

Local Happenings

Wren visited friends in Worth Sunday. Mrs. H. N. Wolfe and children at the week end Waco with relatives. W. Everett spent the first of week in Waco visiting Mr. and Mrs. W. I. Chenault and son.

PALACE

Friday—William Powell in "RENDEZVOUS" COMEDY. T. MAT. & NITE—Arli Brisson and Arline Judge in "SHIP CAFE" Plus a Good Comedy.

EXTRA SPECIALS - At - PORTER'S Drug Store

- Nydenta Tooth Paste, with fountain pen and pencil set, \$1.00 value for 49c. Full Pint Rubbing Alcohol for 25c. Creomulsion, \$1.25 large size for \$1.00.

WHEN YOU COME TO TOWN ON TRADES DAY, COME AND SEE DISPLAYED GIFTS FOR EVERY OCCASION Porter's Drug Store HICO, TEX.

THE FAIRIES

Editor-in-Chief, Ovie Parks. Assistant Editor, Essie Mae Duncan. Sport Editors, Ethridge Williamson and Odum Russell. Faculty Sponsor, Neoma Stringer. Comic Editor, Carroll Akin.

Dry Fork

We are having some cold misty weather. Mr. and Mrs. John Guesse and family of near Sunshine and Rev. Harris, pastor of the First Baptist Church at Olin visited Sunday in the home of Mr. and Mrs. Fred Gordon and family.

Youth Administration

A Most Useful One Austin, Jan. 29.—"Old enough to earn a living and young enough to be enthusiastic about it." This described 3,182 Texas youngsters who are now working on projects set up by the National Youth Administration in Texas.

CHURCH OF CHRIST Regular services at the Church of Christ Sunday morning and evening. Bro. Stanley Giesche will do the preaching.

Senior News

The Seniors are studying hard for our mid-term test, which will be given the last three days of next week. There was a class meeting Friday, to elect a girl for the Senior day to be a contestant in winning a paid trip to Washington.

Who's Who In The Senior Class

Ruby Davis, the president, is the tall girl we now see. We think that Ruby is wonderful. If ever in need of a friend and helper, don't fail to call on her.

Junior News

We are studying for mid-term test. Some of the Juniors made some fine grades on Geometry and Civics last week on Six Weeks' Test.

Freshman News

Last week we took our six-weeks test in Algebra, but we are going to take it over to day as these are the only ones that passed.

Sophomores

We are studying for our mid-term test, which will be the last of this week. "Can You Imagine" Junior studying his history lesson.

WE WONDER

Why Katy Lea is so blue. Who Wilma saw in Hamilton. Where Juanita went Saturday night.

AS WE SEE IT

Joe Betts is the little boy with the blue eyes and slow, lazy smile. Don't let his smile make you think he is lazy!

THE WISEMAN STUDIO

So we need something to cheer them when six weeks tests come. Lucille Herricks or "Little Mule" is a great kid! Say, if you are in need of a friend, I'll advise you to look Lucille up.

Fifth and Sixth Grade News

A few were exempt from the mid-term examinations, but for most of us this week will be a very busy one. So far this year we have lost five students and gained five.

Sport News

Last Saturday morning, January 25, the girls' basketball team left Friday about 8 o'clock in the Bill Shepherd school bus to play in the Hamilton County Tournament.

come, especially the parents and see how our school work is progressing. Chapel. The first and second grades entertained in chapel Friday which was very enjoyable.

Visitors

We are very glad to have Lester Betts and George Mount of Stephenville visit us today. We invite these gentlemen back any time.

Nonsense

Mr. Allison: "Pee Wee, if you make a straight 'A' card this time, I'll give you a clean, bright, shiny, new dime." Pee Wee: "I'd rather have a dirty, rusty old quarter."

To Preach Saturday

I announced I would preach on the streets of Iredell Saturday, Jan. 25, but the weather was such I didn't meet the announcement.

WE WONDER

Why Katy Lea is so blue. Who Wilma saw in Hamilton. Where Juanita went Saturday night.

AS WE SEE IT

Joe Betts is the little boy with the blue eyes and slow, lazy smile. Don't let his smile make you think he is lazy!

CARD OF THANKS We wish to express our heartfelt thanks to our friends and neighbors for their kindness and sympathy during the illness and death of our husband and father. MRS. W. O. HOLTON AND CHILDREN. 36-1P

DOCTORS KNOW

Mothers read this: THREE STEPS TO RELIEVING CONSTIPATION. A cleansing dose today; a smaller quantity tomorrow; less each time, until bowels need no help at all.

### RESEARCH FINDS WAY TO KEEP PARASITES OUT OF FARM PROFITS

"Feeding worms and other parasites is almost as big an industry today as feeding livestock and poultry," says E. B. Powell, manager of the Purina Research Farm at Gray Summit, Mo. "But it's a mighty unprofitable business for the man who does the feeding! Every year a fortune is literally eaten up by intestinal worms, lice, mites, flies, and similar parasites. These are the things which cause immense loss of life, slow growth, unthrifty gains, and low production in flocks and herds. This is a needless waste."

According to Powell, much of the money that now goes to parasites can easily be turned into clear profits for the farmers of this country. It is for this reason that years of research have been devoted by the Purina Laboratories to work out a farm sanitation program that will put a halt to the annual raid of parasites. The outcome has been the development of a line of sanitation products available at any store where Checkerboard feeds are sold. Through them every American farmer has the means of preventing costly livestock and poultry diseases. This research and its resultant development of disease preventive products give added support to the old adage, "an ounce of prevention is worth a pound of cure."

### Dairy Expert Says Nature's Way Best in Growing Heifers

Once again there is an unusual amount of interest in growing out heifer calves. This has been brought about primarily through the higher prices dairy cows are bringing. As is usually the case when dairy farmers find it cheaper to raise heifer calves than to buy cows, the question arises as to which is the best way to grow them out.

"Many dairymen give their heifer calves a good start," says W. R. Arends, of the Dairy Department of the Purina Mills, "then, thinking that a good start will carry them through, turn them out to rustle for themselves. They are allowed to drift along until it is thought they are old enough to breed. After being bred, they are again turned on pasture, and are not given extra feed and care until possibly a month or so before freshening. The result is an undeveloped heifer at freshening time and, naturally, a great portion of her milking ration the next year or two is used to continue the growth which she should have made before she first calved. Sometimes, it's as late as the third calf before this heifer is fully developed and grown out into a profitable cow."

"The ultimate aim of any dairy farmer growing out heifers," says Arends, "should be to grow them and develop them fully before freshening time. This, of course, is the most economical way to do it. Nature is not going to cheat them out of their growth. They either grow before or they continue to grow after freshening, when they should be giving all of their efforts to turning feed into milk. Whenever first-calf heifers have to use part of the milk-making feed for growth and development, they materially cut down a dairymen's opportunity to make money on them through first lactation period."

"Experiments run at the Purina Research Farm at Gray Summit, Mo., show that heifers can be grown out and fully developed and brought into production from two to three months earlier than the normal for the breed and because they are fully grown and fully developed, they make profitable heifers in their first lactation period. The program followed and recommended at the Purina Farm not only gives the calves a good start, but keeps them coming and growing until they are fully developed, at which time they are brought into the milking barn as full-grown cows."

A recent bulletin, compiled by Purina Mills, tells of the plan worked out by the Purina Research Farm for developing calves into profitable first-calf heifers. It's obtainable by writing to the Dairy Dept., Purina Mills, St. Louis, Mo., or at any store where Checkerboard feeds are sold.

### Hens in Winter Quarters Need Special Care

"Hens should have a comfortable house to live in," says C. S. Johnson, Manager of the Poultry Department of the Purina Mills. "This doesn't mean expensive quarters but a place that is clean, dry, well insulated, free from drafts, and well ventilated."

"In accomplishing these features the first important step is cleanliness and sanitation. The house should be scrubbed and disinfected regularly with a Cre-so-fec solution at the rate of one pint to six gallons of water. To avoid crowding, at least 3 1/2 to 4 square feet of floor space should be allowed per bird. Plenty of ventilation, too, is important because in a 24-hour period 200 hens will throw off 28 quarts of water in the air they breathe out, and through their droppings.

"Roosts," Johnson says, "should be 12 to 14 inches apart, allowing 6 to 9 inches space per bird, with the perch poles running from the rear of the house toward the front, not from side to side. It is best to provide dropping boards, using poultry wire under the roosts and over the top of the boards for proper sanitation. A nest for each 5 to 8 birds is recommended. If space permits, Nests for light breeds should be 12x12 inches and for heavy breeds 14x14 inches. "A good clean litter is essential. Wheat straw, oat straw, wood shavings, or peat moss will serve the purpose. When necessary, the litter should be changed and the floor thoroughly cleaned. The house itself should be dry at all times and everything kept clean and sanitary both inside and outside the house."

"The care of the flock during these months of confinement is just as important as keeping the house in shape for the flock," says Johnson. "The owner should cull his laying stock as early in the fall as possible, replacing them with pullets. Doing this will insure a steady year-round supply of eggs."

**Worming is Easy.**  
"If the birds show symptoms of worms, they should be wormed before going into winter quarters, and as often after as indicated. Worming is made easy by the use of Roundworm Tetsules to get rid of large round worms and Tapeworm Kernels to prevent damage from tapeworms. Both of these products were developed in the Purina Research Laboratories."

Making sure that the layers get in their feed the elements needed for health and egg production, is more good common sense than counts for a lot in keeping chickens on a profitable basis during the winter months, according to Johnson.

**Hens Need Vitamin A.**  
"Hens need a lot of Vitamin A for their bodies and to put into the eggs they lay," he says. "The faster a hen lays, the more she draws on the Vitamin A reserve in her own body. Finally, the reserve is used up and unless it is replenished the hen goes to pieces. That's why hen mortality has increased at such an alarming rate the last few years. It is a known fact that hen mortality runs from 27% to 35% in many parts of the country and in some congested areas goes as high as 55.5%."

"Poultrymen everywhere know that hens literally 'lay their heads off' during the spring months and yet keep in good health. They do not go to pieces. One of the big reasons is the abundance of young, tender, green feed which tones them up and puts them in radiant health. There's an 'elusive something' in fresh, young, tender, green feed that does wonders for hens. That's why poultrymen year ago began feeding sprouted oats to hens during the long winter months. But sprouted oats were unsatisfactory as few poultrymen would bother with them. A more practical way had to be discovered."

**Purafene New Discovery**  
"After years of research, scientists have found a way to capture this goodness and put it into a bag to feed. They have found a way to extract and refine it into Purafene, the new ingredient that is now being used in Purina poultry mixes. Enough Purafene is mixed in each bag to step up its Vitamin A activity 2 1/2 times. This gives hens sufficient Vitamin A to let them lay all winter like they do in spring and keep in springtime health."

### YOUR DOG COUNTS ON YOU TO KEEP THE PESTS AWAY

"Your dog—he's a trusting companion, a willing helper, a best friend. His life is in your hands and he looks to you to take care of him—to furnish the things so necessary for his health and comfort. He can't tell you with words what he wants," says A. H. Leonard of the Purina Dog Department, "but trusts you to provide protection against disease and parasites, which so frequently make a dog's life everything but the term implies."

Some of the things Leonard calls attention to are keeping the dog free from fleas and worms and keeping his living quarters clean. He advises the disinfecting of living quarters with Cre-so-fec to kill disease germs, fleas, and worm eggs. For controlling roundworms and hookworms, he advises treatment with Roundworm Tetsules. Dusting with a high grade of flea powder, he advises, kills the flea on the dog's body. Cre-so-fec, Roundworm Tetsules, and high grade flea powder are kept at every store, mall and elevator where Checkerboard feeds are sold. They help to provide dog health and dog comfort.

## News Of The World Told In Pictures. "Circus of Science" to Tour America

Artist's conception, drawn from photographs, of the General Motors Parade of Progress on the road. The traveling "world's fair on wheels" will bring to American communities the contributions of industry to human welfare. The giant streamlined buses are joined together on location to form continuous exhibition halls, and are built as large as practicable for present-day roads. When under way, with the vehicles spaced 200 feet apart for safety, the caravan is two miles long.

#### "Thanks, Doing Nicely"

#### Mrs. Schall in Race

WASHINGTON... Mrs. Thomas D. Schall, widow of the late blind Senator from Minnesota, announces that she will be a candidate for the U. S. Senate seat vacated through the death of her husband, and for which Gov. Olson has also announced himself a candidate.

#### Lone Flying Priest

TORONTO, Can... Rev. Father J. M. Coulure (above), Canada's sole "flying priest," came out of the Northland to plan for a larger and a "closed" plane with which to service his 200,000 square mile parish. Injuries to his knees several years ago caused him to give up canoe and dog-team travel.

#### Three-Time Champion

NEW YORK... When Howard Hughes (above), 33, set his plane down here in 1931, hours from California, he was rating himself "tops" in three different fields of effort. Young Hughes made a fortune in oil, then in movie production and now the air.

#### Giants' New Prexy

NEW YORK... H. C. Stoneham (above), 35, now President of the N. Y. Giants, National League baseball team, is the youngest president in major league history. He succeeds his father, the late Charles Stoneham.

#### World's Greatest City Takes 10-Inch Snowball on Chin

NEW YORK... The world's greatest city awakened from its mid-winter dream of a mild, mild winter to start wrestling with the year's record snow fall of 10 inches and a 100-mile-an-hour gale. Traffic was in a snarl and 42nd street and Broadway shops (upper photo) might have done a good business in skis, if they'd had any skis. Lower photo shows one of "the city's finest" helping a lady.

#### First Air Lines "Czar"

CHICAGO... Col. Edgar S. Gorrell (above), former army aviator, is the new and the first "Czar" of commercial aviation. He was elected by the recently organized Air Transport Ass'n. His job is to coordinate the commercial lines.

#### "Boots and Saddle" Girl

SAN FRANCISCO... Miss Anne Anderson (above), aunt of Helen Wills Moody, tennis star, is longing for her boots and saddle. She is here from her cattle ranch at the headwaters of Mad River where she rides the range, with six shepherd dogs as companions, 10 months each year. "Few women are fitted to be in the cattle business," she says.

#### Ben-neh's Bride

NEW YORK... Eddy Leonard, undefeated former lightweight champion, has at last taken the "KO" from cupid and above is a photo of his new bride, the former Jacqueline Stern.

#### Wins "Met" Contract

NEW YORK... Joseph Benton, 33, American tenor from Oklahoma, won high praise in his Metropolitan Opera debut, a performance which won him a year's contract, having

#### Wife and Son of the Doomed Hauptmann

TRENTON, N. J... Mrs. Emma Hauptmann (above), was so over-joyed when she learned that her husband Bruno had received a 50-day reprieve from death for the slaying of the Lindbergh baby, that she agreed to pass the 50-day reprieve to the world.

### Tent Show Portrays American Progress

The General Motors Parade of Progress, which is traveling more than 20,000 miles this year, is pictured above on location. Giant streamlined exhibit trucks are joined together to form exhibition halls which lead into the "big top." The "world's fair on wheels" will portray to hundreds of communities all over the country the great contributions made by industry to human comfort and happiness.
