

## 4th CELEBRATION BRINGS BIG CROWD FROM ALL SIDES

**RODEO EVENTS ARE BEST EVER SEEN IN THIS COUNTRY.**

**Hundreds of Visitors From All Over Southwest Attend Big Celebration of American Legion.**

The big celebration was pulled off Monday and Tuesday in great style and attracted visitors from practically every town on the Plains, with scores from New Mexico, Colorado and Oklahoma.

The rodeo events were the best ever pulled off in Canyon. Cow punchers came from all over the southwest, and every performance was a credit to the boys of the chaps and spurs. A prominent cattle man stated yesterday that he had attended rodeo performances for years, and had been at Tucumcari when the biggest events of the world were pulled off, and he had seen no wilder horses or better riders than performed Tuesday.

The following money was awarded Monday:

Bronc riding—1st Cooper Crane of Lockney; 2nd Fay Anderson of Tucumcari; 3rd L. L. Gardner of Amarillo.

Steer riding—1st L. L. Gardner of Amarillo; 2nd Lloyd Rusk of Canyon; 3rd Lynn Batton of Lamesa.

Calf roping—1st John Williams of Amarillo; 2nd Newt Gray of Tulla; 3rd Tom Standerfer of Running Water. Goat roping—1st Lloyd Rusk of Canyon; 2nd Bud Ward of Amarillo; 3rd A. M. Currie of Happy.

Bulldogging—1st Lloyd Rusk of Canyon; 2nd Davis Scott of Ft. Sumner, N. M.

The following were the winners on Tuesday:

Bronc riding—1st John Currie of Happy; 2nd Cooper Crane of Lockney; 3rd Dick Burns of Vega.

Calf roping—1st Tom Standerfer of Running Water; 2nd John Williams of Amarillo; 3rd Boss Jackson of Amarillo.

Steer riding—Hal Bruner of Hereford; 2nd Jelly Fuqua of Hereford; 3rd Shorty Hill of Clovis.

Goat roping—Tom Standerfer of Running Water; 2nd Jim Vauhn of Hereford; 3rd Boss Jackson of Amarillo.

Bulldogging—Davis Scott of Ft. Sumner; 2nd Perch Porter of Hereford.

The following were the results of the horse races, first day:

Saddle horse—1st Pete Hutchison; 2nd Lloyd Rusk.

Pony race—1st Ted Hutchison; 2nd J. A. Edwards.

The second day races were as follows:

Saddle horses—1st Pete Hutchison, bay; 2nd Pete Hutchison, roan; 3rd R. C. Burns.

Relay—1st A. M. Currie; 2nd C. O. Edwards.

Tuesday morning the kids entertained the crowd by attempting to climb the greasy pole and with several kinds of stunts.

There was plenty of barbecue for all on both days.

The fights Monday night were as follows:

Hill and Golden, four rounds, no decision.

Vernon of Amarillo and Striley of Canyon, three rounds, no decision.

Robison of Amarillo and Bentley of Slaton, eight rounds, knock out for Bentley in the third.

The fights for Tuesday night were: Brittain and Oden, three rounds, no decision.

Turner knocked out Hutchins of Amarillo in the second round.

The five negroes did not show up Tuesday night for the battle royal.

The National Guard boys were on duty throughout the two days. Only one case of disturbance was reported to the officers, when six young fellows had to be put in the guard house by Sheriff Black.

The weather was ideal for the celebration, and everything went off very smoothly.

John Mays of San Antonio, national committeeman for the American Legion was present and spoke to the big crowd after the barbecue Tuesday upon the subject of the proposed soldier bonus.

Mr. and Mrs. I. D. Cole of Amarillo were here the past week end at the G. B. Wyatt home.

## Today is Swat the Fly Day in Canyon—Get Busy on the Big Job

Today has been officially designated by the Civic Improvement League as Swat the Fly Day in Canyon.

The flies are unusually numerous this year. That means there are too many breeding places in the city.

It will be of little use to swat the fly unless the breeding places are cleaned up.

Use lime freely on the breeding places.

There are high weeds all over the city, and flies flourish in these weed patches. Cut the weeds.

The Civic Improvement League wants to clean the city up. Get behind the Clean Up Campaign.

### W. R. DUNCAN DEAD.

W. R. Duncan died in the hospital at Plainview last Wednesday night at 8:30 o'clock after having undergone two operations within two weeks for an abscess.

The body was taken by his wife and son to Richard Springs, Texas. They have not returned, and their future plans are yet unknown.

The Duncan family has lived in this county for several years. He was in good health until the past few weeks.

## Farm Bureau Signing Up Raisers of the Grain Sorghum Crop

About forty members of the Randall County Farm Bureau met Saturday afternoon at the court house in response to the call of President A. B. Haynes.

The meeting was devoted to a discussion of the grain sorghum contracts and committees were appointed to work every section of the county in order to get contracts from every farmer with a grain sorghum crop this year.

A Farm Bureau picnic is being planned for the month of August, announcement of which will be made in a few days.

Frank R. Jamison of the Amarillo Daily Tribune addressed the meeting Saturday.

The following committees were appointed to work up the contracts:

W. L. Deeske, Henry F. Miller, east part of county; Eddie J. Evers, Meinrad Hollenstein, west part; A. E. Haynes, John Vetesk, south part; Tom Lair, J. H. Lyle, north part; Lester Smith, J. J. Bauer, southeast part of county.

### CAR TURNED OVER.

Misses Annie McDonald, Tennessee Malone and Eva Killough were badly bruised up Saturday morning when a car driven by Miss McDonald ran off the temporary bridge at the foot of the big hill north of town and turned over on the occupants. Fortunately none of the three women were seriously injured. Miss McDonald was driving a new Studebaker, which received a broken axle and was otherwise damaged.

### GUARDING BRIDGES.

The Santa Fe is guarding the big bridge north of town, the one west and the one south on the bramen. Two men are also working in the Santa Fe yards in Canyon and around the pumping station.

There has been no trouble since the strike went into effect Saturday.

### BABY BURNED TO DEATH.

The three year old baby of Cecil Rockwell of Hereford was burned to death Tuesday while playing with matches.

Mr. and Mrs. C. R. Burrow went to Hereford this morning to attend the funeral.

### COUNTY COURT IN SESSION

The July term of the county court opened Monday. Only a few cases of probate are likely to come up this term. There are no criminal cases on the docket for trial.

### STORY SPECIALS.

A daughter was born to Mr. and Mrs. W. C. Belles June 23.

A son was born to Mr. and Mrs. R. A. Rogers June 24.

# CANDIDATE DAY IN CANYON NEXT MONDAY

## Peddlers Get the Hard Earned Money; Town Flooded With Silk Sox

Silk hosiery is the big game in Canyon today after the raid made in the city by a bunch of bunco smooth tongued salesmen, who have worked the town and re-worked it. The game is to use a nail file upon the hosiery—the salesman doing the sleight of hand performance, which looks like the hosiery was being punished. The file is run but one way. Ask the salesman to run it the other way, and see what he says.

One salesman stopped at a home the other day and told his mission, explaining that he was selling hosiery of extra-ordinary value. The lady of the house was interested, and so was the salesman until he ascertained that her husband handled hosiery in his store. He immediately packed his wares and stated that she could buy better goods at her own store than he handled.

Two other salesmen after working the town came to a local store to buy themselves some hosiery. The stuff they handled was not good enough for them to wear.

A woman came to a local store last week and bought an arm load of miscellaneous little household articles and started out to work the town. Of course she had paid retail prices for these articles, but she resold them to Canyon people for 300 percent above the price she had paid for the articles and 300 percent above the price any citizen of Canyon could have bought the articles at the local store. Did she put the game over? She sold out, came back for more, and then loaded up at another store!

Just how long are we people of Canyon going to continue supporting the bunch of grafters who are within our gates each and every day?

Ninety percent of the stuff handled by these grafting peddlers is inferior in quality and higher in price than may be bought in any reputable store in Canyon or any other good town in the United States. The goods these peddlers handle are the result of people wanting cheaper prices a year ago. The manufacturers put out a lot of junk to meet this demand for lower prices. The wholesale and retail merchants saw they could not stand behind the goods, and therefore would not buy the stuff. The manufacturer had a lot of junk to dispose of. People were out of work and offered to do anything, consequently the country is full of peddlers today with a lot of this second class junk which they represent as "extraordinary" and too many of them are actually selling it to intelligent people.

## Paving Contractor To Have Material Here Within Two Weeks

John Dairmple, representing the Panhandle Construction Company, was in the city yesterday and states that he expects paving material to be on the public square of Canyon within two weeks.

An "if" may well accompany this assertion, as the results of the election Saturday will determine whether or not the materials will come now or later. If the election carries, the materials will move; if the election does not carry, the materials may not move.

## SATURDAY IS TIME FOR ELECTION IN CANYON—PAVING WILL START AT ONCE IF ELECTION PROPOSITION CARRIES

The final step in the paving process comes Saturday when an election will be held for the purpose of adopting the law which gives the contractor a lien upon the property along which the paving runs.

This law is especially adopted for the purpose of protecting the contractor against non-resident property owners. Before this law was passed by the legislature, great gaps were to

## Luncheon Will be Held At Ideal Cafe Next Tuesday at 12 O'clock

The semi-monthly luncheon of the Randall County Commercial League will be held next Tuesday at 12 o'clock at the Ideal Cafe.

All members of the League are urged to be present.

### STATE EXAMINATIONS FRIDAY

Judge Worth A. Jennings will hold state examinations for teachers certificates Friday and Saturday of this week. It is expected that about 200 will take the examinations. There are 400 in the Normal this summer taking this work, and about half of the summer normal students took the examinations given by the county last year, and probably the proportion will run the same this year.

The examinations given at the Normal on this work will be the first of August.

## Smith Urges That Voting Eligibility be Settled Before July Primary

Election judges for the July 22nd primary election have been chosen, with A. M. Smith in charge of the election in precinct No. one. Mr. Smith stated yesterday that there are a number of people who do not know whether or not they will be qualified to vote in the primary. He suggests that the election board will have its hands full on primary day looking after the thousand or more voters who are in precinct one, and that all question of eligibility to vote should be settled before election day. Mr. Smith has chosen the following to assist in holding the election—D. A. Shirley, A. Cayton, R. E. Baird, R. E. Foster, Hud Prichard, A. D. Payne, Joe Black and S. V. Witt. Any of these gentlemen will be glad to answer questions regarding eligibility of voters.

Mr. Smith furthermore urges that all voters go to the polls early in order that the board be given a chance to count as many votes as possible during the day.

### DEEDS FILED LAST WEEK IN COUNTY

The following deeds as furnished the News by the Randall County Abstract Company, have been recorded in the County Clerk's office:

J. T. Burnett to Mrs. Joe Ella Goode, lots 7, 8, 9, block 13, Canyon. Consideration \$2100.

S. A. Shotwell to W. D. Smith, lots 6 and 7, block 51, Canyon. Consideration \$850.

### STARTING NEW LAUNDRY.

C. W. Wall is moving an electric laundry from Lubbock, and will install the same in the house on East Houston street which is being remodeled by J. T. Service. He plans to be ready for business sometime next week.

### POSTAL RECEIPTS GAIN.

The postal receipts for June of the Canyon post office were \$1,375.17. The amount of money is about twenty-five percent larger than the average for the past quarter.

Helen Howard of Childress was here Monday and Tuesday visiting friends.

## TRADES DAY NEXT MONDAY IN CANYON WITH SPEAKING BY CANDIDATES FOR STATE, DISTRICT AND COUNTY OFFICES

Monday will be the monthly Trades Day in Canyon, with the unusual good attraction of Candidate Day.

All candidates are invited to come to Canyon on that day and present their claims to the voters.

The speaking will start at 1:30 on the court house lawn. More time will be allotted candidates for state and district candidates than will be given county and precinct candidates.

Come to Canyon next Monday and hear the candidates.

## "Nothing Like it in the Entire U. S." —It's Cousins Hall

Miss Carney of Columbia University visited Canyon during the Panhandle Teachers Consolidated Institute last September.

In the course of a lecture to her class in Columbia Miss Carney remarked that she had traveled all over the United States and visited scores of schools with dormitories, but had found none that would compare with Cousins Hall at the West Texas State Normal College at Canyon, Texas.

Miss Edna Graham and Mrs. Otha Hanscom were in the class when Miss Carney made this statement.

## Teachers From 21 Counties Come To the Institute

H. W. Morelock, conductor of the Teachers' Consolidated Institute, has sent out announcements this week regarding the Institute which will be held in Canyon September 4 to 8.

There are twenty-one counties in the Institute as follows:

Armstrong, Bailey, Briscoe, Carson, Castro, Deaf Smith, Floyd, Gray, Hale, Hemphill, Hutchinson, Lamb, Moore, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher, Wheeler. The faculty is as follows:

1. Dr. Thomas Alexander, Professor of Elementary Education, George Peabody College for Teachers, one of the South's most distinguished educators, will conduct the Intermediate Grade Section.

2. Dr. C. A. Phillips, Dean of the Warrensburg, Mo., State Normal College, a recognized leader in his own State and well known throughout the South, will have charge of the Rural School Section.

3. Professor W. H. Crothers of the Department of Education, Emporia, Kansas, State Normal College, who comes highly recommended as an expert in problems of the high school, will conduct the High School Section.

4. Two Expert Primary Teachers, one for the kindergarten and the first and second grades, and one for the third and fourth grades.

Departmental work will be conducted by:

1. English: (a) In the Primary Grades; (b) In the High School.—H. W. Morelock.

2. History: (a) In the Elementary Grades; (b) In the High School.—L. F. Sheffy.

3. Mathematics: (a) In the Elementary Grades; (b) In the High School.—Miss Edna Graham.

Special features are announced as:

1. An entertainment of the Teachers by the College and the citizens of the town.

2. Library and Natatorium open daily.

3. Daily lectures by eminent school authorities.

4. A time and place provided on the program, each day for the meeting of teachers in each county and the meeting of city superintendents with their teachers.

Help keep Canyon clean!

## EX-STUDENTS WILL PUT ON CAMPAIGN FOR BUILDINGS

**SMALL HOUSES BEING PLANNED FOR NORMAL CAMPUS.**

Will Take Care of Large Number of Light Housekeeping Students in the Normal College.

At the meeting of the Ex-Students Association Thursday night which was attended by sixty graduates of the Normal, it was decided to put on the campaign leading to the building of a number of small cottages on the north side of the Normal campus to be used by students wishing to do light housekeeping.

This proposition has been before the Ex-Students Association for several months, and has been discussed from every angle. The demand for light housekeeping quarters is far above the rooms available for this purpose and the demand will increase from year to year.

The Y. W. C. A. and Y. M. C. A. are taking under consideration the proposition of building a community house which would be the center of this colony of small light housekeeping buildings. The matron would live at the community house, and all entertaining would be done in the community house.

President J. A. Hill met with this association several weeks ago and stated that the college could furnish light and water if the houses were built.

## Poland China Herds Nominated for the Big Futurity Show

The Poland China Futurity Show during the Randall County Fair September 6, 7, 8, will have hogs from the leading Poland China herds of Northwest Texas:

The following nominations have been made for this show:

John H. Adams, Tulla; G. D. Walker, Happy; Frank M. Clark, Hedley; H. B. Hales, Amarillo; John Vetesk, Canyon; Braxton Vetesk, Canyon; A. B. Haynes, Canyon; Lem Donnell, Tulla; Dr. C. E. Donnell, Canyon; J. W. McCreey, Wayside.

### REVIVAL SERVICES

The Christian Church will begin a revival on Sunday, July 9th at 11 o'clock and continuing every night at 8:15 for several weeks.

The Evangelist, Mr. J. T. McKissick was born and reared in Tennessee, but has preached in Texas for twenty years. He was educated at Texas Christian University and at Harvard. He is forty-eight years of age. Bro. McKissick has round about 5000 people added to the church under his ministry. He is an eloquent and forceful speaker.

The singing at these services will be under the direction of Mr. E. A. Osborne, the local minister.

The general public is cordially invited to attend all services.

### BUILDING ADDITION

J. W. Reid is building a two room addition to his home on East Evelyn street.

The opponents of Clarence Ousley are crying "republican" at him because he is opposed to free raw material when manufactured products are protected by a high tariff wall. As a matter of fact the policy of Ousley, protection for raw materials as well as manufactured articles, is just what the republican manufacturers do not want. They would like to import their raw materials free from a tariff and at the same time have a high wall of protection against the articles turned out by their factories. The old democratic policy of free trade has long ago been exploded so far as America is concerned. So long as the manufacturers of the north and east are hiding behind a tariff wall, it certainly would be silly for the producers of raw materials in Texas to demand of our senator that he vote to allow free raw material to come into the United States and take money out of his pocket that an ancient democratic ideal may not be overruled. The man who stands for such a program is willing that Texas, a producer of wheat, corn, cotton, meats and hides—the raw materials—shall remain a poor state in order that the manufacturers may import these same raw materials free of duty to the detriment of our farmer producers. Clarence Ousley believes that if there is to be protection for the manufactured article there must be protection for the raw material which goes into this manufactured article. Culberson, Thomas and Mayfield are willing to sacrifice the farmers of Texas by prohibiting a tariff on raw materials in order that an old exploded ideal may survive. Clarence Ousley is truly friend of the Texas farmer. As the Texas farmer prospers so will the Texas merchant and businessman prosper. A vote for Ousley is a vote for prosperity.

Vote in the election Saturday. Vote for the adoption of Chapter 11, Section 22 which will force non-residents and others who would refuse to pay for street paving if this election does not carry. There is a little property on the public square which may not be paved if the election does not carry. There is no opposition to the issue of Saturday's election, but it is necessary that every Canyon booster go to the polls and register his vote in favor of this very wise provision of the law. The paving of the square will start as soon as this election is carried.

Canyon is building more houses than any town on the Plains of any way near our population. Canyon has gained hundreds of new citizens within the past year. While we are building, let's plan wisely and with the absolute fact in view that Canyon is destined to be a city of 10,000 population within a few years.

Move to Canyon, brother, and help develop this great empire of the west.

The railroad shopmen walkout Saturday was general throughout the country. Railroad service has not suffered to any extent as the railroad officials saw to it that the rolling stock was in good condition before the strike started. The strikers will not win. The public is opposed to the strike, and no strike has ever been won which has not had behind it public sentiment.

The News goes into the homes of Randall county where the big buying is done. The buyers are watching the news from your store. If you have no news to tell the buyers, or rather if you refuse to tell the buyers the news of your store, do not blame the buyers for going to the stores and business establishments which are telling them good fresh store news. The wet weather has made the weeds grow wonderfully well. Why not a weed cutting campaign to follow up the fly swatting campaign of today? Weeds are about as great a nuisance as flies.

Candidate Day in Canyon next Monday. Trades Day. Come to Canyon that day and hear the candidates present their cases. You are most cordially invited to this great meeting.

Today is fly swatting day in Canyon. Get busy. There are a million or so surplus flies in the town. Clean up the breeding places of the flies.

**FACT AND COMMENT**

The more truth an error has in it the more dangerous it is.

Put your energy into achievement today rather than into regrets tomorrow.

The Judges of the Supreme Court of the United States receive \$3,000 less salary than the Judges of the Supreme Court of Pennsylvania. In England the Chief Justice receives \$40,000; in the United States, \$15,000.

At a Massachusetts auction ninety-six head of Guernsey cattle brought the tidy fortune of \$262,330. One cow sold for \$19,500 and one calf only a few hours old for \$2,000. The herd was started about twenty years ago.

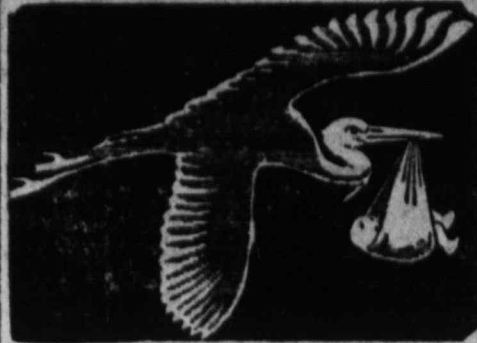

The report of the Motor Vehicle Commissioner for Connecticut for 1921 discusses the billboard as a highway hazard. It says that there were 348 accidents during the year in Connecticut at places where huge advertising signs give the history of the town. The attention of motorists was distracted by the signs.

It is hard to build a concrete road without detours, and detours are poor advertisements of the country that they serve. The usual trouble is lack of foresight; the detour is not graded until it is actually needed; therefore it is almost as impassable as the highway from which traffic is diverted. Detours should be graded a year in advance.

One or two conditions govern the plan of most automobile tours: the state of the road or the attractiveness of the place to which the road leads. Instead of saying, "Let us drive to Washington," a dull plan, why not say, "Let us visit every what-you-may-call-it in the state." By making the object of the tour things or persons instead of roads or a particular destination an automobilist with reasonable luck should find every day an interesting one.

As interesting an item as has appeared in the recent news is the transfer of a farm in Massachusetts that had been in one family since 1690. But near Bordeaux, France, the first known prehistoric dwellings in the world still exist—caves in the cliffs overlooking the Atlantic, not two hundred but two hundred thousand years old. People still live there—with modern improvements—who are descendants of other people beyond memory. Tradition has it that they have "lived there forever."

At the time of the Civil War only three per cent of the population of the United States lived in cities, while today more than half are city dwellers.

**Mother-To-Be, Read This—**

Here is a wonderful message to all expectant mothers. From this moment on, cast from your mind all dread and fear, and feel every day as the months roll by that great freedom from much of the suffering which thousands of expectant mothers undergo, unnecessarily. And when the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend." Mrs. C. J. Hartman, Scranton, Pa., says:

"With my first two children I had a doctor and a nurse and those they had to use instruments, but with my last two children I used Mother's Friend and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes."

"Mother's Friend" is applied externally to the abdomen, back and hips. It aids the muscles and tissues to expand easily. It penetrates quickly. It contains no narcotics or harmful drugs. It is safe. There is no substitute. Avoid useless greases sometimes recommended by the unqualified. "Mother's Friend" is sold by druggists everywhere.

NOTE—Write for valuable, free illustrated book, "Motherhood and the Baby," containing important information which every expectant mother should have, and all about "Mother's Friend." Dr. Bradford Regulator Company, 124-45, 46th St., N. Y. C.

A new method of keeping hay without curing it in the sun has been worked out in Switzerland. The newly mowed hay is stored on metal sheets in silos of 400 feet capacity. Another metal sheet closes the top of the silo and the two sheets are connected in an electric circuit, so an alternating current of from 200 to 500 volts passes through the grass between them. This enables the grass to be preserved in its natural state until required. It can be cut and stored irrespective of weather conditions and it contains twice the nutriment of an equal quantity of hay.

A community cow, rented out at \$1 a week to families in the congregation who have children, is the property of the Church-by-the-Side-of-the-Road in Greensboro, North Carolina. The proceeds being realized from this rental are being saved to buy other cows and eventually there will be a community herd to supply milk in large quantities for all the children in the congregation.

A new stump-burning method employed in Washington consists of placing an apparatus against the stump with a fine and blowpipe in position. A draft created by the blowpipe turns the inside of the stump to a mass of coals, the fire eats down into the roots and the entire stump is consumed at half the cost of former methods.

A paper tape measure is being railed into German bolts of cloth. This permits the salesman to tell at a glance the measure of cloth remaining in the bolt, thus economizing labor and time. The tape is marked off in yards and meters.

A substitute for cardboard and wood in boxes is a chemical composition of sawdust and ashes. The finished boxes are light, washable, sanitary and non-poisonous. They are waterproof and as fireproof as asbestos and can be made in any degree of flexibility or texture, either as hard as oak, tough as metal or pliable as cardboard. A pound of the substance from which the boxes are made costs not more than five cents.

The shifting sands of the desert of Gobi are gradually burying large portions of the great wall of China.

Asbestos suits are made for persons engaged in work that requires fireproof clothing. Asbestos can be spun so fine that 100 yards of the filament will weigh only one ounce and cloth can be made from this weighing only a few ounces to the square yard.

The first sawmill within the Arctic Herschel Island, at the mouth of the Mackenzie river. The engine accompanying the mill is of the two-cycle kind, without carburetor of ignition, and can be run on fish oil or crude petroleum from the Fort Norman wells.

The Stone Age existed in British Columbia up until as late as a century ago, according to prominent archeologists who have been exploring old community sites, mounds and graves along the coast and the interior. Stone and bone tools were in common use when white explorers visited the North Pacific, although copper and iron were found almost everywhere. Stone hammers and axes discovered are almost identical with the tools of the neolithic man found in Europe. Old shell mounds on the Fraser and Thompson rivers reveal many things formerly used by man of the Stone Age.

Nearly fifty thousand million dollars is invested in insurance on the lives of Americans.

Flashing across the skies of Virginia, a meteor struck a grove of oak trees in the south central portion of the state, making a depression in the earth which measured more than 500 square feet in area. The meteor was composed of a metallic substance and several trees were buried beneath the falling body. Homes in nearby towns were rocked by the concussion.

**HURRY**

Hurry is a chronic American disease, an evil habit that has fastened itself, cancer-like, on our life, and has sent its roots deep down into our vitals.

Hurry is not speed. It is not energy. It is not the opposite of slothfulness. It is not a means by which great ends are accomplished.

A study of the men of affairs, who have made, or are making history, will demonstrate that hurry is not a characteristic of the man who is doing things worth while.

There are exceptions, of course, but almost invariably the man of affairs is deliberate. He accomplishes much, but he does it calmly, measuredly, and according to schedule.

His schedule is so planned, perhaps, that every moment of the working day is assigned, but there is sufficient time for each task, when its time comes. He does not hurry.

The hurrying man is one who, with immature plans, is trying to keep up with a poorly arranged schedule, and is always a little behind.

Hurry, because it involves lost motion, makes for inefficiency.

Some men imagine that hurry is a virtue, that their feverish activities help to keep them in the limelight.

Such activities may impress some persons, but not those who are read below the surface.

Among the most reprehensible of the hurry tribe are those to whom traffic rules are anathema, and who are willing to take long chances to save ten minutes in a trip to or from town.

It is this class that furnishes the daily menu of automobile casualties.

Perhaps the most effectual punishment for this type of individual would be to give the traffic officers authority to order every speeding car to the side of the road, and there padlock it for half an hour, or more, according to the gravity of the offense.

Another class of the hurrier who, however, injures only himself, orders and eats his meals with a rush.

One chef is quoted as saying that the curse of American cooking is the injunction, "Rush this order, please." Neither good preparation of food nor good digestion goes with such an order.

Whoever is living a hurried life is living a poorly planned, disordered, nervous, inefficient life, and is meanwhile rushing to the undertaker.

Besides polluting bathing beaches and killing lobsters, oysters and fish of all sorts, the bilge water discharged from oil-burning steamers near land is also killing thousands of sea birds. Ornithologists report that when the birds alight on an oily surface their protecting feathers get stuck together, which allows the cold water to penetrate to their skins. That causes them to take cold and die. The beach of a bay in California is said to be strewn with the bodies of birds that have been killed in that way.

All University of Arizona students must sleep in the open air. As the climate is dry, mild and squable, it is possible to provide open-air sleeping quarters during the entire college year.

The Chinese prefer a paper of much softer quality for their correspondence than that made for use of Americans. This is because the Chinese write entirely with brushes and ink. Wrapping paper of a soft, thin variety light cream in color, is usually found in the better stationery shops, while the native shops sell a cheap brown paper.

Melting ice in the glaciers of the Alps is yielding up the bodies of persons who met their death many years ago.

**TENT SHOWS.**

For the past few summers numerous tent shows playing low class comedies, dramas, and vaudeville acts have been invading the city of Canyon. Every summer shows have advertised their entertainments as "clean, moral, and uplifting" and as "the only tent theater playing high class plays." When they leave the town, they leave trash, posters, and hand-bills scattered along the streets. They also result in the degradation of the minds of students as well as of the townspeople. Every year hundreds of students with limited means come to Canyon to go to school. It is hard for them to "make both ends meet." And then, when they arrive, they are confronted with such temptations to spend money and to neglect their studies as are common, low-class tent show. The showmen are aware of the fact that there are hundreds of young people in Canyon. They are aware of the fact that these kind of shows have an appeal to the youth of the nation. Students, let's quit patronizing these shows and they will quit coming to town. Townspeople, you owe it to the students, to the town, and to yourself to forbid the tent shows from playing in Canyon. We have a clean town, but it could be a cleaner one.—The Prairie.

**WORDS OF WISE MEN**

Time is the eternal now.  
Prefer loss to unjust gain.  
Greatness appeals to the future.  
When the cup is full, carry it even.  
The apparel oft proclaims the man.  
Tact and talent make a strong team.  
When it is time to strike, strike hard.  
Tomorrow, tomorrow, is the song of the idle.  
Whatever is worth doing is worth doing well.  
Praise makes good men better and bad men worse.  
Prayers and provender hinder no man's journey.  
Pride, joined with many virtues, chokes them all.  
Prosperity and vanity are often lodged together.  
Think all you say, but don't say all you think.  
Stop a little, to make an end the sooner.  
Tomorrow is the first day in the fool's calendar.  
The truest wealth is that of the understanding.  
A good and true woman is said to resemble a Cremona fiddle—age but increases its worth and sweetness its tone.

**A FIELD DAY FOR PHILATELY**

Portland Oregonian: It has been a glorious year for the philatelists, with nearly 2,000 new stamp issues since December, 1918, and more to be heard from as plans are matured for unification of the issues of Serbia, Croatia, Bosnia, and Slavonia. No year in the history of stamp collecting has been so prolific. Fifteen hundred of the 2,000 new stamps are due to new States whose autonomy is guaranteed by the Paris conference. Others are changes made in the issues of already established nations. The previous record was made in 1914, when there were 1,286 new issues, chiefly due to changes made in the water mark of the British colonial issues. Multiplicity of new stamps means a new collectors' carnival. It is the nature of an enterprise so vast and complicated to develop specialists. The most that the average collector will be able to do in the next few years will be to assemble the complete issues of a few new States. The essence of collecting is completeness and the value of an entire collection may turn on the success of its owner in finding a single stamp needed to put the cap sheaf on. It is yet too early to set more than a tentative valuation on most of the stamps now flooding the world, but within a few years these will begin to respond to a law of supply and demand as inexorable as any that ever regulated the price of a useful commodity.

**OUT OF THE QUESTION**

Murphy was up in court on the usual charge—street brawling.

"Murphy," counselled His Honor, this must stop. Why don't you count to one hundred before you begin to fight?

"Impossible, Yer Honor!" exclaimed the defendant aghast. "Why, by that time the feller'd be a mile away!"

**BE PACHENT**

The following reply to a dun was actually received by a New Jersey firm:

Dear Sir:

I received your letter about what I owe you, now be pachent. I ain't forgot you and as soon as foks pays me I'll pay you.

If this was judgment day and you no more prepared to meet your God than I am your account your shor goin' to Hell.

### Dusley Stresses Important Issues

Sulphur Springs, June 29.—Clarence Dusley attracted a very large audience to hear him here today discuss the issues of the campaign and especially those issues that vitally affect the present and future prosperity of this country. Mr. Dusley insisted that issues already decided should be permitted to rest where they are, there being too many important live issues needing consideration. He said in part:

"Several times in this campaign I have been moved to comment upon the painful fact that some of my opponents are still striving to argue ancient prejudices and passions. I do it again because I am resolved to press for the things that concern the prosperity, the comfort and the real welfare of the people. Indeed that is the sole reason why I am making this race. I have lived too long to be concerned about honors and distinctions, but I do most earnestly desire to be useful, and I am serving my country when I insist upon a consideration of its real problems.

"I am happy in the knowledge that my appeals to reason are bringing an increasing response and every day adds to my confidence that the judgment of the people on July 22, will be recorded in favor of the issues that I espouse.

"Mr. Cullen Thomas has again dragged the skeleton of the liquor traffic from the closet of dead issues and is rattling its bones to scare emotional people into rallying around his drooping banner. For the second time he has intimated that my election may impair the prohibition status. Mr. Thomas knows better. He is too intelligent not to know that neither he nor I in the senate could cause the slightest abatement of the prohibition clause of the federal constitution; that a proposal to amend the clause would not command the support of one-fourth of the members of either house; that if such an amendment were submitted it would not be ratified by fifteen states; that no statute authorizing intoxicating wines and beers would be respected by the courts.

"Knowing these things as he must know them, his attempt to raise a false issue is evidence that he is unwilling or unable to discuss real issues."

"These are serious times. The thoughtful men of the whole world are using the utmost of their mental powers to find a way out of the economic debacle, the business disaster, that has wrecked many of our producers, merchants, bankers and laborers, and that has cut our Texas agricultural income two-thirds.

"It is worse than folly, it is unpatriotic, it is mockery of the suffering of millions of families to be prating about things that are settled and diverting the thoughts of our people from things that are vital."

Also, golf is a very good game for those who are willing to save their health and lose their temper.—Dallas News.

### S. S. S. Fills Out Hollow Cheeks, Thin Limbs!

Men and women, whether you will ever build yourself up to your normal, just-right weight depends on the number of blood-cells in your blood. That's all there is to it. It's a scientific fact. If your blood-cell factory isn't working right, you will be run-down, thin, your blood will be in disorder, and perhaps your face will be broken out with pimples, blackheads and eruptions. S. S. S. keeps your blood-cell factory working full time. It helps build new blood-cells. That's why S. S. S. builds up thin, run-down people, it puts firm flesh on your bones, it rounds out your face, arms, neck, limbs, the whole body. It puts the "pink" in your cheeks. It takes the hollowness from the eyes, and it fools Father Time by smoothing out wrinkles in men and women by "plumping" them up. S. S. S. is a remarkable blood-purifier. While you are getting plump, your skin eruptions, pimples, blackheads, acne, rheumatism, rash, scabies, blotches are being removed. The medicinal ingredients of S. S. S. are guaranteed purely vegetable. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

### CALLING IN THE EXPERT

It was visiting day aboard ship and the newest gob was strolling along the deck with his sweetheart in that particular port. Along came the main gazabo himself, but the gob did not salute. The main gazabo, having the rudiments of humanity in his system, did not give him a public bawling out but called him aside and administered a few well-chosen words.

"What did he want of you?" asked that particular sweetheart when the gob came back.

"Oh," answered the latter easily, "he just wanted to consult me on a bit of naval discipline he happened to be thinking about."

"On the contrary," chortled the editor, "I could take yours with positive glee."

Baffled, the funny man went to the next place.

### NOTICE OF HOLDING ELECTION

A petition having heretofore been presented to me, the undersigned, County Judge of Randall County, Texas, signed by the required number of legally qualified voters residing within said Common School District, No. 22, in Randall County, Texas, and the Canyon City Independent School District of said County and State, which petition was, on, to-wit, the 22 day of June, A. D. 1922, duly considered by me and an order issued and entered granting said petition and directing elections to be held within said respective districts, which order is as follows, to-wit:

"In the Matter of the Consolidation of Common School District No. 22, of Randall County, Texas, with the Canyon City Independent School District of said county.

"On this the 22 day of June, A. D. 1922, came on to be considered the petition presented to me, the undersigned, County Judge of Randall County, Texas, and signed by the required number of legally qualified voters residing within Common School District No. 22 and the Canyon City Independent School District, all located within Randall County, Texas, requesting that an election be held within each of said School Districts for the purpose of determining whether or not said Common School District No. 22 shall be consolidated with said Canyon City Independent School District; and it appearing that said petition is signed by more than twenty of the legally qualified voters residing within said Canyon City Independent School District, and by twenty of the legally qualified voters residing within said Common School District No. 22, and that said petition should be granted;

It is therefore ordered, that an election be held in each of said respective Districts on, to-wit, the 15th day of July, A. D. 1922, for the purpose of voting on such consolidation and deciding whether or not said Common School District No. 22 shall be consolidated with said Canyon City Independent School District thereafter to be known as the Canyon City Independent School District.

Wherefore, notice is hereby given that an election will be held within each of said School Districts on the 15th day of July, A. D. 1922, in compliance with the provisions and terms of said order, as above set forth.

#### THE GARMENT OF HABIT

Our lives are a mass of habits. If it were not so, we could not live at all. We wake up and get up and dress, we eat and walk and work, we speak and think and love and hate and fall asleep again largely by habit. If we were forced to perform all this independently, originally, the effort of living would be intolerable. A mercifully small part of our action depends upon volition and deliberate reasoning. In the main we do what our fathers did, as they imitated their fathers, and so back to the beginning of time.

Education is the forming of habits. They begin in the cradle, or before we get to it. The one great business of parents and teachers is to see that our habits are what they should be, and with all the mighty effort and cognition that are put into the task how often they turn out to be what they should not! How immense, how rigid and constraining, even in its subtle flexibility, this encompassing mould of habit is we realize only when we endeavor to change it or break it or throw it off. Get a bad habit fastened upon you, appreciate its badness, set all the energy you have to getting rid of it, and you learn the might of habit. We have all tried, and we have all failed, and we all know.

The intensity of such an effort and its too frequent futility impress upon us the terrible danger of habit. It is a fine thing to be on your guard against it, to keep your life and character as fluid as possible, responsive to outward calls and stimuli, ready to answer in an instant to the controlling demands of the intelligent will. Many

people preach against habits, and some seem to have a far better mastery of them than others.

All the same, habit is a beautiful thing, and above all a restful. Mr. Pepys's mother had an old dressing gown, which she called her kingdom, because she took so much comfort in it. The garment of habit is one of immense comfort and delicious ease. Only it behooves us to see that it be made of substantial stuff and that its cut and fashion be such as will conduce to dignity and will not discredit us in the eyes of those we love.

AMERICAN GAS MASKS BEST IN THE WORLD

Thanks to the work of Bradley Dewey of the American Can Company, chief of the Gas Defense Division, and one associated with him, the A. E. wore gas masks that gave twenty men the protection afforded by those worn by the Germans.

Work of mask manufacture was centered November to Long Island City, the plant expanding in seven months from a floor space of 157,000 square feet to 1,000,000 square feet, or twenty-three acres.

Exp-policeman has been arrested and charged with illegal manufacture of liquor. That's what he gets for getting off the force. Grand Duke Nicholas stands one of the heroes of the great war and as the years pass he will more and more be so recognized.

SMILE Smile every time you get a chance—it's the smile that wins. Smile—if you are thin—laugh if you're fat. If you are neither, just grin.

SMILE Smile at hard luck.—The Fates may think you like it and quit. Smile—and never let the sun set on your troubles—set on them yourself. Smile at the past and you can grin at the future.

SMILE Smile while you're awake and you'll laugh in your sleep. Smile when you fall and you'll die laughing at your success. Smile when you're mad, and try to frown when you're happy. Smile at a dime and it will look like a dollar.

FIDO FIRST

From Judge: "While you were in Florida, dearie, I added this wing to the house." "Well, you'll have to tear it down, Fido buried a bone there before we left."

A preacherman who had recently bought a flivver: How much about a lizzie should one know before one attempts to run the thing?

The prompt answer came from the experienced troubled one: "Well, I'll tell you friend, to run a machine like this, one does not have to know much of anything; but when one cannot run it one has to know an elava lot."

Many a man says he is tired of this world when as a matter of fact the world is merely tired of him.

There's the Credo of the Cranks: I believe that as I was not consulted about my advent into the world—a world of skin or be skinned—therefore will I strive to make said world the worse for my sojourn in it.

Shrewd Phillip Armour said that he employed optimists to produce results and pessimists to figure them out.

Ever hear of the old Scotch painter who had reached the golf age and in a joyous spasm overpaid his caddy? No? You never will either.
