SCHOOL BONDS ARE VOTED IN ELECTION, 198-25

PLANS FOR BUILDING AGAIN ARE INSPECTED BY BOARD.

Location Will be Chosen for New High School Building Next Week—Bonds Ready for Attorney General.

The bond election for the new Canyon high school building carried last Wednesday by a majority of almost eight to one. There were 224 votes cast in the election. One ballot was thrown out on account of having been marked with red ink, instead of black ink or pencil, as required by law. The bond issue carried by a majority of 198 to 25.

The transcript of the proceedings has been received and ready for completion so far as the school district is concerned. The transcript will be returned today to Breg, Garrett & Company of Dallas, buyers of the bonds, who expect to have a decision from the attorney general within two weeks. The bonds have been sold for par, accrued interest, and a bonus of \$375. This price is \$150 better than Tullia sold her bonds last week, and the Tullia district had to prepare all of the proceedings and print the bonds, which makes the Canyon district receive at least \$750 more for our bonds than did our neighbor.

E. F. Rittenberry, architect, had his plans for the new school building, at the meeting of the board of trustees Tuesday night, and the plans were gone over carefully by the members of the board, and by R. A. Terrill and D. A. Shirley, who were invited in to criticize the construction of the building. Mr. Rittenberry states that he will have all corrections made, and the final draft of the plans ready for inspection by the board by the 15th. After the plans are again gone over, the blue prints will be prepared and bids asked for from the contractors. A number of contractors have been here, to look over the field, and it is expected that the bidding for the contract will be keen.

The board of trustees has set next Tuesday evening as the time of determining the exact location for the new high school building.

MARRIAGE LICENSES.

The following licenses to wed were issued this week by County Clerk O. W. Gano:

Chas. E. Mann and Miss Hazel A. Nickson, Nov. 29.

Geo. M. Herbert and Miss Irene Harris, Nov. 29.

Floyd DuBose and Miss Ruth Stump, Nov. 29.

Raney O'Rear and Miss Ruth Cobb, Nov. 29.

Verner C. Vermillion and Miss Frankie M. Wofford, Dec. 3rd.

ATTEND POULTRY SHOW.

Randall county has a large delegation at the poultry show in Amarillo this week. The show will close Sunday.

Among those entered in the show are C. F. Walker, R. A. Campbell, Elmer Wilson, Henry Schroeder, C. C. Stewart, George Bishop, Howard Ferguson, W. E. Bennett and Elmer Upchurch.

INSTALLED RADIO.

Thompson Hardware Company installed one of the latest types of radio Monday, which will be used to gather market reports, and the same will be posted for the benefit of the farmers and stockmen.

The set worked fine the first night of installation. Washington, Pittsburg, Chicago, Davenport and San Francisco were among the stations picked up.

There are several radio sets now in use in Canyon, and many people enjoy the novelties during the evenings.

GANO TO FLOYDADA.

O. W. Gano has bought the Scott abstract business in Floydada and took charge of the same Tuesday morning.

Mr. Gano has been county clerk of Randall county for the past four years and has been highly efficient.

Mrs. Gano will remain in Canyon and look after the clerk's office until the first of the year when Mrs. Frank Woods becomes clerk. Mrs. Woods is now in the office getting acquainted with the duties of the same.

ARRIVES IN AMERICA.

Herman Freese, brother-in-law of Okke Okkenga arrived from the old country Thursday and expects to make this his future home.

Buffalo Basketball Men Will Report Monday to Meet Coach Burton

The official call for basketball practice will be called for Monday, Dec. 11, Coach Burton announces. Many of the men who expect to try for basket ball played football and are a little behind in their work, and the coach is hopeful that no failures occur, because no man can participate in athletics here unless he is passing and has passed his school work.

Prospects are bright for a winning team this season, as a complete team of letter men are back. A number of last year's Yearlings are expected to give the old heads a race for the team. Moreover a number of lads from high schools will be fighting to break in and the coach states that a number of these men are looking good in daily workouts.

The five letter men are Captain Mitchell of Floydada, playing his third year at center, is considered one of the best cagers in the Panhandle; ex-Captain Hale of Lipscomb, high scorer for the Buffaloes last season, who has made two letters in basketball; Lewis Hill, forward, playing his third year, a formidable scorer; Lancaster, guard, who has earned two letters, and Clifford Henry of Corpus Christi, guard of last year.

The cagers' schedule has not been completed. Burton expects to schedule six or eight T. I. A. A. games.

Eighty-Nine Counties And Six States Are Represented Here

With the exception of Randall county, Potter county is sending the most students to the West Texas State Normal College this year. For several years it has been a close race between Hale, Swisher and Scurry counties. This year they have fallen down and Potter has come to the top.

There are 30 students enrolled from Potter county, 29 from Swisher, 26 from Floyd, 23 from Hale, 18 from Lubbock, and 14 from Scurry. Carson, Castro, and Deaf Smith counties tie for seventh place with 11 students each. Armstrong and Hall send 10 each. Eighty-nine Texas counties and six states send students here.

There are nine students from New Mexico, nine from Oklahoma, one from Ohio, one from Louisiana, one from Tennessee, and 667 from Texas, making a total of 688 in the Normal College. There are 245 students in the Training School, making a grand total of 933 in attendance at this institution. There are approximately eighty instructors and employees at the college.

ABILENE WINS THURSDAY.

The Abilene-Amarillo football game in Amarillo Thursday drew more than 200 Canyon people as Canyon was very greatly interested in the game. Elmer Shotwell, one of "our boys" is the very efficient coach of the Abilene team.

Elmer stopped over in Canyon Wednesday to let his friends see his football crew, which worked out on the Normal field in the afternoon.

Abilene won the game 33 to 0, and the championship of West and Northwest Texas. The boys will play in the state semi-finals this week with Cleburne.

MILLER-SHEFFY WEDDING.

Miss Pearl Miller and Ray Sheffy were united in marriage at Sweetwater last Thursday morning at 8:30 o'clock.

Both of the young people are well known in Canyon, as they attended the Normal. The bride is a niece of Mrs. C. N. Harrison and the groom a brother of Prof. L. F. Sheffy.

They will make their home in Dimmitt, Mr. Sheffy having been elected county judge of Castro county in the recent election.

Miss Edith Harrison attended the wedding.

INFANT DIES.

A son was born to Mr. and Mrs. Albert Byars Nov. 14 and lived until Dec. 4. The funeral was held Monday and the body interred at the Happy cemetery.

HEALTH CONDITIONS GOOD.

A prominent physician of Canyon stated Monday that he had lived in this city for 22 years and had never seen less sickness than during the past six months.

President J. A. Hill will speak at Wellington tonight. Education Week is being observed in Wellington.

CAMPAIGN FOR NEW CHURCH TO START FRIDAY

BUILDING COMMITTEE NAMED LAST SUNDAY.

Challenge Will be Made Church Extension Board of Match \$30,000 Raised in Canyon.

The campaign starts Friday morning to raise \$30,000 from the Methodist people and friends for a Methodist church in Canyon.

This money will be offered to the Church Extension Board as a challenge for this board to match the amount in order to build a \$60,000 plant for the local church.

At the First Quarterly Conference held Sunday at the church, the building committee was appointed of Rev. M. M. Beavers, C. W. Warwick, S. B. Orton, J. A. Guthrie, G. G. Foster, with advisors as follows: Rev. G. S. Hardy, Presiding Elder; W. J. Fleisher, chairman Board of Trustees; J. M. Vetesk, chairman Board of Stewards; L. F. Sheffy, Sunday School Superintendent; Mrs. C. W. Warwick, president Woman's Missionary Society.

As will be recalled, Dr. Ellis, secretary of Church Extension Board, visited Canyon a few weeks ago and made valuable suggestions as to how the local church could get money from his board from the War Fund which was being used to build Methodist churches in educational centers. He made no promises, but talked about \$60,000 being necessary for a church with the work the local church has to do, and talked considerably for a fifty-fifty plan. Therefore, the Methodist church expects to place before the Board of Church Extension \$30,000 in subscriptions and ask the Board to match this amount. The first payment on the subscription will be made next March, the second in June, the third in September and the last in December, 1933. If the Board of Church Extension does not come across with its part, the local church cannot hope to build a church.

The campaign starts Friday, and it is hoped to wind up the subscription list within a few days in order that the application for the \$30,000 from the Church Extension may be made by December 15th.

Red Cross Executive Committee Named in Election on Saturday

The election for members of the Randall County Red Cross Chapter was held Saturday, with the following being given the highest votes on the ticket:

C. H. Jarrett, Dr. D. M. Stewart, Grady Oldham, W. C. Black, C. W. Warwick, Ray Campbell, O. N. Gamble, Dr. S. L. Ingham, C. D. Lester, C. L. Thompson, C. F. Walker and A. J. Arnold.

CARS ARE STRIPPED.

A number of car owners have experienced losses during the past few months when it was necessary to leave cars along the highways.

Guy Baker went into the ditch on Wednesday night of last week on the highway south of town, and left his car. Before morning about \$60 worth of parts had been stolen.

Two nights previous two Hereford boys went into the ditch west of Canyon, and returned to town for help. During the half hour they were gone two cashings had been taken from the car.

C. D. Johnson was coming from Amarillo last Thursday night when a car ran into him, turning over his car and putting it out of commission. He was unable to drag it into town that night, but removed the cashings and all tools. But before morning everything loose about the engine had been stolen.

The same night C. W. Warwick's fitney went into the ditch near the Newby Reeves place. Before morning more than \$100 worth of the lizzie had disappeared.

Various thefts have been reported for the past year when cars were left along the road, but the fellows doing the stealing now make a clean sweep of the job.

BUILDING HOME

Burt Newlin has started work on a new six-room bungalow on East Houston street, west of the Fleisher home.

City Marshal Appointed to Enforce City's Traffic Ordinance

W. F. Baird was appointed City Marshal at the meeting of the city council Monday night, and will start at once to enforce the traffic ordinance.

Several business men appeared before the council and asked for various kinds of exceptions as the ordinance interfered with their business in varying circumstances. After hearing the various men who appeared, the council believed that there would be so many exceptions to the traffic ordinance if all were granted as to destroy the traffic ordinance entirely, and none were allowed.

All ordinary rules of the traffic are to be enforced, and home people are to be made to observe the traffic ordinance before tourists are picked up.

Cars traveling east or west are given preference over cars coming from the north or south. In case of accidents, cars traveling north or south are to be held responsible.

Cars are forbidden to stop in the middle of the street in front of the postoffice while some one goes in after the mail. This practice is becoming quite a nuisance. The driver must head into the curbing in the usual way. If there is no room on the west side of the street in front of the postoffice, he must drive to the end of the street, and come back on the other side.

RYE LOOKS VERY FINE.

Leo Stocker was in the city Monday and stated that on the Monday previous he had planted rye, which was shown up Monday of this week. He states that his wheat is looking good, and that he will plant 200 acres more.

Mr. Stocker states that he is going to plant a good acreage of speltz this year. He planted 100 pounds this past year, and after letting the chickens run to the bundles for several weeks thrashed out 30 bushels.

Only Few Farmers Have Signed Up On Cotton Acreage

Not many signature have been added to the cotton acreage guarantee during the past week.

Farmers are urged to decide at once what they are going to do about planting cotton next year, and to see C. F. Walker regarding the number of acres they will pledge in order to secure a cotton gin in Canyon.

The following have agreed to plant cotton next year:

BOARD OF CONTROL RECOMMENDS \$662,000.00 APPROPRIATION FOR THE NORMAL DURING COMING TWO YEARS

THREE ADDITIONAL BUILDINGS ARE GRANTED BY BOARD, BUT GREAT CUTS MADE IN THE AMOUNTS ASKED FOR EACH.

The State Board of Control has made public its recommendations to the legislature, which meets early in January.

The West Texas State Normal College has been granted a total of \$345,745 for the first year and \$317,025 for the second year period, these years beginning September 1, 1933.

The Board of Control recommends three buildings for the Normal, the completion of Cousins Hall, at a cost of \$100,000; a training school building at a cost of \$100,000; and a home economics building at a cost of \$10,000; \$11,000 was granted for permanent campus improvements and \$9,000 for power-house equipment.

President J. A. Hill returned yesterday from Austin where he saw members of the Board of Control and talked with Lee Satterwhite, who was chairman of the appropriations committee last session of the legislature, and is now representative of this district. It is generally believed that the legislature will follow closely the recommendations of the board of control, although the same investigations of appropriations as in the past will be made by the members of the legislature.

As the recommendations now stand, the Normal has been granted \$172,170 for salaries during each year. The departments are granted \$24,215 for the first and \$22,205 for the second year. Miscellaneous items are \$17,150 for the first and \$16,100 for the second year. Permanent improvements are \$132,210 for the first and \$106,550 for the second year.

President Hill had asked for \$125,000 for Cousins Hall and \$175,000 for the training school building, which was to house the entire Education Department. He states this is a disappointment, but that the first unit of the Education building may be constructed with this amount of money.

The Board of Control recommended that Mr. Hill asked for an emergency appropriation to do the paving, but Mr. Satterwhite reported it would be unlikely the legislature would have money for such appropriations. The paving may be done out of the \$11,000 appropriation for repairs and improvements.

Mr. Hill states that the Normals of the state received much better treatment at the hands of the Board of Control, comparatively, than the other institutions. Salaries were increased a little, and the schools were given some greatly needed permanent improvements.

Mr. Hill states that the Governor's educational program as given at the State Teachers' Association received hearty approval, and seemed to be a very fair program. It looks like educational matters of Texas were going to be decidedly improved.

THANKSGIVING WEDDING.

Charles E. Mann and Miss Hazel Nickson were united in marriage last Thursday afternoon at 4:30 o'clock at the home of Rev. T. F. Robeson, Mr. Robeson officiating.

Both of the young people are well known in Canyon. Miss Hazel is the daughter of Mr. and Mrs. A. D. Nickson and has lived in Canyon for a number of years. She has been night operator at the telephone office for the past seven years. The groom is a prosperous young farmer near Happy. He was with Uncle Sam's forces throughout our part of the world war, having been assigned to duty on the Mexican border.

The young people left at once for their new home near Happy.

CONTEST TIME EXTENDED.

The Panhandle-Plains Chamber of Commerce has extended the time of the contest offering the pupils of the Panhandle five dollars for the best slogan for the All-Panhandle School Fair. Slogans should reach Miss Laura V. Hamner, Amarillo, by 5 p. m., December 10th.

LYCEUM NUMBER TONIGHT.

The third lyceum number of the Normal comes tonight at the Normal auditorium, and will be given by Chas. Crawford Gorst, "the bird man." Mr. Gorst is an authority on birds and bird music.

BUFFALOES LOST THANKSGIVING GAME, SCORE 26-0

LAST GAME OF SEASON PLAYED AT CLARENDON THANKSGIVING.

Bulldogs Remain Undefeated Team in Hard Season—Fine Treatment Given the Buffaloes.

The Bulldogs handed the Buffaloes a 26-0 score in the Thanksgiving game at Clarendon Thanksgiving but the Buffaloes came home loud in the praise of the game put up by their opponents and the general treatment received in Clarendon.

The relation between the two schools this year has been exceedingly friendly, and the students of both institutions are to be congratulated upon a change of attitude. When the Bulldogs played here, the team was carried off the field on the shoulders of Canyon men after the game. At Clarendon last Thursday, a like courtesy was shown our boys by Clarendon rooters. At the opening of the game, Captain Burson of the Buffaloes was called to the center of the field by Captain Jackson of the Bulldogs. Burson received a football kicked by one of the young ladies of Clarendon College, and then the big Buffalo Captain was handed a huge box of candy by the young woman as a gift from the Clarendon girls. The large number of Canyon visitors in Clarendon were received with every courtesy.

The game was all in favor of the Bulldogs. During the third quarter the Buffaloes carried the ball to the Clarendon five yard line, but were not able to carry it over. The Buffaloes played a defensive game most of the way.

A large number from Canyon accompanied the team to Clarendon.

The annual banquet for the Buffaloes will be held next Tuesday night, at which time the captain for next year will be selected.

BOUGHT EAST END GROCERY.

W. A. Warren and Louis Hicks have bought the East End Grocery from Warren and Blackstock, who are going back to the oil fields where they worked before coming to Canyon.

Mr. Hicks took charge of the business Tuesday morning and will be the manager. Mr. Warren will continue as manager of the Peoples Store on the west side of the square.

COUNTRY WOMEN'S CLUB

The Country Women's Club entertained a large circle of friends at a birthday party held at the home of Mrs. Tarpenning in honor of Mrs. J. H. Kraemer, Mrs. J. W. Hancock, Mrs. H. Campbell and Mrs. O. S. Brown. Forty-two was played and refreshments were served by members of the club. Special music was furnished and the evening was greatly enjoyed by all.

ATTEND T. I. A. A. MEETING.

Coach S. D. Burton left Tuesday and D. A. Shirley yesterday for Dallas to attend the meeting of the Texas Intercollegiate Athletic Association.

The coaches are meeting this morning for the purpose of arranging the football games for next fall, and to work out the basketball and baseball schedules for the coming seasons. The faculty representatives meet tonight.

WHEAT COMING UP.

Wheat fields over the county are getting very green as the result of the rains last week.

Many farmers are considering planting more wheat since the rains have come. The weather has been great for the wheat during the past week, but a little more rain would certainly be acceptable.

BOUGHT 17 LOTS.

Mrs. Kathryn Hutson was here Friday from Amarillo and sold to Newt Reeves seventeen city lots, all of which are east of the square, and choice building locations.

In the year 1918 all loyal Americans
were putting forth every effort to
crush the rule of a mighty emperor,
and thousands of our noble young men
were sacrificing their lives in bloody
war that the world might be made
free of such a dictator. Now, in the
good year 1922, just four years since
that mighty struggle was ended and
the greedy emperor made to bow his
head and go into solitude, shorn of all
power, we learn that right here in
America, "the land of the free and the
home of the brave," some of our citi-
zens are naming an emperor to rule
over them—and yet they call them-
selves 100 per cent Americans.—Child-

**Y. M. and Y. W. Have
Dinner at Cousins Hall**

One of the most enjoyable events of
Miss Wrong's visit to the West Texas
State Normal College was a dinner at
Cousins Hall. This dinner took place
at high noon on Thursday. The party
was composed of the Cabinets of the
Y. M. C. A. and the Y. W. C. A., Miss
Edds, Mr. Frönbarger, and the guests
of honor, Miss Wrong and President
Hill. The party assembled in the Re-
ception hall where a brief social hour
was spent before dinner.

The dinner was served in the dining
room at specially reserved tables. The
tables were decorated with gold chrys-
anthemums and fern, which harmon-
ized beautifully with the color scheme
in the dining room of Cousins Hall.
Place cards bore the emblem of the
Y. M. C. A. and the Y. W. C. A., the
triangle on a white background, bear-
ing the letters of that organization.

After a most delightful dinner the
guests reassembled in the Reception
Hall, where they enjoyed music and a
talk by Miss Wrong. This talk dealt
with the conditions surrounding the
Peking Conference of last year. It
will be remembered that there was an
American delegation of about fourteen
sent to that conference. Miss Wrong
told of how the Slavs, Russians and
other of those foreigners felt toward
each other and toward America. She
had with her some cartoons, which
showed the idea those people held to-
ward our intentions toward Peace and
their attitude toward the League of
Nations. After this interesting talk,
Miss Wrong was given a trip over
all of Cousins Hall. This seemed to
be of special value to her, for she is
constantly brought into contact with
every phase and problem of school and
student life.

**New Plans Com-
pleted for Mary E.
Hudspeth Hall**

The committee on house plans for
the Mary E. Hudspeth Co-operative
Home has just completed another sug-
gestive plan which will be presented
to the Executive Board of the Ex-Stu-
dent Association for approval. The
committee considers the plan even
more beautiful and appropriate than
the first one presented.

The house is of Spanish Mission
style in a pleasing one-story structure
of brick, with its attractive "patio"
and foundation, and other interesting
features which make it distinctly
Spanish both in atmosphere and style.

It has been aptly suggested that this
type of building be vastly more home-
like than one built in a dormitory
style. It will seem more like a home;
consequently it will inspire the girls
to take more pride in keeping it. To
say nothing of the ideal floor arrange-
ment, there will be the restful indoor
court, with its soft blue canopy of
Panhandle skies, which flowers, swing,
seats, and tea tables will convert into
a veritable haven for tired school girls.
Could anything be more conducive to
health and comfort than such an ar-
rangement?

In casting about for something that
would typify the Old West and at the
same time would be a credit to our
beloved Spanish teacher, Miss Hud-
speth, in whose honor the Home has
been named, the Plan Committee could
find nothing quite so suitable for both
these purposes, as the Spanish style of
architecture. And surely nothing can
give a more pleasing air of comfort
and hospitality than the Spanish type
of house.

WHO WAS THE LOSER?

A banker while going home to dinner saw a ten dollar bill on a curbstone. He picked it up, noticed the number and went home to dinner. While home his wife remarked that the butcher had sent a bill amounting to \$10. The only money he had was the bill he found which he gave to her and she paid the butcher. The butcher paid it to a farmer for a calf, the farmer to a merchant who paid it to a washer woman and she owing the banker a note for \$10, went to the bank and paid the note. The banker recognized the bill as the one he had found, and which by that time had paid \$50 worth of debts. On careful examination he found it to be a counterfeit. Now, what was lost in the transaction, and by whom?—Ex.

Girl Turns Doctor And Brings Dead Gold Fish to Life

Again the impossible has been proved possible. Four dead gold fish have been brought to life by a young co-ed resident of Huntleigh Hall, and are living today in the best health ever. The life saver is none other than Miss Inez Meador, a Sophomore in the West Texas State Normal College.

Miss Ethel Gray, director of physical education for women, had been teaching one of her classes in swimming how to revive life in persons who had had been strangled in water or nearly drowned. Last week Miss Meador, a member of the swimming class, made a purchase at a local drug store, and the four fish were given her as a premium. She brought the fish to her room at Huntleigh Hall, and placed the fish bowl in the window.

A few hours later she noticed that her fish had ceased to live, and decided that it was probably due to the cold weather or the lack of fresh water. For four hours she bemoaned the death of her newly acquired fish when in a flash, the idea of applying artificial respiration came to her mind. If artificial respiration would bring people to life why shouldn't it bring fish to life? Miss Meador and her roommate rolled up their sleeves and went to work pumping the gold fish at the "waistes" and "ribs." In fifteen minutes the fish began to show signs of life. In thirty minutes they were happily swimming about in a fresh bowl of water, perfect examples of health and beauty.—The Prairie.

"I hope you are not afraid of microbes," apologized the paying-teller as he cashed the school teacher's check with soiled currency.

"Don't worry, said the young lady. "A microbe couldn't live on my salary."—The Seaman's Journal.

SHOPS ON 9-HOUR DAY

The shops went on a 9-hour day Monday. Since the strike the men have been given 10-hour days. The force now numbers about 600 men, there being more than 200 working in the car department, it is said. It is also said that more employes are going to work in cars than ever before. A large number of farmers have accepted jobs in the shops.—Childress Index.

Prisoner—Your honor, it is true that I was speeding, but I can explain it if you will give me a little time.

His Honor—10 days.

Traveller—It's a nuisance—these trains are always late.

Kiss clinics for marriageable girls, to solve America's divorce problem, are advocated by a noted Parisian stage beauty, who is visiting in Chicago. "A woman's whole heart should be put into every kiss she gives her husband," she declared. "A kissable woman will keep any normal man anchored at home. Too many wives think they can hold their husbands through their stomachs. Scientific love is more practicable than domestic science."

The "Christ of the Andes" is a statue of the Savior, cast in the bronze from the cannon of opposing Argentinians and Chileans, standing nearly 13,000 feet above the level of the sea at Cambre Pass, on the mountain frontier between Argentine Republic and Chile. It was placed there in March 1904, as a symbol of the perpetual peace which was then sworn to by the opposing nations. An inscription on its base reads "Sooner shall these mountains crumble to dust than shall the people of Argentine and Chile break the peace which they have pledged themselves at the feet of Christ the Redeemer."

Shells from heavy guns at Fort Sheridan ripped and tore through the exclusive section of Lake Forest, north shore suburb of Chicago, recently. Four shells struck the residence of Francis V. Farwell and others landed on the Cyrus H. McCormick estate. Terror-stricken servants ran screaming from the Farwell house when the bombardment began. The commander of Fort Sheridan rushed to the suburb to make an apology on behalf of the United States Army. Investigation proved that some new recruits trained their one-pounders in the wrong direction and instead of shooting out over Lake Michigan the "rookies" bombarded the suburb.

An oil well shooter narrowly escaped death near St. Mary's, West Virginia, recently, when a charge of nitroglycerine exploded in a well while he was preparing to lower another shot. When the first shot went off the shooter covered the can of shot number two with his body lying on the ground. He was covered with a shower of small rocks but the nitro under his body did not explode. The derrick was wrecked and a mast head from the rig fell close to a wagon which contained 60 quarts of nitro. It is believed a stone caused the shell to go off as the well had not been cased.

The windows and panels of the old building, all splendid examples of colonial workmanship, will be preserved by the curator of Independence Hall.

The center of alien white population in the United States moved westward for the first time in 30 years. The new center is in Allen County, Indiana, about 10 3/4 miles east of New Haven and 16 miles east of Fort Wayne. It is due to the increase in foreign-born white population in California, Texas and Arizona, according to the Census Bureau.

HISTORICAL MATERIAL BEING SAVED FOR FUTURE

SOCIETY IS DOING A GREAT SERVICE TO COUNTRY

The Panhandle Historical Society was organized in February, 1921, with about twenty-five charter members. Since the beginning of the organization it has considerably increased its membership and the interest manifested in the work which the organization is undertaking has been very gratifying indeed. Already a number of newspaper clippings, books written by early pioneers, and relics of various kinds have been collected from over the Panhandle. Some of these have come as gifts while others have been loaned to the society for safe keeping. A number of very interesting geological specimens have been sent from a number of places. This collection itself at its present rate of growth will soon furnish a valuable and interesting study for those who are interested in this kind of work. Another phase of the work is the mounting of birds and animals native to this section of the country and already the society has mounted specimen of such animals as the lobo wolf, the coyote, and the badger. Also a collection of mounted specimens of birds has been started. The taxidermist work is done by Mr. L. A. Simms, who lives near Canyon, at a reasonable price and his work is first class.

Still another phase of the work which will be begun in the near future is the collection of photos of Panhandle pioneers. Just as soon as a place can be provided a picture gallery will be provided by the institution and these photos of a uniform size will occupy a prominent place in the halls of the school. The society has already secured photos of Col. and Mrs. Goodnight, two of the most typical and most prominent of the early pioneers in this section. A number of others are in the possession of the society and many more will be collected in the near future.

These various phases of the work of the organization will be pushed as rapidly as funds can be secured. Those in charge of the organization feel that in a few years they will have a collection of material that will be of intrinsic value, not only to the school, but also to all people who live in this section of the country. The work which this organization is undertaking is fast finding its way into the hearts of the people and the response to their efforts is rapidly increasing.

The following are the officers of the society: President, Hon. Tom Turner of Amarillo; Vice President, Mr. T. M. Clark of Canyon; Vice President, Mrs. Olive Dixon of Miami; Custodian, Miss Malone of Canyon; Recording Secretary, Miss Margaret Bouliware of Canyon; Corresponding Secretary, Miss Hattie M. Anderson of Canyon.

The November issue of the Panhandle-Plains Publisher has the following to say about the Panhandle Historical Society:

"The Panhandle-Plains Historical Society is an organization that should have the support of all the people interested in the preservation of material that marks the stages of development of this great region from one inhabited by savage Indians and buffaloes, less than fifty years ago, to that of the well developed agricultural region of today. All authorities on American history say our most distinctive characteristics are those contributed by the frontiersman. Here in the Panhandle is an opportunity to secure first hand material concerning the life and ideals of those 'most American of Americans,' as Lord Bryce expressed it. It is the purpose of this Historical Society to collect all available material, to secure interviews with the remaining pioneers, and to persuade those who will write accounts of their early experiences here.

"Some work along this line has already been done. The Society has a number of valuable documents in its possession, but only a small beginning has been made of what it hopes to accomplish. These documents helped to furnish material for a Master's thesis written last year in the University of Texas. This year a call has come for similar aid. The society hopes to be able to furnish more and more help along this line as its collection of documents increases. Much assistance can be rendered by individuals through just informing the Society where material can be secured. The organization would like to secure books, letters, files of old newspapers, bookkeeping records, diaries, memoirs, and cowboy songs.

"This Historical Society does not confine itself alone to the collection of documents. It is interested in the geology of the country and has secured some archaeological specimens. It hopes to get a specimen of all plant life of this country. Another branch of the work of this organization is the

founding of a museum representing the animal life of this region. Animals will be mounted in groups to represent age and characteristics. Some work has been done along this line and animals are being mounted as rapidly as they are secured. The Society wants to have a unique collection of fire arms. Among others already secured, it has the guns used by Billie Dixon, the scout. This collection is incomplete but it will be enlarged and it is hoped it will some day be one of the most interesting and best collections.

"All material, save mounted animals, is kept in locked cases. Since the collection is kept in a fireproof building, it is under the best possible protection. It is open at all times to anyone desiring to see the collection or anyone having a legitimate use for the documents.

"Surely, the above is a sufficient vindication for the existence of such an organization. Furthermore, it should appeal to all public-spirited people. Money is needed to carry on the work. So far all funds have been secured from a small membership fee. Membership is open to anyone willing to pay the annual fee, \$2.50. While this is the easiest way to help along the work of this organization, there are still other opportunities for rendering service. Normal Joins Recently Organized W. I. A. A. of Texas

The first annual meeting of the Woman's Intercollegiate Athletic Association of Texas was held November 4, 1922, at Texas Women's College. The following schools were represented: Denton Normal, San Marcos Normal, S. M. U., and T. C. U. While West Texas Normal, East Texas Normal, and Simmons College were not represented, they wired their intention of coming into the association.

The arranging of a basketball schedule for this year was found impractical because of a lack of sufficient preparation and financial provision. Each college will arrange for whatever games they see fit and will not limit these games to members of the W. I. A. A. However, next year the association is looking forward to a complete schedule for a Round Robin tournament among its members.

The Athletic Committee of W. T. S. N. C. has decided that it would not be best this year to try to arrange a schedule for games with other members of the association but that if games with nearby colleges can be arranged, such will be permitted.

Two very good teams have been organized, one of College girls and the other of girls in first or second year Normal work. The two teams are planning to try their strength against each other in the near future.

SCURRY COUNTY CLUB ENTERTAINED

On Wednesday evening, November 15, Mrs. Pot Johnson of Snyder, who is now in Canyon, was hostess to all students from Scurry county. There are ten girls and ten boys in our club, and Mrs. Johnson opened her kitchen to the jolly crowd of Scurryites for the purpose of making candy. While some were preparing the batches, others were enjoying games of Forty-two and Flinch. Even though we met on a school night, no one allowed a thought of studies to hinder the joy of the evening for one moment. Such a homelike evening spent with people from home is a real treat to students. And to show our appreciation like college students, on leaving the home we gave fifteen peppy rabs for Mrs. Johnson and fifteen for Scurry county.

A man in Gratz, Austria, who had hanged himself from a tree, was cut down by a farmer. During the operation one of his legs was broken, caused by his landing in a ditch. He sued the farmer for hospital expenses. The lower court granted his demand. The superior court, however, considered that the farmer had done a good turn to the man who wanted to die, and his duty as a Christian citizen. The higher court held he could not be held responsible for the consequences of his act and denied the would-be suicide his claim.

Five thousand dollars was paid for a single branch of red apples in Ferris, New Jersey, by a nursery firm. A record and agreement of purchase have been filed with the county clerk. The owner received \$1,000 outright for the purchase of the apple branch, and will receive \$4,000 additional in installments at the rate of two cents each for every tree budded from this branch which is to remain on the tree in the orchard, according to reports.

"Backward, Turn Backward, Oh! Time in your flight, Make me a child again just For Saturday night!"

And it did! Miss Hudspeth turned her beautiful home into a playhouse wherein flowered pink lemonade, all-day suckers, and animals (cookies) roamed about at will.

By 7:45 o'clock, all the children had arrived and entertainment began, such as "Fruit Basket Turn Over," a contest in songs, stunts, and races.

It was proved now and forever that a woman can dress as fast as a man, as prizes were given to each side.

The stunt given by those having birthdays in January, February, March and April was awarded a prize in the form of a horn, which each participant was permitted to blow. The stunt was a mock wedding—when Joe took unto himself a wife.

Mae Hood and Odus Mitchell were given prizes for being the cutest girl and the cutest boy present.

The children grew sleepy as 10 o'clock approached; so, after giving several yells for SOPHOMORES, we bade our kind hostess "goodnight."

An office manager of a large corporation uses a method all his own for discovering to what mental type applicants for positions as clerk and stenographer belong. He strews the anteroom with the latest copies of magazines ranging from Zippy Tales and Cinema Scandals to the more staid and worth-while publications. Ofttimes while waiting, the applicant picks up the periodical interesting him or her most.

GH SCHOOL FOOTBALL SEASON

Canyon High School Eagles were disappointed by the cancellation of their scheduled game with the London High School Saturday. The reason for this dissatisfaction that the boys were depending upon the proceeds of the game to increase their treasury enough to buy football sweaters. Gloomy faces prevalent until Coach Webb announced that the team would contest Yearlings instead of Clarendon. Coach intimated that if the game was won by a decisive score sweaters would be forthcoming. Smiles began coming forth immediately and at the game with the Yearlings when score card read 39 to 7 in Canyon's favor, the first words that were asked "Do we get our sweaters?"

When you see one of Canyon's boys fling their splendid bodies in path of a rushing opponent does your spine tingle with delight and exhilaration, and marvel at the thrill all. When you see him again with the full force of his body into a rate attempt to gain ground for school does not your subconscious tell you "there is a boy who will be a great man." And, does not the action that is in every human soul pure unadulterated bravery and surge to the top and cause you all out meaningless words of engagement. It is the same love for school and its spirit that causes football player to do his very best that causes the student on the side to unconsciously lean against his neighbor because his mental mind is trying the ball. It is the spirit that will force the student on the side to yell long after his throat is sore, in an attempt to inspire his students out on the field and help them carry the ball on the goal.

John Vetesk is the gamest fellow ever. John is fast and uses his speed in the line. He is comparatively light for the position he fills but a season of games behind us shows that John fills the hole at guard better than any man we have ever seen. It is not only air tight-but John mixes in numbers of plays on the offense and nearly all of them on the defense. The number of plays that John has stopped by getting through for a swift tackle are as numerous as the best of them. This is John's last year, and his first, but we venture to say that he is another man who will be heard from in college.

John Burjan who fills the other guard shares the distinction with Alton Key of being "about the whole show" over at Hereford and he was never been a minor actor in any game. His guard was one reason why center rushes never worked. Burjan will be in college next year.

Floyd Callihan fills one of the biggest holes in the line, tackle. His team mates express great pleasure in having "such a good man to work by." Silent as to speech but a terror when it comes to opening up a hole for tackle plays and filling it on defense. "Callie" holds a high place in the esteem of his team mates and plays football true to its dearly loved code. Callie has another year to fill his place for Old Canyon High.

Horace Wooten, who fills the other tackle has never found a man he could not handle. Wooten has a world of strength at his command and plays the game with a vigor that is unexcelled. He loves a fair fight and plays the

game accordingly. Wooten has two more years on the Canyon High team. Cecil Foust has played football four years for Canyon High at right end. During that time he has scored fully a fourth of Canyon High's points by his forward pass snatching ability. Besides being a star in the offense in every game, "Doc" sees that most of the end runs aimed in his direction never get past the line of scrimmage. He stands high in the estimation of his fellow students and players and we are sure that Doc will meet with success wherever he may be.

Edmund Oatis has captured himself quite a reputation as to ability in snatching forward passes and several of Canyon High's scores this year have been through this ability. Edmund rivals Foust in his ability to play defensive ball and we are glad to say that Edmund bids fair to make a still better player. He is like the rest of the crowd, a true lover of football and plays the game according to the code.

Donald Campbell started out this year as a regular and filled his place until the coach found out that John Vetesk could play such a game. This is no disgrace for "Heavy" though, for any man on the squad would have had a hard time keeping his place after "Red" came out. Coach felt no hesitancy in shoving Heavy into the line at any time and Heavy always vindicated his trust.

Robert Stratton has been a valuable substitute for the team this year. He has filled Williams' place at center on occasions when that speedy individual was out because of injuries. Stratton has made an invaluable utility and is an all round player.

There is one person whom we have saved to the last because he was the cause of it all. Without him we would not have had any record. Three new men were made into veteran players in a few weeks, and the entire squad felt the transforming power of his personality and his expert coaching. Last Saturday's victory over the Yearlings shows the value of his coaching. And if you ask a member of the squad you will learn of a respect and admiration greater than any of this, and we assure you that it will last forever. We would not trade him for any coach in the state and that is the most we can say. Coach Webb is deserving of any praise we might bestow on him.

that would vividly and fittingly praise these sterling boys whom the football code has taught the code of Life.

Walter Black, admired as a captain and a sport, respected for his great line plunging ability, has played his last year for Canyon High. He will be sadly missed.

Wallace Williams, speedy, reliable, with all the nerve in the world has made Canyon High the best center in her history. In the words of his team mates, "they don't make them any better." This is Williams' last year in High School.

Alton Key, who never fails to do anything he is asked to do. He is not heavy but fast, hits the line and does not stop until he has made his distance. He is an expert placement kicker and has done most of this work for Canyon High this year. Key filled his brother Leslie's place at half and has done a good job. He has another year to play with our gang.

Ewell Brown, "Tince" to his friends, is the best all round man on the team. Tince is fast, hits with all there is in him and hits the right place without fail. He is one of the best high school passers in the state. As a half back he has been a consistent ground gainer and is invaluable asset to his team. This is Tince's last year on the team but it is certain that college football will hear of him next year.

Tracey Service has had the "awfullest" job on the team. In the first place he was required to fill the ably occupied place of the veteran quarter, Claude Moore who was knocked out the first game of the season. Tracey is little, but loud, one of the best broken field runners we have ever had in Canyon High. Tracey will make an even better pilot next year under the able tutelage of Coach Webb.

John Vetesk is the gamest fellow ever. John is fast and uses his speed in the line. He is comparatively light for the position he fills but a season of games behind us shows that John fills the hole at guard better than any man we have ever seen. Workers' Conference Had Great Meeting Here Last Week

The Workers' Conference was called to order Tuesday morning at the Baptist church. The subject was "From Egypt to Canaan." The song service was conducted by J. L. Lovvern.

"The Geography of Wilderness Wanderings," was discussed by Mrs. Baggarly. The subject was well prepared and given in an interesting way. God led Israel with a cloud by day and a pillar of fire by night.

B. F. Fronbarger discussed "The Ten Commandments." The three first commandments express man's duty to God. The others express man's duty to man. Most of the commandments are negative and say, "Thou shalt not." One commandment, the first, is positive and says, "Thou shalt."

J. M. Hall spoke on "The Covenant With its Blessings and Cursings." God was able to make a people he needed out of what he had. God promised to make Israel conquerors. They soon broke vows. The promises to them in a material way set forth promises to us in a spiritual way. We are spiritual Israel. Moses was a type of Christ. Christ leads us out of the bondage of sin. He promises to make us more than conquerors. They were not wholly surrendered to God—neither are we. One way to reach the standard—keep Christ before us.

"The Passover," was discussed by J. A. Lindley. A lamb without a blemish was selected. The blood was sprinkled on the lintel. Not a home was to be broken. The lamb typified the Savior. The lamb was to be roasted with fire. That night Jehovah passed over the houses where he saw the blood. Next day Israel was thrust out. After this the passover was to be observed annually. Moses told them to instruct their children about their deliverance. The passover was eaten with unleavened bread which represented purity of God. Who was to partake? All natural born of Israel and all brought were to partake after circumcision. We have a memorial that we observe. The unsaved have no part. After salvation and baptism all are eligible.

H. F. Anlick discussed "The Levites." The Levites were set apart for the priesthood. Levi was the third son of Leah. God said that the first born of every home belonged to him. God gave his first born. Why was Levi chosen? Reuben the first born was unstable. Simeon and Levi were cursed because of cruelty. Levi came over on Moses' side. God's anger was then appeased but the judgment rested. God took the whole tribe of Levi instead of the first born. The Levites got no inheritance (1) because of their cruelty. (2) They were consecrated to God. Their responsibility was not to be divided with earthly possessions. The same is true of preachers. They are called away from industries and set apart for one aim—holding Jesus before the world. They received tithes from others.

B. T. Johnson gave us "Twenty Sermon Themes." Each theme was fine. The first subject was "The Relation of the Lord's Supper to the Passover." Another subject was, "It is a Serious Thing to Live."

J. T. Clinton spoke on "Kadesh-Barnea." This place is on the threshold of Canaan. Unbelief kept them from crossing over. The spiritual application is found in Hebrew, third and fourth chapters. Out of the sixty thousand only two entered Canaan. They wandered because of their unbelief. This is a warning and example to us in our travel to Canaan.

"The Day of Atonement" was discussed by E. E. Dawson. These old

testament books are picture books. We won't understand them unless we find the title in the New Testament. The picture of the serpent in the wilderness finds its title in John 3, 14, 15. The offering of Isaac finds its title in John 3: 16. The Passover is a picture. Christ is our passover. Jesus is our atonement. The high priest made atonement for himself and people. Two goats were taken. Lots were cast; one lot for Jehovah and the other was the scapegoat. They ceremoniously placed the sins of the people on the goats. Jehovah's was killed and burned—consumed. The other was sent into the wilderness never to come back. Jesus' work was two-fold. (1) He bore our sins—paid the penalty represented by the killed goat. (2) He took our sins away. He was our scapegoat. When he takes them away, they can't find their way back. Jesus' atonement was a complete transaction.

W. R. Hill spoke on "The Two Breaches of the Covenant." The covenant of redemption was between God and Christ. God gave Israel two covenants. He promised to give them the land. This was unconditional. He gave them the ten commandments, promising to bless if they obeyed and curse if they disobeyed them. They promised to obey but violated their vow in less than forty days. There were two transgressions. One at Sinai and one at Kadesh-Barnea. At Sinai they made the golden calf. They violated the three first commandments. Some peoples God say anything will do. Israel's God is not that kind. Some in the church today are dancing about their golden calf.—Mrs. John Davis.

Bill James was duck hunting Friday morning. He reported several large ducks killed.

Chas. Sutton was an Amarillo caller last week.

Mrs. Earl Wesley was on the sick list last week.

Bob Wesley and family took dinner at the Bill James home Sunday.

H. E. Wesley has just completed a large hog shed on his hog ranch in the north part of Fairview. He invites everyone to look over his fine hogs and sheep.

Mrs. Frank Walters was taken to Dallas Tuesday for an operation.

Several Waysiders attended B. Y. P. U. at Fairview Sunday night.

Remember preaching Saturday night, Sunday and Sunday night at Fairview. Also at Plain Center Sunday afternoon. Everybody cordially invited.

DEEDS FILED LAST WEEK IN COUNTY

The following deeds as furnished the News by the Randall County Abstract Company, have been recorded in the County Clerk's office:

I. C. Williams to C. S. Seibel, 842 acres of section 6, block 9. Consideration \$5,500.30.

J. A. Grundy to P. H. Scott, lots 1, 2, 3, 4, 5, 7, 8, 9, 10, 11, 12, block 20. Normal addition to Canyon. Consideration \$75.00.

Joseph A. Zoliten to J. D. Thompson, section 44, block 1. Consideration \$19,671.00.

J. M. Harder to B. S. Livingston, lot 1, block 49, Canyon City. Consideration \$1250.

WHO SAID LUCK DOESN'T EXIST

A Kansas City junk man finds \$2000 in silver and bills in a ragged mattress. A New York citizen, penniless and broke, discovers \$90 in a wooden leg. An Illinois workman finds what he believes to be a real gold brick worth more than \$18,000 in the wall of an old barn. And David Jones, a Kentucky hill farmer, poor all his life unearths a pot containing \$48,000 worth of ancient English gold pieces while digging a pit for a saw mill and now is classed a very rich man in the hill country. It may be there is no such thing as luck, but most of us know there is whether we have found a pot of gold or not.

member the plays to be given at school auditorium during the month of December. Saturday, Dec. 2, "The Time of His Life," is to be given by the ninth grade under the direction of Mrs. H. A. Grounds. Saturday, Dec. 23, "A Black Heifer," by school students, under the supervision of Mrs. O. R. Bridges. Saturday, Dec. 30, "The Adventures of a Panda," by the Senior class, managed by Prof. O. R. Bridges. Remember the dates, 7:45 in the evening. Misses Volle Dison and Annie Shull and Edmit Grounds were Amarillo Saturday.

H. Rahlf and family and Miss Francy were in Canyon Saturday afternoon.

Miss Ruth and Everett Dison enjoyed quite a number of their friends at the C. S. Dison home Friday night. A large crowd was present and all report a very good time.

Miss Annie Crawford, who is teaching at Dimmitt spent the week end with relatives.

Miss J. M. Miller returned Saturday Sweetwater where she was called to the bedside of her sister, who recently died.

Mr. and Mrs. O. O. Baker spent the week end with friends at Wayside.

Mrs. Wm. F. Miller and children Mrs. Currie Miller and daughter calling in Tulla Saturday.

Mr. and Mrs. Tom Bandy and Mr. Mrs. W. C. Lindsey were in Tulla Saturday afternoon.

Mr. Barkhurst of Hale Center spent day with Miss Dail Evans.

Miss Jimmie Knox of Canadian spent Thanksgiving with home folks, J. B. and family.

There is No "Water" in Santa Fe Stock

President Storey issues another Statement, of Interest to Santa Fe Patrons

The charge is still made that the railroads are asking returns on "watered stock."

Congress undertook to ascertain the facts through the Valuation Act, which was introduced by Senator LaFollette. The Interstate Commerce Commission has been conducting this valuation for nine years, and the following elements are considered: Cost of reproduction in the years 1913 to 1916, cost of reproduction less depreciation, original cost, other values and elements of value. Stocks and bonds or earning capacity have not been considered.

From all the data available the Interstate Commerce Commission has found—

Valuation of all the railways in 1920	\$18,900,000,000
Net capitalization of all the railways	
December 31, 1919	16,939,515,522
Value above capitalization	\$ 1,960,484,478

Otherwise stated, the value of the railroads is TWO BILLION DOLLARS in excess of the net face of all stocks and bonds. If present day unit prices had been used, the excess would be far greater.

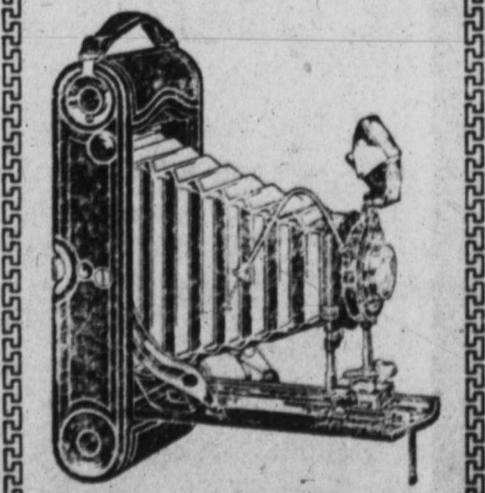

This should dispose of the question of "watered stocks."

But recently reference has been made to the "valuation that the railroads have succeeded in putting over on the Interstate Commerce Commission." The valuation work on the Santa Fe is nearly completed and we know that we have not "put anything over" on the Interstate Commerce Commission. On the contrary, we believe that the Interstate Commerce Commission has been over-strict in its rules and methods of valuation, and that as a consequence it has greatly undervalued our railroad.

When the work is completed, no "water" will be found in Santa Fe stock.

W. B. STOREY, President,
The Atchison, Topoka and Santa Fe Railway System.
