NUMBER 18

# Here In HICO

We live to learn. It has always been said that the easiest way to dispose of an unpleasant matter is to face the proposition squarely and make some sort of a settlement before things go too far and conditions get worse. Several things having come up in the past few months that required such procedure, it has been a pleasure Smith. to learn the truth of the old saying, and to find out that things are not always as bad as they seem.

In public business of any nature we are sure that things come up from time to time that require diplomacy, as much or more so than in the newspaper business. But when they do, Here In Hico is glad to recommend the above procedure, and guarantees that if the two sides of the question can be discussed freely and openly, some satisfactory plan can be arrived at whereby both parties will be perfectly satisfied and continue in their friendly relations as well as continue doing business together.

What we are trying to get at is this: In certain seasons, and during the prevalence of certain conditions, things come up in every line which at another time would be overlooked without a murmur, but which seem foundation for a grudge at that particular time. One of the frailties of the human race is "flying off the handle' or saying and doing things which are regretted at a later time, and unsettled conditions of varied natures contribute to this shortcoming in a large way. But it is most pleasing to note the class of citizenship in Hico and surrounding lamation: territory, and observe that there is a spirit of neighborliness around any place we have ever lived. We all have but a short time to live on this earth, and Hicoans in general realize that this human existence can be made more pleasant and a more proper training for the future life through the exercise of and brotherly love.

We have a list of fine organizations here in Hico. They have on the whole been very successful, and have worked harmoniously and cooperatively. They will continue to provide leadership for our community. The only thing necessary to the preservation of their existence and usefulness is to continue force is now in position to answer their operation as in the past with a give-and-take attitude and the exercise of consideration of the individual rights of the persons the United States. And in addition, composing the membership.

# Fire Prevention Week to Be Observed Locally

Mayor and Fire Chief Here's the Kind of Urge Observance, October 5th-11th.

The week of October 5th to 11th will be observed in Hico as Fire Prevention Week in conjunction with similar observance in other Texas cities, it was announced this week by Fire Chief M. A.

While fire losses for the past year have been slight, and Hico now enjoys a 15 per cent credit on all insurance, it was pointed out that this should cause no let-up in our efforts to keep losses at a minimum. In fact, we should be more careful to see that we are not penalized for a few fires which might occur through carelessness and cause a raise in our rate and a blot on our record.

Citizens are warned, as a part of the program, to be careful with matches, and cautioned about the most common of hazards-defective flues and chimneys, unsafe heating devices, furnaces and stoves, improper electric devices and wiring, and the careless use of petroleum and its products.

While at this time no definite program has been arranged, Mr. Smith announces that the members of the fire department and city officials will cooperate with the movement to their utmost ability, and it is hoped that through local organizations and the schools series of messages may be gotten before the public which will result in thought and action toward the lessening of the tremendous toll exacted each year through fire loss.

Mayor J. C. Barrow in an appeal to the citizens of Hico for the observance of Fire Prevention Week, issued the following proc-

"Statisticans have placed the loss of life by fire in the United these parts that is unsurpassed in States last year at 10,000, while we are told that twice that number of most of these casualties being women and children.

appreciable decline is being shown the simple principles of friendship in the fire loss record of the country, the destruction is still ample to startle those who learn of it. This is the age of organization. "A fire loss is a loss no matter people have to unite to get things how it is figured. The partial re-When they advocate pro-lief that insurance affords adds

# News We Like to **Make Mention Of**

"Fine Rain Fell"-doesn't that make good reading, especially at this particular time? And that is what actually happened in Hico last Saturday night and Sunday. Fine is an adjective that lacks somewhat in its descriptive powers when used in connection with that rainfall, for it was just what was needed, and fell in such a way that the maximum benefit was derived from it.

Government Weather Observer A. Eakins gave the amount of precipitation at 2.69 inches, which on account of the period of time covered by its falling meant that it did a lot of good to this Revival Meeting at part of the country. Reports from other sections indicate that it was general, although not so heavy in

### EUROPEAN POLITICS

or Congress. No less than thirteen road stations. parties elected members. We think American politics is confused, but magazines than any other nation, what would we think if we had and that is all to the good. But thirteen political partes suffi- nobody can claim to be educated, ciently strong to elect members to or get the most out of life, unless Congress? There have been rare he or she also reads books. occasions when there have been three parties represented at Washington, and once there were four, PRESSURE for a single session. But our whole political system is based on the two-party plan. Minor differ-ences are swallowed or compromsed in party programs and plat-

The most striking thing about the German election is the sudden jump of the National Socialist of Fascist party, from 12 seats to Fascist party, from 12 seats to 107. Added to the 143 seats held by the regular Socialist party, and the 76 seats held by the Communists, this apparently puts rampant radicalism in the saddle.

That may have significance to the rest of the world. The policy of the Fascist party calls for the unification of Germany and Austria, annument of the treaties of Versailles and St. Germain, equality in military force with every other European nation and the restoration of Germany's colonies, along with items for internal democratization. If the dommant force in the new Reichstag undertakes to put any such program into effect, another European war would seem to be inevi-table. The safety in the situation hes in the improbability of any radical groups agreeing on same program.

A YALE PROFESSOR has found a 100-foot worm. The early bird who gets this worm probably won't be able to get up at all the next morning.

WHICH REMINDS US that there are some "Early Birds" in this man's town and country who have been looking for this announcement. Here's the good news:

# LOWER PRICES!

All DRY GOODS, CLOTHING, SHOES, MEN'S AND BOYS WORK CLOTHES, LADIES READY-TO WEAR, MILLINERY, HARDWARE AND GROCERIES are being offered at MUCH LOWER PRICES.

We as well as any one are aware of the Low Price of Cotton and all other products and are willing to share the LOSS. A few items are mentioned in this space.

Come to Carlton's for your supplies - if it's only \$1.00 worth. You will get the same courteous service as for a larger purchase.

A COMPARISON OF MERCHANDISE AND PRICE WILL CONVINCE YOU!

### MEN'S WORK CLOTHES The Best Makes in Work Pants, always sold for \$3.00—now \$2.50 The best Grey Covert Pant ..... \$1.50 \$2.60 Shirt to match—the two LEATHER COATS Regular \$12.50 Leather Coats \$10.00 Hawk Brand Overalls, the best overall sold—special price \$1.35 Men's Grey Cheviot Shirts, extra quality, regular \$1.00 for MEN'S SHOES Just Received—48 pairs Young Men's \$5.00 Oxfords, special this week \$4.55 Young Men's Black Oxford \$3.50 MEN'S WORK SHOES Men's Tan Scout Shoe \$1.95 MEN'S DRESS SHIRTS Men's collar-attached shirts, new patterns, fast colors \$1.50 3 for MEN'S HOSE 8 pair Men's 20c Hose \$1.00 6 pair Men's Fancy Dress Hose LADIES' HOSIERY Ladies' Rayon Silk Hose, a Bargain at .50c

DAIRYING IS NOW THE BEST-ORGANIZED BRANCH OF AGRICULTURE

IT HAS COME A LONG, LONG WAY IN THRE PAST TEN YEARS Dairying is an industry which in a generation has grown to be

one of the three largest in the nation, an industry whose prod-

ucts now have an annual value of four billion dollars, an indus-

try which has become in recent years the best organized branch of agriculture. It is estimated that there were produced about 122,000,000,000 pounds of milk in 1929. From a portion of last year's output of raw milk were manufactured approximately 1,514,000,000 pounds of butter, the heaviest production on record; 420,000,000 pounds of cheese, 335,000,000 pounds of condensed milk, 1,585,-000 pounds of evaporated milk, and 232,185,000 gallons of ice cream. The penetration of commercial dairying into thousands

of localities where it did not exist before has been made possible by the improved methods of handling and distribution. Modern Milk Plants contain every appliance known to science for conserving the quality, flavor and purity of the raw product. Throughout the whole cycle of production, handling and distribution, the dairy industry today places the greatest emphasis

Co-operation is rapidly becoming the keynote in dairying, and a four-billion dollar industry is pushing ahead. Farmers are learning that it takes fourteen cows each producing 100 pounds of butterfat per year to bring in as much income over feed cost as one cow that produces 100 pounds.

Farmers are weeding out the "boarders," increasing the herds that make the profits, raising more and better feed to supplant an all-cotton program, AND HICO COMMUNITY IS TAKING ITS PLACE AMONG THOSE PRESENT IN FURTHER BETTERING THE AGRICULTURAL SITUATION.

THIS CREAMERY IS DOING EVERYTHING POSSIBLE TO

FURTHER THE INTERESTS OF THE DAIRY FARMER. WE ARE PROVIDING A REGULAR STEADY CASH MAR-KET FOR CREAM. AND WE RECOMMEND A CONTINUED DAIRY CAMPAIGN IN YOUR SCHEDULE.

### New \$10,000 School At Fairy Visited And Praised Highly

(Hamilton Herald-Record)

In company with Miss Geneva to Fairy recently to take a fook at the splendid new school building, just completed at a cost of approximately \$10,000. Always alluring in beauty the hills and valleys of the Fairy country were entrancing on this particular afternoon, presenting a scene of divine peace, lingering in mellow sunlight, flecked with the shadows of passing clouds. The rich fields have produced a very small per of the usual yields of corn, feedstuffs and cotton this year, but the people are not grumbling. They are cheerful and hopeful, and have built their nice new school house on a small plateau of fifteen acres in the southwestern edge of the village, which lies in a gap in the hills. A light shower of rain fell here

The school house is a one-story Thursday night accompanied by a structure, 85x58 feet, built of white brick with concrete trimmings. There are two front entrances to large main auditorium, fitted with folding doors, so that a portion of A few farmers have sowed grain the floor space may be used for a Ben Wright made a trip to class room. The steps, floors of the portico and the entrance halls are of durable concrete. The floors SPECIAL on old beds made new, and received injuries himself in a torium, and the one included in the ticks furnished on 615 sheeting car collision near Cranfills Gap auditorium makes five nice, roomy ventilated and modernly lighted class rooms, all arranged with outside exposures. In three sides of the building there are six wide windows, screened for protection of the glass and of the building from prowlers. In the day time the auditorium is lighted by modern skylights. A stage, 20x12 feet, with roomy, well built dressing rooms on either side, occupies the northwest end of the school building. The walls are finished with a soft green stipling. with ceilings of tan, and the wood work is done in grey. The windows on the west side of the building are furnished with double-rolle shades. The building will be lighted with gas, and also warmed with large gas heaters, fitted with modern ventilators. Wall blackboards and single desks finish this magnificent modern school building, which will not only accomodate the 125 scholastic

Mr. Evans held a position as Y.

The school at Fairy opens Monday, October 6, with the following teachers composing the faculty: C. C. Hartgraves, Principal; Edmund Early, Miss Katie Lee Jones and Miss Ima Pitts. With the state aid now available the teachers will receive nice salaries, and everything points to the most successful school year in that section of the county,

ers. The three main issues are prosperity, prohibition and the new tariff law.

Prosperity is very unevenly disributed over the country, especally as a result of the drought. Prohibition cuts across the lines of each party. The tariff appears, at least for this campaign, "a local ssue" in truth; since votes of individual members on items affecting their districts usually weigh more with their constituents than the bill as a whole.

Washington, Oct. 1—With the lift you are wondering what happen in your own state, there-If you are wondering what will prohibition and the tariff. Even then, however, such purely local matters as the personal popularity
