The prospects of city improvements in Canyon during 1924 are developing faster than was contemplated during the final days of 1923. In fact, it might not be surprising to see in Canyon more improvements during 1924 than were completed during the record breaking year of 1923. A half million dollars were spent in city improvement in Canyon during 1923, principally three miles of paving, the \$100,000 high school building, several business houses and the new city hall and fire station, together with a continued construction of residences. But 1924 is starting off with great promises. The new \$80,000.00 Methodist church will be completed; the Church of Christ will build a \$15,000.00 building; other churches will get under way their building program; there will be another half mile of pavement; there will be a \$25,000.00 gin; a new brick garage is under construction and likewise a new stucco filling station; the city is making extensive improvements in beautification through trees and shrubbery and flowers; a large number of homes are being planned; other new business houses are contemplated. All in all, 1924 promises much in the way of construction and city improvements for the coming year.

Jim Ferguson has announced as a candidate for Governor of Texas subject to the will of the Democratic primary in July. Jim says that his impeachment was pure bunk and that he resigned. At least he quit. He takes the precaution, however of stating that if his name is barred from from the Democratic ticket that his wife will be a candidate, and that, of course, he will run the government through her—a very fine combination. But there is no danger of either Jim or Mrs. Jim being burdened with the cares of the state government. However, Jim Ferguson is not to be ignored in Texas politics. He has a large personal following which stands in awe under his magnetism, and which is to be reckoned with at the polls. Of course he will be defeated, but chances are that he will get into the second primary, and it may be with some candidate who is not popular with the people. Jim is in politics, and must be counted upon to always be a source of danger in politics. With state conditions as they are—a depleted treasury and a cry for lower taxes—Ferguson is going to make a dangerous campaign.

There never was, or ever will be an ideal time to build churches. That fact has long been recognized by pastors who have devoted their lives to the cause of the Church. But there comes a time when the church must move out and forward, if it is to serve its mission. That time is here right for Canyon. The churches that have been started must be finished. The congregations that need church building ought to move out and start operations. Canyon has the poorest church facilities of any town on the Plains, in comparison with the other improvements of the city. We trust that the Christianity of Canyon is not to be judged by the kinds of houses in which we worship.

Business men are confident of better conditions this fall in Randall county. While the past year has not been so bad as has been seen in many sections of the country, yet the conditions are far from ideal. This country is coming back stronger than it ever has been in the past. If you want to make money, invest in Randall county now. Property is certain to be much higher within a few months.

A large percent of the business and professional men and women of Canyon are members of the Chamber of Commerce. All should have a membership in this progressive organization. Line up with the live wires of Canyon by taking a membership in the Chamber of Commerce. It will be worth your while.

The Senate is to investigate the Bok Peace Plan and all so-called propaganda. That is to be expected. The Senate deals with the various kinds of treaties made by the United States, and any infringement upon the sacred rights of the Senate is pure treason—in the sight of many of our distinguished senators. Many of our senators have the idea that the people have not the right to think for themselves in matters concerning the welfare of this country. It is remarkable the ideas some office holders get about the rights of the common people.

Every farmer in Canyon's trade territory should attend the cotton meeting at the court house Saturday afternoon. It will be an ideal time to talk over the cotton situation in Randall county. Randall county is going into the cotton business strong this year, and it is going to be a winner of a business, too. Every farmer is thinking of planting some cotton, and this is the right idea. A little cotton will help out wonderfully in getting the farmers back on their feet financially. Yes, it is a good thing to plant cotton, but don't forget to plant the other crops.

The luncheons of the Chamber of Commerce are to be held only monthly during the first part of 1924. This ought to make it possible for a very large attendance at each of these luncheons. The business and professional men and women of Canyon ought to attend these luncheons regularly during the coming year. The enterprising movements for city building will be started in these monthly luncheons. The progressive men and women of Canyon will be there. Plan to attend each of these luncheons during 1924.

The gin is assured for Canyon. It will not be a worn out, second hand affair such as has been unloaded on many West Texas towns, but it will be a new gin with all of the most modern machinery. It will be owned and operated by Canyon men who know the business and who are known to Randall county farmers. List your acreage with County Agent J. W. Jennings in order that these men may be assured that there will be sufficient acreage in the Canyon trade territory.

The trees committee from the Chamber of Commerce did a good work in bringing more than 800 trees to the city. The trees have been set out under ideal conditions. Those who have not planted trees this winter ought to place orders for spring delivery and get their shade trees started. There may never be another time just so favorable for tree planting as this year.

One week from tomorrow is the last day for paying poll taxes this year. This is political year, and every voter should be armed with a poll tax receipt in order to fulfill his American privilege and obligation of taking a hand in the election of the men and women who run this government. Pay your poll tax before the end of January.

The subscription campaign of the News is coming along fine. The subscription list is growing fast. If you want to reach the people of Randall county, advertise in the Randall County News.

No matter how prominent cotton may become in the affairs of Northwest Texas, the dairy cow will remain the old stand-by and the dependable every day in the week money crop for the farmer.

CANYON COLLEGE
Amarillo News: President J. A. Hill of West Texas State Teachers College of Canyon has frequently dropped hints to us Amarilloan that it is doubtful whether we appreciate the value of having a great institution so near.

At times it seems that Amarillo people have been slow in recognizing the high standing of the Canyon Teachers College. But it is evident that Amarillo is awakening to the possibility of this splendid state school, one that was founded to serve the people of this section.

The work of the college ranks with the best institutions in the Nation. When you say that you have attended the West Texas State Teachers College, you don't have to apologize. It's a college that has a prestige.

No high school graduate or teacher from this section should attend other institutions until he has made a thorough investigation of the Canyon College. Usually a close reading of the catalogue and a trip to the institution will convince the most skeptical parent or prospective student of its standing.

Amarillo would not be the city it is today were it not for having a good college so close at hand. Many persons would not have settled in Amarillo and other Panhandle cities had not a college been conveniently located. Teachers College certainly has served the Panhandle well as the only college in this region. Boost it every time you can.

Plans Readily Developing for Big Session of College in the Summer

President J. A. Hill believes that more people will seek the invigorating climate of Northwest Texas as a place to do summer school work in 1924 than at any other previous time. Already preparations are under way to take care of the large number of students who will be in Canyon.

A bulletin describing the summer school and summer normal work which will be offered is in progress of making. Both the summer normal and the summer school will open on June 4; the summer normal will close with state examinations on August 4, 5, 6, and 7. The summer school will close August 26, after two terms of six weeks each.

L. F. Sheffy, who is doing work in the University of Chicago, R. P. Jarrett who is at Gen. Peabody College at Nashville and J. L. Duffot, who is working at the University of Chicago are heads of departments now on leave of absence, who will be back at their posts in June. Miss Edna Haines of the kindergarten section of the department of education and Miss Marion Witt, of the English department will return for the summer; Miss Haines has been studying at Columbia and Miss Witt at the University of Wisconsin.

Plans are being made to bring to Canyon for the summer school some of the best known educators of the United States who will offer lectures and conduct conferences.

The administrative authorities of the Teachers College believe that the attendance will far outreach that of last summer when it was approximately 1700 students from more than a hundred counties of the state.

FACT AND COMMENT

Cheap money is afflicting China as it is afflicting Western Europe. In China, however, it is not a flood of paper money but of copper, the money of the masses, that is making the trouble. The value of the copper cent has fallen to about 100 for a dollar in silver, a depreciation that seriously hurts the purchasing power of all persons who work for fixed wages.

An opinionated man is tiresome, but if you never express any opinions you will soon have none to express.

The Ambassador of the United States to France receives a salary of \$17,500 a year, every cent of which he has to pay to his landlord in Paris as rent for the house that the embassy occupies.

Misunderstandings may separate friends far more widely than either time or space.

Buffaloes Add Three Basketball Games to The Many Victories

The Buffaloes added three basketball games to their credit this week by defeating Wayland College of Plainview Thursday night by a score of 26 to 13.

What makes a Wildcat wild? Ask the Buffaloes—they took it out of 'em.

The A. C. C. Wildcats had their hearts, minds and stop-watches set on taking two games from the Buffaloes in the All-State Basketball eliminations but were sadly disappointed when the Buffaloes romped all over them for the first two games of the season's schedule.

The first game, Monday evening at the College Gym was taken with ease by the Buffaloes whose teamwork had the Wildcats "up a tree" looking for the ball. The score was 37 to 18. No doubt the strange floor was a handicap for the visitors as their attempts at baskets seemed off judgment.

In the second game, the Wildcats started off with more pep and assurance and fought a fast and furious game to the finish. This battle ended with a score of 37 to 23 with the Buffaloes still undefeated.

The Buffaloes will meet the New Mexico Military Institute of Roswell on the local floor on Wednesday and Thursday nights of next week.

Vocational Agrarian Club Completes Plans For Many Activities

Plans for carrying out an interesting schedule of work during the remainder of the present term have been completed by the Vocational Agrarian Club. Officers of the Club are Noel Lott, president; Milton Ramsey, vice president; Jack Austin, secretary; Edward Matheson, judge of the court.

One of the present activities of the club is the feeding of two pigs, one on a balanced and the other on an unbalanced ration. Careful statistical records are being kept in each case.

Some basketball games are planned to raise funds for defraying expenses of the club team to the state-wide tournament at College Station in April. Other projects will be announced later.

DOWN BUT NOT OUT

"Judge, I'm down and out."
"Maybe you're down," said the judge, "but you're not out. Six months."

THE LAST OF THE ILLFATED DIXMUDE.

London, Jan. 23.—An artist's conception of how the French Dirigible "Dixmude" came to grief while in flight. The Dirigible is thought to have been caught in a heavy storm and exploded in mid-air.

Wayside Items

Ideal winter weather, cold and clear for the most part. Roads are rough but we hope for some improvement in them soon.

Judge E. C. Cayton and Mr. Benton of Claude, also Miss Anna I. Hibbetts of the Teachers College at Canyon, were at Wayside one day last week looking after the interest of our school and roads.

Mrs. F. C. Vaden, our County Demonstration Agent for Armstrong County, was due at Wayside, Monday, Jan. 21st, but as she didn't get here we suppose it was on account of the cold weather. The county nurse was to have accompanied her.

Stork Special: Born to Mr. and Mrs. Ed Hoard, Jan. 12, a son, in Amarillo. Their home is two miles south of Wayside.

Will Holland and family left Saturday, moving to near Amarillo.

Caleb S. Brooks, who lives six miles east of Wayside, is putting up a small house in Wayside for his mother and children to live in near the school.

Mrs. Ola Rogers and Leona left for

home near Guymon, Okla., Jan. 12th, after an extended visit at the parental J. T. McGehee home.

Mr. and Mrs. Lee Hutson and Edwin and Mr. and Mrs. G. W. Mayo came in Friday and are visiting relatives and friends in and near Wayside. Wayside is glad to welcome them back. Their home is near Goodnight.

Mrs. Robert Knox and niece, Hazel and Ruth Knox, left for Eldorado, Texas, on a visit for a few days last Wednesday.

W. H. Hamblen took cattle to the Kansas City market last week. He is expected to be gone about a week. Carried steers for J. M. McGehee.

M. L. McGehee came in from Slaton Sunday after an absence of three weeks. He carried mules to sell and succeeded in selling a number of spans but had some left on hand unsold.

Friends of S. C. Sluder will be interested to know that he moved from Kress to near Kaffir last Saturday.

W. C. McGehee and Billy Mc, W. D. McGehee and O. P. Thomas made a trip to Canyon Tuesday.

Mrs. Toye Mayo Hutson and Miss

Eagles Get Ready for Amarillo Hi Game on Friday at Amarillo

The Canyon Eagles are getting in trim for the big basketball game with the Amarillo Sandstorms at Amarillo tomorrow night.

A large number of local fans will accompany the team to Amarillo and will root for the Eagles.

According to agreement the two teams will decide the district championship by playing three games, if necessary. The first game will be in Amarillo Friday night, the second in Canyon Feb. 5 at the college gym and if the third game is needed, it will be played on the college floor.

The Eagles have the best record of the two teams, and the followers of the high school lads are confident they will win the district pennant. The Eagles have met and defeated the Tulla high school in two games, the Hereford high in two games, the Lubbock high in two games and the Wayland Juniors in two games.

The winning team of the Canyon-Amarillo series will go into the district tournament to be held at the College gym on Feb. 15-16.

Flora Carter called on W. J. Sluder and wife Monday afternoon. Edwin Lee Hutson, 9 months old, is quite unwell with an affected throat.

W. I. Lane, wife and boys, motored to Canyon Sunday to visit relatives. Mrs. Lane remaining with her mother until Tuesday, coming in with Mr. Lane on return trip from Amarillo. M. C. Sluder attended store and post-office while they were away.

GIVE HER TIME

Rastus—Ah wants a divorce. Dat woman jes, talk, talk, talk, night an' day. Ah can't get no rest and dat talk am driven me crazy.

Young Lawyer—What does she talk about?
"She doan' say."

SAY "ENGINE"

"This is my car," exploded the irate tourist to the garage man, "and what I say about it goes—see!"

Just then a dirty-faced machinist crawled out from under the dead machine and said: "Say engine, mister."

Thomas Gray labored seven years upon his "Elegy."

IF IT HAD BEEN—

If it had been your Car, would you have been full protected by Insurance? You are not always to blame for the accident, so do not hide behind the fact that you are a careful driver. Our policies cover damage to your car as well as insuring you against accident which might occur to yourself and others.

Funeral Services of Old Resident Held Last Friday Morning

The funeral services of T. D. Coffee were held Friday morning at the Methodist church and was attended by a large body of sorrowing friends and neighbors. Rev. M. M. Beavers was in charge of the services, assisted by Rev. Lyn Claybrook and Rev. B. B. Fronnaberger.

Mr. Coffee was stricken with illness on August 9th as a result of a fall he received while visiting his son, J. M. Coffee at the new high school building. He was never able to recover from the effects of this fall, and finally death claimed him on last Wednesday morning.

Mr. Coffee was a veteran of the Civil War, joining the Confederate Army with the troops from Georgia. He fought throughout the four year's engagement. For a long while he was with Jackson's troops.

The honorary pall bearers were W. F. Heller, John Rowan, R. B. Redfearn, L. T. Lester, W. C. Baird and J. C. Pipkin. The active pall bearers were W. J. Flesher, J. D. Gamble, G. G. Foster, R. E. Foster, M. B. Johnson and George Parr of Amarillo.

Umbarger Notes

Miss Frances Beckman, who has been in Oregon the past few years, is here visiting relatives and friends.

John Straub and family, Frank Vordal and family spent Sunday at the George Frank home.

Paul Artho and family, O. J. Podzemney and family and Clem Friemel and family spent Sunday at the M. Hollenstein home.

F. V. Friemel was a business caller in Canyon Saturday.

An entertainment was given at the George Frank home Sunday evening.

The weather has been fine the past week. The farmers are still gathering row crop that could not be gathered during the bad weather.

Leo Stocker is threshing for Albert Fischbacher.

Various colleges are making efforts to keep their graduates in touch with the intellectual life not only of their alma mater but of the world in general. Some of them have started reading or lecture courses especially for graduates; most of them try to have adequate hotel facilities near by so that alumni can drop in now and then for a short visit. Vassar has gone still farther; it provides its graduates with a "campus home" where they may "return to write the book or play that they have held in the back of their minds for years, or take up the study of better schools and prisons, or do the reading that every woman plans to do, but that she scarcely ever finds time for, with her duties as housekeeper."

Eighteen years ago a man in Tennessee bought three hundred and twenty acres of nearly worthless cut over land and has since devoted almost all his spare time to keeping fire out of it. Having succeeded, he now has one of the finest stands of young timber in that part of the country. He has made his living by farming, but he has grown wealthy by making his timber into a bank that pays him a high rate of interest on a small investment.

A military map, used by the British at the battle of Bunker Hill, recently sold at an auction room in London for \$950. The map, eight inches square, bears the signature of Major Sir Henry Clinton.

A bad wound, burn or cut should be cleansed of dirt or impurities and dressed with Liquid Borozone. It heals the flesh with marvelous speed. Price, 30c, 60c and \$1.20. Sold by City Pharmacy. 40t5

Notice Dairy Change

Notice is hereby given of the change in ownership of the Canyon Dairy, J. W. Shanklin having taken over the business on January first.

All outstanding accounts before that date are payable to W. F. Jameson.

Accounts since January 1st are payable to J. W. Shanklin, and I am responsible for debts of the Dairy since that date.

Mr. Jameson is continuing with the Canyon Dairy, and I shall appreciate very much a continuation of the your patronage in this business.

J. W. Shanklin

How to protect goods from the attack of weevils has always been a hard problem for packers of dried fruits and cereals. A new process exhausts the air in the steel drum in which the food is placed and then fumigates the contents with carbon disulphide. Exhausting the air distends any living tissue that there may be in the fruit or cereal, whether worm or egg. That opens the pores and separates the cells so that when the gas is turned on it fills the spaces and poisons the insect or kills the egg.

The First Judicial District of Alaska—the narrow coastal strip that runs six hundred miles south from the longitudinal boundary between Alaska proper and Canada—wishes to separate itself from the rest of the territory. The district has a temperate climate, considerable agriculture and great resources in forests and minerals; and it believes that, if it could once be divorced in the minds of the people from Upper Alaska, it could readily attract immigrants and attain prosperity.

The Weather Bureau and the Chemical Warfare Service, which have been trying various methods of protecting orchards on frosty nights, have discovered that smoke clouds, such as the army uses to conceal the movement of troops, do not ward off frost. Cold seems to penetrate dense smoke readily. The experiments confirm the conclusions of earlier investigators that the most efficient and economical method of protecting crops from frost is to heat the lower layers of air by burning some kind of cheap fuel.

Help Keep Canyon Clean!

BILL BOOSTER SAYS

THE FELLOW WHO KNOCKS HIS HOME TOWN IS AS BAD AS THE DOG BITING THE HAND THAT FEEDS IT. FOR THE BENEFIT OF THOSE WHO DON'T LIKE IT HERE, PERMIT ME TO CALL ATTENTION TO THE FACT THAT TRAINS LEAVE DAILY!

The high price of bread and our wartime habit of economizing in bread have, thinks the Department of Agriculture, needlessly limited the present consumption of wheat. In 1914 flour sold for \$4.43 a barrel, as compared with \$6.89 now, but the bread produced from a barrel of flour has increased in price from \$10.40 to \$18.30. Incidentally, the farmer gets less than three dollars for the wheat that goes into a barrel of flour, but the customer of a restaurant who gets two slices of bread for a nickel buys flour at the rate of \$75 a barrel.

CARD OF THANKS.

We wish to express to the kind neighbors and friends our thanks for unnumbered acts of kindness rendered during the long illness of our beloved husband and father. Words fail in our attempt to recount these kindnesses of those who assisted in waiting upon him and cheering us during this illness and in his death. We thank each and every one of you. We are grateful for the many beautiful floral offerings.

MRS. T. D. COFFEE AND CHILDREN

Paving Contract Will Be Let on Half Mile Monday, February 4th

The City Commission is advertising in this issue of the News for bidders on the half mile of paving to run from the southeast corner of the square to the highway. The bids will be opened on February 4.

The City Commission has bought all of the material for this paving job and contracted for brick.

Work will start on the paving as soon as the legal work may be completed after the contract is let.

The knitting industry, which through the introduction of American machines has grown rapidly in Shanghai, Canton and Hongkong, is changing the Chinese habit of wearing no underwear and often no stockings. A pair of cotton stockings costs in China about six and a half cents in United States currency; underwear is correspondingly cheap. The women employed in the knitting factories are among the best-paid workers in China. Yet the ordinary operative gets only from \$5.50 to \$8.25 a month and has one day off every two weeks. The women work from 7 a. m. to 6 p. m. and have an hour out for luncheon.

When a German circus man, about to go to South America with his show, advertised for 300 acrobats and other performers he received applications from 60,000 ranging from former Ulan officers to day laborers, many offering a bonus in the form of potatoes if they obtained positions.

We have furniture as low as you would want to go, and we will please you at the other extreme.

It makes no difference to us what price you want to pay. The important thing is that you are pleased.

Whatever your furniture problem bring it to us and we will help you to decide.

Also coupled with the service of a good stock of repairs to make them the most efficient on the market.

THOMPSON HARDWARE CO.

Of Interest to Santa Fe Patrons

Have you compared after-the-war prices of what you buy and sell with those of a pre-war normal year—say, 1922 with 1915?

Santa Fe System Lines have made such a comparison, and you will be interested in the result:

The Santa Fe System sells transportation only, but buys steel, fuel, lumber and all kinds of building and construction material; and is a very large user of labor.

The Santa Fe System received in 1922, \$1.45 for hauling the same amount of freight the same distance that it received \$1.00 for in 1915, and \$1.60 for hauling a passenger the same distance it received \$1.00 for in 1915. Or, combining freight and passenger, it received \$1.50 for the same service it received \$1.00 for in 1915, the increase being 50 per cent.

The Santa Fe System paid \$2.11 for the same quantity of fuel that \$1.00 paid

for in 1915; \$1.77 for the same quantity of materials and supplies, other than fuel, that \$1.00 paid for in 1915; \$2.22 for the same number of hours of labor worked in 1922 as \$1.00 paid for in 1915. Aggregating all operating expenses, it paid in 1922, \$2.05 for the same number of hours worked and same quantity of materials and supplies as it paid \$1.00 for in 1915. It paid \$2.90 in taxes in 1922 for every \$1.00 paid in 1915.

Santa Fe System employes received an average annual compensation in 1922 of \$1.81 for every \$1.00 received in 1915, and the cost of living of such employes was \$1.62½ in 1922 for every \$1.00 in 1915.

Freight rates and passenger fares cannot be reduced until taxes and the cost of operation are reduced.

Cost of operation cannot be substantially reduced until the price of labor and material is reduced. And the price of labor and material cannot be reduced until the cost of living is reduced.

W. B. STOREY, President

Randall County News, Canyon, For Information

CHAMBER OF COMMERCE

LOUIS F. HART, Manager

Now that the question of a gin for Canyon has been settled, and sufficient cotton acreage to support it is almost equally assured, there yet remains a big program for the Chamber of Commerce to work on.

Among the first matters to be considered, judging from the amount of internal and external pressure being brought to bear, is the question of a paved highway from Canyon to Amarillo. Not all of Canyon's citizens, it would seem, are in favor of such a highway, and whether or not there is sufficient majority to make it advisable to push the project probably would best be settled through a referendum vote of the business men and citizens. At any rate, it seems that some kind of attitude, pro or con, should be taken by the Chamber at an early date.

The manager of the Chamber is in receipt of a letter from William H. Bush, owner of 100,000 acres of Texas lands, and who has headquarters in Chicago, urging the building of such a highway. He says in part:

"A couple of years ago Judge Crutcheon and myself drove from Canyon to Amarillo, and we zig-zagged all over the county in order to do so, and oftentimes over very poor roads. At that time we talked the matter over very seriously.

"I do hope you are going to arrive at a satisfactory arrangement, with a first class cement road between the two places, with good culverts where necessary and everything in good shape. It has been suggested that a road should go direct from Canyon to Soncy, and from there over the Ozark Trail, which is already built a part of the way.

"I hope you will come to some definite understanding at an early date."

The attitude of O. V. Vernon, secretary of the Amarillo Board of City Development, and others prominent in Potter County activities already is too well known to be repeated here. Some Canyon citizens, including President Hill and other officials of West Texas State Teachers College, have also expressed themselves strongly in favor of such a highway.

It would seem, therefore, to devolve on the Chamber at this time to endeavor to find the consensus of its membership in the matter and to "let the world know" how it stands.

Then there is the question of a brick plant. For a number of years Canyon citizens have known of the existence of an outcropping of clays on the place of H. C. Roffey, just a short distance north of the court house, which have been pronounced by various experts ideally suited to the manufacture of three kinds of brick and a superior building tile.

Mr. Roffey states that in the opinion of C. C. Frampton of Amarillo, recently connected with the brick manufactory there and who brings a sheaf of letters of reference as to his ability and experience, the local clays are much better than those obtainable at Amarillo, due to their freedom of foreign substances. Mr. Roffey computes that it would require around \$30,000 capital to set up a plant here, but believes that it would pay 100 per cent annual dividends, due largely to freight rate saving.

If these statements can be borne out, it would seem in the interest of the city that the Chamber should investigate and obtain sufficient expert information in the matter of being able to advise intelligently with prospective promoters of such an institution, whether financed by foreign or local capital.

Another of Canyon's pressing needs is an ice plant. Seventy cents to \$1 a hundred for ice is a price which it would seem should make the installation of a plant here a matter of paramount importance for householders and business men alike.

It is very probable that it would be more economical and profitable to install such a plant in connection with some other industrial organization, as a cotton gin or electric light plant. The light company, it seems, is not anxious to make further outlay unless the city will waive its right to take over the light company's holding here in 1925. It is believed the city is now ready to do this.

A definite expression from the city commission would give the light company the right of way to install an ice plant, if favorable, and if not would open the way for the securing of a plant through some other source.

Still another proposition which should evoke much interest in Canyon is the question of a laundry. While there have been several attempts to begin a laundry business here, the plants installed have either been too small to

handle the work efficiently or have failed for similar reasons.

At this time the manager of the Chamber is in receipt of a proposal from L. B. Compton of Slaton to install a modern laundry here as a stock company proposition. Mr. Compton proposes that the citizens take shares to the amount of about \$2,000, upon the basis of which he believes he can finance a laundry compatible with the needs and desires of the citizenship.

Encouragement or counter-suggestions to this proposition will be welcomed by the Chamber.

One of the first undertakings of the new manager has been the sending of follow-up letters to prospective students to West Texas State Teachers College. The first list submitted, consisting of 55 names, has been received and a personal letter has gone forward to each prospect, urging the advantages both of the school and of the city as a whole and cordially inviting location in Canyon for the period of attendance.

If only a small percentage of attendance is brought directly from these letters, it will be well worth the effort and time consumed. A personal appeal often means more than pounds of literature, the manager believes.

Another undertaking of the Chamber since the retention of a paid secretary has been the following up of land purchase prospects supplied by the West Texas Chamber of Commerce. These are obtained from inquiries received by that body from all over the United States. A list of land holdings for sale over the county is being compiled by the manager of the local Chamber, and letters are already going forward by every mail.

On the same principle by which it is expected to realize on the College student prospect list, the manager believes that a proportion of these letters will bear fruit in bringing to Randall County new blood, new capital and new agricultural production—all components of a prosperous community.

The Chamber is also undertaking to protect the business men who comprise its bone and sinew through advertising and credit vigilance work, an important, if unspectacular, form of effort.

LAMESA EX-STUDENTS ORGANIZE A CLUB

At the Tri-County Institute which met at Lamesa late in December, the Dawson County ex-students organized a West Texas State Teachers College Club. The following officers were elected:

Ethel Barrow—President.
Clive Austin—Vice President.
Sue Brown Anderson—Secretary.
Alberta Hatchett—Treasurer.
Rosabelle Gray—Press Reporter.

The old short clay pipe is disappearing and cancer of the lips has greatly decreased in Great Britain, according to a famous surgeon.

Life insurance policies of \$1,000,000 or more each are carried by 120 Americans.

MANY KINDS OF BIRDS ARE TO BE FOUND IN CANYON AND VICINITY

Canyon, the campus of the College and the streams and canyons near the city, is entertaining many visitors at this time; they have not come in autos, or on skates, or by train, but by the air-route. Yet they have not come by airplane. They have come under their own power, using the machinery provided by Nature herself. They are birds.

Since there have been so many birds seen in this vicinity, it seems likely that the old saying that birds follow civilization may be true. Certain it is that the planting of trees and shrubs, the coming of lawns and gardens and cultivated fields has made this country much more attractive to birds.

During a period of observation, covering about two and one half hours one day recently, fifteen different birds were seen. There were white-eyed vireos, so fearless that they played within two or three steps of a party of five; flickers, downy woodpeckers, red-headed woodpeckers, and yellow-bellied sapsuckers represented the hard headed pecking family; meadow larks sang several distinct songs; robins and blue birds were seen in flocks; chickadees, towhees, juncos and members of the titmouse families added to the joy of the afternoon sunshine; wrens, either the house wren or the winter wren (we are not sure which) fairly burst their throats in song; song sparrows (which do not sing) and turtle doves were also to be seen; the cardinal (red bird) was seen and heard constantly.

A few days ago the honeysuckle vines of the town were visited by flocks of cedar wax-wing-birds not often seen in this vicinity.

With all these visitors it is increasingly evident that a Bird Club should be organized in Canyon to increase acquaintance and good feeling between ourselves and our feathered visitors. One of the things which this club could accomplish would be the dissipating of that old and erroneous notion that there are no birds in the Panhandle of Texas. There would also, unconsciously perhaps, be fostered that fine spirit of comradeship and fair play which comes from association with each other out-of-doors and with the forces so plainly seen in even the most unmethodical observation of "Nature and her laws."

TEN GOOD RESOLUTIONS

- Frank Crane
1. I will live one day at a time.
 2. I will adjust myself.
 3. I will be happy.
 4. I will take care of my body.
 5. I will improve my mind.
 6. I will be agreeable.
 7. I will have a program.
 8. I will not be afraid.
 9. I will settle the sex question.
 10. I will satisfy my conscience.
- From the American Magazine.

Giving the Telephone Life

WHEREVER your thought goes, your voice may go. You can talk across the continent as if face to face. Your telephone is the latch which will open any door in the land, to you.

There is the web of wires; the many switchboards; the maze of apparatus; the millions of telephones. All are parts of the great system which provides nation-wide telephone service. The equipment has cost over two billion dollars. But more than equipment is needed.

There must be the guardians of the wires to keep them vital with speech-carrying electrical currents. There must be the thousands of operators to watch the millions of tiny switchboard lights. There must be skilled workers of every sort to construct, repair and operate.

A quarter of a million men and women are united to give nation-wide telephone service. With their brains and hands they make the Bell System live.

TO THE YOUNG MAN WHO OUGHT TO GO INTO POLITICS

By EDWARD N. HURLEY In Colliers, the National Weewly

I have been in business for more than thirty years, and during that time I have been more or less in politics, simply because I think it is the duty of every citizen who cares for his country to have something of a hand in seeing how it is governed.

As Human as Human Nature About the only time the politician hears from the eminently respectable citizen is when they want something out of him, or when they back reform movements against him.

MAN ALMOST DIES FROM CARBUNCLES

"Excess acid got into my blood and carbuncles broke out all over my body, causing me to suffer intensely. This condition was chronic and I had carbuncles for over a year and seven months.

E. L. MATHEWS, 409 Masten St., Dallas. Indigestion, acid stomach, kidney trouble, bad blood and rheumatism are caused by excess acid.

would not be necessary if the reformers had done their duty as citizens in the first place, and taken part in their party organization.

Politics is just human nature. It is as sordid as human nature is sordid; it is as lovely as human nature is lovely. It has had in it, and it has good in it.

Many who ought to know better prate about the high level of politics abroad. Every foreign politician becomes a statesman as he passes the Statute of Liberty and heads up the Hudson.

We have a singular incapacity for that form of statesmanship. After our war with Spain we set Cuba free and paid \$20,000,000 for the Philippines.

When Main Street Comes In The plain fact is that in America politics is on a higher level than the politics of any other country in the world.

Getting right down to facts: Which is the man who is giving the best service to his country—the man who is afraid he may lose respectability by mixing in political affairs or the ward worker to whom politics is a vocation?

The future of our country depends not upon the large number of young men trained in military camps so that they may be fit to fight on short notice, but on the young men trained in their political party camps to take an active interest in politics from the standpoint of public interest.

Every true American is certain that this is a great country. Then why not understand that it has to be run by human beings for human beings—and get into the running?

"A person who cannot succeed without being in a herd ought to organize his own herd. My advice to a young man is to learn to pitch in and fight his battles single-handed.

Over 50,000,000 postage stamps are manufactured in Washington daily.

THE NEW MONSTER GUN. Washington, Jan. 23.—Developed by the Ordnance Dept. of the U. S. Navy, is said to be one of the most powerful of its type in the world.

Delegates to Student Conference at S. M. U. Named by Methodists

Five delegates to the state convention of the Methodist Student Federation of the Methodist Student Federation were nominated and confirmed by the local Federation last Sunday.

The delegation will leave Canyon on Thursday, February 7, and will arrive in Dallas in time for the sessions beginning February 8, and lasting thru Sunday, February 10.

A proviso in the will of the late Lord Morley reads as follows: "As it is possible that some person may desire to write a memoir of my life, which I regard as wholly superfluous, I enjoin upon my executors to refuse to aid or encourage such design and not to allow any such person to have access to any of my papers, whether personal or acquired in the course of official duties."

During the reign of Edward I, the Welsh rose against the English declaring that they would never acknowledge allegiance to any prince "but of their own nation and language and of unblamable life."

The Thanksgiving statement in President Coolidge's own hand writing that was broadcast throughout the country by a newspaper syndicate was obtained by a persevering young girl reporter.

Child-birth

WHEN the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has shown the way.

Chemical Society Offering Prizes For Best Essays

Prizes, amounting to a total of \$6,000 are being offered by the American Chemical Society for the best six essays relating to Chemistry. In this contest, all students in any secondary or high school are eligible.

- 1. The Relation of Chemistry to Health and Disease. 2. The Relation of Chemistry to the Enrichment of Life. 3. The Relation of Chemistry to Agriculture and Forestry. 4. The Relation of Chemistry to National Defense. 5. The Relation of Chemistry to the Home. 6. The Relation of Chemistry to the Development of the Industries and Resources of your State.

From among the winners of the state prizes, the best essays in each of the six classes will be selected. The students writing these essays will be awarded a four year scholarship at Yale University or Vassar College.

"Real political issues cannot be manufactured by the leaders of political parties, and real ones cannot be evaded by political parties. The real political issues of the day declare themselves, and come out of the depths of that deep which we call public opinion."

Sixty-five per cent of the 219,000,000 acres of forests in private hands are entirely without fire prevention regulations.

HISTORY SOCIETY WILL BANQUET

TO BE HELD AT TEACHERS COLLEGE FEBRUARY 15.

Many Old Timers to be Here, Drive is Being Inaugurated to Increase Membership.

Plans are being made for the annual banquet of the Panhandle-Plains Historical Society to be held in the Home Economics dining room of the Teachers College on February 15th at 6:00 o'clock.

Speakers for the banquet program have been chosen, and the most interesting program the Society has ever had is expected to be given.

Many old timers from all sections of the Panhandle are expected to be in attendance at the banquet and the business session of the Society which will take place at 4:30 on the day of the banquet.

The Society is about to inaugurate a drive to increase its membership. A part of the money raised from membership fees will be used in marking the Adobe Walls battle ground.

It All Depends on How You Look at it

Funeral Services Held Friday Afternoon for Mrs. D. N. Redburn

The funeral services of Mrs. D. N. Redburn were held Friday afternoon at 2:00 o'clock at the Methodist church conducted by Rev. Marvin Brotherton of Floydada. Mrs. Redburn died last Thursday morning at the home of her daughter north of the city.

Mrs. Redburn had been in very bad health for a year. She had been under the care of specialists who were unable to determine the cause of her illness. They had deemed an operation unnecessary.

Since her serious illness Mrs. Redburn had been staying at the home of her daughter, Mrs. O. A. May. She had gone to the home of her other daughter, Mrs. H. A. Fulton, and spent the night. She seemed well Thursday morning and was sitting in a chair when she died very suddenly.

Mrs. Redburn was born at Odessa, Michigan June 7, 1868. Her maiden name was Libbie Simmons. She and Mr. Redburn were married thirty-five years ago in Missouri. They came to Canyon twenty-one years ago from Erick, Okla. Mr. Redburn was in

business in Canyon until he moved to the farm northeast of the city four years ago.

Two daughters were born to Mr. and Mrs. Redburn, Mrs. O. I. May and Mrs. H. A. Fulton.

Mrs. Redburn had been a member of the Christian Church since early girlhood and was a faithful member. She had taken an active work in the church work at Zita while Rev. Marvin Brotherton was pastor of the Canyon Circuit.

A large company of friends gathered at the church Friday afternoon to pay their respects to the memory of this good woman and to shed a tear with the sorrowing members of the family.

MR. WILSON TO SPEAK AT PRESBYTERIAN CHURCH

Mr. Frank Wilson, Field Secretary for Dixie Endeavor, accompanied by Mr. Jack Huppertz, Field Secretary of Texas, will speak Saturday night at 7:30 at the Presbyterian Church.

The public is cordially invited and adults especially invited. If you are interested in Christian Endeavor, you can't afford to miss this lecture.

After Mr. Wilson's lecture, there will be a brief social hour at the Christian Church. Everyone come and bring a friend.

Woman's Book Club to Investigate Report of State Superintendent

According to a bulletin published by Miss Annie Webb Blanton while she was state superintendent of public instruction Randall county has 100 persons who can neither read or write and are classed illiterate.

Miss Blanton was asked to verify the figures before the bulletin was published. No action was evidently taken.

At the meeting of the Woman's Book Club, it was voted that this Club take action to ascertain the facts of illiteracy in the county. Several persons who are widely acquainted over the county have investigated the matter and believe that the figures are absurd.

chairman of a committee to make the investigation.

MRS. MARRS HERE IN SUMMER

DON'T MISS SEEING THIS WONDERFUL PICTURE OF MRS. WALLACE REID -IN- "HUMAN WRECKAGE"

Piercing deep under the surface of superficiality and faction into the throbbing heart of humanity itself, this master Photodrama will plunge you to the very brink of the Inferno of Human experiences and sweep you up to the dizzy heights of sublime emotions possible for mortals to reach.

It tears away a veil of shrinking reserve and hurls on the screen the secrets of the seared soul of a wonderful woman—a woman who bares to the world her innermost feelings so that others may never be faced with the terrible cause of narcotics.

It throbs with human interest! It vibrates with emotional chords! It trembles with rushing power! It whips with cutting truth!

SCHOOL TAXES DUE

The taxes for 1923 for the Canyon Independent School District are now due and must be paid by the last day of January, 1924, or they will be placed on the delinquent tax roll, and be assessed penalty and interest. J. B. HENSLEY, Collector.

CARD OF THANKS

We wish to thank our many friends for the kindness shown during the illness and death of our loved one. We also thank you for the beautiful flowers. May God's richest blessings be with you. D. N. Redburn, Mr. and Mrs. H. A. Fulton, Mr. and Mrs. O. A. May, and Lila May.

Extension Dept. Enrollment Has Increased Rapidly

Enrollment in the Department of Extension for correspondence courses has increased 20 per cent since the first of January, Mrs. T. V. Reeves, head of the department, has announced. She also states that more correspondence students are taking courses in History and Education than in any other subjects.

Considering the fact that this is the first year that correspondence courses have been offered by this institution, the enrollment of students has been large and the popularity of the courses is growing daily.

PHONE THE NEWS.
The Randall County News is very anxious to get all of the news of Randall county. Much valuable news is liable to escape if you do not assist us a little. We will appreciate it very much if you will phone us all of the news during 1924. This would mean a better newspaper and a more valuable newspaper for Canyon and Randall county.

Interesting Document is Given Society

A bill of sale written by "Billy the Kid" at Tascosa, Texas, in 1873, and witnessed by two men named James E. McMasters and Geo. J. Howard was recently photographed and the reproduction given to the Panhandle Plains Historical Society. This copy of a very interesting document came to the Society through the courtesy of Thomas F. Turner of Amarillo.

Mr. Ford's boom has too many spare parts.—New York Evening Post.

ALL WORN OUT

Does morning find you with a lame stiff and aching back? Are you tired all the time—find work a burden? Have you suspected your kidneys? Canyon people endorse Doan's Pills. Ask your neighbor! You can rely on their statements.

Mrs. Clouch, Canyon, says: "There was a dull ache through the small of my back and my back was so sore and lame I could hardly bend over or do my work. When I stooped, a sharp, stinging pain caught me, making it hard for me to straighten. I was worn out and could scarcely get around at times. I became dizzy and had headaches and my kidneys didn't act right. I used Doan's Pills and three boxes cured me entirely."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Clouch had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.
