

Here In HICO

When you hear a visitor in town from some of the outlying communities express himself as liking Hico and being pleased with his relationships here, doesn't it make a feeling of pride arise in your heart? Doesn't it cause you to be a little more eager to retain and even enhance this feeling of fellowship?

Nearly every day this writer hears from visitors in the office or on the street sentiments such as the above, and the frequency of their occurrence convinces us that Hico is indeed established over a wide territory as a good trading point—a place where a customer may trade with confidence and at the same time enjoy the satisfaction of knowing that his trade is appreciated and that his friendship and trust will never be sacrificed for money or any other valuable consideration.

The next few months are going to witness an effort on the part of Hico merchants to offer special inducements for trading here. We mean they are going to do things that will result in an even greater desire among the good citizens of the outlying communities, as well as people right here in town, to trade with them, and at the same time have the assurance that their visits in Hico stores will never be disappointing.

This newspaper's interests are identical with Hico's interests. If the merchants enjoy good business and prosper as they are entitled to do, the newspaper can afford to give a little better service and at the same time maintain its dealings on a business basis. This is the only way we want business—we want each to feel that they are getting value received for every penny spent in advertising, subscriptions, job work or what-not. And we are satisfied that this is the foundation of every business house in Hico. Begging for business on a patronage basis and just trying to "sell something" cannot be good business.

With the above in view, we have been looking around for some service or idea that would enable the merchants to get before the citizens live store news and plans that would be attractive. Several such projects were rejected—some of them may have been good—but before we would affiliate ourselves in any manner with any of them, we weighed the matter in our own minds and can now say truthfully that we have found what we believe to be the best plan obtainable. This is the Trade Merit Plan, announcement of which will be found elsewhere in this issue of the News Review.

Mr. Dennis, the company representative who was in charge of the Trade Merit plan during its introduction to Hico, made an honest effort to present it to every business man. Of course there were some to whom the idea did not appeal. Nearly any undertaking will be met with the same circumstances. It may be that opportunity was not given to present it in its true light, or that some other phase of its operation held no appeal. However the almost universal and enthusiastic response where it was given a hearing indicates that it cannot be anything but successful. We are going to put our every effort into keeping it alive, and trust that each participant will do likewise.

This Trade Merit Campaign is not designed to replace any other form of advertising or trade attraction that has been previously used. It is a concerted effort with a careful plan that has proven successful in other places for a long period of years. Before its final acceptance we had the assurance from a representative number of business men that we were on the right track. And if there are others who would like to be included in the campaign, it will be to the advantage of all for them to come in. If your business house is not included in the list, call at the office, or phone us to come around and let us explain all details to you.

REASON SOME FOLKS BECOME REFORMERS IS SO THEY CAN TALK ABOUT THINGS DECENT. FOLKS DON'T MENTION

Where Oil Ran Wild

The "Mary Sudik" oil well which threatens the safety of Oklahoma City by the oil spray it sends over the town, defies all efforts to cap it.

Plans Announced With Speakers For Hico School Closing

Plans are going forward at the Hico High School for graduation exercises and events pertaining thereto.

Hon. Tom L. Robinson, District Attorney, of Gatesville will address the graduating class on May 23rd.

Rev. T. T. Roberts will preach the baccalaureate sermon on May 18. Rev. Roberts is president of Randolph College, Cisco, Texas.

Honors for the senior class have been announced as follows:

First, Hester Jordan, with an average of 95.268.

Second, Mildred Persons, with an average of 93.70.

Third, Marguerite McMillan with an average of 92.786.

Fourth, Johnnie Copeland, with an average of 91.56.

First among the boys, S. J. Cheek, with an average of 85.69.

Second among the boys, L. Rainwater, with an average of 85.10.

Third among the boys, H. Boone, with an average of 78.33.

Other announcements concerning the closing exercises will follow later.

Census Returns Show Loss In Hico Population

Along with most other towns of less than five thousand population Hico showed a loss according to unofficial figures released early this week based on the 1930 census. Hico was given as having a population of only 1334. It is the belief among those who are in position to estimate the number of citizens within the corporate limits that with all things equal Hico should have held its own, but these figures were taken from reports in the daily papers and probably represent what will stand as the official government listing for the next ten years. The job of taking the census was a huge task and locally no interest and cooperation whatever was noticeable.

Other figures given include:

HEARNE, Robertson county, 2948; increase of 207.

WYLLIE, Collin county, 771; decrease of 174.

CARROLLTON, Dallas County, 627; increase of 54.

MINEOLA, Wood county, 3304; increase of 1005.

COLORADO, Mitchell county, 4669; increase of 2829.

MANSFIELD, Tarrant county, 636; decrease of 83, or 9 per cent.

MARLIN, Falls county, 5333; increase of 1023.

LAFERIA, Hidalgo county, 1594 increase of 1358.

DUBLIN, Erath county, 2157; decrease of 1072.

ATLANTA, Ga., 266,570; 1920, 204,396; percentage of increase, 35.6.

MINERAL WELLS, Palo Pinto county, 6005; loss of 1885.

STRAWN, Palo Pinto county, 1429; loss of 1028.

ITASCA, Hill county, 1,599; increase of 65.

WHITNEY, Hill county, 1,011; decrease of 250.

FERRIS, Ellis county, 1,438; decrease of 148.

Hico Merchants Uniting In Big Advertising Program

On another page of this issue of THE HICO NEWS REVIEW there is published the first of a series of semi-monthly messages, each of which will discuss factors vital to the prosperity and progress of Hico people.

This series of messages deserve the thoughtful consideration of every resident of this community. They are sponsored by a group of prominent Hico merchants for the sole purpose of pointing out the advantages of this city as a trading center. They will not talk about "trading at home to support the merchant," but will, on the contrary, urge everyone to trade where their own interests are best served.

The merchants who are sponsoring these advertisements will make every effort to live up to the title of MERIT MERCHANTS, which simply means that they are bidding for your business on the sole basis of merit as to quality, service and price interest.

As additional proof that these merchants are really determined to MERIT your trade they have united in planning for an eight months program of co-operative semi-monthly sales days. The first of these features will be held Friday and Saturday of next week, May 2 and 3. Each merchant in the group will have on sale for the two days one or more TRADE MERIT Specials.

There will be an entire page advertising these SPECIAL BARGAINS in next week's News Review. Don't fail to watch for these next week and start planning now to attend the sale, for we promise that there are going to be some real "eye-openers" among the bargains listed as TRADE MERIT SPECIALS.

Work Being Done At Hico Schools Explained To Lions

At the regular meeting of the Hico Lions Club last Friday noon at the Midland Hotel, two visitors were present upon invitation from Lion Dr. C. C. Baker, who talked on a subject that was very interesting. Mrs. L. Brann of Hamilton county Red Cross dietitian, and Mrs. J. A. Guyton, president of the Hico Parent-Teachers Association each gave enlightening talks.

Mrs. Brann has been doing inspection work and making recommendations on diet and hygiene in the line of her regular duty with the county Red Cross organization. Mrs. Guyton and other members of the local Parent-Teacher organization have been cooperating with her to the fullest extent, and in spite of the fact that their plans had to be laid from the ground up, a nucleus has been started around which they hope to build up more extensive courses of instruction and examinations in the future.

It was explained that although the work would be slow and require much effort and constant attention, everyone connected with its inception and continuation was highly pleased with the results and interest thus far obtained. After hearing the visitors, the Lions disposed of business before the meeting and adjourned until the next meeting, today (Friday) at the same place.

MARVIN BELL BUYS HALF INTEREST IN CARLTON DRUG STORE

A deal was closed this week in which Marvin Bell became half owner of the Carlton Drug Store at Carlton, purchasing the interest from Herman Thompson. His brother-in-law, James Childress is his business partner.

Mr. Childress will manage the drug store as he is a registered pharmacist and has experience in all lines pertaining to the drug business.

Mr. and Mrs. Bell will remain citizens of Hico, and Mr. Bell will continue as bookkeeper for the Barnes & McCullough Lumber Co. here.

TEXAS LAWS

Furnished us (by J. C. Rodgers)

REFUSING TO PERMIT VOTERS TO VOTE

Article 217 Penal Code.

"Any judge of any election who shall refuse to receive the vote of any qualified elector who when his vote is objected to shows by his own oath that he is entitled to vote, or who shall refuse to deliver ballot to one entitled to vote under the law, or who shall wilfully refuse to receive ballot after one entitled to vote has legally folded and returned same, shall be fined not to exceed five hundred dollars."

CONCERT GIVEN BY THE HICO BAND PLEASES HEARERS

The Easter concert given Sunday afternoon by the Hico band was greatly enjoyed by a large crowd not only by all of Hico's own people, but by several of the surrounding towns. Each selection of the band met with a hearty applause.

The band has made wonderful improvement in the last few months. Their music is of the very latest and up to date and all high class standard music.

All the band members are enthusiastic and push forward. They have all been faithful and attended almost every rehearsal, and they are striving to have one of the best bands in this part of the state.

Hico, and its people are proud of the band and its progress. This concert is just a beginning of a series of concerts to be given throughout the summer.

The band will appear with a new program in the city park on May 4 at 4 o'clock.

F. M. Mingus left Thursday for Walnut Springs to take charge of the hardware and implement department of G. M. Carlton Bros. & Co. store. Mrs. Mingus will remain here for the present.

Letters Pour In For De Leon Woman Found Dead In Bed

DE LEON, Comanche Co., Texas.—Letters of congratulation on her ninetieth birthday were still pouring into the postoffice here Sunday for Mrs. E. C. Owens, but none of them will be delivered. For Mrs. Owens, known to her friends as Aunt Betty, who had looked forward to an enjoyable celebration of her birthday Saturday, was found dead in her bed Saturday morning, a smile on her face, when friends went in to wake her up.

Aunt Betty had been living in the county for more than a quarter of a century. Her friends, many of them living at a distance, had planned a letter shower for her. Many of them also sent presents. There were a number of letters in the postoffice for Aunt Betty Saturday morning. More came through the day and letters and packages were still coming Sunday.

Perhaps in death, Aunt Betty knew she was being remembered. At least her face still bore the smile which her friends knew so well.

LOCAL COUPLE WED AT M. E. PARSONAGE TUESDAY EVENING

Miss Zada Driskell and Ben McAllister surprised their friends Tuesday evening when they were married by the Rev. A. C. Haynes at the Methodist parsonage before a large number of relatives and friends.

The bride has lived in Hico for a number of years. She has been the substitute telephone operator for the Gulf States Telephone Co., for sometime, and proved efficient in her work.

The groom is a prosperous farmer on the Hico-Stephenville highway, having lived in this country for several years.

Immediately following the ceremony, the newlyweds left for their farm home. Their friends join in wishing them happiness and prosperity.

When She Was a Boy

Elinore Ulmer, 16, of Chicago who posed as a boy for two years and got away with it until a school principal became suspicious.

Clairette Delegation Goes To Austin On Road Matters

S. C. Wilkins of Alexander and W. E. Salmon of Clairette were through Hico Tuesday en route home from Austin, where they had been as a part of the committee meeting with the State Highway Commission and State Highway Engineer regarding plans for beginning work on Highway 67.

As has been stated previously in these columns, the bonds have been sold and the money is in the bank for Erath County's part of the work, and the Commission and the Engineer advised that all arrangements will be hurried up and the project completed at the earliest possible date. McLennan County will use the first of its \$8,500,000 bond issue on Highway 67, and get its end of the road in shape.

Mr. Wilkins and Mr. Salmon are both genial gentlemen to meet and talk to. Mr. Wilkins was in the newspaper business at Alexander 30 years ago. Mr. Salmon has been in Clairette 63 years, and told us that he had five friends with whom he went to school 57 years ago still remaining in Clairette.

Play To Be Given At Dry Fork School Closing Exercises

The News Review is requested to announce that there will be a play given at the closing exercises of Dry Fork School Monday night, April 28, to which everyone has a cordial invitation.

The name of the play is "That's One On Bill" and the characters have put much work into perfecting their portrayals, which added to the fact that the plot is a good one should insure all attending of much enjoyment.

Victor Segrest is principal of the school.

Mrs. T. A. Duncan Hostess To Les Sans Souci Club

All members of the Les Sans Souci Club were present at their regular meeting Thursday evening when they were entertained by Mrs. T. A. Duncan at her home here. The Easter suggestions were carried out in the decorations.

Miss Zella Mirn Duncan was high score winner and was presented with a sugar bowl and cream pitcher of the Rose Marie design.

Lilies frozen in ice cream with angel food cake and ginger ale were served.

Dr. and Mrs. Sims Allen of the Baylor University, Waco, and Mr. and Mrs. Robt. W. Brown and daughter, Martha Claire, of Gatesville, were here Sunday visiting Dr. Allen and Mrs. Brown's parents, Mr. and Mrs. A. O. Allen. Dr. Allen is dean of the Baylor University, and Mr. Brown is County Judge of Coryell county.

Keeping Up With TEXAS

Baby fish numbering 110,000 took up their abode in Lake Waco, Saturday, coming down in a truck load of cans from the state fish hatchery in Dallas. They are bass "fingerlings," two to four inches long, which were spawned in March and April of this year.

As the result of a wild pitch in a baseball game Saturday afternoon at Purley, seven miles south of Mount Vernon, J. Stant Campbell, 17, the youth at bat, who was hit on the head, and Mrs. J. Stant Davis, 82, his grandmother, are both dead. The lad died at 2:30 o'clock Sunday morning from the injury sustained, and his grandmother at 6 o'clock Sunday morning from shock at the news of his death.

Road bonds in the sum of \$150,000, authorized by the voters of Kleberg County in an election held March 22, were sold Saturday by the Commissioners' Court to the King estate for par and accrued interest. County Judge W. H. McCracken said the deal was made through R. J. Kleberg, Jr., trustee of the King estate, when it became apparent that foreign bond buyers were offering as low as 94 for like bonds.

W. O. Higgins, editor of the Houston Chronicle, was injured in an automobile accident on the highway between Aransas Pass and Gregory, while returning from the Hug-the-Coast highway celebration at Rockport. A ligament was torn from his knee and he was badly cut above one eye.

A 50-year-old white man killed when run over by a train on the belt line of the Union Terminal Company at the Holmes street crossing south of Dallas, remained unidentified late Monday. The man's head was crushed, both arms and legs broken and the body mangled.

A hard-surfaced road from Crowell to Dallas became a reality at Crowell Saturday afternoon when the last foot of concrete was poured on the 32-mile paving program between Crowell and Vernon on Highway No. 28. Several hundred people were present to celebrate the event.

A solemn concourse of more than 2,000 persons gathered at the railroad station at Cisco Sunday afternoon as Congressman R. Q. Lee came home for the last time. The body arrived on the Texas & Pacific Sun-shine, accompanied by Mrs. Lee, their son, Quincy, and a delegation of United States Senators and Representatives.

Mary Brian, famous moving picture actress, native of Corsicana, with her mother, is the guest of Mr. and Mrs. J. M. McGill at Corsicana for several days. Miss Brian arrived Saturday night and will spend a part of her vacation in that city. She is known to her friends there as Louise Dantzier.

Demonstration of an "electric fountain lawn sprinkler" on which a patent has been applied for, was held Sunday night at the home of J. H. Williamson, at Dallas. J. E. Williamson and H. O. Good made the device. It consists of a lawn sprayer with an electric light in the center and a revolving colored lens giving the effect of an electric fountain in operation while the grass is being watered. Plans are to manufacture the device in Dallas.

What is believed the largest individual shipment of cotton at any one time to a co-operative in the United States will leave Lubbock this week, when 1,200 bales owned by W. L. Ellwood will be freighted to the Texas Farm Bureau Cotton Association.

John L. Wright, Jr., 18 months old, was playing Sunday about a large can in which his parents, on an outing, had boiled coffee and had set it off the fire to cool. He stumbled backward into the pot and died Monday at Houston of its burns.

Heads Grain Farmers

C. E. Huff of Salina, Kansas, just elected president of the Farmers National Grain Corporation, national cooperative marketing agency.

Paralysis Stroke Causes Death of Rep. R. Q. Lee

Funeral services for Representative R. Q. Lee, who died Friday morning in Washington, D. C., were held Monday morning at Lee's home town for Mr. Lee had been ill since he was stricken with a paralytic stroke five weeks ago, but it was thought for a time that he was recovering. He suffered a paralytic stroke five weeks ago, but it was thought for a time that he was recovering. He suffered a paralytic stroke five weeks ago, but it was thought for a time that he was recovering.

For many years before his election to Congress, which took place in the 22d campaign, Mr. Lee was a prominent figure in the public life of West Texas. Since his moving to Cisco in 1913, he has been a member of the Texas Agricultural Experiment Station, and has been a member of the Texas Agricultural Experiment Station, and has been a member of the Texas Agricultural Experiment Station.

Mr. Lee also worked out many problems of diversified farming on his own farm, which he established near Cisco. There he had much of the most modern machinery obtainable, including a creamery and a cold storage plant, among other things. He was a healthful, energetic man, and his fact remains that we are a healthy lot, our athletes are milk-drinkers might be questioned.

Local M-K-T Surgeon Receives Invitation To National Meet

Hollywood Revue Coming To Palace Monday, Tuesday. Dr. J. D. Currie, Hico physician and local surgeon for the lines of the M-K-T Railway Company, has received a letter from the company inviting him to attend the annual meeting of the American Medical Association in Detroit, Michigan, in the latter part of the year. Dr. Currie, who has been practicing medicine in Hico for many years, is a member of the American Medical Association and has been a member of the American Medical Association.

There will your heart be also!

These words were spoken by a Great Teacher 2,000 years ago and are as true today as they were then. We whose social and financial interests are centered in this community cannot have our hearts elsewhere. At heart, every dweller in the vicinity of Hico wants to see this town grow and prosper. It is amazing what each man, woman and child can accomplish by doing a full share in the splendid business of BOOSTING. Most people are thoughtless. We often do things on the moment's impulse with never a thought of effect. It is reasonable to believe that no one living here would do anything knowingly or purposely to retard the welfare of Hico. Yet such things are done, unthinkingly. Throughout the coming months a series of messages will be published in the Hico News Review dealing in a straightforward logical manner with some of the factors vital to our community progress. These will be of real interest and worthy of careful reading. Watch for them in this space every other week.

Texas Doctors Discuss Butter As Cancer Cure

Dallas, Texas.—Preventing and sometimes curing cancer, heart disease, influenza and pneumonia with dairy butter was one of the discoveries of science discussed by prominent doctors who attended the Southern Clinical Society's annual convention here this week.

This discovery, announced recently by Dr. Weston A. Price, Cleveland scientist after 10 years research, brought out that Vitamin "D," one of the principal constituents of butter, was found to be a valuable aid in precluding and curing many of the so-called "degenerative diseases."

In some instances, Dr. Price is reported in an Associated Press dispatch, he has cured cases of these diseases by the introduction of the vitamin in capsule form, or in less advanced stages by changing the patients diet to include quantities of a high percentage of the curative element.

With conclusions drawn from spectral analysis of the sun's rays, he presented the theory that light is composed of those elements which sustain the spring season and are absorbed by grass-feeding animals. Hence, he said, milk at this season of the year is abnormally rich in vitamins, particularly vitamin D.

"In our modern life," Dr. Price said, "we practice self-cannibalism we draw upon the calcium and vitamin content of our bodies to keep us going, and eventually we break down. By introduction of vitamin D, we build up the bone, prevent tooth decay, which is the most universal disease, and eventually remove the infections which produce degenerative diseases."

The meeting in Dallas was attended by prominent physicians from all parts of the South. Clinical lectures were held in many of the city's largest hospitals for the benefit of the visiting doctors. The oldest physician at the meeting was Dr. I. L. VanZandt, of Fort Worth, brother of the late Major K. M. VanZandt who died a few weeks ago at the age of 93. Dr. VanZandt himself is 90.

RURAL GROVE

We sure are having some fine weather now. Everyone had a fine Easter.

Rev. and Mrs. Shannon attended Sunday school at Rocky Sunday. Mrs. W. C. Kilgo and baby visited Mrs. Royal Saturday evening. The young people enjoyed a party at Mr. Hermin's Saturday night.

Several from this community attended the ball game at Iredell Sunday afternoon. Rev. M. Shannon preached a fine sermon Sunday night at the Rural Grove church.

Mrs. Sowell of Walnut Springs visited her grandparents Sunday. Miss Lorain Hudson spent Saturday night with Miss Thelma Kilgo.

R. W. Royal is on the sick list this week. Mrs. Shannon visited Mrs. Royal Wednesday evening.

Lorain Hudson, Thelma Kilgo visited Mrs. Oscar Loder Wednesday evening. Misses Beatrice and Lora Royal visited Miss Opal Webb Saturday evening.

Mrs. Hudson visited her mother Mrs. Lott of Iredell Sunday afternoon. Grandmother Shannon spent Sunday with her niece, Mrs. J. C. Webb.

SUNDAY SCHOOL LESSON

International Sunday School Lesson for April 27 GIVING UP ALL FOR THE KINGDOM OF GOD

Matthew 19:16-26

Rev. Samuel D. Price, D. D.—Jesus has left Galilee, where most of his work was accomplished. He is passing through Perea on His way to Jerusalem where He will keep the Jewish Passover and then become at once the victim on the cross. At this distant time no positive answer can be given for the reason He chose to pass through the region called beyond the Jordan. By doing this He avoided going through Samaria, for those there would not go up to Jerusalem to worship. Then, by passing through Perea He gave them an opportunity to be blessed by His ministry. He spent a number of weeks en route.

Begin your study with the first verse of chapter 19. It seems that no matter where He went the Pharisees were right there, like slugs, to heckle Him when He talked to the people. This time the question of divorce was raised. Jesus gave the answer that makes for safety in building up the institution called the home, and this is basic in the social fabric. Today at least one out of six marriages ends in the divorce courts. They who enter into the marriage bond Master Teacher declared that those should do it with the idea that neither would ever seek the dissolution. If there are children, in every case they are great sufferers and they are not the responsible ones.

Along the way a sort of smart Aleck, as he might be called today, asks what he can do to gain eternal life. This scene is pictured by Hofmann in his well-known "Christ and the Rich Young Ruler." All remember how the young fellow does not even look at Jesus as He makes reply, but shows a face of ultra indifference. As Jew to Jew, Jesus called attention to the commandments. Then the fellow sought to avoid the issue by asking: "Which one?"

In reply those that deal with relationship to society are named. It was taken for granted that he believed in Jehovah. Then the self-satisfied chap said "All these have I kept from my youth up." Just one direct command showed his failure in "Thou shalt love thy neighbor as thyself." When told to sell all and give to the poor, the inquirer turned his back on the Master Teacher. For show and form he had tossed many a coin to some importunate beggar, but to sell all that he had and become a good steward in expending it for humanity, that was simply unthinkable.

What Jesus said about the rich man finding it harder to be saved than for a camel to pass through the eye of a needle, does not have the same application today. Many rich people are consecrating their great wealth for the good of humanity. The Associated Press said

HICO METHODIST CHURCH

(Put God First) The Church is the only institution which tells man about God. This is the business of the Church. David said: "My soul thirsteth for God, for the living God." Your soul likewise thirsteth for God. Come to Church and learn more about God and worship Him.

The Tough Banker

We all remember the "good old" melodramas that used to feature the tough banker who generally was intent on kicking the last nickel out of the poor widow's hide if she didn't give him a deed to something or another. Bankers aren't that way, somehow. They are genuinely eager to render Personal Service and Helpful Financial Advice to Everyone—and are accustomed to being on the receiving end of many kicks that may be flying around promiscuously.

POACHED EGGS AND HAM

Six eggs, six slices of cold ham, six rounds of slightly buttered toast, one cup canned tomatoes, one ounce of butter, pepper and salt. Put tomatoes in a saucepan with the butter and a good sprinkling of salt and pepper. Simmer until the tomatoes are quite soft. Then rub through a sieve and re-heat the puree. Poach the eggs and just fry the slices of canned ham very lightly. Arrange the slices of toast on a dish, place a piece of ham on each, then a poached egg. Pour the tomato puree round and serve very hot.

FOR CHILDREN'S PARTIES

A large freezer full of plain home made vanilla ice cream and good plain sponge cake constitutes the most generally acceptable refreshments that you could offer to the little guests at your children's party.

Summer is a far better time than winter to give a children's party if you live in the country or suburbs, because you can give it outdoors. Few houses are large enough for a dozen or so eager, exuberant children at a party. It is far better to give children too simple refreshments than too elaborate. And better to have them go home wishing that they had had more than with appetite impaired for a day or so.

For some reason or other lemonade is the usual summer beverage and ice cream the usual summer refreshment—yet the two are not very compatible. Of course, children become thirsty, and so be ready with cold water and glasses—not ice water nor your best tumblers.

In sending out invitations to a children's party or giving telephone invitations be explicit as to the time for the party. Half past three or half past five are good hours, because that does not interfere with nap time or with supper.

A really sensible idea is to have a children's party including supper. Then it may extend to six or half past. To serve refreshments at five is, of course, to rob a child of any desire for his milk supper when he goes home. If, therefore, you invite the children for supper you can serve milk and cereal or milk and bread and butter to all the children before they are given their ice cream. It is really a wiser plan than to send something sweet and then send them home with the edge of their supper appetite quite gone.

COST OF AUTO PLATES LESS THAN LAST YEAR

AUSTIN, Texas.—Next year's motor vehicle number plates will cost the State almost 1c a pair less than those of this year and the 1930 contractor is again the low man, the bid being 6 1/2c a pair, by the Gopher Stamp and Die Works of St. Paul, Minn. This year's price was 7.38c. The contract is worth about \$150,000 and is for 1,450,000 pairs of passenger car plates, 250,000 pairs of commercial motor plates, 25,000 single trailer and tractor plates, 15,000 single dealer's plates, 6,000 pairs of motorcycle bus plates, 8,000 single motorcycle plates and 3,000 motorcycle side car single plates.

NEARLY KILLED BY GAS —DRUGGIST SAVES HER

"Gas on my stomach was so bad it nearly killed me. My druggist told me about Adlerika. The gas is gone now and I feel fine."—Mrs. A. Adamek. Simple glycerin, buckthorn, salin, etc., as mixed in Adlerika, helps GAS on stomach in 10 minutes! Most remedies act on lower bowel only, but Adlerika acts on BOTH upper and lower bowel, removing poisonous waste you never knew was there. Relieves constipation in 2 hours. It will surprise you.

PORTER'S DRUG STORE

18-Year Old Girl Driver of Taxicab In Constantinople

The old adage, "It's a man's world," is fast becoming obsolete even in Turkey where feminine rights, as such, have only recently begun to receive attention. There are few fields that seem less fitted for women, even in the western world, than that of taxi-driver yet in Constantinople a young convent-bred girl recently proclaimed her emancipation by taking a chauffeur's test and embarking on a career of taxi-driving.

Mouamer Hanoum was just 18 years of age when she started Constantinople by announcing her intention of taking a chauffeur's course. She subsequently passed the severe physical examination and, in a business-like manner asserted that she was prepared to enter the driver's tests. She displayed such unusual skill at the wheel that she completed her course in record time and captured highest honors.

As a full-fledged taxi-driver, Miss Mouamer's first consideration was the choice of her vehicle. She selected a Chevrolet six which has been specially equipped for taxi work. She is now happily employed driving passengers around the Turkish capital and enjoying the distinction of being the first woman to enter the chauffeur's profession in that country.

TIPS FOR MOTORISTS

Cars with two-wheel brakes are getting fewer and fewer, but there are still a good many left on the roads. When you notice a very old automobile, therefore, make extra allowance for the distance in which it can be stopped.

Watch your distance when following a car equipped with chains. It can make a quicker stop than a car without chains.

If you would increase the mileage you get out of gas, don't take the motor when standing in traffic, turn off the engine when you stop for more than a minute, don't drive with the choke out longer than necessary, be sure that your brakes are not dragging, and make sure that your engine does not idle faster than it should.

The driver who makes an abrupt stop and slides on his tires not only wears out rubber, but takes a chance on a puncture. A tire may suffer no damage in rolling over a nail or glass, but when it's sliding, it's likely to pick up anything.

WHAT - KNOTS

VOL. II Friday, April 25, 1930 No. 37

H. E. McCullough Editor M. E. Bell Assistant Editor

EDITORIAL

When they speak of the furniture trust they probably mean the installment business. Lots of young folks would find it hard to start housekeeping if the furniture man didn't trust.

A bargain is a bargain—even if the other woman gets it. You can do wonders toward beautifying your house through painting it and at the same time preserve it for years and years. Paint like we sell is an investment and over a period of years will pay big dividends.

AMERICANISM

Preaching that hardships are necessary in forming character; making it as soft as possible for the kids. A local man says: "Flattery is the praise you hear given to people you do not like."

FAIR WARNING

Dad always knows when company is expected. Daughter remembers to put on the butter knife.

MOVING TOWARD PERMANENT PEACE.

No more battleships will be built by the United States, Great Britain, France, Italy or Japan before 1936. Those nations had agreed in 1927 on a ten-year "battleship holiday."

Three of those five powers have agreed to dispose of certain specified fighting ships now in commission, thus reducing their navies below their present strength. France and Italy have not yet come into that agreement, as they have some mutual differences in regard to the Mediterranean Sea to adjust, but there is little doubt that eventually both of these nations will join the other great sea powers in sinking war-ships.

Naval reduction is a long step toward permanent world peace. Complete disarmament is, in the present stage of civilization, impracticable, but an overmastering navy would not make for peace, either. Our purpose would be suspected by all the rest of the world if we continued to maintain a naval force out of proportion to our coast-line and our interests on the sea.

"Certainly the way of peace lies neither in the rattling of the scabbard nor in the abandonment of defense, said President Hoover, and he added, lest he might be accused of "pacifism," whatever that is, "Let no one mistake me; there is a price no nation can afford to pay for peace."

WE ARE ON EASY STREET.

Compared with the rest of the world, the United States is on Easy Street. The thought is suggested by the proposal of the British Government to increase the income tax over there to 22 1-2 percent. Americans who grumble at a tax on incomes which begins at one-half of one percent and does not go above two percent until your income is more than \$10,000 a year, certainly ought to feel that they are on Easy Street by comparison with the English.

To be sure, we have taxes which they do not have in England, such as the tax on real estate improvements, but on the whole we carry a lighter burden of taxation than any other nation.

A recent report of the condition of the workers in Continental Europe reveals the fact, amazing and most shocking to us but a commonplace over there, that the majority of wage-earners in France, Germany and some other parts of Europe never earn enough to buy new clothes for their families and themselves. Whole communities are in dress from infancy to old age in second-hand clothes, made for and worn originally by persons of the "upper classes."

The second-hand clothing business in America is almost extinct. Even in the poorest districts of the largest cities the "old clothes emporiums" which used to flourish are now largely given over to the gathering of old clothes for export to markets where the people are too poor to buy new clothes, while the sons and daughters of the old people, who were brought up to spend no money for new clothes, dress in the latest fashion.

This is not a condition brought about by the war. It existed long before the war—has always existed so far as Europe goes. It is easy to understand with what hopefulness European workers look forward to the introduction of American industrial methods, which are based on making the workers into consumers by giving them high enough wages so they can afford enough to buy new shoes. They still do not believe the stories they hear from this side about American wage-workers owning automobiles and radios.

It is easy to understand why, with the great mass of people unable to purchase even the necessities of life, as we understand them, European industry lags behind our own. With markets limited to the small percentage of the wealthy and the expert trade how can it be otherwise?

America Is World's Richest Nation

We are the richest people in the world. Almost everybody knows that, but few realize just how rich we are and what our wealth consists of.

The National Industrial Conference Board has just figured it out. The national wealth of the

United States is \$360,100,000,000. Three hundred and sixty billion, one hundred million! The figure is just too large for anyone to grasp. Nobody ever saw that much money. There never was any such amount as that in money anywhere in the world at any time.

It would take a whole year for a thousand refinements of a thousand men each, every man collecting a thousand dollars a day, to gather so much money together, even if it existed.

But the figure of the Conference Board leaves out money is another. Money is merely a symbol of wealth. Counting all of the Treasury notes, Federal Reserve notes, National Bank notes, gold certificates, silver certificates, and gold, silver and copper coins, we have only about five billion dollars of money in circulation in America. That is all we need for the purpose of exchanging one form of wealth for another. The rest of our business is carried on by means of bank checks and credits. But what makes our money worth its face value is the wealth behind it, nearly \$72 of assets back of every dollar in circulation.

There are no very exact figures of the wealth of other nations. The total assets of the entire British Empire, including Great Britain and Ireland, Canada, Australia, South Africa, India and the rest of the British possessions, was estimated a few years ago at about one half of the present American figures, and no other nation begins to compare with ours.

The biggest single item in the list of things which make up our national wealth is real estate. Land and improvements in the United States are valued at \$198,100,000,000, more than half of the total wealth. That does not include real estate owned by railroads and public utilities.

Those institutions, together with shipping and canal facilities, account for another \$4,900,000,000 of land value, with improvements worth \$22,100,000,000 and equipment which has a value of an additional \$12,500,000,000.

Farms and factories, including all property and equipment, constitute \$27,200,000,000 of our national wealth, according to this latest survey.

Manufactured and natural products total \$40,600,000,000. This includes everything from carpets to gold in the mine blocked out but not yet mined.

Personal property constitutes about one-ninth of the total wealth. Furniture, clothing, jewelry and items of that sort owned by the people of the United States are worth \$44,700,000,000. And that doesn't include automobiles, which are a comparatively small part of the whole. Less than ten billion dollars covers the present value of the nation's automobiles.

Gold and silver bullion—that is, gold and silver which have not been coined or made into jewelry, table ware or other commodities—held in the United States is worth about \$9,000,000,000. More than half of that is gold held by the Federal Reserve bank and other banks. United States Treasury, the Fed as a reserve against currency. This gold reserve alone constitutes the largest amount of the precious metal ever gathered under one flag in the history of the world.

Out of the entire volume of national wealth about one-sixteenth, or \$23,900,000,000 worth, is exempt from taxation. This includes all property used for public purposes by the Federal, state and

Favorite Recipes of a Famous Chef

as Told to Anne Baker By LOUIS DIAT, Chef, The Ritz Carlton, New York

Recipes for soups and salads are always welcome in the kitchen where the problem of avoiding an appetite-killing sameness in the menu often becomes a complex one. Mr. Diat offers the following two suggestions.

Potage Fermiere—Chop together until medium fine four large carrots, one small turnip, two leeks, two onions and a small quarter of a medium sized cabbage. Brown all of these three tablespoons of butter. Add three cups of white consommé, i. e., stock made from chicken or veal, and three cups of water in which white or lima beans have been cooked. Add pepper and one or two teaspoons of salt. Bring to a boil and cook slowly for at least one hour. The pot should be uncovered for at least the first half of the cooking. Just before serving add one-fourth cup of thin cream, one level teaspoon of sugar, and one-half cup of cooked white lima beans.

Marion Salad—For this select a very firm, crisp, good-sized head of lettuce. Level the stem so that it will stand level on the plate. Cut off a one-inch slice from the top. With a pair of kitchen shears cut out the inner leaves, leaving four or five layers. Wash in cold water. Turn upside down on a cloth to drain. Prepare small balls out of one-quarter pound of cream cheese and place in a mound in the lettuce shell. Pour Bar-le-Duc jam around the cheese balls. Sprinkle with from one to two tablespoons of sugar. Bathe some of the lettuce leaves which have been cut out in French dressing and pile lightly around the filled shell.

Always Plenty of Moths

By Albert T. Reid

local governments, and the property of religious, charitable and educational institutions exempt by law, from taxation.

The total wealth of the country, divided by the number of inhabitants, gives us the average per capita wealth. And this is also far in excess of that of any other nation, amounting to around \$3,000 for every man, woman and child.

The wealth is unequally distributed among the states, however. Nevada has the greatest wealth per person, not because it has the smallest population, for there are seventeen states having fewer inhabitants, but because of the immense wealth in Nevada's mines of gold, silver, copper and other metals. Nevada's average wealth is \$7,338 per person.

Alabama has the lowest per capita rate of wealth distribution, amounting to only \$1,284 for each person. This is because Alabama's natural resources are comparatively undeveloped, while large, has not yet caught up with the growth of its population.

New York, richest of all the states in total wealth, is only about average in the per capita figures. The ten million inhabitants of the Empire State are worth an average of \$3,513 each.

The figures of the National Industrial Conference Board are of the year 1928. The nation is probably richer now, but it takes a year and more to compile the figures, which will always be that far behind. The last estimate made by the United States Bureau of the Census was in 1922, when the national wealth was estimated at \$120,800,000,000. In 1912 the Government figures were only \$186,300,000,000. In sixteen years, therefore, the wealth of America nearly doubled. And even allowing for the fact that a dollar today represents a smaller amount of wealth than it did in 1912, nevertheless we have made pretty good progress. Very carefully worked out calculations made by the United States Department of Labor continuously kept up to date,

show that the purchasing power of the 1930 dollar is about 67 cents as compared with the dollar of 1912. So our actual increase in

wealth in sixteen years, as a nation, is about 37 percent. And that is doing pretty well, thank you!

Large Pores and Blackheads Are Easily Prevented Or Remedied

BLACKHEADS make any skin look muddy. Also when pores are clogged with oil and dust, they form an ideal lodging place for bacteria. Although some germs seem comparatively harmless, many others are quite harmful, and will irritate a sensitive skin. These irritations may be only occasional pimples, or they may result in some serious skin disease.

The best way to prevent blackheads and enlarged pores is to keep your skin perfectly clean. To do this, at least once daily smooth cleansing cream up over your face, and then with soft cleansing tissues gently wipe off the cream. Next, especially if your skin is inclined to be oily, wash your face with warm water and a mild soap. And last, always close your pores with a mild astringent. If you give your face this simple treatment every day, your pores will not enlarge, and blackheads and pimples will have less chance to form.

Many women are troubled with oiliness, enlarged pores or blackheads that appear only in certain parts of the face. The nose seems to be the greatest offender. This is quite natural, because oil glands on the nose are quite large and plentiful. If you are bothered

with blackheads and enlarged pores, or your skin seems rather oily, I would suggest the frequent use of a mild astringent. And each time before you powder, pat over your nose a piece of cotton saturated with the astringent. Putting layers of powder on top of each other without first cleansing and contracting your pores only increases blackheads and enlarged pores, and does not hide them.

If enlarged pores or blackheads are especially troublesome, apply pore cream after your nightly cleansing to those parts of your face that seem to need it most. Pore cream is easy and pleasant to use. Leave it on all night, and it will contract your pores gently while you sleep.

You may ask, "After I have left pore cream on all night, how shall I remove it in the morning?" I think you will find, unless you have applied a bit too much, that your skin has absorbed nearly all the pore cream. In the morning, cleanse your face with cleansing cream, or if you like, warm water and soap will wash away any surplus pore cream. If you are in a hurry, hastily sponge off your face with a freshening skin tonic.

Do not expect blackheads to go away overnight. They have formed slowly, and the only safe way to get rid of them is to use preparations which will act gradually. And of course, do not fuss with your face. Unless your finger tips have been sterilized, you simply will carry more bacteria to your tiny skin pores.

Chevrolet Makes Announcement of Expansion Work

DETROIT.—The Chevrolet Motor Company announces an expansion of its production capacity through the opening last week of the rebuilt and enlarged assembly and export plant at Tarrytown, N. Y.

The new Tarrytown plant has a capacity of 900 cars daily and is one of the nine assembly plants and one of two export plants maintained by Chevrolet in the United States.

Completion of this plant places Chevrolet in a more advantageous position to meet rapidly expanding sales requirements for its product along the Atlantic seaboard. In addition, the move was made to thoroughly modernize the plant and bring it up to the high standard of equipment and efficiency that characterizes Chevrolet plants in other sections of the country.

The new plant is a one story, brick and steel structure, 1,200 by 400 feet, with monitor type roof, providing for the maximum light and ventilation. Adjoining it is a new two story office building, 200 by 60 feet, of concrete and brick construction.

The plant has two domestic assembly lines and an export boxing line. The export division of the Tarrytown plant serves many countries at present inaccessible to overseas Chevrolet plants. In several instances, Chevrolet finds it more expedient to ship direct from Tarrytown to a foreign country than from a Chevrolet plant overseas. In the case of the Tarrytown plant this applies only to countries that receive cars fully assembled. The other Chevrolet export plant at Bloomfield, N. J. ships only knocked down parts for assembly at General Motors plants overseas.

The finished Chevrolet cars, assembled and boxed at Tarrytown are put on barges and floated down to New York city, where they are put aboard ships for various parts of the world.

POLITICAL ANNOUNCEMENTS

The News Review is authorized to announce the following candidates for office, subject to the action of the Democratic primaries in July:

For County Judge: P. M. RICE (Re-Election)

For County Tax Assessor: TOM C. PIERSON GUSS BRANNAN W. B. HURLEY (Re-Election)

For Clerk, District Court: L. A. (Lon) MORRIS (Re-Election)

For County Treasurer: MRS. J. E. KING (Re-Election)

For County Superintendent: O. R. WILLIAMS

For Commissioner, Precinct 3: S. A. CLARK (Re-Election)

For Public Weigher, Precinct 3: KAL SEGRIST L. J. (Jones) JORDAN (Re-Election)

For Justice of the Peace, Precinct No. 3: M. A. COLE (Re-Election)

For Constable, Precinct No. 3: C. M. (Chf.) TINKLE PERRY CLEPPER

THE LAST ROSE OF SUMMER

(By Thomas Moore)

'Tis the last rose of summer, Left blooming alone; All her lovely companions Are faded and gone; No flower of her kindred, No rosebud is nigh; To reflect back her blushes, Or give sigh for sigh.

I'll not leave thee, thou lone one, To pine on the stem; Since the lovely are sleeping Go sleep thou with them. Thus kindly I scatter Thy leaves o'er the bed Where thy mates of the garden Lie scentless and dead.

So soon may I follow, When friendships decay, And from Love's shining circle The gems drop away. When true hearts lie withered, And fond ones are flown, O, who would inhabit This bleak world alone?

OUR GLORIOUS TODAYS live through all the years in changeless photographs. How long since you were last photographed? Your friends will appreciate this gift that only you can give. Make an appointment today.

BAKER
George F. Baker celebrated his nineteenth birthday the other day. He is still the active head of the First National Bank of New York, one of the world's greatest financial institutions, in which he owns a controlling interest.

George Baker was a country boy on Cape Cod when he heard his uncle tell about lending money out at interest. It struck the boy as a new idea that you could make your money work for you. He resolved then to go into the business of making money earn money.

"HICKS"
I went to a movie theatre the other night and saw a "comedy" which made me boil.

It was a "talkie" taken direct from the vaudeville stage, and it represented the people of a country town in caricature of costumes which might have been worn forty years ago, and with manners, dialect and habits which prevail nowhere in the United States today.

I live a good part of the time and vote at every election in a country town of a few hundred inhabitants. It is distinctly rural, yet its people are as up-to-date in their clothes and as correct in their manners and speech as well-bred people in any city; much more so than the general run of New Yorkers. Yet New York and the other cities get their impression of small towns from such movies as this one.

No wonder they call village folk "hicks." They forget that the men who head the business enterprises of their cities—New York, Chicago and all the rest—nine times out of ten grew up in these country villages and have proved themselves better than city-bred folks in the competitive game of life.

MOVIES
According to Mr. Will H. Hays, President of the Association of

Motion Picture Producers, the movies are going to clean themselves up again. They are going to eliminate indecency and suggestiveness, incentives to vice and crime and about everything else that censors have objected to.

That is all very good as far as it goes, but it doesn't go far enough. What the movies need more than anything else is some relation to real life. Their real danger to the young is the false impression they give of the way in which people of different kinds and classes act and live.

HOUSING
The British Government proposes to rebuild all of the unsanitary dwellings in the British Isles. The program will take forty years. Owners can be compelled, under this plan, to tear down old houses and rebuild them.

We rebuild everything every forty years. That is the average life of a building in America. Many dwellings are much older than that; I live in Winter in one that was built in New York about 100 years ago and in Summer in a farmhouse that is 144 years old. But ideas of construction, sanitation and the utilization of space change so rapidly that most people want a new house every twenty years or so.

DIET

Members of Congress are eating a new diet, recommended by Dr. J. W. Calver, the physician to the House of Representatives, as being the best food for brain-workers in warm weather. One of the popular new diet dishes is served on a single plate in the House restaurant and consists of raw carrots and raw cabbage, chopped small and served in tomato jelly, rye toast, Philadelphia cream cheese, a baked apple and either tea, coffee, milk or butter-milk. The tea is served with lemon and one lump of sugar, the coffee is half milk.

The realization that people who take no exercise should not fill themselves with starches and meat is becoming general.

FORMER HICO TEACHER MARRIED AT POST

Announcements have been received of the marriage of Miss Katie George Parker to Mr. James Roy Self, on Friday, April 11, 1930, at Post, Texas.

Mrs. Self is quite well known here, as she was a former Hico teacher. She is a daughter of Mr. and Mrs. Geo. W. Parker.

A Hand-Picked List of "Eligibles" For Your Dainty Springtime Salads

By JOSEPHINE B. GIBSON
Director, Home Economics Dept.,
H. J. Heinz Company

particular, new salad you have created. They have been tested and proved correct from the standpoint of deliciousness as well as dietetics.

A-- To Accompany Crisp Green Salads:

1. Crisp Crackers
2. Paprika Crackers
Spread saltines with soft butter, and sprinkle lightly with paprika. Place in a hot oven until the butter and paprika are blended, and the crackers thoroughly crisp. Serve hot.
3. Cheese Straws
Roll the pastry 1/4 inch thick. Sprinkle with grated cheese, and roll the cheese into the pastry. Cut into strips with a sharp knife and bake in a hot oven.

B-- To Accompany Fruit Salads:

1. Sandwiches of buttered nut-bread spread with Apple Butter or Fruit Preserves.
2. Small open sandwiches of Currant or Grape Jelly decorated with cream cheese.
3. Cheese Straws.
4. Jam Tea Biscuit
Prepare baking powder biscuit dough, turn out on lightly floured board and pat 1/4 inch thick. Cut with a biscuit cutter. In half of the biscuits make holes, with a doughnut cutter or other small round cutter. Place a cut biscuit on a whole one, and fill the center with Fruit Preserves or Apple Butter. Bake in a hot oven about 15 or 20 minutes.
5. Crisp Cookies.
6. Unfrosted angel food or sponge cake.

C-- To Accompany Vegetable or Meat Salads:

1. Devil'd Biscuits
Sift together 2 cups flour, 1/2 tablespoons baking powder, and 1/2 teaspoon salt. Add 2 tablespoons butter, and 2 tablespoons lard and blend thoroughly, using two knives or a fork. When lard is added mix to form a firm dough (about 2 1/2 to 3/4 cup). Mix lightly and toss on a lightly floured board. Pat about 1/4 inch thick, and shape with a biscuit cutter. Spread each biscuit with a thin layer of deviled ham, prepared by mixing 1 cup cold cooked chopped ham, 1/4 cup chopped Stuffed Spanish Olives, 1/2 teaspoon Prepared Mustard and 1 tablespoon Mayonnaise Salad Dressing. Cover each biscuit with another one of the same thickness, and bake in a moderately hot oven from 12 to 15 minutes.
2. Cheese Biscuits
To the flour, baking powder and salt in the above recipe add 1/2 cup grated cheese and mix lightly. Add milk to form a soft dough. Pat 1/4 inch thick and shape with a very small biscuit cutter. Bake for 10 to 12 minutes in a hot oven, and serve hot.
3. Sandwiches of chopped nutmeats and sliced Stuffed Spanish Olives, moistened with Mayonnaise Salad Dressing.
4. Sandwiches of prepared Sandwich Relish.
5. Sandwiches of chopped celery and Stuffed Spanish Olives, moistened with Mayonnaise Salad Dressing.

FAIRY ITEMS

This vicinity was visited with a heavy downpour of rain on last Wednesday evening, accompanied by hail. However no damage was done by the hail except to gardens.

The gas pipes are being laid here this week. All the men and boys not otherwise employed are at work digging ditches and putting down pipes. This work will be completed in a few days, then most of our little village will be gassed.

Our next project is a new school building, and we have the assurance of that coming. The plans are to begin work on that soon after the closing of school.

Mr. Goyno was taken ill Sunday while attending the Epworth League meeting. Mr. Goyno is postmaster here and has a host of friends who hope he will be able to resume his duties again in a few days.

The program rendered by the Parent-Teachers Association drew a large crowd again Friday night. These programs are interesting and are therefore received by an enthusiastic audience.

Bro. Allison pastor of the Baptist church filled his regular appointment here on Saturday night and Sunday. A good attendance being present at all these services with five additions to the church.

The W. M. S. met Monday afternoon with five old members and two visitors that added their membership with us, also Mrs. Boyle of McGregor, who gave an interesting discussion on the W. M. S. work at that place.

Mrs. Boyle and her two small sons are visiting her parents, Mr. and Mrs. B. O. Bridges. Mr. Bridges' son, Bill and family of the Percival community, spent Saturday night and Sunday as their guest.

The following teachers have been elected to teach the Fairy school: Guy Hartgraves, Edwin Early and Miss Katie Lee Jones.

MEETING PLACE OF P. T. A. CHANGED TO TEXAS LOUISIANA OFFICE

The regular meeting place of the Parent Teachers Association has been changed from the school auditorium to the office of The Texas Louisiana Power Co., when they will meet in connection with the lectures given by Mrs. L. Brann, county Red Cross dietitian.

GORDON NEWS

Doba Strickland and wife were in Hico Thursday trading for a Chevrolet coach.

G. W. Chaffin and Mr. Henderson of Spring Creek were in Hico cemetery Friday setting a monument at D. C. Stephen's grave.

Ed Gordon and sister, Mittie, of Fort Worth visited Mr. and Mrs. Burn Sawyer the first of the week and Miss Mittie remained for a longer visit.

Those who were visiting in the home of Mrs. Perkins Friday evening were Mrs. Annie Sawyers and Miss Mittie Gordon of Fort Worth and Mrs. Smith and son.

G. W. Chaffin and wife spent a while Tuesday night with Doba Strickland and family.

Mr. and Mrs. John Hanshaw and son, Earnest, spent Sunday with Mr. and Mrs. Pruitt of Flag Branch.

Bud Smith and wife, son and daughter spent Sunday with Bryant Smith and wife and son, John D.

Homer Lester, wife and daughter spent a while Saturday night with Mr. and Mrs. M. M. Lester.

Mrs. G. W. Chaffin spent Sunday afternoon with Mrs. Hensley and Mrs. Ogle of Ireddell.

Mrs. Hugh Harris is spending a few days with her father and sister, Mrs. Helms. Mrs. Harris is getting along fine.

Homer Lester and family were at Mr. and Mrs. John Hanshaw's a while Sunday evening.

Mrs. Bryant Smith and son, John D., went to the Easter hunt at the school house Friday evening.

Mr. and Mrs. Doba Strickland and daughter spent Sunday afternoon with his father, John Strickland and family of Ireddell.

Miss Bessie Lee Mitchell spent last week end at home.

Here's to Beauty!

Little Nose-to-Mouth Lines Can Be Massaged And "Smiled" Away
SOME people make the mistake of calling the droopy little lines that form from nose to mouth "laugh wrinkles." But these lines do not appear because we laugh too much—they often come because we do not smile enough.

THE WAY OF LIFE
(By Bruce Barton)
Fighters.

The officers of a great chain of stores were sitting at lunch, and making good progress with their business discussion when somebody mentioned a forthcoming prize fight.

Instantly all business conversation ceased; every man leaned forward eagerly to present his view on the more engrossing subject.

On another occasion I stopped at the offices of J. P. Morgan and Company to see one of the partners. His secretary apologized. "You will have to wait a few minutes," he said. "They will be down from lunch a little late today. They are entertaining Gene Tunney."

One could write several different kinds of comments on these incidents.

One might, if piously inclined, view with alarm the absorption of the best business minds in a low and brutal form of sport.

One might point out the interesting fact that at the top all winners meet. Be the best in your line, whether your line be prize-fighting or banking, motion-picture acting or preaching, and you may lunch with Mr. Morgan. "Seest thou a man diligent" (a top-notch) "in his business? He shall stand before kings."

I prefer, however, to point a different moral. Men attend prize fights and entertain champions because all the world loves a fighter.

People ask sometimes: "Why do the richest men in the country keep on working? Why don't they take their millions and retire?" Because the decision to keep on working is not a decision of the intellect. It lies much deeper than that. Man was made for struggle. He was cast by Providence into a hard, unfriendly universe. Climate was his enemy. Wild animals were his enemies. The earth was his enemy, and would give him no food until he had scarred its face and beaten it to helplessness with the harrow of the harrow. "Fight, and you shall live," says Nature. "Quit, and no matter how well you have surrounded yourself with comfort, you will soften and die."

I once made a visit with the late George W. Perkins to a certain foreign city. Nature has so favored it that people can live with very little effort and be in the sunshine all the year round. "How do you like this city?" I asked him. He answered: "It's full of men who have run away from the game." "When death comes to me," said old Stephen Girard, who was more than eighty, "It will find me busy, unless I am asleep. If I thought I was going to die tomorrow, I should nevertheless plant a tree today." Planting a tree on the very last day—launching a new bit of life—a splendid last punch at the old enemy, Death.

Tomato Juice Cocktails Add Zest To Any Meal

By JOSEPHINE B. GIBSON
Director, Home Economics Dept.,
H. J. Heinz Company

WITH the aid of your emergency shelf, even elaborate "company meals" should not prove difficult. And this holds true, despite the fact that only a few fresh fruits and vegetables are in the market at this season, and that the observance of Lent by many people tends to further complicate your problem.

If you are planning a luncheon, for instance, why not surprise your guests with tomato juice cocktails instead of a clear soup? Tomato juice cocktails are easy to make, and everyone likes them. For the main dish try a casserole of corn and kidney beans. Hot biscuits—and a glass of Apple Butter from your supply shelf—will be delicious additions to round out a perfect meal.

Following is a menu for an excellent luncheon which you will find very helpful if you entertain informally during Lent:

- A Lenten Luncheon Menu**
- Tomato Juice Cocktail
 - Casserole of Corn and Kidney Beans
 - Pineapple and Celery Salad
 - Hot Biscuit
 - Jelly Roll
 - Beverage
- Tomato Juice Cocktail**—To 3 cups strained Tomato Juice add 2 tablespoons chopped onion, 2 tablespoons chopped parsley, 1 teaspoon lemon juice, 1/4 teaspoon Pepper Sauce, 1/4 teaspoon Worcestershire Sauce, and 1 teaspoon salt. Let stand about 3 hours.

Then strain and serve in thoroughly chilled glasses.

Casserole of Corn and Kidney Beans—1 medium-size can of Corn, 1 medium can of Oven Baked Kidney Beans, 1 green pepper, 1/2 teaspoon salt, 1 egg, 3 tablespoons grated cheese and a few buttered bread crumbs. Mix the beans, corn, green pepper minced finely, salt, and well beaten egg. Pour into a buttered baking-dish, sprinkle top with cheese and a layer of buttered crumbs, and bake in a moderate oven for 30 to 45 minutes.

Pineapple, Celery and Nut Salad—Combine 1 1/2 cups canned pineapple cut in cubes, 1 1/2 cups celery cut in small pieces, and 1 cup pecans or walnuts. Moisten with a fruit salad dressing made of 1 cup Mayonnaise Salad Dressing and 1/2 cup sweetened whipped cream. Garnish with additional nutmeats, and serve very cold in deep cups of crisp lettuce.

Jelly Roll—Beat 3 eggs until very light, and gradually add 1 cup sugar, beating continually. Pour in 4 tablespoons cold water; then slowly add 1 scant cup flour sifted with 1/4 teaspoon salt and 1/2 teaspoon baking powder. Pour onto a pan lined with waxed paper—the pan should be about 8 x 11". Bake for 15 minutes in a moderate oven (375 degrees F.). When done turn out on a clean towel sprinkled with powdered sugar. Trim off outer edges, spread with Currant or Grape Jelly, or with Cherry or Plum Preserves, and roll while hot. Wrap in the towel and allow to stand until cold. Serve sliced and topped with whipped cream.

Wiseman Studio To Give Kodaks to 12-Year-Old Children

In a display ad in this issue the Wiseman Studio makes an offer that will be of interest to all children, and particularly those whose twelfth birthday comes in 1930. A nice Kodak and a roll of film will be given free to the children who can qualify.

FLAG BRANCH

Henry Burks and family were visitors at Hico Tuesday. Mr. and Mrs. C. W. Pruitt, L. Flannery and family visited Mr. and Mrs. Dennis Davis and son Tuesday evening.

MT. ZION NEWS

Everybody is somewhat busy since the rain. Albert Polnack of Dallas spent Saturday night with his parents, his wife and children the past week.

Makes Life Sweeter Children's stomachs sour, and need an anti-acid. Keep their systems sweet with Phillips Milk of Magnesia!

Never Invested Better, He Says

"My nerves were 'shot to pieces,' I couldn't get rest at night, my appetite was poor and I suffered a lot with indigestion.

H. T. PIERCE This weakened and pulled me down so that I'd tire out before the day was half over. Nothing seemed to fit my case until I started Sargon and the money I spent for this medicine was the best investment I ever made.

GREYVILLE

Crops are looking better than they have been. However, we would like to see another good rain. Walter Patterson and family, Little Miss Ruthie Bingham of Hico visited N. P. Wright and family Sunday.

CAMP BRANCH

We are having some fine weather. Some of the farmers are busy planting corn. Bro. Whitenburg filled his regular appointment at Britton's Chapel Sunday afternoon.

NEWS FROM IREDELL COMMUNITY

By MISS STELLA JONES

Ed Gordon of Fort Worth brought his sister, Miss Mittie Gordon for a visit Wednesday. He returned home the same day.

Mr. and Mrs. Elbert Trimble and Mr. and Mrs. Lynn Trimble and daughter of Carbon were here Sunday.

Mr. and Mrs. John Gosdin of Walnut were here Sunday. Mr. and Mrs. Oscar Loader and son, Byron, Mrs. Ruby New and baby, Miss Ethel and Albert Pylant were in Waco Sunday.

Miss Dorothy Carness who is in college at Denton, spent the week end here.

Mesdames Fouts and Clanton were in Cleburne Friday. Mr. and Mrs. Pylant were in Lorraine Sunday. His mother, who has been here visiting for some time, accompanied them there and will visit there a while.

Cam Moore went fishing Friday and landed a cat fish that weighed 8 lbs. He was very proud of it and they enjoyed it very much.

Miss Sallie Ware of Hico visited here among friends this week. Several ladies from here attended the miscellaneous shower at Hico Saturday afternoon, April 19, for Miss Thelma Turner, the bride-elect.

Miss Bessie Lee Mitchell, who attends John Tarleton spent the week end here. Mrs. T. Mitchell and sons of Abilene spent the week end here.

shade of a large tree and enjoyed eating the eggs. Mr. and Mrs. Echols visited her aunt, Mrs. White in Hico Sunday evening.

Mr. and Mrs. Elmer Newsom and baby of Dallas spent the week end here. Dr. and Mrs. Hayes of Hico were here Sunday.

Mr. and Mrs. W. D. Terrell have moved to their farm out from Stephenville. Messrs. Lotus and Vernon Gosdin and J. L. Goodman of Dallas spent the week end here.

The Stamp Quartette, that was here in the winter, were here Saturday on their way to give a program out at Help. Miss Sallie Ware of Hico visited here among friends this week.

Several ladies from here attended the miscellaneous shower at Hico Saturday afternoon, April 19, for Miss Thelma Turner, the bride-elect.

Miss Lucille Fewell is at home from Houston where she has been visiting. Miss Opal Laurence spent the week end in Denton.

Mrs. Ruby Phillips and sons of Stephenville spent the week end here. Coleman and Rudene Newman, who are in John Tarleton College, spent the week end here.

Miss Josephine Gandy had the bad luck to get hit on the side of the head Friday afternoon with a baseball while she was watching a game. She was very ill from the effects of it but was alright in a few days.

Many Ailments Yield Quickly To New Konjola

Manager Of East Side Stone Yard Eagerly Praises Merits Of New Medicine

MR. JAMES A. COX "Stomach trouble, disordered kidneys and constipation over a period of six months, had pleased me in a badly run-down condition."

Konjola has done for others, it will do for you—for everyone. This is especially true of Konjola if given a fair trial. Six to eight weeks is recommended as a fair trial in stubborn cases.

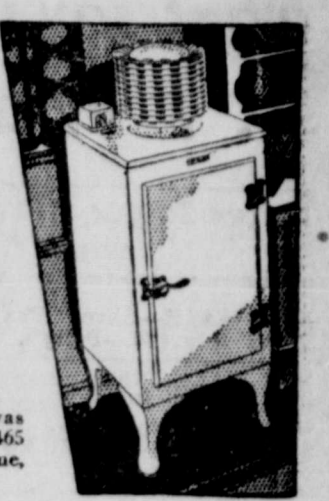

What a Proof of efficiency and economy!

Of the hundreds of thousands of owners of General Electric Refrigerators not one has paid a cent for service

What a Proof To demonstrate the trouble-free operation of General Electric Refrigerators, the mechanism was submerged in water—and still ran on!

What a Proof Tests were conducted to discover the durability of doors, latches and hinges. They were stopped after a period equal to 30 years of wear!

What a Proof The freezing control was tested for a period equal to 465 years. At the end of that time, it was still going strong.

Even the Hostess Enjoys These 2-Course Luncheons

By JOSEPHINE B. GIBSON
Director, Home Economics Dept.,
H. J. Heinz Company.

THESE long winter months, with the children safely in school, offer an excellent opportunity for delightful entertaining. And instead of large dinners or parties that tire you with preparations, it's much nicer to invite only a few friends for luncheon and pass the afternoon at cards or simple games.

The friends you entertain in this informal way do not expect an elaborate, heavy meal, though naturally you will wish to serve something exceptionally good, and a bit out of the ordinary. The answer is a two-course meal: one substantial dish, such as a salad, or a casserole of meat, fish, cheese or vegetables; and then an appetizing fruit salad, with cookies or plain cake for dessert. This is exactly the type of luncheon that any woman enjoys, and it may be served for any number of guests without inconvenience or worry.

Here are the menus for two such meals. When you see how simple they are to prepare and serve, you will want to have a "party" immediately!

Menu I

Baked Oysters, Mexican Style
Fragrant Rice Flakes Muffins
Sweet Dill Pickles Sliced
Apple Butter Custard Pie
Coffee

Menu II

Chow Mein with Rice
Fresh Cucumber Relish
Hot Roll
Pineapple, Prune and Marshmallow Salad
Cookies
Coffee

Baked Oysters, Mexican Style— To $\frac{1}{2}$ cup tomato ketchup add 1 teaspoon Worcestershire sauce, $\frac{1}{2}$ teaspoon salt, and a dash of pepper. Place one quart large oysters in a buttered casserole or baking dish, cover with the ketchup mixture, sprinkle with $\frac{1}{4}$ cup grated American cheese, and dot over with 1 tablespoon butter. Bake in a moderate oven until the cheese is melted, and serve very hot with prepared slices of sweet dill pickle.

Apple Butter Custard Pie— Line a pan with pie crust. Beat 2 eggs thoroughly, add 6 tablespoons sugars, and 1 cup apple butter. Then add 1 cup milk, mix thoroughly, and pour into the pan lined with crust. Bake in a moderate oven until the custard is firm.

Rice Flake Muffins— 1 cup rice flakes, $\frac{1}{2}$ teaspoon salt, 2 teaspoons baking powder, 1 egg, 1 cup flour, $\frac{1}{2}$ cup sugar, $\frac{1}{2}$ cup milk, 1 dash soda, melted butter.

Sift flour, salt, baking powder, and sugar. Add rice flakes, which have been crushed with rolling pin. Add milk to beaten egg, and mix into dry ingredients with a fork. Add melted butter and bake for fifteen minutes in moderate oven in well buttered muffin tins.

SUBSCRIBERS

While the subscription business has been rather quiet around the News Review office for the past week, we attribute same to the fact that the farmers have been busy, and also to the fact that this is along toward the last of the month, and most of those whose time is out have paid up.

However, we are anxious to see more of our friends come in, so if you don't want the paper, come in and talk with us about it anyhow.

S. J. COLE, whose address was Box 407, Amarillo, Texas, but who now gets his mail at 2116 Washington St. in the same city, sent in a dollar by mail, and we are crediting his subscription with 8 months time. We hope this will be satisfactory, and take this way of advising him that we have to charge \$50 per year when we send the paper out of Hico trade territory.

M. E. PARKS, Fairy, sent his money in last week by W. E. Goynne to keep his paper coming. Mr. Parks has rebuilt his store at Fairy which was destroyed by fire a few weeks ago, and now has an exceptionally nice place of business.

A. J. BAKER renewed his subscription through Mr. Goynne last week also. He is Mr. Parks' father-in-law, and lives at Ray, New Mexico. Mr. Baker is an old Hamilton County resident, and we hope he finds news of his former home through these columns that will induce him to come back here to build his home.

J. L. BETTS, prominent farmer and stockman of Fairy, sent his money in by Mr. Goynne to pay for the News Review. By the way, we might mention that Mr. Goynne has been ill, we understand, and probably that is what has been ailing our subscription business. Whether it is or not, we wish for him an early recovery.

W. A. STUBBLEFIELD, Route 3, was in Friday to renew. He has been having trouble with his eyes, although he wants the rest of the family to read it. He said if he hadn't been taking the Hico paper he would not have known that John Higgins was married.

JOHN D. HIGGINS, one of the latest Hico bridegrooms, renewed his paper last Friday. We really should give John his subscription for a wedding present, but after he is married a year or two he will need the dollar more. (This is not a reflection on his financial standing, but merely stated from our own private experience.)

I. N. ADAMS, Fairy, renewed for the News-Review through Miss Jonnie Huchingson Saturday. He is a farmer at Fairy.

CORRECTION

Our attention has been called to an error made in the Millerville News last week, when The News Review stated that John W. Stanley and wife of Hamilton visited Mrs. E. J. Conner last week. This was a typographical error, as the item should have read John W. Stanley and wife.

395 New Wells Come In In March

AUSTIN, Texas.—Producing wells brought in during March in Texas numbered 395 an increase of thirty-six over the previous month, according to the oil and gas division of the Railroad Commission. Forty-seven gassers were brought in, an increase of nineteen.

Throckmorton County had the largest number of new wells in March, with forty-eight. Wichita County was second with thirty-eight and Young County third with thirty-one.

Other counties were: Archer, 26; Austin, 4; Brown, 8; Bexar, 1; Baylor, 1; Callahan, 14; Coleman, 12; Crane, 2; Carson, 5; Caldwell, 8; Chambers, 6; Cooke, 2; Clay, 1; Crockett, 2; Duval, 1; Eastland, 3; Erath, 1; Ector, 2; Foard, 1; Fort Bend, 3; Glasscock, 1; Gray, 15; Guadalupe, 2; Harris, 7; Hartdin, 1; Hutchinson, 5; Howard, 10; Jack, 8; Jefferson, 3; Liberty, 6; Montague, 4; Nueces, 2; Orange, 2; Palo Pinto, 1; Pecos, 27; Potter, 1; Refugio, 11; Shackelford, 9; Stephens, 4; Taylor, 1; Upton, 1; Wilbarger, 11; Webb, 1; Ward, 1; Wheeler, 5; Williamson, 1; Inkler, 8; Zapata, 1.

New gassers were reported in the counties of Brown, 3; Callahan, 1; Coleman, 3; Carson, 2; Coke, 1; Duval, 1; Eastland, 2; Erath, 1; Gray, 4; Hutchinson, 5; Montague, 1; McMullin, 1; Medina, 4; Nueces, 2; Palo Pinto, 2; Pecos, 4; Potter, 1; Refugio, 1; Shackelford, 1; Stephens, 2; Ward, 1; Wheeler, 7; Young, 3.

During the month 791 permits to drill were issued. Dry wells reported totaled 262.

Texans Rival Cows In Using Balanced Diet

Fort Worth, Texas.—A universal feminine revolt against avoid upolis has brought about a revolution in Texas dairy, and has made the infant dairy industry of this state second in farm production, according to J. W. Ridgeway of Fort Worth, who is chairman of the Texas Division of the National Dairy Council country-wide dairy program.

Basing his statements on a recently published nationwide report of the National organization Mr. Ridgeway said:

"The farmer has known for years that his cows must have balanced rations," but it is only recently that the family has begun to eat on the same system, due to largely to the study women are making of their food in their determination to keep slender and fit.

"Last year, government statistics show, the people of the United States ate 20 billion dollars' worth of dairy products."

"Once upon a time most food consisted of meats, grains and potatoes. But today a large proportion has come to be dairy foods because of their vitamin content and the fact that they are not conducive to fat."

Farm women, Mr. Ridgeway said, have joined the universal feminine movement for good figures. They insist on remaining slender, since the style is today universal, and it is largely the farm women who are helping the increase of butter consumption and the general use of dairy products.

"It is just as essential for rural and farm communities to follow the conclusions and advice of food authorities on the use of dairy products in their diet as it is for city communities. Butter supplies health material and protection against disease not found in other food fats and for this reason butter should be used liberally in every farm family. Butter, says the authority is especially valuable in building resistance to disease, colds, and other respiratory troubles."

It is estimated that about 22 cents of the consumer's food dollar is spent for dairy products, a great gain for this food, but food authorities agree that the proportion of the food dollar expended for dairy foods should be raised to 35 percent in the interest of health and efficiency. Mr. Ridgeway pointed out.

"Dairying is one industry in Texas that enlists not only the commercial cooperation of the people because of its immense value to the state," Mr. Ridgeway said, "but also the interest of all health organizations."

HUMORETTES

"What do you think of the new typist?" asked the boss. "How is she doing her work?"

"Well," replied the clerk, "I don't know. But she spells atrociously."

"Really," replied the boss, "she must be pretty good then. I can't spell at myself."

"Now, James," said the teacher, "if your father can do a piece of work in one hour and your mother can do it in one hour, how long would it take them to do it together?"

"Three hours," answered James, "counting the time they would waste in arguing."

"You look very downcast."

"Yes; my wife has been away for six weeks and I wrote her every week and said I spent the evenings at home."

"Well?"

"She is back now and the light bill has come in—it's for fifty cents."
