

W. S. S. PROGRAM FRIDAY P. M.

WOMEN BEGUN TO REGISTER YESTERDAY

Friday, June 28, is "Pledge the President Day" in America.

The day will be observed in Canyon and join in putting the country over the top on this great governmental agency for winning the war.

Reports are being received from all over the county that the different school districts of Randall county are going over the top with their quotas and each school director has stated that his district will have completed its quota by Friday.

The plans are for a great meeting in Canyon Friday afternoon at 2:30 o'clock. The time is changed from two o'clock so as many of our citizens live such a great distance that it would be almost impossible to reach Canyon in time for a program at two o'clock.

The program Friday afternoon will consist of two addresses by King Vivian, representing the Federal Reserve Bank and President R. B. Cousins.

Music will be furnished by the Normal orchestra.

The program will be held on the court house lawn.

A bulletin board will be maintained on the court house lawn and as each school district reports the result will be posted on the bulletin board.

Two selling booths will be established in Canyon—one on the court house lawn and one at the office of S. B. McClure.

A stringed band will play at the booth by the McClure office during the afternoon.

Stafford-Spencer Wedding.

Miss Ara Virginia Stafford of this city and Charles Robert Spencer of Plainview were married Thursday evening at the home of the bride's parents, Prof. and Mrs. B. A. Stafford.

The bride is the daughter of Mr. and Mrs. Stafford and came here eight years ago with her parents. She graduated from the Normal and since that time has been a very successful teacher in the Plainview public school.

A reception was given immediately after the ceremony and the guests enjoyed a very social hour. Music was furnished by the Normal orchestra.

Refreshments were served by the hostess of ice cream and angel food cake.

The bridal couple received a large number of very beautiful presents in token of the esteem of their many friends in Canyon.

Come to Canyon to Live.

MICKIE SAYS

PRETTY LUCKY PER ME, I CLAIM, THAT EVERYBODY DON'T KNOW WHAT CLASSY PRINTING WE TURN OUT IN THIS SHOP, ER, Y' D BE RUNNIN' THIS HERE JOB PRESS DAY AN' NIGHT!

MICKIE, THE-PRINTER'S DEVIL

Every citizen in Randall county is expected to come to Canyon Friday and join in putting the country over the top on this great governmental agency for winning the war.

Last Sunday afternoon speakers visited every school house in Randall county and told the people about the great War Savings Campaign and what is expected of each citizen in Randall county.

The pledge cards were turned over to the directors of the school and they are making a campaign of the districts this week seeing that every family signs up for the amount of money they should put in this war for the government.

So far only three men in Randall county have been reported as refusing to support the government. All of them are said to have plenty of means, but are not willing to support the men in the trenches who are fighting and dying that they might stay at home and live in peace!

At the meetings Sunday nearly every school house was crowded to capacity. The addresses were listened to with great interest by the people and from the reports that have been received from all over the county, the citizens of Randall county are fully alive to the great necessity of winning the war.

The first school district in Randall county to go over the top was the Campbell district west of the city. By Monday morning the directors had reported to County Manager E. H. Powell that the district's quota was fully taken.

Several districts have reported since that time.

Williams-Gamble Wedding.

Miss Williams and Oscar N. Gamble were married Wednesday evening at 8:30 o'clock at the home of the bride's parents, Dr. and Mrs. C. W. Williams in Artisia, N. M.

Miss Williams is well known in this section of the country, her parents being prominent in the development of the Artisia country. Mr. Gamble is the popular manager of the Canyon City Supply Company an excellent business man.

The many friends of the bride and groom are extending hearty congratulations.

Vore-Bentley Wedding.

Miss Myrtle Vore of Spring Lake and Lieut. Vayne Bentley of Camp Travis were married in Plainview Sunday. Miss Vore is a former resident of Canyon but during the past few years has been teaching at Spring Lake.

They left Tuesday for Camp Travis where they will live until Mr. Bentley is moved to France.

Arnold Leave Monday.

A. J. Arnold will leave Monday for Amarillo where he will become associated with the Finke Electric Co. and will continue to manage the Arnold Electric Co.

Cecil Tate will arrive Friday from Tucumcari where he has been for the past year and will become manager of the Canyon Power Company July 1st.

Attends Ft. Worth Meeting.

Dr. D. M. Stewart, member of the Local Exemption Board of Randall County, left Tuesday evening for Ft. Worth where he attended a meeting of federal authorities and members of all Local Boards yesterday.

The meeting was called in order to bring directly to the attention of the various Local Boards the new rulings regarding deferred classifications which has been attracting the attention of the country so much lately.

The time for Huns is guns.—Boston Globe.

EIGHTEEN MEN FROM HERE LEAVE TUESDAY FOR CAMP

Eighteen men left Tuesday for Camp Travis, San Antonio. Two men had been entrained from other points to make Randall county's quota of 20 men for this call.

John W. Bates, in charge, Lyle Holland, William Gibson, George Guest, John Sam Collier, William Sam Tracy, Frank A. Etier, Willie Albert Floyd, Alois Erdman, Wm Clyde Baird, W. E. Richardson, Ernest Waymand, Louis Lair, James Clyde Wallace, Fred Kunze, Geo. Leslie Swink, William S. Gatewood.

New Teacher in the Normal.

Miss Frieda Michel of Peoria, Ill., arrived Monday to take the position as assistant in the Expression Department of the Normal. Miss Michel and Miss Brown studied together in Emerson.

Miss Michel is a splendid instructor and will add greatly to the efficiency of this popular department of the Normal.

Business Men Organize W. S. S.

A War Savings Society was organized Thursday evening at the News office of the business men of the west side of the square. Thirty eight men were enrolled.

C. Eakman was elected chairman of this society and A. N. Henson secretary. The next meeting will be on July 4th.

Alien Women Not Registered.

Owing to the fact that no blanks were received in Canyon for the use of the postmaster in registering the alien German women, this had to be postponed. The shortage was reported and the necessary blanks are expected soon.

Band Will Play Friday.

The Normal Band will play Friday at the War Savings program.

JULY FOURTH PROGRAM TO BE GIVEN AT THE NORMAL

The following will be the program on the morning of July Fourth at 10:30 at the Normal auditorium:

Music. Reading of the Declaration of Independence—Mr. Morelock. Music. A New Declaration of Independence—Miss Brown. Music. An Allied Independence and an International Millennium—Mr. Marquis. Music.

Two Men Go July 4th.

Two men have been called to go in training for the army on July 4th. The Local Board has not yet selected the men.

Another call has been made for July 22. Judging from the number taken on the past calls, Randall county will have to supply nearly 20 men on the July 22 call.

Rev. Fronabarger stated yesterday that if 20 men are taken July 22, this will almost exhaust Class 1, with the exception of the young men who registered June 5 and have not yet been classified.

Honor Guard Re-Organize.

A meeting was held last week of the girls of the Honor Guard and the following officers were elected:

Miss Frankie Gober—President. Miss Louise Wimberry—Sec'y-Treas. At present the young ladies are devoting all of their time to the sale of War Savings Stamps and have been very successful in their efforts.

Sending Out Questionnaires

The Local Exemption Board is now sending out Questionnaires to the 32 men who registered June 5, having become 21 years of age during the past year. Five questionnaires are being sent out each day.

Come to Canyon to Live.

About, Face

Have you thought War Savings Stamps beneath your dignity—that W. S. S. were only for children? Have you thought War Savings Stamps were only for those who could invest in 25 cent units as steps to W. S. S.?

Friday, June 28th National War Savings Day

An exact quota, according to population, has been set. It is \$20 average for each American man, woman and child—means the limit, \$1000 each, for those who can, to average those who cannot.

Right About Face

Subscribe for your full quota of W. S. S. Sign your pledge on or before Friday, June 28th.

We have your Liberty Loan Bond of the Third Issue. Subscribers are asked to call and receive their bonds.

The First State Canyon Bank Texas

State Guaranty Fund Bank A GOOD COMBINATION Member Federal Reserve System

(THE ONLY GUARANTY FUND BANK IN RANDALL COUNTY)

Tax Collector Worth A. Jennings States that he is in readiness for the women of Randall county to call at his office and register.

The News prints in this issue a copy of the blank that the women will be asked to fill out at the Collector's office.

All of the women of the Park voting precinct are planning to come to Canyon on the same day to register.

Indications are that a large percent of the women of Randall county will register and vote in the July 27th primaries.

The ballot has been given the women from a patriotic standpoint and they should not fail to exercise their right to assist in the election of good, clean men to the public offices of Texas.

CANYON CHAUTAUVUA BEGINS JULY 21ST

The first meeting of the Chautauqua Committee was held at the News office Tuesday night at which the organization for the year was perfected.

Nearly twenty five of the forty quarantors were present at the meeting and expressed themselves highly pleased at the great patriotic program which will be brought to Canyon this year during the Chautauqua.

The following officers were elected: D. A. Park—Chairman. C. D. Lester—Vice Chairman. C. H. Jarrett—Sec'y-Treas.

Together with the officers, C. L. Condry and R. H. Wright will constitute the executive committee to which all matters will be referred during the Chautauqua Campaign.

A ticket selling committee will be named by the executive committee at once. C. R. Burrow was elected chairman of the advertising committee.

S. B. McClure will be chairman of the grounds and general arrangement committee.

The price of the season ticket this year is the same as last year—\$2.00 for adults and \$1.00 for children.

The program this year will be better than last year. The first day is on Sunday, and the programs at that time will be in keeping with the spirit of the day.

Another great lecturer on the program is Dr. C. W. Wassam. He was a professor in the State University of Iowa when the News man was in the school and we will say without fear of contradiction that Wassam will give the people of Canyon a lecture that they will count worth the price of the entire program.

Each and every program will be highly patriotic in nature, and will be in keeping with the spirit of the times.

Chapel Programs

The following will be special chapel programs at the Normal: Tuesdays—War Programs. Saturdays—Music. June 26, 27, 28—Food Conservation—Miss Rambo. July 3 and 5—Mr. Morelock. July 4—Patriotic program, 10:00 A. M. July 10, 11, 12—Sanitation, Communicable Diseases—Mr. Marquis. July 17, 18, 19—South America Relations—Mr. Hill. July 24, 25, 26—Teachers and The War—Dr. Garth. July 31, Aug. 1, 2—Common Schools and Red Cross Work—Miss Bell. Aug. 7, 8, 9—Special facilities for the study of Geology offered by our Canyon School—Dr. Buckholz. August 14, 15, 16—Mary's Lamb—Mr. Sisk.

Baptist Church.

10:00 a. m. Sunday School. 11:00 a. m. Preaching. Subject "Through the world with your hand in God's." 2:30 p. m. Sunbeams. 7:45 B. Y. P. U. 8:45 p. m. Preaching. Subject "Through the world with your hand in Satan's." B. F. FRONABARGER, Pastor.

Leaves Saturday for Y. M. C. A. Work

C. W. Warwick will leave Saturday on the noon train for New York to enter the Y. M. C. A. work.

Accompanied by Mrs. Warwick he will visit for a few days with his parents at Montezuma, Iowa.

From Red Cross Workroom.

Mrs. R. A. Terril, chairman of garment making, calls the attention of the Red Cross workers, especially to the making of the "Helpless Case Shirt."

The making of this garment is difficult until the details are understood, hence it is deemed very necessary that the workers make one of these in the workroom before attempting them at home. There will be a worker in the room every day next week who has mastered the details and who will be glad to assist any one desiring to make these garments.

This Case Shirt is the only bed shirt called for at present, and they are needed in large quantities. We need more workers at the room. Many things must be worked out there before the work can be taken out.

The officers have also asked that more of the work be done in the workroom, as such a large number of the women have been taking all of their work home during the past few weeks.

Men Leave for Austin.

Wesley Kleinschmidt and Wilson Campbell left yesterday morning for Austin where they will enter the army getting special auto instruction at the state university for some time.

Left for Navy.

O'Neil Carleton, Hudson Prichard, Henry Prichard and Bartow Johnson left Monday for Dallas where they enter the navy.

Jack Ricks went to Wellington, Kansas, Friday to see about locating his threshing outfit.

LISTEN

Any normal, married man should have a home where he and his family may reside as worthy citizens of our government. In times of misfortune it is a refuge and always a place of safety.

Another 40-Pound Holstein.
No sooner is it recorded that there are now thirty purebred Holstein cows that have each produced more than forty pounds of butter in a week than another Black-and-White beauty rises to the occasion and upsets our figures by producing a like amount. Leafy Veeman De Kol is the thirty-first 40-lb. purebred Holstein.
Leafy Veeman De Kol finished her test with a record to her credit of 589.7 lbs. of milk yielding 40.10 lbs. of butter produced in seven consecutive days.
Leafy Veeman De Kol hails from New York. Her sire is Duke Wayne Veeman De Kol. Her dam is Leafy Dawn De Kol. She was bred by Byron Barstow, Earlville, New York, and is now owned by Abbott and Clark, Cortland, New York.
At the time of her freshening she was 7 years, 10 months and 29 days of age.

A Half-Wit Mistreated.
A crowd of men and boys of Clayton, N. M., recently went to the home of "Irish" Ellis, said to be a half-wit, and after smashing the windows and breaking in the door, dragged him from bed, put a halter around his neck and made him walk to town barefooted. Several shots were fired and in the melee, the victim received a severe scalp wound, before the police broke up the "party".
The trouble originated over Ellis' appearing on the streets in a pair of white trousers and a blue shirt which,

with his red hair, gave rise to considerable hilarity and jests on the part of many of the men and boys. The man finally turned on his tormentors and told them to take their "damned red, white and blue and go to hell", whereupon, a great cry of pro-German was raised by the crowd who followed him to his home and were only prevented from further mistreating him by the timely arrival of the deputy sheriffs.

Comparative Sugar Prices.

During the first year of the war, the United States consumed more than four million tons of sugar. The wholesale price of refined sugar in this country at the present time is \$7.30 per hundred pounds, as compared with \$9.15 last August. The regulated wholesale price of sugar in various foreign countries makes an interesting comparison:
United Kingdom \$12.59 cwt.
France 12.28 cwt.
Italy 26.30 cwt.
Canada 8.07 cwt.
United States 7.30 cwt.
An increase of one cent per pound in the price of sugar in the United States would take at least \$82,185,820 out of the pockets of American consumers in one year.

If you eat contrary to the Food Administration's request, the Kaiser's representative and not your boy may fill the vacant chair at your table.

Every producing farm is a dynamo of victory.

Hello Girl Hears Much.
The Kaiser called the Devil up
On the telephone one day.
The girl at Central listened to
All they had to say.
"Hello," she heard the kaiser's voice
"Is old man Satan home?
Just tell him this is Kaiser Bill
That wants him on the phone."
The devil said "Hello" to Bill,
And Bill said, How are you?
I'm running here a hell on earth,
So tell me what to do.
The Kaiser said, "Now listen,"
And I will try to tell
The way that I am running
On earth a modern hell.
I've saved for this for many years,
And I've started out to kill,
That it will be a modern job,
You leave to Kaiser Bill.
My army went through Belgium.
Shooting women and children down;
We tore up all her country,
And blew up all her towns.
My Zeps dropped bombs on cities,
Killing both old and young,
And those the Zeppelins didn't get,
We've taken out and hung.
I started out for Paris.
With the aid of poisonous gas,
The Belgians, darn 'em, stopped us,
And would not let us pass.
My submarines are devils,
Why, you should see them fight,
They go sneaking through the sea
And sink a ship at night.
I was running things to suit me,
Till a year or so ago,
When a man called Woodrow Wilson
Wrote me to go more slow.
He said to me, Dear William,
We don't want to make you sore,
So be sure to tell your U-boats
To sink our ships no more.
We have told you for the last time,
So Bill, it's up to you,
And if you do not stop it,
You have got to fight us, too.
I did not listen to him,
And he's coming after me.
With a million Yankee soldiers
From their homes across the sea.
Now that's why I called you, Satan,
For I want advice from you,
I knew that you would tell me
Just what I ought to do.
My dear old Kaiser Wilhelm
There's not much for me to tell,
For the Yanks will make it hotter
Than I can for you in hell.
I've been a mean old devil,
But not half as mean as you,
And the minute I get you here,
I will give my job to you.
I'll be ready for your coming,
And I'll keep the fires all bright,
And I'll have your room all ready,
When the Yanks begin to fight.
For the boys in blue will get you,
I have nothing more to tell,
Hang up the 'phone and get your hat,
And meet me here in hell.

Drives Out Malaria, Builds Up System
The Old Standard general strengthening tonic, GROVE'S TASTELESS CHILL TONIC, drives out Malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 60c.

What American Red Cross Is Doing.
The Red Cross has organized fifty base hospital units, nineteen of which are now seeing service in France. In ten o'gers, the nursing personal has been supplied by the Red Cross.
The Red Cross has instituted a rolling canteen service back of the American lines. The canteen provides coffee, sandwiches and other refreshments to the troops.
The Red Cross has opened a scientific campaign against trench fever.
The Red Cross has undertaken to provide the entire supply of splints for the American Army.
The Red Cross will furnish the entire supply of nitro-oxide for use in surgical operations.
The Red Cross feeds and clothes entire populations in time of need.
The Red Cross is caring for 50,000 children in France, 60,000 in Poland.
The Red Cross has established movable factories for the manufacture of artificial ice for our soldiers during the summer months.
The Red Cross is prepared to care for any American soldier who may return from the war a prey to tuberculosis or maimed or blind.
The Red Cross will send food parcels to American prisoners in Germany. Each parcel contains meat, butter, sugar, jam, coffee, tea, salt, rice and dried fruit.
The Red Cross is the link between the American people and the American Drednaughts. It is the official

agency through which gifts from the people can be made to the Navy.
The Red Cross is enlisting more than one thousand volunteer nurses a month, and is training them for work in the field. It seeds them to the army fully trained and equipped.
The Red Cross has furnished five base hospital units for the navy—Physicians, Nurses and Equipment.
The Red Cross will help the families of our enlisted men to maintain their standards of health, education and industry.
The Red Cross will supply warm garments, kit cases, necessities for the wounded.
The Red Cross will provide Sanitary Units to keep a sharp eye on the surroundings of the Cantonments so as to ward off possible epidemics.
The Red Cross will supply our men when they are prisoners of war with food, soap and cigarettes.
The Red Cross is building houses in the Cantonments where "rookies" will be provided with comforts and pleasure during convalescence from illness.
The Red Cross is constructing a chain of recreation huts in conjunction with the base hospitals. To each hospital it sends each month 300 books, 400 magazines and 2500 newspapers.
The American Red Cross in more than a hundred ways is rendering service here and abroad that saves human lives and maintains the fighting spirit of our allies. The Red Cross must always be financially prepared to deal with the unexpected emergencies arising from war conditions. In these emergencies immediate relief is the only effective relief.
Whenever You Need a General Tonic Take Grove's.
The Old Standard Grove's Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 60c.

THE TREND OF THE TIMES.
We can take steps to alleviate conditions, but we will never do away with the high cost of living. The war is only an incident to the natural trend of things. The upward movement in prices began back in 1898 when the Spanish war broke out, while the change in world affairs began a century ago. The prices of necessities have been climbing ever since, largely due to the astonishing in-

crease in the world population and to the shifting of the rural folk. We must all agree with the Malthusian theory that the population is increasing more rapidly than the production of food. A century ago the population of the earth was 600 million. Today it is upward of 1,800 million exclusive of the war devastation.
Thus it will be seen that the world population has trebled in 100 years, but the production of foodstuffs has not kept pace with it. In the United States movement from country to city has had the effect of raising the cost of practically every commodity and the trusts were quick to set the pace and stick us up at every turn of the wheel. Notice what we have been doing since 1800. Then there were only six cities of 8,000 population in America. Now there are 600. In 1800 there were nineteen people living in the country to every one living in the city. Today it is 50-50. In other words, more than nine of our nineteen country people have moved to town. In the early days the nineteen rural folks were engaged in the production of food, clothing and shelter. They produced everything they needed and everybody enjoyed a high general standard of living. Today the producers of the primary necessities have been reduced and we are feeling the result.
We note two developments in this country as a result of the war which are absolutely and diametrically opposite. The sale of Liberty Bonds and the sale of War savings stamps have brought about thrift in a great many centers. On the other hand greater extravagance has developed among certain classes than ever before. The extremely high wages paid in the factories, on the ranches and by the railways has led to this extravagance. Since the early days of the European war until the present time there has been a steady increase in wages, a greater employment of all kinds of labor, and boys and girls, members of a family who would not ordinarily earn very much, are now receiving good salaries, oftentimes in government work.
The expenditures for so-called fineries and luxuries have increased by leaps and bounds. This is not only true of the United States but also in England. The country will have lost a great opportunity if some means of checking extravagance is not found and a greater effort made to inculcate thrift and render it a duty. The

war will not last indefinitely and at its conclusion there must be a readjustment in industry and trade and business. There is bound to be a decrease in wages and salaries and profits and, consequently, a compulsory contraction. Habits of thrift formed now will make the period of contraction easy.—Field and Farm.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD
Delicious "Fruit Laxative" can't harm tender little Stomach, Liver, and Bowels.
Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad, has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

PATRIOTISM THE KEY NOTE OF THE WEEK

Canyon Chautauqua

JULY 21-22-23-24-25

On June 28th Prove You Are A Loyal American

Will you greet the Fourth of July with a free conscience? Or will you spend the Fourth in shame-faced guilt? June 28th has been set as National War Savings Day. Your country expects you on that day to pledge every penny you can, up to \$1,000, toward the purchase of War Savings Stamps.

The price of American citizenship is no longer cheap. A new hour has struck. The crash of war has ground all semblance of cheapness out of being an American. It is now a dear-bought honor. You must pay.

On June 28th, Your Country Asks You to Balance Your Patriotic Cash Account

Every penny you withhold, that you are able to give, extends aid and comfort to the enemy. No sordid legal summons will, for the present compel payment. You are called to payment by the higher, more chivalric summons to volunteer on June 28th your pledge to purchase this year every dollar's worth of War Savings Stamps you can buy.

HOLLAND DRUG COMPANY

Cattle Loans.
At no time in the history of the producing end of the cattle industry has credit been more important than now. As in most lines where money is borrowed, the moral risk is the starting point and is the most valuable asset of the borrower, and the strongest security of the lender. That has perhaps led to a carelessness on the part of both which is apt to be a serious disadvantage to each of them in times when there are unusual demands for money or when grass and water conditions are bad, and when these conditions exist at the same time the borrower more than the lender should protect his credit by careful study and attention to every detail and technically of the chattel

mortgage laws. This is particularly true of the handler of breeding cattle, which cannot always be liquidated without loss when the loan is called at maturity. On the other hand the cattle loans have been coming into greater favor all the time on account of the added security from the increase, and there is generally a disposition to renew where the sale of increase is normal and takes care of running expenses and accumulation. Loans to members of the Cattle Raisers Association of Texas have been very highly regarded on account of the additional protection of inspectors' reports. Losses on loans to members have been really nominal. In order that members may be thoroughly posted, the essence of the chattel

mortgage laws, prepared by our attorneys, is given below and every member is urged to study it:

"The mortgage should contain accurate description of indebtedness secured by it.

"The property on which mortgage is given should be carefully and accurately described, and in case of live stock, unless all cattle in brands given are included, the different brands should be accurately described and the number of head and class in each brand stated.

"The county in which the cattle are situated should be plainly and correctly stated, together with name and location of pastures in which they are located.

"If cattle are removed from the county in which situated when mortgage is given permission of the party loaning money should be first secured or notice given as to the intended removal and consent secured. Removal of mortgaged property out of the county where situated when mortgage is given without consent of the mortgagee (one to whom debt is due) matures the debt.

"Sale of mortgaged property or removal of same out of the State with intent to defraud in a felony punishable by imprisonment in the penitentiary.

"A mortgage should be forthwith filed for registration or it is void as to any creditor having a valid lien whether such creditor has notice of it or not. Mortgage unregistered is void as to purchaser in good faith of the property unless such purchaser has actual notice of it.

"One taking mortgage on live stock should thoroughly inspect and tally same to make sure that the number mortgaged is owned by mortgagor and that brands are the same as those described in mortgage.

"When one holding mortgage permits removal of the property from county where situated or is notified of such removal, mortgage must be registered in the county to which removed, if known, within four months from time of removal.

"The law of Oklahoma with reference to chattel mortgages is very similar to that of Texas, while the laws of New Mexico and of Arizona differ in many important respects and to attempt to give all the different laws of the various States mentioned would, to be of any benefit, consume entirely too much space. So residents of these States should thoroughly acquaint themselves with the statutes governing the matters mentioned."

That looseness occurs on the part of both borrower and lender, has come to the notice of the Cattle Raisers Association office recently. Lenders have not made the proper inspection and check. Every borrower should build stronger than ever for a lasting credit and every member of our Association should make it a duty to help preserve the good reputation of cattle paper. We all need credit at times, and now it is vitally necessary to the rebuilding of our depleted herds, and that

the Nation may have an adequate and permanent supply of beef.—James Callan, in the Cattleman.

Freight Makes No Increase.

A general suspicion lurks in the minds of the public that the order by the Director General of Railroads that all freight rates would be increased approximately 25 per cent, means a great increase in the price of food stuffs. R. C. McElree, Director of Transportation for the Federal Food Administration for Texas says that such a view is groundless, that the effect of the increased freight rates upon food shipments is no casual as to make for little or any change and he warns the public that if they accept such an explanation from food distributors as a cause for adding on to the normal cost of foods, they have only themselves to blame for being hoodwinked.

"The freight rates effective July 25th represent such a very infinitesimal part of the price of foods that the consumer is required to pay, that they are almost negligible. It is safe to say that as a general proposition the increase in the cost of transportation on food articles, as a result of the Government's action, will not exceed on an average of one mill per pound.

"There is no doubt but that the consuming public must pay these increased freight charges, and if that is all they are called upon for, they will barely feel the effect at all.

"However, in the past a slight increase in the freight charges particularly if a good deal of publicity has been given to it, is the excuse offered for substantial increases in prices, and unless checked at the start, this may be done in the present instance just as heretofore.

"The purchasing public should not accept the claim which will be made that the prices have advanced on account of the increase in freight rates because, as shown below, it is so slight and inconsequential that it should make but the slightest, if any difference in the retail value.

"Dealing with the principal food staples, and using a Texas common point as a destination, the actual increase in the transportation charges on such articles as a result of the increased freight rates ordered effect by the Director General, are as follows:

SUGAR, Calroads: The increase in the rate on sugar from New Orleans is 11 cents per 100 pounds. This equals 1.1 mills per pound. On 9:9 pounds of sugar of freight charges are increased 1 cent.

BREAD: The increase in the rate on flour, carloads, is 6 cents per 100 pounds. Assuming that it requires one pound of flour to make one pound of bread which it does not, the increased transportation charges on flour necessary to make a loaf is .6 of a mill.

To Cure a Cold in One Day.

Take LAXATIVE BROMO Quinine. It stops the Cough and Headache and works off the Cold. Druggists refund money if it fails to cure. E. W. GROVE'S signature on each box. 30c.

Hay To Be Sold By Weight.

Lack of uniformity in the weights of bales will henceforth disappear with the new ruling of the United States Food Administration, and disputes over shipments of hay will be less frequent because of the common sense and simplicity of the plea. The program as prepared by Sam H. Dixon for Texas and sanctioned by Administrators Hoover and Peden is as follows:

"The minimum weight of bales of the following hays shall be 75 pounds per bale: Prairie Hay, Meadow Grass Hay, Timothy Hay, Rhodes Grass Hay, Sudan Grass Hay, Rice Straw Hay and Oat Straw Hay.

"The minimum weight of the following hays shall be 80 pounds per bale: Alfalfa Hay, Sorghum Hay, Peanut Hay, Peavine Hay, and corn shucks.

"In selling hay wholesale, it should be sold by the ton. In selling hay retail, it should be sold by weight and not by the bale, regardless of the weight of the bale.

"All hay should be baled with three wires to prevent bulging and breakage of the hay in handling. Especially should this be done where the added weight of the bale over the customary weights amounts to 25 per centum of increase.

"A rigid compliance with these rules will greatly reduce the number of cars necessary for the transportation of hays. This ruling becomes effective June 10th."

Moderate shipments of wheat and flour are being made from Australia to the Pacific coast of the United States.

She also serves who stoops and weeds.

Swift & Company, U.S.A.

Many Are Lending Their Lives-- What Are YOU LENDING?

Thousands of our boys are going into the trenches today—clean-faced, determined, splendid young men. Many are soon to join the army of the lame, the blind or the dead.

You can at least go down in your pocket for them.

Think it over—be ready on

JUNE 28th

NATIONAL WAR SAVINGS DAY

There's an army. Yes, a dozen armies—of stalwart, windbronzed young men standing between you and the grizzly Hun. These young fellows are giving their ease, their comfort, their friends and homes, their bodies, the hope of life—giving for you—for you. You can at least loan your dollars for them.

The Randall County News

Incorporated under the laws of Texas

C. W. Warwick, Managing Editor

Entered at postoffice at Canyon, Texas, as second class matter. Office of publication, West Houston St.

SUBSCRIPTION, \$1.50 PER YEAR

PUBLISHERS' NOTICE

With this edition of the Randall County News, C. W. Warwick leaves the management of the paper to go into war work. He continues to hold his stock in the paper and will return after the war.

The publishers wish to announce the following changes in the personnel of the staff. Oscar Hunt will become business manager of the paper. He is well known to the business men of Canyon and this Panhandle territory and will look after the business interests of the paper to the entire satisfaction of the public.

Chas. S. Lofton will become local editor of the News. Mr. Lofton has been connected with this paper, doing local work during nearly two years time and is a highly qualified young man for the position. Any courtesy shown him in his work of getting out a clean, live, newsy paper will be highly appreciated by the publishers of the News.

The News can promise that the same high standard which has been set during the past will be maintained by the new men on the paper.

The News man has been asked so many times during the past week when we thought the war was over. Frankly we know a little less about it than anyone else. There are men who can tell you the exact time. The war will be over then the Kaiser is beaten and badly beaten, but we fear that will be a long while off—two years at the least. Personally, we cannot put much confidence in those stories about hungar and hungar strikes in Germany. If Germany was as well prepared for war as the world now believes, she has not yet touched her big food supplies. Production has gone on while the neighboring countries were devastated. It is now stated that Germany has failed to report to the world during the past twenty-five years a large percent of her male births, which being the case, she may have food supplies and men enough to carry on the war for a number of years. But the allies are in the war to stay to the end and to a victorious end. Whether that end is one, two, three, or ten years makes only a matter of difference in time. Forget about the time it may take and do all you can to make the time as short as possible.

Just keep in mind when you go to

Self Defense
DEFEAT BACKACHE AND KIDNEY TROUBLE WITH ANURIC.

Many people in Texas, as elsewhere, have suffered from rheumatism and kidney trouble and have found Anuric to be the most successful remedy to overcome these painful and dangerous ailments.

The lucky persons are those who have suffered, but who are now well because they heeded Nature's warning signal in time to correct their trouble with that wonderful new discovery of Dr. Pierce's, called "Anuric." You should promptly heed these warnings, some of which are dizzy spells, backache, irregularity of the urine or the painful twinges of rheumatism, sciatica or lumbago. To delay may make possible the dangerous forms of kidney disease, such as stone in the bladder. To overcome these distressing conditions take plenty of exercise in the open air, avoid a heavy meat diet, drink freely of water and at each meal take Anuric Tablets (double strength). You will, in a short time, find that you are one of the firm indorsers of "An-uric." All druggists sell Anuric for 50c; send Dr. Y. M. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., 10c. for trial package.

JACKSBORO, TEXAS.—"I am more than well pleased with the Anuric Tablets. I was disturbed five to eight times at night and sometimes more, was so well pleased with the first apply of Anuric that I went to town and bought two bottles. It is the only thing that ever gave me any relief for my kidneys and I want the world of offerers to know it. I think Anuric is the best medicine on the market today."—A. J. MILLER.

Dr. Pierce's Pellets regulate and invigorate stomach, liver and bowels. Put up in 5-cent vials and sold by all druggists. They are tiny, sugar-coated. Contain day-apple, jalap—harmless but efficient.

the polls July 27th that Marvin Jones has supported and voted for every measure that Woodrow Wilson has proposed. Three prominent men in congress, working with him say he is patriotic, dependable and supporting the administration to the limit. If you want to trade him for a politician who has staddled the populist and then the anti-prohibition fence, then vote for Crudginton. Jones has sent to the trash pile one old moss-backed, non-progressive politician. On July 27th he is going to put his twin brother in the same can. The Panhandle fought too long for freedom and a real man in congress to surrender just when the country expects and demands the best of us.

Can it possibly be that intelligent men, knowing the way the war is conducted, men with means, will refuse to support the government by buying War Savings Stamps? It is reported that some citizens of Randall county have refused. It is said they they are men with a little money—they are not poverty stricken, which is the only excuse for not buying. Can it be that these men have not read of the treatment of the Belgium and French women and children at the hands of the German soldiers? Would they hold on to their money if their wives and children were along that battlefield and were in peril of the German soldiers? Do they realize that those same German soldiers are not more than ten days' travel away if they should smash the English and French lines before America can get a sufficient number of men on the front? God pity the dwarfed soul of the man who is not in this war with his money. Hell will be a summer resort for him compared to this country when his true nature becomes known and our people treat such men as they should be treated. The slacker who would by foul means escape his duty for service under the flag is an arch angel compared with the man who keeps his dollars and refuses to help the government or any of its agencies.

President Wilson has been embarrassed by politicians urging a third term for him. The President is opposed to politics at this time. The business of winning the war is the main issue just now and 1920 will take care of itself. Woodrow Wilson may or may not be the standard bearer in 1920, depending altogether upon the war situation at that time. As a rule the American people would bitterly oppose a third term. If the war is going on in 1920, Wilson will not doubt be re-elected should he maintain the high statesmanship methods of handling the war as he has so far. But if the war is over by that time Wilson will hardly be a candidate. Third term talk at this time is very inopportune and almost un-American.

The "Crudginton Committee" is continually lambasting Jones because he is a bachelor and has no boys to go into the army. In order words, J. W. Crudginton is running for congress upon the patriotism of his three sons in the army. We admire and highly praise the boys for their service for their country, but patriotism is mighty cheap in the mind of the man who continually flashes it before the eyes of the people in order to gratify his ambitions to wreck the life of another man who is doing all in his power to win the war.

The United States government is going to get back some of the millions Busch has stolen from the American people. But would to God, America had today the thousands and thousands of men Busch had wrecked and sent to a drunkard's hell.

Talk about the heathen Chinese practices of binding the women's feet. If that practice has anything on the modern French heel in deforming the foot and the whole human body, we would like to see it.

Buy U. S. S. While you are helping the government, you will be also helping yourself.

Are there no solitudes out of the cave and the desert? Or can not the heart in the midst of crowds feel frightfully alone? Loneliness of the heart is the worst solitude. — Charles Lamb.

OUR AIR FIGHTERS
PLAY A FAIR GAME

AVIATOR F. P. MAGOUN RELATES AN INSTANCE OF THEIR REAL SPORTSMANSHIP.

ONE FLYER'S LUCKY ESCAPE

American Infantryman Has Advantage Over the German in His Ammunition Equipment—Finger Prints of German Alien Females to Be Taken.

(From Committee on Public Information.) Washington.—A committee on public information representative in London says:

There are no better sportsmen in the world than the allied airmen, and American aviators now fighting in Europe always play a fair game, as they learn it from the allies. F. P. Magoun, a former Harvard student, now a member of the Royal air force, recently wounded, tells how the lives of German observers escaping from balloons have been spared. "We caught three Hun balloons above the allied grounds in a mist, which prevented their gunners seeing us," said he. "It was a cinch. You should have seen them hustle out their parachutes and abandon the balloons. As they came falling down through the air we circled about closely but, of course, didn't open fire, as that's against the rules of the game. As soon as they touched ground they took cover like rabbits."

Magoun is the only American in his squadron, having joined in February of last year. He has bagged five German planes. While carrying bombs for low attack in the recent offensive he received a bullet through his left arm, but managed to return to his own lines. Magoun tells of a companion in his squadron who had one of the luckiest escapes during the war. He was put out of action 1,000 feet in the air when a bullet perforated his gasoline tank. He was rendered unconscious by the fumes and his machine took a nose dive to earth, but he escaped without a scratch.

A section of the Royal air force operating in the Tyres salient has lost its only American member, who had been with the squadron only ten days when he went on a bombing raid at low elevation. He was hit by a machine-gun bullet and his plane fell in flames. He was taken prisoner. The efforts of newspapers to promote good feeling between the people of England and the thousands of Americans received official backing when Sir Randolph Baker, member of parliament, offered to take charge of the American troops welfare department of the British government. His plans contemplate a continuous program of healthful recreation in every American rest camp and training camp in England. Special London theatrical companies will be sent out. An organization known as "Sammy's Blighty league" is being formed.

The American infantryman in the expeditionary forces carries 200 rounds of ammunition in the pockets of his light canvas web belt and his bandoleers. The German soldier has only 120 rounds, and 30 of these are in his knapsack. To secure them at a critical moment he must lose valuable time.

The American web belts, according to the war department, are far superior to the German leather bandoleers. They are not affected by prolonged rains nor torrid weather. The manufacture of these belts is one of the most intricate of the operations in the textile field. United States army belts are made almost entirely of cotton.

The exact weight of the 220 rounds carried by the American soldier in France is 12 pounds. With the Springfield rifle 23 aimed shots can be fired each minute. Firing from the hip 40 shots can be fired a minute. The new United States model 1917 (modified Enfield) does even better.

The registration of German alien females, to begin Monday, June 17, and end Wednesday, June 26, will be conducted in cities or municipalities having 5,000 population or over by the police officials. In communities having a population of less than 5,000 the registration will be handled by post-masters.

In general the plan of registration is the same as that followed in the registration in February of German alien males. Each person who must register will be required to register her finger prints. This method of identification is also used in the military and naval services of the United States.

Boy scout organizations are active in locating black walnut trees. Black walnut lumber is needed by the war department for use in making airplane propellers and gunstocks.

Enough heavy Browning machine guns for instruction purposes have been shipped to every National Guard training camp and National army cantonment in the country where troops are in training. Heavy Brownings for overseas training have been shipped.

Light Browning rifles, sufficient in number to equip the machine-gun units of more than four army divisions have been manufactured, and overseas shipment of one half has begun. The other half of the output goes to army divisions in this country.

At every training camp in the country plans of the commission on training camp activities have been carried out to provide athletic facilities for the men. Baseball heads the list in popularity, and full equipment has been placed in the camps. More than 70,000 baseballs and 3,000 bats have been sent. At Camp Lewis, Washington, there are 18 baseball fields in use. Practically every company in each camp division throughout the country has its team and there are company, battalion, regimental and interregimental leagues.

Every form of track athletics occupies the attention of men training at the camps. As many as 800 men have taken part in divisional contests, and track meets have been witnessed by more than 20,000 spectators.

Where facilities permit, instruction in swimming is given. Men are first given land instruction and then sent into the water. Tennis courts have been built in every camp, one having 40 courts, and the sport is rapidly gaining in popularity. Through the generosity of golf clubs located near the camps, the demand for golf courses is partly being met. Polo matches are frequently held, and competition for places on the teams is keen.

There is a list of 137 occupations where the demand for men in the war department constantly exceeds the supply.

A pressing need exists in the army for men experienced in handling mules, and before all future needs are met a recruiting campaign may become necessary. No difficulty has been experienced in getting men who can buy and handle horses, but blacksmiths are scarce.

There is a constant demand for butchers, and cooks are greatly needed. In several technical branches, particularly the engineers, men for the higher positions are plentiful, but the workers for the ranks are scarce. Experienced mechanics, especially those familiar with automobiles, are always in demand.

More interpreters than can be used have applied for positions with the war department, and applications for commissions as army chaplains are also in excess of the need. The excess totals thousands in each case. Clerks for general work are plentiful, but there is demand for specialists. At present there is a surplus of dentists and pharmacists.

Deliveries of the 8,000 motortrucks recently ordered by the motor transport service of the war department are to be made between August 1 and December 1. These trucks, known as "Class B Standards," will have a capacity of from three to five tons, and will be distributed as needed through the various branches of the army. Ten thousand of these class B standardized trucks have previously been ordered and are now in process of manufacture and delivery.

Under a new agreement the army will handle all mail for the expeditionary forces after it leaves United States ports. The post office department will deliver the mail to military authorities at the port of embarkation in this country and receive it from them at a port in France for dispatch to the United States. The domestic money-order service to the troops will for the present at least, continue under the direction of the post office department in France.

The first Porto Rican laborers to reach the United States under government auspices will be at work upon government contracts within a month.

The employment service of the department of labor has already found employment for at least 100,000 of these men as common laborers on construction work at Norfolk, Newport News, Baltimore and vicinity. Arrangements are now being made by the department of labor to provide proper housing for these men.

Women between the ages of twenty-one and thirty-five who have had a high school education or its equivalent will be eligible for admission to the army school of nursing, arrangements for which were recently made by the war department. It is intended to start several schools in selected military hospitals. Unless otherwise specified, applications should be sent directly to the army school of nursing, office of the surgeon general of the army, Washington, D. C.

"Keeping Our Fighters Fit—For War and After," is the title of an official book issued by the commission on training camp activities, describing the athletics, mass singing, social life and other recreations of men in army and navy camps. The book tells of the theaters, the work of the Y. M. C. A., Knights of Columbus and other organizations associated with the commission in welfare work, and gives details of life in the camps.

The two picric acid plants to be built at Little Rock, Ark., and Brunswick, Ga., contracts for which have been completed by the war department, will cost approximately \$7,000,000.

Men of selective service age who leave the United States to evade military duty will have to stand trial on charges of violations of the selective service act when they return to the country, according to the department of justice, even though they do not return until after the war.

The department has at hand information from which complete lists may be prepared of all men who have left the country to avoid service, says a recent statement authorized by the attorney general.

Blood Money.
Corpus Christi Caller: James E. Ferguson says that his promise not to reveal the source of that \$156,000 was written in blood. Nobody doubts it; but whose blood was it written in? And who is the friend whose money is being scattered around without strings or selfish attachments? The questions are the answer.

listed in the Y. M. C. A. and Tuesday received orders to report to New York city July 8 for overseas duty. Mr. Warwick has been editor of the Randall County News for the last eight years and is well and favorably known over the entire Panhandle as one of the foremost members of the Fourth Estate.—Plainview News.

Dallas News—If Mr. Ferguson's promise was written in blood, then the cash he obtained may be called blood money. But whose blood? Was it the blood of the borrower or the lender? Surely it is not the blood of those brave young Texans who are crimsoning the fields of France, in order that democracy, constitutional government, liberty and justice shall not perish in America and Texas.

One hundred thousand men were reported to have landed in France last week. We are now said to have 900,000 men there. Every community of the United States has a large number of men over there. France is much nearer and dearer to the American home than it was one year ago.

War is Our Business: we can't win by carrying it as a side line.

GALOMEL DYNAMITES
A SLUGGISH LIVER

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money. If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

McLean News—The Panhandle will lose, for the present at least, one of her best country newspaper men when C. W. Warwick of the Randall County News, Canyon, goes overseas with the Y. M. C. A. Mr. Warwick has been connected with the Canyon paper for the past eight years, and has built it up till it is one of the leading weeklies of this section. He will report for duty on July 8th, and will be sent across the waters immediately.

C. W. Warwick, editor of the Randall County News of Canyon, has en-

Lend Your Money As Freely As They Are Giving Their Lives

You don't have to fight, you don't have to die. But—
Your sons are, or your brother who is now across the way—or the kid now in khaki to whom you used to give pennies a short time ago. That money you have laid away for a rainy day—wouldn't you give every nickel of it to keep a Hun's knife away from his throat? Well, the Hun is here, and so is his knife—and so is the "rainy day"—it's raining now, raining bombs and shrapnel upon our boys "over there."

JUNE 28th NATIONAL WAR SAVINGS DAY

On that day the nation will call upon you, not just your neighbor—but you—to pledge yourself to the purchase of a certain number of War Savings Stamps during 1918. Lend your money as freely as they are giving their lives. This Government Advertising contributed by:

D. W. O'Dell of Ft. Worth will be in Canyon Saturday night, July 6th and will speak in the interest of Governor Hobby's candidacy.

Visits by the Stork.

A daughter was born to Mr. and Mrs. Jacob Spichinger Sunday.

Wayside Items.

Mr. Sweeney of Tulsa, Lay Leader of Plainview district of M. E. church delivered a most acceptable message Sunday by request of Rev. Zoro Pirtle who is away at Georgetown, Texas on business of the church. His subject was "Tithing", which he handled in an impressive manner.

A daughter was born to Mr. and Mrs. Cyrus Johnson on June 19.

J. M. McGehee, W. I. Lane and W. J. Sluder motored to Channing the early part of the week. "Bolie Mayo took the mail for Mr. Lane while he was away.

A good rain would be acceptable, for which present indications are good.

Two sons of J. T. McGehee had a narrow escape Monday afternoon. Lowe, 15 years of age and J. T., 10 years of age were each running a disc on the farm, the former driving 6 head of horses, took fright and ran away, scaring the latter team of 4 head. Both boys fell from the disc, Lowe being run over and cutting his thigh, knee and heel and breaking his right leg above the ankle. Otherwise bruising him up considerably. J. T. was not seriously hurt but bruised some. A number of the horses and mules were badly cut and the harness torn up. Bad enough, but could have been worse.

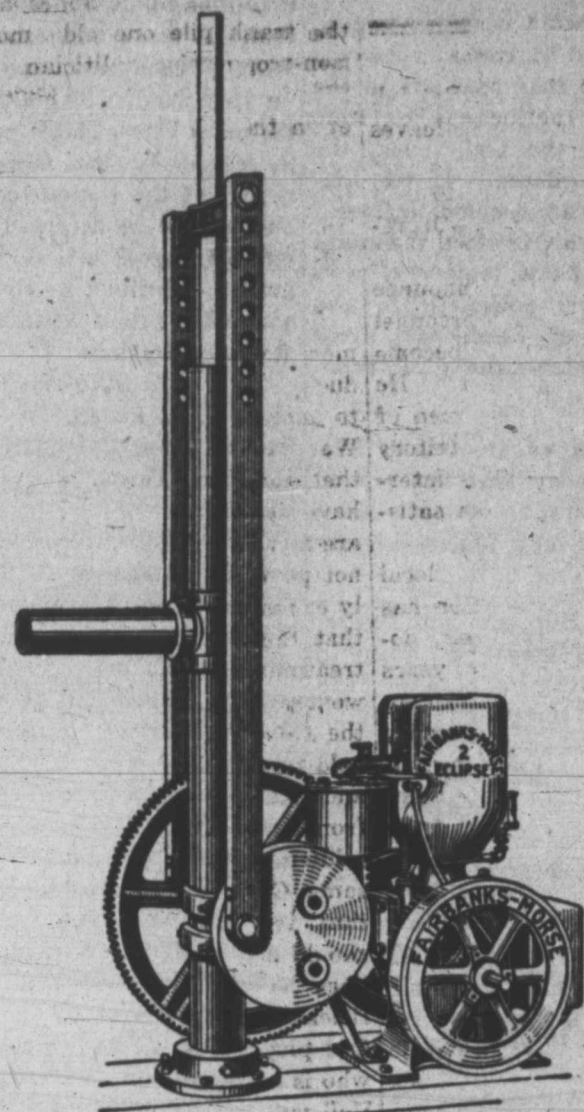

W. D. McGehee is not feeling well this week.

Quite a crowd of the young people of Wayside accompanied M. A. Butler to Claude last Sunday where he was summoned to report for military duty. Marshall Butler was the first to register at Claude and the first to leave direct from Wayside for the training camp. Others have gone but went from other parts. He will be sent to Camp Travis, leaving Claude on Monday.

A good time with the young people Friday night at M. L. McGehee's where they gathered in honor of M. A. Butler and H. R. Stone who are to leave at once for training camp. Refreshments of fruit juice and cake were served.

Wayside felt honored Sunday when Messrs. Marquis, Reid and Shaw of Canyon came and delivered most interesting addresses. Mr. Shaw beg-

Fairbanks-Morse FARM PUMP ENGINE

The Farm Pump Engine is simplest and most compact Gasoline Engine ever constructed.

It is a low price.

It is exceptionally powerful and so well made that if properly used it will run continuously for an average lifetime without trouble, bother or repair of any kind.

It is fully and definitely guaranteed.

It will be used for some disagreeable task every day in the year and will be found one of the greatest time and labor savers ever used by the farmer

An ideal outfit for country and summer homes.

TO AILING WOMEN

A Little Sound Advice Will Help Many a Sufferer in Canyon.

No woman should consider herself healthy and well if the kidneys are weak. Poisons that pass off in the secretions when the kidneys are well, are retained in the body when the kidneys are disordered. If the kidneys and bladder become inflamed and swollen. This is often the cause of bearing-down pains, lameness, back-ache, etc. Uric poisoning is also frequent cause of headaches, dizzy spells, languor, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, a remedy that has proven effective in thousands of such cases. Let a Canyon woman tell of her experience.

Mrs. M. A. Higginbotham, says: "I used Doan's Kidney Pills, procured at the Holland Drug Co. several years ago for kidney complaint and they proved very satisfactory. They cured me of the trouble and I have not been bothered since. Another of the family has also used Doan's Kidney Pills with the same good results."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Higginbotham had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

On Field and Agricultural Seeds
At a meeting of the Field and Agricultural Seed Price Interpreting committee of the Federal Food Administration for Texas in Austin on May 16th, with E. W. Cole, Chairman; Edward L. Dodd, Secretary; B. E. Clement and Sam H. Dixon, president, the following revision and modifications were suggested to Administrator Peden, and approved by him on May 22nd. The changed schedule replaces Price List 1 and Price List 2, issued by the Committee. The report of the committee is as follows and should be accepted by all sellers and all buyers of seed in Texas as a guide. Failure to comply with the suggested prices entails investigation and penalization:

Austin, Texas, May 26.
Hon. E. A. Peden,
Federal Food Administrator of Texas,
Houston, Texas.

Dear Sir:
Your price interpreting Committee met in pursuance to a call of the Chairman in Austin on May 16th to interpret prices on Sacharine sorghum seed, we recommend the temporary suspension of former action fixing prices at which Sacharine sorghum seed were to be sold by the wholesaler and retailer. This appeared necessary because information was available that while the wholesalers had reduced their prices, many retailers were not meeting the reduction of the wholesaler in selling in retail lots, but were selling at the prices permitted by our previous interpreting schedules, thus keeping up the prices to the retail purchasers all out of proportion to the prices paid by the retailer to wholesaler and jobber.

Your Committee therefore makes the following recommendations:
That prices of Sacharine sorghum seed fixed by your price interpreting committee be suspended for the present and that Sacharine sorghum seed be sold by the retailers and jobbers on the following profit-for-handling basis:

Jobbers selling in job lots of one hundred pounds and over, fifteen per cent gross above prices paid the wholesaler.

Retailers selling in lots of less than one hundred pounds, thirty per cent gross over prices paid the jobber or wholesaler.

That there be allowed only one profit to the jobber.
Your Committee believes that with the large supply of Sacharine sorghum seeds in the hands of the whole salers, there is little likelihood of an abnormal advance in prices this season. The present prices at which they are quoted by the wholesalers will probably not show much fluctuation during the balance of the season.

The general prices on Sacharine sorghum seeds as quoted by the wholesalers are about as follows:

Red Top 6 1-2 to 7 1-2 cents per pound.
Orange 5 1-2 to 6 1-2 cents per pound.
Amber 5 to 6 cents per pound.
The prices on grain sorghums as recommended by your price interpreting committee, March 27th, remain the same. They are as follows:

	Whole sacked	Retail and delivered
Feterita recleaned	7.05	8.00
Maize recleaned	\$ 4.40	\$ 5.00
Kafir recleaned	4.40	5.00
Sudan grass recleaned	24.90	28.00

Respectfully submitted,
(Signed) E. W. COLE, Chairman,
EDWARD DODD, Sec'y.
B. E. CLEMENT
SAM H. DIXON
F. I. TOWNSEND
Committee.

Approved—E. A. PEDEN, Federal Food Administrator for Texas.

To the Women of Randall County.
The attorney general has reversed his opinion previously rendered, now advising all women who desire to vote to get a registration certificate.

Certificates will be ready June 27. July 12 is the last day women may register and vote in the July 27th primaries.

Women must register at the office of the Tax Collector.

Life Wisdom.
Why should we ever go abroad, even across the way, to ask a neighbor's advice? There is a nearer neighbor within, who incessantly is telling us how we should behave. But we wait for the neighbor without to tell us of some false, easier way.—Thoreau.
The wisdom of the wise and the experience of ages may be preserved by quotation.—Benjamin Disraeli.

Sheriff's Notice of Election.
The State of Texas, County of Randall.

Notice is hereby given that an election will be held on the 6th day of July A. D. 1918 in Common School District No. 22 of this County, as established by order of the Commissioners Court of this County of the 13th day of May A. D. 1918 which is recorded in Book Three, Page 69 of the Minutes of said Court to determine whether a majority of the legally qualified taxpayers voters of that District desire to tax themselves for the purpose of supplementing the State School Fund apportioned—to said District, and to determine whether the Commissioners' Court of this County shall be authorized to levy, assess and collect annually a tax of and at the rate of not exceeding Fifty cents on the \$100 valuation of all taxable property in said District for said purpose.

All persons who are legally qualified voters of this State and of this County, and who are resident property taxpayers of said District, shall be entitled to vote at said election. Said election was ordered by the County Judge of this County by order made on the 6th day of June A. D. 1918 and this notice is given in pursuance of said order.
Dated the 12 day of June A. D. 1918.

11-14 WORTH A. JENNINGS,
Sheriff, Randall County, Texas.

The Guinea That Does Not Affect the Head
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE. 30c.

What Ferguson Was Convicted Of.
(From the Dallas Democrat)
There exists a deal of misapprehension as to the official acts of which Mr. Ferguson was convicted by the state senate, and the overwhelming vote against him in that body. Of those who voted to impeach Mr. Ferguson, eight of them had made speeches in his favor during his two campaigns. Of the four who stuck to him, despite his proven guilt, two long ago declared for Hobby for governor in the pending campaign.

It required a vote of two-thirds to convict on any count; and following is the vote for and against impeachment on various charges. Majorities were given against him on three other counts:

That the governor misappropriated \$5,600 of Canyon City Normal funds to pay his personal debts—27 for impeachment, 4 against.

That the governor profited by the deposits of the Canyon City funds, which belonged to the state—26 for

impeachment, 5 against.
That the governor derived a profit from state funds deposits in the Temple State bank, contrary to law—24 to 7.
That the governor assisted in deposit of \$250,000 state funds in the Temple State bank instead of in the state treasury, as the law required—26 to 5.
That the refusal of the governor to tell who loaned him \$156,500 in currency constituted official misconduct—27 to 4.
That the governor, in 1916, diverted the adjutant general's funds to pay his personal note and interest—27 to 4.
That the governor induced the Temple State bank to loan him more than the law permits, altho he was sworn to enforce the law—26 to 5.
That the governor sought to coerce the board of regents of the state university into following his autocratic will—22 to 9.
That the governor violated the law by seeking to remove regents without cause—22 to 9.

That the governor remitted a \$5,000 bail bond of Wilbur P. Allen, chairman of the University of Texas board of regents, to influence his action—21 to 10.

The Silo Has Proved Its Worth.
Enough people in Las Animas county have proved the merits of the silo to place it beyond the stage of experiment. Plenty of feed for livestock is the crying need, especially in our homestead section. We believe that everyone growing feed will begin to think about best method of putting it up for winter use. There is little question but what the silo will appeal to them as soon as they feel able to build one. As a temporary proposition the following plan may be suggested as feasible:

Take a team and scraper and dig a trench 8 or 10 feet wide and as long as necessary to include the amount of crop you have to put in. Make the sides perfectly smooth and straight and dig it down to 10 or 12 feet in depth if possible in cases where the rock is not nearer than this to the surface. When the corn and cane are ready to harvest, take it green from the field and lay it lengthwise in this trench, treading it down as solidly as possible. This may be done with a horse in this kind of a

trench. To take it out a hay knife can be used to cut down on the end as much as will be needed for each feeding.

This kind of a silo costs nothing but the work and will last for two or three years if it is well cared for. If anyone has any doubt about the feed which can be cured in this way, they should talk with Mr. C. J. Stutler at Atwell. Mr. Stutler has a good herd of Holstein cows upon which he depends for a living. Last fall Mr. Stutler had a quality of small corn, but before cutting it he dug a round silo 8 feet deep and 12 feet in diameter. He cut his small corn and hauled it to this little silo, treading it in as solidly as possible. The amount of spoiled silage which he had, while a little more than if the material had been cut, was still quite small, and he was very well pleased with the feed which he saved in this way.

Now if straight stalks can be tread into a round silo and preserved for feed, certainly they can much better be laid straight in one with straight sides. If the farmers raising feed will place half or more of it in this kind of a silo, providing they cannot build another one, we believe that they will be so well pleased with the project that they will never again be without silage.—Chas. E. Smith, Las Animas County, (Colo.) Agent.

BROWNING GUN FOR AIRCRAFT IS O. K.

RATE OF FIRE SYNCHRONIZED WITH REVOLUTIONS OF THE TRACTOR PROPELLER.

BASEBALL CAPTURES LONDON

American Army and Navy Teams Draw Big Crowds—British Officers in U. S. Give Instruction in Gas Defense.

The Browning machine gun has successfully undergone a test to determine its value for use with aircraft. This is one of three types of machine guns with which the rate of fire can be so synchronized with the revolutions of the propeller of a tractor airplane that the gun can be fired by the pilot of a combat plane through the revolving blades.

Airplane propellers revolve at from 800 to 2,000 revolutions per minute. The machine gun is connected with the airplane engine by a mechanical or hydraulic device, and impulses from the crank shaft are transmitted to the machine gun. The rate of fire of the machine gun is constant and its fire is synchronized with the revolving propeller blades by "wasting" a certain percentage of the impulses it receives from the airplane engine and by having the remaining impulses trip or pull the trigger so that the gun fires just at the fraction of the second when the propeller blades are clear of the line of fire.

The pilot operates the gun by means of a lever which controls the circuit and allows the impulses to trip the trigger.

"As the latest wonder of the world London has taken to baseball," says a committee on public information representative in London. "The English never before had much use for our great game. They called it an exaggerated form of rounders and wondered what the noise was all about, but the American and Canadian soldiers in England have been educating them.

"A regular league of eight teams has started a summer schedule, and the English public is learning what it has missed. Big crowds witness the game which is played every Saturday, and the sport bids fair to become widely popular. Here is the way Thomas Burke, the short-story writer, reports a game in the London Star of May 27.

"Last week I discovered baseball. The match between the Army and Navy teams was my first glimpse of a pastime that has captivated a continent, and I can well understand its appeal to a modern temperament. Believe me, it's good goods. And the crowd! I had heard and read much of baseball fans and their method of rooting, but my conceptions were nothing near the real thing. The grandstands, crowded with army and navy fans, bristling with megaphones and tossing hats and demoniac faces, would have made a superb subject for a lithograph by Sir Frank Bragwyn.

"The game got hold of me before the first pitched ball. The players in their hybrid costumes and huge gloves, the catcher in his gas mask, and the movements of the teams as they practiced runs shook me with excitement. Then the game began and the rooting began. In past years I have attended various football matches in mining districts where the players came in for a certain amount of ragging, but they were church services compared with the furious abuse and hazing handed to any unfortunate who failed to play ball.

"There was, for example, an explosive, reverberating "A-h-h-h-h" which I have been practicing in my back yard ever since, but without once catching its true quality. You should have heard Admiral Sims, as college yell leader, when the Navy made a home-run hit, with his "Atta boy; oh, Atta boy to play ball," and when they got an error he sure handed the Navy theirs.

"Yes; I've got it. From now on I'm a fan. I'm going to see every baseball match played anywhere near London. I shall never be able to watch with excitement a cricket or football match after this; it'd be like a tortoise race. Come along with me to the next match and join me in rooting and in killing the umpire."

In March and April the secretary of agriculture, on recommendation of the office of public roads and rural engineering, approved 212 state road-building projects involving more than 2,500 miles of highways under the federal aid road act. The estimated cost of these improvements to the states is about \$15,000,000. The federal aid allowed is more than \$5,000,000.

Bottlers of soft drinks in the United States may save approximately 50,000 tons of sugar annually by using other sweetening materials, according to investigations by specialists of the bureau of chemistry, United States department of agriculture. The bureau of chemistry is preparing to furnish bottlers with sweetening formulas that will allow the actual sugar content in soft drinks to be cut to 50 per cent or less and at the same time will preserve the customary taste of the beverages. Starch sugar, starch sirup, maltose sirup and honey are the substitutes used.

The army ordnance department has negotiated approximately 12,000 contracts since this country entered the war, involving within \$175,000,000 of the total funds directly available for the department for the present fiscal year—\$3,383,286,045. Additional contracts totaling \$1,503,708,741 have been entered into on the authority of congress pending appropriation of an amount aggregating \$1,671,466,750.

The magnitude of the task of the ordnance department financially is evidenced by the disbursement recently in a single day of more than \$25,000,000 on ordinary contract vouchers. Disbursements for the month of April, 1918, ran to \$356,884,863, an interesting amount as compared with the \$5,059,204 disbursed by the ordnance department in April, 1917. These disbursements were made at the ordnance office in Washington. Amounts disbursed at government arsenals are not included.

One check recently drawn by the ordnance disbursing officer for ordnance material was for \$18,750,000. One requisition made recently by this same officer on the treasury was for \$169,000,000. This is the largest single requisition ever made by any United States disbursing officer.

Prior to two months ago, before the ordnance department established its 11 district offices which sowed the country to expedite payments to contractors and relieve the strain upon the main office in Washington, the disbursing officer at Washington signed from \$500 to 3,000 checks a day.

Because of the instruction of gas officers who have been at the various camps for the last six months, the troops which are going forward to France are well posted on methods of combating gas attacks, says a statement authorized by the war department. A group of British gas officers has been in this country since last summer. One of these men has been at each of the training camps, advising and assisting the division gas officer.

All the men going overseas are supplied with gas helmets. Under the division gas officers and their assistants, the men are drilled in the use of masks, taught how to detect the presence of gas, and given actual experience with different sorts of gases. Mimic gas shells and cloud attacks, used often at night in connection with high explosives, help to make the training realistic.

The United States has been able to build on the experience of the British and French, to whom gas attacks were unknown when they entered the war. No American troops have been sent to the front without practical experience in defending themselves against gas.

The training of instructors in gas defense includes a course of about one month. Most of the gas officers are commissioned first lieutenants.

One of the interesting developments of the war, according to a statement authorized by the war department, is the rapid expansion of the various bureaus of the war department. At the outbreak of the war there were less than 3,000 employees on duty. The number now is approximately 25,000, an increase of 800 per cent. While this represents a tremendous expansion, the increase in the army itself has been more than 1,500 per cent.

Only four out of every 100 officers in the service were in the army at the time the war began.

The gas defense service is now manufacturing about 5,000 horse gas masks per day. These are being sent to France, and it is expected that within a short time every horse connected with the American expeditionary forces will be equipped with the new masks.

The gas defense service has a completely equipped factory for the manufacture of the masks. In less than three weeks a building was selected and the factory was producing masks. The introduction of riveting machinery has done away with the heavy hand sewing of the frame which supports the masks on the faces of the horses. The masks are so constructed that no metal or chemically impregnated parts can chafe the horse.

In Bavaria the monthly meat ration has been cut 20 per cent—from 1,000 to 800 grams—according to German newspapers. The monthly meat ration in Saxony has been reduced from 800 to 700 grams. Public officials are reported in the Prussian press as discussing the possibility of a further reduction of the bread ration in Prussia.

A Munich paper reports that from the beginning of the war to March 1, 1918, Bavarian hog stocks have decreased from 2,106,312 to 766,391 head. The Danish hog census shows a decrease from 1,651,000 hogs July 12, 1917, to 789,000 December 5, 1917, or a decrease of one-third the number at the beginning of the war.

The restriction on the importation of crude rubber has been followed by restrictions on importation of four commodities possessing some of the characteristics of rubber, and capable under some circumstances of being used as substitutes for natural rubber.

Acting on a suggestion of General Pershing an order has been issued increasing each regiment's band from 28 to 50 members. Band leaders having had more than five years' military experience as band leaders will be made first lieutenants; those with less than five years' experience will be made second lieutenants.

Beside enlarging the bands a bugle and drum corps will be added to each regiment. Each corps will include the company buglers of its regiment, and not more than 13 drummers.

The Itching and Sting of Blazing, Fiery Eczema

Seems Like the Skin is on Fire. There is a harassing discomfort caused by Eczema that almost becomes a torture. The itching is almost unbearable, and the skin seems on fire with the burning irritation. A cure from local applications of salves and ointments is impossible, because such treatment can only allay the pain temporarily. The disease can only be reached by going deep down to its source. The source of Eczema is in the blood, the disease being caused by an infection which breaks out through the skin. That is why the most satisfactory treatment for all so-called skin diseases is E. S. S., for this remedy so thoroughly cleanses the blood that no impurities can remain. Get a bottle to-day at any drugstore, and you will see results from the right treatment. Write for expert medical advice, which you can get without cost, by addressing Medical Director, 21 Swift Laboratory, Atlanta, Ga.

Child Fell In Well.
What came very near to being a real tragedy happened to the child of H. R. Minor a few days ago. Mr. Minor, his wife and little daughter were taking his mother home to Ira, Texas from a visit with them and on their way they stopped for noon at the farm of Bud Miller. Just as they were getting ready to start again, the child stepped on the covering of a well near which they had eaten dinner. The covering of the well gave way and the child fell sixty feet to the bottom of the well. There was about four feet of water in the well which broke the force of the fall so that she suffered no more injury than a wetting and the fright. Mr. Minor climbed down into the well and rescued the child and soon they were on their way.—Tahoka News.

Rabbit Show at Plainview.
Many people in Hale county are now raising rabbits, and a number of them had entries in the rabbit show which was held Monday in the store next to the Plainview Mercantile Co. The favorites with the raisers are New Zealand rabbits, though other breeds are the favorites with others—Flemish Giants and Rufus Reds coming in for considerable popularity. Fanciers inform us that the New Zealand rabbits breed as often as once a month and litters are from 14 down to about 8. For breeding purposes they sell at \$2.50 to \$50.00, and for eating purposes the grades bring as high prices as poultry. — Plainview News.

Make yourself an honest man, and then you may be sure there is one rascal less in the world.—Carlyle.
The man who has not learned to say "no" will be weak if not a wretched man as long as he lives.—Jan MacLaren.
Duty, then, is the sublimest word in the English language. Do your duty in all things. You cannot do more; you cannot wish to do less.—Robert E. Lee, in a letter to his son.

\$100 Reward, \$100
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and hastening nature in doing her work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, etc.

The Perfect Baby Of The Future

A Simple Method That Has a Wonderful Influence upon The Future Infant.

Before the arrival of baby knowing women over half a century have used with regularity the time-honored preparation, Mother's Friend.

There is a most wonderful application for the abdomen and breasts. It penetrates the muscles, ligaments and tissues, rendering them pliant to readily yield to nature's demand for expansion.

By its use the anxious weeks of pregnancy are made comfortable. The usual wrenching strain, bearing-down and stretching pains are counteracted. The system is prepared for the coming event, and its use brings rest, repose and happy anticipation.

By the regular use of Mother's Friend during the period the muscles expand easier when baby arrives, and naturally the pain and danger at the crisis is less.

Mother's Friend is prepared after the formula of a noted family doctor by the Bradford Regulator Co., Lamar Bldg., Atlanta, Ga. It is for external use only; is absolutely and entirely safe and wonderfully effective. Write them for their instructive and interesting "Motherhood Book."

There is a wealth of instruction and comfort to be derived from reading this little book. It is plainly written just what every woman wants to know and will be a splendid little book of guidance, not only for yourself but will make you helpful to others, and in the meantime obtain a bottle of Mother's Friend from the druggist, and thus fortify yourself against pain and discomfort.

Happy Happenings.
(Too late for last week.)

Mrs. P. Wilson of Santa Rita, New Mexico came in Thursday to visit with friends and relatives for some time.

P. J. Neff has sold his lumber, coal and implement business to Messrs. Roberts and Oliver of Amarillo. They took charge last week.

Mr. and Mrs. Armstrong, mother and father of Mrs. Will Skeggs are here visiting. They will stay indefinitely.

Roy Smith left last week for Kansas to look after his crop there. Mrs. Smith will probably go later.

Rev. Hardesty the Baptist pastor fitted his appointment last Sunday the day having been changed from the first to third Sunday.

Miss Mary Mayhew, who returned to friends Friday night at the home of W. C. White with an ice cream supper. There were about 50 present, and all report a fine time.

In the afternoon Miss Alice and George White entertained a number of their friends. Ice cream was served to about 40 children. They played games and report a nice time.

Rev. W. C. Rose went to Amarillo last Friday where he preached over Sunday. He was accompanied home by Rev. Fred Hendrix and son, who visited till the night train when he went to Merkel to visit his father, Dr. Hendrix.

W. C. White and family were visiting relatives and friends in Canyon Sunday. They were accompanied by Miss Mary Mayhew, who returned to her home after visiting with friends here for some time.

Mr. and Mrs. Bob Glover left Wednesday for Los Angeles, Cal. Mr. Adkinson of Kress has taken charge of the store.

YES! LIFT A CORN OFF WITHOUT PAIN!

Cincinnati authority tells how to dry up a corn or callus so it lifts off with fingers.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freestone applied directly on a tender, aching corn or callus, stops soreness at once and soon the corn or hardened callus loosens so it can be lifted out, root and all, without pain.

A small bottle of freestone cost very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freestone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.

Canyon City Club Notice

Members will take notice that the by-laws will be strictly enforced. You MUST secure a permit when you take guests on the grounds and otherwise comply with the written rules of the club or suffer the consequences for non-compliance. The directors have information that such rules are being violated and this is to inform you that such conduct will not from this time on go unpunished.

Members and their guests must register every time they enter the club grounds.

Members not having the by-laws had better secure a copy from the secretary. Permits can be obtained from the secretary, D. A. Park. By order of Board of Directors, GEO. A. BRANDON, President.

ARTILLERY NEARLY ALL IS MOTORIZED

AMERICAN ARMY TO GO FURTHER IN THIS RESPECT THAN HAS ANY OTHER.

NOTIFYING OF CASUALTIES

How the War Department Informs Relatives of Killed and Wounded Soldiers—Radio and Suzzer Operation Taught in 600 Schools.

(From Committee on Public Information.) Washington.—Motorization of field artillery will be carried to a greater extent in the American army than in any other army engaged in the war. Not only will a far greater amount of motor equipment be provided in proportion to the strength of the army, but it will be used for work where armies now in the field depend solely upon horse power and man power.

The ordnance department has succeeded in developing such types of tractors that, exclusive of the heaviest field artillery mounted on railroad carriages, all American artillery will be motorized, with the exception of some of the three-inch gun batteries. The problem of motorization of field artillery is a difficult one, which explains why it has not been carried out to a greater extent than has been the case with the armies that have been fighting in Europe for the last three years.

The possible output of tractors for the transport of field artillery in the United States is practically unlimited, whereas the supply of horses is at present limited and is becoming more so each month.

Relatives of soldiers named in casualty lists forwarded from France ordinarily are notified within 24 hours after receipt of the lists, according to a statement authorized by the war department. A "statistical division," with a staff of officers and a corps of stenographers, gives all its time to the maintenance of files of soldiers' names and addresses. This division notifies relatives.

A copy of the roster of each contingent sailing to join the expeditionary forces is filed in card index fashion, each card bearing the name of one soldier, his organization, and the name and address of parent or other relative or friend designated by him to be notified in emergency. When a casualty list is received from General Pershing each name cabled from the American expeditionary force is listed with the emergency address on file in the card index. As rapidly as the new list with emergency addresses is built up the telegraph clerks get duplicates. These cards already are supplied with blank telegrams which require only the relative's address, name of sender, nature of casualty and the date, and filling in the blank spaces they get the telegrams off as quickly as possible. In addition to maintaining the telegraph blanks for the sake of speed the statistical division is supplied with sets of form letters to be filled in and mailed when further details are available.

While relatives are generally in receipt of information within 24 hours after the cables are received, delays are sometimes due to clerical errors caused by the fact that names must pass through so many hands in France and in America. Incorrect emergency addresses turned in by soldiers, removal of families to addresses other than those listed, and the occasional necessity for cabling back to General Pershing to verify a name or to obtain an address.

Aside from these four causes of delay the only reason for the failure of relatives to receive word at once is military consideration. General Pershing may, at his discretion, withhold a casualty list until he is positive it will have no military value to the enemy.

Through the operation of repair shops for clothing and other articles, a considerable saving in reissue of new equipment has been made at army camps. One camp quartermaster estimates the issue of new clothing has decreased one-third, and of shoes 40 per cent.

At a base repair shop for clothing an average of 2,831 garments were repaired daily during the first 15 days of May. In addition to the work done at base repair shops, many thousands of garments are repaired at camp shops, one shop being located at each large camp.

During April nearly 170,000 pairs of shoes were repaired in army repair shops. At present practically all hat repairing is done by contract, the price varying from 50 to 90 cents per hat.

This work is in charge of the conservation and reclamation division of the quartermaster corps, which has been in operation only during the last four months.

The food administration is making a careful survey of the national ice situation in order that it may be prepared to meet any sudden shortages in particular communities. The destruction of ice plants by fire, breakdown of machinery, or the exigency of the weather may at any time cause a serious shortage.

Incomplete returns from 25 states show that nearly 3,400,000 women have registered for war work under the woman's committee of the council of national defense.

Normal Notes.

Mr. W. C. Buecher a student of the Normal left Tuesday for training camp at Franklin, Ky.

Private Clarence Luce who has been in the service for more than a year is visiting his sister, Miss Ivon Luce, at the Huntleigh Hall.

William Gatewood visited chapel on Saturday morning. He is an ex-student of the Normal and has been in the State University for several months. He, too, left Tuesday for training camp.

Bartow Johnson, son of M. B. Johnson of the Normal faculty, left Monday for the Navy.

Last Sunday, Melvin Roberts received a telegram from his home exemption board to report for service. Mr. Roberts has an unusual record in our school. He graduated from the training school, has had two years of Normal work and last year he was one of the winners of the inter-normal debate. We are confident we shall be proud of his record as a soldier.

Miss Rambo spoke in the country last Sunday and sold War Savings Stamps.

Miss Bertha Cope has been sick this week.

Miss Brigham has invited her students in Music 22 to be in Red Cross rooms at 11:30 A. M. every day and at 3:00 P. M. on Saturday.

Misses Allie Reece, Claudie O'Keefe and Gracie Shamburger were shopping in Amarillo Saturday.

L. F. Sheffy, one of the Normal teachers, delivered an address Sunday afternoon at the Snow School in interest of the War Savings Stamps campaign.

Al Stafford made an interesting talk in chapel Friday on army life.

Many of the students have volunteered to do two hours Red Cross work each week.

Students wishing to buy War Savings and Thrift Stamps, please call at the secretary's office.

Lieut. Vayne Bentley and his bride left Tuesday morning for San Antonio. Mrs. Bentley is known to us as Miss Myrtle Vore. She and Lieut. Bentley were married last Saturday.

Mr. Duflot spent Sunday and Monday with home folks in Amarillo.

Several of the Normal teachers delivered lectures at different places near Canyon Sunday in interest of the War Savings Stamps campaign.

Miss Kathryn Bennett spent Sunday in Hereford with relatives.

Mrs. L. G. Allen, Misses Hazle Allen, Octie Smith and Abbie Calbourne spent Monday in Amarillo.

Miss Miss Michel from Peoria, Ill., began her work in the department of Expression Tuesday morning.

On last Saturday evening, the student body was most delightfully entertained at an informal reception on the Normal campus. We were received at the front entrance by the committee from the faculty after which we were conducted to different parts of the campus where we took part in old fashioned games. Mr. Shirley dispensed a special Hoover drink, which proved popular as a war time beverage.

Earl Stanlee, who has been teaching at Panhandle, visited friends in town this week. Earl is on his way to join the marines.

This afternoon, Thursday, the Y. W. C. A. will meet on Miss Hudspeth lawn. Mr. Cousins will address the young ladies and Miss Margaret Guenther will sing.

Happy Happenings.

Every thing is dry here. Sure needing rain.

Miss Margarette Garrison left Thursday for Vernon, Texas, in response to a message saying her sister Mrs. Dr. Still was sick.

W. C. White and family went to Canyon Sunday where they visited with friends and relatives.

Miss Fairy Gassaway who is attending the Normal at Canyon visited with home folks Sunday and Monday.

Bro. More the Presbyterian preacher of the Methodist Church preached a splendid sermon Saturday night and Sunday at eleven and Sunday night. Quarterly conference Saturday afternoon. Sunday afternoon he went out to the Plains Center school house and preached.

Mrs. J. M. Evans left Saturday to visit her daughters Mrs. H. L. Holland and Miss Dale Evans at Texhoma.

Mr. and Mrs. Avis Kirkpatrick and Eula Knox of Canyon visited Sunday at the J. B. Knox home.

M. M. Wesley moved into the new garage last week.

Miss Florence Smith of Canyon came Sunday to visit at the W. C. White home a few days.

Dr. McElroy returned Friday from Dallas.

Born—A son, to Mr. and Mrs. Guss Miller Tuesday the 11.

The many friends of Mr. Studenroth were surprised Monday when he and Mrs. DuBois, mother of Mrs. Koch were married at Tullia.

Mr. Boon, Van Foster and others left Tuesday for Kansas to work in the harvest fields.

W.S.S.

Campbell Notes.
On Sunday the 23rd of this month the Campbell School-District, No. 18 held a W. S. S. meeting. A. B. Haynes and Grady Odham came out from Canyon. A. B. Haynes made a grand speech with the result that we went over the top. The trustees, W. B. Campbell, A. G. Thomas, C. L. Gordon-Cumming and Z. A. Fogerson were in town early Monday morning with the quota and closed at 9 a. m. The trustees of the Campbell School are indebted to Nixon Bros., and Canyon Supply Co., for favors received in connection with their W. S. S. campaign. W. B. Campbell and family spent Sunday at the Grant Belles home. A. N. Gregg was up at Amarillo Sunday. Miss Velma Parton is back after visiting in Amarillo. Mr. and Mrs. Bob Stratton and family and Misses Neva, Beatrice Burgran and Mr. Will Floyd were guests at the C. L. Gordon-Cumming home Monday evening. Mr. Floyd leaves Tuesday morning for the training camps. One thing that illustrates the quality of the reputation which Germany has earned in the civilized world is that when a German submarine captain doesn't stab a helpless prisoner in the stomach, or at least spit in his face, he is universally regarded as very humane.—Columbus Ohio State Journal.

GIRLS! WHITEN YOUR SKIN WITH LEMON JUICE
Make a beauty lotion for a few cents to remove tan, freckles, sallowness.
Your grocer has the lemons and any drug store or toilet counter will supply you with three ounces of orchard white for a few cents. Squeeze the juice of two fresh lemons into a bottle, then put in the orchard white and shake well. This makes a quart pint of the very best lemon skin whitener and complexion beautifier known. Massage this fragrant, creamy lotion daily into the face, neck, arms and hands and just see how freckles, tan, sallowness, redness and roughness disappear and how smooth, soft and clear the skin becomes. Yes! It is harmless, and the beautiful results will surprise you.

Pledge the President
