VOLUME XXVII.

CANYON, RANDALL COUNTY, TEXAS, THURSDAY, OCTOBER 18, 1923.

NUMBER 29

## HENRY LONG SHOT JOHN WALLACE IN AMARILLO TUES.

BOTH MEN FORMER RESIDENTS OF THIS CITY.

"I'm Proud I Did It" Says Long, Accusing Wife With Improper Relations, Which She Denies.

Henry Long shot and killed John Wallace at the Long home in Amarillo Tuesday afternoon about two o'clock. An automatic pistol was used by Long, seven bullets entering the body of Wallace.

Both of the men are well known in Canyon. Long lived here for several years and was engaged in the restaurant and other kinds of business. Wallace is the son of Mr. and Mrs. W. L. Wallace, who live in the west part of the city. They had moved to Canyon to educate their children, and it is stated that John had always assisted very greatly in keeping his sisters in school.

Long claimed improper relations existing between his wife and Wallace. Mrs. Long vehemently denied the charge before the officers in Amarillo, and for more than an hour was before the grand jury telling her life's history. Mrs. Long's maiden name was Cottle, her parents living near Quanah until their death. She has been known by several Canyon citizens since childhood, all of whom speak very highly of her character. Mrs. Long had recently filed a divorce suit against her husband, charging inhuman treatment. The couple are the parents of four small children.

The Amarillo News of Tuesday told of the circumstances regarding the killing as follows:

"I'm proud I did it," Long told officers when they reached his home at 2301 West North Eighth street. "He broke up my home."

Both men had been employed at the United States Zinc Company smelter. Both men were former Canyon residents.

Wallace's parents now reside at Canyon while Long's mother is said to live in Silverton.

Wallace, single, had been a boarder in the home of Long. The husband left home a month ago. Last week his wife filed suit for divorce, charging cruelty.

Yesterday Long came to Amarillo from Canyon. He went to his home to take some clothing to his four small children, he told officers. He found Wallace there. The latter reached in his pocket as though going after a gun, Long told Sheriff Less Whitaker. "I began shooting and did not stop until my automatic was empty."

Wallace was about 30. He was the son of Mr. and Mrs. W. L. Wallace of Silverton but his parents recently moved to Canyon to send their other children to the College. Wealthy relatives of Wallace are said to reside in Coryell County.

### Operates Smelter Boarding House

Long also formerly lived at Silverton. His mother resides there now. He moved to Amarillo about two months ago where he and his wife opened a boarding house in the smelter district.

Mrs. Long told officers that she had been keeping boarders to support herself that she grabbed her two small whom are in the public schools.

### Wife Denies Charges

Accusation by Long that Wallace had broken up his home were indignantly denied by his wife.

In the pocket of the dead man was found a small automatic, and his hand was in this pocket officers said. Long told officers who reached his home that he believed Wallace had a gun in that pocket. Officers said the gun belonged to the wife of the man held for the shooting.

Mrs. Long went before the grand jury late yesterday. Long refused to go before the body.

Long was arrested by Deputy Sheriff Jim Pottinger and Sheriff Whitaker. Sheriff Bill Garrett of Channing and Justice of the Peace H. R. Alhart, accompanied the officers to the scene of the shooting.

Word of the killing was given the officers over the telephone. A man called saying there had been a killing in the Old Town district, north of San Jacinto on one of the streets leading toward the smelter. He told the officers the man who did the killing had asked him to notify the sheriff's office. He said he would meet the officers as they came through San Jacinto and direct them to the house of the shooting.

The Long home is between the Heights and the Fort Worth and Denver railroad.

When officers arrived Long was standing in the door with the screen latched. He asked if that was "the

(Continued on last page.)

## CITY IMPROVEMENT EDITION NEXT WEEK WILL BE THE LARGEST NEWSPAPER EVER PUBLISHED IN THE CITY

Work is progressing very well on the big special edition of the Randall County News which is to be issued next Thursday, Oct. 25th.

Travis Shaw, secretary of the College, is official photographer for this big edition and during the past week has taken a large number of views in the city, showing the improvements made during the past year.

The News is going to make this edition as complete as possible from a mechanical and editorial standpoint.

Several thousand extra copies of the News will be printed for general circulation over Texas, showing what this city has to offer in the way of a first class residence city for people seeking a new location.

Every business house in Canyon should be represented in this edition with an advertisement as it will be an excellent investment.

The management desires that all copy for advertising and news articles be placed with us as early as possible during the week.

## BUFFALOES RAINED OUT SATURDAY AT MANGUM—WILL MEET UNIVERSITY OF NEW MEXICO HERE SATURDAY P. M.

## NEW MEXICO ONE OF STRONGEST TEAMS IN ROCKY MOUNTAIN CONFERENCE—LAST GAME HERE UNTIL THANKSGIVING.

The Buffaloes started last Wednesday to Mangum, Okla., to meet the Southwestern Teachers College of that state and ran into all kinds of difficulty. Bridges were washed out, and when the team reached Mangum water was knee deep all over the town. The game could not be played.

The team reached Canyon Sunday night, pretty well fagged out from the long hard trip, but are whipping into shape this week with a view of being ready for the University of New Mexico Saturday afternoon at Buffalo Park.

The University of New Mexico Lobos will play the Buffaloes in Canyon Saturday and it is expected that the local herd will have one of the hardest battles they have been up against, and the Simmons battle anticipated. The Lobos held the University of Denver recently to a score of 10 to 7, and the Denver lads scooped up the Rocky Mountain championship last year. Both teams will play Saturday with a two weeks rest. The Buffaloes having to turn back from the Southwestern Teachers College due to high water over Oklahoma and the Lobos not getting to play the Montezuma College eleven due to that aggregation getting ptomaine poisoning in an Albuquerque restaurant the night before the game.

The Buffaloes will have much reserve energy in store. Likewise the Lobos will be fresh. The Buffaloes lost to New Mexico U. last year in about six inches of snow. They hope to win this year if they have to do it in six inches of water.

It is expected that the game Saturday will be largely attended as this will be the only game played by the Buffaloes on the home field until Thanksgiving, when the Buffaloes will go up against the Clarendon Bulldogs. The Buffaloes will be away from home for five games, meeting Simmons, Clarendon, Roswell, Denton and Commerce on their home grounds before the final windup of the season on Thanksgiving with Clarendon.

Methodist Lead in Attendance at the College This Year

Methodist students are more in number than any other church represented at the West Texas State Teachers College. They number 236 while the Baptists have 196, the Christian church 71, Presbyterian 59, Church of Christ 35, Episcopal 8, Catholic 6, Congregationalist 1, Church of God 1, and 21 have no church preference. The number does not include some 200 training school students.

## PARENT-TEACHERS ASSOCIATION WILL ENTERTAIN

On Friday afternoon, Oct. 19, at three o'clock, the Parent-Teachers Association will entertain the friends and patrons of the Public School at the new High School building. A suitable program has been arranged and during the social hour committees will escort visitors over the new building. All interested are invited to come.

## MARRIAGE LICENSES

A marriage license was issued from the County Clerk's office Saturday to Earl B. Hedgecock and Miss Eunice I. Williams. On October 15th, a license was issued to H. T. Hix and Miss Nora Littleton. Harper Allen, A. B. graduate of the West Texas State Teachers College and son of L. G. Allen, Dean of the College, recently sent his credits from the college here to the University of California for evaluation for graduate study. The officials of the University allowed him 122 semester hours which is two hours above the mount required for graduate work. The recognition of the work in such full measure was highly appreciated by the members of the faculty here.

## STORK SPECIALS

Twin daughters were born to Mr. and Mrs. B. L. Cupell near Happy, October 5th.

A son was born to Mr. and Mrs. H. C. Stone, Jr., October 15th.

Help Keep Canyon Clean.

## FORTY-FOUR BUSINESS MEN DISCUSS FUTURE DEVELOPMENT OF CANYON

### EAGLES TAKE GAME FROM THE MCLEAN TEAM

#### COLD WEATHER DOES NOT INTERFERE WITH FAST PLAYING.

Eagles Show Up Fine in Contest and Will be Conference Factor—Go To Dalhart Saturday.

All is rejoicing in the camp of the Eagles and well it might be for they found revenge in a 14 to 0 score Saturday against their worthy foe, McLean. Despite the very disagreeable weather and muddy field the game, though slow, was filled with thrills and flashes of real football. Both teams were well matched and the Canyon team only won by superior playing.

The dashing line backs and end runs by T. Brown, combined with the passing of Brown to Stratton were entirely too much for the McLean boys to fathom and ere they awoke, two touch-downs had decided the game for our boys. Both touch-downs came in the last quarter of play, the first being carried over the deciding line by the speedy new fullback, John Vetses and the last by T. Brown who kicked goals. All of the men on the Canyon team deserve creditable mention for their wonderful fight and teamwork.

C. Nelson of McLean uncorked some good sprinting and showed real ability in handling the ball. Above all, these worthy lads showed themselves sports and played a clean caliber of football. Coach Webb has molded one of the fastest teams in the conference for Canyon this year and much is expected of the boys in the future as they are slated to win the conference bunting.

Having won the first conference game, Coach Webb will take his husky flock of Canyon Eagles over to Dalhart, Saturday, October 27, to engage that aggregation in a second tilt for the coveted honors. Dalhart is reported to have a strong lineup this year and the season has been one of victory for her so far. However, no doubt is felt in the Eagle camp but what the Saturday game will be a second star in their crown.

Canyonites, our boys are placing our school and town on the map more than ever before. Don't let the boys do all the work. Get behind them and show your willingness to do your bit by helping in every way possible. Make the lads go away to foreign fields feeling that the home folks are behind them 100 per cent.

### Governor Neff is Invited to Speak on Armistice Day

Governor Pat M. Neff has been invited to make the principal address at the Armistice Day celebration planned by the West Texas State Teachers College, according to President J. A. Hill.

Although Governor Neff has not accepted the invitation here it is believed that he will be here and will talk before the students, faculty and townspeople on Sunday morning, Nov. 11th.

A celebration will be held by the townspeople on either Saturday or Monday but the Armistice Day celebration by the College will consist of program on Sunday in the college auditorium.

### University of California Recognizes Work of the College

Harper Allen, A. B. graduate of the West Texas State Teachers College and son of L. G. Allen, Dean of the College, recently sent his credits from the college here to the University of California for evaluation for graduate study. The officials of the University allowed him 122 semester hours which is two hours above the mount required for graduate work. The recognition of the work in such full measure was highly appreciated by the members of the faculty here.

The University of Iowa has likewise recognized all work of the college by granting credit to Hubert Hamill for all work done while attending the college.

Help Keep Canyon Clean.

## MEETING HELD LAST NIGHT TO PUT CONSTRUCTIVE PROGRAM IN CANYON FOR THE UPBUILDING OF THE CITY

### ANOTHER MEETING CALLED FOR TUESDAY NIGHT AT 7:00 O'CLOCK TO FURTHER WORK OUT PLANS FOR THE FUTURE.

Forty-four men and professional men met last night at the Palace Cafe at seven o'clock to enjoy a luncheon, and to discuss ways and means of putting over a constructive program for Canyon during the coming year.

President J. A. Hill presided at the meeting and wished to have freely discussed the conditions existing in Canyon and the possibilities of future development. He stated that it was his desire to have a family conference. That the citizens might get their heads and hearts together to consider the problems of the community, and the city.

Make every citizen in Canyon a booster for Canyon and for the College. Freeze out the knockers. If things are not run right, try to get together and make them right, but not advertise our faults by knocking to the outside world. Mr. Hill plead for a spirit of co-operation, and showed how other towns have been built by co-operation. We can make Canyon a better town and the College a greater College by co-operation.

Mr. Hill called upon all who had any suggestions, and a number of those present made short talks.

R. A. Terrill told of his investigations for a tented city to take care of 200 additional students during the summer.

L. G. Allen suggested that many people on the Plains did not know that the College was a real College giving degree work. They should be informed, and they would not send their children away to be educated.

J. W. Reid showed how the boys and girls who have gone from this College to the big universities had made good. He praised the work Mr. Hill had done since becoming president of the College. He had lived in several communities, but had found none he liked so well as Canyon. If we do not have a big school here, it is our own fault.

C. W. Warwick praised the program outlined by Mr. Hill and urged its adoption.

C. R. Burrow spoke regarding the necessity of having a representative in the next legislature, and upon a rising vote of every man present, J. W. Reid was endorsed as a candidate for the Senate and urged to make the race.

Mr. Reid promised to consider the matter and let the people know within a short while.

Wallace R. Clark stated that the band had been equipped and was being trained without expense to the community, and was ready at any time for service to the community or to take a contemplated trip over the Panhandle country.

J. M. Vetses urged co-operation in the program of development. He stated that if the knockers on taxes would visit a town without a stiff tax rate, they would find no advantages.

R. I. Graves urged the citizens to get behind the College. Athletics was a fine way to get the College before the public. One dollar for a football game was not too much.

W. E. Lockhart told of his experiences in coming to Canyon, and his appreciation of the city. He hoped to have the houses numbered soon.

Mayor C. N. Harrison stated that the city would number the streets within a short while. He stated that the tax rate of Canyon was the lowest and the valuations were the lowest in the state in comparison with the advantages of the city, according to Brown-Crumer, bond buyers; and the lowest along the Santa Fe, according to Avery Turner, Santa Fe tax commissioner. He stated that Postmaster Hunt had investigated and found that Canyon could have free mail delivery when proper sidewalk connections were made. He wanted to see the commercial activities financed by a city tax, as had been adopted in various towns.

M. B. Johnson was much in favor of this method of financing.

W. J. Flesher urged the citizens to get behind the program of development. He stated that word was rapidly getting over the country that the College was a Christian institution, and it was having weight. He wanted to see the

SUBSCRIPTION \$1.50 PER YEAR.

Foreign Advertising Representative  
THE AMERICAN PRESS ASSOCIATION

A great deal has been said in Canyon about free camp grounds, but nothing done. We have asked a number of tourists about the so-called free camp grounds during the past few months. Some are of the opinion that a town is a dead one which has no free camp ground. A majority of those interviewed state that they do not patronize camp grounds unless forced to do so. We have put the question direct, and a majority would rather patronize a camp ground in which there was a little accommodation for what they paid. This seems to be the most popular and more economical solution of the question. A Missouri man stated that he would not expect the people of Canyon to pay his bill at the restaurant or if he put up at a hotel, so why pay his bill if he stopped at an authorized camp ground. But he was very pointed in his belief that every town should have some place for the tourists, with accommodations for which they would pay—a place where they could obtain kindling, water, light, bath—and for which they would pay a reasonable rate. It seems sensible. Some man in Canyon might be able to make a little money by starting such a place.

Anti-Klan "lecturers" are scouring the country. We trust none will come to Canyon. We are persuaded that a majority of them are as bad or worse than the Klan itself in its attempt to stir up hatred of neighbor against neighbor. We are convinced that some of these lecturers are on the road simply to fleece the public as was some of the Klan organizers attempting to fleece the Klan members. The sooner the Klan issue is dead and forgotten, the better it will be for the entire country.

From all indications the edition of the News next week will be the largest ever published. It will have the largest circulation of any edition ever published by the News. One Dallas firm has ordered five hundred copies for its personal distribution. Every business firm in Canyon should have an ad in this edition.

**WHY HAVE LAWS?**

Mr. Editor:—If you will give me space in our home paper I would like to discuss with our people, briefly, the question of law enforcement.

From observation, and experience as a prosecutor, I find it hard to get the jurors to enforce the law. However plain a law may be, and however strong a case the State may make, yet there will be some weak-kneed, spineless so-called men on the jury who will be for turning the criminal loose, in both misdemeanors and in felonies. It is really disheartening and discouraging from the standpoint of the law enforcement officers to work and probe and strive together evidence to convict criminals and put the case before a jury as strongly as possible, and then a Bolshevik jury turn the defendant loose in thirty minutes. It takes all the fight out of a man. It seems that all some of these spineless things wearing pants, called men, want is for some blatant, flannel-mouthed lawyer to show them a way they can keep from doing their duty as jurors and they will fall for it. And then those jellyfish will come back to you and say that if the State had proved this or that they would have convicted the defendant. They are liars. That kind of a sucker wouldn't stand up among decent white men and do his duty at all. That's merely his dodge. They don't stand for law and order and a decent, clean, law-abiding community, but stand against all those things that go for building home, and town and State. Oh, for some power to stiffen the backbone of jurors. Oh, for some power to strengthen our men from weak, placid non-entities to strong, upstanding, thinking men, who are willing to shoulder the responsibilities of citizenship as strong, capable men should.

I believe, if when the sheriff's department gets their list of jurors to summon for jury service they would prefix a good part of the names with "Mrs." and let the "Mrs." come and

do jury service, and leave the weaker vessel, who, unfortunately, is denominated the head of the family at home to wash the dishes and spank the kids while the "Mrs." is doing jury service, we would have better law enforcement. Our women have a keener sense of right, seems to me, and a greater appreciation of laws and their enforcement than the average man has, and would come nearer putting it over, and backing up the law enforcement officers than our men do.

Of course this doesn't apply to all men. Some, a large per cent, thank God, stand four square for law enforcement, but too many do not.

Men of Randall County, it's up to us to enforce the laws. We are the law. The law can't enforce itself. We must give it a voice before it can speak.

Canyon is, and of right ought to be, an ideal community in which to live. Let's drum out of town all knockers, reds, and Bolsheviks. Let's not evade and dodge jury service, and when chosen may you heed the admonition in Holy Writ: "Quit yourselves like men; be strong."

JAMES L. WOHLFORD,  
County Attorney Randall County.

Most merchants are insistent on the local newspapers urging the people to trade at home—and keep the money in the community. But, "what is cause for the goose should also be cause for the gander," and some merchants fail to practice what they preach. Recently in a certain Plains town a merchant wanted several thousand circulars printed for a big sale, and asked the local newspaper to bid on the job, which amounted to nearly \$100, and because his bid was \$10 more than that of a large city printing office he sent the job to the city. The paper and ink necessary to do the job amounted to about \$25, so the \$75 out of the \$100 would have gone for labor of printers and profit to the editor of the local paper, had the printing been done at home, and this money would have remained in local circulation and would doubtless have been more profit to the merchant who had the job done than the \$10 he saved in sending the printing to the larger city. By sending the printing away he helped tear down his own town and to build up a large city. The local newspaper deserves every bit of job printing done in the community—not a dollar's worth should be sent to the city or given to an exclusive job shop.—Plainview News.

Holding that it is the automobilist's duty to slow up when old persons or children are near his line of travel, a Detroit judge denied a motion to dismiss the complaint of negligent homicide against a careless driver whose car ran over and killed an elderly woman. The defendant's attorney moved to dismiss the complaint because no criminal intent was evident in his client's actions. Testimony showed that the woman stepped off the curb into the path of the defendant's car. The judge held it is the duty of the driver to stop when children or old persons are in the way.

Austin Harrison in the London Observer, says "Germany is, financially, completely Bolshevik. A new aristocracy has arisen—the Jews: they occupy the big hotels in Europe. They are in possession. In Vienna, in Poland, in Germany, in Hungary, the young Jew speculator is the new Furstlichkeit; he is smart, intelligent, and energetic, and he sits in the royal boxes at the opera."

**Facts about Child-birth**

AN eminent physician has shown to thousands of expectant mothers just how to be free from dread, and from much of the suffering which many mothers experience for months, right up to the moment when the Little One arrives!

Mrs. Wm. Washington, 107 Louise Ave., Nashville, Tenn., says: "There is positively no woman on earth that would be without 'Mother's Friend' during expectancy if she only knew the value of comfort."

"Mother's Friend" is externally applied to the region of the abdomen, back and hips. It relieves the tension on nerves and ligaments as month follows month. Finally, it makes child-birth a joy instead of a painful dread.

Use "Mother's Friend" as our mothers and grandmothers did. Don't wait, start today, and meanwhile write to Bradfield Regulator Co., Ba-72, Atlanta, Ga., for a free wonderful book containing information every expectant mother should have. Get a bottle of "Mother's Friend" today. It is sold by all good druggists.

## :: INSIDE INFORMATION ::

It's easier to run into debt than to crawl out.

A receiver is generally appointed when there is nothing to receive.

Majorities may not always be right, but they get the benefit of the doubt.

It seems the price of everything is too high except labor and farm products.

Paper and metal counterfeits are declining in activity. More money in liquid counterfeits.

A Kansas states (wo)man has prepared a law regulating the height of heels on women's shoes.

Even the extreme heat of summer has its good points. It boils the cussedness out of some people.

One half of the game of politics is bunk and one half the voters are easy prey to the professional "bunksters."

It seems like needless killing to drive a motorcar onto a railroad crossing ahead of a flying train. But they did it with horses and they will do it with cars.

One town in Kansas invites tourists with this sign at the town's entrance: "This is Lone Wolf. Speed limit 105 miles an hour. Fords do your best. Watch us grow!"

The best test of the merits of public owned-operated public utilities is the experience of cities trying the experiment. Barring water supply the verdict is unfavorable.

Our Country has about 25,000,000 draft horses and mules. Electric and gas motor vehicles save these animals much hard work but they are coming back to the farms.

"Post-dated" checks were the big asset of the Non-Partisan League of North Dakota. It was a new idea in finance and the organization is said to have \$2,000,000 of them on hand-unpaid.

Business in Germany is more efficient than politics or government. Hugo Stinnes purchases a mint to make his own money. Stinnes currency is in circulation in Berlin and is guaranteed by two of the largest banks in Hamburg.

Governor Pinchot goes up against the real thing in dealing with the coal strike. It will be quite different from his favorite indoor sport of boosting conservation of natural resources. It will be the making or unmaking of a public man.

Congressional junkets are an expanding activity. It does the average congressman, who has never seen much of the country outside his own state, no harm to see what other sections are doing. He is learning to be a bigger and broader American as his salary goes on.

All the railroads across the United States would have been double-tracked long ago if we had not listened to the politicians who demanded national and state laws regulating the railroads and taking them out of the hands of practical railroad men. Politics will ruin any business.

Taxation is a problem only because so many persons have been situated so they could avoid their share of the burden. If all were willing to share it in proportion to their ability it would be an easy thing to get a legislature together and pass a set of just laws.—Palm City (Fla.) Courier.

During the last two years, 23,000,000 acres public lands have been taken up by homesteaders. But are they real "homesteaders," or just technically complying with certain forms of law to grab public lands? In Lincoln's day a "homesteader" meant a family going to make a home on land.

**Insurance—Real Estate**  
I represent some of the strongest insurance companies in America.  
Real Estate bargains, both city and farm property.

W. A. PALMER, Atty.  
Room 7, New Fugus Bldg.  
Amarillo, Texas

Americans spend \$2 on autos and \$3 per capita on houses.

Our relation to Japan is the same as to Europe—the sooner we help them get on their feet the better for our country.

Isn't there some way to put an able bodied loafers to work? There are enough of them in every town to cut the weeds and clean the streets.

With 17 billions in the savings banks and 80 per cent of the farmers owning their own land the surprising thing is that the alien radical should be optimistic.

Purchasers of incandescent lamps in the United States paid approximately \$90,000,000 in the year 1922 for lamps with which to light homes, stores, factories, streets, etc. (excluding miniature lamps.) This is equivalent to about 85 cents per week per year, or less than two cents per capita per week.

One class of citizens should command the respect and chivalric devotion of true Americans—the women and girls who by the millions march to shops, offices, factories and out into the fields of the farms and uncompromisingly do a day's work and save some of the money to carry on the home, send the children to school and dress themselves in an attractive style.

There will be no sky-chucking politics auranauting from the White House. Coolidge will send up no political bombs merely for the fun of hearing himself make the big noise. Nor will he try to blow up the universe in other countries. For awhile the great ship of state will sail nearly on an even keel, and there will be no rocking the boat merely to make timid passengers holler. That kind of politics will be monopolized by some of the professional scare-throwers.

Don't kill the birds. If there were no birds there wouldn't be anything else, for the air and the ground would be so filled with harmful insects of all kinds that they would devour every bit of vegetation of whatsoever nature, and then mankind and all other forms of animal life would die for lack of food. Birds were placed here as a balance in nature to keep down the pests, and they do it properly if let alone. Let us bear this in mind and protect

rather than kill the useful, harmless birds.

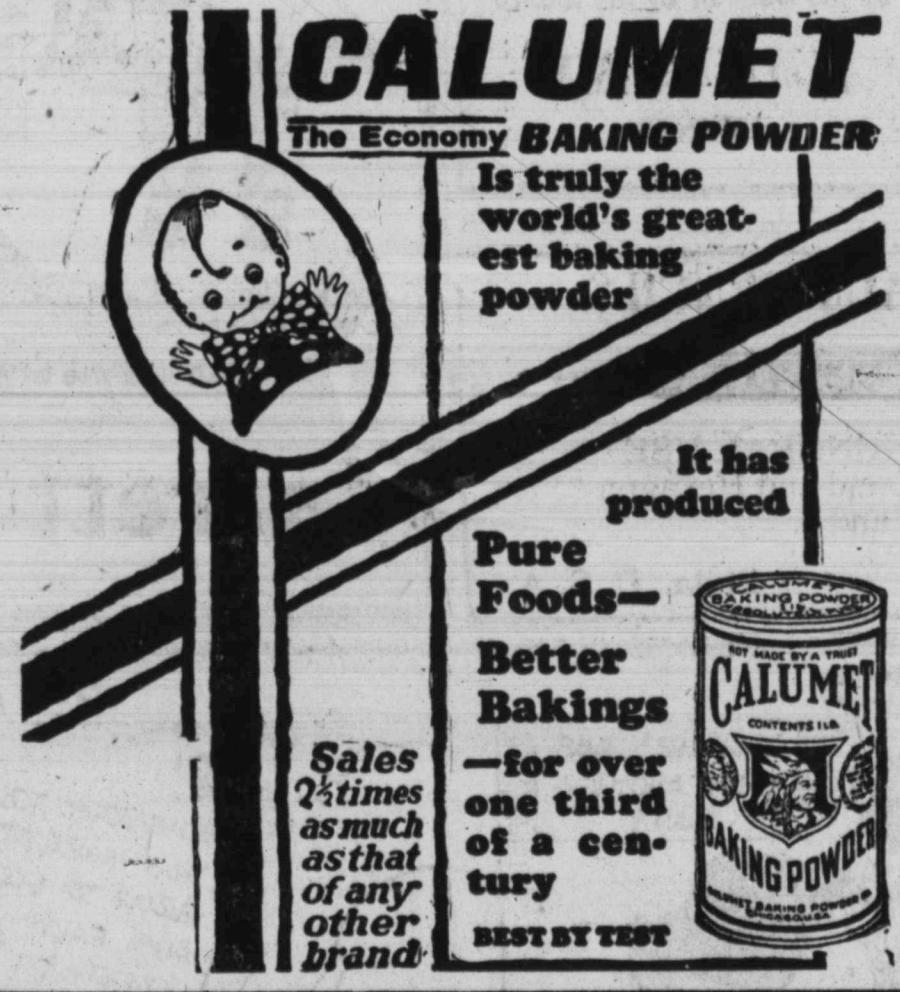

Dr. Charles W. Eliot, in New York Times, says: "A new light is effecting education and industries in United States, particularly the educational part of industries. Its name is standardization, and there is a very general movement to give it application in a great variety of American activities. Uniformity in attainment of skill and therefore in earnings leads to success in work but to discontent and unhappiness in the worker. Fixed standards in labor, in study, in modes of family life or of community life, are downright enemies of progress for the body, mind and soul of man."

A wealthy philanthropist has given a million dollars to the University of Kentucky to be spent in studying how to make the Southern mountains produce a good living for the people who inhabit them. The problem is to discover the crops and the methods best suited to the hill lands. Through experiments that will begin at once the men in charge will test in the hill regions the commercial possibilities of raising various kinds of livestock and crops. With proper methods and more knowledge the isolated mountaineer may be able to make a better living than he has made heretofore.

On evidence that a person or company is conducting a lottery or a scheme to obtain money under false pretenses the Postmaster-General issues a fraud order that stops all mail directed to the person or company in question and returns it to the senders. The Postmaster-General's next step, if the case warrants, is to bring action on the charge of using the mails to defraud. The Postoffice Department is seldom able to detect a swindler as soon as he begins his work; so it is always the part of good citizenship to inform the post office as soon as you discover a fraudulent concern.

The climbing perch, "anabas scandens" native of India, has rudimentary lungs as well as gills. It can live a long time out of water, can travel considerable distances over land, and by extending the ends of its gill covers and pressing its fins against the bark can mount the stem of a conveniently slanting palm tree at least far enough to deserve its name.

In the event that Governor Pinchot would like to take another conciliation job or two, the world was never in position to offer him a larger assortment.—New York Evening Post.

## TYPE D GRINDERS

The Type D, McCormick-Deering feed grinders are designed especially for sections where kaffir corn, milo maize, and other hard corns are raised. Ear corn can be fed directly into the mill without husking because the mill is designed to cut up the cobs and husks into small bits and feed them directly to the grinding plates. Type D grinders will also grind shelled corn and small grains without the addition of special accessories. Where kaffir corn is fed without grinding, the animals do not digest their food thoroughly. Both horses and cattle are likely to swallow their feed whole without chewing it because the kernels are hard. This means that they do not get the full nourishment from their feed. Type D grinders handle these crops successfully, and put them in shape to be digested easily.

**CANYON, TEXAS**

**Happy Happenings**

Clarence Evans was in Amarillo Saturday having dental work done. D. J. Maynard was an Amarillo caller Friday evening.

Virgie Maynard of Tulia spent the week end here with her parents, Mr. and Mrs. B. F. Maynard.

Mrs. Frank Belle left Tuesday for Mountainair, New Mexico, where she will visit for a few weeks.

Mr. and Mrs. H. D. Hagood are the proud parents of a baby girl born Thursday, October 11th.

Miss Grace McConnell spent the week end in Tulia.

Walter Cobb of Tulia was here on business Tuesday.

Mrs. M. T. Baily was an Amarillo caller Tuesday.

D. J. Maynard left Tuesday for Shamrock where he will be gone a few days on business.

R. O. Bridges was a Tulia caller Saturday.

Mr. and Mrs. A. J. Newberry spent the week end at the parental C. Shumans home in Canyon.

Berl Avery, who is attending school in Canyon spent the week end with his parents, Mr. and Mrs. J. O. Avery.

Winfield Miller of Canyon spent the week end here.

Mrs. Wilkins of Hale Center, who has been visiting with her son, Rev. B. W. Wilkins, for a few days returned to her home Friday morning.

H. L. Holland of Texhoma is here this week buying cattle.

G. T. Miller and son Ernest of Canyon are working here this week.

C. L. Grounds returned Sunday from Dallas where he has been for the past week.

No services were held at the different churches of the town Sunday on account of the rainy weather.

Miss Reed, the state inspector of the Home Economics classes visited the Happy School Tuesday.

Mr. and Mrs. Bill Anderson are the proud parents of a baby boy born Friday, October 12th.

J. H. Stephenson was an Amarillo caller Tuesday.

Mr. and Mrs. Felix Neff accompanied Miss Odessa Evans as far as Amarillo Saturday. Miss Evans was on her way to Haskell.

Ervin Sorell returned Monday from points in Iowa and Nebraska where he has been visiting for the past month.

Wm. F. Miller spent the week end with his folks in Canyon.

Hilry Atkison of Canyon is visiting here this week.

Mrs. John Flesher and little son, W. C. of Amarillo are visiting with Mrs. Flesher's mother, Mrs. Patterson, this week.

**INTERMEDIATE LEAGUE**

The intermediate league met Sunday at the Methodist church with thirteen girls and twelve boys present. The lesson was "Our Superannuated Preachers and their Care". Miss Viola Vetsak played a violin solo.

Mrs. Graves will entertain the members Friday night with a party.

**YEARLING TO PAMPA**

The Yearlings go to Pampa this morning to play the high school team this afternoon.

While you are on the lookout for a better job don't forget that your employer may have an eye open for a better man.

**Here's Another Story of What Good Cows Do**

Hereford Brand: C. W. Sowers and Son have given the Brand some figures on cream production for the past nine months, beginning January 1, to October 1. Mr. Sowers and Son are milking nine Holstein cows. The cows to October 1, produced 3,555 pounds of cream, or nearly 400 pounds per cow. The average test was about fifty and the cash received for the cream was \$622.80. Mr. Sowers said beside the cream they had sold \$10.75 worth of milk and fed the separated milk to hogs. Mr. Sowers said he was convinced that the Holsteins were the best producers for this country, being good rustlers. His cows have had little else but rough feed and pasture.

**BAPTIST SERVICES**

Sunday School 10 a. m., John S. Humphreys, Sup't.

11 o'clock, sermon, "Jesus propounds a Searching Question to one of his Disciples."

6:30 p. m., B. Y. P. U.

7:30 p. m., sermon, "How we May Save Our Lives, and Yet Lose Them."

Wednesday evening, prayer meeting, 7:30 p. m.

All are cordially invited to attend these services.

**BUILDING HOUSE**

J. J. Green is building a small house west of his residence on West Houston street.

**RAIRIE CHANGES FORM**

The Prairie, student newspaper of the College, came out this week in an enlarged form, going from five to six columns. It was found necessary to make the change owing to the amount of material demanding a place in the Prairie. The paper will continue as a weekly publication instead of semi-monthly as has been the case since it was started five years ago.

**Y. W. C. A. MEETING**

Don't you wish to be the very best student possible? Don't you wish to develop yourself in every way, in order to fit yourself for greater service? Of course you do. Then join hands with us and let us help each other. Come to our first meeting Wednesday, October 17, in room 101 at 4:30 o'clock.

Miss Hudspeth will talk to us at that time. The musical numbers for the hour will be a quartet arranged by the girls, and a solo by Miss Ada Clark.

There will also be other numbers on the program. Come and see. Miss Winnie Mae Crawford is devotional leader for this meeting.

We extend a welcome to every girl of this institution to unite with us. We want you, and need you—Come.

**GOOD REASON**

Teacher of Hygiene—"Why must we always be careful to keep our homes clean and neat?"

Little Girl—"Because company may walk in at any moment."—Judge.

**FRONABARGER ACTING DEAN**

During the absence of L. F. Sheffey, head of the department of history in the West Texas State Teachers College, Professor B. F. Fronabarger, Jr., acting head of the department of education will act as dean of men.

Mr. Sheffey is attending Chicago University where he holds a scholarship, was made dean of men upon the leaving of H. W. Horlock for Alpine to become head of the Sul Ross College. Mr. Sheffey will return to his work here next year and during the absence Mr. Fronabarger will act as dean of men.

**A THOUGHT FOR THE WEEK**

I have for many years been pretty well convinced that saving money is largely a matter of habit, and people who make a good beginning at it presently discover that it is by no means impossible, and it is altogether a good thing to do. Just at this juncture in the world's and our country's affairs it is certainly one of the most useful contributions that people could possibly make to putting the world right. I do not believe there is any other way to straighten out the tangle of financial and economical concerns into which the world has been precipitated by the war, except to produce a good deal more than we consume; which means to save and by our savings to reestablish the world's stores of working capital.—Warren G. Harding.

**NOTICE CORRECTED**

Mrs. Clyde McElroy entertained the Merry Maids and Matrons club Thursday afternoon. Forty-two was played at seven tables. Refreshment were served by the hostess.

See F. K. Williams for careful painting and paper hanging.

Mr. and Mrs. W. T. Gillmore of Palestine, came in today to visit their daughter, Mrs. M. A. Biggers.

Mrs. R. P. Price and Mrs. Arthur Cross went to Amarillo Monday.

Olympic Friday and Saturday "The Dangerous Age," Adm. 10c-35c. Show starts at 7:00 o'clock.

The Woman's Auxiliary of the American Legion will meet Friday night at 7:00 o'clock, at the American Legion hall. All members are urged to be present.

Bradstreet's commercial agency by the actual figures shows that when a man fails as a rule he alone is to blame. It says that out of every one hundred men who fail in business thirty-eight are incompetent, six are inexperienced, seven are dishonest and four can trace their failure to extravagance, neglect or being unable to meet competition.—Plainview News.

Call Holcomb for drayage, hauling.

Frank Ames and family of Floydada, are here this week visiting at the G. G. Foster home.

Miss Bonnie Witt left for Canyon Tuesday morning to visit her brother G. S. Witt.—Hereford Brand.

The Fireman's Benefit Show, Oct. 22-23, Monday and Tuesday. Admission 10c-35c. "The Midnight Alarm." Get your tickets from the firemen.

Jack Jordan of Amarillo visited friends here Sunday.

W. H. Hicks spent Tuesday in Amarillo on business.

Painting and Paper Hanging at moderate prices. F. K. WILLIAMS.

Bernice Lively entertained a few of her friends Saturday evening with music, after which refreshments were served. All spent a very enjoyable evening.

C. R. Burrow has been attending the Lumberman's Convention in Amarillo this week.

C. L. Thompson left Sunday to attend the National Implement Dealers Association in Chicago. He ran into washouts in Oklahoma and was forced to turn back, arriving home Tuesday afternoon. Mr. Thompson was to have represented the Panhandle Hardware and Implement Dealers Association in this national meeting.

Holcomb's Transfer, phone 28 or 238

Mrs. J. D. Bybee will return home today from a visit to her old home in Indiana.

What is "The Dangerous Age" 16-25 or 40 years of age? Be at the OLYMPIC Friday and Saturday and see. Adm. 10c-35c.

Mrs. H. D. Foster arrived yesterday from Denver where she has been spending the summer and will visit at the home of her son, G. G. Foster, before going to her home at Greenville.

James T. Barry of Washington, D. C., was in the city yesterday representing the Chamber of Commerce of the United States. He called on several business men while in the city.

## LOCAL NEWS

J. W. Reid leaves today for a ten day's business trip to Dallas.

R. J. Hobson of Sioux Falls, S. D., was in the city Tuesday on business. Mr. Hobson has great confidence in the future of Randall county. He states that this country is much like his country. Only a few years ago his parents bought land near Sioux Falls at a dollar per acre. The same land today is worth more than \$300.

S. B. McClure and John Fry went to Hale Center Tuesday on business.

Let me know what you have to trade for good Poland China hogs, priced right. Forrest Burton.

Mr. and Mrs. C. O. Keiser and daughter, were home from Denver for a few days this week. They returned to Denver, from where Miss Phyllis will go to Iowa City to attend the Home Coming of the State University. Mr. and Mrs. Keiser expect to return to Canyon in a few days.

The Fireman's Benefit Show, Oct. 22-23, Monday and Tuesday. Admission 10c-35c. "The Midnight Alarm." Get your tickets from the firemen.

Olin E. Hinkle brought to the News family a big bowl of strawberries Saturday from his patch which has been bearing all year. The berries are of the everbearing variety and were excellent in flavor. Many people have had trouble with strawberries this year owing to the continued dry weather during the summer, but the Hinkle patch is doing fine owing to being well matured.

Mr. and Mrs. J. C. Coker expect to leave this week for their home at Uvalde after having spent several weeks looking after their land west of the city.

The Merry Maids and Matrons Club is giving a Tea at the home of Mrs. N. E. McIntire this afternoon. More than two hundred invitations were mailed to women of the city.

Word from C. F. Walker, former county agent, orders his paper sent to Omaha, where he has been appointed to the stock yard service of the government.

Miss Ola May Hayne of Amarillo spent Sunday at the J. S. Harrison home.

N. E. McIntire went to Dallas Sunday where he is attending the Fair and buying holiday goods.

O. N. Gamble was in Amarillo Monday where he served on the grand jury of the Federal court. Only one bill was returned by the grand jury.

Don't miss "The Dangerous Age." Friday and Saturday, adm. 10c-35c. Olympic Theatre.

Miss Elsa Guenther, who is teaching at Silver City, New Mexico, was taken ill with an attack of appendicitis Sunday, and was operated on Monday. Word indicates that she is recovering from the operation.

Noel Brown went into the ditch Friday evening near the Herman Wragge place, badly wrecking his car and breaking three of his ribs. He was confined to his home for several days but is able to be out again.

The Federation of Women's Clubs of Canyon will meet in regular session Wednesday, October 24, at 2 p. m.

WALTER HARDIN MARRIED  
The Randall County Ex-students Association will meet at the College building next Thursday afternoon at 4:30 o'clock to look after matters of business.

HOLIDAY SATURDAY AT COLLEGE

Saturday will be a holiday at the College, being one of the days of the year set aside for a day of rest. Since the six day schedule was adopted, a monthly holiday has been adopted in order to give a breathing period from the strenuous work of the College.

STUDENTS TO ABILENE

A number of students in the College will go to Abilene October 28-29 to attend the meeting of the Baptist Students Union. The Buffaloes will play Simmons on Oct. 28, and a large delegation will be there to root for them.

PICTURES AT DALLAS FAIR

Miss Lillian Thompson, daughter of Mr. and Mrs. T. C. Thompson spent an exhibit of her pictures to the Dallas Fair. She received a fine letter from the manager of the Fine Arts Department, complimenting her upon her work.

Lillian has been very ill for the past week, but her friends will be pleased to hear that she is improving.

## Orchestra Is To Play at Clovis

Twenty selected musicians from the College orchestra will go to Clovis, New Mexico, on October 24, where they will furnish music for the annual convention of the State Federation of Women's Clubs of that state. Prof. Wallace R. Clark, Head of the Department of Music will direct the orchestra. The trip will be made in cars if the weather permits.

## MORE PER ACRE, LESS ACREAGE

"More per acre—smaller acreage," should be adopted as a slogan for the Southwestern farmer, says Farm and Ranch. The cost of production is quite as important in figuring profit and loss as is the price received for any commodity. Generally speaking the larger acre production, the better the quality, if the product, and the less cost per pound or bushel. Better seed beds, better seed and better cultural methods, are required to increase acre production. In other words, better farming on a smaller acreage will decrease production cost, which is half the battle.

## On Friday night, October 12, about

one hundred new members were initiated into the Cousins and Sesame Literary Societies. The societies first met in the auditorium. Dr. Pierle and Miss Anderson, two honorary members, made interesting and encouraging talks. Miss Hibberts, Dean, Burton, and King, other honorary members were present and helped to make the evening enjoyable. The new members were carried through the fan room in the basement, where they went through an "inquisition."

At a recent election at the Canyon High School, Miss Frances Reid was elected Editor-in-chief, and Floyd Calahan was elected Business Manager of The Silhouette, the High School Annual. This will be the second book published by the High School, the first one being published last year by Edward Gerald, who is now president of the Freshman Class at the College.

Miss Helen Burton, Head of the Department of Home Economics, was hostess to the Home Economics Club last Wednesday at its first meeting. Officers of the Club will be elected this week. All students taking Home Economics are invited and urged to join the club. The Club is a member of the Texas Federation of Women's Clubs.

Much business in German cities is done with privately issued currency. Some is of paper and some of composition discs the size of metal coins. Not a legal tender, they yet circulate freely as money within areas where the issuing business firm is known.

Secretary Hughes says the Monroe

Doctrine is "Uncle Sam's private exclusive, personal affair—not, for instance, a 'regional understanding,' as the League Covenant described it, or something to be enforced jointly by the nations of Pan-America. The Government of the United States reserves to itself the definition, interpretation and application of the Monroe Doctrine. Sassafras, harvested and manufactured into paper in Lake County, Florida, was used in a recent issue of the Leesburg Commercial, a local newspaper, which predicts great future for the industry. In view of the growing scarcity of pulping wood this is interesting.

Thorn Lake, in Eastern Oregon, has for years been thought the site of a prehistoric precision, which bisects the lake bed, and investigation has just been set afoot to learn whether their origin is from a natural cause or the work of man in years gone by.

Every year \$100,000 is received in letters at the Dead Letter Office of the Post Office Department in Washington. Nearly all of this mail containing money falls in delivery because of improper address.

## Barto Johnson Is Outstanding Tackle T. I. A. A. Conference

Barto Johnson, Captain of the West Texas State Teachers College Buffaloes and degree student, is one of the outstanding athletes in the football history of the college. Captain Johnson, who is a big husky, topping the scales above the 200 mark at all seasons of the year, has played, lived and talked football until it has become a part of his system. He argues football at any time of the day or night and on any occasion. While on the field or in a game he is never satisfied with his own playing or that of his team mates. He is constantly driving himself and his buddies to a faster pace.

Barto is probably playing his last year for the Buffaloes and as Captain of the squad he is doing his best to make it the best year in his life in football and likewise the best year in the history of the school.

Johnson, who was one of the outstanding tackles in the T. I. A. A. conference last year will captain his team from that position Saturday against the University of New Mexico at Canyon in the hopes of revenging the herd for a defeat last year by the Lobos on their home grounds.

## Canyon Hi Elects Its Annual Staff

At a recent election at the Canyon High School, Miss Frances Reid was elected Editor-in-chief, and Floyd Calahan was elected Business Manager of The Silhouette, the High School Annual. This will be the second book published by the High School, the first one being published last year by Edward Gerald, who is now president of the Freshman Class at the College.

A consignment of oak was sent to

Europe. It was found to be wormy and there was no market for it until the consignor happened to visit an antique furniture factory. The manager of the factory was busily engaged in manufacturing "antique" grandfather clocks, boring the wormholes by hand.

He was very glad to buy the wormy oak and paid a much better price for it than for sound oak.

A profit connection was established between the exporter and the antique manufacturer.

## It was Settled with a Check

Two men disagreed one day as to whether a certain amount had been paid on a certain account to one of them by the other.

Neither of them was certain about it, but one thought he remembered having paid it while the other did not recall the incident.

The man claiming to have paid it always paid his accounts with a check. So they went to the bank and found the check covering the particular item.

A misunderstanding was avoided and a friendship remained unbroken.

## BOTH MEN WERE SATISFIED

We invite you to use our bank as a depository. Every dollar entrusted to us will be carefully safeguarded.

You will if you let us put your coal supply in for you now. And we will save money, too, for prices are less than in the winter.

## INTERSHOLASTIC LEAGUE MEMBERS REQUESTED TO PAY MEMBERSHIP FEES

State Headquarters of the University Interscholastic League announces that the League Bulletins are now ready for distribution. Each school desiring to participate in the activities of the League should send its membership fee direct to Mr. Roy Bedichek, University Station, Austin, Texas, and receive one copy of the Constitution and Rules, one copy of the word lists for spelling, two copies of the bulletin containing material for debate, and one year's subscription to the "Interscholastic Leader." The cost of printing and distribution of these bulletins is more than the dues paid by the member schools.

The dues to be paid are:	
Class A high schools.....	\$8.00
Class B high schools.....	5.00
Junior high schools.....	5.00
Rural schools, enrollment less than 100.....	1.00
Rural schools, enrollment more than 100.....	2.00
Ward schools.....	1.00

Teachers are urged to secure these bulletins promptly and begin training their pupils for the County meets. The District meet will be held again at the West Texas State Teachers College, Canyon, Texas. We expect a better district meet than any held in previous years, and we hope to see every county in District No. 1 on the honor roll this year.

hart, Director General, Box 747, Canyon, Texas.

Every activity of the league is truly educational, and neither teachers nor pupils can afford to miss the inspiration to be found in a great, modern organization like the league. Be up-to-date; co-operate with your county, district and state organizations, and your school will soon be known as a progressive, growing school.

Address inquiries to Mr. W. E. Lock-

Pirates are operated on the black sea, according to official reports sent to the Department of the Interior at Sofia, Bulgaria. A vessel loaded with a star of roses bound from Burgas to Constantinople was brought to a halt by shots fired from a steamship displaying no colors. A number of the pirates boarded the merchant vessel, killed the captain, his crew of five and another passenger and carried off the money the passenger was taking to Constantinople to buy goods. The vessel was then set adrift in a sinking condition.

The President's flag, as it is now, shows the President's seal in bronze on a blue background and a large white star in each corner. There have been several different Presidential flags, but this latest one is not easily confused with any other. The four stars denote the rank of an admiral or a general; and the seal signifies the commander in chief.

**THE CAUSE OF EARTHQUAKES**  
It is natural that the calamity in Japan should turn our thoughts to the cause of earthquakes and to the reasons why they are especially frequent in certain parts of the world.

Earthquakes are the result of sudden displacements or shifts in the crust of the earth. That crust, for all it appears to be so thick and rigid, is in comparison with the mass of the earth a thin shell, easily ruptured or folded. It is believed that the gradual contraction of the interior of the globe is responsible for most of the upheavals, subsidences and displacements of the surface, of which earthquakes are the results. As the core shrinks, the covering of rock and soil on which we live is continually wrinkling or slipping here and there. Generally the process is gradual and imperceptible, but at times there are cracks or shifting that are violent enough to shake a considerable part of the crust, and if the conditions are right, to destroy whatever man's work is built thereon. Sometimes the shock seems to be caused by a change in the weight or pressure of the different parts of the crust, owing to the soil's having been removed from the continents and deposited in heavy sedimentary layers at the bottom of certain deep, troughlike areas in the sea. Sometimes too earthquakes are volcanic in their origin and seem to follow violent internal explosions caused perhaps by water's reaching the hot interior of the earth.

Whenever the crust of the earth yields to the pressure that one or another of those forces exerts it yields along a "fault line," that is, a line where the crust is thin or weak and where earlier cracks have still further increased the instability of the surface. Those fault lines are generally found along the shores of oceans or among island groups—that is to say, where the slope of the foldings in the surface of the earth is the steepest and the influences that make for further alteration are most active. There are four great earthquake areas, three of which are on the edges of the Pacific basin. One is among the East Indian islands, another is in Japan and the chain of islands that stretches northward toward Alaska, and a third is along the coast of California, Mexico, Central and South America. The fourth region is in the Mediterranean Sea; Italy and in particular Sicily are at the center of it. All the great earthquakes occur in one or another of those areas—or else at the bottom of the sea, so far from land that we cannot

observe them. Slight shocks may occur elsewhere, for there are other places where fault lines are to be found; but those are the regions of the greatest danger. They are the countries where the slope from high mountains along the shore to very deep sea bottoms is rapid. Off the coast of Japan, for example, lies the Tuscarora Deep, the bottom of which is seven miles below the summit of Fujiyama. Along that steep folding of the earth's surface the rocky slope has often cracked and slipped, and it will often crack and slip in the future.

There is little reason to apprehend serious earthquakes in the greater part of this country, or in France, Great Britain or Germany. There is an earthquake zone of some importance in California, but the only other on in the United States lies along the old fault line called the Laurentian fault, that bends about like a shepherd's crook from Massachusetts to Canada, northern New York, the Appalachian region and the Carolinas. The Charleston earthquake of 1886 occurred at the lower end of that fault line.

Among the notables at the ringside was Mr. Dempsey, in that first round.

The Mary Washington Rose is perhaps the most ambitious attempt at floriculture made by George Washington. He made it at Mount Vernon in the last years of his life when he had laid aside the cares of state. He started the rose from seeds brought from one of the older gardens in Philadelphia, grafted the young growth on the native sweetbrier and named the result after his mother, Mary Washington. It was probably the first attempt in this country to hybridize the monthly with the yearly blooming rose. The Mary Washington rose became famous; it still adorns an ancient trellis in the family garden at Mount Vernon, but if all the requests for cuttings were granted, there would soon be nothing left of it.

To have an invention protected in all parts of the world it is necessary to take out at least seventy different patents in as many different countries. The estimated cost is \$25,000.

American politicians ought to be in great demand in Ireland now. They have been studying how to control the Irish vote longer than the Irishmen have.—Detroit Free Press.

## Lots of New Goods Arriving Daily

Don't fail to see our big line of new beads, the very latest styles. Priced from 15¢ to \$1.50.

We are also showing a big line of bracelets, barretts and purses. Bracelets and barretts priced from 15¢ to 75¢.

Ladies hand bags priced from \$1.25 to \$3.50. Genuine leather, worth much more than we are asking.

Get ready for Hallowe'en. It will soon be here.

**Martin Variety Store**  
WEST SIDE OF SQUARE

CANYON, TEXAS

## EVERY CLASS IS NOW ORGANIZED

ALL FOUR OF COLLEGE CLASSES BEGIN YEAR'S WORK.

Thursday Set Aside by President as Day for All Classes to Elect Their Officers.

At the request of President J. A. Hill, all of the classes of the College met in various rooms last Thursday morning at the chapel period. Members of the various classes report that live meetings were held and that the year promises to be one of much class spirit and rivalry.

The following officers were elected:

### Seniors Elect Guenther

President—Erna Guenther.

Vice-president—Frank Hill.

Secretary—Clara Wood Cleveland.

Treasurer—Orvie Bolton.

Annual Representative and representative to the Students Council—Zelma Red.

Prairie Reporter—Lola McGuire.

### Junior Officers

President—Herschell Coffee.

Vice-president—Bryant Baker.

Secretary—Josephine Wayland.

Students Council Rep.—Evets Haley.

Annual Rep.—Eppie Irons.

Prairie Rep.—J. A. McDonald.

Yell Leader—Toney Vaughn.

### Sophomore Officers

President—Eugene Tanner.

Vice-president—Ray Daniels.

Treasurer—Fannie Cash.

Secretary—Ethel Kistler.

Student Council Rep.—Nay Hale.

Social Chmn.—Margaret Lowndes.

### Freshman Officers

President—Edward Gerald.

Vice-president—Lee Johnson.

Sec'y-Treas.—Elizabeth Webb.

Student Council Rep.—Harry Delaney.

Annuat Rep.—Fred Groves.

On Wednesday evening, October 10, the girls of Cousins Hall assembled in the reception hall for the purpose of organizing. With Miss Edna Graham acting as chairman of the meeting, the following officers were elected:

Euphemia McGuire, President.

Zelma Red, Secretary.

Lama Sweatman, Devotional Secretary.

Margaret Lowndes, Social Secretary.

Lois Graham, Athletic Secretary.

The president appointed Aileen Tate as Prairie representative.

The Sesame Literary Society met October 5, for the purpose of electing officers and of inviting new students into the organization. The society was well represented and unanimous in being all in a hurry to begin the year's round of profit and pleasure. The following officers were elected:

President—Byrd Mitchell.

Vice-president—Lois Graham.

Secretary—Elizabeth Webb.

Treasurer—Madge Day.

Sergeant-at-Arms—Lillie Whittenburg.

Critic—Mrs. Lang.

Co-Critic—Miss Edna Graham.

Parliamentarian—Birdie Lee Burkhalter.

Yell Leader—Carola Hetler.

Prairie Representative—Allie Merle Dunaway.

The following men have been chosen thus far to officiate in the Antler Literary Society for this quarter:

President—Joe Lancaster.

Vice-president—Bryan McDonald.

Secretary—James Whittemore.

Treasurer—Irby Carruth.

Sergeant-at-Arms—Foy Terry.

Reporter—Chase Condrey.

Representative to Students' Council—Felix Phillips.

A large class will be initiated soon.

Special program, Tuesday, 7:00 p. m.

New students welcome.—Reporter.

Help Keep Canyon Clean.

**TWICE TOLD TESTIMONY**  
Canyon People Are Doing All They Can for Fellow Sufferers.

Canyon testimony has been published to prove the merits of Doan's Kidney Pills to others in Canyon who suffer from bad backs and kidney ills. Lest any sufferer doubt this evidence of merit, we produce confirmed proof-statements from Canyon people who again endorse Doan's Kidney Pills—confirm their former testimony. Here is a Canyon case:

T. A. Ridgway, farmer, says: "I suffered from a weak bladder, causing too frequent and profuse passage of the kidney secretions. I have noticed since using Doan's Kidney Pills that I have much better control over my kidneys. I recommend Doan's Kidney Pills to relieve weak kidneys."

OVER SEVEN YEARS LATER, Mr. Ridgway said: "I haven't had occasion to use Doan's Kidney Pills since I recommended them. I think the cure they gave me has lasted."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ridgway had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

## Elaphelians Plan Work, Naming Experienced Officers

Erna Guenther—President.  
Fannie Cash—Vice-president.

Tip Bradford—Secretary.

Margaret Lowndes—Treasurer.

Winnie Mae Crawford—Prairie Rep.

Stella Rusk—Parliamentarian.

Anadel Guenther—Sergeant-at-Arms.

All of these girls have had successful experience in leadership in various kinds of student activities.

The program for the year's work which the Elaphelian Literary Society has outlined is interesting and entirely worthwhile. Any girl who takes an active part in the execution of the planned program will receive valuable experience and training.

Class officers of the eighth grade of the High School were chosen Friday at the initial class meeting of the quarter.

The officers are:

President—Hatcher Brown.

Vice-president—Elmer Hardin.

Secretary—Lois Thomas.

Treasurer—Dick Irvin.

Reporter—Montie Rockwell.

Various committees are already at work. This class is said to be very enthusiastic over plans for the year.

Sherman's march to the sea cost Georgia no more than the loss that state is suffering from the migration of her Negro population, according to the Georgia Bankers' Association. The state is threatened with a loss of wealth amounting to \$27,000,000 this year. It has 46,674 vacant farm houses, 55,524 idle plows, and a labor shortage of 70,843 persons.

Copper applied in a solution of oil is now being used instead of tar for preserving rope. Marine pests eat the tar out of the rope and then devour the rope itself, but with the copper impregnated rope there is no damage resulting from marine pests. The copper bulk less, weighs less and costs less to apply than the tar.

Artificially colored flowers must not be sold in Rome. The pure food law was applied to flowers, and those who sell "faked" flowers will lose their license.

Double window panes, separated by a sash of two millimeters and joined together at the edges by a specially patented melting process to prevent moisture or dust getting between them, are used to keep out the cold in the place of ordinary windows. It is said the heat insulation is perfect under these conditions.

The chief difficulty with the harmony of nations is that every power wants to beat the war drum and none is willing to play second fiddle.—Ashville Times.

To get rid of worms in children give them White's Cream Vermifuge. The little sufferer improves at once and soon becomes healthy, active and robust. Price, 35c. Sold by City Pharmacy.

## Deeds Filed This Week Transferring Randall County Land

The following deeds as furnished the News by the Randall County Abstract Company, have been recorded in the County Clerk's office.

Mrs. Kathryn Hutson to G. W. Johnson, south half and northeast quarter block 1, Victoria addn to Canyon. Consideration \$1,295.

W. D. Smith to J. T. Burnett, lot 9, block 12, Normal addn to Canyon. Consideration \$100.

Ina Carson Cearley to C. L. Carson, north half section 90, block B-5. Consideration \$10.

J. T. Service to G. W. Avant, east 5 feet lot 14, all lots 15 & 16, block 35, Canyon City. Consideration \$1,000.

J. H. Wilder to E. A. Wilder, lot 18, block 42, lot 11, block 66, Canyon City. Consideration \$10.

NOTICE OF SALE

The State of Texas, County of Randall.

In the District Court of Randall County, Texas.

L. B. Steele and Citizens State Bank of Dalhart, a Corporation, plaintiffs, versus Carrie P. Turner, L. B. Jones, Miss Mamie Siler, Miss Anna Novotny, Albert Hanny, A. H. Kent, Mrs. J. J. Dawson, Berkley Dawson, J. A. Hill, F. E. Savage, and The West Texas State Teachers' College, at Canyon, a Corporation, defendants.

Whereas, by virtue of an order of sale issued out of the District Court of Randall County, Texas, on the 1st day of October, 1923, on a Judgment rendered in said Court on the 5th day of September, A. D. 1923, in favor of said plaintiffs and against the said defendants in Cause No. 1361, on the docket of said court, I did on the 9th day of October, A. D. 1923, during the second week of said last mentioned month and year at 9 o'clock A. M., levy upon the following described personal property to-wit: All the household goods and furnishings in the building commonly known as "Huntleigh Hall" on land in the Conner Addition to Canyon City, Randall County, Texas, described as lots Numbered Ten, Eleven, Twelve, Thirteen, Fourteen and Fifteen, in Block Numbered Ten; said personal property belonging to said Siler and Novotny; and at the same time I did levy upon said land being said Lots Numbered Ten (10), Eleven (11), Twelve (12), Thirteen (13), Fourteen (14), and Fifteen (15), in Block Numbered Ten (10), of the Conner Addition to Canyon City, Randall County, Texas, and known as "Huntleigh Hall," and belonging to said defendants Siler, Novotny and Hanny; and on the sixth day of November, A. D. 1923, being the first Tuesday of said month between the hours of Ten o'clock A. M., and Four o'clock P. M., on said day at the Court House door of Randall County, Texas, I will offer for sale and sell at public auction for cash, all the right, title and interest of said defendants in and to said land; and at said last mentioned time and at said "Huntleigh Hall" I will offer for sale and sell at public auction for cash, all the right, title and interest of said defendants in and to said personal property, before selling said land.

Dated at Canyon City, Texas, this 9th day of October, 1923.

W. C. BLACK, Sheriff, Randall County, Texas.

Dated at Canyon, Texas, this 3rd day of October, 1923.

### SHERIFF'S SALE

THE STATE OF TEXAS,

County of Randall.

By virtue of an order of sale issued

by order of a judgment decree of the 47th District Court of Randall County, Texas, by the Clerk of said Court, on the 14th day of September A. D. 1923, in a certain suit No. 79 T Amarillo Independent School District is plaintiff, and H. B. Molyneaux Et-Al are defendants, in favor of the said plaintiff, for the sum of One Thousand Three Hundred Seventy Five & 06-100 (\$1375.06) Dollars for Amarillo Independent School District taxes, interest, penalty and costs, with interest on said sum at the rate of six per cent, per annum from date fixed by said judgment, together with all costs of suit, that being the amount of said judgment rendered in favor of said plaintiff by the said 47th District Court of Randall County, on the 7th day of August A. D. 1923, and to me directed and delivered as Sheriff of said Randall County, I have seized, levied upon, and will, on the 1st Tuesday in November, A. D. 1923, the same being the 6th day of said month, at the Court House door of said Randall County, in the City of Canyon between the hours of 10 o'clock A. M. and 4 o'clock P. M. on said day, proceed to sell for cash to the highest bidder all the right, title and interest of said defendant in and to the following described real estate, levied upon as the property of said defendant, the same lying and being situated in the County of Randall and State of Texas, to-wit:

All of a certain tract of land consisting of Three Hundred and Twenty (320) Acres, situated in Randall County, Texas; Described as being the South One Half of Survey No. 121 Abstract No. 40 Certificate No. 676 the same being a part to the original grant to Adams, Beatty & Moulton, and record in the Deed Records of said Randall County, to which reference is here made. For the years 1918, 1919, 1920 and 1921.

All of a certain tract of land consisting of Six Hundred and Forty (640) acres, situated in Randall County, Texas; described as being a part of the original grant to Adams, Beatty & Moulton, Abstract No. 1164, Certificate No. 626 Survey No. 120, the same being of record in the Deed Records of said Randall County, to which reference is here made. For the years 1918, 1919, 1920 and 1921.

Or, upon the written request of said defendant or their attorney, a sufficient portion thereof to satisfy said judgment, interest, penalties and costs; subject, however, to the rights of the plaintiff for any other or further taxes on or against said property that may not be included herein, and the right of redemption, the defendant or any person having an interest therein, to redeem the said property, or their interest therein, at any time within two years from the date of sale by paying double the amount paid for said property, and subject to any other and further rights the defendant or anyone interested therein, may be entitled to, under the provisions of law. Said sale to be made by me to satisfy the above described judgment, together with interest, penalties and costs of suit, and the proceeds of said sale to be applied to the satisfaction thereof, and the remainder, if any, to be applied as the law directs.

W. C. BLACK, Sheriff, Randall County, Texas.

Dated at Canyon, Texas, this 3rd day of October, 1923.

A clear colorless liquid that will heal wounds, cuts, sores and galls is the latest and best production of medical science. Ask for Liquid Borozone, it is a marvel in flesh-healing remedies. Price, 30c, 60c and \$1.20. Sold by City Pharmacy.

## 44 BUSINESS MEN MEET

(Continued from first page.)  
town and College work in closer harmony.

B. Orton introduced a motion approving of the tax feature for supporting the commercial activities which was unanimously carried.

A steering committee of five was authorized to be appointed by the chair to make Canyon's program.

Another meeting was called for Tuesday night at seven o'clock. Luncheon will precede the program. It is hoped to have a definite plan for procedure ready to present at this meeting. Those present last night went away feeling that things are going to happen in Canyon during the coming year that means much to the growth of the city.

## HENRY LONG SHOT WALLACE

(Continued from first page.) "law," and upon being told that it was the sheriff, he opened the door. Pottinger removed a gun from his pocket and Whitaker asked him if he killed the man lying in the middle of the floor with blood forming pools beside him.

He said he was and was glad of it, Whitaker declared. He then related the incidents leading up to the shooting. Wallace was on the floor beside a davenport. Officers said two bullet holes were in the davenport and two spots of blood were at one end, beneath the bullet holes in the back.

## Wallace Fully Dressed

The dead man was fully dressed except his coat, officers reported. Mrs. Long was in another room when the officers arrived but she came into the living room after her husband had been relieved of his gun and was explaining to officers the details of the affair.

He charged that his wife had accepted attentions of Wallace, officers said, but Mrs. Long emphatically declared her innocence. She said Wallace left her home as a boarder when her husband recently left and declared he would not return. Later when she accepted two more boarders in her home, Wallace returned, she said.

The woman was exceedingly cool when officers reached the scene of the shooting, they declared. She told officers and four small children, two of children and rushed to the home of a

neighbor when her husband began firing.

Officers remained at the Long home until an ambulance from Griggs Undertaking Company removed the body. Long was brought to the county jail and his wife shortly after went before the grand jury, which was in session, and remained with that body for about an hour.

Besides his parents Wallace is survived by five brothers and four sisters. The brothers are: William, Lige and Grady, all ranchers of Tucumcari, N. M., Wall, a teacher at Lockney and Elbert of Canyon. His sisters are Willie and Marie of Canyon, Elizabeth, teacher of Tucumcari and Mrs. Valecia Applewhite of Lockney.

The body of John Wallace was brought to the home of his parents in Canyon Tuesday, and the funeral services were held yesterday afternoon at the Dreamland Cemetery, conducted by Rev. M. M. Beavers. A very large concourse of friends and neighbors gathered to pay their respects to the memory of this young man, and to shed a tear with the members of the bereaved family. John had many friends in Canyon who were dumbfounded with grief when the news came of his unfortunate death.

Henry Long was indicted Tuesday by the Potter County grand jury, being charged with murder. No attempt has been made to obtain bond up to this time.

A heavy wind lifted an eleven-year-old boy from the roof where he was flying a large kite in New York City. The lad kept his hold on the string and floated safely fifty feet to the street, the kite acting as a parachute.

Senator Smoot, of Utah, only shaves, or is shaved every other day. He thinks that is often enough and "he likes to give his face a rest."

A Canadian pulp mill has succeeded in manufacturing a very good grade of blotting paper from ordinary wood pulp. Blotting paper is usually made from rag pulp.

Wilhelm Hohenzollern has ordered an eight foot fence built to keep the newspaper reporters from looking into his back yard at Doorn.

## A NEW KIND OF FEEDING

In a recent entrance examination in agriculture, Prof. Frank R. Phillips asked the question, "What is meant by balanced rations?" One student gave the following answer to the question: "Where two trees close together and the roots run together and bare the same kind of fruit, this is known as balanced rations."

## FACT AND COMMENT

Reason Rules our Judgments; our characters determine our actions; hence the frequent inconsistency between them.

In the next five years Argentina will spend \$200,000,000 for public improvements.

Gasoline in Switzerland is 45 cents per gallon and kerosene retails at 36 cents per gallon.

Most people don't take time to think, and it wouldn't make much difference if they did.

The biggest stadium the world has ever seen was in ancient Athens—it could hold 350,000 people.

The birth rate in Sweden in 1919 was 24.65 per thousand; 23.57 in 1920; 21.9 in 1921 and 19.55 in 1922.

There are about 1,250,000 acres of government-owned forest lands in Cuba principally in Camaguey and Oriente Provinces.

California this year has completed her sixty-three-hundredth mile of paved highway, and is starting work on 5,500 more miles.

The Jewish population of New York City is 1,643,000, greatest of any city, comprising 29 per cent of total world's Jewish population.

Sadi Leconte, French aviator, has been officially recognized as holder of world's altitude record for flight on September 2, when he reached 38,178.88 feet.

John H. Bartlett, first assistant postmaster general, was the former governor of New Hampshire.

August iron and steel exports from England totaled 324,000 tons, against 270,000 in August, 1922.

The annual production of lumber in Mexico is now approximately 750,000,000 feet, according to estimates.

Paragrapher said it was to be hoped that the "r" in September would stand for rain; and we hope the "c" in October will stand for coal. We can be pretty certain that the "b" in November will stand for bill. And as for "U" and "I" in PUBLIC, we know darn well what we stand for.—Brooklyn Eagle.

What many automobiles need is not four-wheel brakes, but fore-sighted drivers.—Omaha Bee.

All men are born free and equal, but some of them grow up and get married.—Nashville Tennessean.

Ford says he is "not running for or against anything." But some Ford always is.—Little Rock Gazette.

Calvin Coolidge isn't worrying about renomination. Predestination is part of the Calvinistic doctrine.—Associated Editors.

Lloyd George's new book is called "Is It Peace?" and if he doesn't know, who does? He helped make it.—Wall Street Journal.

We are not so sure that the low price of wheat troubles the average farmer as much as the price of gasoline.—Cleveland Times.

The book of etiquette doesn't mention it, but it is considered good form to return the book of etiquette you borrowed.—Pottsville Journal.

The average man now lives thirty-one years longer than he did in 1800. He has to in order to get his taxes paid.—Athens (Ga.) News.

The Japanese earthquake killed nearly as many people as are killed by the automobiles of America in a year.—Florence (Ala.) Herald.

Twenty-first century philanthropy gives five millions to stricken Japan and a million and a half to Dempsey, Firpo, Rickard & Co.—Cleveland Times.

Ah, well, when the churches discover they can't successfully compete with the theater, perhaps they will try religion again.—Baltimore Evening Sun.

From the operator's point of view the strike was too short, giving them hardly any opportunity to get rid of their asbestos coal.—Detroit News.

Help Keep Canyon Clean.

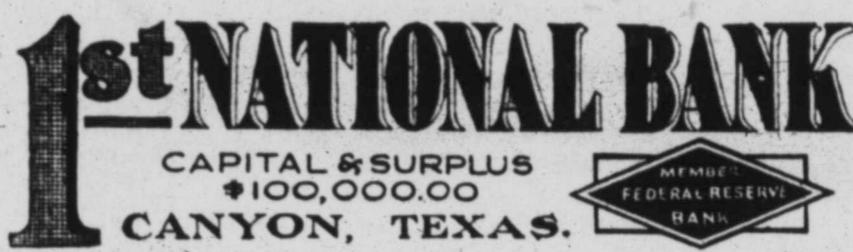

## LIVE STOCK EFFICIENCY

Scrub stock is inefficient. It doesn't produce a large enough quantity of marketable products in proportion to the cost of raising it.

With pure breeds, income increases much faster than costs. And that's what makes Profit!

Let's be efficient in Randall County. Let's have more pure bred stock!

## READY FOR THE PLUNGE

A group of diving girls in the "water circus," to be one of the attractions at the State Fair of Texas, Dallas, Oct. 13-28.

MUST BE GOOD TO  
MAKE RODEO GRADE  
AT STATE FAIR MEET

Producer Tom L. Burnett Tells Cowboys the Going Will Be Rough at Dallas.

His penchant the production of the biggest rodeos in the country, Tom L. Burnett, millionaire Texan and owner of the Triangle Ranch, who will produce the State Fair Rodeo at Dallas, as the feature attraction for each afternoon of the second week of the Fair, Oct. 27-28, has sent forth a dictum.

"None but the best need apply," he has said. "The going will be rough, and only the most expert can expect to survive."

Every ranch owner in the west has had the call from Burnett, to send as the representative of his particular domain, his crack roper, bulldogger or rider.

Burnett is fully posted in every branch of cowboy sports and the requirements he lays down for his rodeo productions are of the most stringent character. For that reason it is asserted that the State Fair contest in calf roping, broncho busting, trick riding, fancy roping, steer bull-dogging, wild horse races, wild steer riding and the like, will be of the most thrilling nature. The prizes, it is said, will be sufficiently attractive to bring to Dallas the greatest assemblage of expert talent ever assembled in the southwest. Burnett's following among western cattlemen is the largest of any rodeo producer in the country.

Already the word has gone forth to the Burnett scouts throughout the west, to gather the most untamable, human hating, outlaw bucking horses, the wildest long-horned Mexican steers and the trickiest Brahma to be found, with the fleetest of calves from the open ranges, for use in the State Fair contests. With the assembling of the many score trained cow-ponies, and with 200 or more expert riders, it is declared the melting pot at Dallas will seethe with spectacular interest.

SEN. ROYAL S. COPELAND  
of New York

Senator Royal S. Copeland of New York, declared to be a strong "dark horse" candidate for the Democratic presidential nomination, will visit the State Fair of Texas, Dallas, Oct. 13-28. Dr. Copeland will deliver an address at the Fair on Oct. 20. He is one of the most prominent medical men in the country, and an alumnus of the University of Michigan.

THIRTY PREMIUMS FOR  
COUNTY EXHIBITS

Thirty premiums are offered by the State Fair of Texas this year for county exhibits in the agricultural department. The premiums range from \$50 for first to \$1000 for third place.

VETERAN TELEGRAPHERS  
PLAN FAIR REUNION

Veteran telegraphers all over the southwest have taken up the suggestion of George W. Foster of Dallas, for an "old timers" contest and reunion at the State Fair of Texas, Dallas, Oct. 13-28 with the utmost enthusiasm. It is proposed to hold the reunion on Press Day, Monday, Oct. 15, and indications are many pioneer masters of the Morse code will be on hand. P. Cain, a dispatcher with the L. R. & N. railroad at Greenville, has issued a sweeping challenge to all comers, for a contest at sending and receiving, without the use of any "new-fangled" arrangements, such as sending machines or typewriters. Dr. C. W. Byham of Dallas, a practicing physician, says he believes he can "out-telegraph" Mr. Cain, and several other "vets" have expressed the same opinion.

H. J. Pettingill, a high official of the Bell Telephone Co. at St. Louis, who was a telegrapher in Boston back in the early '70's, has written Mr. Foster expressing his keen interest in the proposed reunion, and H. A. Mohr, general manager Western Union, and president of the Old Time Telegraphers' and Historical Association, has declared his keen interest and proffered his aid in making the reunion a full success.

JUDGES FOR STATE  
FAIR POULTRY SHOW

Judges who will preside at the State Fair Poultry show, Dallas, Oct. 13-28 this year, have been announced as follows:

Chair V. Keeler, Indiana; James A. Tucker, Michigan; Charles Smith, Oklahoma, and J. C. Johnston, Iowa. All are veteran American Poultry Association men, accredited by the association, and have officiated at the biggest shows in the country. Judging at the State Fair poultry show will begin promptly at 9 a.m., Monday, Oct. 15. Entries close on Oct. 1.

Superintendent Walter Burton of the poultry department has returned from a visit to various big poultry shows in the east, and declares that a number of the prominent breeders will show at the State Fair.

LOW STATE FAIR RATE  
ANNOUNCED BY T. & P.

Announcement has been made by the Texas and Pacific Railway of a special round trip rate to the State Fair of Texas at Dallas, to apply Saturday and Sunday, Oct. 13-14, Oct. 20-21 and Oct. 27-28, of 75 per cent of the regular season rate, to apply from all stations on the Texas and Pacific lines, from Marshall on the east to Big Spring on the west. Tickets will be sold for trains leaving all stations on Oct. 13, Oct. 20, and Oct. 27. They will be good returning, on trains leaving Dallas Sunday night following the dates named.

HALE COUNTY OFFERS  
STATE FAIR PRIZE

Hale County, Texas, through the Plainview Board of City Development, is offering a prize of a round trip ticket to the State Fair of Texas, Dallas, Oct. 13-28, for the best design for a background for the Hale County exhibit at the Fair. Hale County has been at the top of the list of county exhibitors for the last several years, and plans to keep its record good, it is declared.

DRUGGISTS OF SOUTHWEST  
GOING TO STATE FAIR

Druggists all over Texas and the other southwestern States, are being told about arrangements for Druggists' Day at the State Fair of Texas, Dallas, Oct. 13-28, next, through their trade journals. Druggists' Day will be Tuesday, Oct. 16, which is also Dallas Day, and thousands of the "pill rollers" are expected to attend. The chief event on the race track Oct. 16, will be the running of the Cotton Stake at \$2,000.

## Happy Happenings

Mrs. Wm. F. Miller and children, Winfield, Muriel, and Eugene of Canyon spent the week end with friends here.

Shof Montgomery of Amarillo was here Monday on business.

Lola Davis and Fay Scott of Tulia spent Sunday afternoon with Louise and Hazel Brown.

Wayne McMillan of Lamesa visited friends here Sunday afternoon.

Mr. and Mrs. J. D. Waite and sons, Clyde and Troy, and Fred Mulkey left Thursday for California where they will spend the winter.

John C. Poole of Canyon spent Sunday here.

Mrs. J. E. Gurley and little son, Bob, visited in Tulia Tuesday with her sister, Mrs. D. H. Culton.

Bill Ratjen was a Plainview caller Saturday.

Mrs. J. M. Evans left Saturday for Texhoma where she will visit her daughter, Mrs. H. L. Holland and family.

P. H. Herndon of Texico visited friends here Sunday evening and Monday.

Cecil Hagood of Tulia worked in the Hagood's Place here Friday while his brother, D. H. Hagood attended the Fair in Amarillo.

Owen Lindley and Hurley Maynard of Tulia visited friends here Friday evening.

Mrs. O. M. Fowler is visiting her parents, Mr. and Mrs. W. A. Cates in Floydada this week.

Miss Libby Frazier who is teaching the Plain Center School spent the week end with friends in Canyon.

Mr. and Mrs. W. T. Helms left Sunday for California where they will spend the winter.

Grace McConnell spent the week end with friends in Tulia.

Only a few from here were able to attend the Sunday School Institute at Vigo Park Sunday on account of the rain. Among those who attended were O. M. Fowler, W. C. Lindsey, Rev. and Mrs. B. W. Wilkins, Billie and Beth Fowler, Edith Bandy, Eloise Markham, Letta Gillham, Gladys Bandy, Hall Wrenn, Claude James and Ural Barnard.

Mrs. Lula Bowman spent Saturday night with home folks in Canyon.

Mr. and Mrs. W. O. Newberry of Tulia spent the week end at the parental C. L. Grounds home.

Mrs. C. A. Akers returned Sunday from Wichita where she has visited several weeks with relatives.

Mrs. Wilkins of Hale Center is visiting her son, B. W. Wilkins and family here this week.

Claude James was a Tulia caller Monday morning.

Little Helen Elizabeth Bowman of Canyon spent Sunday and Monday with her sister Miss Lula Bowman who is teaching school here.

Flake Montgomery was in Canyon Saturday afternoon to enter school. He will attend the college this winter.

Mrs. Marion Dillon and little daughter Nie, spent the week end in Canyon.

Mrs. G. Walker left Saturday for Olney where she was called to the bedside of her sister who is quite sick.

Mr. and Mrs. A. W. Montgomery and daughter, Daisy, spent the week end in Amarillo.

Jesse Curb left Saturday night for Lamesa where he will visit several weeks with relatives.

A quiet wedding took place in our little town last noon when Miss Margaret Arnold and Mr. Bert A. Hibner of Prineville, Oregon, were married at the home of the bride's parents. Mr. and Mrs. E. F. Arnold. Rev. David Bryan officiated. Mr. and Mrs. Hibner will leave soon for Prineville to make their home. We all go together in wishing them a long and happy married life.

Mr. C. F. Zoellers left Saturday for the Kansas City Markets with a load of cattle.

Mrs. C. R. Strong left Wednesday afternoon for Dallas where she will take treatments for about a week.

## Child-birth

HOW thousands of women, by the simple method of an eminent physician, have avoided unnecessary miseries through many months and up to the moment baby has arrived, is fully explained in the remarkable book, "Motherhood and the Baby." Tells also what to do before and after baby comes, the date of birth, baby rules, etc., and about "Mother's Friend" used by three generations of mothers, and sold in drug stores everywhere.

"Mother's Friend" is applied externally, is safe, free from narcotics, perfume, easily absorbed, and aids adjustment of muscles and nerves during expectancy and child birth. Start using it today. Mrs. E. K. Rector, Sherman, Minn., says, "It pulled me through." Send for book today, to Bradford Regulator Co., BA-76, Atlanta, Ga. "Mother's Friend" is sold at all good drug stores—everywhere.

LITTLE WANT ADS BRING RESULTS

## BUFFALOES BEGIN SEASON WITH 100 TO 0 VICTORY OVER OKLA. JUNIOR A. & M. FROM GOODWELL

The West Texas State Teachers College Buffalo easily swamped the Panhandle Junior Agriculture and Mechanical College from Goodwell, Oklahoma, in their first game of the season by a score of 100 to 0, over 30 men being used by the Buffalo coach.

Ex-Capt. Burson, fullback on the Buffalo squad, was the first man to carry the ball over the goal line. A pass to Lancaster, end, netted two touchdowns for the Buffaloes in the first five minutes of play. After that the Buffaloes made touchdowns almost at will, the Goodwin twins probably making the longest gains.

### Second String Goes In

At the beginning of the second quarter, Coach Burton sent in a new backfield composed of O. Mitchell, R. Bivins, Herm, and Lem Sone; and before the end of the half, the Coach was using a practically new team from the one he had started with. The half ended with the score 57 to 0 in favor of the Buffaloes.

With more new men in the line-up, the third quarter ended with the score the same that it was at the end of the first half. In the fourth quarter the first eleven men went back in the game and carried the ball over the line for seven more touchdowns, making the score 100 to 0.

The game was matched by the coach only for a practice tilt in preparation for the big game with Howard Payne College from Brownwood next Saturday afternoon. It gave him an opportunity to see what material he had and how the various combinations worked. The stars were too numerous to mention.

## CLUB HOUSE IS ALMOST READY

### BUFFALO MASCOTS ALSO HAVE A BETTER PLACE TO LIVE.

Teams Now have Quarters on Athletic Field—To Be Finished This Week.

The 1923 football squad has the Athletic Committee to thank for the new Club House that has just been completed at the east end of Buffalo Park. No more will the squad have to come to the Administration building to dress before and after games.

The new Club House is twenty-two feet wide by sixty feet long. It contains locker rooms both for the visiting teams and the Buffaloes, a shower bath room, a toilet, and a drying room.

Each of these rooms is equipped with the most up-to-date fixtures. They are also arranged so as to give convenience and comfort to our athletes. The building is steam heated. Probably the most important compartment in the house is the drying room where the players uniforms may be dried after each day's work-out. It is a great relief to the boys to know that they will not have to put on cold, wet suits to practice in. The Club House will be ready for the Howard Payne game next Saturday.

Other improvements in and around Buffalo Park are a carpet of Bermuda grass over part of the football field and a new pasture east of the park for Charles E. and Mary Anne, the two buffalo mascots of the College.

Believing that the thousands of visitors received by President Harding did much to break down his health, the American Philatelic Society recently canceled an engagement to shake hands with President Coolidge. This custom of setting aside an hour daily for the reception of visitors frequently brought to the White House as many as 1,200 persons a day to shake the President's hand.

William Allen White in the Emporia Gazette, says, "Until the farmer has learned the organization game, the game that fixes prices and gives up its independence for the right to prosper, the game that all the world has learned in the last 200 years, the farmer's cake is dough."

Pack horses used in the Canadian Survey party which mapped the land north of Athabasca Landing, Alberta, did not need to be taught what a smudge is for. The moment it was started they crowded up into the smoke to escape the tormenting flies. This made it easy to round them up for the next day's journey.

### BUT FEW EXCEPTIONS

Young man, don't swear. There is no occasion for it outside of a printing office, where it is useful when the paper is behind time. It also comes in handy in proof-reading and is "indispensable" when the ink works bad and the press begins to "buck." It is sometimes brought into use when the foreman's mad; and it has been known to entirely remove the tired feeling of the editor when he looks over the paper after it has been printed. Outside the printing office it is a foolish habit.

Quanah Tribune-Chief.

Engineers on locomotives when going through a tunnel frequently encounter heat ranging as high as 136 degrees with smoke and moisture-laden atmosphere often filled with deadly carbon monoxide gas. The Bureau of Mines has experimented with gas masks for use of cab crews, and has perfected a small pocket respirator for quick use when in a tunnel. A more satisfactory method for combating the gas is to supply fresh air to the men from the air brake system on the train. A rubber tube fitted with a funnel which is held close to the face furnishes an adequate amount of air.

Edward W. Edwards, of Cincinnati, says, "The bigger you are than your work, the easier you will find it, and the swifter will be your progress in it. Certainly others will be attracted to help you along, or buy whatever you may have to sell in goods or services, in the measure that you are an all-round human being—big, broad, and kindly—and not simply a machine, as a man always becomes who permits his work to master him."

President Obregon, of Mexico, says, "My international creed is that of world peace and international brotherhood. I believe that war should cease forever, and that we should cease to emphasize national lines and understand that we are all brothers."

The Japanese Parliament is modeled externally upon that of Great Britain, but its spirit is entirely different. In Japan, debates in Parliament are pleasant occasions where men of second rank are permitted to display themselves. The leader of a party may not even have a seat in the chamber.

God made the country but man made the detour signs.—Toledo Blade.

## Buy Your Tires from a Firestone DEALER

At the Latest Prices—The Lowest  
in History

You will find the Firestone Dealer one of the stable business men of your community. He offers a clean, fresh stock, backed by a well organized service. He wants you as a permanent customer.

That is the reason he sells Firestone tires. He knows and has plenty of proof that they are the best tires on the market. He can give you the greatest value and thereby retain your trade for years.

Every day you find new proof of this unequalled value. On the 15th of this month, Firestone Tires set two new dirt track records at Syracuse when Tommy Milton slid around four turns at every mile and covered the 100 miles in 75 minutes, 33 hundredths seconds. He also established a new world's record for one mile by covering it in 42 and 28 hundredths seconds. The next four cars to finish were also equipped with Firestone Gum-Dipped Cords. Each one of them

went the entire race without a stop. This and every other important race this year was won on Firestone Gum-Dipped Cords and Steam-Welded Tubes. Such performance gives you conclusive proof of their strength and durability.

Not only do race drivers use Firestone Tires as protection to their lives and the surest way to victory, but the largest tire buyers in the world insist on and buy Firestone Tires for economy and service. These buyers include the leading car manufacturers, the biggest commercial car operators and the taxicab and motorbus operators. 57,639,714 tire miles were sold to taxicab and motorbus operators in the month of August.

Think this over. You cannot afford to accept anything less than Firestone service and economy. You can buy this service and economy from any of the dealers listed below.

America Should Produce Its Own Rubber—*Firestone*

## Deeds Filed This Week Transferring Randall County Land

The following deeds as furnished the News by the Randall County Abstract Company, have been recorded in the County Clerk's office.

R. E. Gatten to G. G. Gatten, 80 acres of section 44, blk M-9. Consideration \$1210; (half interest).

Mrs. F. E. Perkins to W. D. Smith, lot 9, blk 12, Normal addn. Consideration \$25.

Chas. Schuler to W. H. Chambers, 15 1/2 acres of section 62, blk B-5. Consideration \$3325.

J. H. Goodjoin to J. M. Winstead, lot 11 and 12 blk 52, Canyon City. Consideration \$250.

J. H. Gorde to Chester H. Calkins, R. L. Chancellor survey No. 3, Preempt. Consideration \$1000.

R. L. Wagner to Mrs. Lizzie E. Hastings, southeast quarter blk 2, Heller addn to Canyon City. Consideration \$1000.

W. L. Hutchinson to Arthur L. Lehman, north half section 30, blk M-9. Consideration \$7500.

Green Bros Co to G. W. Johnson, lots 3, 4, 9, 10, blk 14, Canyon City. Consideration \$2500.

August Allendorff to Geo. Wendelen, southeast quarter section 86, blk 6. Consideration \$4500.

Mount Washington, Oregon, was sealed August 26, 1923, for the first time on record. Six boys from Bend, Oregon, after hours of arduous work, reached the topmost pinnacle. None of the boys in the party was more than twenty-one years of age. At one time a member of the party lost his foothold and clung desperately to the face of a perpendicular cliff, with an 800-foot abyss yawning beneath him. A tube, containing their names, the story of the climb, and small personal effects, was left at the top to substantiate their claim. They slid down the dangerous part of the pinnacle by means of a rope which could not be disengaged and still remains on the peak.

A scorched corpse picked up on an oily, wreck-strewn sea was evidence of the fate of the tanker Swiftstar. It is believed that lightning struck the tanker amidships, disabling the wireless immediately and exploding one or two oil tanks which tore the ship apart, each half going down with all on board. Splintered wood and rudderless lifeboats with the lettering "Swiftstar" on each one were picked up between Cuba and Jamaica together with the body of the dead man.

Indian chiefs in their dealings with the United States Government now use the finger and thumb print instead of their witness mark. This applies only to those Indians who cannot read or write.

The harassed housekeeper is inclined to think that the finest sight in the world is anthracite.—Province Journal.

## Vigorous Old Age

WHY separate youth and old age with a deep and ever-widening abyss?

The bloom of youth and the hardy, ruddy glow of Old Age—sixteen and sixty—should be separated only by the span of years and not by varying differences of physical wholesomeness.

Vigorous old age is within the grasp of all. S. S. S. brings that hale and hearty feeling back with a rush. Rich red blood is the greatest enemy of weakening health undermining Old Age. S. S. S. builds Red Blood Cells. Rich red blood coursing through your veins sweeps away impurities that retard the proper functioning of your system. Old Age—once a dreaded agony becomes a vigorous, enjoyable, care free time of life.

S. S. S. is made of carefully selected herbs and barks—scientifically prepared and proportioned. Welcome Old Age when it comes. Be ready to withstand the attacks of diseases that follow in its wake. Meet Old Age with a hearty handshake. A handshake that speaks of well being—of a vigorous, clear thinking, red blooded constitution. S. S. S. is your best friend when Old Age is seen rounding the corner. Get a bottle and drive care and worry away. All leading drug stores carry it. The large size is the more economical.

**S.S.S.** Makes You Feel Like Yourself Again

## To Buy More Cows For College Dairy

Prof. Frank R. Phillips, Head of the Department of Agriculture has announced that the dairy herd belonging to the College will be increased in the near future, and will practically be doubled in size. The College Dairy will then be able to supply Huntleigh Hall with milk and butter, whereas, in the past, it has only been able to supply Cousins Hall.

All of the work at the College Dairy is done by students, and only students who have taken agriculture courses are eligible to work in the dairy. So many students are applying for jobs at the dairy that it is necessary to put in applications a year ahead of time in order to insure jobs.

Good paper can be made from banana refuse. The trash or refuse, consisting of the stems of banana trees from which the fruit has been cut, is run through crushing rolls, which produces a mash in which the moisture has been reduced from 90 to 55-75 per cent. A pulping machine reduces the mixture to pulp and the pulp and juice are boiled and beaten. The removal of the fibrous material from the beater completes the process, in which no chemicals is used.

Bootleggers of New York City are offering for sale, at one dollar a collection, photographs of all prohibition agents stationed in the metropolitan area. The wary bartender, after carefully examining the pictures on the circular, can easily guard against arrest. Circulars are kept up to date and subscribers are supplied with photographs of new agents, or informed of any transfers on the force.

Cornelia James Cannon, writing in the North American Review, says: "The presence in recent years of large numbers of Jews, especially of those from Eastern Europe, where the Jew is essentially an Oriental, in our big centers of population, has been accompanied by a development of racial prejudice which is as unfortunate for the country as it is tragic for the Jews themselves. Those Jews who are already here, who have been admitted to this country and thereby made free of its rights and privileges, must be given every welcome, protection and encouragement. But for their sakes, as well as for the sake of a harmonious nation we could to advantage practice a rigid limitation of that race in the ranks of immigrants."

There is still some doubt concerning the origin of the song, "Yes, we have no Reparations," as different versions have appeared in Paris, London, and Berlin.—Punch (London).

Help Keep Canyon Clean.

## Aggie Department Buys Leghorn Hens

The Agriculture Department of the College has purchased one hundred White Leghorn chickens, and, in the future, eggs will be furnished to Cousins and Huntleigh Hall as far as possible. Prof. Phillips states that a student expert on poultry will be employed to care for the chickens.

Prof. Moore, the new man in the Department, is a poultry expert, and is known in that capacity all over Central Texas.

The powerful voice of Senator-elect Mangus Johnson can be heard a long distance. When the committee on rules assigned him to suite 125 in the Senate Office building they had this in mind. The partitions between the rooms are very thin and any loud expression can be heard in rooms adjoining. The question was solved by arranging for a "buffer room" between his suite and those adjoining—that is to say, extra rooms were added to the adjoining suites which may or may not be used.

Amy K. Kaukonen, mayor of Fairport, Ohio, resigned recently after a bitter fight of nineteen months with bootleggers. She clamped the lid on and beat the bootleggers to a finish and then resigned. At a mass meeting of citizens her administration was declared to be the best in years, and all her predecessors were men.

Heat in the Alps has been so great that glaciers have been melting and causing avalanches. Mountain streams have been blocked by these avalanches with disastrous results to factories and electrical works depending on the power of the water for their kinetic energy.

The straightest of the world's surveyed lines is that running northward between Alaska and Canada from the coast of the Arctic Ocean and constituting the boundary line between the two countries. The line consists of a clearing twenty feet wide cut through all timber, of aluminum-bronze monuments set at intervisible points not more than four miles apart, and of a map in detail of the strip of country two miles each side of the boundary proper. In 1867, the American and British treaty makers laid a ruler on a map and said, "This shall be the dividing line." The line traverses 600 miles of country over great mountain ranges, swift rivers, quicksands, glaciers and bottomless morasses.

**LOCAL NEWS**

Miss Ethel Root has gone to Floydada to teach in the public schools.

T. F. Reid returned Tuesday from Los Angeles, where he has been spending three months visiting at the home of his daughters.

Enoch Nobles, of Minneapolis, was in the city this week on matters of business, and returned to his home yesterday.

Mrs. R. P. Jarrett was called from Nashville, Tenn., last week to the home of her father in Dallas, owing to his serious illness. Mr. Howard visited here with his daughter some time last summer.

A social meeting of the Woman's Book Club will be held next Wednesday with Mrs. J. A. Hill, president of the Club, as hostess.

In reporting the winnings at the Randall County Fair last week credit was given to J. L. Prichard for several premiums taken. This was a mistake on the part of the News, as credit should have been given to T. J. Prichard.

**SIDEGLIGHT ON EX-KAISER**

While in Berlin many years ago, Thomas A. Edison received an invitation to visit Kaiser Wilhelm in his palace, and on the appointed day a state carriage, gorgeous in golden armaments, drawn by six horses and without outriders, called for him. This display abashed the modest-minded inventor, and he said he would reach the imperial palace in his own way. He walked.

When he reached the designated place the flunkies in charge declined to take his card to the royal presence, his humble appearance making it seem impossible to them that he was to have audience with their august master. Edison, nowise disappointed, returned to his hotel, where, shortly, he was waited upon by a court official conveying William's regrets for the mistake, and a request that he would visit the palace next day and bring with him one of his phonographs.

Edison did so. The emperor took him to a private cabinet—no one else being present—carefully closed all the doors and then besought him to take the marvelous invention apart and explain to him all its workings. This was done, and the inventor was invited to attend a court reception next day and bring the phonograph with him. Upon this occasion the great American inventor found the emperor surrounded with a brilliant throng of nobles, each one decorated with the insignia of his rank—Edison calls them "dog collars." When he produced his mysterious invention the emperor took it in hand, eyed it critically, as though he had never seen it before, then took it apart and explained to the amazed courtiers exactly how it performed its wonders. He never said a word about his instruction of the day before.—Detroit News.

Prominent prohibitionists says William H. Anderson is now passing through the "fiery furnace." In that event Anderson ought to come out drier than ever.—Philadelphia Inquirer.

Henry Ford says he wants to abolish all poverty in the world, but he still keeps on selling cars to a lot of persons who can't afford to own them.—Charleston Gazette.

**Umbarger Notes**

About three inches of rain fell here Sunday night. A little fell Monday night.

Lee Stocker spent Sunday at the F. V. Friemel home.

M. Hollenstein made a business trip to Canyon Monday.

O. J. Podzemny made a business trip to Amarillo Friday.

Herman Popp was a caller in Amarillo Thursday.

A son was born to Mr. and Mrs. Walker Tuesday. It died Saturday and the funeral services were held Sunday.

An entertainment was given at the Clem Friemel home Sunday evening.

It was well enjoyed by all present.

August and Henry Skypala were callers in Amarillo Friday.

**VERNON CITIZENS WOULD SELL CITY ELECTRIC PLANT**

Citizens of Vernon are against municipal operation of its public utilities. A petition signed by 238 of the city's leading citizens asks the city commissioners to revise the rates charged by the local electric light and power company and the sale of the city's plant to the local company with a contract for the latter to supply street lights and power for pumping water. Here-to-fore this service was given to the city's plant.

The municipal plant for street lighting and pumping city water was put in about seven years ago. More recently the city made a movement to install an electric light and power plant by voting \$100,000 bonds the expenditure of the proceeds of which has not been made.

**ON BEING A REFORMER**

Hardly a day passes that an editor does not receive from one to half a dozen suggestions about what should be printed in his paper. One believes that the Ku Klux Klan should be excommunicated. Another suggests that the Klan should be praised for what he believes of the praiseworthy devotion to the fundamental ideals of the Republic. A third thinks that evils of trades unionism should be pointed out. A fourth would have the paper converted into an organ of organized labor and a fifth can not understand why his pastor's wonderful sermons are not printed in full. And so on, et cetera, ad infinitum, vox populi, in hoc signo vinces, e pluribus unum.

That is very fine. There are so many things that need to be set aright, so many crooked things to be straightened, so many good things that need to be praised and recommended for general acceptance that a poor editor does not know where to begin. The task of saving the country from the many ills which beset it is a stupendous one and none but the very youthful or the foolhardy would undertake it.

They seem to be willing just to let things keep on going wrong. A reformer is about as popular as a baseball umpire when the home team is losing, and no editor who has ambition enough to want to keep out of the poor house or gumption enough to want to go through life with a whole skin will undertake the varied and multiplex reforming jobs which are laid for him from time to time by admiring friends. And that's a fact.

Seah—Vernon Record.

An expert sports writer is a man who knows the nationality of all the American boxers.—London Punch.

**THINKING AND KNOWING**

It is possible to know a good many things and yet to be shallow or inaccurate or incoherent as a thinker. It is also possible to have not much knowledge and yet to think accurately and connectedly on such matters as come within one's range—though it seldom happens that a person with this capacity for thought does not rapidly extend the scope of his knowledge. A statement, however, that seems to us wholly untrue in this which occurs in the autobiography of one of the best-known of living Americans: "It often happens that a man can think better if he is not hampered by the knowledge of the past."

Perhaps what was in the eminent American's mind when he wrote those words was the idea that the untutored intellect is more original in invention, more resourceful, more alert, than that of the man who has been educated by a study of the ideas and acts of other men. Even so, it is a singular hypothesis, and the weight of such evidence as history affords is all against it. Great discoveries have not been made by men who were entirely ignorant of the work that had already been done in the field in which they were laboring. Nor have great inventions taken complete form in the brains of men who had no knowledge of the appliances and devices of a kindred sort that had preceded their efforts to solve a mechanical problem. The seas of statecraft are strewn with the wrecks of those who ventured on them without the charts that the knowledge of the past might have supplied. The works of literature and science and art have not been achieved by men who felt that knowledge of the past would hamper them rather than help them.

The process of creative labor are obscure, but the idea that the creative power of the mind is likely to be sapped by the exercise of its acquisitive power is absurdly fallacious. The wider and more accurate a man's knowledge the more closely and cogently will he be able to reason.

The conferring of a war medal by the British government upon a homing pigeon not only is a pleasant bit of sentiment but calls new attention to the services that homing pigeons have rendered to mankind, in peace as well as in war. The incident recalls the interesting fact that homing pigeons were the foundation of two great fortunes. Before the days of the telegraph Baron Rothschild used great numbers of pigeons to bring the earliest information of the stock market and exchange in London to his Paris banking house; and Paul de Reuter, the founder of the great European news agency that corresponds to the Associated Press in America, used carrier pigeons as his first messengers.

A few months ago when the Duke of York married Lady Elizabeth Bowes-Lyon all the English writers spoke of the Scotch bride as Lady "Betty." Apparently that was the thing to do. But what the new Duchess of York calls herself is quite a different matter. The wedding present that she and her royal spouse recently sent to Lady Rachel Cavendish was marked simply, "From Albert and Lizzie." Lizzie! Girls who are just about to change their plain Alice to Alice please notice.

Greece now knows what it is to be merely a Greece spot on the map.—

**PUBLIC RELATIONS OF INSURANCE**

Business would be at a standstill if insurance should go on a strike. Not a train would move, not a ship would sail. The machines in factories would be stalled; automobiles would be left in garages. Even the banker's hand would be paralyzed—he would not know which would be the better policy to call a loan, the collateral support of which is unprotected by insurance, or pile the money in vaults deprived of burglary protection insurance. Indeed, the sense of security against misfortune, which the public enjoys, is given to it by insurance. The lamentable feature of it, however, is that the public in general is not acquainted with the fact.

The insurance business is performing another service invaluable to the public. The stocks and bonds of the railroads you ride on are owned in part by the insurance companies. The insurance companies are today holding \$1,000,000,000 worth of railroad securities in trust for the benefit of 50,000,000 policyholders.—From an address by Albert N. Wald, assistant secretary, Insurance Federation of America.

It has been well said that insurance is the basis of credit. An analysis of the situation proves this fact. Any action which injures a man's credit, limits his opportunity to do business. An injury to the insurance industry automatically affects the business credit of the nation.

A new market news service of the Department of Agriculture will bring producer and consumer into a closer relationship than has ever obtained before and big with promise of common benefits. The new service, which will cover the region from Kansas City to the Pacific Coast, will furnish daily news by radio and leased wires, of food prices in the big cities and with a branch station at Atlanta and extensions already established or planned in other parts of the South and West will keep the greater part of the food-producing area of the country in daily communication with the great industrial centers.

The Canadian Government invites people who are in search of a summer home to buy an island in Georgian Bay. There are some thirty thousand islands along the shores of that part of Lake Huron, and the islands vary in size from tiny eyots to islands many acres in extent. They are rocky and bear no great amount of vegetation, but many are ideal for summer camps. The price of an unoccupied island is twenty-five dollars plus ten dollars an acre.

Randall County will not have an exhibit at the Dallas Fair this year, owing to the fact that there is no one to look after such an exhibit. In the past the county agent has usually been responsible for this exhibit. Randall County could perhaps furnish one of the best exhibits ever taken to the Dallas Fair this year owing to the splendid products available, but there is little use to send an exhibit unless there is a man in charge who can give his time to the collection of such an exhibit and showing the same. The commissioners are doing the right thing in taking their time to be sure that the county agent selected is well qualified for his position, but it is unfortunate that owing to the fact that we have no county agent at this particular time. The exhibit to Dallas will have to be discontinued for a year.

The pressmen were on a strike in New York City last week, and the newspapers were unable to carry the regular advertising for the stores. At such a time as this were the advertisers most forcefully reminded of the power of newspaper advertising and the big stores noting a 50 per cent decrease in their business, used all kinds of methods to reach their customers; all of which were more expensive and less effective than had been the newspaper advertising. Newspaper advertising is the cheapest and most effective method that any business firm can use to reach the buying public. The big stores of the cities found this out long ago. The merchants of the smaller towns are beginning to realize this fundamental fact.

News from Oklahoma would indicate that Governor Jack Walton will soon be hunting for a job after the amendment to the constitution allowing the legislature to meet to consider his official act carried by a large majority Tuesday. Walton's enemies are in the saddle in Oklahoma and whether right or wrong, he will have no chance to win out when the legislature meets to consider his case.

The News congratulates the students of the college in the publication of the first issue of the Prairie as a weekly publication. Frank P. Hill, as editor-in-chief, Everts Hale, as business manager, and Olin E. Hinkle, managing

editor, did a notable piece of newspaper work in the publication of the first edition of the Prairie as a weekly.

A professor of mathematics decided that he would supplement his meager income by raising chickens. With just enough money to buy a hen and a setting of eggs he made a beginning, and then sat down after dinner one evening to figure out his expected increase. If ten chickens were hatched and half of them were pullets, he would have in a few months six hens, and on the same basis again thirty-six, and another year two hundred and sixteen. From there on his progress would be rapid. By eight o'clock he had several thousand acres devoted to coops and runs. By nine o'clock he had spread beyond the boundaries of his own state. Just before bedtime he was reaching for more land in South America, at which point he went out and killed the hen, for he hadn't the heart to crowd the human race off the face of the earth. It is unfortunate that he made the last two or three computations; if he had stopped just short of them, he could have qualified to write prospectuses and so made a comfortable living without working.

Many Life Insurance Companies, according to the Insurance Journal, no longer consider an aeroplane flight as so hazardous as to invalidate a policy. The main restriction is that the policyholder shall fly only over an established route in a machine operated by a regular transportation company. The companies still bar casual flights with itinerant aviators.

Artificial refrigeration now accounts for most of the ice used in the United States. The production of ice by artificial methods began in New Orleans as long ago as the Civil War, but the growth of the industry is comparatively recent. According to the census of 1920 every state except New Hampshire and Vermont has artificial ice factories.

Although three quarters of the original soft-wood forests of the nation have been cut down, the United States still has a supply second only to that of Russia. If it could be handled with proper forestry methods, it would be enough for our requirements, but unfortunately timber is being cut four or five times as fast as it is planted or allowed to grow.

Panhandle Herald: The locating of the Texas Technological College at Lubbock gives the Panhandle-Plains section of the State two very important State educational institutions, the other being the State Teachers College at Canyon. It is important that the people of this section of the State give these two institutions their loyal support if they are to maintain the high rank expected of them. During the thirteen years existence of the Canyon school more than eight thousand boys and girls have received instruction from its teaching faculty and it is safe to say that had it not been for the location of this school in this section, not more than fifteen per cent of these eight thousand would have had an opportunity for coming in touch with college life. Now the coming of the second school, with a different purpose to that of a teachers training school, means that college life is within the reach of every ambitious boy and girl in northwest Texas and it is the duty of every parent to make every reasonable effort to see that their children receive the best possible education.

The News congratulates the students of the college in the publication of the first issue of the Prairie as a weekly publication. Frank P. Hill, as editor-in-chief, Everts Hale, as business manager, and Olin E. Hinkle, managing

sacrifice that may be necessary in order to allow their sons and daughters to take advantage of a college training now so easily within their reach.

The United States Government is able to make prohibition a success among the Indians, according to the Department of the Interior. In two years \$130,734 in fines have been collected from the nation's wards and 97,038 gallons of liquor confiscated.

By dint of hard work and heavy taxation, Czechoslovakia is one of the few European states that is in a sound financial condition today. In 1922 the country's trade balance was favorable by 5,390,000,000 crowns, compared with 4,877,000,000 crowns, in 1921.

Waterbury, Connecticut, wins questionable publicity in the recent announcement that during June of this year, as compared with the same month in 1922, the number of work permits granted for the employment of children in industry increased 800 per cent.

Six thousand tons of Alberta coal will be sold in Toronto at \$12 a ton. This price compares with \$15.50 asked for United States anthracite there, or \$3.50 less a ton.

**The Home Paper an Educational Power**

By PHEBE K. WARNER

Why do you take the home paper? To get the news of course. What is news? Information. And what is information? Why, information is nothing more or less than education.

And what is education? Well, now you have us cornered. Education is most everything. It can be good or bad. It can be constructive or destructive. It can be helpful or it can be harmful. It all depends on your nature and your application of education and the kind you get. And where you get it. And we are a firm believer in the theory that the home paper is one of the greatest educational institutions in America.

There are in the State of Texas alone 1180 newspapers and of these about 740 are the county weekly papers. 740 papers going out of as many offices directly into the homes of the people in one State alone in one week. And every week of the year. Are they read? Yes. Every word of the home paper is read every week by almost every member of the family. Perhaps not all the inside material. But every word of local color of any tint. Every word that will in any way affect local conditions.

If the home school is ever improved, if the schools of the county are ever improved, if the rural church is ever redeemed to its former activities, if the good roads movement ever touches the cross roads, if the community fair is a success, if the county fair is ever put over, if the school fair is ever a success, it depends on the education of all the people of the county through the columns of the home paper. If the county as a whole unit ever grows, if it keeps pace with other counties it must come by the editor keeping pace with one another and sending out to the people of their home county every good item of education they gather from their observation and exchanges.

We sometimes wonder if the people actually stop to think what their country would be like, what their town would be like and what their home would be without the knowledge that leaks into their civic and home life through the columns of the home paper. And its cost? How many school books will you have to buy this year if the State does not supply them for your children? We want to watch this just a few months and see how the price of one school book for one child for a few months will compare with the price of your home paper for the whole family for a whole year. Now don't forget. Begin with the readers you have to get for the children. And everybody has to get school books, or used to.

But the purpose of this story is to give the patrons of the home papers our late President's idea of his home paper and the ideals kept before his helpers in the publication of the Marion Star. Evidently Warren G. Harding had a keen consciousness of the power and influence of the home paper he published. And he must have felt the responsibility of a real educator in his relation to the patrons of his paper.

And the fact that his newspaper ideals not only lifted his whole community to a higher plane but that keeping to those ideals led him to the White House is no bad example for any newspaper worker or publisher and proves without doubt what a newspaper can be to its publisher, its community and the State when its ideals are that of clean service and real education to all the people.

Posted on the wall of the editorial room of the Marion Star were mottos such as these:

"Be truthful; be fair, and above all be clean."

"Remember there are two sides to every question. Get both."

"Get the facts. Mistakes are inevitable but strive for accuracy. I would rather have one story exactly right than 100 half wrong."

"Be decent. Be fair. Be generous." "Boost—don't knock. There's good in everybody. Bring out the good in everybody and never needlessly hurt the feelings of anybody."

"In reporting a political gathering, get the facts; tell the story as it is and not as you would like to have it."

"Treat all parties alike. If there is any politics to be played we will play it in our editorial columns."

"Treat all religious matters reverently."

"If it can possibly be avoided, never bring ignominy to an innocent woman or child in telling of the misdeeds or the misfortunes of a relative. Don't wait to be asked, but do it without asking."

"And above all be clean, never let a dirty word or a suggestive story get into type."

"I want the paper so conducted that it can go into any home without destroying the innocence of any child."

"Do you think such a paper would be so tame that the people would not want it in their homes? Do you think it would be so devoid of crime and scandal that the people would not pay for it? Or do you think it would be an educational power in the community that nothing could defy? Do you think the editor would lose his job? How about the Marion Star and its editor?

We heard the mother of a small family of children say the other day "I hate to do it. But I believe I will have to stop our State daily paper because the children are getting so many bad lessons from it." Sure there was a lot of good in the paper also but the children like older children wanted to know the bad things that were going on and how they happened. There is a lot of good in the picture show, too. But is that any excuse for the wrong lessons taught there? If mothers have a right to censor the picture show and tell the picture show man what to show and what not to show why has she not the same right to demand a clean newspaper for her children's education. If mothers have a right to clean up the school and the home and the State why have they not the right to demand a clean newspaper for their home?

We believe the home paper is the cleanest publication on the market. It does not have room for the uncleannish things. It is too local, too human to want to air the worst things in the worst way. It is too close to home. And then give the editor credit. He does not needlessly want to hurt the feelings of any one and often leaves things out he might like to say. But he does not say them. Then why does not every home have the home paper in it? It will cost no more than some of the text books you may have to buy and it will be an educational force in your home the whole year.

"Ford won't run except under compulsion." We have one of the darned things with a disposition like that.—Associated Editors (Chicago).

The citizens of Canyon gave \$100, 100.00 to get W. T. S. T. C. located here.

The enrollment for the first year was 227, and for last year was 1016. Training School students included.

The school opened its doors Sept. 25, 1910, with Hon. R. B. Cousins as president and a faculty of fifteen people.

The school now has about seventy instructors, five student assistants, and ten or fifteen other employees.

The Chinese game, Hah Jongg, which has taken America by storm and which is being played in London, Paris and other world centers, was invented 3000 years ago by a Chinese fisherman who while away the time during storms playing the game with his employees.

A Titian Madonna and Child, Raphael's Crucifixion, and paintings by Fra Bartolomeo, Gentile Bellini, Palma (Il Vecchio), Correggio, and Titoretto were bequeathed to the National Gallery, London, in the collection of the late Dr. Ludwig Mond. The Raphael was painted when the artist was sixteen years of age, and is worth \$250,000.

One of the indispensable government bulletins advises us against eating whale meat, and now we are waiting for another bulletin to tell us to eat as a substitute.—Cleveland Times.

A foolish mother can suggest mischief her son never dreamed of, by the questions she asks him.

**A THOUGHT FOR THE WEEK**

A man's job is his best friend. It clothes and feeds his wife and children, pays the rent, and supplies them with the wherewithal to develop and become cultured. The least a man can do in return is to love his job. A man's job is grateful. It is like a little garden that thrives on love. It will one day flower into fruit worth while, for him and his to enjoy. If you ask any successful man the reason for his making good, he will tell you that first and foremost it is because he likes his work; indeed, he loves it. His whole heart and soul is wrapped in it. His whole physical and mental energies are focused on it. He walks his work, he talks his work, he is entirely inseparable from his work—and that is the way every man worth his salt ought to be if he wants to make of his work what it should be and make of himself what he wants to be.—Arthur Capper, U. S. Senator from Kansas.

The Chinese game, Hah Jongg, which has taken America by storm and which is being played in London, Paris and other world centers, was invented 3000 years ago by a Chinese fisherman who while away the time during storms playing the game with his employees.

A fourteen-story hotel for negroes will be built this autumn at Atlantic City. The building is to be owned, operated and patronized exclusively by negroes. It will be of steel and reinforced concrete, and will require an estimated expenditure of \$750,000.

Jazz is dying, says a music publisher so possibly that is why it sounds that way.—Detroit News.
