

MORE TEACHERS EMPLOYED FOR SUMMER TERM

MANY ON REGULAR STAFF ARE ON LEAVE OF ABSENCE.

Additional Teaching Force Needed to Care for the Increased Enrollment.

President Hill announces more additions to the teaching force of the summer session of the College. A number of the regular faculty members are either taking a summer vacation or studying, and their places are being filled.

Miss Caroline Burson, B. A. Texas University, and M. A. Columbia, will teach in the Spanish Department in the place of Miss Mary E. Hindspeith, who will study this summer in the National University of Mexico.

Miss Loyce Foster, M. A. and Ph. D. University of Texas, will substitute for Miss Hattie M. Anderson in the Department of History. Miss Anderson will be away on a leave of absence during the summer.

Miss Eloise Pond, A. B. and A. M. Leland Stanford University, and now professor of Education in the Temple, Arizona State Normal, has been added to the staff of the Education Department.

Miss Mary Ethel Adams, B. A., West Texas State Teachers College and now teacher of Mathematics in Hamlin High School, will assist in the Mathematics Department during the summer.

Miss Hattie Seeling, graduate of Art Institute of Chicago, will substitute for Miss Dorathen Frike in the Art Department. Miss Frike will be away on leave of absence.

Miss Rebecca Scott of Harold, Texas, B. A. Southern Methodist University, will substitute for Miss Ethel Jackson in the Training School this summer.

Miss Eloise Durham, B. A. and M. A., Peabody College, and now teacher of English in Dallas High School, will be instructor in the Department of English.

Miss Una Hunter, A. B. and M. A., University of Texas, will teach English.

Miss Alma Houston of El Paso will teach Mathematics in the College in the place of Miss Edna Graham, who will study in the University of Chicago this summer.

Big Shipment of Fish Placed in Canyon Club from State Hatchery

Several thousand bass and croppies were turned loose in the Palo Duro Friday night by J. A. Guthrie who accompanied Mr. Breedlove of the State Fish Hatchery near Dallas out to the Canyon Club grounds where six cans of little fish were placed in the two dams.

In addition to those placed in the Club grounds, one can was given to Newt Reeves for his lake, and two were given to Rev. B. F. Fronbarger for the Baptist Encampment grounds.

SMALL BLAZE WEDNESDAY

Wednesday morning at about 6:20 a. m., the fire department extinguished a small fire at the J. M. Winstead place south of the square. A hot stove pipe resulting from a flooded oil burner set the roof on fire and threatened the kitchen. Excepting two small holes chopped in the roof there was no real damage.

GOES TO PANHANDLE

Roy Carver, who has been in college here this session, left Sunday afternoon for Panhandle, where he has employment in a lumber yard. He will teach next year.

Good Rains During the Week Puts New Life in the Country

A light shower of rain fell Thursday evening amounting to .11 of an inch.

A good rain fell Monday evening from 5:30 to 9:00 o'clock, amounting to .50 of an inch.

The grain crop was in a very precarious condition owing to no rain during the past month and the prevailing winds. The rain Monday night puts a new face on things in the Panhandle and conditions are looking better than for some time.

Enrollment First Day Larger Than It Was Last Year

The first day's enrollment for the summer term was announced last night to be 539. The enrollment for the same period last year was 487—a gain of 52 students. Of the total, 381 are credit students, while the number a year ago was 229. There are only 158 enrolled for Summer Normal work, as compared with 258 last year. The decrease in the number of Normal students and the increase of credit students is considered significant, in that it indicates that more teachers are here to better their general education.

Registration will continue for several days, as most of the students who have already secured boarding accommodations do not enroll on the opening day.

Weddings of Students Are Made Known

Denny-Hill
Announcements were recently received in Canyon of the marriage of Miss Pearl Denny to Lester Hill on May 30, at Springtown, Texas.

Miss Denny is the charming daughter of Mrs. Ella Denny of Springtown. She was enrolled in the last summer session of the College.

Mr. Hill received his B. A. degree here last year, and has been teaching in the Paducah High School. He was a very popular student and an active debater and booster for all college activities.

The young couple will be in Canyon this summer. The bride will attend college. They will teach next year.

Callihan-Moore
Miss Lula Callihan and Mr. Reese Moore were married last Saturday at the bride's home, Arnot Moreland officiating.

Both of these young people have been enrolled in the college this year. The bride is the daughter of Mrs. H. L. Callihan of this city, and is popular among the students.

The groom is a vocational student whose home is in Akron, Ohio, where the young couple will reside.

Their many friends are extending most hearty congratulations and wishes for a happy life.

Perriman-King
Mr. Allen King and Miss Grace Perriman were united in marriage at the home of the bride in Snyder, Texas, May 27. Both of the young people have attended the West Texas State Teachers College and have a host of friends here. The bride is a sister of Mrs. Ray Daniels of this city. She taught school at Snyder during the term just past.

Mr. King received his diploma here last summer. He has been teaching near Perryton.

After spending commencement week with friends here, the young couple left for Spearman, where they will make their future home, and where Mr. King will engage in business.

Oatis-Durham
Mr. Byron Durham of Snyder and Miss Luella Oatis of Canyon were quietly married at the home of the bride, June 3. Rev. Beavers officiated.

Both bride and groom are students of the West Texas State Teachers College. The bride is the accomplished daughter of Mr. and Mrs. B. F. Oatis of this city, and has been teaching at Clayton, New Mexico. Mr. Durham is an ex-service man and has been a popular "Buffalo" and student for several years.

Mr. and Mrs. Durham will make Canyon their home for a time, and both will attend the summer school.

They have the congratulations and good wishes of their many admirers.

GOES TO MEXICO CITY.
Miss Hindspeith will leave next week for Mexico City where she will attend the National University during the summer. Miss Hindspeith is head of the Spanish department of the College. She states this university is making great inducements to get the teachers from American schools to attend the summer sessions.

S. S. CLASS CAMPS IN CANYONS
B. F. Fronbarger, Jr., took his Baptist Sunday School class of boys on a camping trip to the Baptist Encampment grounds last Saturday. The boys brought lots of ants and had a typically "boyish" outing.

BUYS SCHOOL BONDS.
The commissioners court has bought the school bonds of the Zita district for the sinking fund of the county.

REV. H. F. AULICK RESIGNS; LEAVES FOR NEW MEXICO

BECOMES STATE SECRETARY IN NEIGHBORING STATE WORK.

Local Church Expects to Call New Pastor Soon—Aulick Goes to Nashville Conference.

Rev. H. F. Aulick of the local Baptist Church offered his resignation at the close of the services Sunday morning. The church accepted the resignation, and gave the pastor a vote of thanks for his services during his ministry here of one year and two weeks.

Rev. Aulick has accepted a position as one of the state secretaries of the Baptist State Board of New Mexico. While his headquarters will be at Albuquerque, his field will include practically the entire state. He will work in the interest of general church organization, and especially will urge the adoption of the budget plan of church finance. Rev. Aulick states that he is especially interested in this type of work. He will attend a meeting of the board at Albuquerque this week, then will go to a conference of secretaries at Nashville, Tennessee.

On his return from Nashville he will come by Canyon to conclude his affairs here. Mrs. Aulick and children will stay here until that time.

The Board of Deacons of the local church were authorized Sunday morning to go into the work of securing a new pastor, and of filling the pulpit until a minister can be secured.

Easton Allen at Home; Elected to Sul Ross Faculty

Mr. and Mrs. Easton Allen, and little daughter, Mary Jean, returned last Wednesday from Berkeley, California, where Mr. Allen took his M. A. degree this spring at the University of California. They are visiting at the home of Mr. Allen's parents, Prof. and Mrs. L. G. Allen, on East Houston Street.

Mr. Allen received his degree at the College here in 1920, and after teaching a year in the Tullia High School, went to California to do special work in History. He has just been elected head of the History Department of the Sul Ross State Teachers College at Alpine, Texas.

Tom Thumb Wedding at Methodist Church Friday Night
A very unique little entertainment in the form of a society wedding, combining modern day costumes and old fashioned dress, will be given at the Methodist Church on Friday evening, June 8th.

Local children will present the play under the direction of Miss Lillian Russell of Kansas City, Mo. The cast of characters includes over 75 children from three to ten years of age. They will stage a complete imitation of a "society wedding" in a way that is said to produce "100 laughs in 100 minutes."

The program will begin promptly at eight o'clock. Tickets will be 50c and 25c.

SPOKE TO FARMERS MEETING
There was a small attendance at the farmers meeting Saturday at the court house.

R. I. Graves, cashier of the First National Bank, spoke to the meeting on cooperative marketing as applied to cotton.

Trustees Considering Transportation of the Independent District

The trustees of the school met Saturday night to further consider the transportation question as affecting the ward schools to the south and west of the city. No definite decision was reached in the problem.

Another meeting will be held on the night of June 14th to further consider the question.

The trustees would like to consider bids for furnishing this transportation at this meeting.

Appropriation Bills Vetoed Thursday by Governor of Texas

The entire appropriation bills for the coming two years were vetoed Thursday afternoon by Governor Neff and the legislature called upon by the Governor to make the appropriations fit the revenues.

The legislature has decided upon the course of cutting appropriations for all institutions rather than increasing the revenues by additional tax raising measures.

Many to Attend Celebration at Old Battleground

Between two and three thousand people are expected to gather at the Adobe Walls battle ground June 14 and 15 when a big picnic and barbecue will be held. Pres. and Mrs. J. A. Hill, Mr. and Mrs. T. V. Reeves, Miss Jennie C. Ritchie, and probably a number of other Canyon people will attend the celebration.

Mrs. Billy Dixon and Mrs. W. T. Coble, assisted by Mayor F. P. Reid of Pampa, have perfected plans for the meeting. A fund to erect a monument to the memory of the twenty-eight men who defeated one thousand Comanche Indians on June 27, 1874, will be started. Organization of the Adobe Walls highway, to be known as 33-B, and the proposed erection of a bridge across the Canadian River, where the trail crosses the stream, are other matters to be discussed.

Speeches will be made favoring the Highway Amendment to be voted on July 28, and the Amarillo Exposition this fall.

Plans will also be made for the fiftieth anniversary celebration next year, which is expected to be of state wide interest. The Panhandle-Plains Historical Society will have general direction of the event.

W. T. Coble of Amarillo, owner of the Adobe Walls site, recently deeded the battle ground to the Panhandle-Plains Historical Society.

Boatright Will Teach English at Sul Ross College

Officials of Sul Ross State Teachers College at Alpine have announced that Mody C. Boatright has been selected to teach English there, beginning with the Fall session. Mr. Boatright took his B. A. degree here last year, and will receive his M. A. degree this summer at the University of Texas.

Randall County to Be Represented at Childress, June 9th

J. D. Amend, Wayne McCormick, Harold Shanklin and Alfred Vetesk will represent Randall County in the live stock judging contest to be held at Childress, June 9th.

There will be 20 to 25 teams in the contest. The four boys scoring the highest number of points will get as a reward their expenses paid to College Station this summer to the short course.

REVIVAL IN PROGRESS

Evangelist F. B. Shepherd of Amarillo is doing the preaching at the Church of Christ tent meeting, north-east of the square. The revival started last night and will continue for ten days. Geo. E. Starks of Harper, Kansas, is in charge of the song services. Good interest is reported.

Election Saturday Favors Tax Increase by the Vote of 47 to 24

The school election on the proposition of increasing the tax rate from 75c to \$1.00 on the \$100 valuation in the Canyon City Independent School District carried Saturday by a vote of 47 to 24. This is one of the lightest votes ever cast in a school election held in the district.

The trustees meet Saturday night and canvassed the returned, putting the \$1.00 rate in effect for taxes to be collected this fall.

COMMENCEMENT PROGRAM CONCLUDED SATURDAY; HON. MARVIN JONES ADDRESSES GRADUATES; DEGREES GIVEN

COLLEGE CONFERS DEGREES AND DIPLOMAS—MANY RECEIVE CERTIFICATES—INTERESTING EXERCISES ARE HELD

The Commencement exercises of the West Texas State Teachers College, which continued through last week, were concluded with the presentation of certificates, diplomas, and degrees by President J. A. Hill Saturday morning.

Many Randall county people attended the exercises and very highly commended this year's program.

The seniors, who received degrees at the close of the exercises, were: Silas Hart, Canyon, B. S. in History; Virgil E. Dodson, Canyon, B. S. in Sociology; Phillip Harper Allen, Canyon, B. A. in Mathematics; Dan F. Sanders, Wheeler, B. A. in History; Miss Clara Crystal Brian, Canyon, B. A. in English; Olin W. Middleton, Chickasha, Oklahoma, B. S. in Manual Training; Bernice Courtney Graves, Pajuviev, B. A. in Mathematics.

Certificates were presented to one hundred and sixty-five students.

President Hill announced that the Board of Regents Scholarship of one hundred dollars had been awarded to Olin E. Hinkle of Canyon. Mr. Hinkle's record of 23 A's, 2 B's in five quarters of college work is one of the best ever made in the college, states Mr. Hill. The scholarship is given to a Sophomore or Junior in each of Texas Teachers Colleges on the basis of scholarship, character and promise of teaching ability.

Address by Congressman Jones.
Hon. Marvin Jones of Amarillo delivered the Commencement address. He called attention to the present state of constitutional government, and pointed out that there are two forms of government: the legal and the actual. Speaking of the actual form, he said if there is not a great people there can be no great government—behind every form of government are the folks. Russia, he explained, has showed the folly of attempting to substitute an ideal form on an imperfect people. "Every one should do his duty according to his conceptions," he said, "then the form will grow to fit the people."

The best type of American was described by Mr. Jones as a man of courage. One of the great needs of today was said to be the courage of conviction. Furthermore, the ideal American should be a man of dreams, a man who can look ahead without falling asleep. He should also be a man of industry. The speaker remarked that there are no great nations near the equator. The big man was defined as a man with big ideas, big undertakings, and the will to translate ideals into action. But no job is big if there is a little motive behind it; the true citizen will keep a clean mind and be actuated by worthy motives. "Moreover," said the Congressman, "the ideal American will be truthful in all things. No fabric of lies can be made to fit truth."

Addressing specifically the senior class, Mr. Jones said that he did not wish for them an easy life, for "where there is no sorrow there can be no tenderness; where there is no pain there can be no sympathy; where there are no hardships there can be no development; where there are no conflicts there can be no victory—and without victory, no reward. In conclusion I wish for you useful lives; who could do more?"

President Hill Speaks.
President Hill told the graduating class that the old idea that one went to college in order to live more easily thereafter has been discarded. He emphasized Mr. Jones' statement that teaching is hard work, and said that to receive a certificate now is practically to be assigned to a life of hard labor—a life however, which conforms to the best spirit of service. Mr. Hill recalled his pleasant experiences in associating with the graduates, and urged them to keep in close touch with their Alma Mater, that such communication might be to their mutual benefit. He remarked that Harper Allen, who graduates with permanent membership in the recently organized Scholarship Society, is the first student to get a degree here who has completed within the college every

grade from kindergarten to the senior class.

Musical Concert Thursday.
Thursday evening a well arranged program was given by the college orchestra and Part Song Club. The orchestra opened the performance with a five rendition of Beethoven's Symphony No. 2; D Major and concluded the program with the overture from the "Barber of Seville" by Rossini.

The Part Song Club sang five unaccompanied songs; Matona, Lovely Maiden; In These Delightful Pleasant Groves; Maiden Fair, O Deign to Tell; As Torrents in Summer; and My Love Dwelt in a Northern Land; and one, Autumn Storms, with Miss Helen Croson at the Piano. Prof. Wallace R. Clark directed both the orchestra and song club.

Seniors Entertain.
Friday morning the senior class presented its members in a comic production. Each senior was shown in a characteristic, yet ridiculous position. The performance is said to have revealed some interesting traits in the usually conservative upper-classes.

Class Day Exercises.
An original and clever entertainment consisting of pictures illustrating selections from American Literature was presented by the Junior High School Friday afternoon. The second part of the program, a Shakespearean fantasy for children's voices, was delivered by the High School chorus in a way that won much applause. The chorus was directed by Miss Margaret Guenther. The Senior High School presented its members in illustrations of peasant life in France, and of Longfellow's poems. A stirring pantomime, "Gifts to Liberty," was the final number.

The Honor Roll of the High School as printed on the program, contains the following names:
4th Year—Ruby Forrester, Olga Lena Crawford, Leola Shuford, Allie Murrel Saunders, Verda Davenport, Leona Waddill, Julia Anderson, Tennie Mae Hastings, Emily Wiman.
3rd Year—Roxie Knox, Vera Thompson, Jesse Thompson, Nell Burton, Harold Shanklin, Lillian Cash, Willa Neely.
2nd Year—Nona Britt, Eno Brock, Launa Moore, Catherine Rockwell, Vida Savage, Henry Arlin Turner, Josephine Duflot.
1st Year—J. D. Hazlewood, Tobert Williams, Paul Knapp.

Dance Pageant Presented
"The Gift of the Fairies" a pageant of dance, composed and presented by the class in Pageants, and Festivals of the Physical Education Department drew the hearty applause of a packed auditorium Friday evening. The numbers were rendered masterfully by characters in appropriate costumes. The little wood nymphs were truly fairy-like in their dainty garments. Some of the dances were expressive of religious emotion. In this group was an Egyptian Dance of Worship and a Greek Sacrificial Dance. Dances representing May Day with Robin Hood and His Merry Men were expressive of public rejoicing. A Maypole Dance, with verses by Miss M. Moss Richardson, was executed with all its intricate movements. Dancing expressive of national characteristics showed scenes of Dutch Villagers, A Flower of Spain, Chinese Girls, Scotch Reel, A French Baby, Russian Saltarello, and Freedom, Justice, and Peace, ushering in the Spirit of America.

Following the completion of the last pageant, the audience joined in the singing of the patriotic hymn, America, the Beautiful.

Miss Ruth Knight's junior orchestra played during intermissions.

Buffaloes Named.
After the program, the students and faculty remained long enough to name the two buffalo mascots "Charles C." and "Mary Ann", after Col. and Mrs. Charles C. Goodnight, from whose ranch the animals were secured. The names were nominated by Irby Caruth, and after easily leading in the first ballot, were adopted by a unanimous vote.

List of Certificates Awarded.
President Hill handed out certificates (Continued on page four)

THE AMERICAN PRESS ASSOCIATION

The Governor's veto of the appropriations bills immediately raised the cry to reduce the appropriations rather than do the sensible thing of raising more revenues to meet the increased costs of state government. Every institution and every department of state immediately stated that it had already been cut far below its real need—which was true enough. The legislature chose to do more cutting rather than raise more revenues.

Eight of the appropriations bills will be passed practically as passed by the last session of the legislature. The cry is universal to cut the educational institutions if any one is to suffer. That is the same cry that every legislature has made during the past. As a monument to this colossal failure of the legislature to adequately provide for education in Texas, this great state stands 38th down the line in educational affairs. Right under the nose of one of the most magnificent state houses in these United States stands the wooden shacks of the university which are a disgrace to the state and doubly a disgrace to the men who have persistently refused to adequately support the educational system. As a result of this policy, every existing state school is crowded to the doors, with no new buildings allowed for four years, except at Denton and Commerce where the building fell down and action had to be taken. As a result of this policy every school in Texas will have to exist on less money during the coming two years than they have had during the past two years, in spite of the 20 to 50 percent increase in every institution. On account of this policy Texas has lost at least fifty of her leading educators during the past few years who are called to other states who are putting education first in their way of thinking. Texas is demanding of every legislature more and more schools to be established, and then, almost in the same breath, demand that existing institutions be choked to death through non-support, choked to death through non-support. There is time for an educational awakening in Texas.

New York has overturned state prohibition and will leave the enforcement of the Volstead law up to the federal government. Governor Smith signed the repeal of the state prohibition law with the belief that he can land the nomination for president on the Democratic ticket next year on a wet ticket. Smith is thinking crooked. A constitutional amendment has never been repealed, and the prohibition law will sooner or later be enforced strictly in every state of the union.

The College Commencement exercises last week failed to develop a good sized rain, although one shower and a good sized bluff of a rain materialized Thursday and Friday nights. Perhaps the opening of the summer quarter will do better. These two events are supposed to be sure rain producers.

The Texas Press Association begins in Galveston this morning. The News men left Tuesday to be at this big meeting. Perhaps the lures of an annual bath in the ocean was as attractive as the Press meeting.

The ancient Incas of Peru possessed an efficient calculating machine in the "quipu." This instrument consists of a knotted cord about 16 yards long, containing 100 knots. These knots are divided into 10 equal sections by as many silver beads, representing the odd numbers from 1 to 19. The sections are of different colors which were important factors in the calculating process. The silver beads between the groups represent the even numbers from 2 to 20. Calculations involving tens, hundreds and thousands are possible by this device, which was first used by the Chinese, later by the Japanese and must have been brought to America by Asiatic migrations in ages past.

THE PRESBYTERIANS ARE RIGHT

The News is in hearty accord with the statement circulating from the Presbyterian Synod to the effect that the movie men and others engaged in amusement plans should give the churches the Sabbath. It follows, of course, that many churches would have to "wake up" and "get on the job" or people might do worse things than go to the movies on Sunday.

It is gratifying that we are beginning to see that respect for the home and for the Sabbath are fundamental. Without these, men and women come to have scant respect for anything except their lusts. It is but a step, then, to anarchy.

Roger W. Babson told America some two years ago that a great religious revival would do more to help business than any other cause. His reasoning is recognized as sound. Business is done on confidence, and as a result of a determination to give a full day's work for a full day's pay, these hinge on the code of morals which "go to pot" without Christianity.

We need more serious thinking and wholesome reflection in American life—need it amazingly. Recognition of a Christian Sabbath day and respect for it will be the predominant factor in bringing this about. The American workingman seldom labors so many hours a day that he can't find any other time for the movies—and unfortunately many of the pictures shown him have been most damning.

What all Americans need most now, we repeat, is some wholesome mental food, recreation of the kind that really re-creates (without lust or license), repose and a few hours each week to get acquainted with other members of the family. And this applies to all classes—both young and old!—Electra News.

BIDDERS

An East Texas editor about to get married has set a precedent, and, incidentally, called attention to some prevailing practices in his community. He sent out plans and specifications to all the ministers of his community, asking for bids on performing the ceremony.—Mineral Wells Index.

It was a proper proceeding. There is such a variance in wedding fees that a man who is cautious with his money has a right to know in advance what any enterprise may cost him. Besides, the printer is accustomed to having the preachers, as well as the lawyers and doctors and storekeepers and school teachers, come into his place and ask for bids on their printing. They try to save at his expense by implied threats to give the order to his competitor. Why shouldn't he do like they do? Of course, there is a vast difference in wedding fees. Sometimes the preacher gets \$10 and sometimes \$2 and sometimes nothing. But he can, with a little experience, size up a couple pretty well in advance and set his mind on the prospective intake with considerable accuracy. There is a good deal of difference in printers' prices also. Some printers never charge anything for the use of their machinery. They charge for the labor and material, but ignore the fact that every turn of the press wears it a bit. The result of such loose methods is that any printer can begin with a well-equipped office and in ten years be broke, with his equipment worn out and nothing to buy new stuff with. As between printing and preaching, the latter is on the average better paid. State Press has seen many printing offices that had been reduced to junk, but he has never seen a preacher who wasn't very well maintained.—Dallas News.

MICKIE SAYS—

WHEN YER FIXIN' UP AN AD, MR. BUSINESS MAN, JEST WRITE NATURALLY ABOUT WHAT YA GOT Y' SELL, LIKE Y' WUZ TALKIN' TO A CUSTOMER. THIS HERE FAUNCH WRITIN' GOUNDS KINDA PHONY, WHICH DONT SELL NO GOODS

EVER NOTICE THIS?

Did you ever pause in the Panhandle postoffice long enough to take a squint at the waste basket, or the floor shortly after a number of people have received their mail? If you have you were probably struck by the number of circulars and form letters and handbills that littered it up. In fact, you doubtless were struck with the fact that many of them had been thrown in the basket as soon as they were removed from the envelope, the recipient never even taking the trouble to give them a second glance.

But did you also notice that you don't see anyone throwing newspapers, and especially the home-town newspaper in the waste basket or on the floor? Did you notice that newspapers are always carried away instead of being tossed away. Well, right there is a mighty good argument in favor of advertising in the newspapers. The circular letter—a costly form of advertising—goes into the waste basket. The home-town paper goes into the home. Remember this, and spend your advertising money accordingly.—Panhandle Herald.

Because of the fact that dishonest individuals in religious disguise have by wilful misrepresentation obtained from the government permits to secure so-called "sacramental wines" for pretended religious ceremonies, when such permits were in reality to obtain wines for commercial purposes, the trustees of Har Sinai Temple in Trenton, New Jersey, urged in resolutions, action toward the revocation by the Federal Government of the privilege accorded Jewish congregations of us-

THE LEAF WORM

This worm will soon be here and will damage the foliage of vines, also grapes. As soon as you notice the striped wing, pale colored moth flying among the vines you should spray with arsenate of lead as follows: one pound to 50 gallons of water, smaller portions would be table spoonful to 3 gallons of water, spray with fine mist on the leaves. It would be well to melt a small amount of laundry soap and add to the mixture.

ing wine for religious purposes.

Dr. George Clarke Houghton, rector of the Church of the Transfiguration, better known as the Little Church Around the Corner, in New York, died recently. At one time the Little Church Around the Corner was a favorite resort for runaway couples, but Dr. Houghton drew up a set of rules requiring every such couple to produce evidence of parental consent before the ceremony. He refused to marry divorced men and women. During his pastorate more than 15,000 persons were married in the Little Church.

The ubiquity of the common micro-organisms, whether in the torrid zones or in the icy north and south, is phenomenal. Samples collected by explorers contain many familiar species of bacteria. In previously untouched soils and in the contents of the intestine of arctic animals, is found a motley group of bacteria, yeasts and molds most of them familiar to us of the more contaminated zones. There is no escape from bacteria.

1,766,118 ARE SOVIET VICTIMS

Astounding Statistics Showing Executions in Russia Since November 7, 1917.

FARMERS AT HEAD OF LIST

Practically Half Total Number Executed Were Farmers—Stories of Religious Persecutions Borne Out—Murder 28 Bishops.

Washington, D. C.—Washington officials and members of the diplomatic corps are astounded at statistics received here tending to show that 1,766,118 persons were executed in Russia by the soviet government since it came into power on November 7, 1917, to the end of 1921.

This total is given in what are claimed to be official statistics which have been received here by the diplomatic representatives of a European country, which is generally regarded as not unfriendly to the existing Russian government.

Farmers Lead List.

According to these statistics the persons executed were classified by the soviet authorities as follows:

Farmers, 815,000; intellectuals, 355,250; soldiers, 200,000; laborers, 192,350; officers, 54,650; gendarmes, 48,000; property owners, 12,950; police officers, 10,500; physicians, 8,800; professors and teachers, 6,775; priests, 1,215; bishops, 28.

The statistics did not indicate, it is said, whether the former Czar Nicholas and his family were included in the fatal list.

Some diplomats and officials said that while it is impossible either to confirm or refute it officially there was much information to support an assumption that the startling record of execution and wholesale assassination was approximately correct.

May Explain Famine.

The fact that practically half of the total number of persons executed were farmers had occasioned some surprise, and is interpreted by certain officials as indicating that the conditions among the Russian peasantry have been much worse than commonly believed, and as explaining to some degree the shortage of foodstuffs in Russia.

Stories of religious persecutions in Russia seem to be borne out by the execution of 28 bishops and 1,215 priests, and unofficial reports received by the diplomat furnishing the statistics are to the effect that more church officials have been executed by soviet authorities this year than in any preceding year.

MAY RUN OR BURN THE WORLD

Scientist Explains the Force That Might Result From the Liberation of an Atom.

London.—By liberation of the atom man may some day control a force which will perform the entire work of the world, but if it gets beyond his control it may blow the earth and all its inhabitants to pieces, Doctor Ashton of Cambridge declared in a lecture before the British association. The chances of such a catastrophe are practically negligible, he explained.

Professor Rutherford succeeded in arranging a collision between the central portions of two atoms. The result was the transmutation of the atom into entirely different forms of matter. "The possibility of such transmutation on any scale is of enormous importance. If the amount of hydrogen which goes to constitute a tablespoonful of water were transmuted into helium, the energy liberated would be 200,000 kilowatt hours—one-seventh of the total amount of electricity used in London in a day for lighting and power purposes.

The possibility has been discussed that this energy, when first liberated, would be out of human control. In that case, if all the hydrogen on earth were detonated into space, the successful experiment would be published throughout the entire universe as the birth of a new star. The probability of this catastrophe is practically negligible."

FALLS 8 FLOORS; IS UNHURT

Plunges Over Edge of Roof of New Building Into Alley Below.

Detroit.—John Hancock, eighteen years old, of 510 Abbott street, pushing a wheelbarrow into a hoist shaft on the roof of the eight-story building at Third and Baltimore avenues, sought to save himself by letting the wheelbarrow hurtle down the shaft, but was dragged forward, and plunged over the edge of the roof and into the alley below.

The wheelbarrow at the bottom of the shaft was a total wreck, but after the surgeons had looked John all over very carefully, they could not find anything wrong with him.

Prickly Pears for Sheep.

Johannesburg, S. A.—Experiments on the government agricultural farm at Grootfontein proved that a sheep can exist for 290 days solely on a diet of prickly pears and, if a little lucerne plant is added, for 500 days without a drop of water. That beats the camel.

T. B. Slaughter Died After Long Illness; Well Known Farmer

T. B. Slaughter, age 65 years, of Hereford, died at St. Anthony's Sanitarium Friday morning at 12:30 o'clock following an illness covering a period of three years. He had been in the sanitarium since March 6.

He leaves, besides his former wife, Mrs. T. B. Slaughter, of Skidmore, Mo., a son, Charlie Slaughter, of Hereford, and a daughter, Mrs. Ora B. Freese, of Maryville, Mo., and a sister, Mrs. C. E. Bishop, San Bernardino, Cal.

The body was sent over the Santa Fe to Skidmore, Mo., Saturday morning, by the Griggs Undertaking Company, and will be accompanied by Charlie Slaughter. Funeral services and burial were held Monday.

T. B. Slaughter, who was distantly related to C. C. Slaughter of Dallas, has been a resident of the Panhandle for the last fifteen years. He came here from Missouri in 1908 and located on a ranch fourteen miles west of Canyon on the Palo Duro, where he has been living since.

Mr. Slaughter came west at the age of 19 years and located for a short while near Glazier, on a claim. He later returned to Missouri, and came back to the Panhandle fifteen years ago.—Amarillo News.

OUT OF BALANCE

The bricklayers of New York are making demands for an additional increase in wages, and threaten a strike which would tie up \$200,000,000 worth of construction.

The New York Herald has taken the trouble to translate the figures involved in the wages of New York building trades workers into corresponding figures for farm produce according to the current prices there. The following astonishing results are recorded:

It takes 63 1-2 dozen, or 702 eggs to pay a plasterer for one day of eight hours work.

It takes 17 1-2 bushels of corn, or a year's receipts from half an acre, to pay a bricklayer one day.

It takes twenty-three chickens weighing three pounds each to pay a painter for one day's work in New York.

It takes forty-two pounds of butter, or the output from fourteen cows, fed and milked for twenty-four hours, to pay a plumber \$14 a day.

It takes a hog weighing 175 pounds, representing eight months' feeding and care, to pay a carpenter for one day's work.

A farmer, working sixteen hours a day, can produce and take care of only a limited number of chickens, cows and pigs, and plant, tend and harvest a similarly limited acreage of corn. Every person reared on the farm is well enough acquainted with the statistics to grasp the astonishing contrast, and even those who are without agricultural experience can see at a glance that there is something very top-sided and out of balance in the comparative facts and figures.

There can be no wonder, in view of these figures, that farmer boys are going to the cities.

The statistics also explain another phenomenon which the Committee of Forty-Eight, the Nonpartisan League and other radical groups are unable to understand, namely, why it is impossible to form a combination organization to farmers and city laborers.—Wichita Beacon.

Introduced by accident in 1879 into the Bay of Southampton, at Hythe, an American plant called the Spartina Townsendi, has spread rapidly along the English coast, flourishing vigorously in spite of the fact that it is under water part of the time. The plant is an excellent fodder for cattle and may possibly be used for paper pulp. It may be introduced to the French coast to bind the shifting sands.

Sixty Americans are insured for \$1,000,000 or more.

After Every Meal WRIGLEY'S

Chew your food well, then use WRIGLEY'S to aid digestion. It also keeps the teeth clean, breath sweet, appetite keen.

The Great American Sweetmeat

Umbarger Notes

Hugo Skarke spent Sunday at the Joe Friemel home.

A ball game was played Sunday between Umbarger and Jowell. The Jowell team won by a score of 12 to 10.

Next Sunday will be another ball game between Umbarger and Jowell.

Miss Anna Friemel who is working in Amarillo in the hospital, visited at the John Bedink home Sunday.

Tice Hess was a business caller in Canyon Saturday.

Paul Artho was a business caller in Hereford Tuesday.

About an inch of rain fell here Monday and prospects are that we will get more.

A son was born to Mr. and Mrs. Clem Friemel Sunday.

The Wheat Growers had a meeting Saturday evening. They are figuring on building a new elevator.

SPEND MONEY OR EXPECT CHAOS

You can't segregate ignorance. You can't run a fence around it and shut it off from the rest of the community, from the other parts of your city or your state. You must eradicate ignorance, or it will permeate the whole society. That's why society cannot afford to have backward school conditions anywhere, any more than it can afford to have plague spots of disease.

"This is a big problem. Its solution and the safety of society depend upon the willingness of the people to spend adequately for schools.

"Everywhere, there is talk of retrenchment instead of recognition of the problem. The salvation of peaceful, orderly government rests on education, on fitting men and women for useful, happy lives. Only so can the causes of disorder be overcome.

"Instead of retrenchment we must recognize the need for large additional expenditures, for state aid and state supervision, extending the opportunities of education equally to every remote country district.

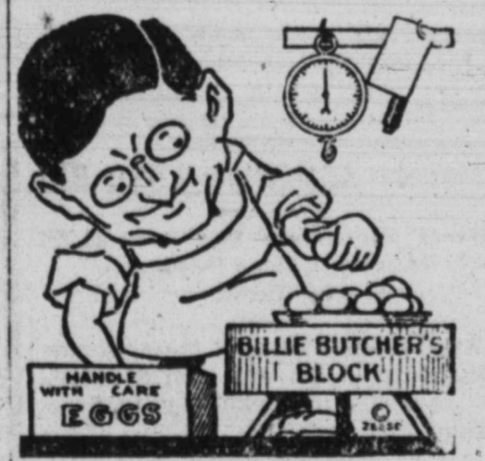

"It isn't a matter of what an individual poor section of a city or rural district can pay of itself, but solely a question of its NEEDS.

"The biggest educational problem today is making people realize that we must spend money, and MORE money, or expect chaos."—Geo. D. Strayer.

A new type of diving apparatus consists of a water-tight chamber mounted on endless belts similar to a caterpillar tractor. This is lowered overboard. The crew of the diver consists of two men. A power cable furnishes light and power and enables the machine to move about on the floor of the sea.

The deepest mine in the world is in Brazil at St. John del Rey. It has attained a vertical depth of 6,725 feet. At that time the temperature of the rock is 117 degrees Fahrenheit, necessitating a system of artificial cooling. The gold-bearing ore at the bottom shows no signs of decreasing in volume.

The misery and depression caused by a bilious and constipated condition of the system can be quickly removed by using Herbine. It purifies, strengthens and invigorates. Price, 50c. Sold by City Pharmacy. 1014

Vetesek Market & Groceries

FRESH EGGS YOU CAN TRUST

The demand for our choice eggs is so great that we are able to turn our stocks quickly, and as we buy direct and know where our eggs originate, we are able to guarantee them as strictly fresh.

Prices always right. Billie Butcher sees to that.

TODAY'S RECIPE

EGG OMELET WHICH WILL NOT FALL.—Four teaspoons butter, four teaspoons flour, two cups milk, make a sauce as above directed, three eggs separated, three fourths teaspoon salt, one cup above sauce. Beat the yolks and salt together and beat in the cup of white sauce. Fold in the stiffly beaten egg whites and cook on a well greased pan. Cook the omelet slowly and roll as soon as brown under the bottom. This omelet may also be baked in a slow oven.

"Niggab, maybe yo' am on one o' dem 'permanent wave' Ah'se been heahin' about."—Judge.

"Pa, what does 'veni, vidi, vici,' mean?"

"Oh, it's just one of those college yells." —Pelican.

(In Government class): Prof.: What is a silent majority?"

Stup—Er, I guess it's two men when there's a woman present.

Frosh—I want some face powder.

Clerk—Rose or violet?

Frosh—Nope, its for Hazel.

After which we presume the clerk said witchhazel.—Ex.

HAZING AN INITIATION

Just now, with one nearby university in the limelight of unfavorable publicity because of two deaths alleged to have resulted from hazing, it might be well for students at Illinois to give the matter a thought. Fortunately, the campus here has not been the scene of hazing for a number of years. This is the state university, and we cannot afford to allow it to cast any reflection on the state. Illinois men have found sufficient to do without having to resort to this idiotic diversion.

And since hazing is so frowned upon here, it might be well for Illinois students to give thought to the manner in which a number of initiations are carried on. They cannot be classed as hazing in the strict sense of the word, but they are not of the proper sort. A number of fraternities use ridiculous methods of initiating their neophytes into the fraternal bonds, and while many of them use methods that border closely upon the brutal, they do not do so in the open. Others use the same methods in public.

We wonder whether the wielding of a paddle upon a man impresses him with the love of the men who have chosen him to become a member of the organization. We doubt that it does. We wonder if being humiliated, even physically injured, has any special influence upon his devotion to the men who are manhandling him. We doubt that, too.

We watched a public initiation of the pledges of a representative organization recently. We watched the absurd procedure with a good bit of disgust, and we marveled at the pledges in retaining their ribbons instead of tearing them from their coats. We noticed one member of the organization in particular when he was initiated, yet who was one of the hardest in his treatment of this year's crop. If there is no more improvement than that from one year to the next, we pity next year's men.

It is time to curb such nonsense. Illinois stands for a civilization slightly above that suggested by these men.—Daily Illini.

A new explosive has been invented. It is a preparation consisting of sawdust and ammonium nitrate and it is possible to make it to sit at one-third the cost of commercial dynamite as neither of the two principal materials are expensive.

A private in the United States Marine Corps can assemble a Browning automatic rifle in one minute and seven seconds blindfolded.

Representative Martin L. Davey, of Ohio, has a novel way of keeping in touch with his constituents. Mr. Davey has opened a temporary office in each of the counties of his district to receive the "complaints of taxpayers." He will meet his constituents, hear their complaints, and transmit them to Washington.

Ancient wall writings have been found in a hitherto inaccessible part of the Grand Canyon by a party of explorers. The discoveries were made about 50 miles from El Tovar, Arizona.

S.S.S. stops Rheumatism

And with it pain and its probability of reaching the heart.

"Rheumatism? Me? No, indeed, it's all gone, every bit of it! It's sunshine and joy for me now for the first time in years. I feel a wonderful glory,

"My Rheumatism is all gone."

again in the free motion I used to have when my days were younger. I look at my hands and think of the twists and swellings they used to have. I bend way over to the floor. I haven't been able to do that in many years. I can thank S. S. S. for it all! To me it was a rising sun of joy and liberty. Brothers and sisters in misery, do not close your eyes and think that health, free motion and strength are gone from you forever! It is not so. It is here and now for all of you. S. S. S. is waiting to help you." There is a reason why S. S. S. will help you. When you increase the number of your red-blood-cells, the entire system undergoes a tremendous change. Everything depends on blood-strength. Blood which is minus sufficient red-cells leads to a long list of troubles. Rheumatism is one of them. S. S. S. is the great blood-cleanser, blood-builder, system strengthener, nerve invigorator. It stops skin eruptions, too, pimples, blackheads, acne, boils, eczema. It builds up run-down, tired men and women, beautifies complexion, makes the flesh firmer. Start S. S. S. today. It is sold at all good drug stores. The larger size is more economical.

S.S.S. makes you feel like yourself again

Attention Students!

Do your trading at the Canyon Supply Co. We carry everything in Dry Goods, Clothing, Millinery and Groceries. We have had a steady growth in business for the past 18 years. We carry lines and make prices that move the merchandise at all times.

Hart Schaffner & Marx Clothes, \$25.00 to \$40.00.
Style Plus Clothes, \$18.00 to \$30.00.

Howard and Foster Shoes for Men, Drew Shoes for Women, Buster Brown's for Boys and Girls.

Sunshine line of Ladies' Coats and Suits, Munsing Underwear, Black Cat Hosiery, Eagle and Nofade Shirts, Stetson and No-name Hats. Every line we carry represents quality.

GROCERIES

\$10,000.00 stock of Staple and Fancy Groceries, and at prices that meet all requirements and keeps this department busy at all times.

Our Grocery business has increased 25 per cent to one-third in the last 90 days. There's a reason, People. Get our prices. Grocery phone 25; Dry Goods phone 27.

- Roxie Robbie Knox.
- Grover C. Carver.
- Era Baggott.
- Joel Reagan Harrell.
- Vera Alma Thompson.
- Jesse Guy Thompson.
- Mary Lee Burleson.
- Blanche R. Scott.
- Lemora E. Waddill.

**Annual Banquet Ex-
Students Features the
Commencement Week**

Most of the Cousins Hall girls lunched in small groups about the campus Friday evening when more than one hundred persons, for the most part ex-students, gathered for the annual banquet of the Ex-Students Association in the big dining room of the girls' dormitory.

Preceding the banquet, at five o'clock in Room 211 of the College building, was a short business meeting in which Miss Mattie Swayne was re-elected president of the Association. The other officers elected are:

- First Vice President—Herman A. Glass.
- Second Vice President—Nettie Cobb.
- Third Vice President—Alvis Lynch.
- Secretary—Jeff D. Smith.
- Treasurer—Vivian Coffman.

A short social period in the reception hall followed the business session, and many old acquaintances were renewed. The new members were presented to the students of former years.

After a delicious dinner of eight courses, Miss Swayne, who acted as toast-mistress, introduced Mrs. Tommie Montfort. Mrs. Montfort welcomed the visitors and new members, and praised the excellent work of the president and other officers. She told of the way in which the ex-students are being brought together in common undertakings.

Frank McLaughlin spoke on "What It Means to Be Back." He was a member of the class of 1912, and recalled vividly the early classes, some held in the Canyon courthouse, some in the incomplete administration building. He urged that the ex-students be more active in their communities and asked that all present meet him at the next annual banquet. Mr. McLaughlin is now a banker at Ralls.

"County Organization of Ex-Students" was the topic of Frank Day, now County Attorney at Plainview. Mr. Day emphasized the personal benefits to be derived from county clubs. He suggested that by close cooperation of ex-students the needs of the college could be better impressed upon the legislature.

J. J. Powell told of the Ex-Students Loan Fund, established through a donation of \$500 by Mr. W. C. Hogg of Dallas. The fund is operated under a state charter and will be added to as rapidly as possible.

The history and description of the proposed Mary E. Hudspeth Hall, "the gift of love and appreciation to Alma Mater from her faithful children," was given by Miss Anna L. Hibbetts. Miss Hibbetts pictured the home life which will make the hall a haven of rest and quiet for worthy girls, and asked for renewed efforts in finishing the project.

President Hill, expressed his appreciation and approval of the activities of the ex-students, and outlined the things which can yet be accomplished. He stated that he hoped to see an active ex-student organization in every county in this section of the state. The college will send speakers to every local organization at least once a year, and assist in other ways. Mr. Hill especially stressed the fact that graduation should not mean the severing of relations. The college hopes to keep in touch with each student and to be helpful always, instead of a few years. It is through the Ex-Students Association that plans can best be made and presented to local organizations.

**NEW YORK PIER
PIRATES DARING**

Waterfront Freebooters Are Proficient at Looting Cargoes of Vessels.

TAKE BIG FORTUNE IN GOODS

Modern Thieves, With Value of Loot Mounting to Fifty Millions a Year, Make Captain Kidd Look Like Mere Piker.

New York.—None of the thousands who live quietly in the cramped apartments and narrow houses of New York city have any first hand knowledge of robbery, beyond enforced association with rent thieves, coal highwaymen, and mercantile crooks.

They will, therefore, be surprised to discover that the populous waters about the city yield more than \$50,000,000 every year to the modern pirates and sea rovers. All the buccaneers of antiquity, whose names and deeds are written fast into the texture of memory, never approached such capitalistic magnitude.

Government Wages Campaign.

The modern thieves steal more each month than Captain Kidd is said to have accumulated out of all his daggers. In the last few years the federal government has waged a campaign against these thieves, aided by the railroads which deliver goods to tidewater, the owners of ocean-going ships and harbor craft, the companies operating piers and docks and, particularly, by the great marine insurance companies.

A number of gangs of river and harbor pirates have been broken up and a trickle of the robbers has run into the prisons, but the losses are as great as ever and promise to increase. Probably three-fourths of the stealing near New York city is aimed against exports.

The merchandise is consigned to Europe, to Asia, to Africa, to the furthest isles in the southern seas, and the outermost ports and lands. It may be months in transit. If part of a consignment is stolen who is to discover the crime until the bales and cases arrive at their far-off destination and are examined by receivers?

Pier Officials Go Crooked.

One of the typical ways of accomplishing such robberies is made clear by the case of a silk goods exporter of Fourth avenue, New York city. Five heavy cases of merchandise, valued at close to \$40,000, were sent to a pier to be loaded for South America. The cases got into the hands of a truckman who was working with the harbor thieves.

He took the cases to the pier, got a signed bill of lading from the shipping company, turned his truck about and drove off the pier again without even unloading. The trick was accomplished, of course, by means of collusion. One of the officials of the pier was working with the thieves and he had supplied the truckman in advance with a pass, which the guard at the land end of the pier was bound to recognize.

SMALLEST SHRINER

The smallest midget and the smallest Shriner in the world, known as Major Mite, caused more excitement when he called at the White House recently than many a notable has done. He declared he'd like to be a cameraman but found that he was but little taller than one of the average size cameras, being only 28 inches in height and weighing only 22 pounds. Major Mite is eighteen years old.

Lake Low; Blame Beavers.

Middletown, N. Y.—Shortage of water in Electric lake, near Branchville, N. J., which has caused much inconvenience to the borough lighting plant has been traced to the operation of beavers. The animals have diverted a considerable amount of water from its natural channel by constructing dams.

Asks Planes Keep Away From Church.

Santa Monica, Cal.—An appeal to city authorities to prohibit airplanes from soaring over his church during services has been made by Rev. W. H. Cornett, pastor of the First Presbyterian church. He says the splutter of the engines throws the hymns sung by his choir sadly out of harmony.

WANTS 13-CENT STAMP

College Class Shows How U. S. History Is Bound Up in "13."

Post Office Department Petitioned to Issue Stamps of That Denomination Again—Gives Some Interesting Facts.

Washington.—Postmaster General Work has received from members of the American history class of the Shepherd college state normal school, Shepherdstown, W. Va., a petition that the Post Office department again issue stamps of the 13-cent denomination, which was recently abandoned.

The petition declares the entire history of the United States is bound up in the figure 13 and gives the following historical reasons why the 13-cent stamp should be issued:

America was discovered on the night of the 13th of the month.

The republic originally consisted of 13 colonies.

The first official flag had 13 stars and 13 stripes.

The American eagle requires 13 letters to spell it, as does also the motto, "E Pluribus Unum."

The first word to pass over the transatlantic cable was transmitted on the 13th of the month.

The silver quarter is written all over with 13. Around the head of Liberty are 13 stars; the eagle bears an olive branch with 13 leaves in one claw and 13 thunderbolts in the other. On his breast is a shield bearing 13 bars and in his beak is a ribbon bearing the motto with 13 letters, each wing has 13 feathers and it takes 13 letters to spell quarter dollar.

There are 13 letters in John Paul Jones' name.

There were 13 ships in the first American navy.

Perry's victory on Lake Erie was won on the 13th of the month.

The Stars and Stripes were raised over Fort Sumter on the 13th of the month.

General Pershing arrived in France on June 13, 1917.

The Thirteenth amendment to the Constitution freed the slaves.

It would not cost any more to make a 13-cent stamp than any other one.

The petition to Postmaster General Work also suggests several designs for the stamp, all commemorating the 13 colonies.

FIND PREHISTORIC BUILDINGS

Ancient Homes on Isle Royale Believed to Have Been Used by Copper Miners.

Port Arthur, Ont.—The remains of homes believed to have been used by prehistoric copper miners, have been found on Isle Royale, in Lake Superior, says William P. Ferguson, archaeologist, of Franklin, Pa.

"Mining was in progress there at least 1,000 years ago; how much longer we do not know," says Ferguson. "We found pine trees six feet in diameter growing on the ancient rock dumps. There is an area two miles long and half a mile wide, over the whole of which we found remains of human habitations."

"There were larger pits which had been dug for homes. They ranged from eight to ten feet deep and were protected by carefully built stone walls which kept them free from water. The people incidentally used common dwellings in some instances, at several of the pits were 20 by 40 feet and one, which may have been a fort, was 20 by 50 feet."

"These people mined in solid rock the whole island over, but did not dig their shafts more than 20 or 30 feet deep. Their tools were black egg shaped stones of great hardness, such as are found on the north shore of Lake Superior but not on Isle Royale."

SMYRNA ARMENIAN LOSS BIG

Twenty Millionaires Penniless—23,000 Missing or Made Prisoners by Turks.

Athens.—The losses of the Armenian community in Smyrna total \$18,000,000, according to a tabulation made by a committee under the direction of the bishop of Smyrna.

Sixty millions of this total is in real and personal property, and the remainder in intangible assets like stocks and bonds in Armenian companies operating in Asia Minor. The annual income of 8,000 Armenian families in Smyrna used to be \$7,500,000, of which it is declared that 15 per cent was given to charities and to the church.

Smyrna, which was the richest Armenian community in the world before the coming of the Turkish army, had 20 millionaires, but today every one of these men is virtually penniless. The largest losers are the land owners, textile importers and exporters of fruits, cereals, carpets and opium.

The number of Armenians killed in Smyrna, according to the committee, is 4,000, and the number of persons missing or made prisoners, is stated to be 8,000 men and 15,000 women.

The most prominent Armenian business men killed were Sarkis and Kasparian, land owners, and Gurunlian and Panossian, textile merchants.

GRAPES

Rich, ripe, healthful grapes, grown in the famous vineyards of Southern Europe—produce the cream of tartar from which Royal Baking Powder is made.

The most eminent authorities in the world say cream of tartar makes the best and most healthful baking powder.

ROYAL Baking Powder

*The ONLY nationally distributed
Cream of Tartar Baking Powder*

Contains No Alum—Leaves No Bitter Taste

CAFE CHANGE

"It is always too much oil or too little," says a man of experience in the oil business. Just now the overproduction of crude oil in California is forcing extensive shutting in of wells, and the surplus of oil is large all over the country. In spite of that the oil companies must keep up intensive drilling in order to prevent their field from being drained by competitors on adjoining property.

A bad taste in the mouth comes from a disordered stomach and sluggish state of the bowels. Herbine corrects the trouble immediately. It purifies the bowels, helps digestion, and sweetens the breath. Price, 60c. Sold by City Pharmacy. 1014

Word was received last week that Mr. Nor Shelton had left Lockney and had gone to his father's home in Hunt county. His health is no better.

HAD OPERATION ON FOOT

Mrs. J. A. Price had an operation on her foot Monday in Amarillo. She will not be able to walk for a month or more.

Mr. and Mrs. Price returned last week from a month's visit at their old home in Mississippi.

COUNTRY WOMAN'S CLUBS

The Country Woman's Club members met at the home of Mrs. H. J. Kraemer. A fine dinner was served, and ice cream and cake were served in the afternoon. Everybody reported a good time.

Since tennis has become so popular as a spectacle it has been suggested that the system of scoring be so changed that matches will not be so such indeterminate length. Frequently championship matches have to be postponed to the day after that for which they were set because the preliminary matches take so much time. One proposal is to abolish deuce sets, the winner of a set to be the player that first wins nine games. In that way a three set match would never comprise more than fifty-one games, whereas there is now no limit.

A power company in Sonoma County, California, is undertaking to harness the volcanic heat of a group of geysers and to use the steam to run engines that will generate electricity. The first geyser, tapped by a diagonal boring, yielded one hundred and fifty horse power at the engine, though errors in drilling made only about half of the steam available. It is thought that better methods will take as much as ninety percent of the steam from other geysers to be tapped.

A company that controls a chain of hotels extending from coast to coast will install a "meditation chapel" in each one of them. As the name implies, the first purpose of the chapel is to provide the guests with a place to which they can withdraw at any time for spiritual reflection. A radio instrument will furnish the service and the music on Sunday mornings.

A truly "modern museum is one to be built at Merion, a suburb of Philadelphia. It will house a large and costly collection of paintings, none of which will be of a date earlier than 1870. The building, though on the scale of the great older museums will have rooms ranged like studios instead of galleries and corridors.

Help Keep Canyon Clean!

SERVICES AT BAPTIST CHURCH

Rev. R. F. Jenkins of Amarillo will fill the pulpit at the First Baptist church both Sunday morning and night.

ALL SAINTS' EPISCOPAL CHURCH

Rev. E. H. J. Andrews, Rector. Second Sunday after Trinity. Holy Communion, 11 a. m. Evening Service, 8 p. m. All are cordially invited.

PRESBYTERIAN CHURCH

There will be preaching at eleven o'clock Sunday morning and eight o'clock Sunday evening at the Presbyterian church. A pastor will be secured by that time, and regular services held thereafter. The name of the new pastor could not be learned before the News' went to press.

LUTHERAN SERVICES

Keenan School. Sunday, 11 a. m.

Subject of the pastor, J. H. C. Seick will be: "PRAYER, how, when, and where we should pray."

A graded Sunday School has been organized by the new pastor who also conducts a Teachers' Training School which assures efficient teachers for the Sunday School.

Sunday School at 10 a. m. The Berea Bible Class meets at 8 p. m. Sunday evening.

PRAIRIE STAFF IS ANNOUNCED

Bill Falls is Editor-in-Chief of The Prairie for the summer session, according to a recent announcement. Irby Carruth will be business manager. A complete staff is being organized.

Mr. Falls was a member of the Annual Staff this year, and has assisted The Prairie staff in special editions. Both he and Mr. Carruth have been active members of the College Press Club since its organization last January. They will issue The Prairie every two weeks.

BUFFALO HANDBOOK OUT

The Buffalo Handbook was completed by The News this week in time for the "Ys" to hand the booklets to the incoming students.

The pamphlet was prepared by Editor Evetts Haley and Business Manager Olin E. Hinkle, assisted by corps of students. It is composed of 50 pages and cover, with a number of illustrations.

A new kind of field glass picks out khaki-clad figures as easily as if they were dressed in bright red. The lenses disintegrate the blend of red, orange and green light and so make the soldier's figure stand out sharp and clear.

The Fourth is coming. Would that we could make it glorious by declaring our independence of our faults, individual and national.

If your door yard does not look well to you, it certainly does not look any better to your neighbors.

See that Cecil B. De Mille is to film the Ten Commandments. Fair enough. Some record of them should be preserved for our children.—Toronto Star Weekly.

Perhaps De Valera can't run Ireland, but he sure can run.—Manila Bulletin.

Cases of oak or ivy poisoning should be treated with Ballard's Snow Lintment. It is antiseptic and healing and a splendid remedy for such troubles. Three sizes, 30c, 60c and \$1.20 per bottle. Sold by City Pharmacy. 104d

What Demands May We Justly Make of That Literature Which Asks to Obtain or Keep a Place in the Curriculum of Today?

By AUGUSTA LAWRENCE, in Texas Outlook.

1. That it shall properly interpret some of the things of the life of today which the ordinary man needs to have interpreted for him as a part of his equipment for life.
2. That it shall give him better knowledge of his own country and deepen his love for her.
3. That it shall open his eyes to her needs, political, social, economic.
4. That it shall give him some knowledge of other peoples and other lands that he may be, not only a citizen of the United States, but of the world.
5. That it shall lead him to form a proper conception of our government and his relation to it.
6. That it shall cultivate a proper pride in America, and develop a sense of the responsibility of being an American citizen.
7. That it shall cultivate a proper pride and feeling of responsibility as a member of the Anglo-Saxon race.
8. That it shall instill a spirit of world-neighborliness.
9. That it shall give such a knowledge of the growth of our ideals and principles as is necessary for a basic understanding of these in their relation to human development in order that he may work intelligently toward the further establishing and extending of these ideals and principles.
10. That it shall cultivate love of truth, justice, mercy, unselfishness, courage.
11. That it shall lead the pupil to see and to love the good and the beautiful.
12. That it shall train him to think truthfully wherever found, more clearly and logically.
13. That it shall enable him to express more clearly and effectively his own thoughts and opinions.
14. That it shall train his judgment and taste.
15. That it shall open for him a wide field for innocent enjoyment which shall make him less likely to become a lover of the low, vicious forms of entertainment.
16. That it shall give precious thoughts which may be stored in memory; so that, as they are needed, this rich householder may bring forth from his storehouse "things new and old."
17. That it shall have real human interest which shall draw men closer to each other—help them to feel the oneness of humanity.
18. That it shall lead the pupil to rejoice in his privileges and responsibilities as a brother of mankind, a son of God.
19. That it shall lead him to find God in nature, God in man, God everywhere.
20. That each part shall, in some way, contribute toward bringing about the result: "His life was gentle; and the elements So mixed in him that Nature might stand up And say to all the world, This was a man!"

If any story, poem, essay, or what not, clamoring for a place, can prove conclusively that it does even one of these things better than something else, then let it come in. If anything of what we have in our course cannot justify its position on one or more of these grounds, then let it move down and out, and give place to the more worthy.

But let us not in our zeal for the new forget that the roots of our civilization are deeply imbedded in the best literature of all peoples and times, and that if we cut off too many of these roots, we shall cut off the life

Child-birth

Here is a wonderful message to all expectant mothers!

When the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend." Mrs. C. J. Hartman, Scranton, Pa., says:

"With my first two children I had a doctor and a nurse and they had to use instruments, but with my last two children I used Mother's Friend and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes." Use "Mother's Friend" as our mothers and grandmothers did. Don't wait, start today, and mothers will write to Bradford Engstler Co., B.A. 46, Atlanta, Ga., for a free illustrated book containing information every expectant mother should have. "Mother's Friend" is sold by all drug stores—everywhere.

TO BECOME A MEMBER OF THE 'PADLOCK CLUB,' JUST PLACE A LITTLE PADLOCK ON YOUR LIPS WHEN YOU THINK THERE'S ABOUT TO DO A LITTLE KNOCKING OR SPREAD A BIT OF SCANDAL. THAT'S ALL!"

She has a greater fight at home now—to make democracy safe for the world. A great part of this battle must be fought in the public school, and no man share of it must be won by the teachers of English. Much in education, in government, in social life, in the management of industrial affairs must unquestionably be "scrapped," but let us use discretion and wisdom and see to it that it is the rags and not the gold, which we cast away. Everything in our educational system

must stand fairly and squarely upon question: "What are you worth in the life of a man of today?" and by its its feet and answer, intelligibly, this ability to answer this question it must stay or go.

Resolutions protesting against the encroachment of private enterprise on the national parks in the western states were passed by the first national convention of the Izaak Walton League of America recently held in Chicago. The league is fighting earnestly to stop pollution of running streams, to halt deforestation and to save wild animals of all kinds, as well as to maintain an adequate supply of game fish. Certain interests are rapidly destroying the beauties of the streams and the wild life in the parks, and Congress will be asked in the interest of the whole people to stop further inroads by corporations of his type.

A Federal dispatch from Moscow announces the establishment of a new bank in Petrograd, which, like other Russian banks, accepts paper money deposits on a gold basis. That is, if a deposit of 50 rubles is withdrawn when it has fallen 50 per cent from the gold value when deposited, the owner receives 100 paper rubles for it. If the ruble rises he gets fewer on withdrawal.

The inhabitants of the Fidsyi Islands in the Pacific South Sea believe that trees and coconuts have souls.

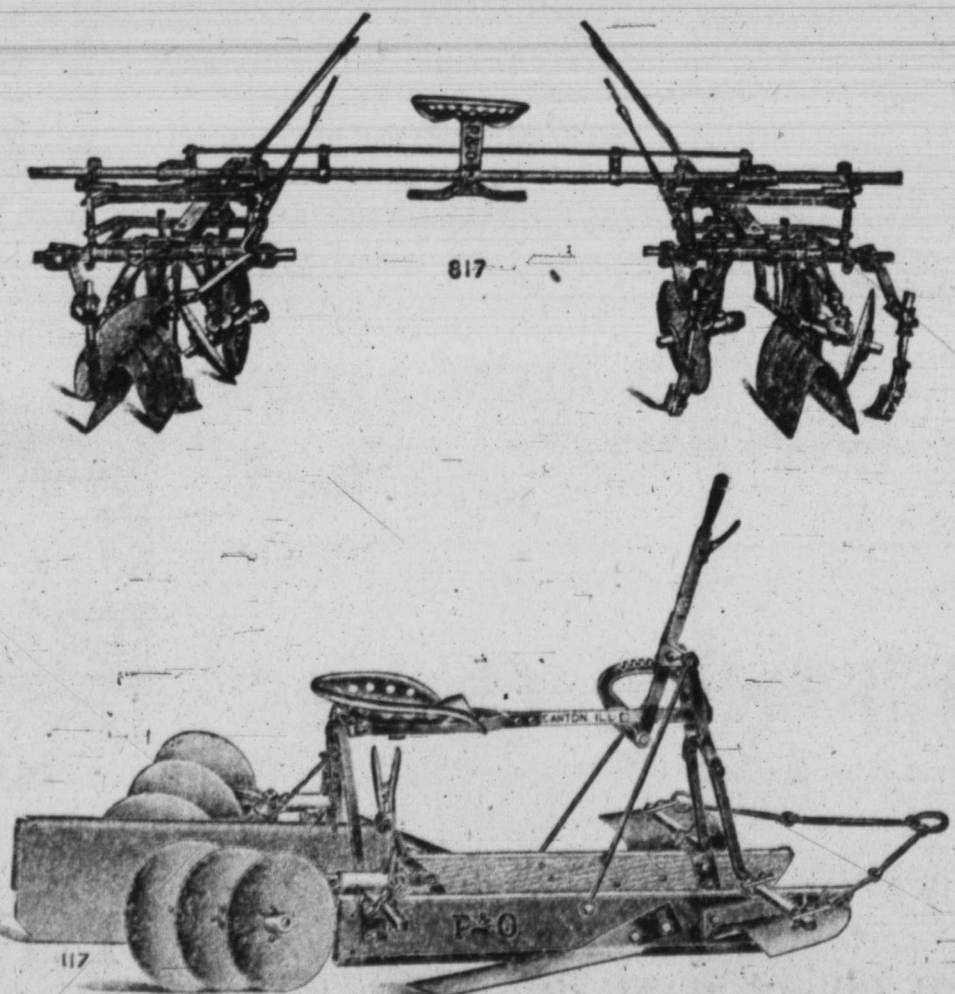

If you have reason to think your child is suffering from worms, take the safe course—use White's Cream Vermifuge. Worms can not resist its expelling influence. Price, 35c. Sold by City Pharmacy. 1044

Fordson

THE UNIVERSAL TRACTOR

Henry Ford

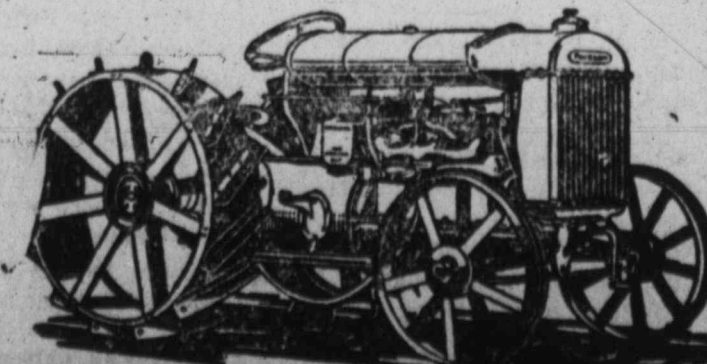

HENRY FORD was 35 years getting ready for the new price on the Fordson. He started as a farm boy, planning to get rid of the drudgery, long hours and low money return that has always faced the farmer.

He wanted to furnish you with a tractor that would not only do your work better and faster, but at lower costs—and the 170,000 Fordsons now in use have proved that he has accomplished these things.

What you get in the Fordson for \$395 f. o. b. Detroit is the greatest farm power unit ever offered.

Let us show you how a Fordson will cut farm costs, increase your bank account and take the drudgery out of farm work. Write, phone or call.

THE BREAD MAKING METHODS

of the old Romans may have been satisfactory to the people of their day, but such methods would not suit the fastidious taste of the people of this community at the present time.

Our bread does satisfy the people of this community because it is wholesome, is scientifically made in a sanitary bakery, and is everything that the best bread should be. It has the desired home flavor.

CANYON STEAM BAKERY

We believe now is the proper time to put your Winter Coal supply in. The price is lowest this month. The quality is the best. Don't forget your experience last fall on poor quality coal.

A wise man never gets stung in the same place twice.

LET ME TELL YOU ABOUT IT

W. J. FLESHER

CANNIBALS HERE 4,000 YEARS AGO

Scientist Finds Portions of Human Skulls in Mounds Near Omaha.

RESEARCHES ARE IMPORTANT

Declares Peace-Loving Race Inhabited the Mid-West Section of America Prior to Time of Indians.

Omaha, Neb.—In an effort to obtain evidence to support his belief that Nebraska was inhabited 4,000 years ago by cannibalistic cave men, Dr. Robert F. Glider, doctor of science, known throughout the West for his desert landscape canvases, has begun excavating a short distance south of Omaha. Permission was granted him after a dozen years of effort to induce owners of the land to permit the excavations.

The site of the excavations is marked by several eroded mounds which the scientist believes were community houses of the Omaha or Pawnee Indians. It is his theory that these mounds were built upon the foundations of the houses of the earlier tribe, possibly ancestors of the Mid-West Indians. In support of this belief, he has discovered that the upper structure—declared by him to have been built with mud and stone sides covered with thatch—had an entrance on the south, whereas the lower excavations clearly show entrances from the east.

Finds Bones of Men.

Using the Darwinian accumulation theory—one inch of earth to each century—Doctor Glider calculates that he has reached the 4,000-year-old surface level and there he has discovered portions of human skulls, arm and foot bones.

His discoveries include ashes, declared by him to be roasted human bones. From this he evolves the theory that the early inhabitants were cannibals. Some thirty or forty implements of bone and wood he has found are almost identical with creations unearthed by European archeologists, who have ascribed their age as preceding the historic.

Peace-Loving Race, He Says.

"We have established the fact," declares the doctor, "that there lived in this portion of the North American continent a peace-loving race prior to the time of the Indians, as we commonly apply the term. I deduce this from the fact that the houses were large enough to accommodate from ten to twelve families and that the dwellings are separated by considerable territory. If the race had been warlike, the individuals would have felt a common desire for close association and would have built houses in groups for mutual protection."

RADIUM IN NEW HAMPSHIRE

Edward Caron, a French-Canadian miner from Montana, has discovered radium in a mountain at Berlin, N. H. He has prospected with such success on a lot of woodland he purchased recently as to attract the attention of the United States bureau of mines. Engineers will investigate to determine the extent of the radium deposit. Caron is shown here with samples of the minerals he found on his property. In his left hand he holds a specimen of uranium, which contains radium. In his right hand is a specimen of beryl.

Wolves Menace Farmers.

Warsaw, Ind.—Terrorized by the appearance of a flock of wolves driven from a swamp near here by fire one morning recently, farmers kept their children indoors while others, with rifles and shotguns, accompanied their youngsters to school. Drivers of school hacks also were armed.

While Roy Tople went to a field at the edge of the swamp to dig potato toes a large hound accompanying him was killed by six wolves. Cattle, sheep and hogs recently have been attacked by wolves. Families were organizing for a wolf hunt in which several hundred persons will participate.

Tenants Get Landlord's Estate.

Los Angeles.—Tenants of George Leow, who died recently, learned they were his heirs. His estate, valued at \$25,000, consists of five houses, which were devised to the families occupying them. He was survived by no known relatives.

Garbage Wagon Horse Is Blue Ribbon Winner

New York.—From the shafts of a garbage wagon to Fort Riley, Kansas, a chestnut gelding dubbed Submersible by a buck private who sometimes drove him to a post laundry wagon, leaped into fame at the national horse show as a blue ribbon winner, capturing the coveted championship for chargers.

The former laundry horse might still have been going the dull, routine rounds at the fort but for the eye of a lover of horse flesh, who saw possibilities in the animal. Submersible was relieved of his arduous tasks, the unkempt tail and the long mane got better attention.

BANDIT HERO IN CUBA

Popularity With People Makes His Capture Difficult.

Escapes From Mantanzas Jail by Blowing Hole in Wall at Midday—Sentences Totalling 200 Years Hang Over His Head.

Havana, Cuba.—With sentences totalling 200 years in prison hanging over his head and 250 troops and rural guards at his heels, Ramon Arroyto, Cuba's modern Jesse James, is still at large. His latest feat of escaping from the jail at Matanzas through a hole blown in the thick walls at midday has again made him a popular hero and added to the difficulties of the authorities, for they claim nobody will help them follow his trail. Arroyto took to the high road about three years ago, and if the hold-ups, kidnappings and other unlawful acts attributed to him are well founded, he operated in every part of the island before he went into retirement after two years of hectic endeavor, and with a fortune variously estimated at from \$50,000 to \$200,000. But last spring, while very prosaically traveling from Matanzas to a nearby village to attend a cock fight, he was captured by two rural guards, acting as a train escort, who held him first for carrying arms without a license, but loaded him with chains when they discovered he was the notorious outlaw.

Brought to Havana, Arroyto was greeted by thousands at the railway station and his trip to the city jail resembled a triumphal procession. While being tried and convicted on numerous counts he perfected his plans for breaking loose from jail, and only the accidental presence of a mounted policeman on the harbor side of the jail prevented a clean getaway three months ago.

His escape from the Matanzas jail, where he was lodged to await trial for kidnaping, is credited to a former pal, Julio Ramirez, whom Arroyto once rescued from jail at Jaruco by holding up the warden and turnkeys single-handed in broad daylight.

AFTER GOAT, BUT GOT BABOO'

Ape Drops From Tree Into Surrey Driven by Woman on Long Island.

New York.—While Mrs. Samuel Powell, wife of a Babylon (L. I.) letter carrier, was driving to Capriague in a surrey, a baboon dropped from a tree to her shoulders in a back road near the village. Her screams were heard by an unidentified hunter, who came on the run and shot the monkey dead.

Mrs. Powell carried the carcass to Babylon, where she exhibited it. She will have it stuffed.

Mrs. Powell was on her way to Capriague to buy a goat.

Aid Breathing 66 Hours; Lives.

New York.—After 66 hours of artificial respiration, Simon Shultz, 16, of Brooklyn, with paralysis resulting from a broken neck, regained his normal breathing and is on the road to recovery, according to a statement issued by the orthopedic hospital authorities.

The boy sustained a broken neck when he dived into shallow water at Coney island.

Boy Kills Brother in Wild West Game.

Austin, Pa.—Playing "wild west" cost the life of Raymond Keene, thirteen years old. Picking up a revolver which he thought was not loaded, Robert, Raymond's brother, aimed and pulled the trigger. The bullet pierced the boy's heart, killing him instantly.

Woman; 62 Years Old, Mother of Quintuplets

Dr. Ernest C. Levy of New York city, president of the American Public Health association, announces what he terms the strangest case known to medical science. It was the birth to a sixty-two-year-old woman in Venezuela of five normal children within eight hours. The mother worked as a laborer in a mine until two hours before the births.

TOPICS IN BRIEF

Among the ships that are being converted to oil is statesmanship.—Pater-son News.

Olive branch will no longer serve as an emblem of peace; there's oil in it.—Wall Street Journal.

What a backward country China is! Its bandits haven't yet begun to use taxicabs.—Brooklyn Eagle.

If France will only wait a little while the German offers will be offers to accept an indemnity.—New York Tribune.

Correspondent suggests that one way to send sugar prices down might be to send profiteers up.—Pittsburgh Sun.

The trouble seems to be that Mexico can't get along without American capital and can't get along with it.—Pas-saic News.

If the French really want a permanent advantage they should seize the German stork as well as the mines.—Wall Street Journal.

Another explanation is that the people's representatives have no definite instructions, while the lobbyists have.—Marion Star.

It's going to be hard for us to arouse much enthusiasm over the sugar boycott until the strawberry shortcake season is over.

Vice President Coolidge made a speech in Massachusetts the other night, and, in touching on the issues of the day, cautiously lauded the Y. M. C. A.—Dallas News.

Chief difference between this and past generation is that patches have been changed from trousers to tubes.—Wall Street Journal.

Germany won't offer more money, but it will explain its explanation.—Philadelphia Record.

What seems to puzzle the Germans most is why they can't fool the rest of the world as easily as they fool themselves.—Indianapolis News.

Some of these English-speaking Chinese bandits must have gotten their holdup idea while running laundries in this country.—Pittsburgh Sun.

Scientists can magnify the human voice 12,000 times, but they seem unable to do a darn thing for the voice of conscience.—Brockville (Ont.) Recorder.

The only thing that works twenty-four hours on a stretch in these soft times is a rubber band.—Binghamton Sun.

\$5.00 enrolls you in the Ford Weekly Purchase Plan. See Kuehn & Farlow, Authorized Ford Dealers, if CORONA typewriter ribbons at the News office—50 cents each.

NORTHERN TISSUE—A reduction in price has been received on this high grade toilet paper. It is absolutely the best toilet paper made, nationally advertised, and guaranteed to be free from all chemicals. It costs only a little more. For sale at the News office. 23ct

NO BETTER MADE—There are no better brands of typewriter ribbons and carbon paper made than the ones handled at the News office. Every ribbon and every sheet of carbon sold on a positive guarantee. The News supplies the big users of Canyon with ALL THEIR CARBON AND RIBBONS.

"A kind for every purpose"

MULTIKOPY Noiseless

Made especially for use on Noiseless Typewriters. Produces beautiful, clear-cut copies of good color strength. Copies will last as long as the paper holds together.

MULTIKOPY Underwood Fan Fold

Send us samples of your copy paper and number of copies you wish to produce, and we will prescribe a carbon for your Fan Fold machine that will give you the greatest satisfaction.

MULTIKOPY Royal Quiet

This carbon paper is made especially for use on the Royal Quiet Model. Produces copies of fine color strength, and gives the greatest satisfaction on this machine.

Ask your stationer for your kind of MultiKopy. If he cannot supply you, write to our nearest warehouse. A kind of carbon paper and typewriter ribbon for every purpose and every pocketbook.
