VOLUME XLVI

HICO, TEXAS, FRIDAY, NOVEMBER 7, 1930.

NUMBER 23

Here In HICO

Quite a few Halloweeners had the tables turned on them last Friday night when they were called upon to replace the articles they had been so eager to remove from their accustomed places. The strong arm of the law, the honorable chief of police, rounded up the celebrants and put them to work in the early part of the night, and by midnight all appearances of the night's carnival spirit had disappeared.

"Honest, Colie, we didn't put those things there," was a recurrent plea. "Makes no difference," was the hard-boiled reply, "you are going to help put them back." And put things back, they did. Which was a great help toward preserving the reputation Hico has for law-observance, peace and orderliness.

This was, it seems, the best way to handle the situation. Boys will be boys, and when the line is drawn and the young people are forbidden to do a certain thing, then that becomes the strongest desire of the moment—in nine cases out of ten they will go to most any extreme to accomplish their end. But when they are allowed to do as they wish, at the same time being watched with a view to keeping their actions within the letter of the law, the mischievous acts are confined to harmless fun. Then when the party is over, they are made to realize that they must pay for their fun, as later in life they must pay for everything worth-while in one way or another.

The Halloween carnival held in the Petty Building under the auspices of the P. T. A. drew its share of the crowds, and there was fun and amusement in abundance. This newspaper now, since it is all over, feels just a little guilty through the fact that we overlooked the fact in last week's paper. An article was carried the week before and we really meant to give more publicity directly before Halloween. In some way, however, the note slipped off the hook, and after the paper was out we noticed that there had been nothing said. However we are glad that the previous week's publicity seemed to have had effect, and information had reached the public through other channels so that the crowds were not disappointing.

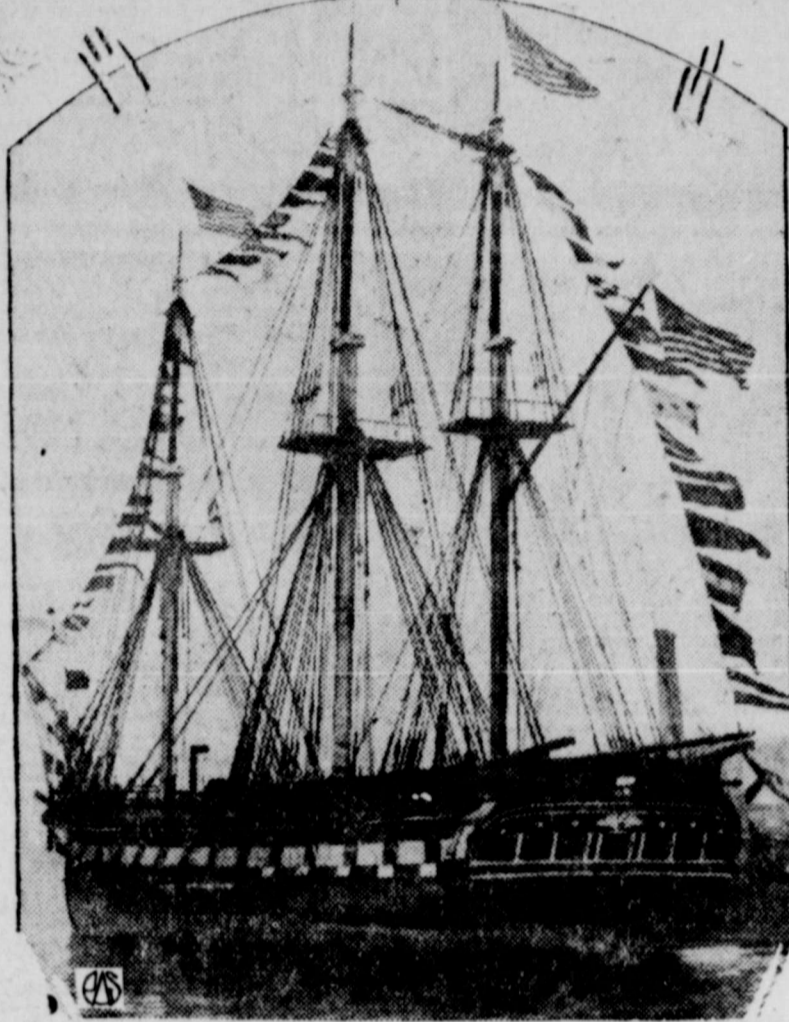

The Parent-Teachers Association of Hico is doing a great work this year, and is at the present time, sponsoring a move that is most worthy—that of terracing the school grounds. Something has been said before about the need of this work, and the P. T. A. certainly stays on the job all the time to see that Hico school children are cared for in the proper manner. There are many things at the present time that deserve the attention of these good workers, but in our opinion they have selected one of the most worthy objectives, and are going about it in a business-like way.

Speaking of publicity to worthy things, and our failure at times to publish the things we ought to, right now we want to say that the kind cooperation received here is appreciated to the fullest extent. There is never a week passes but that some friend brings our attention to an item of news that we might have overlooked had they not done so. For instance, last week there were three articles handed in already prepared in far better shape than we could have hoped to write them, due to the fact that they contained historical information not available to us. We do not ask the people to edit the newspaper—in fact we would not permit it should some desire to do so. But we do appreciate the spirit of cooperation that is so in evidence, and if the people will stay with us, we'll guarantee to do our part toward making the News Review more and more interesting all the time.

If you don't think it is a big job to learn of everything that happens of a printable nature, and remember all these things long enough to get them up in readable shape, you just haven't thought about it much. We know that we miss things every week—and we also realize that there are many things that happen in the way of short personal items and good headed news stories that we are not able to carry on account of being unable to get the correct information. But that is what makes our determination stronger to get all the news that happens. We don't hope to ever be perfect, but the nearer we can come to that goal the better satisfied we will be, and the better the people will be served.

G. L. Faggard of Thurber was here Wednesday visiting his sister, Mrs. Ike Langston.

Cash Snoddy Loses Home From Fire Early Wednesday

The home of Cash Snoddy, two miles south of Hico on the Hamilton-Carlton Highway, was destroyed early Wednesday morning by fire. The building was a complete loss, together with nearly all the contents, only three mattresses being saved.

The fire started about 5 o'clock, when Mr. Snoddy had arisen and started a fire in the kitchen stove. It is thought that in some manner the blaze ignited around the flue, and before it was detected had gained such headway that it was impossible to check the flames. In a short time the entire structure had been reduced to ashes, and on account of the early hour very little help was available to fight the fire.

Mr. Snoddy had insurance to the amount of \$750 on his home and \$250 on its contents, according to J. C. Rodgers, local insurance agent.

Improvements At Blair Field Make Airport Attractive

During the past few weeks the Hico airport has been improved and the space available for landing planes has been enlarged. The grove of trees in the northwest corner of the field has been removed, thus making for more safety in taking off and landing planes there. Other work has been done at the field—since the construction of the hangar and the opening of the airport, and the weather has aided in smoothing off the ground.

The flying school which has been in progress for some time under the direction of Ed Ockander, the experienced pilot whose home in Waco, has been a success in every way, and to date no mishaps have occurred to mar its success. The five students have been receiving daily instruction, and all have taken solo flights. Two or three of the students have several hours of solo flying to their credit. The instruction will probably be over in a few days and the students ready for their examinations.

City Tailor Shop Announces Savings For Customers

In an advertisement in this issue of the News Review, the City Tailor Shop announces a radical change in its method of doing business. The cash and carry system is being adapted, effective next Monday, and the message is important.

Manager Carlton Copeland stated that after much thought and personal interviews with his customers, it seemed that this would be a popular change, and would be the consideration of the general public on the advantages offered. Read the message on another page.

Engineers Inspect Highway 67 With View Starting Work

A party of highway engineers were in Hico last week returning from an inspection trip over the route of Highway 67, but their stay here was so short that their plans were not ascertained in full. One member of the party however did state that the type of construction had practically been decided upon, calling for a 26-foot crown instead of the 30-foot type of the usual road, and would include an 8-foot shoulder with five feet of gravel.

The Dublin Progress had the following to say in regard to the visit of the engineers to this section: State Highway No. 67 between Dublin and Meridian was inspected Wednesday by State and Federal engineers.

E. D. Johnson of the Austin office of the U. S. Bureau of Public Roads and John Mead, division engineer of the State Highway Department, made an inspection tour of the 40-mile stretch.

It is understood that work will start soon on the road between Dublin and Hico, bonds for which were voted last fall and that possibly the balance of the road between Hico and Meridian will be macadamized.

Urges Attendance At Methodist Revival, Ends Next Sunday

Rev. A. C. Haynes, pastor of the Hico Methodist Church, states that the revival which has been going on at that church for the past two weeks, is rapidly drawing to a successful close, and issues a cordial invitation to the general public, as well as members of his church, to attend during the last of the meeting. The sermon Sunday night will be the last of the present series.

Sunday morning a special feature of the service will be in memory of the "Armistice Day." The local Legion is given a cordial invitation to come in a body in uniform also to decorate the church with flags.

The messages of this forceful revivalist are short but to the point. He presents his subjects in a very comprehensive manner, and the congregations are not kept in suspense through a long, tiresome sermon. Those who have attended the services thus far are well pleased with the good work, and state that much good is being done and fellowship and worship have received first consideration.

Rev. Haynes will leave Wednesday morning for Eastland for annual conference.

Long-Time Citizen Of This Community Buried Here Monday

The remains of W. W. Walton, old and respected citizen of Hico and this section, were brought to Hico last Sunday, November 2, to the home of Mr. and Mrs. W. L. Thompson. Mr. Walton died at the sanitarium in Stephenville at about 2 a. m. Sunday. He had been making his home at Chalk Mountain previous to the time he was taken to the hospital.

Funeral services were held at the Hico Cemetery Monday afternoon at 2:30, conducted by Rev. Clarence Allen Morton, former pastor of the Hico Baptist Church, but now of Gatesville, assisted by Elder J. J. Collins of Glen Rose. Interment followed immediately afterward.

Mr. Walton was 80 years of age at the time of his death, and had spent the major portion of that time in this section. He was a member of the Hico Masonic Lodge, and had taken part in all civic affairs and organization activities of a constructive nature. He was known to many, loved and respected by all. His passing has caused a feeling of sadness in the hearts of his many friends.

Surviving are two daughters and three sons, as follows: Mrs. D. S. Killian, Portersville, Ala.; Mrs. G. E. Hamie, Johnsonville; S. P. Walton, McCamey, Texas; and G. W. Walton, Dallas, Texas; also a nephew, W. D. Walton, of Dallas, Texas, was at the funeral.

TEXAS LAWS

Furnished us (by J. C. Rodgers)

KILLING ANIMAL TO INJURE OWNER.

Article No. 1373. Penal Code. "Whoever shall wilfully kill maim, wound, poison, or disfigure any horse, ass, mule, cattle, sheep, goat, swine, dog, or other domestic animal, or any domesticated bird, of another, with intent to injure the owner thereof, shall be fined not less than ten nor more than two hundred dollars.

In prosecutions under this article the intent to injure may be presumed from the perpetration of the act."

PLANE PLAYS PART IN SEARCH FOR HICO YOUTHS WHO DECIDED "TO GO ON ROAD"

Modern methods were employed Wednesday night in the search for two Hico youths who were missed from their homes, and fears for whose safety were felt by residents of the entire countryside.

The last time the boys had been seen previous to their disappearance was about dark and when efforts to locate them at neighbors' houses and around over the town had failed, alarm was given and immediately the frantic parents were tendered the assistance of anxious friends in seeking information as to the whereabouts of the two boys.

Searching parties were organized and dispersed in different directions, and about midnight the Barling monoplane stationed at Blair Field was called into action in the hope that should the boys be camped on any of the creeks or branches near town, the light from their campfire would disclose their position.

Ed Ockander, chief pilot and instructor at Blair Field, took off with only the light from a full moon to guide his maneuvering, assisted by beam searchers which kept him constantly in touch with the landing field and acted as a guide from which he could judge the direction of the wind. On the first trip he circled the territory within a radius of five or six miles of Hico, but returned with no news.

Taking off again, this time with a passenger, he made a wider circle, this time flying closer to the ground, but his efforts were again fruitless. His progress as an aviator was again proved by the manner in which he handled the plane under difficulties. On both trips he made perfect take-offs and three-point landings, seeming to do as well in the dark as in the daytime.

By this time anxiety was at a high pitch, and practically a third of the population of the town had arisen to render what assistance they could in locating the boys. All possible rumors and clues were run down, but not until after 4 o'clock Thursday morning was anything definite ascertained. At that time one of the searching parties, which had gone to Fredell on a "bum steer" stayed to meet the early morning train, and it was from the train crew that information was had which led to locating the lost boys. The engineer of the train saw the crowd, and alighted from his engine to inquire about the gathering. When told of the disappearance of the boys, he stated that he had noticed two young men in the station at Chirette who answered to their description.

The party at once retraced their steps, going at once to Chirette, and this time their hopes were sustained. The pair were in the station, and had been there only a short time, having covered the distance between Hico and Chirette on foot, and were in the act of buying an egg in a skillet over the flame from a lamp when apprehended.

Thus the fears of countless friends were dispersed, and what might have been a tragedy resulted in relief to the family and the citizenship of the entire town. The boys are said to have stated that they wanted to make some spending money for Christmas, and this was the first lap of a business trip, on which they planned to make expenses and put away profits from the sale of toy airplanes, tools for the construction of which they had brought along with them. Needless to say, they will be wiser in the future, and will doubtless seek a home market for their handiwork.

Many Hico Stores Will Close to Observe Armistice Day Tuesday

Suffers Burns From Effects of Gasoline Explosion Sunday

Virgil Spaulding received severe burns on his right leg and both hands at his home here Sunday afternoon, when gasoline became ignited from a fire when he and his son, Vernon, were using a mixture of gasoline and paraffin to make a pair of hunting trousers waterproof.

According to Vernon Spaulding, the fire was about twenty feet from where they were standing in the yard, and the fire was used in melting the paraffin. The mixture became ignited, setting the pants on fire. Vernon received minor burns when he attempted to assist his father in putting out the fire.

Mr. Spaulding is resting well at this time, but his burns are considered to be of a serious nature.

State Inspector Reports Favorably On Hico School Work

Miss Margaret Cotham, state inspector of schools for this district, was in Hico Wednesday of this week and made an inspection at the Hico Public Schools, according to C. G. Masterson, superintendent.

Miss Cotham made favorable comment on the grammar school building, and especially commended the improvements that had been made there. She was high in her praise of the library also, and of the good that is being accomplished in this department.

She stated that on the whole, work and discipline in the local schools were entirely up to standard, and gave them a good grade with words of praise.

MANY IMPROVEMENTS MADE TO HOME OF MR. AND MRS. PHILLIPS

Mr. and Mrs. C. D. Phillips are enjoying home life much better since they have had their residence recently repaired and repainted. They also recently installed gas and with the electric range which they have had for some time and other improvements, Mr. Phillips says that his wife almost does her housework by pushing a button.

Their home is located in the east part of town, and these improvements have added very much to the appearance of the house as well as the convenience. Since Mr. Phillips leased his filling station, on account of poor health, he spends most of his time at home. Both Mr. and Mrs. Phillips are believers of civic improvements of any kind.

Many Hico stores will be closed next Tuesday, November 11, for the observance of Armistice Day, according to their intentions as announced in a petition circulated this week.

Those who signed the petition to close on that day, as submitted to the News Review, follow: Make Johnson Barber Shop, C. L. Lynch Hardware Co., City Tailor Shop, Ready-to-Wear Shoppe, Kal (Cowboy) Segrist, Midland Barber Shop, G. M. Carlton Bros. & Co., A. & P. Tea Co., Hardy Barber Shop, N. E. Little Barber Shop, The Wiseman Studio, A. A. Fewell, J. E. Burleson, Higginbotham Bros. & Co., The Vogue, Duncan Bros., Barnes & McCullough, Hico Furniture Co., Southern Union Gas Co., N. A. Leeth & Son, Houston Shoe Shop, Hico Mercantile Co., Latham Tailor Shop, Hico News Review, Texas-Louisiana Power Co., White Service Station.

Ready-to-Wear Shop Announces Sale In This Week's Paper

The Ready-to-Wear Shoppe has an advertisement on another page of this issue of the paper setting forth their intentions to give the people of this community the advantage of lower prices.

Manager A. A. Brown stated to a News-Review representative that all profits had been forgotten in marking the items, and called special attention to the bargains in ladies' wearing apparel and dry goods.

Turn through the paper and read their ad, as well as the many messages from Hico merchants. Goods can be bought here cheaper than anywhere else in the world, and local merchants are anxious to serve you.

Saturday Big Day At Carlton's Big "Price-Buster" Sale

Those who miss the message of G. M. Carlton Bros. & Co. on another page of this issue of the paper will miss the opportunity of sharing in the bargains advertised as well as a special offer they have.

Manager J. W. Richbourg states that a special invitation is extended all the people of this section to be on hand Saturday for the big event. Interest has been high to date, and promises to reach its peak Saturday. See what their store news offers.

Keeping Up With TEXAS

Texas has 900 million acres of virgin pine and about the same amount of standing hardwood timber with 3 1-3 million acres of second-growth pine and 2 1-2 million acres of second-growth hardwood.

Texas has the largest helium gas plant in the world, the largest chili and tamale manufacturing and canning plant, the largest rice packing plant, and largest single oil refinery and the largest custom smelter—to give only a few of its "largests."

Texas made the greatest population gain in its history in the 1920-30 decade, percentage of increase being 24.1 per cent.

With all the assurance and poise of a seasoned globetrotter, 4-year-old Harold Mizelle alighted from a bus at Bartow, Fla., Monday after completing a trip alone from Houston, Texas. Pinned to his jacket was an envelope containing money for the youngster's meals, and a note from his mother to the bus drivers asking them to change his clothes before he reached his destination.

Changes In Fur Bearing Animal Law Stated By Warden

C. M. Tidwell, game and fish warden for the counties of Hamilton, Bosque and Coryell, calls attention of trappers to changes in the law relating to the trapping of fur-bearing animals, and has the following to say: To Trappers and Fur Dealers:

The open season remains the same as last year, to wit, the months of December and January. Any and all persons except boys under 17 years of age must procure trappers license before taking the pelts of fur bearing animals for barter or sale. Under the act of the Fifth Joint Session of the 41st Legislature, House Bill 86, a tax of one cent is levied on all pelts except mink and raccoon, on which the tax is five cents per pelt. All pelts must be tagged with the proper tax receipt tag before they are offered for sale by the trapper. The licenses and tax tags will be available at the different towns in my district, or may be procured from me personally, or can be had direct from Game, Fish and Oyster Commission at Austin, Texas.

Please bear in mind that the fur season does not open until December 1st and closes on January 31st, 1931. Comply with the law and avoid prosecution.

C. M. TIDWELL, Game and Fish Warden for Counties of Hamilton, Bosque and Coryell.

Attendance Grows But Still Room For More Lions

The last meeting of the Hico Lions Club showed some improvement in attendance, but there are still some vacant chairs at the luncheon table that need occupants. Last Friday's luncheon was attended by Lions Coston, Elkins, Baker, Masterson, Duncan, Porter, Richbourg, Persons, Hudson, Brown, Sellers, Thies, McCullough and Holford. A check was made on the absent members, and plans were made to have the meetings more interesting so that a full attendance might be had each week.

The business consumed only a short part of the time after the period allowed for feeding the faces, and then several minutes of amusement were enjoyed. One of the first things noted with a large attendance is the increased interest.

At today's luncheon several surprises are planned, and one of the old stand-bys has promised to be there with a device that will be worth the time spent by itself. Other surprises are planned, and in fact you just can't tell what might happen.

"Uncle Tom" Pierson Dies At Hamilton

Hico friends of the family of Tom C. Pierson at Hamilton were grieved Sunday to learn of his death on Saturday afternoon.

"Uncle Tom" was born in 1854, and had lived the major portion of his life in Hamilton county. For the past 22 years he had held the office of tax assessor, and had formed connections over the county and the whole section which developed almost without exception into friendships.

Funeral services were held Sunday afternoon at 2:30 at the First Methodist Church in Hamilton, with burial in the Hamilton cemetery. Quite a number of citizens of Hico and this end of the county joined the vast throng of sorrowing friends at the church and at the grave.

Mr. Pierson is survived by his wife, two sons and three daughters.

THE SQUIRREL

Published by the Honey Grove School

J. W. JORDAN, Editor

Exam Week.
Today ends the first month of work at the Honey Grove School. We hope you are pleased with the grades, but if you are not, you know just exactly what to do, and that is, study harder.

We find several in our school who are in the wrong place. We do not intend to give you a bit better grade than we think you deserve.

If your studies are hard, come to us and we will be glad to help you all we can.

Honor Roll.

Those in the primary room who made 100 per cent in spelling every day last week were Elvins Vinson, third grade; L. R. Steelman, second grade; and Laurena Casey, fourth grade.

Dock and Alvin Clepper broke the record in third grade arithmetic last week. Dock worked 304 problems, and Alvin worked 223.

Those in the upper room that made 100 per cent in spelling last week were Joe Moss, W. H. Tinsley Jr. and Vestal Roberts.

Joe Moss worked more arithmetic problems than any other person in his class last week. Good for Joe! Look out boys. You should be burning some of that midnight oil that Joe has been studying by, and even if you do fall out of your chair, as they said Joe did, it might help in the long run.

P. T. A. Meeting Last Friday.

The P. T. A. had a meeting last Friday, and beside enrolling some new members, they talked over some business matters, and made plans for the future.

The new members are Mrs. Charlie Casey and Mr. and Mrs. John Cowling. They also elected Miss Esta Lee Jordan secretary, and Mrs. W. A. Moss treasurer.

The old members are Mrs. J. P. Clepper, president; Mrs. Anson Vinson, vice-president; and Miss Mabel reporter. Mrs. Fern Jordan, Misses Betty Clepper and Hazel Jordan are those on the Program Committee. The others are Mrs. J. W. Jordan, Mr. J. P. Clepper, Mrs. W. A. Moss, treasurer; Mrs. Luther Casey, Miss Esta Lee Jordan, secretary; and Miss Ora Lee Clepper, also Mr. Herbert.

Plans were made for a big program for Armistice Day.

We give all a cordial invitation to join the P. T. A.

Did You Lose It?

On the way to school Monday morning, the editor of The Squirrel found some money. If it is yours, describe it and he will return the money to you.

P. T. A. Party.
There will be a P. T. A. party at the Honey Grove school house Friday night, Nov. 7. The ladies will serve tea cakes and hot chocolate. The program committee has planned some good games. All patrons and friends of the school and members of the P. T. A. have a special invitation. Any visitor outside our community is welcome. Everybody come and bring your bit.

In Our Library.

In our library we have the following Bulletins: Plans of Rural Community Buildings, Rural Libraries, Food for Young Children, Eradication of Bermuda Grass, Rural Planning, Basket Willow Culture, Beautifying the Farmstead, Transplanting Trees and Shrubs, Farm Sheep Raising for Beginners, Marketing the Cowpea Seed Crop, and Terracing Farm Lands.

As we want our library to serve as many people in our community as possible, we gladly give you the privilege to borrow any of the above mentioned bulletins.

If you do not have the one you want, we can tell you when to get it.

Campus Visitors.

Mr. and Mrs. Vinson stopped by Monday evening for their son, Elvins.

Mr. and Mrs. Vinson found everyone gone but The Squirrel staff and they were busy preparing the paper for the press.

Fern Jordan stopped by Tuesday evening, and Mr. Herbert was surely glad to see him as it was real late and rather chilly.

Hazel and Esta Lee Jordan were visitors Wednesday evening. They stopped by to plan a P. T. A. program.

Two Gold Fish Added to Squirrel Hole.

Joe and Carrie Moss brought two gold fish to be placed in The Squirrel Hole. We have named the fish Queen Elizabeth and King Ferdinand. The Squirrel Hole is certainly an attractive place, and the fish add to its attractiveness. We certainly thank them.

Our Crawfish.

Dock and Alvin Clepper brought a crawfish to Miss Mabel to use in the Nature Study class. She certainly does thank them. As we have a name for our fish and squirrel, we decided to name it Jim Crawdad.

In Hico Friday Night.

A few of our young folks enjoyed the Halloween carnival in Hico Friday night.

Thanks to Mr. Clepper.
Mr. J. P. Clepper has stuffed a squirrel for The Squirrel Hole. We are certainly proud of this and wish to thank Mr. Clepper very much. We call this squirrel our mascot and Bana Clepper suggested that we call it Johnnie Squirrel.

The Squirrel Hole.

An office has been arranged for The Squirrel, and we have been trying to fix it up into an attractive looking place.

Miss Mabel suggested that we name the office The Squirrel Hole, and the school thought it a good name. The office is about 10 by 10. It is equipped with two nice book cases, an office desk, which Mr. Herbert made for us, and a filing case. The floor is covered with two pretty rugs, and from the window hangs pretty marquisette curtains and a green shade. The wall is brightened by several good pictures. On the desk and book case one will find stationary, envelopes, stamps, glue, colored crayon, and any other article that may be needed. Under the window is a large fish bowl containing two pretty gold fish.

We give Miss Mabel the honor of making our office bright and comfortable, and we give Mr. Herbert the honor of suggesting that we have an office for The Squirrel and for making it possible.

Readings in Chapel.

Miss Ana Loue Moss gave us a nice reading Wednesday, 29, entitled "Curfew's Shall Not Ring Tonight." The student body certainly enjoyed this reading, and we invite Ana Loue to entertain us again soon.

Miss Evelyn Cowling gave us a nice reading on Thursday, 30th. The title was "Tired of Mother." We enjoyed this piece very much and hope she will give us another soon.

Accidents Will Happen.

Accidents will happen in the best of families. Some times they do not amount to much, but some times they may be serious.

In almost every home in this community there will be found a first aid kit. Why not supply your school with one? It would come in handy. Already in this school we have had need of one several times.

While playing Wednesday at noon, Vestal Roberts cut his hand pretty badly. He was rushed to a neighbor's house and given first aid.

Visits in Stephenville.

Sunday, J. W. Jordan and Woodie B. Looney also Esta Lee Jordan accompanied Mr. Herbert to Stephenville to visit Mr. Herbert's sister, Miss Nellie Dee Cooke.

Nellie Dee is a senior in J. T. A. C., and has been in the college hospital the last few days. They found her at home feeling fine.

Do You Like It?
If you enjoy our paper, drop us a card to let us know. We are working hard to make The Squirrel one of the best school papers in this part of the state.

If you wish to contribute to our paper, address it to Mr. J. W. Jordan Jr., Hico, Texas.

Patrons and friends, we will need your support if we carry out our aim.

Didja Ever?

Didja ever leave for school in a rush; plan to stop at a neighbors house for a short time; get almost to school and notice that you had left your keys at home; then you would have to go back after them? Didja? Mr. Herbert did.

Subscribers for the Hico News Review.
Miss Mabel and Mr. Herbert each subscribed for the Hico News Review Saturday. Mr. Holford is sending the Hico News Review to the Honey Grove school. We are backing our paper, are you?

Can You Imagine?

Can you imagine Gerrald Clepper being able to catch a crawfish and not bite him? Can you? Well, he did, and we still have it and feed it on water.

Can you imagine Joe and Carl's shetland pony running away with Alvin Clepper, who is such a good cow-boy? Can you? Well, it did.

Can you imagine Vestal Roberts outweighting W. H. sixty-one pounds? Can you if W. H. weighs sixty-four and Vestal weighs one hundred twenty-five? It's so.

Can you imagine Miss Mabel and Hazel getting to go riding Saturday nite? Well, they did!

Can you imagine Miss Mabel and Miss Hazel going to see Miss Lois Thompson, Sunday, and working all evening? Can you? Well, they did.

Can you imagine Miss Mabel losing her temper? Can you? Well she did Friday night.

I Wonder Why.

I wonder why Ana Loue likes to wave at the Carlton bus so well? We think we know.

I wonder why Miss Mabel keeps looking for a letter from De Leon? I wonder.

Believe It or Not!
Mr. Herbert lost a tire on the road and found it as he came back about two hours later. Believe it? It's true.

A Bit of Humor.

Miss Mabel was running down the road toward the school house one morning when Mr. Herbert noticed her.

"What are you running for, Miss Mabel?"

"I'm not running for, I'm running from."

"I'm a good girl," Wilma Gene said as she returned from Mr. Herbert's office.

Saturday night the Moss family and Miss Mabel were eating supper. Mr. Moss was eating his pie with a knife. Miss Mabel noticed it and said: "Mr. Moss, don't you know it is impolite to eat with your knife and besides you may cut your self."

Without checking, Mr. Moss replied: "I have been eating with my knife for 40 years and haven't cut myself yet."

SENDS SARGON TO ROUMANIA

President of Big Canadian Firm Says He Never Saw Anything To Equal New Treatment.

"After taking five bottles of Sargon and two bottles of the Soft Mass Pills I want to say that in all my 70 years I've never seen anything to equal this remarkable treatment," recently said Jacob Gherman, Pres. of the Western Hardware Co., Ltd., Winnipeg, Canada, who moved to Winnipeg from Roumania 30 years ago and who has acquired extensive real estate holdings in that city.

"In fact, Sargon has been of such great help to me that I am sending a full treatment to two friends of mine back in my old home country. I wrote them what a wonderful medicine it is and how it restored my health after all other medicines and treatments failed."

"I suffered torture with indigestion after meals and only those who have had this terrible affliction know what a blessed relief it means to get rid of it. I also suffered from chronic constipation almost as far back as I can remember."

"After the first few doses of Sargon my stomach seemed to right itself, my nerves grew stronger and I began to sleep well and now I am in better health generally than I've been in 35 years."

"I use to take a physic almost every day of my life, but since taking Sargon Pills my bowels are as regular as clockwork. Their easy natural action makes them especially suited to elderly people like myself. I only hope my statement will help other sufferers."

This is only one of the thousands of cases where grateful men and women have received such wonderful benefits from Sargon that they have sent it to their relatives and friends in distance lands.

This Week in WASHINGTON

BY RADFORD MOBLEY
AUTOCASTER WASHINGTON BUREAU

Washington, D. C., Oct. 29.—Through two distinct agencies the Federal Farm Board has decided to initiate its "educational" work, as provided in the act which created the board.

Hitherto the Board has worked through a few experts who have made surveys on request of local people. This will be continued; if you and your neighbors want a survey with a view to organizing a fruit, vegetable, dairy or other cooperative, you can still get it by writing the board.

But now the Board will work through the extension service of the Department of Agriculture and the Federal Board for Vocational Rehabilitation. The former is the Federal service which helps maintain the county agricultural agent in your county, while the latter supervises agricultural instruction in the high schools which cooperate in the government program.

There are about 4,000 of these and there are a number in every state, more in Texas than any other. Each teacher will be supplied with a text-book in cooperative marketing. Every state supervisor has been invited to attend a regional conference at St. Paul, Chicago, Chattanooga or Dallas, and he will go back home to prepare the individual teachers for the winter's work.

The work of these teachers carries them into nearly every farm home in the county, because each pupil must receive home supervision for six months in his application of the theories he has learned at school.

In addition, the high schools plan to hold night classes specially aimed at those farmers who want to get a practical working knowledge of cooperative marketing, what the Farm Board can and can't do, and how it hopes to do what it can.

Thus every teacher in a high school which is cooperating with the Federal government under the Smith-Hughes act will have one or more centers of practical instruction in the board's program as applied to that community.

State programs for the year which have been sent in to the Agriculture Department's extension service headquarters show similar plans through that agency. Nearly every state will add traveling specialists in various commodities who will go from community to community helping

organize for cooperative control of all farm products.

Application of insecticides to the backs of cattle, especially of tobacco powders and dusts which contain nicotine sulphate and materials extracted from Derris root, have proven highly effective killers of cattle grubs, the Bureau of Entomology has discovered. Experiments at the Galesburg, Ill., experiment station, have shown that these powders can be extensively used to control the cattle grub, thereby materially increasing the health of stock.

The various flying squadrons of the Federal Government which are scurrying about the country these days on health, forestry, plant and animal disease work and related matters, are using more than 200 new automobiles, it was learned here today.

They are used for: Study of tropical and subtropical insects at Whittier, Calif.;

Southern field crops insect work at Tallulah, La., El Paso, Tex., Bryan, Tex., Florence, S. C. and Stillwater, Okla.;

Collecting market information in Illinois, Ohio, Louisiana, Texas and Oregon;

Shipping point inspections of fresh fruits and vegetables in five states;

Control of predatory animals, including rats;

And in a hundred other ways at a hundred different points. The automobile and truck have gone a long way toward making the Department of Agriculture a home and department for each farm community, and every year sees it out to new uses.

WACO PACKING COMPANY BUILDS NEW OFFICE

The Waco Packing Company has a new office in the front of their produce building, which is located on Railroad Avenue. This includes a number of built-in features, which enables the employees to handle the affairs of the office in a more efficient manner. With the approaching turkey season, they anticipated an unusual rush, and the new addition will enable them to take care of a larger volume of business in less time.

Konjola Very Medicine That Fit This Case

Amarillo Lady Rejoices Over Results Obtained from New and Different Compound.

MRS. ETTER STANLEY

"For twenty years I tried to free myself of stomach trouble, constipation, kidney and liver trouble," said Mrs. Etter Stanley, 1220 West Fifth street, Amarillo. "Even specially prepared foods did not digest. Gases formed and bloating pains resulted. My kidneys were so weak that night risings were frequent. I had dull pains across my back. Neuritis gripped me and I became almost helpless at times and suffered untold agony from piercing pains."

"Konjola seemed to just fit my case. Soon after starting the treatment I began to feel better. Now, after finishing the treatment I feel like another person. Food now digests as it should and I feel better than in years. The pains of neuritis are rapidly leaving me. My kidneys have been strengthened and function properly. I am gaining in weight and strength."

It is the same glad story whenever Konjola is given a real test. Try this medicine for ailments of the stomach, liver, kidneys and bowels, and rheumatism, neuritis, and nervousness.

Konjola is sold in Hico, Texas, at Porter's Drug Store, and by all the best druggists in all towns throughout this entire section.

G. W. McAnelly left last Friday for Vernon to spend the winter with his daughter who resides there. He had the News Review sent to his address there, so he could keep posted on the happenings in Hico.

FORMER IREDELL GIRL MARRIES AT TEMPLE

Friends have received announcements of the wedding of Miss Trudie Dunlap to Mr. Arthur Lewellen of Montgomery, Ala. They were married at Temple Thursday afternoon at 4 o'clock.

The bride is the daughter of Mr. and Mrs. A. A. Dunlap, who reside eight miles north of Iredell.

After a short honeymoon, which will include a visit to the bride's parents, Fort Worth, Dallas, Caddo Mills and Houston, they will return to Temple and leave from there for Pensacola, Florida to make their home. Mr. Lewellen has a position with an oil company at that place.

Card of Thanks.

We wish to thank each and every one who helped or took part in our Hallowe'en Carnival. We want to thank our home town paper, The Hico News Review, for advertising our carnival; also do we thank the parents, teachers, school children, business men and telephone operators for their help and cooperation and we certainly do thank the Petty Bros. for their building, fixtures and cooperation, for without the help and cooperation of the public in general, our carnival would not have been a success.

OVERPRODUCTION

The business stringency from which the United States has been suffering for the past year, and from which recovery is now slowly setting in, is not confined to this country. All over the world similar depression exists, with very much more serious consequences to the masses of the people than we have experienced so far.

There is not much consolation for the man out of a job in the knowledge that there are more men out of jobs somewhere else. But it is something to understand that the condition which we are facing in America has not been wholly caused by anything which we could have prevented. In every nation of the world the people are blaming their respective governments for the stagnation of industry. In several South American countries the resentment has expressed itself in revolutions which have thrown the old government out. In Europe political conditions are critical in Germany, England, France and Spain, from the same causes.

Economists who have delved deeply into the present world situation blame it largely on the overproduction of raw materials of all kinds, all over the globe. And that overproduction is a direct result of the war. Although the war was over twelve years ago, its effects are still being felt, as they will be felt for a generation to come.

During the war every form of production of raw materials was immensely stimulated in the countries outside of the war zone. Immediately after the war there was a tremendous demand for copper, tea, rubber, coffee, sugar, cotton, wheat, corn, beef, silver, wool, and so on through the whole list of raw materials. The prices which were paid further stimulated production. Statesmen who foresaw a glut of these things, beyond the ability of the industrial world to utilize them, began to counsel caution, but producers who had been reaping the big profits of high prices were only human, and continued to produce in the hope that prices would keep up.

Of course, prices began to fall. Worse than that, producers of some commodities found themselves with hardly any market at all. In many other lines, prices fell below the cost of production. We have had only a slight touch of price of wheat to the grower, in this world situation, in the falling low price the planter gets for cotton. We have been going on at the over-stimulated pace set in war times, when "marginal" lands which it does not pay to cultivate in peace time, were put into crops which cannot now be profitably marketed.

This overproduction is the underlying cause of all of the world's economic troubles, in the opinion of some authorities. It certainly has a great deal to do with it.

BEAVERS

The first European settlers in America found a curious animal in the New World. The beaver, which builds its nests like little log houses, in the middle of a stream or swamp, and then builds a dam to raise the water level so that its enemies cannot reach the entrance to its home except by diving, is more than an interesting little animal. It was the source of the greater part of the wealth of the early Colonists.

Beaver fur, it was soon discovered, made a better felt for hats than wool or any of the other readily obtainable furs. We speak today of the tall silk hat of fashion as a "beaver," but it is merely a remote descendant of the fashionable beaver-fur hats of the seventeenth and eighteenth centuries. An immense commerce between the Old World and the New was built up on beaver furs as the principal export from this side, and beaver fur, now mainly obtained from Canadian sources, is still one of the most highly prized pelts.

The proclivity of the beaver to build dams is being utilized in the Palisades Interstate Park, lying in New York and New Jersey. A large swamp needed a dam to make it into a lake. Several families of the 250 beavers that live in the park were trapped and moved to the swamp. They proceeded to build their houses there and to construct the dam just where it was needed. Although no longer an important item in commerce, the beaver is still useful.

UNIQUE WAY OF WRITING UP MARRIAGE OF YOUNG PEOPLE IN AN EXCHANGE

One of our good friends brought in an article this week that was clipped from a paper received by him, that is humorous in intent, telling of one editor's unique way of chronicling a marriage ceremony. While this has, we believe, appeared in these columns before, we are reprinting it again by special request.

Mr. Robert Chitway and Miss Alvin Broadkin were married at noon Monday at the home of the bride's parents, Mr. and Mrs. P. D. Broadkin, the Rev. M. L. Gassaway officiating. The groom is a popular young man who hasn't done a lick of work since he got shipped in the middle of his junior year in college. He manages to dress well and keep a supply of spending money because his dad is a soft-hearted old fool who takes up his bad checks instead of letting him go to jail where he belongs.

The bride is a skinny, fast little idiot who has been kissed and hugged by every boy in town since she was twelve years old. She paints like a Sioux Indian, smokes cigarettes in secret, and drinks mean corn liquor when she is out joy-riding in her dad's car at night. She does not know how to cook, sew or keep house.

The house was newly plastered for the wedding and the exterior newly painted, thus carrying out the decorative scheme most appropriately, for the groom was also newly plastered and the bride newly painted. The groom wore a rented dinner suit over athletic underwear of imitation silk. His pants were held up by pale suspenders. His number eight patent leather shoes matched his state of tightness and harmonized nicely with the axle grease polish of his hair. In addition to his jag, he carried a pocket knife, a bunch of keys, a dun for the ring and his usual look of impetuosity.

The bride wore some kind of a white thing that left most of her legs sticking out at one end and her bony upper end sticking out at the other.

The young couple will make their home with the bride's parents—which means they will sponge on the old man until he dies and then she will take in washing.

P. S. This may be the last issue of the Tribune, but my life ambition has been to write up one wedding and tell the unvarnished truth. Now, that this is done, death can have no sting.—Robert Quillen in Fountain Inn Tribune.

Mrs. T. J. Sanders is visiting in the home of her son and family, Horace Sanders.

J. P. Smart, J. N. Williams and Emmett Smart made a business trip to Hillsboro Saturday.

Mrs. Brooks Agnold and daughter, Mary Ellen, of Fort Worth, spent the past week here with relatives. Brooks Arnold came down Saturday afternoon and accompanied his wife and daughter back to their home in Fort Worth Sunday.

Virginia Ramage spent Monday night with Dorothy Dee Hefner.

Nancy Mae Campbell visited Minnie Nachtigall Sunday afternoon.

W. D. Jones of Hico moved his barber shop from Duffau to Hico. We regret the fact that he no longer has a barber shop in Duffau, but we wish for him success in his business at the new location.

Much Activity In County Terracing Plan Now Running

County Agent C. E. Nelson was in Hico last week and reported that terracing was engaging much of the interest of Hamilton County farmers and business men at the present time.

During October Mr. Nelson visited eight schools having industrial work as a part of their program, holding terracing demonstrations at each of those schools, and he plans to visit them again during this month.

The following letter has been sent out over the county, encouraging interest in this work:

To All Hamilton County Teachers: The Commissioners, Judge P. M. Rice, and County Agent, C. E. Nelson are attempting to put over a county wide terracing program. The value of terraces are no longer questioned in this county by farm leaders. We know that more than half the farms in Hamilton County should be terraced. In order to encourage this work and to really get young people lined up to sell the terracing idea to their communities, Judge Rice is offering \$10.00 to the young man writing the best essay on terracing and the Commissioners are offering \$5.00 as a prize for the second best essay. Also Mr. E. A. Perry of the Perry National Bank will give a beautiful loving cup properly inscribed to the terracing team running the greatest number of rods of terrace lines. (Any school teaching industrial work may compete for the cup.)

1. Subject for essay—"The Advantages That Are Derived from Terracing Soil."

2. The work is open to all boys between the ages of 10 and 20 years enrolled in Rural schools of Hamilton County.

3. The essay must have not more than 500 words and not fewer than 400 words.

4. All papers must be sent to County Agent, C. E. Nelson not later than Feb. 20, 1931.

5. Prizes will be awarded during County Interscholastic meet next spring.

6. Any student taking part in the contest must do his own work. He should make statement on paper sent County Agent to that effect.

Hope you discuss this work with your students and get them interested in this important program.

HICO GIRL MEMBER OF SCHOOL ORGANIZATION

FORT WORTH, Nov. 6.—Miss Doris Sellers of Hico is a member of the Uppercettes, an organization of upperclassman girls in Jarvis Hall at Texas Christian University.

Officers of the Uppercettes who were recently elected are: Miss Eulalia Whitefield, president; Miss Bennie Sue Ratliff, vice-president; and Miss Margaret Reeder, secretary-treasurer.

Hunters Requested To Notice If They Kill Banded Ducks

(Stephenville Empire-Tribune) The United States Biological Survey has recently issued a request asking that any hunters finding bands on the legs of ducks killed will report to the nearest representative of the survey, to aid in the study of the habits of wild life.

W. F. Wilson, representative of the survey of this district, has asked that hunters of Erath county remove the bands if they kill banded ducks or geese and return them to him. He can then make his report to the federal organization. Many interesting facts are disclosed by this study. Recently a duck which had been banded in Canada was killed in Chile.

Mrs. Mary A. Holland returned last Sunday to her home in Dallas after a week's visit here with her daughter, Mrs. Roland L. Holford.

Makes Life Sweeter

Too much to eat—too rich a diet—or too much smoking. Lots of things cause sour stomach, but one thing can correct it quickly. Phillips Milk of Magnesia will alkalize the acid. Take a spoonful of this pleasant preparation, and the system is soon sweetened. Phillips is always ready to relieve distress from over-eating; to check all acidity; or neutralize nicotine. Remember this for your own comfort; for the sake of those around you. Endorsed by physicians, but be sure to get the genuine.

P. T. A. NEWS.
The Parent-Teachers Association met Tuesday afternoon at 3 o'clock in the high school auditorium. After the business hour, Miss Dorothy Ford rendered a piano number.

There were twelve members present and a few new ones enrolled. Have you joined? If not, why not? You are a citizen of Hico and should be interested in the school. We need and want every parent to be a member of this association. Don't be a slacker. Bring or send your fifty cents and you will be enrolled for the full year.

Our next meeting will be as usual, the first Tuesday in every month, which will be December 2, at 3 o'clock in the High School auditorium. Be sure and come.

ALL KINDS OF NAMES REPRESENTED AT T. C. U.

FORT WORTH.—The name "Smith" wins first place in the recently published student directory of Texas Christian University, with 18 students listing that cognomen.

"Miller" comes next with 11, and Jones, Johnson and Williams tie for third-place honors with 10 each.

The names in the directory go from "East" to "West," "Day" to "Knight," through both "Winters" and "Summers." There is a "Wood" where "Flowers" and "Chestnut" and "Beech" trees grow, three "Hills," two "Lanes," a "Lea" and a "Brooks" to be found.

A "House" has two "Kitchens," six "Halls," two "Sellers" and a "Teagarden." Six colors are also found, such as "Brown," "Black," "Lavender," "Gray," "Green" and "White." Royalty is represented by three "Kings" while two "Farmers" represent the common people. A "Hunt" and a "Hunter" are included. Two "Snows" and a "Flood" are listed.

There are 21 names beginning with the Scotch prefix "Mc" and five with the prefix "Van." Among the unusual names in the T. C. U. student body are Wasenich, Varschoyle, Riggenberg, Pfeiffer, Labovitz, Dunkelberg, Ealy, Campirano and Cahill.

Mrs. A. I. Pirtle Entertains With Hallowe'en Party.

Mrs. Irl Pirtle entertained the Friday Bridge Club October 31st with a very pretty Hallowe'en party.

The living rooms were gaily decorated with blooming pot plants, witches, goblins, owls and black cats lending the eerie atmosphere of Hallowe'en with the splendor of autumn color intermingled.

Table decorations were in black and yellow with centerpieces portraying a witch holding a broom, and standing in a mound of candy.

A delicious refreshment course, consisting of chicken salad, Saltine Flakes, olives, individual Carmel pies, hot coffee and pink baskets of nuts were served to the following: Mesdames John Lackey, Clifford Tinkle, Wallace Petty, David McCarty, Grady Barrow, T. A. Thies, J. P. Rodgers Jr., S. J. Cheek, Make Johnson, Marvin Bell, Hoard Randalls and Miss Irene Franks.

Mrs. Clifford Tinkle was high score winner as club member. High score for the guests went to Mrs. Hoard Randalls.

The club will meet Nov. 7 with Mrs. Make Johnson.

COUNTY LINE

We have been having some real pretty weather the past few days, if it will continue the farmers will soon get their cotton out.

Uncle Pully Ross, Fred Ross and W. L. Simpson were in Iredell Tuesday afternoon.

Mrs. Jim Chaney and children Miss Stella Ross and Mrs. Jim Ragsdale spent awhile Saturday afternoon in the Cole home.

Mr. and Mrs. E. Wicker and children spent Sunday afternoon with her mother, Mrs. Spinks.

Tom Griffin and wife and her father, Mr. White, and Mr. and Mrs. M. A. Cole spent Sunday afternoon in the Cole home.

Mr. and Mrs. Luther Spinks and Dewey Spinks have returned from the west.

Miss Vera Duncan spent Monday night with her aunt of Hico.

We are sorry to report Jim Ragsdale on the sick list.

Levi Greer of Personville spent Saturday night in the J. H. Ragsdale home on his way to Littlefield.

Play At Salem.

The play, "All a Mistake," which has been presented previously by the Fairy Epworth League, will be offered next Saturday night, Nov. 8, at Salem, according to announcement.

This play has been well received when presented before, and it is expected that a good crowd will be on hand at Salem Saturday night to enjoy the farce-comedy. All profits go to the League.

Glen Rose Publisher Here.

J. L. Collins, publisher of the Glen Rose Reporter, was in Hico Monday afternoon for a short time, and called at the News Review office to pay a visit.

Mr. Collins reported conditions in his Somervell County town about on a par with the rest of the country, but stated that of course things were rather quiet at the present time, the tourist and vacation periods being over.

Suffers Broken Limb.

Estaletta Giesecke, 11-year-old daughter of C. W. Giesecke of the Millerville community, last Wednesday had the misfortune of breaking her leg while playing at noon at the Millerville School.

Together with some other children, Estaletta was running on the grounds, when she tripped and fell, and another child on top of her, in some manner breaking the leg just above the knee.

She was taken to the Stephenville Sanitarium, where it was found that the break was of a

serious nature, and it will probably be some time before she can walk without the aid of crutches. This is very unfortunate, especially coming in the middle of the school term as it did. Her friends hope for Estaletta as early recovery as possible.

Preaching at Fairy.

Rev. A. S. Gafford will preach at the Fairy Methodist Church next Sunday evening at 7:30, according to announcement, and the general public has a cordial invitation to attend the service.

Rev. Gafford is pastor of the Cranfill's Gap Methodist Church, and a former pastor at Fairy, and is well known over that section.

Preaching Notice.

The Lord willing, I will fill my regular appointment next Sunday at Millerville at 11 a. m. A subject both interesting and instructive will be discussed. We hope to greet all of the brethren and friends in that section.

Cordially,
JOHN M. AITON.

TO HAUL WORLD'S FASTEST TRAIN

A HUDSON TYPE locomotive, series No. 5700, has been placed in service by the Canadian National Railways to haul the world's fastest train between Chicago and Montreal. To keep its schedule of 360 minutes for the 334 miles of this run between Montreal and Toronto, this locomotive will be required to operate frequently at a rate exceeding 80 miles per hour. This will not call for much effort as the driving wheels of this engine, the largest and speediest in Canada, are 80 inches in diameter. The locomotive with tender has an over-all length of 92 feet, 5 1/2 inches and weighs more than 331 tons. The tender will carry 20 tons of coal and 14,000 Imperial gallons of water. The boiler pressure is 275 pounds and the tractive power, without the booster, is 43,300 pounds. With the booster another 10,000 pounds is added. The design has been accomplished by the concealment of practically all the piping above the running board and the polishing of the jacket. Five of these locomotives will be placed in service before the end of October

Mrs. Beatrice Schenk Phillips.

Mrs. Beatrice Schenk Phillips was born to Mr. and Mrs. W. D. Schenk at Iredeell Sept. 2, 1905, and departed this life at Stephenville sanitarium Nov. 2, 1930, age 25 years and 2 months. She professed religion and joined the Methodist church in her girlhood and lived a consistent christian until the end. She was married to Lee Phillips Dec. 15, 1928, and to this union a son was born, Oct. 27, who preceded the mother only five days. Her death has cast a gloom of sadness over our city. She quietly passed away surrounded by loved ones.

Beatrice's life was spent here in Iredeell and was known by everyone and loved and honored by all. I have known her all my life and always considered her to be a model young lady, always had a smile and kind word for everyone. She loved very much to do kind deeds to anyone and especially to those afflicted in body or mind. She was an angel in the sick room. When anyone was in need and needed help, Beatrice was there ready to do her part. It can be said of her, "She hath done what she could." She had the sorrows of life but by the devoted christian life she had lived among us, we know where to find her. She was a graduate of the Iredeell High School. Her schoolmates no doubt will remember the happy school days with her. She will certainly be missed here by everyone.

one. She is gone but not forgotten. Her body was brought from Stephenville Saturday about noon and taken to their home which they have shared with Mr. and Mrs. J. C. Phillips since they were married. The room was decorated with beautiful pot plants and cut flowers. The lovely casket which contained the body of Beatrice was placed among the beautiful flowers. She looked so sweet and natural as if she were only asleep.

The funeral was held Sunday afternoon at the Methodist church at 3 o'clock in the presence of a vast crowd of friends and relatives. The church could not hold the vast crowd that came to pay the last respects to their dear loved one and friend, Rev. Nance and Lester had charge of the funeral. The floral offerings were large and beautiful which told of the high esteem she was held by her friends. It is hard to give one so young but God knows best and may the influence she yielded live on as the days, months and years go by. The following young ladies were flower girls: Misses Opal and Eddie B. Lawrence, Esther and Ina McElroy, Vella McIlhenny, Ona Miller and Inez Newsom. She was tenderly laid to rest by the side of her little infant son whose grave was decorated with lovely flowers also.

The out-of-town relatives and friends who attended the funeral were: Dr. and Mrs. Jim Terrell, Mrs. Ruby Phillips and son, Mr. and Mrs. W. D. Terrell, Miss Velma Mitchell and Reupert Phillips of Stephenville; Mrs. Josie Hancock and Mrs. Mollie Horton of Hico; Glen and Zelma Sutphen, Mrs. Watson Miller and W. J. Cunningham of Dallas; Earl Schenk and two daughters, Mr. and Mrs. Gray and Mr. and Mrs. Self and sons of Shamrock; Mr. and Mrs. Don Mitchell of Albany, Mr. and Mrs. Tom Mitchell of

The following young ladies were flower girls: Misses Opal and Eddie B. Lawrence, Esther and Ina McElroy, Vella McIlhenny, Ona Miller and Inez Newsom. She was tenderly laid to rest by the side of her little infant son whose grave was decorated with lovely flowers also.

The out-of-town relatives and friends who attended the funeral were: Dr. and Mrs. Jim Terrell, Mrs. Ruby Phillips and son, Mr. and Mrs. W. D. Terrell, Miss Velma Mitchell and Reupert Phillips of Stephenville; Mrs. Josie Hancock and Mrs. Mollie Horton of Hico; Glen and Zelma Sutphen, Mrs. Watson Miller and W. J. Cunningham of Dallas; Earl Schenk and two daughters, Mr. and Mrs. Gray and Mr. and Mrs. Self and sons of Shamrock; Mr. and Mrs. Don Mitchell of Albany, Mr. and Mrs. Tom Mitchell of

one. She is gone but not forgotten. Her body was brought from Stephenville Saturday about noon and taken to their home which they have shared with Mr. and Mrs. J. C. Phillips since they were married. The room was decorated with beautiful pot plants and cut flowers. The lovely casket which contained the body of Beatrice was placed among the beautiful flowers. She looked so sweet and natural as if she were only asleep.

The funeral was held Sunday afternoon at the Methodist church at 3 o'clock in the presence of a vast crowd of friends and relatives. Mayor Proclaims Next Week Time For Legion Drive

Mayor J. C. Barrow has issued a proclamation relative to the observance of next week as American Legion Week, which is published herewith for the benefit of our readers:

"Pledged to a program of usefulness and service to the community, state and nation. The American Legion today enjoys the full confidence of the American public. Ever since it has been organized the Legion has exerted its best efforts in the behalf of good citizenship and in the building for a greater and better America. The nation's defenders will always be honored for the glorious service they gave in war, but their desire to also serve in peace must command our deepest respect and admiration.

"The public has direct interest in the Legion because of the worthy activities it carries on each year. The Legion has come to be recognized as a great stabilizing influence in American life with some 10,000 posts, embracing a membership of nearly 900,000 veterans of the World War, standing ready to serve their communities in whatever capacity they may. The Legion's community service work is well known. Every year the posts throughout the United States carry on scores of different types of community welfare and civic betterment projects.

"The Legion's foremost work is caring for those who were maimed and disabled by their service in the war. Justice does not always flow automatically for the men who suffered war-incurred disabilities and the big task of the Legion has been to see that they receive all the compensation to which they are justly entitled and adequate hospital care and treatment. The Legion has likewise extended a helping hand to another class of war sufferers, the widows and orphan children of those who fought and died for their country.

"The people of this city are duly appreciative of the splendid endeavors of the American Legion, and to Legionnaires they extend every encouragement to broaden and further expand their work in the future. Since the achievements of the Legion can be measured in terms only of its membership strength, it is highly desirable that the public should cooperate with the Legion in its attempt to enroll every eligible World War Veteran into the ranks of Legion service.

"Now, therefore, I, J. C. Barrow, Mayor of the City of Hico, do hereby proclaim the week beginning November 4 and ending on Armistice Day, November 11, as American Legion Week, during which time an intensive drive will be made to enroll 1931 Legion members. I particularly ask that all citizens cooperate with the Legion to build a better and stronger organization for 1931 by urging eligible veterans to take out Legion membership during this campaign.

"In witness whereof, I have hereto set my hand and caused the seal of the City of Hico to be affixed. Done in the City of Hico this 1st day of November, 1936, in the year of our Lord, One Thousand Nine Hundred and Thirty-six.
"J. C. BARROW, Mayor."

Son Sends Pictures.
W. R. Hall this week received some pictures from his son, G. W. Hall, who lives at St. George, Utah, showing some scenes in that thriving city as well as pictures of his relatives.
Until recently Mr. Hall was in the ranch business in Utah, but sold his cattle and quit when business became dull. Later he erected a hotel building, and one of the pictures showed the nice three-story hotel of which he is manager as well as some two-story office buildings adjoining.
Another son of Mr. Hall's, McKinley, also lives at St. George, and assists his brother in the hotel.

This good citizen is the father of a large family, all of whom with the exception of one whose death occurred some time ago, have been reared to manhood and womanhood in the face of difficulties and with credit to themselves and their forbears. The success attained in the Utah city, as evidenced by the pictures sent, is pleasing to his friends as well as Mr. Hall.

Resolutions of Respect.
By Hico Lodge No. 477, A. F. & A. M., Hico, Texas.

Whereas, it has pleased our Gracious Heavenly Father to remove from our midst on November 1st, A. D., 1936, our beloved brother, W. W. Walton, to that Celestial Lodge Above whose builder will ever remain Supreme. Therefore, be it resolved that in his death, our lodge has lost a true and worthy brother, his children a kind and devoted father, our community a true loyal and tried citizen, one whom we should ever strive to emulate.

Therefore, be it further resolved that we bow our heads in humble submission to His Divine will ever believing that in the Sweet By and By we shall strike hands with our loved ones in that Supreme Lodge above where all Good Masons hope to meet.

Resolved, that these resolutions be spread, upon our minutes, a copy furnished the Hico News Review for publication.
Fraternally Submitted,
CHAS. M. HALL,
R. W. COPELAND,
JOHN A. EAKINS,
Committee.

"Pay Your Dues and Tell the News" Is a Subscribed Slogan

While putting out money for subscriptions can hardly be termed "paying dues," still we bet most of our subscribers are prompt in paying their dues of any nature as well as bills. For they are certainly on the dot when notified as to the expiration of their paper.

The fact that they tell us news at the same time makes their visits all the more appreciated.

One or two, when paying for the paper, have asked that we not mention their names in this column. In which we are glad to oblige, for we want the customers to be pleased every time, and if they don't want anything said when they pay up, "mum is the word."

MRS. WILLIE PLATT, who enjoys living in Hico, and likes to read the news in this paper, subscribed recently through the news stand and Leonard Howard very promptly brought the money to us.

MISS LOIS and GLADYS SEGREST, who are attending the North Texas State Teachers College at Denton, will read the home paper during the school term since their father, R. O. Segrest, came in and gave their address. They get their mail at 1508 W. Chestnut St. Mr. and Mrs. Segrest and Mr. and Mrs. R. W. Copeland went up to Denton Saturday, Oct. 4, to visit with their children, Miss Johnnie, being in school there, and they report a very enjoyable trip in spite of the fact that rain made the roads slippery.

S. B. RAINWATER, Route 4, Hico, will get the News Review for 15 months since Mrs. Rainwater took advantage of our special offer last month and got the paper until Jan. 1, 1937, for \$1.00.

CLINT HERRING, Route 4, was in early one Monday morning to pay up and get the paper for the coming year.

MRS. JESSIE FLOWERS, 1319 South Main Street, Fort Worth, Texas, is credited with a year's time upon the order from one of our agents.

G. P. MORRIS, Route 1, Hico, came in one Saturday not long ago to renew. He stated they were glad to see the rains, giving so much moisture to the ground, but they lived off the main road and the preceding Friday had seemed like "primitive days" when the children had to be brought to school in Hico in a wagon.

F. V. NOLAND, Route 7, was in recently to renew his subscription for another year. He also said they were having plenty of rain.

W. A. HANCOCK, city, will get the paper for another year since Mrs. Hancock renewed their subscription a week or two ago. She said they enjoyed reading the paper and thanked us for sending a notice that their time was out.

ODELL RUSSELL, Route 1, is credited with a year's time since Leonard Howard from the news stand brought in the money Monday a week ago.

MRS. JOHN PRATER, Iredell, Route 1, had her time extended recently, the money coming to us from our correspondent, Miss Stella Jones, at Iredell.

G. W. McANELLY was in the office Friday renewing his subscription and changing his address to Vernon, Texas. He left last week for that place to spend the winter with a daughter who resides there. His address will be 1130 Wilbarger St.

GEO. CAMPBELL, Route 4, decided he didn't want to be without the home paper, and sent his dollar in Friday, Oct. 31st.

A. M. BURDEN writes from Balinger, under date of Oct. 18: "Enclosed find check for another year. Don't like to miss my home paper as it gives me the rural and local news and I am much interested in knowing what is being done there. When I think of the people and that part of the State which I regard as the best, I know that for an all-around country it is the best. This is fair here. Just had 13 inches of rain in the first half of October. So keep our paper coming. A. M. BURDEN."

MRS. LEE F. NEWTON, Box 282 Wichita Falls, Texas, writes: "Please send me beginning with this week's paper, the Hico News Review for one year and statement as to how much for one year."

HERBERT COOKE, principal at the Honey Grove School, was in Saturday to subscribe for the paper for one year. Much good is being accomplished out at that school as Mr. Cooke seems to know how to work in harmony with the folks around him and secure full cooperation from both students and parents. "The Squirrel," a weekly department of this paper, tells what is happening out there.

MRS. A. F. POLNACK, JR., at 1000 Rockwood, Dallas, will get the News Review for a year since Miss Mabel Polnack subscribed for her last Saturday afternoon. They will also find some interesting reading in "The Squirrel."

J. G. BARROW writes from Spur: "Keep the good work up. I enjoy the home paper. Enclosed find check for my sub." We don't see how we could do without these good Barrows here and at various points over the State.

MRS. J. A. ANDERSON, Fairy, Texas, who has been visiting and let her subscription expire for a short time, came in Tuesday afternoon to renew and tell us why she had not been in sooner. While away Mrs. Anderson visited at South Hill, Va., Lexington, Va., Washington, D. C., and Norfolk, Va., as well as many other places. She returned home with her son in August, who makes his home at South Hill and had been here with a friend, Charley Crowder, on a visit. Mrs. Anderson came home Sunday a week ago, and reported a wonderful time on her trip. She could have told more about it, but her modesty kept her from going into detail. However, we expect a full report from her the next time she goes away.

The Lions Club in a certain Community donated ten dollars to a person, with the understanding that he would pay a debt to some one in that Community, and to pass to 99 others for the same purpose. When this ten dollars made its round it had done ONE THOUSAND DOLLARS worth of good, and was STILL AT HOME in its own Community. In times like the present EVERY DOLLAR that circulates among your HOME MERCHANTS is bringing us just that much closer to normal conditions.
