INTER-CITY GROUP **MEETINGS STRESSED** FOR LION ACTIVITY

Field Representative of International Visits Local Lions Club; Committee Named to Co-operate With City Council on Paving Project.

W. H. Teegarden of Houston, field representative of Lions International, was a visitor to the local Lions club last Friday, and spoke interestingly of the growth of Lionism throughout the country. He congratulated the Hico club on its accomplishments and pledged the support of International in advancing the interests of the club

Inter-city group meetings were stressed by the visitor as most helpful. He urged the local club to visit neighboring clubs and get better acquainted, with the idea of co-operation in sectional undertakings.

Charles Clark, formerly of Hico but now living in Sweetwater, was also a visitor and told of the organization of a Lions club at Sweetwater recently. He expresed delight at being back in his old home town. Mr. Clark is county agent of Nolan

ARMISTICE PROGRAM AT BAPTIST CHURCH DRAWS BIG CROWD

Ex-Service Men and Friends Pay Tribute to Boys Who Gave Up Their Lives in World War; Music and Addresses Feature.

Hico citizens gathered in large numbers at the Baptist church Sunday morning for the special Armistice day program, observing the eleventh anniversary of the closing of the world war and paying tribute to the Hamilton county boys who made the supreme sacrifice.

Rev. Clarence Allen Morton, himself a world war veteran, was in charge of the services.

Special music was rendered by B. D. Corrigan, representing Cunning-ham Post of Hamilton. Mr. Corrigan also gave an interesting address Armistice day program, attended by dealing with the history of Cunning-ham Post, also the paying paying tribute to the boys of Hamilton county who had lost their lives in the great world conflict. Dr. J. D. Currie of Nash Post, Hico, gave historical facts about his organization, naming the men from the Hico section who made the supreme sacrifice.

Gatesville Man Speaks. Hon. Tom L. Robinson of Gatesville delivered the principal address, in which he declared that Armistice day should be and is the most sacred in history. He discussed the world war and graphically described the sacrifices, the bravery and devotion to duty displayed by American and aliled soldiers throughout the conflict. He also paid tribute to the mothers and other loved ones of the soldier boys, and described the sufferings they underwent in parting with the boys who had answered the call of

Offer to Buy Hico Plant to Be Submitted

Creditors Called to Meet at Waco to Pass on Bid Central Texas Ice Co.; Ready to Operate.

Indications point to the re-opening of the Hico Ice and Cold Storage plant not later than Dec. 1 if the creditors approve the sale of the plant, which has been in bankruptcy for the past several months.

Creditors have been advised by Judge T. F. Bryan of Waco, referee in bankruptcy, that a meeting will be held at Waco on November 26 to examine and pass upon the application of the trustee to sell the plant at private sale to the Central Texas Ice Co. for the sum of \$35,000.

According to some of the local creditors, the notice sent out by the referee means that \$35,000 has been offered for the plant, and that it is necessary for the creditors to approve the sale at that figure, hence the meeting called by Judge Bryan of those who held claims against the plant at the time of the bankruptcy

Bidder Big Corporation

Texas headquarters of the Central Texas Ice Co, are at Brownwood, according to Garland Tunnell, who has been manager of the plant since it was placed in the hands of a receiver. It is an out-of-state corporation, but with extensive holdings in a number of Texas towns. The company owns and operates a number of creameries and ice plants in the state, and has announced through Mr. Tunnell that if the creditors and the court approve the sale of the Hico plant under their bid of \$35,000, operation of both the creamery and the ice plant will

begin immediately. Hico business men and the farmers of this section are interested in the sale of the plant and the resumption of operations unhampered by bankruptcy proceedings. Some contend that while the price of \$35,000 will not by any means reimburse the credis of vital concern to the dairy farmers and business men of the Hico territory. Both have lost heavily by reason of the curtailed operation of

Recently the Hico Dairy Herd Improvement Association was organized with the announced purpose of doing omething to assure the reopening of the creamery, that a market for the milk produced in this section might be provided. The Lions club has been working with the dairy farmers to

Await Meeting Creditors During the past two weeks a move-

ment was launched for the financing and operation of an entirely new reamery and ice plant, resulting in the bringing of an engineer here to analyze the situation and submit estimates of the equipment needed and probable cost. It is understood that this movement, while satisfactory progress has been made, will be held n abeyance until after the meeting of creditors. The movement for the new plant was started to provide a ready market for the milk produced in ction as quickly as possible seemed that the sale and the plant now in bankru

POULTRY PROFITS

Cooper-A Delta county club girl has reported to Miss Anna Mae Rus-Adamek.

Simple glycerin, buckthorn, saline, sell, home demonstration agent, a net profit of \$176.78 for her year's work. She is Malvin Whitaker, and \$145.83 on stomach in 10 minutes! Most remedies act on lower bowel only, but Adlerika acts on BOTH upper and lower bowel, removing poisonous waste you never knew was there. Relieves constipation in 2 hours. It

Surprise Birthday Dinner Given J. N. Caldwell of Iredell

J. N. Caldwell of the Iredell community, better known as "Uncle John." was surprised by his friends and neighbors Tuesday, November 5, it being his 78th birthday.

These friends and neighbors had prepared an elaborate birthday dinner for this estimable man and his good wife. They gathered at the home of the beloved couple in large numbers, carrying baskets and boxes loaded with choicest food, prepared in such a way as to "whet" the appetite of all of those who were fortunate enough to be present.

With the dinner hour over, guests joined with Mr. and Mrs. Caldwell in pleasant conversation, which continued until late afternoon. The aged couple received many nice presents, which were highly appreciated, as were the pretty flowers brought and sent by loving friends.

The birthday cake, which was the center of interest, was baked by Mrs. Mary Parks, and it was pleasant to look at and delicious to the taste.

Those enjoying the day with the beloved couple were: Mr. and Mrs. R. W. Royal and daughter, Miss Beatrice, and a niece, Mrs. J. C. Royal and baby of Glen Rose; Mr. and Mrs. John Chewning; Mr. and Mrs. Cam Moore and daughter, Miss Lola Mae; Mrs. Lloyd Lester and son, Aubrey Lloyd; Mrs. Jack Blakley and son Billie; Mr. and Mrs. Loughlin; Mr. and Mrs. Dearing; Mr. and Mrs. John Parks; Mrs. Deatherage; Misses Minnie and Mae Dunlap and Stella Jones. Just before the guests departed, Mr.

Caldwell served some fine water-melons to his friends and guests. bey were raised in his garden. Mr. Caldwell and his good wife were highly appreciative of the thoughtulness of their friends and neighbors. They are loved by all who know them -true Caristian characters-with never a harsh word for any one. Their many fine traits have endeared them to the entire community, and the pleasantries of the day will be long re-

membered by all who were priviledged

to be present. Abilene is to have a new railroad the Frank Kell lines from Cross Plains. To get it Abilene citizens, more than 400 of them, subscribed to \$400,000 worth of stock in the company, which was according to the Kell offer. The line will give Abilene direct connection with the Katy sys-tem and tap a rich agricultural and

Cottonseed Market in Danger, is View of Clarence Ousley

DALAS, Texas, Nov. 14.-Destruction of the market for Texas cottonseed may result within the next five years unless something is done to curtail free importations of Phillippine Island vegetable oils, according to Clarence Ousley, former assistant secretary of the United States Bureau

of Agriculture. In a comprehensive study of the cotton industry of Texas and its potential competitive commodities Mr. Ousley discovered what, in his opinion, formed one of the greatest obstacles to economic independence of

the Texas farmer.
"This" he said, "lay in the fact that
our own farmers, working in a country where living costs are based on supply and demand, are trying to compete with Filipino laborers who get paid less than 20 cents a day, regard-

less of living costs." Mr. Ousley pointed out that the Texas farmer has not been informed sufficiently about foreign conditions with which he must compete.

"Unless this is done you cannot expect the American farmer to under-stand what he needs for his own sal-vation and demand it," he said.

"Unofficial figures show that within the next five years the free im portations of cocoanut oil from the Phillippines will be equal the total production of cottonseed oil by Texas and other cotton producing state" Mr.

"This expansion of the Phillippine cocoanut oil industry appears inevitby individuals or corporations, labor is astoundingly cheap and, under this regime, profits are great.

"Profits upon cocoanut plantations cultivated according to modern scientific methods are about 45 per cent annually upon the investment after the first five years of waiting for the trees to come into bearing, and experience proves that the trees reach their maximum fruitfulness within 10 years and maintain it for at least 100 years.'

With such potential expansion and such a margin of profit Philippine present American tarriff policy promises competition with cottonseed oil production to the point of the practical extinction of cottonseed oil as a worthwhile byproduct of cotton production, Mr. Ousley said.

Native Plants Add Beauty to Country Homes Kerr County

Kerrville-Native shrubs have played a prominent part in the fouryear yard improvement contest in Kerr county in which 102 home yards were beautified, 46 of them being entered in the contest. The work has been done by home demonstration club women aided by Miss Veta Culpepper, home agent, and in cooperation with local civic and commercial organizations.

Such evergreens as cedar, agarita berry and mountain laurel were used in this Kerr county landscaping, and other native shrubs including redbud, buckeye, and sumac were also transplanted from the woods. Honeysuckle and many kinds of cactus were used.

Rock walks, fences, porches, columns and steps were built in many places out of the beautiful native rock that abounds in the Hill Country, illustrating the beauty and economy of using material that is at

The total cost as given by the 46 contestants amounts to about \$800, not counting the time of friends or members of the family, nor of material on hand. No records were kept on the other yards improved as a result of the contest.

AMERICA'S RADIO ld a British LEAD IN DANGER

Gen. J. G. Harbord Sees a Threat to Our Nation's Place in British Merger.

The recent successful effort of the British to bring about consolidation of their cable and radio interests is a mention is nryelwRivb erious challenge to the radio supremet is close attention to acy of the United States, and of more importance to our country than oil or merchant marine at this moment, according to General J. G. Harbord, who was chief of staff of the A. E. F. and now is President of the Radio Corporation of America.

"Great Britain being the great cable-controlling power of our planet."

GENERAL J. G. HARBORD

perils American leadership more directly than that of any other country. "The answer to this challenge cannot be made by private interests under our existing laws. It is for our people to decide whether they think It is worth making, and if so, to make those Quakers, to be his successor in the possible. It is a case where no ted to this belt and westward, trees the Presidental office? render; or even worse, aid and comfort to foreign against American in-

Other Countries Alert

The effect of this advanced system of international communication is a subject of discussion in the chancelleries of the world, General Harbord cays, and is not viewed with indifferexce by any great nation aspiring to Yoreign commerce, unless it be the

"Communications play an important part in national defense," he conpines, Alaska and Hawaii or Australia, Canada, South Africa and India." Great Britain approached this prob-

lem with the seriousness its importance demanded, in the opinion of General Harbord, and on March 15 of last year, as a result, the principal communications rivals in Great Britain, the Eastern Telegraph Company, Limited, representing cables, and the merger in the form of a holding company. The government will have repwhich with the vote of either the cable or radio interest, will be controlling. The press approved this merger,

"This new combined British communications interest will affect American relationships in every part of the world," General Harbord asserts. "There will hardly be a port or principal city on the planet which will not be reached by British communications. American trade in every quarter of the globe cannot but be profoundly affected. The national defense of the United States must reckon with the planetary domination of commuresult of the action of the farseeing | the department national adolescence through which we still are passing. Her politicians abuse one another, as do our own, but as against the outside world Britain's policy changes little with the advent of one party or another on the politi-

Hard to Understand

France, Raly and Germany are uniting radio and cables seems to be the time taken by our country to keep them apart. What others unite to secure leadership in communications we divide. The long deliberations which preceeded the consummation of the cables radio merge: in Great Britain saw in our country the enactment of the White Act of 1927, which in plain terms forbids any purchase of radio by cables or vice versa. While this provision is understood to have been inserted under the minority lash in the last days of the drafting of the law, its purpose no doubt was to preserve the competition, in form at least, between the two methods of international communication - radio and

"Sitting between the hind legs of the British lion with the tail of that noble beast wrapped around his neck | is a poor perch for the American eagle from which to recover lost lead ership to world communications."

Welcome to all our services! Clarence Allen Morton, Pas

through the window. He

was all alone at a table."

RS. BEARDSLEY had just returned from the city and she was telling her friend, Mrs. Stanley, all about her visit.

"... and I saw him through the window. He was all alone at a table in the main dining room of the very best hotel. I was so surprised—you know, from seeing your husband washing his own car and cutting the grass himself and all those things. I didn't think he was at all extravagant."

"Sure, I go in there once in a while when I'm in the city," Mr. Stanley told his wife that evening. "It's not for the food. It's for the coffee. That coffee is worth the price of a meal there by itself. You know, dear, I simply must have good coffee once in a while and ... well, I didn't like to hurt your feelings by mentioning it."

"That coffee, madam," the waiter told Mrs. Stanley the next time she accompanied her husband, "is White Swan Coffee. This hotel has used it for years."

Wives who are coffee-wise know that the appetizing aroma and satisfying flavor of White Swan Coffee served at home makes everyone wish that every meal could be Strict selection of the imported coffees, scientific roasting and artful blending each plays its part in fully developing and nicely balancing the famous White Swan flavor.

With the skill acquired by more than a half century of experience, the Waples Platter Company controls every phase of distribution as well as preparation-making certain that no finer or fresher coffee can be brought into your home for the price you are asked to pay.

White Swan Coffee comes to you fresh in sealed tins and fresh from the roaster with all of its rare goodness kept intact. No chances are taken with White Swan flavor.

One of the 22 Waples Platter Houses is conveniently close to each of the 10,000 White Swan dealers. A fleet of motor trucks, supplementing railroad facilities, makes regular deliveries along established routes to the retailer from all of the units of this institution of the Southwest.

Thus, your grocer always has a new supply of White Swan Coffee-freshly packed for you in one and three pound cans.

Woman Wins Medal **Ton Litter Contest**

Bedias-Believed to be the first oman in Texas to successfully finsh the state ton litter contest, Mrs. Maggie Shanks, Grimes county deconstrator working with County Agent W. I. Ross, has made a litter 10 grade Duroc Jersey pigs weigh 83 pounds at the age of five months. this feat of quickly producing he ideal size hog according to packer standards she will receive a medal nd perhaps other prizes awarded by leading Texas farm journal.

Mrs. Shanks fed her pigs a balanced ration of corn meal, protein supplement and a little skim milk in the ratio of two parts corn meal to one part protein supplement. They were fed in a creep and ran with the sow until they were weaned at 50 days, when they weighed 412 pounds. Every ten days Mrs. Shanks weighed he litter and on the 130th day the ton mark was reached. At 140 days the pigs averaged 225 pounds each,

considered the ideal packer size. It cost \$35.52 to feed the sow until the pigs were weaned, Mrs. Shanks says, and \$133.22 to feed the pigs from weaning time until they were sold at the pen for meat purposes for \$212.95. The cost of live weight of these pigs when sold was slightly more than seven cents per pound which is considered economical production. Her net profit above feed cost amounted to \$44.21.

Petty Bros. Mercantile Company

The New Lusk Randals Home

Will Be Open For Inspection Friday, Saturday and Sunday, November 22, 23 and 24

People of Hico are invited to inspect the new home being built for Lusk Randals on the above dates. This opportunity is given because of the completeness and modernness of the new structure, believed to be one of the best from the standpoint of attractiveness and covenience to be found in West Texas.

The new home is of white brick veneer with chocolate mortar. In front are casement windows with lettered glass, while all outside doors are of beveled glass. The bath room has all the late built-in equipment, while the fixtures are of the well known Koler make. All electrical work is in conduits.

R. C. McCune is the contractor for the Randals hame. He is anxious for the general public to examine it thoroughly, believing that it will compare favorably in design, workmanship and beauty with the best homes to be found in Central Texas.
