

AMARILLO FAIR SEPT. 22-8

LARGEST REGIONAL FAIR TO BE HELD IN TEXAS

AMARILLO TRI-STATE FAIR WILL OPEN NEXT MONDAY AND WILL CONTINUE THROUGH SUNDAY, SEPTEMBER 28—NEW FAIR GROUNDS ARE READY—BIG EXHIBITS AND BIG AMUSEMENT PROGRAM FOR ENTIRE FAIR.

According to advice from Amarillo, all is in readiness for the opening of the Amarillo Tri-State Fair on next Monday. The Fair will continue through Sunday, September 28. It will be by far the largest regional fair in Texas.

Practically every county in Northwest Texas is contributing to the bigness of the Fair, and the exhibition of agriculture products, stock, poultry, will be the largest this country has ever seen. Twenty-six counties will be entered in the county contests.

During the past week a large crew of men has been putting the finishing touches on the new grounds which were bought by the Fair Association. The new buildings are in readiness for the exposition.

Exhibit buildings for various departments, a large grand stand, race track, hard-surfaced driveways, lined with trees, an arena for auctions and administration building and various other improvements have been erected during the past summer at a cost of nearly \$100,000.00.

Headliners on the program of entertainment include horse and automobile races for six days, the Pageant of the Plains for four days with the crowning of the queen on the final night, a miniature battle of the Marne by local guardsmen with full equipment, an aerial circus, a buffalo hunt by Indians and dazzling fire-works displays on three nights. These are but just the outstanding features ar-

ranged by the association for the entertainment of the crowds.

Two football games, with the high school Eagles and the College Buffaloes being engaged, band concerts, a brilliant ball, fashion parade and revue, and the scores of amusement attractions which such a fair will draw, will have a part in the entertainment.

Randall County people are going to the Tri-State Fair this year in large numbers, and are certain to enjoy the great exhibition prepared for them to view.

COUNTY AGENT J. W. JENNINGS HAS A FINE EXHIBIT FROM COUNTY TO TAKE TO THE AMARILLO TRI-STATE FAIR

County Agent J. W. Jennings has the Randall County exhibit for the Amarillo Tri-State Fair ready and it will be put up at the Fair grounds Saturday.

Mr. Jennings states that it was impossible to display the exhibit in Canyon, but that he expects most of our people to be able to visit the exhibit in Amarillo next week.

Those who have seen the crop samples which Mr. Jennings has brought in for the exhibit are confident that Randall county will have one of the very best county exhibits at the Fair.

Mr. Jennings plans to take the Randall county exhibit to the Dallas State Fair, and may possibly make either the Lubbock or the Wichita Falls fair with the exhibit.

Mr. Jennings is superintendent of the agricultural department of the Amarillo Tri-State Fair and states that everything is in readiness for the big exhibition next week.

Twenty-eight counties will exhibit in Amarillo, and close competition is expected. Liberal premiums will go

to the counties winning in the county exhibits.

Mr. Jennings states that he has been all over Randall county during the past few weeks and all of the citizens are planning to attend the big Tri-State Fair.

REMODELING ON EAST SIDE.
E. Burroughs has leased the office building north of J. D. Gamble's office from B. S. Livingston. Work is being started to stucco both of these offices, and connect them with the adjoining brick buildings. This will make a solid front of business houses on the east side of the square.

BUILDING FILLING STATION.
Fred Scott is building a filling station at his place on the highway, the residence formerly being the Gatewood house. Mr. Scott is having the residence stuccoed.

STORK SPECIAL.
A daughter was born to Mr. and Mrs. A. R. Eastwood Monday.

DR. E. F. LANHAM, D. V. S.

PANHANDLE VETERINARY HOSPITAL

Located at Third and Van Buren Streets, Amarillo, Texas,

Telephones: Office 440; Residence 1316. Is the Leading

Veterinary Surgeon of This Section of the Panhandle.

There is perhaps, no division of the field of scientific research in which greater advances have been made, than have marked the modern development of veterinary surgery. Some of the greatest scientific minds of the world have developed material progress in this important profession. All these features that have received the approval of the leading veterinarians of the country are available to the people of Amarillo, Randall county and the surrounding territory, if they secure the services of Dr. E. F. Lanham.

This popular veterinary surgeon has kept pace with the times, and is considered by eminent men of this profession as the foremost practitioner in the Panhandle. He has carefully studied all of the developments of this important branch of medical science and places his wide experience and comprehensive knowledge at the services of the people of this community.

It is not strange then that Dr. Ernest F. Lanham is one of the busiest professional men in this community, as his services are in great demand throughout this section. He is courteous and accommodating and can be reached night and day. He also maintains a general hospital, The Panhandle Veterinary Hospital, for all animals.

The general satisfaction expressed by his many clients and the ever increasing demand for his services, contribute a well-merited tribute to his efficiency and conscientious methods.

We wish to take this opportunity in this edition of the News dedicated to the Tri-State Fair, to compliment the Doctor upon the very valuable work he is doing in this section, and to direct the reader's special attention to Dr. Lanham's methods which are aiding in the development of the agricultural and commercial life of Amarillo and surrounding territory.

CITY DRUG STORE

LARGEST STOCK IN WEST TEXAS

Located at 515 Polk Street, Amarillo, Texas. Telephone 2933; Is a Modern and Up-to-date Pharmacy, Specializing in Prescription Work of the Highest Order; Sporting Goods, Wall Paper and Paints.

The City Drug Store in Amarillo is one of the most popular drug stores in this section, and has made many friends ever since coming in our midst. They have won for themselves a well-merited reputation for fair and honest dealings, handling at all times the very best the market affords.

The "difference" determines drug quality and very difference in the quality of drugs used or in the way drugs are compounded often makes a decided difference in results. Anyone who needs medicines or has a prescription to be filled should as a matter of pure self interest insist upon the best drugs and service. The City Drug Store handles drugs of the "highest quality" and their scientific methods enables them to give their customers ideal service, co-operating with the physician providing just what he prescribes.

In the prescription department are graduate pharmacists, thus insuring

you that all prescriptions are carefully and properly filled as per your family doctor's dictation, and the prices charged are always reasonable. Mail orders given special attention. Rural routes especially.

For the convenience of the public there will be found at this store products which are known the world over and recognized by everyone to be standard in every respect. Their stock comprises of nationally known pharmaceuticals, perfumes, patent and proprietary remedies, books, stationery, kodaks, picture books, school supplies, candies, cigars, etc., in fact anything in the apothecary line and a thousand useful articles too numerous to mention. In fact every department of this store is complete in every detail, and in this issue of the News, we wish to call the attention of all our readers that they can not do better than to pay this store a visit when in need of anything in the drug line.

DAVIS AUTO PARTS COMPANY

Or Amarillo Auto Wrecking Company

"THE HOUSE WITH MILLIONS OF PARTS"

Located at 305 East Third Street, Amarillo, Texas. Telephone 1518. Specializing in Used Cars and Parts of all Makes, Replacing Gears and Axle Shafts.

The Amarillo Auto Wrecking Company is the oldest, largest and most reliable in the Panhandle and we believe that there is no business which is more of a necessity now-a-days than one of this kind. This concern will buy your old car which is perhaps laying around rusting somewhere and pay you a fair price for it, while at all times they carry in stock a complete line of parts, gears, axle shafts and in fact everything or anything pertaining to or part of an automobile, all of which is worth much to automobile owners throughout the Panhandle, for in this way they dispense with long tiresome delays in waiting-upon some new part from some far off factory, and thereby save their customers many a dollar to say nothing of useless delay.

The writer after a visit through their place believes their slogan rightfully termed for it is really "The House with Millions of Parts," and we believe that if you will bring in the old part that they can readily produce an exact duplicate, while if ordering be sure to send in the broken piece you want replaced, for in this way there is no chance for your order to be filled other than cor-

rectly, and they will save you money on either a new or slightly worn part, and positively guarantee that you get a square deal, for the employees of this local firm use every care in detailing orders correctly, and in this way have built an enviable reputation throughout the Panhandle where you can really save money and get real service.

Mr. C. D. Davis, the manager of this local concern has an enviable reputation for his honest business dealings with the public, and you can rely upon any transaction he makes. His policy evidently lived up to the rendition of the golden rule. No mistake can be made by giving this firm a trial when you need anything in this line, for they are known as the leading dealers in automotive engines, bodies, fenders, wheels, radiators, magnetos, tubes, carburetors, replacement gears, axle shafts, windshields, tires, etc., in fact anything belonging to the mechanism of an automobile, and in making this big Tri-State Exposition and Expansion Trade Review of Amarillo we congratulate this concern upon their progressiveness as the leaders of this line of industry in the entire Panhandle.

AMARILLO WELDING & MACHINE COMPANY

EXPERT WELDERS AND MACHINISTS

Located at 209 North Polk Street, Amarillo, Texas. Telephone 860. Is the Leading Welding and Machine Shop in this Section; Cylinder Grinding, Crankshaft Truing, Tractor Reboring, Oil Well Work, Heavy and Light Welding in all Metals.

The Amarillo Welding and Machine Company has been in our midst now more than seven years and today is one of the best established industries of the Panhandle. They have made extensive improvements from time to time, and now operate with a skilled crew of fifteen expert machinists, in connection with their \$50,000.00 plant which is modernly equipped to handle any work turned over to them with promptness and dispatch.

They have the strategic location for the Panhandle territory with engineering experts in all lines of machine work, then their skilled workmen operating under the best machine shop practice, for there is no job too large or too small that this concern cannot carry to successful completion. In all their line materially aids every line of industry in this section of the state, saving their many friends and customers many thousands of dollars

annually by unnecessary delays in having to send to some far-out factory to replace some broken part which can now be secured right here at home on shore notice, executed by experts and guaranteed in every respect with a reasonableness of charges. Messrs. Johnson Brothers, proprietors of the Amarillo Welding and Machine Shop, realized when they started into business in this section that in order to fill the requirements that it would be necessary to install machinery of the most modern type, also welding equipment that would meet all requirements and metals. Perhaps that is why every time a new customer has work done at this plant, he is sure to tell some of his friends. In this way this establishment is today the largest of its kind in this section of Texas, always giving promptness, efficiency, and good service. The managers, Johnson Brothers, are among Amarillo's most progressive citizens and we take pleasure in referring this concern to our many readers for expert Welding and Machine work of any kind.

Big Race Program at Fair

Six days of thrills for lovers of speed are insured by the race program of the Amarillo Tri-State Exposition, Sept. 22 to 28, which was announced Sunday. Four days are allotted to horse races and two days to motor races, with a total of \$5,500 to be divided among the winners. This handsome prize list is attracting fast horses and well known drivers to the Tri-State Exposition, in addition to those now playing the Panhandle circuit, composed of Quanah, Vernon, Memphis, Childress and Amarillo. Unusually large crowds at the races now being staged "down the line" attest to strong competition on this circuit.

Five horse races will be contested each of the first four afternoons of the Tri-State fair, beginning Monday, Sept. 22. In these events, cow-ponies will vie with the "bangtails" in furnishing thrills, and substantial purses are offered for the speediest range-horses, ridden with stock saddles by owners or bonafide employees. A \$100 purse and the Amarillo Daily News cup will go to the cow-pony winning the five-eighths mile dash on Sept. 24. The feature contest for thoroughbreds will be the one-mile Amarillo Derby for a \$500 purse, on the next day.

Motor races will rule the track Friday and Saturday, and added interest is expected from the inclusion of motorcycle races in the two-day program. Roy Barton of Abilene, known thru-out the Southwest for the quality of program he puts on, is in charge of the motor events, which have the sanction of the American Automobile Association. There will be seven races both Friday and Saturday—all dashes, as short races have more "action" than long grinds. Speed trials will be held Friday morning, Sept. 26, and this event will be one of the many free attractions of the exposition.

THE MADDEST ONE

A passenger took the train at Lyons, entered a sleeper, and tipped the guard liberally to put him out of the train at Dijon:

"I'm a very heavy sleeper," he said, "and you must take no notice of my protests. Seize me and put me out on the platform."

He slept. He awoke as the train steamed into Paris. In a raging fury he went to the guard and expressed some emphatic opinions in a varied vocabulary.

"Ah," said the guard calmly, "you have a bit of a temper, but it's nothing compared with the chap I put out of the train at Dijon."—Le Rire (Paris).

It is beginning to look as tho the inventor of the Dawes-underslung pipe will get more than anybody else out of the approaching campaign.—Macon Telegraph.

—to have a good
APPETITE!

"Yes! thank you."

A GOOD appetite means a cheerful disposition.

You may have a good appetite if the blood that goes constantly to your vital organs is pure. S.S.S. purifies the blood—a good appetite follows and you will have a clear complexion and will be strong, cheerful and healthy.

Don't go on feeling up one day and down the next—hardly sick but never well—losing "pep," punch and ambition. Hearty eaters are the red-blooded men and women. Enjoy your food! Get back your strength and energy! Reclaim yourself before it is too late! People in a physically run-down condition are an easy prey to disease.

S.S.S. is what is needed. Your blood needs purifying. Your blood-cells supply the energy which keeps your body well and fit. S.S.S. aids Nature in supplying new red-blood-cells—the spark that renews your system. Carefully selected, scientifically proportioned and prepared herbs and barks make up S.S.S.—the great blood purifier which gives Nature a helping hand.

Get back the lost appetite, the missing vitality, the keen, sparkling eyes, that look of determination. S.S.S. will give you more energy, vitality and vigor and a more up and going appearance.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.
S.S.S. Makes You Feel Like Yourself Again

Back to the Home Nest

One hundred and ten million Americans thrilled with joy and pride this week as six U. S. army airmen winged their way back toward the home nest at San Monica, Calif., to complete man's first flight around the world. Photos show the three round the world army planes flying with escort over New York City, and close up of the three pilots. (Left to right) Lt. Nelson, Lt. Smith, Commander, and Lt. Wade.

JOHN J. PERSHING

John Joseph Pershing at 64, retires to private life, bearing the highest military honors possible to obtain in this country—General of the Armies of the United States. The permanency of his accomplishment is now established. The story of his chieftainship of the American armies during the great World War are found tersely worded in those official records which ensure for men of moment a place in history. The great war wrought the change in Pershing's case.

General Pershing will forever stand before the American people as a soldier on whom the gods smiled benignly. He stands to-day an inspiration to the normal American school-boy, the living example of possible achievement as a result of close application, integrity, faithfulness of trust, coupled with a sound education and a full development of normal intelligence. There is nothing brilliant about Pershing, nothing theatrical. He has not risen because of dramatic appeal. He has never fired the imagination of his countrymen either in or out of the army. Rather has he forged his way as a result of persistent plodding. His password to advancement has been the word reliability. Perhaps his greatest asset has been his ability to put behind him the petty thoughts of life and to surround himself with the most brilliant soldiers he could find. A man of smaller caliber might have kept himself constantly in the foreground and denied others the right of conspicuous

service. Pershing, however, was not molded so. He knew that in the ways of war as in the ways of peace man was not born to succeed alone. He sensed that men and matters are so interwoven that individualistic success is not possible, and while he garnered from the fields of others he was sufficiently generous to permit others to have their place in the sun. He retires with the respect and affection of the American people.

REASSURED

News had reached the village of Forksville that a motor-bus plying between the two neighboring towns of Bump-ton and Gush Hollow had gone over the side of a cliff with all on board. It was also known in Forksville that the wife of the much hen-pecked Bud Blodgett was en route to Gush Hollow via the bus line. An interested villager immediately called on Bud.

"Ain't ye worried 'bout yer wife, Bud?" he asked.

"Well," replied Bud, "I was fer a while, but her cousin in Bump-ton just called up an' said she saw Sal git on the bus with her own eyes."—American Legion Weekly.

OUR CARELESS WAY

A strange feature of the grade-crossing situation is that the railroad companies seem bent upon keeping us all from being killed, while we all don't seem to mind whether we are or not.—Columbus Ohio State Journal.

Emil F. Myers
Teacher of Voice

YOUR VOICE
Is a Part of Your
Personality

You can't get away from it. How delightful it is to be able to speak with a clear, decisive tone without effort. It's a special asset. It's a business asset. It makes its appeal anywhere, any time. It is a necessity if you would desire to speak in public.

A singing voice is likewise a great delight. To be able to sing well requires a good voice. Recent scientific developments make it possible for any one to increase tone quality and power to a high degree of efficiency. The results are telling.

The physical development which results from proper vocal training is very valuable from the health standpoint.

Many years' experience in handling voices, together with the study I have had with many of the world's best teachers and the extensive reading I have done on the subject as a specialist, has resulted in the working out of an exceedingly practical process of developing the natural singing and speaking voice.

Pageant Tickets Only Elect Queen

Admission tickets to the Pageant of the Plains, and those tickets only, will count in awarding the Queen's Car to the most popular duchess, say a statement issued here by Tri-State Exposition officials. This statement followed announcement of "most popular duchess contests" by at least one mercantile establishment.

"These store contests have no connection whatever with the Pageant of the Plains, and will have no part in deciding who wins the Hudson Coach," says the statement. "Admission tickets to the Pageant are the only voting coupons. Tickets for Tuesday and Wednesday nights, Sept. 23 and 24, count for one vote each. Tickets for Thursday, Sept. 25, will count for two votes. There is no other way to obtain votes for the queen's car."

"Any contests staged by merchants are absolutely separate and distinct. Duchesses of course are at liberty to enter these store contests if they see fit, but any impression that they will gain votes on the car is erroneous."

A FAN ABROAD

"Ah, here's something interesting," said the near-sighted American tourist in Holland. "Let's wait and see the game."

"Game? I don't see any game."

"What's that ahead of us?"

"A windmill."

"My mistake. I thought it was a baseball pitcher going through the motions preliminary to sending a hot one over the plate."—Boston Transcript.

A New York Stamp collector has just negotiated for the purchase of two twelve-cent Canadian stamps at a cost of \$4,000. The stamps are of the first Canadian issue, and the fact that they are attached, having been taken from the lower left-hand corner of the sheet, and show the printing margin, greatly enhances their value. Only one other set of these stamps is in existence.

The weather man is right eighty-eight times out of every hundred of his predictions about the weather and temperature. This is claimed by James H. Scarr who has been in charge of New York City's weather bureau for fifteen years. He bases his claim on the forecast of his territory during that time.

According to old records coal was worked in Scotland for the first time in the year 1200, but was not actually mined until 1243. It was not popular for household use, however, until 1591, when the use of chimneys began to increase.

The San Gabriel Dam, which will be America's largest dam when completed, will cost \$25,000,000. It will be the first in the program of twelve which the county of Los Angeles will erect to prevent floods and conserve the water in that region.

Baseball's Idol

Stanley "Buck" Harris, the kid manager of the Washington baseball team who has fans the country over rooting for him to win the American League Pennant. Still in his early twenties, Harris is the youngest manager in the big leagues.

OUT FOR BIG GAME

An immigrant from Ireland was just stepping off the boat to the dock when he saw a fifty-cent piece lying at his feet, and started to stoop to pick it up. "No, be the saints!" he ejaculated. "This is the land of opportunity. I'll wait until I find them thicker."—American Legion Weekly.

Excitement is running high in the little fruit town of Peachland, British Columbia. Indians reached Peachland with nearly one hundred dollars in placer gold, and since then parties of aborigines have left for the interior to return with well-filled pouches, but absolutely noncommittal as to the source of their wealth.

In the days of the Roman Empire, criminals were punished by drowning and the Anglo-Saxon codes condemned women thieves to be drowned. While this form of punishment soon became obsolete it survived in Scotland until 1685 (the year of the drowning of the Wigtown martyrs), and in France was employed as late as 1793.

Mr. and Mrs. Crabtree, of Dubuque, Iowa, are of different political faith, so compromised by christening their infant son Calvin Woodrow. The boy thus labeled is too young to express his idea as to whether he is honored or not.

SIGN OF SOMETHING

"Why is the flag at half-mast over the water-works?"
"I suppose some teetotaler has died."

PRIMARY VS. CONVENTIONS

The primary election law was passed for the purpose of giving the people a chance to pick their candidate for state office instead of electing delegates to conventions for that purpose. Its intent was that the majority of the electorate should rule but in practice it doesn't work out worth a cent. The wishes of the majority do not prevail in a primary election even to the extent that they did under the convention system. Take the present situation for example. The two candidates in the run-off polled less than half of the total votes cast. Felix D. Robinson received in the first primary, 193,508 and Mrs. Ferguson 145,208. Now there are more than three hundred thousand—almost four hundred thousand voters in Texas who did not support either of these candidates, yet, they, the majority, have no choice but to support one or the other of them. Nothing more one-sided or inadequate was ever charged to the convention system.

Personally, we favor a return to the convention system for the reason set forth above and for the further just and equitable reason that under the primary election law a man with business and political sense enough to be governor of the great state of Texas usually has too much sense to involve himself in the expense necessary to make the race. The law legalizes an expenditure of just twice what the office pays and this legal expense does hardly start a campaign for governor.

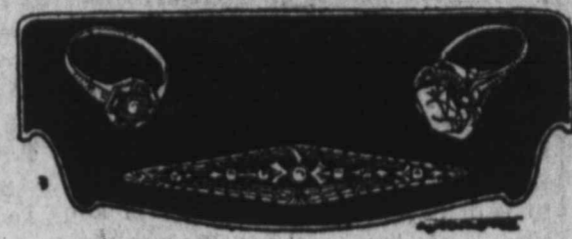

Another reason why we prefer the convention system of nominating candidates is that a study of the result of the two systems convinces us that under the primary system we have never been able to secure the services of men for public office of as large calibre as we had under the convention system. We are ready to admit all of the defects and a comparison of the results obtained under both systems convinces us that the real interests of the people were better served and the real choice of the people was obtained more often than now.—Quanah Tribune-Chitt.

A serious condition is reported from the Isthmus of Tehuantepec and in sections of the state of Vera Cruz, owing to the appearance of grasshoppers. Several collisions on the railways in that area have been due to the insects, and the Department of Agriculture has sent out tanks filled with crude petroleum to halt the advance of the grasshopper army.

The United States produces about thirty-five percent of the world's production of tobacco, which amounts to 4,000,000,000 pounds. Europe absorbs more than eighty-five per cent of the exports from this country.

In the Chinese language there are forty thousand written characters which differ from each other.

Pepsinated Calomel Is Better than the Old-Time Sickening Kind

It is gentle, imported English Calomel, combined with Pepsin and other helpful ingredients. It is mild but certain, causing no harshness or unpleasantness and will absolutely relieve indigestion, biliousness, bad colds, constipation and sick headaches. And best of all it does it at once—quickly and pleasantly. Take one small tablet at bed-time and you will get up hungry and feeling fine. Recommended by Jarrett Drug Company

Help Get Canyon Clean!

The Tri-State Fair Association is getting ready for the opening of the fair Sept. 22. The buildings for all displays are being finished. The merchants' building, live stock display rooms and agricultural buildings are about ready, the textile and arts building is under construction, and the long and commodious structure for display of automobiles, machinery and implements is nearing completion.

There are at least thirty-eight county exhibits already contracted for, including Panhandle counties and some from New Mexico and Oklahoma; and the agricultural building may have to be enlarged to accommodate the entries. The race track is said to be in perfect condition and a long string of racers is assured. Some of the horses already are in training, among them a \$50,000 horse from Vernon.

Among the attractions will be a pageant of the plains, showing the advancement of this region from the days of the Indian and the buffalo up thru the coming of the longhorn cow and the range rider, the adventures of the pioneer settler, coming in a covered wagon, to the coming of the railroads, the highly cultured civilization, the buggy, carriage, machinery, and automobile, and the transformation of the plains from a trackless desert to a highly cultivated agricultural region of modern homes and well-tilled farms.

In this pageant will appear a duchess and maid of honor from each of a

number of Panhandle counties, and from this group will be elected a queen of the plains, who will be presented a perfectly equipped automobile.

Plainview, Lubbock, Memphis, Perryton, McLean, Dalhart, Canyon, Panhandle, Wheeler, Pampa, Canadian, Claude, Hereford, Channing, and possibly other Panhandle towns will be represented by young women.

The fair management has contracted for a band of real Indians from Oklahoma to perform stunts peculiar to the customs of the aboriginal denizens of the plains country, including a buffalo hunt, attacking white caravans, a war dance, pipe of peace and other stories of early days. There also will be fire works and other features for amusement and education.

TOO LONG

A farmer came to town to insert a death announcement.

"How much do you charge?"

"Ten shillings an inch."

"Heavens! He was over six feet high."—Kasper (Stockholm).

Equal suffrage to some feminine reformers seems to mean that the women will have their rights when they are able to give the men their dues.—Cleveland Times and Commercial.

If the Japanese are so sorely troubled over the what-to-do-without-increasing population problem, why don't they try putting in more grade-crossings in that country?—Macon Telegraph.

The official grave digger of Alken, Germany has resigned his position because thirteen months have passed without a death in that city. He wrote to the city council declining to accept his salary when there was no work to be done.

The Turkish Government proposes to amend the marriage laws so as to allow only a second wife in exceptional cases; in all other cases polygamy would be considered a crime.

Precinct Convention Saturday Instructs in Favor of Jackson

On call of Precinct Chairman, A. N. Henson, a precinct convention was held Saturday, Sept. 13, to elect delegates to County Convention to be held Saturday Sept. 20 at 2 o'clock p. m. to elect delegates to District Convention for 7th Supreme Judicial District of Texas at Amarillo, Texas, on Sept. 27, 1924, to nominate a candidate to succeed Hon. Wm. Boyce, resigned.

The following delegates were elected to the county convention: A. N. Henson, R. E. Baird, R. L. Lester, J. L. Wohlford, W. J. Flesher, A. M. Smith, T. H. Rowan, J. H. Whitman, C. W. Warwick, C. R. Burrow.

Precinct convention was instructed for Hon. M. J. R. Jackson.

A. N. HENSON, Chairman.
J. L. WOHLFORD, Secretary.

TOPICS IN BRIEF

We look forward hopefully to a time when our relations with Japan will not consist principally of developments which one or the other of us is obliged to regret exceedingly, explaining that the incident does not represent the true national attitude any more than a rabbit.—Columbus Ohio State Journal.

Perhaps a sensible candidate's hardest task is to speak kindly of the platform.—Columbus Ohio State Journal.

The only way some folks realize on their investments is to realize they are on the wrong floor, and then it is likely to be too late.—Los Angeles Times.

There is a current demand for two or three political issues guaranteed to fool the people.—Toledo Blade.

Altho the motorist may scoff at pedestrians, he must admit that they die with their boots on.—The American Legion Weekly.

Any man who is forced to pay alimony can sympathize with Germany in her unwillingness to pay reparations.—Asheville Times.

Though this is an age of big headlines, we imagine there are people who think Dawes is the man who won the Bok peace prize.—Toledo Blade.

"Pussyfoot" Johnson, who "has seen but seven ebriated persons since he returned," offers an excellent testimonial to the temperate use of liquor.—Wall Street Journal.

The young lady across the way says the Democrats seem pretty confident, but personally she expects to see President Coolidge win by a landslide.—St. Joseph News-Press.

The first electric chair ever used in the Far East has just been utilized in an execution in Manila. It may take time, but we are gradually introducing civilization in that part of the world.—Philadelphia Inquirer.

A dictator is a man who conducts his own notification meeting.—Detroit News.

Corn may be king, but in Kansas he acts like the chancellor of the exchequer.—Wichita Eagle.

New demands now being made on the barber's conversational activities suggest that in order to meet the situation he may be compelled to take an intensive course with a ladies' sewing circle.—Philadelphia Inquirer.

Perhaps by November the people will find that they can keep cool without Coolidge.—Birmingham Age-Herald.

Here's hoping that the Prince of Wales will arrive at the White House in an automobile.—Cleveland Times and Commercial.

We sometimes wonder whether the time will ever come when it will be considered quite the thing to have a girl's hope chest include a humidifier.—Philadelphia Inquirer.

"The easiest thing for an auto to run into is debt."—Toledo Blade. Ask any pedestrian what he thinks.—Iowa Legionaire.

The Prohibition candidate for President qualified for the paragraher's union when he said the dry law has a wet nurse.—Indianapolis News.

Judge Talley says this is the most lawless nation in the world. With 20,000 bills pending for the next Congress every one will not agree with the judge.—Wall Street Journal.

CREED OF CLUB WOMEN OF AMERICA
Keep us, God, from pettiness; let us be larger in thought in word, in deed.
Let us done with fault-finding and leave off self-seeking. May we put away all pretense and meet each other face to face without self-pity, and without prejudice. May we never be hasty in judgment and always generous. Teach us to put into action our better impulses, straightforward and unafraid.
Let us take time for all things; make us grow calm, serene and gentle.
Grant that we may realize it is the little things that create differences; that in the big things of life we are as one. And may we strive to touch and to know the great common woman's heart of us all;
And O, Lord God, let us not forget to be kind.

MEETINGS

Regular meetings at three o'clock on second and fourth Wednesdays of each month from September to May.

SEPTEMBER TENTH

Social Meeting—Mrs. J. A. Hill, hostess.

SEPTEMBER TWENTY-FOURTH

Why Our National Parks?

Roll Call—name and location of a National Park; some attractive and interesting features of one of these parks.
1. Origin and growth of the National Park movement.
2. Why we need National Parks.
3. Distinction between National Parks and National Forests, between National Parks and National Monuments.
4. Plans for future development of our parks.

Hot Springs and Platt National Parks

5. Route by which the parks may be reached; exact location, and area of each.
6. Value of Hot Springs as a resort.
7. Attractions of Platt Park.
Mrs. C. W. Warwick, Miss Almeda Wiley, Mrs. C. L. Thompson.

OCTOBER EIGHTH

Lecture—Miss Darthula Walker.

OCTOBER TWENTY-SECOND

Rocky Mountain National Park

Roll Call—a statement concerning some peak, glacier or lake of this park.
1. Route to Rocky Mountain National Park; the location, area, and range of elevation of the park.
2. Short geological history of this region.
3. Description of the western slopes.
4. Conditions of the eastern slopes.
5. Life of the park.
a. Plants, birds, and animals.
b. Timber—variety, timber-line.
Mrs. B. A. Stafford, Mrs. T. C. Thompson, Mrs. I. C. Jenkins.

NOVEMBER TWELFTH

Mesa Verde National Park

Roll Call—A descriptive sentence of condition of this region.
1. "Round the Circle" route from Rocky Mountain to Mesa Verde National Park; the location, area, and elevation of this park.
2. Short history of this park.
3. The weirdness and mystery of Mesa Verde.
4. Influence of environment upon the cliff-dwellers.
5. The art of the cliff-dwellers.
Mrs. T. V. Reeves, Mrs. Burt Newlin, Miss Tennessee Malone.

NOVEMBER TWENTY-SIXTH

Thanksgiving Holiday.

DECEMBER TWELFTH

Carlsbad Cavern National Monument

Petrified Forests National Monument

Roll Call—Some chamber, hall, or pillar of Carlsbad Cavern or some interesting plant of the region.
1. Continue "Round the Circle" route to the Santa Fe and trace route to Carlsbad, New Mexico, thence to Petri-

fied Forest of Arizona.
2. The most interesting chambers and formations of Carlsbad Cavern.
3. Indian myths associated with names of formations of this cavern.
4. The vegetation in the region of the Carlsbad Cavern.
5: Probable process of petrification of the trees as found in Petrified Forests, Arizona.
6. Explanation offered for the removal of most of the trees from the region of growth.
Miss Agnes Meyers, Mrs. Robert McGee, Mrs. McElroy.

DECEMBER TWENTY-FOURTH

Christmas Holidays.

JANUARY FOURTEENTH

Grand Canyon National Park

Roll Call—A comment by some noted visitor.
1. Route to Grand Canyon; location, length, width and depth of the Colorado River.
2. Describe the architectural operations of Nature in fashioning this "Titan of chasms."
3: Indian legend of Grand Canyon.
4. The backward stretch of time as revealed in the structure of the canyon walls.
5. The coloring of the canyons.
Mrs. T. B. McCarter, Mrs. Dan K. Usery, Mrs. R. L. Lester.

JANUARY TWENTY-EIGHTH

Zion National Park

Roll Call—A name of some conspicuous feature of Zion National Park.
1. Approach to Zion Park; location, area, and elevations of the park.
2. Describe the process by which Zion's Canyon has been fashioned.
3. The color of the Canyon.
4. Describe the prominent features of the canyon walls.
Mrs. R. P. Jarrett, Mrs. C. O. Keiser, Mrs. M. B. Johnson.

FEBRUARY ELEVENTH

Sequoia National Park and General Grant Park

Roll Call—The name of a large Sequoia; some point of interest in Yosemite National Park.
1. Route to these parks; location, area, and elevations of the parks.
2. Characteristics of our oldest settlers—the Big Trees.
3. Account for the distribution of the Sequoia groves.
4. Importance of preserving these trees.
5. Reading: *The Tree*, by Joyce Kilmer.
Yosemite National Park
6. Yosemite Park—a summer play ground.
7. Origin of Yosemite and Hetch Hetchy Valley.
8. The spectacular waterfalls.
9. Description of the prominent points, domes and columns.
10. The forests of Yosemite.
11. An Indian Legend of Yosemite.
Mrs. S. L. Ingham, Mrs. A. J. Arnold, Mrs. L. T. Lester.

FEBRUARY TWENTY-FIFTH

Mount Lassen National Park

Roll Call—Name a volcanic peak of the West. Some point of interest other than the Lake.
1. Route to Mount Lassen Park; location, area, and elevations of the park.
2. Cause of volcanoes.
3. Story of the building of the Cascades.
4. Account of the last eruption of Lassen Peak.
5. An account of Cinder Cone.
6. Objects of interest other than the cones.
Crater Lake National Park
7. Route to Crater Lake; the location, area and elevations of Crater Lake Park.
8. Probable origin of this lake.
9. Distinctive features of Crater Lake.
10. Indian legends connected with the lake.
Mrs. J. A. Hill, Mrs. C. R. Flesher, Mrs. F. P. Guenther.

MARCH ELEVENTH

Mount Rainier National Park

Roll Call—The name of a glacier. Some high mountains of any country.
1. Route to Mount Rainier; the location, area, and elevations of Mount Rainier Park.
2. History of Mount Rainier.
3. Points of special scenic interest.
4. Indian legends connected with Mount Rainier.
5. Wild flowers of this park.
Mount McKinley National Park
6. Route to Mount McKinley; the location, area, and elevations of the park.
7. Account of explorations of Mount McKinley.
8. Description of Mount McKinley Park area.
Mrs. John S. Humphreys, Mrs. R. I. Graves, Mrs. Henry Gamble.

MARCH TWENTY-FIFTH

Glacier National Park

Roll Call—A descriptive sentence of some scenic feature.
1. Route to Glacier National Park; the location, area and elevations of the park.
2. Short geological history of this area.
3. The work of Nature's carving agents.
4. The favorite valleys.
5. The Passes.
6. Important peaks and glaciers.
7. The coloring of Glacier Park.
8. A Tourist's Trip Over the Glaciers.
Mrs. Oscar Gamble, Mrs. J. M. Anderson, Mrs. J. B. Gamble.

APRIL EIGHTH

Yellowstone National Park

The Hot Springs and Geyser Basins

Roll Call—Name a prominent geyser or hot spring. Some point of interest other than springs and geysers.
1. Route to Yellowstone Park; the location, area, and range of elevations of the park.
2. Geological history of the park.
3. Explain causes of hot springs and geysers.
4. Points of interest about Mammoth Hot Springs and along the way to Norris Basin.
5. Chief features of Norris Basin and along the way to Lower Geyser Basin.
6. Description of Lower and Upper Geyser Basin.
7. Describe Yellowstone Lake and give account of changes in its elevation and outlet.
8. Wonders of the Grand Canyon of the Yellowstone.
9. Petrified Forests of Yellowstone.
10. Wild life in this park.
11. Park names.
12. How the Yellowstone Region became a National Park.
Miss Hattie M. Anderson, Mrs. T. E. Money, Mrs. B. F. Fronabarger, Mrs. M. S. Bishir.

APRIL TWENTY-SECOND

Wild Cave National Park

Sully's Hill National Park

Lafayette National Park

Roll Call—Your favorite feature of all the National Parks.

1. Trace out route to Wind Cave Park and describe attractions there.
2. Trace route to Sully's Hill and state for what features it has been set apart as a National Park.
3. Map out route to Lafayette National Park; give locations, area, and setting of this park.
4. Respects in which Lafayette differs from all other National Parks.
5. Special attractions of this park.
Mrs. C. R. Burrow, Mrs. A. W. Hamill, Mrs. Harvey Cash.

MAY THIRTEENTH

Comparative Study of All Parks

Roll Call—Name of some one who has contributed to the development of our National Parks system.
1. Consider the most popular features selected from all the parks.
2. Classify all the parks according to importance from the standpoint of interest to the tourist.
3. Classify all the parks according to the similarity of natural features.
Arrange a return tour to include some points of interest not included in National Parks.
Mrs. L. G. Allen, Mrs. Levi Angel, Mrs. O. L. Coleman.

MAY TWENTY-SEVENTH

Annual Picnic.

REFERENCES

An unlimited amount of free material on the subjects of this year's study may be had from railways, travel agencies, chambers of commerce, lumber companies, magazines, too, contain many very interesting and readable articles on our parks. *The Saturday Evening Post* has had articles at intervals for several years. Members of the club will do well to begin to collect material for their particular program as soon as the year book is made up. It would be an interesting feature to have an exhibit of materials gathered while studying this course, in connection with some activity of the club late in the year. This exhibit might afterward be presented to the public school.

LEST WE FORGET

Be on time.
Remember to pay dues during the month of October.
Pay fines promptly.
Be familiar with the club constitution and by-laws.

LITTLE WANT ADS BRING RESULTS

School Attendance In-
creases Daily, States
Supt. A. D. Payne

The attendance of the public school was increased by about twenty this week, according to the report of Supt. A. D. Payne to the board of trustees at the meeting Monday night.

The west truck is loaded with forty-two children, and arrangements will be made to relieve this situation. The south truck is loaded about as it was last year.

The first grade has taken a few children under the scholastic age when tuition is paid by the parents for the entire school year, but no more children will be received after next Monday who are not of scholastic age.

After the completion of the new building last year, the seventh grade was placed in the new house, but this year the high school is so large that the seventh grade was forced back to the old building. The attendance in the grades is so large that all but two of the rooms in the old building are now occupied by classes. Every possible room in the new building is being used by the large number attending the high school.

Those who have kept in close contact with the school problems of Canyon, and have seen the school attendance multiplied three fold in the past four years are well aware that if this normal increase continues, it will not be five years until the people will face another building program.

Supt. Payne reports that the school got under excellent headway the first week of school, and that the organization is running very smoothly this week. Both pupils and teachers are working to make this the best school year Canyon has ever had.

The only handicap confronting the school is a shortage of books. Owing to many changes in the text books this year, the state department was unable to send to all of the schools books by the opening of school. This shortage will soon be provided for with new books.

HIS ONLY CHANCE

"You are always talking economy to the public."

"I've got to take somebody into my confidence," answered Senator Sorghum. "There's no use talking economy to my family."—Washington Star.

NOT GUILTY

Mandy—"Mose, is yo' sho' yo' didn't marry me fo' mah job?"

Mose—"Co'se ah didn't gal! Lawdy, no! Yo' jes' go ahead an' keep yo' ol' job!"—Oklahoma Fiery Cross.

Motion pictures can be made at the rate of twenty five thousand a second by means of a new apparatus advertised by a subdirector of the Institute Marcy in Paris. The highest speed used in ordinary pictures is three hundred a second.

Since the beginning of the year there have been forty-one thousand criminal cases involving the violation of the prohibition law. Thirty-five thousand of these have been convicted.

Since becoming president, Mr. Coolidge has done less traveling than any of his predecessors. Ex-President William Taft was the most traveled, having journeyed 114,558 miles during his term.

Man's mastery of the elements is now complete, if nothing happens.—Columbus Ohio State Journal.

Twenty miles of sewing thread may be used in the making of a fur coat.

Farms absorb three-sevenths of all the steel and iron made.

Home again from vacation, with a wonderful tan on our cheek; back—with renewed ambition which doesn't play hide-an'-seek.—Back from the glad vacation—armed anew for the fray. . . . Supple in mind and body, from a season spent in play. Ain't no tonic invented that's half so potent or sure, as the good old American mixture of sun-air-an'-water pure. . . . Troubles that seemed like mountains, dwindled to pleasant chores—due to a plunge in the fountains of God's great Out-o'-doors! Back again from vacation, with muscles like Cardiff's kid,—lovin' our occupation bet-ter'n we ever did. . . . Leads to the calm reflection which inspires the soul to say, "When yer system needs correction—shut up, an' go out—an' play!"

The Collier Trophy

Gold, silver and bronze ballot box trophy, 36" x 28", from Tiffany, which will be awarded by Colliers, the National Weekly, to the state which makes the largest proportional increase in its vote for President this year over 1920.

ONE OUT OF EACH HUNDRED HAS TOUCH OF TUBERCULOSIS

One person in every one hundred has active tuberculosis, according to an announcement made Sunday, based upon a seven year health study in the city of Framingham, Mass., by the National Tuberculosis Association. Another one per cent has this disease in an arrested or latent form.

As a result of the seven years of intensive effort the health and tuberculosis demonstration at Framingham, Mass., has reduced the tuberculosis death rate 68 per cent as contrasted with a reduction of only 32 per cent in neighboring towns. The death rate among infants under one year of age has been reduced to 40 per cent. It costs the people of Framingham \$2.40 per capita per year to keep up the work that brought about these results.

Dr. Donald B. Armstrong, executive officer of the demonstration, says "Any city in the United States can buy a similar or greater reduction of deaths from tuberculosis if it will pay the price. The people of Framingham taught themselves and the world that health work pays big dividends."

The Texas Public Health Association has, for a number of years, been carrying on a campaign of disease prevention, financed entirely by the sale of tuberculosis Christmas seals. During the past year the State Board of Health spent only approximately three cents per capita, a sum much too small for efficient health protection.

WITHOUT HALF TRYING

"Have you had static on your new radio?"

"Mrs. Newlywed—"Well, Harold has had Los Angeles and Cuba, and I'm sure he could get static if he wanted to.—Life.

The sacred camels of Turkey which set off every year to Mecca laden with rich gifts carry their treasures very haughtily as they are relieved from any ordinary duties.

SIXTY and no regrets

Age should have its compensations. It should be free from all worries and responsibilities of younger years. There should be no financial worries—and there are none for the man who during producing years spent less than he earned and banked the difference. At any age, it is neither too soon—nor too late, to be moderate in all things—and happy.

RAIN NOT TO STOP FAIR

DEFENSE DAY ENLISTS 212 MEN IN AMERICAN ARMY

PARADE OF SIX BLOCKS HELD AT FOUR O'CLOCK.

Rev. W. C. Kunze in Address Urges Loyalty to American Government and American Ideals.

With almost perfect weather, and one of the largest crowds seen in Canyon for several months, the Defense Day program was carried out Friday afternoon at four o'clock.

The keynote of the day was struck by Rev. W. C. Kunze, new pastor of the Presbyterian church, who believes that America, her government and her ideals, are worth saving—are worth fighting for, if necessary.

The speaker outlined some of the great qualities of America—her homes, her churches, her schools, the national prosperity. He declared that an institution so successful, and that had done so much for its people was worth saving; worth fighting for if necessary.

The parade preceding the speaking was formed on Fifth Avenue and was six blocks in length. The failure of the ex-service men to show up for the parade was the only disappointing feature.

During the day 214 men were enlisted for military service for the day, which was really more than had been anticipated.

OFFER CHURCH FOR SALE.

Not often do you see advertised for sale a church building, but this is the case today, as in this edition of the News is found a statement that the local Methodist church building is for sale.

The new church building is progressing rapidly and with good luck ought to be ready for occupancy this fall. After the new church is completed, the congregation will have no further need of the old house and lots, and besides, the money is needed to go on with the new building.

SOPHOMORES CHOOSE OFFICERS

The Sophomore class of the Canyon High School held their first meeting September 11 for the purpose of choosing officers for the term of 1924-25. The following were chosen with Miss Carriewood Cleveland as sponsor: Otis Higdon, president; Mary Louise Anderson, vice president; Lois Mangum, secretary-treasurer, and Cap Wall, sergeant-at-arms.

APPOINTED PUBLIC WEIGHER.

J. L. Prichard has been appointed public weigher by the commissioners court. He was a candidate in the last primary, and his name will be on the general election ballot in November for the term starting in January.

SCHOOL TAX ROLLS ARE READY FOR COLLECTION

The tax rolls of the Canyon Independent School District are ready for collections, and Collector J. H. Hensley will receive say tax payments. The first month of the school year closes on Friday of next week, and money will be needed to pay the teachers' salaries.

Tax Rate of County Is Lowered Over the Rate of Last Year

The Commissioners Court has lowered the county tax rate from \$1.00 of last year, to 82 cents on the \$100 valuation for this year.

The tax rate is divided as follows: County ad valorem 25c Court house and jail 4c Road and Bridge 15c Jury 13c Special Road and Bridge 15c Sinking fund 20c

Levies are made for the various common school districts in amounts sufficient to run these schools. County Tax Assessor Tom Reddell is working on the tax rolls, and will have them completed by the first of October ready for Collector W. C. Black to start collecting.

Federal Trade Commission Seeks to Find Value of All Wealth

E. H. Madden of Washington, D. C. was in the city yesterday looking over the records of the county. He is a representative of the Federal Trade Commission, which body seeks to find the valuation of the wealth of this country. An attempt will be made to ascertain the increase in wealth from 1912 to 1924.

BOOK CLUB RECEPTION

The Woman's Book Club met yesterday with Mrs. J. A. Hill, it being their first social meeting of the year. There were about twenty ladies present in spite of the threatening weather. Each member present answered the roll call by childish stunts which were very interesting and the president made a short talk, after which ensued a round table discussion of the program for the coming year.

PRINT BUFFALO HANDBOOK.

The News is completing the new edition of the Buffalo Handbook, which will be distributed next week to the students as they arrive at the College.

Two thousand copies of the Handbook is printed this time. There are 66 pages and cover in the book.

BUILDING COUNTRY HOME.

A. Allison of Vernon is having a new 14x28 house built on his farm north of the city, known as the Dr. Moody place. T. J. Brannon of Vernon is here doing the work.

PARENT-TEACHERS MEET.

The Parent-Teachers Association will meet the first Friday in October at the new high school building.

Eagle Flying Circus to Be One of Big Attractions at Tri-State Fair

The Eagle Flying Circus is the newest spectacle billed for the Amarillo Tri-State Exposition, Sept. 22 to 28. This circus consists of three planes, manned by a crew of aerial daredevils who twice daily will defy death by wing walking and acrobatic feats performed high above the fair grounds.

The Flying Circus, however, will have stiff competition as thrill maker, for "not a dull moment" has been the motto in arranging the program. Races every afternoon, the colorful Pageant of the Plains at night, magnificent fireworks displays, an Indian buffalo hunt with bows and arrows—real Indians and real buffalo—are on the program. Last, but by no means least, are football games Friday and Saturday mornings.

NATURAL GAS FOR CANYON IS THE AIM OF NEW COMPANY BUYING HUGE INDUSTRY CONTROLLING THE BIG GAS FIELDS

That Canyon is nearer to a gas line from the Amarillo field than we have ever been in spite of the numerous conferences held and plans considered, is felt from the statement of Nelson K. Moody, of Independence, Kansas, president of the Prairie Oil and Gas Company, and the Amarillo Oil Company, made at a banquet in Amarillo Saturday night.

Mr. Moody heads a \$10,000,000 company, which has taken over the entire gas field north of Amarillo—the largest proven field in the world.

"The Panhandle and Amarillo must be developed if we are to secure any returns on our investments in the Panhandle oil field and it is only natural to assume that we are going to do our part to see that this section prospers," said the speaker.

"We have thought of a pipeline to Canyon, Plainview, Tulla, and other points on the South Plains. That line will be constructed in the future. That is the only line that has ever been considered by us outside of Amarillo."

Mr. Moody made it plain that his company did not contemplate piping the gas outside of the Panhandle, as has been considered by other companies in the past.

BIDS ON NEW DEPOT OPENED YESTERDAY BY THE SANTA FE

Yesterday was the date for receiving bids on the new Santa Fe depot in Canyon.

The contract was not awarded yesterday, but information given out indicates that the contract will be awarded today or tomorrow.

It was intimated that satisfactory bids had been received, and that work would start at once.

Full details of the contract will probably be given to the public not later than Saturday.

The Santa Fe constructed an extension to the trackage several weeks ago in order that materials for the new depot might easily be unloaded, and all is in readiness for the new building.

A marriage license was issued Sept. 15th to W. E. Camp and Miss Ora Backman.

Cotton Opening in This County and Prospects Are Very Promising

Cotton over the county is reported to be opening in fine shape. Several cotton raisers are anxiously watching the cotton and trust to be the first to bring a bale to Canyon.

The weather during the past month has been good for cotton, with the exception of the nights, which have been a little too cool.

The cotton raisers were hoping for continued dry weather for another month, but the rain came yesterday in spite of their wishes.

Several experienced cotton men who have made a close examination of the cotton situation in Randall county during the past two weeks are confident that several farmers will make a bale to the acre should the weather continue favorable up to the middle of October.

The price of cotton is being continually hammered down on the market, and cotton will start at a low price in this section.

The row crop in Randall county has never looked better at this time of the year. The grain crop is going to be exceptionally big, and from present indications the price is going to be good.

NEW COLLEGE TEACHER HERE.

Mr. and Mrs. Harris Cook arrives today from Mississippi. Mr. Cook becomes a member of the College faculty at the opening of school next week, taking the work of Miss Adalin White in the Education department.

HAD OPERATION MONDAY.

J. L. McReynolds underwent an operation in the Northwest Texas Hospital in Amarillo Monday. He is doing nicely, was the report yesterday.

S. B. McCLURE SICK.

S. B. McClure was taken sick on Thursday morning with acute indigestion. His many friends will be glad to hear that he was reported much better this morning.

RANDALL COUNTY FAIR OPENS TODAY AND WILL CONTINUE THROUGH SATURDAY—ONE DAY ADDED TO THE FAIR

RODEO, FOOTBALL GAME, BASEBALL GAME, AND BIG NIGHT PROGRAM WILL BE FEATURE OF FAIR—LARGE NUMBER OF EXHIBITS ARE IN PLACE AT THE FAIR GROUNDS—CANYON PEOPLE URGED TO ATTEND.

Although rain yesterday stopped some of the preparations at the fair grounds on the College campus, it was decided this morning to start the Randall County Fair today, just as soon as the weather cleared a little.

The Fair will continue through Saturday, owing to the fact that the attractions will be cut short today. With favorable weather this afternoon, all of the exhibits will be in place, and the Fair ready to receive visitors.

COME TO THE FAIR FRIDAY AND SATURDAY IS THE WORD SENT OUT THIS MORNING BY FAIR OFFICIALS.

Under the direction of the City Federation, by far the biggest Woman's Department the Fair has ever had will be held in the College building. No suitable place could be provided on the grounds for this big display of art and bakery exhibition, hence the place for it in the College building.

The swine breeders started Tuesday to get the stock pavillion in order, and there will be a big showing in this line, although the futurity show is not so big as in past years.

Judges will be as follows: B. B. Holland, Amarillo, agriculture, R. C. Mowery, Lubbock, live stock, Mrs. J. G. Short and daughter, Amarillo, woman's department.

Dr. H. W. Duke, Amarillo, poultry. The judging will be done Friday.

A switch in the plans was made and the football game will be played between the high school Eagles and the All-Star team this afternoon, instead of on Friday, and the Fat vs. Lean baseball game will be played on Friday afternoon.

A good amusement program will be given tonight on the grounds.

A large number of season tickets have been sold, while the sale is still being pushed in order that the finances of the Fair may be insured.

The monthly Trades Day will be held in Canyon Friday, and the lot drawing will be held at the Fair grounds at 5:30 in the afternoon.

The people of Canyon are urged to attend the County Fair. The exhibition is well worth visiting and spending several hours, and the Fair means much to Canyon.

The rodeo is developing rapidly, and has been well advertised all over the Plains. This feature is to be held on grounds north of the fair grounds.

A small admission is charged to the Fair in order to meet the financial obligations incurred by the large premium list.

Forty Indians From Oklahoma Will Take Part in Tri-State Exposition

A band of forty Kiowa Indians will arrive in Amarillo tomorrow from Oklahoma to take part in the big Tri-State Fair next week.

They will take a leading part in the picturesque Pageant of the Plains. The Indians will camp during the fair on the grounds, and imitate the native primate way of living during the early days of this section.

The Indians are bringing with them their full regalia and equipment for their dances and their buffalo hunt, which will be staged during the Fair.

In this company there will be some of the old famous scouts and most remarkable characters in this famous tribe of Indians.

REMODELING FARM HOUSE.

W. C. Black is remodeling the house on his farm west of the city. J. A. Tate will move to this place next week.

Mrs. Myrtle Rusk is Found Dead in Her Home Yesterday a.m.

Mrs. Myrtle Rusk was found dead in her kitchen yesterday morning by one of her children. She had arisen, probably for the purpose of starting breakfast, and was found dead. It is thought that she had passed away only a short time before the children found her.

Coroner H. O. Price conducted an examining trial yesterday, and the jury found that she died of unknown cause.

Mrs. Rusk and Fite Casey had been in Amarillo Tuesday, and returned home early. Mr. Casey left the Rusk home about ten o'clock, and she was in her usual good health.

Physicians examined the body closely yesterday and testified that they could find no cause for death. No autopsy was performed.

Mrs. Rusk was born in Alabama on March 31, 1895. She is the daughter of Mr. and Mrs. W. W. Claunch of this city. She was married to D. V. Rusk in 1912, two children being born to this union. They were divorced three years ago.

The funeral services will be held this afternoon at the home at two o'clock.

RAIN YESTERDAY.

Rain started to fall yesterday morning at one o'clock and continued until late in the afternoon, with a total fall of .87 of an inch.

The rain was not particularly needed at this time, but will put the ground in fine shape for wheat planting this fall.

TRADES ARKANSAS HOTEL.

J. L. Penrod traded the Arkansas Hotel yesterday for a section of land near Spearman. Penrod's friends in Canyon say they are going to ship him up to the farm and make him go to work for a change.

BUILDING NEW HOUSE.

Louis F. Hart is building a new five room stucco house at 16th street on Eighth Avenue.

THIS EDITION OF THE NEWS IS COMPLETED IN 3 1/2 DAYS

The News has one of the best printing plants and THE BEST force in West Texas when it comes to turning out printing in a record time.

This sixteen-page edition of the News was produced in exactly three and one-half days time.

Not a single line of type, or a single advertisement for this edition was up when the office opened Monday morning. The edition is off, and the usual amount of job printing has been looked after up to our usual time of going to press on Thursday morning.

The News has the biggest printing plant in the Southwest according to the size of the town and our facility for handling all kinds of printing cannot be surpassed in this territory.

The News goes into more than ninety percent of the home of Randall County, and offers the best advertising medium to cover the county.

The big printing plant, and this newspaper is for the service of those wishing the BEST in these lines.

Invest your printing money in Canyon.

TAKE YOUR CHOICE! Advertisement featuring portraits of Coolidge, Dawes, Davis, Bryan, LaFollette, and Wheeler, with the state capitol building in the background.

PREPARATIONS MADE FOR OPENING OF COLLEGE SEALED BIDS

BIG ATTENDANCE EXPECTED AT OPENING OF COLLEGE

DORMITORY ROOMS ARE ALL ENGAGED BY STUDENTS.

College Seeks to Serve All Sections of the Panhandle States President J. A. Hill.

The West Texas State Teachers College will open its fifteenth regular session on Sept. 24. With the enrollment for the last year well over 2,300 the indications point to an enrollment for the first quarter of this school year of slightly over 1,000. A faculty of over sixty members will be on hand for the opening of school.

Cousins Hall and Randall Hall, the two State-owned dormitories for girls, have had all their rooms engaged for some time; during the vacation month several needed improvements are being made to these properties; sidewalks have been added to those already on the grounds of Cousins Hall, sidewalks, painting and small repairs are being made at Randall Hall, which was thoroughly renovated last spring.

Farm to Furnish Supplies

The College dairy was successful in furnishing fresh milk for the dormitories last year and supplied part of their egg and poultry supply; so successful was this effort under the direction of the Department of Agriculture that this year the poultry flocks will be greatly increased and it is expected that the young women who live in the dormitories will be supplied with fresh eggs at all seasons of the year.

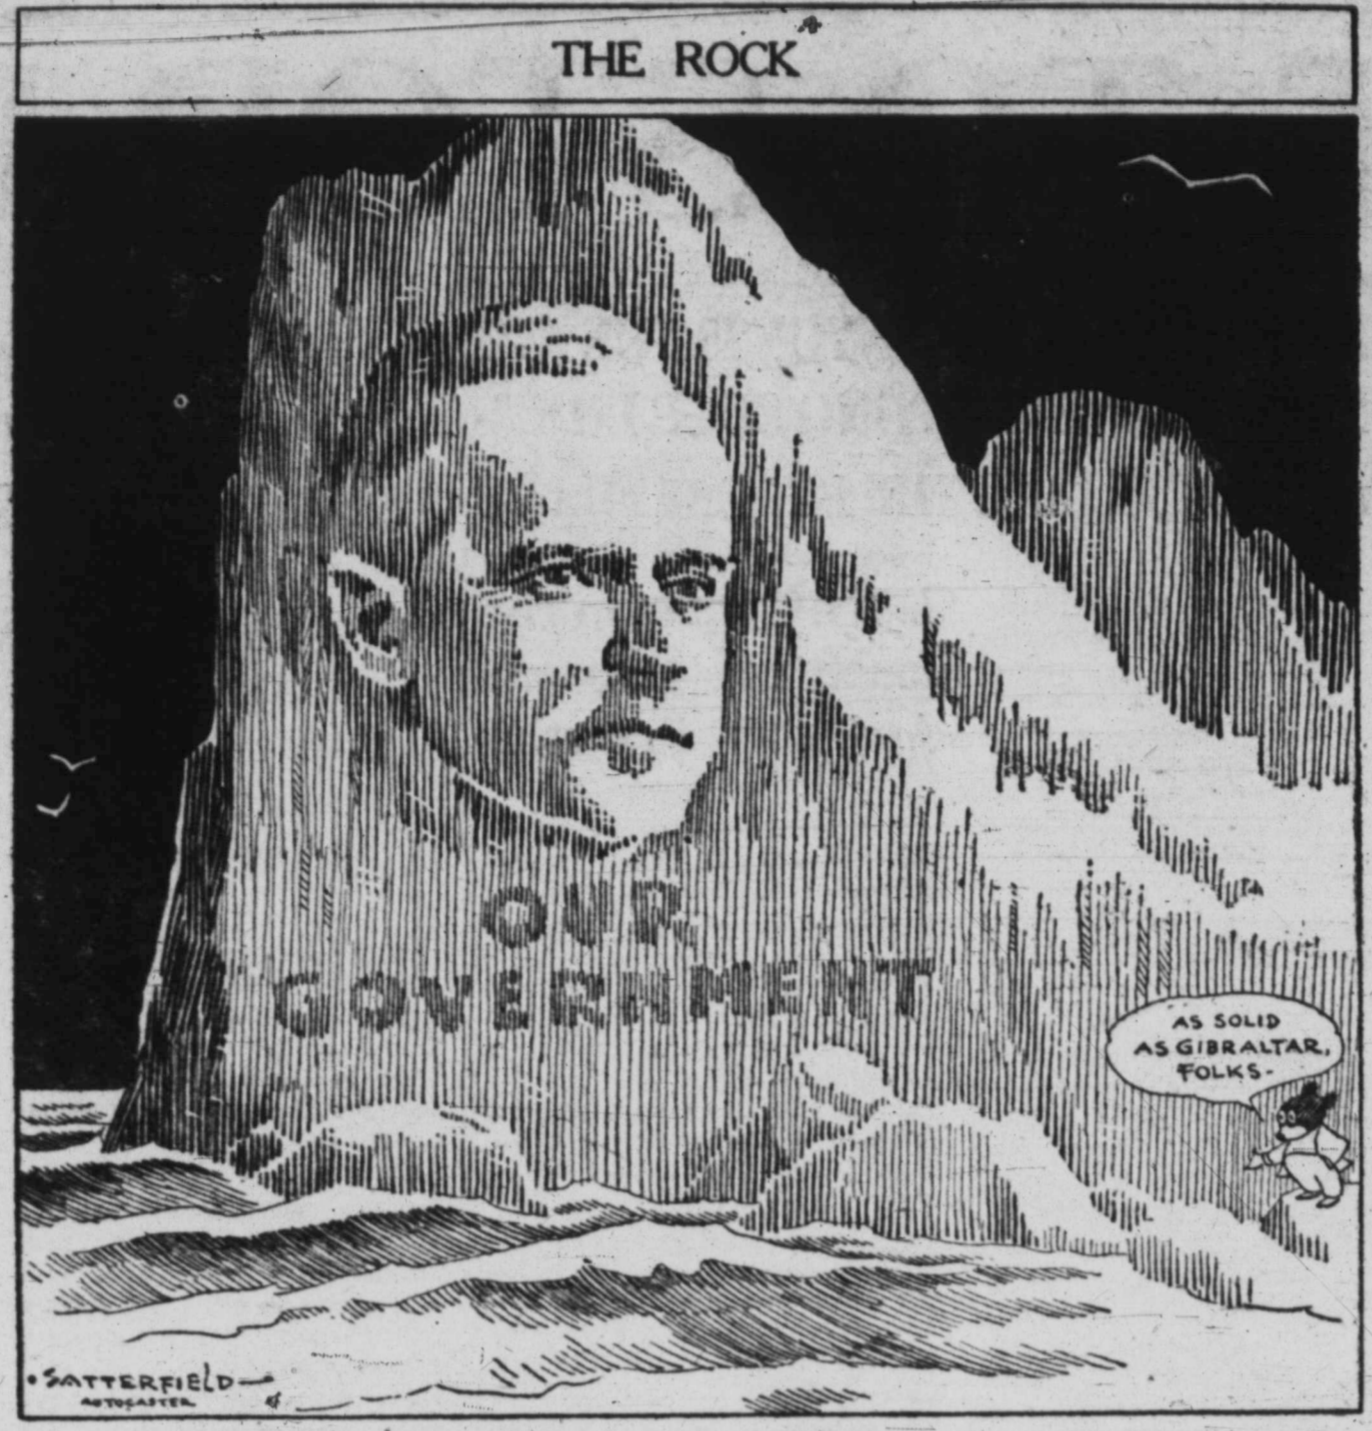

Members of the faculty of this College are constantly bettering their own educational equipment; this year six members are studying in the universities of the East and North, having been granted leaves of absence; their places are filled by well-educated men and women who bring to the institution the invigorating effect of their widely different experiences.

Churches and the College

In order to better care for the great number of student residents of the city all of the churches of Canyon are striving to better their houses of worship. A new Methodist Church, erected at a cost of \$45,000, will be ready for occupancy this fall, a modern structure has been erected this summer by the Roman Catholic organization at a cost of approximately \$10,000. The Church of Christ is completing a stucco structure which will amply care for its needs for some time to come; the Baptist people expect to begin building a new church immediately after the new year. The Baptist and Methodist churches both maintain student secretaries, whose work it is to see that the young people of those faiths are assisted in solving their religious problems and that their recreations are wholesome. On their part, the students of the Teachers College furnish much that is worth while in the activities of the churches.

The Chamber of Commerce

Practically every member of the

Teachers College faculty belongs to the Canyon Chamber of Commerce. President J. A. Hill, Registrar D. A. Shirley and R. A. Terrill are officers in this club; not only the men but the women as well belong and attend the meetings. By a splendid co-operation the Chamber of Commerce and College have managed to bring about many desirable improvements in the town.

College and Panhandle Region

It is the belief of President J. A. Hill and his co-workers in the West Texas State Teachers College that this State-supported institution should serve all the people who are in the territory adjacent to it. Each year it comes nearer fulfilling this high ideal. Helping school boards with their problems, furnishing lecturers and high class musical entertainments to communities unable to spend huge sums of money for them, providing correspondence courses for teachers in the field, helping parent-teacher societies to fulfill their proper function in their respective communities, assisting local authorities in pushing forward community building programs, fostering clean athletics and high literary culture through the Interscholastic League are all items in the day's work of this College organization.

It is facing the 1924-25 session in better condition to meet the demands made upon it than ever before, and unless visited by great calamity will do the greatest work for Texas within the next twelve months that it has ever accomplished, the president says.

Farmers expect a prosperous year in spite of drought, insects, frost, crop experts and political advisers.—Wall Street Journal.

Randall County Singing Convention to Meet Next Sunday

The last convention of the year meets at Zita Sunday, Sept. 21st. All who are interested in Gospel Song are urged to come and help make this the greatest meeting of the season.

There will be some important matters to come before the convention and we want those who have the Gospel Song cause at heart to be there to advise and vote for the things that will be to the best interest of the convention.

Let everyone who can boost and push to make the convention a success, that there may be a deep and growing interest among the children of the land in a good cause.

If the singing in your church is not what you would like it to be, line up with the convention and get a little pep and spicing in it. Get a good man who can deliver the goods to come and teach a school in your church and note the difference it will make. We have some good teachers in our county, why not use them. If they happen to be busy at the time you want a school, I will be glad to put any one who is wanting a school in touch with a man who can deliver the goods in a satisfactory way.

One important matter at the convention will be the election of officers for the coming year. Think this over and have your minds made up. I feel that some one else can serve you better than

I can, besides I have had the office for two terms.

Therefore, for the best interest of the convention, please consider someone else for president. Also the offices of vice-president and secretary are important ones to fill, so let us try to get a set of officers that will make things go.

Let everybody come and bring dinner and give the visiting singers from other counties a hearty welcome to our county is the wish of

Your humble servant,

L. L. LOVORN, President
Randall County Singing Convention.

Up to September 22, the Methodist people will receive bids on their Old Church and the lots on which it stands. Bidders may bid on building to be removed from lots and on lots with Church removed if they wish. The congregation is keeping the furniture and reserve the right to reject any or all bids.

Committee:

W. J. FLESHER
H. M. ROCKWELL
J. M. CRAIG.

Are you waiting for Blizzards, cold weather, bad roads, and high prices, before you buy your supply of coal for next winter?

Fiftieth Anniversary of Buffalo Wallow Indian Fight on Last Friday

Friday, September 12th was the fiftieth anniversary of the Buffalo Wallow Indian fight.

The location of this battle ground is in Hemphill County between the Washita river and Gagey creek twenty-two miles south of Canadian and about the same distance south of Miami.

At this place September 12th, 1874, two Government Scouts and four soldiers, while carrying dispatches from General Nelson A. Miles' camp on McClellan creek to Fort Supply were surrounded and held for forty-eight hours by a band of 125 Kiowa and Comanche Indians, fully armed and on the war-path.

In the beginning of the fight all the men were wounded and all except two disabled. One of the soldiers received a mortal wound from which he died during the night after the attack.

The story of the fight is too well known to repeat in detail here.

About two o'clock in the afternoon of the first day's siege a cold fall rain fell which proved the salvation of the beleaguered party. The water that gathered in the Buffalo Wallow gave them something to drink although it was mingled with their own blood. It also discouraged the Indians and had a lot to do with them abandoning the attack.

Each one of the men who fought in the Buffalo Wallow fight and came out alive was presented with a Congressional Medal of Honor which is the highest insignia of honor given the nation's heroes. Only 86 of these medals were given during the World War and only 1869 have been awarded since the foundation of the Republic. If for no other reason this alone places this battle in a class of its own.

Much space in newspapers and magazines have been given the Adobe Walls Indian fight and the importance of perpetuating the memory of that noble conflict against savage Indians has been stressed, yet the Buffalo Wallow fight was made under more trying conditions and hardships and is an outstanding event in the history of the Indian campaign in the Panhandle.

"Billy" Dixon, who fought both at the Adobe Walls fight and the Buffalo Wallow stated later that the Adobe Walls fight was played compared with the one in Hemphill County. He further stated that he hoped some day the place would be marked.

Of the six men who took part in the Buffalo Wallow fight only one, Amos Chapman, of Seiling, Okla., is alive. His age being near 80.

In the last days writing of his experiences at Buffalo Wallow, "Billy" Dixon said: "Every night the stars are shining away out there on the Washita and the winds sigh as mournfully as they did then, and I often wonder if a single settler who passes the spot knows how desperately six men once battled for their lives where is now plowed fields and safety and comforts of civilization."

OLIVE K. DIXON.

Nobody can say nay to the proposition that it requires horse-sense for a stable government.—Savannah News.

TAX PAYMENT EXTENSION.

The City Commission has granted an extension of tax payment time to September 30th. Taxes not paid by that time will go to the delinquent tax rolls and be carry a penalty and interest until paid.

APPROPRIATE

After many conferences had been held by the board of directors of a small-town bank about buying a new water-cooler, a grouchy old member had this to say:

"Gentlemen, before we adjourn, I move that our next conference be held on a merry-go-round."

And, as they looked at him in astonishment, he added the tag of explanation: "We never get anywhere."—Wall Street Journal.

ONLY AT DISCRETION

"What do you think of this living beyond one's means?"
"It ought not to be compulsory."—Louisville Courier-Journal.

Mildred Smith Gives More Suggestions as to Proper Eating

Miss Mildred Smith, Red Cross Nutrition-Worker, who was in Randall County the past year, writes the following:

Perhaps constipation causes as much ill health as any one thing. It poisons our body, lowers our resistance to disease, and keeps us feeling below par all the time. It is dangerous and should not be tolerated.

Luckily it is easily curable. Doctors tell us that 90 per cent of it is caused by wrong diet and wrong health habits. Of course it can be cured by correcting these. The other 10 per cent needs medical advice.

If you follow these suggestions carefully, you have nine chances out of ten that you can cure yourself or your children of constipation.

First: Establish regular habits. Go to the toilet the same time every day. Do not take cathartics or laxative drugs except on the special advice of a physician. If you need something of the kind at first take some mineral oil; it is harmless.

Second: Drink plenty of water, 6 to 8 glasses every day. Drinking 2 or 3 glasses before breakfast is especially helpful.

Third: Take plenty of exercise daily. Brisk walking is very good. The doctor will show you special exercises if it is necessary.

Fourth: Eat laxative food. This means especially:

1. Fresh or dried fruits. Prunes and figs are very good.
2. Leafy vegetables in particular. But all vegetables are helpful.
3. Coarse breads and cereals.
4. Avoid rich-desserts, candy and pastries.
5. Avoid large amounts of meat.

Good Long Distance Service

If you use the long distance service you already know how speedy, efficient and satisfactory it has become.

Our toll operators are a part of a large staff of skilled operators who were never better trained, more courteous or obliging. Science has worked wonders in perfecting transmissions and our system has been equipped with every known device to insure good service, no matter what the distance.

In fact, distance as a factor in long distance service has been eliminated. The voice of a speaker five hundred or a thousand miles away sounds as if he were just across the street.

We will be glad to give you the rate to any place at any time.

SOUTHWESTERN BELL TELEPHONE COMPANY

WEEKLY

Randall County News: The clean-up campaign planned for Friday was knocked in the head by the continued rain. The rains are making the weeds grow fast and faster, until they resemble young forests in some parts of town. In spite of the fact that the ground has been wet for the last week, it never gets too wet to cut weeds.

State Press: Wonderful the way it has rained in Western Texas this year. From some indications it appears that the unjust as well as the just in that part of the country have enjoyed the benefactions of Jupiter Pluvius. But that is all right. The unjust will come to a time when they will bawl for rain and receive not a drop for their unacclimated tongues. As for the need of weed cuttings in Canyon, why not import some weed cutters? It is too much to expect the indigenous population to learn new tricks. There are men of middle age in Randall County who have never cut weeds and never will. The weeds in that area used to never need cutting. It is only newcomers who now see in urban weeds signs of domiciliary indifference. It is not too much to say, indeed, that those who criticize weeds on their own or their neighbors' premises are not of the staff of which frontiersmen are made. Since Randall County became farming country and Canyon took on metropolitan ways, since the low rumbblings of the Bull has ceased to reverberate from hill-top to horizon and the merry cowboys and the buffalo bivouacked in proximity to each other—since, in short, that exuberant portion of our peerless Commonwealth became urbanized, weeds have become de trop. And there is a steady demand for weed-smiths, with few to be had.

We'd almost rather never be nominated for the Presidency than be obliged to pretend to be so good and pious throughout the entire period of our candidacy.—Columbus Ohio State Journal.

Important Things You Should Consider

The fact that the J. C. Penney Company operates 571 Stores is interesting to you in two ways:

First, because of its extensive operations it brings to you the advantages that ordinarily are not enjoyed outside of Chicago, New York and other large cities. When a style is new, this store has it while it is still new.

Second, because of our very large collective buying important savings are made. These savings are passed on to the customers of every one of our stores. You with others benefit largely.

J.C. Penney Co.

Dress Shoes For Men

Men's gun metal calf Shoes in a smart style for dress wear. Welt sole. Sizes 6 to 11. A splendid value at our low price!

\$4.98

Girls' Shoes For Dress Wear

Patent leather Shoes with airdale tops and patent trim. Rubber tap heel. Tip. Fancy stitching.

Sturdy Brown Dress Shoes For Boys and Youths

Only the needs of our more than 500 stores enables us to provide such good serviceable shoes at these low prices. Many boys prefer them because they are brown, but parents appreciate them because of the tip and half rubber heel.

8 to 12 ----- \$2.98
12 1/2 to 2 ----- \$3.48
2 1/2 to 5 1/2 ----- \$3.98

BUFFALOES LOOKING FINE

Eagles Play Amarillo Hi at Fair

With fifty-six football men in uniform, twelve of whom are letter men, the daily grind of the Buffalo football team is going on, and the coaches are delighted with the progress of the training camp as it rounds out its first week.

Head Coach S. D. Burton states that the first scrimmage will be held Friday or Saturday of this week. As soon as signal practice starts, the gates will be locked, as no chances will be taken this year with any inside dope leaking out.

There are twenty-five men out for back-field positions, and thirty-one men are contending for a place in the line. The Buffaloes will have the strongest line in years, according to those who are in daily connection with the squad. The back field is better today than it showed up at the end of the first week last year. The back field is probably not so heavy as last year, but this will be overcome by the difference in speed.

Coach Burton states that he is well pleased with the showing of the first week's practice, and has great faith in the success of the team during the season. He states that he never has worked with a squad which entered more earnestly into training than the fifty-six men on the Buffalo Field. Every game on the schedule won, is the goal of Coach Burton, and he is instilling that fighting spirit into his men to make them win every game this fall.

Assistant Coach Eckhardt is working with the back field men. He states that he is well pleased with the twenty-five candidates trying for these positions. Speed and accuracy in passing is rapidly developing in the men. Assistant Coach Jackson has a bunch of big huskies working for the line. Thirty-one candidates are busy under Jackson every day, and the old men of the Buffalo crew will have a battle to hold their places against some of the new men on the squad.

Captain Grady Burson expressed his great delight over the splendid showing the squad is making. He states that never has he worked with a squad that showed so much enthusiasm. Never once has he heard a complaint from the men during the hours of hard practice, and there is not a single man in uniform who is not doing his dead level best to make the team. Incidentally, the big Captain is a real leader on the field. The coaches have never assigned a task too strenuous that he has not been the first of the squad to jump in-

to it with might and main. His leadership is honored and respected by the men on the practice field.

Along with Burson, the other letter men back with the Buffalo team are Herm, Bivins, Mitchell, R. Thompson, W. Thompson, Vaughn, Law, Sone, Adams, Jones, Golden and Santy.

Freemont Meade is among the most likely new men, although not exactly a new man here, as he was in school in 1914. Meade is trying out for the back field. He is heavy and fast. He knows football, and a berth on the team will no doubt come his way.

Among the pleading new men on the squad are Crump of Ralls, Gamel of Ochiltree, Nelson of Floydada, Maxey of Floydada, Brown of Plainview, Knapp of Slaton, Sadler of Maryetta, Okla.

There is a wealth of material among those men who fought for places on the squad last year, and were so much instrumental in developing such a strong aggregation of first string men. Among these are: Davis Hill, Bob McGee, McVicker, H. Sone, Preach Fuller, Burks, Haley, McDonald, Angel.

The first game of the season will be

one week from Saturday with the Teachers College from Alva, Okla. Nothing is known of the strength of that team. Both teams went into training about the same time, and have about the same number of experienced players to draw from.

\$100,000 Invested in Tri-State Fair by the Citizens of Amarillo

Fervid activity prevails this week at the Tri-State Exposition grounds, where final preparations for the greatest annual event of the Plains region are under way. The eight buildings are complete except for finishing touches but decorating and final arrangements will keep workmen and officials busy.

An array of exhibits so strong as to amaze those in charge, a fast program of horse and motor races, the Pageant of the Plains, a realistic Indian buffalo hunt, two football games and numerous free attractions will afford continual entertainment for all visitors.

Dave Derden will have two bands here, in order to furnish music for all occasions. Three airplanes, with a crew of former army aviators, will do stunt flying and death-defying aerial acrobatics above the fair grounds twice daily. Gorgeous fire works displays, dazzling in their brilliance, amazing in their ingenuity and filled with beauty, will be free attractions on Monday, Saturday and Sunday nights. Colonel Ernest O. Thompson is arranging for a sham battle in connection with Saturday night's display.

The dairy cattle, agricultural and machinery exhibits will be the most comprehensive ever gathered in the Plains region. The showing in these lines directly reflects the advancement of agriculture in this section and also the bumper crops which have added millions of dollars to the wealth of the people.

Officials of the exposition believe everyone attending the fair next week will more than receive their money's worth and that the support this year will justify even more extensive plans for 1925.

Nothing but bad weather or unforeseen calamity can prevent the Amarillo Tri-State Exposition being a tremendous success, fair officials declared today in reviewing arrangements for the 1924 fair, beginning Sept. 22 and extending through the week.

Though the Tri-State fair is only in its second year, the management is frankly amazed at the demand for exhibit space, and many buildings already are crowded which were thought ample for years to come.

It is already apparent that there will be fine displays in every department, but that the agricultural, dairy and machinery exhibits will be unusually strong.

Seven expansive buildings to house these exhibits are to be completed by the end of the week and active work toward having everything in readiness for the opening day will be begun.

Amarillo citizens have subscribed

High School Eagles Ready to Meet Amarillo High Friday

The Canyon High School Eagles are fast getting in shape for the first game of the season, when they will meet the Amarillo high school team on Friday morning, Sept. 26 on the Tri-State Fair grounds.

The Eagles and the Buffaloes are scheduled to furnish two of the big attractions for the Tri-State Fair.

The Eagles team is in the best of condition after the ten days spent in practice.

The battle with the All-Star team at the Randall County Fair this afternoon is going to help Coach Noy Hale get a line on what his warriors will do in battle.

Hale has had a plucky squad of thirty-five men under training since the first of the month, and among them are some of the outstanding stars of last year's aggregation, who were able to make all opponents take notice of the Eagle strength.

Among the men who are expected to make the team this year are:

Buster Brown, Delbert Bowes and Pat Gerald, ends; Wallace Buster, Reeves Donnell, Sam Terry and Bill Lockhart, tackles; Jack Covington and Son Oldham, guards; Shorty McCormick and Cleveland Jones, center; Curtis Brown, Ernie Harden and Terrill Christian, quarters; Ira Greenfield, Jasper Atkins and Milton Saunders, halves; Paul Martin and Emmitt McCormick, fullbacks.

According to the dope sheet, these men are likely to win places on the team, but have to contest about twenty others who are fighting hard to displace them.

The season for the Eagles last year was very successful, and Coach Hale and his huskies are looking forward to great success this season.

nearly \$100,000 to erect buildings during the last six months, and the plant is one which the entire Plains region will be proud. Advance information of widespread interest causes predictions that the 200,000 mark in attendance will be reached, if roads are in good condition.

TIERRA BLANCA BAPTIST ASSOCIATION MEETS

The Tierra Blanca Baptist Association is in session Thursday and Friday, Sept. 18 and 19, at Tulla. Many local Baptists are attending the sessions of the association.

"Coolie" is from the Hindoo word "kuli," meaning laborer.

Mr. and Mrs. S. J. Braunig of Amarillo were guests of Mrs. Astrican Sunday.

Things to Know Before Baby Comes

YOU may learn the probable date of baby's birth. What you should have and what baby will need. These and many other important things are fully explained in a wonderful booklet sent free to all expectant mothers. This booklet also tells when and how to use "Mother's Friend"—the much talked about rubbing preparation which relaxes the muscles and prepares the way for a comfortable period during expectancy and for a more natural delivery at childbirth. "I think 'Mother's Friend' saved my life," wrote one fifteen minutes," declared another. You will find these signed letters, and many more, in the booklet which you will receive. "Mother's Friend" has been used by three generations of expectant mothers. Get a bottle today and experience the wonderful effect "Mother's Friend" will give you!

FREE BOOKLET
Write Bradford Regulator Co., Dept. P-4, Atlanta, Ga., for free booklet (sent in plain envelope). Full directions for using "Mother's Friend" will be found with each bottle. "Mother's Friend" is on sale at all drug stores.

FOLKS IN OUR TOWN

Lawyer Peck Evidently Misunderstood
By Edward McCullough
AUTOCASTER

YOU NEED NOT FAIL

Great fortunes are sometimes made in small towns and in strange ways. In Good Ground, L. I., an old fashioned hamlet with a couple of streets and half a dozen stores where motoring tourists stop for gas, or crackers and cheese, and then speed on to more pretentious villages, lives Walter King, known all over the world as an unusual designer of women's hats. Not so many years ago when other boys went clam-digging or fishing King would hurry home from his father's small general store and design hats from the wires taken from bales of hay, covering the frames with calico snipped from bright colored bolts, or with tea matting "swiped" from tea boxes.

His family was poor in those days and they had a hard time of it to educate Walter. His education ended when he graduated from the local high school. The great problem of earning a living was partly solved when a year after graduation he left home to become a window dresser in a Southern city. A lover of beauty with inherent instinct for color combinations he was able to hold his job which in those days was a triumph, but the pay was barely enough to buy the necessities of life, and totally insufficient to "help out" at home. On the threshold of manhood his father's business began to wane, and his mother was stricken with an incurable disease. Walter was ordered to return home and assume the work of the store. This he did, but rising before dawn and working late into the night he began to design hats as a profession and shortly afterwards when placed on display in the little store they caused so much furor in the town that their fame became nation-wide. A few years later Walter King became the most sought after milliner in the East. Today King has an international reputation and is called a rich man.

Help Keep Canyon Clean!

THE PASSING DAY

By Will H. Mayer, Department of Journalism, University of Texas.

Texans are glad that the primaries are over. Politics and August days make a combination that is a bit too hot for the average Texas temperament. In the heat of political campaigns, things are said that should be left unsaid. Even some truths leave bad feelings and political exaggerations nearly always sting. The recent campaigns in Texas have been of a kind to shame the State and to lower politicians in public estimation. We are left to wonder if good people ever ask for office, and our ideals as to office seekers are terribly shattered. The acrimony and bitterness and hatred engendered in political campaigns do not always die quickly.

The worst feature, perhaps, of any heated campaign is that the people are so divided that they do not afterward work together harmoniously, at least for a time. Co-operative effort in community affairs suffers from political division, and every Texas community just now needs complete unity. Anything that causes people to dislike each other is bad for the whole people. Even a religion of intolerance weakens not only religious effort, but neighborliness. We must be neighbors in the fullest sense of the word, each with every other's interest at heart, if we would build up our neighborhood to its best. Political and religious and racial rancor, if allowed to run riot, can ruin the best place.

This writer has often wished that all the wasted energy of political campaigns could be stored somewhere, pretty much as Texas is proposing to store its flood waters, and then could be turned loose as it is needed in the various towns and communities for the rebuilding of those places. If the money spent in an ordinary political campaign could only be used to promote factory building, Texas would soon be a great manufacturing center. If the oratory could be used to sway the people into a spirit of enthusiasm for community development, Texas would blossom like a florist's window. If the time spent in attending political gatherings could be devoted to road building, there would be no need for an automobile tax for road purposes.

Of course a reasonable time given to a study of politics is to be commended, but the average political speech is not given to an intelligent discussion of public questions, but to berating somebody and to making wild promises that are seldom fulfilled. Candidates appear to think that the people no longer want conservatism in public office, and it must be confessed that they are a bit justified in that conclusion. We are, fast becoming to occupy a middle ground on any question. If we are going at all, we want to go fast; if we do anything, we want to do it furiously. We need to study politics, but to be sure that it is politics and that we are applying ourselves to its study in moderation.

There is no need to waste time in regrets of the wasted past. Try to forget it. The best way to do that is to take up some constructive work. There is in every town and community in Texas something that needs to be done for that place through a united effort of its people. In most places there are many such things. Decide which is the most important, which should be undertaken first, and get right behind that movement as vigorously as the candidates and their supporters have been at work for the last few months. You might learn a valuable lesson from these and possibly might induce them to take the leadership in whatever your community does.

Instead of holding jollifications over

THE REAL NEW YEAR.
WHAT IS "WELL BORN?"
THE TACTFUL PRINCE.
LABOR MUST SAVE ITSELF.

Men and women, young or old, with ambition left, should remember that a new year has begun. The new year of SUCCESS does not begin on January 1, in the middle of Winter. It begins now, with Summer ended, vacations over, schools open, everything under way.

He who begins carrying out his good resolutions and working hard now, instead of waiting until next January 1, will have a start of four months on the others, and that's a good start.

Flying from Greenland to Labrador, the American fliers got back to the American mainland in five months and fourteen days after their start around the world.

Children of the future will be amazed at this slow trip around the world. A feature of public school education in future ages will be a flying trip around the world during Summer vacation. The child of twelve will know the principal mountain ranges, rivers and capitals of the world by having actually seen them.

Statistics show that the month of marriage is changing from June to August, and that's a good thing. June is the month from the romantic point of view, August from the practical point of view.

The first baby of an August wedding comes along in the Spring with the flowers of May and can be put outdoors at once to get fresh air. In addition, the mother can nurse the baby all through the hot months of the first Summer, when the right artificial food is hardest to find.

Scientists, students of Eugenics, welfare workers and others, including the brilliant author of the "New Decalogue of Science" are much

worried about human breeding, in the future of the race. "The well born refuse to breed, and the born insist on breeding too many, say these anxious worriers."

It all depends on what you well born. The fortunate child born of a mother that wants children and the ill born comes from mother that does NOT want children.

Time, evolution, gradual lifting up of the frontal angle, and public schools will take care of the human race, if the babies get the right start. The right start begins in mother's affection for the father of her child. Without that, pity the child. With that, everything else can be straightened out. What heat is in the making of steel, affection is in the creation of children.

Farmers will be interested to know that the Argentine Republic spends \$5,000,000 for 39,000 tons of galvanized iron sheets to keep back devouring locusts. The sheets will be given to the farmers free and they will be compelled to put them up, digging a ditch where the locusts will accumulate and be destroyed.

The United States Steel Products Company supplies the steel. Here we'd call free steel for farmers' socialism.

The young Prince of Wales might have made a successful career on his own hook. He has tact, the keystone in the arch of success.

Reporters wired from the ship that he had danced with a young St. Louis girl whom he had never met. When the news was sent back to the ship by wireless, the Prince requested an introduction to the young woman and danced with her twice.

That reminds you of Abraham Lincoln's tactful treatment of a reporter who had written about Lincoln's life and the books he had read, few enough in number. Lincoln told him that one of the books he had never read, but, to make everything all right, he would read it, and he did.

Labor is one cog in the machine of modern industry, the most important cog, although the machine doesn't admit it. Labor's destiny depends on labor, not benevolent speeches in political campaigns. When men know more they will have more. When they stick together as capitalists stick together, free of religious and race hatreds and prejudices, they will have power.

Prosperity and power they must get for themselves; they will not be handed to them.

LUMBER Your Home!

Down through the ages the constant use of wood has proven it to be the best material for home-building. A lumber-built home with wood floors, wood mantles, staircase, window-frames and doors brings kindly memories to most of us because it was in such a home that we were born and raised. Lumber gives that "homey" atmosphere that all other materials lack. Use lumber to build your home. Lumber gives greater home comfort at more reasonable cost. Let us help you in planning and financing your home.

"THE BIGGEST AND BEST"

AMARILLO

Represented in Canyon by
BRYAN McDONALD
STAR BARBER SHOP
NORMAL BARBER SHOP
PALO DURO BARBER SHOP

DEAR CANYON:

This is our last letter. From time to time our individual merchants will send their respective messages to you through your good paper. In the meantime remember that this is the spirit of Amarillo talking, Buy what you can at home, but for those things you cannot get there, come to Amarillo for them.

Your Neighbor,
AMARILLO.

The following Amarillo firms ask you to come to Amarillo for what you cannot buy in Canyon.

Happy Happenings

Mr. Martin was in Amarillo on business Wednesday.

Mrs. Ruth Grounds was taken to the sanitarium in Plainview Tuesday for an operation for appendicitis. Her mother, Mrs. Della Walters and Dr. Webb accompanied her.

Rev. D. H. Bryanoff, who is attending school in Plainview, spent the week end here with his family.

Lucille Hogge, who is attending school here, spent the week end with her parents near Carney.

Mrs. H. D. Hagood and Miss Dora Walters were shopping in Tulla Thursday.

Mrs. O. M. Fowler and sister, Estelle Cates and Miss Zeyla McDonald were in Amarillo Monday. Miss McDonald stayed in Amarillo to work in the Harvey House.

Mr. and Mrs. M. S. Arnold were Amarillo callers Saturday.

Mrs. Martha Lemmons and son, Coleman, were shopping in Amarillo Saturday.

Mrs. O. R. Bridges and Miss Lura Haney were shopping in Canyon Tuesday afternoon.

Mr. Ralph Hogge and Miss Estelle Pugh were married Sunday afternoon in Amarillo, returning to their home here Tuesday morning. Both Mr. and Mrs. Hogge are well known here, having been in school here. We wish them a long and happy wedded life.

Mrs. Ethel Wesley and children and Mr. and Mrs. R. B. Gist spent Sunday in the Pat Evans home near Tulla.

Mr. and Mrs. L. H. Alkman and son Roye, of Hereford spent the week end here with friends.

H. James returned the last of last week from Mena, Arkansas, where he has been visiting for the past few weeks.

The ladies of the Methodist church will serve a chicken pie dinner Saturday at the Fowler building. Every one invited to attend.

Mrs. F. C. Scott of this place and Mrs. L. D. Townsend and mother, Mrs. Scott of Tulla, were shopping in Amarillo Tuesday.

Mrs. Harry Jackson, who has been quite ill for the past few weeks, was taken to her mother's home near Vigo Park last Saturday. The last reports she was resting better.

KEISER STOCK AT FAIR.

C. O. Keiser is sending some of his Herefords to the Amarillo Tri-State Fair in Amarillo next week.

A large number of Randall county breeders will have stock in the big exhibition of registered cattle and hogs.

STATE AID APPLICATIONS.

Applications for State Aid must be filed in Austin by the 15th of October.

County Judge R. L. Lester looks after these applications for common school districts, and trustees should see him at once.

Visitors to the British Empire Exhibition are warned to watch out for a giant magnet weighing some three tons which snatches umbrellas, pocket knives—anything made of steel or iron—from unsuspecting visitors as they pass by. Fifty tons is its pulling power.

BIDS WANTED.

The Canyon Independent School District will receive bids to furnish gasoline, oils and tires for the two school busses; and for storage of the two trucks for the school year. Bids to be filed with C. W. Warwick, President, or Burt Newlin, Secretary, on or before Sept. 29. 25td

LAND FOR SALE.

Section and one-half of land for sale in one block, or a portion thereof in quarter section blocks to suit bidders. As administrator of James M. Levitt estate, deceased, with copy of will attached, I am ready to receive sealed bids until September 23rd, subject to approval of County Judge in Probate Court in Randall County, Texas. Section 199 and north one-half of section 200, block M-6. Bids must be made on the section as a whole, and apart from the other portion. The half section must be bid on by quarters. Separate bids must be filed on the different tracts. S. V. WIRT, Administrator. 24td

Are You Weak, Nervous?

Houston, Texas—"I have used some of Dr. Pierce's remedies and found them perfectly satisfactory. I became run down in health and had weak and nervous spells. I took the 'Golden Medical Discovery' and the 'Favorite Prescription' and it was surprising how quickly and how much I improved. Just a few bottles of each put me in good health. I can recommend the 'Golden Medical Discovery' as a general tonic and the 'Favorite Prescription' for feminine troubles."—Mrs. W. H. Jackson, Route 1, Box 264, N. All dealers. Send 10c to Dr. Pierce, Buffalo, N. Y., for trial pkg. tablets.

Dairy Cattle Show at Tri-State Fair to be Biggest Attraction

Additional strength was added to the already strong list of entries in the dairy cattle department of the Amarillo Tri-State Exposition this week with announcement that Texas A. & M. College will have a large herd here Sept. 22 to 28. The college herd will include Jerseys, Guernseys and Holsteins.

Howard Ferguson, Amarillo breeder who is superintendent of the department, believes dairying will be greatly benefited by the fair but predicts that Panhandle animals will more than hold their own in the stiff competition.

BAPTIST CHURCH

Rev. Lyn Claybrook, pastor of the Baptist Church, has returned from Silverton where he did the preaching in a very successful meeting. He will be in his pulpit both morning and evening next Sunday.

10 a. m. Sunday School, John S. Humphreys, Supt.

11 a. m. Preaching.

2 p. m. Sunbeams.

7 p. m. B. Y. P. U.

8 p. m. Preaching.

LYN CLAYBROOK, Pastor.

WHY, OF COURSE

"My dear, where did your wonderful string of pearls come from? You don't mind my asking, do you?"

"Certainly not! They came from oysters."—Regiment (Paris).

DOES YOUR BACK ACHE? Bad Backs Bring Suffering to Many Canyon Folks.

Is that dull, constant backache making you old and miserable? Does your back throb and ache until it seems you just can't get going? Do you suffer headaches, dizzy spells and urinary disorders; feel weak, tired and worn-out? Then look to your kidneys. Delay may mean serious kidney sickness! Use Doan's Pills—a stimulant diuretic to the kidneys; Doan's are recommended by Canyon folks.

R. E. Hileman, prop. bicycle and gun repair shop, 1402-8th Avenue, Canyon, says: "My kidneys were weak and acted too freely, especially at night when I had to get up several times. When I stooped, sharp, cutting pains took me in the small of my back. Headaches and dizzy spells were also very annoying. I felt tired and worn out. I began to take Doan's Pills, which I bought at the Jarrett Drug Store and they cured me. I have had no return of the trouble since." 60c, at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.
