the holding of each returned soldier and to procure the necessary stock and implements. In this state it was deemed that the crown lands would prove too difficult to improve to attract returned soldiers, and it was decided to purchase large estates and divide them up into small farms and to use the money advanced by the commonwealth government for buildings, fences and tools. The money expended by the state in purchasing the land, as well as the money advanced by the commonwealth for improvements, is a lien upon the property and must be repaid in small annual payments. It was also decided by the commonwealth to advance money to returned soldiers who may desire to rent land. Bills will be introduced into the various parliaments at once so that this scheme can be put into operation throughout Australia."

For purposes of operation railroads of the United States have been placed in three divisions, as follows:

**Eastern Railroads.**—The railroads in that portion of the United States north of the Ohio and Potomac rivers and east of Lake Michigan and the Indiana-Illinois state line; also those railroads in Illinois extending into it from points east of the Indiana-Illinois state line; also the Chesapeake & Ohio, the Norfolk & Western, and the Virginian railways.

**Southern Railroads.**—All railroads in that portion of the United States south of the Ohio and Potomac rivers and east of the Mississippi River, except the Chesapeake & Ohio, Norfolk & Western, and the Virginian railways, and also those railroads in Illinois and Indiana extending into those states from points south of the Ohio river.

**Western Railroads.**—All railroads not included in the above definitions and, broadly speaking, all railroads in the territory west of Lake Michigan and of the Indiana-Illinois state line to the Ohio river and west of the Mississippi river from the Ohio river to the Gulf of Mexico, excepting those railroads in Illinois included in eastern territory and those railroads in Illinois and Indiana included in southern territory, as above stated.

According to information received in Washington, butter is selling in Berlin at \$2.25 a pound, sugar at 56 cents a pound, ham and bacon at \$2.11 a pound, and white soap at five bars for \$1.12.

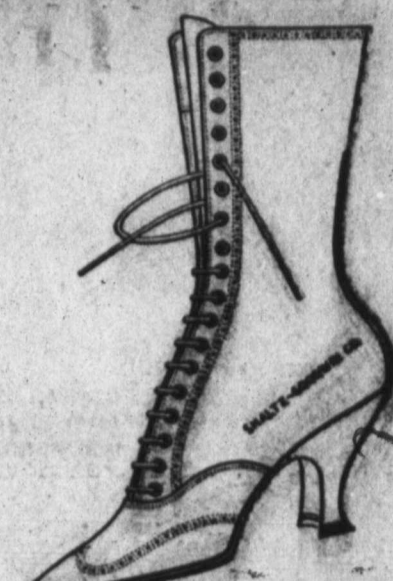

For the unit of women telephone operators to be sent to France a distinctive uniform is being provided. Salaries range from \$90 to \$125 a month, with allowance for rations and quarters. Successful applicants must speak both French and English with ease.

The department of agriculture estimates that only one-third of the marketable surplus of the potato crop had been moved by January 1, 1918. Last year's potato crop was the largest ever produced in the United States.

It would be a pity to divide Texas up into several smaller states, but the time has come when we must cast aside sentiment of sacred traditions and seek justice. West Texas has not had a square deal from Central and East Texas and the chances are that we will never get it until those people send men to the legislature who have a little space between their eyes. Until this is done West Texas just as well prepare to take out from East Texas. We hate to see it done but business is business. —Sterling City Record.

## The Thrift Stamp

**MAKES YOU A PARTNER WITH UNCLE SAM**

The Thrift Stamps cost 25c each, and while they bear no interest, they teach a great lesson in saving and economy.

The purchaser of these stamps will be furnished with a card to which such stamps shall be affixed.

Thrift stamps cannot be cashed, but when you get 16 they may be exchanged (with 13c extra) for the \$5.00 U. S. WAR SAVING CERTIFICATE.

## War Saving Certificate

Pay \$4.13 for each war savings stamp, 25c for each thrift stamp. Affix your stamp to a card that will be furnished at the time you buy the stamp or stamps. Separate cards are provided for war savings stamps and thrift stamps—don't mix the stamps. If during February you buy as many as sixteen thrift stamps (value \$4.00) you can exchange these for a war savings stamp by payment of 13c additional.

Investment features: War savings certificate stamps draw 4 per cent interest compounded quarterly, virtually 4 1-2 per cent interest during the five years before maturity. At date of maturity, January 1, 1923, each war savings stamp bought now at \$4.13 will be redeemed by the government at \$5.00, the interest on the \$4.13 amounting to 87c in the five years. The thrift stamps do not draw interest, but \$4.00 worth of these stamps, with 13c added, may be exchanged for a war savings certificate, which bears interest.

**German Efficiency and the Soul.**  
Scientific American: In the olden days somebody once asked, "What shall it profit a man, if he gain the whole world and lose his own soul?" and Prussia, in these later days, has answered—soldier, philosopher and economist alike—that it would profit immeasurably; that the loss of the soul was but a small price to pay for the winning of the whole world, and the setting up of a State which, in power, wealth and prestige, should overtop even the Roman Empire itself in the most august days of the Caesars.

Just when it was that Prussia reached the conviction that the soul was a stumbling block in the way of material and military success, it would be hard to say. Those of us who have read the Confessions of Frederick the Great will feel that as early as the middle of the eighteenth cen-

tury the father of modern Prussianism had "lost his own soul", having cast it out as being antagonistic to the principles of the infamous Machiavelli, of whom he was an avowed and delighted pupil.

Perhaps it will be well, before we go any further, to define our terms. The soul of which we speak is the soul as recognized by the greatest moral teacher of all time, whom he has quoted above. And when he asked this question, nineteen hundred years ago, the world knew perfectly well what he meant by the soul; for the term had conveyed a clear idea to men's minds from the very dawn of civilization. It means the same thing throughout the civilized world today, except in those portions of it upon which has fallen the dark eclipse of so-called Prussian kultur.

The Prussian, of course, would indignantly deny that he had lost his soul. Judging from the Kaiser's boisterous announcement of his co-partnership with the Almighty, he believes, doubtless, that in discarding the soul of Christianity he has found the super-soul of kultur, the soul of the superman. Be that as it may, it is certain that the deceit, dishonor and trickery which, as our State Department has shown, marked everywhere the course of Prussian diplomacy before the war, and the murder, rapine, piracy and unprintable abominations which the Prussian army has perpetrated during the war, prove that

Prussia, from Emperor down to enlisted man, has cast out of herself that very soul, which has banded together practically all the civilization of the earth to break down and blot out, once and for all, a military philosophy which, reduced to the language of everyday life, stands for mere burglary and brigandage.

In material things, at least, the Prussian is nothing if he is not logical; and when he set out to conquer the world by military methods he determined to apply to the problem the acid test of material efficiency. He passed in review the whole range of mundane life, all that goes to make up the sum total of human activity. Everything that would conduce to the winning of world domination he retained. Everything that would not, he cast out. During this process of selection he came to consider the soul, with its attributes of honor, mercy, humanity, fidelity, chivalry, charity and moral rectitude. And he found that, so far from contributing to the highest military success, the soul of Christianity and civilization, with its obligations to magnanimity, generosity and good faith, was utterly incompatible with that cold, remorseless, material and military efficiency by the development and exercise of which he hoped at once to Prussianize and possess the world.

And so, with deliberation and with clear-eyed knowledge of what he was doing, he put aside the soul as likely to prove not only unserviceable, but utterly destructive both of his unholy philosophy and the barbaric dream which it cloaked but did not entirely conceal.

Now, in our modern civilization, when a man deliberately casts out his soul we class that man as a criminal. It matters not what particular form of outlawry he adopts; whether he becomes safe cracker, house burglar, horse thief or counterfeiter—he is a criminal by choice and by profession. Nor does the possession of extraordinary mentality, of rare versatility, of many accomplishments in the arts and sciences, or of the social graces, serve to do anything more than make heavier his accountability and increase the detestation of his crime.

By the degree to which Germany has been fruitful in art, science, industry and social uplift, by so much the more was the murder of her own soul a foul deed, first against herself and then, as the present frightful catastrophe has shown, against the whole

of humanity. Therefore, when we read of a Bernstorff using the privileges of his high and honorable office as a channel for treacherous intrigue—of a Hollweg announcing, without a tremor of shame, that Prussia had torn up a treaty and invaded a small and friendly State because it suited her convenience to do so—of a Von Kluck standing silent and acquiescent while his soldiery fell upon the helpless peasants with rape, robbery and the torch—of a Tirpitz besmirching the chivalric traditions of the sea by the deliberate drowning of unarmed and unoffending men, women and children—of the deliberate violation of that sacred symbol, the Red Cross; of a Kaiser standing in the midst of this organized devilry and calling upon

God to witness that he ever was, is now and ever will be the apostle of peace and good will—when we read of such doings let us cease to cry, "How can these things be?" and remember that, when a nation has lost its own soul, these are the very things that will inevitably happen.

### Killing Off the Rabbits.

County Commissioner Ed Blair of Wheeler County was in Miami Monday after coal and cake. Mr. Blair states that the Mobeetic country pulled off a big rabbit drive last week and caught 1500 pounds of rabbits. They put up net wire pen with long wings and drove them into it like they would sheep. They are preparing for another drive soon and have invited Miami people over. They will ship the rabbits to some purchaser and return the funds to the Red Cross.—Miami Chief.

## CRUDGINGTON for CONGRESS

TO YOU, AS A CITIZEN:

The voters of this Congressional District are true Americans, loyal to President Wilson and the Government. You, as a citizen, owe it to your Country to elect a Congressman from this District who will square up with war-time tests. The issues are vital, and a Congressman should meet them squarely. I put my campaign on that platform and ask you to test me on that basis. I invite your consideration of my candidacy and the response thereto, which you, as a real American, deem proper.

## Public Sale of Registered Hereford Cattle

62 Bulls and 13 Heifers

February 20th—1918—February 20th

The Panhandle Hereford Breeders' Association will hold their Second Spring Sale at Amarillo during the Buyers and Sellers Convention on the afternoon of Wednesday, February 20th.

These cattle will be contributed entirely by the members and will represent some of the best cattle, selected from a number of the best registered herds in the Panhandle. Several show animals that stood high in the Exhibit at Amarillo last fall will be included in the sale. There will be cattle in the sale to suit every one.

### HERD BULLS

### HERD BULLS

### HERD BULLS

There are some Herd Bulls and Herd Bull prospects that in breeding and development cannot be surpassed in any State in the Union. So why go to the sales in the North and East and buy un-acclimated cattle at about double the money that the same breeding and individuality will cost in Amarillo on February 20th?

There are a goodly number of high class range bulls included in the offering that will sell worth the money, and no doubt in many instances will be bought for less money than the same cattle could be purchased for at the breeder's farm.

The heifers are a sweet lot, and while some of them will be in high condition, most of them will be sold in just the strong growing condition that the breeder likes to secure. All the sale cattle will be inspected by a committee of competent judges after the cattle reach Amarillo, and all animals that are not up to a high standard as to condition and individuality will be eliminated.

The sale will be held in a big tent situated within a block of the Amarillo Hotel, and there will be comfortable seats for every body.

Sale to begin promptly at one o'clock.

# WHAT THE RED CROSS IS DOING AND WHAT YOU CAN DO

## NURSING SERVICE DEPARTMENT.

The Bureau of Nursing Service opens wide the door to a professional career full of satisfaction and distinction. The number of registered trained nurses in this country is barely adequate in times of peace, and there is every indication that the demand for experienced nurses will continue for many years after the war has ended. It is of vital importance now that women in great numbers be enrolled in this service. Our schools of nursing, our civil hospitals are to women what the training camps are to officers and men. Hundreds of nurses have already been drafted. The supply will be utterly inadequate unless qualified women rally in large numbers to this call of duty.

The Surgeon-General of the United States Army has stated that 40,000 trained Red Cross nurses will be needed to minister to our army before another year has passed. The War Department and the Red Cross therefore call upon the womanhood of America to enter at once upon a course of training. The emergency is so great that the training course has been reduced from three years to two, and the age limit for Red Cross service which formerly ranged between the ages of 25 to 40 has now been extended to embrace all between the ages of 18 and 46. Excellent training courses are available at all the large hospitals throughout the country.

Nursing education not only prepares for a large variety of professional fields, but is an excellent preparation for home and family life and for public service in many ways.

Almost upon enrollment the student begins her service to the community in helping to care for the sick, as a part of her instruction and training.

Life in most schools is healthy, wholesome, simple and regular. It is full of vivid human interest, the student sharing in deepest realities of life.

The graduate of a good school steps at once into regular professional life and work with an assured livelihood. No weary struggle to get a foothold—to show what she can do. The hospital has carried her over that stage. Her work is ready and waiting for her if she successfully completes her training.

The student is at no expense for tuition, board, lodging, laundry, uniform, etc., in the great majority of schools. Only a few schools charge a tuition fee for preparatory course. The student is also cared for in illness.

Salaries compare favorably with salaries of other trained women. In some fields they are higher than the average. Especially is this true of teaching and administrative work either in institutions or in public health nursing. Opportunities for advancement are many and steadily increasing.

Our schools of nursing, our civil hospitals, are to women what the training camps are to officers and men. Hundreds of nurses have already been drafted. The supply will be utterly inadequate unless our qualified women rally in large numbers to this call of duty. Enroll as a student and begin your preparation to meet your country's need for large numbers of highly trained nurses—not only for war service under the American Red Cross, but also for peace service of the greatest importance.

Hospitals and schools of nursing need an ample student nursing service, composed of well-educated, high-principled, capable and devoted young women who are in training to become expert, skilled, competent nurses. All

## WEAR YOUR RED CROSS BUTTON

The little button which was given to you when you joined the Red Cross stands for something. It means that you are one of twenty-two millions in the United States, one-fifth of the entire population of the country, who are helping to win the war for America and her Allies. It means that you believe in humanity and democracy. It is the insignia of one of the most potent agencies for good in the world. Every member of the American Red Cross is a privileged person, for it is a privilege to belong to this most wonderful organization. Show that you esteem it a privilege by wearing on the lapel of your coat or on your dress the white button with the Red Cross. Wear it every day and wear it where others cannot fail to see it!

# WHAT THE RED CROSS IS DOING AND WHAT YOU CAN DO

## BUREAU OF SUPPLIES DEPARTMENT.

The Bureau of Supplies might be called the American Red Cross Dry Goods Company, for it purchases through its Washington office tremendous quantities of all materials which are needed for making the various articles manufactured in Red Cross Workrooms. Through the advantage of this centralized buying plan, Chapters are enabled to purchase materials at exceedingly low costs.

The Bureau of Supplies specializes in materials needed for all surgical dressings, in yarn for knitting and some of the materials for the more important of the refuse garments, and especially the large quantities of materials for pajamas, bed shirts, bed socks, bathrobes, bed jackets, and the most important articles for hospital and patients' use.

Another end of the Bureau of Supplies is the examining, repacking and shipping of all the articles the Chapters make. These are assembled at the St. Louis warehouse, there opened, examined and properly sorted, and shipped to Eastern ports for use abroad, or else sent to the cantonments to cover the needs of those of our men in service in this country.

At present the Bureau of Supplies has over 100 people in its employ besides some 30 volunteers. It occupies a warehouse with 50,000 square feet of space, which is far larger than the ordinary business houses, and is in every way equipped to be of an aid and service which equals the intensity of the women workers. Through the combination of the volunteer workers of the Chapters and the American Red Cross Bureau of Supplies, the Red Cross now is the largest garment and bandage supply factory in the world.

Through the increased membership there are 24,000,000 volunteers available, and reports indicate that the new membership is going to be as active in participation as the older members.

# SING OUT! SAVE THE MEAT, FOLKS, AND THE WHEAT

PATRIOTISM PUT TO MUSIC WILL  
SPREAD THE GOSPEL OF GOING  
LIGHT ON THINGS TO EAT.

The children of Houston will soon be humming conservation airs. Monday Miss Lou Stallman will visit the principal schools and leave at each building a number of pamphlets in which the verses for the conservation songs are printed. The songs are all bright and cheerful and the words are such as to appeal at once to the childish imagination.

The psychology of the songs is not different from the psychology of the sacred songs sung to popular airs on street corners by the Salvation Army, and the food administration has learned one far-reaching lesson from the ranks of the "Dough Boy," who is forever taking airs and paraphrasing them with new words. He likes to hum and sing things that have clever twists and turns; and the child is not different.

So when Mr. and Mrs. Houston hear their infant wonder in the kitchen or sliding down the banisters singing at the top of his voice how wheat may be saved to the tune of "Yankee Doodle," and yelling gloriously "The Battle Cry of Freedom" to the chime of the "Battle Cry of the Republic," they must not be alarmed—but instead show pleasure, for the kid is only one more voice raised in the great truth, "Food will win the war."

Among the verses and airs now ready for the small people's pleasure are:

Tune, "Kentucky Home."  
The sun shines bright on my conservation flat.  
This autumn, no one will gaitness.  
We have cut out milk and eliminated fat.  
And our meals are only two a day.  
The young folk take time on a conservation pie.  
Berrett of potatoes and meat.  
And our bread is made of the barley or the rye.  
And nobody uses any wheat.

Chorus.  
Wheat no more, my lady; O, wheat no more this year.  
For we'll sing one song for our conservation plan.  
Till we make the German Hun disappear.

Oh, the Turk must bow and the kaiser'll have to bend.  
Wherever our Sammies may go.  
A few more days and the trouble all will end.  
And we'll have a jolly time, don't you know.

We pinch on grub and economize today.  
No matter what the price of the fight.  
By and by peace comes and prosperity to stay.  
Then my conservation plan good night.

Tune, "The Battle Cry of Freedom."  
We've an army now in camp of a million boys or more.  
Shouting the battle cry of feed 'em.  
And we'll furnish them with guns and will food a mighty store.  
Shouting the battle cry of feed 'em.

We have bought a bond for freedom and boosted Uncle Sam.  
Shouting the battle cry of feed 'em.  
We have cut our daily ration to Johnny cake and jam.  
Shouting the battle cry of feed 'em.

Yes, we'll rally 'round the flag, boys; we'll rally once again.  
Shouting the battle cry of feed 'em.  
With potatoes on the hillside and wheat upon the plain,  
Shouting the battle cry of feed 'em.

Chorus.  
Our allies forever, Hurrah, boys, Hurrah! Down with the kaiser, up with our law.  
For we'll rally 'round the flag, boys; we'll rally once again.  
Shouting the battle cry of feed 'em.

An "Agrigraph" of the State College of Agriculture at Cornell University.  
Grandfather:  
They said I was too old for war.  
But one thing I can head—  
I ain't too old to go without  
The wheat our soldiers need.

Grandson:  
I know I am too young to go.  
But folk can't make me hush  
When I won't eat our soldiers' wheat  
And yell for cornmeal mush.

Chorus.  
Yankee Doodle, keep it up,  
Yankee Doodle dandy.  
Cut 'out the wheat, the meat, the fat,  
The sugar and the candy.

Felix Powell.  
Chorus.  
Pack up your troubles in your old kit-bag, and smile, smile, smile.  
(Supply)  
Smile, smile, that's the style.  
What's the use of worrying? It never was worth while, so  
Pack up your troubles in your old kit-bag, and smile, smile, smile.

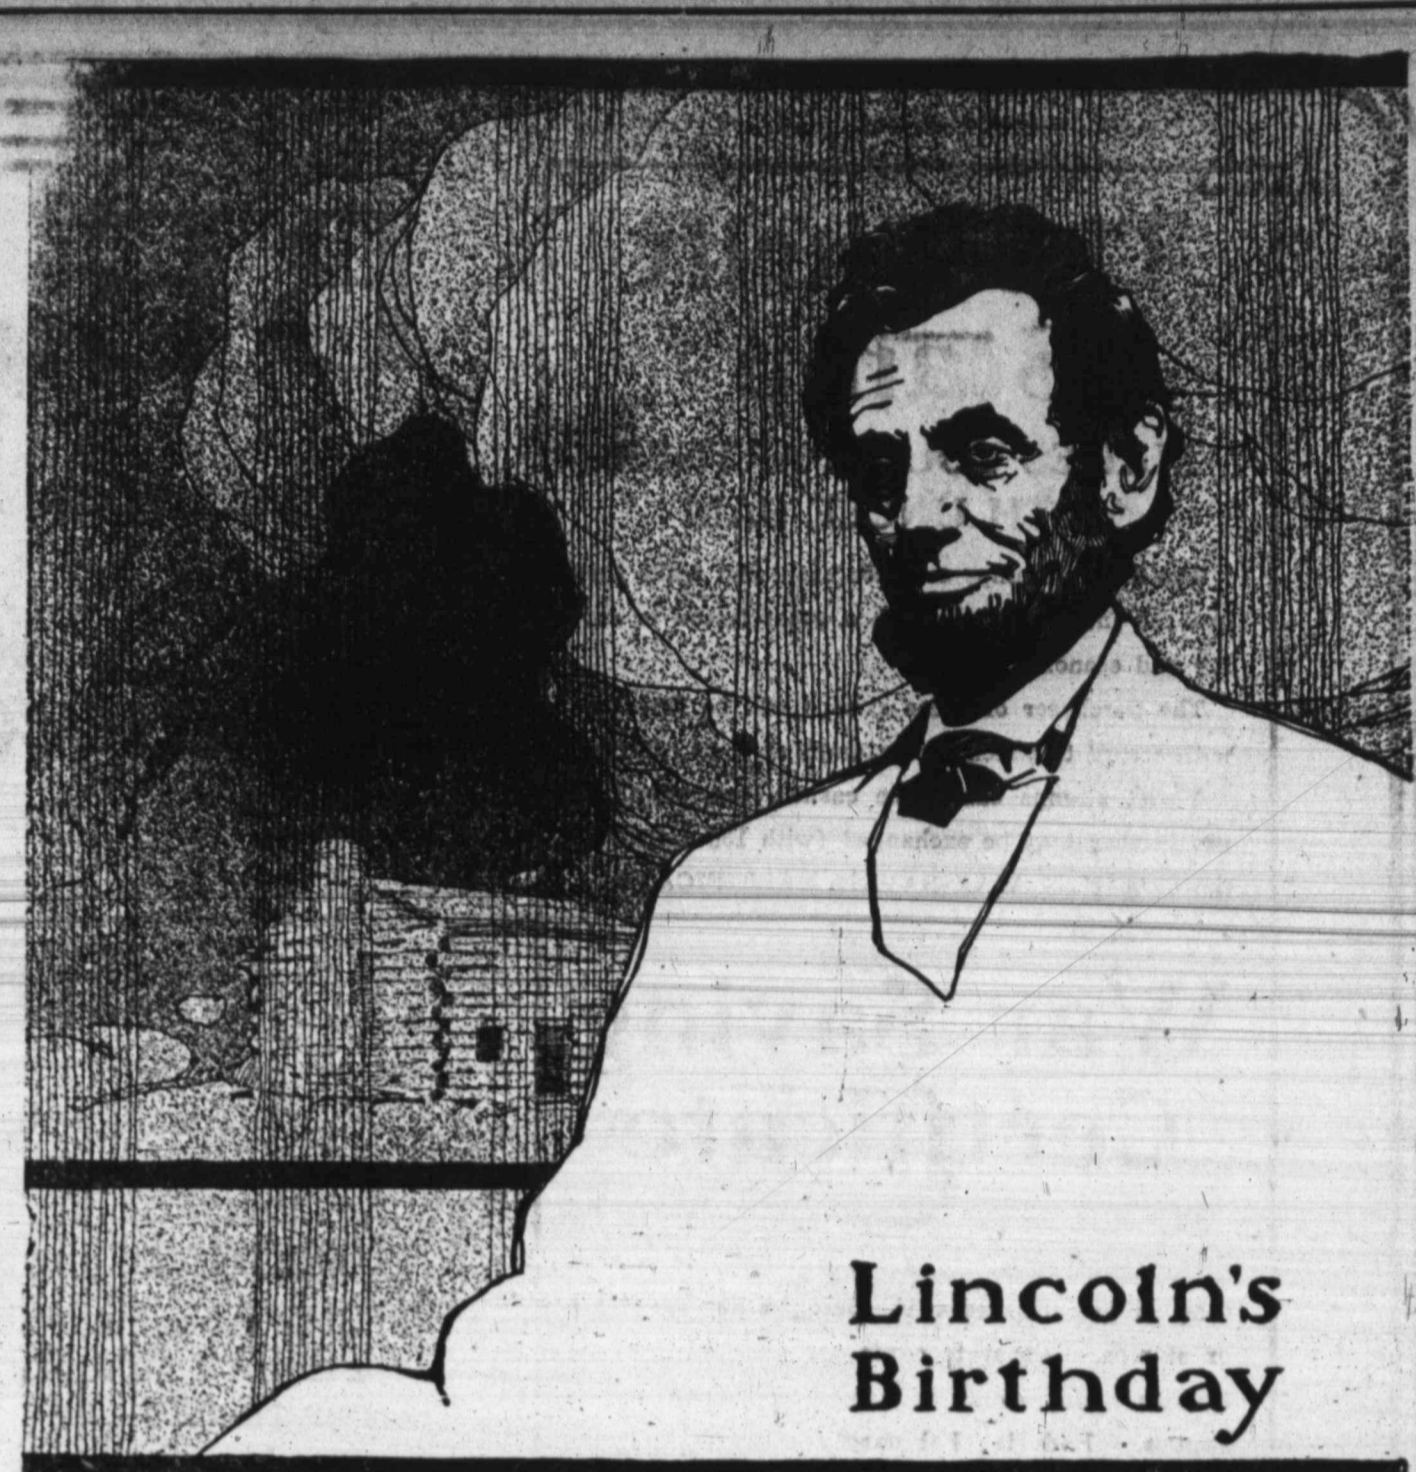

Russian Hymn.  
God, the all terrible,  
Thou, do ordainest.  
Thunder thy claxon,  
And lightning thy sword.  
Show fourth thy pity,  
On high where thou reignest.

## WILL TOUR STATE FOR FOOD ADMINISTRATION.

The six observers sent by the United States food administration to the western battle front in Europe to study first hand conditions in the countries associated with America in war, have returned to this continent and, beginning the week of January 27, will tour the United States for the purpose of acquainting America with concrete reasons why the saving of food is imperative. Of the six observers, two have been assigned to Texas. They are Roscoe Mitchell and Everett Colby, and they will open their engagement in this State by speaking on Sunday, March 17, in Houston and Dallas, respectively. Others upon the Texas itinerary are John D. Barry and Dr. R. L. Wilbur of the advisory committee of the United States food administration.

Texas will be traversed by two teams of speakers. The North Texas cities to have speakers from team A will be Dallas, Sherman, Benison, McKinney, Fort Worth, Weatherford, Denton, Waco, Cleburne, Ennis, Corsicana, Waxahatchie, Terrell, Greenville, Paris, Texarkana, Clarksville and Mount Pleasant.

The South Texas cities will be visited by team B, and the cities on the list are Houston, San Antonio, Richmond, Cuero, Austin, Victoria, Brenham, Bryan, Navasota, Bay City, Galveston, Conroe, Beaumont, Orange, Palestine, Marshall, Jacksonville and Longview.

IN TIMES like these, when Patriotism issues its highest call; when the great lives of the nation's patriots are commemorated; when the spirit of men leap within them, and flame with the fire of patriotic sacrifice as they read the heroic story of brave deeds on land, in the air, on the sea; in times like these we who stay at home cannot help wishing that we could do "something like that;" render to the common cause some great service.

But let us not forget that patriotism is a spirit, not merely an act; that the housewife, the farmer, the mechanic, the school boy or girl, can discharge the trifling daily task with the same high spirit of Lincoln, or of the soldier in the trenches.

## STAMP OUT THE WAR WITH WAR SAVINGS STAMPS

### WHERE TO GET THE STAMPS

At the Postoffice, Banks, General Stores, Grocery Stores, Drug Stores,  
and Other Business Houses

## ABOUT THE THRIFT STAMPS

The Thrift Stamps cost 25c each, and while they bear no interest, they teach a great lesson in saving and economy. The purchaser of these stamps will be furnished with a card to which such stamps shall be affixed. Thrift stamps cannot be cashed, but when you get sixteen, they may be exchanged (with 13c extra during February and one additional cent each following month) for the \$5.00 U. S. WAR SAVING CERTIFICATE.

## WAR SAVING CERTIFICATES

Pay \$4.13 for each war savings stamp, 25c for each thrift stamp. Affix your stamp to a card that will be furnished at the time you buy the stamp or stamps. Separate cards are provided for war saving stamps and thrift stamps—don't mix the stamps. If during February you buy as many as sixteen thrift stamps (value \$4.00) you can exchange these for a war savings stamp by payment of 13c additional.

Investment features. War savings certificate stamps draw 4 per cent interest compounded quarterly, virtually 4 1-2 per cent interest during the five years before maturity. At date of maturity, January 1, 1923, each war savings stamp bought now at \$4.13 will be redeemed by the government at \$5.00, the interest on the \$4.13 amounting to 87c in the five years. The thrift stamps do not draw interest, but \$4.00 worth of these stamps, with 13c added, may be exchanged for a war savings certificate, which bears interest.

Baptist—Girls 34, boys 18.  
Presbyterian—Girls 15, boys 7.  
Christian—Girls 7, boys 2.  
Church of Christ—Girls 8, boys 3.

Miss Mallena McKee visited home folks at Tulia Sunday and Monday.

Mr. B. F. Fronabarger, Jr., principal of the Slaton High School was a visitor in chapel Saturday morning.

Paul Callihan spent Sunday and Monday with home folks.

Miss Lulu Parmley returned to school Tuesday after a week's absence.

On last Friday in Chapel, the Training School presented to Mr. Reid, the treasurer of the Gregg Cousins Memorial Loan Fund, their one hundred dollar Liberty Bond. The presentation was a patriotic one. While Miss Brigham played "America", one pupil from each grade marched upon the stage, with the youngest carrying a large flag. Then Nellie Harden came carrying in her hand the bond and with a speech, gave it to Mr. Reid.

On last Sunday, Misses Brown, Brigham, Doris Winckelman, Irene Angel and Ruth Wakefield enjoyed an afternoon in the canyons.

Miss Nannie Johnson, a student with us last year, is now teaching at Cuyler. She came in Saturday to spend the week end with her parents in this city.

Miss Lois Shropshire is out of school this week on account of sickness.

The Cousins literary society will meet Saturday afternoon for the purpose of electing officers for the coming quarter. The following program will also be rendered:

Violin Solo—Joe Thompson.  
Current Events—Lewis Hardin.  
Jokes—Charlie Robbins.  
What music means to me—Ira Younger.

The following is the program for the Guenther literary society for Feb. 16, 1918.

Roll call—Secretary  
Jokes—Crudgington.  
Dialogue—Ralls and Shelby.  
Reading—Myers.  
A Prophecy—Pinson.  
Stump Speech—Bill Graham.  
Corney Duet—Smith and Sherer.  
Speech—President.  
Duet—Johnson and Wells.  
Critic's Report—Pinson.  
The junior class will have charge of chapel this week.

Martin Cone, a former student of the Normal, was in Canyon Monday.

Miss O'Keefe has been iff for the past two weeks.

Some of the Normal boys were out for base-ball practice yesterday afternoon.

On Saturday afternoon Feb. 16 the Sesame Literary Society will give the following program:

Central Theme: Doing Our Bit  
Piano Solo—Maud Williams,  
Red Cross Sewing—Viola Tucker.  
Red Cross Knitting—Onie O'Keefe  
Letters, Pictures, to Our Soldier Boys—Jamie Smith.  
The Hostess House, at Camp Bowie—Mallevea McKee.  
Victrola Music.  
Mr. Amos Howard of Crosbyton, a former student of ours, is visiting the Normal this week.

Mrs. Earl Lust has received a cablegram announcing that her husband, who was on the vessel recently torpedoed on the coast of Ireland, is safe.

**Training School.**  
The training school basket-ball team will play the Normal school second team Thursday afternoon at 4:30.

The entire training school now is organized into a Junior Red Cross, and every member has paid a fee of twenty-five cents.

For two weeks the Red Cross members will refrain from attending the picture show and buying candy and chewing gum. The money thus saved will be spent for Thrift stamps.

On Thursday morning the entire Training School attended chapel for the purpose of hearing "Emmy Lou's First Valentine."

### Happy Happenings.

Having lots of wind. Friday was the worst dust storm we have had this year. The thistles tore down lots of fences in this locality. Sunday night we had a light shower but not enough very much good. Today, (Wednesday) the dirt is blowing again.

Master Armond Logan is suffering from an attack of appendicitis. The first attack was last Monday. He is still quite bad but is a little better.

**Tax Assessor's Notice.**  
Wishing to comply with the law in getting the rolls completed on time, I wish to state that I will see each man one time only to get a rendition of his property. If he does not render the property at that time, I shall make the rendition myself, as prescribed by law.

It is entirely impossible to get the work done on time, when the assessor must see so many of the tax payers a second or third of fourth time to get a rendition.

J. C. BLACK,  
Tax Assessor

Mrs. E. H. Powell entertained the Merry Maids and Matrons Club on last Thursday. The following guests were present: Mesdames Ely, Kennedy, Walker and Luke.

The Baptist Sunday School will meet at 9:30 next Sunday on account of the program at the Normal. Let every member of the school make special effort too be on time.

J. A. HILL, Supt.

**BUSTER AND TIGE** will be at the Canyon Supply Co. Feb. 20. All the boys and girls are invited to meet them at that time. ti

**THE LAST RESTING PLACE** should be marked by a suitable monument; one that will stand the test of time and retain its beauty. It is the last service we can render our loved ones; therefore it should be done with the utmost care.

**GEORGIA MONUMENTS** are guaranteed as to workmanship and price. I can suit you. Consult with me when you need a monument.
