

MONDAY IS REGULAR MONTHLY TRADES DAY

BUSINESS MEN DISCUSS FUTURE DEVELOPMENT OF CITY AND COUNTY AT MEETING

At a meeting of the Canyon Business Men's Association held in the office of Thompson Hardware company last night, plans were laid for Monday's regular monthly Trades Day.

On account of the bad condition of the roads it was deemed impossible to make an excursion tomorrow but this did not deter them from elaborating on the plans for an interesting day Monday.

A slight change was made in the auction sale management. Wilford Taylor was appointed permanent clerk and a fee of 2-1-2 per cent will be charged on the sales to defray the expenses of the auction and make it really a co-operative sale.

The News is carrying a large list of advertisements for the local merchants and there will be surprise bargains to be found at many of these stores. The visitors to Canyon this Trades Day are urged to visit all of these stores looking over the feast of special prices and all will be made to feel at home in these stores without obligating themselves to buy.

The members of the association last night discussed ways and means of increasing the membership to the organization and stimulating the interest in the meetings and work.

There is found so much development work to be done by the association. A world of possibility for growth of this county lies ahead. It is hoped to interest the citizens of the county at large in this work and the matter of a paid secretary has been favorably discussed.

The matter of promoting the dairy industry in this section was also discussed. A local cream station will be established here. At the time County Agent Hillam left he was pushing this matter among the farmers and the new agent C. F. Walker will probably take the work up.

Prizes will also be offered soon by the local merchants for the Boys and Girls Agricultural Fair this fall. The winning exhibit from this county will probably be sent to the Panhandle State Fair and Dallas Fair.

Everyone come to Canyon Monday.

NEWELL A. CROSON.

Newell A. Croson died Friday, April 4, in the John Hopkins Hospital in Baltimore, Maryland, from chronic complications from which he has been suffering for the last couple of years.

He left Canyon several weeks ago and went to Baltimore to undergo an operation and receive treatment. A couple of weeks ago his condition became so much worse that Mrs. Croson left for his bedside and was with him when the end came.

Mr. Croson was born in Virginia October 22, 1872 and came to Canyon to live about eleven years ago making his home here since that time. He was well known here and loved by all who knew him and leaves besides a widow eight children to mourn his loss.

The funeral services were held this afternoon at 2 o'clock at the Presbyterian church of which he was a member. Rev. A. B. Haynes delivered the sermon, after which the body was laid to rest in Dreamland cemetery.

Lumber Company Changes Hands.

The J. M. Rockwell Lumber interests at this place, heretofore known as Rockwell Bros. & Co., has been purchased by C. R. Burrow, who becomes sole owner of all real and property of what-so-ever kind formerly belonging to the Rockwell interests.

This yard speaks well for Canyon as it is one of the best on the Plains. Mr. Burrow has been manager for Rockwell Bros. & Co., at this place for the past twenty years, and the very large, well assorted stock carried at this yard shows very clearly that he understands how to give the people good service by being in position to supply everything needed in the way of business material, and Mr. Burrow says he will continue to give the same good service to his customers and the people of this county and community as in the past.

The business will be continued as the Canyon Lumber Company.

Mrs. E. H. Powell was brought home from Amarillo Saturday, having recovered from an operation which she underwent several weeks ago.

Miss Viola Dunaway has accepted a position with the Canyon Supply Company.

RED CROSS WILL GIVE HOME HYGIENE INSTRUCTIONS

The Red Cross has long prided itself upon taking care of emergencies in cyclones, fires, floods, wars, any great catastrophe, it has served as the universal panacea. But the Red Cross could not check the epidemic of Spanish Influenza. In spite of everything that our nurses and workers could do, the pestilence took its toll of 500,000 lives in the United States alone.

An extensive public health program has been planned by National Headquarters which will eventually place a public health nurse in every community. This nurse will be prepared by having had special training in the application of public health procedure, or a nurse who has had months of experience in public health work will be considered.

These nurses are now going out in the rural communities to enlighten the lay women of the Southwest on the subject of health. They will give fifteen two-hour lectures, each lecture correlated with one chapter in the text-book, Home Hygiene and Care of the Sick, which is to be used. The course which these nurses will give is not a course in Nursing; it is a course to teach sanitation in the home; the prevention of disease; also to aid the lay women in recognizing disease. This course will be given to every woman who is wise enough to avail herself of the opportunity to take it.

The blizzard continued until in the afternoon Wednesday when the wind died down and the sky cleared. In places the drifts were three and four feet deep. The Kansas City train arrived nine hours late, while on other roads leading into Amarillo the trains were unable to get through. It is estimated that over eighty were killed in cyclones and tornadoes sweeping East Texas and Oklahoma. The snow on the Panhandle extended as far south as Lubbock where a heavy rain fell. The public school was turned out for the day yesterday.

Today has seen the weather moderate considerably and the snow is rapidly disappearing. Heavy rivulets of water are sweeping down all the streets. The court house square is surrounded by water.

Do it now. How? By joining a War Savings Society.

THE VICTORY LIBERTY LOAN INVESTOR

RAIN AND HEAVY SNOW STORM STRIKES PLAINS TUESDAY NIGHT

After a slow cold rain all day Tuesday, a heavy north wind ushered in one of the worst blizzards of the winter Tuesday night. The wind and snow were attended by a freak of weather rarely seen anywhere.

The blizzard continued until in the afternoon Wednesday when the wind died down and the sky cleared. In places the drifts were three and four feet deep.

Today has seen the weather moderate considerably and the snow is rapidly disappearing.

SPANISH INTERPRETER KEEPS UP WITH THE ENGLISH LAWYERS IN SANTA ROSA COURT

C. O. Keiser, A. W. Hamil and Fred Luke were in Santa Rosa, N. M., the first of the week where Mr. Keiser was interested in a complicated suit in court there.

Mr. Keiser states that while in Santa Rosa he witnessed an interesting case involving Spanish and American parties. An expert interpreter was in attendance upon the court interpreting to the Spanish hearers at the same time the addresses in English were being made, both speakers finishing at the same moment.

In the school trustee election held Saturday the following trustees were elected to serve the coming year: C. R. Burrow, John Guthrie and Joe Foster. S. B. McClure, G. G. Foster, Joe Service and R. McGee were holdovers from last year.

100 pairs of Pumps and Oxfords at half price for next Monday at Canyon Supply Co.

CANYON BOY SEES THE SCENIC BEAUTY OF FRANCE

France, Feb. 6, 1919.

My Dear Father, How is everybody at home, fine I hope. I am just fine, just as fat as can be. I weigh 170 pounds now.

I just came back last night from a six days pass. About 600 of us went to Lamalou-les-Bains, that is close to the Mediterranean Sea, also close to the border of Spain, and a beautiful place in the mountains. The little city was in the valley between some large mountains covered with snow and in the valley there were gardens and trees blooming and the prettiest weather I ever saw for this time of year.

Papa you remember how rough you told me Tennessee used to be? Say, Tennessee isn't rough at all besides some of the country we went thru down there, and say, we were going up the mountains one morning (Marscellis Hawkins and I) and an exceedingly large wild boar came dashing around the side of a long slope in which we were walking.

Papa I sent a small box of shells and cards to you. The shells, I picked up off the beach of the Mediterranean Sea and the cards were of the places where I had visited. The little book was of the town where we were at the sea. I also sent a little handkerchief of all the allied flags in it.

You spoke of Clifford's death. He got bit with a large shell, one of those high explosives. It hit about six feet from him just as he went around the corner of an old rock house and it hit on the hard ground and pieces of it broke his right leg below the knee and also above the knee in two places, also took a large piece of flesh from his hip and was fractured in the head, I don't know how bad, but pretty bad I think. He was hit on the evening of Oct. 18th about sundown and died the 19th in the hospital. I never got to see him at all.

Well papa I don't like to talk about those things for we lost many of our dearest boy friends and comrades. It looks as if it might be July or August before we will leave for the States, can't tell much about it at present. It looked like we might leave for a while most any time, but things don't look so good now.

Well I will close as I must go to the kitchen. Still cooking. Lots of love to all, W. J. PRICHARD.

Interscholastic Preliminaries. A preliminary contest to the Interscholastic meet for the district to be held in Canyon, April 18 and 19, was given by public school declaimers Monday night at the court house.

Well I will close as I must go to the kitchen. Still cooking. Lots of love to all, W. J. PRICHARD.

Interscholastic Preliminaries. A preliminary contest to the Interscholastic meet for the district to be held in Canyon, April 18 and 19, was given by public school declaimers Monday night at the court house.

CLEAN-UP DAY WAS A GREAT SUCCESS

CANYON IS NOW ONE OF THE CLEANEST TOWNS IN THE WHOLE STATE

There were no slackers in Canyon Monday when the general clean-up was inaugurated. Every store in town was locked up from nine o'clock in the morning until 4 o'clock in the afternoon. The public schools and the normal school turned out for the day and the student bodies joined the army of dirt exterminators.

The city officials express themselves as highly pleased and very proud of the way in which the people responded to the call for the clean-up. It is a privilege to live in the community where people prize cleanliness and health above material wealth. A clean city will attract a more desirable class of people and be of more lasting good than the biggest oil pool in the world.

PUBLIC SCHOOL TEACHERS FOR NEXT YEAR SELECTED

At a meeting of the Trustees of the Canyon School Board on Wednesday afternoon the following teachers were employed for the 1919-20 school year:

- Miss Nora McMillon—Primary. Miss Mary Bradford—Second grade. Miss Vennie Johnson—Third grade. Miss Enid Grundy—Fourth grade. Miss Ida Rowan—Fifth grade. Miss Pearl Hensley—Sixth grade. Miss Elva Fronabarger—Seventh grade. Miss Rose M. Frye—Eighth grade. C. L. Song was recently elected to the superintendency.

Atticus Webb Will Speak Here.

Rev. Atticus Webb, of Dallas, Superintendent of the Anti-Saloon League of Texas will speak here the 6th of May at the Baptist Church at 8 o'clock. Dr. D. Y. Bagby of Lone Oak, Texas, was here last week arranging for the speaking.

County Court In Session.

County Court convened Monday and the Probate docket was set for Tuesday. Tuesday the application of G. N. Caler and Sallie Caler for appointment as guardians of William Sterret Thomas, minor, was received and the appointment approved. In the third week several cases will come up on the civil docket. At present the court is recessed.

J. F. Graves, formerly proprietor of the Cash and Carry Grocery Store here, who moved to Phoenix, Arizona last summer, has returned to the Plains and his family is living in Plainview. Mr. Graves and son, Bernice, were here Saturday, on business. He states that they are already having 100 degrees Fahrenheit weather in Arizona. It was too hot for him there, after being used to the cool summers on the Plains.

EARLY INDEPENDENCE PROMISED FILIPINOS

SECRETARY BAKER ADDRESSES SPECIAL MISSION IN BEHALF OF PRESIDENT WILSON.

Washington.—Members of the special mission of the Philippine legislature here seeking immediate independence for the islands were told by Secretary Baker that he spoke President Wilson's mind when he said he believed the time had come to grant the complete independence desired by the Filipino people.

The war secretary also said he believed the mission would be able to carry home word that the American people loved liberty too dearly to deny it to others.

He read a letter left by President Wilson when he went to Europe expressing the hope that the mission would result in "bringing about the desirable ends set forth in the joint resolution of the legislature."

Francis Burton Harrison, governor general of the Philippines, followed Mr. Baker with the statement that his experience in the islands had convinced him that the obstacles to independence that appeared to exist a few years ago had been cleared away.

The mission including forty prominent Filipinos and headed by Manuel Quezon, president of the senate, upon being received in Secretary Baker's office, presented a formal memorial asking independence and pointing particularly to the record of the Philippines in the great war.

Waterways to Be Improved.

New Orleans, La.—Colonel J. C. Sanford, United States engineer in charge of the gulf division, in a brief outline of important projects in hand said some of the most important work of this year is located in Texas: He said Houston will be helped to realize her ambition to possess a deep water gateway to the gulf. The twenty-five-foot channel in river and bayou will be deepened to 30 feet and the 50-foot width increased to 100 feet all the way. The depth of Galveston harbor will be increased. The harbor at Beaumont, Texas, will be enlarged. Improvements at Brazoria Island harbor entrance is to be achieved.

Anarchists Defeated in Russia.

London.—The anarchists, in attacks east of Bolshoia Ozer, were defeated by the allied forces four times on March 31 and once on April 1, according to an official statement issued on operations in north Russia. The losses of the enemy were considerable, while the allied casualties were slight. The text of the communication follows: "On March 31 the anarchists four times attacked in strength our positions east of Bolshoia Ozer and again on April 1, when they also attacked along the railway. All the attacks were defeated."

Not to Buy British Ships.

New York.—The United States government has withdrawn its proposals to purchase the British-owned tonnage of the International Mercantile Marine. This is announced by P. A. S. Franklin, president of the International Mercantile Marine company, stating he had been informed by the government authorities that they "could not further consider possible acquisition of the ownership of our (the company's) British tonnage, and that we were free to deal with the property as we may consider desirable."

Former Huerta Aid Plans Insurrection

New York.—General Aurelio Blanquet, Mexican minister of war during the administration of President Victor Huerta, and described as second in command to General Felix Diaz, has arrived safely in Mexico, according to an announcement made by Roberto Gayon, his secretary. The purpose of Gen. Blanquet's return, Mr. Gayon said was to reorganize the Diaz forces, overthrow the Carranza government and re-establish the constitution of 1857.

Thompson Re-elected Chicago Mayor.

Chicago.—Mayor William H. Thompson (Rep.) has been re-elected in one of the most exciting political struggles the city ever witnessed, the incomplete unofficial returns show his plurality to be in the neighborhood of 10,000. His nearest opponent was Robert M. Switzer (Dem.), county clerk, whom the mayor defeated four years ago by a plurality of more than 147,000. The city voted "wet" by a sweeping majority.

Boers to Ask Self-Determination.

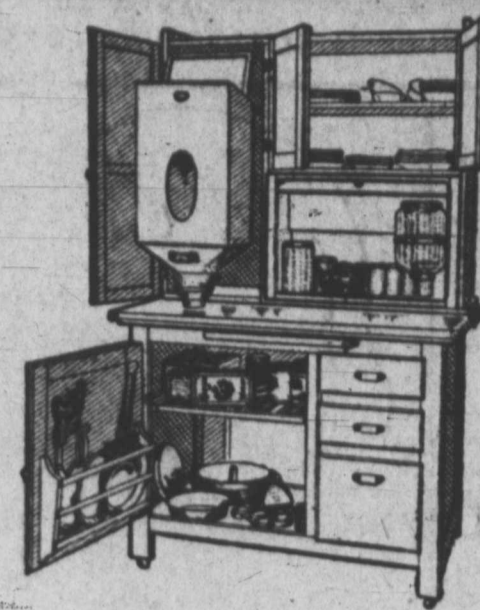

New York.—The Dutch steamship Bawean has arrived here from Cape Town, South Africa, with a delegation of Boer- on their way to London and the peace conference for the purpose it is said, of laying before the British government and the Paris conference their right to self-determination in setting up a republic.

War Finance Bonds Not Oversold.

Dallas.—Announcement from Washington that the \$200,000,000 of bonds of the War Finance corporation had been taken on the same day on which subscription books were opened was unauthorized and federal reserve banks throughout the country have been instructed to continue to receive subscriptions until further orders are issued by the War Finance corporation. The bonds are one-year 5 per cent bonds and a heavy demand was reported, especially in the east.

This is the white-face calf he bought last summer at the Red Cross sale, and it weighs 1105 pounds at 18 months of age. It is a high grade animal, well marked and shows what can be accomplished by good blood, good care and feeding.—Silverton Star.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little Stomach, Liver and Bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When "povvish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs" and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

Cultivate habits of Thrift which you can do best as a member of a War Savings Society.

One Weak Spot

Many Canyon People Have a Weak Part and Too Often It's The Back

Many people have a weak spot. Too often it's a bad back. Twinges follow every sudden twist. Dull aching keeps up, day and night. Backache is often from weak kidneys.

In such case a kidney medicine is needed.

Doan's Kidney Pills are for weak kidneys.

For backache and urinary ills.

Canyon people recommend the remedy.

Mrs. J. A. Wallace, W. Houston, Canyon, says: "I was troubled by a weak and lame back and irregular action of my kidneys. Doan's Kidney Pills, procured at the Holland Drug Co., cured me. I gladly advise anyone to use Doan's, who is troubled with kidney complaint."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Wallace had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine.

Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces, expelling the Poison from the blood and healing the diseased portions.

After you have taken Hall's Catarrh Medicine for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Medicine at once and get rid of catarrh. Send for testimonials, free. F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, 7c.

After Your Baby Is Born

Think Now About the Time to Come Afterwards.

When you hold in your arms your tiny new infant, be sure that you can feel that before its arrival you did all in your power to give it a happy prenatal influence. Scientists say that the thoughts and feelings of the expectant mother greatly affect the health and disposition of the future infant.

For over half a century thousands of women who have used the time-honored remedy, Mother's Friend, say that they entirely escaped nausea, nervousness and that peculiar distressing feeling so usual where nature is unaided. They thus preserved a wonderfully bright and happy disposition, which reflects so markedly upon the unborn child.

By the regular use of Mother's Friend the nerves are made and kept soft and elastic to readily yield to nature's demand for expansion without the usual wrenching strain. The nerves are not drawn upon, and as a consequence the expectant mother is calm and serene and the little is not disturbed with nervous twitchings, and the crisis is one of joy and heroism.

Write the Bradford-Regulator Company, Dept. E, Lamar Building, Atlanta, Georgia, for their illustrated book, of value in every season, and get a bottle of Mother's Friend from your druggist and begin a treatment that will bring you results.

"Surprisingly Low Priced"

Urges Stacking of Wheat

As a means of guarding against weather damage to the wheat crop after it is cut, J. A. Birdsong, manager of the Kell Milling Company, suggests that farmers stack their wheat instead of leaving it in the shock until threshed.

Mr. Birdsong is convinced that the county will make perhaps the largest wheat crop in its history, on account of the large acreage and the splendid prospects at the present time, and it will require some intelligent foresight on the part of farmers to guard against weather damage in the event of rains after the grain is cut.

What is known as field damage after cutting can be absolutely prevented by stacking. This will doubtless be important this season on account of the fact that it may not be possible to get threshers as soon as in short crop years, and will be a distinct advantage to both farmers and threshermen.

Mr. Birdsong is of the opinion that there are plenty of threshers already in the county to take care of the crop and it would be unwise for farmers to urge that other machines be brought into the county.—Vernon Record.

WEEKLY FINANCIAL REVIEW.

Prepared For Randall County News
By The St. Louis Union Bank,
St. Louis, Mo.

Postmaster General Burleson issued a statement, on March 7th, calling attention to the increase in postal receipts as indicating business prosperity. He says, "When business is prosperous, that fact is reflected in increased postal receipts. On the other hand, a decline in postal receipts is a certain indication of depressed business. During the month of November last, there was a pronounced decline in postal revenue due to the nationwide prevalence of influenza and the signing of the armistice. These influences stimulated and halted business throughout the United States. December showed a returning movement toward normal conditions, while for the months of January and February, the postal revenues greatly exceeded the average annual increase in postal revenues during the last thirty years.

"Judged, therefore by the reliable business barometer of the postal service, it is obvious that notwithstanding the fear of business depression expressed in some quarters, this country is on a threshold of pronounced industrial prosperity."

Stock and Poultry Show a Success

Last Saturday the breeders of the eastern end of the county brought some of their animals and poultry to the Hedley wagon yard for the benefit of the members of the Boys' and Girls' Agricultural Clubs, and the result was rather surprising to most of the large crowd that was in attendance. While all the breeders were not represented, the collection of animals was an eye-opener to those not in touch with the livestock development that has taken place here within the last few years.

The show was the result of a request by the county and home demonstration Agents that a few good animals and fowls be brought in on Saturday in order that the club boys and girls could have some practical judging good stock. The breeders responded heartily, and the resulting show was a credit to the community and the county, in spite of the fact that it was inaugurated and staged on less than two days notice and was favored with a steady drizzle of rain all day.

The merchants of Hedley put up about \$35.00 in cash and several articles of merchandise for prizes, and the D. C. P. C. Band made the trip from Clarendon in spite of the rain and gave us one treat after another in the way of music.—Hedley Informer.

W. H. HICKS.

Planning The Community House.

Tentative plans for a vast auditorium and community house as a permanent memorial to the world war soldiers and sailors from Potter county were laid at a meeting of the general committee in the rooms of the Board of City Development last Saturday afternoon.

That the need for a mammoth auditorium in which great cattle shows and agricultural exhibitions may be held in addition to large conventions, is the most vital question confronting the people of Amarillo at this time, was the statement of R. B. Masterson, member of the committee, and concurred in by all present. No less is it essential that the young people of the city be given all those privileges and opportunities which the average Y. M. C. A. supplies in many cities with the addition of a good library, reading and rest rooms and kitchen and dining room for club purposes, according to statements made during the session.

R. B. Masterson informed the committee that with the bringing in of the first oil well on his holdings north of the city he will personally donate \$100,000 in addition to such funds as may be secured through bond issues and subscriptions from the cattle interests.

Whether the plans under consideration can be carried out entirely by a bond issue, whether the county will be able to join the city in a bond issue, and whether or not the cattle interests of all the Panhandle would not gladly have a part in the undertaking, were matters which were thoroughly discussed and formally turned over to a committee to be appointed.

Our March Weather.

We are away to the good so far as precipitation is concerned for the month of March, this year. Ordinarily we have only .65 of an inch, as March is credited with being always a dry month but this time we had 1.73 inches. That brings our accumulated excess for the year thus far up to .33.

The wind blew 9788 miles during March, and at that it wasn't a real windy March. Its average velocity was 13.2 miles per hour but it got in a hurry on the 14th and accumulated a 40-mile gait for five minutes.

We had two little hail storms and two fogs, the latter falling on the 21 and 31. According to "Old Timer", we will have rain on September 21 and 31 and it will threaten rain on June 21 and 31.—Southwest Plainsman.

Dun's Review.

New York, April 4.—Dun's tomorrow will say:

With full recognition of the uncertain state of the highly important iron and steel industry, due to differences over the price question, it is nevertheless clear that business has added something to its recent recovery. The growth of certificates which is nearly manifest, seems greater than the expansion of actual operations, but activity broadens with each week's progress and is supported by substantial contributions to the list of helpful factors.

With many domestic concerns that had been completely or largely engaged on government work now turning to other channels of production and with prices of some commodities at a less inflated position, the whole economic situation steadily assumes a more natural aspect and the benefits are beginning to show in a business development.

DID YOU EVER SEE SUCH HAIR ON A DOG?

Last fall the Plainview News announced that their city marshal had forecast a lighter winter, observing that the hair on the north side of the dogs was lighter than usual. This was argued pro and con by many leading papers of the country until the subject seemed worn thread bare. Only last week Editor Adams triumphantly called attention to the fact that the winter was lighter than usual with the exception of a few cold spells, and declared that dog hair was a weather indicator to be reckoned with. Far be it from this writer to re-open the controversy, but under the light of Tuesday night's occurrence we don't know what to think. Did you ever see such hair on a dog?

PUBLICITY MAN FOR RANDALL

At last night's meeting of the Business Men's Association the matter of having a paid secretary to promote the interests of Canyon and adjoining country was discussed very favorably. Why should not Canyon be able to maintain a paid secretary and the whole county help bear the expense, for it would benefit the entire county. The towns of the Plains weigh in that have forged ahead of the others have done so because they were ever marked alive to their opportunities and have complied men to push their opportunities and for development. There are counties on the Plains whose soil is no richer if as rich as the soil in Randall county, where the land valuation is 50 to 200 per cent higher. The only advantage was gained in publicity through paid agents. There are 576,000 acres of as fertile land in this county as can be found on the

Look Plains. An assessment of five or ten cents per acre would easily pay for a secretary to give us our due publicity, and if it advanced the price land, at per acre even one dollar, which it undoubtedly would, this county would have an increased value of ten times the cost or over a half million dollars. By all means, let's have a paid publicity man.

"COOLER" CANYON SHOULD BE ADVERTISED.

Canyon is slowly but surely beginning to realize her possibilities and assets. There is not another town in the state so closely situated to a natural park and play ground as Canyon. There are people passing thru all the time who do not know that they are close to a miniature Grand Canyon whose cliffs and gorges are second to the Great Canyon in Colorado. The waters of the creeks filling this great canyon are filled with fish as game as can be found, and as plentiful. There are no sign boards along the great highways passing through here telling the pleasure seeking travelers of these wonders and if there were there is an impassable barrier to this great natural playground in poor roads. When the hot days of summer come and people begin to look for the coolest place they can find outside of the cities, who has told them that the days on the Plains are cool and the nights cooler, but in Canyon they are actually the coolest, for there is not another town on the Plains that has that cool breeze from the south that so freshens Canyon. Why should people go to "cool" Colorado for scenery and rest when "cooler" Canyon has it? The only difference is that "cool" Colorado has been advertised and Canyon is cooler and has not been advertised. No greater investment could be made for Canyon than in building good roads and inaugurating an advertising campaign.

DAIRY STOCK WILL PROVE PROFITABLE TO RANDALL COUNTY FARMERS.

Many farmers of this section pay their grocery bill with their poultry produce and many are beginning to receive a handsome weekly check for their cream. A cream station will soon be opened here, we are told. The small farmer will soon see the wisdom of getting rid of their scrub cattle and keeping a few high grade milk cows. The bankers all over the country are coming to the point where they will not lend money on scrub cattle, but all are anxious to help the farmer get a start with good grades of thoroughbreds. There is a reason for this. If the banker does not consider scrub cattle good collateral for loaning money the farmer should realize what a poor investment they are, and get rid of the drones.

The local bankers have signified their willingness to back the farmers in a financial way to make the change. Randall county is an ideal cattle section, and there is a steady market for their cream, many now receiving 66 cents for their butterfat. A cream check is regular every week in the year and would mean a good income for many farmers who find themselves pushed for ready cash between harvests. Any farmer who is interested in getting some good dairy stock and developing the dairy industry here should consult his banker and the county agricultural agent.

Travel The Thrift Road.

Dallas, Texas, April 10.—Railroad agents in the Eleventh Federal War Savings District are urged to "pop the question" by Frank M. Smith, Federal District Director of War Loans. Nothing matrimonially inclined is intended, the question being one of thrift, "How about a Thrift Stamp today?"

Mr. Smith has written a letter requesting the railroad agents to ask this question every time a person comes to their window to buy a ticket. He called attention, in the letter, to the fact that several million dollars were invested in War Savings Stamps last year through Railroad Agents.

"Every time you sell a Thrift Stamp to a traveler," he says, "you have given him transportation on the Thrift Road and every War Savings Stamp you sell means that you have reserved accommodations for someone on the Independence Pullman."

"Let's get more folks to traveling the Thrift Road. Every time you sell a Thrift Stamp or a War Savings Stamp you are assisting your Government and helping someone to make a wise and secure investment. Half a dozen words from you will get lots of folks started off on the Thrift Road. To every person who comes to your window for a ticket this year, won't you say, 'How about a Thrift Stamp today?'"

Articles Subject to Taxation.

This paper is just in receipt of a communication from Judge A. S. Walker, Collector of Internal Revenues, at Austin, Texas, outlining the provisions of that portion of the new revenue bill imposing taxes on miscellaneous luxuries and semi-luxuries. This portion of the bill affects almost every class of business from the street vendor of candy and soft drinks to the manufacturer of automobiles and motor trucks.

One Section of the law places a tax on all persons selling real and imitation jewelry, precious stones, watches, clocks, opera glasses, etc. Sculpture, paintings, statuary, art porcelain and bronzes.

Another Section of the law imposes a tax on all manufacturers of the following articles:

- Cereal beverages and soft drinks.
- Mineral Waters and table waters when sold in bottles or other closed containers. It also applies to all soft drinks, ice cream sodas, etc., prepared and sold at fountains. It applies also to manufacturers of automobiles, trucks, inner tubes, and accessories therefor.
- Pianos, organs, graphophones, music boxes and records.
- Tennis rackets, skates, fishing rods, games and all similar articles commonly known as sporting goods.
- Chewing gum, candy, photographic films and plates.
- Firearms, shells and cartridges.
- Hunting, bowie and dirk knives.
- Portable electric fans, thermos-bottles.
- Cigarette holders and pipes.
- Automatic slot-device vending machines.
- Liveries and livery boots and hats.
- Hunting and shooting garments and riding jackets.
- Toilet soaps, toilet articles, patent and proprietary medical preparations.

Still another part of the law places a tax on all sales of certain articles when the selling price exceeds a prescribed amount. This Section affects sales of the following articles:

- Carpets and rugs.
- Picture frames, trunks, traveling bags, suit cases, pocket books, purses, shopping and hand bags.
- Umbrellas, parasols and fans.
- House or smoking coats or jackets and bath or lounging robes.

Failure to make the required reports will subject any dealer to penalty.

Statement of Ownership.

Statement of ownership, Management, Circulation, Etc., Required by the Act of Congress of August 24, 1912, of The Randall County News, published weekly at Canyon, Texas for April 1, 1912.

State of Texas, County of Randall, ss.
 Before me, a notary public in and for the State and county aforesaid, personally appeared W. E. Thatcher, who, having been duly sworn according to law, deposes and says that he is the publisher of the Randall County News and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the act of

August 24, 1912, embodied in section 443, Postal Laws and Regulations, printed on the reverse of this form, to-wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are:

Publisher W. E. Thatcher, Canyon, Texas; Managing Editor W. E. Thatcher, Canyon, Texas; Business manager, Oscar Hunt, Canyon, Texas.

2. That the owners are: (Give names and addresses of individual owners, or, if a corporation, give its name and the names and addresses of stockholders owning or holding 1 per cent or more of the total amount of stock.)
 W. E. THATCHER,
 Sworn to and subscribed before me, this 11th day of April, 1912.

(SEAL) A. N. HENSON,
 Notary Public.
 My commission expires June 1, 1919

D. L. Keiser, Canyon, Texas.
 J. W. Reid, Canyon, Texas.
 Herb. R. Miller, Canyon, Texas.
 Oscar Hunt, Canyon, Texas.
 3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: (If there are none, so state.) Mergenthaler Linotype Co.

W. E. THATCHER,
 Sworn to and subscribed before me, this 11th day of April, 1912.
 (SEAL) A. N. HENSON,
 Notary Public.
 My commission expires June 1, 1919

AMRIGHT CLOTHIER
AMARILLO, TEXAS

PERSONAL MENTION

Get into a War Savings Society and get out of debt.

Born to Mr. and Mrs. S. M. Downing, April 8, a 12 pound boy.

S. B. Orton left Sunday for Wichita Falls, Texas, to look after his oil interests.

Take a lesson from the ant. He works with others. Get into a War Savings Society.

100 pairs of Pumps and Oxfords at half price for next Monday at Canyon Supply Co.

Arch Bates has arrived home from France having received his discharge from the army.

R. L. Blankenship of Decatur, Texas is here this week looking after land he owns southeast of Canyon.

Grady Holland is in Ft. Worth this week attending the big Shriners entertainment being given there.

Oscar Hunt and wife have left Mineral Wells and are now visiting their old home in Madisonville, Tenn.

P. J. Fullingim of Decatur, Texas, was here yesterday to look at Randall county land with a view to investing.

E Thatcher is here visiting his son, W. E. Thatcher, en route to his home in Plainview after spending the winter in LeCompton, Kansas.

A new John Deere one-row lister will be sold at auction on Monday, April 14, next Trades Day, offered by Thompson Hardware Co.

George Jones sold out his filling station last week to R. E. Foster and left for Burkburnett, Texas, to look after his oil interests.

Tice (Casey) Moreland is home from France, having received his discharge. Casey was in several big battles and was wounded twice.

Buy a new lister from Thompson Hardware Co., on Monday, April 14, Trades Day and get a \$5 War Savings Stamp in addition to the \$5 discount.

Mrs. W. B. Hicks and Children of Brownfield, Texas, who have been visiting her parents, Mr. and Mrs. John Knight for the past two weeks returned to her home on Wednesday.

Mrs. Wheeler, a field representative of the W. C. T. U. spoke to a fairly large audience in the court house Tuesday night. Those present report she is a fine entertainer and impersonator.

T. C. Thompson has received the window posters and windshield stamps and other literature for advertising the Victory Loan campaign here. The campaign will open the 21st of April and Canyon will probably do her share in the subscription of the loan.

Corporal Walter J. Hess of the 46th Engineers was one of the seven hundred casualties, that arrived on the U. S. S. Suggestehanna from France, last week. He is at the base hospital, Camp Merritt, N. J., and is slowly improving.

S. R. Shambaugh left yesterday morning for San Diego, California, after a weeks visit here at the Joe Gamble home. Mr. Shambaugh was recently discharged from the U. S. Aerial service there, after receiving a commission as a flyer and he expects to return to take up special aviation work.

B. A. Stafford left Monday morning for Atlanta, Georgia, to attend the Classical Association of the Middle Western South Convention, which will meet there on the 9th to 11th incl. Mr. Stafford was a student in Emory College in Atlanta 37 years ago and this is the first time since that he has returned to Atlanta. The body is composed of teachers of Classical subjects. While there Mr. Stafford expects to tell them of the wonderful school out here.

THE BRICK CHURCH.

All Saint's Episcopal Chapel, Canyon. Evening Prayer Service and Sermon by Archdeacon Garner, at 7:00 o'clock p. m.

Sunday School at 10:00 a. m., for the Juniors and at 11:00 for the Seniors.

There will be no morning services this Sunday, but a very earnest invitation is extended to all, both to the Sunday School and the Evening service.

PRESBYTERIAN CHURCH

Sunday School at 9:45 a. m.

Preaching at 11:00 a. m.

A. B. HAYNES, Pastor.

M. E. CENTENARY MOVEMENT GETS BIG GIFT

The Centenary movement recently inaugurated in the M. E. Church South to celebrate their one hundredth anniversary of missions, has in the past few days been the recipient of a gift of \$5,000,000. The movement proposes to raise \$35,000,000. This information was furnished by Rev. R. A. Stewart who has just returned from a centenary meeting at Plainview.

Dr. F. M. Wilson and Rev. R. A. Stewart went to Plainview Tuesday to attend a Centenary Rally of the preachers and laymen of the Plainview District.

CHURCHES

BAPTIST CHURCH.

10:00 a. m.—Sunday School.

Variety Store

The Sophomores were picnicing last Monday. The chaperones were Mr. Donald and Misses Michel and Walker. They spent the morning in Coolidge's Draw. That afternoon they hiked down the main canyon. It was an ideal day but strenuous. Tuesday all the Soph's said it was a fine trip, but

The Senior Home Economics Class made an inspection trip to Amarillo Monday. Miss Rambo met the class

Redfearn & Company

are prepared to wait on the Trade Monday with a line of special prices on

Dry Goods, Shoes, Coats, Suits and Notions

that will surprise you.

Everything will be placed on the counters and marked in plain figures.

Look over our line of Girls' House and School Dresses.

An excellent line of Ladies' Spring Suits, Dresses and Coats.

An excellent line of the latest in Ladies' and Men's footwear just received.

YOUNG MAN: Let us take your measure for a new spring suit.

Monday is the Big Day at our Store

there at noon. She conducted them through Candy Factories and other places of interest.

Mrs. Wheeler, a National representative of the W. C. T. U., gave an interesting talk in chapel Tuesday.

At noon last Friday, the Domestic Science Dept. gave a luncheon in honor of Miss Annie Webb Blanton, state superintendent of Public Instruction, and Dr. Roberts, President of the Las Vegas Normal College. The following guests were present: Miss Blanton, Dr. Roberts, Mrs. E. B. Ritchie, Misses Bell, Hudspeth, Ritchie and Malone and Mrs. Hill, and Messrs. Hill, Allen, Stafford, and Shirley.

Dr. Roberts and Miss Blanton were guests of honor at a six o'clock dinner Friday evening given by Dr. and Mrs. Garth.

Misses Willie Kate Meador, May Gustaves and Marquette Hall of Amarillo spent the week-end in Canyon.

Mr. Stafford is attending a meeting of the National Classical Association at Emory College, Oxford, Georgia. Emory is Mr. Stafford's Alma Mater, and he wished to visit it before it is moved to Atlanta. It has been 37 years since he was on the old campus, and there are only two of his teachers living.

Mr. Dufflot made a talk in Pampa Sunday night on "The Community High School Building."

Mrs. Tommy Montfort spent the week-end in Canyon.

Miss Mattie Jordan spent last week-end at her home in Tulia.

Miss Katherine Jackson of Umbarger spent last week-end in Canyon attending the Panhandle Teachers' Association.

Leora Renison spent the week-end with her parents at Wildorado.

Miss Volly Dison and Lula Parmley visited the week-end in Wildorado.

Misses Lillian Rankin, Vera Skeen and Elsie Ogden of Plainview attended the P. T. A. Friday and Saturday, in Canyon.

Misses Brown and McClesky spent Monday in Amarillo.

Misses Hazel Maxey and Eula Bell Hale were Amarillo visitors last week-end.

Misses Thelma Rogers and Birdie Fullbright spent last week end at their homes in McLean.

Frank Gyles of Hereford was in Canyon Sunday.

Arthur Miller, Emery Burns and Foye Terry went fishing Monday. They report that all the fish have emigrated to the south to spend the winter.

The following is the number of Normal students attending the various Sunday Schools last Sunday in spite of the breezy weather:

Baptist—Boys 18, girls 32.
Methodist—Boys 15, girls 30.
Presbyterian—Boys 8, girls 12.
Church of Christ—Boys 3, girls 16.

The work of beautifying the campus continues. Saturday afternoon Lovers' Lane was pushed toward completion by the setting out of shrubbery, with a border of violets in the circle directly in front of the main entrance.

Misses Malone, Frances and Ritchie and Geo. Ritchie spent Monday in Amarillo.

The Sesames had the good fortune of clearing \$16.00 on their candy sale Friday. If the proof of the pudding lies in the eating, the girls can truly say their sale was a success. Encouraged by this success they served lunch Saturday and had equal success. Enough money was made to more than pay for their annual space.

Mr. and Mrs. S. B. Lofton who have been visiting for the past two months in Corpus Christa returned this evening.

The Gals that Does Not Affect the Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE, INC.

After the Show

VISIT OUR CREAM PARLOR — where you will feel at home. The service is excellent and the music good. And while there buy that box of Easter candy.

HELLO, BOYS!

Like every other American you are glad to see the young fellow who is just back from France. You are just as glad to see the disappointed youngster who got no farther than the training camp. Both represent our fighting force to you.

That one failed to reach France doesn't lessen the warmth of your handclasp one whit. Nor the sincerity of your welcome. That was the fortune of war. It's the willingness to fight that counts.

And you are just as proud of what the army did over there. You like to think of Chateau Thierry, Verdun, Belleau wood, the Argonne forest and all other places where the Yanks clashed with the Hun as samples of American pluck.

Nor has it all lessened your conviction that America is the greatest land under the sun. Breeds the gamest fighters; the most loyal citizens; the truest lovers and real appreciators of liberty.

Live up to your boast. Lend like a man to the Victory Liberty Loan.

Proved safe by millions

Uncorked The Gasser.

If there is anyone in Amarillo who was skeptical about the big gas well out north of the river, they had ample opportunity to become convinced of its reality, last Sunday.

The Company announced that the big gasser would be allowed to "shoot" from 3 to 4 on Sunday afternoon and it certainly performed according to schedule.

It so happened that the weatherman picked Sunday for a day in which to move a large part of the real estate in this section and in consequence, the wind was so strong that the gas could not shoot as high up as it would have done on a still day. However, stones tossed into the pipe were thrown out through the top of the derrick and the force of the escaping gas was such that it was impossible to hold a stick over the top of the pipe.

The roaring of the gas could be heard above the wind for some distance away from the well and the demonstration was sufficient to convince all beholders that there is no camouflage about it.

A new derrick is being erected a short distance west of the gasser and an attempt made to locate the pool of oil which is certainly somewhere in that vicinity. The gas will be piped and used for fuel in drilling the new well.—Southwest Plainsman.

Outside The Pale.

An Albuquerque newspaper tells of two Texas youths being arrested in that city and sentenced to thirty days in jail for taking a bath in the Alvarado hotel, they not being guests. While this is an era of shattered precedents, that Albuquerque story is outside the range of probabilities. Vags and Texans do not steal baths, nor take them without permission. They do not grow up that way. Any thing else—but a bath, never.—Fort Sumner Review.

Calf Killed by Dogs

For several days dogs have gathered in George Simms' pasture just south of town and put in their time chasing his cattle. Yesterday morning these dogs caught one of the young calves and killed it.—Panhandle Herald.

Shipped Stock from Roy

Tip Mooney shipped two cars of sheep and one of cattle from Roy Wednesday. He took them to Shamrock, Texas, after inspector F. A. Roy had passed on them.—Roy (N. M.) Spanish-American.

Would Ban Paris Green.

Druggists and merchants handling spraying materials are being urged by the economics entomology department of the Wisconsin College of Agriculture to purchase arsenite of lead or arsenite of lead instead of Paris green this year. Insecticides should be ordered by the grower in February or March, says L. F. Gentner, one of the entomologists, and the decision to use some other spray than Paris green should be made now.

Experiments conducted in the field show that Paris green is not an economical spray material, as it causes severe foliage injury. On potatoes 2 1-2 pounds of arsenite of lead or 2 pounds of arsenite of zinc to 50 gallons of water may be safely used. The spray must be applied evenly and must be put on when the young bugs are beginning to hatch.

Although the arsenite of zinc should not be used on any other plants than potatoes, arsenite of lead may be used on all kinds of crops. One pound of it is not deadly in effect as a pound of Paris green, but it will not burn, it spreads and sticks better, and it is easier to handle in the spray.

Calcium arsenate has a still lower killing power and a slight tendency to burn, so it is not recommended where the other sprays are obtainable.

Everybody come to Canyon Trades Day, Monday, April 14.

AN UP-BUILDING FORCE

Regardless of climate or environment, Nature exacts her toll of wear and tear on the system and there is frequent need for an effectual aid to restore strength and vitality.

SCOTT'S EMULSION

A systemic strengthener, free from alcohol, nourishes and replenishes the needs of the body naturally. Scott's may be used daily, in any climate, with benefit and strength to the body. Take Scott's Emulsion—it builds up the body.

**To Lend on Texas Farms by the
Federal Land Bank of Houston.**
Long time, low interest, easy payments.

Let Us Tell You About It.

W. J. Flesher, Sec.-Treas.
Canyon National Farm Loan Association.

**ARE YOU GENUINE
OR A CAMOUFLAGE
PATRIOT--WHICH?**

Analyze yourself! Are you a real, red-blooded American or are you a camouflage patriot? Do you really appreciate the great victory that our Government and our boys won for you? Do you realize that everything you have would be worthless or taken away from you and that you would have been little more than a slave if this victory had not been won? Have you stopped to think that thousands of men—big, strong, able-bodied men—have gladly died on the battlefield to give you the blessing of peace and victory? They gave everything—life, home, loved ones. Do you realize that there are thousands of mothers and sisters in our country who are broken-hearted today because they have lost their loved ones, but who proudly gave their sons and husbands to protect you and yours and bring victory?

How, then, are you showing your appreciation? Are you holding your War Savings Stamps and Liberty Bonds? Are you saving your money and lending it to your Government through the purchase of 1919 War Savings Stamps in order that the victory bill may be paid and the boys brought home?

Every time a War Savings Stamp is cashed that much money is drawn directly out of the United States Treasury—money that the Government had counted on using to pay the victory bill—a bill contracted in order that this would be a safe country for you to live in—money that it expected to use in feeding a soldier or sailor and bringing him back to the home-folks in Texas, Louisiana, New Mexico or Oklahoma.

A wise Government has made it possible for the owners of War Savings Stamps to cash their War Savings Stamps at the postoffice after giving ten days' notice. If one has had misfortune and has urgent need of his money all he has to do is ask the Government for it and back his money will come with interest for every day it has been left to the Government.

As an American, a patriot, one who loves his country, do you think the person is a real patriot, a sur-enough American, who at this time of the Government's great need cashes his War Savings Stamps if it is possible for him to hold them? Do you think he shows the proper appreciation of victory?

It was easy to be patriotic when the boys were in the thick of the fight, when the drums were booming, when patriotism is what one does now. Every person who can should hold his War Savings Stamps until the maturity date. Do you think a real American would cash his War Savings Stamps unless he was in dire need of the money?

War Savings Stamps are the safest investment in the world. They increase constantly in value and this constant increase is guaranteed by the Government.

Buy 1919 War Savings Stamps. They pay good interest. Save and have!

**CANADIAN AVIATORS
PROVED WISE BIRDS**

When the members of the Royal Flying Corps, who trained in the Eleventh Federal War Savings District, returned to Canada, many of them had become enthusiastic buyers of War Savings Stamps. Having been given a taste of buying Government securities for small amounts, they became so insistent that the Canadian Government inaugurate a system of War Savings Stamps, similar to that in the United States.

"The leading men of the world today," recently declared a Canadian financier, "those charged with directing its affairs, realize that the exercise of thrift is absolutely necessary for the restoration of normal conditions in all countries."

"It is to be observed also that these men consider it as necessary for the people of the United States and Canada—countries undamaged by the war—to save as it is for those of France and Belgium to do so. It is the condition on which financial and industrial recovery is based."

The Strong Withstand the Winter Cold Better Than the Weak
You must have Health, Strength and Endurance to fight Colds, Grip and Influenza. When your blood is not in a healthy condition and does not circulate properly, your system is unable to withstand the Winter cold.

GROVE'S TASTELESS CASH TONIC
Fortifies the System Against Colds, Grip and Influenza by Purifying and Enriching the Blood.

It contains the well-known tonic properties of Quinine and Iron in a form acceptable to the most delicate stomach, and is pleasant to take. You can soon feel its strengthening, invigorating effect. 60c.

**TREATY NULLIFICATION
IS ASKED BY CHINA**

TERMS DECLARED "INCOMPATIBLE WITH PRINCIPLE OF LEAGUE OF NATIONS."

ACQUIESCENCE IS ENFORCED

American Policy Held Up in Comparison to Japanese Demands in Shantung Province.

Paris.—The nullification of the 21 demands made by Japan early in 1915 is urged by the Chinese government in an official statement cable from Peking and received by the Japanese peace delegation.

The Peking statement declares that the Japanese treaties and terms forced upon China in 1915 should be abrogated "because their terms are incompatible with the principles upon which the league of nations is founded." The statement is largely a reply to a recent statement made by Baron Makino of the Japanese delegation on the position of Japan.

"Since the Japanese delegate in Paris," the Chinese statement says, "has pointedly referred to the 21 demands, it is incumbent upon the Chinese government to draw attention to the fact that China's acquiescence to terms subversive of her own interests were secured by means of an ultimatum to which she was forced to surrender because of the pre-occupation of the rest of the world in the European war. It is a fact that the terms were imposed upon China at the point of the bayonet, the example followed being that of Prussia; the extension to 99 years of the lease of Port Arthur and South Manchuria railways concessions being precisely the German Shantung terms."

"In a subsequent agreement secured by Japan under the former cabinet the principles followed have been equally dangerous, not only to China's liberty of action, but to her very independence."

Section of Ranger Destroyed.

Ranger, Texas.—Fire, which threatened the entire town of Ranger, recently destroyed two blocks in the heart of the business section, with a property loss estimated at \$100,000. One unidentified man was killed and several persons injured, none seriously. The fire originated in the rear of a restaurant on the main street and, fanned by a high wind, spread rapidly to adjoining property. With very little water available and no fire-fighting equipment dynamite was used to prevent the spread of the flames.

American Cows Will Restock France.

Washington.—American dairy cattle are to be sent to devastated districts of France, where they will do their "bit" toward restoring the health of the children of those regions. More than 100 head of purebred cattle, recently purchased by the French high commission and selected from the best herds by experts of the United States department of agriculture shortly will leave New York for Havre on a specially equipped transport.

Banking Department Bill Is Vetoed.

Austin, Texas.—Governor Hobby has vetoed senate bill 178 creating the state banking department and fixing the commissioners' salary at \$6,000 per annum. This leaves the department of insurance and banking as it stands and there will be no separation.

State C. of C. Meet April 11-12.

Dallas.—Strong and influential delegations of Texas business men will attend the first meeting of the state chamber of commerce in Waco April 11 and 12. Local organizations are expected to play an important part in the deliberations.

Texas Nurses Entertained by King.

New York.—The steamship Heredia from Brest, brought together eighty-two nurses, including contingents from Texas cities. All were guests of King George and Queen Mary when they passed through England.

Lift Embargo on Grain Movement.

Washington.—Removal of the embargo and permit system which has controlled the movement of grain to primary markets since last fall, is announced by the railroad administration.

Foch Orders Burgomaster Removed.

Paris.—Herr Mangold, the chief burgomaster of Sarrebrucken, in occupied Germany, southwest of Treves, has been removed from office by order of Marshal Foch.

England Prohibits Export Gold.

London.—An order in council just issued prohibits the export of gold coin or bullion anywhere.

Only \$27,900,000 in Anarchist Treasury

Washington.—All the gold that can be at the disposal of the Russian anarchists is \$27,900,000 plus the amounts seized in Moscow belonging to the banks of Roumania, which amounted to \$125,000,000, according to calculations made in official quarters. The question was raised by the announcement in New York of Ludwig C. A. K. Martens, who styles himself ambassador from the soviets of Russia, that he would deposit \$200,000,000 in gold as a guarantee to cover purchases.

Their Medicine Chest For 20 Years

It is characteristic of folks after they pass the allotted "three score years and ten," to look back over the days that are gone and thoughtfully live them over.

I find myself, at seventy-one, frequently drifting back a quarter of a century, when I see myself in the little drug store I owned at Bolivar, Mo., making and selling a vegetable compound to my friends and customers—what was then known only as Dr. Lewis' Medicine for Stomach, Liver and Bowel Complaints.

For many years while I was perfecting my formula, I studied and investigated the laxatives and cathartics on the market and became convinced that the main fault was not that they did not act on the bowels, but that their action was too violent and drastic, and upset the system of the user; which was due to the fact that they were not thorough enough in their action, some simply acting on the upper or small intestines, while others would act only on the lower or large intestines, and that they almost invariably produced a habit requiring augmented doses.

I believed that a preparation to produce the best effect must first tone the liver, then act on the stomach and entire alimentary system. If this was accomplished, the medicine would produce a mild, but thorough elimination of the waste without the usual sickening sensations, and make the user feel better at once.

After experimenting with hundreds of different compounds, I at last perfected the formula that is now known as **Nature's Remedy**, which I truly believe goes further and does more than any laxative on the market today. The thousands of letters from users have convinced me I was right, and that the user of **Nature's Remedy** as a family medicine, even though he may have used it for twenty-five years, never has to increase the dose.

My knowledge of medicine and the results of its use in my own family and among my friends, before I ever offered it for sale, caused me to have great faith in **Nature's Remedy** from the very first.

And now as I find myself nearing the age when I must bow to the inevitable and go to another life, my greatest pleasure is to sit each day and read the letters that each mail brings from people as old or older than I, who tell of having used **Nature's Remedy** for ten, fifteen and twenty years, and how they and their children and grandchildren have been benefited by it.

It is a comforting thought, my friends, for a man at my age to feel that aside from his own success, one has done something for his fellow man. My greatest satisfaction, my greatest happiness today, is the knowledge that tonight more than one million people will take a **Nature's Remedy** (NR Tablet) and will be better, healthier, happier people for it. I hope you will be one of them.

Sell Hogs Co-operatively

Recently more market hogs accumulated in the Newlands irrigation project, formerly the Truckee-Carson project, in Nevada, than could be handled by the local slaughterers. As a result a representative of the United States Department of Agriculture advocated co-operative shipments to be marketed in San Francisco. He arranged with the farmers to deliver their surplus porkers on a certain date, so that the animals could be shipped in carload lots. The total shipping and marketing expenses ranged from 1-4 to 1-2 cents a pound, so that producers realized a greater net income than from hogs sold at home. This initial shipment was so successful that henceforth the general farmers of the Newlands project intend to market all their surplus livestock in this manner.—Ft. Worth Livestock Reporter.

Field Peas For The Plains.

This is the one journal that has had the most to say about the value of the field peas for our mountain valleys and we are going to keep right on talking about it. By seeding early in the spring so blossoms and pods may form before the hot summer days come on, this crop can be grown much further out on the plains than is generally believed. Early seeding is really desirable in all sections as this crop is quite hardy. A clay loam not too heavy in texture affords an ideal soil provided there is good drainage in the subsoil. A sandy loam with ample moisture conditions also gives satisfactory growth. The seed bed should be moist and well firmed, but not hard, and in good surface tilth, so as to render plant food easily available to the young plants. Some successful pea farmers in Colorado seed this crop in grain stubble with a disc drill with good results but a well prepared seed bed would give more profitable returns. Plow in the fall where possible, spring disc, firm and level the ground for seeding. This should be the very first crop to put in after the frost is out of the ground sufficiently to get the seed bed ready. Many Colorado farmers find the grain drill one of the most satisfactory seeders which they can use. They stop up every other hole, or seed two holes and stop up two right through the drill box. This places the rows sixteen inches apart as most drills here in the west are eight inch, or two rows eight inches apart, with twenty-four inches between each pair of rows. If cultivation is planned the latter method is preferable. As the vines have a tendency to recumbent growth many farmers seed oats or barley with the peas to hold them up. The proportion is varied to suit their conditions and the purpose for which the crop is grown. Some folks use as high as 100 pounds to the acre, while in the San Luis valley, from thirty-five to fifty pounds is the usual amount.—Field and Farm.

"The Borrowers' Bulletin" is the title of a new publication by the Federal Farm Loan Bureau of the United States Treasury Department. Its purpose is to disseminate official information and to promote the farm loan business of the government.

What Is There In It For Me?
That is the question which is in the average man's mind when a proposition is before him.
That is the question which must be answered for the man who is asked to join the West Texas Chamber of Commerce.
What can we do for you?
Whether you are a shipper or not you are interested in the transportation service offered your community. Nearly every part of the country saw its train service reduced during the war but few cities of the country could say that their populations and business were increasing as much as five to twenty-fold while the train service was being reduced. Yet such was the situation in several West Texas towns.—West Texas must have better train service than ever before. We cannot get it merely by asserting that we want it. We must prepare statements of facts. That can best be done through an organization such as the West Texas Chamber of Commerce.

Our Traffic Department, E. P. Byars, Traffic manager, will not only assist in public matters but handle individual claims and complaints for the members.

There are two kinds of publicity work needed in West Texas and both can best be cleared through a great central agency such as the West Texas Chamber of Commerce.

First we must have publicity about our own problems for our own advice. We are handicapped by distance in West Texas and we do not always know just how much progress some individual or community has made in the solution of a problem that is common to our whole section of the state. Facts about irrigation, dairying, live stock, farming and all of our other industries must be gathered and placed at our disposal thru the medium of a central clearing house and information bureau which shall keep in daily touch with the press of West Texas and the members of the West Texas Chamber of Commerce.

Publicity for the outside world is needed to overcome impressions left abroad by the recent years of drought. The best way to overcome those impressions is to tell the world what we are doing now, to concentrate attention on this year.

There are vast quantities of scientific data about West Texas that has been gathered by various authoritative agencies but which have not been placed in the hands of the people. Our publicity department must also be a great information bureau. And through this department we must keep in touch with federal and state agencies which study such problems as the location of road building materials and make surveys of rivers and streams, giving information upon which irrigation and conservation projects can be predicated.

West Texas is a long way from both Austin and Washington yet we have had to look to those two capitals many times during the past five years—and often the results came very slowly. With one organization speaking for a million people and able to command the services of the strongest men in our section of the state to act as committee members we expect to be able to present the needs and demands of West Texas promptly and ably, and economically, not only to governmental agencies but in matters of finance, business and transportation.

The committees of the West Texas Chamber of Commerce are designated: irrigation, good roads, oil industry, live stock, dairying, poultry raising, growing crops and diversification, publicity and resources, traffic and transportation, rural education, and immigration. The members of these committees are to be men who have given years of study to those subjects—men who have a message for every other man facing the same problems.

Through the West Texas Chamber of Commerce we propose to take a referendum on any matter of great public concern to West Texas. We will then be able to have the public opinion of our section crystallized and in shape for expression. This, however, should not be taken to mean any dabbling in politics.—This organization has nothing to do with politics. Through these referendums we will be able to avoid divided counsel when West Texas speaks.

The West Texas Chamber of Commerce through its field managers who are experts in their various lines will be able to assist any community which is in the organization in its public endeavors. We will be able to assist and devise in the organization of Chambers of Commerce, fairs, campaigns for good roads or other public works. We will be able to put at the disposal of any community the facts and experience of other communities along any given line so that they will have in a few days or a week the information which they might otherwise spend months as-

"If It's Electrical, We Have It."

In the matter of road construction along the West Texas Chamber of Commerce should be able to save for our section of the State ten times the cost of organization by bringing expert aid to find the nearest and best road materials.

The West Texas Chamber of Commerce is chartered under the laws of Texas with a membership fee of ten dollars. The preliminary organization showed plainly that the people were ready to support this institution and it is going ahead with its plans to render service even while its field men are still organizing the various counties and bringing in the sustaining memberships. Headquarters have been opened in Stamford. The transportation and publicity bureaus are at work. The oil industry has already been assisted through the West Texas Chamber of Commerce. The field managers will tell you in detail how to organize your county and come in.

The woodwork of the county jail was destroyed by fire Wednesday morning, and three prisoners had a narrow escape with their lives.

The origin of the fire is unknown, but it seems certain that it started in the coal shed which was built as a "lean-to" at the north side of the jail. From this the roof caught, and all the woodwork was burnt out.—Estancia (N. M.) News-Herald.

A Coated Tongue? What it Means

A bad breath, coated tongue, bad taste in the mouth, languor and debility, are usually signs that the liver is out of order. PROF. HEMMETER says: "The liver is an organ secondary in importance only to the heart."

We can manufacture poisons within our own bodies which are as deadly as a snake's venom.

The liver acts as a guard over our well-being, sitting out the cinders and ashes from the general circulation.

A blockade in the intestines piles a heavy burden upon the liver. If the intestines are choked or clogged up, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste, and we suffer from headache, yellow-coated tongue, bad taste in mouth, nausea, or gas, acid dyspepsia, languor, debility, yellow skin or eyes. At such times one should take a pleasant laxative. Such a one is made of May-apple, leaves of aloe, jalap, put into ready-to-use form by Doctor Pierce, nearly fifty years ago, and sold for 25 cents by all druggists as Dr. Pierce's Pleasant Pellets.

STOCKTON, CALIF.—"For constipation, sick headache, an inactive liver, indigestion and biliousness there is nothing to equal Dr. Pierce's Pleasant Pellets. I have tried other things but like the 'Pellets' best of any."—Mrs. F. CAMPBELL, 209 S. Grant Street.

The end of an Imperfect Day

"Nervous Headache"

Nervous headache is the result of a run down weakened nervous system. You feel out of sorts—everything seems wrong—food disagrees with the tired stomach—you can't sleep and have a constant case of "the blues."

Rev. Geo. Hoffmann of New Cumberland, Pa., tells how he was cured after he had almost given up hope.

"Five or six years ago I became greatly worried on account of the condition of my nerves. I was prostrated and suffered so much I thought I would never be well again. I used one bottle of DR. MILES' NERVINE and began to improve from the first. I then used it until it completely cured me. It is without doubt the greatest nerve remedy ever discovered."

If you are troubled with a nervous affliction, you will find the first bottle of DR. MILES' NERVINE will bring relief. It is non-alcoholic and contains no injurious drugs—a safe, dependable and efficient family medicine. Ask your druggist about it.

Machine work and bearings a Specialty
SOUTHWEST CORNER SQUARE
Canyon, Texas

W. L. Thannisch, of Draper, was in town Thursday. He said that the people of his section would hold a meeting the latter part of this week for the purpose of securing enough leases on land to sink a test oil well in that section. Geologists have already been over that section and make most favorable reports.—Spur Texas Spur.

Shipped 8,000 Pounds of Hides.
C. W. Jackson, G. W. Jolly and W. F. Miller shipped about 8,000 lbs. of cattle hides last week.—Taiban (N. M.) Valley News.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Frezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off. Frezone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

Knocked Down By Lightning.

Tuesday afternoon Albert Hartman, son of John Hartman, met with an accident at his father's farm north-east of the city, which was a narrow escape from death. He was plowing in the field with three horses, an older one and three young ones. A storm came upon him and hail began falling when the horses became almost unmanageable. He got in front of the older horse, holding the younger ones. A shock of lightning knocked him and the older horse down, also a dog which was with them. When Albert recovered from the shock he was lying under the horse's head and neck. The other horses ran away and the dog had gone to the house, having recovered first. Albert got to a spring, secured a drink of water and on returning to the horse he supposed was dead, found him recovering. Except for swollen ankles and feet since, he has recovered. He says the last he remembered was a click like the snap of a match and the yelp of the dog. When he recovered the smell of sulphur was strong.—Springer (N. M.) Stockman.

The children are saving and buying Thrift Stamps. Don't let them out do you. Join a War Savings Society.

GIRLS! LEMON JUICE IS A SKIN WHITENER

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quarter pint of the most remarkable skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

COUNTY CORRESPONDENCE

HAPPY HAPPENINGS.

It began raining and sleeting Tuesday morning and we were very much surprised on Wednesday morning on getting up to find a regular blizzard raging, which was very unusual for this time of year. We have had between 4 and 5 inches and still snowing at this writing.

Fred and Elmer Bauer came in Thursday night from Camp Bowie, lately returned from France. It was a surprise to their folks as they were not expecting them for several days.

Miss Roxy Knox was shopping in Canyon Saturday and visiting her sister Jennie who is attending the Normal.

E. A. Logan who was reported on the sick list last week is able to resume his duties at the bank.

Earl Whitley made a business trip to Post City Saturday. He returned Sunday accompanied by his brother Richard, who went down to Post City some two weeks ago.

Alton Grounds was an Amarillo caller Saturday.

Earl Mann came in last week from the Border where he has been stationed for the past two years he having received his discharge.

B. F. Arnold went to Pampa last week on business. He bought a tractor outfit while there and is driving it thru.

Mr. and Mrs. Stone, our assistant cashier at the First State Bank are both down with flu in a mild form. They are both doing nicely.

The meeting that started last Sunday was postponed on account of the snow. It will begin next Sunday the 13th if the weather permits. Rev. Wowell of Higgins, Texas, is doing the preaching. Rev. Howell arrived Monday night but had to return home Wednesday on account of the snow.

Mr. and Mrs. Oscar Gano, Mrs. Winnie Gano and children, F. E. and Ruby and Grandson, W. L. Wilson of Canyon motored down Sunday and visited Mrs. Gano's brothers, S. T. and S. C. Whitman and families.

J. B. Knox made a business trip to Canyon Tuesday.

Rev. Watts made a business trip to Plainview Tuesday between trains. C. L. Gaten was a business caller in Tulia Saturday.

Sergeant James Gurley came in Thursday on a 10 days furlough to visit friends here.

Mrs. R. L. Dillon and children of Canyon were here Sunday attending church. They spent the day with Mrs. P. J. Neff and J. R. Franczy and families.

Ben Knox of Amarillo came in Tuesday to visit his brothers here, J. B. and Ellis Knox.

Word was received that Miss Mary Wooten of Cordell, Okla., had an operation for appendicitis last week. She is doing nicely. It will be remembered that Miss Mary was in the store of Wooten and Thornton for some two years.

One car of lumber for the derrick of the oil well to be put down by the Happy Oil and Gas Co., came in Tuesday. Work will be started as soon as they are able to have the lumber out. The well is to be put down on the southwest part of section 34, some five miles west of town.

Mrs. I. H. Weaver of Canyon has been visiting her daughter, Mrs. P. J. Neff and sisters Mrs. Rayburn and Misses Mary and Martha Neff here for the past week.

A memorial service was held Sunday afternoon for Elmer Zoellers who was killed in France in an auto accident. The service was conducted by the Lutheran pastor. The singing by the Union Sunday School of which he was a member for several years. The high esteem in which he was held was manifested by the crowd that attended the service. The house was packed and almost as many that could not get in.

J. C. Foster and Rev. W. C. Rose were business callers in Tulia Monday.

Joe Evans motored to Tulia Monday where he was transacting business.

One swallow does not make a summer nor one member a War Savings Society but don't let that keep you out.

For Men Only—Does not apply to War Savings Societies. They are for everybody.

Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEP-SIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 50c per bottle.

WAYSIDE WARBLINGS

Spring-like weather prevails with plenty of rain and some to spare. Farmers are getting in their oats with difficulty on account of so much rain. Fruit trees are blooming, and the grass growing. Everything is showing us spring is coming.

W. I. Lane was taken quite ill a week ago with the flu, but is taking the mail again now.

W. J. Sluder made a business trip to Claude this week.

S. C. Sluder of Kress, Texas, spent Monday night with his brother W. J. Sluder.

Doyle Payne is on the sick list this week—caught cold and is teething.

G. W. Mayo has set Tuesday the 8th to move to Clarendon. Edward Carter will assist in the moving.

Wm. Payne, wife and baby motored to Canyon Saturday returning Sunday, accompanied by W. J. Sluder and wife and Mrs. W. R. Franklin and boy who had been in Canyon for some days under treatment with a local doctor.

Mrs. W. I. Lane and three children have all been sick with the flu.

Mrs. W. C. Hamblen's baby has been quite sick, but is some better now.

W. D. McGehee is quite indisposed this week with indigestion.

W. C. McGehee and wife and little daughter, Aline made a trip to Amarillo the past week.

CAMPBELL NOTES.

Mr. and Mrs. Grant Belles and Miss Vashti were guests of W. H. Belles of Happy Saturday and stayed over Sunday.

Lester Galley and wife, relatives of Grant Belles, were visitors at his home Monday.

An election for trustees for the Campbell School was held Tuesday, April 1st. C. R. Stratton, S. M. Snider and Claude Price were elected.

Claude Price and family were visitors at the C. L. Gordon-Cumming home Sunday.

T. A. Dowlen and family visited Henry Beckman or Umbarger Sunday.

Mr. and Mrs. Holloway visited Mr. and Mrs. Brown Sunday.

Mr. and Mrs. Keith and family have moved on the Hix ranch.

A. W. Burgan is plowing sod for a row crop on his farm west of Canyon.

Stock Losses In The Storm.

The storm of a week ago is pronounced by old timers to have been the worst of its kind ever experienced in this part of the state.

A few losses of stock reported are A. V. Lyle, about 30 head of cattle, Osley & Culberson 40 head, Dick Born 50, W. O. Dunlap, Frank Chadder 28, Perfecto Casasa 60 sheep, Pose Martinez 60 sheep, H. H. Hassan 2 cows, W. E. Chapman 2 cows.

Dick Norris made a trip to Buchanan Wednesday and to Yeso Thursday. He says stock losses on the Yeso and Conejos ranges are appalling, in some instances reaching 75 per cent.—Ft. Sumner (N. M.) Review.

BUILDING IS URGED TO STIMULATE BUSINESS

FARM IMPROVEMENTS AND RURAL CONSTRUCTION WORK WILL AID READJUSTMENT

Farm products have a greater purchasing power today than ever before in the country's history. This may explain why rural districts of the country rapidly are getting under way with building and construction work. It is obvious, since building and construction work have such an important bearing at this time on stimulating general business, the farmer may serve both his own and the national interest by at once making needed improvements on his property. He can further the general welfare, while assuring himself of immediate and permanent benefits, in urging road construction and improvements in his locality.

It is generally understood no material reduction may be expected in building and construction costs in the near future. To be sure, prices on some materials may be slightly reduced in the readjustment, but the best authorities on the subject assert no pronounced reductions are probable, and the marked curtailment of production of building materials during the war. Prof. Fisher of Yale University has issued a statement in which he says the country is on a new price level from

which there will be no general recession.

Many farmers have been unable to get materials and labor for barns, silos, houses and other improvements during the war. The farmer who at once avails of the labor supply and gets his improvement work under way, in the long run, may prove to be the prudent business man, for there is reason to believe that farmers who delay in the hope of materially reduced construction costs will have been deprived of the use of these improvements and in the end be forced to pay approximately the building prices now prevailing.

In several States, among them Missouri, Oregon and Colorado, silo building campaigns are being carried on by the Agriculture colleges. In Wisconsin there is a milk house campaign being vigorously prosecuted in the dairy districts, while in Illinois the farmers are being urged to build feeding floors. Other campaigns for farm improvements are on in Nebraska, Minnesota, South Dakota, Kentucky, Ohio and in localities in Texas and Iowa. While many of these are being conducted by building interests, the Division of Public Works and Construction Development of the U. S. Department of Labor is interested in seeing them successfully carried out because the Division realizes such activities on the farms are bound to have a beneficial effect on general business conditions.

The farmers of the country should have an unusual interest in road building at this time. If farming is to continue on its present profitable level, there must be no business stagnation in the country and the vast road building projects in the various States are destined to exert

a profound influence in keeping "business as usual" or "better than usual". Road building creates a demand for materials and absorbs labor, and the labor problem is a serious one at present and will continue serious until American industries have readjusted themselves to peace production on a scale to meet the augmented demand of America and Europe.

The Trans-Mississippi Readjustment Congress, held in Omaha, Nebr., late in February, summarized the present situation in the following language:

"We do not favor a pause in the industrial process to await some future readjustment of wages and prices of staples. So far as public improvements are concerned, they should be resumed at once. It is better that the public should absorb the increased cost, if any should hereafter appear, than that general unemployment and consequent disaster and social disorder should follow."

"We believe also that the promoters of private construction and business enlargement should take heart of courage and should believe in the immediate resumption of business prosperity in the United States. There is no place in the American scheme of things for the pessimist or the doubter. Our country today leads the world in prosperity. It can lose its leadership only by its own faint-heartedness. We especially depreciate any concerted holding back of construction and business resumption, for the purpose of forcing a reduction in wages or cost of material."

"Both as a means of stimulating the resumption of industry and removing the shadow of unemployment from the working people and also serve the broader and more permanent purpose of supplementing the railroad lines and to develop the inland and farm commerce of the country, the work of constructing good roads should be promptly carried on by cooperation of the Federal and State Governors and local communities."

In the recent Conference of Governors and Mayors in Washington, it was apparent that these executives were disposed to go in for extensive road and public improvements campaigns in their respective districts. These can be made a success only when they are supported by the citizens. For this reason, the farmer, as well as the city dweller, who understands how importantly building and construction work now is, effecting general business conditions, will back up his local officials in every reasonable campaign for road building and public works of a necessary sort.

100 pairs of Pumps and Oxfords at half price for next Monday at Canyon Supply Co.
News and Plainsman \$1.50 per year.

Stay at Home=Bank by Mail

Farmers and others who find it inconvenient to come to town regularly can make profitable use of our bank-by-mail service. Through this service you can make deposits, transfer money, pay bills, and transact business of various kinds without leaving home.

Those who avail themselves of this service are assured of the same prompt and courteous attention as if they came to the bank in person.

With the season of bad roads and bad weather at hand, now is a particularly good time to use the mails or telephone in transacting your banking business.

Capital and Surplus, \$75,000.00
MEMBER FEDERAL RESERVE BANK

RED CROSS WILL GIVE HOME HYGIENE INSTRUCTIONS

(Continued from page one.)

venson, Director of the Bureau of Class Instruction, gave a detailed outline of class procedure.

The ignorance of health principles in some of the rural districts is almost unbelievable—where superstition has become so involved with knowledge that a baby cannot be weaned save at a certain stage of the moon, and a raw potato is supposed to have peculiar medical qualities! In a town of 4,500, in the recent epidemic, they could muster but one graduate nurse to handle 375 "flu" cases. Such cases as this prove the appalling need for public health instruction.

Some criticism of this endeavor to propagate this national health has reached our ears. It has been on the presumed grounds that we are going to teach nursing; that we are going to issue nurses' certificates to women who have taken the course. This is wrong. We are not teaching nursing; we are not flaunting the women who have taken this course as full-fledged nurses. It is simply a course in Home Hygiene and Home Care of the Sick. The motive is to prevent sickness and to teach the housewife to care for the minor illness that cannot be, or have not been avoided. It aims to acquaint every woman with the knack, science and art of keeping the home sanitary, and of keeping her family well.

Do you know how to make a bed so it won't wrinkle no matter how much your patient tosses? Do you know how to give medicine properly, if it must be given? Do you know how to read a thermometer? How to give a bed bath or a temperature sponge? How to turn a mattress with the least annoyance to the sick person? Do you know how to keep cockroaches out of your kitchen, how to prevent congestion in your sink, and how to maintain sanitary plumbing? These represent some of the precious information to be gained from the Home Hygiene course.

As soon as the community is organized and the Public Health Nurse installed, the instructor in Home Hygiene withdraws and the Public Health Nurse will take over the work of class instruction as part of her regular duties. For a long time the need of disseminating public health principles has been felt. It needed only an epidemic such as the "flu" to make this need poignant to everyone. In communities where the course in Home Hygiene has already been given, or is being started, the greatest enthusiasm is displayed. A step forward will be taken in our present civilization by the enlightenment and health knowledge which the course in Home Hygiene and Care of the Sick will inevitably spread.

Training School Notes.

There were only half day sessions in the Training School last Friday and Saturday because of the P. T. A.

There was a joint meeting of the Junior and Senior Y. W. C. A. last Saturday. Twelve Amarillo girls were making a return visit for the one made them some time ago by representatives from our Y. W. C. A. The visitors entertained with talks

LOST—On March 19, one red pig. Any little boy who brings him back will get fifty cents. He had loops of wire in nose and left ear. E. Gatewood. 1-p1

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts your liver without making you sick and can not salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails, give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel.

Special Trades Day Offer

First Class Farming Implements are Necessary for Efficient Farming

Canton Four Wheel Riding Lister

An easy lift is secured by a balance spring on the lever. The bottom works on a single ball and it takes the ground the instant it is lowered. Long bearings on the axles prevent the frame from wobbling, and gives it the strength and rigidity needed for the best work. The Canton is one of those easy running machines you sometimes hear about, but don't always see, unless it is a Canton. We want you to see this lister before you buy. It's a dandy.

On Monday April 14, Trades Day, a \$5 War Saving Stamp will be given with every Lister sold in addition to the usual \$5 Trades Day Discount.

THOMPSON HARDWARE CO.
