slose not harm the heart. So if you want Chiff's and SAFE rated see that you get the real Bayer article. Always look for the theyer cross on Stary tablet as illustrated.

Appropriate above that a function amangeous was open as inc. This was to instrument we should be received to the solutions of the solution was to go distributed to the propriate and and there is analy to train to one as approved and give us according additional business to see us distributed the last hap of a period about his accordy true the particles, coverage and indovenduliness of all people array where

Seeking a loss would have been abiding the responsibility — fullywing the line of least resistance — taking the easy way out All my life t have longest against odds, and I know this would be the provent time of all to reverse myself substitute retress for resistance, and secritice a splinning and against of takin.

Agripal seeking slope were two powerful arguments. For the drain on the people's money through species at up by their government, was already too heavy. Second, the half has been and preserved its identity as a pure Southwestern wall took — the pride of its employees in its independence and sail materials record has made to any service everywhere the human service is in bimode that appended morals—that interest in the public service—be excepted to want of contragance and agreement leaders by

So, I decided quickly to lay the facts fraukly before you people, and bloomly sole for your support. I had unbounded trainletons to your appointments response when you knew what our record, trainkly, what our their on you actually is —and in appeal previous announcements I elaborated on the following points:

- . The Kary has sought no loss of the people's money, through any governmental agency.
- . The Kety has unflinchingly peld texes, in-

- 2. The Kay has certified its individual Southwestern identity, free from mergets and outside domination that would destroy its singionsse of purpose and service.
- 4. The Katy has actually improved its service. facilities and equipment through the darkest days of this depression, confident of the future of our country and the future of the great fourthwest to particular.

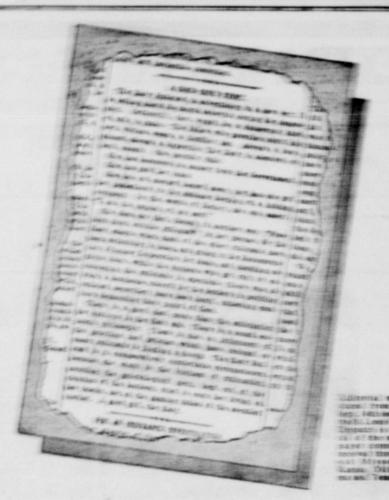

Immediately after the first advectisement appeared, I re-ceived counties communications calling the effort a "boild attobe," a "during departure." These expressions were a surprise to me—were perhaps anopized by the fact that such featuress with the public had seldon been ventured before.

Nevertheless, your response has been amazing, even to me Your relegation, letters and other communications - the added volume and number of shipments you are corrusting to us, the splendid way to which you have been patronizing our passenger trains—are a source of granification and inapiration to everybody on the Katy.

How can I check you for what you are doing? I cannot find adequate words. Perhaps you will get some conception of the grantinde that is in the hearts of myself and all Katy folk when I say that the demonstration you are giving is flaming testimony that a people in whom unselfish response, courage and wholesome Americanism burns so brightly, cannot much longer be held back by the bonds of economic depression. omic depression.

People of Texas—may I count on your continued and daily support? The battle is not yet over and softness and wavering on the highroad are both human and dangerous. I have full confidence that a people capable of such a response as you have already made cannot know what turning back means.

BETTER LIGHT , BETTER SIGHT

Check Your Children's Eyesight by the 14-Inch Rule

7 ATCH your children while they read or study in the evening. If they hold their books closer than fourteen inches from their eyes, it is a danger sign, a warning that vision is hampered.

The reason is obvious. Ordinary type is designed to be read at a distance of fourteen inches, the normal reading distance. When light is inadequate, however, it becomes more difficult to see clearly at this distance. The tendency of the reader, therefore, is to compensate for the deficiency by bringing the book closer to his eyes. A bad habit results. Nearsightedness may develop . . . or the eyes may otherwise be permanently injured.

The remedy is better lighting . . . an increase in illumination that will enable children to read at normal distance without strain. Such an improvement costs but a few pennies per month . . . and may save may dollars in optician's bills. Let us help you with your lighting problems.

Buy Lamps in Cartons . . . Save 10%

Save money on the lamps you need to fill those empty sockets. During November, we are offering a 10% discount on cartons of six. The reduced price applies to all sizes and styles, except Type D lamps. Just phone and we'll deliver.

wanted their liquor; so far as the records go they were as sober as only way they could get their grain were railroads and canals, or even and they were afraid a tax on whiskey would cut down the price of grain and reduce its consump-

Ever since Washington's administration the Government has had a farm problem and a liquor problem on its hands, neither of them ever settled satisfactorily; and the whiskey distilling business has continued to be centered along the Ohio River and its tributaries.

About Liquor Taxes As to the present whiskey prob-

lems, first, there doesn't seem to be a chance that the present tax on alcohol diverted for beverage purposes will be continued. That tax was \$1.10 a gallon. Under that tax was \$1.10 a gallon, nder that tax rate, even with half the states officially "dry" the revenue to the Federal Government ran to up ward of \$150,000,000 a year. sides the tax on whiskey produced there were Federal license fees, chen in Childress this summer, and heavy ones, for distillers, half of which went to charity as Our school is progressing nicely, wholesalers and retailers. Every-This is the week for our monthly one who sold liquor, whether legexaminations and we are hoping ally or illegally, had a Federal liwe will make high grades on each cense which cost \$25 a year. They might violate state laws with im-Mr. and Mrs. Jess Douglas and punity, but they were in wholesale amily visited in Hamilton Sunday, terror of Uncle Sam's "revenuers" Miss Oran Jo Poole attended a who were not concerned with Hallowe'en entertainment at Hico whether liquor sales were legal or not, but with collecting the money for the licenses.

The objection to the high tax is Modern chemistry has made it posof Old Hico and Curtis Gossett of sible to produce the effects of "aging in the wood' in a few hours. Licorice, prune juice, caramel and more boys on the same plan. other substances provide the color which genuine old whiskey acquires only from several years in whiskey that would make it profsocial at the Sunshine school on itable to manufacture it from in-Tuesday evening, October 31st. We dustrial alcohol, which is mainly such feed saver built with the help were very glad to have visitors distilled from molasses, and "boot-Honey Grove and Gum of much of the expected revenue, as well as depriving the growers of rye, barley and corn, of the cluding Willard Williamson. Guy but also would call for as large a whiskey market for their products, policing force as was ever in use for the enforcement of Prohibition.

And Smugglers Too

The same logic applies to the question of the tariff on imported liquor. The effort it to try to fix it enough higher than the domestic tax to protect the American distillers, but not high enough to enbrough the ghost's den, where the courage smuggling. England has witches and goblins were harbored never had prohibition, but the to the United States from England, Scotland, Ireland and Canthey do now-if the tax is high Davis at New Review office. enough to make it worth while to continue their operations. So the Coast Guard has got an appropriaon of \$125,000,000 for new highspeed revenue cutters with which o catch smugglers, and a commission financed by Mr. John D domestic and imported liquors.

Undoubtedly many states will remain dry under their old prohibition statutes. Will the old Webb-Kenyon law, making it illegal to North Cohocton, N. Y. ship liquor into those dry states, continued, amended or repeal NOTICE We are in the market debate on that when Congress & Son. meets again in January.

As for the purity of old-timers here remember when judge of whiskey, took the matter dan. into his own hands and forced the setting up of regulations under the Department of Agriculture, rehings which happen to be occur- so labelled. If that rule still holds, pying the public's attention at the practically all whiskey publicly ofoment, the situation which is fered after repeal will have to be apidly developing as state after labelled "blended" for there is not state records it ratification of the a third enough "straight" whiskey repeal amendment would make to supply the expected demand. first-page headlines in all the and it will have to be stretched by newspapers.
