

POWER PLANT SOLD--NEW OWNERS TO BUILD 15-TON ICE PLANT

\$14,000 GYM STARTS AT COLLEGE

FIRE PROOF BUILDING AND TO SEAT TOTAL 1400 PEOPLE

COMPLETED IN TIME FOR THE BASKETBALL SEASON.

Faculty, Students and Citizens of Canyon Giving to Fund to Erect the Much Needed Building.

Work was started Tuesday night on a \$14,000.00 gymnasium building on the College campus, which will be erected at once to take care of the growing needs of the Physical Education Department of the institution.

President J. A. Hill gives reasons for the immediate erection of the gymnasium building: 1. The present facilities cannot begin to take care of the students in physical education. 2. The present gymnasium will not hold the folks who try to see the basketball games.

According to Mr. Hill, he has available \$5,000 in funds to put in the building. A campaign is on in the College and the city of Canyon for funds to assist in the erection of the building, and two men have agreed to carry the balance covering a period of three years' time, when it is believed that the large building would easily pay itself out.

The building will be of steel frame, hollow tile and pebble dashed. It will be 96x104 feet. The basketball floor will be 52x96 feet, or a little larger than the standard basketball court.

In making the bleachers on the football field, the construction was such that these may be placed in the new gym, and thus serve a double purpose. The seating capacity will easily be 1,400 for the new gym.

The Buffaloes produced the championship T. I. A. A. basketball team last year, and there prospects are good for an equally good team this year. Owing to the fact that the court in the old gym is not standard in size, the outstanding teams of the T. I. A. A. would not come to Canyon to play, and had it been possible to induce them to come, their expenses could not have been paid owing to the small crowd the present gym will accommodate.

The citizens of Canyon will be asked to contribute to the fund of building the gym. Grady Oldham, Dan F. Sanders and C. H. Jarrett constitute the committee to work the city. The faculty will meet today to make contributions to the building, and the student council of the College will have charge of the student contributions.

Owing to the fact that the building is needed right now, work will be pushed as fast as possible, and the building will be completed by the first of January.

The new gym will be located south of the athletic field.

INCH OF RAIN HAS FALLEN.
An inch of rain has fallen in Canyon since the first of the week.

Monday morning there was .37 of an inch. During the forenoon there was .20 of an inch. Tuesday morning there was .08 of an inch and that night .35 of an inch.

Several farmers contemplated starting cotton picking Monday, but the rain stopped this.

The rain has been very fine for the wheat that is in the ground, and puts the ground in fine shape for those farmers who are just ready to sow their wheat.

CITY TAXES ARE COLLECTED UP VERY CLOSE FOR THE YEAR

City Clerk Harvey Cash stated Tuesday that of the \$9,700.00 on the city's tax rolls, he was able to collect all but about \$500 on the first of October.

In addition to the collections of the rolls this year, Mr. Cash collected about \$800 of delinquent taxes for previous years.

MARRIAGE LICENSES.

Homer German and Miss Thelma Steagell, October 7.

OUT THE WEEDS--NOW!!!

180,000 Pound Test Is Made on Paving With Its Natural Foundation

That Canyon paving on the natural foundation will hold up an ordinary weight has been thoroughly proved time and again when houses and other heavy objects have been moved over it, but when it comes to ninety tons weight on the paving—that is a test that not many pavements, on natural or on concrete foundation, have been subjected to.

Just to prove the theory that the natural foundation pavement would hold up anything run over it, Mayor C. N. Harrison gave authority for the Santa Fe to extend the service track over the pavement on Tenth street in order that sand and gravel might be unloaded to a more advantageous position at the new depot. The engineers didn't want to extend the track over the pavement, but asked permission to tear out the pavement. The mayor told them to run the track over the pavement, as this would do less damage than tear up the brick. The first cars run over the pavement on the service track weighed 90 tons, and the pavement stood the weight in first class condition.

Very few engineers are converted to the idea that the paving on natural foundation is a success, but they are gradually coming to this idea, after watching the many tests that have been made on Canyon's pavement.

Grade Reports of Public School to be Given Out Friday This Week

The first regular report on the progress of the pupils in their school work of the Canyon Public Schools will be given to the pupils Friday afternoon. Additional reports will be issued at the end of each six weeks thereafter.

The reports given out are not to be returned to the teachers, but should be kept by the parents for future reference. All parents are urged to make note of the dates these reports are due and to inquire of the children for them.

D is the lowest passing grade. E and F are unsatisfactory and when a pupil has unsatisfactory grades the parents are invited to confer with the teachers to see what may be done to effect improvement. We are anxious to get the greatest possible number of pupils to do good school work and the time for the parents and teachers to begin to work together on the situation is early in the school year.

Let us work to make this the best school year that Canyon has ever had.
A. D. PAYNE, Supt.

G. E. NANCE MARRIED.
G. E. Nance of this city and Miss Lucile Parker of Tulsa were married in Plainview on Wednesday of last week, Justice E. A. Young performing the ceremony.

STATE AID APPLICATIONS.
All applications for state aid must be in Anstion by October 15th. A number of common school districts in Randall county are making application for this aid.

Petition for White Way on Fourth Avenue Is Circulated by Jarrett

A petition is being circulated by City Commissioner C. H. Jarrett among the property owners on Fourth Avenue for the White Way from the Highway to the new depot.

Mr. Jarrett started Tuesday with the petition and is having excellent success. The White Way will be a decided improvement on this Avenue as well as an excellent advertisement for the town as a whole.

It is thought that the property owners will readily agree to the White Way and that the same will be installed and ready for use by the time the new depot is completed.

Gov. Chas. W. Bryan to Speak at Depot at 6:45 Friday Morning

Governor Charles W. Bryan, candidate for vice president on the Democratic ticket, will pass through Canyon Friday morning at 6:45, and a wire was sent to him this morning by President J. A. Hill inviting him to appear on the platform of his car during the time the train stops at the depot.

The College Band will meet the train and a general invitation is extended to the people of Canyon to join with the College faculty and students in a greeting to Governor Bryan.

Owing to the short time the train stops, the Governor will have only time to come to the platform and greet the people of Canyon.

The Gin Whistle Blows Saturday, and Machinery Is Being Tuned Up

A new industry made its known to the people of Canyon when the whistle at the Canyon Gin blew long and loud Saturday afternoon. The boiler had been fired up to test out the steam pipes, and later the steam was turned to the engine.

The machine performed well, and only a few minor adjustments were found necessary.

The gin machinery is being turned up this week, so as to be in readiness for the coming of the cotton. It was expected that cotton would start to the gin Monday, but the rains this week will delay picking for a little while.

Mrs. C. N. Plaster was operated on Monday at the Northwest Texas Hospital in Amarillo. She is improving nicely, according to the latest reports.

STATE FEDERATION WOMEN MAY VISIT COLLEGE IN NOV.

The State Federation of Women's Clubs will meet in Amarillo next month, and it is likely that the entire body of delegates will be brought to Canyon for a few hours.

More than five thousand of the leading women of Texas are members of the Federation, and a large number will attend the meeting in Amarillo.

Bill Kenyon Says That Butte Will be Elected Governor of Texas

Postmaster Bill Kenyon of Amarillo was here Tuesday with his sister and her husband, Mr. and Mrs. John Jane of Long Beach, Calif. They visited at the Oscar Hunt home.

Mr. Kenyon formerly lived in Canyon, and is well known to old time residents of the city.

Kenyon is highly enthusiastic over the political situation in Texas, and is confident that Dr. Geo. Butte will be elected Governor over Mrs. Ferguson next month. He states that reports from all over the state indicate that Dr. Butte will carry many sections of the state.

Mr. Kenyon stated that even if Texas was not honored by having a distinguished man like Dr. Butte for the next governor, the state would receive a lot of advertising for having the first woman governor ever elected in the United States.

FIFTH AVENUE REAL ESTATE GOES ON A SUDDEN BOOM

City Commission C. H. Jarrett states that residents of Fifth Avenue east of the square feel puffed up over the sudden activity of real estate in that section during the past week.

J. L. Duflo sold the lot next to his residence to Miss Mary A. Lamb; C. L. Thompson sold his house and lot to Dan F. Sanders; Henry Bradford sold a lot to C. L. Thompson, who expects to soon build a house on it.

J. L. Prichard, Public Weigher, Is Getting Ready for the Cotton

J. L. Prichard, newly appointed public weigher, is getting ready to handle the cotton crop that will be ginning in Canyon.

Mr. Prichard says that he doesn't know much about cotton as he came from a country that did not raise much cotton, and has been in Randall county about thirty years. He made a trip to the South Plains last week to get a line up on the duties of public weigher and how this officer handles cotton.

The county is installing a set of scales for the public weigher near the new gin, and will start Mr. Prichard off in the new office.

CANYON LIGHT & POWER COMPANY IS SOLD TO SWENSON OF ABILENE AND SCALES OF HASKELL--DELIVERY NOV. 1st

INSTALLATION OF NEW 200-HORSE POWER ENGINE, OPERATING OF 15-TON ICE PLANT, AND HIGH LINE TO HAPPY ARE PROJECTS TO BE UNDERTAKEN BY NEW OWNERS.

Premiums for the Randall County Fair Will be Paid Soon

Owing to the fact that J. W. Jennings has been out of the city almost continually since the close of the Randall County Fair it has been impossible to get a check on the premium list, and to mail checks to those who won premiums. Mr. Jennings stated Saturday that he would attend to the premium list just as soon as he returned from Dallas.

Jennings Goes to Dallas Fair With Exhibit From Randall County

J. W. Jennings was home Saturday from Lubbock where the Randall county exhibit won second place in the fair last week. He returned to Lubbock Saturday evening to pack the exhibit to ship to Dallas where the State Fair will open on Saturday.

Mr. Jennings states that the Randall county exhibit has suffered during the Tri-State Fair and the Lubbock fair by being handled so much by the judges and that it was not in as good condition as he would have liked to go into the Dallas Fair competition.

Most of the counties which exhibited in two or more fairs this fall had different displays to take to these fairs, but Mr. Jennings had time only to get one exhibit together.

BACK FROM HOSPITAL

J. L. McReynolds returned Saturday from Amarillo where he was in the hospital for some time owing to an operation. He stated yesterday that he had not felt better since he was a young man. He believes he is cured and as soon as he gets his strength back will be as good physically as he ever was.

The Canyon Light & Power Company was sold Monday by A. J. Arnold to W. G. Swenson of Abilene and G. T. Scales of Haskell. A 15-ton ice plant will be installed by the new owners, to be ready for operation by next May.

The new owners will take charge of the business on the first of November. A. F. Holt of Haskell will move here during the month to take active management of the plant. Mr. Scales will move to Canyon by the first of January.

A new 200 horsepower oil engine is being ordered by the new owners, and all steam power will be done away with in the plant. When the new engine is installed, the plant will have 500 horse power, including the oil engines Mr. Arnold recently installed.

Construction on the ice plant will start about the first of the year, and the plant will be in operation by the first of May. Under contract with the city council, ice will be sold in Canyon at the lowest possible price.

The city commission has repealed from the franchise of the Canyon Light & Power Company the provision that the city might take the plant over at any five-year period. The new owners would not agree to install the ice plant with this provision in the franchise. Extension of time was given to the franchise of twenty-five years.

As a further concession to the power users, the cooking rate was lowered from the present rate of 6 cents to 5 cents. The new owners will add very greatly to the power load of the plant.

The company further agreed that if the city would install an ornamental sign at the highway on Fourth Avenue that this would be maintained free by the power company.

The new owners are very greatly interested in the White Way, and will give the city every possible assistance to put the White Way over.

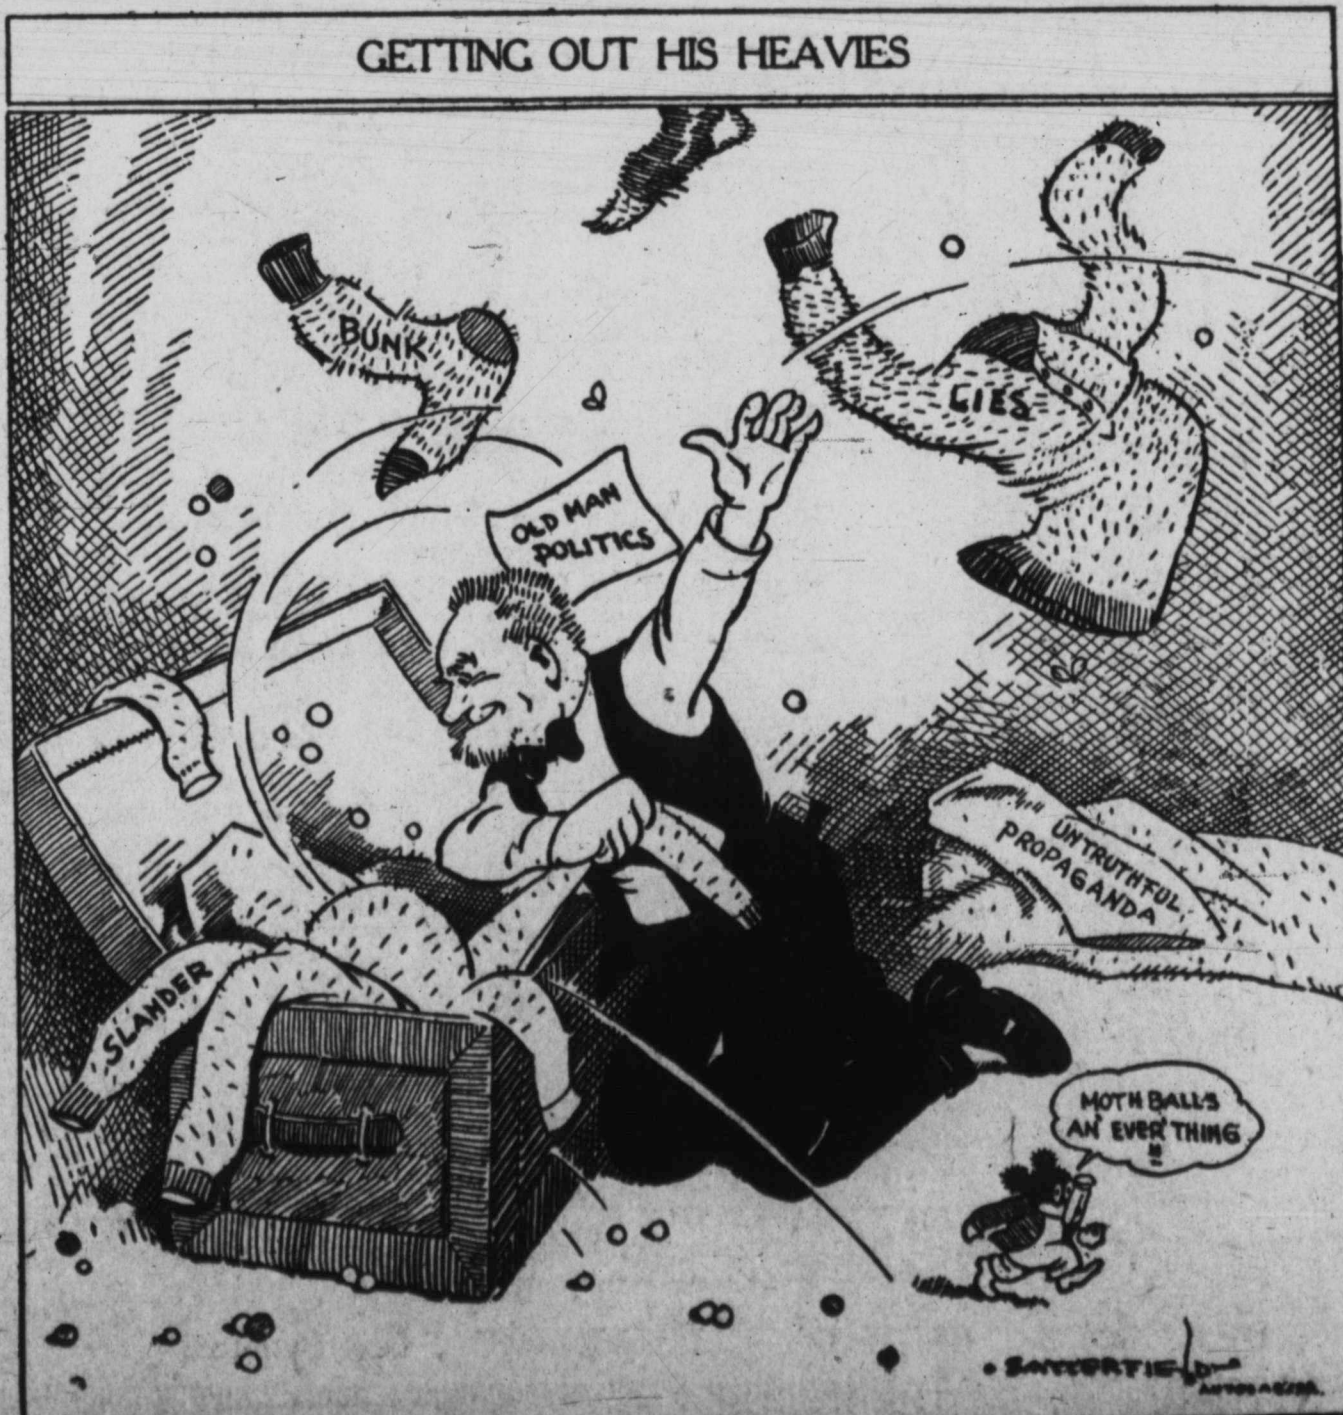

Mr. Swenson is one of the prominent financiers of West Texas and has vast interests in the light and power business. He became interested in the plant in Canyon, as he sees wonderful possibilities of further development of the business. Mr. Scales has been manager of the power plant at Haskell for a number of years, and made several trips to Canyon during the summer and fall before the deal was finally closed. Mr. Swenson appeared before the city commission at the meeting Monday night and the agreement was reached affecting the relations of the city and the power plant.

A high line to Happy is one of the contemplated steps of expansion to be considered by the company. It is altogether possible that work on this high line will be started early in the year, as Happy is large enough to afford a profitable investment for such a line.

A. J. Arnold states that he has made no immediate plans for the future. He has been in Canyon nine years, the first three of which he was manager of the plant, and six ago becoming sole owner of the business. During that time he has given the city excellent service. When he took over the plant it was little more than a junk pile. He installed practically all of the present machinery in the plant, and has entirely overhauled the distribution system. He states that it is his intention to remain in Canyon, which will be good news to the citizens who so greatly appreciate the services he has given the town.

TWO CANYON PICTURES PRINTED IN THE STAR-TELEGRAM

The Fort Worth Star-Telegram on Monday printed two Canyon pictures. One was a sketch of the new \$65,000.00 Santa Fe depot, which is now under construction. The other was a picture of Miss Lena Huber of the News force holding the small egg which was recently brought to the News office by B. T. Johnson.

SUBSCRIPTION \$1.50 PER YEAR

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

A majority of the letters written to the daily newspapers regarding the political situation in Texas, and a large number have to do with the pledge the democratic party tries to impose upon the voter. About the only argument advanced by a majority of the writers, and it is no sound argument, is that if the voter does not wish to abide by the will of the primary, then he should not vote. When our forefathers boarded the Mayflower they relinquished all claims of dictators and demanded a free government. The success of a democracy depends upon the free voice of the people. The party which attempts to curb the free will of the individual voter would put us back under the powers of dictators. So long as America remains a democracy the party of no state has the moral or legal right to say to its members that they shall support any candidate if when the voter goes to the general election he knows the opposing party has a stronger and better candidate, and one who would serve the state better than the candidate of his party.

We wonder how many citizens of Canyon there are who have as much confidence in our little city as do the officials of the Santa Fe railroad? Would this greatest railroad in America have given the town a \$65,000 depot if it had not realized that Canyon was to grow and develop and prosper very greatly during the coming years? Certainly not! The Santa Fe officials are betting on Canyon and betting a big pile of money. Will the citizens of Canyon risk anyway nearly as much on the future of the city? The town will grow, to be sure, whether we as citizens do anything or not, but how much faster will it grow if every fellow is on the job, working and boosting for Canyon. Every citizen in Canyon should be putting some money into the plans of the Chamber of Commerce which seeks to tell the world of the advantages of Canyon. Get into the game, people of Canyon, and help the town grow.

This is fire prevention week in Texas. It would be a fine thing for the state as a whole and Canyon in particular if every property owner would take a little time off and look over his premises. Most of us would find some weeds which ought to be cut and burned, as these weeds will make a fire hazzard after frost hits them. Then most of us can find some rubbish around the house that is no earthly good and is fit only to set on fire the home should it become ignited. Then there is always junk around the garage which needs cleaning up and burning. It's a wonder that there are not more fires in Canyon with all the stuff lying around which would set buildings on fire. Fire prevention week may not sound interesting or applicable to the average citizen, but a little prevention might save many of our citizens thousands of dollars if useless hazzards were removed.

Sealed in its Parity Package.

United States to get out a large vote in the general election next month. Texas could increase her vote more in this election, probably, than any other state in the union. Of more than a million possible voters in the democratic party of Texas, only 700,000 voted in the July primary, and a few more in the August primary. In general elections, it has been the habit of about half those going into the primary to stay at home. This should not be the case. There should be a million votes cast in the general election next month. Randall county did not poll much more than half her total strength in either primary, and this will be a fine time for the voters to take an interest in politics.

Senator Brookhart sent a defi to the Republican bosses and told them to dismiss Dawes as candidate for vice president, or something would happen to the elephant. Brookhart is getting cocky as to his influence. He considers that he is bigger than the Republican party, and for the present at least, his estimation of himself is about right. While in Iowa two months ago it was freely predicted that Brookhart would do what he has now done. He had to find out about his own job before jumping too hard on Coolidge and Dawes, but now that he has come out boldly against the President, it is certain he thinks that he himself will easily be re-elected.

Auto accidents are becoming more and more frequent on the highways of Randall county, and on the paved streets of Canyon. The good roads offer a temptation for the drivers to step on the gas, and stepping too hard results in a serious accident if something goes wrong. In practically every accident, the driver always asserts that he was not going "very fast." Perhaps most of these accidents could be avoided if the car was in good condition, and the driver was a little more careful.

Hundreds of beggars are inflicting themselves upon the Panhandle owing to the good conditions prevailing in this section. Beggars find out the condition of various sections of the country, and then flock there by the hundreds. If the country owes this class a living, it would be much cheaper for the state to take them up and maintain them by taxation. Those who contribute to the upkeep of this class are encouraging a traffic which is becoming a menace, and many have found that it is easier to beg, and more profitable to beg, than to work.

The loss of life by fire in this country is 15,000 per annual; the injuries in fires amount to 17,000; the value of property burned and damaged by fire is eight billions of dollars. Most of this could be prevented by a little common-sense precaution on the part of the citizens. America has the highest fire loss of any nation on the face of the globe. Fire insurance rates are higher on account of this great loss. To bring down fire insurance rates, it is necessary to have less fires, and a little precaution will lower the fires.

Very few people realized the great amount of traffic on the highways of Randall county until the result of the log was announced last week. All of us knew the traffic was enormous, but none realized that the average of seven days would be 736 cars per days in twelve hours on the highway between Canyon and Amarillo. Randall county has been noted for many years for good roads, and tourists come this way to get the benefit of the highways. A paved highway would help very materially and add to the attractiveness of the country's traffic.

Citizens on Fourth Avenue should get busy on the White Way from the east highway to the new depot. The White Way would cost the individual property owner nothing after installation, and would cost only 35 cents per front foot to install it. Canyon is fast building to be a little city, and is noted for its beautiful streets and homes. A White Way of sixteen blocks would add very greatly to the attractiveness of the town. It is a good investment for all property owners.

The Board of Control at Austin cannot read plain English and tell what it means. The board is trying to defeat a new publication-law passed by the last session of the legislature which gave Texas newspapers a decent legal rate. The board of control has had the attorney general rule that reading notices shall be charged at the same rate as display advertisements. The News trusts the newspapers will fight such a ruling to the supreme court before submitting to such a monstrosity.

One more month of politics, and then a rest for two years. Every citizen of America owes it to himself and to his country to go to the polls and vote in the general election.

All Texas is proud of the Fort Worth Cats for having won the Dixie Championship.

Canyon, a city of beautiful homes, will certainly be attractive next spring with more than six thousand tulip bulbs added to those already in the city, which no doubt amount to more than a thousand. Property owners are taking a great interest in beautifying their homes, but owners of vacant property quite generally let the weeds grow.

One good thing about the state taking over the state-highways is that a lot of highway marker grafters, and a lot of highway promoters are put out of a job.

In the Literary Digest straw vote this week, Coolidge lead, La Follette was second and Davis was third.

GET LAND FROM STATE.

Three Canyon men were winning bidders on the land recently sold by the State of Texas in Ballum and Hartley counties. This land was of the 56,000 acre tract which the State found to have been given the Farwell's in excess of the three million acre land contract which was given this syndicate in exchange for building the state capitol building.

All three from Canyon who were winning bidders got Hartley county land, near Channing. They are L. D. Tucker, W. H. Lovejoy and J. L. Mathews.

It is understood that several other Randall county men bid on the lands.

HEREFORD MAYOR DIES.

Mayor W. M. Knight of Hereford died Saturday after an illness of several months. He has been mayor of Hereford for more than ten years, and gave almost his entire time to the management of the city's business. In the city election last April, although Mayor Knight was sick and had not been able to attend to the city's business for several months, he was re-elected, as a compliment to his great efforts to make a model little city of Hereford.

STATE APPORTIONMENT PAID.

The State Education Department has announced another payment of \$1.00 on state apportionment to be paid not later than October 15th.

The first payment of \$2.00 per capita was made in September, which was the first time in the history of the state that a payment was made in September.

It is announced that all payments on the \$14.00 apportionment will be made by May 1st.

Evetts Haley of Midland Named Head of College Senior Class

Unanimity of spirit and purpose reached a high point in the first meeting of the Class of '25 last week and the College's record size class started off in brilliant form. J. Evetts Haley of Midland, Texas, was elected president of the coming graduates.

In quick succession the following other officers were named and given noisy approbation: Jim Webb, vice president; Stella Rusk, secretary-treasurer; Michell Jones, reporter; Herschell Coffee, annual representative; Jeff D. Smith, representative to Student Council; Otello Herm, sergeant-at-arms. The vice president was designated head of the social and program committees, and a committee of three was appointed by President Haley to present recommendations regarding the class flower and colors. Members of this committee are Tate Fry, Clarence Hope, and Vivian Coffman.

In responding to demands for a speech, Haley stressed the need for two class qualities—pep and unity. With these two qualities, Haley said the class could leave a deep impress upon the life of the College this year. Jim Webb pledged unflinching loyalty to the "best senior class he had ever been a member of." Stella Rusk declared that most of the College leaders are seniors and that the class is the most brilliant, taken as a whole, that the institution has produced. Other officers reiterated these statements and asked that the class set the pace in loyalty and service.

Another meeting will be held at the chapel period Friday. Weekly meetings probably will be held throughout the year. The class is determined to fulfill its long-established boast, to be the "best yet." The membership of the class far exceeds that of the previous ones. About forty five students will get degrees at the end of this session. Another unusual feature of the group is that there are more men than women in the class of '25.

THANKS THE NEWS.

Canton, Texas, Sept. 30, 1924: My dear Mr. Warwick: At the last business session of the Woman's Book Club, held September 24, the Club on the motion of Mrs. J. S. Humphreys, gave you a rising vote of thanks for the interest you had shown in the Year Book and the splendid co-operation and help you had given the program committee in their work.

The Club as a body appreciates fully the help and interest you have shown in their work and take this means of thanking you.

Sincerely your,
AGNES C. MEYERS,
Sec'y Woman's Book Club.

In Japan there are two hundred thirty-six different associations working for temperance, with an aggregate membership of 117,982.

Boils!

S.S.S. will rid you of boils, pimples, blackheads and skin eruptions!

DON'T CLOSE your eyes to the warning which Nature gives when angry, painful boils appear on your neck, face or other parts of your body. Boils, pimples and so-called skin disorders are the result of an impoverished condition of the blood and are not to be trifled with.

It is nothing more than folly to expect to get absolute relief from the use of local treatments, such as ointments, salves, etc. Such remedies may afford temporary relief but you want more than relief; you want a remedy which will rid you forever of the torturing disorder. And the one remedy which has no equal is S.S.S.

S.S.S. stops boils and keeps them from coming. S.S.S. builds blood-power! That is what makes fighting blood. Fighting blood destroys impurities. It fights boils! It fights skin eruptions—pimples, blackheads, eczema! It always wins! S.S.S. has been known since 1826 as one of the greatest blood builders, blood cleansers and system strengtheners ever produced. There are no unproven theories about S.S.S., the scientific results of each of its purely vegetable medicinal ingredients are admitted by authorities. Begin taking S.S.S. today and clear your skin of those blood disorders!

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

S.S.S. The World's Best Blood-Medicine

YOUR OPPORTUNITY TO SAVE MONEY

The Rexall Store

ONE CENT SALE!

YOUR OPPORTUNITY TO SAVE MONEY

Thursday, Friday, Saturday October 9, 10, 11

What is a ONE-CENT SALE

It is a sale where you buy an item at the regular price—then another item of the same kind for 1c. As an illustration: The Jonteel Vanishing Cream is 50c. You buy a jar at this price and by paying 1c more, or 51c, you get two jars. Every article in this sale is a high class standard piece of merchandise, just the same as we sell you every day at regular prices and have sold you for years.

A New Way of Advertising

This sale was developed by the United Drug Co. as an advertising plan. Rather than spend large sums of money in other ways to convince you of the merit of these goods, they are spending it on this sale in permitting us to sell you a full-size package of high standard merchandise for 1c. It costs money to get customers. The loss taken on this sale will be well spent if the goods please you.

CANYON'S NEW \$65,000.00 SANTA FE DE

TWO FOOTBALL GAMES IN CANYON FRIDAY

BUFFALOES WILL MEET NORMAL UNIVERSITY OF LAS VEGAS ON BUFFALO FIELD AT 3:30 FRIDAY AFTERNOON

The Buffaloes will be seen in action on the home field Friday afternoon at 3:30 o'clock, when the team will meet the Normal University of Las Vegas. This game was scheduled late last week to fill the open date, and will put the team in good shape for the game with the New Mexico University on the 18th.

This game will mark the opening of athletic relations between the Normal University and the Buffaloes. Nothing is known as to the comparative strength of the New Mexico team, but it is generally thought that there will be a real fight next Friday afternoon.

Since the announcement of the newly scheduled game the college herd has gone to work with renewed energy. The men seem still to have the fighting spirit which characterized their first game. Although the team is practicing behind barred gates, reports have it that passing, punting, signal running and scrimmage are being liberally doled out every day from three-thirty until six o'clock.

In the game Friday the Buffaloes are expected to present practically the same line-up as in the last appearance, with the possible exception of Hill and Mitchell, who are suffering from slight injuries sustained in the Ranger territory. However, they would be available in a crisis, it is believed.

It is likely that many new men will get their chance in the coming game. Both Raymond Thompson and Bill Anderson will possibly be used at the wing positions, as will also Crump, the Ralls flash. At tackle, Angel and Hancock will probably get a chance to perform. It is a toss-up between "Bud" Thompson and Floyd Golden as to which will start at center.

In the backfield some new faces will doubtless be seen before the game has progressed very far. Sadler, big back from Oklahoma, is ready for action. Burk and Scott are too good to keep on the sidelines, and Jennings will likely be at half in the initial lineup. Substitutions will, of course, be determined by the nature of the contest.

Captain Grady Burson declares that

The Buffaloes are ready for anything and are rarin' to tear into the new rivals.

Jennings suffered an injury during scrimmage this week, which will likely keep him out of the line-up Friday. Mead has been in uniform this week, but will not be able to play Friday. He hopes to be ready to get back into the game within a short while.

Yearlings Lose Hard Game to Pampa Team

Coach W. E. Lockhart and his Yearlings journey to Pampa Thursday and met the Pampa Harvesters on the latter's field, losing 6 to 0.

The Harvesters score came early in the first period, and after that neither team could gain an advantage. Lack of team work and inability to break up passes lost the game for the Yearlings.

Outstanding players among the Yearlings were Sadler and McGee in the backfield, and Hancock and Ming in the line.

The Yearling line-up was as follows:

McCormick, right end; Hancock, right tackle; Fuller, right guard; Ward center; Ming, left guard; Angel, left tackle; Sone, left end; McGee, fullback; Gamel, right half; Sadler, left half; Reagan, quarterback.

Substitutes: Eddleman for Fuller; Dawson for Sadler.

Referee, Studer (W. T. S. T. C.); umpire, Irwin (Simmons); head linesman, Dick Hughes (W. T. S. T. C.)

Wayside Items

A good rain, accompanied with considerable hail Sunday night. No bad effects visible. Sunshine and clouds play hide and seek this a. m. Tuesday. The ground is thoroughly soaked. Spotted frosts, only in places.

Wm Payne and family were Wayside visitors last Sunday. They were accompanied by Mrs. Fannie Franklin and children, and sister, Miss Flossie Payne. Mrs. Franklin returning from a 13 days visit with them and others in and around Amarillo. They returned Sunday p. m.

W. H. Strawn and family of near Love schoolhouse visited their daughter, Miss Utha Strawn here Sunday a week ago. All had a good time together. The family is expecting to move to Clarendon.

Quite a number of Waysiders attended the show at Amarillo Saturday. Some were disappointed, while others thought it pretty good.

A large crowd attended the surprise party given Birdie Lou Lane Friday night. Those attending report a good time.

Bill Wesley, oldest son of Bob and Maud Wesley, came in last week from Sterling, Colo. He was glad to get home, leaving in January last.

Several Waysiders went to Happy to meet the Park Board Tuesday a. m. Mrs. Phebe K. Warner of Claude, Messrs. Colp and Swepton of Tulla was expected there. This was our second appointed time of meeting, and both times the roads have been muddy and bad.

W. I. Lane came in Friday p. m. with a new Ford touring car.

Corn with stalks so short that the ears appear to grow directly out of the earth and that mature in seventy days is now being grown at experiment stations in the United States.

This Week

By Arthur Brisbane

FOR PRESIDENT COOLIDGE AND THOSE TH' T PAY. 2,000 FIGHTING PLANES. FOR ONE DREADNAUGHT.

President Coolidge recalled Secretary Wilbur, of the Navy, to Washington to discuss with him "the relative value of battleships and flying machines in war."

This means, of course, that the President will LISTEN to others, and TAKE COUNSEL with himself. It means that, with all his work, he has found time for the serious problems of air defense, and does not intend to keep this country among the backward nations, as regards real preparation.

Facts alone will influence the President, and they are not lacking. For instance: One battleship of dreadnaught class cost forty-five million dollars. For that sum the nation could build and mobilize TWO THOUSAND FIGHTING AIRPLANES. Does the President or any other sane man ask what chance a battleship would have against 2,000 fighting air machines dropping TNT from the clouds?

The French have come through a real war, with invasion to the very gates of Paris, millions killed, other millions wounded. THEY know something about fighting. What has France done to prepare against danger across her border? France has a first line of air defense, consisting of two thousand fighting air machines, with a reserve of two thousand more.

And that fighting French air fleet is what makes England, with all her lumbering battleships, cruisers, etc., "the world's greatest battle fleet," so pitifully polite to France. She will continue to be polite until she can dominate in the air, as she used to dominate the sea.

The two thousand first line

fighting planes that spell security for France, cost, in Europe, less than half the cost of one first-class dreadnaught here. No wonder France insists that Germany shall build no fighting planes.

We continue spending millions on big guns and ammunition for yachts. They also will soon be chased among museum curio-ties, used to make a loud noise in the Presidential salute, or tie the vanity of some admiral returning to his ship.

A sixteen-inch gun costs as much as two fighting airships. It lasts only long enough to fire one hundred and twenty shots. Then it is burnt-out scrap iron. The life of a fighting plane, costing half as much as a single big gun, is equal to that of an ordinary forty-five million dreadnaught.

Mr. W. J. Davis, of San Diego, earnest advocate of air defense, says truly, "The nation foremost in the air will win the next war at the drop of the bomb, and before the world wakes up the next morning amid the fumes of phosphorus or of bombs of some other kind, if it does wake up at all, the war will have been won."

Battleships, besides being obsolete, are frightfully expensive, soon out of date, worthless in peace. Flying machines, enough of them to make this nation safe against attack by sea or land, could be built without burdensome taxation, kept up with slight expense, and they would pay their way in peace, twice over, in the mail service, and in spying out forest fires.

Before this country faces a new war—it won't come, while they are all borrowing from us—the range of fliers and submarines will be as great as that of any floating vessel. The submarines will go as fast as any cruiser and the fliers, of course, twenty times as fast as any fighting ship afloat.

These suggestions are submitted to the President, who will decide what shall be done, and to the people of this country. They will pay the bills in money, which is not important, and in blood, which is important, if a fatal mistake be made in our plans of defense.

What you read here is printed in several hundred daily newspapers, including the Herald of Washington, D. C., where those in office may see it, and in several thousand weekly newspapers, read in millions of country homes.

HIGH SCHOOL EAGLES WILL PLAY FIRST INTERSCHOLASTIC GAME FRIDAY AT 2:00 O'CLOCK WITH TULIA HIGH SCHOOL

The Canyon High School Eagles will play the first interscholastic League game of the season Friday afternoon at two o'clock, when they meet the Tulla team. The game will be played early in order to be over in time for the opening of the Buffalo-New Mexico fair.

The Eagles have not had a game since fighting to an almost standstill the Amarillo Sandies at the Tri-State Fair. Since that time they have lost Covington and Buster, but Coach Noy Hale believes their places have been well taken care of.

The Tulla team played Hereford to a draw after Amarillo had defeated Hereford 44 to 0, and last week Tulla defeated Lockney.

The Canyon Eagles are confident of winning tomorrow, but are taking no

chances on the game, and have been hard at work during the past week.

The original manuscript of Joseph Conrad's first novel sold at the John Quinn sale last year for \$5,300. Thirty years ago, when it was first published, it attracted only a small group of admirers and was considered a complete failure. At the sale the first edition sold for \$120.

The Senussi, natives of the Libyan Desert in North Africa, have an immigration exclusion act of their own. They do not want any aliens to come into the country, for they say foreigners mean domination, domination means paying taxes, and they do not want to pay taxes.

Help Keep Canyon Clean!

Children Cry for

To avoid imitations, always look for the signature of Dr. J. C. Fletcher. Proven directions on each package. Physicians everywhere recommend it.

Lamar Memorial Flag Ready to Present to College by Mrs. Calder

The Texas Flag promised to the College by Mrs. Loretto Lamar Calder, of Houston, granddaughter of President Mirabeau B. Lamar, of the Republic of Texas, who was here in the summer and was expected to present the flag in person before the close of the summer session, has been received by Mrs. E. H. J. Andrews of Plainview, Mrs. Calder's daughter, and will soon be handed over to the College authorities. It is of the best wool bunting and measures six feet by ten, and was especially made by the American Flag Company of New York City.

The delay in its receipt was caused by the flag being twice misdirected and going astray. The flag is given as a memorial to President M. B. Lamar, whose administration was mainly responsible for the foundation of Texas education in the days of the Republic, and for the wise provisions made for its future expansion.

Mrs. Andrews will represent Mrs. Calder at the presentation of the flag to the College.

R. E. Foster returned last week from the hospital in Amarillo where he was under treatment for a month. He is able to be up most of the time, and will soon be able to come down town to his business.

BAPTIST STUDENT SECRETARY TO COME HERE FOR MEETING

Dr. Joseph P. Boone of Dallas, state secretary of the Baptist Student Union of Texas, was here last week conferring with Baptist student leaders in regard to the work here.

Dr. Boone has been secured by the First Baptist Church to hold a revival service here from Nov. 30th to December 14th. He will have the help of John B. Crockett, formerly choir director and student secretary at the First Baptist Church of Denton.

ORCHESTRA ORGANIZED.

The College Orchestra held its first meeting Wednesday, October 1. Much enthusiasm was shown by the twenty members, giving promise of a successful year. The time agreed upon for Orchestra practice is twelve forty-five o'clock on Wednesday and Saturday. Several more members are expected to enroll soon which leaves us hoping for a much stronger organization than we have had heretofore.

B. S. U. COUNCIL ELECTED.

The local Baptist Student Union met for its first conference Monday evening at the home of Hazel McQueen. Officers for the year are as follows:

Lillian Atkins, president; Bryant Baker, first vice-president; Lillian Abbott, second vice-president; Ann Mansell, recording secretary; Henry Price, corresponding secretary; Hazel McQueen, treasurer; Fay Lockhart, reporter; Margaret Maxson, chairman of music; Madge Day, college correspondent; Obed Baker, chairman of ushers; Eppie Irons, chairman program committee.

ALL SAINTS' EPISCOPAL CHURCH.

During the fall and winter there will be services in this church every Sunday night at the customary hour. The Rev. E. H. J. Andrews, of Plainview, is in charge. He desires to meet not only those who are members of the Episcopal Church, but all who may care to attend the services, a cordial invitation being extended to all. It is hoped that a choir may be organized forthwith in order that the musical parts of the service—the chants as well as the hymns—may be sung. To this end, those able to sing and willing to assist, whether members of the Church or not, are invited to gather at the church half an hour before the service hour, each Sunday night, for practice. The Rev. Mr. Andrews is at the service of any desiring spiritual help at any time. If not in town, he may be reached through Mr. David Thomas or Mr. A. J. Arnold, or addressed directly at his home address, 317 Beech St., Plainview (phone 522J). Service and sermon next Sunday night at 7:45 o'clock; choir practice at 7:15.

THE NEWS

Two Choral Clubs at the College is Plan for the Year's Work

Instead of giving one major production during the year as has been done for the past several years, the College choral club has this year been divided

into two parts and these groups will appear at more frequent intervals. Prof. Wallace R. Clark will direct a Men's Chorus and Corrine Hamill, assisted by Misses Brigham, Clark and Steele will carry on the supervisory work of the Ladies' Chorus. Prof. Clark will meet with the ladies' group at one period each week. From the two choruses a Part Singing Club of about twenty voices will be

selected. This number will be heard at commencement and other special occasions. It is probable also that a smaller number of men and women will be chosen to accompany College artists on their lyceum tours over the Panhandle.

Fifty five ladies reported to the first meeting last Thursday. Most of them have had training or experience and an excellent singing chorus is assured. Practice periods have been designated on Mondays and Thursdays from 12:40 to 1:30. Work started yesterday on some of the things that probably will be given this quarter.

Twenty men were present at the meeting of the Male Chorus last Friday, and several others have signed up since that time. Copies of suitable cantatas, songs, etc. have been ordered and no delay is expected in starting the men's club. Professor Clark is particularly anxious to have a fine men's singing organization. To have a really good club twelve more voices are needed. "There are few who can't sing, but most men don't," Prof. Clark told the chorus in outlining the qualities needed in the singers.

President J. A. Hill is very much interested in the choruses; he especially stresses the unusual opportunities offered men under the new plan. There will be many occasions to sing should a sufficient number of men volunteer. The men's club meets on Tuesdays and Thursdays at the noon period. The second meeting will be held to-day. Prospective members should report at to-day's meeting.

Buy, Build, and Live in Canyon.

THE PASSING DAY

By Will H. Mayes, Department of Journalism, University of Texas.

One of the most difficult lessons to impress on students is the importance of being punctual in attendance at classes and meetings and in doing the work assigned to them. The fault must lie in the homes, for it is a lesson that has to be taught to every one. In fact it looks like tardiness is almost a national habit. When asked to do a thing, even the smallest children will almost invariably reply "in a minute," and the average small boy thinks he is doing well if an errand is performed within an hour or two of the time in which he is told to do it. With these conditions in the homes, it is hard for teachers to change habits when the children go to school.

The worst thing about this habit of tardiness formed in youth is that it nearly always clings on through life. Most of us are inclined to put off the doing of a thing until the last minute, although we know that the longer action is delayed, the more difficult it becomes. Especially is a difficult task the more difficult and the more dreaded when it is postponed from time to time. It is axiomatic that most of our troubles vanish before they are reached, but a thing that has to be done grows larger to the mind with each postponement, even though it may appear insignificant when it is finally reached.

Every person who has served on a committee or attended a public meeting has been impressed with the great loss of time in waiting. Not one person in ten attends a meeting promptly, and those who struggle in appear to place no value whatever on the time of those who are forced to await their coming. You may have a right to waste your own time, but have no right to steal the time of any one else by keeping that person waiting for you.

The tardiness habit often hits farmers especially hard. I know a hard-working farmer, who does not appear to mind toiling from sunrise to sunset, but who never plows his land early enough, never plants his crops when they should be planted, and when he is fortunate enough to make a good crop he never gathers it soon enough to save it in the best condition. He wonders why, although he works harder than most of his neighbors, he does not prosper like they do. He does not seem to realize that it is because he never does a thing when it should be done that he is a failure as a farmer.

There are merchants who do not buy goods until they are to be found on the shelves of all the other stores, and the buyers have been forced to go to other places for them. There are other merchants who do not advertise until they see that other merchants are getting the bulk of their trade and then they fall into line and hope to get the trade that has been attracted to other stores or to other towns. Such merchants may spend one way or another as much money as their competitors in trying to attract trade, but they dilly-dally until competition gets ahead of them. They then wonder why they are not getting the business that goes elsewhere.

There are communities and towns that are afflicted with the tardiness habit to such an extent that they have come to be classed as mossback communities or "water-tank" towns. The inhabitants sit still and let places about them grow through progressive methods. They watch the trade that they should have drift to the towns that use modern methods to get business. They even see their children leave their homes in utter disgust with the slowness of the places when they have grown up. They appear oblivious to the decay and slow death about them. Apparently they do not realize that they could prosper just as richly as the others and that the poverty of their town in all the things that go to make life worth while is due to their disposition to put off action. It is folly to travel like a snail when others headed for the same goal are using automobiles or airplanes.

A ONE-DAY REFERENCE

Employer (to applicant for a position who has handed in testimonials from two ministers)—"We don't work on Sundays. Haven't you a reference from some one who sees you on week days?"—Sydney Bulletin.

The Arabian sheik exercises unlimited power. No legislature embarrasses him. No judiciary causes him trouble. He is the government and performs all its functions. The office is hereditary and is passed on to the oldest son.

Miss Kathleen McDaniel spent the week end at her home in Plainview.

COLLEGE STUDENTS SEEK WORK HERE

Prof. L. S. Baker, who has charge of the student employment work for the College, has a great many more applications for work than he can fill. He requests the co-operation of the town-people in helping worthy students to stay in school. Any type of work that can be done by young men or women is desired—in any amounts. The student help will be of high quality and will be furnished promptly upon request.

Those having such need of help may call Mr. Baker at number 344 in the evenings, see him in his office at the College, or may phone requests to Mrs. T. V. Reeves at her College office.

Students desiring work should file their applications and state their off-periods on blanks furnished by Mr. Baker. An immediate response is earnestly desired.

NERVES ALL UNSTRUNG?
Canyon Folks Should Find the Cause and Correct It.

Are you all worn out? Feel tired, nervous, half sick? Do you have a constant headache; sharp twinges of pain, too, with dizzy spells and annoying urinary disorders? Then there's cause for worry and more cause to give your weakened kidneys prompt help. Use Doan's Pills—a stimulant diuretic to the kidneys.

Canyon folks recommend Doan's for just such troubles.

Mrs. B. T. Johnson, 211 5th ave., Canyon says: "My kidneys acted irregularly, at times too freely, at other times not often enough. Backache came on me, a dull, tired ache across the small of my back. I had sick headaches and felt nervous. I was tired out all the time. Doan's Pills cured me of this trouble."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Johnson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Students of the University of Michigan who gain distinction in their work are to be honored by the entire campus. It is proposed that there be held annually, early in the spring, a special convocation to be called the honors convocation. The purpose of the plan is to give "public recognition . . . to those students who have been elected to membership in societies or appointed or elected to positions where scholarship is a primary qualification."—School and Society.

DUSTY MILLER AND MRS. RUTH HOBART INDICTED FOR MURDER

E. T. (Dusty) Miller of Amarillo and Mrs. Ruth Hobart of Amarillo were indicted Thursday by the grand jury in the Potter county district court for the murder of Edward W. Hobart on July 14.

Both Miller and Mrs. Hobart were arrested soon after the body of Hobart was found, and charged with murder to await the action of the grand jury.

Miller was district attorney of this judicial district, and has practiced law over the Panhandle very extensively.

TAKING HIS TIME

Mother—"Have you said your prayers, Bobby?"

Bobby—"Yes, mother."

Mother—"And did you ask God to make you a good boy?"

Bobby—"Yes, mother—but not yet."

Parent-Teachers Association Has Opening Meeting of Year

The Parent-Teachers Association met Friday afternoon. A number of the old members were present as well as some new ones, who were welcomed heartily. A very interesting program was enjoyed by all present. Miss Haines of the Education Department of the College gave a very interesting discussion of plans for the new year. She outlined the suggested programs sent out by the National Congress of Mothers and Parent-Teachers Associations and gave a very interesting and instructive talk. The plan as suggested was adopted for the year's work by the Association and preparation for the different phases of the work was made.

After a short business session, the members spent sometime meeting and getting acquainted with the new teachers who were glad to know as many as possible of the mothers. The excellent success of the school and the favorable prospects for a banner school year were subjects of much comment. The next regular meeting will be the first Friday in November.

High School Annual is Put Under Way by the Members Senior Class

The high school annual is getting under way, and from all indications a very fine book will be the result of the hard work being put in by members of the class.

J. D. Gamble Jr. is business manager and is putting on a sale of books and is hustling advertising for the publication.

James Whitcomb Riley's "Old Swimmin' Hole," in Brandywine Creek is being made into a bathing beach for children of the eastern part of Greenfield, Indiana, by citizens of that part of the city.

Candidate for Governor Here Sunday to Inspect the College

Dr. George C. Butte, Republican candidate for governor of Texas, was in the city for more than an hour Sunday afternoon, and visited at the College. The visit had nothing to do with his campaign for governor, and Dr. Butte did not discuss political questions.

As a university man, Dr. Butte is interested in all educational questions, and being so close to the College, he wished to make an inspection of the plant. He expressed himself as highly pleased with the College and the work that it was doing.

In spite of the fact that his coming was not announced officially, a large number of the citizens heard of the coming of Dr. Butte and met him at the College building.

Record Book of T-Anchor Ranch Given to the Historical Society

A book containing copies of the correspondence and accounts of the famous T-Anchor Ranch for the years 1888, 1889 and a portion of 1890 has been presented to the Panhandle Plains Historical Society. J. W. Turner, of Umbarger, Texas, who, at the time the book was written was a cook for the T-Anchor outfit, was the donor of the book. C. J. E. Lowndes, banker of Amarillo, Texas, was bookkeeper when the book was written. The volume is in a splendid state of preservation and is of great value to students of early Panhandle history.

The T-Anchor ranch comprised all of Randall and Deaf Smith counties, and portions of other counties. The only house on the ranch was the headquarters, which now stands north of Canyon on the J. L. Prichard place.

Mr. and Mrs. Will Payne of Amarillo were guests in the J. W. Shanklin home Sunday.

State Park Board Make Visit to Wayside to Inspect Road in Canyons

Members of the State Park Board were in the Panhandle again this week and Tuesday held a meeting at Wayside to investigate the possibilities of building a highway across the canyons at this point.

D. E. Colp, chairman, of San Antonio, and Mrs. Phebe K. Warner of Claude directed the inspection of the road.

It was planned to have a general meeting of representatives from adjoining counties, but the bad condition of the road prevented most of the delegates from attending.

Former College Student Now Dean of S. Dakota University

E. S. Parks, a former student in the College, has been appointed dean of the University of South Dakota, according to information received here.

Sparks was one of the brilliant men of the College in the early days of the institution, and is well remembered by many people in Canyon.

NOTICE OF SALE OF REAL ESTATE UNDER EXECUTION.

THE STATE OF TEXAS, COUNTY OF RANDALL.

In the District Court of Potter County, Texas.

Missouri State Life Insurance Company vs. No. 4196, O. A. Barrett, Joann Barrett, F. B. Collins Investment Company, Finton Investment Company, Guaranty State Bank, Frank Dunaway, Mrs. J. A. Crain and V. P. Crain, Whereas by virtue of an execution and Order of Sale issued out of the District Court of Potter County, Texas, on a judgment rendered in said court on the 28th day of August, A. D. 1924, in favor of the plaintiff, Missouri State Life Insurance Company and the defendants F. B. Collins Investment Company, Finton Investment Company, Guaranty State Bank and Frank Dunaway, against the defendants O. A. Barrett and Joann Barrett, Mrs. J. A. Crain and V. P. Crain, No. 4196 on the docket of said court, did on the 7th day of October, A. D. 1924, at 10 o'clock a. m., levy upon the following described tract or parcel of land, situated in the counties of Randall and Armstrong States of Texas, belonging to the defendants O. A. Barrett and Joann Barrett, and most generally known as the Barrett lands, and located in the Northeast part of Randall County, and the Northwest part of Armstrong County, and along the boundary line of the two counties, and being all of surveys eleven (11) and twelve (12) in Block eight (8) I. & G. N. Ry. Co. surveys, containing twelve hundred eighty acres of land.

And on the fourth day of November, A. D. 1924, being the first Tuesday in said month, between the hours of ten o'clock A. M., and four o'clock P. M., on said day, at the court house door of Randall county, I will offer for sale and sell at public auction for cash, all of the right, title and interest of the said O. A. Barrett, Joann Barrett, Mrs. J. A. Crain and V. P. Crain, in and to said property.

Dated at Canyon, Texas, this the 7th day of October, A. D. 1924.

W. C. BLACK, Sheriff, Randall County, Texas.

ORDINANCE NO. 45

An Ordinance amending Sections Nos. II and V of Ordinance No. 29 entitled "An Ordinance granting a franchise to Canyon Power Company, for an electric Light & Power Plant, and the operation thereof".

BE IT ORDAINED by the Board of Commissioners of the City of Canyon City, Texas:

I. That Section II of Ordinance No. 29 entitled "An Ordinance granting a Franchise to Canyon Power Company, for an Electric Light & Power Plant, and the operation thereof" be and the same is hereby amended so that hereafter it shall read:

"That the Franchise rights and powers hereby granted, shall be extended for the full term of twenty-five years, from and after the 30th day of December, 1924, subject however to the limitations of this ordinance."

II. That Section V of said Ordinance No. 29, be and it is hereby in all things repealed, annulled and rescinded, and the option upon the property of Canyon Power Company, its assigns and legal representatives, provided for in said Section V is waived.

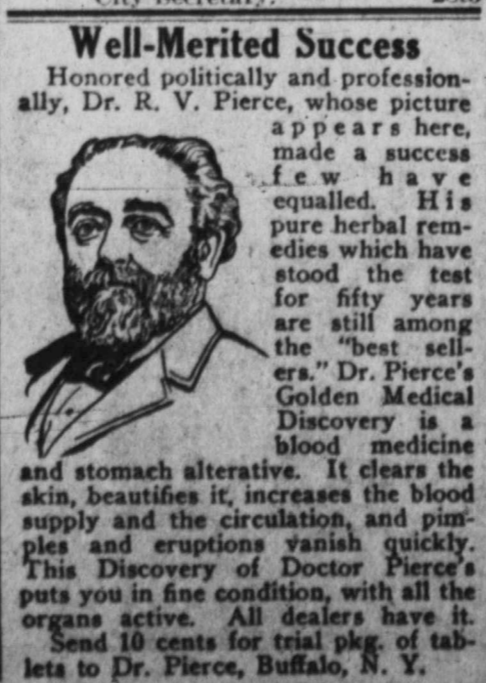

Passed and approved this 6th day of October, 1924.

C. N. HARRISON, Mayor City of Canyon, Texas

Attest: PEARL JINKINS, City Secretary. 2813

Well-Merited Success

Honored politically and professionally, Dr. R. V. Pierce, whose picture appears here, made a success few have equalled. His pure herbal remedies which have stood the test for fifty years are still among the "best sellers." Dr. Pierce's Golden Medical Discovery is a blood medicine and stomach alterative. It clears the skin, beautifies it, increases the blood supply and the circulation, and pimples and eruptions vanish quickly. This Discovery of Doctor Pierce's puts you in fine condition, with all the organs active. All dealers have it. Send 10 cents for trial pkg. of tablets to Dr. Pierce, Buffalo, N. Y.

More Freshmen in the College Than College Students 3 Years Ago

There are 344 freshmen attending the College this year.

Few people will realize that the freshman class of this year is larger than the entire college attendance of three years ago, but this is the case. This shows the fast increase in attendance that has been made in the College during the past three years.

The attendance in the college proper during the past three years has more than doubled, which the increase this year over last year is nearly 30%.

Campbell Notes

D. E. Covington is putting up a three tube radio at his home west of town. Mr. and Covington, his wife and small son, Earl, have just returned from a trip into New Mexico. They visited Roswell, then motored on west around and on some of the mountains.

Several of the Campbell singing school class went to a singing convention at Dimmitt last Sunday. They were royally entertained while there.

T. A. Dowlen has recently purchased six registered Hereford heifers from E. C. Collins of Channing.

Chas. Tadlock and wife of Amarillo visited her parents, Mr. and Mrs. A. N. Burgan Sunday.

W. H. Cole and wife of Kansas City, Kansas, have been visiting at the S. J. Burrus home. Mr. Cole is a cousin of Mr. Burrus.

Sam Snyder and wife of Albany, Oregon, have returned home after attending to some business here and visiting with a few of their many friends. They say that the Sunny Panhandle looks exceedingly good to them.

"The truth is, a farm will not make an honest man rich in money. I do not know of a single instance in which a man has honestly got rich in farming alone. It cannot be done. The way in which men who have farms grow rich is either by other resources, or by trade, or by getting their labor for nothing, or by other methods of which I could tell many sad anecdotes."—Ralph Waldo Emerson.
