

RANDALL COUNTY NEWS

VOLUME XXVII

CANYON, RANDALL COUNTY, TEXAS, THURSDAY, FEBRUARY 23, 1924.

NUMBER 48

TEST SHOWS VERY LOW GERMINATION IN COTTON SEED BEING SHIPPED TO THE FARMERS IN RANDALL COUNTY

County Agent J. W. Jennings sent to Plainview last week three samples of cotton seed which are being sold to the farmers of Randall county for seed cotton this spring. He received a report Saturday which was not satisfactory.

Sample No. 1 tested 42%.
Sample No. 2 tested 46%.
Sample No. 3 tested 26%.

This means that in case of the third sample, not one-fourth of the seed will germinate. This germination is made under the very best conditions, and if the seed are placed in the ground under ordinary conditions, Mr. Jennings believes that the seed will not come up at all.

Farmers who buy cheap seed, which is not guaranteed as to germination, are making a mistake, according to Mr. Jennings. He states that if the seed in test No. 3 cost the farmer \$1.00 per bushel, and he should happen to get a stand from such seed, the seed will actually cost him \$3.70 per bushel, as compared to seed which is guaranteed to have a high germination.

The seed tester bought by the business houses of Canyon is for free use of the farmers of the county, and they are urged to take advantage of it.

All of the seed cotton of Randall county should be thoroughly tested before planting time. Testing of the seed will save the farmers a lot of time and money.

More Faculty Members Named for Summer Work in the College

The following additional members of the College faculty have been announced for the summer normal work during the coming summer.

Fremont Mead, English. Mr. Mead is now principal of the Perryton high school, and was a student in the College several years ago. He wrote the first College Alma Mater.

Mrs. E. M. Randolph, English. Mrs. Randolph is now a teacher in the Lockney high school.

Miss Annie McDonald, primary work. Miss McDonald is a teacher in the Amarillo schools.

W. L. Vaughan, Science. Mr. Vaughan is principal of the high school at Memphis.

G. F. Hinds, Science. Mr. Hinds is teacher in the Amarillo high school.

H. A. Glass, principal of the Junior high school, Wichita Falls, will teach in the sub-collegiate division.

BOUGHT HOLLAND LAND.

G. E. Nance has bought a block of land east of the city from Chas. Holland, containing more than 700 acres at \$20 per acre. Mr. Nance moved to Randall county a few months ago, having bought the Barnett ranch of more than ten sections. He has great confidence in the Panhandle.

TO SPEAK ON COTTON.

Frank R. Phillips, head of the Agriculture Department of the College, is to leave next week for a fifteen days trip with the Rock Island agricultural demonstration train. Mr. Phillips will speak on cotton.

MAKING SCHOOL SURVEY.

B. E. Fronabarger Jr., acting head of the Education Department of the College, and Miss Mary Adeline Lamb, are in Lubbock county this week on the school survey.

MARRIAGE LICENSES.

A marriage license was issued by County Clerk Mrs. Ethel Woods February 22 to Hiram E. Morton and Miss Ethel Louise Laseter.

STORK SPECIALS.

A daughter was born to Mr. and Mrs. D. N. Forsythe Feb. 18. A son was born to Mr. and Mrs. Leander Graves Feb. 20.

The Federation of Women's Clubs is giving a Tea this afternoon at the home of Mrs. C. O. Keiser for the Club women of the city.

Canyon will be what we, as citizens make—no better, no worse. It's to our advantage to work for its advancement.

Buffaloes Off to Roswell for Last Games of Basketball Season

The Buffalo basketball team leaves today for Roswell where the boys will meet the New Mexico Military Institute in the closing games of the season Friday and Saturday nights.

The Buffaloes easily defeated the Cadets in two games played on the home floor last month, and expect to win handily at Roswell.

The team reached home Thursday from the road trip well fagged out by the hard trip and the hard games.

The Buffaloes are the undisputed champions of the T. I. A. A., having lost but one game of the eight played in this conference. Only two other games were lost during the season, these being with the Oklahoma Aggies, who are members of the Southern Conference. The team was well fagged out before reaching Stillwater, and played the Aggies off their feet until the last five minutes of play in the first game.

The insurance key rate of Canyon was reduced 15% by the State Insurance Commission at a meeting on Wednesday of last week.

The reduction comes owing to the various improvements the city is making in the fire fighting apparatus, and the regulated night watchman, and the paved streets in the business section.

COLD AND SNOW SUNDAY.

The weather of last Sunday was true to form of the Sundays the Panhandle has had since last fall—cold, and with a little snow. It has been noted that practically every Saturday has been very pretty and every Sunday has been bad from the weather standpoint all during the winter.

The clouds cleared away late in the afternoon, but the temperature was low Sunday night and Monday.

COLONIAL TEA HELD.

A large number of citizens attended the Colonial Tea Friday afternoon at the American Legion Hall, the Tea being given for the benefit of the Soldiers Memorial. The Woman's Auxiliary will make this an annual affair, with a tea on Washington's birthday.

An interesting program was held at four o'clock under the direction of Miss Thomas of the public schools. The minut was danced by four couples of children from the school.

Canyon Prepares For Contest in Stock Judging

Professor O. D. Dinwiddie, superintendent of the stock judging contest which is to be held here April 4th and 5th, spent Saturday in conference with Professor Phillips, going over the plans for the contest.

It was decided that prizes would be given the high team in stock judging and poultry. Additional individual prizes may be given.

In speaking of the contest, Professor Dinwiddie expressed the belief that there would be more teams present at this contest than any that has ever been held in West Texas.

Mrs. Myra Smith Withdraws From Treasurer's Race

To the voters of Randall County: After due consideration I have decided not to make the race for County Treasurer, since the Commissioner's Court think it best to reduce the emoluments of the office and having no assurance that there would be no further reduction made.

If I felt that the Court was prompted purely from a sense of economy, I would have no criticism to offer, especially as I know some members of the Court to be good loyal friends. But I do not think economy has been the watchword since the records show that the members of the Commissioner's Court drew pay amounting to \$2,839.00 during the year 1923, as against \$3,208.00 for the year 1921 and 1922 combined. I have no wish to be unfair to any member of this court, so will frankly state that the last Legislature raised the pay from \$4.00 to \$5.00 per day. This law became effective, I believe, in June 1923, and after reducing the County Treasurer's pay at the January meeting of the Commissioner's Court, then at the February meeting, the County Judge was given a raise of \$450.00 per year. This does not appear to be very consistent to me, therefore, I am withdrawing.

In conclusion I wish to thank my friends for the splendid support given me heretofore, and the words of encouragement at this time. I assure you that your kindness will always be a bright place in my memory. I thank you.

MRS. MYRA SMITH.

Sweaters Awarded to Nineteen Buffaloes at Chapel on Saturday

Sweaters and letters for nineteen members of the Buffalo football team were awarded Saturday morning at the chapel period. President J. A. Hill, Coach S. D. Burton and Registrar D. A. Shirley made the presentation.

The following men received sweaters: Lancaster, R. Golden, Ira Jenkins, D. Bivens, R. Bivens, Lem Sone, Law Sone; Jennings, A. Thompson, R. Thompson, McDonald, M. Goodwin, E. Goodwin, Burson, Vaughn, Santy, Mitchell, Terry and Jones.

Owing to the change in the name of the College last summer, the design on the sweaters was changed a little. The sweater is crimson, with a large T in white and at the base of the T there are small letters W and T.

TO STATE BOARD MEETING.

Mrs. B. T. Johnson left Wednesday for the State W. M. U. Executive Board meeting, which is to be held at the training school at Fort Worth.

Mrs. Johnson is president of the Amarillo District. Mrs. Williamson of Plainview, and president of the Plainview District will accompany her.

PRESIDENT HILL SPEAKS.

President J. A. Hill was in Hereford Thursday and Pampa Friday nights where he addressed meetings of the Commercial Clubs of those cities.

CITY BUILDING NEW WATER STORAGE TANK AND WILL MAKE LOW RATE ON WATER DURING THE SUMMER MONTHS

The city will start work of construction within a short while on a new 150,000 gallon re-enforced concrete reservoir at the city pumping station. The new reservoir will be 12 feet deep, 48 feet in diameter. It will be used for additional storage, and is especially needed during the summer months when there is so much irrigation being done in the city.

Mayor C. N. Harrison states that the Commission will inaugurate a new summer irrigation water rate, running for about four months during the summer months. The minimum rate of \$1.50 per 2,000 gallons will remain the

Fire Insurance Key Rate for Canyon Is Lowered Wednesday

The insurance key rate of Canyon was reduced 15% by the State Insurance Commission at a meeting on Wednesday of last week.

The reduction comes owing to the various improvements the city is making in the fire fighting apparatus, and the regulated night watchman, and the paved streets in the business section.

Judge Callaghan of Panhandle Will Not Be Senate Candidate

Judge A. A. Callaghan of Panhandle announced Sunday that he will not be a candidate for the state senate. He has been spoken of for some time as a possible candidate.

The field is left open for J. W. Reid of Canyon, who announced his candidacy in the fall.

ACCEPTS NEW BRIDGE.

The commissioners court accepted the new steel bridge at the Six Mile Crossing east of town at the meeting last week. The bridge was made necessary owing to the big washout during the hard rains last year.

PAVING ON EAST EVELYN MAY BLOW UP STATES MAYOR HARRISON OWING TO ATTITUDE OF FEW PROPERTY OWNERS

Owing to complications arising yesterday, the City Commission may order stopped all operations for the paving that is projected to run from the Southeast corner of the square to the highway.

Property owners on Sixth Avenue have asked for paving, and if the present project is abandoned the paving on Sixth Avenue will very likely be done.

Mayor Harrison stated last night that trouble has arisen over property owners refusing to sign the paving liens, which are absolutely necessary before paving may be done on any street, in any city, or any state. Without the paving lien, no contractor will put in paving.

Practically all property owners petitioned in favor of the paving, but owners refusing to sign the paving order that the paving may start.

Mayor Harrison states that the Commission has been petitioned by property owners on Sixth Avenue for paving in about the same amount as was contemplated on Fifth Avenue. If the present difficulty is not settled today, the project may be transferred to Sixth Avenue.

Canyon has paved more than three miles of streets during the past eighteen months, and not a single property owner has refused to sign the paving liens. Mayor Harrison states that it is not the will of the City Commission to leave any gaps in the paving and that no paving will be done on the streets which do not have the unanimous consent of the property owners.

Corner Stone for New Methodist Church Is Laid Sunday Afternoon

A short but impressive service was held Sunday afternoon at the new Methodist church when the corner stone was placed.

Owing to the fact that snow was falling and the cold north wind made it disagreeable to be out, the services were for only a few moments' duration, but in spite of the bad weather a very large crowd was in attendance at this service.

The dedicatory services were conducted by Dr. T. D. Ellis, secretary of the Board of Extension, this Board having made a donation of \$25,000.00 to the building of the new church owing to the large number of Methodist students in the College who will be served by the local church.

As the corner stone was hauled up into place by Superintendent C. Shuman, "Faith of Our Fathers" was sung by the audience.

In the corner stone the following articles were placed by Rev. M. M. Beavers, local pastor: A list of the more than 500 contributors to the new church building; a copy of church discipline; copies of the Epworth Era, the National and the Texas Christian Advocates, the Randall County News, The Bible; a message on Woodrow Wilson; several coins contributed by persons in the audience; and a Bible. This Bible was presented by Prof. B. A. Stafford, and had been owned by his father.

According to the inscription in the Bible, Mr. Stafford's father had joined the Methodist church one hundred years ago—1824.

The services were concluded by singing the Doxology and a prayer by Rev. Lyn Claybrook of the Baptist church.

Card of Thanks

I take this method of thanking my many friends who have helped me in the Randall County News Contest which has just closed.

I certainly appreciate help and hope some day in some way I may be able to return the favor. Again thanking you one and all very kindly, I am your friend.

MRS. J. L. LOVORN.

Card of Thanks

I wish to thank very greatly the many friends who helped me win the Ford Sedan in the News contest. I know that you will enjoy the News during the time of your subscriptions, and I shall enjoy the benefits of the car. Many thanks to all.

ORVILLE ROBESON.

Card of Thanks

I wish to thank the many friends who assisted me during the News subscription campaign and wish to assure each that your support was highly appreciated. I am well satisfied with the prize I won, although I missed getting one of the cars.

MRS. MAE HIGDON.

Card of Thanks

We wish to thank the out-of-town people as well as those at home in helping us win out in the News subscription campaign, and to let each and everyone know we appreciate your help for if it had not been for you we would not be able to claim the Ford Roadster.

MR. AND MRS. FRANK HICKS.

THE NEWS' BIG SUBSCRIPTION CAMPAIGN CAME TO AN END YESTERDAY AT 3:30 P. M. AND WINNERS NAMED

HUNDREDS OF NEW NAMES ADDED TO OUR LARGE LIST AND THE NEWS NOW COVERS THIS TRADE TERRITORY LIKE BLANKET—ORVILLE ROBESON GETS FORD SEDAN, AND MRS. FRANK P. HICKS THE FORD ROADSTER.

After holding the unwavering interest of Canyon and the surrounding country during the past few weeks, the News' big prize automobile contest came to an official close last Wednesday afternoon at 3:30 o'clock and the winners of the big prizes were named.

It was a strenuous time all around, and an anxious one, to be sure, but now that the race is over and the results announced, everyone is satisfied that the premiums were fairly and honestly awarded.

Naturally, the greatest struggle was for the Ford Sedan worth \$815.50 the Grand Capital Prize. The News offered the very best prizes obtainable in the city. We were willing to pay liberally for good work—and we got it—for a more successful contest for circulation a 100% circulation in this territory could not have been promoted.

The aggregate vote total was big, representing hundreds of new and renewal subscriptions secured by the various candidates during the last few weeks, and, as a result, the News now covers its field like a blanket—the kind that does the advertiser's most good.

To the new readers and patrons, and our old subscribers as well, whose interest made this contest the success that it was, the News is, indeed grateful and indebted. On behalf of the newspaper and the candidates, the public is entitled to the most emphatic thanks for the general good will shown them during the campaign.

But as to the winners, the figures below speak for themselves. To those whose energy carried them through this campaign to success, the News extends the heartiest congratulations. We are proud of the people who took part in this competition, and we hope they, who by right of conquest have just claimed their awards, will be proud of the prizes won. While the prizes themselves were remarkable for their value, there are other considerations to be taken into account. During this contest those who have participated have learned much that will be of great benefit to them. They have made new and pleasant acquaintances; they have formed more correct ideas along business lines, and most of them have

developed a sense of observation that will pay future dividends. The competition has been a splendid training and a valuable experience. It has taught, among other things, that courage and perseverance are the two most essential elements necessary to overcome the obstacles that beset this never-ending conflict called Life.

Of course it is understood in a contest of this kind all the candidates cannot win the first prize. That was an understood fact at the beginning of the race. And, right or wrong, civilization seems to have accepted and applied nature's ruling, "the survival of the fittest." To accomplish a given purpose a great amount of energy is necessary and fortune seems to lavish her richest gifts on those who are equipped to carry out the mandates of ambition.

In conclusion we wish to say that our relation with all of the candidates has been very pleasant, indeed. They, in turn, have dealt with an organization that, to the best of its ability has made this contest one to be remembered for its wholesome character and its fair dealings. It was a good race and it leaves in bold reflection that cardinal virtue—AMBITION.

Under lock and seal the ballot box remained in the First State Bank the entire last period. At 3:30 o'clock last Wednesday afternoon, February 27, it was brought to the offices of the News where the appointed judges made the final count and awarded the prizes under the rules announced at the beginning of the campaign, and according to the statement below:

Finding of the Judges

We, the undersigned, acting in the capacity of Judges in the Randall County News Automobile Prize Contest, just closed, after canvassing the findings in the sealed ballot box and adding same to the last published standing of each of the active members, do hereby declare the following to be the winners:

Mexican Quail Given to Randall County by State Game Warden

Twenty-four Mexican quail are being shipped to this county by the game warden and will be placed on some ranch near the city where there is plenty of water and feed.

The game warden is shipping the quail to W. J. Flesher, who will see that they are given a good place in which to multiply.

TEXAS EXES BANQUET.

There will be a joint meeting of the Ex-Students of the University of Texas of Canyon and Amarillo at a banquet at the Amarillo Hotel at Amarillo Saturday night. Those attending from here will be Misses Jennie C. Ritchie, Edna Graham, Moss Richardson, Jackson, Lucile Gill, President J. A. Hill, S. B. Orton, W. J. Flesher, C. R. Flesher, Fronabarger, McCarter, M. B. Johnson, L. G. Allen, W. E. Lockhart, J. W. Reid and Slack.

Make 1924 a banner year for Canyon. Cooperation in civic improvements will do a lot to make this the banner year.

THE AMERICAN PRESS ASSOCIATION

The News has received many words of praise during the past week for announcing in favor of the candidacy of Lynch Davidson of Houston for governor of Texas. The people of Texas have been crying out for a moment to elect a business man as governor of the state. They now have a chance. He is the only real outstanding business man in the race. There are a bunch of third-rate politicians in the campaign who seek to muddy the water with various little petty fads and follies, which they know are pure rot, and which the people know is pure rot, should they stop for a moment to consider. The Ku Klux is out after the hide of Davidson and has passed the word that he is the man who must be eliminated in the first primary. Davidson has had enough sense to make a great success of his own business; he took the junk-pile, called the state railroad, put it on its feet, and has converted it into a paying proposition. Elect Lynch Davidson the governor of Texas and elect a legislature with as much brains as he has and they will pull Texas out of the hole in which we now find ourselves.

There is little ground for discussion as to the effect of the smatter of oil sustained by McAdoo while serving as an attorney for the well known Dehoney interests. It is not a question of McAdoo getting a big fee as an attorney, for the people will be glad to know that he is a capable attorney, sufficiently so that he can demand a big fee. It is not a question of his connection with oil interests, as the oil industry is one of the most essential and most honorable in this country when in the hands of the right people. The only question involved is the connection of McAdoo with the company which sought and did defraud the people of the entire United States. That is going to be a harder thing for McAdoo to answer than he evidently thinks. This government has been defrauded. McAdoo was attorney for the defrauders. He may have known absolutely nothing of the transaction, but nevertheless, his connection with his gang of thieves will be a thing he cannot explain. McAdoo should step down and not allow his name to enter into the presidential discussion.

From all indications the cheap cotton seed which the farmers of the Plains have been buying will prove to be the most expensive seed this section has ever had unloaded upon them. At Plainview under official test it has been found that not a single bollie seed germinated. It has further been found that a majority of the cotton on the Plains this year was bollie, and therefore seed from practically all cotton raised on the Plains this year is absolutely worthless. The farmers who plant this kind of seed will be out their time and the money they have put in the seed. Good cotton seed is the smaller part of the cost of producing cotton, and every farmer who is going to plant cotton this year should be certain that his cotton seed is the very best. The cotton seed bootleggers are extremely busy on the Plains this year, and offering all kinds of inducements to farmers to get their orders. Buy seed only from those men who are reliable, and who are known to handle good seed.

The Marlon Star has sued Frank A. Vanderbilt for damages in his insulting charge that President Harding sold the Star for more than it was worth, and intimated that possibly the sale had something to do with the present oil scandal. Harding went through 25 years of public service without a single slur cast upon his public life. It seems incredible that a man of Mr. Vanderbilt's standing should stoop to such a thing after his death.

The News goes into the homes of Randall county where the buying of the community is done. Invest your advertising money in the advertising columns of the News and watch your business grow.

BACKWARD, TURN BACKWARD

(Read by J. Evetts Haley at banquet of Panhandle-Plains Historical Society.)

Backward, turn backward, oh time on your wheels,
Airplanes, wagons, and automobiles.
Dress me once more in a sombrero that flaps;
Spurs, a flannel shirt, slicker and chaps.
Give me a six-shooter or two in my hand,
And show me a steer to rope and brand.
Out where the sagebrush is dusty and gray,
Make me a cowboy again for a day.

Give me a bronc that knows how to dance,
Buckskin of color, and wicked of glance.
New to the feeling of bridle and bits;
Give me a quirt that will sting where it hits;
Strap on poncho behind in roll,
And pass me the lariat so dear to my soul.
Then over the trail let me lope far away,
Make me a cowboy again for a day.

Thunder of hoofs over range as we ride,
Hissing of iron, and smoking of hide.
Bellow of cattle and snort of cayuse,
Longhorns from Texas as wild as the deuce;
Midnight stampedes and milling of herds,
Yells from the cowmen, too angry for words;
Right in the midst of it all I would stay,
Make me a cowboy again for a day.

Under the star-studded canopy vast,
Camp-fire coffee, and comfort at last.
Tales of the ranchmen, and rustlers retold,
Over the pipes as the embers grow cold.
These are the tunes that old memories play,
Make me a cowboy again for a day.

The News is going into more than five hundred new homes since our campaign started last month. Some people may be receiving the News as a gift of friends. If you are on the subscription list and have not yourself subscribed, you may rest assured that the paper has been paid for by a friend who wants you to know about Canyon and Randall county. All on our subscription list may rest assured that the paper you received is paid for, and that the paper will stop when the time is out, unless you renew for it. The News adopted the policy of stopping the subscriptions as they expire several years ago, and have never been sorry for the policy. We believe that the readers appreciate this policy. When the campaign started in January, there were not half a dozen subscriptions on the list which were due on that date. The campaign manager, Mr. Whitman, stated that he did not believe there was another newspaper in the entire United States with such a clean list of actual bonifide subscribers. Advertisers in the News should appreciate this fact, for the News goes into homes where it is wanted, paid for, and read by the entire family.

Ziegfield of the Follies fame has cut out all advertising and newspapers. Ziegfield has spent enough for advertising to know what gets results—Plainview News. Every so often some bird finds out that advertising does not pay. If there was any merit to the argument the big firms who invest millions in advertising would have discovered the truth long ago and have saved this vast amount of money. The fellow who discovers that advertising does not pay is the little merchant who has not really tried advertising, or who has nothing to advertise. You must have something worthy of advertising before advertising will pay.

The Claude News has an idea that all the government needs to do to increase the wealth of the country is to turn the printing presses loose and print more money. We don't pretend to know anything about financing a government, but this theory has been explored a thousand times since Adam plucked the first fig leaf. We have so many glowing examples of paper money in the world today that our government will hardly follow the example of our Claude financier.

During the rush of the subscription campaign, errors may have been made in giving credit to subscriptions handed in by contestants. The campaign has been handled carefully in order to avoid such errors, but some may have entered in, and wrong credits given. The News will appreciate having subscribers watch the date tags on their paper and see that proper credits have been made, and if not, please notify us at once. It will be impossible a year from now to detect these errors, but they are easily remedied now.

Honorable Lee Satterwhite, our representative, is a candidate for reelection to the Texas House of Representatives, and will be a contending candidate for the speakership of the House. He has pledged practically sufficient to grant his election to this position. Mr. Satterwhite is an outstanding member of the House and is doing a notable work for this section of Texas.

Just about the time it looks certain that spring has come it has went.

Many newspapers continue to jump upon candidates of state office because they seek publicity in connection with the campaign. State salaries are small. Is it not better to give a little space to candidates in order to get the best ones rather than devote pages of valuable space in cussing the unfit ones who slip into office on account of the lack of publicity?

County Agent J. W. Jennings and the business men of Canyon have bought a seed germinator for the purpose of testing the cotton seed. Every farmer should have his cotton seed tested as there is so much poor seed on the Plains this year. It will mean a big saving to the farmers to have the seed tested before planting.

Canyon has more advantages for its size than any town in the Southwest. Canyon has the goods to show, and the people of the city are proud of the town.

If you buy all of the junk made for the Ford, which guarantees to cut operating expenses, some one is going to have to pay you to run the old bus.

The eyes of Texas are upon the Panhandle-Plains country. Tell your friends of the advantages of this good section.

At present everything worth while is either propaganda against the dignity of the senate, or connected with the oil scandal.

Don't buy all the fixtures made for your Ford—you couldn't haul all of them.

A THOUGHT FOR THE WEEK
A grindstone that had not grit in it, how long would it take to sharpen the axe? And affairs that had not grit in them, how long would they take to make a man?—H. W. Beecher.

It is easy to get rid of the misery of heartburn or indigestion. Herbine goes right to the spot. It drives out the badly digested food and makes you feel fine. Price, 60c. Sold by City Pharmacy. 4514

Oklahoma Gin Man to Build New Gin in Happy Says Wm. F. Miller

W. A. Sanders of Granite, Okla., has bought a building site in Happy, just north of the First State Bank, and has contracted for gin machinery to put in a first class cotton gin in that city, according to Wm. F. Miller, who spent Sunday in the city with his family.

Mr. Miller states that practically ten thousand acres of cotton will be planted in the Happy territory this year. The seed for the crop is being carefully bought by the farmers in order to insure the best possible yield.

AMARILLO BOYS HURT.
Five Amarillo high school boys were badly injured Sunday night while returning to their homes from a visit in Canyon. They were driving an Essex which collided with a tractor standing in the road. The boys stated that they were blinded by the lights of an approaching car.

The boys were brought back to Canyon and given medical treatment until Monday. They were Joe Jacobson Jr., J. R. Verplank, William Lemons, Chas. Hudgings, Robt. Puckett.

The car turned over three times after hitting the tractor, and was almost completely demolished.

ALL SAINTS' EPISCOPAL CHURCH
Quinquagesima Sunday, March 2. Service and Sermon, 7:30 p. m. All are cordially invited.

"Quinquagesima" means that in round numbers there are fifty days to Easter. Lent begins next Wednesday. Easter Day is April 20.

INTERMEDIATE LEAGUE PROGRAM, MARCH 2, 1924

What is Sin? How does it affect destiny?

Leader—John Thomas Wiley, Jr. Song Service. Scripture Reading—1 John III, 3; John XVI, 8, 9; Rom. II, 4-12. Introductory talk—Leader.

What is Sin—J. D. Gamble. How does Sin affect Destiny—James Gray.

Piano Solo—Corine McReynolds. Sin leads to Death—Opal Scott. Song. Benediction.

Intestinal worms destroy the health of children and weaken their vitality. The worms should be expelled before serious damage is done. White's Cream Vermifuge is a thoroughly successful remedy. Price, 35c. Sold by City Pharmacy. 4514

ALL WORN OUT

Does morning find you with a lame stiff and aching back? Are you tired all the time—find work a burden? Have you suspected your kidneys? Canyon people endorse Doan's Pills. Ask your neighbor! You can rely on their statements.

Mrs. Clouch, Canyon, says: "There was a dull ache through the small of my back and my back was so sore and lame I could hardly bend-over-or-do my work. When I stooped, a sharp, stinging pain caught me, making it hard for me to straighten. I was worn out and could scarcely get around at times. I became dizzy and had headaches and my kidneys didn't act right. I used Doan's Pills and three boxes cured me entirely."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Clouch had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Good Cotton Seed Scarce This Year Says State Expert

Many planting seeds on the market at the present time are of inferior quality, according to J. M. Del Curto, chief of the division of pathology and seeds, Department of Agriculture, Austin, Texas. Unfavorable weather conditions is responsible for the low grade of the seeds, according to Mr. Del Curto. In speaking of the situation, Mr. Del Curto has the following to say:

"The unfavorable weather conditions which prevailed over a great portion of the Southern States during harvesting time have not only delayed threshing, but have caused much of the planting seed of various agricultural field crops to be of inferior quality as pertains to germination. Tests made on various kinds of field seeds by the State seed laboratory at Austin have verified these facts. Many of the sorghums and especially the nonsaccharine sorghums, such as kafir, feterita and milo are unusually low. However, most of the earlier tests were about normal, indicating that a portion of the first seed harvest escaped the unfavorable conditions. This, of course, affects the general averages of germination tests made on new crop seeds and should be held in mind when considering these averages, which are as follows: Milo, 63 per cent; kafir, 57 per cent; feterita, 70 per cent.

"The average germination of the two important saccharine sorghums are as follows: Red top, 82 per cent; black amber, 77 per cent.

Big Demand for Cotton Seed

"The greatest interest that is being taken in cotton should bring a heavy demand for seed as the season progresses. The germination of cotton seed is an item that all should consider this year on the account of the presence of a large number of sensitive lots of seed. By a "sensitive" lot is meant cotton seed that shows a satisfactory percentage of live seed, but a poor actual percentage of germination. Cotton seed of strong vitality will show a high percentage of germination, and a high percentage of live seed. Sensitive lots under very favorable conditions will produce a stand nearly equivalent to live seed percentage, but under ordinary or slightly adverse conditions behave in the field as indicated by the standard germination percentage. The average germination test on new crop cotton to date is 76 per cent, while the live seed average is 90 per cent.

"The Texas seed law requires that the germination percentage be placed on the tested seed label of all cotton seed that is offered for sale, but leaves it optional with the dealer to place the live seed percentage as a supplement.

Use Care in Selecting Seeds

"In as much as the production of a good crop depends a great deal upon the acquisition of a satisfactory stand during the proper planting time, the planter should use care in selecting his field seeds this year and have all suspicious lots tested before planting. The State seed laboratory of the Department of Agriculture is already being rushed with a great variety of field seeds and the work should be of great benefit to both seedsmen and farmers alike."

THE PERFECT ANSWER

Andrew Carnegie on one occasion was asked which he considered the most important factor in industry—labor, capital or brains?

Carnegie quickly replied, with a merry twinkle in his eye: "Which is the most important leg of a three-legged stool?"—Judge.

A USEFUL ANIMAL

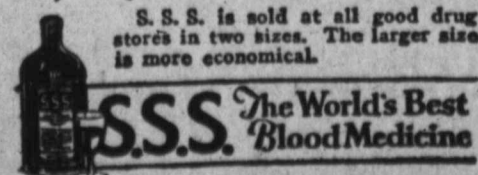

"Chickens, sah," said the old negro sage, "is de usefulest animals dere is. You can eat 'em befo' dey is born and after dey is daid."—Exchange.

Pimples

BLOOD impurities are pumped by the heart into the face. That is what causes that grainy appearance, that muddiness, sallowness, pimples, blackheads, acne, red spots, and that impossible "something" which no face cream, massage, or face powder can cover up or beautify! The foundation for a beautiful skin simply is not there, and no face treatment can give it to you. But increase your red-blood-cells, and quickly the ruby tint of purity begins to glow in the cheeks, the complexion becomes venus-like and immaculate! Try it. It will do it every time. S.S.S. builds the red-blood-cells you need for a beautiful complexion. Begin using S.S.S. at once, and give yourself what you have been working for, for years.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

Denton Publisher Seeks Lieutenant-Governorselp

WILL C. EDWARDS

Denton Editor Who is a Candidate for the Democratic Nomination for Lieutenant-Governor.

Edwards, past president of the Texas Press Association and Texas Daily Press League, came to Denton from Alabama a small boy 41 years ago and has lived there since. He has been connected with the Denton Record-Chronicle since 1896 and has been its publisher since 1899.

In 1922 Edwards' home people drafted him to run for the Legislature—the only public office he has ever held—and this is his first political contest entered voluntarily. He is president of the Denton Chamber of Commerce, served eight years as Democratic county chairman, two years as State Democratic Executive Committeeman, three years as Red Cross county chairman, four years as president of Denton County Texas-Exes.

Friends say 95 per cent of the Democratic vote of his home county will be cast for Edwards and that he has practically the solid support of Texas newspapermen.

Deeds Filed This Week Transferring Randall County Land

The following deeds as furnished the News by the Randall County Abstract Company, have been recorded in the County Clerk's office.

C. R. Burrow to C. D. Johnson, lot 1, block 13, Ballard addition to Canyon, consideration \$630.

J. O. Phillips to J. T. Burnett, lots 4 and 5, block 14, Normal addition to Canyon. Consideration \$800.

L. W. Blau to J. T. Burnett, lot 10, block 12, Conner addition to Canyon, consideration \$125.

J. D. Hunter to W. H. Fuqua, survey 1, block 9, consideration, \$16,000.

M. L. Steele to J. B. Meems, west half lot 5, all 6, block 55, Canyon City, consideration \$2600.

Marconi, the inventor, says that he has perfected a method by which he can send radio messages as a beam, projected in any desired direction. Moreover, the new form of transmission requires only a small part of the electrical energy needed to broadcast throughout a circle the radius of which is the same length as the beam.

Every man's face is the ledger of his good and of his evil accounts.

TH' OLE GROUCH

HYAH! HYAH! HYAH!
TH' BIG LUMMOX THAT'S ALLUS THROWIN' BANANA PEELS ON TH' SIDEWALK JEST SLIPPED ON ONE OF HIS OWN PEELS AN' IS BEIN' TAKEN HOME IN AN AUTO!
HYAH! HYAH!

Interesting Relics are Given Historical Society During Week

Among the gifts received by the Panhandle-Plains Historical Society last week are those of Mr. and Mrs. Frank Mitchell: a rare and beautiful horse-hair quilt, a woven ornament—probably made by Mexicans—a pair of antelope horns, a very fine Indian hammer of stone, and several well shaped arrow-heads.

Evetts Haley loaned the organization a Mexican metate and some very fine Indian hatchets.

Judge L. Gough of Amarillo presented the society a photograph of Vas Stickey of Canadian, James R. Wright of Oklahoma, Gus Lee of Roswell, and one of himself. Gus Lee, negro, was cook for the T-Anchor outfit in 1882; the other three men were cowboys together on the same ranch at that time. Mr. Gough also presented a book, "Thirty-one Years on the Plains and in the Mountains," by Captain Wm. F. Drannan; also a document which shows how schools were financed on the plains in the days when settlers were few.

A huge bone, found on the C. C. Slaughter ranch, was brought to the museum by G. A. F. Parker of Hereford.

Scientific investigation upsets many an old and widely held belief. Now comes a professor at the University of California who says that he has proved to his own satisfaction that a red flag does not provoke a bull any more than a white one, or a green, a pink or a purple one. Probably there are men who think the narrow margin by which they made the fence is competent testimony to the contrary.

According to plans of the Treasury Department the public debt of the United States, which is now somewhat more than twenty-two billion dollars, will be fully paid in 1932.

A bad wound, burn or cut should be cleansed of dirt or impurities and dressed with Liquid Borozone. It heals the flesh with marvelous speed. Price, 30c, 60c and \$1.20. Sold by City Pharmacy. 4015

PHONE THE NEWS.
The Randall County News is very anxious to get all of the news of Randall county. Much valuable news is liable to escape if you do not assist us a little. We will appreciate it very much if you will phone us all of the news during 1924. This would mean a better newspaper and a more valuable newspaper for Canyon and Randall county.

TAKING WAYS
Father—"Look here, my dear, I don't mind your sitting up late with that young man of yours, but I do object to his taking my morning paper when he goes."—Lace Yarns.

BIDS WANTED
The City of Canyon, Texas, acting by and through its City Commission, will on March 3rd, 1924, receive bids for the hauling and delivering of the following:

1st. 275,000 paving brick, to be delivered on East Evelyn St. (5th Ave.) and stacked behind the curb line, as directed by said City.

2nd. 250 Bbls of Asphalt, to be delivered on East Evelyn St. (5th Ave.) as directed by said City.

3rd. 500 Bbls. of Cement, to be stored in ware room some where in the said City, as directed by said City.

4th. 485 Yds. of sand and gravel, to be delivered on East Evelyn St. (5th Ave.) as directed by said City.

All of the above mentioned material to be taken from Railroad Cars, or off the ground as the case may be, at the railroad switch near stock pens, at Canyon-Texas, and if any demurrage on said cars the same is to be paid by said bidder.

5th. Also the hauling and delivering of 250 yds. of local sand the same to be hauled from the sand pit, and delivered on said Evelyn St. (5th Ave.) as desired by the said City.

Also at the same time said City will receive Bids on the Construction of a Reservoir at the City Water Plant, 48 Ft. in diameter, 9 ft. in the ground, and 3 ft. above ground, bids will be received for the digging of said hole, being 603 yds. of excavation with walls perpendicular, or the said Reservoir Complete, without covering, the walls and floor of same to be 8 in. reinforced concrete.

Any bid on any of the above must be submitted, before 7 p. m., March 3rd, 1924, in a sealed envelope addressed to Harvey Cash, City Clerk, Canyon, Texas, and accompanied by Cashier's Check for \$100.00 made payable to C. N. Harrison, Mayor, without recourse. An award will be made immediately upon the tabulation of bids if it is possible to do so, and in any event as soon thereafter as a satisfactory decision can be made by the City Commission.

By order of the Mayor. This 26th day of February, A. D. 1924.
HARVEY CASH, City Clerk, City of Canyon, Texas.

SUGGESTIONS MADE BY STATE SCHOOL INSPECTOR AS TO WORK IN THE CANYON INDEPENDENT SCHOOL DISTRICT

The following report has been filed with the Board of Trustees, Canyon Independent School District, by the Inspector from the State Education Department, who recently visited the school:

1. That all the science laboratories be equipped with additional individual sets of apparatus to provide one set for each two pupils, general equipment of two compound microscopes, physiological models, U. S. Weather Bureau apparatus, and a selection of slides for physiology.

2. That biology be offered in the ninth grade in which the physiology can be emphasized, and that physiology be emphasized in eighth year general science.

3. That the library be provided with additions in all phases of history, English, American Literature, and suitable magazines, including the National Geographical Magazine for physiology.

4. That besides the material in subjects to be resubmitted, material be submitted in manual training (shop work) one unit; home economics, one unit; English history, one unit; commercial law, one-half unit; and commercial geography, one-half unit.

5. That three additional teachers be employed for high school, and one in the grades, in order to divide these classes having more than thirty pupils.

Although the school was far below normal at the time of the visit, the supervisor is convinced that good work is being done.

The school officials and community deserve commendation for the new building, and equipment, the plan to equip the library with \$1500 or \$2000 worth of best high school books and grade books.

LEGION HALL CLASS BECOMES REAL FACTOR IN CITY LIFE

The Legion Hall Bible Class is destined to become a real factor in the uplift of Canyon. This can be the only result from a straight, forward study of the word of God. This is what this class is doing. No frills, no embellishments. Just the plain old Book itself. Not what others say about but what it actually says itself is what the class is seeking to know. No attempt is being made to further the ends of anybody's denomination. There is only one objective, as far as the study side of the class is concerned, namely to find out what God has said in His Word: The sooner you get in the more you will enjoy the class for several reasons. First, you are coming before it is over because the class is here to stay and it is growing and will continue to grow. We did not start out to fail but to succeed and we are succeeding. Therefore, if you will come now you will be glad you did later. Second, we are studying a real book in the New Testament and the first part of it throws an abundance of light on the whole book and the whole Bible. A real class with a real motive after real men with a real vision. Come, fellows, you will like it.

LYN CLAYBROOK, Teacher.

In a recent army test in France it was found that only two out of every ten recruits twenty years old were educated in the ordinary sense of the word. Of the remaining eight, five upon an average knew how to read and write a little.

Happy Happenings

Mrs. O. M. Fowler and Mrs. E. E. Cowan were shopping in Amarillo Tuesday.

Mrs. W. H. Doyle and Mrs. H. M. Baggerly went to Amarillo Tuesday to accompany Mr. Doyle home. Mr. Doyle has been to Fort Worth for the past week on business.

A play will be given Friday night by the first, second and third grades, entitled "The Tom Thumb Wedding." Everyone is invited to attend.

Mr. and Mrs. O. R. Bridges and Miss Pearl Hampton were Tulla callers Saturday.

A candy sale was given last Saturday by the English Club to help buy books for the library. Twenty-two volumes were purchased when a fish pond was given about three weeks ago, and will get about that many more.

On account of the measles the school attendance is falling down this week. A large majority of the school students are out at present.

Quite a number of young people from here attended the play given at Plain Center Saturday night.

Orin Carter of Stamford is visiting with his parents, Rev. and Mrs. H. W. Carter this week.

Mr. and Mrs. F. C. Scott and Miss Pearl Hampton were Tulla callers Tuesday evening.

Miss Lula Bowman spent the week end with her parents in Canyon.

C. Shuman of Canyon was here on business Tuesday.

Mrs. Wm. F. Miller and children of Canyon were here Saturday.

Mrs. J. W. McCreery of Wayside visited with Mrs. O. O. Baker of this place Tuesday.

Mr. and Mrs. J. I. Penrod of Tulla visited in the J. E. Toles home Saturday.

Mr. and Mrs. Don Culton of Tulla and Mrs. Innes of Iowa visited in the George Cook home here Sunday.

Mrs. Mary Cook is visiting in Tulla this week with her daughter, Mrs. Don Culton.

D. J. Maynard was a Tulla caller Monday.

Mrs. H. A. Grounds is able to attend her school work after several days of illness.

W. A. Cobb was in Tulla on business Saturday.

Mrs. Holton of Charlie, Texas, is visiting her daughter, Mrs. B. G. Hogge here this week.

Mr. R. B. Gist and Miss Myrtle Laroe of Tulla were married in Tulla Saturday. Both Mr. and Mrs. Gist are well known and liked by every one in this community. They have made their home north of this place.

E. A. Logan of Lockney is here on business this week.

J. M. Miller returned to his home here after visiting several weeks in East Texas with his parents.

The Merite Agricole is to be conferred on French families that have tilled the same soil for three centuries. There are 750 such families in France. One family has held the same land since the reign of Charlemagne. Another family at Colombes near Gap has worked its farm for a thousand years.

The cafeteria idea originated in Los Angeles.

Umbarger Notes

Mrs. E. J. Friemel and three children are on the sick list this week. Clem Friemel is threshing now crop for F. V. Friemel.

The weather has been cold the past week. The farmers are planting spring wheat and oats. Very much oats and spring wheat will be planted this year if the weather is favorable.

A little snow fell Sunday evening, but not enough to make the ground wet.

Mrs. Hugo Skarke, who has been very sick is now getting along nicely. The annual stockholders meeting of the Farmers Elevator Co., will be held on the 3rd of March.

George Vorwald, who had his arms and hands severely burned, is now getting along nicely.

ENTERTAINED LEAGUE.

The Epworth League was entertained at the home of Mr. and Mrs. Jim Vetek with a delightful party on the evening of Saturday, February 23.

The program for the evening began with several selections by the orchestra while the guests were being served with punch by Mrs. Delaney as "Martha Washington." The entertainment progressed rapidly; there were games, dramatization, and selections by the quartette until shortly before ten o'clock when the guests were served with cranberry ice and cake. Yells for the hostess and for other members of the entertainment committee were given, and the party was adjourned at 10:00 sharp, after all had joined in singing some old-fashioned songs to end the party in a significant way.

The guests departed with thanks for the happy evening which had been spent in the home of the charming and gracious hostess.

Status of Athletics Good Says Coach of Tulia Hi Team

F. N. Sawyer, Tulla High School coach and principal and an ex-student of the West Texas State Teachers College, in the following article describing the status of athletics today gives his position in regard to sports:

The status of athletics as it exists today may not be justifiable in every sense; nor may the methods used are ways be such that they meet the approval of those who think in a straight line, yet, I hold to the belief that the good existing, even in the present status of athletics is far in excess of the bad. Bad conditions may exist in the church, in the school, in the government, and in all our institutions, yet we do not condemn these institutions as useless. The only way to improve a thing is to work with it and not against it, eliciting the good qualities and repelling the bad. It is only by such means that we arrive at a healthful state of affairs in any institution.

A mind that enjoys a clean and fair combat is a far greater influence to social good than it is to evil. Youth is throbbing with energy. This energy may be given an outlet thru wholesome games and rivalries, or it may lead to the vices of dissipation. To direct this energy is one of the functions of athletics. Another function is the teaching of self-restraint, personal sacrifices, and idealism. You go on the field and meet your opponent on equal footing. You are morally restrained by the same rules that not a spirit of goading or haughtiness is but rather one of fervent admiration for the nobleness of the vanquished. If you lose, there is not a spirit of humiliation, and cowardice, but rather the one that comes only to those who have done their best even though they have fallen in the attack.

Paris are living in insanitary homes. More than 4,000 buildings must be torn down to decrease the capital's tuberculosis rate.

There is an annual waste of 140,000,000 feet of lumber in the United States because of the public's insistence on buying lumber cut in even lengths.

Every third summer any teacher of Tulsa, Oklahoma, who spends the vacation time in travel is paid full salary at the same rate a month as in the regular school term.

The income last year of the Trinity Church corporation in New York City was \$1,249,870. \$1,138,720 was from real estate rentals.

To foil bandits, Vancouver, B. C., bank clerks are being taught the quick draw and marksmanship.

The United States imported 1,020,573 pairs of footwear other than rubber during the first seven months of 1923.

Honor Students Attend Meeting of the Texas Scholarship Societies

Dean L. G. Allen, representing the faculty of the Teachers College, and Miss Zelma Red, representing the Lloyd Green Allen Scholarship Society returned Saturday afternoon from Baylor University, Waco, where they attended the annual convention of the Scholarship Societies of Texas on Friday, February 22. Twenty-six delegates, representing fourteen colleges and universities of the state, were in attendance at the meeting.

The meeting was opened with the address of welcome by Dr. S. P. Brooks, president of Baylor University. Dr. J. C. Granberry, of Southwestern University, president of the Scholarship Societies of Texas, responded to the address of welcome. The principal address of the day was by Dr. H. Y. Benedict, Dean of the University of Texas and Secretary-Treasurer of the Scholarship Societies, on "Scholarship." The remainder of the day was taken up with business sessions. A luncheon was given the delegates by Baylor University at the noon hour at which more than eighty people were in attendance.

The meeting of the Societies next year will be held at the Sam Houston State Teachers College, Huntsville.

New officers elected at the meeting were: Prof. Sparkman, Baylor University, president; Dr. A. H. Nolle, Southwest Texas State Teachers College, vice-president; and Dr. H. Y. Benedict, secretary-treasurer. "Ye shall know the truth and the truth shall make you free" was selected as a motto for the organization. Sapphire blue and emerald green were the colors selected for the organization.

The following delegates represented the fourteen schools at the convention: Misses Edith Roper and Cloma Hansen, Baylor College; Prof. E. H. Sparkman and Arthur Strain, Baylor University; Dr. L. M. Ellison and Miss Annette Warner, College of Industrial Arts; East Texas State Teachers College; Miss Katherine Hornbeck and Miss Lola Jackson, North Texas State Teachers College; Prof. Earl Huffor, Sam Houston State Teachers College; Dr. A. H. Nolle and Miss Alma Leuders, Southwest Texas State Teachers College; Prof. Paul Davidson, Miss Margaret Ellis, and Dr. J. C. Granberry (President of the State Organization), Southwestern University; Dr. H. Y. Benedict (Secretary-Treasurer of the State Organization), University of Texas; Prof. John Lord and Thurman Morgan, Texas Christian University; Misses Mary Hollock and Beulah Pinson, Texas Presbyterian College; Misses Anne W. Raynor and Barbara Worcester, Trinity University; Texas Woman's College; Prof. L. G. Allen and Miss Zelma Red, West Texas State Teachers College.

Customers and Friends

We think of them as meaning the same here at this friendly bank where you get helpful, attentive service.

When inviting you to transact your business through our bank, there should be some reasons why. There are plenty of them.

Our financial standing is beyond question; our officers are obliging and courteous; our stockholders are just the kind of people you like to know and make friends with.

Our loans are conservative, our resources adequate.

Our banking facilities are modern. The only exception is that we are old-fashionedly courteous and neighborly.

We are proud of our bank and its satisfied customers. Are you one of them? If not, we want you with us.

M. L. SHARP
 VERNON, TEXAS, R. 1

MUNSON TO MAKE EXTENSIVE TOUR

ITINERARY INCLUDES TEN WEST TEXAS TOWNS.

English Department Head Will Be Presented in Lectures on Literature by Federated Women's Clubs.

Dr. David H. Munson, Head of the Department of English, will on next Thursday become an itinerant lecturer. Dr. Munson's lectures have been secured by Federated Women's Clubs of the seventh district, and clubs of ten West Texas towns will hear discussions on various phases of English and American literature.

While most of the afternoon addresses will be made to the study clubs in regular session, many of the evening lectures will be of more general interest and will be open to the public. The speaker will carry slides showing representative College scenes, views of the up-town district, and scenes of the Palo Duro canyons. Dr. Munson will present the slides in connection with his night addresses in order to acquaint the communities visited with the College and its facilities.

The itinerary has been arranged by the Bureau of Public Service, which in securing Dr. Munson's services is carrying further the attempt of the West Texas State Teachers College to be of practical value to the whole Plains country. Although the clubs will pay the speaker's traveling expenses, no charge will be made for his services.

Ex-students of each town visited will greet the College representative but only one special meeting has been arranged. A. L. Tarlton, superintendent of Seagraves High School, has requested Dr. Munson to speak to the ex-students of Gaines, Dawson, and Terry counties at Seagraves on March 7th.

The first lecture will be given under the auspices of the Pierian Club of Amarillo in the municipal auditorium on Thursday evening, February 28th. Shakespearean tragedies will be discussed in the English professor's Amarillo lecture. From Amarillo Dr. Munson will go to Plainview, where on Friday he will speak to clubs on the same subject. He will also deliver an evening address. On Saturday morning he will discuss American Literature at Abertathy, and in the afternoon at Lubbock. Sunday will be passed at Slaton. It is probable that the speaker will accept an invitation received to preach at the Slaton Methodist Church Sunday evening.

Dr. Munson will speak on The Short Story Monday afternoon at Post City, and will also deliver an evening address. Tuesday evening Children's Literature will be the subject of a lecture at Loraine. Stopping at Snyder on Wednesday, Dr. Munson will give a talk on The Modern Drama in the afternoon and an illustrated lecture at night. The Brownfield club will hear an address on Children's Literature Thursday afternoon. On the evening of the same day a discussion of The Short-Story will be made at Seagraves. The last lecture will be made on the same subject at Seminole on Friday morning. Friday evening Dr. Munson will be the principal speaker at a meeting of ex-students at Seagraves.

SHE WANTED THE SCALES
 She was new as a driver. She just missed the fire hydrant, ran over the curb and finally brought her electric to a stop in front of a sidewalk filling station.
 "Bring out the scales, please" she said.
 "Scales?" queried the tank tender, puzzled.
 "Yes," she replied. "See how many pounds of air I need in my tires."—Service.

AIN'T IT THE TRUTH?
 There's many a man who can't understand why he should buy a washing machine so long as his wife has got her health.—Exchange.

In the country districts of the United States there are now seventy cars to every thousand persons, whereas in cities and in towns there are one hundred and twenty-seven to every thousand of population. Theoretically, therefore, the farm territory is the better field for future sales, and the manufacturers whose product best suits the farmer have the best chance of increasing their business.

Try every day to consider a masterpiece—a picture, a musical composition a poem or some bit of good prose literature. Constant association with masterpieces makes for intellectual elevation and leaves little room for cheapness either of thought or of speech.

LET'S FIND OUT ABOUT OUR COTTON SEED

Plainview Herald: It is evident that most of the cotton seed grown on the Plains during 1923 has a very low germination test. The unusually wet fall accounts for this. Frost and freezes damaged some of the seed, and lots of good seed were damaged after being stored damp.

It is highly important that good cotton seed which will not only germinate, but which will develop strong, healthy plants, be secured in this section. Now is the time for us to get busy. Poor seed for planting may cost the Plainview country many dollars in low yields. There are many elements in the growing of cotton over which the planter has no control, and he certainly should do his best in all things where he does have control. He can select good seed.

It occurs to The Herald that it would be well worth while for the business men of Plainview to get together and finance the importation of good seed, if it be true that there is a scarcity of good seed on the Plains. This can be done in a way which will save the farmers who have to buy seed money, for the seed could be handled in this manner with a mighty low overhead cost of selling, and each farmer would get the benefit of the low price that could be obtained on buying a few cars at a time.

Selecting good seed is a matter that will affect the prosperity of the farmers of the Plainview country, and when the farmer prospers everyone prospers likewise.

CLUB ORGANIZED

The R. M. R. A. R. was organized February 24. This club is for the boys of this city who are desirable citizens. Watch us grow!

The following officers were elected with the intention of making the R. M. R. A. R. club known throughout the state:
 Bob McGuire, President.
 Frank Harrison, Vice president.
 Durward Brown, Secy-Treas.
 Ted Williams, Sergeant-at-Arms.
 James Oden, Reporter.

Washington was a farmer at heart as well as in practice, and in all his years as a military commander and statesman his thoughts were never far from the soil. Every year he liked to make some agricultural experiment. In the year of the convention at Philadelphia when he was dealing with the great problem of the Constitution he was also trying to work out the best way to raise oats. He divided his fields of one of his farms into squares and sowed different varieties of seed in different quantities. His conclusion was that two bushels of seed gave better results than the four bushels that it was then the custom to sow.

|---|--|
| Hatches a larger percentage of eggs than any other system. | Equipped with simple and safe "foolproof" lamp. |
| Regulation of temperature purely automatic—needs no watching. | Material and workmanship always the best. |
| Equipped with indestructible metal thermostat. | Equipped with every desirable service that can be added to its efficiency. |
| Uniform distribution of heat absolutely assured. | Requires no previous experience to operate it. |
| Fumes from lamp do not enter incubator. | Guaranteed to do everything we claim. |
| Not affected by changes in outside temperature. | |

GROW THREE CHICKS WHERE ONE GREW BEFORE
Give Your Chicks the Shelter And Care of a Safety Brooder
 To the successful Poultry Raiser, a high-class Brooder is just as essential as a good Incubator. A little chick will chill to death almost in the twinkling of an eye. In fact, there is no one who has had experience with poultry raising, who has not seen little chicks get so chilled that they crawl up in a fence corner and pile up on each other until practically all of those underneath are smothered to death, and many of the ones on top are chilled to death.

SAFETY HATCH INCUBATOR

THOMPSON HARDWARE CO.

"DON'TS" FOR YOUNG MOTHERS FROM A NOTED SURGEON

In the realm of childhood many roads seem to lead to the clinic of Dr. Chevelier Jackson, who is famous for his skill in extracting foreign objects from the throats and lungs of the rising generation.

Almost as surely as they learn their A. B. C.'s, and begin to take prominent roles in swift and brief childish arguments, they find their way to the white fresh smelling room in Jefferson Hospital.

They come from far and wide and one and all return home free from the button, pin, thimble, needle or what not that threatened to put an untimely end to the young careers.

"Safety pins have killed more children than firearms," Dr. Jackson warns the mothers of young Americans. He issued a list of "Don'ts" for careless parents:

"Don't give children under two years peanuts or any kind of nut candies."

"Don't set a bad example to a baby by holding a straight pin in your mouth."

"Don't bend over a baby without making sure no pins, needles, buttons or jewelry in your waist can get into the baby's mouth."

"Don't use a coin as a tooth cutter. Don't allow a child to run or jump with anything, even food, in its mouth."

"Don't put babies on the floor to amuse themselves, until the floor is cleared of all small objects or allow the babies to play with corn, coffee, berries, seeds, marbles, jacks or small toys."

"Don't fail to inspect toys for small loose parts such as eyes, ears, buttons and fragments of metal and wood."

To back up his "Don'ts" Dr. Jackson now has a collection of 1,256 in his foreign body exhibition. Every specimen has been removed from the throat or lung of a child.

There is a new one, mounted on a white card. It is a tack removed from the lung of Cletus Moore, eight-month-old son of a St. Louis laborer. The tack had been in the infant's lung four months and Dr. Jackson removed it. There is a rusty shawl pin removed from the esophagus of a little girl; a metal goat taken from the throat of Anna McHale, of Ashland, Pa., and everything else imaginable in the collection.

"Children come into the world with their minds blank," Dr. Jackson said. "They must learn that things are hard and soft, rough or smooth, hot or cold, sweet or sour, edible or inedible, and the chief way of acquiring this knowledge is to put into their mouths everything in reach."

"There are only three things they can do at a certain age, swallow the thing whole, spit them out or aspirate them into the lungs."

The surgeon performs his operations with a bronchoscope, an instrument of his own invention. It is an electrically lighted tube which illuminates the lung cavity and enables the operator to locate the foreign objects. Forceps which are within the tube are used to extract the object. It has never been necessary to use an anesthetic.

THEODORE ROOSEVELT, HIS NINE REASONS FOR GOING TO CHURCH

1. In this actual world, a churchless community, a community where men have abandoned and scoffed at or ignored their religious needs, is a community on the rapid down grade.

2. Church work and church attendance mean the cultivation of the habit of feeling some responsibility for others.

3. There are enough holidays for most of us. Sundays differ from other holidays in the fact that there are fifty-two of them every year. Therefore on Sundays go to church.

4. Yes, I know all the excuses. I know that one can worship the Creator in a grove of trees, or by a running brook, or in a man's own house just as well as in a church. But I also know as a matter of cold fact the average man does not thus worship.

5. He may not hear a good sermon at church. He will hear a sermon by a good man who, with his good wife, is engaged all the week in making hard lives a little easier.

6. He will listen to and take part in reading some beautiful passages from the Bible. And if he is not familiar with the Bible, he has suffered a loss.

7. He will take part in singing some good hymns.

8. He will meet and nod or speak to good, quiet neighbors. He will come away feeling a little more charitable toward all the world, even toward those excessively foolish young men who regard church-going as a soft performance.

9. I advocate a man's joining in church work for the sake of showing his faith by his works.

"We know America's difficulties; we respect America's suspicions. The American people are drawn from many diverse sources. They have crossed the Atlantic with many bitter memories in their hearts. . . . They have no intention of allowing the mighty state which they have done their full share in building up to become an adjunct to any European Power or to get mixed up in the diplomat's confusions and nationalist ambitions of European policy."—J. Ramsey Macdonald, head of the British Labor Party in Parliament.

Less than two per cent of the 30,000 boys and girls from the Dr. Barnardo's Homes in England, who have been sent to Canada and Australia have been failures. These children come from the most densely crowded and destitute area of the United Kingdom, and every one was a castaway until rescued.

The story that has long been current in San Jose that Mrs. Mary Baker Eddy visited "The Spirit House" of the late Sarah L. Winchester in that city, is denied on the ground that Mrs. Eddy never traveled farther west than Chicago. Yet the San Jose story persists, is generally believed, and frequently printed.

Three thousand Donkshobors from Saskatchewan are preparing to emigrate to Russia, where they will settle in Crimea. The Soviet government provides the land and improvements in return for one-sixth of their crops.

Ex-Students May Secure Position Through Bureau

The Teachers Employment Bureau of the College offers its services to all Ex-Students of the institution; Exes who are without positions, or who wish, for legitimate reasons, to change positions; should avail themselves of this service. This bureau has had many more requests for teachers than it has been able to supply; the demand for teachers who hold degrees is very great; nine calls for high school teachers had to go unfilled during the holidays because we did not have available teachers. The fee for registration with the bureau is One Dollar; inquiries and remittances should be addressed to Mrs. T. V. Reeves.

Ex-students who are in administrative positions and wish to engage teachers will find the Teachers Employment Bureau of W. T. S. T. C. ready to serve them promptly and well.

Correspondence courses and a lyceum service are also open to former students; in fact, the West Texas State Teachers College is constantly broadening its scope of service to the people of Texas, and Ex-Students will do well to keep in close touch with the plans of the Alma Mater.

Men give me credit for some genius. All the genius I have lies in this: when I have a subject in hand, I study it profoundly. Day and night it is before me. I explore it in all its bearings. My mind becomes pervaded with it. Then the effort which I have made is what people are pleased to call the fruit of genius. It is the fruit of labor and thought.—Alexander Hamilton.

A Berlin Newspaper man was recently fined for quoting eggs at 150 billion marks apiece after the government had fixed the price at 130 billion marks. He explained that he had had to pay the price that he had named, but the judge told him he was "attempting to raise the price artificially."

To protect bank clerks from the danger of being suffocated through accidental imprisonment in vaults fitted with time locks, the newest banks now equip their vaults with electric lights, oxygen tanks, a telephone and instructions saying what a person accidentally locked in should do.

Aroused by the increase in advertising bill-boards which spoiled vistas of mountain and turquoise sea, the women of Honolulu notified the merchants of the Hawaiian Islands that they would purchase no goods so advertised on the island of Oahu. Today there is not a single advertising billboard on the island.

"The coming of 4,000,000 Jews to this country has created for America problems of the most perplexing kind—social, political, national, financial, humanitarian, religious. . . . Until we find some way to break down their prejudices the evangelization of America will proceed with faltering steps."—Report of the Home Missions Council, at Atlantic City, January 14th.

FOUR WHO RODE TOGETHER

Four men rode in an automobile on the way to the White House on March 4, 1921. They were Woodrow Wilson, Warren G. Harding, Philander C. Knox and Joseph G. Cannon. Of the four, only "Uncle Joe," the oldest of them all, still lives.

Life, as "Uncle Joe," probably reflects in his peaceful home in Danville, is a strange procedure.—Fort Worth Star-Telegram.

Critics of formalism in education have long contended that the usual school methods fail to discover a child's capacity and particularly his artistic capacity. An art exhibit in New York that is composed of the drawings and paintings of children eight and fifteen years of age, who are described as "ordinary" except for their special training, shows clearly what children can do under intelligent instruction.

The British government in paying off its debt to the United States buys Liberty Bonds wherever it can get them at less than par, for the Treasury accepts them from England at their face value. The practice saves the British government a considerable sum and incidentally is a great help in keeping the price of Liberty bonds nearly up to par.

When a Senator boards an elevator in the Capitol it must not be stopped for other passengers until the Senator gets off.

Child-birth

WHEN the Little One arrives, you can have that moment more free from suffering than you have perhaps

imagined. An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend," Mrs. C. J. Hartman, Scranton, Pa. says:

"With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used 'Mother's Friend' and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes. Use 'Mother's Friend' as our mothers and grandmothers did. Don't wait until you are in pain, write to Bradfield Regulator Co., B-75, Atlanta, Ga., for a free illustrated book containing information every expectant mother should have. 'Mother's Friend' is sold by all drug stores—everywhere."

GRENFELL WILL SPEAK FRIDAY

FAMOUS MEDICAL MISSIONARY SECURED FOR LECTURE.

"Midst Ice and Snow" Will Be Subject of Dr. Grenfell's Romantic Story.

Dr. Wilfred T. Grenfell, world famous medical missionary, has been secured by the Lyceum Committee on the College to lecture to the students next Friday evening, February 29, at 8:30 o'clock, on "Midst Ice and Snow in Labrador." Students will be admitted to hear the lecture on the presentation of their Blanket Tax Tickets.

In the presentation of the lecture by Dr. Grenfell, is unfolded one of the epic stories of work and service in wild and inaccessible lands.

The press of the English-speaking world for years has eagerly published accounts of Dr. Grenfell's really romantic story. Unsought honors have been heaped upon him. King Edward conferred upon him the Order of Companion of St. Michael and St. George. Oxford gave him the only honorary M. D. which that university has ever bestowed. He has been made a Fellow of the College of Surgeons of England; a Fellow of the American College of Surgeons; he is one of the few doctors of medicine holding a Master Mariner's Certificate. Harvard has given him his honorary M. A.; Williams its honorary LL. D., and Toronto an honorary M. D. A few years ago the Royal Geographical Society gave him the Murchison Bequest in recognition of his scientific labors.

THE AGE OF IGNORANCE

It is not the stone age, or the dark ages, or any epoch of benighted barbarism among heathen savages in the obscure corners of the earth, but the twentieth century, here and now. For all our boasted education and enlightenment we are in some respects more lamentably ignorant than the ages that preceded us, and that we are accustomed to look down upon with contempt.

The nineteenth century accumulated such vast stores of possible knowledge, piled up such masses of useful as well as useless information on all conceivable subjects, delved so deep into the limbo of uninvestigated fact, that no man can properly utilize or formulate the general results of its researches, to say nothing of grasping the details, in even a few of the infinite fields of discovery.

For the person of ordinary intelligence and training the fact may be either a comfort or a discomfort, according to the way he looks at it. It may be a relief to know that others are well-informed, even though you are not. It may be an annoyance to feel that others have education and you lack it. But nowadays no one is educated; no one ever will be again. Two hundred years ago a man could with reasonable application familiarize himself with what was really significant in the wisdom of the world. Now the mere attempt would be ludicrous. There are no longer any scholars. There are specialists; that is, men who recognize what is possible at the start and seek to master only one little acre in the vast realms of knowledge. But unfortunately even the specialist is out-distanced. With a hundred books a year published on his particular subject, he cannot pretend to keep up with what is indispensable that he should know. Unfortunately too specialties are so correlated that you cannot really know one without knowing a dozen others.

What is the remedy? There is this obvious lesson: that education must come to deal more and more with doing rather than with knowing. The nineteenth century, rated mere knowledge too high. The twentieth must effect an adjustment by which we shall train our habits and instincts of living to the highest possible efficiency and trouble ourselves much less with the barren why.

A New Jersey experimenter in radio says that he has got astonishingly good results by substituting a small sea shell for his bulky loudspeaking horn. The peculiar shape of the shell seems to give it the property of amplifying sound to a degree quite out of proportion to its size.

Liquid Borzone is an efficient healing remedy for human or animal flesh. It mends a severe wound, sore, cut or scratch in the shortest possible time. Price, 30c, 60c and \$1.20. Sold by City Pharmacy. 4574

Shaw Speaks on Federal Reserve Bank System

Mr. Travis Shaw, Secretary of the College, talked to the economics class on the Federal Reserve Bank and other practical phases of banking last Thursday.

Mr. Shaw, who spent some years as a banker, discussed in detail the organization of the bank from the side of the banker, and with the relation of the bank to the depositors. He then took up the discussion of the operation of the banking system before the Federal Reserve Act. The discussion of the weaknesses of the banking system before the federal reserve act included the condition which operated to place the money center of the United States in Wall Street. Out of this weakness grew the panic of 1917 which almost everyone is familiar.

"Necessity created the demand for a sound banking system, and the American genius responded with the Federal Reserve Bank, as a result," says Mr. Shaw. He discussed the elasticity of the money issued by the Federal Reserve Banks, and the power of the board to co-ordinate banking resources in periods of stress as being highly essential to a sound banking system. He concluded by saying that the Federal Reserve Banks did not cause the distress in the break of 1920, but let us down easy.

MODERN ADVERTISING

As the day of the big-hatted, loud-spoken salesman has passed, so has the period of the ballyhoo advertiser gone forever. P. T. Barnum of circus fame was a genius at obtaining publicity for his show, and the spectacular methods he pursued were typical of his day. He probably would have been equally adept as a publicity getter were he now in harness, but his methods would doubtless be different. He probably would succeed in having the same stories published, but they would be dressed in different garments; they would be designed to give straightforward information about the show, rather than wild romantic yarns of the purely imaginative variety.

Advertising today, to be effective, must be sincere and truthful. No matter how it be surrounded by artistic decorations and eye-catchers, the heart of the message must tell an honest story. Alert forward looking people know that it is necessary to follow current advertisements in order to keep thoroughly abreast of the times, for to read modern advertising is an education in itself. It is incumbent upon business men to read at least some advertising in order to keep in touch with what competitors are doing, to discover new outlets for their products, to make improvements in their own business or industrial equipment. Consequently an advertiser cannot risk exaggerated statements even though he wants to, for the modern reader of advertising is intelligent; and nine out of ten times can discern the quality of highly colored declarations and puffed-up claims.

Advertising is an adjunct of selling, and modern selling methods, generally speaking, have reached a much higher plane of honesty than was the case a decade or more ago. Advertising must keep even ahead of actual selling in this respect, for printed words are more lasting than those spoken, and once broadcasted to the world they stand as perpetual evidence of the assertions or claims they make. The advertising fraternity itself has done much to improve the standards of truth and honest in the printed messages contained in our magazines and newspapers.—The Texas Star.

Abernathy Review: J. P. Hix of Canyon, is looking after some business matters in our community this week. We are very glad to have him among us. We had quite a lengthy interview with Mr. Hix; he gives out a very glowing account of conditions in this immediate country right at this time. Reports wheat looking fine, and expecting an extensive acreage to be planted to cotton in his territory this season. They will build a new gin in his home town this year.

A cup is full enough just short of the brim.

ATTORNEY AT LAW
CANYON, TEXAS

BILL BOOSTER SAYS

ALL CREDIT TO THE GOOD CITIZEN WHO CUTS THE WEEDS AROUND HIS ALLEY, TRIMS THE GRASS AND SHOVELS THE SNOW, HAULS AWAY ASHES AND TIN CANS, PAINTS HIS HOUSE AND KEEPS HIS PLACE NEAT, FOR HE'S A REAL BOOSTER AND A CREDIT TO THE TOWN!

HOW IT STICKS

William Allen White: We have always liked William G. McAdoo, and don't question his honesty now. He is a man with an understanding heart, and his friends say, "he is entirely within his rights as a lawyer."

But the dry cleaning which his friends gave him was a poor job. It looks all right but when the dust rises the spot will come out again. And from August to November is liable to be a mighty dusty time in these latitudes this year.

Fairly or unfairly, oil is mighty treacherous. The only way to get it out is to try a new suit.

CUSSING HIM OUT

A Paducah merchant who prides himself that he never uses profanity—last week wrote this letter to a dead-beat who ignored all attempts at collection:

"Sir: My stenographer, being a lady cannot take down what I think of you. I, being a gentleman, cannot write it. You, being neither, can guess it all."—The Post.

MR. WRIGLEY SAYS

I believe in newspaper advertising. I spend about a million dollars a year for newspaper space to tell the world about the goods I have to sell.

Nearly everybody reads the papers and they are the most effective medium to reach the buying public quickly and often.

This is the third year in succession that the United States has produced a short crop of cotton. Twelve million bales is almost the smallest crop that will meet the demands. Stocks of cotton carried over from previous years are low, and mill owners the world over are worried about getting the amount they need. The crop last year is estimated to be about ten million bales, but, if it had not been for the boll weevil, the same acreage would have produced sixteen or eighteen million bales, which is more than the world needs.

J. Ramsey Macdonald, British Prime Minister, is a straphanger, riding to his office in crowded trains.

Special Program Will Be Given On Mother's Day

President J. A. Hill of the Teachers College is making plans for the annual Mothers' Day program which will take place at the College, May 11. This occasion is one on which all the parents of students will be invited to visit the college and receive the honors which the student body are eager to show them.

The formal program will consist of a devotional service, including a sermon by a widely known preacher, and much high class music. The music is being prepared by Wallace R. Clark and his assistants.

The parents of every student in the college will be sent special invitations to be present. These invitations will probably be printed by the Manual Arts Printing press and so will represent regular school work for the students who send them.

THE WIND

Of all the phenomena of nature the wind seems to be the one that is most strikingly endowed with personality. Sunlight, starlight, moonlight, thunder and lightning, rain and snow—there is no wide range of expressiveness in any of them. But the wind has moods and a many-sided character; indeed there is no human emotion, no virtue and no vice of the human soul, that does not find its representation or its symbol in the blowing of the wind. The insane, destructive fury of mankind at war has its counterpart in the tornado and the hurricane. Violent gusts, though less demonic in temper, show occasional outbursts of brutality corresponding to those that human beings sometimes exhibit. Then there are the mean-spirited, ill-natured gusts that do spiteful, malicious things and play disagreeable practical jokes; experiencing them, we feel that the wind is at heart a vindictive bully. At other times it is better disposed, yet not quite amiable—boisterously humorous, usually at the expense of people who dislike boisterous humor. But even those people will admit that now it has got rid of its malice and is merely prankish and not above playing the clown.

When the wind ceases to be aggressive, it becomes gentle, confiding, sympathetic, affectionate; it soothes and caresses, it stimulates and refreshes. It seems then to have the most agreeable personality of all the forces in the natural world. To the poet's imagination it becomes a lover murmuring endearments to his lady, or a mother singing a lullaby to her babe, or an old nurse crooning softly to a child.

The wind is like people; it cannot always be at its best.

And however much we may object to it and denounce it or long for and welcome it, of one fact we may be sure: we can never do anything about it.

EAGLES LOST TO RALLS FRIDAY IN BI-DISTRICT GAMES PLAYED AT PLAINVIEW—BASKETBALL SEASON OVER

The Canyon high school Eagles were defeated Friday at Plainview by the Ralls high school team, only two games being necessary of the series to decide the championship of Districts Numbers one and two.

The Ralls team won the first game Friday morning by a score of 25 to 11. The Eagle were never able to catch their stride in this game and suffered from a badly crippled team. The team had not gone into a game in poorer physical form any time during the season than it did Friday at Plainview.

Ralls was able to hit a fast gait and keep steadily at it throughout the fast game. The Ralls team was backed by a very large delegation of rooters from that town and surrounding towns.

The second game Friday night was a much faster and better game. It was won by Ralls by a score of 17 to 12.

The Eagles went into the contest determined to win the big end of the score. Fast team work held the score close through the first three quarters, with the Eagles leading at times. The final count was in favor of the South Plains boys, and the Eagles acknowledged they had met a superior team.

The Eagles have made a great reputation in the Panhandle this season, handily winning the championship of District No. 1 in the hottest tournament played at the College. The team has a string of victories of which every fellow of the Eagle team is exceptionally proud. Tulla, Hereford, Wayland seconds and the mighty Sandies from Amarillo, were all defeated by the Eagles during the season and won the team a place in the district tournament.

During the tournament the Eagles went to semi-finals where they eliminated the hard fighting Tulla team and then whipped the Farwell bunch in the finals.

The Eagles have played fast ball all season and won the confidence of the people of this city. The men who played on the team this year are among the outstanding high school players of the Panhandle, and will make great college basketball players.

"SABBATH DESECRATION" BAPTIST PASTOR'S THEME

"Sabbath Desecration" will be the theme of Rev. Lyn Claybrook, pastor of the Baptist church Sunday morning. He will define "Sabbath Desecration" from the scriptures, cite examples of it from the Bible and show how the sin of Sabbath violation was punished by the Lord. He will put his finger upon the outstanding ways in which the "Holy Sabbath" is being disregarded in Canyon, and what the fruits of such flagrant disregard of Jehovah's law must inevitably be. He will set forth the relation of the Sabbath day to the whole program of the "Kingdom of God" and what always follows, to the individual, family, community, state, and nation when God is robbed of the Sabbath day. If you want to hear a real biblical discussion of this great theme, come Sunday morning. You will feel better if you come to Sunday School and remain for the preaching service. The pastor will try to speak so plainly as that even the most dense can understand.

For a clean, more Godly Canyon, LYN CLAYBROOK.

CITATION BY PUBLICATION THE STATE OF TEXAS,

To the Sheriff or any Constable of Randall County—Greeting:

A. N. Henson, guardian of the Estate of Mary Frances Feldman and Maggie Henryette Feldman, having filed in our County Court his Final Account of the condition of the Estate of said Mary Frances Feldman and Maggie Henryette Feldman, numbered 65 on the Probate Docket of Randall County, together with an application to be discharged from said Guardianship.

You are hereby commanded, that by publication of this Writ for twenty days prior to April Term of the County Court of Randall County, Texas, in a Newspaper printed in the County of Randall you give due notice to all persons interested in the Account for Final Settlement of said Estate, to appear and contest the same if they see proper so to do, on or before the April Term 1924, of said County Court, commencing and to be held at the Court House of said County, in the City of Canyon, Texas, on the first Monday in April, A. D. 1924, when said Account and Application will be acted upon by said court. Given under my hand and seal of said Court, at my office in the City of Canyon, this 27th day of February, A. D. 1924.

(Seal) ETHEL WOODS, Clerk County Court, Randall County. A true copy, I certify. W. C. BLACK, Sheriff Randall County.

Buy, Build, and Live in Canyon.

Wayside Items

The weather man is giving us a variety the past week. Cloudy, cold with flurries of snow. Today, Tuesday, bright and sunny but cold. But little wind at present.

Sunday was disagreeably cold. Small crowd out to hear Bro. Griffin. Mr. Song and Johnnie accompanied him. Sunday school at the regular hour.

General complaint coughs and colds. No serious cases that we hear of.

Miss Lorine Watson went to Happy Friday to attend her grandmother, Mrs. Mary Rogers. Mrs. Watson went in Monday, Lorine returning Tuesday. Glad to learn of some improvement in Mrs. Rogers' condition.

Preparations are being made for a considerable acreage of oats and barley crops in these parts. Wheat is looking well.

W. C. McGehee is putting up a store building on his land not far from the church. O. R. Thomas is helping with the building and will probably have charge of the business.

Miss Mary Christian, of Claude spent four days at Wayside the past week, leaving Friday for home. Mrs. Merle McGehee assisted her in inspection of the school children. Wayside completes her round of public schools of Armstrong county.

W. R. Franklin, wife and Fannie Mae left Tuesday for Happy, then went to Amarillo, returning Saturday. They carried country produce which they sold in Happy.

Bell Williams is moving from Reuben Rogers' place to the C. F. Watson place, where he will farm this year.

BAPTIST SERVICES

10 a. m. Sunday School, John S. Humphreys, Supt.

11 a. m. Sermon, "Sabbath Desecration."

2 p. m. Sunbeams, Miss Lena Huber, leader.

6:30 p. m. B. Y. P. U.

7:30 p. m. Sermon, "To what did Jesus come to Save Sinners."

7:30 p. m. Wednesday, Prayer meeting.

Revival begins March 30th. Begin to pray now for the meeting and put feet to your prayer. A church that stands for the whole Bible for the whole world.

LYN CLAYBROOK, Pastor.

Red Tile Roof Bought Saturday for Methodist Church—English Style

A red tile roof was bought Saturday by the building committee of the Methodist church for the new building. The purchase was made from the Acme Brick Company of Ft. Worth.

The committee chose the English tile which is flat and gives a most beautiful appearance when placed on the building.

The committee felt that the selection of the roof was one of the most particular jobs on the building, and took several weeks in making the selection.

BRIDGE PARTY GIVEN.

Miss Dorothy Burrow entertained Saturday afternoon with a bridge party of six tables. A series of four-handed bridge was played until about five-thirty, when dainty refreshments of chicken patties, bread and butter sandwiches, nut cake and coffee were served. Pretty favors of little colonial dolls dressed in pastel shades of lavender, blue and green delighted the hearts of the twenty-four guests.

Those who enjoyed the afternoon with their charming hostess were: Phyllis Kelsner, Edith Harrison, Tip Bradford, Erna Guenther, Annadel Guenther, Mrs. Word, Gladys Martin, Lucille Astricon, Lila Simms, Helen Croson, Helen White Moore, Elizabeth Shaw, Louise Shanklin, Mrs. Eugene Tanner, Hazel McQueen, Grace Ferguson, Margaret Lowndes, Elizabeth Evans, Velma Pendleton, Bess Maddux, Margaret Teel, Catherine Smith, Elizabeth Benton, and Stella Rusk.

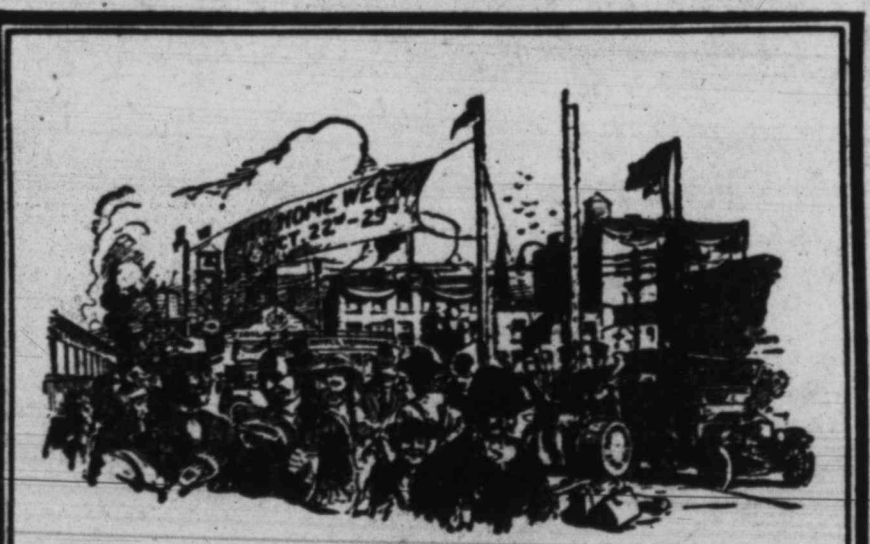

MAH-JONG PARTY.

Misses Elva and Marie Fronabarger entertained with a Mah-Jongg party Saturday evening, February 16th, in honor of their guests, Miss Ruth Thompson of Tulla and Miss Hazel Kelly of Cousins Hall.

Two tables of Mah-Jongg were kept going until ten o'clock when refreshments of cocoa and macaroons were served. The musical numbers consisting of piano and violin solos and duets by Misses Mabel and Jonnie Rowan and Marie Fronabarger, were enjoyed. The climax of the evening was reached when the guests sat in the glow of the fire light listening to Marie's jolly songs (?) accompanied by the strum of her guitar.

The invited guests were: Misses Mabel and Jonnie Rowan, Frankie and Bettie Rose Kerr, and Audrey Smith.

The Tie that Binds

THE UNITED STATES is a nation of far-reaching relationships. Home ties stretch between communities widely scattered, for few men live where their fathers or grandfathers lived.

Commerce and industry have the same spread of interests, so that, in truth, the nation has become one great community.

Only a unified telephone service covering every state can serve such a nation. It must be the tie that binds.

Such a service requires a national organization with uniform policies and operating methods and in every community a local organization with full authority and responsibility for the problems of that community.

The Southwestern Bell Telephone Company which operates in Missouri, Arkansas, Kansas, Oklahoma and Texas, serves an area one-fifth the entire size of the United States, in which thirteen million people make their homes. Eighteen thousand employees bend every effort to meet this responsibility efficiently.
