

RANDALL COUNTY NEWS

VOLUME XXVII

CANYON, RANDALL COUNTY, TEXAS, THURSDAY, OCTOBER 4, 1923.

NUMBER 27

COUNTY VALUES HIGHER THAN IN THE PAST YEAR

\$5,060,604 REPORTED ON THE COUNTY TAX ROLLS.

Increase of More than Hundred Thousand Dollars Made by Assessor in Personal Property.

Tax Assessor Tom Reddell has completed his tax rolls for the year and turned them over to the Collector, W. C. Black, who is now receiving taxes for the year. Taxes become delinquent after the last day of January.

Mr. Black states that he finds on the rolls this year a total valuation of \$5,060,604. This amount is more than a hundred thousand dollars greater than the assessed valuations of last year. Most of this increase is on the personal property of the county.

The tax rate this year is the same as last year, one dollar on the hundred dollar valuation.

ORGANIZED LEAGUE

An Intermediate League was organized Sunday evening at the Methodist church by Mr. and Mrs. R. I. Graves. Eleven boys and five girls were present. The ages for the League are 14 to 18 years. The League meets at 6:45 o'clock Sunday evenings and invites all within these ages to attend. The following officers were elected:

President—Miss Willie Beavers.
Vice President—Jno. Tom Wiley.
Secy.—Treas.—Miss Corrine McReynolds.

LOST FOUR DOZEN LANTERNS

Harry Mathews, foreman for the Panhandle Construction Co., stated to the News Tuesday that he has lost four dozen lanterns since starting the paving on Houston street. The lanterns have a habit of walking off during the night when they are posted as sentinels along the way of construction to warn traffic of danger. Harry says that he has a big can of oil left which he wishes the lanterns would return and take along with them.

BROTHER DIED IN OKLAHOMA

R. I. Graves, cashier of the First National Bank, received a telegram Sunday that his brother George W. had died Saturday night at his home in McAllister, Oklahoma. The funeral was held Tuesday, but Mr. Graves was unable to attend. His brother had been ill for several months.

John L. McCarty and wife have returned to school, and John has accepted a position as newspaper publicity man for the College. John has resigned his position as Sports Editor of the Amarillo Daily News. He was formerly a correspondent to a number of daily papers from this place, and is well known as an ex-yell leader of the College.

DANGER IN THE DARK

The Colorado Record which paper has always held a position as a leader for reforms and has always been foremost in hanging out the "danger" sign to young people, commenting on what the grand jury of Tom Green county reported says:

In its report to the district court the Tom Green Grand Jury last week had the following to say about the evils of the joy ride in the dark:

"We desire, also your honor, to direct attention to the parking of cars at night on or about the various highways that lead from the city of San Angelo. It is common knowledge that such a condition exists, and we submit that it is a blot on our civic life and should be stamped out, and stopped as we would a plague.

"In this great land of ours; in the splendid commonwealth of Texas, and in this sun-kissed Concho country, San Angelo and Tom Green County, the home is the very foundation upon which rests every feature of our national, state and civic life, and it stands to all reason that anything, large or small, which tends to undermine the home is tampering with the very tap roots of the American civilization.

"With this base truth before us, we earnestly submit, that every moral safeguard must be thrown around the home to the end that our boys and girls have the uplifting influences that obtain among a highly cultured and dominantly Christian people. Parents should at all times have the confidence and affection of their children and should at all times, day and night have knowledge of their whereabouts and particularly whom their children associate and the places they visit."

The same should be true in Canyon.

ENROLLMENT AT THE COLLEGE WAS 787 YESTERDAY, WITH SEVERAL STUDENTS COMING IN EVERY DAY

The enrollment of the West Texas State Teachers College reached 787 yesterday, according to a report from Secretary Travis Shaw. This record is considerably in the lead of last year at this time, and indications are that the total enrollment of the year will far surpass that of last year, when 1016 students enrolled in the regular session.

The percentage of College attendance this year is much larger than in the past. There are 637 students in the College, and 150 in the training school.

The total number of different individual students who have attended the College since it opened in 1910 is now 9096. As soon as the number reaches 10,000, enrolling students will be started back at number one, as the College authorities do not wish to have the numbers assigned to the individual students too long and hard to remember.

Formal opening exercises of the College were held Tuesday morning with a large attendance of friends of the College. Pastors of the city were invited by President Hill to make their announcements. President Hill made a splendid address on the policies of the College.

JOINED AMARILLO LAW FIRM

Charles H. Keffer has been taken into the Madden, Trulove & Pipkin law firm in Amarillo. Mr. Keffer is well known in Canyon, having graduated at the college in 1917. He joined the colors when war was declared, and was discharged as a captain. He took his law course at the University of Texas, and while there acted as quiz master, graduating in June of last year. He has been practicing law in Amarillo during the past year. Mr. Keffer's home is in Lipscomb county.

Big Rains Continue Almost Daily in the Panhandle of Texas

The rain records now disclose the fact that 17.82 inches of rain has fallen in Randall county since August 16, the first rain of the fall season. The rain continues to fall almost daily, with very few days of sunshine.

Rain started to fall Monday morning at 1:00 o'clock and continued until morning, with one inch falling. There was a very heavy electrical storm during this period which did more than \$400.00 damage to the electric light system of the city.

During Monday forenoon rain amounted to .20 of an inch.

Tuesday morning there was .10 of an inch.

Rain started to fall at 10:00 o'clock Tuesday night and continued almost through the entire night, with a total of 2.75 inch.

The continued wet weather is hard on the farmers who have a big row crop in the fields which need harvesting. Very few farmers have had a chance to plant their winter wheat. Those few who did plant early have the wheat up, and it is doing fine.

Rain is falling as we go to press this morning.

BAPTIST SERVICES

Rev. Lyn Claybrook, pastor of the First Baptist Church, announces the following services for next Sunday:

Sunday School, 10 a. m., Professor John S. Humphreys, Supt.
11 o'clock, sermon, "The Foundation Stone of Our Faith."
6:30 p. m., B. Y. P. U.
7:30 p. m., sermon, "What Constitutes a Fool."

Getting Ready for Poultry Show to be Held in December

T. W. Duffel was out this week getting up a premium list for the Randall County Poultry Show, which will be held in December. He received donations of cash and merchandise premiums from practically all of the business houses of the city.

The Poultry Show last winter was especially good, and it is to be hoped that it will be better this winter owing to the fact that the Randall County Poultry Association is backing the show.

Announcement of the premium list will be made within a short while.

Frost Dope All In Favor of Opening of Cotton

Hereford Brand: Some Doubting Thomas locally having expressed the fear that frost would probably stop the opening of the cotton crop on the Plains this year and that therefore the country would go to the demitition bonnyways, some data contained in the 1923 meteorological summary of the Amarillo Weather Station may be of some interest.

This summary shows, among other things, that the average date of the first killing frost for this country since the year 1882, through the year 1922, is October 24. That's a long way off yet and if the average holds true this year there is ample time for all the cotton here to ripen and mature beautifully. The same summary shows that the earliest killing frost here in all these years was September 22, that the last killing frost was on May 23, that the average killing frost in the spring is on April 16, and that the average growing season here is 196 days. The average rainfall for these years has been 21.68 inches.

So cheer up! Maybe it will come out all right, after all. Folks looking for trouble usually find it, but the farmer who gets out his cotton is the farmer who is optimistic enough to work at it all the time and jumps the hurdles and crosses the bridges as he comes to them.

RESIGNS AS WATER SUPT.

C. M. Ackerman, who has been manager of the city water works for the past 13 years, has resigned his position, which took effect the first of the month. J. H. Turner succeeds Mr. Ackerman, and has as his assistant Earl Ross.

Mr. Ackerman has given the city very efficient service during the time that he has been with the plant. He has not stated his plans for the future.

WEDDING ANNOUNCED

Announcements have been received in the city of the marriage of Miss Anne Bailey to Mr. J. Virgil Moore at Lone Oak, Texas, Monday of this week. Miss Bailey was a teacher in the training school last year, and Mr. Moore is one of the owners of the Moore-Poston Company of Amarillo. Both are well known in Canyon and have many friends who wish them a very happy married life.

SOLD BLOCK HOUSE

S. B. McClure has sold the block house near the College to G. R. Hicker. The house was the property of E. N. Nobles of Minneapolis, who was here this week to close the deal.

STORK SPECIAL

A daughter was born to Mr. and Mrs. A. J. Walker, September 25. A son was born to Mr. and Mrs. H. R. Stone, September 26th.

MARRIAGE LICENSE

A marriage license was issued October 1st to Burt A. Hibner and Miss Margaret Arnold.

Help Keep Canyon Clean.

BILL BOOSTER SAYS

ANY A DEAD TOWN SHOULD HAVE CUT ON ITS TOMBSTONE THIS SHORT EPITAPH, "KILLED IN A FIGHT." WE CAN HAVE AN HONEST DIFFERENCE OF OPINION WITHOUT STARTING A FEUD, SO IF WE MUST FIGHT, LET US FIGHT PEACEABLY!

HIGH TEAM FORFEITS GAME TO FLOYDADA HIGH

OFFICIALS REFUSED TO ALLOW EARNED TOUCHDOWN.

McLean Will Play Here on Saturday, October 13—Hard Game Expected For That Date.

The high school football boys report that it was a case of too much officials, rather than too much football which lost their game with Floydada Friday, when the score stood 20 to 14 before Coach Jim Webb pulled his team from the field in the last period and refused to complete the argument. Coach Webb demanded and secured the removal of one official during the first quarter. Two others seemed bent on seeing that Canyon did not win. The Canyon team was penalized more than one hundred yards during the time of play.

The game was scheduled as a practice game, and a signed statement between the two coaches to that effect was made before the game started.

The first conference game will be played by the Canyon Eagles at the Buffalo Park on Saturday, Oct. 13, with the McLean high school. This is the team which held the Eagles to a 6 to 0 score last year. It is a hard fighting team, and the Eagles are determined to eliminate it from the conference run in the first game.

Donates Baby Beef to the Agricultural Dept. of College

Amarillo News: E. C. Small of Shamrock heads the list of breeders who have donated baby beef cattle to the West Texas State Teachers College for the working out of a new project in the agricultural department, according to Frank B. Phillips, acting head of the department of agriculture.

The proposition which is meeting with favor among the cattle breeders of the Panhandle is that several breeders will donate to the agricultural department calves which will be known as that breeder's calf. The college will give the calf to some student in the agricultural department, preferably some one who is working their way through school. The college will charge the student with the animal's feed and the student will care for it and show it at the Fort Worth Fat Stock Show, where it will be sold and the profit made will go to help defray the student's way in school.

It is pointed out that the calf will give the herd and breeder from which it came advertising of great value. For instance the Aberdeen Angus calf donated by Judge Small will be known as the Small calf.

Prof. Phillips was here yesterday with T. M. Moore, who will teach vocational agriculture in the Teachers College this year. Mr. Moore is from Llano and was formerly at McLean.

COLLEGE BAND STARTS WORK

The College Band appeared Friday afternoon for the football game and played some peppy music for the benefit of the big crowd of rooters. The band during the summer was the best the College has ever had, and the first appearance of the organization shows that it was to be exceptionally strong this year. Regular practices are being held.

RANDALL COUNTY GETS IN ON THE MONEY AT THE TRI-STATE FAIR HELD IN AMARILLO DURING LAST WEEK

Randall County's exhibit at the Amarillo Tri-State Fair last week got into the money prizes, being awarded \$50.

S. B. McClure, manager of the Randall County Fair and manager of the exhibit at Amarillo, states that no attempt was made to follow the score card as to arrangement or quantity of articles for an exhibit. Very little time was taken in getting the exhibit together, and the winning of the place was more by accident than by design.

It was agreed by all who saw the exhibit that the quality of products from Randall county would have won a much higher place in the scale of exhibit had more time been taken to meet the requirement of the catalogue in exhibiting the correct number of articles for each produce.

HOWARD PAYNE-YELLOW JACKETS WILL MEET BUFFALOES IN CANYON SATURDAY AT 3:30 O'CLOCK

Rev. Lyn Claybrook Accepts Call of the Local Baptist Church

Rev. Lyn Claybrook was extended a unanimous call from the local Baptist church Sunday morning, and announced to the congregation Sunday night that he had accepted the call.

Mr. Claybrook came to look over the local field last week, and preached two splendid sermons for the local congregation. He was highly impressed with the opportunities of the local field, and after spending a week in Canyon was induced to accept the call of the local church.

The members of the local church feel very fortunate in the selection of their pastor. He is a young man with excellent training for the opportunities of a College town, and is entering into his new work with great enthusiasm.

Rev. Claybrook wired Monday for his family, which is now in Tennessee, and they will arrive during this week.

NEW TEACHERS ON THE FACULTY

Miss Martha T. Bell, associate Professor of Home Economics, has resigned, and Miss Elizabeth Cox, B. A. from Kansas A. & M., is taking her place. Miss Cox has also done graduate work in Chicago U. and several other northern universities, and has had much experience as a teacher of home economics in middle western colleges.

Miss Mary Venita Stewart is the new instructor in Public Speaking, having succeeded Miss Joye Mills, who is studying in Emerson College of Oratory, Boston, for a year. Miss Stewart is a graduate of the same school.

Miss Elizabeth Dabbs is succeeding Miss Ethel Gray as Director of Physical Education for Women. Miss Gray has gone to Southern Methodist University as head of the department.

Miss Doratha Fricke, of the Art Department, has gone to Silver City, New Mexico, for her health. Miss Lou Beth King, B. A. and M. A. from Southern Methodist University, is substituting in Miss Fricke's place.

The following students have been given assistantships in the various departments: Bryant Baker, Department of Biology; Otello Herm, Department of Commerce; Mrs. Emileon Walden, Department of Chemistry; Joe J. Lancaster, Department of Manual Training; Miss Zelma Red, Department of Physics.

ON DAYTON NEWSPAPER

Maurice Crain left last week for Dayton, Ohio, where he has accepted a position on a daily newspaper. Mr. Crain graduated from the University of Texas last spring, taking the course in Journalism. He has been spending the summer at the home of his parents, Mr. and Mrs. H. W. Crain.

PROF. GUENTHER'S FATHER DIES

Prof. F. P. Guenther, Head of the Department of French, received word of the death of his father at Halle, Texas, on Wednesday night, September 26. Mr. Guenther was unable to attend the funeral.

Even the educated man sometimes finds out that what he doesn't know is just what he wants; that what he knows he can't use.

Help Keep Canyon Clean.

The Howard Payne College football team of Brownwood will meet the Buffaloes at the Buffalo Park, Saturday afternoon of this week, at 3:30 o'clock. Coach S. D. Burton stated yesterday that he considered the Howard Payne game as the hardest game confronting the Buffaloes this season, in view of the fact that the Buffaloes went into training at a later date than did the Yellow Jackets.

The Buffaloes went through the practice game of last Friday, with the Panhandle A. & M. college in excellent condition. No injuries were sustained during the game and all of the men are in excellent spirits over the showing of this game. Most of the men are in excellent physical condition, but the team work as a whole has not had a chance to develop to such a point as the coach would like to see when the Buffaloes meet the strong opponents of Saturday.

Howard Payne put up a strong fight against A. & M. college last Saturday. The Yellow Jackets lost only two of the letter men of last year, and the team of last year was able to defeat A. & M. in a very hard battle. The battle Saturday afternoon at Buffalo Park is going to be one of the most hotly contested and one of the most interesting of the season.

BARNUM ON ADVERTISING

B. T. Barnum was a show man. He was a ballyhoo artist. A man of his type does not appeal to the conservative business man because of his exaggerated method. Yet Barnum knew how to get business and he made a lot of money in his time. He knew the art of interesting people; of picking out something that would strike a popular chord.

Once on a time he made this statement in a lecture on "The Art of Money Getting."

"Above all advertise. I say if a man has goods for sale and doesn't advertise them in some way, the chances are that some day the sheriff will do it for him."

To a man who told him he had advertised three times and got no results Barnum replied:

"Sir, advertising is like learning—a little is a dangerous thing."

It was the show man's habit of saying there was only one liquid man could use to excess without being injured by it, and that was printer's ink.

These are the words of a show man but a successful show man. And his statements of that day are backed by recent statistics which show that out of all the failures in business in the United States, 85 per cent of those who failed were non-advertisers.

Advertising has become a commercial necessity.—Chillicothe Valley News.

The New York building zone resolution of 1916 has forced architects to design a pyramidal style of architecture for the new skyscrapers. There are six zones of varying height allowance. In the zone of greatest allowance a building may rise two and one half times the width of the street before it begins to slant inward; in the zone of the lowest allowance, only three quarters of the width of the street. Above that point a building must be contained within a line drawn from the middle of the street through the top of the wall on the lot line. The pyramidal effect of the newer buildings is most interesting; artistically they are much more pleasing than the old straight front, and people in the street are able to see the sun for several hours in the day.

Hazing will be permitted at the University of California, provided the hazers observe the rules of good sportsmanship. Full responsibility for any excesses will be placed upon the shoulders of the student body. Approximately 3,000 freshmen will register at the university soon.

AN ENTIRE FAMILY ATTENDS THIS SCHOOL

It is not often that an entire family attends school at one time, and especially is it unusual for an entire family to attend the same school in the same building. But such is the case at this College.

Last week Mr. and Mrs. Chase Condry and their three children enrolled in this institution. Mr. Condry is manager of the Canyon Inn, however, he has been in college for several years. The three children are attending the Training School. The addition of Mrs. Condry's name to the College rolls puts the entire family in school.

CANYON EAGLES TO MEET FAST McLEAN SQUAD

GAME AT BUFFALO PARK ON SATURDAY AFTERNOON.

Eagles Will Have First Conference Game Saturday—McLean Has Good Record This Season.

The cry of the Eagle and the call of the whistle will clear the arena for the pigskin artists of Canyon and McLean High Schools for their first conference game of the season, Saturday, October 13th. The Canyon boys are in the pink of condition and are only waiting for the gates to open, the enemy to appear, and then at the sound of the whistle—long gone they will be for the first of a series of victories that will make them conference champions.

The three practice games preceding the conference game have proven eye openers to both Coach Webb and his squad of huskies in so far as the men have been proven for their places and have gained invaluable experience to use in the near future. The home boys have made a very creditable showing in these games and have convinced the people of Canyon that when their own sons go to foreign shores that the banner of Canyon High is recognized and hailed as second to none. Let us keep it thus, and with an unending support never cease until the trophy of a victorious season floats over our town.

Coach Webb states that his line is much stronger than it has been at any time this year being composed of heavier men than have previously filled these positions. The backfield has gained in speed and accuracy in passing, making it one of the fastest on the plains. The people of Canyon are promised the most perfect machine in football that has graced our gridiron in many a day. This is indeed fortunate as McLean comes well represented with a strong team and a confidence born after having tasted victory over the local boys last year 6 to 0. This game promises to be one of the best of the season as the local boys praise McLean's sportsmanship in play and every one enjoys a good clean fight game of football. Another interesting feature comes to light in the fact that S. M. Castleberry, a former Canyon student, is coaching the McLean eleven this year. He reports that a large group of rooters will accompany the McLean warriors.

Coach Webb tried to arrange the game for Friday so the business men might have an opportunity to enjoy the fun but the visitors were not able to come at that date, Saturday was chosen. Notwithstanding this fact, the boys are looking for a large number of their business friends to be present and intend to show their appreciation of their support given them this year by winning in a creditable style.

"Revenge is sweet and glorious," say our gallant tribe of warriors as they look forward to that conference tilt Saturday and remember a 6-0 score of last year. Don't miss it, Canyonites, it will be a treat.

FORMER CITIZEN DIES

B. R. Davis died Friday afternoon at his home at Burkburnett from heart failure. He had returned home from work in seeming good health. His wife left the house for a few minutes, returning to find him dead. Mr. Davis lived in Canyon for two or three years, leaving here in 1913. Mrs. Davis is a daughter of Mr. and Mrs. W. L. Avant of this city. Her sisters, Miss Minnie Avant and Mrs. Tom Lair, attended the funeral which was held Sunday in Burkburnett, with burial services in Fort Worth.

SWINE BREEDERS MEETING

The Randall County Swine Breeders Association has been called to meet Saturday at 2 o'clock at the court house. John Knight is President and H. C. Roffey, Secretary of this association. They urge that all swine breeders of the county attend this important meeting.

SHIPPED BOAR TO TYLER

John Knight has shipped one of his fine Duroc Jersey boars to Tyler. Mr. Knight and H. C. Roffey bought one of the prize winning spring boars of the Childress Fair, shipping him in from Hollis, Okla., this week to add to their splendid herds.

COUNTY COURT TODAY

County court will be in session today with several jury cases on the docket, according to Judge B. L. Lester. A jury will likely be called to try these cases.

Editors For Annual Selected Yesterday at W. T. S. T. C.

Selections were announced yesterday of the staff of Le Mirage, the Annual publication of the West Texas State Teachers College for the volume which will be issued next spring. The editor-in-chief was elected by the senior class, and the remaining editors by the entire student body.

Jeff D. Smith, of Anson, is editor-in-chief. He was a member of the debating team which won over the Alva, Okla., Teachers College last year. He is president of the Cousins Literary Society.

Miss Winnie Mae Crawford, of Canyon, was elected associate editor. Miss Crawford is a junior. She is prominent in Y. W. C. A. work.

Miss Stella Rusk, of Canyon, was elected literary editor. Miss Rusk was formerly president of the Elaphel Literary Society.

Miss Tip Bradford, of Canyon, was elected society editor. Miss Bradford is a sophomore.

Evetts Haley, of Midland, was elected joke editor. Haley is business manager of the Prairie and a member of the Buffalo football squad.

The Art and Athletic Departments will select editors for their departments.

Buffaloes Left Yesterday to Play Southwestern at Mangum

The Buffalo herd left yesterday for Mangum, Okla., where the team will meet the Southwestern Teachers College of Oklahoma Friday afternoon. The team will arrive in Mangum this afternoon at 3:30 in time for a good work out.

The members of the team were in excellent spirits when they entrained. The men were a little stiff and sore from the hard battle of last Saturday with the Yellow Jackets, but sustained no serious injuries.

The team will meet the University of New Mexico in Canyon on the 20th of this month, which will be the last game in Canyon until Thanksgiving.

BAPTIST SERVICES

Sunday School 10 a. m., John S. Humphreys, Supt.

11 o'clock, sermon "Offerings for Sin."

6:30 p. m., B. Y. P. U.

7:30 p. m., sermon, "Paul's Program of Progress."

Wednesday evening, Prayer Meeting, 7:30 p. m.

All are cordially invited to attend these services.

LYN CLAYBROOK, Pastor.

ALL SAINTS' EPISCOPAL CHURCH

20th Sunday after Trinity (Oct. 14.) Holy Communion and sermon, 11:15 a. m.

Evening service, 7:30 p. m.

A cordial invitation is extended to all to worship at the little red brick church between the College and the square.

E. H. J. ANDREWS, Rector.

QUARTERLY CONFERENCE

The fourth quarterly conference of the local Methodist Church will be held Friday evening at 7:30 o'clock, at the church. Let every member of the church take notice and attend if possible. This is a most important meeting.

M. M. BEAVERS, Pastor.

MARRIAGE LICENSES

Marriage licenses were issued this week as follows:

J. H. Giblin and Miss Gladys Curlee, Oct. 3.

Tom Wood and Miss May Bragg, Oct. 6.

Vernon Westerfield and Miss Christine Murphree, Oct. 6.

Floyd Hendrix and Miss Nadine Ramey, Oct. 8.

Mrs. S. P. Hill, of Hamilton, is here visiting her son and daughter, President J. A. Hill and Miss Mary Hill.

Work On City Hall Will Be Finished in Very Short Time

Concrete for the floors of the new city hall is being run this week. Practically all of the work on the building will be completed during this week, and it is expected that the city offices will be moved to the new building during next week.

CITY IMPROVEMENT EDITION TO BE PUBLISHED ON OCTOBER 25TH.

The News announced a few weeks ago that a special City Improvement Edition would be published today. Owing to the fact that so many unforeseen difficulties have arisen, the edition has been postponed until October 25th.

This edition will be the largest ever printed by the News. Thousands of extra copies of the paper will go all over Texas and the Southwest telling of the wonderful growth that has been made in Canyon and the advantages of Randall County and the Panhandle.

Advertisers who use this edition of the News will reach the most fertile field of the Southwest.

A dozen different prominent men and women are assisting to prepare articles for this edition of the News.

More Rain Falls in Randall County and Makes Total 18.82 In.

Two rains are all that have fallen in Randall County during the past week. In fact this has been an exceptionally dry week in this neck of the woods, in spite of the fact that half of the county is flooded and cut off from the other half.

A rain of .42 inch fell Thursday before noon.

Another rain fell Saturday morning of .60 inch.

This brings the total precipitation since August 16th to 18.82 inches, which is by far the largest amount of rain that has ever fallen in the Panhandle during this period of time. Several citizens are under the impression that this much rain has fallen on various occasions during the fall. An examination of the weather chart as issued by the government for the Amarillo station from 1880 will show that the record of this year has far surpassed all records.

The only real drying weather of the week was Sunday when a high southwest wind did much to dry the fields. Every day since has been cloudy, with a heavy fog most of the day. The farmers have been unable to get into the fields to save the feed crops. Wheat planting is out of the question until the row crop is taken care of.

The temperature has been low all week, and there is fear of frost, with so much moisture. A heavy frost right now would do considerable damage to the feed, and would greatly damage the cotton. In spite of the continued rains, cotton is said to be opening, and if the weather will clear up for two weeks, cotton raisers believe they will make a good cotton yield.

Homer Anderson Will Fight Young Fitzsimmons Again on Friday

Homer Anderson of this city will fight Young Fitzsimmons again in Amarillo tomorrow night. These two husky youngsters mixed two weeks ago, the judges pronouncing the fight a draw. Homer was clearly the favorite of the big crowd in this fight.

HOLIDAY FRIDAY

Tomorrow is Columbus Day, and the Banks of Canyon will observe the holiday.

The new corn belt is steadily extending into Montana. A Billings business man writes: "Corn in the Yellowstone Valley this year is the pride of all of us."

New lumber orders during the last week in September amount to 274,123,895 feet, an increase of 60,000,000 feet over the previous week.

Fifty-two per cent of buildings in Poland destroyed during war have been rebuilt. Number of buildings reconstructed total 881,600.

Gov. Charles W. Bryan offers coal to Nebraska farmers at mine cost, plus freight, expecting to save Nebraskans \$15,000,000.

The harvest in Russia this year will exceed production in 1922 by 7,000,000 tons.

INTERMEDIATE LEAGUE

Fifteen members were present at the meeting Sunday evening, ten boys and five girls. Mrs. R. I. Graves will give a social for the members on Friday night of next week. The boys have challenged the girls to an attendance contest. All boys and girls from 14 to 18 years of age are urged to join the League at the Methodist church Sunday evening at 6:45.—Secretary.

Agriculture Department Buys Big Flock of White Leghorns

E. M. Turner, a former federal vocational student and a specialist in poultry recently sold to the Agricultural department of the College 58 choice S. C. White Leghorn pullets.

The flock will form the nucleus around which the department hopes to build one of the largest chicken farms in the country. Preston Robinson of Llano, Texas has been secured to handle the chickens and will have much to do with the development of the breeding project proposed. He will be a student at the school while working with the flock.

The number purchased is the first flock to be bought and within the next three weeks it is expected that the number will be increased to one hundred. The chickens in addition to forming a part of the college farm and supplying the college dormitories with eggs will be used by students in poultry judging.

Armistice Day to Be Celebrated in Two Good Programs

Under present plans, a big Armistice Day program will be given at the College on Armistice morning, Sunday, November 11th.

Members of the local American Legion Post together with members of the Woman's Auxiliary have been holding meetings during the past few days getting ready a big celebration to be held on Saturday or Monday. The features of the day have not been worked out. A parade will be one of the chief events of the day.

FACULTY RECEPTION MONDAY

The faculty of the college entertained the students Monday night with a reception.

The following was the program: Address by President J. A. Hill. Duet—C. E. Strain and son. Four Italian readings by Miss Stewart of the Public Speaking Department. Orchestra numbers. After this splendid program, refreshments were served by the faculty members.

Mrs. J. A. Hill, president of the Woman's Book Club, was hostess for the members of the Club yesterday at her home. An interesting program was provided for the occasion by the hostess.

Help Keep Canyon Clean.

MY CITY AND I

MY CITY is where my home is founded, where my business is situated, where my vote is cast, where my children are educated, where my neighbors dwell and where my life is chiefly lived.

It is the home spot for me. My city has a right to my civic loyalty. It supports me, and I must support it.

My city wants my citizenship—not partisanship; friendliness—not offishness; co-operation—not dissension; sympathy—not criticism; my intelligent support—not indifference.

My city supplies me with law and order, trade, friends, education, recreation and the rights of a free-born American. I should believe in my city and work for it. AND I WILL. —Exchange.

HOWARD PAYNE GETS 6 TO 0 DECISION OVER BUFFALOES SATURDAY IN BEST GAME EVER PLAYED ON LOCAL FIELD

CHENEY OF HOWARD PAYNE MAKES 58 YARDS RUN THROUGH BUFFALO TEAM AND MAKES ONLY SCORE OF THE GAME—BUFFALO MEN SHOW UP STRONG IN GAME AND GREAT THINGS PREDICTED FOR SEASON.

Paving Held Up By Continued Rains of the Past Few Weeks

Work was resumed on the paving on the south side of the College campus Monday morning, after having been delayed very greatly during the past few weeks.

It was thought last week that the paving would have to be left out in front of some property along this street owing to the property owners not having signed up. All of this difficulty has now been removed, and paving will extend the entire street.

The Panhandle Construction Company hopes to complete the job and move to Temple during the coming week if the rain will let up for a few days.

Garrison District to Build School House From New Bond Sale

The trustees of the common school district No. 17, the Garrison School, will erect a new school house from the bond issue which was held in the district two weeks ago. The vote on the bond issue was 7 to 1 in favor of the issue. This school house is located on the highway, northwest of Happy.

THIRTY AGGIES ENROLL

Thirty students are majoring in Agriculture at the West Texas State Teachers College, according to Professor Frank R. Phillips head of the department who is highly gratified with the increased number of students majoring in his department.

He attributes the greatly increased interest in the agricultural department of the college to a modern equipped farm, equalling that of the Huntsville Teachers College, which is one of the outstanding Teachers College in the development of the agricultural department. Practical work training the student in every branch of producing, harvesting and marketing the products of the farm is also conducive to the students. Five of the boys majoring in agriculture pay their expenses while in school with work on the college farm.

Commissioners Give Assistance in Poisoning of Coyotes

At a meeting of the Commissioners Court Monday, \$75 was given to assist in poisoning coyotes in the Palo Duro Canyons east of the city.

Coyotes have become very destructive for the farmers in the east part of the county.

The income tax is not a modern invention. Prior to 1872 every American citizen who rolled in wealth to the extent of more than \$800 annual income was soaked 5 per cent of it by the government.

The National Retail Coal Merchants' Association calls Pinchot's settlement of the anthracite suspension, a "gold brick" for public.

President Coolidge will ask the Federal Trade Commission to investigate the middleman's profits and methods in handling coal.

Roy Gibson Gets Foot Smashed at Amarillo Smelter

Roy M. Gibson was taken to the Amarillo Hospital Friday on account of getting his left foot broken.

An 800-pound door fell from its hanger to his foot. It broke three bones near the arch and all toe nails were mashed off. He is recovering nicely, but will be in the hospital for about two weeks.

The Buffaloes were defeated Saturday afternoon by the Howard Payne Yellow Jackets of Brownwood, but the defeat was more of a victory than any game in which the Buffaloes have played during the past two years.

The defeat was an accident pure and simple. Cheney, the fast half back and star track man of Howard Payne, made the only score of the game by a 58 yard run through the entire Buffalo territory and the Buffalo team. The run was made during the third quarter when it looked as though the game might end without either team scoring. The Buffaloes had punted from near their own goal to the 58 yard line. Cheney seized the ball out of the air, shaking off one of the Goodwin twins and evading the other 10 Buffalo players in one of the prettiest and most exciting runs ever witnessed on the local field.

Outside of the unfortunate circumstance of Cheney getting away, the Buffaloes clearly out-pointed their opponents in every department of the game. The Buffaloes gained more ground, made more first downs and showed better football form and better fighting spirit, than did their opponents. The Buffaloes played only 13 men throughout the game, and had time taken out but once on account of an injury which was not severe.

During the last quarter the Buffaloes began a march from their three yard line which was only stopped when they were within six inches or less of the tying goal. Lancaster leaped through the Howard Payne defense and tackled Caldwell for an eight yard loss to start the march, the ball went over, and the twins, Herm and Jenkins started gains for victory. Herm failed to get the touchdown by almost half the length of the ball.

Probably no game played here has demonstrated the high position held by the Buffaloes in athletics. Although defeated by the one flash of broken field running of the speedy Cheney, the herd-outplayed Howard Payne consistently while that aggregation fumbled several times, were mixed up on their plays and signals and more than once were confused. The Buffaloes today have one of the outstanding elevens in the T. I. A. A. conference and probably the greatest aggregation of football players to carry the maroon and white.

Foeling between the two squads was high at times and there was about an even loss by penalty to both teams. Burson was removed from the game after he made many good gains and had played a fighting game.

Herm, who was sent in to substitute for Burson, figured fully as conspicuously in the gains as Burson had done and it was he who helped greatly in the Buffalo rally. The Goodwin twins during the last part of the game made several long gains and were steady all the way. Captain Johnson did some excellent work and kept the fighting spirit of the team alive. Golden played a flashy game as did Lancaster, Vaughn and Jones. Adams, a new man on the squad, was in their fighting. Thompson at center was brilliant on a few occasions on the defense. Jenkins was too light to gain much and in fact was thrown for a loss on a few occasions but his playing at safety was of the stellar sort and his leadership of the team commendable.

Cheney for the opposition was the only man able to gain consistently and he was held on several occasions and there were a few times when he took a loss. Caldwell, at half, played a good game as did McAllister until he was injured. Flack substituting at quarter for Harris in the second quarter played a better game than did his team mate.

The bare facts of the game by quarters look about thusly with a vast amount happening that cannot be put in the space allotted:

First Quarter
Bessit bucked the line for a few short gains, Cheney went around end for some gains, one down in the quarter. Howard Payne passes failed. Buffaloes able to gain some ground but resorting to punts on fourth down. Team a bit nervous but doing some flashy work on the defense. Howard Payne fumbled and punting about equal distance with Canyon.

THE AMERICAN PRESS ASSOCIATION

What is the childhood of Canyon worth? No one would be foolish enough to attempt to put down in dollars and cents just what worth could be placed on the childhood of Canyon or any other community, but to hear a lot of men and, unfortunately some women, howl about a few dollars, you would instantly gain the idea that the childhood of Canyon is not worth thirty cents to them. A community is great only as its citizens are great. The future of the community, and of the state, and of the nation depends upon the efforts that this generation makes to better the men and women of tomorrow. If education is anything or is worth anything or attempts to accomplish anything, its mission certainly is to make of the child a better man or woman. If sickness visits the home, the parent will spend his last dollar and deprive himself of the necessities of life in order to cure the physical ailment of the child. Investment in the mental and moral life of the child is as necessary as the investment of the physical welfare of the child. Howl about school taxes is about the most foolish thing that men may engage in, while attempting to assume the attitude of being interested in the welfare of their own families and of the families of their friends and neighbors. No nation has ever spent too much money in education of the right kind. If the quality of education is wrong, as was in the case of Germany, of course, the whole system is wrong and it is the part of the far-sighted citizen to raise his voice against it; but if the system is right, too much money cannot be invested in education.

The Texas Highway Commission will take over the highways of the state January 1st. Notices have been mailed to all commissioners' courts of the state telling that the highways of Texas will be maintained after January 1, in the same condition as they are received from the counties on that date. The recent rains have put the plains highways in a deplorable condition. The time is short until January 1st, and if the highway department carries out this instruction, the plains country is liable to have very bad highways in the future, unless a vast amount of money is spent between now and January 1st.

For a number of years Henry Ford has assumed the attitude that the American public was advertising his jitney sufficient through the medium of the joke and has spent little or no money in any kind of advertising. However, during this period he has urged his dealers to use newspaper advertising. Something has occurred which makes the Ford Motor Company change its policy. During the coming year \$7,000,000 will be invested by Ford in newspaper advertising. America as a whole will be the Ford field for advertising.

Governor Walton, who has held first place in the news of the day for several weeks, has called the legislature

to meet today. The governor has assumed a defiant attitude in his call, Walton's days are numbered in Oklahoma and the reign of terror which he has inaugurated will soon be a thing of the past.

THOUGHTS WORTH WHILE

Do something; do it soon—with all thy might.—Carlos Wilcox.

This I resolved on—to run, when I can; to go when I cannot run; and to creep when I cannot go.—John Bunyan.

The man who is determined to keep others fast and firm, must have one end of the bond about his own breast, sleeping and waking.—W. S. Landor.

Blessed is he who found his work; let him ask no other blessedness. He has a work, a life purpose; he has found it and will follow it.—Carlyle.

Half the victories of life come from a confident belief that one is going to win. The world has little use for the man who is continually down at the heels.—Anonymous.

The best place to build an enduring monument to one's self is not in the graveyard at the journey's end, but in the hearts of our fellow mortals.—Hengerer Mirror.

Salesmen are harvesters, but their work cannot be accomplished if the crop to be harvested has not been prepared by careful planting and cultivation in the shape of Service and Advertising.

Buften said that genius was only "an endless patience." (Darwin.) Nietzsche said that genius was "intensity of consciousness." (Napoleon.) Genius in business might be defined as the gift of simplification.—Edward Golbeck.

The world bestows its big prizes, both in money and honors, for but one thing, and that is initiative. It is doing the right thing without being told. But next to doing the things without being told is to do it right when told once.—Exchange.

A TACTICAL ERROR

"Wet" propaganda, always stupid, has made another error. It has lined up the openly "wet" and the secretly "wet" newspapers in one grand flourish of exposure of "prohibition conditions." To save themselves from the attack of the church and the "dry" forces these papers protested that they were doing it for the good of prohibition—which explanation proved suitable for a little while, until the public perceived that these newspapers protested far too much. And now the game is up. So many clergymen, however, are stiff with fear when it comes to criticizing specific newspapers in their own city, that the reaction is not what it ought to be. The result, when computed, will be that the secret journalistic enemies of prohibition have been uncovered—have, indeed, uncovered themselves.—Ford's Weekly.

EFFICIENT SOWS REDUCE PORK COSTS

The sow which produced the highest ton litter of 1923 up to September 1, farrowed eighty pigs in eight litters. She raised 66 of the 71 farrowed in the first seven litters. The eighth litter is not yet weaned. It costs no more to keep that kind of a sow than one which farrows half as many.

BILL BOOSTER SAYS

SMILE! IT DON'T COST NOTHING! I HATE TO SEE A FELLER GOING 'ROUND WEARING ONE OF THESE INGROWN FACES! HE NEVER HAS ANY FUN! IT TAKES THE CHAP WITH THE SMILE TO DO THAT!

FARMERS MUST REDUCE COST

Since the market price of farm products is too low to afford the farmer a profit, and as there is no indication of an advance it appears that it is up to the farmer to reduce his cost of production if he is to make a profit. He can do this by more efficient media. If a scrub litter of pigs go to market at six months weighing 1,500 pounds while a pure bred litter goes to market at the same age weighing twice as much it is quite evident that he has produced the latter with less labor, investment and feed per cwt. than the former. An Ohio farmer marketed a litter of ten pigs September 1 which weighed 2,970 pounds.

It looks like a long, hard winter in the Canadian Yukon. Twelve thousand cases of whiskey have laid in Vancouver for months, stored for permission of the United States Government to cross at Skagway. Desperate efforts have been made by politicians of the North, whose political lives depend upon getting the liquor to those who will hibernate in the Yukon during the long dayless winter. No word has been received from Dawson or Washington. No treaty provides for a safe entrance through the three-mile limit zone off the mouth of the Yukon River and the whiskey cannot pass legally from the legal high seas to the legal river.

The soil of Spitzbergen has been found to be frozen to a depth of 1,000 feet. In summer the surface soil thaws to a depth of about two feet.

Historical Society Given Old Relics

The Panhandle-Plains Historical Society has recently received from M. F. Burns, of Midland, Texas, two very fine Antelope heads. Uncle Billy Wilson, Snyder, Texas, has presented the Society with an ox yoke and chain. The Society is also the recipient of the first organ ever used in public services in Randall County. The organ was given to the Society by the Ladies Aid of the Canyon Presbyterian Church last summer and will be moved to the college in a few days. An interesting story of this old organ accompanies it. The Prairie will undoubtedly publish

Nine years ago, in 1914 China exported \$719 worth of hair nets. Last year the net makers, virtually all of whom are located in Chefoo, China, collected \$3,319,322 for supplying this product. An even larger trade is expected during 1923 because American women have demonstrated a preference for a type of net made out of two hair strands, whereas before nets fabricated from single strands were the vogue.

Deeds Filed This Week Transferring Randall County Land

The following deeds as furnished the News by the Randall County Abstract Company, have been recorded in the County Clerk's office.

Mrs. Frieda Bingaman to T. J. Morris, south one-third section 7, block B-5. Consideration \$5300.

W. E. Tucker to W. J. Flesher, north east quarter section 126, block B-5. Consideration \$2,000.

Clyde McElroy to W. R. Dunn, sections 108, 117, 118, 139, 140, block B-5. Consideration \$39,062.40.

J. T. Burnett to W. D. Smith, lot 17, block 32, Canyon City. Consideration \$1,350.

H. A. Nobles to Llano Cemetery Association, 25.48 acres section 154, block 2. Consideration \$10,048.

A diving spear with a dial attachment that shows whether the spear-point is touching gold or a base metal, such as iron, is used by divers in salvaging the \$30,000,000 worth of gold bullion which dropped to the ocean bed when a German submarine sank the Laetentia off Donegal, Ireland, in 1918. The dial is kept aboard the salvaging ship. The hand moves to the left of the zero mark when the spear is prodded against a piece of iron, copper or other base metal, but when it touches gold the dial swings sharply to the right. The divers are armed with sharp knives to fight off the hungry dogfish that swarm in the deep about the sunken vessel.

The usual cause of earthquakes is dislocation of the crust of the earth along fractured lines. There is a fracture line along the coast of Japan and another along the coast of California. The crust of the earth is constantly in motion, up or down, sideways, or twisting. Millions of years may pass before bringing a strain so severe that the strata will slip or crumble along any great fault in the earth's crust, but when that slip comes there is an earthquake. Usually it is only a fraction of an inch, or at most a few inches. In Yakutat, Southern Siberia, a slip of forty feet was once recorded, and the quake was felt all over the world.

"It is significant that this is a government of young men, for the peace of Europe—which was not a peace—was made by cynical old men," declares Samuel Crowther, describing the Mussolini government in Collier's.

BUFFALOES HOLD HOWARD-PAYNE TO 6 TO 0 SCORE

(Continued from first page)

Second Quarter

Harris made the down. A line buck, an end run and short pass netted the Yellow Jackets another down. Flack went in for Harris. Burson intercepted pass and raced 18 yards. Merl Goodwin gained a foot and Burson led another 10 yards. Another pass failed, Jenkins made 7 yards. Canmade it ten yards. Buffaloes first down. A pass Burson to Jenkins first down. Burson penalized and Burson punted 37 yards. Cheney returned 7 yards. Howard Payne on 23 yard line. Caldwell fumbled and next triat made eight, a pass failed, and on a punt Jenkins returned 8 yards. Earl Goodwin made the down. An incomplete pass and a penalty caused Buffaloes to punt, Earl Goodwin making 45 yards of it and Howard Payne took the pig skin on their 10 yard line. McAllister punted 35 spaces and Woodward went in for Captain Henderson who had an arm injured. The Buffaloes failed to make first down, punted and the two squads were battling near the Howard Payne 25 yard line when the half was over.

Third Quarter

Howard Payne made two first downs. Captain Henderson was back at the terminal position. The Yellow Jackets punted. Burson was sent out of the game, Herm took his position. Earl Goodwin punted 40 yards, Cheney brought it back one fourth of the way. Moore, Yellow Jacket left guard, was injured and Stamford took his place. Howard Payne was penalized 15 yards. A pass McAllister to Cheney netted 22 yards. Caldwell fumbled and Lancaster recovered on the 15 yard line. Twin Merl made 14 yards, his brother made four and lost three and punted fifty yards. Cheney raced through the Buffaloes 58 yards for a touchdown. Attempt to kick goal was blocked.

After the kick off Herm fumbled and Howard Payne recovered on the 24 yard line. McAllister and Caldwell made six yards and a pass McAllister to Cheney, netted 8 yards. Two short gains a loss and an incomplete pass due to Vaughn's work brought the ball over. Herm corkscrewed eight yards and twin Earl gained six. Merl made four, Jenkins fumbled and lost five, Merl punted. Cheney returned 10 yards. Quarter over.

Fourth Quarter

McAllister passed to Cook for 20 yards placing the ball on the Buffalo three yard line. Lancaster tackled Caldwell for an eight yard loss. They were held, a pass failed and the ball went to the Buffaloes on their 20 yard line. Earl Goodwin punted, McAllister made 14 yards around right end and Flack gained 32 before being tackled. Howard Payne's ball on 14 yard line. They were held and penalized. Canyon took the ball on their six yard line made first down, and on the the second down after Earl Goodwin and Herm had carried the ball 6 yards Merl came near getting away with a gain of 30 yards. His brother carried it 3 yards. A pass Goodwin to Jenkins netted 5 yards Herm made eight yards for a down. Merl ran 22 yards around right end. Herm made eight yards through the line. He made two yards through the line and Earl Goodwin made eight yards. Herm carried the ball within six inches of the Howard Payne goal when it went over and the Yellow Jack-

ets punted. Terry went in for Lancaster. The Buffaloes made a first down, Cheney intercepted a pass. The ball went to Howard Payne on the 10 yard line. They punted, Jenkins returned, Canyon penalized and on next down Howard Payne was penalized. Play ended with ball in possession of Yellow Jackets on 21 yard line.

The line-up:

Position	Canyon
Blshett	Burson
Fullback	
Cheney	M. Goodwin
Right Half	
McAllister	E. Goodwin
Left Half	
Harris	Jenkins
Quarter	
Taylor	Thompson
Center	
Burns	Jones
Right Guard	
Hodges	Johnson
Right Tackle	
Cook	Lancaster
Right End	
Moore	Adams
Left Guard	
Keaton	Vaughn
Left End	

Substitutions: Howard Payne, Caldwell Woodward, Flack, Beacher. Canyon: Herm, Terry. Referee: Parcels, Umpire Goodman, Head Linesman, Cartwright.

Every hour, somewhere in the United States a man's life is taken. There were more than 9,500 "unlawful" homicides in this country in 1921. One of every 12,000 Americans is murdered every year, whereas the figure in Europe is one out of every 634,000. A prominent writer states, "When a prospective assassin in America is about to pull the trigger, he knows that he will have three powerful friends if he commits the deed. These three friends are Sentimentality, the New Psychology, and Technicality. So he pulls the trigger and takes his chances."

Coral, whose bodies build into reefs, are carnivorous, according to a scientist connected with the United States Geological Survey. Beef juice, crab meat and fish were offered. The tentacles at the outer edge of the coral colony began to appear. Then the stimulus was transmitted to other members of the colony until the surface of the specimen had opened out like a flower. No kind of purely vegetable food was taken by any of the numerous species investigated.

Detroit, a city whose police say has 3,000 blind pigs and whose citizens say has 10,000, has discovered that some "hot dog" stands are operating without a permit.

FEED WHEAT SURPLUS

Everybody is lamenting about a 200,000,000 bushel wheat surplus. A litter of pigs in Ohio recently broke the world's record for weight per head in six months on a wheat ration, which proves it is good hog feed. Why not feed the surplus to hogs and keep the surplus off of the market permanently, and market it for cash at a better price through pork?

The Japanese excel in stonecutting. Nowhere in the world will one find more beautiful and perfect granite cutting, which, together with the perfection of its setting, makes the workmanship a delight to view.

For the first six months of 1923 Canadian mills manufactured 619,802 tons of news print paper, against 515,506 tons in like period in 1922, and 373,988 tons in like 1921 period. The U. S. got 536,487 tons this year.

School savings are now over \$9,500,000 in the U. S., an increase of three and one half millions in a year. Number of participating pupils has increased by 677,879. Marked progress made in operation of the systems to promote thrift.

The Bible is now published in 770 languages of the world. The Bible Society hopes to continue its work of translation into 300 other languages.

America spends \$7,000,000 in one year for works of art in Great Britain alone.

Lenin and Trotzky each receive about \$55 monthly.

U. S. EXPERIMENTS CUT COST OF GAS

Adjustment of Carburetors on Government Trucks Reduces Consumption of Fuel.

Washington.—Substantial savings of gasoline by the periodical adjustment of carburetors based on the results of analysis of exhaust gases from automobile engines are said to be feasible by the Department of the Interior following experiments made by the bureau of mines on the fleet of motor trucks used by the government fuel yard in Washington. As the result of carburetor adjustments made by gas analysis in the bureau's experiments, an actual increased efficiency in mileage and saving of gasoline amounting to 22 per cent was attained. The tests demonstrate that a portable carbon dioxide indicator for testing the exhaust gases of a motor vehicle gives a positive indication of the carburetor adjustment, removes all guesswork of such adjustment and is perfectly feasible practically.

Samples of Gas Tested.

The government fuel yard trucks tested by the bureau of mines ranged in capacity from two and a half to seven and a half tons. During the winter months, when the demand for coal is heavy, from 30 to 35 trucks are used. Samples of the exhaust gas were taken on the trucks kept in service for summer hauling in order to determine the carburetor adjustment as used. Changes then were made to a more economical adjustment whenever possible, without sacrificing flexibility of operation and power. In all but one case the carburetors were found to be adjusted too rich for maximum power and economy.

Increase in Mileage Noted.

The actual increase in mileage and saving of gasoline due to the carburetor adjustments made by gas analysis when the month previous and the month following the adjustments are compared, showed an increase in mileage of 22 per cent; for the second month after adjustment, 16 per cent, and for the third month, 9 per cent. When the mileage is compared truck for truck, and not taking into consideration the distance each traveled during the month, the increased mileage equaled 24.7, 21.2 and 16.2 per cent, respectively.

The adjustment of carburetors by analysis of exhaust gas is based upon the fact that the carbon dioxide in the exhaust is a direct indication of the air-fuel ratio and completeness of combustion. In turn, the air-fuel ratio and completeness of combustion tell whether the carburetor is properly adjusted for maximum power and gasoline economy.

Adjustment Usually Rich.

Other conditions being constant, the mileage obtainable varies as the percentage of carbon dioxide in the exhaust gas and air-fuel ratio. This has been little realized by most garage men in the past. Usually the adjustment is far too rich for maximum economy. There are, however, exceptions to this rule. A determination of the carbon dioxide content of the exhaust gas while the vehicle is being operated on the road gives a positive indication of the carburetor adjustment.

The results of the bureau of mines experiments show that adjustable carburetors tend to become more richly adjusted with lapse of time, and that the adjustments should be checked at least every two months to maintain the most economical adjustments.

Driving is a Big Factor.

The bureau suggests that one driver may be able to get considerable more mileage than another, due to the method of driving. The mileage is greatly increased by disengaging the clutch whenever possible and coasting. In approaching a heavy grade sufficient momentum should be obtained to carry the vehicle a considerable distance up the grade before making it necessary to change the gears.

Weather has a marked effect on the mileage obtainable. In general, a motor runs better at higher humidity and temperatures. Rainy, weather decreases the mileage on account of the slippery nature of the streets; so does snowy weather.

Injunction to Stop Woman "Making Love"

Detroit, Mich.—Judge Richter granted an injunction restraining Louise Keef, from "following, molesting and openly making love to" Joseph A. Gregg.

The two had been friends, the petition said, but for nearly a year Miss Keef's attentions had been unendurable and harassing to Mr. Gregg. She hid behind "telephone poles, garages and trees," it was charged, and came upon him unawares.

She said, "Hello, grandpa," to him a few days ago while he was talking on a corner to a young woman friend and then turned and said, "Hello, grandma," to the young woman, according to the petition. He called police and Miss Keef was ordered to leave him alone but, according to Gregg, she refused to do so.

Only the watchfulness of his land lady caused her to fall to surprise him at his boarding house, Mr. Gregg said.

English Travel in Security.

London.—Only five passengers of the 1,186,479,000 carried on English railways during 1922 were killed in accidents. This is one passenger in every 237,000,000.

RHINE-DANUBE CANAL READY FOR SHIPS SOON

Vessels to Travel From North Sea to Black Sea.

Bamberg, Bavaria.—Charlemagne would have a bad half hour if he could come to life long enough to see how canal-diggers are gashing up the eastern half of his old empire to connect the waters of the Rhine and Danube, and make it possible for ocean-going ships to travel from the North sea to the Black sea by inland waters.

The Rhine-Main-Danube canal, which was begun in 1921, contemplates a revolution in the transportation system of Europe, and indirectly of the entire world.

Freight routes will be changed, and cargoes loaded on ocean-going ships of not greater than 1,500 tons capacity will be able to sail from Rotterdam to Galatz, at the mouth of the Danube, touching Cologne, Mayence, Frankfurt, Nuremberg, Vienna, Budapest and Belgrade on their way to the Black sea.

American cotton is promised a through trip from New Orleans to practically all the countries of central Europe which have no seaports, and new tourist routes are to be opened up for excursion steamers which will rival the Rhine trip in beauty and historic interest and make it possible for visitors to eliminate the annoyance of frequent changes from steamer to trains.

The new waterway will touch the territory of nine states: Holland, Germany, France, Austria, Hungary, Serbia, Bulgaria, Czechoslovakia and Rumania. But it is really more than a canal of continental Europe, as it will put all maritime powers in touch with central Europe, and afford a new entry to the Near East by way of the Black sea.

If the canal attains the success its promoters prophesy it will drain much business through Rotterdam into the heart of Europe which now goes past Gibraltar into the Mediterranean. Much business which now finds its way into the Black sea through the Turkish straits is also expected to enter the Black sea through the mouth of the Danube.

Odessa, which lies only a short distance east of the Rumanian ports at the Danube's mouth, is expected to be greatly benefited by the new waterway.

Only Sacred Cat of India in America

This sacred cat of India, the only one of its kind in America, is marked like a zebra and is very intelligent. That it has strained its eyes in its studious pursuits is indicated by the fact that it is necessary for it to wear spectacles.

Wedding Gift to Last for Five Generations

New York.—When Bernard Ruhe's daughter, Elsie, was married to Carl F. Strohmatt of Newark, N. J., recently, he wanted to give them a more substantial wedding present than parlor furniture or cut glass, so he decided on a baby elephant.

"The animal, in addition to being a pet also can be regarded as a good investment, for it can always be sold for more than it cost," he said, as he bade them farewell as they sailed on their honeymoon trip to Europe. "It will be years before the elephant grows up, and as the animals live for several hundred years, it will be in the family for four or five generations."

He Called Snakes His Friends.

Poplar Bluffs, Mo.—Carman Magill, a recluse who lived with reptiles in a log hut north of here, recently was found to have left \$10,000 in property. Magill's body was found beside his bed by relatives. He describes the snakes occupying his hut as his friends and denied himself to visitors. His wife and two children died 50 years ago and he had since refused to eat a woman's cooking. He lived on birds, wild animals and herbs.

College Loan Fund Passes 4000 Mark; Officers Elected

The Gregg-Consins Memorial Loan Fund, established in 1912 by Mr. and Mrs. R. B. Cousins and members of the faculty, has approximately reached the \$4,000.00 mark. The following officers were elected at a meeting held last Tuesday, October 2: President J. A. Hill, President, D. A. Shirley, Vice-President, Margaret Boulware Secretary, W. E. Lockhart, Treasurer, W. R. Clark, Miss Ritchie, Miss Hibberts, Mr. Fronbarger and Mr. Savage constitute the board of Directors.

WELL INSTRUCTED

The Judge—"Now are you sure you understand the nature of an oath?" The Youth (scared stiff): "Sure; ain't I your caddy down at the links?" —Melbourne Punch.

WHERE SYMPATHY CEASES

"You must make it clear that you sympathize with the working man." "He has my profound respect," answered Senator Sorghum. "But when a plasterer gets a hundred dollars a week, how can I sympathize with him and seem sincere?" —Washington Star.

DEFINITE ARRANGEMENT

A tailor had called to collect his bill frequently, but without success. Finally in desperation he said vehemently: "Mr. Jones, I must insist that you make some definite arrangement with me." "Why, surely," replied Mr. Jones, agreeably. "Let's see. Well, suppose you call every Thursday morning." —Detroit Free Press.

ONE TROUBLE HE MISSED

It was lucky for Columbus that he did it before the immigration—compound at Ellis Island was thought of. —Punch (London).

WHEN DREAMS COME TRUE

"Have any of your childhood ambitions been realized?" "Yes, when my mother used to cut my hair, I always wished I hadn't any." —The Christian Register.

POOR COMPANY

"Yes, Your Honor, he neglected me shamefully. Why, he never was at home." "And I suppose you had to spend your evenings all by yourself?" "W-w-well, I had two goldfish." —Tit Bits.

DANGEROUS SENSE OF HUMOR

"Lost your job as a caddy?" said one boy. "Yep," replied the other. "I could do the work all right, but I couldn't learn not to laugh." —Washington Star.

HIS STATUS

He—"Who's the sullen-looking chap who keeps following us about?" She—"Oh! He's only the person who brought me down for the day!" —The Passing Show (London).

STATEMENT OF OWNERSHIP

Required by the act of Congress, August 24, 1912—of the Randall County News, published weekly at Canyon, Texas, for October 1, 1923.

C. W. Warwick is publisher, editor, managing editor, business manager, and owner of this business.

Known bondholders: Barnhart Bros. & Spindler, Dallas, Texas, on the cylinder press only.

C. W. WARWICK, Owner. Sworn to and subscribed to before me this first day of October, 1923.

DAN K. USERY, Notary Public.

Wayside Items

R. E. Carter, who has been working in Oklahoma, is visiting home folks. J. M. McGehee left for Lubbock last Monday on business.

Mrs. L. J. McGehee and son Kelly, have moved to Canyon where Kelly will attend school.

Henry and August Skypala made a business trip to Amarillo Friday.

John Brandt and family spent Sunday at the L. Brandt home.

HELL IN THE MAKING

The newly appointed pastor of a negro church faced a pack audience when he arose to deliver his sermon on this burning question: "Is There a Hell?"

"Bredern," he said, "de Lord made the world round like a ball."

"Amen!" agreed the congregation.

And de Lord made two axles for de world to go round on, and He put one axle at the north pole and one axle at the south pole.

"Amen!" cried the congregation.

"And the Lord put a lot of oil and grease in de center of de world so as to keep the axles well greased and oiled."

"Amen!" said the congregation.

"And then a lot of sinners digs wells in Pennsylvania and steal de Lord's oil and grease. And they dig wells in Kentucky, Louisiana, Oklahoma and Texas, and in Mexico and Russia, and steal the Lord's oil and grease."

"And some day dey will have all of de Lord's oil and grease, and dem axles is gonna git hot. And den, dat will be hell, bredern, dat will be hell."—Philadelphia Public Ledger.

THE RULING PASSION

Old Master tells it: Poor Mammy Jane lay ill in her bed. She must have good food, the doctor said.

There came by chance the friend in need.

Heard the prescription, said: "Yes, indeed, Mammy must have a nice little chick, Mammy's grandson must go for one quick."

There must not be the least delay—

And right here was the dollar to pay—

No sooner the lady's good-bye was said Than Mammy called feebly from her bed:

"Here, Boy, come gimme dat dollar, I say—

And go git dat chicken—in de natural way!"

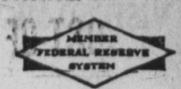

—Martha Young in "Minute Dramas" (The Paragon Press, Montgomery, Ala)

United States in co-operation with principal European nations plans the establishment of international system for finding and identification of criminals and fugitives.

A feeling of optimism prevails in Mexican trade circles but commercial activities are slower than in previous months.

The increase in postal savings during August reached \$800,000.

In all malarial countries the popular remedy is Herbine. People find it a good medicine for purifying the system and warding off the disease. Price 60c. Sold by City Pharmacy. 2714

A New Comer?

MISS HUDSPETH VISITED MEXICO

ATTENDED NATIONAL UNIVERSITY FOR SIX WEEKS.

Tells of Her Visit to Mexico and Desire of the Mexicans for U. S.'s Friendship.

Miss Mary E. Hudspeth, Head of the Department of Spanish and formerly Dean of Women, was very much delighted with her work in the National University of Mexico, Mexico City, last summer, and with the tours she took to many interesting places in our neighboring country. Miss Hudspeth spent two and one-half months, from the middle of June to September 1, in Mexico.

Entertained by Obregon She spent six weeks in the National University, where there were more than 600 Americans in attendance during the summer. Miss Hudspeth was among the American students who were entertained in the Royal Palace by President Obregon. Pres. Obregon, Senor Caso, President of the University, Senor Vasconcelles, Minister of Education, and members of the University faculty put forth every effort to make the stay of the American students helpful and profitable. They are all very anxious to encourage better relations between the two countries.

At the University's last summer a movement was started by the officials and sanctioned by the American students to erect a statue of Lincoln and Juarez on the border between Mexico and the United States. Lincoln will be standing on the United States side and Juarez on the Mexico side, and the two will be shaking hands across the border. The erection of the statue is to be financed by the school children of both countries.

While in Mexico Miss Hudspeth visited such places as the Castle of Chapultepec, the National Museum, and the National Library. The University conducted excursions for American students to Cuernavaca, Amecameca, at Guadalupe, and Queretaro. Another interesting sight which Miss Hudspeth saw were the pyramids, 45 kilometers from Mexico City, which are said to surpass in beauty and symmetry the pyramids in Egypt. These pyramids were built sometime previous to the Christian era.

Miss Boyd There Also

She boarded with a cousin of the wife of ex-President Diaz, and had as a companion Miss Lucy Boyd, a graduate of the West Texas State Teachers College, who was also attending the University. Many other students were there from Texas. In fact, Texas and California had more students in the University than any other state.

Miss Hudspeth was highly pleased with the courtesy and kindness shown by the Mexicans and the University and Governmental authorities, and she is greatly desirous of seeing still better relations between the two countries.

Fish at the Pratt, Kansas, state fish hatchery are being fed by electricity. Large light bulbs are placed at the edge of the fish ponds and moths, millers and other insects are attracted by the light. The water beneath the lights is soon covered with the insects which the fish devour eagerly.

Editors Select the Remainder of The Prairie Staff

With the help of Miss Jennie C. Ritchie, Faculty Adviser of The Prairie, the editors have finished selecting a staff of assistants to do work on the newspaper during the coming year. Much more care has been taken in the selection of the staff this year than has been at some times in the past, and it is hoped that the present staff can put out a much better paper than ever before.

The reporters selected to help Frank P. Hill, Editor-in-Chief and Olin E. Hinkle, Managing Editor, are: John L. McCarty, Sports Editor, who was formerly Sports Editor of the Amarillo Daily News; Miss Stella Rusk of Canyon, Society Editor; Mrs. J. J. Powell, of Canyon, Ex-Student Editor; and J. E. Malin of Wichita Falls, Violet West of Farwell, and Etta Bernard Hart of Qhanah, reporters. A Circulation Manager to assist Everts Haley, Business Manager, will probably be selected soon.

Other reporters may be added to the staff if needed. All of the reporters named above will probably not be used the entire year as other members of the Press Club may desire actual experience on the paper.

The annual report of the New York Cotton Exchange contains an item, "Food for cats, \$51.73." In spite of all precautions, rats and mice occasionally appear on the trading floor. Traps have been employed in vain and the cats are the mainstay in combating the nuisance. The rats eat the ticker tape, often destroying several rolls at a time. Spot, the dean of the Exchange cats, spends the night on the trading floor, sleeping in the engine room during the day when the Exchange closes.

Arabian sheiks are carrying vacuum bottles now. All the better equipped caravans that trek out of Aden across the desert are equipped with vacuum bottles and it is now possible to have a cooling drink in the midst of the Arabian desert.

The black forest of Germany, which has long been famous for its profession of game, has been virtually stripped of its feathered and furry denizens by hungry Germans.

Of about 2,000 kinds of bacteria, only about 100 are believed to be harmful.

Child-birth

HOW thousands of women, by the simple method of an eminent physician, have avoided unnecessary miseries through many months and up to the moment Baby has arrived, is fully explained in the remarkable book, "Motherhood and the Baby." Tells also what to do before and after baby comes, probable date of birth, baby rules, etc., and about "Mother's Friend," used by three generations of mothers, and sold in all drug stores everywhere. "Mother's Friend" is applied externally, is safe, free from narcotics, permits easier natural readjustment of muscles and nerves during expectancy and child-birth. Start using it today. Mrs. E. E. Kerger, Slayton, Minn., says: "It pulled me through." Send for book today, to Bradfield Regulator Co., B.A. 76, Atlanta, Ga. "Mother's Friend" is sold at all good drug stores everywhere.

Yearlings Lose To Westerners

The Lubbock Westerners and College Yearlings played a hard fought game at the South Plains Fair last Friday. The Yearlings lost to the Lubbock boys by a score of 13 to 0. Owing to the close resemblance between several Yearlings and the real Buffaloes, the herd was not "cut" so very close before the Lubbock trip, so several Yearlings were left at home with the prospect of getting to play Howard Payne. Such Yearlings helped to bolster up the Buffalo squad to a great extent, yet at the same time they detracted from the strength of the Yearling Stamped.

The Westerners, with good team work and frequent bull-dogging went over for two touchdowns. The touchdown for the Yearlings resulted from a long punt by Jennings, and a recovery of its fumble by Munsey, only one foot from the goal line. The game resolved itself into a punting duel in the second half, with Ater of Lubbock having a slight advantage over Jennings of the Yearlings.

Jennings made the best gains in the Yearling backfield, while Munsey and Hancock showed up well in the line. Ater and Hunt in the Lubbock backfield played good football, while Strickle alternately tackled well and squabbled vociferously.

The Yearlings were lacking in teamwork, owing to their having played together so little. Next Saturday they are to meet the Sandies of Amarillo. They feel that there will be a different result, for the Yearlings are too bull-headed to be bull-dogged often.

HOLIFIELD RETURNS TO CLOVIS

Clovis News: At a meeting of the Calvary Presbyterian church several weeks ago, when the question of a new pastor was voted upon, it was decided to offer the pastorage to Rev. T. P. Holifield, who had been in charge of the Calvary Presbyterian Church in Clovis but who last winter moved to become pastor of the church at Midland, Texas. Mr. Holifield this last week accepted the pastorage of the church here and will move back to Clovis this week.

Twenty piles of pearl oyster beds in the Gulf of Mannar, between Ceylon and the southernmost coast of India, have been discovered. The beds are still young and the earliest date of maturity, is 1926. The only other pearl fisheries of any importance are along the extreme southern coast and the Mergui Islands, off Southern Burma. These latter are exploited by Japanese divers and the production enters but slightly into Burmese exports.

The occupation of Constantinople by Great Britain since 1918 has cost England a little less than \$150,000,000.

Disappointment

College Dairy Buys Two High Class Registered Cows

The College Dairy now owns two of the finest Jersey cows to be found in Texas and New Mexico due to the efforts of Prof. Frank R. Phillips, Head of the Department of Agriculture.

One of the cows is a \$500 cow from the famous Meldon-Gray herd at Roswell, New Mexico. She is a Gold Medal Cow at the Tri-State Exposition recently held in Amarillo, and she holds the state record in New Mexico as a milk-er.

The other cow is from the A. C. Corbett herd of Fort Worth and was priced at \$300. She placed second at the Tri-State Exposition, and gave four gallons of milk with her first calf. Corbett is one of the four biggest Jersey men in Texas.

George Love, a student, has been placed in charge of these two cows at the Dairy and is putting them under the Record of Merit, Test. They are being fed three times a day on balance rations.

Relatives of Faculty Member in Quake

Miss M. Moss Richardson, Assistant Professor of English, has not yet received a letter from her relatives who were in the district of the recent earthquake in Japan, but she reports that according to radio messages they are safe. Miss Richardson's sister-in-law and nine year old nephew were in Tokio at the time of the earthquake, where they were visiting. Her brother is Commander J. O. Richardson of the U. S. S. Nashville, and was stationed in north China at the time of the catastrophe.

UNCLE JOE TALKS ON BOOTS

Several members of congress were sitting on the western steps of the capitol, watching an unusually beautiful sunset beyond the wooded hills of Virginia, as they chatted upon various subjects, according to the National Republican. The talking and looking, however, came to a sudden halt when a stranger strolled by wearing a pair of old-fashioned cowhide boots, with his pants, (no, not trousers) stuffed into the tops.

"Boys," slowly remarked "Uncle Joe," "that's the first pair of cowhides I've seen in Washington in a dozen years. How well do I remember the old days when I wore them and greased them every little while with tallow! And, oh, what a job it was to work up a shine on them out in the woodshed when I wanted to go on a little court-shiping trip!

"By the by, do you realize that a considerable affinity exists between men and boots? They both have the same weaknesses and good qualities, and are similarly affected under certain circumstances:

"Boots go on feet; so do men.
"Boots have soles; so do men.
"Boots sometimes get tight; so do men.

"A boot will shine, if polished; so will a man.

"Some boots have red tops; so have some men.

"Some boots lose their soles; so do some men.

"Boots are tanned; so are men—mostly in their youth.

"Some boots can't stand water; neither can some men.

"When a boot is well soaked it is a hard case; so is a man.

"A boot, to be of much account, must have a mate; so must a man.

"A boot when well heeled always feels comfortable; so does a man.

"The less understanding there is in a boot the bigger it feels; so it is with a man."

TWICE TOLD TESTIMONY

Canyon People Are Doing All They Can for Fellow Sufferers.

Canyon testimony has been published to prove the merits of Doan's Kidney Pills to others in Canyon who suffer from bad backs and kidney ills. Lest any sufferer doubt this evidence of merit, we produce confirmed proof-statements from Canyon people who again endorse Doan's Kidney Pills—confirm their former testimony. Here is a Canyon case:

T. A. Ridgway, farmer, says: "I suffered from a weak bladder, causing too frequent and profuse passage of the kidney secretions. I have noticed since using Doan's Kidney Pills that I have much better control over my kidneys. I recommend Doan's Kidney Pills to relieve weak kidneys."

OVER SEVEN YEARS LATER, Mr. Ridgway said: "I haven't had occasion to use Doan's Kidney Pills since I recommended them. I think the cure they gave me has lasted." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ridgway had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Cousins Society Organizes With Smith President

Meeting in regular session Friday evening, the Cousins Literary Society, named a senior, Jeff D. Smith, president for the current quarter, and inserted the first page in Cousins 1923-1924 History. Smith has been a Cousin since 1914, and has attained a very high standard in scholarship and debating. "There is much to be done this quarter," he said in acknowledging his election, "and it shall be the policy of this society to assume every responsibility with the intention of meeting its demands fully." "Cousins are not afraid to work and work hard," said another speaker, "and upon no other basis will real success be won. It should be our purpose to set the very highest standards in everything and to win on sheer merit."

A large number of promising new students have applied for membership in the society, and these will receive the official pledge this week.

The chairman of the program committee will be appointed by Smith in a short time, as will also the various members of the other standing committees.

Other officers elected are: Vice-president—Evetts Haley. Secretary—Ray Daniels. Treasurer—C. E. Luce. Students Council Representative—Olin E. Hinkle. Sergeant-at-Arms—J. A. McDonald. Chaplain—Elmer Marshall. Yell Leader—Lee Gibbs. Annual Rep.—J. A. McDonald. Prairie Rep.—Gordon McCarty.

YESTERDAY AND TODAY

Few people live in their own times. They live in some imagined romantic past which was just as common and matter-of-fact as the present is, or in some imagined millennial future which when it arrives will be just as common as today. Their attitude toward their own times is one of indifference or challenge. Yet today is the past brought up to date; today is the threshold of the future. If you can interpret today you have a finer view into tomorrow than the visionary who cannot see today for tomorrow's castles in the air. People are mentally suffering, are needlessly lacerating themselves, because they have assumed that Today means nothing and cannot be interpreted. Yet if today has no meaning, the past was a Blank and the future is a Chaos. But today has a meaning, all the meaning that there is; it is the root, the chrysalis of all that is to come.—Henry Ford.

The State of Texas, County of Randall. Notice is hereby given that I will sell One Brown Horse with white spot in forehead, no brands, belonging to T. H. Buster, between the hours of 10 a. m. and 4 p. m., on the 1st, day of November, 1923, at the Court House Door in Canyon, Texas, Randall County, for pasturing said horse. The amount now due being \$32.25.
25p3 ELLIS WILSON.

SHERIFF'S SALE

THE STATE OF TEXAS, County of Dallam. In the District Court of Dallam County, Texas.

L. B. Steele and Citizens State Bank of Dalhart, a Corporation, plaintiffs, versus Carrie P. Turner, L. B. Jones, Miss Mamie Siler, Miss Anna Novotny, Albert Hanny, A. H. Kent, Mrs. J. J. Dawson, Berkeley Dawson, J. A. Hill, F. E. Savage, and The West Texas State Teachers' College, at Canyon, a Corporation, defendants.

Whereas, by virtue of an order of sale issued out of the District Court of Dallam County, Texas, on the 1st day of October, 1923, on a judgment rendered in said Court on the 5th day of September, A. D. 1923, in favor of said plaintiffs and against the said defendants in Cause No. 1361, on the docket of said Court, I did on the 9th day of October, A. D. 1923, during the second week of said last mentioned month and year at 9 o'clock A. M., levy upon the following described personal property to-wit: All the household goods and furnishings in the building commonly known as "Huntleigh Hall" on land in the Conner Addition to Canyon City, Randall County, Texas, described as lots Numbered Ten, Eleven, Twelve, Thirteen, Fourteen and Fifteen, in Block Numbered Ten; said personal property belonging to said Siler and Novotny; and at the same time I did levy upon said land being said Lots Numbered Ten (10); Eleven (11), Twelve (12), Thirteen (13), Fourteen (14) and Fifteen (15), in Block Numbered Ten (10), of the Conner Addition to Canyon City, Randall County, Texas, and known as "Huntleigh Hall," and belonging to said defendants Siler, Novotny and Hanny; and on the sixth day of November, A. D. 1923, being the first Tuesday of said month between the hours of Ten o'clock A. M., and Four o'clock P. M., on said day at the Court House door of Randall County, Texas, I will offer for sale and sell at public auction for cash, all the right, title and interest of said defendants in and to said land; and at said last mentioned time and at said "Huntleigh Hall" I will offer for sale and sell at public auction for cash, all the right, title and interest of said defendants in and to said personal property, and will sell the personal property before selling said land.

Dated at Canyon City, Texas, this 9th day of October, 1923.
W. C. BLACK, Sheriff, Randall County, Texas.

Women to attract must Radiate Health!

BEAUTY is the magnet which draws all eyes—and back of beauty—Health—working silently—Red blood tingling through the veins;—the glow of youth in the cheeks;—the spring of eagerness, of vim, of vitality in the walk;—the ever graceful air, unrestrained by care or worry.—All the charms of beauty. All the works of health.

Men are fascinated by the charms of beauty. Women gaze with envy, secretly jealous, perhaps—wondering—hoping—praying for that attractiveness that is not theirs.

But why the wondering—the hoping—the praying for that craved-for attractiveness—that beauty. Good looks is the barometer of one's condition. Good health radiates beauty. S. S. S. purifies the blood—creates new red blood cells—rids the system of impurities which make beauty and attractiveness impossible. As women to attract must radiate health so must they keep their systems free from impurities and their red blood cells ever increasing. S. S. S. does both.

S. S. S., since 1876, has been ridding the system of impurities—pimples, blackheads, boils, eczema and rheumatism—building red blood cells—aiding women to be attractive by radiating health. S. S. S. is made of carefully selected herbs and barks, scientifically prepared and proportioned. All good drug stores carry S. S. S. It is more economical to purchase the large size bottle.

SEWED 12 YEARS FOR BURIAL LOT

Woman Inmate of Poor Farm Acquires \$25 to Save Body From Potter's Field.

Maryville, Mo.—Miss Anna Curless has been an inmate of the Nodaway County Infirmary for 53 years and during the time she has seen a number of bodies taken away from the institution and turned over to medical colleges. The thought of this fate for herself so worried her that she took steps to save herself from such a fate. Although practically without relatives or friends, through 12 years of hard labor at making quilts during her spare time she has managed to amass \$25 and with it has purchased a lot in the Miriam cemetery, where, she has been assured by the infirmary officials, she will be given a regular burial. She knows now that no medical students will get an opportunity to work on her body for experimental purposes.

Tells of Struggle to Get \$25.
With quivering lips Miss Curless told of the hard efforts she had made to acquire the occasional dime, quarter and half dollar through quilting until she had accumulated the necessary dollars to make the purchase of the cemetery lot.

Friends and charitable institutions in Maryville learned of her ambition and she was aided by them to the extent that they gathered quilt pieces and sent them to her at the poor farm. It was slow work for Miss Curless, whose fingers had become stiff in her old age, but she did not give up. For several years it seemed as if her fund was growing awfully slow, but after she had gathered together \$10 the remainder of the money seemed to come somewhat easier. It was in 1911 that Miss Curless first began to make her quilts. The finished products were sent to all parts of the United States.

First Inmate of Farm.
Miss Curless is the first person ever admitted to the county farm, and she has been under the regime of 16 superintendents.

She has seen inmates of the institution die with no relatives or friends in the world, and no tears, no flowers, no songs at the funeral. Simply an entry in an official-looking book marked the end of a life. Those who die at the farm are buried "over the hill," or are sent to a dissecting room that some medical students may become acquainted with the human body. It was to escape all this that Miss Curless worked for 12 years to save \$25 with which to purchase the cemetery lot.

She never attended a school of any kind, but she has learned to read by the use of newspapers and books. She remembers nothing of her parents and her childhood days were spent in sorrow. She was fifteen years old when she came to the Nodaway county institution and now she is an old woman, well along on the downward hill of life. Altogether she has led a contented life during that half-century period.

Sea Hero Given Medal After Two-Year Search

New York.—After a search of two years for a man who had forgotten he was a hero, Edward Kavanagh, forty, of Jersey City, able seaman, received the seaman's valor medal. The act of heroism was performed June 21, 1920, and the medal was ordered by President Wilson. For two years Kavanagh could not be found, although search was made in Ireland, where he was born, and throughout this country.

Kavanagh's heroic act is said to have been known to President Harding, who inquired occasionally if he had been found.

According to the log of the British ship Frenchchurch, which went to the rescue of the foundering American schooner, William C. May, in a heavy sea, Kavanagh helped man the lifeboat and succeeded in taking off the captain, his wife and seven others.

Rejuvenation of Girls Promised by Dr. Voronoff

London.—The rejuvenation of women as well as men has been promised by Doctor Voronoff, the famous monkey gland expert. Doctor Voronoff explained during the recent international surgical congress that he expected to be able to announce the secret of "everlasting girlhood" in a short time.

The announcement caused a sensation among the delegates, and many of them were frank in saying they believed it utterly impossible. In fact, some of them said he ought not to do it.

Doctor Voronoff refuses to discuss the subject further other than to say he has progressed to the extent that he is certain of success.

Bush Saves Dreamer Who Tried High Dive

Sioux Falls, S. D.—Believing that he was making a high dive, when in reality he was dreaming, Albert Paulson leaped from a second story window of his home and landed uninjured in a big bush. Some pretty girls were watching him dive, Paulson told members of his family who were awakened by his yell when he awoke.

PROVES AMERICA ONCE JOINED ASIA

Asiatic Expedition Establishes Existence of Land Connection—Discovers Fossil Field.

Washington.—In a report just received from Peking, Roy Chapman Andrews, leader of the Third Asiatic expedition of the American Museum of Natural History of New York, declares the existence of a land connection between Asia and North America has unquestionably been established and hundreds of years of work will be required to exhaust the huge deposits in "one of the world's greatest fossil fields."

Beyond Their Hopes.
Mr. Andrews' letter says: "The first month of the expedition's work is far beyond our hopes. Where we expected only fragments we have discovered an immense deposit of large and small dinosaur bones. It will require many months to exhaust this region, but we have removed two partially complete skeletons and parts of several others. This includes herbivorous dinosaurs, 30 feet long, of the Iguanodon type and smaller carnivorous species. These bones are at least 5,000,000 years old, but beautifully preserved."

"They probably are related to European types, and with our former work indicate that Central Asia is the ancestral home of the dinosaurs which migrated to Europe and America."

"We have discovered a skull of a giant rhinoceros-like beast known as the titanotherium, which, although it has been buried for 3,000,000 years, is almost as perfect as though the animal had died a week ago. The titanotheres were previously only known in America."

Deposits Full of Interest.
"We have found also remains of a giant dog-like carnivore, as well as many teeth and jaws of an ancestral tapir-like animal. We could spend easily a year's time in these great deposits, but will give them only enough time to get a few of the choicest things."

"The expedition's belief that Mongolia is one of the world's greatest fossil fields is thoroughly confirmed. It will require a hundred years of work by many expeditions to exhaust these huge deposits."

"Our original theory of a Central Asian center of dispersal of the mammalian life of Europe and America is receiving more proof every day. The existence of a land connection between Asia and North America has unquestionably been established."

"The expedition will proceed westward into the Central Gobi desert. We expect to investigate areas which we located last summer and to explore new regions south of the Altai mountains toward Chinese Turkestan and far to the west."

British Lead in Ships That Pass Suez Canal

London.—The number of ships and their net tonnage that passed through the Suez canal in 1922 totaled 4,345 and 20,745,245 respectively. The receipts amounted to 109,556,537 francs (about \$10,345,105 at the present rate of exchange).

The canal company's books for 1922, just balanced, show that vessels flying the British flag headed the list, numbering 2,730, or 63 per cent, with a gross tonnage of 18,425,942. The Dutch were next with 455 vessels or 10.5 per cent, their gross tonnage being 2,064,013. Third on the numerical list is Italy with 225 vessels, equal to 5.2 per cent, with a gross tonnage of 1,180,850, but France, with 215 vessels, or 4.9 per cent, has the higher gross tonnage of 1,406,121. The German flag was borne by 149 vessels, or 3.4 per cent, with a gross tonnage of 1,081,424.

Japanese Skipper Is Found Dead at Wheel

San Diego, Cal.—Steering erratically in a circle twenty-five miles off the harbor here, and, failing to answer hail from other craft, the Japanese fishing boat Fuso was overhauled by another Japanese boat and the skipper, O. Tomann, found dead.

Tomann, the only person aboard, was found lashed to the wheel, his body leaning to one side, which caused the Fuso to steer about in a circle, as the gasoline engine of the boat was operating full power.

Physicians declared death was due to heart trouble.

Secret Drawers Yield \$7,335 in Old Bureau

Manchester, England.—A combined Sheraton bureau and bookcase, which was bought from a dealer recently by the wife of a Manchester corporation official for \$100, has yielded up from secret drawers several bonds and probate of a will relating to property of the value of \$7,335.

The dealer had indicated the location of two secret drawers, but investigation by the purchaser brought to light three more secret recesses.

The will is dated November, 1906, and is drawn up by Mrs. Sarah Kershaw, No. 15 Meadow street, Moss Side, Manchester. A Manchester corporation bond for \$100, redeemable next month, and a Stockport corporation bond for \$500 was discovered.

CHARGE GERMANS BRING DOWN FRENCH AIRPLANES

Many Recently Lost in Ruhr Starts Strange Theory.

Paris.—A startling theory has been propounded to account for the number of airplanes belonging to the Paris-Prague service which have fallen in German territory.

It is believed by many officers of the French air service in the Rhineland and the Ruhr that the Germans have discovered a means of stopping the action of the magnets of airplanes in flight. The Germans are credited with first having found a way in Berlin to stop automobiles within a specified area and the French believe they have applied the method to airplanes.

The pilots and passengers forced to land are allowed to go free, but the plane and the freight it may be carrying are confiscated, the machine being, according to French reports, sawed to pieces.

Since January 1 Germany has regained the liberty of the air, so far as civil aviation is concerned, under the Versailles treaty, but they are unable to prevent foreign military planes from flying over German territory. Since the occupation of the Ruhr began they have refused to supply any weather reports which are so necessary to successful operation of the air services.

Sir Walter Raleigh's Pipe on Exhibition

The famous pipe which Sir Walter Raleigh first smoked in England was recently discovered and has been placed on exhibition in a London tobacconist shop. The pipe is said to be the one Sir Walter smoked on the eve of his execution in 1618. The pipe is shown above.

Automatic Car Control to Stop All R. R. Wrecks

Philadelphia.—Tests of an automatic train control system, under practical operating conditions on the Pennsylvania railroad between Lewistown Junction and Sunbury, Pa., justify hopes that the system may provide a successful solution of the problem of preventing train collisions automatically, regardless of human failures, the company announced.

The system has been in operation throughout the Lewistown branch since July 11.

The system is a combination of electrical, pneumatic and mechanical devices applied both to the track and to the locomotives. These devices slow down, or, when required, bring to a complete stop, any train which approaches too closely to another on the same track, whether going in the same or opposite direction or when switches are improperly left open.

Cut in Two by Train Boy Lives 20 Minutes

Watsonville, Cal.—Although Carl Lee, nineteen, was cut in two by a train on which he was a stowaway near here, he not only lived for twenty minutes but was conscious long enough to talk in detail to hospital attendants.

He gave his age and home address, and explained that he was "beating" his way about the country. He said his mother was Mrs. Nettie Lee, Route 0, Box 174, Indianapolis. He was attempting to alight from the train, he said, when he fell under the wheels. Physicians said the lad displayed extraordinary vitality and courage.

Two Girls Become Actuaries.

London.—Yet another profession which has hitherto been regarded as exclusive to men has received women into its membership. Two English girls, Miss Gladys Gregory and Miss Dorothy Davis, both of them young, are the first women to become qualified actuaries and members of the British Institute of Actuaries.

Crow Awakens Friend in Time for Work

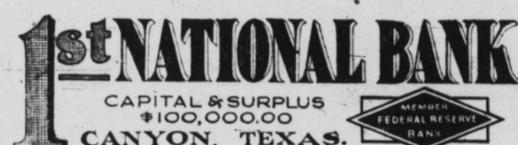

Hebe Patton, a street car motorman of Dover, O., doesn't need an alarm clock. He has a pet crow which calls him every morning at 5 o'clock by cawing at his bedroom window. Patton cared for the crow after it fell from its nest three months ago.

YOUR BANK—YOUR FRIEND

A good bank not only provides a safe place and convenient means of handling and storing money, but acts as a guide and counsellor. It plans with you for the future, and helps put your plans into effect.

You'll find the First National Bank a valuable friend and co-worker, with a broad service adapted to your own needs. Let us work with you.
