NUMBER 14

DANGERS ACUTE IN CAR SHORTAGE

Wheat Will Not Move if Concerted Action is Not Taken by Farmers and Business Men.

The danger signal has been sounded for the farmers of the Panhandle in the car shortage. Unless concerted action is taken by the farmers and business men, the wheat growers are not going to be able to market their grain for months.

The Santa Fe is reported to have only 2 per cent of their box cars on their own system in this section. The wheat growers of Kansas, Nebraska, and the Dakotas forswore the acute situation and made their case so plain to the Interstate Commerce Commission that all cars in this section were ordered withdrawn from the Panhandle section and sent into these other states to help handle the crop. This leaves the Panhandle with little car service on the Santa Fe.

Conservative farmers and business men believe that the price of wheat will drop before many months. Every wheat grower is therefore trying to get his wheat on the market at the present prices. But very little of the wheat crop can be handled along the Santa Fe under present conditions as there are no big elevators and no box cars for the dealers.

At the meeting of the Randall County Commercial League Tuesday night, a committee of E. H. Powell, S. B. Orton and O. N. Gamble was appointed to confer with the grain dealers and try to work out a plan for the farmers to get cars and market their wheat before there is a possibility of a slump of price. The committee will welcome any suggestions by the wheat growers as to the best method of procedure, as all are interested in the farmers getting their wheat on the market at the very highest price.

The following is sent out by the Santa Fe regarding the car shortage: "The box car situation shows only slight improvement," said R. J. Parker, General Manager of Western Lines of the Santa Fe Railway, when asked about the car situation recently. Mr. Parker considers conditions grave and they can only be met by co-operation of all interests.

"The car shortage is nation wide," continued Mr. Parker. "The Interstate Commerce Commission estimates that the minimum and immediate needs are 100,000 additional freight cars. The country has advanced and produces much more freight. The railroads on the other hand have not been able to add much equipment since before the war.

"The shortage of cars has been intensified by labor troubles at ports and terminals and the lack of shipping. Long strings of cars under load choke terminals or lie idle for weeks at the principal ports. United effort is now in progress to break the blockades under the supervision of the Interstate Commerce Commission and the car service commission of the American Railroad Association. Open top cars are moving east and box cars coming west, being distributed to where they are most needed.

"Another feature adds seriously to the shortage," said Mr. Parker. "Many thousand cars are out of service undergoing repairs. Every repair track is crowded with bad order cars. Only about ten per cent of the box cars on hand out here are fit for loading grain. The Santa Fe has only a small per cent of its box cars at home. Every day a car remains on the repair track adds to the car shortage."

The wheat crop can not all be moved at harvest time and Mr. Parker considers the suggestions to provide farm storage or stacking grain practical. The Santa Fe has no box cars stored this year to move the crops when ready for market, because cars are not available.

New equipment has been ordered and Mr. Parker states that additional orders will be placed. In the mean time it is necessary to make the best possible use of cars at hand by loading heavy and unloading cars promptly.

Installation I. O. O. F. Tonight
The district deputy of the I. O. O. F. and a degree team from Amarillo will visit with the Canyon I. O. O. F. tonight, installing the newly elected officers and putting on degree work.
After the work is spread will be served by the Rebekah lodge.

COAL SHORTAGE WILL BE GREAT—INVESTIGATE GAS

Indications now are that there will be a real shortage of coal this winter all over the west, not because there is no coal to be had, but because there are no cars to haul the coal to the consumer.

Local dealers who placed their usual orders for storage coal during the summer report that they have received but a very small percent of the coal, and the mines are unable to ship because there are no cars.

A. J. Arnold, of the Canyon Light & Power Co., stated Tuesday that coal was harder to procure now than last winter as the mines are not able to ship.

Amarillo coal jobbers report to have cancelled more than 500 tons of orders for coal because there is no chance to get the orders filled by the mines.

It is reported that gas will be in use in Amarillo by October. It has been suggested that an effort be made to procure a line from Amarillo to Canyon before the cold weather starts in order that the town may be supplied with gas for fuel. The gas company recently stated that a franchise would be asked for all towns down the Santa Fe, but so far no representative has been sent out for that purpose.

Want Phone at Freight Depot

The Santa Fe has never maintained a telephone at the freight depot in Canyon, which causes much inconvenience to those business houses which haul their own freight. At the meeting of the Randall County Commercial League Tuesday night it was decided to petition the Santa Fe asking for the installation of a telephone at the freight depot. H. W. Gouddy was appointed to go into this matter and circulate the petition to the business houses.

Grasshopper Poison

There are many complaints coming in regarding the destruction of crops and gardens by the grasshoppers. C. F. Walker gives the following formula for killing the hoppers:

- 4 pounds Paris Green.
 - 1 1-2 gallons molasses.
 - 1-2 dozen oranges or lemons grated.
 - Mix with 100 pounds bran.
- This is a poison which will kill horses, cattle, hogs, chickens, or other animals if they get hold of it. Care must be taken in using it, but it will get the hoppers.

Equalization Board Appointed

The city council has appointed a board of equalization for the city tax renditions which will start to work soon. C. F. Walker, A. M. Smith and D. A. Shirley are on the board. The equalization board will have quite a job this year as it will be necessary to make considerable increases in the valuations of the city property in order that the city may pave. All of the citizens demand the paving, and are expecting an increase to be made at the hands of the equalization board.

CONCERT SATURDAY BY NORMAL BAND

Every Saturday Night Concert on the Court House Lawn Arranged for During the Summer

Canyon will have a band concert every Saturday night on the court house lawn during the summer months.

This arrangement was made yesterday with Prof. Wallace R. Clark, director of the West Texas State Normal band, who has kindly agreed to give the use of his band for this entertainment.

The first concert will be given Saturday night and all the citizens of Randall county are invited to hear the music.

The Normal band was pronounced by the leader of the Dallas band when here on the booster trade excursion to be the best he had heard in any of the scores of towns he had visited on the trip.

The people of Canyon feel very grateful to Mr. Clark and his musicians for these concerts.

Building New House

J. T. Burnett is starting work on a new six room house which he is building on Canyon street, two blocks north and one east of the square.

Mr. Burnett intended building two houses at that place, but Monday sold one of his lots to P. M. Wilson.

LOCUST TREES CAN BE SAVED

State Forester Here Urging Concerted Action to Save Trees of Canyon—Plant Other Trees.

Lenthall Wyman, assistant state forester of Texas, has been in the city this week in the interest of saving the locust trees of Canyon from the bores which have attacked the trees. Mr. Wyman has made a careful survey of the trees in the city and states to the News that the trees can be saved with concerted action. He points out that there is no use for individuals to attempt to save the trees on his lots unless the whole town is in the campaign.

Mr. Wyman states that it is possible to raise locust trees in this section, but there will always be a fight to keep away from the bores. However, he advocates planting other trees which although are slower in growth are less liable to be infested with bores. The trees which are recommended by his department after experiments in various sections of the Panhandle are green ash, American elm and silver maple.

Mr. Wyman states that whitewashing trees is more effective about the first of August than in the spring, which time is usually selected by the people of this section. He advocates whitewashing in both the summer and the spring to strengthen the campaign against the bore.

During the first part of August the bore which has been working in the trees becomes a moth and flies out from the hole in the tree unless it is killed. It lights upon another tree, or a different part of the same tree where it has worked during the summer and lays a large number of eggs. If the tree has been properly whitewashed the moth will lay less eggs, and the likelihood of the eggs hatched will be less. In the spring if the trees are again whitewashed before the eggs are hatched, other of them will be killed. The only way to get the bore after it has hatched and goes into the trees, as is the case at this time of the year is to open the hole it has made into the tree, put a few drops of "high-life" into the hole and then seal the hole with putty or mud.

Mr. Wyman states that the bores were first discovered in Amarillo in 1914, being in a small section of the city. In 1918 the infested section had spread to such an extent that the city passed an ordinance compelling the use of high-life and whitewash, authorizing the city to have this done and assess the charges against the property if the owner neglected to do his duty. This ordinance was never enforced. Last year a big percent of the locust trees of the city died. The same will occur in Canyon unless concerted action is taken.

Mr. Wyman advocates cutting down all the badly infected trees at once. He urges that other trees be started so they will have a good start before the majority of the present locust trees die. However, he believes that the trees of Canyon can be saved if work is started at once. He has interviewed many citizens while in the city, attempting to get a large number of people interested in saving the trees of Canyon.

He advocates the following formula for whitewash:

- 3 lbs. quick lime,
- 2-gallons of water,
- 1 oz. crude carbolic acid,
- 2 oz. caustic potash.

He gave another formula, which was not quite so popular, as follows: Portland cement and skimmed milk thinned to consistency of heavy paint.

Templeton Indicted for Bribery
R. L. Templeton, of Wellington, who made the race for state senator in this district two years ago and again last summer, has been indicted by the grand jury, of his home county, on a charge of having bribed Belle Higgins, a principal state's witness, to leave the state. He is out on a \$1,000 bond, says the Memphis Herald.—Plainview News.

Mr. Templeton will be remembered by Canyon people as principal of the high school here in 1909.

Canada is to have a resident diplomat at Washington. If that means that he is sure to get a residence, we know several Canadians who are willing to be diplomats.—Saskatoon (Canada) Star.

Pronouncing these towns the Poles are capturing requires freedom of the sneeze.—Baltimore Sun.

CANDIDATE DAY NEXT TRADES DAY

All Candidates Will Speak—Olympic Will Give Free Matinee Tickets to all Farmers' Wives.

The July Trades Day will be held on Monday, July 12th, and has been designated as "Candidate Day." This will come just before the election, and all candidates, precinct, county, district and state, who desire to meet the voters will be asked to come to Canyon and speak for a short while to the voters if they so desire. At least, all candidates will be asked to come to the city that day to meet the voters who are here for the Trades Day.

The \$50.00 premiums given by the business firms of Canyon will be drawn for at 4:30.

The Olympic Theatre will give a special matinee for the women from out of town during the afternoon. All farmers' wives are cordially invited to the matinee. Manager W. J. Wooten will be at the door of his playhouse and give out tickets to all farmers' wives without charge.

The regular monthly Trade Excursion will be made to the west part of the county on Friday, July 9. All candidates will be expected to make the trip, and furnish a car for the trip,—such was the edict of the meeting of the Randall County Commercial League Tuesday night at the meeting at the News office. W. W. Kuehn, O. W. Gano and H. W. Gouddy will see to getting up the crowd and plan the trip.

The Tourists Camping Ground proposition was discussed again at the meeting Tuesday night, and S. B. McClure and C. F. Walker were added to the committee of Fred H. Ives, C. D. Lester and H. W. Gouddy to look into certain tracts of land with a view of purchase and equipping at once for a camping ground.

Community Recreation

There being a great need in Canyon for some centrally located place where the people may gather in the early evening to rest in the open, to talk and get acquainted, to listen to any short inspirational talks which they themselves may call for, to enjoy any music that in the freedom of the place, our local musicians may be pleased to give us, from the lone harpist to the great swelling strains of our magnificent Normal orchestra, to have great community singings, to be arranged and conducted by the song leaders among the town people and especially among the teachers now attending the Summer Normal; There being need of such a place the Baptist church, wishing to contribute their part to the community life, and being almost centrally located and having a good open space in front of their church building, voted to throw their church grounds open to the public for such purposes as named above every Monday evening from 7 to 9:30.

The grounds will be well lighted and abundance of ice water will be supplied for all. There will be seats of various kinds scattered over the place. The Sunday School shack and church building will be open and lighted for any services suitable for indoor Christian entertainment. There will be no restraints on anybody other than those ever found in the hearts and behavior of gentlemen and ladies.

Next Monday evening we will have a great old fashioned singing when several leaders will take time about in leading. There will be at least two short inspirational talks—one by Pastor Holifield, the other by Prof. Shirley.

If you have a chair or bench or rustic seat that you would put on this ground for the comfort of the people send it up or phone me and I will see that it is placed.

Come everybody.

B. F. FRONABARGER.

Celebration Saturday Night
Come to the Fourth of July celebration at the Methodist church Saturday night, July 3rd. Refreshments with pep.

Building New Home
Dr. D. M. Stewart has started work on a new six room house on the lots just west of the Wilford Taylor home on West Houston Street.

Mrs. M. C. Reeves was taken seriously ill Tuesday afternoon, and has suffered a great deal. She is reported a little better this morning.

ASK THAT PUBLIC SQUARE BE PUT IN PASSABLE CONDITION

At the meeting of the Randall County Commercial League Tuesday night, the question of fixing the public square of Canyon was again discussed. A report from the city council indicated that the paving proposition was not dead, but the officials were waiting until the city valuations could be raised to a sufficient amount so that bonds could be issued to do the work.

In the mean while, many of the men present believed that with only a little work the public square can be put in a passable condition, which it is not, at the present time. Several men volunteered to do work on the square if concerted action was taken to put the street in good condition. Several teams and tractors have been offered for this work, until it looks as if the city can have this work done with a very little expense, and put the street in good condition until such time as the paving can be laid.

C. F. Walker, Rev. Simeon Shaw and W. W. Kuehn were appointed to meet with the city council next Monday night and lay before this body the plans discussed Tuesday night.

Adams Withdraws Application

E. E. Adams has withdrawn his name as a candidate for commissioner from precinct number four. Mr. Adams stated some time ago that he did not care to accept the office for another term but was convinced to accept the position, deciding only this week to finally withdraw. It will be up to the voters of commissioners precinct four to write a name on the ballot in the July primary unless a name is presented to the County Executive Committee and this body allows it to be placed on the ticket.

Mr. Adams has made an exceptionally good county official, and his friends regret that he has decided against accepting another term.

City Property Sold

R. P. Jarrett has bought the Howell place of O. F. Thomas where the D. A. Park family lived until recently.

Mrs. J. S. Christain has sold her place to R. L. Patton of Matador, who will move here soon. Mrs. Christain will go to Georgetown soon to make her home with her uncle.

Joe Steele sold his residence last week to Silas Hart and left for California.

No Plans for July Fourth

The Fourth of July comes on Sunday. The banks and post office will close Monday, observing the holiday. So far no arrangement has been completed for closing the business houses for the day, although a number have signified a desire to do so.

Urged to List for Sale

C. F. Walker urges all who have anything to sell in the July Trades Day on July 12 to see him at once and have the same listed so it can be published next week. This will be of great advantage to those who have something to offer for sale.

EXAMINATION FOR TEXAS SPECIAL

Saturday, July 10th, Randall County Boy Will be Selected for Big Trip to Northern States.

The examination in which Randall County's representative will be chosen for the big Texas Special will be held at the court house on Saturday, July 10th, under the direction of C. F. Walker. The citizens of Randall county are raising \$300 to pay the expenses of one boy on this trip and this boy will be chosen July 10th. Big interests in Texas are going to send several other boys who make the best grades in the examinations to be held in College Station in August, and Randall county boys may win one or more of these trips.

C. F. Walker has the list of questions he will show to the boys who are to take the examinations. Eighty questions are submitted to Mr. Walker by the state board which will be shown the boys. Mr. Walker and his committee will choose five to eight of these questions for the boys to write upon in the examinations.

Mr. Walker stated yesterday that the Club Books of the boys would count in this examination.

The committee in charge of raising the money for the trip reported Tuesday night that nearly all of the \$300 had been procured, and would be ready when the boy was selected. C. L. Condry is chairman of this committee.

HIGHWAY COMMISSION SUSTAINS CONTRACT

Contractor Must Complete Highway at Price Fixed Two Years Ago—Flesher and Hanna in Austin.

The State Highway Commission has sustained the Commissioners Court of Randall County in the appeal taken by Contractor Rice for an advance in the price of the contract for building Highway No. 9 through Randall county. The contractor sought to increase the price of the contract. This the Commissioners Court refused. Mr. Rice then appealed to the State Highway Commission and laid the case before that body hoping that the increase price would be granted. Judge C. R. Flesher and P. D. Hanna were appointed from the Court to appeal before the State Highway Commission to represent Randall county in the case, and when the proposition of the commissioners was laid before the Commission the appeal of Mr. Rice was over-ruled and all of the contentions of the Randall County Commissioners Court were granted.

The contract was taken by the Rice-Babeock Company of Amarillo two years ago. When the price of labor started to raise they made no effort to rush the work, but preferred to wait hoping for cheaper labor before the time was up for finishing the contract. Instead of decreasing, there has been a steady increase in the price of labor, until the work this year has been done under very abnormal price conditions. The Randall county officials contended that the contractors could have finished the highway at a profit had they used diligence in pushing the work when they first accepted the contract. The time limit on the contract expired last fall and a penalty of \$25.00 per day may be collected for each day's delay, which amounts to several thousand dollars.

The commissioners have agreed to finish the highway with the funds that remain yet unpaid to the contractor if he is still unwilling to complete the work. It is very necessary that immediate action be taken on the highway as with each rain the highway will deteriorate by washing unless men are kept to look after the road. The commissioners have a drag which is attached to one of the army trucks given to Randall county by the War Department, which has been used frequently on the highway after rains, as the contractor has failed to live up to this part of the contract in keeping the highway dragged after each rain until accepted by the court.

HARVEST IN FULL BLAST; WILSON FIRST THRESHERS

The harvest is in full blast all over Randall county. Binders and headers are running day and night where help can be procured, and very luckily labor is more plentiful than was anticipated a week or so ago. However, fifty or more harvest hands could get all the work they wanted for some time yet.

J. A. Wilson was the first to get his threshing machine started in the county. He delivered a load of wheat in the city yesterday morning. He was highly pleased with the showing that the wheat made in the first threshing. His outfit is running at full blast, both cutting and threshing.

Wheat is starting at \$2.50 on the market. The grain men are undecided as to whether there will be an increase or decline in the market this year.

John Bedink bought a new combine and started it up Saturday to test out the machine. He cut three acres, which measured out 90 bushels. He considered this his best field of wheat. The wheat was a little green and he will not start to harvest until tomorrow.

W. W. Kuehn states that wheat at his place southeast of town is not so good as was expected a few weeks ago. However, many farmers in his section believe that it will go nearly 15 bushels. He believes that the wheat was greatly damaged by late pasturing.

"Everybody is interested in the 'Back to the Farm' movement," says a contemporary. They seem to be—at least, they seem to have their back to the farm.—Houston Post.

Germany lost the war, but still thinks it can always find it again.—Wall Street Journal.

Time to Cry Quits

Not long ago, the story runs, a traveling salesman visited a certain small town and sold the proprietor of its general store an order of jewelry. When the jewelry arrived it was not as represented and the merchant consequently returned it. But the wholesaler house, nevertheless, attempted to collect the bill and drew a sight draft on the merchant through the local bank which was returned with the check unhonored.

The wholesaler then wrote the postmaster, inquiring about the financial standing of the merchant, and the postmaster replied laconically that it was O. K.

By return mail the wholesaler requested him to hand the enclosed account to the leading lawyer of the place for collection. This is the reply that they received:

"The undersigned is the merchant whom you intended to palm off your worthless goods. The undersigned is president and owner of the bank to whom you sent your sight draft. The undersigned is the postmaster to whom you wrote and the undersigned is the lawyer whose services you sought to obtain for your nefarious business. If the undersigned were not also pastor of the church at this place, he would tell you to go to hell."

—Youth's Companion.

Big Shoot Planned

The Amarillo Gun Club has completed arrangements to hold a big shoot at the local target range July 4. More than forty members will compete in the shoot while several out of town visitors and professionals are expected, according to officers of the club. Monte Carlo handicap system will be used.—Amarillo Tribune.

Presbyterian Church

"The Science of Conduct" is the sermon-subject for next Sunday morning at 11 o'clock.

In the evening at 8 o'clock we shall continue our study of Satan. It is hoped that if you were there last Sunday night you will return next Sunday night to hear the conclusion of the story. This will deal with the subject as to the present and the future.

Sunday School begins at 9:45 and you will find a cordial welcome in our midst.

The Christian Endeavor meets immediately after the evening service. Be there.

You will always find a friendly greeting at our church. We are in business for Jesus Christ with no social, political, or industrial axes to grind. The Gospel of Jesus Christ is our message.

TED P. HOLIFIELD, Pastor.

Mammoth Hatchery at Temple

Temple, Texas, is to have a mammoth hatchery according to the plans of F. W. Kazmeier, poultry husbandman at the A. & M. College.

At the recent Texas Poultry Show at Dallas, Mr. Kazmeier stated that the demands of the farmers for well-bred poultry were such that he was unable to find sufficient stock in the hands of the breeders and to supplement the supply from this source it was being planned to establish several such hatcheries in various parts of the state. The Temple hatchery is the first one announced.—The Southwest Poultry and Swine Breeder.

The Good and the Bad

If we remember the good things of life, existence will be sweeter for us and those around us.

We are too prone to forget the

good and dwell upon the seamy side of humanity. It diverts our thoughts from the uplift and plunges us into a gloom that is enhanced by our discontent.

In our own restricted community there is much that is good—there are people whose acts would see the brighter side of life.

They are unobtrusive, but their influence is beneficial to all with whom they come in contact.

They see the sordid side of our existence, but they do not dwell upon it.

They see the brightness of the future, and they make it a part of their daily lives.

They radiate happiness and contentment wherever they go.

And because they see the better side of all people and all things, the sweetness of their own lives is seen by us.

It is good to remember that those who think well of the world invariably find that the world thinks well of them.

The sun shines brightly in the lives of all who give it an opportunity to enter.

Plains Land to be Divided

There is approximately fifty thousand acres of the finest of South-plains lands that will be cut into small tracts of 160 acres and sold to homesteaders this year. Already nearly eight thousand acres have been sold of one these tracts in Dawson county. There are approximately ten thousand acres of this land known as the Slaughter ranch, put on the market recently. Approximately twenty thousand acres in Lubbock county and part of the W. L. Ellwood ranch was sold to eastern men this past winter. This land will also be divided into small farm tracts.

The division of these large land holdings is one of the biggest steps in the development of this great coun-

try.—Lubbock Avalanche.

Davenport Sells Home Section

W. A. Smith of Coleman has bought from F. Davenport what he calls his "home section" which is a well improved farm, northeast of Plainview seventeen miles and seven miles north of Lockney. Mr. Smith and wife were recently here prospecting. They expect to occupy the place. Mr. Davenport still owns several sections in that community.—Plainview News.

Dr. and Mrs. S. L. Ingham returned Friday from Iowa where Mrs. Ingham recently had an operation. She is recovering very nicely.

Rat Ran Up His Pant Leg
One of the Beacon subscribers reports a rather exciting experience which took place enroute to Lockney in which two of Lone Star section's most prominent farmers participated. Messrs. Lee Reeves and J. H. Fowler were coming to town in a car, when all at once Mr. Reeves began to squirm and twist, and show signs of something on his mind or person. All

at once Mr. Fowler noticed a hump under Mr. Reeves' shirt between his shoulders, and reached down his neck and pulled out a warf rat as long as his foot. The rat was doubtless in the engine of the car when these men started to town, and the heat of the engine made it too warm for the rat, and it came up through the foot space and went up Mr. Reeves' pant leg.—Lockney

The Randall County News

Incorporated under the laws of Texas

G. W. WARWICK, Managing Editor

Entered at postoffice at Canyon, Texas, as second class matter. Office of publication, West Houston St.

SUBSCRIPTION \$2.00 PER YEAR.

The Dallas News points out that the three cities in the United States which have made the largest percent of growth in the past ten years are the three which have given the most thought, time and money to the work of city planning and beautification. The words of the News are worthy of consideration and applying to the condition right here in Canyon. There are a lot of things Canyon must have before she can grow. First thin the streets of Canyon are a disgrace, the public square is the worst piece of road in Randall county. Scores of outside people see it every week, and wonder what manner of citizens Canyon has that the streets remain in this condition. It is the fault of no one in particular. Every citizen of Canyon must shoulder the responsibility of this condition, and unless the citizenship makes a concerted action to relieve this deplorable condition, the town cannot grow. In the second place more brick business houses are needed. Trade follows the attractive business houses. Unless Canyon has attractive business houses, there is no need expecting the trade rightfully due to Canyon to come here. In the third place, Canyon must have more residences. The real estate men have calls every day for good houses. People want to come here because Canyon is the recognized educational center of the Panhandle, and as such a center the citizenship has more responsibility to the town than merely making a living from the opportunities presented by virtue of the fact that the town is a recognized educational center and holds out attractions to the outside world. These three things are vital to the life and growth of Canyon. There are a score of other things that are important to the growth of the town, and will gradually work out when these are solved. Until these three conditions are settled, Canyon cannot grow.

Plainview News:

Mr. Neff declares that Mr. Thomson should not be elected governor, because he lives in El Paso, on the border of the state. Why should the matter of geography enter into a man's eligibility for a state office? Is not a citizen of El Paso, Texarkana, Brownsville or Texline just as much a citizen of the state as the one who lives at Waco, Temple, or any other point near the center of the state? Has he not the same right to aspire to the governorship? East, Central, North and South Texas have long furnished the governors—so, why not "time about" and let the West furnish him this time? The state really needs a westerner for its chief executive—a man broad-minded—four square, progressive and honest and an embodiment of the West.

Some wise guy has figured out how many million dollars would be saved in stenographic work were Americans to eliminate the very foolish expressions, "Dear Sir," or what ever else the firm usually uses at the beginning of the letters, and chop out the equally useless "Yours truly," after the writer has had his say. The suggestion of eliminating these expressions is most practical, but will likely never be adopted. We make fun of the Chinese for ancestral worship, and then beat the Chinese a city block by continuing the most foolish practices of our ancestors. And another time, the saving of stationery would be a large item with the elimination of these useless phrases, and paper costs real money these days.

W. J. Bryan says that the prohibition question is paramount in the coming campaign. The prohibition question is settled so far as America is concerned. The constitutional amendment has been adopted, and the law will be enforced just as strictly as any law which made such a radical change in the national life of America could be enforced. Bryan has the habit of getting off in the wrong channel. He would swallow any kind of a treaty if his hobby is to be given first place. Bryan is yet a force in America, but usually misdirects his efforts to make his force worse than nothing.

The Canadian Record remarks about the president of France falling out of a French pullman while clad in his pajamas, and urged that "if the punsters would talk to some of the returned soldiers about the construction of French pullman cars, they would understand how simple a feat it is to roll out of one." Now just who of the A. E. F. saw or slept in a French "pullman." The A. E. F. used the side door sleepers, "40 Hommes, 8 Chevaux" either bedded down with straw, or mere planks with the soft side up. There was no danger of falling out. "40 Hommes" with their equipment packed into one of these dinkey cars gave all of the characteristics of a sardine can.

M. L. Moody of the McLean News and Miss Bernice Thackett of Denton were married last week. The News joins the newspaper fraternity in extending best wishes to the new member of the Panhandle Press Association.

The past two weeks have been wonderful growing weather. The weeds have taken full advantage of the condition. Cut 'em now.

Get ready for the July Trades Day, July 12. \$50.00 in premiums will be given away again by the business houses of canyon.

Joe Bailey made a speech in Texas last week and hurried back to his home in Washington to look after business.

Happy Happenings

Most of the farmers are busy harvesting. Having pretty weather. The grain is pretty fair; most better than last year.

Mr. and Mrs. A. P. Thornton and children of Umbarger visited over Sunday at the B. G. Hoge home.

Rev. and Mrs. McNeeley moved Monday to the Walberg place in the east part of town. Mr. Walberg having moved out to the farm.

EAST SIDE SQUARE

heading wheat. It was very painful but not serious.

Raymond Uselding has the typhoid fever.

Fads and Fancies

It makes little difference these days which way one turns, he is confronted on every hand with some individual with a remedy for the business and social disturbances, some panacea for all the ills of today.

In all this confusion is there some sane, practical, common sense thing which we can lay hold upon and practice our daily tasks? Everyone is attempting to settle for the nation problems which would be readily solved if each individual applied himself to his own business and his own tasks.

What surer method of increasing production, than for each one of us to see to it that his own work is done more expeditiously and at the same time more thoroughly? What more certain plan of stabilizing values than the purchase, even in a limited way, of substantial securities, liberty bonds, or thrift-stamps—not from any patriotic sense but from the personal standpoint of saving and accumulating property, and, in addition, the refusal to purchase luxuries and unnecessary articles of personal use or adornment at tremendously inflated prices?

What better method can be found

of quieting unrest and preventing or at least reducing labor turnover, than for each one to cease envying the other fellow? Why attempt to escape the particular vocation in which one now may be engaged? It is better to set about making it a permanent profitable employment—whether it be office, shop, factory, or farm.

Particularly is it important in this year, which will see a new President and Congress elected, that we distinguish between truth and propaganda, between statesmanship and anarchy, between education and agitation, between energy and unrest.

Neither you nor I can settle these things for the whole country, for our neighbors, or for anyone but ourselves. We can, however, as individuals lay hold upon fundamental principles of life and by our daily work and conduct do our share in correcting the situation.

It cannot be done by agitation, publicity, politics, or pessimism, but will be accomplished by common sense, industry, and frugality.

—W. L. Clark.

The Paper Famine

Paper famine is forcing newspapers and periodicals all over the country to reduce size, raise advertising and subscription rates or in many cases quit business altogether.

Numerous Sunday editions now sell at ten cents or more. The Ladies'

Oldfield Tires Win Again

At Uniontown, Pa., Saturday, OLDFIELD Tires won for Tommy Milton in his Deusenberg.

First place—at an average speed of 95 miles an hour for 225 miles.

Just as OLDFIELDS won for Gaston Chevrolet in the 500-mile classic at Indianapolis, where for the first time in the history of the speedway the winner went through without a single tire change.

For years tire manufacturers have offered the verdict of the speedway as the best argument why you should use their tires. OLDFIELD TIRES at Indianapolis and again at Uniontown have established a record that settles all argument.

Buy these speed tested tires and tubes, tires designed and perfected by Barney Oldfield "Master Driver of the World." They are the most trustworthy tires built.

Canyon, Texas

LAST BRICK ON PAVING CONTRACT LAID SATURDAY

The completing of the paving contract in Canadian, in which eight blocks of the principal business streets were paved with vitrified brick, was witnessed Tuesday. The contractors made a strong effort to finish the work Monday night by putting on a night shift, but the threatening rain clouds at one o'clock drove them to bed. They were putting on the covering of asphaltum, the last brick having been laid Saturday. The construction company moved to Lubbock where they have a contract for paving twenty-two blocks in the principal section of the town.

The work of grading Canadian's eight business blocks to prepare the paving started last summer and the concrete was placed, but the laying of the brick was delayed because of the labor situation at the brick factory, and also to the congested transportation situation.

The contract on paving the streets of Canadian specified a concrete base, a sand cushion, the brick and asphaltum filler. The completed work shows that Canadian has some of the best paved streets in the Southwest, and the entire citizenship takes a just pride in the city's magnificent paved streets. The common remark is: "Why stop now; let's carry the work along until all the principal streets of the city are paved."

Everybody is a paving booster now.—Canadian Record.

War! War! War!

The world is not satisfied. No sooner are we through with the most appalling war of history than we must begin to talk of another. If this last one was "hell," the next, we are told, will be "hell" raised to the nth power. Here in our own country, safer from attack than any other, and where we thought we had been doing something which would end the mad insanity of war, plans are now being discussed to spend \$100,000,000 for military training, and to put our military establishment on a \$500,000,000 annual basis. The chairman of the Committee on Military Affairs in the House of Representatives is talking already about the next war, which he says will cost from \$50,000,000,000 to \$75,000,000,000. We have even seen estimates made for what are called necessary preparations for this next war, liable practically to exterminate the race, which would mean that for every dollar used for the expenses of our government, one half of it would be for military purposes. We do not wonder that a wise man once wrote: "Quantula sapientia

mundus regitur." A much freer translation than "With how little wisdom the world is governed" might be "What fools these mortals be."

The Legitimate Laughing Stock

Laughter is the great dissolvent, the great lubricant. Without it the world would be inconceivably hard and dry and barren. It relieves the social strain, offers a charming, flower-strewn path to close acquaintance, turns aside anger, mellows greed and care and ambition, throws quarrels into the dust heap and gives friendship new and pleasant zest and permanence. Laughter is the sunshine of life.

But even laughter has its rough lining. Those who most abound with it and who are most gifted in its various charms are likely to be thoughtless in the use of it. It is such a treasure in itself, so profitable and so delightful, that it is welcomed from any source, and we turn too easily not only to simple, natural, wholesome laughter but to laughter that is harsh, bitter and even cruel. When we get our laughter from the doings of others—and everyone's doings supply enough of it to those who know how to look—we are liable to wound and injure, not with the least intention of doing so, but merely because we are thinking more about our laughter than about their lives, more about laughter than about love.

But there is one legitimate laughing-stock, one at which we may laugh all day and most of the night and do no harm, one on which we can exercise all the cruelty we please and not be cruel. That is ourselves. We can say the sharpest, harshest things on that topic; but we know that we shall not say them, or, if we do, shall say them in such a way as to get the maximum of amusement with the minimum of damage.

—We can laugh at our mistakes, and what a field it is! Plenty of kind friends will laugh at them for us, if we do not, and often by the very fact of laughing at them we remedy them, so far as they can be remedied. We can laugh at our sufferings; even when they are strange and terrible, laughter will win more sympathy than wailing. At any rate it will help us to bear and perhaps forget.

Above all, we can laugh at our triumphs and successes. That is the most difficult. But here again our friends will gladly help us. If we forestall them, it wonderfully increases their tenderness. To view our greatest achievements under the aspect of eternity is certain to make them and us gently ridiculous, and

How to Use Money

the best way when traveling

Use MONEY best by using the "best funds for tourists."

A. B. A. American Bankers' Association Cheques.

Use these travelers' cheques in every civilized country in the world for paying all kinds of bills, e.g.

To Be—Or Not To Be
Advertise—or don't advertise.

A foreman in the Missouri Pacific roundhouse at Osawatomie, Kansas, recently found a school of minnows in the tender of an engine that had been brought into the shop for repairs. How the minnows got into the tender, no one knows; but as they must have flourished there for some time, they probably are the most widely traveled fishes of their kind in the world.

A majority of the royal commission that was appointed to consider adopting the decimal system of coinage for use in Great Britain has reported itself as opposed to the change. In the opinion of the commissioners, the large part of the British people that reckons its income in shillings and pence would resent such interference with established terms of value; and though the decimal system would be of advantage to those who keep accounts, to the majority of the people the benefits would be too slight to compensate for the confusion that would inevitably result from it.

For Better Farming Credit System
The Texas Chamber of Commerce is planning to mobilize public sentiment for a better system of farm credit in Texas and has announced the following rural credit committee, which will formulate policies along this line: J. D. Stephenson, farmer, Dallas; S. A. Lindsley, Federal Land Bank, Houston; Joe Hirsch, chairman agricultural commission of American Bankers Association Corpus Christi; Clarence Ousley, Fort Worth; W. M. Splawn, professor of economics of University of Texas, Austin; F. M. Law, Texas Bankers Association, Houston; B. F. Brown, A. & M. College, College Station.

Decreasing man power on the farms must be supplanted with horse and motor power and with improved labor-saving implements and devices, according to the policy of the Texas Chamber of Commerce. (The purchase of these implements will mean credit for a longer period than one year and to this end a special effort will be made to interest bankers and other business men in providing this

credit and also to the working out of a permanent system of "middle-term" credit based on personal security.

Biggest Hog in World Dies
Mc's Big Chief 331253, herd boar on the noted Silver Crest farm near Hedley and owned by Frank M. Clark is dead. The boar weighed 1125 lbs. and was three years old. He was valued well into the thousands and carried a life insurance of five thousand. His owner had searched the country over among national hog men and failed to find any record of a larger hog. The loss is truly greater than the average reader would surmise. While the owner has several of his get on his farm, it will be a long time before another hog of his size and breed takes his place as the herd boar of this or any other farm. —Clarendon News.

A Destructive Hail Storm
A very destructive hail storm wiped out crops on a strip of country ten miles long and five to seven miles

wide between Ralls and Crosbyton yesterday afternoon. It was one of the most destructive hails ever on the Plains and the damage runs above a hundred thousand dollars. —Plain-view News.

Careless Hunters Do Damage
Quite a bit of damage to livestock has resulted during the past few weeks in the rural districts due to small target rifles in the hands of small boys, most of whom live in town and who make an occasional hunt into the country. Some of our farmer friends have posted their lands and will prosecute any further trespassing on their land by hunters of any age. Frank Hardin is the latest victim, he having a valuable horse shot thru the leg a few days ago. —Clarendon News.

TO THE VOTERS OF RANDALL COUNTY

In announcing myself as a candidate for County Judge, I did so, conscious of the fact that the office is one of importance and responsibility, but having served you for the past nine years, as Sheriff and Tax Collector, I feel that I am sufficiently acquainted with the duties of the County Judge and the general needs of the County, that if elected, I can give you a satisfactory administration, and it will be my purpose to put forth every effort to merit your confidence.

Sheriff's Notice of Election (Original School Tax) THE STATE OF TEXAS, County of Randall.

Notice is hereby given that an election will be held on the 24th day of July, 1920, at Highland School House in Common School District No. 5, of this County, as established by order of the Commissioners' Court of this County of date the 17th day of February, 1893, which is recorded in Book One, page 180, of the Minutes of said Court, to determine whether a majority of the legally qualified tax-paying voters of that district desire to tax themselves for the purpose of supplementing the State School Fund apportioned to said District, and to determine whether the Commissioners' Court of this County shall be authorized to levy, assess and collect annually a tax of and at the rate not to exceed fifty cents on the \$100 valuation of all taxable property in said District for said purpose.

All persons who are legally qualified voters of this State and of this County, and who are resident property taxpayers of said district, shall be entitled to vote at said election.

Said election was ordered by the County Judge of this County by order made the 16th day of June, 1920, and this notice is given in pursuance of said order.

Dated this 16th day of June, 1920: WORTH A. JENNINGS, Sheriff, Randall County, Texas.

IF YOU WANT TO KNOW HOW MUCH YOU OUGHT TO GET, FIND OUT HOW MUCH YOU HAVE TO GIVE.

(By Bruce Barton)

A great word has been added to the vocabulary of business in recent years. It is being overworked, as all new words are. We shall doubtless become very tired of it, as we have become tired of "psychology" and "efficiency" and "merchandising" and other overworked words.

The word itself is SERVICE.

I was in the office of the general manager of a great corporation recently. The business he manages has departments in almost every large city. It is a business that has unquestionably been of enormous benefit to the people of America, and has incidentally made millions for its founder.

The general manager read me a letter from the "Old Man." I obtained permission to copy four paragraphs.

Here they are. What do you think of them as the confession of faith of a millionaire?

"I can honestly say that I have never worked at the business for profit as the main motive.

"My profits have been incidental, though absolutely necessary.

"I have always conducted my business solely for the purpose of what I considered 'Public Service.'

"Had I conducted my business for the purpose of making profit, I might have made as much money as I have made, although I doubt it. I am sure that I would not have made a quarter as much."

I know a man who has grown rich by building and operating great hotels.

I slept in one of his hotels the other night, and in the morning I dropped into my pocket a copy of his instructions to his employees. Here are some quotations from that book:

"A hotel has just one thing to sell. That one thing is Service.

"The Hotel that sells poor service is a poor hotel.

"The Hotel that sells good service is a good hotel.

"It is the object of this hotel to sell its guests the very best service in the world.

"The service of a hotel is not a thing supplied by any single individual. It is not special attention to any one guest.

"Hotel service means the limit of courteous, efficient attention from each particular employee to each particular guest.

"This is the kind of service the guest pays for when he pays his bill—whether it is for \$2 or \$20 a day. It is the kind of service he is entitled to, and he need not and should not pay any more."

It is interesting to know how, in the course of time, the practical men of the world finally come around to the point of view of the world's dreamers.

Napoleon, the practical man refused to see the dreamer Fulton, with his absurd claim that he could make a boat run against tide and wind.

But today all practical men pay

tact tribute to that dreamer.

For two thousand years practical men have looked with a sort of tolerance on the teachings of a certain Carpenter of Nazareth. What he said was very good, of course, but utterly impractical.

Yet the service idea, which is the big new idea in modern business, was first discovered by that Carpenter.

Whoever will be great among you, let him be your minister; and whosoever will be chief among you, let him be your servant."

It is the one solid, practical rule for building a business or a business career.

If you want to know how far you will go in business, take account of stock; find out how much service you are equipped to perform.

If you want to figure what you are likely to get, first figure what you have to give.

Archeologists Near Plemons

W. S. Christian of Plemons, Texas, sends the Herald the following interesting communication for publication. Mr. Christian acted as pilot for the party during their exploring expeditions. The same party passed through Panhandle a few days ago enroute to Antelope Creek to continue their search for relics.

"A party of Archeologists have been camping near here the past ten days. They have been exploring the ancient ruins along Cotton Wood and Tar Box Creeks. The party is composed of Professor W. K. Morehead of Boston, Mass., who has carried on work of this kind for thirty-five years; also Prof. J. B. Thornburn, Secretary of the Oklahoma Historical Society; Eldridge Johnson of the University of Pennsylvania; Ralph Door, Scout and Guide from Maine; George Mac Ewan, Norwood Eldridge, and Sam Handley of Texas.

"These men have been out about six weeks and have found out upwards of 100 stone foundations of ancient buildings and many graves. Prof. Morehead stated that it is thought that the ancient people who lived here were the ancient ancestors of the Pueblo Indians. They have taken many photographs, dug up numerous skeletons, pottery, knives and other relics. They found about three hundred Indian pictures cut in rocks along the Commerce river in Oklahoma.

"The party camped on the Archie King ranch in Roberts county where there are about sixteen of these old buildings. When they finish there they will cross the Canadian and come back to Antelope Creek in the southwest part of Hutchinson county, where they expect to make some very interesting discoveries."—Panhandle Herald.

Catarrh Cannot Be Cured

by LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE will cure catarrh. It is taken internally and acts through the Blood on the Mucous Surfaces of the System. HALL'S CATARRH MEDICINE is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in HALL'S CATARRH MEDICINE is what produces such wonderful results in catarrrhal conditions. Druggists Rec. Testimonials free. F. J. Cheney & Co., Props., Toledo, O.

AT LAST, RELIEF FROM RHEUMATISM

Now is An Excellent Time to Get Rid of Its Tortures.

Rheumatism is more than a mere local disorder confined to the locality of the painful parts. It cannot be rubbed away, because it is a deep-seated disease that has its source in the blood supply. The millions of little disease germs that cause the disease must be reached and eliminated

from the blood before real relief can be had.

S. S. S. has been successfully used for Rheumatism for more than fifty years. It is the most thorough and reliable blood remedy because it searches out and eliminates the disease germs which infest the blood.

A CANYON INTERVIEW

Mr. Hileman Tells His Experience.
The following brief account of an interview with a Canyon man nine years ago, and its sequel, will be read with keen interest by every citizen. R. E. Hileman, prop. bicycle shop Canyon, says: "I found positive relief in using Doan's Kidney Pills for lameness across the small of my back and for my kidneys. I got this medicine at the druggist, east side of Square. I certainly can conscientiously recommend them for lumbago and for embarrassment caused by the kidney secretions. I am quite over all difficulties of that nature since I used them." (Statement given Jan. 17, 1911.)

On May 1, 1919, Mr. Hileman added: "Since I used and recommended Doan's Kidney Pills some years ago, I have taken them whenever in need of such a remedy. Doan's have never failed to give instant relief and I am always glad to say a good word in favor of them."

3:30 Tuesday afternoon, Ladies' meeting.
7:30 Wednesday evening, Prayer meeting.
B. F. FRONABARGER, Pastor.

Items From Wayside
Ideal harvest weather, and farmers are making good use of the time. Some places light showers are falling, don't hinder harvest but a short while and row crops are benefited.

Wheat and oats pretty good for the most part. Some complaint of the grasshoppers cutting off wheat. Hardly think much damage be done by them.

Married on June 17, 1920, in Tulia, Stanley Bee Key and Miss Zora Russell were united in matrimony. Heartly congratulations young friends.

Rev. Chas. McNeeley and wife made a flying trip to Wayside Tuesday afternoon.

Mrs. S. J. McGehee of Canyon and tribe of Armstrong and Randall counties are enjoying a visit from relatives in Georgia. They are Rev J. T. Lowe and wife from Baxley, Ga., Mrs. M. Boynton of Atlanta, Mrs. Daisy Griffin of Lumpkin, and her sister Mrs. Belle Buntin of Quitman county, Ga. Last Tuesday M. L. McGehee brought them out to Wayside, together with Mother McGehee and Miss Sallie. Sunday, Rev Lowe gave us a good sermon after which there was a reunion of relatives and friends at Mrs. L. J. McGehee's. Quite a few gathered around the festive board served in picnic style under the shade of the trees. The visitors are delighted with the looks of our plains country and will remain an indefinite length of time.

Power Through Memory
Most of us do not use our memories definitely, continuously, consciously. We forget we have such a valuable and important servant always with us. Why not use it more? Each day in your reading—whether letter, newspaper, magazine, or book—read, to remember.

Each day in listening to others—whether your associates, your friends, your family, or those met for the first time—listen, to remember.

Each day in thinking things over—whether your business, your work, or your family affairs—think, to remember.

Each day, whatever you do—remember.

And at the close of the day, to clinch things, run over in your mind what you have remembered.

Thus much wisdom and power are within the grasp of each of us.—The Three Partners.

Want Ads Are Cash In Advance

We wish to again call the attention of our patrons to the fact that unless they have a regular monthly account with us, it will be impossible for us to open an account with them in order to charge a small item. The loss of time in making these small collections amounts to more during these times of high expense, than the item amounts to. Matter phoned in for the want column must be paid for before the day of publication if the party has no regular monthly account.
