

GOOD FELLOWSHIP MARKS DINNER OF RANDALL COUNTY COMMERCIAL LEAGUE

More Than Fifty Business and Professional Men Guests at the Cousins Hall Dinner.

More than fifty business and professional men of Canyon gathered at Cousins Hall Tuesday evening at 6:30 o'clock to attend the annual meeting of the Randall County Commercial League. The occasion was pronounced to be one of the most successful and interesting affairs ever held by this organization. The beautiful and commodious dining room of the new Hall was a revelation to most of the men, as very few had had an opportunity to inspect the building since completion.

An informal reception was held in the large reception hall while the members of the club gathered for the evening's entertainment. A number of the talented students of the music department entertained the guests with songs and piano solos.

At 6:30 the guests were invited to the spacious dining room where the dinner was served under the direction of Miss Rambo and the students of the Home Economics Department.

During the dinner the Normal orchestra, under the direction of Wallace R. Clark, played several selections which were greatly enjoyed by the guests.

Rev. Ted P. Hollifield acted as toastmaster and presented each speaker in a very fitting manner.

C. W. Warwick, president of the Commercial League during the past year, was the first speaker, telling what the League had accomplished during the year. He first told some of the things the League had not done on account of being hampered by the lack of funds and because a large percent of the business and professional men of Canyon did not actively support the League. Twenty-eight business firms of Canyon had not been represented in a single monthly meeting of the Club during the past eighteen months. Twelve more sent representatives for two or three times. The speaker told of the number of big things the League had accomplished and asked for better cooperation that Canyon might become the great town which her natural resources entitled her to be.

C. F. Walker discussed some of the things the League should undertake during the coming year. He pointed out the need of more finances before much could be accomplished in the way of town building. He advocated more sidewalks and paving for Canyon. He suggested that a consolidation of the water and light business would be most economical for the city. He believed that a test well should be put down to see whether there was not plenty of natural gas near Canyon. He believed that co-operation was the greatest thing Canyon needed at this time.

J. W. Reid was not present and T. C. Thompson was called upon to discuss the question of how the city council could help the Normal. He stated that the city council was composed of men whose every desire was to up-build the town and community in every way possible, but that the council was greatly handicapped by the lack of finances. He asked that the citizens get together with a stronger spirit of co-operation in the effort to make Canyon the best town in the panhandle.

Mrs. B. F. Guthrie of Hereford was unable to be present to discuss "Canyon's opportunity as seen by an outsider." The toastmaster called upon W. E. Goodloe of the Santa Fe and Frank R. Jamison of the Panhandle-Plains Chamber of Commerce to discuss this subject. Mr. Goodloe stated he was a new man in this territory but was very highly and favorably impressed with the wonderful opportunities of the Panhandle. He stated the Santa Fe was backing every community as it was to their interest. When asked about a new depot for Canyon, he replied that it would come as soon as the business of the town justified.

Mr. Jamison stated he was delighted to be with this organization upon another occasion. He was proud that

Canyon was the recognized educational center of the Panhandle-Plains, a territory larger than the state of Ohio. He praised the Normal, President Hill and the faculty. He stated it was a recognized fact that the people of this community were distinguished in other towns by the refinement resulting from the influence of this great school. The ministers of the town were above the average. The public schools and the training school were recognized as the best in the section. He urged that the people of Canyon recognize the fact that the great blessing of the Normal had brought added responsibilities to the community. He believed that the town would soon have a large amount of paving, more sidewalks and better church buildings. All of this could be brought about by stronger co-operation among the citizens of the community.

In the absence of H. C. Gamble, E. E. Foy was called upon to discuss the American Legion. He stated that the men of the Legion had the same spirit in assisting in the town building program of Canyon as they manifested in winning the war. They were raw recruits when taken into the army. Through discipline and hard training they were able to accomplish what they did in France. This the men were willing to do so far as making Canyon a better town: They wanted to be lead and shown what was necessary and then every man of the Legion would accomplish the objects in view.

Dr. F. M. Wilson, city health officer discussed "Concerning the Public Health." The speaker believed that stronger co-operation was needed in the promotion of hygiene in the community, although this was one of the healthiest places in the county. Hygiene was needed in the schools and in the home. He advocated inspection of the stores of Canyon as was followed a few years ago, which resulted in Canyon having the very best kept stores in the whole section. Dress reform is needed in order that the health of the young women be conserved. He appealed to the parents that girls use sense in the question of dress. Dr. Wilson pointed to the U. S. Army during the war as to the benefits to be derived from regularity in eating, sleeping and taking exercise.

"How can the Commercial League Help the Normal?" was discussed by D. A. Shirley and Supt. C. L. Sone. Mr. Shirley opened the question with the statement that anything that helped the town would help the Normal, and anything that helped the Normal would help the town. He pointed out the fact that good athletics was the greatest thing that would advertise a school favorably. He pointed out the fame of T. C. U. in baseball and Centre College in football. Mr. Shirley stated that hitherto there had been a feeling that big athletics cost the school too much, and therefore the school had been content to play high schools. In the future only college teams will be played by the Normal teams. Next year games will be arranged with New Mexico Military Institute and Southwestern Normal of Weatherford Oklahoma, both of which were played this year, and both of which were surprised at not being able to defeat the Normal by large scores. In addition the Alva, Okla., school, T. C. U. of Ft. Worth, the Denton Normal and Simmons College will be put on the schedule. This will take a lot of money to bring these teams from a distance but it will be worth it to the school, and will therefore help the community.

Mr. Sone was then introduced and stated he wanted it strictly understood that he was a booster for the Normal in all of its work. He pointed out that the 600 students and the families which moved here to place children in the school were spending more than half a million dollars in Canyon annually. He was a resident

TRADES DAY

The regular monthly Trades Day for Canyon comes next Monday, December 13. The 13th may be an unlucky day for some folks, but it will be a very lucky day for the people who come to Canyon that day to do their shopping.

The business houses are getting ready a rare bargain feast for the people of Randall County. Come and enjoy it.

The holiday time is here, and on display in Canyon the shopper will find all of the gifts most appropriate for Christmas giving.

Do your Christmas shopping in Canyon on Trades Day, next Monday.

SALVATION ARMY DRIVE FOR \$600

W. J. Flesher Appointed County Chairman of Randall County Drive Which is Now On.

The Salvation Army drive for funds is now on in the United States.

Randall county's quota has been set at \$600. W. J. Flesher has been appointed county chairman, and is now perfecting his organization with a view of making a complete canvass of the country in order to raise the funds.

The Salvation Army has become one of the most popular organizations in the United States since their activity in the world war, and people are especially liberal in the support of the cause which they represent.

of Denton when the normal was first proposed for that town. He stated he never saw a more poorly equipped town for taking care of students than Denton was at that time. With proper co-operation among the people of Denton the school and town have both made a wonderful growth. Mr. Sone predicted that the West Texas State Normal College would have 1000 students within a few years even if the people of Canyon did nothing to help the situation. With proper co-operation, he believes that 1000 students can be put in the school in half the time it would take if allowed to work out of its own accord. "Why wait longer," said Mr. Sone. "Why not force the situation by every citizen getting behind the movement for the biggest school in the southwest?" Mr. Sone paid a high tribute to President Hill and the members of the faculty selected. He deplored the fact that some high schools in the Panhandle send their graduates away from this section for higher education when the same opportunities were presented in Canyon. This situation can be stopped. Mr. Sone believes, with the proper steps being taken. Mr. Sone heartily approved the idea of better athletics in the school. Athletics makes men of conviction and poise. Better athletics will bring more young men to the school. He pointed out that it was planned next fall to form a camp early in the fall and get all of the men here for early training. He pronounced it an excellent idea, and one that would develop a big football team and bring the young men of the Panhandle-Plains to the school.

President J. A. Hill was called upon to discuss how the Normal could best serve the town and county. Mr. Hill was glad the keynote of the meeting was stronger co-operation. Canyon ought to be the best place in Texas to live. It can become such if the people of the community all work together to that end. Towns are not big in accordance with the population, but in character. Canyon does not have to be larger in numbers to be great. Mr. Hill wants Canyon to be a great town, although it may never be larger in population. The people of the Panhandle-Plains country are coming to Canyon being

(Continued on page 6)

BAD CHECK ARTISTS ARE IN CAPTIVITY

Three Young Men Apprehended This Week—Officers Sparing No Effort to Land Law Breakers.

Dry check artists are especially active all over the country just now. Canyon has had her share of the grief accompanying this form of crime.

Three men were hauled into court during the past week, and warrants are out for several others who are likely to be landed in the county's free boarding house before the end of the week.

Frank Norris passed three bad checks this week and drew a fine of \$58.

J. P. Watkins of Happy is now under bond awaiting trial.

F. Q. Davis of Hedley is also out under bond.

The officers of Randall county are determined to stamp out this form of past time by giving the limit to every offender, with as long a jail sentence and big a fine as the law permits.

Incidentally, fewer bad checks are showing up in town since the drastic measures have been put in force by the officers. Several men whose checks were put into the hands of the sheriff, have come around with the "long green" and asked that prosecution be stopped.

SNOW OF THREE INCHES MONDAY

Very Wet Snow Fell All Day—Weather Remains Warm and Moist of Snow Soon Melts.

It looked very much like Christmas on Monday morning when Canyon people awoke to find the ground covered with snow, and the heavy, wet flakes continuing to fall throughout the day. More than three inches of snow fell, which was preceded during the early part of the night by a good rain.

The weather bureau predicted colder weather Monday night. Fortunately for the cattlemen, the temperature did not go low, and practically all of the snow had disappeared by Tuesday night.

The snow is especially fine for the wheat, most of which is looking the very finest for this time of the year.

Take Teachers Examinations Judge Worth A. Jennings held examinations for teachers Friday and Saturday, with twelve young ladies taking state examinations.

Called By Father's Illness Prof. J. W. Reid left Tuesday for Charlotte, N. C., called by a message stating that his father could not live. Mr. Reid's father has been in very ill health for the past six months.

Mrs. H. A. Brown of Tulsa is visiting at Dr. Brown's.

ROBBERS ENTER FOUR STORES TUESDAY NIGHT--NO CLUE YET

RED CROSS DRIVE WENT OVER QUOTA

One of First Counties in State to Go Over Top in Red Cross Annual Roll Call.

Randall county was one of the very first counties in the state of Texas to go over the top on the Red Cross Fourth Annual Roll Call. H. C. Gamble, chairman of the drive, stated yesterday that he did not know until this week that this honor had come to Randall County, and no doubt Randall county would have been the very first in the state had he known the quota. The quota last year was \$500. Mr. Gamble was informed that the quota was the same this year, but he was informed only this week that the quota had been lowered to \$350. Practically all of this was raised the first day—Armistice Day.

Mr. Gamble was informed after the first day's report that Randall county lead the state of Texas as a result of this day's work. In view of the fact that a number of solicitors failed to turn in a report until after Thanksgiving, Mr. Gamble did not report the total collection to headquarters until last week, when he was informed that the \$409 raised this year put the county comfortably over the top and among the first in the state in reference to the quota.

High School Notes

The organization of Literary societies has been delayed until now but the work will now be pressed on with vigor. It is intended to organize two revival societies. The results of final organization will be given soon.

All the pupils of the school will be given an intensive course in spelling based on the list prepared by the Interscholastic League.

Our basketball boys are preparing for a good season. Some few members are disqualified this month on account of low grades.

Our band is progressing nicely and our Superintendent states that he is delighted with the splendid work being done. We now have fifteen members who meet regularly in practice. A short recital was given in chapel Tuesday morning.

The High School adds another teacher after Christmas. He will take care of the science classes and relieve the Superintendent in other ways. He will also be invaluable in the singing and Chorus Club, as a leader.

The five people making the highest averages in school are:

First: Clayton Powell, Bill Strain, Tolene Burks, Leonard Lewis Dorothy Cash.

Second: Margaret Gamble, Anna Beth Brown, Mayme Plaster, Phyllis McDade.

Third: Edith Prescott, Jake Harrison, Margaret Latson, Edgar Latson, J. D. Prichard.

Fourth: Glen Goland, Oma Wilson, Lucille Woodson, Lena Foster. Wilma Gamble, Doris Vester, W. T. Hazelwood and Alfred Henshaw tied for fifth place.

Fifth: Mrs. Collier, Mildred Flynn, Ruth Collier, Alta Williams, Cap Wall, Drucilla Driver.

Sixth: Marion Higdon, Roy Cheatham, Cora Lena Brown, Birdie Ann Hastings, Virgil McGee.

Seventh: Sue Smith; Jim Blair Redfern and Robt. Foster for second place; Claude Harrison, Maye Patton, Dwight Woodson.

Eighth: Imogene McIntire, May Hollifield, Lillian Cash, Frances Reid, Maxine McCormick.

Ninth: Alice Smith, Florence Neal, Ila May Hastings; Mayme Wood and Francis Hicks fourth place; Edward Gerald.

Tenth: Grace Burks, Lillie Mae Fogarty, Ola Robison, Opal Gill, Gladys Campbell.

FIREMEN WILL MEET AT COURT HOUSE TUESDAY

A special meeting of the members of the fire department will be held at the court house next Tuesday evening at 7 o'clock for the purpose of making plans for the annual banquet.

Clean Up Made Tuesday Night By Thieves on Stores on East Side of Canyon Square.

Store breakers pulled off a big job in Canyon Tuesday night so far as the number of jobs put over are concerned, but the value of their loot possibly will not exceed \$150 in the four stores which they entered. The Normal Grocery, Holland Drug, E. Burroughs and the Canyon Supply Co., were the stores entered.

Evidently the robbers started at the Normal Grocery at the Southeast corner of the square. They gained entrance at the door on the south side of the store, breaking the glass in the door and raising the bar on the inside. They tacked the cash register where they found a dollar in change.

They then attempted to open a McCaskey account register, the top being prized up with a pinch bar. This register was probably ruined beyond repair as the lid was so badly bent.

The plate glass in the Holland Drug Co. door was broken out. The thieves took their choice of a number of watches, getting one valued at \$50 and one at \$37. They passed up a lot of jewelry, but took the change left in the cash register and took a large number of pennies which were on the fountain.

A window on E. Burroughs' store was broken out and rings amounting to \$75 were taken. The intruders did not go to the trouble to enter the building.

Going on up the street, they worked on the lock of the Jarret Drug Co., but failed to get the door opened and did not break the glass.

The Canyon Supply Co. was next attacked, the door at the grocery department being badly jammed. Entrance was gained by the north door of the clothing department, where the lock was broken, all of the change was taken from the cash registers, which possibly amounted to around \$20 as there was a box of pennies in the grocery department and considerable small change in each of the cash registers. No clothing was missed from the store.

The officers got on the job early yesterday morning. Several suspicious characters were examined during the day, but no arrests were made.

Petty thievery has been rampant in towns all over the country, and it is likely that a night watchman will be put on the job in Canyon to look after the interests of the business houses.

Woman's Book Club Meeting

At the meeting of the Woman's Book Club yesterday \$10 was sent to the Literary Digest for the Child Welfare Commission which is headed by Herbert Hoover, the money being used to save the starving children of Poland.

Mesdames Bell, Orton and Latson were the leaders of the program.

The next program will be held on Dec. 15 instead of on the regular date of Dec. 22, with the following program:

Abram Joseph (Father) Ryan. Discussion: "Qualities of Father Ryan's Poetry."

Reading with Analysis: "The Sword of Lee."

Paper: "Autobiographical Elements in 'Their Story Runneth Thus.'" Leaders: Mrs. J. B. Gamble, Mrs. McGee.

Mrs. Briar is No Better

Mrs. L. A. Briar is still in a very critical condition, with seemingly no change during the past week. Her daughters, Mrs. Robt. Selway of New York, and Mrs. Harry Leach of Sheridan, Wyoming, arrived Friday to be at their mother's bedside.

ALANREED BANK ROBBED SATURDAY AT NOON

The Alanreed Bank was held up Saturday noon by two young men living in the the Alanreed community. They got away with considerable money, but were caught before the middle of the afternoon. They are now in the Amarillo Jail.

This is the first bank robbery in the Panhandle for a number of years.

Come to Canyon to live.

**PANHANDLE PIONEER DIED
THURSDAY IN AMARILLO**

Hugh Currie of Happy Dies at Home of Daughter in Amarillo.

Hugh Currie, 88, of Happy, died at the home of his daughter, Mrs. Robert Smith, in Amarillo Thursday morning at 5:30 o'clock. Funeral services were held at the Smith residence Friday morning at 10 o'clock, the Rev. Roy Rutherford, pastor of the First Christian Church officiating.

He leaves six children: Dr. Currie and Miss Mattie Currie of Happy, Mrs. Robert Smith, Mrs. A. H. Webster, J. J. Currie and Tom Currie of Amarillo.

Hugh Currie was born in the State of New York June 17, 1832, and came to Texas in 1879, since which time he has been a resident of this State. In 1889 he moved to Amarillo and three years later moved to his ranch near Happy, where he was living at the time of his death.

Immigrant's Luggage

The Sun and New York Herald: "Why pack?" the visitor to Ellis Island is bound to ask herself as she watches the stream of immigrants who are just coming in from a steamship. The immigrant travels across the Atlantic, 3,000 miles of hard going, with railway journeys at either end, with his most precious possessions done up in an ordinary newspaper bundle.

Pots, pans and bedding burst thru the covering and protrude at odd angles. If they are not of the sort to be easily wrapped the voyager carries them openly without any covering. And while we expend enormous amounts of time, energy and tissue paper to protect our treasures from the rigors of travel, the alien seems to be able to transport his unprotected possessions far greater distances without suffering material damage.

There were four young children in a Spanish party which arrived last week and each child bore a child-sized wicker chair entirely without wrapping, which they had cared for conscientiously during the long ocean voyage.

Pillows, table covers, rugs, household ornaments, brass candlesticks, plaster of paris figures of the saints occasionally tumble out of the bundles. Sometimes the immigrants have borne the precious cooking vessels back and forth across the Atlantic several times, when they have gone back to visit their relatives, thinking that they might not return. Along with the pots and pans the best and stiffest corsets of the mother may share the big bundle, the garters trailing negligently for all to see.

Expert At It

American Legion Weekly: "Private Johnson," yelled the top kick on the returning transport as he discovered the recalcitrant lying on his bunk during the fire drill, "didn't you hear me yell, 'Everybody inside, out?'"

"Yeah," groaned Private Johnson, from the depths of gloom, "but what difference does that make to me? I've been that way since this boat started."

What They Really Said

While the faces on the film depicted every human emotion, one person in the audience sat and giggled.

You see, he was deaf, and so had learned to read the lips. Thus he could "see" what the actors were saying. It was something like this:

Hero—How's your husband, Maggie?

Heroine—Oh, pretty fair, thanks!

Come on! Show a little anxiety over this kiss, or you'll spoil the picture.

Hero—I'm showing as little as possible.

Heroine—Don't make me giggle. This is supposed to be serious—the last kiss before death us do part!

Hero—That so? I haven't read the scenario yet.

Heroine—That chap with the long hair who's been running around here lately wrote the story. They say it's a knockout.

Hero—That's what they always say, isn't it?

Silence for a few moments while the hero's lips cling lingering to those of the heroine.

Hero—I wonder if the director is going to call this a day's work?

Heroine—I hope so. I want to get home to the baby.

Hero—And I've got an appointment with a dentist.

Heroine—Thank heaven, that's all for today!

Hero—Hurray! Well, goodbye Maggie, until the next kiss.

The Eighteenth Amendment put liquor in the home and the Nineteenth put politics there. You just can't keep 'em apart.—Columbia (S. C.) Record.

Senator Poindexter favors a protective tariff on peanuts to keep out the Asiatic product. We favor legislation to keep out foreign nuts of all kinds.—Augusta Herald.

New Judging System

There has never yet been devised a livestock judging system which has proven 100 per cent satisfactory to everyone concerned.

It is too much to expect that the new system which will be tried out for the first time this fall will be as satisfactory as it is now hoped it will be before rendering final decision do better work—whether he gives as general satisfaction or not—when he works by himself than when interrupted by a number of other judges.

Every experienced judge, however, will admit that occasionally a very difficult class is encountered and the wise judge in such instances would always appreciate conferring with another in whose judgment he has confidence.

The three-judge system which has often been tried and which was used at the National Dairy Show in 1916, is a cumbersome system requiring much more time to judge a given number of animals than the single judge system, and except that it tends towards establishing confidence in the minds of certain exhibitors and certain ringside critics, it is no more efficient than the single judge system.

As a matter of fact, when a difficult class is encountered so that two of the three judges disagree then it remains for the third judge to assert himself and after all it is one man's opinion which merely coincides with the opinion of the other man that determines how the ribbons should be tied.

A distinct disadvantage of the three-judge system is that it tends toward the shifting of responsibility and no one of the three judges considers his work as seriously as he would if he alone were responsible for the decisions made.

Experience has taught that a judge who is efficient, sincere and honest shall be.

Again, there has never been a judge of livestock so expert that he has made no mistakes. Sometimes expert judges make very serious mistakes which they would not make

"Not a Sound Till I'm Through"

were their attention called to the errors before the ribbons were tied. Such reasoning indicates that the single judge system should be reinforced with an assistant or an associate judge who would be called in by the regular judge when assistance in solving some particular problem becomes necessary. It would also be the duty of the assistant judge to aid the regular judge in avoiding mistakes but the responsibility of the assistant judge should cease after he has called the attention of the regular judge to the likelihood that a mistake is about to be made. In this way the responsibility for all decisions remains upon the shoulders of the one judge and no more time is required in executing decisions than though he were working alone. As a matter of fact, it should not be anticipated that the regular judge would use his advisory assistant ex-

cept in very close classes. The system has appealed to W. E. Skinner, Secretary of the National Dairy Show, and will be followed in the judging at the National fall. It has also been adopted and will be tried out at the National Jersey Show to be held at Shreveport, Louisiana.

It is too much to expect that the new plan will entirely preclude all mistakes or all dissatisfaction. So long as there is only one blue ribbon for each class and so long as perfectly intelligent and sane men and women shout, "Kill the umpire," there will never be a judge or judging system that will eliminate the excitement incident to a contest.

If the assistant, associate or advisory judge is an improvement over the single judge system and does not bring with it the cumbersomeness of the three-judge system, it will be welcomed in the American show yard.—The Dairy Farmer.

Blessed By a Bull-Fight

Jane Addams went once to a bull-fight in Spain. She saw five bulls killed and as many horses. When her friends expressed their surprise at her indifference to the bloody sport, she said she had not thought much about it. Then she began to think. The more she thought, the more her conscience troubled her. She had been contemplating engaging in some form of social work. It suddenly was impressed upon her that she had been lulling her conscience to sleep by a dream of service that was remaining only a dream, that she was not really in earnest. It was the memory of her attitude of indifference to the

bull-fight that acted as a mirror to her soul and stirred her to action. She returned to America, and the famous Hull House of Chicago came into being. This is the only good thing we ever heard as connected with

COAL

We have in transit several car loads of the very best Colorado coal. We are now booking orders and you will be notified when the cars arrive in Canyon.

We are going to do our very best to see that the people of Canyon and Randall county are supplied with coal during the winter months.

Give us your order now for the coal you will need.

**S. B. McClure
J. W. Green**

Fooling the Feeder

A prime steer could never be made of this critter, even if a carload of corn were funneled down his throat. He lacks something most essential to the making of a high-priced carcass. That "something" is pure blood. For all practical purposes, pedigree is the best feed.

If you've heard of a grade steer's topping the market, it was just because such pure blood as he possessed had *chanced* to get in its work, *chanced* to offset his scrub blood—but it was mere *chance!* With the pure-bred it's a planned certainty.

The pure-breds are the easiest feeders—they use their feed to make prime beef. If you are ready to do your part in efficient feeding, get in touch with some good local breeder and strike hands with him for the upbuilding of your business and of this community.

THE COUNTRY GENTLEMAN, the one great national weekly of practical farming, advises you to do this. Its Editors and contributors travel some 300,000 miles a year to study and write about farming in the United

States. And they declare, as a result of their investigations, that the most hopeful beef practice is that of breeding good steers and feeding them where they are bred.

If you have not yet subscribed for THE COUNTRY GENTLEMAN you owe it to yourself to order now. Only \$1.00 a year for 52 big issues containing the important farm news of the nation; well-tried plans; the best of fiction; strong editorials; good pictures; great cartoons; hopes, helps, and plenty of smiles.

The Ford Sedan

An all-weather car—this pretty thoroughly describes the Ford Sedan.

In rain or cold weather it is a cozy, comfortable, enclosed car; in warm weather an ideal Touring car. The plate glass windows are raised or lowered in a minute's time. The Ford Sedan is always in accord with your wishes. Finely upholstered; equipped with electric starting and lighting system; demountable rims and tire carrier in rear; instrument board on dash; the Sedan is a car of convenience and class, and has proven a favorite family car. Yet, the reliable Ford chassis and motor are a part of the Ford Sedan and that means low upkeep cost, ease of operation, and durability. The Ford Sedan is just as popular on the farm as in the city. It fits family needs everywhere.

Come in and see the Ford Sedan. If you want one, place your order now. Orders are filled in the same sequence they are received. Make us your Ford Headquarters, as we are experts with the famous "Ford After-Service."

Go as High as You Like, Crook!

Officers Kill Auto Thief
 Wichita Falls, Texas, Dec. 6.—One man was killed and another probably fatally wounded in a pistol battle here late this afternoon with four policemen. The wounded man is Lloyd Graham, residence unknown and the identity of the dead man is unknown. Police officers attempted to arrest the men on charges of automobile theft. They were in the automobile in the vicinity of Call Field, a government aviation field on the outskirts of the city where it was mired in the mud. At the approach of the police one of the men leveled a gun at the man and began shooting. Police returning the fire quickly killed one and wounded Graham. The automobile bore an Oklahoma license tag. Police late tonight announced that an army discharge paper found in the clothes of the dead man showed that he was John Hamilton of Joplin, Mo. Graham, according to a confession he is said to have made to police is 27 years old and lives at Ft. Worth. A sister, Mrs. C. H. Wolf, he said, resides there now at 2667 Henderson Street. Four policemen who shot into the automobile were placed under arrest tonight charged with murder, after an investigation by the chief of police disclosed the fact that Graham was unarmed and that the police opened fire first.

Instead of Butchers
 It will be especially pleasing to readers of The Dairy Farmer to learn that the United States Department of Agriculture exhibited a grade family consisting of a purebred sire, a scrub cow and a grade offspring of this mating at the National Dairy Show held in Chicago in October, 1920.

For many years The Dairy Farmer has insisted that the purebred sire was far more serviceable in bettering the dairy herds of America than was the butcher.

Upon every farm where purebred sires are used there is proof conclusive that our contention has been right.

The use of purebred sires is constructive; the use of butchers is destructive.

As late as 1918 the Dairy Division through their representative at the National Dairy Show contended that cows even though healthy should go to the butcher, providing a one year testing record did not show them to be profitable.

As our readers know, we contended that there are many circumstances which alter cases. We contend that a very large percentage of the cows that are not profitable fail because they are not given a chance.

We have believed and with the faith in our convictions we have contended that test records may prove that certain cows should be done away with. As a rule however, these are tuberculin test records rather than cow testing association records.

The rule is that cow testing association records demonstrate that cows should be given better care; that they should be more properly fed; that they should be kept under more comfortable conditions; that they should be given a chance.

Our contention has been that every man who milks cows should have a sire sufficiently excellent and well bred that when mated with even a poor cow he could sire productive offspring. Then, if when given a chance any cow does not live up to the fondest expectations, loss is not incurred for constructive methods are being employed and by the time it is absolutely certain the cow should be done away with a heifer calf will probably remain in the herd. This heifer calf, in due time, will be a profitable cow providing the right

A Christmas Carol

"What means this glory round our feet,"
 The Magi mused, "more bright than morn?"
 And voices chanted clear and sweet,
 "Today the Prince of Peace is born!"
 "What means that star," the Shepherds said,
 "That brightens through the rocky glen?"
 And angels answering overhead,
 Sang, "Peace on earth, goodwill to men!"
 'Tis eighteen hundred years and more
 Since those sweet oracles were dumb:
 We wait for Him, like them of yore;
 Alas, He seems so slow to come!
 But it was said, in words of gold,
 No time or sorrow e'er shall dim,
 That little children might be bold
 In perfect trust to come to Him.
 All round about our feet shall shine
 A light like that the wise men saw,
 If our loving wills incline
 To that sweet Life which is the Law.
 So shall we learn to understand
 The simple faith of shepherds then,
 And, clasping kindly hand in hand,
 Sing, "Peace on earth, goodwill to men!"
 But they who do their souls no wrong,
 But keep at eve the faith of morn,
 Shall daily hear the angel-song,
 "Today the Prince of Peace is born!"
 —James Russell Lowell.

The Christmas Spirit

show of legs; political bunk will be given the setback of its life and Bolshevism will hit the junk heap. In other words, the human race is recovering its breath and from now on is going to raise more corn and spuds and less muss and misery.—Colorado Record.

When the American Woolen company closed its mills, to keep up prices that wasn't a strike, but good business, regrettable but necessary.

When farmers propose to hold their grain for fair prices, that is a strike, un-American.

When the State of New York starts out to build two state grain elevators to aid the grain dealers and exporters in that state, that's fine and just co-operation.

When North Dakota would build a terminal elevator for farmers, that's revolutionary, paternalistic, class legislation.

Funny how things are fine and dandy until they get mixed up with farmers.—Capper's Farmer.

Reason for Decline in Farm Profits
 Advance census reports, like preliminary election returns, are not infallible, but they can usually give a fair approximation of final results. The U. S. Bureau of Census has just released preliminary figures covering the live stock census for the states of Delaware, New Hampshire, Rhode Island and Vermont. These give the number of horses and mules in 1910 and again in 1920 in both agricultural and non agricultural service.

The 1910 figures revealed a total of 61,928 horses and mules in non-agricultural service in these four states while in 1920, the same territory had but 37,417, a decrease of 24,511, or 39.2 per cent loss in ten years in the number of horses not on farms.

This is a decrease of almost 40 per cent, and if the figures for the other states reveal a corresponding situation as to horses in Pennsylvania, Maryland, Delaware and the eight

states east and north, where conditions regarding horse use and production are much the same, it will amount to 382,222 head,—a very sizeable reduction in the last ten years.

The decrease in farm horses in these eleven states is not nearly so great. The four states referred to,

Mrs. Cohen—"Dis life guard saved your life, Cohen. Shall I giff him a dollar?"

Mr. Cohen—"I was half deadt ven he pulled me out. Giff him fifty cents."

This year the Electoral College is a co-ed institution.—New York Herald.

W.L. Browning
 JEWELER OPTICIAN
 EXPERT REPAIRING CANYON, TEXAS

U. S. Gives Billions to Europe But Lends its own Farmers Nothing.

By Arthur Capper, United States Senator from Kansas.

Washington, Dec. 1.—We can finance a \$26,000,000,000 European war; we can finance European governments to the extent of another \$10,000,000,000; we can supply more than \$1,000,000,000 to American railways; we can furnish month after month billions of credit for wild and wool speculations, but we have no money to lend to the farmers, nor to save from bankruptcy the men who have invested their all in wool, cotton, livestock or grain, the victims of car shortage and demoralized markets.

We can supply Wall Street with billions for gambling; we can furnish more than \$1,000,000,000 Government funds to support a broken-down transport system; we can and are financing the profiteering sugar farmers of Cuba during market crisis, but we cannot help the American farmer who is feeding our Nation at prices far below the cost of production.

This all shows how faulty is a credit system which cannot finance American industry, which produces \$20,000,000,000 of new wealth in food and raw materials and which provided Wall Street with \$2,500,000,000 for speculation on forty-two different days this last year, according to the report of John Skelton Williams, comptroller of the currency.

It appears that the Secretary of the Treasury, the same treasury that advanced the railroads \$1,031,899,451 the Federal Reserve System, which has an unused leading power of \$750,000,000, which could be raised to \$2,500,000,000, are both unable to provide a million for an \$80,000,000 industry, which makes possible our national prosperity.

Every day we read of "bank credit being overstrained," for farmers, wool growers, stock producers and wheat raisers, when we can learn on the same page of the paper that four issues of foreign securities aggregating \$42,000,000 were quickly sold in one week.

What a commentary—American financial support prompt to rescue the Cuban planter, but not to the men who produce the food on which we live. And on June 30, last, the assets of American banks exceeded the combined assets of all other leading nations, a total of more than \$53,000,000,000.

There is something the matter with a credit system which works as unreasonably as that. Secretary Houston does not approve of the war finance board; but we might as well re-establish the war finance corporation to finance farm exports. We have got to open foreign markets immediately to our grain and meat products.

I have just talked to Eugene Meyer Jr., former chairman of the war finance board, and he has been in contact with the leading bankers of all Western cities, who express themselves as being in favor of re-establishing the War Finance Board.

Furthermore, the Federal Farm Loan Board should have authority to issue and sell in the open market short time securities, based on warehouse receipts; those securities to be

acceptable for rediscount by the Federal Reserve Banks.

The Federal Reserve Board denies that credit has been withheld in agricultural sections, but if that credit is wholly inadequate, as we know it is, what does that denial amount to?

The Federal Reserve Board of Kansas City has charged as high interest as 20 per cent per annum this year. What we do know is that the farmers are facing an aggregate loss of \$2,500,000,000 this year and what concerns us vitally is how can they produce another \$20,000,000,000 of food next year unless they are given credit?

Even Peoria Gains

Lincoln (Neb.) Journal: When national prohibition became assured Peoria, the greatest distilling center in the country, was genuinely frightened. Now it discovers that the Eighteenth amendment was a blessing even to a distilling center, just as it is proving of benefit to every other community. While the distilleries looked large they actually employed comparatively few men. Practically all of the operations were carried on by automatic machinery. A few men could keep the valves turned and the machines polished. When prohibition came the plants were sold out right to the United States Food Products Corporation. Now they are making

industrial alcohol, corn syrup, root beer and other soft drinks, apple butter, jams, vinegar, yeast, stock feed, starch, corn oil and other miscellaneous products. There is a promise of the development of a great sugar industry also, for a process has been discovered by which crystallized sugar can be made from corn. Already five times as many laborers are employed about the plants as before. Peoria, therefore feels more prosperous and more respectable by a long shot than when the smell of whiskey was in the air. The best thing about the new order is the certainty that the industries now filling the old distillery buildings will expand in every direction, as there seems to be no limit to the market that lies open to them.

The Newly Married

Charles Lamb: Nothing is to me more distasteful than that entire complacency and satisfaction which beam in the countenances of a newly married couple—in that of the lady particularly; it tells you that her lot is disposed of in this world; that you can have no hopes for her. It is true I have none nor wishes, either, perhaps, but this is one of those truths which ought, as I said before, to be taken for granted, not expressed.

SUBSCRIPTION \$2.00 PER YEAR.

Foreign Advertising Representative
THE AMERICAN PRESS ASSOCIATION

From the press reports, it would indicate there was a better feeling in congress which might result in needful legislation that the country has seen since the war. Senator Harding's appeal that the republicans make the coming three months useful rather than wasteful will no doubt be beneficial. President Wilson seems to have lost some of his desire for a one-man government. Many things can be done before March if the present spirit is maintained.

Canyon should take steps at once to stop the young smashers who continually insult the young women on the streets. A young woman in Dallas was fined \$300 last week for "making eyes" at a passing stranger. There are a bunch of fiends, some Canyon boys and some from the outside, who can be cured of their present liberties in approaching women on the streets if a few are given the limit in fines and jail imprisonment.

Co-operation was the theme of every speaker at the Commercial League dinner Tuesday night. If the fifty men who attended the dinner made a deep resolve that they will work in every possible way to make Canyon the kind of a town she should be, there will be some great changes during the coming year. If, however, none of the suggestions made, Tuesday night are undertaken, Canyon will be about the same size next year, and have no more improvements than she has now. Let the spirit of co-operation bear results.

The banks of Canyon have no need of fearing the daylight bank robbers. These gentlemen could not get over the streets fast enough to make their escape.

GOOD FELLOWSHIP MARKS DINNER OF LEAGUE

(Continued from page 1)
cause it is the recognized center of culture of this section. Mr. Hill states that there is less friction and criticism in Canyon today than he has ever seen. It is a most hopeful sign for real community building spirit. Mr. Hill deplored the poor condition of the school houses of Randall county. He believes that the country schools of Randall county should be the best in the Panhandle. He wants to make them an example to the entire section. He feels that unless this is true the Normal's mission has not been fulfilled. He praised the spirit of the people of this county, and felt that the lack of school facilities had come about thru lack of leadership. The Normal wants to take that leadership and help in every way possible in the country schools.

Mr. Hill also wants to see the farms of Randall county better improved with the best of stock of all kinds, and offered the facilities of the agricultural department to the county agent and the farmers. Especially is he interested in better dairy cows. Mr. Hill is interested in pure foods, better dairy facilities for Canyon, an extension of the sewer system and more fire protection.

Mr. Hill explained that he was asking for \$730,000 for the Normal for the coming two years. This budget was submitted to the Board of Control two weeks ago. He understood some of the items asked for had been cut out but did not know which ones. He is asking for \$110,000 to double the size of Cousins Hall. There are now 84 girls in the dormitory and with the addition asked for, 180 girls could be accommodated. He wants an ordinance in Canyon to protect the girls from men in cars, who drive here from other towns or who may live in Canyon, to seek out young women on the streets after dark and press them to take a ride. This practice is increasing dangerously. Mr. Hill wants an ordinance such as Denton, Dallas and other cities have which will bring down a heavy fine upon any man who approached any young woman with whom he is not personally acquainted.

Mr. Hill is asking for \$30,000 for

a modern lighthousekeeping apartments to take care of the poor girls who come to the school and can find no desirable places in town. He is asking for \$48,000 to buy a section of land, and improve it for the agricultural department. The products of the farm would be used in the dormitory. He is asking for \$25,000 for an infirmary. He is asking for \$10,000 for a green house, \$25,000 for an apartment house for unmarried ladies of the faculty and \$175,000 for the general support of the school each year. Several members of the legislature are likely to visit Canyon before Christmas and Mr. Hill urged co-operation among the citizens to see that the visitors were properly informed regarding the needs of the school.

Rev. B. F. Fronabarger closed the program with a very fervent appeal to the churches in their work connected with the school. The greatest things the church can do for the school is to continually hold before the student The Christ—the Light of the World. He plead that the homes of Canyon be opened to the students and that they be made to feel at home in the town. Give them a good time—the proper entertainment during their stay in Canyon. His last thought was that only as the Christian co-operates with the church, shall the church be able to help the Christian.

The election of officers followed, resulting as follows:
President—C. W. Warwick.
Vice-President—E. H. Powell.
Sec'y-Treas.—C. H. Jarrett.
Directors—The three officers, together with D. A. Shirley and O. N. Gamble.

Mr. Sheffy recently received from the Normal Schools the question which will be debated this year. Following is the question: Resolved, That the open shop should be guaranteed by State and Federal Statute. The Literary Societies will debate this question to give practice to those who wish to try out for the inter-Normal debates.

At the Epworth League Sunday night Rev. Shaw, read the challenge from the Clovis Epworth League to play them a game of basketball. It was decided to accept the invitation and "clean up the country." Miss Anderson, assisted by Miss Eula Stuckey, was appointed to organize the team.

Dr. Oliver from Dumas spent the week-end at his home in Canyon. Graydean Foster, a former student of the Normal, is principal of the Colorado City High School.

Mr. and Mrs. Wells visited friends in Canyon last week. Mr. Wells is editor of The Wellington Leader.

Miss Louella Tate visited friends in Vega and Adrian this week-end.

Miss Lizzie Joe Redfean was in Plainview Sunday.

Miss Ola Lewis is teaching at the Jewell school near Happy.

Miss May Panks, a former student of this college, is teaching near Dumas.

Miss Hazel Groves, who attended school here in 1918, is teaching at Lieb, Texas.

Miss Ethel Duff spent the week-end at her home in Happy.

Felix Neff and Clare Miller visited home folks in Happy this week-end.

Miss Myrtle Horn, who attended school here last summer, is teaching in the High School at Sandhill.

Miss Gertrude Speer, who attended school here last year, is going to school at Fort Worth.

Mrs. Fred Bradshaw of Harper, Kansas, a former student of this institution, is visiting her sisters, Misses Glenna and Irene Smith.

Mr. Randolph King, a former student of this college, is attending a business college in Dallas.

Mr. Elmer Cates, a student of the Normal, is attending the Tyler Business College.

Miss Ruth Wakefield, who is now

teaching English in the Cleburne High School, visited Mr. Levi Angel last week.

Thurman Hawkins, who was with us last year, visited friends in Canyon this week.

Miss Gertrude Landis of Amarillo was the guest of her sister, Miss Tot, last week end.

Miss Edna Graham chaperoned Misses Mildred Richardson, Bess Prichard, Willie Mae Bagwell, Bessie Roberts and Allie Merl Wilson to Amarillo Friday evening to attend the recital of Marie Rappold.

Misses Bess Prichard and Mildred Richardson were called home on Thursday, Nov. 25, to attend the funeral of Mrs. Earl Goforth, the sister of Miss Prichard.

A variety of pot plants have been added to the beauty of the reception room in Cousins Hall.

Mr. O'Keefe of Panhandle spent the week-end with his family in Canyon.

Robert Berry, Floyd Callihan and Wayne O'Keefe spent Sunday at Six Mile Crossing.

Miss Lorraine Flesher spent the week-end at her home in Happy. Messrs. Wallace Williams and Radford McKay were visiting at the O'Keefe home Sunday.

Anyone passing by Cousins Hall (after dark) will be charmed to hear strains of beautiful music played by the Hall's new orchestra.

The Normal student Sunday School attendance at the various churches last Sunday was as follows: Methodist, girls 76, boys 25; Baptist, girls 36, boys 26; Presbyterian, girls 33, boys 27; Church of Christ, girls 24, boys 4; Christian, girls 10, boys 3.

Alvis Lynch, a student of last year, is in Canyon making preparation to enter school after the holidays.

Miss Golda Murphy, a former student of ours, is teaching this year at Roaring Springs.

Miss Genevieve Bynum of Hedley visited Miss Eleanor Hefner at Cousins Hall last Saturday.

Teams representing the Elapheian and Sesame Literary Societies, have been practicing enthusiastically for a match game of basketball. The game was to have been played Dec. 3, but was postponed until after the holidays because of the lack of light.

Miss Myrtle Miller became a member of the Cousins Hall family last week.

The Cousins Hall girls are very sorry that Miss Dalpa Turnbough is going to leave them Dec 11. Miss Turnbough goes to assume her duties as teacher near Quannah.

Misses Gladys Milhollon, Ivan Luce and Vivian Coffman, former students of this college, are teaching at Spur this year.

Miss Josie Hart, who recently left school on account of illness is now taking treatment at Liberal, Kansas.

ROTARIANS ENJOY HOSPITALITY OF CANYON NORMAL

(From Amarillo News.)

One hundred and twenty Amarillo Rotarians, their guests and members of the faculty of the State Normal School at Canyon City last night sat down at table together and partook of a luscious six-course banquet. The food was of the best, seasoned with the salt of good-fellowship and eaten to the soothing strains of "La Paloma" and the stirring chords of "Faust" and the Tales of Hoffman. Short addresses were made by President J. A. Hill, of the West Texas State Normal College; President H. C. Pipkin of the Rotary Club, and C. W. McCullough, who made a plea for the promotion of the sale of Christmas seals, the receipts from which will go into the battle against tuberculosis. Following the banquet guests and faculty adjourned to the college buildings proper, where they were taken over the first floor by guides.

The early arrivals found the buildings in darkness which was only partly broken by candles. The lighting system, supplied with power by the plant at the Normal School, was out of commission. Long before the time came for the banquet, however, the electricians had effected repairs, and thereafter the system functioned perfectly. Members of the faculty circulated freely among the guests

before the dinner hour and made themselves acquainted with all.

During the serving of the courses the College Orchestra played a varied selection of pieces. Those most heartily applauded were two selections from Faust; O Belle Nuit, from the Tales of Hoffman; and La Paloma, by Yradier. Mr. Wallace Clark is the director of the splendid orchestra which numbers twenty pieces.

After the banquet a brief address was made by Mr. Hill, in which he welcomed his guests and stated that there were a number of reasons for the issuing of such an invitation. One was the desire for better acquaintanceship between Canyon City and the Normal on one side and Amarillo on the other. Another reason was his wish that the people of Amarillo to learn what a really great institution they have for a next door neighbor. It is an institution, that cost more than a million dollars to establish, and improvements to the extent of \$700,000 are contemplated; the legislature will be asked to authorize them at its next session.

President Pipkin responded for the Rotary Club, following which Ernest Thompson introduced all members of the club to the audience, passing from table to table to do so, and giving play to a keen but inoffensive wit the while. Many of his remarks had the house in an uproar of laughter. The guests of the club were introduced by Mr. Pipkin, each one standing while being introduced. Following this mixture of ceremony and fun all were taken for a short tour of the college building, which was succeeded by a gymnastic exhibition of a high class which was staged by students. This concluded the night's entertainment.

(From Amarillo Tribune.)

Members of the Amarillo Rotary Club, and a number of other Amarillo people who were guests of the club were entertained at the State Normal at Canyon Thursday night. Beginning at 6:30 o'clock the visitors were served

a banquet in the dining room of the new woman's dormitory.

The banquet was prepared and served by the home economics department of the Normal.

The program at the banquet was short and informal. President J. A. Hill pronounced the invocation, and made a brief address of welcome in which he explained the purpose of entertaining the visitors at the Normal.

"This is an institution for the Panhandle and we want the people of this section to become acquainted with what we have to offer here. A full college course is offered here, with the exception of the extremely technical courses, such as medicine, pharmacy, etc. The enrollment at present is 500 with 200 additional in the training school, he said.

The institution is ten years old and represents an investment of about one million dollars. The State expends \$200,000 annually in its operation and the budget which will be presented to the next Legislature will call for \$700,000 for the ensuing biennial period. The new dormitory cares for about ninety young women. The main building is the best individual school house owned by the State. We have a faculty of fifty-four members."

A great many camps look suspiciously like revamps.—Columbia (S.

Interesting Comparisons

According to the methods of calculation by the Iowa Farm Bureau it costs the wheat farmers of Iowa \$34.81 per acre to grow and market this year's wheat crop.

Among the items figured in the cost we note \$3.41 for seed, \$14.50 interest on value of land, \$2.00 for tax, \$1.49 for manure. These items give a total of \$21.70. The remainder or \$13.11, is the cost of labor, the threshing, etc. The acreage yield at 18 1-2 bushels, which is the estimated annual crop yield.

Figuring on the same basis for Carson county, we get the following results: Seed \$1.00, interest on land, \$4.00, tax, 25c, labor, threshing, etc., \$13.11. Total \$18.36, or \$16.45 less than it costs to grow and market wheat in Iowa, and the average yield per acre is about the same.

Here is where the difference in cost comes: The Iowa farmer uses three times the amount of seed the Carson county farmers use; it costs \$260 per acre to buy land in Iowa and \$50 in Carson county. The tax in Iowa is \$2 per acre and in Carson county about 25c; they figure \$1.49 for manure in Iowa and in Carson county the lands need no fertilizing.

Now here is the point: You can buy five hundred acres of Carson county wheat lands for the same money that you can buy one hundred acres in Iowa lands and the cost of producing is but a little more than half of the cost of growing wheat in Iowa; and the average yield is about the same. "Nuff sed."—Panhandle Herald.

The Panhandle Editor

When the editor of the Record began setting type twenty years ago a printing plant that cost \$400 was considered a pretty good shop. The first Panhandle newspaper we saw about twelve years ago was a five-column quarto, half patent. That paper does

more gross business today in one month than it did then in twelve months. The Panhandle has been developing rapidly in the past few years. Today the valuation of the printing plants in many of the Panhandle newspapers is around \$10,000 each. Many of the editors own their own business buildings, and most Panhandle editors own their own homes, have them handsomely appointed, and ride in their own automobiles. This represents an investment of around \$20,000 per editor. Some Panhandle editors will invoice better than that financial rating, of course, some not so high.

These thoughts came to us as we have been reading of handsome purchases of modern, expensive machinery lately by Panhandle editors, each piece of machinery being worth in most cases more than the entire printing plant in the old days.

The machinery investment made by Panhandle editors in 1920 has been almost staggering in volume, yet those investments speak for the progress and up to dateness of Panhandle shops. The boys have learned that modern machinery supplies the problem of labor shortage, and affords the means of handling work quickly on a small payroll.

Only a few years ago, so few in fact that it seems more a dream than a reality, printers discussed modern linotypes, power paper cutters, Miller press feeders, New Series presses, individual motor equipment and kindred devices that bring delight to the printer's eyes, in terms of awe as something beyond the ordinary purse. And yet, in 1920 most of the Panhandle newspaper plants have installed such machines.

Among those who have made such princely improvements are Ben F. Smith, publisher Lockney Beacon; C. W. Warwick, owner Canyon News; Fred Haskett, editor Childress Index; and Jas. L. Dow, publisher Lubbock

Avalanche. All above the \$10,000 M. L. Moody has purchased a linotype for his paper, the McLean News. All Panhandle shops have in the last year purchased expensive machinery. The Canadian Record has installed considerable new equipment.

The progress of Panhandle newspaper offices is a source of pride to the Panhandle. It reflects the prosperity and snappy uptownness of the Panhandle. The spirit of optimism in Panhandle print shops is typical of the spirit of the Panhandle. The improvement of the offices is marking the development of this majestic commonwealth.

The Panhandle can take pride in the fact that the newspapers grade up higher than in any other section on earth. They have a snap and appearance that does the Panhandle proud.—Canadian Record.

France's German Policy

Major Sanford Griffith in New Republic: The French program continues to be primarily a politico-military policy of isolating and dominating Germany. On the economic side it is to realize as much as possible from Germany in the immediate future. This question I put to a French economist: Ought France aim toward economic collaboration with Germany in the hope of a rapid return to normal economic conditions on the continent, or toward a policy by which France would realize more in immediate indemnity but bankrupt Germany and result in complete economic confusion in Central Europe? He replied: "Germany's resources and recuperative powers are greater than you imagine. I doubt whether the economic disorder would be as great as you fear. But there is bound to be poverty on the continent because there is not enough to go around. For this reason it is better that Germany suffer than we. It would be an injustice for Germany to be permitted

to put her industrial machinery back in motion, still intact, while we are partly paralyzed because of German destruction in Northern France.

CITY PHARMACY THE REXALL STORE

American and English Children
 Louisville Post: The Manchester (Eng.) Guard thinks poorly of American children although it tells us that it has a very high opinion of American men and women. "American children are spoiled and illbred," says the English editor. "They persist and interrupt and whine. There is nothing so irritating as the American child between 5 and 10. And yet, out of these unendurable little terrors grow the sweetest tempered and most courteous men and women I have ever known."

Well, a fair conclusion is that the English editor is wrong somewhere. Children who are spoiled and illbred, and who persist and whine and interrupt, do not grow up to be the sweetest tempered and most courteous men and women in the world. The authority is wrong either about the children or the grown people. And the chances are that he is more wrong about the children than he is more right about the adults. All -American men and women are not sweet tempered and courteous; some are quite the reverse. It is pleasing to find that the editor of such an exponent of high culture as the Manchester Guardian thinks so well of our men and women but let us not flatter ourselves into believing that everyone thinks so.

Failures

They bear no laurels on their sunless brows,
 Nor aught within their pale hands as they go;
 They look as men accustomed to the slow
 And level onward course 'neath drooping boughs.
 Who may these be no trumpet doth arouse,
 These of the dark processions of woe,
 Unpraised, unblamed, but whom said Acheron's flow
 Monotonously lulls to leaden drowse?
 These are the Failures. Clutched by Circumstance,
 They were—say not too weak!—too ready prey
 To their own fear whose fixed Gorgon glance
 Made them as stone for aught of great essay—
 Or else they nodded when their Master-Change
 Wound his one signal, and went on his way.
 —Arthur Upson.

Relative Conditions

Ohio State Journal: One needs to read these stories of the desperate plight of millions of people in European countries to get a right view of the happy conditions that surround the people of the United States. This country has foodstuffs in quantities almost unlimited, and with prices tending downward. One-third of the people of the war-stricken lands abroad are on bread rations, so Herbert Hoover has made public. There is no menace to public health at any point in this land, while the plague is sweeping foreign lands. Here there are money, medical skill and supplies to meet any sudden need. Abroad there is lack of funds, lack of adequate medical skill and supplies. Here there is employment at the best compensation in the history of

the country, so those who face war prices may yet fight their way to victory and care abundantly for those dependent upon them. Men and women are free to seek better employment as opportunity opens. There is no question of funds being ready for pay-day. Abroad money is scarce, labor opportunities meager in most places, while in Soviet Russia labor has been nationalized, men and women being sent where some governmental agency decides, paid what governmental officials fix and what they may earn, what they may eat and what they may purchase or wear are all dictated by Soviet officials.

Economically there is no land in the world that has conditions comparable to those that obtain in this country. We have abundant justification for being the happiest people on earth. We have all that our comfort requires and we have abundance where-with to feed the hungry and care for those in distress. We have conditions that vex and annoy, but they are curable, and they are minor, not major conditions. It takes a view of European troubles to show us, relatively, how happy is our condition.

The Women's First Vote

The Villager: A lady came to us the other day to ask us what we thought she should do about the League of Nations. She had a clipping in her hand giving the names of a group of women, all college presidents and professors, who had declared themselves for Governor Cox. She ventured the opinion that the league could not be so bad after all if these women were for it, so we

repeated to her the story Dr. Gordon of Old South Church tells about Dr. Williams of Providence. A preacher of Armenian persuasion was endeavoring to prove to Dr. Williams that a soul once converted could nevertheless be lost to the Kingdom, and he cited the parable of the Ten Virgins; they all went out to meet the Bridegroom, but five fell away and were lost.

"Well," replied Dr. Williams, "any man who believes a doctrine of Scripture on account of what five women did, and five foolish women at that, deserves to go to perdition."

If Dog Appears Mad, Don't Kill Him
 Once more we say, don't kill the supposedly rabid dog. This for the sake, not now for the dog, but for your sake if you have been bitten. If the dog is mad, in all probability he is not, he will be dead in eight days from rabies. If he doesn't die, you know he isn't mad, and anyone bitten need never worry about having hydrophobia. Catch the dog somehow, if possible, with some sort of a net or noose. Get him into any kind of enclosure, or yard, or kennel, and keep him under observation for a week. The average officer thinks that every dog that bites anyone must be mad, and that he must shoot him. If every man and woman were shot who, irritated, worried, hungry, thirsty, sick, frightened, snap at and bite, metaphorically speaking, the first persons they meet, what a destruction of the population! —Our Dumb Animals.

Come to Canyon to live.

The Christmas Carnival is on at THE UNITED STORE

If you want to feel the real Christmas spirit just as it used to thrill you in the good old days, visit the United Store's Christmas Carnival.

The entire store has been transformed into a veritable Toyland that is sure to please both young and old. Here you will find the largest display of American Made Toys ever shown in the Panhandle. We have them at all prices and in such variety that the shopper is sure to find just the gift to suit his needs.

Besides the merriads of Toys for children we have many beautiful things for the "grown ups" particularly in our Stationery, Candy, Queensware, Clothing and Toilet Accessories Departments.

We call your attention particularly to our large stock of boxed chocolates and our Christmas candies.

In our Toilet Goods the shopper will find the best in standard advertised goods at a good saving.

The Latest and Best

We offer the Case 15-27 Kerosene Tractor as the king of them all. It is creating a sensation all over the country. It is the result of 77 years of experience of the famous J. I. Case Threshing Machine Company.

It pulls three plows in hard plowing—four plows under favorable conditions. It has abundant reserve power. It burns kerosene successfully and economically.

This sturdy tractor is adaptable for all kinds of drawbar and belt work. It drives a 26x46 Case Thresher with Feeder and Wind Stack. Its pulley is properly placed for convenient "lining up."

It is small and compact and built for accessibility. No tractor is finer. You should become acquainted with its many superiorities, which we will be glad to explain. Don't buy before you see this better tractor.

Umberger News

Misses Johnson, Teuchec and Beckman, Mr. W. Beckman, C. Beckman and Janssen went to Happy Sunday on a pleasure trip.

Tony Erdman is in the Sanitarium at Amarillo where he recently underwent an operation.

Marie and Catherine Beckman spent Thanksgiving day with home folks.

Mrs. Craig went to Amarillo Saturday.

Mr. Albert Fischbacher has bought the A. P. Thornton place north of Umberger.

Mrs. Craig and Miss Finley spent Friday at the home of Mrs. Henry Beckman.

E. J. Evers spent Sunday at the Lester Smith home, east of Canyon.

Catherine Frank, who is attending school in Amarillo, spent the week-end with home folks.

Dorothy Beckman spent the week end in Amarillo with her sister, Marie.

Bert Lester has taken Mr. Craig's place as third trick operator at the depot. Mr. Craig having left last Friday.

Mr. Bader has recently taken charge of the elevator.

A Mother's meeting was called at the Umberger school Friday evening. The report was a good attendance. Many subjects were discussed.

Little George Friemel was run over by a car Sunday. He received no injuries; only a bad scare.

Stocker's took Sunday dinner with E. J. Friemel's.

Mrs. M. Hess' health is still on the decline.

Miss Anna Weissmueller was in Amarillo Sunday visiting friends.

Erdman's were in Amarillo Sunday visiting relatives.

Grace Beckman spent the day Sunday with the Weissmueller girls.

Miss Roxy McCann was in Amarillo Saturday shopping.

Indebted to Goodnight

Ever since that early day when Colonel Goodnight and his good wife came to the Panhandle country, the debt that this section owes them has been steadily increasing. Colonel Goodnight was a prominent figure in the events of that stirring and soul-trying time and, gave liberally of his time, means and influence for the good of the country.

It has been most gratifying to his friends to see this debt acknowledged and some appreciation of the great service he has rendered the Panhandle shown him while he is still with us. Even the State of Texas has finally come, though tardily, to accord him some of the honors he has so richly deserved. Were it not that he belongs to the Panhandle, his name would be recorded in the history of the State along with those of Sam Houston and other illustrious pioneers. In that day, perhaps not so far distant, when the Panhandle shall be given its just due in the histories by reason of being a state by itself, Colonel Goodnight and our other Panhandle pioneers will receive the credit and honor which is justly theirs.

And now comes the Government at Washington, acknowledging that it is indebted to Colonel Goodnight for an idea by which the herds of buffalo belonging to Uncle Sam will contribute to their own support.

Most of "our" folks have seen the splendid articles made from the wool which the buffalo shed in the spring. Colonel Goodnight has gathered it from the trees and bushes and had it woven into blankets and spun into yarn at considerable expense. It makes cloth that is at once very warm and very light in weight, a blanket six by seven feet weighing but a little more than four pounds. The Colonel, himself, has a sweater made from the yarn and during the war he sent General Pershing socks knit from it which were gratefully acknowledged by the World War veteran.

The spinning and weaving of the Buffalo wool is but one of the lesser services which Colonel Goodnight and his wife have rendered the Panhandle, the State, the Nation and humanity. It was they who preserved for posterity the remnant of the great southwestern herd of buffalo; was through Colonel Goodnight's indefatigable and painstaking ef-

forts that the cattalo was developed and, more recently, an, as yet, unnamed animal resulting from crossing the karakule sheep and the hog.

The Panhandle is proud of this redoubtable pioneer and hopes that he may yet be persuaded to lay aside his personal aversion to publicity and give to the youth of this section the story of his life. It would be an interesting and thrilling tale and put many of the modern "best sellers" in the shade.

—From Southwest Plainsman.

A Natural Mistake

Girl (to druggist)—Could you fix me a dose of castor oil so as the oil won't taste?

Druggist—Certainly! Won't you have a glass of soda while waiting? (She drinks the soda.)

Druggist—Something else, miss?

Girl—No, just the oil.

Druggist—But you have just drank it.

Girl—Oh! It was for my mother.

for which the preliminary census figures have been issued, show a decrease from 168,180 horses in 1910 to 149,717 in 1920, or a decrease of only 18,463 head, approximately 11 per cent reduction in the past ten years. On this basis the entire eleven states will probably show a reduction of 204,308. The total loss in horses of both farms and cities in this area will probably run to 586,530 head.

The reduction indicates that an annual market for 600,000 horses has been destroyed and demands for hay and grain reduced by about \$88,000,000, figuring that each horse displaced consumed \$150 worth of feed per year, which is approximately correct. Farmers have lost in two markets,—in horse sales and in the sale of their hay and coarse grains.—Wayne Dinsmore, Sec. of the Horse Association of America.

Planted Trees With Corn Cobs

"My father and I once tried an experiment that has been a great help to me in starting young trees. Having some young apple trees to set out, a few days beforehand we put some corn cobs to soak in water. We then hunted up some old bones, and in the bottom of each hole dug for a tree put some of them, covering with about four inches of dirt from the top soil, on which was placed a few of the soaked corn cobs and more soil, then the trees. Six were set in this way

and six without. Two of the six set in the ordinary way died, but the six set as I have described lived and thrived much better than the others and made better trees.—J. P. Douglas in Capper's Farmer.

Farm Legislation Proposed

Washington, Nov. 30.—Possible remedial legislation for agricultural

interests will be considered at a joint meeting of the agricultural committee of the senate and house next Thursday. The Senate committee went over the situation today and invited the house committee members to meet with them at that time to see what could be done to alleviate the situation caused by falling prices for farm products.

Senate committeemen said tentative suggestions for consideration included:

Revival of the war finance corporation and the opening of European market for surplus products, some plan for extending credit to foreign nations and amendment of the federal reserve act to afford extension of credits on agricultural paper.

Senator Norris, Nebraska, said re-establishment of trade with Russia would be the means of relief. Senator France, Maryland, another member of the committee, plans to introduce a resolution for this purpose.

More dollars are wanted for prohibition enforcement. Also more sense in its enforcement.—Buffalo

HOLIDAY GREETINGS

Opinions Get Us

E. J. Swift in Scribner's: If we seek the cause of fixed opinions we find a most interesting human characteristic. Experiences organize themselves into systems of idea. We do not get these opinions. They get us. We grow into them through the influence of the newspapers that we read and the views that we hear from people in "our class." And unfortunately for progress, the so-called classes are about as isolated as animals on an ocean island are separated from those on the mainland. These systems of thought become organized as fixed mental complexes. Enthusiasts display them in their hobbies. Some men, for example, bore us with golf, or photography, or with their particular brand of reform. Such mental complexes are usually harmless to society and diverting to their possessor. But where important matters are at stake, these fixed systems of thought blind us to the essential factors of the problem. We can not understand opposing arguments. We are biased toward all questions to which our systems of thought apply. And, under these circumstances, thinking is a rearrangement of our prejudices.

New ideas may be inserted into these mental complexes provided the operation does not disturb the old thoughts. Dr. James Simpson, a Scotch physician, has shown how the mental surgeon should proceed to graft new ideas onto the old. Anaesthetics had just been discovered and the good doctor, was one of the eccentric physicians who believed in their use. But the opposition was bitter. No physician could use them and keep his social standing or his practice. Pain was God-given, it was said and any attempt to alleviate it was an effort to thwart his will. The situation was critical. A major operation was clearly needed. So the doctor wrote a pamphlet in which he said: "My opponents forget the twenty-first verse of the second chapter of Genesis. It is the record of the first surgical operation ever performed,

and that text proves that the maker of the universe, before he took the rib from Adam's side for the creation of Eve, caused a deep sleep to fall upon Adam."

Dr. Simpson's operation was successful. The patients suffered no mental shock and thinking proceeded as before.

Going to The Movies

Are you a picture fan? If you are not you must be a peculiar sort of person. If you are you will enjoy these don'ts that President Hannibal N. Clermont of Clermont Photoplays Corporation offers for the guidance of the A. O. M. F. (Ancient Order of Movie Fans.) They are not intended for you, but for the other fellow.

Don't hurry about buying your tickets. The girl behind you in the line is probably a department store clerk, and she doesn't have to get up till five o'clock in the morning she should worry about how soon she gets home.

Don't take the seat the usher shows you to. She knows you don't want that seat, but takes you to it just to be mean and ugly.

Don't rise to permit anybody else to pass. It's a joy to walk over people. Make it as hard for the other fellow as possible.

Don't thank the lady and gentleman who arise that you may pass more easily. They might think you appreciated the courtesy.

Don't fail to assist the orchestra. Your neighbors will enjoy your vocal accompaniment. Also if you kept quiet they might think you a nut.

Don't forget to read the sub-titles loudly enough to be heard several rods away. It is likely that the people near you cannot read and your forethought will be appreciated.

Don't fail to carry on a conversation with your companion. The picture may be "rotten" and your talk will help cheer up your neighbors.

Don't forget to tell the management just what you think of the picture in case you don't like it, but if you do like it keep still. The manager may have a weak heart, and a

sudden burst of joy might kill him.

Habit of Learning

"There is something I have found out since leaving school that may surprise you; you will not have so much use for the things you are learning now as you think you will have," writes the Cave Scout in Boys' Life for September. "As a matter of fact you will forget nine-tenths of the things you learn in school after you graduate."

"The most important thing in school is not the information you acquire, but the habit of learning that you establish. Here is a man with no education. He has never learned how to solve problems. Some trouble comes up in his life—it may be a comparatively simple matter—but he is helpless, can't see any way out of his difficulties. The same situation confronts a man with an education—a trained mind—and he begins to put things together and figure and scheme and soon has a solution to the problem, because he has learned how to solve problems by going to school."

A holler for offices is the Electoral College Yell.—Baltimore Sun.

HOGS PAY BIG MONEY

Mr. Pete Wing of Hawk Point, Mo., made a lot of money out of his hogs. He says: "I fed them Dr. LeGear's Hog Prescription. It has given wonderful results in putting gains on them with less feed. They were on heavy feed for only a month; averaged gain of 2 1-2 pounds daily, and were only 7 months, 10 days old, when sold."

Mr. Wing profited by the advice of Dr. LeGear, Graduate Veterinarian and Expert Poultry Breeder of 28 years' standing.

Dr. LeGear's Hog Prescription will put weight on your hogs also, because it expels worms, purifies the blood and conditions them so that they gain flesh on less feed.

It makes no difference what ailment is prevalent among your stock or poultry, it is money in your pocket the proper Dr. LeGear Remedy from your dealer, on a satisfaction or money back offer.

WANTED BY

THE PIONEER BAKERY CO.
ONE THOUSAND MORE BREAD EATERS

DAILY CAPACITY
TEN THOUSAND LOAVES

The Pioneer Bakery proposes to supply the people of Canyon with bread, which in taste—cleanliness—eating qualities—keep-qualities is far superior to any loaf ever bought by the people of Canyon; and why shouldn't it, when you compare the appetizing and alluring appearance, the sweet flavor of our Bread with other foods. You find, that it is by far the most economical, that it is the only food ready to serve, that it requires but little labor, and that it adds to the palate of other foods and makes them go further.

Your health is dependent upon good food. In Clover-Leaf Bread you will find the excellent food; it contains the greatest amount of nourishment at the lowest possible price.

We feel assured that the housewives of Canyon will respond with liberal patronage as a proof of their appreciation.

Place a standing order for "Clover-Leaf" Bread with your grocer.

Why Big Dairies Feed Cow Chow

You can understand why Purina Cow Chow has been adopted as the standard ration on the D. W. Field Farms, the Allamuchy Farms, and hundreds of others that head the lists, when you realize that Purina Cow Chow is

24% protein

of which 85% is digestible. This means 20 lbs. of digestible protein in every 100 lb. bag.

It is a pure feed that balances home-grown roughage and reduces the cost of production. More milk from the same number of cows means a larger profit per gallon.

Purina Cow Chow Feed—sold only in checkerboard bags. Let us put your herd on a test.

Happy Happenings

A light rain Sunday night turning to snow. About two inches of snow fell. High wind Sunday night and Monday. The telephones are not working, 17 of the big poles being broken off and wires tangled by the snow and high wind.

Van and Vanis Foster attended the funeral of Roy Foster in Canyon last week.

Mesdames Frank Scott and W. C. Bangle were shopping in Amarillo Thursday.

J. J. Bauer was a Canyon caller last week.

E. A. Logan moved his family Saturday to Littlefield, where they will make their home. Mr. Logan will be connected with the bank at that place. We regret very much to lose these good people from our midst.

Mrs. Alton Grounds and Miss Willie Grounds were shopping in Canyon Saturday.

Miss Loraine Flesher spent the week end with home folks.

Rev. Smith of Plainview filled his regular appointment Sunday morning and night at the Baptist church. Rev. McNeely preached at the Methodist church. Preaching every Sunday at the Methodist church and every first and third Sunday at the Baptist church. Everyone cordially invited to attend these services. Sunday school at 10 o'clock at both churches.

W. C. White and family spent Sunday in Canyon at the home of G. R. Stratton.

The community was saddened Thursday to hear of the death of Hugh Currie. Mr. Currie was kicked by a horse some time ago from which he never fully recovered. He was one of the oldest residents of the country, having come here some 30 years ago, when this was little more than a desert. He kept the first Happy post office for a number of years. He leaves six children: Mesdames Smith and Webster, Tom and Jenks of Amarillo, Miss Mattie and Dave of Happy, besides a number of other relatives. He was tenderly laid to rest in the Llano cemetery at Amarillo Friday. The sorrowing loved ones have the sympathy of the entire community.

Mrs. Wm. Cowan was taken to Dallas Monday for an operation. She was accompanied by Mr. Cowan, Mrs. Lester Jones and Dr. McElroy.

The Eastern Star gave a reception Friday night at the hall for Mr. and Mrs. E. A. Logan, who left Saturday for their new home at Littlefield.

Mr. and Mrs. M. B. McManigal entertained the Birthday Club Saturday night. All the members were present and Mr. and Mrs. Ernest White as guests. Sandwiches, coffee and cake were served. They left at a late hour wishing Mrs. McManigal many happy returns of the day.

Mrs. Marion Dillon of Canyon spent Friday night with her daughter, Mrs. Miller Currie and attending the reception of the Eastern Star.

The Methodist Sunday School
On December 6, 1920, 351 persons were present at the Methodist Sunday School. Seventy-five Normal girls were present; the best record we have had for a very long time. The contest is going on splendidly. The "Blues" are in the lead. This contest will draw to a close December 12, so come and help us make a record attendance on that day.

Note: There is a great vogue now for small fancy tables—the Style IX Victrola is just the thing to put on one of these.

Lay One Aside Now For Christmas
Play safe—the VICTROLA CROP is not like the corn and wheat this year—it's short. Buy NOW—We will deliver the day before Christmas.

Our Special Outfit "D" Offer

Newest Style IX Victrola, 10 Double-Face Victor Records (20 selections)
\$83.50
Very easy payments
ONLY A SMALL PAYMENT DOWN

The Style IX Victrola is 14 3/4 inches high, 17 inches wide 20 1-2 inches deep, 12 inch turntable. Has all the Victor patented features bearing on tone and efficiency. Nickel plated No. 2 sound box, new improved Victor tapering tone arm and tapering "goose neck" sound box tube. Automatic brake, speed regulator, automatic speed indicator newly designed patented and improved double spring, spiral drive motor (can be wound while playing). Comes in beautiful mahogany or handsome oak cabinet.

This is a real genuine Victor Victrola. Will outplay and outwear any other talking machine in the world anywhere near the price. Call or write today.

Holland Drug Company

Card of Thanks

Words fail us in expressing to those kind friends who so generously assisted us in every way possible during our sadness in the loss of our son and brother. Especially do we thank those who sent us the beautiful floral offerings.
