

DOLLAR WILL RULE IN CITY NEXT MONDAY

REGULAR MONTHLY TRADES DAY

Business Houses Will Make Dollar Bargains and Offer Attractive Bargains—Auction Sale.

Next Monday, February 14, the old American Dollar will shine in full glory in Canyon.

Monday is the regular, monthly Trades Day and the business houses are making it a Big Dollar Day.

The Dollar is said to have depreciated to 57 cents during the high prices of last year, but your Dollar in Canyon next Monday will be valued at par and above when it comes to buying the Big Dollar Day Specials.

The Randall County Commercial League has made arrangements for the Dollar Day and are urging that all citizens make a special effort to be in Canyon for the day.

The auction sale will be held in the afternoon with R. A. Campbell as auctioneer.

Rogers From Oil Field

J. E. Rogers returned Friday from Breckenridge where he has been assisting his brother in the restaurant business for the past two months. Mr. Rogers states he has seen some lively times during the early frontier days, but none of them equal the oil fields.

In the Breckenridge field nearly 600 drilling outfits have been shut down during the past few weeks on account of the shortage of water.

Paul Rogers went down to take his father's place.

Building Homes

L. A. Cooper of Turkey has just completed a three room house north of the Service home.

S. H. Jones of O'Donnell is building a five room house in the south-east part of town.

A. J. Arnold is building an addition to his house, located on West Chestnut Street.

Postal Clerk Examination

An examination will be held on Feb. 26 for an assistant post office clerk in Canyon. At present there are no eligible substitute clerks in the city, and the examination is held that substitute clerks may be selected, who will take a place on the regular staff in case of sickness or vacancy.

Income Tax Blanks

The First State Bank has a good supply of individual income tax blanks, which must be completed and filed on or before March 15.

Marriage License Issued

Marriage license were issued Friday to Guy W. Garrison and Miss Cecil Agnes Sanford, both living near Happy.

Barrows Will Go To Ft. Worth Show

The breeders of Randall County will send a car-load of fat barrows to the Ft. Worth Fat Stock Show next month. C. F. Walker now has the promise of about twenty barrows, and wishes to make up a car lot.

Two classes of barrows are wanted: Those weighing from 175 to 225; and those weighing from 275 up.

The Show comes on March 5 to 12.

At the meeting of the Commercial League Tuesday night \$100 was allowed to pay the expense of sending a team of four boys to compete in the judging contest. The boys will compete both in the Vocational Agricultural class and in the Pig Club class. There are twenty-five boys competing for a place on the team. In the Vocational Training class, they are instructed by Frank R. Phillips, and are with C. F. Walker in the Pig Club work.

Favor Dairy Inspection

Since seven tubercular cows were found among the registered herds of Randall county by the government officials, there has been considerable agitation for the test being enforced upon every person in Canyon who offers milk and butter for sale.

The Randall County Commercial League favored this test being required, and endorsed the passage of a pure milk ordinance by the city council requiring that the test be administered, and that all dairies be regularly inspected.

THOSE WHO ATTENDED THE COMMERCIAL LEAGUE MEETING

The Randall County News will publish the names of all who attend the regular meetings of the Randall County Commercial League throughout 1921.

Those in attendance Tuesday night were as follows:

- C. R. FLESHER
- R. P. JARRETT
- C. F. WALKER
- C. L. CONDREY
- J. M. VETESK
- W. W. KUEHN
- E. H. POWELL
- H. C. ROFFEY
- C. L. SONE
- J. W. REID
- F. H. IVES

Golf Club Limited To 25 Membership

The membership of the Canyon Golf Club will be limited to twenty-five, according to the constitution which was drawn up yesterday and will be adopted at the first meeting of the members of the club.

Officers have been elected as follows:

- C. O. Keiser, President.
 - Wallace R. Clark, Vice-President.
 - C. N. Harrison, Sec'y-Treas.
- The membership of the club has practically been filled. New members can only be taken in by unanimous vote after the constitution is adopted. A few members have been outfitted and have made their appearance on the course with more or less success in mastering the art of driving the little white ball from one hole to the other.

The Club is getting organized to have some great sport during the coming spring and summer.

After Big Green Flies

The fly has not yet put in its appearance, but there is every indication that he will soon show up on the scene with the continued warm weather. At the meeting of the Randall County Commercial League Tuesday night attention was called to the very bad condition generally of the alleys of Canyon and the need of a genuine clean-up.

The big green flies will soon crawl out of the filth allowed to accumulate during the winter.

The easiest way to kill the fly is to get him before he hatches out in the spring.

The quickest way to kill the fly is to have a thorough cleaning up of the city before spring opens up.

Christmas Seal \$114.

County Chairman C. L. Condrey, stated yesterday that he had reported \$114 as the result of the Christmas Seal campaign in Randall County. A number of chairmen appointed had failed to report to Mr. Condrey before this report was sent in.

FIRE KEY RATE LOWERED BY THE STATE OFFICERS

5 CENTS LOPPED OFF CITY RATE

Key Rate is Now 59 Cents, Saving 50 Cents on Each Thousand Dollars of Insurance.

Mayor J. D. Gamble has received notice that the key rate of Canyon has been reduced from 64 to 59 cents on the hundred dollars of insurance carried on the property in Canyon.

This decrease comes from the investigations of the engineer who visited Canyon in December and recommended that since the city had suffered no fire losses in two years the reduction be made.

The report of the engineer published in the News of last week sets forth several additional things that might be done to decrease the key rate of Canyon. The report will be considered by the city council, but it is likely that the council will find most of the suggestions impossible to carry out.

The decrease in the key rate of 5 cents will mean a saving of 50 cents per thousand dollars of all insurance carried in the city, which will help every citizen a little.

Episcopal Dormitory Probable in Spring

Rev. D. A. Sanford, rector of the Episcopal Church, was in the city this week, getting in touch with the work of the local church. He was recently assigned to the mission work of the Panhandle, taking the place of Rev. William Garner.

While in Canyon Mr. Sanford investigated the dormitory proposition as was proposed by the Episcopal church last year. Mr. Sanford has been advised that the money for the first part of the building is ready and that work will probably start on the dormitory in the early spring.

Wants Business Men's Luncheons

The business men of Hereford, Clarendon and many other towns have enjoyed noon luncheons with great profit, and it was suggested at the meeting of the Commercial League Tuesday night that this body inaugurate the noon time luncheon. A committee composed of W. W. Kuehn, J. M. Veteska and T. C. Thompson was appointed to take the matter up and see if arrangements could be made at any of the eating places for the luncheon.

Sales Pavillion Wanted in Canyon

The registered hog breeders of Randall County have discussed the need of a sales pavillion in the city for several weeks, the need of such a pavillion being especially felt when the recent hog sale was held.

At the meeting of the Commercial League Tuesday night the matter was discussed at some length and the unanimous opinion that now was the proper time to start the proposition. A committee was appointed to draw up plans for financing the pavillion as follows: H. C. Roffey, C. F. Walker, E. H. Powell, Fred H. Ives, and W. J. Flesher. This committee will report at the next regular meeting of the Commercial League, and it is expected that during April a drive will be put on to finance the pavillion.

Hereford has just completed a sales pavillion, which added very greatly to the success of the sales of Hereford cattle and registered hogs in that county. The pavillion would be of great benefit to the breeders of Randall County.

COLLECTOR TO ENFORCE OLD PENALTY LAW

NEW LAW NOT EFFECTIVE FOR MONTHS

Comptroller Sends notice to all Tax Collectors of Texas Regarding Law Enforcement.

The State Comptroller has written all Tax Collectors to strictly enforce the old tax law, as the new one will not be effective until about June 15. The following is the letter sent out:

Austin, Texas, Feb. 2, 1921.—To the Tax Collector:

Relative to House Bill, No. 156, copy of which is being sent you by the Secretary of State, the Attorney General holds that said bill cannot become effective until ninety days after adjournment of the Legislature, for the reason that it failed to receive the two-thirds majority vote necessary to make it become effective at once.

Ninety days after adjournment will, in all probability, be the middle of June, therefore, no change in the law will take place prior to that time, and you are advised to collect the ten per cent penalty which applies on the first of February, as if no law had been passed.

Would Run Highway To West End Canyon

The citizens living in the west end of Canyon are interested in the project of extending the new highway grade to the west end of Canyon in order to have better graded streets for their section of the city.

Two men have offered the use of horses and mules to assist in doing this work.

It is advocated that if all of the citizens interested would donate some labor the grade could be easily built within a few days.

Roy Sluder Dead

Roy Sluder, who came to Canyon for treatment a short time ago, died at Alpine, Brewster county, Texas, Friday, Feb. 4, enroute to Ft. Davis where it was thought the climate would be beneficial. His parents and elder brother, Ernest, were with him. Roy was a most excellent young man, about 23 years of age. He leaves nine brothers and sisters, parents, grand-parents and hosts of friends and other relatives who mourn his untimely death. He was buried at Floydada, Floyd County, Texas.

Community Club Is Organized By Boys

The eighth grade agriculture boys of the Elementary school organized a Randall County Community Club yesterday afternoon with the following officers:

- John Haines, President.
- Park Lewis, Vice President.
- Holman Flynn, Sec'y-Treas.
- Todd Williams, Reporter.

The above four with J. T. Swink, Cecil Williams and Alvin Boehning are charter members, and we hope to increase the membership at once.

Three have registered pigs—Holman Flynn, Todd and Cecil Williams. John Haines has a sow subject to registration; J. T. Swink and Alvin Boehning have pigs that are not registered. We are hoping that all of the boys will get registered pigs.

The meeting dates are the first and third Wednesdays of each month at County Agent C. F. Walker's office. Everybody is invited to attend these meetings and see just what kind of work we are doing.—Reporter.

IRISH SHAMROCKS GRACE GRAVE OF ERWIN'S SON

The grave of Joseph Henry Hibbets near Claude was strewn with shamrocks last week. Mr. Hibbets was a pioneer settler of the Claude country passing away at his home near that place a short time ago.

The shamrocks came from the old home near the Lakes of Killarney, Ireland. Mr. Hibbets spent his early manhood in county Kerry, emigrating to America in the 60's. He had charge of the commissary department when the Denver road was being built thru this country, later filing on land near where Washburn now stands, under the old homestead act. It was here that he reared his family, sons and daughters, some remaining under the family roof.—Clarendon News.

Mr. Hibbets was the father of Miss Anna Hibbets who has been a teacher in the Normal Training school for the past ten years. Miss Hibbets was called to her home by the death of her father, and since that time has been unable to return to her work in the Normal owing to the serious illness of her mother who is not expected to live.

Students to Judge At Hereford Sale

Prof. Fred H. Ives will take the students of his agricultural class to the Buyers and Sellers Convention in Amarillo to judge the stock which will be sold in the sale. The students are practicing by visiting all of the feeding pens of Randall county. Mr. Ives stated yesterday that some very good cattle are being fed out in Randall county.

Mr. Ives is trying to induce the Amarillo convention to put on competitive judging during the sale, but this has not yet been agreed upon.

Mr. Ives is completing the dairy barn at the Normal. He states that his creamery will soon be completed. The creamery is large enough to make the butter used on the tables at Cousins Hall.

Appropriate for Futurity Show

The Randall County Commercial League appropriated \$150 to be used in the district futurity show of Duroc hogs this fall. Mr. Walker stated that the National Duroc Record Association would put up \$300 for the futurity show, which is doubling the amount given last fall. Mr. Walker is trying to interest the Poland China Association to put up money for a Poland China futurity show, and states they are favorable to the show, and he believes will put up premium money.

Hill in Austin

President J. A. Hill was called to Austin Sunday as the appropriations committee is taking up the appropriations bill of the educational institutions this week. Mrs. Hill accompanied him and will visit her son, Davis, who is a page in the House of Representatives.

Lincoln's Birthday Saturday

Saturday will be the anniversary of Abraham Lincoln's birthday and the day will be observed in Canyon by the banks, which will be closed all day.

Perry Gober returned to his home at Memphis after visiting relatives here.

LAND OFFICE GIVES STATUS LAND EXCESS

REGARDING BILL IN LEGISLATURE.

Commissioner J. T. Robison Writes County Surveyor Regarding Excesses in Randall County.

The County Surveyor has the following letter from the General Land Office at Austin, regarding the legislation which attempted to fix up the land excesses of this county:

Austin, Texas, Feb. 1, 1921.

Mr. G. G. Foster,

Canyon, Texas.

Dear Sir:

Answering yours of the 27th of January I will admit that the patience of this department is perhaps worse worn than yours in the matter of block M-6 and other territory in equally as bad condition, but how to fix it by piece-meal I do not know and how to fix it except by eliminating the excess and putting it into the school surveys under the present work I do not know.

Perhaps you know whether you could get the owners of private surveys to permit the excess to be thrown into the school surveys. If you do, you know whether or not it can be adjusted on that basis.

I had a bill introduced in the last Legislature disposing of matters of this kind if it had been passed and this could have been adjusted but the good people in that country elected a man to the Legislature that did not permit that, but said that they would rather settle it by litigation. That was the attitude of at least one representative and he was a man more forceful in representing matters than the Representative from Hale county, and the legislation proposed by the Representative from Hale county was defeated. Had all the Representatives from the Panhandle been like the Representative from Hale county, Mr. Tilson, the legislation could have been passed and your titles could have been straightened up. In fact I personally almost begged the Representative, and so did Mr. Tilson, the Representative from Hale county to permit the bill to go through with only Hale and Randall counties in it so that I could try it and see whether we could adjust titles and he would not agree to that and until you can send Representatives to the Legislature that will try to adjust matters, instead of waiting for litigation I do not see when this can satisfactorily be straightened out.

You understand I am not calling names in this letter for the purpose of reporting, but in order that you may know who it was that was in favor of adjustment without litigation.

Yours truly,

J. T. ROBISON,

Commissioner.

Miss Pearl Jenkins was a business caller in Amarillo Wednesday.

Commercial League for P-P-C Commerce

The members of the Randall County Commercial League endorsed the work of the Panhandle-Plains Chamber of Commerce at the meeting Tuesday night at the News office, and recommended that Randall county continue the membership in the organization which was enjoyed last year.

The Panhandle-Plains Chamber of Commerce was directly responsible for the cars to move the grain last year when wheat was rotting in the fields of Randall county. The organization procured cars for the shipment of stock last year when they were so badly needed. The organization kept the coal moving to the dealers last winter when the railroads were congested. This is only a small part of the work the organization has done for the farmers of Randall county, but the benefits derived last year would pay the small dues in the organization for many years to come.

The membership in the Panhandle-Plains Chamber of Commerce is taken by the Commissioners Court in twenty three counties. Randall county joined last year, and the Commissioners will be asked to take a membership for the coming year. A committee composed of T. C. Thompson, Oscar Gamble, E. H. Powell, W. W. Kuehn and H. C. Roffey will convey to the Commissioners Court next Monday the endorsement of the Randall County Commercial League.

Wheat is on the decline, and men who profess to know, state that it will go as low as \$1.00 per bushel. Of course, this is largely supposition, but wheat, like almost every other product, was dangerously high until the early fall, and when it started down, it went very fast. There is a very large amount of wheat being held in the country for a high price. When wheat regained to \$1.65 a few weeks ago the bankers did their best to interest the farmers to sell, believing that it would be no better in price. The farmer is certain to take a big loss on last year's crop as it was produced and harvested at the very highest costs. It is mere speculation for any person to advance a theory as to the price of wheat before another harvest. It is easy now to look back and say that every wheat raiser should have sold when wheat was \$2.50 per bushel, as that was a phenomenal price. It is a mere guess now to say what the price will be in a month, or two months, but those acquainted with conditions firmly believe that it will not be better than the price of today.

Two prominent men of Lubbock county killed each other in a duel last week. They were pioneers of the west and both wealthy. Both were prominent in their community and had been instrumental in the upbuilding of their good county. Yet they quarrelled over a boundary line. Both had plenty of land, but neither was willing to give up his claim, whether right or wrong. Their grievance grew with the passing years. Each man pulled his gun and fired. Each received a bullet through the heart and the two enemies of years fell together in a gruesome pile, their blood flowing freely into the same pool. There are thousands of acres of land in Lubbock county which has never been touched by the plow. Both men had the means to buy more of this land at a very cheap price if they had so desired. They choose to shoot rather than submit to a court of arbitration or advice of neighbors and friends. Funny people, this human race.

The News does not believe in the mail order business. The News man has not spent a dollar with the mail order houses since living in Canyon. Very few dollars in the News family is ever spent outside of Canyon. The business houses of Canyon are not in favor of the mail order business because it means death to the local merchant. We are wondering what kind of a town Canyon would be if all of men living in Canyon were forced to quit business and every farmer and man living in Canyon were forced to send his produce to the mail order house, and buy all of his goods from the mail order houses? The business houses of Canyon are entitled to the business of this territory. The business man who bundles up his printing and sends it to the mail order house is in the same class with the farmer or citizen of Canyon who sends his dollars away to mail order houses.

There is absolutely no question about the need of a new constitution for the State of Texas. The voters have been trying to patch up the old constitution through these many years, but it is seldom that a new amendment has been carried owing to the prejudice the voters generally have against amendment, especially those which might have a tendency to raise the tax rate. However, we are in a very abnormal period. Men are not thinking in straight lines as they do in normal times. It may be better that the convention be postponed until conditions are more settled. At least a majority of the members of the legislature opposed the constitutional convention at this time, and the bill was killed last Thursday.

Fred Haskett of the Childress Index brought home the bacon. The Duroc Breeders of his country have had some fine sales this spring and in recognition of the publicity given in his newspaper, the breeders have presented him with a registered gilt. Fred is now expected to desert the newspaper game for the more profitable one of raising registered hogs.

The suspended sentence is doomed. The suspended sentence is a good thing when properly used, but its abuse has led to its undoing and its repeal should be accomplished. America is subjected to the greatest crime wave in the history of the nation. Hardened criminals are behind every crime. The operators are largely young men who have promised great gain and protection of criminal lawyers in the employ of old criminals who know the ways of the criminal court and the possibilities of the suspended sentence. The abolishment of the board of pardons and the repeal of the suspended sentence ought to go a long way toward stopping this crime wave.

There is no relief from the provisions of the present tax laws, if the county officials wish to enforce the requirements of the present law. The new law does not go into effect until ninety days after the adjournment of the legislature, which will make it effective about June 15. In the meanwhile, under the provisions of the old law, the property which is delinquent may legally be advertised and sold for the delinquent 1920 taxes. The state comptroller has advised the strict prosecution of the provisions of the old law.

Those who are of the opinion that the indemnity required of Germany is altogether too great, should keep in mind the demands Germany made of France in 1871, and the demands Germany would have made of the rest of the world should she have won the world war. Of course there would be little sense in imposing an indemnity which the German people could never work out, yet as the aggressor in the world war she should be made to pay as far as possible the damage she did to all countries concerned.

It is easy to kid yourself into thinking you are a martyr when you are in a mess, but the trouble comes about when most sensible folks realize that you are only a fool trying to buck an impossible game.

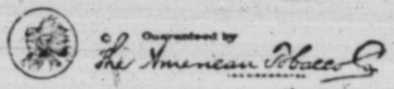

An effort is being made to revive the Panhandle State Fair at Amarillo. Those of us from the outside could never understand why Amarillo let the fair die. Those people living in Amarillo may understand the why and whereof of the case, but it is hard to understand why such a great institution was suddenly dropped. Amarillo cannot afford to overlook the opportunity that was presented by holding the annual fair, even though it cost a lot of money. Anything that is lost costs money.

A bill in the legislature would return to the various counties three-fourths of the automobile tax which each county collects, instead of one-half of the amount as is now required. Why should the automobile tax be sent to Austin and distributed by the state? Why not the commissioners of Randall county spend this money rather than let the state officials spend the money? All of this money is needed in Randall county for road work.

CIGARETTE

No cigarette has the same delicious flavor as Lucky Strike. Because Lucky Strike is the toasted cigarette.

Plant a shade tree this spring. All of the locust trees in Canyon will be dead within a year or so. Immediate action should be taken by all of the citizens of Canyon to see that some other kind of trees are planted to take the place of the locust when they are dead.

The buying public is playing a trick

on the automobile companies, which say they are not going to reduce their price, by refusing to buy until there is a reduction. This is a quick and sure way to insure a reduction.

TRADE MARK

The Ford Motor Company have just issued a booklet called "The Fordson at Work." This book is given free. Call in and get one. If you cannot call, write and we will mail you one without charge. It is not what the Ford Motor Company says about the Fordson Tractor but what the army of users have to say. This book voices the hardest kind of practical experience. It shows in illustration the Fordson Tractor at actual work along some ninety different lines of activity. It shows in these illustrations the wonderful versatility and utility of the Fordson Tractor. Shows it to be, beyond all question, the one bit of machinery that is a necessity, not only on the farm but along many lines of commercial business; especially does it show up the Fordson as a valuable servant on the farm. With it the farmer is relieved of the hard work; because he can take advantage of the weather in preparing his seed bed; he can do it at the right time; the same is true when it comes to harvesting. It solves, to a great extent, the problem of scarcity of labor.

With its wonderful, reliable power, it brings to the farm home all the conveniences, in the way of running water in the house, electric lights, operation of the washing machine, churning, separating the cream from the milk; it assumes and takes to itself the drudgery of farm life both in the field and in the house and it is only a matter of a few years until it will be as universal in its service on the farm as is the farmer himself. It will become a part of farm life; a beneficial part; a profitable part. Get order in for there's a rush coming.

Entertains Young Folks

One of the most delightful social affairs of the season was given Monday night at the home of Miss Ida Rowan. After an evening of games, contests and music, delicious refreshments were served to a large number of guests.

Presbyterian Church

The services at our church next Sunday are as follows:

Sunday School meets at 9:45 a. m. There was an excellent attendance last Sunday. Make it better on next Sunday. Come.

Morning Worship at 11 o'clock. The pastor will continue his series of sermons on the subject of "What the Bible Contains for Mankind." This is the fourth of the series.

Intermediate Endeavor meets at 3 o'clock. The youngsters have an excellent society and it will do your child good to attend this service. Mrs. Harvey Cash has this work under charge.

At 6:30 our evening worship begins. Please notice that a change in the hour of beginning has been made during the rest of the winter. Come on time in order to get the benefit of the entire service.

At 7:30 p. m. the Senior Endeavor meets. Interesting programs are always rendered by the young people, and a welcome is extended to visitors and to everyone who may wish to become a member.

A cordial welcome awaits you at the Presbyterian Church.

High School Notes
Panhandle High's basketball representatives came up last Saturday for their annual trimming. The game was another double header. The entire play was clean and full of pep from start to finish. The score was 27 to 45 for the boys, and 14 to 27 for the girls, both games in favor of Canyon.

Only one more game and the high school's basketball season will be ended. The teams will visit Hereford for the final game of the season. The local team is very likely to enter the interscholastic meet for the honors. If they do, who ever wins the cup away from Canyon high, will be miracles of speed and all-around ball knowledge.

The literary societies are holding regular sessions now with full and interesting programs each meeting.

Baseball will soon be the game of the season. Canyon high expects to have as good a ball team as their predecessors ever had. There will be much competition and many good players are sure to develop. Last year was the first year that most of our players had played. Therefore they will be a little weak on experience but we hope to make up for that by good playing.

Scribblers' Club is again going full blast. Last meeting on the whole was one of the most successful since the organization. Many promising authors are getting their first experience here. Years may bring some member national prominence. Mr. Stone honored the club with a personal visit.

Patton Baby Dies

Helen, the eighteen months old daughter of Mr. and Mrs. R. L. Patton died Tuesday morning at the family home on West Houston street from kidney trouble. She had been sick for several days.

The body was taken yesterday morning to the old family home at Matador for interment.

Uncle Sam's Youngest Lawyer

New Success: Miss Ethel F. Donahue was recently appointed Special Assistant Attorney General of the United States. The selection was not only remarkable on account of the appointee being a woman, but also because she is very young. It does not often happen that a man of 24 years is appointed to a position of this kind. Miss Donahue was born in Hartford, Conn., July 6, 1896. She was educated in the public schools, attended high school, graduating at the age of 16. She would have graduated earlier, but the school laws of the state prohibited anyone from entering high school under the age of 12. She was a student and an honor graduate of Vassar, and, three years later, she was graduated from the University of Pennsylvania law school in June, 1920.

This is her first official position, which is not strange, considering her age. Moreover, she is the first Special Assistant Attorney General, the office being a new creation. Miss Donahue has been reared in circumstances that would not permit her to live in ease, and her decision to study law was not actuated by the necessity to earn her livelihood. She is a very hard worker and unusually intelligent, as is shown by her school record and the fact that she no wholds, at an extremely youthful age, a responsible position in the Department of Justice.

This is the way she appeared to a woman reporter who saw her soon after she was installed in her Government office: "She impressed me as being just as a very charming young lady, modest in manner, and not at all desirous of talking about her accomplishments, saying she didn't know of anything she could add to what Mr. Spellacy, her chief, had told me. She is of medium height, dark hair and eyes, and fair as to complexion. Just a quiet, unassuming girl, not at all overcome by the importance of her position."

The Tramp is Coming Back

The tramp, who almost disappeared during the war, is returning to the highways of the country and the cheap lodgings of the towns. By report the new tramp, although as shiftless and as homeless as ever, is better dressed than the old tramp was, and since he cannot get whiskey has generally a more respectable air. The increase in the number of those who wander in search of work—or to avoid it—raises the old question of how to prevent vagrancy. Some authorities advocate farm labor colonies. At any rate there should be some place where men with neither means nor inclination to support themselves could be put to productive work. The more vagrants the more criminals.—Youth's Companion.

The Best Job in the World

Despite the rain the curate had ventured out to make some afternoon calls.

At present he was being entertained in Mrs. Migg's drawing-room and the small son and heir of his hostess was present.

"Well, Reggie," said the curate, "and what do you want to become when you grow up—a clergyman?"

"No," replied Reggie, very emphatically.

"Ha!" said the visitor, not to be outdone. "A policeman or an engineer, perhaps?"

"No, I don't," came the determined answer. "I want to be a brick-layer."

"A brick-layer?" exclaimed the curate.

"And why?"

"Well, brick-layers don't have to work when it rains, and we do have such a lot of bad weather, don't we?"

NORMAL BATTLES WITH BULLDOGS

Normal Quintet Took First Game but Tenacity of Bulldogs Won Second.

Playing on an outdoor court for the first time this season, the Normal team took the Clarendon Bears to a good drubbing Jan. 28, the score being 29 to 13, upsetting the "can't be beaten on our home court" dope of the Methodists. They came back strong in the second engagement, winning a three point margin, 33 to 30.

Cars met our aggregation at the station, and took the team to the Boys' Dormitory. An invitation to be present at a joint meeting of the Pan's and their sister society was accepted. After each man had been introduced and the program given, ice cream and cakes were served by the matchless entertainers.

First Game

From the tip-off the ball passed back and forth until Mitchell threw the first goal. Remembering the events of Nov. 27, our athletes fought furiously, making 13 points to the Bulldogs' 6 in the first half.

The desperate Bulldogs came back for the second spasm determined to win, but they could not break up the short pass game developed by Coach McCorkle. Score: Normal 29, Clarendon College 13.

Second Game

The Normalites entered the fray seriously handicapped, for Hale, our brilliant forward, and Golden, trusty guard, were numbered among the ill, and could not play. On the other hand the Bulldogs were straining at their leashes in an attempt to get revenge for the defeat of the night before. Smalley made the first score, and when the half ended, Clarendon led, 17 to 12.

Spurred on by rosters and the fact that they led in scoring, the Bulldogs faced the determined teachers fearlessly. On the Normal's part, her cohorts were not true to form, many free throws and field tosses falling.

To Mitchell must go the honor of being high point man, as he made 18 of our 30 points. Although we lost, our team contested every move the Methodists made, and had the whole team been in condition the result would probably have been different. Considering everything, the dope still points to the McCorkle host as the best in the Panhandle. Final score: Clarendon College 33; Normal 30.

The Gregg Cousins Memorial Fund has functioned since its establishment as a great boon to students unable to attend school without assistance. Loans have been made to seventy-three different individuals. Twenty students have received money from this fund during the last twelve months. The amount loaned since January, 1920, totals \$2,865.

The Gregg Cousins Memorial Fund was established in 1912, the fund having its beginning in contributions from members of the faculty. Gregg Cousins, the son of President Cousins, died in that year and the fund was named in memory of him. It now amounts to \$2,100. However, since so many calls have come from deserving students, money has been borrowed and applied to the fund so that loans amounting to \$2,865 are now out.

According to the plan of the loan fund, students who have attended the college for at least one year and who have the approval of the Committee on Loans, can obtain the money at the rate of six per cent for not more than two years.

Contributions from over 125 persons have been made to the fund. The faculty has contributed very liberally.

Students paying back the fund have also made gifts, yet it is very much desired that the fund be increased.

President Hill, at the Thursday chapel period, made an appeal to the student body, asking that contributions be made. He urged that the students might help by influencing others to make donations if they were unable to do so themselves. A suggestion was made that the county clubs were admirable fields for work along this line. —From The Prairie.

His Housing Problem

A Missouri farmer who called his newly employed hired man out of bed at four o'clock in the morning was surprised a few moments later to see the man walking off down the road.

"Say! Come back and eat some breakfast 'fore you go to work!"

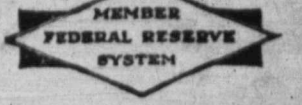

"I ain't goin' to work," the man called back. "I'm goin' to hunt some where to stay all night."

Safety First

A New Yorker tells of a couple he observed at a country fair. They found themselves in the center of quite a crowd near one of the amusement booths, and the gallant husband said to his wife: "I say, dearie, I think you'd better give me the lunch-basket. Don't you see we are apt to lose each other in this crowd."—Illustrated World.

Height of Sanitation

"Do you think it healthy to keep your hogs in the house?" a social investigator asked a native of Arkansas. "Waal, I donno," he drawled. "But I been a-keepin' my haws there for fourteen years and I ain't never lost one of 'em yet."

FIRST SEMI-ANNUAL

Big Bone Poland China Bred Sows and Gilts Sale, Lelia Lake, Texas

TUESDAY, FEBRUARY 15th, 1921

We are selling in this sale some of the downright big type, high backed, deep sided, good footed, strictly modern sows and gilts.

MR. BREEDER

Do you need any of this kind? But few of us have enough of the kind we are offering. We are cutting close to make this the best offering that has ever gone in the sale ring in the Panhandle.

Don't overlook this opportunity to get some of these right kind in your herd. If you already have the right kind, a few more won't hurt. But will enable you to be ready for the great demand that is almost sure to come this fall when the realization comes that though the population is increasing—the hog supply is cut short.

MR. FARMER

It is your chance to beat the cotton king. If you will come to this sale and buy a good Poland China sow, bred to a real boar, it will make you a good foundation for a herd of good sows to raise market hogs.

You can jar loose from the cotton king. Begin to make money and acquire independence. The farmers of the North paid \$250 and up for their land and make money raising corn and hogs. We can do the same in Texas with cheaper land, maize and hogs. And we have the jump on them with longer growing season, climate, etc.

The country is full of feed and no market at a profit and the only hope we have now is to feed it to our hogs and send it to market on the hoof. This sale is your opportunity to get started right with little money, you can buy real hogs in this sale for less than you can probably buy them again.

Don't lose this opportunity—be our guest sale day. Remember this: the man who continually looks backward never gets anywhere, but the man who plans his work and works his plans is the man who is making money.

If you can't come, send bids to Col. Tom Morton, or John Halderman. They will represent you and buy as cheap as you can.

W. T. S. N. C. TO PARTICIPATE IN INTER-SCHOLASTIC BOXING
 Coach McCorkle expects to take several men of different weights to the boxing tournament which is to be held at Austin in the early spring.

These men will be chosen through a process of elimination, entrants being required to win over their fellow contestants of the same weight in a series of preliminaries. By training these men thoroughly on the track and in the gymnasium, we hope that they will make a creditable showing for the institution.

Boxing seems to be gradually assuming a place of prominence among college sports. The University of Texas has a professional to coach its team, and he has given out the report that three of his men are the best amateurs in any Texas college.

DISTRICT INTER-SCHOLASTIC MEET APRIL 15 AND 16

The District Inter-scholastic Meet will be held at Canyon on Friday and Saturday, April 15 and 16. Already reports are coming from over the district that large delegations from most of the counties are planning to enter the various contests.

WORK OF ARTISTS CANYON NORMAL ON EXHIBITION

The Art Display of the West Texas Normal College is not alone an advertisement of the college, but is truly educational.

"Working for space and harmony of line and shape is the beginning of all art," said Miss Aiken, head of the art department of the college.

Illustrating this thought by pointing out the simplest of designs with pencil and brush, Miss Aiken carries the visitor through a bewildering maze of exhibits, down to specimens of the art of the modern futurist.

The collection is on display in the

Mayor's office at the city hall. Especially attractive are the "tied and dyed" textiles and specimens of Batik work in hand bags and table runners.

The pottery is of special interest, as some of it is made of native clay found near Canyon—"Some of the best clay in the world," Miss Aiken said. The pottery is made without a potter's wheel and without a mold. The coil method, known to the Indians, is used by Miss Aiken's pupils, and the designs show beautiful simplicity of line and depth of coloring.

Interior decoration and costume designing are also taught at the Normal, and are shown in the display. In the latter department, the designer sketches the human figure and develops the costume accordingly.

Linoleum printing and posters of wondrous beauty, inviting the beholder to follow the "Jure of the Plains and see the mysteries of the canyons," are objects of great interest in the collection.

Miss Aiken returned to Canyon Monday afternoon, leaving the exhibit in charge of one of her pupils, Miss Zora Johnson, a Hale County girl, whose home is five miles north of Plainview.—Plainview Herald.

Yolks of 8 eggs, 1 1/4 cups of granulated sugar, 2 1/2 cup of water, 1/2 cup of butter, 2 1/4 cups pastry flour, 3 level teaspoons Calumet Baking Powder, 1 tablespoon of vanilla. Then mix in the regular way.

Begin Right Now to Conquer Your Rheumatism

If you are going to again rely upon the liniment bottle to try to rub your Rheumatism away, you will be doomed again to nothing but disappointment. A disease that can cause so much pain and suffering is not on the surface of the skin, and cannot be rubbed away.

Many forms of Rheumatism are caused by a tiny disease germ in the blood, and in such cases the only logical treatment is to search out and remove these germs from

the blood. For this purpose there is no more satisfactory remedy than S.S.S., the fine old blood remedy that has been in use for more than fifty years, and has given such general satisfaction for Rheumatism.

Begin taking S.S.S. today, and if you will write a complete history of your case, our medical director will give you expert advice, without charge. Address Chief Medical Director, 160 Swift Laboratory, Atlanta, Ga.

Out in the Wood-Shed
 I'm seven. Sister's eighteen and an awful vain girl. She's got a beau also a heart, lungs, a small amount of brains that's stronger.

I got all those 'ceptin' the brain part. Mine all went back to heaven when I was born. We parted company at the pearly gates when Peter let me through. It's so cause I heard Jimmie Kate (that's Sis) tell Ma so one time when she was mad at me 'cause her beau asked me how long before she'd be ready and I told him just as soon as she stuffed her puffs. He giggled and she was furious. As soon as Sis came home she told Ma. That was when they talked about the brain business.

The next mornin', I came down to breakfast. Pa took me out in the wood-shed last week and told me that I must be a gentleman in ladies company, an' not to say gosh and lots of things like an' him both say. I feel sorry for Pa. Folks think Ma twists him around her little finger. That ain't it at all 'cause that'd be tame. She jes' naturly knocks him down, kicks him, stamps her foot and throws him out the door. Pa said so when we was talkin' confidentially out in the wood-shed. Anyhow to return to my subject. I said as I came down stairs, "My, it raining!" Just as gentlemenly as I could. And Sis just curled up her nose an' said, "How strange, were we totally unaware of the fact."

I could'a kicked her. I told Pa so out in the wood-shed. He said for me to see Ma. I did. I won't never again. I told her I was gettin' big enough to assert my opinions on family matters and I thought Sis acted too cute in my presence.

Ma was shocked. I know she was, 'cause I felt a good part of it later—out in the wood-shed. The shocks reached me by the way of a shingle. I haven't never asserted my rights since.

Sis' beau's a sissy. I know he is 'cause he wears shell-rimmed specs and has a gold tooth in front and carries a cane. I came down to answer the bell last night. When I got there he was already inside, sittin' there on a chair and his legs wobblin' awful, and suckin' his cane. Pa says wise men profit by experience. I didn't say nothin' 'bout sister's puffs. But I went up and called her. She said, "alright, in a minute; I'm not quite ready."

I whistled and went out doors. Soon as they had gone I informed that Sis told lies 'cause she'd been drest and waitin' half an hour. I got shocked again—out in the wood-shed. Ma didn't even give me time to explain.

I had to get back on Sis and Ma too. So the next Sunday afternoon he came by. Sis an' him sat in the living room. I did too. Then she commenced makin' excuses to get me out. She acts awful different when he's around. She said so sweet like, "Benny dear, I see Scrap (he's my dog), do go out and romp with him."

"Don't wanna," I said. "It's too cold."

"But you look so pale, dear," she went on, "I really expect you need a little fresh air."

"Gotta a little cold," I said. Right then I knew I had made a mistake. She'd be sure to make Ma dose me up later.

She went on talkin' to Percy. But I could tell that they were not saying what they wanted to say.

After a while Percy tried his hand. "I've a nickel here for a sweet little boy," he said. Gee, he made me sick. "Gotta dime upstairs," I said.

"Oh, well, maybe I could find a quarter somewhere."

"Maybe so," I said. "You pay mighty high." Then to myself, "But you can't tempt me."

They sat and talked a while longer. I sat and listened. It wasn't a bit interestin'. I'd lot rather been playin' with Scrap. I felt it was my duty so I stuck to my post.

After a while a bright thought struck Percy. They don't come very often, so he was awful proud of it. Drawing himself up an' puffin' out his chest, he said, "Well, really, Jimmie Kate, wouldn't it be pleasant to take a ride now?"

"Splendid," Sis said right away. "I'll run up and get my scarf." Here was sumpin' I hadn't bargained for. What could I do? I ran and got my cap. By the time Sis came down I was ready to go.

"Oh, dearie," she says, "you know that you have a cold; it'll be dreadfully bleak driving."

"Ma says that fresh air is good for a cold," I said—I had just thought of it.

Jimmie Kate was exasperated. She shrugged up her shoulders, and so did Percy.

"Mother dear," called Sis. "Bennie'd better not go out doors had he."

Ma must have thought that Sis wanted me to go, so she said, "Yes, Jimmie Kate, he really ought too. He's been in all day."

I could hardly keep from laughin', and all they could do was to take me along.

They went and got in the car. So did I, but they stuck me in the back seat. That ole' sissy of a Percy thought he'd act cute, so he drove a mile a minute it seemed to me like.

He jes' turned corners on two wheels an' everything. An' talk! He and Jimmie Kate jes' naturly talked all they wanted to and I couldn't hear a word. So I said I was cold. Sis was afraid I would take cold sure enough and Ma would blame it on her, so she said, tryin' to act awful sisterly fore Percy: "Alright dear, we'll go by home and drop you. But I made 'em take me in the front seat, so they didn't get to talk none at all. We went 'home, I was almost cryin'. I was feelin' victorious. I got prouder and prouder of myself. My chest was puffin' up jes' like Percy's. But as soon as we got home it had a considerable fall. Jimmie Kate was sure nough mad. She told Ma all about everything only made it a whole lot worsen' it really was. But first she sent Percy home. She wanted him to think we never had any domestic trouble around our house and she knew a storm was comin' on. Anyhow she took Ma back into the kitchen and made it out awful. I wasn't feelin' very big any more 'cause I was lissenin' at the key hole and heard it every bit. Ma was shocked. I know she was, 'cause I felt the biggest part of it later—only she didn't wait to get to the wood-shed. It happened right in the kitchen with a rubber fly swat.

Pa says wise men profit by experience. I have. I don't never say nothin' 'bout sister's puffs no more. Nor her lies. An' I don't interfere with her ole' mushy love affairs. Es' fellows have got to give in to the wimmin' folks. I know, 'cause Pa told me so—confidentially—out in the wood-shed.

Public Auction of Registered Herefords, Feb. 23

Under the Management of the Panhandle Hereford Breeders Association at Amarillo During the Buyers and Sellers Convention, Feb. 22, 23, 24, 1921

The largest auction sale of registered Herefords ever held in the Southwest will be staged at Amarillo, Texas, where the Panhandle Hereford Breeders Association will sell 120 head of registered cattle on February 23, in two sales. And J. L. Van Natta sells 50 head on the following day. A total of 170 by two days.

Forty of the 120 sold by the Association will be donated to the city of Amarillo to assist in building the \$400,000 coliseum. The remaining 80 head comprise the fifth annual spring sale of the Association.

There will be cattle to suit every one. Herd bulls, high class range bulls, beautiful cows and heifers of the very best breeding and presented in the most excellent condition.

This great consignment of bulls are sons and grandsons of the following noted bulls: Bright Stairway, Domino, Beau Blanchard, Beau Mischief, Good Donald, Paragon 21st, Prince Rupert 8th, Beau Rex, Capitol 2d, Capitol 6th, Pathfinder, D. Beau Carlos, Perfection Fairfax, Beau Militant, Beau Vale and others.

Any one in need of a herd bull will do well to be on hand on sale day.

Cows and Heifers of Choicest Breeding
 The females are of the same herds and the same bulls as the bulls in the sale and beautiful cows and heifers of the best foundation stock will be in evidence. You cannot afford to own grade cows when good registered cows can be had at reasonable cost.

250 Registered Herefords in Carlot Division
 There will be a large number of good registered Herefords in the car lot pens to be sold at private treaty. Our members have sold hundreds of range bulls and registered heifers in former sales at prices very satisfactory to the buyers and no doubt shrewd buyers will be on hand to look over this most excellent offering.

J. L. Van Natta Sells on Feb. 24, and Remember Jones and Dameron sell at Hereford on the 21. Sale begins at 1 o'clock. Remember the date, Feb. 23. Write Secretary for Catalog.

Snow Brings Winter Weather

In order that the people of the Panhandle country might not forget what winter weather was like, the weather man sent the temperature down Sunday and followed up with a three inch snow Sunday night, Monday and Monday night was the coldest in three months.

The temperature very greatly moderated Tuesday and the snow is fast melting.

Farmers to Meet

A meeting of the farmers of Randall county will be held at the court house on Saturday, Feb. 19, at two o'clock. Judge Dinwiddie of Tulla and the bankers of Canyon will address the meeting.

The meeting held last Saturday went into the proposition of buying or building an elevator in Canyon, but no definite action was taken.

The Cousins and Antlers staged an exciting game of basketball in the gym Tuesday night. The Antlers succeeded after two lively games in passing the ball through draperies to a score of 21, while the Cousins had a score of 16 to their credit.
