

## Here In HICO

As we have stated before, we just can't help enjoying listening to a man tell about his business, provided he is enthusiastic about it and is making plans for its improvement. The day has come when it is necessary to do more than secure a location and open the front doors in order to be classed as a business man. Improved methods and ways of doing things have brought about a great change in every line of business, and from the smallest to the largest, they all require constant study and work to keep in line with progress.

So when any business man of Hico improves his service, makes a change for the better in his fixtures or equipment, or offers some new inducement for people to come to Hico to trade, we think the citizens of the town should get behind him as a body and lend all the encouragement within their power. While whoever offers this kind of service intends to profit—and should profit—still that is the kind of stuff that builds towns and makes business as a whole better. There is more to a town than its business houses, but they may be used as a yardstick with which to measure the town's true worth. If the business men are alive and doing a good business, the churches are better, the social organizations are better, the public schools are better, and in fact everything in such a town will prove to be above the average.

There is no need of being bashful about telling the people what you are doing to make your business more modern and up-to-date. If anyone in the world is interested enough in the matter to talk about it, it should be the one who is responsible for it. We think we get out a fairly good newspaper, and are not ashamed to admit it. This is not a boast either. Any man who considers a business worth his time and effort should at the same time be proud of it to the degree that he wants others to know what he is doing.

"Build a better mousetrap and the world will beat a path to your door, even if your house be in the woods" is the sentiment, if not the exact wording of one of John Ruskin's bright sayings. But it must be remembered that John lived a long time ago, before the age of keen competition in which we are living, and the ones who are getting the cream of the business today are the ones who advertise regularly and systematically.

Have you ever seen conditions as a whole point to a better crop year than they do at present? The extreme weather the past winter served to kill the insects off and the moisture has fallen just about as nearly at the right time as we ever saw it happen. While it is still a little early to prognosticate, still you will have to admit that things at the present time are indeed looking good. We have heard lots of old-timers talk about the weather and crop prospects during the past few days, and almost to a man they all agree that the prospects are bright. Things have never been just what we would have them be, and sometimes it looks like it is impossible to order the right kind of weather, but this brand we have been having ought to suit most of us.

Had two invitations to go fishing and one to go golfing Thursday afternoon, which we had to refuse to accept on account of the fact that it was press day. But the weather is having its effect on us, and if we are tempted much more we are afraid we will have to leave the destinies of this organ in the hands of others long enough to get this spring fever out of our system. See you down at the creek.

Miss Louise Knight has returned to her home at Lampasas after spending a few days here in the D. F. McCarty home and with other friends. She was a former Hico teacher and boarded in the McCarty home.

**HIGGINSBOTHAM BROS. YARD PRESENTS A NEW FRONT**

Higginsbotham Bros. & Co., who recently purchased the Smith-Harris lumber yard at Hico, now have their name across the top of the gate and fence which has recently been added to their property. They believe in practicing what they preach, seemingly, and Manager J. C. Barrow will not have to tell visitors at the yard the name of the new owners, for the sign speaks for itself.

Improvements have been noticed throughout the entire yard, and Mr. Barrow says the stocks have undergone a like improvement.

## Feed Campaign Being Conducted In Texas By Katy

In an effort to encourage Texas farmers to go in for a greater production of feed, the M. K. T. agricultural department, under direction of R. Reece, Agricultural Agent for Texas, is conducting a "More Feed Campaign." Thus far the work has been organized in the following counties: Hill, Grayson, Hunt, Rockwall, Ellis, Hayes, Caldwell, Williamson, McLennan, Erath and Eastland. If organization can be completed before planting time, this work will be extended yet this year into Wichita, Fannin and Denton counties also. A feature of this campaign is the supplying, free of cost, of a limited amount of seed to farmers who agree to grow the crops under direction of their county agents. Distribution is confined to hedges seed this season, chiefly because of its value, as a dairy feed when harvested with a row binder, placed in shocks, well cured and then ground. This treated the farmer has the basis of a good dairy ration at a minimum of cost. By the addition of cotton seed meal and bran a perfectly balanced ration is secured. Yields of from five to eight tons per acre are common.

## Clean Up Week To Be Sponsored By Review Club

The Civic Committee of the Review Club announces that next week will be observed as Clean-Up Week in Hico, and asks the cooperation of citizens in making it a success.

April 10th, 11th and 12th have been named as the dates for this affair, which is sponsored regularly by the club, and the city will cooperate by furnishing wagons for the removal of trash, provided same is set out in the proper manner and sacked up in readiness for the wagons.

This will be a good opportunity for citizens to clean up around the house and yard and get the work done with a minimum of work, and at the same time.

## Mr. Eakins Gives Weather Report For Month of March

March was an unusually cold month, according to Local Observer, John A. Eakins, who submits the weather report for month of March 1930 from the Hico Weather Station, Hico, Texas, as follows:

Temperature—Mean Maximum 69.6; Mean Minimum 41.1; Mean 55.2.  
Maximum for month 83 on 6th. Minimum for month 23 on 3rd.  
Precipitation 2.61 inches; greatest in 24 hours 1.70 on 21st.  
No. days with .01 or more precipitation, 4.  
No. clear days, 11. Part cloudy 7, cloudy 13.  
Prevailing wind direction, north.  
Remarks: A severe sand storm on the eve of the 6th, coming from the west.  
Snow fell for 4 hours on morn of 27th, but melted nearly as fast as it fell. From the amount of precipitation the snow fall showed to be fully 5 inches.

JOHN A. EAKINS, Local Obsr.

## Sadler Employee Attends School at Ford Plant, Dallas

Geo. Christopher, the genial all-around man at the local Ford Sales and Service Dealers, has been in Dallas the first part of the week attending a special school of instruction which will keep him in touch with the latest ideas in his line of work, according to H. C. Sadler, owner and manager of the Sadler Motor Company.

Mr. Christopher was one among a selected group from various parts of the state to receive this instruction. The meetings and demonstrations were held at the factory branch of the Ford Motor Company in Dallas.

Special emphasis was placed on instruction pertaining to the new model A Ford cars, with demonstrations and talks by company employees and officials, and those attending were put through a series of repair jobs, doing the actual work themselves under expert supervision.

## The Real Discoverer Seldom Gets Credit — By Albert T. Reid

## Changes Made In Plans for District Interscholastic Meet

The following announcement is being sent out concerning the District Interscholastic League Contests for 1930 to be held at Brownwood, Texas.

On account of conflicts with the Mid-Texas Teachers Association at Brady and with the great College Track Meet at Austin, which will take the coaches and athletes from both Brownwood Colleges out of town, and the possibility of bad weather, it has been decided by the district directors to divide the meet over two week-ends.

The following will be the dates and order of events:  
Friday, April 11th, 1:30 P. M.—Tennis Preliminaries on Howard Payne Courts.  
Saturday, April 12th, 9:00 A. M.—Tennis Finals.  
Saturday, April 12, 9:30 A. M.—Preliminaries in 100 yard dash; 220 yard dash, 120 yard high hurdle; 220 yard low hurdle, and finals in Pole Vault and Discus.  
Saturday, April 12, 2:30 P. M.—Finals in field and track events at Howard Payne Park. A small admission fee will be charged for the meet.

## Newly Refinished And Modernized Palace Now Open

Manager E. H. Elkins of the Palace Theatre expresses himself as being well pleased with the attendance on the opening nights, Monday and Tuesday of this week, when he offered for the approval of the public a special picture and other attractions along with his opening of the New Palace, recently made talky.

In addition to the Vitaphone equipment, much improvement work has been done in every part of the theatre, and those who have viewed the work and seen and heard his new programs describe them as being a credit to a town of this size, and worthy of much praise.

The opening performance Monday night was made more dignified and entertaining through the cooperation of the Palace Orchestra, directed by M. S. Knott, which organization rendered a class of music deserving of much commendation.

The theatre has been completely remodeled from the front to the back, having a modern front, an elaborate foyer, new runners on the floor and new drapes on the wall. The screen is of the latest type, being perforated for the accommodation of the talking pictures. The talking equipment is placed directly behind the screen, and though this arrangement is more costly, it was considered worth its price in increased clarity of the sound, and Mr. Elkins states that this is typical of the entire equipment. No expense was spared to bring the Palace right up to the minute in the show line.

It is announced that bookings include the latest releases of the best film companies, and programs will be had each night in the week which it is thought will please lovers of screen drama.

## Lions Hear Short Sermon By Rev. McMurry, Revivalist

Departing slightly from the usual routine, the majority of the time allotted for social talks after luncheon last week at the Lions Club meeting was devoted to an interesting and beneficial talk by Rev. Stonevall J. McMurry, D. D., of Bartlett, Texas, who is in the city conducting a revival meeting at the Presbyterian Church.

Rev. McMurry, after being introduced, started his talk in a humorous vein by stating that he was a great singer and was going to sing for his audience. He confined his musical efforts, however, to a short sketch depicting the result of an attempt to sing by a man suffering from a bad cold. From this he immediately took the listeners along with him in a discussion of a very fitting subject—"The Four-Square Man."

In this talk he brought out the four main attributes of an ideal man, perfection in his physical, mental, spiritual and social life and being. Each of these he showed to be dependent upon the other, and brought out the point that to be lacking in one, even though perfect in the other three qualities, was to be less than a four-square man.

Rev. McMurry's talk, filled as it was with good common sense, was none the less lacking in interest, and was thoroughly enjoyed by all Lions in attendance.

After the visitor's talk, other matters were taken up, the first of which was the extending of a vote of thanks to Superintendent C. G. Masterson by the Lions Club for the way he had handled every phase of the county meet held this year in Hico. It was the consensus of opinion that Mr. Masterson had done both himself and his town a credit by the efficient way he had planned and carried out the meet. Mr. Masterson in turn thanked the Lions individually and collectively for their cooperation, and expressed the desire that the affair might be held here again when opportunity offered.

A letter was in the hands of the president, H. F. Sellers, from State Highway Engineer Gibb Gilchrist, setting forth the purpose of the new highway laws, and giving information relative to the location of highway patrol officers who are stationed over the State.

A letter from Weatherford telling of that city's plans along highway lines was noted, and passed without discussion.

A report was heard from one of the members to the effect that Mr. Salmon of Claiborne had notified him that district had sold the bonds recently voted for highway improvement, and were ready to start on this work as soon as things could be gotten in shape.

After a few more incidental matters, the club adjourned to meet again today (Friday) at 12:30 at the Midland Hotel dining room.

Dr. Chas. M. Hall and daughter Mary Helen, and Mr. and Mrs. H. J. Leach and children spent a part of the week in San Antonio at the bedside of Mrs. Leach's father, J. E. Sellers Sr., who is in a serious condition from injuries received in an automobile wreck Monday morning.

## Red Cross Dietitian Doing Work Each Week In Schools

Mrs. L. Brann of Hamilton, County Red Cross Dietitian, informs us that she is doing work each week in the Hico Schools toward the improvement of health of the children in general.

Friday of this week will mark the beginning of this work, which will be conducted here for the first time in five years. There will be many phases of child health covered by Mrs. Brann in her work, and she solicits the cooperation of all parents and adults in correcting bad conditions and keeping the children in as good physical condition as possible. Classes will be held each Friday afternoon covering the subject of diet particularly, and all adults who will be urged to attend.

In addition to the classes in diet, Mrs. Brann is doing much good work in weighing and measuring each child, giving them physical examinations and conducting health and nutrition classes. Much more can be accomplished, she says, provided she can secure the proper interest and cooperation from the grown-ups.

## G. H. Munnerlyn Has Been Attending Fisher Body School

G. H. Munnerlyn returned last week end from Dallas, where he has been for the past week attending a Fisher Body School, sponsored by the Chevrolet Motor Company as a part of their course of instruction on the repair and upkeep of their automobiles.

Mr. Munnerlyn reports that much of interest was learned at the school, where the latest ideas in repairing were set forth, and feels that the time was well spent.

He is an employee of the Blair Chevrolet Sales and Service Station in Hico, and says that Mr. Blair has ordered many new tools, in addition to his already complete shop, with a view to handling any kind of work on Fisher bodies that may be required. Most of the new tools are identical with those Mr. Munnerlyn was taught to use at the school of instruction.

## Presbyterian Meeting Draws Large Crowds With Much Interest

Revival services have been in progress at the Presbyterian Church in Hico for several days, and it is announced that they will continue through this week, to be brought to a close Sunday evening April 6th.

The services are being held daily at 10 a. m. and 7:45 p. m., with Rev. Stonevall J. McMurry, D. D., of Bartlett, Texas, Stated Clerk of the Synod of Texas and of Central Texas Presbytery, bringing helpful and inspiring messages.

Each service has been featured by a large attendance and has resulted in an awakening of interest along church lines. Other denominations have cooperated, helping to make the meetings a success.

## Election Saturday April 5th, For School Trustees

There will be an election Saturday, April 5th, in Hico Independent School District, and in all other school districts of the county, for the purpose of naming the school trustees for the coming term.

The News Review is advised that the ticket in Hico District will carry the names of Chas. M. Hall, M. D., M. L. Rainwater, J. E. Burlison, Lusk Randalls, S. J. Cheek, and A. I. Pirtle. Most of these have served at least one term, and several of them have been on the board for a number of years. They have worked faithfully for the good of the school and are due commendation from the public in general for the way they have handled school matters. It is understood that some of the men are anxious to have the school duties taken from their shoulders, and are in favor of putting someone else in, but their friends demanded that their names be placed on the ticket, else they would not be offering for re-election.

No excitement is anticipated in Saturday's election however, for this is usually a rather quiet affair.

## Light Vote Cast In City Election Tuesday This Week

The city election held in Hico on Tuesday, April 1st, brought only a light vote, there being a total of 53 votes cast. This seems to indicate that the people as a whole are behind the present administration, as a majority cast their vote in favor of re-electing candidates now holding the offices voted on.

The official ballot carried the name of the following:  
For Mayor: J. C. Barrow.  
For Aldermen (3 to be elected): H. N. Wolfe, J. W. Riechbourg and S. E. Blair.

To fill the unexpired term of H. Gleason, resigned (1 to be elected): H. E. McCullough.  
Most of the candidates were unopposed, one or two losing a few votes, but the election went overwhelmingly for the ticket as it stood.

## Texas-Louisiana Co. Announces Cooking School

A prominent home economics expert will be on hand at the Texas-Louisiana Power Company cooking school, dates for which are announced as Monday, Tuesday and Wednesday, April 14th, 15th and 16th, to be held at the local office of the power company.

Every-day kitchen problems will be discussed. The demonstrators will tell housewives how to plan interesting and balanced meals. She will show how to cook foods better and how to attain kitchen freedom—how to be dainty and fresh at the end of the day as at the beginning.

Refreshments, prizes and souvenirs are offered those attending, and everything will be free.

Manager Cecil Coston extends a special invitation to the housewives of Hico and vicinity to be on hand at the lectures and receive a part of this course of instruction, at least one of the days, and all three if possible.

## Carlton Boosters Here Next Monday Before Stock Show

The News Review is informed that the Carlton Concert Band and the Carlton Stock Show Boosters will be in Hico Monday, April 7th, to advertise the 1930 Carlton Stock and Poultry Show, which will be held at that city April 11th and 12th.

There will be cash premiums and the first, second and third place ribbons offered for all entries made that win places.

It is promised that there will be music, ball games, rodeo, speakers and many other attractions, and a good attendance from over the county is expected.

## BARNES & McCULLOUGH BEAUTIFY PREMISES

Believing in keeping their premises up to the standard required of a first-class lumber yard, Manager H. E. McCullough of the Barnes & McCullough Lumber Company, assisted by Marvin Bell and Jim Steele have set out some shrubbery in front and at the side of their place of business, and built some trellis work which they intend to decorate with some specimen of plant life.

Some of this work has been done several days, but they are too modest to make mention of it through their "What Knots" column, a regular feature of the News Review, so we take this method of giving credit where credit is due. Nearly every week they make mention of some improvement work made by others, and realize the impression such work makes on the public.

## Keeping Up With TEXAS

Fire destroyed four business concerns and one vacant building on East Third street in Big Spring Sunday evening. The loss is estimated at from \$30,000 to \$50,000. The Big Spring Hatchery, the Big Spring Seed and Feed Company, the Chieftain Drug Store and the S. & S. Printing Company were complete losses.

One of the largest real estate deals recorded in the lower Rio Grande Valley has been consummated whereby a group of Chicago capitalists purchased the 10,000-acre Adams tract of unimproved land on the highway three miles west of Harlingen for a reported sum of \$2,500,000. The purchasers planned to improve the land, construct paved roads, plant part of it to citrus and then subdivide it for sale.

Three law-suits, involving Eastland County road money, with Eastland County as the plaintiff in each case, which have been fought through the courts of the State for the last ten years have been brought to a definite settlement, releasing \$135,000, or approximately that amount, for use in county highways.

Three men are believed to have drowned in San Jacinto River near Houston last Monday night when their motorboat sank near the Market Street Road bridge. Out of six men in the boat when it went down, two white men and a negro still were missing.

Newspapers of Fort Worth were taken to task last Monday and the entire journalistic fraternity censured because crime news is given space on the front pages with head lines attached while church news is allegedly buried in the back of the papers and not featured.

The Railroad Commission Monday was advised by the Interstate Commerce Commission that the latter has granted a petition of the Texas Short Line, a subsidiary of the Texas & Pacific to extend from Grand Saline to the Van oil fields, on condition that the work start by June 1, and be completed by Dec. 31. The estimated cost is \$370,000.

Tommie Brooks, 6, son of Mr. and Mrs. Harry Brooks, died Sunday of an infection of the lung caused by a peanut shell which he sucked down his windpipe last Tuesday. The obstruction was removed Thursday, but the infection cut off his breathing.

Surprised by a night watchman, burglars were foiled in an attempt to rob the Farmers and Merchants Bank at Brashear at 3 a. m. last Tuesday. As they were trying to force entrance to the building through a door, the watchman appeared and the robbers fled in an automobile.

More than 5,000 unemployed laborers will march to the city hall Monday to ask for work under the leadership of Jacob Shaffer, it was decided at a conference last Wednesday between Mayor C. M. Chambers and a committee headed by Shaffer, representing the jobless men.

V. R. Nelson, 35, farmer, resident of southwest part of Camp County, is in jail at Pittsburg, charged with the murder of his wife by poisoning. Mrs. Nelson died at her home March 8 suddenly. It was later found her stomach contained poison.

J. G. McHaney, brakeman for the International-Great Northern Railway, was taken to a Fort Worth hospital Monday night after having been wounded in the face when an unidentified person fired a shotgun into the caboose of a freight train near Maypearl.

City manager form of government was retained by Gainesville by a vote of 810 to 698 at Gainesville Tuesday, 14 amendments to the city charter which would have caused the form of government to revert to aldermanic form, being defeated. The city manager form was adopted two years ago.

## Repainting Front Of Store Building On Pecan Street

Kal Segrist, who has been in Dallas and Greenville for the past several days, came home this week in time to cast his vote in the city election, and apparently gained inspiration from his visit, for it was noticed that work began immediately on repainting the front of his building, occupied by the Campbell & Hardin Confectionery. However, Kal states that most of the credit is due the last mentioned, as they were furnishing most of the work. Together with the work that has recently been done on the inside of the building, this now presents an attractive appearance, and is in keeping with the spring clean-up and paint-up program.

POLITICS

Presidential politics always become a topic of conversation in any President's second year. Some people are hinting that Mr. Coolidge would like to run again in 1932.

From here it looks certain that it will not be Mr. Smith. It also looks certain that it will not be Governor Ritchie of Maryland.

REDUCING We can blame a good deal of the trouble of the wheat growers on the world-wide effort to avoid surplus fat, according to Professor James L. Boyle of Cornell University.

KINGS There are a few kings left, but they are mainly figure-heads. Mussolini rules Italy; Primo de Rivera, up to a few weeks before his recent death, ruled Spain.

FISHING It takes a fisherman anywhere from two to seven or eight hours to land an 800-pound swordfish after he has once sunk the harpoon in it.

board and the seawater completes the circuit. The method is not exactly "sporting," but commercial fishermen are not sportsmen, and the more fish they can catch in a given time the greater their profits.

HEATING

Everybody who has tried to heat a house by electricity knows that it is expensive. But also everybody knows that there is a time between midnight and day-break when electric power plants are practically idle.

A New Jersey inventor has devised a way of using this cheap current. A large tank of water in the basement is raised to the boiling point. The tank, being thoroughly insulated, retains the heat through the day and the hot water circulating through radiators keeps the house warm until the hour for cheap current again arrives, when the "juice" is automatically switched on.

Rather-un Usual

THE WAY OF LIFE

By BRUCE BARTON Do You Know How to Breathe? I once had the misfortune to know a pessimist. There was some excuse for his pessimism. He was a narrow-chested chap threatened with tuberculosis.

And the abdominal muscles are the boys you need to train if you are to get the most out of your diaphragm. Fill your lungs until you feel your stomach muscles hard against your belt.

When you breathe out, do it forcibly, with the stomach muscles, like a snorting horse—but without the snort. Your stomach and intestines will be forced up against the diaphragm again and given another massage.

Then, while the impression of its rich, bounding optimism is still strong upon you, pick up a book written by one of the Russian novelists, or by one of our modern longhaired writers who believe that realism necessarily means murder and drunkenness and prostitution.

What a difference! And what makes the difference? The realist will tell you that it is because he thinks deeply, while the optimistic writer thinks superficially.

As a matter of fact, the difference is not in the brains of the two men, but in their livers. It is not the depth of their thinking so much as the depths of their lungs.

How One Family Dinner Dressed Up for Company

By JOSEPHINE B. GIBSON Director, Home Economics Dept., H. J. Heinz Company

WHEN one's husband telephones late in the afternoon to say that he is bringing company for dinner, one always goes through mental gymnastics trying to visualize the possibilities for a creditable meal.

Emergency Menu Cream of Pea Soup Crackers Stuffed Spanish Olives Casserole of Meat and Spaghetti Whole Wheat Bread

Here is the recipe she used: Melba Salad 1 can peaches, halves; 1/2 cup dates, chopped fine; 1/4 cup mince, chopped fine. (Nuts may be omitted; Mayonnaise Salad Dressing.)

Casserole of Meat and Spaghetti 1 lb. ground beef steak; 1 medium size onion; 1 large green pepper; 1 large can spaghetti (1 lb. 12 oz.); 1/4 lb. American Cheese, grated; 1 medium size can Cream of Tomato Soup; Fry finely chopped onion in hot fat until light brown. Add meat and brown.

Then add chopped pepper and Cream of Tomato Soup. Cover and simmer 30 minutes. Add spaghetti, place in baking dish, sprinkle with grated cheese, and heat until cheese is melted.

For a moment the salad seemed a hopeless problem. But there was a can of peaches and a bottle of Mayonnaise Salad Dressing on the supply shelf, and this ingenious homemaker soon devised an unusual and delightful salad.

Here is the recipe she used:

Melba Salad 1 can peaches, halves; 1/2 cup dates, chopped fine; 1/4 cup mince, chopped fine. (Nuts may be omitted; Mayonnaise Salad Dressing.) Drain the liquid from the can of peaches and chill. Mix dates and peaches with enough Mayonnaise Dressing to hold them together. Put halves of peaches together with this mixture and arrange on crisp lettuce leaves. Serve with either French or Mayonnaise Dressing.

SALEM NEWS

A four inch snow fell here last Thursday which was beneficial to the farmers.

Those visiting in the home of Mr. and Mrs. C. A. Vincent Sunday afternoon were, Mr. and Mrs. Carlie Trumble of Duffau, Mr. and Mrs. Bob Lewis and family of County Line and Mr. and Mrs. Henry Davis of Flag Branch.

Our school is getting along fine. We are looking for the County Superintendent and Inspector to visit here Tuesday and hope that we have everything in good condition.

Miss Zella King, Mattie Lou and Flossie Barfield and Doris Cunningham were visiting in the home of Mrs. T. O. Moore Sunday afternoon.

Ted and Herbert Herring, Misses Leta Posey and Mae Herring of Hill County spent Sunday with Mr. and Mrs. H. T. Herring.

Several of this community attended the tent show of Brunk's Comedians in Stephenville last week.

Mr. and Mrs. Wylie Roberts spent Sunday with her brother, Henry Hyde and family.

Miss Irene Rogers spent Friday night with Miss Lillian Lambert.

Mr. and Mrs. Thurman Wilkerson, Mrs. Jones and Mrs. W. D. Nelson all of Stephenville motored down to visit Will Rogers and family a few minutes Sunday afternoon.

Miss Faye Koonsman visited with Mr. and Mrs. G. C. Warren in the Duffau community Sunday.

Our principal, Mrs. H. T. Herring, was in the Stephenville hospital Friday night and Saturday having her tonsils removed but is recovering nicely.

Mr. and Mrs. C. D. Cunningham of the Duffau community were visitors in the home of Mr. and Mrs. T. R. Laney Sunday.

Mr. and Mrs. P. H. Mayfield and family, Mr. and Mrs. Jewell Wolfe and family and Mr. and Mrs. Homer Wolfe spent Sunday with Mrs. L. C. Wolfe.

J. D. Barfield and nephew, Arthur were in Hico on business Saturday.

J. I. Noland and family of Indian Creek, and Mr. and Mrs. J. Z. Burch spent Friday night with Mr. and Mrs. P. H. Mayfield and family.

J. D. Lambert and wife spent Saturday night and Sunday with J. L. Johnson and family.

Several young folks from here attended the new "talkie" at the Palace Theatre in Hico Saturday night.

A derrick is being put up on Mr. Martin's place. They expect to be drilling soon.

Miss Velma Johnson spent Sunday night with Miss Ludie Lambert.

Mr. and Mrs. L. P. Lambert and family spent Monday night with his mother, Mrs. C. J. Lambert and family.

Mr. and Mrs. Judson Burch and son, Donald, were visiting in the home of Mr. and Mrs. C. F. May, field Sunday night.

### Nazarene Revival In Progress With Abilene Preacher

The News Review is requested to make mention of the Nazarene Revival, beginning Wednesday, April 2nd, with preaching by Rev. W. H. (Henry) Norris, once of Hico, now of Abilene, Texas.

It is announced that there is special singing by Miss Eva Leta Tucker, also of Abilene, and everyone is invited to come out and hear Norris, and assured of a cordial welcome.

The meetings are being held in the old Nazarene Church on top of the hill on the Iredell road.

#### PRESBYTERIAN CHURCH

Revival services at the Presbyterian church are continuing throughout this week to be brought to a close on Sunday evening, April 6th. The hours for services are 10 A. M. and 7:54 P. M.

Dr. McMurry is bringing us very helpful and profitable messages, the benefit of which we should be very happy to share with others. We appreciate the cooperation of other denominations and invite everybody to worship with us irrespective of creed. Everybody is cordially invited to attend these services.

—THE PASTOR.

#### PENTECOSTAL MEETING TO BEGIN ON 18TH OF MAY

The Pentecostal meeting will begin on the 18th of May with Dr. J. E. Osborn from Carter, Okla., doing the preaching. We are sure everyone will enjoy his messages and would like to have your presence and cooperation.

The Pentecostal Sunday School is held each Sunday at 10 o'clock, and evening services at 7:30. Everybody come. We are sure you will enjoy it.

—REPORTER.

#### DUFFAU JUNIOR B. Y. P. U. PROGRAM FOR APRIL 6, 1930

Lesson Topic: "Jesus Teaches the Disciples." Leader, Dortha D. Duzan. Part I. By Leader. Part II. On Mount Hermon, by O. M. Bramblett, Jr. Part III. Jesus Pray's Alone, by J. Kenneth Strother. Part 4. The Disciples Awake, Algie L. Campbell. Part 5. Peter Speaks by Teresa Tunnell. Part VI. Jesus Meets the Great Crowd, by Helen Nachtigall. Part VII. Jesus Heals the Sick, by Ovela Sewell. Sword Drill, by Helen Nachtigall. Closing prayer, by Bill Nachtigall.

### SUNDAY SCHOOL LESSON

Sunday School Lesson for April 6, 1930.

#### THE LAW OF THE CROSS

Matthew 16:13-26

Rev. Samuel D. Price, D. D.

Changed plans required different methods. When Jesus refused to become the bread-making king for the multitude after the miracle of feeding the 5,000 when only five loaves were in sight the people turned against Him. When the period of popular favor was over the Kingdom-builder gave more attention to the training of the Twelve for the ministry that they must take up the following year. That He might have more time with the apostles a retreat was sought in the region of Tyre. This was interrupted by the mother who begged that her demonized daughter be healed. Shortly after the return to the region of the sea of Galilee another quiet time was sought in the vicinity of Caesarea Philippi, about 35 miles north of Capernaum. Up there was snow-capped Mount Hermon and the head waters of the Jordan river were close at hand.

Intensive training was taking place as they walked, when they had the noon siesta and when they camped for the night. The Teacher sought to give them a clear understanding of Himself. They knew He was different. His companionship was always a blessing. His works were like great signs to seal the testimony of his address. It is likely that the recent instruction was a preparation for the startling question that He asked them. They had been under instruction for about two and a half years. Now was the time for a very definite quiz class.

"Who do men say that I the Son of man am?" This is the very thing they had been discussing and they could tell Him what the people had been saying. Herod, for example, thought He was John the Baptist raised up to torment him. Others were sure that such wonders as He performed must be related to one of the well-known prophets who had come to earthly life again.

"But who say ye that I am," was the question that followed. Now answer must be given of their personal opinion. They had been asked as a group and Peter answers for the company. They may have been slow in reaching the conclusion but now they were ready to affirm "Thou art the Christ, the Son of the living God."

By this testimony Jesus was greatly heartened. We know what it means to be understood and the situation was no different with Him, for Jesus was perfectly human. With joy appreciation is expressed because of this recognition which was possible through

the guidance of the Holy Spirit. This confession stated by Peter for himself and for all the others was declared to be the foundation of the church that would be established during the ages to come. So sure was Jesus of the final outcome that He declared that all the powers of the evil spirit world would not be able to overthrow this church, or as called elsewhere—the Kingdom of God.

Today there are about one-third of the earth's population believing in Jesus Christ as the Son of God. When Jesus followed His teaching by declaring that He must die in Jerusalem, Peter sought to dissuade Him from going forward. Without taking an instant for meditation Peter is called an emissary of Satan. Further, all are told that the way of life is the way of service. Duties may be called crosses but they must be taken up daily by those who follow with Jesus in this work of building up the Kingdom. A "cross" always looks more terrifying at a distance. When he lay hold of it much of the terror is gone and soon we find that the task is being accomplished. The older readers will remember the worsted worked mottoes that hung in the parlors years ago—"No Cross—No Crown."

Every member is expected to be in his or her place for the first service of the Revival. Pray, read the Bible and Work.

Sunday School 9:45 A. M. Start the Revival right by coming to Sunday School.

Morning Worship 11:00 o'clock. The subject of the sermon is: "Jesus Only."

Epworth League 6:45 P. M. Come and grow in grace and love with your friends.

Evening Worship 7:30 o'clock. The subject of the sermon for this hour is: "The Two Roads of Life."

Students Return From Trip To New Mexico

LUBBOCK.—C. H. Mahoney, head of the Horticulture department at Texas Technological College, and eight horticulture and agronomy students of junior and senior standing, have just returned from a field trip through New Mexico and Arizona. They went by Roswell and the Ruidoso range.

At Las Cruces they visited the New Mexico A. & M. college where they were entertained and will be given quite a bit of publicity by the president of the college, who is very much interested in work of this nature. They also visited the University of Arizona at Tucson. At Sacaton they inspected the government experiment station. Claude Hope, who graduated from Texas Technological College last year, is employed at this station.

Three days were spent in Salt River Valley where a special study was made of the citrus, date, and fig orchards. At the

Whereas it has pleased God to call from our midst Sister J. P. Gilliam, wife of Rev. J. P. Gilliam, who has for many years worked in our association: Be it resolved;

1. That we bow in humble submission to the Divine Will of God, and that we the Hamilton County Baptist Association look to God to send us other consecrated lives such as she lived.

2. That we express our sympathy to Bro. Gilliam in this time of sorrow.

3. And that we send a copy of these resolutions to Bro. Gilliam, that one be placed on our association minutes, and that a copy of them be published in the papers of the association.

R. W. BYNUM, Mod.

A. J. GUINN, Acting Sec.

### THE FIRST BAPTIST CHURCH

Sunday 11 A. M. the pastor will preach the second sermon of the series: "Churches of the New Testament." Subject: "Antioch, The Missionary Church." This will be the last sermon before the pastor leaves for Rush Springs, Okla. for a revival in the First Baptist Church in that city. All the members are urged to attend as important announcements will be made about all the work in his absence.

Sunday school 10 A. M. Come and help us hold our Sunday School to the A1 Standard that we have reached.

Five B. Y. P. U.'s Sunday night 8:45. Mrs. Clarence Allen Morton, General Director.

W. M. S. Monday 2 P. M. Y. W. A. Monday night. G. A.'s meets Wednesday afternoon. Sunbeams Friday afternoon.

No prayer meeting, teacher meeting, Sunday night preaching, account Presbyterian and Methodist revival.

We welcome you to all of our services.

Clarence Allen Morton, Pastor.

### HICO METHODIST CHURCH

(Put God First)

Every member is expected to be in his or her place for the first service of the Revival. Pray, read the Bible and Work.

Sunday School 9:45 A. M. Start the Revival right by coming to Sunday School.

Morning Worship 11:00 o'clock. The subject of the sermon is: "Jesus Only."

Epworth League 6:45 P. M. Come and grow in grace and love with your friends.

Evening Worship 7:30 o'clock. The subject of the sermon for this hour is: "The Two Roads of Life."

Students Return From Trip To New Mexico

LUBBOCK.—C. H. Mahoney, head of the Horticulture department at Texas Technological College, and eight horticulture and agronomy students of junior and senior standing, have just returned from a field trip through New Mexico and Arizona. They went by Roswell and the Ruidoso range.

At Las Cruces they visited the New Mexico A. & M. college where they were entertained and will be given quite a bit of publicity by the president of the college, who is very much interested in work of this nature. They also visited the University of Arizona at Tucson. At Sacaton they inspected the government experiment station. Claude Hope, who graduated from Texas Technological College last year, is employed at this station.

Three days were spent in Salt River Valley where a special study was made of the citrus, date, and fig orchards. At the

University of Arizona experiment station, which is located at Mesa, the students studied all the field crops and noted especially the methods of irrigation. It is here that a number of specialists and technical men of the Rio Grande Valley, who are outstanding in the horticulture and agronomy field, were interviewed by the students.

Beauty Quest. The Pathfinder: Elixie—Castoria, whaffor yo' goin' in dat beauty parlor? Castoria—Big boy. Ah's goin' git me a puhmanent straight.

Mrs. W. M. Bellville and son, Garland Tunnell, spent Sunday and Monday in Abilene with her daughter, Mrs. J. A. Johnson and family.

## Mother!

### Clean Child's Bowels

"California Fig Syrup" is Dependable Laxative for Sick Children

Children Love Its Pleasant Taste

If your little one is out-of-sorts, won't play, seems sick, languid, not natural—suspect the bowels. A teaspoonful of delicious "California Fig Syrup" given anytime sweetens the stomach and soon moves the sour fermentations, gases, poisons and indigestible matter right out of the bowels and you have a well, playful child again.

Millions of mothers depend upon this gentle, harmless laxative. It never cramps or overacts. Contains no narcotics or soothing drugs. Say "California" to your druggist and avoid counterfeits. Insist upon genuine "California Fig Syrup" which has directions for babies and children of all ages plainly printed on bottle.

Hico, Tex., Friday, April 4, 1930.

Investment or Speculation.

Every time you buy something you are either speculating or making a definite investment?

Few people can afford to speculate, yet many do it continually in making their everyday purchases. And it is so unnecessary. The advertisements make it easy for anyone to avoid taking a chance.

The merchant who advertises, realizes that the good will of his customers means money in the bank to him. He knows that public respect for his own character are as valuable as his credit at the bank.

So he makes the individual satisfaction of his patrons their loyalty and their friendship paramount issues in his business.

When you buy an advertised product, you can know in advance what to expect in return for your money. You can count on its being right. You are making an investment.

But when you buy nameless merchandise, that has never known the light of publicity, you are taking a chance—you are speculating.—Santa Anna News.

Courtesy Pays Big Dividends.

Courtesy is the cheapest commodity in the world, yet it is probably the least used.

It doesn't belong to any corporation and isn't quoted in Wall street. It is not regulated by any federal commission—there are no restrictions on it. The price of courtesy is not fixed because there are no "production costs."

Courtesy is as free as the air we breathe, and costing nothing, many view it as a worthless asset and do not make it a part of themselves.

For many, many years the commencement day orators have been telling us that courtesy is a factor to be reckoned with if we wish to succeed in life.

Some high school graduates have remembered this bit of timely advice and in their efforts to get ahead in the strenuous game of life, they have made it their constant aim to be courteous to others.

Go through the list of your acquaintances and see how many have made courtesy pay. You will find the number lamentably small because they have been too busy with the small perplexities of life to take time for little courtesies that make the brief stay here pleasant.—Center Champion.

The Crazy Man talks over Radio Station KRLD, 1040 Kilocytes, every Saturday evening at 6:45 P. M. Listen to him, it might do you good.

Americans Changing Their Eating Habits

Consuming More Fruit and Vegetables, More Milk and Dairy Products and More Pork, Less Beef, Corn and Wheat.

(By Caleb Johnson)

In ten years the eating habits of the American people have undergone a radical change.

We are eating more fruit, more green vegetables, more poultry, more milk and butter. We are eating less beef, less wheat, less corn, less meat generally.

The only kind of meat in which there has been an increase in domestic consumption is pork, and that increase is mainly in the form of ham.

Figures compiled by the Bureau of Home Economics of the United States Department of Agriculture, which reveal those facts throw an interesting side-light on the change which is going on in American life.

Not so many years ago the great majority of Americans were engaged in heavy manual labor. Their work called for large meals of hearty food. Now a large and growing proportion of factory workers and other laborers are machine-tenders, their work calling for comparatively slight muscular exertion. The workingman's dinnerpail is no longer the institution which it once was. In the larger cities and even in small communities the quick-lunch counter with ham sandwiches and cheese sandwiches as its principal staples, is far more popular with the average young mechanic.

That is one reason why we are changing from a nation of heavy eaters to a nation of moderate eaters.

Another is the general desire to avoid fat. So much has been said in print and otherwise about the physical danger of overweight that even those who care little about how they look are deliberately avoiding the fattening foods. And as for the girls—well, it is hardly necessary to point out that they can't keep those boyish figures and eat the old-fashioned three square meals a day.

Lettuce is one item of food which has gained most in popularity. Between 1920 and 1929 our national consumption of lettuce was multiplied by four, from 13,000 carloads in 1920 to over 53,000 carloads in 1929. And that indicates another reason for the change in our eating habits. Lettuce is one of the chief sources of the health-preserving vitamins, unheard of by the public ten years ago, now generally understood to be essential to the health of everybody who does not spend most of his or her time out of doors.

For the same reason, in 1929, we ate more than three times as much celery, more than six times as many carloads of carrots. These vegetables stand high in the list of foods containing a high percentage of vitamins. And we are eating about twice as much grapefruit, cabbage, cauliflower, tomatoes and turnips as we did ten years ago.

In 1917 we consumed about 42 gallons of milk per individual. In 1929 this had increased to 56 gallons. In the same period, we increased our butter consumption by three pounds per head and our use of cheese by two pounds. That much of this increased use of dairy products can be traced to the "eat less meat" campaigns, is hardly to be doubted, especially when we compare the figures showing the falling off in the use of meat.

In 1920 the average American ate 63 pounds of beef in the course of the year. In 1929 this had fallen off to a shade over 51 pounds. In the same period we reduced our average consumption of veal from about 7 1/2 pounds to about 6 3/4 pounds. We continued to eat about the same average

The School Bell Rings For Movie Stars

"Count your calories girls, and be sure your balanced diet contains enough sweets, potatoes, juicy steaks and other energy building foods." Out in Hollywood they are taking seriously the campaign for pep and energy producing diets. If you don't believe it, glance above at the classroom scene, with Miss Anne Reddick, dietitian, acting as teacher. The pupils are dancing girls, trained by Fanchon.

amount of lamb and mutton, but our consumption of pork ran up in those nine years from an average of 60 pounds to almost 74 pounds. Of all kinds of meat, we are eating almost 25 percent less than we did twenty years ago.

We have cut down on bread—wheat bread and corn bread—both—as the statistics of flour and cornmeal shipments show. The falling off here in twenty years is nearly 40 percent.

Out of figures like these we obtain not only an index of the changing tastes and habits of the nation, but information of the greatest value to the forward-looking producers of and dealers in foodstuffs.

It seems to be apparent to wheatgrowers, for example, that their market is getting smaller. That should make many farmers consider trying to reduce cost of production, cut down wheat acreage, turn part of the wheat land into some other crop which promises a better market.

The grower of corn is not so seriously threatened as is the wheat farmer, for an increasing amount of corn is being converted into pork, probably about compensating for the falling off of human consumption of cornbread.

There is every indication that the trend in food preferences will continue about as it is enlarging now. That means there is an ongoing opportunity for the fruit and vegetable grower. Already fruits and vegetables total a higher value in annual production than any other money crop except corn. To the Western farmer accustomed to a single crop on large acreage, such as corn or wheat, or the Southern farmer whose sole staple has been cotton, such crops as celery, lettuce, tomatoes, peppers, strawberries and other small fruits seem like kitchen garden stuff, not worthy while bothering with. But the experience of specialists in such crops has been that they are no more hazardous than the grain crops when intelligently cultivated, that while the invest-

ment per acre is higher in production cost, the profit per acre is vastly greater in good years and at least as great in average years. Already the United States has ceased to become a beef-exporting country. In fact, we are importing some beef from South America. With the falling off in domestic consumption, there is no encouragement for the cattle-

How to Raise Poultry By Dr. L. D. LeGear, V.S., Jr., D.V.M., Mo. Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice. Specialist in disease of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

They Can Be Raised Successfully in Confinement So Experiments of the Last Few Years Have Proven.

Editor's Note—This is another story in a series on poultry raising written by the well known national poultry authority, Dr. L. D. LeGear, V. S., of St. Louis. Our readers are urged to read them carefully and clip them out for future reference.

The man who invented the phrase "wild goose chase" could just as well have substituted a turkey for a goose so far as the popular impression of the latter bird is concerned. Most farmers still believe that the turkey is wild and is never happy unless he can have the run of the place. There are a lot of superstitious beliefs about turkeys and this one in particular has a good foundation. The wild turkey is native to North America. They were discovered in New England by our colonists and taken to Europe. In the early days they were forest birds and lived upon nuts, berries and the other natural foods of the woods. In spite of this early history of the turkey it is now known that they are gentle by nature and can be very domestic if trained in the right way. The farmer who thinks he cannot raise turkeys because he has no trees on his place is still thinking of stories he has read about the Pilgrim Fathers and their hunting parties.

Experience has proven that the turkey can be raised in confinement with excellent results. The reason for this is very clear when you consider that the main drawback to turkey raising is the disease called Blackhead. When the turkey flock is allowed to run at will it mixes with the chickens and it goes on to ground that is contaminated with the blackhead germs. The first and foremost warning is never let your turkeys and chickens mix.

The reason turkey raising has held up at all is the price the markets pay. Time and again breeding have found that by losing 50 per cent of the flock they still make money. When you consider how easy it is to reduce these losses to from 10 to 20 per cent it is not surprising that many farmers are turning to turkeys who a few years ago swore they would never get into the business again.

Under the confinement plan turkeys can be kept on fresh soil and the food regulated. Young turkeys especially have big appetites and if allowed to run and eat without restriction will have difficulty pulling through.

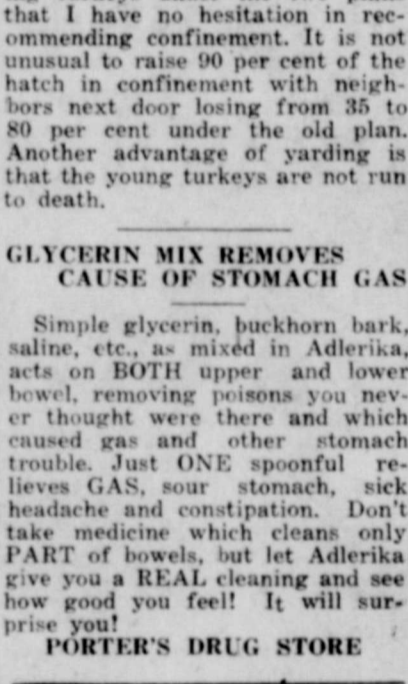

Turkeys are creatures of habit and environment. If you use natural or artificial means of incubation you have the poult under easy control from the very start. Your brooding methods can be as simple or as elaborate as you want. Use a brooder house so as to keep the poult away from the hens. This is the only safe plan as it guards against blackhead infection. A portable brooder house

will allow you to move frequently on to new ground. Once they are past the danger stage they may be put into fenced yards the same as chicks. As one authority has stated it, the platform of successful turkey raising is clean feed, clean water and clean range. All three of these can be enforced when raising turkeys in confinement. There are so many examples of farmers on adjoining land raising turkeys under the two plans that I have no hesitation in recommending confinement. It is not unusual to raise 90 per cent of the hatch in confinement with neighbors next door losing from 35 to 80 per cent under the old plan. Another advantage of yarding is that the young turkeys are not run to death.

GLYCERIN MIX REMOVES CAUSE OF STOMACH GAS. Simple glycerin, buckhorn bark, saline, etc., as mixed in Adlerika, acts on BOTH upper and lower bowel, removing poisons you never thought were there and which caused gas and other stomach trouble. Just ONE spoonful relieves GAS, sour stomach, sick headache and constipation. Don't take medicine which cleans only PART OF bowels, but let Adlerika give you a REAL cleaning and see how good you feel! It will surprise you!

PORTER'S DRUG STORE

Hints For Homemakers By Jane Rogers

With most skilled cooks, caramel is a favorite flavoring agent for many meat sauces and soups. Here's a quick and easy way to make it. Melt a cup of evaporated sugar slowly in a pan and cook until dark brown, being careful to avoid scorching. Pour in a cup of boiling water and cook slowly until a thick syrup is formed. The caramel may be kept indefinitely in a covered glass jar.

DALLAS WOMAN GLAD TO PRAISE FAMED KONJOLA

Neuritis And Stomach Troubles Soon Banished By Power Of New Medicine

MRS. E. M. FITZGERALD

"I never had the least idea Konjola would help me as it did," said Mrs. E. M. Fitzgerald, 4533 Worth street, Dallas. "My stomach gave me a great deal of pain and trouble. Gas accumulated in my stomach after meals and the pressure against the heart cavity caused that organ to beat wildly. Neuritis attacked my side and my right arm and shoulder. These pains were often so severe that I could not do my housework. I did not sleep at night and became very nervous.

Konjola is fast bringing me back to health again. My stomach is in excellent shape and I can eat almost anything without distress. The neuritis pains are gone, my sleep is normal once again, and my nervous condition has greatly improved. I shall always recommend Konjola to anyone suffering as I did."

Konjola works with the important functional organs of the body, drives the poisons from the system and regulates the organs of digestion and elimination. In this way glorious and abundant relief is brought about. It is recommended that Konjola be taken from six to eight weeks for the best results.

Konjola is sold in Hico, Texas, at Porter's Drug Store, and by all the best druggists in all towns throughout this entire section.

Celebrates 11th Birthday With 6 o'clock Dinner.

Miss Martha Masterson entertained a number of her friends to a 6 o'clock birthday dinner at her home last Saturday evening, celebrating her 11th birthday. The

dinner consisted of fried chicken, mashed potatoes, creamed peas, with other trimmings, followed by ice cream and cake.

She was the recipient of many nice gifts. Those enjoying the time spent were Lucy Randalls, Annalee Persons, Jean and Jane Wolfe, Mary Helen Hall, Rhuey Bingham and Cecelia Ann Schwartz.

Miss Wynama Anderson Hostess To Bridge Club.

With the rooms beautifully decorated with cut flowers, lilacs and flags predominating, Miss Wynama Anderson entertained the Les Sans Souci Club at their regular meeting at the home of her cousin, Mrs. John Clark, last Thursday evening.

Miss Tot Wood won high score. Invited guests present were Miss Beulah Cox, Miss Mildred Persons and Miss Mable Anderson. Refreshment plate contained tuna fish salad, buttered hams, heavenly hash, olives, potato chips and coffee.

POLITICAL ANNOUNCEMENTS

The News Review is authorized to announce the following candidates for office, subject to the action of the Democratic primaries in July:

- For County Judge: P. M. RICE (Re-Election)
For County Tax Assessor: TOM C. PIERSON (Re-Election)
For County Tax Collector: SHADE REGISTER (Re-Election)
For Sheriff: MACK MORGAN (Re-Election) WILLIAM LEMMONS
For County Clerk: H. W. HENDERSON (Re-Election)

Dr. H. H. Cox, Chiropractor, returned Tuesday from a trip to South Texas in company with Dr. Livingston of Hamilton. The two left Sunday morning for San Antonio to visit the Texas Chiropractic College, where they attended a banquet Sunday night in company with a number of others from over the state. Dr. Cox reports a pleasant and profitable trip.

**Hints For Homemakers**

By Jane Rogers

WHEN washing fine lace, in stead of starch use two lumps of sugar to a basin of water.

A tablespoon of powdered pumice mixed with enough linseed oil to make a thin paste is excellent for removing white water stains from furniture. Rub the mixture on the spots until they disappear. Wipe off carefully with a soft cloth dampened with furniture polish.

Adhesive tape is a good emergency mending material for rents in rain coats, galoshes and umbrellas.

Carlton Copeland was a business visitor in Waco Wednesday.

Douglas Standifer of Clifton was here Monday, guest of Mr. and Mrs. Cecil Coston and son.

Mrs. Bert Crockett and nephew, Bill Elkins, were week end guests of relatives and friends in Dallas.

Miss Ardis Cole and Carlton Copeland were visiting in Meridian Sunday.

Howard Maddox of Strawn and D. S. Safley of Waco were here Sunday, guests of friends.

Mr. and Mrs. R. O. Moffatt were in Clifton Sunday visiting relatives and friends.

Mrs. John Golightly, Mrs. Bunnie Alexander and Miss Mable Jordan were in Dublin Monday, guests of Mr. and Mrs. A. E. Denman.

Mrs. Fred Wylie and son, Fred Jr. of Moran were here the latter part of last week visiting her parents, Mr. and Mrs. Ike Langston.

Kal Segrist returned home Sunday from Greenville where he has been visiting Mrs. Segrist's parents. Mrs. Segrist also went but remained for a longer visit.

Mr. and Mrs. E. O. Chaudoin of Clifton, and F. D. Mallory of Fort Worth were here Monday in the interest of the Texas Louisiana Power Co.

Mr. and Mrs. Johnnie Farmer, Miss Ardis Cole and Carlton Copeland were visiting in Hamilton Tuesday night.

Mr. and Mrs. E. M. DuPup of Marlin, are visiting in the home of the latter's mother, Mrs. Terry Thompson.

Miss Jimmie Ruth Thompson is visiting her aunts, Mrs. R. O. Cox and Mrs. W. Wright of De Leon, Texas.

Mr. and Mrs. Arlon Poteet and Mr. and Mrs. Alva Poteet spent Sunday in Blum, Cleburne and Glen Rose.

We want your subscriptions to papers and magazines. We can meet lowest offers.—Jonnie Hutchinson.

Mr. and Mrs. Everett Smith and children of De Leon were here Sunday visiting her mother, Mrs. Birdie French, and his parents, Mr. and Mrs. H. Smith.

Mr. and Mrs. Hershel Williamson and little daughter will leave soon for Flag Staff, Arizona where Mr. Williamson has employment.

Mrs. G. A. Daniel, who has been visiting her daughter at Spur, and her son at Quannah for the last five weeks, returned home Sunday night and reports a most pleasant time.

Mrs. Ballard Strong of Iredell came up Sunday and was accompanied to Hamilton by Mr. and Mrs. Johnnie Farmer, where they were guests of Mr. and Mrs. Hershel Williamson.

R. M. Bowles and daughter, Mrs. E. Boustead, left Tuesday for Atlanta, Ga., to join Mr. Boustead for a few days who is there employed by the Texas Louisiana Power Co. Mr. Bowles will also visit his sister who resides there.

Mr. and Mrs. J. A. Hallman, and Mr. and Mrs. C. C. Sadler and small daughters, Jeanette and Suzanne, of Gatesville were visitors last Sunday for a short while with Mr. and Mrs. Roland L. Helford. Mr. Hallman is manager of the Gatesville Cotton Oil Mill, and Mr. Sadler is president of the Guaranty Bank & Trust Co.

Pyorrhea can be prevented or cured if taken in time. It is better to kill a snake before it strikes than wait until you are bitten and then treat the bite. The Dentist who says Pyorrhea cannot be prevented or cured is as far behind as a school teacher who would teach the earth is flat.—C. C. Baker, Doctor of Dental Surgery.

Miss Doris Sellers of Hico was one of the hostesses at the pajama party which was given by the dormitory girls of Texas Christian University in honor of the girls, Miss Sellers, as president of the Frogettes, an organization of the freshman girls, welcomed the visitors. About 150 girls attended the affair, which is an annual event.

Mrs. Wm. Ross has returned home from Rotan where she has been visiting her little new grandson, J. D. Martin, who was a recent arrival in the home of her daughter and husband, Mr. and Mrs. Martin. Mrs. Martin was formerly Miss Josephine Ross. Mr. and Mrs. John Ross of Rotan accompanied Mrs. Ross home Saturday and spent until Monday here.

Lee Rainwater, who states that his name appears on the school ballots in the election to be held Saturday, says that he does not want the office again. He has served for the past several years, and does not feel that he has the time to devote to the office as it should be. He says he has made enough money in the office to retire, giving someone else an opportunity to do likewise.

**J. E. SELLERS, SR., VERY SEVERELY INJURED IN WRECK NEAR SANTONE**

Returning to his home at Del Rio after a visit here, J. E. Sellers, Sr., suffered injuries in an automobile wreck Monday of this week which at the present time seem grave.

Mr. Sellers had been here to attend the funeral of his sister, Mrs. Kate Rodgers, and left Saturday morning for Waco to visit another sister, Mrs. Wm. Connolly. He spent Sunday there, leaving Monday morning to continue his journey home. When about 45 miles west of San Antonio, he was driving in his car alone, and had started up a hill not knowing a car was coming up on the other side, and the occupants of the other car were likewise not aware of his approach. The result was a collision head-on, with serious results to occupants of both cars.

Mr. Sellers had his right leg broken, and his chest crushed on the right side and it is reported that he has only a fighting chance for recovery.

**WORK GOING FORWARD AT NEW TEST WELL IN DUFFAU TERRITORY**

Hico's latest oil and gas excitement has been caused by the test well being located on the Martin farm east of the Laney and Koonsman producers, mention of which was made in these columns last week.

Many local people have visited the site, and according to them the work is progressing nicely and it is expected that drilling will be started no later than April 10th. The rig and machinery were hauled out last week, and workmen have been busy for the past few days erecting the rig and setting the machinery.

Mrs. R. O. Moffatt and Aubrey Moffatt went to Clifton Thursday to be at the bedside of Mrs. R. O. Moffatt who is seriously ill.

H. C. Sadler, owner of the Sadler Motor Company in Hico, was in Iredell on business Thursday afternoon.

**SAFE-CRACKING AIN'T WHAT IT'S CRACKED UP TO BE**

We are a little leery about telling jokes on somebody else, but will take a chance on telling one on ourselves. The new managers at the News Review office were given the combination to the safe, but as newspaper people don't as a rule have much money lying around loose, we did not become familiar with the workings of same, and only used the safe to keep our books in. Last week end, however, the "printer's devil" which in this case happened to be the editor's two-year-old daughter, decided to experiment with the safe, and in some way locked it shut. This left us in a dilemma, for the records were needed, and after calling on everyone who might know the combination, we decided we would have to knock the knob. If you ever have a like notion, take our advice and think of something else for that is no easy task.

On a former occasion we had noticed that Hico boasted of one

**citizen who was handy with various kinds of tools, his name being Lon Ross. We called him in, and will recommend him as an artist at the safe-cracking profession, for he got the safe open on short order, and though it was a little worse for wear when he got through, we were able to get to our records, and apparently will have no more trouble from that source. Mr. Ross does not pose as a professional, however, and if others call on him he may balk, for he knocked about three dollars worth of skin off his hand doing the job, and we didn't pay him that much. He usually does what he starts in to accomplish though, and we'll bet that accident won't keep him from completing the work he is doing on his residence in the west part of town.**

The Crazy Man talks over Radio Station KRLD, 1040 Kilocycles, every Saturday evening at 6:45 P. M. Listen to him, it might do you good.

**NEWS FROM IREDELL COMMUNITY**

By MISS STELLA JONES

Several of those most interested in the welfare of Iredele's club met at the Newsom Bros. Cafe on the evening of March 26 to discuss matters concerning the club's organization and management. A fine spirit of cooperation and sport manly fight was manifested in the common-sense talks made by some of the men present. It will be of interest to fans of this community to know that the club is to be managed and coached by a professional baseball man who knows the game and can play it. He is capable of developing a squad of marked ability from the material in Iredele's territory, of given the proper support by fans and club members. A ball team that the town will be proud of is within the grasp of fans who will get behind the services of the new manager and push. The subject of "bootleg and gabball" was brought up and discussed in round table fashion at the meeting. Those present were unanimously in favor of benching any player for two games if he appeared on the field intoxicated to any degree however slight. It is understood that a man must be at his best physically to play the game and that this condition be expected in the bootleggers solicitors. Iredele is in Bosque County; Bosque County is in Texas; Texas is in the United States; and the United States is filled with millions of baseball supporters and promoters. Be Americans, get behind this new organization with its new skipper and put the old town over the top in the Morning Review Cup Race. When a better means of advertisement is found, when a better and more popular recreation is available, then, and not until then will the team choose to merit a good town's approval. "See the games, support the gang. Tell the world we're in the ring. Fight and push will do the stuff; Do your part, that's enough."

Mrs. R. S. Echols was called to Orange to attend the funeral of her brother, Willie White, who was killed there Monday evening while on duty as night watchman. She left Tuesday morning, accompanied by her son, Ralph. She has the sympathy of her friends here in the loss of her brother.

**A Sour Stomach**

In the same time it takes a dose of soda to bring a little temporary relief of gas and sour stomach, Phillips Milk of Magnesia has acidity completely checked, and the digestive organs all tranquilized. Once you have tried this form of relief you will cease to worry about your diet and experience a new freedom in eating.

This pleasant preparation is just as good for children, too. Use it when ever coated tongue or fetid breath signals need of a sweetener. Physicians will tell you that every spoonful of Phillips Milk of Magnesia neutralizes many times its volume in acid. Get the genuine, the name Phillips is important. Imitations do not act the same!

**PHILLIPS Milk of Magnesia**

J. O. Proffitt and family visited Jess Hickman and family of Hico Sunday.

J. T. Berkley and family of Fairy visited Mrs. W. M. Hodnett and children, Sunday.

J. H. Hicks purchased a Chevrolet car, one day last week.

### Gains Ten Pounds In Less Than a Month

MISS DOROTHY HENNING

"When I started taking Sargon, less than a month ago, I only weighed 88 pounds. Now I weigh 98—an actual gain of ten pounds, and I'm still gaining."

"I suffered terribly from indigestion and constipation. My appetite fell off to almost nothing, and my complexion was very bad. My appetite is just splendid now, and my complexion is clear and healthy looking. Sargon Soft Mass Pills have entirely overcome my constipation. My friends marvel at my wonderful improvement."

From coast to coast, and from the Gulf to the Great Lakes, Sargon is known and honored. Its fame is based on actual results, not empty promises.

Porter's Drug Store, Agents.

### GORDON NEWS

## Compliments Mixed With Complaints From Our Readers

Just about the time some of our friends get us puffed up about something we have done towards putting out a better paper, we step in an ant bed, as it were, in some other way. However, when we get to feeling bad about something we have been cussed for, along comes a good subscriber or two to restore our enthusiasm and make us think perhaps it is not all for nothing.

The compliments are gaining on the abuses lately, and those who don't like the way we are running the business will have to hurry if they expect to keep their side up.

No, really, we appreciate a kick just as much as a pat sometimes, provided it is given in the right spirit, and those criticisms that do not fall in this class don't worry us any more than a rain worries the ocean. What we want is a condition of good will and respect for the paper and its work, and subscriptions the past week indicate that we are at least traveling that way.

J. W. LAND, Sweetwater, Texas, writes that he has not received the News Review yet in return for the perfectly good stamps he sent in for his subscription, and we are puzzled to know the reason, for we have mailed him three or four copies of the paper. This is rather like the old story "If you don't get this letter, write and tell me," but if Mr. Land or any of his friends can offer suggestions as to how to get the paper to him, we shall appreciate it. Maybe writing this piece will change our luck. Here's hoping you read this, Mr. Land.

G. S. PRUETT, Knowles, New Mexico, writes: "Am sending a check for renewal of my paper." We have heard about Mr. Pruett through his friends here, and he still remembers them, apparently, and wants to hear from them each week.

W. H. BROWN, who gets his mail at Hico, did a little work about the editor's residence last week, and when we paid him he returned a part of the money for a year's subscription. We can recommend him and his work, and it is hoped that he will like his paper as well as we did his service.

W. P. HATLER, Glen Rose, will keep on getting the paper each week since his renewal last week. Mr. Hatler's son was in Glen Rose Sunday visiting him and he told him to come in and renew for the paper for he certainly did not want to get out of the habit of keeping up with Hico.

J. E. RICH, Route 6, Hico, introduced himself to the editor Saturday by saying, "Rich would be my name if I wasn't so poor." He is a dollar poorer now, for he paid up for his paper another year, but we hope he will consider it a good investment. We like to keep these Rich people on our list.

W. C. SELLMAN, Brady, Texas, has missed two or three copies of the paper, but we are putting his name back on this week. His paper is paid up for several months yet, but in some way we unintentionally dropped his name from the list.

ARTHUR R. EIDSON, who is classed as one of the best lawyers in this section of the country, sent in a dollar from Hamilton last week to keep his paper coming. We'll vouch for his shrewdness now, for in addition to the paper we always give our preference to those who like to read our paper.

MRS. FRED LEETH, Hamilton, will have a copy of the News Review come to her address now and won't have to come up to Hico to get the latest news. Her father, C. B. Segrest, gave us a dollar Monday to send her the paper, and though she can read about what is happening here, she and her husband will still come up to visit often. If they don't, we are afraid Mr. Segrest won't be satisfied with his investment.

H. W. PIERCE who resides on Route 6, was in Monday to advise some things he had for sale, and while here renewed his paper for another year.

L. T. ROSS, city, helped us get our safe fixed up Monday morning, and when we went to pay him, he ordered his paper renewed for another year, and we got one of our dollars back.

MRS. J. J. SMITH sent in by her husband Tuesday morning to renew her paper and those of her daughter, Mrs. J. H. McNeill at Waco and his daughter, Mrs. L. W. Weeks at Van. Mr. Smith said it was his wife who sent the money, but he has been mighty inquisitive about the subscriptions himself, keeping posted in order that they might not expire. He told us of a recent visit from his son-in-law, Mr. Weeks, who is a driller in the new oil fields at Van. Mr. Weeks told Mr. Smith of the extent of operations, and said that those people really had an oil field to get excited about. He was driller on the first well that came in, and also on the seventeenth well in the field, which came in as a gusher last Saturday.

J. F. BLUE, Iredell, doesn't think much of the paper himself he says, but takes it to keep peace with his wife and family. He said he considers it in the class of a necessary evil, as every time his subscription expires they want him to renew it again. We hope he gets in the habit of reading the paper too, and really believe he does sometimes, for most men are that way about the matter—they don't like to admit to us that they find anything interesting in it, but at the same time keep up pretty well

## Jaded Winter Appetites Need the Tang of Ketchup

By JOSEPHINE B. GIBSON  
Director, Home Economics Dept.,  
H. J. Heinz Company

It really is surprising how often some simple condiment will tone up an otherwise drab dish and give a pleasing variety in the monotonous round of meals.

Tomato Ketchup, for example, is a familiar cooking aid in every kitchen. Yet this glorious essence of ripe tomatoes and choice spice seasonings too frequently is employed merely as a garnish, and its possibilities as a seasoning ingredient are overlooked.

The uses of Tomato Ketchup in cookery are almost innumerable. Steaming hot oven dinner, savory egg dishes, zesty salad dressings and a host of other flavorful things are made attractive to even the most jaded appetite by inclusion of Tomato Ketchup in your recipes.

Try an oven dinner, seasoned with Tomato Ketchup, some evening soon when the family comes home cold and ravenously hungry. Just see how they will enjoy a familiar meal that has been dressed up with this old culinary friend! I am sure you will find the following recipes most excellent, and will want to add them to your file for early use:

**Veal En Casserole with Vegetables**  
1 1/2 pounds ground shoulder veal; 2 tablespoons melted butter; 1/2 cup stale bread crumbs; 1/2 teaspoon chopped parsley; 1/2 cup Worcestershire Sauce; 1 teaspoon sugar; 1 teaspoon salt; 1 egg well beaten; 6 small potatoes; 6 small onions; 1 chopped green pepper; 1/4 cup Tomato Ketchup; 1/4 cup water.

Mix together veal, butter, crumbs, parsley, Worcestershire Sauce and egg. Form into balls, roll in flour and brown in a skillet with 2 tablespoons fat. When delicately brown, remove to a casserole, add quartered potatoes, sliced onions, and a chopped green pepper. Sprinkle with 1 teaspoon sugar, and a dash of salt and pepper. Mix Tomato Ketchup and water, and pour over all. Cover closely, and bake

with what is happening in and around this section.

MRS. L. C. PERRY, Iredell, Rt. 2, has been credited with another year's time on her paper since a Mr. Perry came in Wednesday to pay for it. We got to talking with Mr. Perry and got so interested in conversation that we forgot to find out much about him, but do know that he keeps up pretty well with what is going on around him. They live only 3 miles from Duffau, but get their mail on an Iredell route because of the fact that it was considered best to change the routes up a bit and serve some who were not on the old route.

H. O. DRIVER writes from Carrizo Springs, Texas: "Please find enclosed check for renewal. Just can't do without the home paper way down in South Texas where it makes it shine a bit brighter to get the News Review. Seems like being back in dear old Hico. Want to compliment the editor for the improvement made in the News Review, as we recently moved from Hico, Fred and family, H. O. and family, sons-in-law of C. W. Shelton of City Cafe in Hico, being and working among strangers makes one appreciate the home paper the more and notice the improvement. Want to tell Hico people that this too is a fine place to live, and that people here sure do eat bread as we both are employed at the Model Bakery, but still find time to read the News Review." That is the kind of a message we like to get.

B. O. BRIDGES, Fairy, sent in

in moderate oven for 1 1/2 hours. This is an excellent dinner course for a winter evening.

**Savory Meat Loaf**  
3 pounds ground beef; 1/2 pound ground salt pork; 1 tablespoon grated onion; 1 cup moist cracker crumbs; 1 egg; 1 teaspoon salt; dash of pepper; 1 teaspoon Worcestershire Sauce; 1/4 cup Tomato Ketchup.

Mix ingredients in order given. Pat into a loaf, place in a baking pan, and bake in a moderate oven for 1 1/2 hours, basting frequently with a few tablespoons cold water. A delicious rich sauce may be made by thickening with flour the juices in the pan.

**Cuban Eggs**  
1 cup sausage; 1 teaspoon chopped onion; 3 tablespoons Tomato Ketchup; 4 eggs; 1/2 teaspoon salt; Buttered Toast; pepper.  
Cook sausage and chopped onion in a skillet for five minutes, and add Tomato Ketchup. Beat eggs until light, season with salt and pepper, and pour over the meat. Cook slowly, stirring constantly, until eggs are thick and creamy. Serve over slices of buttered toast.

**Ketchup French Dressing**  
(A delightful piquant dressing for salads of mixed greens.)  
1/2 cup Tomato Ketchup; 2 teaspoons sugar; 1/2 teaspoon salt; 2 tablespoons Pure Cider Vinegar; 1/2 cup Imported Olive Oil.

Piece Tomato Ketchup in a jar, add other ingredients, cover closely and shake vigorously for about one minute. This gives a highly colored, well seasoned salad dressing.

**Tomato Ketchup Rarebit**  
2 tablespoons butter; 3 tablespoons flour; 1 cup milk; 1/2 cup Tomato Ketchup; salt and pepper; 1/2 cup grated American Cheese; 2 beaten eggs; 1 teaspoon Prepared Mustard; Toast or Crackers.

Melt butter in a saucepan, add flour, and blend thoroughly. Pour in milk and cook until thick. Add Tomato Ketchup, salt and pepper, and cheese, stirring over a slow fire until the cheese is melted. Then add beaten eggs and Prepared Mustard. Garnish with slices of pickle or Stuffed Olives and serve on buttered toast or crackers. This is a nourishing, satisfying dish for luncheon or supper.

his money by W. E. Goynne, and the latter caught us just when we needed it badly. We were in Jake Blair's Garage, with a flat tire and facing the fact that we were going to have to spend some money when Mr. Goynne caught us. He also paid for the subscription of H. S. PITTS, Fairy. Both Mr. Pitts and Mr. Bridges are old subscribers, and their renewals keep us battling 1,000 in the Fairy community.

## Hico's Golfers Bring Honors From Hamilton

In the first play at Hamilton last week end, Hico golfers brought home the bacon, speaking in terms of slang, having defeated Hamilton on their own course.

Quite a delegation of golfers went to the county capital's course for the event, and in there was a large gallery following the players and looking on.

The next play will be at Hico week after next, at which time Stephenville comes to Hico, and Hamilton goes to Dublin, this being in the order of the schedule Golf Association announced in last of the Hamilton-Erath County week's issue of the News Review.

Mrs. Sam Gamble left Sunday for Sweetwater, where she will be a guest of her daughter and husband, Mr. and Mrs. Horace Hooper.

# Your New PALACE THEATRE

## NOTICE!

To the people of Hico and surrounding territory, the Press, the merchants in general, the workmen, and decorators, and to our patrons that responded so generously to the opening of our NEW PALACE an introduction of SOUND in Hico, and especially to Prof. M. L. Knott and his splendid Band and Orchestra who furnished music for the occasion.

We believe in Hico and the people of this section of the country, and have tried to give you a new Theatre, wired with the finest and most modern SOUND EQUIPMENT, installed by an expert Engineer. We have tried to give you a Theatre as fine and modern as anything in this section of the State and very few in the cities are more modern equipped—all of course at a very heavy expense. Whether this is a mistake depends on how well you support it.

We will be able now to present most all the Big Headline shows with the best in Music and Sound, and everything that VITAPHONE can give you.

We sincerely appreciate the support in every way the people in this city and section of the country have given us, and will continue to try to merit your good will and hope to see you out more often. We believe a modern theatre in this city will mean a lot to this town and country. It is your theatre, come out and help us to make it a success so that we can continue to keep it modernized in every way.

Our popular admission price will be for the present 15c and 35c with a slight advance on the Big Specials.

E. H. ELKINS, Mgr.

The New Palace Theatre
