CANYON, RANDALL COUNTY, TEXAS, THURSDAY, APRIL 6, 1922.

NUMBER 1

PUBLIC UTILITIES OF CANYON THE SUBJECT TUESDAY

CAMP GROUND PROJECT TO BE PUT OVER AT ONCE.

Mayer Asked to See That Decent Signs Placed, if Bill Boards Are Allowed in the City.

A. J. Arnold was leader at the regular weekly luncheon of the Commercial League Tuesday noon at the Canyon Cafe.

Mr. Arnold stated that since we had been talking about a recreation camp ground and that the tourist business was now opening up that some definite action should be taken at once to put over the project.

Fred H. Ives, chairman of this committee stated that the land recently offered for the ground by Mr. Hill was now available. It was possible to fit up the grounds at a very reasonable price, with the exception of the lights. The grounds were about a thousand feet from either the city or college lines, and it would cost about \$300 to put the lights on the grounds.

Mr. Arnold stated that should it be possible to procure grounds on the city lines so that he would not have to set any posts, lights would be furnished free for the camp ground.

On motion, the League accepted the offer of President Hill for the use of the ground, and a committee of W. J. Flesher, Fred H. Ives and J. M. Vetsak was appointed to present plans next Tuesday for equipping the grounds.

L. G. Allen reported for the committee recently appointed regarding the crossing west of the Normal on Houston street. He stated that the city council had agreed to put up a sign warning automobiles to drive slowly at this point. The commissioners court had agreed to uncover the concrete crossing which was at this point, and which was covered up when the highway was built.

President Hill protested against some of the signs which were allowed to go up in the city. The sign board at the Normal crossing was a menace in that it obstructs the view of the auto drivers, but there was a greater menace in the advertisements which were put on some of the spaces. On motion of J. W. Reid, the mayor was asked to confer with the sign company in order to have the sign board at this place entirely removed.

Mr. Arnold stated that he had planned to make this meeting one for the discussion of public utilities, and had asked for representatives from the water and telephone companies to be present, but neither were able to be present. Mr. Arnold then traced the history of the light plant. It was a source of trouble from its very inception. There was dissatisfaction from the outset. The plant was overbuilt—more plant than necessary when the company was organized in 1908. It was a stock company for four years and lost money, and gave poor service. A receiver was appointed in 1912, and the First National Bank took it over. C. R. McAfee owned the plant for a year, and in 1913 it was sold to E. A. Bent. The plant attempted 24 hour service in 1917, but there had been no changes in the machinery since it was put in and it lost money. The Normal and city pumping contracts were lost and the service was cut to afternoon and night runs.

In Nov. 1918 Mr. Arnold bought the plant. He had replaced all generators. There are now 41 street lights, which have been put on a new circuit this past year, and railroad crossing light. The plant is now running 19 hours per day. There is no day load at this time, but Mr. Arnold hopes to secure a small unit before summer to take care of this light day load. It takes as much coal to produce the 8 to 10 kw. which are now being used during the day, as though 75 kw. were being used. When the load as it is peak during the three hours at night, there is about as much juice used as there is during the remainder of the run.

Under the franchise the plant is allowed to charge 18 cents, with a \$2.00 minimum, and 10 percent if paid by the 10th of the month. This rate was maintained until April, 1920, when expenses had arisen so that the council allowed the discount feature to be eliminated. In the meanwhile both the telephone and water rates have been twice advanced.

Fuel is the chief expense. Coal is now only 60 cents per ton less than at the peak price. The freight rates are the same. Mr. Arnold stated that

More Than Inch of Rain Fell On Plains Sunday and Monday

Rain started to fall in Canyon early Sunday evening and continued all through the night, more than one and one-eighth inches falling.

The rain continued intermittently throughout Monday, with heavy showers Tuesday night.

The grass is getting green and the ground is in the best of condition for spring work.

The wheat that came up last fall is doing great, and will make a good crop should the weather continue favorable. Unfortunately this acreage of good wheat is very small, considering the large amount planted.

When the price of fuel is reduced, the light company will not have to be asked to reduce the rates—the reduction will be made at once.

The plan now has two separate units. Sometimes during the evening changes have to be made from one to the other from three to six times. Everything does not run perfectly at the plant, but these two units allowed for continuous service with practically no shut downs in the service.

Rev. Merrill, who is here giving a series of lectures at the Normal at the chapel here and at night, was introduced.

The League will meet next Tuesday at the American Hotel for a business session.

I shall endeavor to see each and every voter of Randall county as soon as the weather permits, and I assure you that I shall greatly appreciate your support during the campaign and vote in the primary.

SOWS HAS TWO LITTERS

C. O. Keiser states that he has a sow in his herd of Hampshires which has two litters of pigs, which is the most remarkable things he has ever heard of, and none of the local breeders have ever heard of such a thing.

On March 31, the sow had another litter of five pigs.

All of the 17 pigs are alive and are doing fine.

CANYON HIGH IS SECOND IN MEET HELD SATURDAY

LOCALS WINNERS IN ALL-PLAINS MEET AT PLAINVIEW.

Will Take On Amarillo High in Dual Meet Here Saturday—Baseball Games With Lubbock.

Canyon high school track team won second place in the All-Plains track meet held at Plainview last Saturday. Lubbock won first place with a total of 57 points, and Canyon was second with 39½ points.

One of the most interesting features of the meet was the mile race in which Turner of Canyon broke the state record, doing the mile in 4 minutes and 34 seconds. The state record being 4 minutes and 41 and one-fifth seconds. Lubbock thought that their man had the mile run cinched, but Canyon got away with both first and second places.

Coch McCarly is well pleased with the showing his men made in the meet and believes that they will have a good chance to win in the district meet which will be held in Canyon, April 21-22. He says that the boys will work harder and that he expects them to be in much better form before the big meet here.

The Canyon boys who won places in the meet at Plainview are as follows: One mile run, Turner, first; Vetsak, second. Pole vault, Brown, first; O'Keefe, and Alexander of Lubbock tied for 2nd, Otis 4th. Half mile, Martin, 1st; Buster 3rd. 220 yard hurdles, Todd, second; Gregory third; L. Key, fourth. 100 yard dash, L. Key fourth. 440 yard dash, Burgan, third; Williams fourth. 220 yard dash, L. Key, third. Shot put, A. Key, third; McGee, fourth. Broad jump, L. Key fourth. Discus, L. Key, fourth. Mile relay, Canyon, third.

The Lubbock relay team broke the state record of the mile relay.

Amarillo Meet Saturday.

The Amarillo high school track team will compete with the Canyon high school team Saturday on the Normal track. This local meet is the result of a challenge sent the Golden Sandstorm path artists after the return of the Canyon aggregation from the All-Plains meet at Plainview Saturday.

Coch McCarly believes his men will be in shape to give the Sandstorm boys some hot competition. He expects to send Turner in, if a cut knee permits, to break his own record made last Saturday.

The announcement should have read that no man outside of Amarillo has ever been elected to a district office.

MISTAKE MADE IN POLITICAL ANNOUNCEMENT OF FLESHER

The News made a mistake in its announcement of W. J. Flesher as a candidate for the office of district attorney.

The announcement stated that Mr. Flesher was the first man outside of Amarillo to ever offer for a district office. This was not true, since A. S. Rollins was a candidate about ten years ago.

The announcement should have read that no man outside of Amarillo has ever been elected to a district office.

THE RANDALL COUNTY NEWS HAS A BIRTHDAY

Amarillo Tribune:

The Randall County News, published at Canyon by C. W. Warwick last week issued a thirty-two page edition celebrating the twenty-fifth anniversary of the founding of the paper.

An eight-page section is devoted to Happy, a progressive little city located over the line of Randall in Swisher County. Other matters treated fully are the West Texas State Normal and the scenic beauties of the Palo Duro canyon.

Not only does the News in this issue give the reader a comprehensive story of the growth and development of Canyon and Randall County, but it does a great deal more by portraying the advantage of this entire section of the Panhandle. It is truly a metropolitan edition and is a credit to its publisher and the city of Canyon.

That the publisher of the news is thoroughly imbued with the spirit of service and that he is not handicapped with any lack of faith in the future of Randall County.

Amarillo Daily News:

The Randall County News had a birthday last week and being twenty-five years old the present editor, C. W. Warwick issued a special edition in which he gave attention to Canyon and the old settlers who were here at that time.

A full section of the paper contained the history and local news of Happy, Texas, which has always been closely related to Canyon. The other sections confined their news to Canyon and Randall County.

In speaking of the special edition Mr. Warwick says that many people over the plains do not know much about the early history of their town and thru this edition he hopes to give them a better understanding of the early life of the plains so that they will better appreciate the advantages they enjoy at the present time.

The special edition of the Randall County News met with much approval over Randall County and many have remarked that they did not know that early life on the plains could have been so interesting until they read the events in print.

PUBLIC SCHOOL SYSTEM IS TOTTERING

(By Lee J. Roundtree, Editor of Bryan Eagle.)

The public school system of Texas has been constructed by piece-meal hence Texas stands 39th in educational activities. When Texas came into the Union (because really it was never annexed as other states) this state reserved the right of eminent domain for educational and other purposes. Her public lands have been sold or leased at a very nominal figure. A vast empire has gone for a few paltry dollars. To illustrate this the land donated for erection of the present state capitol to the Chicago Syndicate was 3,000,000 acres, supposed to be worth \$3,000,000. That land is now valued at \$150,000,000. So it is with the other dispositions of public lands and enough lands and remission taxes for twenty-five years built the International & Great Northern railroad. But there is no use to recite these mistakes that have been made by legislative enactment in Texas during the past.

The vast public domain set aside for educational purposes is now a mere bagatelle. The \$3,000,000 common school funds appropriated by the 37th Legislature to which is to be added the sum of \$2,500,000 for rural aid for two years and added special funds for 1922-23 will only allow a per capita of \$10.50. This is a drop from \$14 per capita. Something must be done or the public schools of Brazos county and the entire state of Texas will materially suffer. Next year will be the crucial test or the crisis.

Politicians and short-sighted people have quibbled over the educational problems and have failed. The average person now is poorly educated, trained and equipped for work, business or the professions. Our educational system is a make-shift, a snare and delusion. Inefficiency stalks everywhere. Of the 48 states in the American union Texas stands 39th in education and there are only nine states below her. What are we going to do about it? This question was asked the Eagle by County Superintendent Eck Smith, of Brazos county. As long as we have a system of education that will give the child on one side of the highway three months' public school training and perhaps on the other side of the same road in the same county children will receive six or perhaps nine months of public school training there is something radically wrong. Every child in the commonwealth of Texas should have the same chance of winning knowledge. Texas has amended and patched her constitution until it is almost a joke—a public calamity. Texas needs a new deal to take her place among the great states of the Union. The public schools of Texas must be maintained on a basis of equity and every child must have the same chance based upon attendance and not on enrollment and the public school houses of Texas, fully equipped and with a force of militant teachers for nine months in the year. An uneducated and untrained citizenship for the future means disaster and a decaying citizenship. The time has come in Texas for a new deal and a new constitution to meet the demands of the new conditions and perpetuate and save our great institutions that stand for liberty, justice and civilization. Shall we hesitate longer? Our forefathers wrought well and laid a great foundation but we have wasted much of their heritage and now there must be another sovereign declaration for future greatness and glory of the commonwealth. Shall we fail?

The Hon. Lee Roundtree is a member of the legislature, as well as the editor the Bryan Eagle. On account of his services in the law-making body the friends of the A. & M. College presented him with a gold watch. During the West Texas A. & M. College fight, Lee Roundtree characterized West Texas as the home only of rattlesnakes and coyotes.

It is interesting to note that Lee Roundtree favors remodeling the old constitution.

But how does he want it remodeled? Does he favor the remodeling so that south and east Texas may feed its school on the money that West Texas pays into the state treasury?

Does Lee Roundtree want to do the sensible thing and allow each school to be supported by local taxation rather than being taxed by the state, send its money to Austin to be distributed as the state officials see fit?

Lee Roundtree deserves a great deal of praise for the work he has put over in the legislature for the institutions of higher learning. Does he understand the sentiment and needs of the state as a whole so far as the common schools are concerned?

Will he assume the same attitude in remodeling the constitution and work for the interests of his section against the interests of other sections like he has in the past?

The constitution should be remodelled, but every community should be allowed to tax itself for the support of its own school, and the clumsy and unfair present methods of school taxation be forever abolished.

Three Scotchmen went to church, each clenching tightly the penny he intended to contribute when the plate was passed. Consternation reigned when the minister announced that this particular Sunday an effort was to be made to raise the mortgage and asked every member of the congregation to make a substantial offering. During the prayer the Scots held in whispered consultation as to the solution of their dilemma and reached a satisfactory decision. One fainted and the other two carried him out.

The Y. M. C. A. And Y. W. C. A. Financial Campaign

The Y. M. C. A. and Y. W. C. A. have been working rather quietly but effectively all the year. When the time came to get the money to finance their big undertaking, however, they made more noise about it in order to reach the greatest number of people. The great amount of work done by the students serving in this campaign shows the efficiency of which our students are capable.

On Thursday evening, March 30, at six o'clock an eventful luncheon was held in the Home Economics dining room. It was served by Y. W. C. A. girls under the direction of Miss Watkins. Only those taking part in the financial campaign were present besides Miss Lamb, Mr. Ives, and President Hill. The menu served was:

Veal Loaf Potato Salad
Creamed Peas Rolls Butter
Hot Tea
Orange Ice Wafers

After everyone was through eating, Arleen Rose, captain of the blues, presided as toast mistress, presented the purpose of the campaign, and introduced Olin Hinkle as "the man who could get down to brass tacks" and the captain of the reds. Mr. Hinkle explained the method to be employed in the campaign in detail and introduced the following as the lieutenants:

Blues—Fay Kirk, Howard Bryant, Lila Simas.
Reds—Burlison Atkins, Addie Coffman, Boone Horne.

Each of these had five doughboys who were instructed to go out and get the dough. They were:

Blues—Otis Kiel, Zoda Stanfield, Joe Lancaster, Beulah Owenby, Bruce Parker, Fay Lockhart, Byrd Mitchell, Fannie Cash, W. D. Cox, Nannie Rush Cooper, Frank Hill, Josie Hart, Gerlie Gerries, Lucy Tucker, Obed Baker and A. Sharp.

Reds—Hayden Goodnight, Ruby Coker, Paul Johnson, Mae Simmons, Darone Turner, Joyce Oglesby, Pearl Clements, Florinell Francis, Eugene Page, Leona Parker, Bertie Lee Burkhalter, Bettie Rose Kerr, Leona Hamilton, Elmer Marshall, and John Aldridge.

The meeting was full of pep and enthusiasm. Violet Goad was the pep leader. Mr. Ives and Miss Lamb surprised everybody by singing quite gleefully:

"O, me!—O, me!
We'll get there by and by,
If anybody loves this campaign,
It's I, I, I, I, I."

Miss Edds talked to them about the spirit of the campaign. She said she was not worried about the raising of the money if the folks all gave something and gave in the right spirit. The slogan is "something from everybody." Not so much that they need the money as that they need the spirit of co-operation.

Olin Hinkle conducted a demonstration in soliciting. He passed out cards to those present; the result of which were that \$80.00 was subscribed that evening. The campaign committee has met each noon since the luncheon.

The results of the work up to Saturday night, April 1, were:
Number of persons solicited: Blues 104, reds 99; total 203.
Entire pledges: Blues, \$155.77; reds, \$146.68; total, \$302.45.

Of the entire amount pledged \$214.17 has been paid in cash.

Y. W. C. A. FAMILY PARTY

On Tuesday afternoon, March 28, between the hours of 4:00 and 5:00 o'clock the Y. W. girls met for a family party in Room 105 of the college building. On entering a paper sack was tied on the right hand of every girl; then she was greeted on every side with a hearty hand-shake.

After all had gathered, Miss Pearl Clements, the social leader for the afternoon, announced the first game to be a relay race with a lemon. Several other merry games were indulged in by the girls. Everyone seemed to enjoy the occasion, and the spirit of the Y. W. C. A. simply filled the room in the form of laughter, bright, sunny, smiling faces, and on the whole that congenial spirit reigned that makes one feel as if it meant more than the ordinary occasion.

The climax of this entertainment, as in all very enjoyable occasions, was near the end. And it consisted of smoking hot tea, wafers accompanied by a social chat with the girls sitting near; however, there was not much time lost in the consumption of the delightful tea that Miss Leona Parker has become so efficient in preparing, for the end of the hour came all too soon.

HILL ELECTED HEAD CANYON BUFFALOES

Lewis Hill, speedy infielder for the West Texas State Normal College Buffaloes, was elected captain of the herd for the 1922 baseball season, at an election last Tuesday. Hill is a letter

man from last year and is considered the main-stay of the team. He is a sure hitter and a fast infielder. He will hold down the short stop position this year and is expected to break up some good ball games by his timely hitting.

Hill is not only a star at baseball who is known all over the Panhandle, but he was one of the fast forwards on the Normal basketball quintet which made such an enviable record in the season just closed.

Hill is a freshman in the Normal and is one ball player who can make good grades. His election comes as a just reward and has met with the best of approval from every corner of the campus. His home is at Lipscomb, Texas.

ON BUYING FROM MAIL-ORDER HOUSES

There has always been something thrilling to me about receiving a spring catalogue from a mail-order house. I can hardly wait to look within its covers, where frocks of sheerest organdie and picture hats are displayed. The price is always reasonable; at least, the catalogue informs us so.

I feast my eyes upon, and fairly revel in the lovely frocks; how well they become the ladies in the pictures! Ah, at last, a wondrous pink organdie, and oh joy of joys, a picture hat to match! I am enchanted, and wonder if I will look like the lady portrayed. I am now entirely under the spell, and I sit down with the catalogue in my lap and write an order for the beautiful dress and hat.

For the next three days I walk in ecstasy, and at night I dream of moonlit gardens, and through them I float in a pink organdie dress, and carrying in my hand a picture hat. A week passes—two—then a month. The occasion on which I wished to wear the dress has come and gone, and I wore my old silk with a slit in the skirt. I am in rapture no longer; my delight has turned to sullen resentment, and I condemn mail-order houses in general.

But at last, there is a card in the box proclaiming that a package awaits me, a package too large for my box. My anticipation is revived, and I rush home to open this package tied with heavy twine and tight knots. Surely that rag is not the pink organdie of my dreams! I pick up a slip of paper which tells me that the articles I ordered are out of stock, and they hope I will see fit to keep the substitute, but if not my money will be refunded at once.

Next morning, on my way to school, I stop at the post office and mail a large package to a mail-order house. My dreams are gone and the pink organdie is forever a thing of the past.

KINDERGARTEN PROGRAM IN CHAPEL

Six eager-eyed little boys extended programs to all the grown-up people who entered chapel last Thursday morning.

Later, when that vast number of faces, called the student-body which has oftentimes expelled the self-confidence of even College professors, were turned to the stage, they beheld such a fairy-like group of tiny people that dignity, superiority and commonplaces were all forgotten.

A bright good-morning song brought a spirit of happy greeting. The songs that followed—especially those most familiar with Mother Goose—carried many of the grown-up folk, I suspect, back to other children once themselves.

A number of games and folk dances were given with an air of complete freedom and enjoyment. Many of the "big people" must have wondered if, after all, realization other than a subjective approval is really worth while. And then, near the end of the program, somebody wondered if Mr. Clark could not see himself in the diminutive band leader who waved the baton with such industrious skill. It is not likely that a single thought approaching the philosophical entered the mind of those enjoying the pro-

gram, until it was all over and the children had gone. Childish pleasure and freedom and beauty characterized every presentation, and within just those things so foreign to the advance development of older people, lay the interest of the program.

Thursday night at the home of Louise Shanklin, at eight o'clock, a merry crowd of friends gathered to celebrate the arrival of old April Fool.

All were divided into two groups, and excited contests were held, viz. Then came the refreshments consisting of delicious sandwiches, salad, cookies, and punch, all daintily served in various utensils, such as tin pans, earthen-ware, and miniature tea kettles. Class

The songs, poems, and dances, which were given with much ease and grace, were selected by the children from work that they had done in class. The dramatization of "The Forest Trees" was especially interesting, for it was their very own.

It was a joy to observe our little First Grade friends, for throughout the whole program they were so natural, so free, and so spontaneous.

A break in the circuit of the wires of a new burglar alarm, caused by any moving of a window or door, pulls a telephone receiver down and sends a voice over the telephone wires to the exchange switchboard, giving the street and number of the house and announcing that it is being entered by burglars. Central switches the call to police headquarters and a patrol wagon is soon on the scene of activity.

A toy balloon, released in Waukegan, Illinois, was found 11 days later in Altoona, Pennsylvania, as it descended into the street. The distance between the two cities is about 650 miles.

Wayside Items

Rev. Hall delivered two sermons at Wayside Sunday.

The larger ones made a pack saddle for little Norma Brooks, she being the least one in the room. Those that were not already bare footed pulled their shoes off and waded the creek. They were a tired bunch when night came, but enjoyed the time of their life.

Cheating contractors and crooked officials of Sumerian civilization in Mesopotamia 5,000 years ago were tried briefly and thrown into the river, according to recent scientific discoveries. Among other things, they had an elaborate banking system, with a reserve bank comparable to our own of today, a postal system with a parcel post branch and circulating libraries, which distributed clay tablet books.

Declaring that young men of today know more about race horses than the Ten Commandments, while the Twelve Apostles are running a losing race with the actors and actresses in popularity with the young generation, Judge James Whitten, of the Department of Agriculture, deprecates what he terms "a departure from the religious teachings on the part of the younger generation."

St. Martin's in-the-Fields, one of London's most famous churches in Trafalgar Square, turns its pews into couches for London's homeless each night.

Many Athletes In Normal Are Canyon Youths

Canyon is furnishing her part of athletes to represent athletic teams in West Texas State Normal College. Of the eighteen men who made letters in football during the 1921 football season, six of these live in Canyon. They were Terry, Key, Jenkins, Scott, Johnson and Lancaster.

Four Canyon athletes made letters in basketball during the season just closed and it must be remembered that only eight letters were given which proves that Canyon furnished fifty per cent of the team's strength. The men were Sone, Terry, Lancaster and Key.

In the baseball line up for the first two games played at Plainview the home town furnished four of the regular nine men who represent the Normal in the opening battles and each one is showing so much stuff it is a certainty that they will have regular berths on the Buffalo squad this season in baseball. The men from Canyon who started in the opening games are: Terry, Johnson, Sone and Key.

PRES. HILL VISITS LIPSCOMB

Mr. Hill gives an interesting report of his recent trip to Lipscomb.

On Friday night March 24, he was honored by a reception given by the Seniors of the Lipscomb school at the home of Judge and Mrs. W. H. Sewell. This reception was made especially delightful because of the fact that Mrs. Sewell was a friend of long standing.

Mr. Hill met with the trustees of the Lipscomb school Saturday and discussed with them some of their school problems, particularly that of a new school building. On Saturday night there was a banquet given. After the banquet, Mr. Hill spoke in the court house. He was taken then to Follette by A. B. Griffith and G. H. Jones, former Normal students. Sunday afternoon he spoke to the citizens of Follette.

Mr. Hill reports that Alvis Lynch, a former student of ours, who is now superintendent of the Lipscomb school, is doing fine work. Lula Bowman, also a former student, is one of his assistants. She is demonstrating a remarkable power in community leadership.

Other Normal students whom Mr. Hill saw are: Mollie Herber, Mrs. Meindke, Ethel Kistler, Bryant Baker, and Omer Owen. These are all succeeding well in their respective places.

SAN JOSE SCALE FOUND IN ORCHARDS AT CANYON

The vocational agricultural class in the Normal is doing some practical agricultural work in the pruning of orchards in Canyon. The San Jose scale has been found in two orchards in this city and the agricultural class are battling the disease by the application of the regular government formula which is composed of the following mixture and used to spray the trees: 16 pounds sulphur, 18 pounds lime-stone, cooked 45 minutes; 50 gallons of water.

A call is being made by several other people of Canyon for Agricultural boys to inspect their orchards as they realize that the San Jose scale can in a short time destroy an entire orchard.

Buffaloes Take Two Games From Wyaland Jack Rabbits

The Buffalo baseball team opened the season with the Wayland Jack Rabbits on the Wayland diamond last Friday and Saturday. The herd took the large end of the score in both battles by a score of 15 to 11 in the first game and 21 to 6 in the second contest.

The first game was marked by costly errors by both teams, the Wayland nine making the largest part. The second game was a slugfest, staged by the nine Buffaloes that represented W. T. S. N. C. and before the game ended the Rabbits had used up seven hurlers in an effort to stop the onslaught of the herd. Coach Burton says that the entire squad hit like veterans and would show any team up if they were not careful.

Clyde Whitacre from Hale Center, the big right handed hurler, had the honor of opening the first game for the herd. He let the Waylandites score four men in the first inning due mainly to errors on the part of the team and then held them scoreless the other four innings. He was relieved by Big Boy Burns.

The team failed to back him up just right, and six runs were made in the first inning that he was in. Big Boy held them powerless until the ninth inning when they made one more run. Burns used his dope ball quite effectively all through the game, which seemed to puzzle the Jack Rabbit sluggers.

Gus Miller, the little right hander from Vega, pitched the full nine innings of the second game and held the Rabbits to seven hits, while his team mates were piling up a total of twenty-four which netted 21 runs. The Buffalo artist used both speed and curve balls which kept the Wayland hitters guessing. He fanned four out of the first six men that faced him then the coach made him slow down so that his team mates could help him as it was plain that the game was in the hands of the Buffalo mound twirler. Coach Burton remarked, "Someone told me that Miller was a slow ball pitcher, but I believe he has everything."

Graves, the curve ball artist for the herd, was not used in either battle as Coach Burton wanted to use him in

Uncommon Sense

By JOHN BLAKE

SLOGAN OF FAILURE

"If I had gone after that contract I would have landed it," said the manager of a business firm to one of his subordinates, who had returned empty-handed from a business trip.

"Sure you would," said the subordinate, cheerfully, and if I had your brains instead of you, I'd be sitting in your chair, and you would be out pulling boners on the road."

The foregoing is typical of a conversation which, in some form or other, takes place in every business institution of importance on an average of twenty times a week.

It may be that the bosses are over-confident in their own ability and over-severe on the men under them.

But the excuse beginning "if I had your brains," which bosses and employees hear till they weary of it, is the most inexcusable excuse that there is in existence.

The man who admits that he has not the brains to succeed will, of a certainty, never succeed.

The man who is convinced that he can never do as well as the boss does has stopped trying, and when a man stops trying he begins to slide back down the hill.

Of all the futile unprofitable employments, that of envying another man's brains is the worst.

An employer who hires a man for a position of trust and responsibility has the right to expect him to do what he is told to do, and to act, when out of the office, as the employer would act.

If he fails, he fails. Nobody can expect 100 per cent performance. But he at least should not make the excuse that he has failed because he lacked the energy, the intelligence and the resourcefulness to succeed.

The employer who spoke the words we quoted above used to be an employee himself. He made failures, of course, but he never excused them.

When he was "called" for these failures he resolved not to make them again and sometimes to show the boss that he had as many brains as the average employee. That is how he got where he is, which is at the head of one of the most important concerns in America.

YOUR HAND

How to Read Your Characteristics and Tendencies—the Capabilities or Weaknesses That Make for Success or Failure as Shown in Your Palm.

THE FINGER NAILS

As a general rule, when the nails are short, it is a sign of sharpness and quickness of intellect and the ability to learn easily. These indications must be confirmed, of course, by a study of the line of the hand, which must be good; that is, clear and strong.

If the line of Apollo, which runs up into the finger of Apollo, the third finger, is also good, the short nails mean wit, and in some cases irony.

"Short-nailed subjects make the best journalists, by reason of their love of criticism and their readiness to engage in any dispute of contention," says Heron-Allen, a well known writer on palmistry. He holds also that in a good-natured and happy hand, or in a lazy hand, short nails denote a spirit of mockery and of good-humored sarcasm, frivolity, criticism and contradiction.

Of course, it must be understood that by "short nails" are meant those that are short from base to tip, not those that are shortened by the nervous habit of biting them. The latter is an indication of nervousness, melancholy, and worry, especially if the finger tips are spatulated.

Pay Bills on April 10th

One good way in which every man and woman in town can help to promote the prosperity of the community is to pay bills promptly when due. When you make charge purchases at a local store remember that this is a courtesy extended to you by the merchant and that the bills fall due on the first of the month following—payable not later than the 10th.

It is not fair to ask a merchant to sell you goods on a cash basis and then make him wait longer than thirty days for his money. Put yourself in the merchant's place and you will quickly realize how necessary it is to promptly collect outstanding obligations.

A big help to the prompt payment of bills is to open a checking account at this strong bank so that you can pay by check. Try it!
