

CITIZENS URGE EXPANSION OF THE AGRICULTURAL, DOMESTIC SCIENCE DEPARTMENTS BEFORE REGENTS

CITIZENS OF PANHANDLE-PLAINS FAVOR INCREASING DEPARTMENTS IN WEST TEXAS STATE NORMAL

That the West Texas State Normal College should develop the Agriculture, Domestic Science and Manual Training Departments in order to give the boys and girls of the Panhandle-Plains county four year courses was the sense of the meeting held Monday between the faculty of the Normal, citizens of Canyon, representatives of the Panhandle-Plains Country and the Board of Regents.

That the school can do this with an appropriation of \$100,000, which should be given by the legislature for this specific purpose was the opinion of Representative Lee Satterwhite of Panhandle.

That the citizens of Canyon will do everything in their power to make the Normal the greatest school in Texas, was the expression of Mayor J. D. Gamble and other citizens of Canyon.

That the churches of Canyon are looking after the welfare of the young people who come here was explained by Archdeacon Wm Garner.

That the counties of the Panhandle look to Canyon as the educational center of this empire which is bigger than either the states of Indiana or Ohio, was stated by Frank R. Jameson, Secretary-Manager of the Panhandle-Plains Chamber of Commerce.

That the West Texas State Normal College was going to be the leading school in the state of Texas by the spirit of cooperation shown among the citizens of the Panhandle-Plains county was freely expressed by the members of the Board of Regents.

The members of the Board of Regents for Normal Schools of Texas were received Monday on their tour of inspection of the five schools in the state by members of the faculty, the student body, citizens of Canyon and representatives of the Panhandle-Plains country, all of whom expressed delight in having this able body of business men who were devoting some time from their own personal affairs to look after the interests of the state's educational system.

"The finest meeting we have ever had in Canyon," stated President A. C. Goeth of the Board, as the party left in the afternoon to visit the other schools. Other members of the Board expressed their appreciation of the greetings received in the city and of the excellent condition in which they found the West Texas State Normal College.

A last minute change in plans was made necessary when the Board arrived so late in Amarillo that they chose to come to Canyon by auto rather than catch the early train on Monday morning. Hence, the party was not welcomed at the station by the band and committee of citizens, but drove directly to Huntleigh Hall where they were the guests of the girls of the Hall and a few of the citizens.

After a splendid breakfast, the girls of the Hall entertained the guests for some time with some stunts, which were unique and very appropriate for the occasion. Each of the members expressed himself very grateful for the entertainment provided by the hostesses for the occasion.

The remainder of the morning was spent with Pres. J. A. Hill in looking into the affairs of the school and planning for the future. The Board highly pleased at the large enrollment of the Normal and the rapid growth which the school has made since its establishment in Canyon.

Some of the schools of Texas show a decided decrease in attendance this year, while the West Texas State Normal College shows a decided increase in attendance.

At 12:30 luncheon was served by the Domestic Science Department under the direction of Miss Rambo. Words of praise were echoed upon

every hand for the excellent four course luncheon and the perfect service of the girls of this department. During the luncheon the Normal orchestra under the direction of Prof. Wallace R. Clark played a number of highly appreciated selections. Mr. Goeth praised both the Domestic Science and the Music Departments very highly, and promised if President Hill would bring such a treat as was served to the legislature next session the doors of the treasury's vaults would be thrown open to the school.

In introducing the speakers for the occasion, President Hill stated that he had invited the members of the City Council, the Commissioners Court, the City Health Officer, the president of the Randall County Commercial League, the Superintendent of the Public Schools and the Chairman of the School Board, the ministers of the city, the Secretary of the Panhandle-Plains Chamber of Commerce, and State Representative Lee Satterwhite, in order that all might know each other better and work better together in the interest of the school.

After paying his compliments to those who had provided the luncheon and the music, President Goeth expressed his appreciation of the presence of the different representatives upon the occasion. He was highly pleased at the spirit of cooperation shown and pointed out the necessity of continued cooperation if the school was to grow as it should. He pointed out the returns the community had already received from the school and that only short sightedness on the part of the citizens would cause this assistance to cease.

Mayor J. D. Gamble was called upon and stated that the citizens of Canyon and Randall County were behind the school solidly in all of its undertakings.

C. W. Warwick, president of the Randall County Commercial League, stated the public improvements the city had in mind for the coming year and offered the assistance of the organization to any plans that would have to do with the upbuilding of the institution.

Archdeacon Wm Garner was called upon by Mr. Hill and told of the work his church was planning in the

city in the building of a \$36,000.00 dormitory for girls which would offer home environments to the girls coming to the school. He highly praised the spirit of cooperation he had found in the city while making a canvass for funds to buy the lot upon which the dormitory is to stand.

County Judge C. R. Flesher stated the Commissioners Court stood ready to do its part in all work of cooperation and development.

Martin O. Flower stated that with the cooperation shown by the citizens of Canyon this was destined to be the biggest school in Texas. He praised the fine people of this community, as to what they had done, and what was expected to be done. He deplored the spirit shown in some of the other towns where normal schools were located.

Robert J. Eckardt stated that he had always advised young people to first attend a normal school. He praised the climate of the Plains and praised the people of the Plains. He dared the state of Texas to do as much for the West Texas State Normal as the people of this community had done. He had never seen better surroundings for a great school than in this section. If all of the section will stick together, go to Austin and show the legislature, the school can get all it wants.

Frank R. Jameson, Secretary-Manager of the Panhandle-Plains Chamber of Commerce was called upon and threw out statistics so fast regarding the possibilities of this section as to astound even those who have lived here for years, seeing the conditions all of the time, but little realizing the magnitude. The section embraced in the Panhandle-Plains comprises 38 counties, with 22,000,000 acres of land, larger than Ohio or Indiana. 71 percent of this land is tillable, and 27 percent is now under cultivation. There is a population of 300,000 or 8 to the square mile. The small grain crop of 1919 amounted to 136 millions of dollars or more than the output of all the oil wells of Texas. If all of the products of this territory were taken into consideration, it would amount to \$300,000,000. Canyon is looked upon as the center of the educational system of this section. Every section of this empire has paid in by far more taxes that it has ever received back from the state for education. Many counties of east Texas are drawing out more than they put in. There has not been a crop failure in this section in 21 years. The boys and girls of this section should have an opportunity to study agriculture in this section which raised more wheat in 1919 than all of the state of Kansas and more cattle than all of the rest of Texas. The boy who wants to study agriculture should get a chance here at home under conditions in which he will have to live. The state of Texas is increasing the agricultural department of the Normal will only be loaning money which it will get back in increased taxes resulting from the increased production of the section.

Representative Lee Satterwhite told how it was his plan two years ago upon going to the legislature to ask for a Junior A. & M. College for the Panhandle. After seeing the vast amount of money asked from the appropriation committee of which he is a member, he decided not to introduce the bill. This section of Texas must be developed. The most economical and practical solution is to build around the established educational center of the Panhandle, and develop the Agriculture, the Domestic Science and the Manual Training Departments. \$100,000 will do the work. To establish a new school in this section would cost the state at least \$500,000 as an original appropriation. Every boy in the Panhandle who wants a four year course in any of these subjects should be able to get it in the Normal College. An agriculture college located in West Texas and not on the Plains would be no better for the boys of this section than the one at College Station. 75 per cent of all of the students of all educational institutions in the United States come from within 100 miles of the school. The Canyon school has an area to make it the biggest and best school in Texas. Owing to the short time remaining

EULA CARSON IS KILLED IN WRECK

Daughter of Mr. and Mrs. C. L. Carson—Graduate of the Normal College—Auto Wreck.

Miss Eula Carson was instantly killed near Seardrift last Saturday when the car in which she and a number of young people were driving turned turtle, crushing Miss Carson and another young woman.

Miss Carson has been teaching in Seardrift for the past year. Very little information concerning the accident has been received in the city. Mr. Carson was in Ft. Worth at the time of the accident. He was reached Saturday by wire, and went to Seardrift after the body of his daughter. The remains were brought to Childress where the funeral was held at the old home of the family. The mother and other children of the family went to the funeral.

Miss Carson is well known in the city. She came here with the family four years ago on account of the school facilities. She was a very fine student in the Normal and has many close friends in the city who were shocked and grieved to hear of her untimely death Saturday.

The heart felt sympathy of a large circle of friends go out to the family in their great sadness.

It was impossible to call upon more of the guests.

President Hill stated that while he did not have time to go into detail with any member of the Board regarding the expansion of the school to cover the points in question, expressions of approval were made, and it is quite certain that the Board will lend its influence to the program of making the West Texas State Normal College a greater educational institution.

The members of the Board of Regents are:

- A. C. Goeth, President, Austin,
 - Robert J. Eckhardt, Taylor,
 - Martin O. Flower, Lockhart,
 - James F. Elkins, Houston,
 - A. B. Martin, Plainview,
 - A. B. Watkins, Athens.
- All were present except Mr. Elkins.

The Board left on the afternoon train to visit the school at Denton on Tuesday, Commerce on Wednesday, Huntsville today, and San Marcos tomorrow.

HIGHWAY COMPLETED-BUT NOT ACCEPTED THIS WEEK

Work was not completed Saturday for the acceptance of the highway through Randall County running from Happy to Amarillo. The state and federal engineers have not passed final judgment upon the work as one of the culverts had not been filled in. This fill will be made during this week so that the final inspection may be made and the highway accepted.

Infant Buried Sunday.

A son was born to Mr. and Mrs. Mortimer Johnson at their home in Amarillo Saturday and lived but seven hours. Mrs. Johnson is a daughter of Mr. and Mrs. M. B. Johnson of this city.

The body was brought here for burial in Dreamland Cemetery Sunday afternoon.

MISS HENRY EARL JACKSON DIED LAST NIGHT IN AMARILLO

Miss Henry Earl Jackson, daughter of Mr. and Mrs. Phil Jackson, died last night in Amarillo. She had an operation during the past week. She has been sick for some time. Miss Jackson was 19 years of age and a student in the Normal.

Arrangements for the funeral will be made during the day when the body is brought from Amarillo.

DORMITORY FUND WILL SOON BE COMPLETED—BUILD SOON

The committee in charge of the campaign to raise the money to buy the site for the new dormitory to be erected here by the Episcopal church has been very successful, and hope to have the full \$1000 this week. The church is putting \$36,000 into the new dormitory for girls and the city is giving the location.

Dinner for Dr. Vinson Friday.

Dr. Vinson, president of the State University, will be in the city Friday to attend the meeting of the Panhandle Teachers' Association and will be the guest of the Ex-Students' Association Friday night at a banquet which will be served at 8:30 by the Domestic Science Department of the Normal.

Miss Annie Webb Blanton, State Superintendent of Public Instruction will also be a guest of the Association.

Mrs. C. R. Burrow is chairman of the entertainment committee for the occasion.

Judge R. Walker Hall of Amarillo will be toastmaster. Dr. Vinson, Miss Blanton and President J. A. Hill will be among those to speak.

There will be about thirty from Amarillo, five from Plainview, four from Hereford and twenty from Canyon present at the banquet.

Baptists Again After Club.

Rev. B. F. Fronberger has again made a proposition to the members of the Canyon City Club to buy the club ground at \$85 per share for the purpose of establishment an Encampment Ground. The proposition was once before under discussion. A meeting of the stockholders will be held Monday, March 29 at which time the proposition will again be discussed.

Keep Fit Campaign.

Announcement has been made in Amarillo that a Keep Fit meeting is to be held in Canyon Saturday in connection with the Panhandle Teachers' Association meeting. So far no word has been sent to Canyon and no place on the program has been asked for by the promoters.

Opening Shining Parlors.

E. E. Foy is opening a new Shine Parlor on the east side of the square, just north of the Foy Tailor Shop. New fixtures are being installed and the Parlor will be in charge of an experienced man.

Stork Special.

Born to Mr. and Mrs. Philipp Foster Thursday night, a daughter.

Mrs. C. C. Miller of Lockney is a guest of Mrs. I. N. Hicks this week.

PANHANDLE ASS'N TEACHERS COMING

Panhandle Teachers Association Will Meet in Canyon Friday and Saturday of This Week.

The Panhandle Teachers Association will meet in Canyon Friday and Saturday.

President J. A. Hill stated yesterday that fully 200 teachers would be in the city for the association.

The following will be the program to which the public is cordially invited:

- General Theme**
"Looking Forward"
Officers
- President L. M. Fertch
Hereford, Texas
- Vice-President F. E. Savage
Tulia, Texas.
- Secretary Miss McMillian
Amarillo, Texas
- FRIDAY A. M.**
9:30
- Address of welcome—Prof. F. P. Guenther, Canyon, Texas.
- Response—W. A. Stigler, Supt. Schools, Canadian, Texas.
10:00-11:00
- Address—Dr. R. E. Vinson, President University of Texas, Austin, Texas.
11:00-12:00
- Organization—Registration.
(Continued on last page)

ASKS THAT NO CHANGE BE MADE ON FREIGHT RATES

With the return of the railroads to private ownership, the old question of freight rates is becoming a live question in the Panhandle section. The Panhandle-Plains Chamber of Commerce is taking up the fight for the shippers of this section and the organization asks that no change be made in the present schedules until the railroads have a chance to adjust themselves to the change in management.

Hamlin Palmer, of Amarillo and the traffic expert of this section is now in Washington to testify in the hearing now being held.

Moved Light Office.

A. J. Arnold has moved the office of the Canyon Light and Power Company to the room east of the First State Bank. He has fixed up a very neat and comfortable office for the convenience of the business and the display of electrical goods. The back part is fitted up for the battery business. Smith Bros. have subleased the east part of the front office.

In Amarillo Hospital.

Canyon has a number of her citizens in the Amarillo sanitarium for operations.

Mrs. Joe Black and Mrs. E. L. Pritchard were both operated upon Sunday for appendicitis. Both are doing nicely.

Mrs. Bert Newlin came home Sunday from the sanitarium. She is recovering nicely from her recent operation.

Miss Jackson, daughter of Mr. and Mrs. Phil Jackson, had an operation last week for appendicitis.

Miss Hudspeth is recovering nicely from the operation of last week on her eye. She has been suffering with her eye for months, and it is believed that the operation was successful in saving the sight.

Joe Beckman's daughter was operated upon Friday and is recovering nicely.

The daughter of Mr. and Mrs. Jack Ricks is not doing well. She will have to remain in the sanitarium for some time yet.

Chas. Taylor returned Monday from the sanitarium where he recently had an operation.

Hosea Foster had an operation Monday. He has never fully recovered from the operation he had a year ago.

DAVIS GETS TWO YEARS IN BOTH TRIALS THIS WEEK

Roy Davis against whom two indictments were returned by the grand jury, was given two years in both trials in the district court this week.

Davis was charged with forging a check and with stealing wheat, the jury in both cases finding him guilty. No other cases were tried this week, and the business of the term is about over.

The Grand Jury was in session Monday, and will have its final meeting tomorrow.

NOTICE!

To Our Customers:

If you hold any bonds of the following issues of temporary COUPON LIBERTY LOAN BONDS, they should be sent in and exchanged for PERMANENT BONDS:

Temporary FIRST LIBERTY LOAN CONVERTED 4 PER CENT COUPON BONDS;

Temporary SECOND LIBERTY LOAN 4 PER CENT COUPON BONDS;

Temporary THIRD LIBERTY LOAN 4 1-2 PER CENT COUPON BONDS.

All interest coupons of the above issues must be detached before bonds are sent in.

We will be glad to assist you in exchanging your TEMPORARY BONDS for PERMANENT BONDS, but must ask that you notify us PROMPTLY if you wish us to do so as we are now preparing our lists in which proper request must be made for exchanging bonds of the above issues, and these lists should go forward PROMPTLY.

PREWITT WANTS SHOW IN CANYON THIS FALL

History was made, and records broken by the House of Lillard on Wednesday March 10th, when George Lillard & Sons of Arlington sold 27 head of Durocs for an average of \$518.00.

The record breaking sale of Durocs held at the new home of George Lillard & Sons last Wednesday, March 10th was one of the best sales of the season, and was attended by breeders from several states that bid eagerly for the choice lot of sows and gilts driven out.

The sale was held in the new tile farrowing barn that is one of the best in the Southwest, and when complete will represent some thing like \$10,000.00. The Lillards have just recently purchased their new location on the interurban at Arlington between Ft. Worth and Dallas, and have laid out one of the most modern hog farms in the whole state, and it was stated by one of the best business men at Arlington that land had increased \$25.00 an acre since the Lillards had started to improve their farm.

Several hundred were present to partake of the fine barbecue served before the sale, and showed their appreciation of same by buying the offering in less than two hours. There were no unusually high prices, the top being Pathfinder Sow for \$1,525 and Miller Bros. of the 101 Ranch of Okla., were the buyers. The rest sold at an even run of prices, no offering going for less than \$300.00.

The visitors and breeders were entertained at night by a banquet given by the business men of Arlington, and served at the Grubbs Vocational College of that place. The spread was a triumph of culinary art, and was a high tribute to the head of the domestic science department.

This was the largest gathering of Duroc Breeders ever held in the Southwest and a rousing meeting, and great interest was taken in the speeches after the banquet. The meeting was addressed by some of the best talent in the state, most notable being Joe Haaga, Field Sec'y of the National Duroc Jersey Record Association. He made one of the greatest pleas for the breeders of the Southwest to give their hogs better attention, and showed them why we could raise them better and cheaper here than any where in the U. S.

He said that the reason the North and West raised so many show winners was that they were on the job 24 hours every day, and made their hogs the main consideration, and not as a side line as most of us do in this state.

A. L. Ward, Sec'y of State Swine Breeders discussed a chartered train of pullmans to carry a train load of breeders from Texas to the National show this fall, and said that it would do more to put Texas on the map in the hog business than all the advertising we could do. The train is to have banners stating that it is a train load of Texas breeders, the suggestion met with immediate favor and indications are that it will take more than one train to pull us.

President Prewitt announced his policies for the year, the most important being an aggressive campaign for new members, and set the mark of 1000 for his object by the fall meeting, and would divide the state in two districts and call on all loyal Duroc breeders to help put it over. The meeting then adjourned to meet in the college auditorium to see the Duroc winners at the last National show on the screen.

A committee appointed by the president drafted a set of resolutions of thanks to the business men of Arlington and the Faculty and Young Ladies of the college for their Royal entertainment.

Having had the great honor of being elected President of the State Duroc Breeders Association at its semi-annual meeting just held in Fort Worth, it becomes my duty to set the time and places for the District Futurity Shows in the state, and also to select the judges for the same.

For the promotion of our breed in the state, it is very desirable for us to have as many as we can support, and I am very anxious to have one at Canyon and if the Business Men's League will help and the Duroc breeders rally to the support of the breed we can have a good show. It will be the means of bringing a dozen or more breeders to Canyon some time the first of September with their show herds. This matter must be settled at once and I would like to hear from every man in the county interested at once.

R. E. PREWITT,
Happy, Texas.

WATCH EATEN BY COW 4 YEARS AGO STILL GOING

McAllister, Okla.—George Burton, prosperous citizen, with a good reputation for veracity, declares he left his watch in his barn three years ago.

Recently, Mr. Burton slaughtered his cow and, embedded in the animal's intestines, he found the lost watch. The timepiece, according to Mr. Burton, was ticking and but four minutes slow.

The only explanation Mr. Burton can give for the statement that the watch was running was that the passage of food through the cow's intestines had turned the stem and kept the watch in operation throughout its intestinal experience.

Hereford Land Sale.

What is said to be the largest price per acre ever paid by anyone for land in the Panhandle of Texas, dry or irrigated, was paid the past week for the D. L. McDonald eighty-acre irrigated tract in the northeastern portion of Hereford, and on which his home is situated.

The purchaser is S. E. Harmon, of Richwood, West Virginia, and the price involved was \$23,500.00, or \$293.75 per acre. The trade was handled by J. S. Warner.—Hereford Brand.

Railway Improvement.

Certainly the times had been difficult for a certain railway and the passengers had borne it all meekly.

As the months passed, however, and there were no signs of improvement the worm began to turn. One day a commercial traveler descended from a train at a small station. The train was only an hour and three-quarters late.

"I notice your service has improved very much lately," said the traveler to the station master.

"Can't say I've seen it!" snapped the official suspiciously.

"Oh, you must have!" the traveler spoke solemnly. "Why, the engines can whistle without stopping now!"

And yet there is one small bond of sympathy remaining between us and our foreign allies. They have the Turk and we have the Mex.

Malnutrition is as mischievous for the teacher as for the taught.—Philadelphia Public Ledger.

New York Evening Sun: It was at the public library. A small shaver clutched a well-worn, dirty volume. At last it came his turn to place his volume for the inspection of the librarian. The suspense was great, but finally the librarian leaned forward. Taking in the size of the book, she remarked:

"This is rather technical, isn't it?" Planting his feet firmly on the floor, the boy, half-defiant, half-apologetic, retorted: "It was that way when I got it, ma'am."

Tractors.

Ballinger Ledger: Most of the heavy plowing in Runnels county will be done by tractor power in the future, as well as the other heavy hauling around the farm. The tractor, like the auto, is here to stay, and a farmer can buy a good tractor for what three or four head of horses or mules will cost him, and the tractor will do the most work and on less feed, and will live just about as long, if properly cared for.

State Press in Dallas News: The tractor is coming into its own, but some farmers say it hasn't come quite as far as they would like to have it. There are, so said, some tractors on the market whose main usefulness appears to be by way of eating up gasoline. They have prodigious appetites and a fractious disposition, being out of sorts too much of the time. When a tractor burns up seven or eight dollars' worth of fuel in a day, as some plow tractors do, it has to do right considerable plowing to earn a profit, considering that the driver also has to be paid. Nevertheless, when a tractor is going good in a field, with an adequate operator and proper plows, it can turn over a big acreage. Tractor farming is on the way, undoubtedly, but there is a demand for tractors which burn cheap fuel and which have few of the refinements of automobile engines. A tractor whose lungs are strained every time it strikes a hard place in the ground is a poor plow horse. What is wanted on the farm is a tractor that can eat boiled beef, so to speak, and has wrought-iron in'ards. A farm tractor that prefers town life and rubber-tired engagements, with matinee refreshments, is a costly acquisition.

A Real Calamity.

Pittsburgh Post: It was in the Argonne. A regiment of colored pioneers from Dixie who had been inducted into the service had just received a batch of mail. But neither Jefferson Madison Monroe nor his particular side-kick, Washington Jones, was manifesting any great elation. In fact, they both looked decidedly in the dumps.

"Wash," mourned Jefferson, "I see the hard-luckiest nigger what was ever. I done just got a letter from mah gal, and she's gone and went and married another."

"Oh, man, man!" wailed Wash. "You don't know what hard luck am. Me, I just got a letter from de draft board what says I'm exempt!"

Woodrow is not himself—that's evident. In his letter to Senator Hitchcock he ended a sentence with a preposition and split an infinitive.—New York American.

Fortunate.

The German Scout car had blundered into the midst of a French outpost, and, in a hail of rifle bullets was making a speed to get away. Suddenly the man beside the driver put his hand to his shoulder and shivered.

"Why did you shiver, baron?" said the man at the wheel, too busy with his driving to look around.

"I couldn't help it," was the reply; "a bullet just went through my arm, and I thought what would have happened if it had hit the tire."

 Entered at postoffice at Canyon, Texas, as second class matter. Office of publication, West Houston St.
SUBSCRIPTION \$2.00 PER YEAR.

The Board of Regents has great faith in the West Texas State Normal College; the people of Canyon are backing the institution to the last single individual; the people of the Panhandle-Plains country have the future welfare of the institution upon their heart, and look to the school as their educational center. This section needs the facilities to teach the boys and girls of this section the proper ways in agriculture and industrial arts which are adapted to this section and to this section only. There will likely never be another state educational institution located upon the Plains. It is logical that these departments in the West Texas State Normal College be developed until they can teach the boys and the girls of this section of the state the problems that are confronting in our section. The cost will be little in comparison with the establishment and maintenance of another state school upon the Plains. The school is equipped to handle all of the subjects which must be presented together with the agricultural and industrial courses. The plan is practical. It originated in the minds of representative citizens of the Panhandle-Plains country, and is favored by a vast majority of the people interested in the education of the boys and girls of this section. The people of this section are invited to join in the movement which will mean such a great thing to this whole section of the state.

Bryan, Reid and the other old guard politicians say Hoover is not a fit candidate for the democrats. The wheel horses of the republican camp who have been trying to discredit Daniels' management of the navy have found that Hoover is not willing to discredit the administration, and is therefore an impossible candidate for the republican party. It looks hopeful. Any man who is big enough to live above the dictates of the old broken down politicians of both parties ought to make an admirable candidate for the American people, who are going to have something to say about who the next president shall be.

Joe Bailey has changed front since his opening speech when he read every one but his favored few out of the democratic party. He is now perfectly willing to praise Wilson if the democrats of Texas will adopt his platform, which is directly opposed to everything that Wilson has ever stood for, and elect him Governor of the state. However, he does not guarantee to do other than his original statement—turn the wheels of progress backward twenty five years when men could do as they pleased in politics and get away with it.

Canyon needs more electric light. Hereford and Tulia are advancing the rates in order to get more light. Canyon could have all day power by a little increase, or if the city water plant will use the motors they have a little, the city would get the extended service. There is hardly a home in the city which would not be glad to have all day service.

The revolt in Germany is no surprise. There is no doubt of its origin. There is a large per cent of the German people who still think the sun rises and sets in the kaiser's back yard. The revolution smells like the kaiser. The other countries of Europe are too busy with their own troubles to make much objection and America will not interfere with the kaiser's mob getting into control.

It is a certain thing that if left up to the members of the American Legion of Randall County, the proposed bonus would be defeated overwhelmingly. A prominent member of the Palo Duro Post stated that the boys were of the opinion that the bonus proposition was the work of a few politicians who were after the soldier vote.

Canyon has pledged herself to the paving of the principal streets. The only way to get where you're going is to start and go with a determination not to stop until you get there. LET'S GO!

The Department of Justice is going to put on a meat saving campaign in order to introduce cheaper cuts of meat to the American people. The trouble with most American is that they want more expensive rather than less expensive meats—and everything else in proportion.

This week we will have with us the teachers of the Panhandle Teachers Association. They are a fine bunch of people and should be encouraged to come back to see Canyon next year when the street will be paved and sidewalks along both sides of the street to the Normal.

Spring is opening. There must be sidewalks built along the north side of Houston street to the Normal. No time like this spring for sidewalk building. The property owners along this street should get busy now with this work.

The reversion of Article 10 proposed by Senator Lodge was adopted Monday. Wilson says this reservation takes the heart out of the peace treaty. It is now his move.

If you don't like Canyon there are several trains leaving every day. Some of your neighbors would no doubt be glad to pay your railroad fare. A knocker is a pest whom no one likes to have around.—Randall County News.

We agree with the News that knockers ought to leave the town at once, but we will see if we are agreed as to definition of knockers, or what it takes to constitute a knocker on the town. The Beacon holds that a non-progressive citizen is a knocker. A man that takes all out of the town and never puts anything into it is a knocker. The man that refuses to support public enterprises, hoards up his money, and has developed a degree of deafness when he hears the cry of necessity in town building—this class are knockers. A man can knock his town without even opening his mouth. His acts if not in the interest of progress is a distinct clear knock on the town. He too, should take the first train out.—Lockney Beacon.

Good Hogs Pay.

Below we give the experience of one Poland China breeder of the Lockney section. Mr. J. E. Lee is specializing on pure bred Poland China hogs and

Here is what he says in reference to the matter:

"Raising pure bred or registered hogs costs no more than to raise a scrub. Of course your first cost may be a few dollars more, but the up-keep is the same. From one sow last year I sold \$175 worth of pigs and now have 3 pigs on hands at a cost of about \$75 for expenses. A sow fattened one pig for meat that would have weighed about 350 pounds at a little over 10 months old.

"My hogs being the Big Bone Type Poland China, develops quickly, and you have a big 300 pound hog to kill or sell at from 9 to 12 months old, owing to how you crowd or push them to maturity. In the Big Poland you have a hog that you can finish for market from 225 pounds up or as large as you want to grow them."—Lockney Beacon.

More Poland Chinas for Wheeler.

The Kelly Bros., attended the Lon Alexander sale of Big Bone Poland China hogs at Childress last Saturday and bought two nice gilts at the attractive price of \$300 each. They returned Monday by Wellington and at the Jones sale of Poland Chinas bought four nice gilts at prices around \$200 and finished their work of getting good hogs by buying one of Jack Jones' head sows for \$525. This sow is the dam of the yearling which sold in the ring Monday at the high figures of \$2,500 to McFarland and Clark of Hedley, Texas.—Shamrock, Texan.

Inventor of Split-Log Drag Dies.

Ward King, known to thousands of farmers in many states as the inventor of the split-log drag, died recently in St. Louis, Mo. Mr. King's home was in Matland, Mo., where he was engaged in the farming business. Always a good-roads enthusiast, he perfected his simple road drag in 1900 and gave it to the world without asking for financial return. He was later sent to all parts of Missouri and other states to preach the doctrine of road dragging and to explain the work of his simple but effective invention.—American Hereford Journal.

Two County Parks For Lubbock.

Following a joint conference with the Park Commissioners of both Slaton and Lubbock, the County Commissioners of Lubbock county have authorized the purchase and improve-

ment of two parks, one at Slaton and one at Lubbock. The Lubbock city and county park site consists of an eighty acre tract lying just east of Lubbock and situated partly in the Yellowhouse Canyon and merging into a level tract which adjoins the city limits on the east.

Filling Up The Country.

During the past thirty days nineteen immigrant cars have arrived in Ralls, two having come in this week, bringing that number of new families their household goods, farming implements, live stock, etc., and generally speaking, we are getting the very cream of the citizenship of the old states and the older portions of Texas. We have room for many more and extend a hearty welcome to all worthy people.—Ralls Banner.

Europe will recover much quicker if it will stop sending the bills to Uncle Sam.—Baltimore American. Hoover seems to be causing the politicians a lot more worry than the politicians are causing Hoover.—Portland Oregonian. Another thing about Hoover's name is that it offers itself readily to the construction of a good party yell.—Columbia Record.

CLOSING OUT SALE

W. J. FLESHER WILL SELL AT PUBLIC SALE ON

FRIDAY, MARCH 25

AT HIS FARM SOUTHEAST OF HAPPY.

LIVE STOCK, FARM IMPLEMENTS, ETC.

WILL BE SOLD. See the bills Saturday for full list of property.

W. J. FLESHER

Our Dough is Rising
 IN PRICE

A short time since, we cut the price on bread in order for our trade to see the quality of goods we were putting out.

Of course we could not continue to sell at this price very long.

Beginning Friday morning we will sell 1 1-2 pound loaves for 15c each or 2 for 25c.

Thanking you for your present patronage and hoping for a continuance of same.

DON'T BUY A

Cream Separator

Until You See and Try

THE DE LAVAL

No matter what claim any separator salesman may make for his machine, don't give him an order until you try out a De Laval.

The De Laval is easier to wash, easier to run and skims cleaner than any other separator ever built, and if you will only give us a chance, we will be glad to set up a machine on your place, give you a free trial, and you can prove it for yourself.

It isn't what anyone claims for his machine that interests you. It is what the machine will do! That's why we say again, see and try a De Laval before you buy a separator.

Mrs. W. A. Stubbs of Erick, Okla. was called here last week by the illness of Joe Williams' baby. She has returned to her home since the child has improved.

Some Would Never Die.

Would a six-hour day be the means of longer life to American workman? Samuel Gompers, veteran leader, says yes; John D. Rockefeller Jr., says it would be an aid to Satan.

Gompers says a man will stand up three years under an eighteen-hour day; six years under a fourteen-hour day; eight years under a twelve-hour day; thirty-five years under an eight-hour day, and would die of old age under a six-hour day.

Rockefeller Jr., says that with only six hours occupied out of the twenty-four the men would have idle time, the idle hands always have meant a devil's workshop. Physically, a man should easily be able to stand up under a working day of eight hours, and there is little necessity for further reduction. The half holiday on Saturday in many industries means only 44 hours weekly now instead of 48. To follow Gompers' logic to the extreme, if a man only worked two hours a day he would live much longer than with six, but common sense tells us that the analogy can't go that far.

Twelve hours' work every day is strenuous enough, yet if outdoors it can be endured without necessary loss of longevity. Eight hours is few enough to devote to work, although it is enough except under unusual conditions. We favor the eight-hour day (even for the boss, who usually does not get out that easy) but we can't endorse a general agitation for a six hour day.—Pampa News.

The road of reckless pleasure has plenty of parlor cars and a smooth roadbed, but most uncomfortable terminal facilities.

Ladies are most cordially invited to this Shine Parlor.

E. E. FOY

Gas For All

Austin, March 10.—That the Amarillo natural gas field in Potter County is one of the largest and most wonderful in the Southwest, is the opinion of D. E. Woods, deputy supervisor of the oil and gas department of the Railroad Commission, who is here conferring with Maj. George C. Butte, chief of the department. The field is about four miles wide and ten miles long and in this forty square miles there are already developed a number of wells with a production in excess of 150,000,000 cubic feet of gas per day with a rock pressure of 470 pounds to the cubic inch. Woods said the Lone Star Gas Company has a pipe line within 125 miles and should this line be extended to Fort Worth and Dallas there would be more than a sufficient amount of gas to supply these North Texas cities. The Amarillo gas is dry and with condensation, marking it as a real gas field, not mixed with oil.

Must Have Better Teachers.
(By Hamilton Wright)

If the average intelligent citizens were shown a list of teachers who have quite the profession in the last two years to engage in more remunerative positions, he would be so dumfounded as to wonder where we are "at" and where we are going "to". A list of our substitute teachers would reveal names of persons we should not have accepted a few years ago as capable even to teach the primary grades of our common schools.

Our school system has toppled. The fabric of our educational system has been rent in twain from top to bottom.

We might well neglect many important personal affairs, but we cannot hope to go forward and keep the world improving intellectually and morally unless we undertake to solve the present grievous problem we have in our educational realm. Neither can West Texas expect to secure an A. & M. College until it has done its part to provide for the maintenance of those we already have and made possible a fund which will make school teaching a high, profitable profession.

The other day a leading West Texas educator who had just returned from an Educational Association, held at Cleveland, Ohio, February 23-28, exhibited to the writer a full sized newspaper sheet which contained in schools in the United States who had agate names of principals of public relinquished their posts because the salaries paid them were inadequate to provide them with the ordinary necessities of life much less with presentable attire and a few luxuries to keep them in proper fettle. The present lowered efficiency of the schools of West Texas is directly due to insufficient wages. West Texas must undertake to overcome these school difficulties if its rising generation is to improve, says the West Texas Chamber of Commerce.

An Unpleasant Comparison.

The Fort Worth Record is authority for the statement that there were more murders, more robbers, and more assaults in the Commonwealth of Illinois during 1919 than in the entire Republic of Mexico! It sounds incredible, especially since some of us have been almost persuaded that the only thing humanitarian consider-

ations would permit was to send an army into Mexico and stop the outrages.

The condition in Illinois is perhaps exaggerated, as it undoubtedly is in reports from Mexico. However, it is not necessary to leave Texas to find conditions that the Mexicans doubtless point to with shame. If one may judge from incidents reported, there are few less murders and robberies in Texas than in the whole of Mexico. It was authoritatively stated some time ago that for every four in the day—every day in the year—a murder was done in the United States. The condition is worse, rather than better, now.

We can at least afford to consider the cost in lives and money before rushing into Mexico—until we find some way of remedying conditions in civilized United States.—Vernon Record.

Full Butter Weight Measure.

Austin, March 9.—The proclamation putting into effect the standard prints of butter at four, eight and sixteen ounces, has been signed by the Governor and goes into effect on April 1. After that date all other prints or containers will be illegal. This does not affect the weight of butter in firkins, as it is presumed that when a retailer sells butter in the bulk form he will use his scales.

Butter sales in Texas are estimated by Commissioner F. C. Weinert at 16,000,000 pounds annually, and the shortage to the consumer, because of the sale of fourteen and fifteen-ounce packages, is approximately a loss of \$750,000 annually.

In the proclamation it is stated that this will result in no loss to the creamery or to the dairymen, for they all the time received value only for the weight of the butter, and not for the package.

Biggest Pig In The World.

Probably the largest Poland China boar in the world, age considered, is a Childress county product, being bred and owned by Lewis Brothers of Childress. He was farrowed April 15, 1919, and measures 39 inches high and 72 inches from eyes to root of tail, and is a remarkably good individual. Lewis Bros. are refusing to put a price on him as they expect to show him and use him in their herd. And again, they believe there is some distinction in having produced the biggest hog for age in the world.—Childress Post.

My Car Experience.

The fliwer is my car;
I shall not want another;
It maketh me lie down in wet places,
It soileth my clothes,
It leadeth me into pathes of ridicule for its name-sake.
It prepareth for me a breakdown
In the presence of mine enemies.
Yea, though I run through the valley,
I am towed up the hill,
I fear great evil when it is with me;
Its rods and its engine discomfort me,
It anoi:eth my face with oils;
Its tanks runneth over.
Surely to goodness if the thing fol-lows me all the days of my life,
I shall dwedd in the home of the insane forever.
—Robert Whitaker.

University Students Stage Big Fight.

A free-for-all fight took place at the State University Monday night when the Sophomore Class attempted to have their president lead the grand march at the Freshman Reception and Ball. Incidentally they were successful but five hours of hard fighting took place before they accomplished their end. The Sophomores started their attack on K. C. Hall early in the afternoon and kept it up until nine o'clock that night. They were well organized, although the Freshmen greatly outnumbered the upperclassmen. Their method of attack was to single out the Freshmen, carry them to the street and there "hog-tie" them. After a sufficient number had been thus treated they were loaded on trucks, carried five miles into the country and there left to free themselves and walk back to town. Several hundred Freshmen were disposed of in this way. As the fight wore on the Freshmen resorted to fire extinguishers, filled with ammonia gas. Several Sophomore attacks were repulsed in this way and five of the attackers went to the hospital as a result of being gassed. An armistice was finally entered into, whereby the Sophomores were allowed to lead the Grand March and then leave the hall. About one thousand black eyes, five hundred broken noses, numerous slight injuries and a thousand dollars worth of damage to the hall was the result of the prolonged conflict.

Dipping Vat Dynamited.

Harrison County officers are engaged in a thorough search for parties who blew up a dipping vat at Harlton, near Marshall, Tuesday. This is the sixth vat that has been blown up in the county since the officers started to enforcing the anti-tick law. It seems that a radical element in the county is bitterly opposed to the anti-tick law as it prevents them shipping cattle from the county that have not been dipped. They have taken many drastic means of preventing the enforcement of the law. It is said that the county inspector was captured at one time and an attempt to make him promise to cease the enforcement of the law was made. The vat which was dynamited Tuesday had twice before been subjected to explosions of dynamite, neither of which did any damage.

DOES PURE BRED BUSINESS PAY? ASK M. E. WILLIS

A twenty-nine acre hog farm at Campbell, Texas, returned the owner, M. E. Willis, during 1919 \$4,532.21 net. This was the income from the get of three brood sows and three boars, including service, and does not include the \$300 he won in premiums at the Texas State Fair. His foundation herd is worth as much at the beginning of the 1920 season as it was last year. His feed bill and general expense bill was \$1,915.30 and the gross income \$6,447.51.

Mr. Willis got into the hog business accidentally. He worked on a farm in that community for a long time, and finally purchased his farm. He had good luck with a few common hogs and fencing his place went into the hog business. He has been gradually improving his stock and is a student of the business. His success in the business comes as a merited reward for his perseverance and foresight.

Newspapers Now Supreme.

Newspapers have become supreme not only as the medium for local advertising but for national advertising as well. According to figures given out by William A. Thomson, director of the Bureau of Advertising of the American Newspaper Publishers' Association, the papers led the magazines by \$50,000,000 in 1919.

"It has never been denied," he said "that the newspaper is the life blood of the local merchant. Merchants of the United States spend \$500,000,000 annually in newspaper advertising.—But last year the volume of newspaper national advertising reached \$150,000,000. The closest competitor of the newspapers, the magazines, carried \$100,000,000 worth of advertising in 1919. The newspapers are read everywhere, every day, by everyone. It is the medium of quick response; it talks in the language of the town; it is a friend in the home; and is the cheapest of all mediums."

Forty Years Ago.

"Land Leaguer" writes to know where the first recorded eviction took place. The first Eve-iction, we believe, was from the Garden of Eden.—Buffalo Express.

PAIGE
The Most Beautiful Car in America

The Ideal Five-Passenger Car

Those who know the lofty purpose which inspired the building of our new Paige Glenbrook do not wonder that this Light Six model so quickly gained the distinction of being the ideal five-passenger car.

Our one great aim was to make the Glenbrook so obviously superior to any other car of its class that it would be recognized at once as such.

In building it, therefore, we made no compromises. Beauty, comfort and mechanical excellence all had to meet the high standard of perfection which we had established as the ideal toward which we were striving.

The best evidence of the success of our efforts is the Glenbrook itself.

Powered with a six-cylinder motor—of original Paige design and built in the Paige shops—and equally well equipped in body and chassis, this latest member of the Paige family has brought to American motorists new standards of dependability and economy in five passenger motor cars.

See the Glenbrook—and ride in it. You will then have first-hand knowledge of the qualities which have justly entitled this new Paige model to be called "the ideal five-passenger motor car".

PAIGE-DETROIT MOTOR CAR COMPANY, DETROIT, Michigan

E. Burroughs

Ford
THE UNIVERSAL CAR

Probably there is no other car that every day in the year meets the demand of the physician as does the Ford Coupe, with its permanent top, its broad seat and deep upholstery, its sliding plate glass windows, by which in a minute the car is changed from a closed car to an open car. Equipped with an electric starting and lighting system, demountable rims with 3 1/2 inch tires all around and embodying all the established merits and economies of the Ford car. Let us look after your Ford car and you will get genuine Ford parts and skilled workmanship.

Shoes--Ladies' Children's, Also Men's

THE NEXT FEW DAYS ARE GOING TO BE SPECIAL ON LADIES' AND CHILDREN'S SHOES. ALSO MEN'S AND BOYS' SHOES. SPACE WILL NOT PERMIT OUR NAMING PRICES, BUT BEAR THIS IN MIND, THE PRICES WILL CERTAINLY LOOK GOOD TO YOU.

REMEMBER, WE STILL HAVE HUNDREDS AND HUNDREDS OF OTHER ITEMS THAT ARE BEING SOLD AT PRICES VERY, VERY CHEAP.

Ladies' Ready to Wear

NOTHING BEING SHOWN EXCEPT THE VERY NEWEST STYLES. THESE ALSO ARE CARRYING OUR SPECIAL "MOVE ON" PRICES.

Redfearn & Co., Canyon

Presbyterian Church.

You no doubt have often heard of the faith that man has and should have in God. You have heard of its importance and necessity. We are going to look at the subject next Sunday morning from a different viewpoint at the Presbyterian church when the pastor discusses this subject: "God's Faith In Man."

Then too, there is another subject you have often pondered over and will so long as you breathe and that subject is, "Life". What is your idea of life? What is life anyway, that intangible something about which you study in the schoolroom, that something for which youth is ever searching, and that something that always continues to be the greatest and most baffling mystery to the older man? Come to the Presbyterian church next Sunday night at 7 o'clock and hear the subject discussed.

The Sunday School meets at 9:45 a. m. The attendance last Sunday was good but we want to make it better next Sunday. You can help by coming.

Keep in mind that all are always welcome at the Presbyterian church.
TED P. HOLIFIELD, Pastor.

B. F. FRONABARGER, Pastor.

Notes From Wayside.

The weather has moderated and is pleasant, when the wind is still. Numerous dust storms which make it very disagreeable while they last.

Sunday School Sunday morning, led by Supt. H. H. Gillham. Rev. Willett of Tulsa preached a good sermon following Sunday School. Pretty good crowd in attendance.

League met Sunday night. Miss Naason asked to be relieved of acting as President, and H. H. Gillham was put in her place. Her excuse was that her school work would consume more time as neared the close of school.

Quarterly Conference met at Wayside Saturday. Rev. Clements, P. E., of Plainview presided. Only visitors attending.

Ewing McGehee, Ruby Lee and his father, W. D. McGehee motored to Canyon Saturday p. m., returning

Sunday p. m.

Jim Sluder, W. J. and wife with Mrs. Lane and Birdie Lou Lane went to Canyon Sunday morning to visit relatives, returning Sunday evening. Miss Grace Sluder from Isom met them in Canyon for a short visit.

Jim Sluder has sold his Ford to Jim Cox.

Miss Flossie Payne is visiting relatives and friends around Wayside.

D. H. Hamblen, wife and little Velma made a trip to Claude Sunday to see Dr. W. A. Warner.

Reception for New Pastor.

A reception will be held tonight at the Bell home on East Houston street honoring Rev. and Mrs. Ted P. Holifield, recently called by the Presbyterian church.

Prof. J. W. Reid has issued a cordial invitation from the officials of the church for the members to meet the new pastor and his family upon this occasion.

ATTEND THE BIG SALE OF McNEIL BROS. NEXT THURSDAY. READ THEIR PAGE AD TODAY.

Umbarger News.

Ed. Turner is visiting at the J. W. Turner home. Ed and J. W. are brothers and haven't seen each other for fifteen years.

Anton and Alays Erdman and Joe Hileman were here Sunday. The Erdmans are farming at Summerfield.

E. J. Evers and Randolph Friemel were at Amarillo Monday.

Anna Weissmueller visited at the E. J. Evers home Sunday.

Loran Bader and family and Mrs. Wm. Russell visited at J. P. Gandys and Henry Beckmans Sunday.

The E. J. Evers, Joe Beckman, and Henry Beckman families, and Anna Weissmueller, John Singer, and W. P. Jinsen spent Sunday evening at Anton Beckmans.

The Hartman family went to Nazareth Sunday.

John Singer from Mo., is visiting at the E. J. Evers home.

Henry Beckman and family went to Hereford Saturday.

Mable Thornton, Daretta Weissmueller, Virginia Hufstadler and Rosa Stocker were on the sick list last week.

F. Weissmueller was in Canyon on business Thursday.

All the farmers are busy preparing their land for a row crop.

O. Hendrix and family left Friday for Fargo, Okla. Mr. Hendrix

was station agent here for three years.

Ira Cotchell and family visited at F. Weissmuellers Sunday evening.

Joe Beckman went to Amarillo Sunday.

A. P. Thornton had business at Canyon Saturday.

Francis Beckman is at the sanitarium at Amarillo on account of tonsil trouble.

Inspected Jitneydom.

W. W. Kuehn returned Sunday from Oklahoma City where he spent a few days last week at the dealers' convention of the Ford. There were nearly four hundred dealers from all over this section who were given a chance to see the inner workings of a jitney assembling plant. All of the parts of the Henry F's are manufactured in Detroit and sent out to the assembling plants, more than 20 in the United States, and several in foreign countries. At these plants the jitneys are put together and the machines shipped to the dealers who now have about a million orders more than there are prospective cars to fill their wants.

In Oklahoma City the assembling is started on the top story of the big four story building. A few pieces are thrown upon an endless chain, and the thing is started. As the chain moves along, each fellow adds his part to the machine, and within a comparatively few minutes, the car stands upon the first floor ready to work for the awaiting and anxious public.

Walter says it is a wonderful sight to go through the plant, and the only dealers that he is working upon all the cars for the people of Randall county which are turned out in this big assembling plant.

Mr. Ford announces through his dealers that he is working upon all kinds of farm machinery, which he will soon put on the market. If he succeeds in this line as he has with the Ford and Fordson, he will make the manufacturers of farm machinery sit up and take notice that he is close around.

PROBATE NOTICE.

The State of Texas. To the Sheriff or any Constable of Randall county Greeting:

You are hereby commanded to cause the following notice to be published in a newspaper of a general circulation which has been continuously and regularly published for a period of not less than one year, next preceding this notice, in the county of Randall and State of Texas, and you shall cause said notice to be printed at least once each week for the period of ten days exclusive of the first day of publication, before the return day hereof:

Notice of Application For Probate of Will and Letter as Executor.

The State of Texas. To all persons interested in the estate of Charlotte Sophia Park, you will take notice that Moses Smith Park, has filed in the County Court of Randall County Texas, an application to probate the last will and Testament of Charlotte Sophia Park, deceased, and for letters Testamentary, which said Application will be heard at the next term of said court, commencing on the First Monday in April, A. D. 1926. The same being the 5th day of April A. D. 1926, at the court house thereof in Canyon, Texas, at which time all persons interested in the said estate will appear and contest said application, should they desire to do so.

Herein fail not, but have you before said court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed same.

Given under my hand and the seal of said court, at office in Canyon, Texas, this the 28th day of February, A. D. 1926.

O. W. GANO,

Clerk County Court, Randall County, Texas.

CANYON, TEXAS

CANDY STORES GET OLD SALOON TRADE

The New York Times declares that sugar eating has grown so rapidly in this country as a substitute for alcohol that "much of the wreckage of the liquor business is being salvaged for the production of candy, ice cream and syrups."

"The Bartholomew brewing plant at Rochester has been turned into a big wholesale candy factory. The Harvard Brewing Company in Massachusetts has been turned into a big chocolate factory. The Jacob Ruppert brewery and other breweries here are making a malt syrup which forms a basis for candies and confections. Many of the smaller breweries here would be in process of conversion into ice cream and candy factories now if it were not for the hope that the Supreme Court would yet decide that the manufacture of 2.75 per cent beer were permissible under the prohibition amendment. The Brewers' Board of Trade has received large numbers of inquiries from candy and ice cream makers who wish to purchase brewery property and brewery trade papers are full of offers from confectioners to buy breweries.

"Such a tremendous demand has sprung up since last July for luxurious fittings for candy and soda parlors. A good many manufacturers of bar furniture have enjoyed a fairly profitable season. W. C. Allen, manager of the Froelich, Jacob Cabinet Works, one of the largest makers of bar fixtures, said yesterday:

"The business of making bar fixtures, of course, is entirely at an end, but the making of similar furniture for other places has increased at a great rate and the business of cabinet-making has had a great period of prosperity. We have never had such a demand for fixtures for candy and soda parlors. A good many fine bars have been sold to soda parlors, and I believe that such of the glassware and other fittings have been sold for the same purpose.

Regarding Boys' Trip.

One hundred and fifty Texas farm boys will be taken on a 4,000-mile tour of Oklahoma, Arkansas, Kansas, Missouri, Iowa, Wisconsin, Illinois, Ohio, Indiana, Pennsylvania, Maryland, District of Columbia, Virginia, North Carolina, South Carolina, Alabama, Georgia, Mississippi, and Louisiana, between next July 31 and August 21, by the Texas Chamber of Commerce and the Extension Service of A. and M. college, Walton Petet, of the agricultural department of the State Chamber of Commerce, announces.

The "Texas Farm Boys Special" will stop along the way to see the best corn, livestock and general farms, fruit, alfalfa, dairies, creameries, hog and cattle breeding farms, wheat, truck, agricultural colleges, experiment stations, implement factories and the big sights in the cities, "according to H. H. Williamson who thought out the idea, "The train will lay over in Washington, D. C., so that the boys can call on the President and Congress and the take side trips to Washington's tomb, Lee's home, the naval academy, the navy yard and to take a boat ride down the Potomac river.

"Any member of a boys' agricultural club affiliated with the Extension Service of A. & M. college will be eligible to go on this special. Selection will be made by competitive examination to be held in each county.

"Only boys who win prizes in competitive examinations will be permitted to make this trip. Inquiries concerning eligibility of boys and all about this examination should be addressed to the Extension Service of A. and M. college, College Station, Texas.

"Tickets entitling boys to all privileges of this trip will be sold to local commercial and business organizations to banks and public spirited individuals. These tickets will be offered as prizes to the club boys of their county. Inquiries re-

lating to purchase of tickets to be offered as prizes should be made to the Agricultural Department, Texas Chamber of Commerce, Dallas, Texas."

County Agents, C. F. Walker is enrolling the boys who will try for this trip from Randall county.

Coming Spring.
(By Walt Mason.)

The joyous spring is close at hand, the spring that renovates the land! And once again the birds will sing on bending boughs, and sing all day; the skies will be serene and fair, and we shall breathe the fragrant air, and girls will swing on garden gates, and there'll be swarms of candidates. The world will wear its garb of green, but we will not enjoy the scene; the birds shall sing their songs in vain, for we can't hear the gentle strain; the candidates will get us all, and back us up against a wall, and twist their fingers in our coats, and tell us that they need our votes. In vain the fragrant breeze shall blow, in vain the twinkling stars shall glow; we won't have time for things like these; we'll listen to the same old wheeze from patriots who tell us why they come once more to bleed and die. And so I dread the gentle spring; I like the zephyrs she will bring, I like the bees, I like the bowers, I like the what-you-call-'em flowers, I like the bluebirds and their mates, but oh! I have the candidates!

Jones Against Big Army.
(By B. N. Timmons.)

Congressman Marvin Jones today made a fight in the House to have the provision for 300,000 men, as stipulated in the new Army Bill, reduced to 200,000. "All through the war" said Mr. Jones, "we heard continually that one of the lessons every nation on earth would learn was the utter folly of continuing the immense armaments that the world was cursed with and which brought on the war. If there is a nation on the face of the earth that is in a position to set the example, that

country is the United States of America.

"In 1914, before the war came on, the peace time strength of Germany's army was 870,000; of the army of France, 783,000; of Russia, 1,500,000; of Austria, 485,000; of Italy, 306,000; and of Turkey, 230,000. I have always believed that a "pistol-toting" man would sooner or later get into a fight. I believe that applies to nations. If we have military establishments bristling over the face of the earth you are going to have war. Consider the nations of South America. They had practically no peace time military strength in 1914. Argentine had 18,000 men; Chile, 19,000; Peru, 6,000; Venezuela, 9,000; Bolivia, 3,000; Columbia, 5,000; while in Europe even little Bulgaria in 1914 had a peace time army of 65,000 men. There have been more than thirty wars in Europe during the last 100 years, and during that same time no war of any consequence in South America. Europe has had these vast armies. The South American countries have lived in peace. They have had small armies.

"As a matter of fact to the magnificent work of the National Guard rather than to the Regular Army our success in the War was due. "My amendment will reduce the annual appropriation by nearly \$200,000,000. Somehow, somewhere, these tremendous appropriations must be reduced. National economy is absolutely necessary, and yet each Committee asks us to begin with some other Bill. I am in favor of reducing the appropriations all along the line. On no other basis will we ever get back to normal conditions."

Frozen On Prairie.

Little Raymond Elmo Keeler, aged about three years, son of A. A. Keeler, wandered in his sleep from his father's house on the R. N. Mounts ranch northwest of Hereford last Monday morning, sometime between the hours of midnight and 5:30 a. m., and his frozen body was found at 8:30 Monday morning a quarter of a

mile out on the prairie.

The father had got up about twelve o'clock and looked to see if the children were all covered up. At that time little Raymond was in bed. About 5:30 Mr. Keeler arose for the day and that time discovered the absence of the boy. This was not the first time he had walked in his sleep, and the alarm was sent out immediately. The night had been one of the coldest and bitterest of the winter, and great anxiety was felt for the safety of the little fellow. Many friends from Hereford joined in the search. It was at first thought that he had wandered into a nearby lake, and this pond was dragged for his body. About 8:30 Will Hicks and Wylie Roberson found the small body on the open prairie—Hereford Brand.

Rev. Sharp Installed Sunday.

Impressive and elaborate ceremonies marked the formal installation of the Rev. J. R. Sharp as minister of the First Presbyterian church of Hereford. Rev. Sharp was recently called as permanent minister by his congregation after serving as Supply Pastor for several months. Four out-of-town ministers and laymen of the Presbyterian church had charge of the installation work. Prof. J. L. Duflot, of Canyon, presided. Dr. R. Thomson, Minister of the First Presbyterian church of Amarillo, preached the sermon. Frank R. Jamison, Secretary of the Panhandle-Plains Chamber of Commerce at Amarillo, delivered the charge to the congregation. The Rev. A. B. Haynes, of Tulla delivered the charge to Rev. Sharp.

The Power of Wilson.

One dusky citizen was in uniform. The other clung to his civilian garb and railed against the draft. "I ain't a goin'," he asserted, "and no one is going to make me." "Niggah", replied the other, earnestly, "if Mr. Woodrow Wilson wants you, you go! That man just took an hour of day-light from God Almighty. Then he took the railroads away from white folks and gave them to his son-in-law. What chance has you got?"

The Power of Wilson.

Let There be no Discords

If your Ford car is out of tune, there is undoubtedly a very good reason for it. And the best way to find that reason, and have it remedied, it to jump in and drive to our authorized Service station, where one of our mechanics who is thoroughly acquainted with the Ford mechanism and who knows the Ford way to adjust or repair your car, can tune it up in a garage that is properly equipped to give real Ford service. Then, too, we never use imitation parts—only the Genuine Ford-made, strong and durable. They wear from thirty to seventy-five per cent longer than the counterfeit parts that are softer and more cheaply made. In fact it is dangerous to human life to use imitation parts, and it is not fair to your Ford car or your pocket book.

We are a part of the gigantic Ford Service organization whose purpose it is to serve the owners of all Ford cars and trucks; we have more than a passing interest in your car. Prompt service is given on all work—from a minor adjustment to a motor overhaul. Drive in and see the facts for yourself—there's too much money invested in your car to miss connections with the authorized Ford dealers.

Burleson Atkins, who has been in the Aviation Corps, entered school Wednesday. Burleson was at first stationed in California, then transferred to Honolulu, and after three months' service there he returned to California where he was recently released.

James Bloxham spent last week-end with his former room-mate, Oscar Easley, at Chillicothe.

Glen Akers spent last week-end at his home in Hedley.

Miss Laura Easley went to her home in Chillicothe to spend last week-end.

Miss Mildred Keffer is spending a few days between quarters at her home in Lipscomb.

Mrs. A. M. Miller and family have returned to their home in Vega. The children have been in school here the past two quarters.

Miss Tony Reeves, who have been at her home in Quanah for a couple of months, on account of illness, returned to school Tuesday.

Mrs. L. G. Allen spent Tuesday with Miss Hudspeth at the sanitarium in Amarillo. Miss Hudspeth is very much improved—so much so that she expects to be home in two or three days.

The number of men that came out for base ball practice this season is the largest in the history of the institution. Several of the old players are back, and the outlook for a fine team is good.

A dance was given at Huntleigh Hall, last evening, to entertain the new students who have just arrived there.

J. D. Hanna, a former student of this college, who is attending the Tyler Commercial College this year has been sick for several days.

Miss Goldie Barnett spent Monday in Amarillo.

The Elaphian Literary Society met yesterday for the purpose of electing officers for the spring quarter. The following were elected: President, Vivian Coffman; Vice-Pres., Alma Guenther; Sec'y-Treas., Maybelle White; Sergeant-at-arms, Lila Sims. Leo Williams and George Bagwell spent the week-end at their homes in Floyd county.

Allen King spent the week-end at his home in Mobeetie.

Hazel Mathis went to her home at White Deer, Saturday for a short visit.

Ethel Kistler of Muleshoe is home on a brief visit.

Miss Nellie Francy, accompanied by Fairy Gazaway is visiting at her home in Happy.

Mr. Doyle Owenby, who went home last quarter on account of the "flu" is back in school.

Miss Florence Page, a former student of this college, has returned to school this quarter, bringing with her a sister Lucile.

Mrs. Barnes, District Agent from A. & M. College, visited the Home Economics Department on Wednesday. Mrs. Barnes is planning to hold a meeting of the home demonstration agents in her district at this college, April 19 to 23.

Mesdames Price and Holden, and Miss Holden of Happy visited at the college Wednesday. Mrs. Price is especially interested in steam pressure cookery and came to look at some equipment.

On Wednesday morning the dean of women asked the girls to remain in chapel for the purpose of putting on records the names and equipment of their boarding houses. There will be two copies of this record; one in Miss Rambo's office, the other at Huntleigh Hall in Miss Edna Graham's office.

The Juniors had a meeting today

for the purpose of electing officers for next quarter. The following were elected:

President—Alvis Lynch.
Vice President—Miss Eva McKinion
Secretary—Annie Richey.
Treasurer—Alma Guenther.

Sergeant-at-Arms—Frank Lohn.
Jack Harrison, who has been studying with us in preparation for an examination to enter West Point, has gone to Lawton, Okla., to take his examination.

At the close of school Wednesday, fifteen new students had entered for this quarter's work. Quite a number who went home last quarter on account of the flu are returning.

Miss Brown, we are glad to note, is much improved. Her sister, Mrs. Moore, took her to Amarillo Wednesday afternoon to visit with Mrs. Benson. She hopes to be strong enough to return to her work soon.

FOSTER & GAMBLE—We handle real estate. List your property with us. See us for bargains. tf

Amarillo Census 15,494.
The census of Amarillo was announced Tuesday in Washington as 15,494. This was an increase of 5,537 or 55.6 per cent over the census of 1910.

TRIP TO EUROPE ADDED TO STOCK JUDGING PROGRAM
The boys who win in the stock judging contest now have another big inducement opened to them. The trip to Austin to the International show and the trip over ten states has already been announced in the News. This week County Agent Walker received notice that if Texas boys win the stock judging contest, the state would put up \$6,000 to pay the expenses of the boys to Europe.

The following boys from Randall County are going to take the stock judging course offered by Mr. Walker
John Vetsak
Lenton Pool
George Hancock
John Jennings
Tom Ridgeway
John Burgan
Marvin Reid
Conner Oden
Herchel Coffee
Roy Dudley Cheatham
Joe Goode
Roy Tate
Patsy Britian
Billie McClure
Clinton Oldham
Tracy Service
Haynes Moore
Fred Oberst
Boone McClure
