

RANDALL COUNTY NEWS

VOLUME XXVI

CANYON, RANDALL COUNTY, TEXAS, THURSDAY, MARCH 22, 1923.

NUMBER 51

SANTA FE TRAIN TO FEATURE SOW, HEN COW HERE MAR. 29

A. & M. COLLEGE SENDS WELL KNOWN LECTURERS.

Train Will Arrive in Canyon at 2:35 and Will Remain Here for an Hour and One-Half.

The Cow, Sow and Hen Demonstration Train, under the auspices of the Texas A. & M. College and the Santa Fe Railway, will be in Canyon next Thursday afternoon, March 29, at 2:30 o'clock, and will remain here for one hour and thirty minutes.

The staff of the Texas A. & M. College brings a timely and constructive message to the people in this part of the state and a cordial invitation is extended to all to come and hear this message. The talks deal with practical dairying, hog growing, and poultry.

"Dairying is the steadiest job in the world," state C. M. Evans, livestock and dairy specialist with this train. "And therefore on the average is the best type of farming for those who manage it properly." Mr. Evans has plenty of helpful suggestions on the farm dairy.

"The pig is the only farm crop that can be produced twice each year," says A. L. Ward, College swine husbandman with the train. "And he is the only crop that can be produced and marketed all in six to eight months." Mr. Ward has a practical message on profitable pork production on the farm.

"Good birds, given proper houses, a balanced ration, plenty of fresh water, grit, and clean sanitary quarters, will prove profitable producers," says E. O. Edson, College poultry husbandman. Mr. Edson knows the poultry game thoroughly and brings to the plains people a pointed story on successful chicken raising on the farm.

The program is so varied that it has something of interest to all: the grown-ups, men and women, the boys and girls, the farmer and the city dweller. It deals with subjects that will make the plains develop and prosper.

The exhibits alone are worth a visit to the train. They include splendid types of milk cattle, hogs and chickens; the kind that make a profit on the feed.

"The plains country has made wonderful progress since I first knew it," says T. B. Gallaher, General Freight and Passenger Agent of the Panhandle lines of the Santa Fe Railway. "But to make the development of the wonderful resources of these rich plains, it is necessary that the milk cow, the hog and the chicken, get a more important place on the general farm program of the plains. We are bringing the Texas A. & M. College here to encourage the right sort of farming program."

All farmers of Randall county are urged to be at the depot when the train arrives next Thursday afternoon.

Company F Will Have Strong Baseball Team in Nat. Guard League

Company F, Texas National Guard, will have a strong baseball team to enter the National Guard League which is proposed with membership of the companies from Canyon, Hereford, Amarillo, Claude and Clarendon.

Captain H. C. Gamble states that his Company team looks mighty good, having the best material for a baseball team that Canyon has possibly ever produced.

It is likely that not many games will be played before the close of school, and the best men of the high school will be in the Guard team.

The towns in the league are counting on some good games during the summer months.

HAS GOOD WHEAT.

Clem Friemel was in the News office Saturday and states that he has 100 acres of wheat for which he was offered \$1500 before the rains. The wheat is on summer fallowed ground and has been in fine shape all winter.

Since the rains Mr. Friemel feels confident of a good wheat yield on this summer fallowed ground.

BUILDING 8 ROOM HOUSE.

J. W. Hagan has started work on an eight room house at the East end of Evelyn street on the property he recently bought from Claude Hamlin.

Masons Will Lay the Corner Stone of New High School Building

The corner stone of the new high school building will be laid with the Masonic lodge ceremonial about the middle of April or first of May. The features of the program have not been thoroughly worked out for the ceremony.

Brick work has started on the building and a force of men will be on the job before the end of the week. If the contractor is able to get sufficient number of masons on the job, the wall will be completed within six weeks. Face brick are coming through fast and all other materials are coming faster than the contractors are able to put them into the building.

"Mikado" Will be Given by Normal Chorus and Orchestra Apr. 6-7

The annual production of the Normal Chorus and Orchestra is the opera "Mikado." This opera is one of the oldest and most popular, comic operas ever produced. It was first presented in 1884, and every few years is revived by some big opera company with decided success.

The Mikado will be given on two nights—April 6th and 7th. The two night performance is planned in order that all of the students and town people may get a chance to see the opera and not experience the great scramble for seats as is the case when all try to attend a performance at the auditorium. The students of the Normal will be asked to come the second performance—Saturday night, April 7th in order that the town people may attend the first performance.

Wallace R. Clark, director of the chorus and orchestra, states that a charge of 50 cents and 35 cents will be made for this opera since there is considerable expense in buying the Japanese costumes and special stage equipment. If there is any money remaining above expenses, it will go toward buying uniforms for the College band.

Clarendon College Meets Buffaloes in Opening Game

After a week's layoff on account of cold weather and final examinations, the West Texas State Normal College Buffaloes resumed their work and settled down to earnest training. Coach Burton is putting his men through stiff practice, whipping them in shape for the opening games of the season which will be played April 5 and 6, when their old rivals, the Clarendon College Bulldogs come here for two games.

Burton has seven letter men to start with and with a host of material he believes it will be an easy task to build a combination that will be hard to overcome. He is not ready to announce the lineup as he wishes to watch his men in batting practice more. A man that makes the Buffalo team this year must be a real hitter.

Reports from the Bulldog camp show that only one letter man will be in their lineup, but they are bringing a rookie infield that promises to be one of the best ever developed in the history of that school. The Bulldog aggregation will be weak on pitchers, according to reports from the rival training camp. On the other hand Coach Burton will have three veterans to choose from. However, the Buffaloes will be put through some stiff practice before the opening of the series for Burton says, "You never can tell about a rookie team, so we are not going to take any chances on losing these games."

BRASHER BUILDING HOME

W. A. Brasher is starting a new home south of the Britain Studio, which will be 30x42 feet.

Mr. Brasher recently moved to Canyon and is one of the owners of the Service Lumber Company.

AT FT. WORTH MEETING.

President J. A. Hill returned Sunday from a meeting of the Texas Normal Presidents at Ft. Worth Saturday.

STORK SPECIAL.

A daughter was born to Mr. and Mrs. D. D. Westfall Tuesday night.

A moratorium of about a month of talk might help out in Europe.—Omaha Bee.

CITY WILL BUILD CITY HALL SOUTH OF LEGION HALL

TRADES PRESENT SITE FOR NEW GROUND BLOCK EAST

Paving Brick Will be Used to Build Fire Station and City Hall on Lot 30x 60 Feet.

At the meeting of the American Legion Hall Friday night a deal was closed between the city official and the Legion officers for a site for a new city hall to be located just south of the Legion building.

The city has traded the old fire station to the Legion for a lot 30x60 feet and agrees to build a brick fire station and city hall.

The building will be sufficiently large to house the fire department's equipment and to provide an office for the city water collector, tax collector and a meeting place for the city council.

The city has considerable discarded paving brick and the brick that was in the old pumping station on the court house lawn. Face brick will be used on the east and north sides of the building.

Worse Dust Storm in Years Hit Plains Early Last Saturday Evening

The Panhandle has had all kinds of weather during the past week—ranging from perfect summer to a raging blizzard.

When the News went to press last Thursday morning a snow storm was on which looked like a long continued affair. But the sun came out suddenly about four o'clock and the snow stopped. There was not enough snow to do any good.

One weather continued until Saturday with the temperature steadily rising. Saturday was warm. About four o'clock a huge black cloud was seen in the north. In an hour there was promise for something about to happen. At six o'clock it happened. With the wind blowing a gale, the air was filled with dust and sand and cinders, most of which probably came off of Pikes Peak or thereabouts. The wind continued all night, with a little snow toward morning. The thermometer got uncomfortably close to zero Sunday night.

The ground hog was no liar—this time.

Merchants Organize for Campaign on Dry Checks in the City

A number of business men of Canyon met at the Court House Friday evening to discuss the dry checks being given in Canyon. It was the sense of the meeting that a concerted action be taken against dry checks and prosecution be pushed so that persons in the habit of giving dry checks would be forced to stop this practice.

A committee of T. C. Thompson, O. N. Gamble and W. J. Flesher was appointed to direct the matter. Mr. Flesher states that the law is such that prosecution may follow in all cases of dry checks, and conviction may be had in at least fifty percent of the cases tried if the business men of the city will get behind the movement to stop the practice.

Mr. Flesher states that it will be necessary to have a county attorney to prosecute these cases, and urges that the county get a lawyer to come here to act as county attorney. The county needs a county attorney, but has had none during the past several months.

German miners to whom the French gave an eight hour day now demand nine hours' pay. Sam Gompers may be expected to point to this as another great triumph of American ideals.—Manilla Bulletin.

American Legion commander recommends the stopping of immigration. "That's all right if he will just kindly point out how to get the ones already here to put in an honest day's work.—Boston Traveler.

France handled the pick of the German Army; it is much more difficult to handle the pick of the German miner.—Woodstock (Ont.) Sentinel-Review.

Panhandle Towns Will Meet in Amarillo April 4th Discuss Tech. Col.

W. J. Flesher and Frank R. Phillips attended a meeting in Amarillo Tuesday at which time preparations were made for a gathering of representatives in Amarillo on April 4th for the purpose of boosting the claims of the Panhandle as the proper location of the new West Texas Technological College.

Indications are that this meeting is to be one of the largest ever held in the Panhandle, with large delegations from every town.

Canyon is planning to send a large delegation to Amarillo on that date, including the Normal band.

Cotton Seed Expected Here Soon for Sale Among the Farmers

C. F. Walker states that the car of Acala cotton seed which was recently contracted for by the Randall County Commercial League for the farmers of Randall county will soon be in Canyon ready for distribution.

Mr. Walker again calls attention of the farmers to the necessity of buying pure seed, and seed with guaranteed germination. The seed that was bought by the Commercial League is guaranteed both as to purity and to germination.

The business men of Canyon are selling this seed to the farmers at cost in order that the farmers may get the best possible seed for their first attempt at cotton raising. The Acala has proven to be the best seed for this country and the firm from which the seed was bought is entirely responsible.

Cheaper seed may be purchased on the market, but not seed which comes from as responsible parties, and has no guaranty as to purity and germination. \$2.00 per bushel with 97 percent germination is much cheaper seed to the farmer than no guarantee of purity and germination—especially in event of not more than 50 percent germination and a great mixture of various kinds of cotton.

Bill Passed by Legislature Changes Names to "Teachers Colleges"

A bill passed the legislature changing the word "Normal" in the name of educational institutions to "Teachers," thus making the institution located here "The West Texas State Teachers College."

This change is made by the request of the educational interests of the state.

The word "Normal" has been discarded by most of the teacher training colleges of the United States, as it does not convey the true meaning of the institutions.

The bill will likely be signed by Governor Neff this week.

New Bonds for County Officers Approved by Commissioners Court

Under the provision of a bill passed by the last legislature, all county officers were required to file new bonds.

This was done Monday and the Commissioners Court met and approved these bonds.

The court entered into a contract with B. T. Johnson to build concrete walks from the court house walks to the paving.

The court meets again next Monday to receive bids to cover with gravel the space between the two curbs around the court house lawn.

STATE TREES FOR SALE.

The state experiment station at Lubbock is offering trees for sale this year as in the past at lower prices than charged by the nurseries.

American Elm, 3-5 foot, 20c.
Black Locust, 3-5 foot, 10c; 4-6 foot, 20c.

Hackberry, 4-5 foot, 20c; 5-7 foot, 40c; 6-8-9 foot, 50c.

Chinese Arborvitae, balled, 2-3 foot, \$1.50.

C. F. Walker will take orders and get these trees for any Canyon people desiring the same.

Help Keep Canyon Clean!

MAYOR KNIGHT OF HEREFORD TALKS AT LUNCHEON ON COMMISSION FORM OF GOVERNMENT FOR SMALL TOWNS

CIVIC IMPROVEMENT LEAGUE CALLS FOR CLEAN UP DAY IN CANYON ON FRIDAY MORNING APRIL 6—BUSINESS HOUSES TO CLOSE

Forty-eight men and women attended the luncheon of the Randall County Commercial League Tuesday at the Casey Cafe, which was a joint meeting with the Civic Improvement League.

Mrs. J. B. Gamble, chairman of the Civic League, announced that she had called upon all business houses and all but one had been highly in favor of closing for a clean up day. She announced that Friday, April 6th had been set for clean up day, and that work would start early in the morning and end at noon. No business houses would open that morning, but all devote the morning to cleaning up the town.

Mrs. Gamble announced that C. F. Walker would be in charge of dairy inspection in the city.

Various lines of work had been suggested to Mrs. Gamble for the coming year, and she will announce committees along these lines. The committees will be for keeping the alleys clean, making Canyon a weedless town, making the court house more presentable and inspecting the places which handle food. Mrs. Gamble recalled the valuable work that this committee had been able to do a few years ago and that the merchants of Canyon appreciated the cooperative work of inspection.

Mrs. Gamble expressed the appreciation of the members for the work of Mrs. C. R. Burrow, president last year, in getting the Civic Improvement League started.

Mrs. Burrow expressed appreciation of the work those who had assisted last year, especially C. F. Walker in inspecting the dairies. She urged that dairy inspection be extended, not alone to those of the large dairies, but to all who sell milk from one cow. She believed that the people of Canyon wanted this inspection carried on and expected it to be done. Mrs. Burrow urged that committees appointed by the new president do their work and cooperate in the League. Canyon can be made a clean town with the proper kind of cooperation.

Rev. H. F. Aulick introduced Rev. McClung, who is holding a meeting at the Baptist church.

Mr. McClung responded in a very helpful talk regarding community building. He stated that he was from the best town in Texas, except Canyon—Denton. He told of the two great educational institutions there, and congratulated Canyon upon the Normal located here. He stated that very often towns once getting the location of these great schools got the idea of getting all they could from the institution and giving nothing in return. He trusted this was not the spirit of Canyon people.

Mr. McClung stated that during his stay in Canyon he was here for service and wanted to help in any way he could.

Mayor J. D. Gamble took charge of the meeting for the purpose of discussing the Commission Form of Government, which was the primary subject of the day.

Mr. Gamble stated that possibly Canyon had not needed a change in government in the past, but the business of the city had now increased to about \$25,000 and the city council felt it was now time to make the change. Canyon might elect a dozen or more aldermen, and two or three would have to do the work of the city, just as would be the case where only three men were elected under the Commission Form of Government. He gave the present city government credit for the splendid work that had been accomplished and the splendid men who are our aldermen.

Mayor Knight of Hereford entered into a very interesting history of the Commission Form of Government since its inception in Texas in 1900 at the time of the Galveston storm. The best business men of Galveston realized that the very best city government must be had to restore Galveston after the storm which had wrecked the city. Two men were sent out to study city government. They came back with the plan, which took the city administration out of the hands of the saloons, who had run the city before the storm. So successful was the Galveston plan that practically

(Continued on page four)

DISTRICT COURT CLOSES WORK OF TERM SATURDAY

FINES ASSESSED AGAINST DELINQUENT WITNESSES.

New Trial Given in the Burns Case by Judge Bishop—Next Session of Court in August.

Judge Henry S. Bishop brought the spring session of the district court to a close Saturday afternoon after reading the minutes and approving the same.

The next term of court will be held in August under the provision of the new law which cut Donley county from this district.

In the case of State of Texas vs. Henry Barker et al, the Amarillo barber case, Mrs. Daisy Gilbert failed to appear as a witness and was fined \$200.00.

In the case R. B. Glenn vs. George Schneider, judgment was given plaintiff.

A fine of \$100 was entered against T. K. Wilson for contempt of court, Wilson having failed to answer a summons of the grand jury.

In the case of D. R. Burns et al vs. Kilgore et al, a new trial was granted upon motion of the plaintiff. In the trial of this case last week, judgment was rendered for the defendant.

In the case C. P. Hileman vs. B. E. Prewitt et al, judgment was rendered for the plaintiff.

Paving Will Extend North from Northeast Corner Public Square

The property owners on the street leading from the northeast corner of the square have agreed to paving covering this block, and work will be done on this block after Houston street is completed.

The paving will be forty feet wide. The property affected by the paving will be that owned by J. M. Yetsak, the American Legion, C. R. Burrow and G. W. Johnson.

Paving on Houston street has been held up during the wet weather, but is now under progress.

Brick extends practically all of the way from the depot to the square, and there will be plenty here to complete the job by the time East Houston street is completed.

The appropriation for paving in front of the Normal failed in the senate. The \$5,000 appropriation bill passed the House and passed the second reading of the Senate and there died with many other bills. If some of the senators had taken it up the last day of the session it would have passed.

If there is paving along the College property, the appropriation will have to come from the special session of the legislature.

CALVES WILL PLAY HAPPY

The Normal High School Calves will open their baseball season Friday afternoon when they journey to Happy to engage in a game with a team representing the Happy High School. The Calves are going through some stiff practice this week so that they will be in excellent condition for the mix. Nothing definite can be announced as to the lineup that will start the fireworks or even the squad that will make the trip because of the stiff competition. Every place is being hotly contested. Coach Middleton thinks that it will be no little job to choose the lineup that will face the Happy team in the opening game. This will be done through careful selection after the team has worked out more this week. The lads were put through some batting practice Monday and Tuesday afternoons, which will fill a large part of the program through the week. Fifteen men will make the trip to Happy.

THE AMERICAN PRESS ASSOCIATION

W. G. McAdoo stopped off at El Paso last week and started a rough house among the cattle men. McAdoo tried to deny that he was attempting to line up the railroad workers in the interest of his candidacy for president. He jumped on the new tariff law. Jumping on the tariff law in this particular meeting was bad business. The cattlemen of Texas are for a tariff on cattle and cattle products, no matter what the democratic party as a whole thinks of the tariff. Hamilton tried to tell America during his day that the tariff, was a local issue and not a political issue. America did not believe him and has tried to make it a purely political question with the democrats against a protective tariff and the republicans for a protective tariff. Southwest democrats have had their eyes opened. They have seen the fallacy of a high protective tariff on manufactured goods and raw materials on the free list. Claude E. Hudspeth and Marvin Jones voted for the last protective tariff because it sought to protect the cattle raisers and farmers of this section—if such a thing be possible. Hudspeth offers to debate the tariff question with McAdoo at any time or any place. Clarence Onley attempted to discuss the tariff question with the voters of Texas last year on a high intellectual plane, but Texas was more interested in who wore bed sheets and pillow cases than we were in great economic questions.

The legislature just closing was wild over establishing courts. There was no need of more courts in Texas. There was need of courts getting down to work as other people have to work. Texas has piled upon it a load of a hundred thousand dollars or more additional expense at the time when everyone is crying for less expense. The existing institutions of Texas will suffer a great loss of needed equipment when the appropriation bills are passed in order that these courts may be established. It is a great game—the political game at Austin.

A campaign is on in Texas to raise \$100,000 loan fund for the worthy blind of the state in order that they may secure a proper education. There could be no more worthy a cause than to assist the worthy blind. The blind institute at Austin is doing a great work and should be encouraged. The manager of the campaign is asking for 10 cents from every school child and one Sunday's collection from every Sunday School in Texas.

The legislature did the right thing in increasing the salaries of the members of the Commissioners' Court, but the increase amounts to only \$1.00 per day. The Commissioners now draw \$5.00 per day, with a maximum of \$1000 per year. The Court has the responsibility of the county's business and should be paid for the valuable time spent in this work.

The Governor vetoed a number of bills presented him by the legislature, and now the legislature has vetoed a proclamation from the Governor by refusing to hold the special session at this time. It is the first time in the history of this country that a legislature has vetoed the will of an executive in the matter of a special session. Extraordinary things are happening in this world of ours.

The worst storm in years visited this country last week. From the daily press, especially down state, about the only part of the storm mentioned was that part of it confined to the Panhandle. All of the middle west states were hit as hard or harder than the Panhandle, but the Panhandle part of the storm was the only thing that counted with some newspapers.

The political wisecracks claim that Lloyd George is soon to stage a comeback. The little Welchman has the habit of staying on top. He may get a body blow for the moment, but does not stay down long.

AT HOME OR ABROAD

Childress Post: What must be the opinion of a graduating class of the Childress high school, held by the smooth solicitor who comes along and gets their money for a large order of invitations, cards and rings? Will he hold them in memory as an intelligent, patriotic body of Childress citizens, who believe in spending their money with the home people that pay the school taxes and make their education and graduation possible? He may, but we doubt it. For several years past there has grown up a custom in the Childress high school to spend several hundred dollars a year with eastern and northern printers and jewelers for stationery, pins and rings, oftentimes paying more than the home printers would ask and sometimes getting inferior goods and poor service. Something has been neglected about the education of a class that will send off this large sum of money without even consulting the home people about the matter. Students of this kind surely do not know the first principles of townbuilding and community support. They may have book learning but appear to be sadly deficient in the vital elements that make up a loyal, home boosting, Panhandle citizen. We understand there were some members in the class

A heretic is the fellow who does not believe with you religiously, whether you are right or not. In America we used to burn heretics. In Canada they are burning Catholic churches and institutions. Religious hatred is the worst and most cruel hatred there is or ever has been. Under the guise of religious purity men are driven to the most deplorable acts.

Henry Ford announces that he is going to invest his great fortune in men. In what manner, he does not say. He is going to make it easier for men to be better men. He might start by putting a good spring in his car and attach a few anti-rattlers.

A few more courts such as Randall county has had during the past two terms and we won't have any more bootleggers. The necessity of life is getting scarcer and scarcer day by day.

England has announced that she is going to pay us some interest on our war loan. Every congressman and senator is planning on how he is going to get a hunk of this interest to spend among his constituency.

To the new comers of the Panhandle we venture to suggest that occasionally the wind blows in this country. The wind is necessary to make the windmills go 'round.

Ireland needs old St. Pat worse today than she did when the Island was infest with snakes. There are human snakes in Ireland today.

The Lockney Beacon does not believe that the West Texas Tech College will get up enough steam to climb the Cap Rock.

Some more rain had helped break up the drought. By this time the drought is like more Panhandle folks.

The man who says that the ground hog does not know his business is a liar and the truth is not in him.

Weather like we had Saturday night is not inductive toward uplifting the morals of the human race.

Aren't you glad that the wind cannot blow a thousand miles per hour?

Uncle Joe Cannon went back as a plain citizen to enjoy life.

Spring has sprung—a cog.

After Every Meal
WRIGLEYS

Top off each meal with a bit of sweet in the form of WRIGLEYS. It satisfies the sweet tooth and aids digestion. Pleasure and benefit combined.

who stood up valiantly for patronizing home people but were overruled by the majority. There ought to be a remedy for this and there is.

The above statement of the Post is not only true of Childress but many other towns on the Plains. But the high school students are no more guilty of patronizing mail order printers than many of our public officials. A mail order printer can come into Canyon and load Randall county with a lot of printing that could be done in Canyon at the same price, or less. The News is paying taxes for the support of the county government. The mail order printer spends nothing in Randall county but a little time trying to rob the local printer of his just business. Why public officials fall for such stuff, we are unable to ascertain. And sometimes high school students and public officials are not the only guilty persons.

Sometimes—too often, indeed—business men of Canyon who are opposed to the mail order merchandise business will cheerfully hand out their printing orders, office supplies, typewriter ribbons and carbon orders to the mail order peddlers who haven't spent a penny with them in the past ten years and will not spend a penny with them in the coming ten years.

CRITICISM

Hereford Brand: There's an old saying to the effect that "they will cuss you if you do, and they will cuss you if you don't." About once in a blue moon The Brand is handed a compliment. About once per issue, or twice each week, The Brand is handed a swift kick from some disgruntled citizen. It's all in the game. We take the brickbats as philosophically as our natures will permit. We carefully cherish the rare bouquets and feel a glow of satisfaction over them. We all belong to the same tribe, and any human responds to praise and dreads criticism.

Place a glass insulator on top of the highest telephone pole and all the boys will throw rocks at that in preference to those targets lower down. The public generally centers its grievances on the outstanding official heads. A newspaper in any community is therefore particularly liable to criticism because any newspaper worthy the name stands out and deals with ALL the people of the community sooner or later.

Our limited experience has convinced us that the big majority of kicks registered against the average country newspaper grow out of selfish interests and desires. A man will take a dislike the way the county government is run. He lines up with one of the inevitable local factions. If the newspaper editor does not throw in with this faction, then the editor is narrow and without backbone. Forthwith another brickbat is launched. If the critic could be transplanted into the editor's shoes for a short time and faced with the problems that arise weekly in an editor's life, the critic would probably get a different viewpoint. Any country newspaper wields a tremendous influence in its community.

To cure costiveness the medicine must be more than a purgative; it must contain tonic, alterative and cathartic properties.
Tutt's Pills
possess these qualities, and speedily restore to the bowels their natural function.

WE feature Holeproof Hosiery because it carries out our policy of offering the best the market affords at prices that deliver the utmost in value

The Peoples Store

MICKIE SAYS—

YEAH, I KNOW, 'Y BOSS LOOKS HUMBLE, BUT JESY BETWEEN YOU 'N ME HE'S PURTY PROUD OF THIS PAPER AN' 'Y FOLKS 'AT READ IT AN' 'Y TOWN'S 'Y PRINER IN! YESSIR!

nity. Though the editor may not be popular personally, still he can usually make or break a contested local proposition by continually hammering at his large circle of auditors. And, incidentally, he can quickly split his community into bitter factions by the use of poor vision and misguided judgment.

The editor who does not realize this tremendous responsibility and who is continually lining up with cliques and factions usually founded on dislikes and selfish interests, is unworthy of the public trust he holds. He also soon destroys his own and his paper's influence and standing while he is splitting the community in to factions, without accomplishing any thing worth while as an offset. On the other hand there are fundamental problems arising from time to time that any newspaper must fight for and vigorously espouse. It's a question of good judgment.

We all seem to have a disposition to criticize the other fellow and to imagine that we could run his job better than he does. Yes, we stopped our semi-weekly brickbat this morning. It did not hurt us particularly, because we did not believe it justified. But it did start us off on a train of thought about the peculiarities of this old world and of the people who inhabit it.

TOPICS IN BRIEF

Communism is sound, say its votaries. And fury.—Washington Post. Eventually counterfeiters make real money—in the chair factory.—Detroit News.

The blue-law advocates fain would make Sunday a day of arrest.—New York Telegraph.

The unruly child is too often an example of the triumph of mind over matter.—Asheville Times.

History will doubtless make it plain that, the Ruhr invasion was preceded by the Ruhr evasion.—Boston Herald.

With the adjournment of Congress the talking-machine comes into its own for nine months.—Wall St. Journal.

Hugo Stinnes says the Ruhr situation does not call for talk. He's right. It calls for payment.—Pittsburgh Gazette Times.

There is even some suspicion that the normalcy to which the country is supposed to have returned is only psychological.—Boston Transcript.

When the bowels are costive the waste matter ferments, producing a gaseous condition that is disagreeable. To remove the impurities quickly, a dose of Herbine is needed. It does the work thoroughly and pleasantly. Price, 60c. Sold by City Pharmacy. 4875

REVIVAL AT THE BAPTIST CHURCH

H. F. AULICK

The meeting began last Sunday with fine spirit though the day was cold, yet the congregation was good. Rev. McClung, who is to do the preaching and his singer, John B. Locket, arrived Monday afternoon from Amarillo. Brother McClung preached the first time Monday night to a house almost full and had the best of interest and attention. Every one seems ready and anxious to have a good meeting. The deep public interest in the meeting is as good as any one could expect or ask. Many who are not members of the Baptist church have expressed themselves in various ways as being anxious that the meeting may be a great blessing to our town and community and that they were ready to attend and do their part that it may.

On Monday night Rev. McClung spoke of the Power and Place of Love in the world and emphasized mightily that real love is primal and fundamental in all life. His sermon was somewhat of an exposition of that immortal classic on love, the thirteenth chapter of 1 Cor. He showed how full and vain and empty is a life without love toward God, our Creator and Preserver.

The large congregation drank in every word that was spoken.

Tuesday morning at the first day service, Rev. McClung spoke on giving God the best in our lives. After reading a few short selections from God's Word he then in a most appealing and convincing way laid it on the hearts of all present that they owed their best to God and should not think of bringing less to Him, for God has done so much for us. He discussed the giving of the best of our thoughts, the first of our means, the best of our time and our children should be given to God which is the most precious possession a parent has. God did not hesitate to give Jesus, his only begotten Son for us which was his first and best. We owe in return our best to Him.

Brother McClung is bringing us some messages of power and blessing if only the public will attend and get them. Let us have such a meeting as will bless every person and home in this section. Meeting all next week twice each day except Monday.

See announcements for next Sunday elsewhere in this paper.

FACT AND COMMENT

If you want to have a friend, be one. If you wish to accomplish great things busy yourself with what the mediocre refer to as "mere details."

"There a good deal of education for a young fellow in owning a share or two of dividend-paying stock," says the old citizen of Little Lot. "A dividend makes as interesting a lecture on economics as any professor can give."

There are several engaging thoughts as to what the outcome of the widespread use of the radio will be. Not the least pleasing of them is the idea that thousands of boys and girls will listen for an hour or more a day to a fair sort of spoken English, clearly enunciated. Youth is quick and imitative. Let us hope that on the waves of the ether may come lessons that will enlarge our vocabulary and improve our pronunciation.

The Isle of Pines, some forty miles south of Cuba and belonging to it, has become one of the most American communities on foreign soil. Cuban officials administer the government as a part of the province of Havana, but Americans own nearly all of the land and pay nearly all of the taxes. The island is about half the size of Long Island; New York. Grapefruit, lemon and pineapple plantations cover much of the area, and from the general atmosphere a visitor might imagine himself in Florida or California.

France has but 2,500 movie theaters. Five French airplanes will soon leave for a trip around the world. The long journey will be divided into a series of short flights. The course will be thru Italy, Algeria, Egypt, Syria, Mesopotamia, Persia, Siam, Indo-China, Korea, Japan and the United States. From the United States they will fly to South America, crossing back East to Africa and returning to France by way of Spain.

The pastor of the Plymouth Congregational Church of Oakland, California has handed in his resignation, saying, "The church has been outstripped by other agencies in serving mankind and therefore is a failure. In every walk of life, the crying need of people is co-operation, so why shouldn't the churches combine to give co-operation?"

TEXAS DRUGGIST REGAINS HEALTH

"I Have Gained 24 Pounds of Firm Flesh and Feel Like New Man."

If you are one of the many weak and weary, underweight, nervous, run down folks who are half sick and half well you can profit by the remarkable experience of this prominent Texas druggist.

Mr. Ed. Walker, proprietor of Walker's Drug Store, Hubbard, Tex., says, "Like most folks who work indoors and do not get enough exercise, my muscles becameabby, had no appetite and had that 'tired out' feeling with me constantly. Six months ago I began taking Ironized Yeast. At that time I weighed 130 pounds. Today I tip the scales at 154, have a fine appetite, my muscles are as hard as a tool dresser's and I have that 'revving to go feeling' all the time."

This is probably the finest endorsement any product could have. A druggist knows! With all the preparations in his store to choose from, Mr. Walker found Ironized Yeast the best. Your own druggist will tell you the same thing. Because Ironized Yeast is a scientific product of concentrated brewer's yeast in union with the kind of iron doctors use to enrich the blood. The vitamins of the brewer's yeast will nourish your shrunken tissues, filling in hollows and seamy places with firm flesh. Your blood will take on new strength and soon your whole body will tingle with the glow of perfect health.

Ironized Yeast is positively guaranteed to give satisfactory results or your money refunded. A ten-day treatment costs only a dollar; it means the difference between fine health and your present half sick condition. Get it today. Ironized Yeast Company, Atlanta, Ga.

CITY PHARMACY

FAMOUS HARPISIT WILL PLAY APRIL 10th

One of the most enjoyable numbers of the Panhandle Music Festival will be the program of Alberto Salvi, famous harpist, on the night of Tuesday, April 10th at the new city auditorium in Amarillo. Prof. Emil F. Myers of Amarillo is bringing this Festival to the Panhandle, with programs by Mme. Schumann-Heink, Anna Case, Arthur Middleton, the Harmony Club, the Philharmonic Club, and the presentation of "Rose Maiden" and "Elijah" by a large chorus under the direction of Prof. Myers.

THE MOURNER

The minister had just been giving the class a lesson on the Prodigal Son. At the finish, to test what attention had been paid to his teaching, he asked: "Who was sorry that the Prodigal returned?" The most forward youngster in the class breathlessly answered, "The fatted calf."—Home Herald.

The Hindus have in their Huli, which terminates with the 31st of March, a festival which has the same aim as our "First of April" (April Fool's Day). Persons are sent with messages to individuals, who died some time before, or to others who are known to be not home. The senders then enjoy the laugh at their disappointment. The First of April custom is of very early origin and is spread all over the world.

—Long Beach, California, life savers send up a smoke bomb when about to make a rescue and need assistance. It has been proved that a boat can approach a bather in distress more safely and rapidly from the seaside than if it were to start from shore through the breakers. The smoke bomb is the signal for the boat to leave immediately for the scene.

HIS TASK

They were digging for a splinter-proof dugout on the other side during a lull in the firing. A passing major asked a sweaty Vermonter what he was doing. "Digging a hole to make a world safe to live in," he answered.

To avoid traffic accidents on the Pacific Ocean, steamship companies will soon have to "double track" the ocean, according to the hydrographic office of the United States Navy. Shipping on the Pacific has increased greatly during the last few years and it is hoped the steamship companies will enter into an agreement to follow definite routes, instead of going in any direction as at present.

The owner of every radio receiving set in Great Britain must pay \$2.20 a year license fee. At present there are but four broadcasting stations in the United Kingdom. They are located at London, Birmingham, Newcastle and Manchester. It is illegal to remove receiving sets from one point to another.

The consoling thing about taxes in America is that they might be worse. In terms of American money the income tax in England amounts to \$50 on \$1250; \$253 on \$2500; \$15 on \$5000 and \$1940 on \$10,000.

WHEN IN AMARILLO DROP IN AT

JOHN R. WARD, Manager

Cow, Sow and Hen Train

Farmers and others interested in dairying, hog raising and poultry raising are cordially invited to attend a demonstration at the Santa Fe Passenger Station

Canyon, Thursday, March 29

AT 2:35 P. M.

to be given by the Texas State Agricultural College in co-operation with the Panhandle and Santa Fe Railway Company.

The College has a message for the farmers of this locality, and is sending its leading representatives to deliver it. The College also is furnishing three cars of dairy cattle, hogs and poultry for demonstration and exhibition purposes.

The Speakers

From the Agricultural College:
C. M. Evans, Dairy Husbandman.
A. L. Ward, Swine Husbandman.
E. O. Edson, Poultry Husbandman.
T. O. Walton, Director, Extension Service.

From the Santa Fe:
T. B. Gallaher, General Freight and Passenger Agent, in charge of the train.
J. F. Jarrell, Manager, Agricultural Department.
A. M. Hove, Assistant Editor of The Earth.

The train will be here on time and the meeting will start promptly, lasting an hour and a half. A lecture car will be provided, so that there will be no discomfort, even in inclement weather.

Women Specially Invited

A special invitation is extended to farm women to attend the demonstration, as the speakers will have something in particular to say to them.

Members of Boys and Girls Clubs also are invited, as a program has been prepared which will be of interest and value to them. T. B. Wood and J. R. Edmons, district agents of the college extension service, will be in charge.

A survey of Texas industrial conditions shows that during the depression of the last year or two, the milk cow, the brood sow, and the hen saved many a family from financial disaster, and the speakers who will be here at the time indicated above will tell a detailed story about it.

COME PREPARED TO ASK QUESTIONS

Agricultural Department Will Hold Series of Meetings Soon

The Agricultural Department of the Normal College is to co-operate with the Panhandle-Plains Chamber of Commerce in a series of agriculture meetings to be held throughout the Panhandle for the purpose of stressing the importance of more diversified farming, according to arrangements that are being made between Frank R. Phillips of the Agriculture Department in the college and R. M. Fielder, secretary of the Panhandle-Plains Chamber of Commerce.

The talks are to be illustrated by the method of charts and demonstrations. One particular phase of the work is to teach the farmer how to test the amount of butter-fat in the milk.

The subject of dairying is becoming of great importance in West Texas, according to Mr. Phillips, who bases his opinion on the number of letters that are sent to his office. There are two problems that are confronting the farmers of West Texas: How to produce milk at a less cost on the one hand and the kind of cows to secure on the other. However, the two problems are closely connected because of the fact that a good cow will enable the farmer to produce milk at a less cost. For this reason Mr. Phillips expects to use charts, in his co-operation with the Chamber of Commerce, showing the methods of selecting milk cows as well as the best varieties of West Texas grain feeds to be used in balanced rations.

This was made known by Mr. Phillips upon his return from Amarillo where he conferred with O. B. Vernon of the Board of City Development and R. M. Fielder, secretary of the Panhandle-Plains Chamber of Commerce.

MAYOR KNIGHT DISCUSSES COMMISSION GOVERNMENT

(Continued from page one)

every large city in Texas soon adopted the plan.

The short ticket was the main advantage in the large cities. The mayor and two commissioners were elected. All other city officials were appointed by the three elective officers.

In 1909 the legislature extended the possibilities of the Commission Form to all incorporated towns.

Mayor Knight stated that Hereford adopted the plan in March, 1912. Of course there was some opposition. It came from those who did not understand the change and would not take the pains to understand.

The plan has swept the whole United States. Not a single town or city that once adopted the Commission Form of Government has ever gone back to the old form, although they may do so by vote of the people.

Dayton was the first town to adopt the manager system in connection with the Commission Form of Government.

Mayor Knight explained that in Hereford work of the city was divided between the inside and outside officers. The inside work consisted of taking care of the clerical work, the water collections, assessing and collecting taxes. The outside man was city marshal and water superintendent.

Mr. Knight pointed out the advantages of the Commission Form: Concentration of responsibility—three men instead of seven responsible for the city's affairs. If there is no result in city affairs, the responsibility can be placed upon the three men and they must answer for the default.

Then why distribute the responsibilities over seven men when three can do the work better. The three men are directly accountable to the community.

It does not follow that if the people elect all officials that they shall be efficient officials. Three men will come nearer selecting an efficient city clerk than can usually be elected.

The Commission Form may not be less expensive, but the city will get more for its money than under the old form. A quorum may be had in a few minutes, whereas it is often impossible to get a quorum of a city council. The Commission Form will not cure the ills unless good men are elected—good business men who are interested. The quality of the men will determine the character of any government. It will be easier to get efficient men elected to office when a smaller number are elected than when a large number are to be elected. The best business men are needed in office and can be elected on the Commission Form of government plan.

All of the towns who have voted for the Commission Form of Government have done so with the view of getting the best and most efficient form of government. This form is most efficient because it concentrates the management, takes the government out of politics and minimizes the time of those in charge.

Mayor Knight stated that the Commission Form of Government did not

include a city manager, but this feature could be added. Hereford does not have the city manager, although many towns and cities do.

Mr. Gamble expressed to Mayor Knight the appreciation of the Canyon people for this able discussion. He called attention to one thing that Mr. Knight had overlooked—that each commissioner and the mayor would be under a \$3000 bond and the manager or clerk, or whoever handled the money would be under a \$40,000 bond. Under the present system if an alderman does not understand or know anything about the city's affairs, he does not have to find out. When he is under bond for the right conduct of the city's business, he will make it his business to find out and thoroughly understand the city's affairs, or be liable to prosecution.

President J. M. Veteck announced that the Commercial League would meet in two weeks to discuss school matters in Canyon, and that G. G. Foster, president of the school board would be the leader.

DEEDS FILED LAST WEEK IN COUNTY

The following deeds as furnished the

News by the Randall County Abstract Company, have been recorded in the County Clerk's office:

Mrs. Alice E. Owens to B. W. Owens, north half section 8, block M-9. Consideration \$10.00.

Lucile G. Currie to O. F. Thomas, lot 11, block 17, Canyon City. Consideration \$2,000.

D. E. Covington to O. F. Thomas, west two-thirds of southwest quarter, block 8, 1st addn. to Canyon City. Consideration \$1,750.

Sarah C. Barger to Callie Strifflett, west half survey 10, block 8. Consideration \$3,300. (Deed dated Nov. 26, 1909).

Callie Strifflett to J. F. Dorgan, west half section 10, block 8. Consideration \$1.00.

F. D. Weatherly to John Dees, north half survey 140, block 9. Consideration \$8,210.

M. L. Tucker to W. L. Wallace, part section 35, block B-5. Consideration \$20.00.

Fairview Breezes

The weather has been quite stormy the past few days. A strong wind from the west Saturday turning to the north just before night with one of the most severe storms that we have had for several years. Sunday morning was very cold with the thermometer standing at four degrees above zero.

C. M. Rogers of the Wayside community moved to the Nunn place last week. We welcome these good people in our midst.

J. W. R. L. Wesley and Chas Sutton families and Miss Bertha Bray spent one day last week with Uncle Henry and Aunt Lou Wesley. The time was spent by singing and playing forty-two, Misses Esther Sutton and Bertha Bray were winners of all games.

On account of the bad weather Harney Rogers failed to fill his appointment with J. W. Wesley Sunday night.

Mrs. Etta Gillham spent the day with Mrs. G. E. Wesley last Wednesday.

Some of Fairview young folks attended a party at W. H. Hamblen's last Friday night.

There will be a play at Fairview next Saturday night, March 24, beginning at 7:30, under the supervision of Miss Bertha Bray. The title of the play is "The Mechanic's Reprieve." Readings between acts by the children.

Cast of Characters:
 Col. Harrington.....J. W. Wesley
 John Rogers.....Elmer Miller
 Warden Joyce.....Chas. Castleberry
 Dan Trogan.....Edward Wilson
 Lester Wilson.....Benj. Wesley
 E. Z. Walker.....Harry Rogers
 Gov. Bailey.....Priestly Rogers
 Roberts.....Henry Wesley
 Mary Harrington.....Bertha Bray
 Annie Reed.....Esther Sutton
 Louise Wilson.....Annie Wesley

VISIT NEIGHBORING SCHOOLS

An inspection trip has just been completed, by Robert Donald of the Manual Training Department and Frank R. Phillips of the Agriculture Department of the Normal College, covering the Manual Training and Vocational Agricultural work which is being done in the schools at Hereford, Friona, Bovina, District No. 10 and Clovis, New Mexico.

Speaking of this work Donald and Phillips report excellent work done by the various teachers in the schools and that the people are becoming very much interested in these two subjects. Many of the trustees seemed to be of the opinion that more schools would add these branches next year. The two instructors were impressed by the fact that the work is not only helping to keep boys in school but is creating an interest on the outside of school. Especially is this found to be true among the older class of boys.

It would not have escaped Ben Franklin that "dough" begins with do.—Boston Herald.

Wayside Items

Mr. and Mrs. Mack Gillham and John Stockett were Happy! callers Tuesday afternoon.

Our community was unpleasantly surprised by a severe sand and wind storm Saturday. It struck here about seven o'clock and grew colder during the night and by Sunday morning was sure enough cold. Reports were it went below zero; the coldest spell this winter.

Mrs. Bond has just returned from near Plainview where she was called to her daughter's on account of sickness.

There was a good acreage of oats sowed but reports are they were killed by the recent cold spell. We are hoping this will answer for our Easter storm also. Some wheat looking good.

Nor Shelton is still with his sister, Mrs. H. A. Brotherton near Lockney. His health is not improving as yet.

W. G. Franklin was a business caller at Happy Tuesday.

Mr. and Mrs. W. I. Lane were shopping in Amarillo last Saturday and were caught in the wind storm and stayed at Canyon until Sunday afternoon. M. C. Sluder looked after the store and office while they were away.

The 42 party at the W. H. Hamblen home was enjoyed by a number of young people. Refreshments were served to the crowd.

Roberta Holland spent Saturday night with Carrie Bond.

Next Sunday is Rev. Griffin's regular monthly appointment. Don't forget the date. Come and bring someone with you.

The Bond twins, Carrie and Bill, visited the Holland twins Robert and Roberta, Sunday.

The next time we decide to have a war, let's shop around a bit and see if we can't find a cheaper one.—Vancouver Sun.

Spring poetry never will stoop to realism until man invents more words to rhyme with slush.—Wichita Falls Record News.

Physiologists say that the right ear is more efficient than the left. It is evident that Nature did not anticipate the telephone.—Tacoma Ledger.

A beauty hint says face powder aids in keeping a husband loyal. The moderns, however, seem to prefer gunpowder.—Beaumont Enterprise.

Jackie Coogan is going to get half a million dollars for four pictures. Who was it said that these movie magnates couldn't be kidded?—Manila Bulletin.

President Harding thinks it will take twenty years to get the country used to Prohibition. And first, Prohibition will have to be tried.—Concord Monitor.

Every man has the right to be a heretic. But he hasn't the right to do it while clinging to the benefits of orthodoxy.—Windsor Border Cities Star.

"What music has American given to uplift the world?" inquires a cultured European. Well, there's the dinner-bell.—Associated Editors (Chicago)

"Vote Selling Charged in Ohio" headline. In most of the States it is C. O. D.—Norfolk Virginian-Pilot.

Probably the principal reason for Germany's strenuous objections to France's collection method is that she knows it will work.—Nashville Southern Lumberman.

FACT AND COMMENT

The man who blusters is merely betraying his lack of force.

"Worry," says a recent book on nerves, "is a complete circle of inefficient thought whirling around a pivot of fear."

A woman steeplejack in California, as her husband's partner, does her full share of perilous work.

The republican government of Bavaria has made a financial settlement on the Wittelsbach family. The Diet has awarded to the Wittelsbachs seven castles, 25,000 acres of land and a number of houses in Munich, a theater in Munich and 60,000,000 marks in cash.

Italian immigrants aboard the steamer Italia have been refused permission to land at Melbourne, Australia, because there is no work.

Copper is more valuable than gold from a standard of usefulness. Gold is heavy, soft, of low tensile strength, high electrical resistance, low heat conductivity. Copper is employed in so many uses that if it should fail, civilization would halt its onward march until some substitute could be produced.

The Indian in America used to eat pine bark. But nobody sold it to 'em for breakfast food.—New York Tribune.

CARD OF THANKS.

We wish to thank the Normal faculty, the student body and the people of Canyon who were so kind to Eugene Devereux during his illness and for the loving attentions after his death.
 MR. AND MRS. F. D. BARNES
 VERSIE DEVEREUX

No more Rheumatism

"Suffering has gone from your face, mother!"

S. S. S. is the Great Builder of Red Blood-Cells and Rheumatism Must Go Just Try It!

"Rheumatism? Me? No, indeed, it's all gone, every bit of it! It's sunshine and joy for me now for the first time in years. I feel a wonderful glory again in the free motion I used to have when my days were younger. I look at my hands and think of the twists and swellings they used to have. I bend way over to the floor. I haven't been able to do that in many years. I can thank S. S. S. for it all! To me it was a rising sun of joy and liberty. Brothers and sisters in misery, do not close your eyes and think that health, free motion and strength are gone from you forever! It is not so. It is here and now for all of you. S. S. S. is waiting to help you." There is a reason why S. S. S. will help you. When you increase the number of your red-blood cells, the entire system undergoes a tremendous change. Everything depends on blood-strength. Blood which is minus sufficient red-cells leads to a long list of troubles. Rheumatism is one of them. S. S. S. is the great blood-cleanser, blood-builder, system-strengthening, nerve-invigorator. It stops skin eruptions, too, pimples, blackheads, acne, boils, eczema. It builds up run-down, tired men and women, beautiful complexions, makes the flesh firmer. Start S. S. S. today. It is sold at all drug stores in two sizes. The larger size bottle is the more economical.

S. S. S. makes you feel like yourself again

EASTER COMING SOON

Easter time is almost here and all of the kiddies are interested in Easter Eggs and Easter Dyes. Yes, we have them for the children and Easter party decorations for the grown-ups.

You will always find the very best in drugs and drug sundries at our store, with one of the largest stocks in West Texas from which to choose.

McQUEEN DRUG COMPANY

Apparently France's idea is to put a little reverse English on the Golden Rule and do as she would have been done by.—Nashville Southern Lumberman.

All possibility of a sugar shortage will be removed when the Cuban planters settle down to raise cane and the speculators doing so.—Boston Traveler.

The unexplored portion of Ontario, known as the district of Patricia, will yield fortunes to adventurous prospectors, according to a representative of a Winnipeg syndicate.

Looking at Germany with Russia now behind her, the whole thing is so transparent that it's small wonder France sees Red.—Manila Bulletin.

Miss Gertrude Nelson of Clovis visited over Sunday with friends at the Anderson house.

ANNOUNCEMENTS FOR THE BAPTIST REVIVAL IN CANYON

On Saturday afternoon of this week at 4 o'clock at the church, Rev. McClung, our Evangelist, with his singer, John B. Crocket, is going to conduct a special "Bottle Service" for the young people of Canyon. The plan for the service is that everyone, old and young must bring a clean empty bottle for admission, or if they prefer, they will be admitted for \$1.00. The plan for this service by Rev. McClung is that it shall be one of great spiritual power and inspiration. We want every young person in and about Canyon to attend this service. It will be a precious blessing to them.

Sunday Announcements

We will have the usual service Sunday and we are praying and working to the end that it may be a high day with us before the Lord. Ample provision will be made for any overflow crowd. Come and bring all your wives and all your children.

Announcements for the Week

There will be no preaching Monday morning at 10 o'clock. Preaching Monday night at 7:30 as usual, and continuing twice each day.

Special Service for the Church

At 3:30 Sunday a special meeting for the members of the church will be held at the church. Dr. McClung and Mr. Crocket will bring some things of vital importance. We are very anxious that every member of the church shall be present.

H. F. AULICK, Pastor.

The dreaded Hessian fly, which constantly threatens our wheat crop, entered the United States in some way which the Hessian soldiers of Revolutionary fame brought to America as bedding for their horses. The loss resulting from the Hessian fly costs the United States as much each year as the entire expense of the Revolutionary War.

Happy Happenings

On account of the cold weather there was no church services held Sunday at any of the churches of the town.

Miss Bertha Bray, who is teaching at the Fairview school, spent the week end with friends in Canyon.

The Young Woman's Missionary Society of the Methodist church met with Mrs. W. C. Lindsey on Friday, March 16th. There were twelve present. We had the business, social and financial reports. Then the devotional and prayer by leader, Gladys Bandy. Ethel Sanford organized a Mission Study with fourteen members. Then after we had the Bible questions we adjourned. The next meeting will be with Mrs. Lindsey for the study of the Bible questions, March 20th.

Mrs. Frank Carney of Amarillo, who has been visiting her mother, Mrs. Bellas, returned to her home Saturday.

O. H. Rahlfis was in Plainview Monday on business.

W. H. Doyle of Friona is transacting business here this week.

Earle Waite, who is in training at El Paso is visiting his folks here this week.

V. C. Hagood of Tulia was here Friday on business.

W. J. Flesher of Canyon was here on business Wednesday.

Little Myrtle Frances Mitchell went home with her grandmother, Mrs. Watts of Tulia, who has been visiting her daughter, Mrs. Charlie Mitchell, the past week.

Winfield Miller and Harvey Harrison visited the Canyon High School Friday.

Miss Ella Aikman spent the week end with her parents, Mr. and Mrs. L. H. Aikman at Hereford.

O. R. Bridges was in Tulia Saturday on business.

Elsie Zachery, who is attending school in Happy, spent the week end with home folks in the Fairview community.

Misses Ruby Forrester, Viridia Davenport, Inez Meador, Mittie, Margaret and Mary Wimon of Canyon, spent a very delightful day with Miss Mildred McManigal. The seven girls including Miss Mildred returned to their school work in Canyon Sunday afternoon.

Troy Waite entertained with a party Wednesday night. Those present were Homer Brown, Estel Pugh, Sallie Selvidge, Lloris Robinson, Harvey Selvidge, Hermon and Vernon Miller, Ruth Harrison, Arnil and Carrie Marie Townsend, George White, Bert Lemons, Adalee Mitchell, Alyce Guest, Muriel Miller Pansy Arnold, Loyde Whitman and Angus McDonald. At a late hour hot chocolate were served.

Marvin Montgomery, John Currie and Paul Lawson were in Amarillo Saturday on business.

Mrs. Wm. F. Miller and son, Clare, and Mrs. P. J. Neff were in Canyon Monday.

Oral Lancaster was in Canyon Friday on business.

Jewell Hall, who is working in Amarillo, spent the week end here with home folks.

Joe Horn of Amarillo was here Thursday transacting business.

Horace Wright, who is working in Canyon, spent the week end here with his folks, J. B. Wright and family.

W. T. Townsend was in Tulia Wednesday.

C. N. Cox and family of Arney were in Happy Friday.

Lewis Walberg spent the week end with friends in Hereford.

Mr. and Mrs. P. J. Neff were in Canyon Saturday.

Doris Culton of Tulia spent the week end here with her aunt, Mrs. J. E. Gurley.

Mr. and Mrs. O. H. Rahlfis were in Amarillo Saturday.

Everett Dison, who is attending school in Canyon, spent the week end here with his parents.

P. J. Neff was in Tulia Wednesday on business.

Mr. and Mrs. Sligar of Amarillo, who have been visiting at the J. M. Beavers home, returned to their home Thursday.

Misses Volfie and Ruth Dison, who are attending and teaching school in Silverton, spent the week end here. Ruth was sick and was unable to return to her school work. Emit Grounds accompanied Miss Volfie back to Silverton.

John L. Wilson of Hereford was here last week transacting business.

Mr. and Mrs. E. F. Arnold and son, Robert, spent the week end with friends in Pampa.

Gus Miller, who is working in Muleshoe spent the week end here.

G. D. Walker and Perry Johnson were Canyon callers Monday.

Miss Myrtle Laroe of Tulia spent the week end here with her sister, Mrs. Ethel Wesley.

A. L. Harrison and Bill Anderson were in Hereford Tuesday on business.

Mr. and Mrs. C. S. Dison and daughter, Ruth, were in Canyon Monday.

Everett Dison returned to his school work there.

A. W. Montgomery went to Amarillo Monday.

Mr. and Mrs. Mack Gillham of Wayside were here Tuesday on business.

Flake Montgomery, who is attending school in Canyon, spent the week end here.

Van Foster, who is attending school in Plainview spent the week end here.

A notice has been posted announcing a competitive examination for postmaster at this place. The examination is held under the president's order of May 10th, 1921, and not under the civil service act and rules. Apply at the postoffice for application blanks, as the applications must be properly executed on Form 2241, and filed with the Commission at Washington, D. C. in time to arrange for the examination, which will be held in Canyon, on April 14th, 1923.

Roxie Knox, who is attending school in Canyon spent the week end here with home folks.

Glen Dowlen, another student of the Canyon Normal spent the week end here.

M. D. Montgomery was in Amarillo Saturday.

Mr. and Mrs. J. H. Stephenson were in Tulia Wednesday.

Mr. and Mrs. J. E. Toles were in Canyon Wednesday.

The Community Club met with Mrs. Horne Bellas Wednesday afternoon.

Mr. and Mrs. Wash Bangle of Tulia were here Wednesday.

J. S. Ingleman of Tulia was here Wednesday on business.

Mrs. E. D. Goodnight of Childress, who formerly lived here, came in Wednesday. She is moving her household goods to Dalhart, where she will make her home.

C. Shuman and son, Ernest, who are working at Muleshoe, spent the week end here.

Mr. and Mrs. A. Robeson and daughter, Lorene, and Miss Jewell Adams were Amarillo callers Saturday.

Mrs. S. C. Whitman entertained the Birthday Club at her home Monday night. A large crowd was present. The evening was spent in playing 42.

Mrs. W. T. Townsend won high score and Mrs. Whitman won "hooby." At a late hour refreshments of sandwiches coffee and cake were served.

Mr. and Mrs. Odell Gillham were in Amarillo Saturday. Jim F. Monday returned with them; he is visiting with Mrs. Etta Gillham this week.

Grady Ponder, who is working in Amarillo spent the week end here.

Mr. and Mrs. Perry Johnson of Groom are visiting this week with Mrs. Johnson's sister, Mrs. G. D. Walker, of this place.

E. E. Robinson, who has been working in Muleshoe is quite ill this week. He is unable to attend to his work.

The Plainview District Conference will convene at Happy April 3 and 4. This district is comprised of territory running north and south from Canyon to Abernathy, and east and west from Floydada and Silverton to Bovina and Dimmitt and Olton. Thus we see that fifteen or more towns will be represented and no less than nineteen pastoral charges.

No less than one hundred delegates and visitors are expected from these parts. In addition to the regularly elected delegates and the pastors a number of connectional men are expected. The conference will be in session two days and possibly there will be services at both evening hours. Such

important questions as the Centenary collections, Educational work, Missionary revivals, Sunday Schools, Epworth Leagues and Women's work will be discussed. In addition to that there will be reports from the various charges, which reports will show something of the progress of the work in the District this conference year. Rev. G. S. Hardy, the efficient Presiding Elder of the Plainview District will occupy the chair and preside over the conference. Our members are urged to be present and visitors from other churches are cordially invited.

B. W. WILKINS, Pastor.

MISTAKE REGARDING THE SUSPENSION OF TRIBUNE

The News stated last week that the Amarillo Tribune had suspended publication, or would suspend publication during last week, the plant having been sold to the Amarillo Daily News.

This information was given the Randall County News by the management of the Daily News and various employees of the Daily Tribune. The Daily News stated they had an option upon the Tribune and would close the deal on March 15—the day that this paper published the statement regarding the sale. Furthermore employees of the Tribune stated that the 15th would be the last issue of the Tribune.

The News regrets very much the statement in last week's issue. It was not published with a view of damaging the Tribune, or assisting the Daily News. It is one of those unfortunate things about newspaper work when news that is anticipated does not occur according to schedule.

Until recently the Codex Vaticanus, so called because it is kept in the library of the Vatican in Rome, was the oldest Bible manuscript. Now, however, is found in Egypt an older Bible manuscript, containing the apostolic epistles, the prophecies of Jonah, and the fifth book of Moses. The manuscript is written in the Coptic tongue and consists of 109 papyrus rolls. It is the oldest Bible manuscript in existence, dating from 360 B. C. It is in the library of the British Museum, for which it was bought at a high price.

A Jew overtook his friend walking down Madison Avenue one morning.

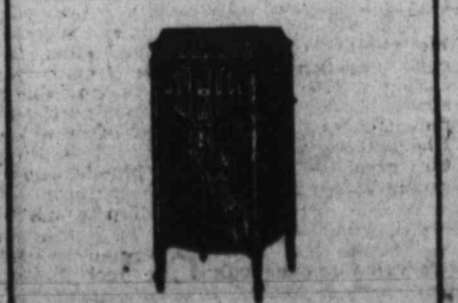

"Why, Julius, do you walk down town to your business?"

"Because, Sam, I need the exercise and I also save a kerneckle."

"Julius, you should go over to Fifth Avenue and walk down then you would save a dime."

The Right Direction

If you are going anywhere, the natural thing to do is to travel in the direction of the place you desire to reach. The speed you make merely regulates the time of your arrival—if you are headed right.

It is not the amount of money you save, but the fact that you have begun to save, that invests the act with a certain moral influence which, properly encouraged, becomes stronger and stronger all the time. That's why we urge you to open an account with us and get started on the right road, where the going is easy.

New Methodist Church

FINANCING OF AGRICULTURE NECESSITY IN CREDIT STRUCTURE

By M. J. MURPHY,

President New York and Pennsylvania Joint Stock Land Bank

The farmers of the United States received \$2,000,000,000 more for their crops in the year 1922 than in 1921. There are in this country 1,800,000 business concerns reported by Bradstreet's and Dun's. The increased purchasing power of the farmers represents an average of \$1.100 per business house. There is a direct relation between the number of acres under cultivation and the number of business houses supported by cultivated land. Business houses have increased in direct ratio to cultivated land since the Census Bureau was established at Washington. There is now one business house for every 275 acres of cultivated land.

The railroads of the United States, according to the 1920 census, represent a total investment of \$20,000,000,000; the manufacturing industry, \$44,000,000,000; farms and buildings, \$66,000,000,000; livestock and farm equipment, \$12,000,000,000, making agriculture at \$78,000,000,000 not only the basic and necessary industry of the nation, but larger than all else combined.

Feeding the world is altogether the largest job in the world. A complete crop failure for a single year would wipe out the human race, hence agriculture not only has a bearing upon our prosperity, but upon our very existence. The farmers take from \$12,000,000,000 to \$16,000,000,000 out of the soil each year. People who live in cities and who produce nothing to supply themselves with the necessities of life are beginning to realize that there is a partnership that exists between the city man and his brother on the farm and that they are dependent upon one another. Wide awake executives and credit men are beginning to appreciate what the purchasing power of the farmer means in every line of business.

For the past 50 years the average return to agriculture has been \$14 per acre and the average number of failures among business houses was 95 per 1,000. When agriculture gets more than \$14 per acre for its products, the percentage of business failures fall. When it gets less than \$14 per acre the business failures rise above 95 per 1,000. For example, in 1896 the return of agriculture was eight dollars per acre and the business failures went to 135. In 1919 agriculture got \$36 per acre and business failures dropped to 40. The drop in agricultural prices from 1919 to 1921 was directly reflected in the increase of business failures which grew from 40 to 105.

It is estimated that only eight per cent of the business of the United States is done on cash, the balance being done on credit. Credit men, therefore, play an important part in the destinies of the nation. Agriculture has never been capitalized in the sense that railroads, public utilities and industrial operations have been financed through the flotation of stock and bond issues. According to the 1920 census, the total mortgage indebtedness of the farms of the United States represented but six per cent of their value. Sixty-five per cent of the farms were free of mortgage debt.

The Federal Farm Loan act was adopted for the purpose of financing agriculture in the public interest. No nation in history has survived the time when its farms fell into the hands of tenant and feudal farmers. Freehold agriculture has been the bone and sinew of every nation in history that has endured and prospered. The fall of the Roman republic and the recovery of the French republic are proof of what freehold agriculture means to any nation.

The days of the prairie schooner and

free Government lands are over. The modern farmer is a manufacturer—his farm is his factory and to succeed he must be a business man. In the future modern machinery, scientific knowledge and capital will be the controlling factors in the farming business.

For the purpose of financing agriculture, the United States Treasury Department set up a new bureau and is practically acting as a trust company to carry out the important work of financing our largest and most important industry. The Treasury Department takes the farmer's mortgage, holds it as collateral against farm loan bonds, prints the bonds, exempts them from taxation and sees that the security is always good. There is no better security in any nation than a lien upon its land. The farm loan bonds of Europe outsell Government bonds in nearly every nation where they are issued. The value of the farm land is controlled by density of population and as the population increases, land values automatically increase. Under the Farm Loan System money is loaned to the farmer on an amortization mortgage for 33 years and is paid back at the rate of 1 per cent per annum, plus the interest, but the farmer has the privilege of anticipating payment without any obligation to do so.

The turn-over period of the farm products is greater than any other line of business. The farmer requires from six months to three years to make his obligations self-liquidating.

The new Rural Credits bill adopted by Congress on March 3 has for its purpose financing the farmer for his crop and livestock requirements and consists of two branches. First, 12 Federal Intermediate Credit banks which are entirely owned by the United States Government and have a debenture issuing power of \$600,000,000, and second, National Agriculture Credit Associations financed by private capital and operated under the supervision of the Controller of Currency.

The farmer, therefore, has for his ordinary requirements the commercial and savings banks; for his crop production, the Intermediate Credit banks and for his long time capital needs the Federal Farm Loan System.

THE FUNERAL OF A CITY

The city that had once been lively, progressive and prosperous, suffered an attack of civic anemia and declined until it reached that condition referred to as "a dead one."

It was on its way to the cemetery. Hiram Hogtall, who motto, "Get it while the getting's good," is sufficient introduction, dug the city's grave.

The firm of Pinhead, Pessimist & Crepe Hanger embalmed the remains. The firm of Selfishness & Swine-scent, who had always been so busy feathering their own nest that they never had any time for the city's affairs, donated the city's shroud.

Old Pompus Pursepod, who never gave a penny to a public enterprise, drove the hearse.

The Rev. Mr. Mossback preached the funeral sermon.

Mr. Home town Knocker donated the tombstone.

Messrs. Doolittle, Croaker, Putty-head, Rearback, Wetblanket, and What's the Use acted as pallbearers.

The only person who had no official part in the obsequies was Mr. Live Wire, who got off the train by mistake and attended the funeral because there was nothing else to do between trains.—Corpus Christi Times.

Help Keep Canyon Clean!

TOWN PESTS

The Frank Guy, who Always Says What He Thinks, is a Cheese of the First Whey and a Town Pest than Which there is None Whicher. Here the Pest who Always Says What He Thinks has Met Up with the Chap who Always does What He Wants To and the Result is Most Amphibuous, as the Feller Sez!

DROP OF SOLDER SAVES \$50,000

The story is told of John D. Rockefeller that in his early career he discovered that thirty-nine drops of solder were used in making each oil can. He succeeded in getting them made with thirty-eight drops. The saving of this one drop of solder made a saving to the company of fifty thousand dollars a year. It was a very small item when looked upon as a drop of solder, but when all the little drops were taken into consideration it meant a snug little fortune. He was not interested in the drops of solder, but he was interested in what they would do. Nothing is too small to overlook. We know of the success of Mr. Rockefeller. It was taking the little things into consideration that has made him the richest man in the world.

The play "William Tell" is being produced on every stage available throughout the occupied area of Germany to stiffen the passive resistance of the people to the French.

MISS NEAL HONORED

Carthage, March 14—Banks and business houses closed Wednesday morning, and the citizens from all over Panola county turned out at Carthage to welcome home Miss Margie E. Neal from Austin. The occasion was an expression of public appreciation to Miss Neal for her efforts at Austin in interest of the Panola county carbon black bill.

Miss Neal was conducted from the train by an escort of decorated automobiles to the public square where speeches were made by Ex-Mayor T. J. Wooten, County Agent D. M. Foster, S. S. Baker, Mrs. C. C. Comer in behalf of the Carthage women, and Mrs. R. E. Gray of Mitchell in behalf of the county federation of women's clubs.

Miss Neal is prominently known in state political and newspaper circles, having served as a member of the state democratic executive committee and as a delegate-at-large to the national democratic convention at San Francisco, and as former publisher of the East Texas Register.

Miss Neal is a member of the State Board of Normal Regents and has visited Canyon several times.

Gold Star mothers of America, with Mrs. Ben S. Boyd, of Knoxville, Tenn., as leader, are rallying to prevent another world war. Mrs. Boyd said, "Enough hearts and homes have been broken. We felt it was a privilege to give our sons for a great cause. But if the peace they won is not lasting then we feel that our sacrifice was in vain."

Child-birth

Valuable Illustrated Book Sent Free

How thousands of women, by the simple method of an eminent physician, have avoided unnecessary miseries through many months and up to the moment Baby has arrived, is fully explained in the remarkable book, "Motherhood and the Baby." Tells also what to do before and after baby comes, probable date of birth, baby rules, etc., and about "Mother's Friend," used by three generations of mothers, and sold in all drug stores everywhere. "Mother's Friend" is applied externally, is safe, free from narcotics, permits easier natural readjustment of muscles and nerves during expectancy and child-birth. Start using it today. Mrs. E. E. Kerger, Slayton, Minn., says: "It pulled me through." Send for book today to Bradford Bevelator Co., B.A. 35, Atlanta, Ga. "Mother's Friend" is sold at all drug stores.

Paid Out 372-Acre Farm and a \$4,000 Home in Six Years With Poultry, Dairy Cows and Hogs

Just what a man can do on a Plains farm who is not afraid of work and who is not afflicted with the "make-it-all-quick-with-one-crop" idea is well illustrated in the case of W. E. Murdock, a farmer who lives about five miles southeast of Summerfield.

Mr. Murdock came to Hereford last Tuesday accompanied by sixty dozen White Leghorn eggs and ten gallons of cream. It has been observed by business men here that whenever Mr. Murdock came to town he always juggled along something that brought top current prices in the open market. So last Tuesday Mr. Murdock was corralled and asked to tell "how come?"—where he got all these eggs, and all this cream, and how he always managed to have it when it brought real money, etc.

It took some persuasion to get Mr. Murdock to talk about it. He doesn't seem to crave publicity very much, but finally, piece by piece, the following startling story was dragged from him and fitted together. Read it and ponder o'er it.

Mr. Murdock came to Happy, Texas, fifteen years ago, landing there with \$200 in cash. He rented for several years pursuing the usual farming methods of this country, and did not make any headway, just barely "getting by" and being somewhat in debt. The last year he was in that neighborhood he had good crop prospects when he was stricken with appendicitis and taken to Plainview for an operation, going deeper into debt. His wife, however, got out the crop and from it they made a little money.

Throwing all past theories to the winds, and resolving to get out of the rut Mr. Murdock moved to his present place seven years ago this coming fall, cut out the general farming methods he had always followed, and went in for poultry, dairy cows and hogs, with enough feed to have his own family and all his live stock "live at home and board there too."

He has made six crops so far. He has bought the 372 acre farm on which he resides. He has just completed a modern \$4,000 home on that farm. "And if I owe any man a dime I do not know who he is," said Mr. Murdock in conclusion. Can you beat it?

How did he do it? By running 350 hens, a number of dairy cows, a bunch of sows and always having something to sell when he comes to town. He says he has paid one \$5.00 grocery bill since he went to Summerfield. He sold \$1,000 worth of hogs alone last year. He gathers 125 eggs daily. He sells his cream locally or ships it, depending upon the best market. He raises every-

thing possible for his table, and he don't pay out any interest.

Men of the stripe of Mr. Murdock bring out the possibilities in any community, develop its resources, and make a prosperous and contented community. According to the philosophy obtained from Mr. Murdock it's in the point of view and the daily application of the point.—Hereford Brand.

RURALISTIC

"Well, sir," observed old Si to a friend after the former's return from a visit to the Big Town, "so far as I kin see, the city is jest nacherly full of cabs with cash registers on them and red flags to show people it's dangerous to dispute the fare. They call 'em taxidermy cabs, for the reason if you don't do what you're told, the drivers will jest take the skin off you."

Department Stores, concentrated in the heart of a big city can be reached easily only by persons who ride in street cars. The woman of the suburbs who sets out in her small car to do a little shopping is likely to go to the place that she can reach with the least trouble. A large department store in a mid-Western city is going to abandon its down-town building and move out nearly two miles where there is less street traffic and plenty of parking space.

St. Louis, Missouri, being one of the centers of the livestock industry, was naturally astonished when some one suggested that a sheep, a cow and a pig be placed in the municipal zoo so that school children might know what the animals look like. Later a census of sixth-grade pupils disclosed that forty percent had never seen a sheep; that seventeen per cent had never seen a pig, and that twelve per cent knew what a cow looks like only from pictures.

Watch your children for symptoms of worms. They undermine the health and breed sickness. Use White's Cream Vermifuge. It expels worms and restores health and vigor. Price, 35c. Sold by City Pharmacy. 4875

THE FORMULA THAT WORKED

A man who today is recognized as a leader in the business world, and who a few years ago started at the very bottom of the ladder, was asked recently to what one thing did he attach the most importance in his success. He replied:

"To a word of advice given me at the outset by a successful man. Mr. Henry Leland, the grand old man of the automobile business, told me that if I tried to be clever, cunning and sharp that I might get ahead, but that the chances were against me. 'You'll have too much competition in that field,' he said. 'If you want to take the sure road to success, be just plain honest.'"

A United States district judge in Boston recently denied the petition of two aliens to change their names respectively to the old American names of Parker and Stone. He directed that Adolph Paperitz adopt the name of Adolph Popkin and that Hyman Sorocovech become Hyman Sorko. After all, in more ways than one is a good name better than riches, and if through some hundreds of years a family has added good will to its trade-mark, the court should not give that mark lightly to whoever asks for it.

The highest capacity power cable in the world was stretched under San Francisco Bay recently. It covers a distance of eight miles from the shore of Richmond to Pier 41.

GOOD ENOUGH

Grocers are accustomed to answering penetrating questions about the merits of their wares. Perkins of Perkinsville was no exception to this rule.

"Are they really fresh," demanded a woman customer who had come to buy eggs.

"They certainly are," replied Perkins. "You're sure of that? Because I'm so frightened of bad eggs, I must have them really fresh."

"Boy," called out the grocer to his assistant, "Just run to the back room and see if this morning's eggs are cool enough yet to sell."

A monkey belonging to a family living in the fashionable Quai D'Orsay, Paris, trapped a burglar. When the burglar entered a clothes closet the monkey locked the door and when the owner returned home the monkey proudly turned the prisoner over to him.

A fuel-oil skimming device to keep Baltimore Harbor free from floating oil, which is a fire menace, consists of a suction pump on a scow. Oil and water are pumped aboard and the oil separated and barreled. The suction apparatus operates just below the surface of the water.

For rapid healing there is nothing like Liquid Borosone. It mends torn flesh, heals cuts, burns or sores, so quickly no time is lost from work. Price, 30c, 60c and \$1.20. Sold by City Pharmacy.

NO SPARK—NO POWER
And your spark depends upon your ignition and electrical system. Is it functioning efficiently? We look after everything that's vital: the batteries, the generator, the wiring, the spark plugs, etc.

Wm. Schmitz

PREPARE NOW TO RAISE MORE CHICKENS

MORE CHICKENS AND MORE EGGS MEAN MORE MONEY FOR YOU. THE SAFETY HATCH INCUBATOR AND BROODER WILL HELP YOU TO SURE SUCCESS IN CHICKEN RAISING.

EXCLUSIVE POINTS OF MERIT

Found In The Safety Hatch Incubator

Hatches a larger percentage of eggs than any other system.
Regulation of temperature purely automatic—needs no watching.
Equipped with indestructible metal thermostat.
Simple automatic ventilation.

Uniform distribution of heat absolutely assured.
Fumes from lamp do not enter incubator.
Not affected by changes in outside temperature.
Equipped with simple and safe "foolproof" lamp.

Material and workmanship always the best.
Equipped with every desirable service that can be added to its efficiency.
Requires no previous experience to operate it.
Guaranteed to do everything we claim.

GROW THREE CHICKS WHERE ONE GREW BEFORE

Give Your Chicks the Shelter And Care of a Safety Brooder

To the successful Poultry Raiser, a high-class Brooder is just as essential as a good Incubator. A little chick will chill to death almost in the twinkling of an eye. In fact, there is no one who has had experience with poultry raising, who has not seen little chicks get so chilled that they crawl up in a fence corner and pile up on each other until practically all of those underneath are smothered to death, and many of the ones on top are chilled to death.

FLOSSY, YOU'RE A BRICK NOT TO COME TO YOUR DAD FOR MONEY THIS YEAR.

There Was a Catch in It Some Place

—MAY I HAVE \$50 TO GET MY PAINTS, AND DRAWING TABLE, AND MATERIALS?

Last Legislature Increased License Tax on all Autos

A new law has been passed by the legislature increasing the tax on automobiles.

While the new law will increase the cost of auto license, in some cases, almost tripling the present tax, the funds will be used for the building and maintenance of roads, and as soon as the bill becomes effective we should see a wonderful activity in road building and repairing throughout the state.

The following table marked out shows the tax on the various model of cars and will be effective Jan. 1, 1924, under the new law:

Make of Car	New Tax
Auburn	\$18.89
Apperson	27.55
Buick 6	19.72
Cadillac	29.42
Case	19.88
Chalmers	18.38
Chevrolet	11.45
Cole	23.82
Dodge	16.20
Dort	15.25
Essex	16.85
Ford	10.45
Franklin	16.38
Haynes	21.58
Hudson	22.08
Hupmobile	16.35
Jordan	18.05
King	18.90
Kissel	26.15
Lexington	18.88
Lincoln	30.90
Locomobile	34.80
Marmon	27.98
Maxwell	14.25
Mercur	18.78
Mitchell	21.08
Nash	18.58
Oakland	16.85
Oldsmobile	18.55
Overland	11.45
Packard Single Six	18.72
Packard Twin Six	33.32
Paige	20.78
Pierce-Arrow	33.05
Reo	19.72
Studebaker, Light 6 and 4	17.03
Stutz	22.75
Viele	17.53
Willye-Knight	17.85

There are no speeders in North Adams, Massachusetts. A policeman stands at the roadside with a red lantern or flag. Speeders are halted and cautioned to use discretion. If the driver fails to slow down the policeman blows his whistle and farther down the road a board filled with short spikes is stretched across the highway.

Six hundred million dollars' worth of silk products is manufactured in Patterson, New Jersey.

Ten thousand Chinese soldiers guarding Tachienlu, the pass to Tibet, are having their clothes sewed on their bodies. Garment after garment of heavily padded cotton is sewed into place on the body to remain there undisturbed until the suns of summer return. The pass is the coldest place on the border.

Butyn, a new drug, is a substitute for cocaine in dental and eye work and also in minor surgery. It is a synthetic product and it is said the anesthesia produced is more profound and prolonged than that produced by cocaine. It is not a derivative of cocaine and has no attractions for the drug taker.

Japan will soon be independent for its supply of quicksilver. A rich vein, said to extend seven miles on the surface and to vary in width from two to six feet, has been discovered. The ore assays 18 per cent and the vein increases in thickness the deeper it is followed.

A spot in Pere Lachaise Cemetery, Paris, has been set aside for the bodies of all Belgian soldiers killed in France and the plot given to Belgium.

Far up in the mountains at the head of American Fork Canyon, Utah, two men and a woman were marooned and starving in a mine cabin. Heavy snows had cut off the two miners and the woman from civilization. An air mail service plane was sent to the rescue. The pilot circled over the cabin and dropped a package of supplies sufficient to maintain the party until they can get out to civilization.

If you belch up a bitter-tasting liquid, suffer from heartburn and sour stomach, you need the tonic properties of Herbine. It is a purifying and strengthening medicine for the stomach, liver, and bowels. Price, 60c. Sold by City Pharmacy. 4815

Mr. and Mrs. Joe Tucek spent Tuesday afternoon with Mr. and Mrs. Tony Beckman.

Mrs. G. I. Graves, Miss Dessie and Tommy Graves and Mrs. E. W. Markham spent Wednesday with Mrs. Leiland Graves.

J. D. Drake of Clarendon spent Wednesday night with his sister, Mrs. W. F. Mayfield.

Mr. and Mrs. L. C. McCaskey spent the week end with Mr. and Mrs. L. D. Corington.

The next Literary meeting will be April 20. You are invited.

Mr. and Mrs. L. C. McCaskey and Mrs. L. D. Covington spent Saturday with Mr. and Mrs. D. E. Covington.

Twenty years ago the Frankfurter Zeitung established a fund for the preservation of the grave of Heinrich Heine, the lyric poet, who lies buried in the cemetery of Montmartre, Paris. During the war the French saw that the grave never suffered to fall into neglect and now that the mark has fallen to nothing the German paper has written saying it would be impossible to continue the work. The French replied that the present state of affairs is unfortunate for everybody and that the grave will be cared for. If values are readjusted Germany will be the debtor. If not, the Germans will owe nothing.

A promising parasite has been found for the control of the Mexican bean beetle, which is rapidly spreading in the southern states. This parasite preys upon at least two species of the genus to which the bean beetle belongs. Also there has been found in Mexico two varieties of beans which show promise of resistance to the injurious attack of the bean beetle. One is a native white bean, and the other a wild brown bean, the latter growing very abundantly along streams in Southern Mexico.

For every marriage in Denver in 1922 there was a separation. For every two marriage licenses there has been a divorce suit filed, according to Judge Ben R. Lindsey. He states that in the last four years the marriage and divorce rate has changed from four to one to two to one.

An army aviator's map embodying a comprehensive survey of all mountains and valleys of the Pacific Coast has been completed. It is believed that this map will permit aviators to determine their positions in territory wholly unfamiliar to them.

A new scheme of intercommunication would link all Europe by telephone. An international conference will be called to consider the matter. Under the scheme it would be possible for the prime minister or financier in London to put in a call and get through to Vienna, Berlin, Rome or Madrid in half an hour.

The king of Siam has translated Romeo and Juliet into Siamese and has issued the play with notes, mostly of the rendering of English idiomatic phrases.

There is a scarcity of cats in Russian villages. During the famine many cats were eaten by the people. Now mice are devouring the grain.

Cold settled in the muscles of the neck, arms or shoulder makes every movement painful. Use Ballard's Snow Liniment. It relieves the pain and relaxes the muscles. Three sizes, 30c, 60c and \$1.20. Sold by City Pharmacy. 4815

CITY PHARMACY
THE RECALL STORE

Mustapha Kemal Pasha, at a mass meeting in Smyrna, said, "The project of the Allies is unacceptable for a nation which wants complete independence, because we possess both the title to independence and the power to attain it. If we must expire as a nation in the course of 40 years we had better die now with an open heart and conscience. History will then remember us with honor and esteem."

ALL WORN OUT

Does morning find you with a lame, stiff and aching back? Are you tired all the time—find work a burden? Have you suspected your kidneys? Canyon people endorse Doan's Kidney Pills. Ask your neighbors, you can rely on their statements.

Mrs. Clonch, Canyon, says: "There was a dull ache through the small of my back and my back was so sore and lame I could hardly bend over or do my work. When I stooped, a sharp, stinging pain caught me, making it hard for me to straighten. I was worn out and could hardly get around at times. I became dizzy and had headaches and my kidneys didn't act right. I used Doan's Kidney Pills and three boxes cured me entirely."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Clonch had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.
