

The Hico News Review

HICO, TEXAS, FRIDAY, JUNE 4, 1937.

NUMBER 2

Here In HICO

No institution in a town gives away as much of its commodity as a newspaper. We make this statement with the assurance that comes from years of observance and reflection. Not alone this newspaper, but every paper that comes to our desk. Some give more, some less, than the News Review. But we firmly believe this publication's contribution to the welfare of the town as a whole and of individuals composing it is above the average.

Despite steady and earnest efforts put forth in this direction, someone is always finding fault with the News Review for having failed to promote some certain affair in the proper manner—or insinuating that an item which certainly belongs in the category of legitimate revenue, chargeable at regular rates, should have been contributed without any charge.

This condition, we believe, results from the lack of either proper understanding, broad-mindedness or a palatable breakfast. The latter often causes people, not alone you and me, but me and us, to be hasty in our judgments and opinions.

In the meantime, the News Review intends to go right on down the middle of the road, endeavoring to charge for and collect any item properly classed as advertising; contributing freely of its space and services to any worthy cause; going just a little further toward promoting Hico's interests than any other single institution of the town seems willing to go.

The publisher of a chain of newspapers in the North is reputed to have had printed and framed for hanging in all the offices of his chain, convenient to the gaze of his many editors, the following statement: "What people want put in the paper is advertising; what they want kept out of the paper is news."

Friends here in the home town of Jack Vickrey will be interested in a letter received this week from Chairman C. V. Terrell of the Railroad Commission of Texas, addressed to the editor of the News Review. Similar letters, we are sure, were sent to others who had written relative to Jack's welfare.

Mr. Terrell wrote: "Because of your interest in Mr. Jack Vickrey you will be pleased to know that we have appointed him to a part-time position in the Oil and Gas Division of this Commission. We are glad to be able to help him in getting the education and we believe that he will reward the confidence we have in him with loyal and efficient service."

Thanks, Mr. Terrell. Knowing Jack as we do, you can assure you that your confidence has not been misplaced. He has decided to accept the position offered him.

Jack, by the way, has been called upon to make decisions that call for mature judgment beyond that calculated to be possessed by a young man of his years. His athletic prowess has put him in line for a great many propositions, some of which offer entertainments and advantages which might appeal to youth more than dull, hard drudgery attached to most positions in the business world. Other offers involve expense-paid tours to various points, educational and unusual in their opportunities, which it is difficult to refuse.

The decision is yours, Jack. Whatever you do and wherever you go, we know that you do so only after consideration. Though making up your mind may seem hard, don't worry too much about it. Your past behavior and record indicate that you'll not do anything foolish, and personally we do not feel capable of segregating folly from good judgment.

The bane of a newspaper's existence is the constant threat of errors in the columns of his paper. Not alone typographical errors, but mistakes caused from misinformation or a tongue-tied typewriter can cause untold grief.

The News Review has had its share of these occurrences, although we keep a constant vigil on the things that go into print, but not quite so many as some other publications within our knowledge.

No one can sufficiently explain the mistakes that are prevalent in print, for they are tricky and defy explanation, even though some editors try hard just as did the staff and stately New York Herald-Tribune in a recent issue, as follows:

"Error: A statement was printed Wednesday that Paul Willett, president of the Oxford University Press, was visiting the United States, would be guest of honor at a reception to be held this afternoon at the English Book Shop celebrating the opening of an exhibit of Oxford Press books. It has been learned since that, first, the name is Paul Willert; second, he lives in the United States and is, therefore, not a visitor; third, he is not president of the Oxford Press, but vice-president and manager of the New York office, and fourth, he will not be guest of honor this afternoon, nor will he be at the reception, as he is in Boston."

Local Party Enjoys Trip Over Erosion Project Near Dublin

Responding to invitation from Dublin Development Club and officials of the Soil Conservation Service, headed by Roy H. Gough, now engaged on the Green Creek Project near Dublin, a party composed of nine members from Hico went to the watershed last Friday and spent the day inspecting the work being done there, hearing an explanation of the plans in the work and noting the astounding progress made along soil conservation lines. Composing the Hico party were S. J. Cheek, secretary of the Hico Chamber of Commerce, D. F. McCarty, L. A. Powledge, C. L. Woodward, F. S. Crawford, G. C. Kelsey, W. L. McDowell, J. W. Richburg and R. L. Holford.

Immediately upon arrival at Dublin the local party, together with parties from Rising Star and Brownwood were received by project officials at the offices, and examined the charts and specimens of soil therein for a few minutes until invited to board three large trucks which had been especially fitted for conducting similar parties on tours over the area. In each conveyance was a representative of the government service, familiar with the project since its inception, who explained in detail throughout the tour the work being done, pointing out the results so far and setting out the ultimate plans.

There are 3,000 acres in the watershed, extending over an area twelve miles long and eight miles wide. Seventy per cent of the acreage and sixty-five per cent of the farms in this watershed are under agreement, according to the government estimate. Approximately 28 per cent of the cultivated land in the Green Creek Project area had been abandoned from cultivation, due to wind and water erosion, before 1935. Under cooperative agreement between the farmers and the Soil Conservation Service, 18 per cent of the land remaining in cultivation has been removed from cultivation since that time. Since 1910, population in this watershed has decreased approximately 33 per cent. At least 20 times as much plant food, it is stated, is destroyed by erosion as is used by crops in growth.

Throughout the trip, which started in a northeasterly direction and touched a great percentage of the farms composing the area, brief stops were made at individual farms where work has been in progress, and explanation made of the type of work being carried on, its purpose, and the results of same.

The work is divided into three classifications, as follows: General—Reorganized use of land including retirement of steep or submarginal land, land needed for permanent waterways, and land needed for pasture or woodlands, rearrangement of field fences to conform to reorganized land in use; roads rearranged to the contour.

Cropland—Crop rotations including soil building crops and cover crops; contour strip cropping; contour tillage; terracing where necessary; control of terrace outlet water.

Pasture Land—Controlled and mixed grazing; brush and weed control; re-vegetation by sodding and seeding; contour ridging, contour furrowing and contour listing; gully control by diverting runoff water, plow sloping and sodding; stock tanks and reservoirs with adequate spillways.

Examples of this work in its various forms were shown at individual stops along the route, and the party given a very clear view of what was being done in this badly-eroded section of the State toward reclaiming land once productive.

At noon the party stopped at a country church, where an excellent lunch had been prepared by the Dublin Development Club. A welcome was extended by "Uncle Buck" Hallmark of Dublin, by Mr. Gough, and others from Dublin and connected with the Soil Erosion Control Service. The afternoon inspection continued through another part of the watershed, winding up at the Hughes Dairy, where refreshments were served and the trippers invited to inspect the fine dairy herd of which Mr. Hughes is so proud.

An invitation is extended all interested parties to make a similar trip of inspection whenever convenient, preferably in the near future, and the promise made that they will be shown something out of the ordinary to repay them for their time.

Raymond McCarty and daughter, Sylvia Ray, of Dallas, were through here Monday for a short visit with their parents, Mr. and Mrs. D. F. McCarty. Sylvia Ray remained here while her father went on to Abilene for a business trip.

Come one! Come all!—Town Wide DOLLAR DAYS

WEDNESDAY, JUNE 9

Time for another big Trades Day has rolled around, and next Wednesday is expected to be a banner day in Hico. The customary party will be held at 4 o'clock, and in addition many special bargains are advertised for the day. Hico merchants are determined to serve you.

Here's a tip—when you come in to trade, ask your merchant about specials for Trades Day. Some of them are rather bashful about putting out prices, but nevertheless meet competition, beat neighboring town prices and make it to your advantage to trade in Hico. Better still, look over this issue of the paper and trade with those merchants who are promoting your interests, along with those of the rest of the community, by advertising their wares and services.

Hico is taking on new pep, having recently witnessed a real start on the street paving program, and if the asphalt hurts your feet, go into the stores and sit down—make yourselves at home—be comfortable—and save money by shopping in Hico.

BE SURE TO COME TO HICO WEDNESDAY—OR JUST ANY OTHER DAY!

LOCAL REPRESENTATIVE IN AUSTIN FOR SPECIAL SESSION OF THE LEGISLATURE

Writing from Austin, where he has gone for the special session of the State Legislature, Representative Earl Huddleston states that he regrets, as he has said before, that a special session was necessary, so he is taking the position that the Legislature should act on the Horse Race Bill which was submitted by the governor as soon as possible.

"It looks now," said Mr. Huddleston in the letter which was written Monday, June 1, "like the House will pass this bill out today, and I hope the Senate will at least act on the bill and relieve the people of further extra expense. I do not know whether the governor will submit any other subject at this session or not, but I do know that I am in favor of attending to business of the people just as quickly as possible and returning home."

NEW GRAMMAR SCHOOL TO BE ERRECTED AT IREDELL

Work on a new grammar school building for Ireddell will start next week, and Ross Construction Company of Gorman has been awarded the contract. Acme Brick Company of Elgin, Texas, will furnish the bricks for the structure.

The cost of the one-story building will amount to around \$22,000, and the front will cover 136 feet. It will consist of ten rooms with office, showers, dressing rooms, janitor's room, etc. It will be erected by the high school building which is only a few years old.

Jerry Phillips, superintendent, and W. C. Perry, principal of grammar school, have been re-elected for another year.

The building will be completed by the time school starts in the Fall.

FIRST BAPTIST CHURCH

E. E. Dawson, Pastor
Sunday morning the pastor will speak on "Come, Thou Fount of Every Blessing," and at night, "On Christ the Solid Rock I Stand."
Morning 11:00, evening 8:00.
Sunday School 10:00 A. M.
B. Y. P. U. 7:00 P. M.
Come thou with us and we will do thee good. Always a welcome.

LOSS OF ANOTHER GAME TURNS BASEBALL FANS' EYES UPON SECOND HALF

Failing to stage the necessary come-back which might place them toward the top in the first half of the Hamilton County Baseball Series, local players and fans are marking time until the opening of the second half when they hope to start out with a winning streak and forget to fall off.

In Sunday's game here with Indian Gap, a fair crowd witnessed the defeat of the Hico aggregation with a score of 5 to 3.

The box score follows:

INDIAN GAP				
Player	Ab	R	H	E
Hein, p	4	2	1	0
McCarty, cf	5	0	2	0
Griffith, c	5	2	2	0
Martin, 2b	5	1	1	1
Dunn, 1b	4	0	0	1
Konkle, lf	4	1	2	0
Burton, ss	4	0	1	0
Henson, 3b	4	0	0	1
Henson, 2b	4	0	0	1
Roberts, rf	4	0	1	0
	39	6	10	3

Aleman	8	1	7	.125

Next Sunday's Games
Hico at Energy.
Shiva at Indian Gap.
Pottsville at Shiva.

Notes From Office Of Hamilton Co. Home Dem. Agent

Hints On Tomato Production.

Experiment station results indicate that cracking of tomatoes can be largely prevented by:

1. Not watering tomato plants after ripening begins.
2. Harvesting fruits as soon as the color begins to turn.
3. Not pruning the plants.
4. Shading plants or fruits when practicable.

Picking the fruits as soon as they start to turn red will help, but naturally this decreases somewhat the quality of tomatoes.

Fruiting season of tomatoes can usually be prolonged considerably by mulching heavily with straw, hay, or other material. But wait till the plants have gotten a good start.

While it is usually thought desirable to stake and prune the first or early crop of tomatoes, best results from late summer and fall crops are secured when plants are neither staked or pruned but allowed to grow as they will. Some what smaller individual fruits usually result when grown thus, but pounds of fruit per plant is equally great if not greater.

One practice that I cannot recommend too strongly is that all gardeners keep a few rows fixed up and ready to plant ahead of time. Unless this is done, one will frequently have to wait too long after rains to make plantings.

Gives Story of Work.

"As we continue our club work, we feel more and more that the Extension Service is sponsoring a great work and help for our rural section," stated Mrs. Hubert Viertel, of the Goat Valley Home Demonstration Club.

She enjoys club work and feels that it has helped her to be more efficient in the necessities of everyday life. She has been using information found in Extension Service bulletins and finds them very effective.

As clothing demonstration for her club she has conducted an all day program on the cutting and fitting of different kinds of sleeves and collar from the foundation pattern. She has constructed and used six different variations of sleeve patterns for herself. Another thing she has learned is to more closely observe magazine and newspaper pattern designs, and determine good and bad points in them.

She has put on file sheets from magazines that contain odd sleeves, collars, pockets, and belt fasteners. These designs are handy for future reference. They add a note of style to the simplest dress.

She built a clothes closet in her bedroom last year. This year she added to it three shelves across one end for folded garments, two hat stands, and one shoe rack. She built a clothes closet in her back room this year. It is 26 inches deep, 7 feet high and 6 feet long. It has 4 shelves for folded garments and a box for laundry. She has studied the bulletin on the care of clothing and proper storage. She has tried to stress the importance of these to the club. "I feel that we cannot have too much storage room. After studying these subjects we feel that we are prepared to do better club work in the future than in the past," ended Mrs. Viertel.

How Clothing Demonstration Has Helped.

"In my work this year I have learned to make different types of sleeves using the foundation pattern and I have made eight dresses, two blouses, a skirt, two slips and three pair of pajamas," reported Miss Lillian Glover clothing demonstrator of the Tonkawa club.

Miss Glover included in her report that she had also learned about clothes suitable for different types of persons and much useful information on care and storage of clothing.

She attended the pattern school on types of sleeves and necklines and learned to make five types of sleeves. She has used the bell and leg-mutton sleeves in dresses for her mother and sister. They have taken up the study of sleeves and necklines in our club, and different persons, color and styles showing dresses becoming to the wearer and those that were not. This was very instructive as the good and bad points of the dresses were discussed openly thus giving each lady clearer conception as to the style and color more suitable to her individual type.

They have received and used helpful instruction on Care of clothing were given methods of cleaning and removing spots from different fabrics.

Although she has not added to her closet equipment, she plans to follow the instructions given and make some hat stands.

Good Luck Fishing.

I. J. Teague, Roy Welborn and sons, Owen and Odell spent Wednesday night on the Bosque River between Meridian and Clifton, and came back Thursday morning with thirty-three pounds of fish.

Each fish weighed from one to three and one-half pounds, and consisted of cat and other kinds.

Keeping Up With TEXAS

There were 14,416 families and single persons getting direct relief in Texas in January. Hopkins Progress Administrator Works revealed Tuesday. This does not include persons on work relief or those receiving the special forms of assistance, such as aid to the blind, etc.

The only living girl quadruplets in the world graduated from Baylor University Monday. They are the Key Sisters—Mary, Mona, Roberta and Leota—daughters of Mr. and Mrs. Klake Keys of Hollis, Oklahoma.

A total of \$1,079,910 has been raised in the expansion drive of Southern Methodist University at Dallas. It was reported to the board of trustees Tuesday by Dr. R. Q. Smith. The total, raised since the drive was launched December 1, 1935, included the \$400,000 Fondren library gift and the \$83,000 from the Rose Bowl game. The board adopted a budget of \$823,981 for 1937-38, an increase of \$747,886 over the 1936-37 budget.

San Antonio's seven-inch deluge of rain caused \$15,000 damage to the city's streets. Commissioner Paul Steffler announced Tuesday. Meanwhile, crews which went on a rampage during the torrential downpour subsided within their banks.

Frank D. Adams, druggist of Atlanta, Texas, Tuesday faced charges of negligent homicide, filed by Cass County Attorney Parks McMichael, in connection with the filling of a prescription that Friday caused the death of 8-month-old Joan Burnham. The child, daughter of Mr. and Mrs. Jack Burnham of Atlanta, died in convulsions shortly after she had been given a prescribed dose of a medicine Adams is alleged to have prepared. Investigation revealed the tiny girl had been administered sodium nitrate instead of sodium citrate as the doctor had written. McMichael said the case would be given to the grand jury during the week of June 7 in the district court at Linden. The specific charge, he said, was homicide as a result of unlawfully selling poison medicine without a poison label on the bottle. The penal code provides a jail term of three years or a \$3,000 fine as the maximum punishment on conviction on such a charge.

State witnesses were being examined Wednesday morning at Stephenville in the murder trial of Harold Rylee. Granbury, in district court. This is Rylee's fourth trial for the slaying of T. C. Mitchell at the former's cafe in Granbury Aug. 27, 1934. A jury was obtained by 5 p. m. Tuesday. Self-defense has been the plea of counsel for Rylee in previous trials.

Here's a man to challenge H. S. Jones' 1936 record on Casa Manana visits. W. L. Stewart of Fort Worth, another oil man, can account for 18 trips to the cafe-traveler revue, thus topping the original championship claimant's record by two. Like Jones, Stewart hopes to better the figure this Summer at the Fort Worth Frontiers Fiesta. He wants to see for himself how the 1937 show can be bigger and better as they claim it will be.

With social security now definitely a part of the law of the land Federal agents find that a large percentage of both employers and workers do not understand it and are planning a series of educational programs. E. L. Tutt, district manager, and W. A. Thomas, Internal Revenue Collector, said in separate announcements Wednesday. Employers who fail to inform themselves correctly are facing the danger of penalties of from 5 to 25 per cent in addition to the tax's due. Mr. Thomas warned. In addition to this workers who fail to get their account numbers issued and properly accredited are facing the likelihood of losing wage credits, on which their retirement pay is to be based.

Because of widespread strike conditions in Mexico the parent-teacher good will tour has been postponed from June 12 to July 1. Mrs. M. A. Taylor, State president of the Texas Congress of Parents and Teachers, announced on Wednesday at Austin.

The Colorado river and its tributaries rose Wednesday night in the Coleman area under the burden of a driving two-inch rain which fell in less than two hours. Communication was broken with Gouldsboro, in the southern part of Coleman county.

CHICAGO, Ill.—Following eight years of work, L. D. Pangborn and Harry Sweeney have produced liquid copper.

Hico News Review PUBLISHED EVERY FRIDAY IN HICO, TEXAS

ROLAND L. HOLFORD Editor and Publisher

Entered as second-class matter May 10, 1907, at the postoffice at Hico, Texas, under the Act of Congress of March 3, 1879.

Cards of thanks, obituaries and resolutions of respect will be charged at the rate of one cent per word. Display advertising rate will be given upon request.

Hico, Texas, Friday, June 4, 1937.

THE PROBLEM OF TRAILERS

Now that Summer is at hand, we may expect to see the highways crowded with homes on wheels, as half the world, more or less, goes a-gypsying. The trailer is here to stay. Enough Americans have been reporting their trailer experience of last Summer in the North and last Winter in the South, to stir the enthusiasm of millions for this latest development in the art of vacation travelling.

There are social and economic problems in the trail of the trailer, which call for study and solution. Eventually, special trailer camps or parks will be provided along all the main tourist routes.

Many cities have adopted ordinances forbidding the parking of trailers inside the city limits. Others are making arrangements for special accommodations for trailer travellers. Everywhere the question of sanitation for trailer parks is being studied. Some ambitious plans provide for gas, water, electric and sewer connections for trailer folk, for which a fee of a few dollars a week will be charged.

There are many other unsolved questions about trailers among them that of highway safety. Only experience can bring the answers to all of these problems. The one thing which seems to be certain is that the trailer home on wheels is here to stay.

FARM TENANCY

Nobody as yet knows the exact facts about farm tenancy. There is no general agreement that tenant farming is in itself an evil; but regardless of that, every effort to get at the precise facts about it is useful and commendable. The latest study has been made by the National Association of Manufacturers, which report that the 800,000 southern farmers listed as tenants are really share-croppers and that another group of tenant farmers in the North and West are young men renting family farms from relatives.

The net result of this analysis would indicate that tenant-operators in the true sense do not account for any more than 24 per cent of all farmers; that about one-third of these are closely related to the land owner, so that not more than 15 per cent are independent tenants.

This group in turn divides naturally into three sub-groups—a small group, which may amount to 5 per cent of the total, who are tenants through choice; a second small group which may represent 5 per cent of the total, who are tenants through misfortune or limited capacity (marginal farmer types), and a third group, who may represent the remaining 5 per cent, who are tenants because of youth and who presently in the natural course of events will become owners.

In the light of such facts, it would seem wise for Congress to go slowly on any appropriation of large sums for the relief of tenant farmers.

EVERYBODY LOVES A LOVER

The wedding of the Duke of Windsor, the former King Edward VIII of England, to his American sweetheart, Wallis Warfield, stirs a deeper and more sympathetic chord in the hearts of most Americans, we believe, than did the coronation of his brother, George, as King in his place. The coronation was a great spectacle, but the marriage of the ex-King is the culmination of a great romance.

"All the world loves a lover." And most of the world is sentimental enough to cheer more generously for the man who gave up the world's greatest throne for love, than for the one who succeeds to the throne he vacated. Moreover, there is a widespread feeling that Edward got a raw deal from his Cabinet and Parliament and the old-foxy cliques which still rule England. Edward endeared himself to everyone by the sincerity of his desire to help the common people who could not help themselves—to everyone, that is, but Prime Minister Baldwin and his set.

We congratulate the Duke of Windsor and his bride, and wish them a long and happy married life.

WELLINGTON, N. Z.—The largest single flower in the world grows on the Rafflesia plant and sometimes reaches a diameter of three feet.

BALTIMORE, Md.—Oysters have two supplementary hearts, according to A. E. Hopkins of the U. S. Bureau of Fisheries. All three beat at different rates.

MISTAKES

What is more interesting than the mistakes of other people? Here are three confessions from a little department in The Progressive Farmer, "Mistakes I Have Made," which is always rich in human interest.

"WARNING—Girls, please turn down all drunkards. I married one myself and he is steadily growing worse. I have been married five years and have three boys. I shall have to live with a drunkard the rest of my life. Please take warning.—(Name and address withheld by request.)"

"LATE OPERATION—One of the worst mistakes I ever made was when I put off going to the hospital for years. I had had appendicitis for about ten years, gradually getting worse all the time. I finally submitted to an operation and did not come to until a week later. I developed pneumonia and had an awful spell. One of the worst mistakes of my whole life was putting off that operation so long.—Mrs. D. H. S., North Carolina.

"OVERWORKED—Over the protests of my husband I launched out into field work, to the neglect of the vegetable garden, yard, poultry, my personal appearance, and all household duties possible to omit. The result was I became slovenly in appearance, my health failed, and we did not enjoy the meals I had little time to prepare. We had no eggs to sell, no canned products and my health became impaired by overwork.—Louisiana Reader."

MENUS AND RECIPES

DENTON, June 2.—Although meals must continue with the customary regularity, regardless of soaring temperatures, serving them in the open does much to stimulate the most jaded appetite.

Breakfast and lunch may be served on the porch or close to an open window with the blooms of the flower box for company. The tea table may be placed in a shady corner of the garden near the hollyhocks. The family supper may be arranged on trays for individual service in the garden, or elsewhere as fancy may dictate. These meals may be very simple, quite elaborate, dainty food gaining piquancy from unaccustomed surroundings. In any case they have a distinctive, wholesome charm.

MENUS

MENU I: Chicken rouleaux, potato salad, spiced crabapple jelly, strawberries with heavy cream, iced beverage.

MENU II: Peanut butter and deviled ham sandwiches, marinated tomatoes and cucumbers, fresh peaches in cream, spice cake, beverage.

MENU III: Crabmeat cocktail, cold lamb with mint jelly, asparagus, whole tomatoes with salt, apricot ice, marguerites.

MENU IV: Black cherries on crushed ice, sliced salmon loaf, Tarter sauce, candied carrots, crisp head lettuce salad, ginger ale cooler, gum drop cookies.

RECIPES

CHICKEN ROULEAUX: Chicken rouleaux are a delicious substitute for the usual sandwich. Make a light rich biscuit dough such as would be used for biscuit short-cake, and roll it out about one-quarter inch thick in a sheet four inches wide and as long as convenient. Brush over with melted butter, spread with minced chicken which has been well seasoned and slightly moistened with cream. Roll up, cut in finger lengths, pinch the ends together, lay on a greased baking sheet, bake in a hot oven. Ham may be used instead of chicken if preferred.

POTATO SALAD: Two large potatoes cubed and cooked with three large onions by steaming. Drain the cooked cubes on ice for one hour before proceeding with the salad. Take one large firm egg, wash only the center. (Dice it), one stalk of celery—use tall glasses half full of mint or lime ice. Four ginger ale over this just before serving. Garnish with mint leaves and sliced lemon or orange.

GUM DROP COOKIES: 4 eggs—beat until foamy and add 2 c. brown sugar, 1 T. cold water, 1 c. lemon or orange juice. Stir in 1-2 c. nut meats, 1 c. chopped gum drops of assorted colors, dredged with flour. Spread mixture on greased, floured pans in a thin sheet. Cook slowly for about thirty minutes. Cool. Ice white still warm.

PEANUT BUTTER AND DEVILED HAM SANDWICHES

A quick-to-make sandwich. Use peanut butter and deviled ham in equal portions. Stir in a little prepared mustard and enough mayonnaise for spreading consistency. Use on whole bread.

GINGER ALE COOLER: Fill tall glasses half full of mint or lime ice. Four ginger ale over this just before serving. Garnish with mint leaves and sliced lemon or orange.

GUM DROP COOKIES: 4 eggs—beat until foamy and add 2 c. brown sugar, 1 T. cold water, 1 c. lemon or orange juice. Stir in 1-2 c. nut meats, 1 c. chopped gum drops of assorted colors, dredged with flour. Spread mixture on greased, floured pans in a thin sheet. Cook slowly for about thirty minutes. Cool. Ice white still warm.

RITS O' PHILOSOPHY

Don't lose your head—the finder might not think enough of it to return it.

An illustrious ancestry is a poor apology for your own weakness.

Forward-looking men look backwards for the guide posts.

It is good sense to indulge occasionally in nonsense.

To lose money is the smallest loss in the category of misfortunes.

NEW YORK.—There are 6,862 uniformed men in New York City's fire department.

CHICAGO, Ill.—Following eight years of work, L. D. Pangborn and Harry Sweeney have produced liquid copper.

On Our Own War Front by A. B. CHAPIN

Let's Talk About Clothes by a YOUNG MODERN TEXAS STATE COLLEGE WOMEN (C.I.A.)

DENTON, June 2.—Everyone will have the blues this summer, since this all-time favorite is the one color which can be worn with equal success by any type of person. Blondes, brunettes and redheads at Texas State College for Women are choosing their favorite shades.

Although blondes have known for centuries the effect they can achieve in blue, and titian-haired ladies have not been insensible to the charms it bestows, the surprise of the season comes in the new blues for brunettes. Coronation blue is probably the most becoming with dark eyes and hair. Its warmth, a quality lacking in most shades of the color, gives life and richness to brunette complexions. Even a lighter shade than Coronation is good with some dark hair, but experimentation is the only sure way to tell whether or not it will "click."

Redheads still cheer for green, but a cold, rather unusual greenish blue will perform the same wonders for them. They can get by with others—powder, ice, cornflower and medium blues—but Miss Auburn should not waste time with these when the greener tints are made so specially for her. Golden hair and blue eyes are linked all too often with powder or "baby" blue. Many blondes are missing the opportunity of wearing a darker blue which would emphasize their hair and skin and still bring out the color of their eyes.

The great majority of men and women who are neither blondes, brunettes or redheads will wear, as always, the medium shade which McClelland Barclay suitably calls "Universal Blue."

MODERN WOMEN CHARL ORMOND WILLIAMS

This plan embraces a local forum center in every community in the United States with regional centers and a national center. Here any person might present for free discussion an idea for education, economics, scientific, recreational or religious betterment. She wants to call these centers "American Action Forums" and establish the first one in New York.

After teaching for fifty years Miss Elizabeth S. Ferris of Brooklyn is retiring. She favors progressive educational methods over the old-fashioned way and her one regret is that she cannot be on hand to watch how the new ways work.

Four distinguished newspaper women have received prizes for their work during 1936 from the New York Newspaper Women's Club. They are Doris Fleeson of the New York Daily News for the best reportorial work for covering the Republican National Convention; Anne O'Hare McCormick of the New York Times for her story on "Exploring the Hitler Legend"; Dorothy Thompson of the New York Herald Tribune for her column on "An Invitation to Death" on the Hauptmann execution; and Emily Genauer of the New York World-Telegram for a series of articles on interior decoration.

The only women now serving the United States as career diplomats are Miss Frances Elizabeth Willis, third secretary of the legation in Brussels who has the rank of consul, and Miss Constance Ray Harvey, vice consul in Milan, Italy. Mrs. J. Borden Harriman of Washington, D. C. has been named Minister to Norway but has not yet assumed her official duties.

In Mexico, where women recently cast their ballots for the first time, two women are independent candidates for congressional seats at the July election. They are Mrs. Maria del Refugio Garcia and Miss Soledad Orozco. They hope to force a Supreme Court ruling on the electoral law which forbids women to seek elective offices.

Mrs. Royal S. Copeland, wife of the United States Senator from New York, has made her guest book during her reign as a Washington hostess, the basis of a book her first publication. The volume, which she calls "Mrs. Copeland's Guest Book," contains material about Washington people since 1922.

TOKYO, Japan, 1937 is the year 2597 according to the Japanese calendar. Japan's chronology dates from 660 B. C.

There are no little lies, for he does not have magnitude.

Sunday School Lesson by Rev. Charles E. Down

Joseph's Readiness for Service. Lesson for June 6th, Genesis 41: 33-44.

Golden Text: Proverbs 22:29. We first see Joseph as unpopular with his brothers because his father favored him. Then we note how finely the lad bore himself when adversity, through the connivance of his brothers, laid its heavy hand upon him. Garfield, shortly before he became President, said to some students, "Do you want to make the most out of your life? If you do, you will need three things, a strong arm, a clear head, and a brave heart." Joseph possessed all three, and so was well equipped to endure the slavery into which he was sold, to resist the seductions of Potiphar's wife, and to make the most of his confinement in prison. And now we see him, by a miracle of providential good fortune, elevated to a post of the highest responsibility. Storing the surplus corn of the plentiful years in granaries with the administrative skill of a Herbert Hoover, Joseph was able to soften the ravages of a prolonged famine. Hubby, he gave the credit to his Maker, "God," he told his brothers, "did send me before you to preserve life." But the man himself deserves a full measure of appreciation. How large a part does luck play in life? The goddess Fortune, with a bandage on her eyes, stands by a wheel, turning it round and round, and drawing from it blanks and prizes without regard to merit or demerits. Is that real life? No! Capacity counts. Joseph went to the top because he had the stuff in him that makes for success. Luck figured of course in the upward curve of his spectacular career. But the central factor in his ascendancy was his pluck, his integrity, and his readiness to take advantage of every opening. You cannot explain his triumph by saying that he had the "breaks." For he played the game of life with such skill and courage that fortune could not help but smile upon him.

The Family DOCTOR by JOHN JOSEPH GAINES, M.D.

BLOOD BALANCE Nothing should be appreciated more than perfect circulation of the blood in the body; and, very many times we physicians, meet with variations from normal, which may be called "imbalance," or engorgements here and there, which may vary from congestions to actual dilations of the vessels—organic disease.

People with big abdomens are sufferers in varying degree, from blood imbalance. There are a great many veins that traverse the abdominal wall and visceral content situated there. Anything that may cause "rush of blood" to these blood-vessels, produces immediate and very evident effect on structures elsewhere. A big meal is an example—overeating; intense determination of blood to the stomach and bowel, depleting the brain for the time being, causing dizziness, cloudy vision, staggering gait, stupor, with heavy feeling throughout the body, and a well-fleshed abdomen. The symptoms may amount to a temporary helplessness, a not very enjoyable feeling in elderly persons. I believe without accurate figures, that one-fourth of the blood volume may flow in a great tidal wave to a ponderous abdomen, from over-exertion, overeating, etc.; and that this condition reacts heavily upon the heart and brain; of course the veins of such an abdomen become much dilated from the constant sagging, making possible, if I may use the term "abdominal apoplexy."

Methods of correction are slow, discouraging, and are seldom persisted in to get the relief possible. Carefully practiced exercises are productive of results. Of course free daily evacuation of the bowel MUST be maintained. Here it is that starches in the diet must be cut down to a minimum. Indeed, the diet must be just what is needed and no more. In chronic cases patients who are short of breath and puff with slight muscular exertion, may wear a well-fitted bandage to support the sagging, indolent abdomen.

Nancy Hart's HOME NEWS

Before you get your new permanent wave, be sure the operator knows his business thoroughly. After all the machines are standardized but your hair isn't. And here are a few tips on permanents—if the ends of your hair seem dry, rub a little pomade on the ends alone. As for hair tonic, apply it after the shampoo when the pores are open, rather than before. And don't forget your hair brush.

Brushing won't ruin your permanent—it's good for it. In fact hair needs to have the oil brushed down to the ends even more after a permanent than before. And brushing is the best daily routine to stimulate scalp circulation. Start from the base of the neck at the hairline, brush up to the crown, working backward from ear to ear several times until your scalp feels warm and tingly.

Brush with a vibrating movement all around the face, working from the scalp to the ends of the hair to loosen particles of make-up and dust that become embedded with dried perspiration around the front hairline particularly in summer. Then return to the back of the head, space the hair in small sections, pick up one scalp to ends with a turn of the wrist. Start with the brush sideways against the head and roll the full length of the bristles. Be sure you feel the brush on the scalp, and hold the hair up as you brush so that the bristles get underneath instead of just hitting the highlights.

One more word on hair exercise—be sure you have a good long-bristle brush. The new ones with wave-like bristles that strand the hair are particularly good. Buttermilk is a gentle and effective bleach for freckles. Rinse your face in it at night after washing and let the buttermilk remain on the skin until morning.

Do your nails shrivel and break? A hot oil manicure once or twice a month will correct this condition. If you do your nails yourself, you'll have to enlist the services of a sister, daughter or friend to tie up your nails for you in bits of cotton soaked in hot olive oil or almond oil. File the nails first; then soak them in the hot oil for five minutes. Then the soaked cotton pads are tied on the finger tips and allowed to remain ten minutes. At the end of that time the nails are scrubbed with warm soapy water and a nail brush and the manicure proceeds as usual.

Summery odors are offered in the luxurious new toilet soaps the famous English firm of Mornay is featuring for vacation use. The soaps are boxed in assorted colors.

Beginning in Houston, Texas' largest city, history-lovers can browse around San Jacinto battlefield, and pleasure-seekers can hear themselves to Sylvan Beach. Or if the traveler is in need of more sea breeze, he can go from there straight down to Galveston, where white sands, crisp breakers, fresh seafood, plentiful tourist accommodations, all kinds of fishing and varied entertainment are combined in one island resort. Tarpon and other large salt water fishing is the ruling sport at the next coastwise stop, Freeport, which is also the center of the world's largest sulphur industry. For inspection near West Columbia, where the republic's first port is located, are several well-preserved southern plantations which are guaranteed to arouse dreamy pre-Civil War reflections. Heading southwest through the old fishing village of Matagorda and the popular angling spots of Port Aransas and Port Lavaca, the highway comes finally to Corpus Christi. This year-round plant ground, besides being an important port, is the home of the famous "tarpon rodeo." Boating is another pastime eagerly pursued there, and swimming enthusiasts crowd the long shore line from spring to autumn.

Mr. Robert McDonel of Des Moines, New Mexico, returned to his home Tuesday after spending a week with his sister, Mrs. W. R. Gosdin, and other relatives.

Mrs. Clem McAden, Mrs. Charlie Conley, Mrs. I. A. Fouts and daughter, Miss Betsy, were in Waco Tuesday.

Mr. and Mrs. W. J. Cunningham of Dallas spent the week-end here with relatives.

Mr. Heyroth and children attended the funeral of his brother-in-law, Mr. Cleveland Martin of Hamilton, Wednesday.

Albert Pike came in Wednesday from Denton where he has been in college.

Bobbie Gene Patterson spent Thursday night with Billie Burke Pike who lives east of town.

Mrs. Royce Newsom and son of Big Spring came in Friday night to visit her parents, Mr. and Mrs. J. W. Parks. Her father went after them. She will also visit other relatives.

Helen Sue Patterson spent last Thursday night with Dorothy Gann.

Mrs. Frankie Collier returned Monday from Walnut, where she visited her daughter, Mrs. Joe Loader, for two months.

Mr. Blue, who is at the home of his son, Mr. Bill Blue, is reported to be very ill.

Elvis Lott was in Dallas this last week.

Mr. W. F. Turner who works in Fort Worth spent the week end at home.

Allen Dawson and Frankie Dawson spent Friday and Saturday in Dallas.

Mrs. Hubert Pruitt is visiting in Mexico.

Little Miss Fatsy Brantley spent the week in Meridian with her grandmother, Mrs. Jordan.

Mrs. Willie Scales returned Saturday from Dallas where she visited her niece, Mrs. Ed Lott and family.

Miss Ruby Neal of Marlin spent the week with Miss Amy Rogers. She is a nurse in Marlin.

Mr. and Mrs. Forrest Dean of Fort Worth spent the week end with his brother, Mr. Walter Sadler and wife, and visited friends.

Misses Frances Phillips, Dixie Potter and Marie Fouts returned Saturday from John Tarleton College, as the term has closed.

Mr. and Mrs. Simon Ratliff and baby of Waco spent the week end here.

Nell Gregory spent Friday night with Maxie Ruth Wawson.

Mrs. Cavett and daughter, Mrs. Floyd Hodges of Stephenville visited Mrs. Laswell Friday night.

Mrs. Blanche Phillips and baby of Dallas came in Thursday for a visit with her parents, Mr. and Mrs. Walter Harris.

Mrs. Jack Noel of Dublin spent the week end with her parents, Mr. and Mrs. W. R. Gosdin.

Mr. John Dawson of Dallas is visiting here.

Miss Lillie Turner has returned from Teachers College in Denton. She will be one of the teachers here in grammar school and her friends are glad. She was born and reared here.

Mrs. Tom Strange and baby spent the week with her parents, Mr. and Mrs. Dick Appleby.

Mr. and Mrs. Carey McClintock of Electra spent Sunday with his sister, Mrs. Ray Tidwell.

Mrs. Dick Appleby spent Saturday night with Mrs. Patterson.

Ralph Mitchell is working in Dallas. He spent the week end at home.

A fine rain came Saturday and at an early hour Sunday morning, which will be fine on the gardens and crops.

Miss Marie Chancellor left Monday for Stephenville, where she will be in summer school.

Mr. Jones Blanchard and Mrs. Renabel Alexander of Waco visited Mrs. W. H. Brashear Monday.

Mrs. Dick Evans was taken to Stephenville Sunday for an operation which was performed Monday.

Miss Naomi Jackson has returned from Beaumont, where she has been in college.

Mr. McBeath was in Dallas and Fort Worth this week.

Misses Maxie Ruth Dawson and Nell Gregory, with their boy friends attended the picture show at Meridian Saturday night.

Mr. D. Blue of Hamilton, Mr. Nig Blue of Oklahoma and Mrs. Ira Lynch of West Texas are at the bedside of their father, Mr. W. S. Blue, who is at the home of his son, Bill Blue. He is reported to be some better.

Mrs. Bertha Horton and children vacated the McBeath house of the north side and moved to the Purdue house on the south side.

Mr. and Mrs. Jack Crow and children of Walnut were here Sunday.

Rev. Jackson got very badly burned Monday morning as he was trying to start the school bus for his brother, Rex to go on the route. For some cause the gas exploded, and was thrown over him. He was given first-aid treatment and later taken to the Stephenville Hospital. Rex got both hands badly blistered.

Mrs. Laswell received word that her nephew Jerry Humphreys, son of Mr. and Mrs. John Humphreys of Balmorhea, was operated on for appendicitis at Pecos Hospital. He is getting along fine. Her mother, Mrs. Cavett, and her daughter, Mrs. Hodges of Stephenville, are there with them. They came by for her to go also, but she could not go. The boy is five years old. She received a letter Monday.

Miss Edna Lee Davis spent Saturday night with Miss Beatrice Loader.

Paul Patterson left Friday for Burnet, where he will run a tailor shop. His many friends here wish him great success.

The music recital on Friday night of the pupils of Miss Elizabeth Shaffer was fine and well attended and enjoyed by all. All the pupils did fine, and showed that they have a fine instructor.

H. J. R. No. 26

HOUSE JOINT RESOLUTION

Legislature shall have the power proposing an amendment to Article III of the Constitution of the State of Texas by adopting a new Section to be known as Section 51-c which shall provide that the to provide, under such limitations and restrictions as may be deemed by the Legislature expedient for assistance to the needy blind over the age of twenty-one (21) years, and for the payment of same not to exceed Fifteen Dollars (\$15) per month each, and providing for payment of such assistance or aid only to actual bona fide citizens of Texas and providing that the requirements for the length of time of actual residence in Texas shall never be less than five (5) years during the nine (9) years immediately preceding the application for such assistance and continuously for one year immediately preceding such application; and providing that the Legislature shall have the authority to accept from the Government of the United States financial aid for assistance to such blind; providing for an election on the question of adoption or rejection of such amendment and making an appropriation therefor; providing for the proclamation and publication thereof and prescribing the form of ballot.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas, as amended, be amended by adding thereto a Section to be known as Article 51-c which shall read as follows:

"Section 51-c. The Legislature shall have the power by General Laws to provide, under such limitations and regulations and restrictions as may be by the Legislature deemed expedient, for assistance to the needy blind over the age of twenty-one (21) years, and for the payment of same not to exceed Fifteen Dollars (\$15) per month per person; such assistance or aid to be granted only to actual bona fide citizens of Texas; provided that no habitual criminal and no habitual drunkard and no inmate of any State supported institution, while such inmate, shall be eligible for such assistance to the needy blind over the age of twenty-one (21) years; provided, further, that the requirements for the length of time of actual residence in Texas shall never be less than five (5) years during the nine (9) years immediately preceding the application for assistance to the needy blind over the age of twenty-one (21) years; and continuously for one year immediately preceding such application.

"The Legislature shall have the authority to accept from the Government of the United States such financial aid for assistance to the needy blind as that Government may offer not inconsistent with the restrictions hereinabove provided."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at a special election to be held throughout the State of Texas on the fourth Monday of August, 1937, at which election all voters favoring the proposed Amendment shall write or have printed on their ballots the following words:

"FOR the Amendment to the State Constitution providing for assistance to the needy blind over the age of twenty-one (21) years not to exceed Fifteen Dollars (\$15) per month per person, and providing for acceptance from the Government of the United States of America financial aid for such payment."

Those voters opposing said proposed Amendment shall write or have printed on their ballots the words:

"AGAINST the Amendment to the State Constitution providing for assistance to the needy blind over the age of twenty-one (21) years, not to exceed Fifteen Dollars (\$15) per month per person, and providing for acceptance from the Government of the United States of America, financial aid for such payment."

If it appears from the returns of said election that a majority of the votes cast are in favor of said Amendment, the same shall become a part of the State Constitution.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution for Amendments thereto.

Sec. 4. The sum of Nine Thousand Dollars (\$9,000), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State, not otherwise appropriated, to pay the expenses of such publication and election.

The above is a true and correct copy.
EDWARD CLARK, Secretary of State. 52-4tc

The baccalaureate service at the high school auditorium Sunday morning was fine and was well attended by relatives and friends of the Seniors. Miss McMahan played the Processional as the large group of Seniors marched in one by one. All looked very pretty in their robes. The High School Glee Club sang "Come Thou Almighty King" and "Day Is Dying in the West." The Seniors took their places down in the audience at the front of the stage. Rev. Loyd Lester delivered a fine sermon which was suited for the Seniors. If they go by the teachings he gave them from the Book of all books, they will never go wrong and will make their mark in the world, which all will be very proud of. Everyone enjoyed the service very much.

Mrs. Berns and children spent the week end in Cleburne. Her mother, Mrs. Conner, came home with her. His mother returned to her home in Enloe Saturday. Mrs. Berns had been here visiting her son for some time.

S. J. R. No. 9

A JOINT RESOLUTION

proposing an amendment to Section 16, Article XVI, of the Constitution of Texas; providing that the Legislature shall authorize the incorporation of banking bodies and provide for the supervision and regulation of same; providing for all of the capital stock to be subscribed and paid for before charter issued; restricting foreign corporations from doing banking business; restricting corporate business to one place.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 16, Article XVI, of the Constitution of Texas, be amended so as to hereafter read as follows:

"Section 16. The Legislature shall by general laws, authorize the incorporation of corporate bodies with banking and discounting privileges, and shall provide for a system of State supervision, regulation and control of such bodies which will adequately protect and secure the depositors and creditors thereof.

"No such corporate body shall be chartered until all of the authorized capital stock has been subscribed and paid for in full in cash. Such body corporate shall not be authorized to engage in business at more than one place which shall be designated in its charter.

"No foreign corporation, other than the national banks of the United States, shall be permitted to exercise banking or discounting privileges in this State."

Sec. 2. The foregoing amendment to the Constitution shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the fourth Monday in August, 1937. At this election all voters favoring the proposed amendment shall write, or have printed, on their ballots the following words:

"For the amendment of Section 16 to Article XVI of the Constitution of the State of Texas, providing for the amount of the liability of stock-holders in State banks."

Those voters opposing said amendment shall write, or have printed, on their ballots the following words:

"Against the amendment of Section 16 of Article XVI of the Constitution of the State of Texas, providing for the amount of the liability of stock-holders in State banks."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for such election, and to have same published as required by the Constitution and the amendments thereto.

Sec. 4. The sum of Five Thousand Dollars (\$5,000.00), or so much thereof as may be necessary, is hereby appropriated out of any funds of the State of Texas, not otherwise appropriated, to pay the expenses of such election.

The above is a true and correct copy.

EDWARD CLARK, Secretary of State.

That Drink-

AT OUR FOUNTAIN Becomes a Refreshment Habit—

Because it serves to slake the thirst; because its refreshment qualities make it so cooling, exhilarating, stimulating; because its FLAVOR and tang appeal to the palate, it's the ideal drink—whether a sundae, cream or a plain fountain drink—always the same—

Taste The Difference At Our Fountain

THREE REASONS WHY OUR FOUNTAIN IS SO POPULAR:

1. Our fountain is modern with the latest features.
2. We make our own ice cream, using pure fruits and ingredients.
3. All glasses, spoons and dishes are sterilized, giving you complete sanitation.

FREE
The following ladies will receive a dish of our famous ice cream Free by coming to the store within the next week: Mrs. C. W. Bates, Mrs. W. E. Petty, Mrs. Lee Autrey, Mrs. J. P. Owen.

Dink...
GOES 'ROUND AND 'ROUND
And It Comes Out Here—

J. T. Gregory who was employed in the barber shop on the corner across from the post office for the past several years for Make Johnson, just couldn't get used to the location where Mr. Johnson recently moved at the end of Main Street, and moved "back home" in the same building where he had worked for so long, but now owned by Will Hardy. As the saying goes, "The cat always comes back." Anyway Mr. Gregory wants his customers to continue their trading with him, and can now find him at the old stand. He says he will take on some new customers as well.

Mr. and Mrs. E. F. Porter received a box from Denton the other day and with it came a card of sympathy. Upon opening the package, they found it to contain the red locks of their daughter, Martha, which had been clipped at a beauty parlor where she got a brand new permanent. In a letter to her parents, she said she now looked anything but dignified, and in just plain words "a fright." We know with all the new ways of fixing hair that Martha looks as pretty and attractive as ever.

Did you ever see the many pretty caskets at the Barrow Furniture Company? If not, you should go by some day and let either Mr. or Mrs. Barrow show them to you. You don't necessarily have to feel down and out of feel in the least that you would soon be in the market for one. We were there the other day and looked them over. There is a copper one that sells for \$1500, but if you paid cash you might get it a little cheaper. They have vaults and elaborate caskets of all sizes. Seriously, we were surprised to find such a nice looking display in a town no larger than ours. If they are ever needed in your family, it is a consolation to know they can be bought right here in Hico. Mr. and Mrs. Barrow have one of the nicest undertaking parlors in this part of the country, and with their personal service at your disposal it makes a complete arrangement.

The first peaches we have seen this year, are the ones on the street the first of this week brought in by Make Johnson and grown in their orchard just south of town. They were the Rose Marie peaches, and if they taste as fine as they look they must be of an unusual flavor. Mr. Johnson said they were extra good for canning purposes.

Albert Harold Little is the new help at the C. L. Lynch Hardware Company, and from the shiny look on counters and show cases, he at least knows how to keep the dust off. He is pretty good at selling hardware too, and acts like an old hand at the business. Luskie Randals is another Hico lad who besides working a part of the time at Randals Brothers Grocery, does some extra work at the Corner Drug Company. He too, jacks sodas just like he knew how. Hico has some wonderful boys, and boys who make good at whatever they undertake.

Dale Randals says she hopes when she and her mother and dad go fishing next week at the Randals Camp that they catch something besides turtles. The last trip they made, which of course was only for a day, she caught a turtle and her daddy caught two of them. But this week she is packing her things with the hopes of landing some big fish next week. Dale is an unusually good "fisherman" for a little girl, hence the reason for so much disappointment the last time. Now, Dale, if you will read between the lines, you will see that we are hinting for a nice slice of fish, in case you are lucky.

A word of warning to E. H. Randals: Within the next two or three weeks we are coming around to the bank with an advertising scheme, and this time it will be a good one, especially good for us. So, if you do not want an ad, you had better make your vacation plans.

Wednesday of next week is Dollar Day again. Bring in your family and have a good time, and at the same time lay in your supply of groceries and wares at the attractive prices the local merchants are offering.

When you pass along by the G. M. Carlton Bros. & Co. store

look in the window and see the beautiful rug on display made by the Carlton WPA women. It is made of burlap sacks, and is an extra fine piece of work. You can also see a number of nice articles made by the local WPA women at the sewing rooms in the south part of town. Miss Myrtle Melton is in charge of this work.

Something very unusual in the way of a novelty glass display counter has been received this week by the Teague Variety. This is being used for a cosmetic display. It is put up in sections and you can see it as you enter the store.

W. E. Petty says that when he is in Southern Texas he likes the sunshine better than the rain. He especially wanted to get back to Hico Monday for while in San Antonio was in the big middle of seven inches of rain, when a lot of damage was done to buildings, roads, and crops. Water standing everywhere did not look so good to him, and when he came home Tuesday faced cloudy weather and a rain here the next day. But he still says he had rather be in Hico when it is raining, or at any other time. No place like home.

Mrs. C. D. Phillips was in town the first of this week greeting friends in the various stores. She has been ill for several weeks, and it seems nice to see her again. It has only been a few years since she was a business lady, assisting her husband in collections when they operated the Gulf Service Station which she still owns, but now is leased to Bill Abel. Mrs. Phillips called our attention to the fact that some more rearrangement had been done at the station in the way of enlarging the driveway, making it more convenient for the customers. Mr. Abel sells Sinclair products exclusively.

Gordon

By MRS. ELLA NEWTON

Lewis Smith spent the week end with his uncle, Weston Newton and family of Mt. Zion.

Elna Fay and Ruth Perkins spent Saturday night and Sunday with Mrs. Ella Newton and daughter, Ima.

TODAY and TOMORROW
BANK BANKER DOORIDGE

ALASKA new gold rush

Forty years ago, in 1897, the discovery of gold in the Klondike started the greatest "gold rush" since the California excitement of 1849. Now a new gold rush to Alaska is beginning. A new gold "strike" on Goodnews Bay has brought hundreds of prospectors into that region, and reports come in of scenes which duplicate those of the wild days when "Dangerous Dan McGrew" and other legendary heroes of Alaska's first gold rush held sway.

Not only gold, but platinum and palladium are said to have been found in paying quantities. Naturally, everyone who can do so is trying to get all he can for the least amount of work, and naturally thieves and gamblers are there, trying to get the lucky ones' treasure away from them.

This modern gold strike, however, has some new aspects. For one thing, goldseekers are going in by airplane instead of dog-sleds. But in all other respects, the drama of human greed and sudden wealth is the same as it has been since the world began.

AGROL motor fuel

"Agrol" is a new word which you are going to hear more of. It means motor fuel produced from farm products. The development of agrol is one of the objectives of the chemists who are trying to find ways of making agriculture more profitable, by utilizing farm products and farm wastes for industrial purposes.

In Europe they are using alcohol made from potatoes, corn or what-have-you, to mix with gasoline for motor fuel. Alcohol is cheaper than gasoline. So far, we buy gas cheaper than anyone can afford to sell alcohol, but the time may come when we shall have to resort to European practice.

Meantime, there's a plant in Nebraska where they are making agrol, and folks who know about it tell me it works.

SEASERPENT here again

A sure sign that summer is at hand is the recurrence of seaserpent stories. It is no longer the fashion to laugh at sailors' tales of strange sea monsters. Scientific expeditions have brought back so many specimens of queer things which we used to think were impossible, that I, for one, am ready to believe that anything may live in the sea.

This year the first seaserpent to reappear is "Cadorosaurus," the seaserpent of Vancouver Sound. The crew of a tugboat out of Victoria, B. C., reports a good look at "Caddy," who is described as being about 18 inches thick, striped brown and yellow, with a warm and kindly eye and a mouth full of teeth.

A new kind of Deodorant YODORA

is gentle as your face cream

It only takes 2 dabs of Yodora after which it vanishes instantly.

Soothing as a cold cream and does not stain delicate clothing.

You get positive protection with Yodora. Quick to disappear—there's no waiting, no "drying". You can use it right after shaving. Yodora protects from the moment you apply it. It brings you security!

Yodora is ideal for sanitary napkins—soothing and safe. In Tubes and Jars—each 25c.

Methodists ... 200 years
Two hundred years ago John Wesley, a clergyman of the Church of England, started a religious revival which developed into the Methodist Church, now almost, if not quite, the largest of the Protestant denominations. The whole Christian world is celebrating Methodism's 200th anniversary this month.

METHODISTS 200 years

John Wesley had no idea, at first, of starting a new church. His aim was to bring his fellow-students at Oxford into a better way of Christian living. The other students gave them the name of "Methodists" because Wesley and his group were so methodical in their religious observances.

To me it is interesting that so many religious movements have had their roots in the ancient English university of Oxford. The latest, the so-called "Oxford Group

Movement," is beginning to spread all over the world. Like Wesley, its founders have no idea of starting a new sect, but merely hope to lead people to better observance of the teachings of whatever church they belong to.

ACCIDENTS and discoveries

Many great scientific discoveries have been made by accident. Charles Goodyear accidentally dropped some sulphur into a pan of melted rubber, and found he had a new substance, rubber that could be molded into any shape. An Italian workman dropped a piece of cheese from his lunch-pail into a tub in the DuPont laboratory, and so solved the problem the research scientists had been working on; how to make a lacquer that would dry quick and hard. Falling to find a glass vessel handy, a research worker at the Mellon Institute used a tin can and got what he was trying to get. He couldn't duplicate the product of that experiment until he remembered the tin can. Salts of tin proved to be the essential ingredient.

Accident alone does not often accomplish any thing useful. It takes the seeing eye and the understanding mind to grasp the significance of the accident.

I'M A NEW WOMAN THANKS TO PURSANG

Yes, Pursang contains elements of proven value, such as Organic Copper and Iron, which quickly aid nature in building rich, red corpuscles. When this happens, the appetite improves. Nervousness disappears. Energy and strength usually return. You feel like a new person. Get Pursang from your druggist.

Local Happenings

Miss Peggy Pirtle spent the week end in Waco with relatives.

Mrs. Anna Driskell was in Stephenville on business Tuesday.

ROSS SHOP, Jewelry, Watch and Clock Repairing. 37-tc

A little son was born to Mr. and Mrs. Jim Thompson at their home on Tuesday morning of this week.

Rispy Newton and Ira Johnson spent Sunday at McGirk with relatives.

Mr. and Mrs. V. F. Dupree spent the first of the week in Cleburne with relatives.

Tom White, Hamilton postmaster was a business visitor in Hico Wednesday.

Mr. and Mrs. Dink Henderson and son, Mack, of Cranfill's Gap, were here Sunday, guests of Mr. and Mrs. George Christopher.

Mrs. J. T. Mobley, son, Bud, and daughter, Betty, are spending a few days in Beaumont and Longview with relatives.

Paul Graves of Dallas spent last Friday in Hico visiting his grandmother, Mrs. J. M. Graves, and other relatives.

Mr. and Mrs. Jack Hooker of Dublin were here Sunday visiting her parents, Mr. and Mrs. H. Smith.

Mr. and Mrs. C. C. Smith and children of Temple spent the week end here with their parents, Mr. and Mrs. J. J. Smith.

Guy Aycock spent the week end in Garland visiting his son-in-law and daughter, Mr. and Mrs. Harry C. Alexander.

Mr. and Mrs. A. T. McFadden and son, Auburn T., Jr., of Ranger, were through here Friday en route to Waco for a visit with relatives.

E. H. Elkins of Stephenville was in Hico Tuesday morning visiting his son, Bill, and wife, and old friends here.

Mr. and Mrs. Paul Wren and Miss Mildred Houstead were visitors in Glen Rose Sunday afternoon.

Mr. and Mrs. A. L. Fiedler of Dallas are spending a few days here with her mother, Mrs. W. E. McAgully.

Miss Winnie McAnelly has returned home from Brady where she taught in the Brady schools the past year.

Mrs. Harold Snyder and daughter, Marie, and Mrs. John L. Wilson visited Mrs. Wilson's parents near Carlton Wednesday.

Mrs. L. P. Blair spent the week end in Jonesboro with her son-in-law and daughter, Mr. and Mrs. H. M. Goolsby.

Mr. and Mrs. R. O. Lackey were in Fort Worth Sunday visiting their daughter and family, Mr. and Mrs. S. J. Black.

Miss Margaret Ross, who is completing a course in beauty culture in Waco, spent the week end here with her parents, Mr. and Mrs. Lon Ross.

Mr. and Mrs. Leroy Baker and son, Don, of Gonzales, spent the week end here with Mrs. Baker's grandmother, Mrs. J. R. Simon.

Mrs. E. O. Boettcher and daughter, Carolyn, of Clifton were here the first of the week visiting Mrs. C. W. Bates and Mr. and Mrs. J. S. Dorsey.

Mrs. Roy Welborn who is taking a special course in beauty culture in Fort Worth spent the week end here with Mr. Welborn and children.

Mrs. H. Smith, Mrs. Louise Baldwin and Mrs. Annie B. Currie spent a part of the week in Temple where Mrs. Smith and Mrs. Currie took a few clinic tests.

Mrs. R. B. Welch and daughter, Betty, of Groesbeck, were here over the week end visiting her brother-in-law and sister, Mr. and Mrs. H. N. Wolfe and family.

Mrs. Sallie Pirtle was in Fort Worth last Friday evening to witness the graduation of her daughter, Miss Marie Pirtle, from Harris Clinic, as a nurse.

Misses Wilma and Marjorie Ruth Whigham of Cotulla are here visiting their uncle and aunt, Mr. and Mrs. Willard Leach, and also visiting friends.

Mrs. R. O. Segrest left the first of the week for Denton where she will attend summer school at North Texas State Teachers' College. Her son, Victor, took her.

Mr. and Mrs. Morris Shelton of Novice spent the latter part of last week here with their parents, Mr. and Mrs. C. W. Shelton and Mr. and Mrs. T. R. Thomas.

Miss Martha Johnson left the latter part of last week for her home in Waco after teaching English in the high school here the past year.

Mr. and Mrs. Carl Pontremoli and daughter, of Beaumont, and Miss Ernestine Pontremoli of Lonview were here last Friday, guests of Mr. and Mrs. J. T. Mobley and family.

Mrs. John Higgins and little daughter, Colleen, will leave the last of this week for Baton Rouge, Louisiana, for an extended visit with her parents. Her father has been in ill health for some time.

Alsey Alford of Dallas was in Hico the first of the week visiting old friends, and having some repair work done at the farm belonging to his mother, Mrs. J. R. Alford who resides in Dallas.

Mrs. D. R. Proffitt and son, James Lee, Mrs. Rispy Newton and daughter, Bobby Jean, Mrs. John L. Wilson Jr. and Mrs. Harold Snyder spent Tuesday with Mrs. Ira Johnson near Claiborne.

Mr. and Mrs. W. E. Petty spent the week end in San Antonio, and came back as far as Austin Monday and spent the night with Mr. and Mrs. Truman Holliday and daughter, getting home Tuesday afternoon.

Mr. and Mrs. Make Johnson and Mr. and Mrs. Norman Johnson spent Sunday in Stephenville with relatives, and heard Rev. Clarence Allen Morton deliver a sermon at the First Baptist Church there.

Mr. and Mrs. J. P. Rodgers and children left the latter part of the week for Kansas City, Mo. for a visit with his sister and husband.

Mrs. J. H. McNeill of Waco spent Sunday here with her parents, Mr. and Mrs. J. J. Smith. Her sister, Mrs. L. W. Weeks and son, Jack, accompanied her home Sunday evening.

Mrs. W. A. Stubblefield received a message Saturday morning that her brother, J. R. Foster, was operated on at the Jim Smith Memorial Hospital in Crockett, Texas, and was not expected to live.

Mr. and Mrs. R. L. Beaman and daughters, Roberta and Letta Mae, spent Friday, Saturday and Sunday visiting friends and relatives in Abilene and Coleman. Robert Beaman accompanied them home.

Norman Beaman arrived Monday afternoon for a short visit with his parents, Mr. and Mrs. R. L. Beaman. He left Wednesday morning for Abilene where he will attend the summer session at Abilene Christian College.

Mr. and Mrs. Dallas Blackburn and son of Dallas spent week end here with their parents, Mr. and Mrs. J. F. Blackburn and Mr. and Mrs. H. Smith. Mrs. Blackburn and son remained for a week's stay while Mr. Blackburn returned to Dallas Sunday night.

Mrs. B. B. Gamble, Emory Gamble and Lewis Harelik were in Fort Worth Wednesday where Emory visited a physician whose care he has been under for some time. He is improving rapidly now and will probably be entirely well again before many weeks.

Mrs. C. B. Houstead and daughters, Misses Elizabeth and Helen, of Fort Worth, and Mrs. H. S. Bengel and Evelyn Rae Bengel of Dallas were here last Friday evening to witness the graduation of Miss Mildred Houstead from Hico High school.

Miss Mildred Persons of San Angelo spent the week end here with her parents, Mr. and Mrs. E. H. Persons. Mildred is doing exceedingly well in social service work, having recently received another promotion, with a larger territory and a much larger salary.

Mrs. C. L. Hackett and son, Eugene, were in Fort Worth last Friday witnessing the graduation exercises of their daughter and sister, Dortha, from Harris Hospital, which were held at 8 o'clock that evening. Dortha, now Mrs. Dan Odell, accompanied them home for the week end.

Mr. and Mrs. W. A. Stubblefield had as their guests Wednesday night Mr. William Moore and Mr. S. W. Worrell from Hamilton. It had been forty years since Mr. Moore had spent the night with Mr. and Mrs. Stubblefield, the last occasion having been when they were young married people, and to be sure they sat up until a very late hour talking over old times.

Earl J. Wilson, representing Feed Control Service, A. & M. College, was in Hico and Hamilton County during the week looking after the "pure feed law," and emphasizing the necessity of guaranteed mixed feeds. Mr. Wilson, who visits Hico frequently in the interest of his work, gives out much valuable information to the farmers in this community.

Mrs. Louise Baldwin, nurse in the Goose Creek schools, and her daughter, Betty, who attended Incarnate Word Academy in Houston the past term, came in last week to visit Mrs. Baldwin's parents, Mr. and Mrs. H. Smith. Mrs. Baldwin will return to Goose Creek within the next few days, but Betty will remain here for the summer.

Mrs. T. J. Kemp of Hillsboro, Mrs. D. C. Henderson and two children, Virginia and Douglas, of Vaughn, and Clarence Walker and two children, Hazel and Gladys, of near Bluffdale, were here the first of the week guests of Elder and Mrs. M. P. Walker. Mrs. Kemp is their daughter, Clarence Walker their son, and the others are grandchildren and great grandchildren of Mr. and Mrs. Walker.

Guy O. Eakins visited homefolks from Saturday until Tuesday. Mr. Eakins has been with the Department of Interior at the University of Texas at Austin for the past twenty-six months. He has been assigned to a position at San Juan, Texas, and will report for work there next Monday. Mrs. Eakins and children will move there as soon as arrangements can be made.

A group who went to Glen Rose for a two-day outing on Sunday and Monday of this week included: Mr. and Mrs. B. B. Gamble, Mrs. H. N. Wolfe, Lewis, Sylvia and Florence Harelik, Clara Kingsburg, Katherine Massingill, Mamie Louise Wright, Tom Herbert Wolfe, Jean and Jan Wolfe, Ben Chensuit, Mary Jane Clark, Helon and Emory Gamble, Jeanette and Daisy French, Marguerite Vickrey and Rachel Marcum.

Miss Saralee Hudson left Wednesday for Ganada, Texas, and from there will accompany Dr. and Mrs. James M. Bauknight and two children to Washington, D. C. and Atlantic City, New Jersey. Miss Hudson will go from Atlantic City to points in Virginia for a visit with relatives. The party will also visit New York City before returning to Texas. Mrs. Bauknight was formerly Miss Margaret Mings of Hico.

BOY SCOUTS Troop 99

Help Boys Go to Jamboree, Warden Lawes Urges

Lewis E. Lawes, Warden of Sing Sing Prison for the past 18 years, believes that the National Scout Jamboree to be held at Washington, D. C., June 30 to July 9, provides an unusual opportunity for Americans to "perform a constructive service for our future manhood."

The Jamboree, he says, will be one of the greatest events in the history of American boyhood. It will bring together more than 25,000 boys of every state in the nation and from 24 foreign lands for ten days of camping together, excursions, pageants and fellowship at their 350-acre "tent city" on both banks of the Potomac River.

"Today, in many communities of the country," Warden Lawes said, "boys are preparing to go to this great Jamboree. But, there will be countless others who though willing and deserving to attend, will not be able to do so because of economic reasons. Permit me, therefore, to make the following proposal, which I assure you is my own, and not suggested to me by the National Boy Scout organization:

"May I propose that citizens provide the means which will enable at least one Scout from every community to attend the Jamboree?"

Warden Lawes feels that in its 27 years the Boy Scouts of America has become a vital force in American life, having touched the lives of more than seven and a half million boys and men. He disclosed that an impartial survey of the Boy Scouts showed that while one of every 240 non-Scouts was a juvenile court delinquent, only one of every 978 active Scouts was a delinquent. While he believed it would be erroneous to conclude that Scouting itself accounted for this vast difference in ratio, there can be no doubt, he says, that "the favorable influence of the Scout Movement was to a large extent responsible."

"Children usually pattern their behavior upon that of someone with whom they come in contact, and respect. The ideals which are instilled in their minds represent an essential preparation for later life. The influence of our trained social leaders is therefore of vast importance. I urge as many of our citizens who can qualify, to take up this task of educating youth along lines of good citizenship."

"When the National Scout Jamboree convenes in Washington, Scouts from this country will take part in many activities. Those young men—of our country and of other nations—represent the leaders of tomorrow. We know that very often complications between countries arise because men lack an understanding of their fellow beings."

We were very sorry to learn that our Scoutmaster, T. M. Rogstad, moved to Clifton Sunday, but we hope that our former Scoutmaster, Bob Jenkins, will be able to take his place.

Meeting Postponed. Last Monday, Troop 99 could not meet because of the absence of Scoutmaster and assistant. However they met on Tuesday night with former Scoutmaster Bob Jenkins. It is hoped that he can continue as Scoutmaster.

Inspection. Last Tuesday night a personal inspection was begun. All the clothing of the Scouts at meeting were inspected and demerits given for any sort of dirt.

Also on Sundays an inspection will be made to keep record of Sunday school attendance.

WEATHER REPORT FOR PAST SEVEN DAYS GIVES LOCAL OBSERVER'S DATA

The following report, submitted by L. L. Hudson, gives conditions locally as reported to the Chronological Service of the Weather Bureau of the U. S. Department of Agriculture:

Date	High	Low	Prec.	Day
May 26	88	71	0.00	pt cdy
May 27	90	65	0.00	pt cdy
May 28	93	68	0.00	pt cdy
May 29	88	72	0.07	cloudy
May 30	87	69	0.03	cloudy
May 31	84	66	0.80	cloudy
June 1	84	64	0.00	cloudy

Total precipitation so far this year, 7.43 inches.

WORD OF WARNING GIVEN TO PROSPECTIVE CAMPERS

AUSTIN, Texas, May 13.—As the summer season approaches, a word of warning is timely to prospective campers. Boy Scouts, Girl Scouts, summer vacationists, fishermen, and others who enjoy getting out into the open, relative to the possible dangers that may be encountered from the standpoint of contracting infection under the changed environment. This is especially true of diseases that may be transmitted through food and water supplies.

Typhoid fever is a disease the spread of which is greatest, as a rule, where there is the least sanitation. It is an unnecessary and preventable disease. It is spread from person to person by water, milk, fingers, flies and food. Every case is contracted by taking into the mouth some substance contaminated with typhoid organisms, and these occur only in nature in the bowel and bladder discharges of persons sick with typhoid or from carriers, persons who have had typhoid and who after recovery still harbor the germs in their systems.

Persons planning a vacation or trip where sanitation may not be rigidly enforced or where food handlers are not regularly examined should protect themselves against this disease by being vaccinated. Three inoculations with typhoid vaccine, a week apart, are necessary to secure protection against this disease and the immunity established is good for two years. The purity of water or milk cannot be judged by looking at it.

Received Broken Bones.

Max Ragsdale received a broken right arm Tuesday morning when he fell from a ladder at their new home at the end of Pecan Street.

Frank Sears is recovering after receiving a break in bones of his right hand a few days ago while cranking an old car.

A Mackey boy about fifteen years of age broke his right arm Saturday night while cranking their car as they were preparing to go to their home in the Clairette community after attending the local picture show.

According to reports, all parties are getting along nicely.

Mrs. G. C. Keeney left Sunday afternoon for Waco where she will attend a school sponsored by the Salisbury Laboratories. Those enrolled in this school will be instructed in the cause, treatment and cure of disease in poultry. When Mrs. Keeney has completed this course she will be fully prepared to help the poultrymen with any and all of their poultry problems. This is just another free service that Keeney's are adding for the benefit of their customers.

Mr. and Mrs. Lusk Ragsdale spent the week end in Denton and witnessed the graduation of their daughter, Miss Jeanette Ragsdale from C. I. A., which was held Monday morning. They returned home Monday afternoon accompanied by both Misses Jeanette and Flossie Ragsdale who will spend the summer here. Miss Flossie has one more year at C. I. A.

Honey Grove H. D. Club Has Two Interesting Meetings.

The Honey Grove Home Demonstration Club met with Mrs. Bob Jackson May 19. As we had gotten our meeting date wrong there was no program planned. We discussed the rag and paper plan, also the dress contest. Miss Jewel Henderson was elected delegate for the short course.

Banana ice cream was served to Mesdames W. A. Moss, Anson Vinson, W. J. Henderson, J. W. Jordan, Lattie Slaughter, J. S. Lemmond, Lena Coffman, Avery Coffman, the hostess, Mrs. Jackson, and Miss Jewel Henderson. The visitors were Mrs. J. S. King, Misses Annie Lou Moss and Ester Lee Jordan.

On Wednesday, May 26, the Club met with Mrs. W. A. Moss. Miss Sallie Jones met with us and gave a demonstration on canning tomatoes, which was very interesting. She also discussed table etiquette, linen, dinnerware, glassware and silverware. Some recipes and samples of Satina, La France and Sure Jell were handed out to the group. Everyone enjoyed the meeting very much.

The next meeting will be with Mrs. Avery Coffman, June 16th. The program will be "More Tomatoes in the Diet."

Punch and cookies were served the following members: Mesdames Anson Vinson, W. J. Henderson, J. W. Jordan, Bob Jackson, Lattie Slaughter, Lena Coffman, J. S. Lemmond, J. W. Burden, J. L. Faulk, Misses Jewel and Annie Henderson, Sallie Jones, the hostess, Mrs. Moss, and daughter, Anna Lou. The visitors were Miss Annalee Faulk and Miss Slaughter.

Mrs. Bates Entertained Club Members And Guests

Mrs. C. W. Bates entertained members of the Contract Bridge Club, and a few guests last Saturday afternoon at 1:30 with a luncheon and followed by games of bridge.

Cape jasmynes were used in the open rooms for decorations where three tables were arranged for the games. A two-course luncheon was served to the members and the following guests: Mrs. Paul McCullough, Goldthwaite; Mrs. Odie Mings, Aruba, Dutch West Indies; Mrs. Joe Clark, Wichita Falls; Mrs. R. B. Welch, Groesbeck; Miss Emma Dee Hall, Dallas; Miss Saralee Hudson.

Mrs. Woodward Hostess To Contract Club Members

Mrs. C. L. Woodward was hostess to her bridge club on Tuesday afternoon of this week when daisies and corn flowers were used for the floral decorations.

Refreshments were served to the members and Mrs. Odie Mings, Aruba, Dutch West Indies, Miss Saralee Hudson and Mrs. H. E. McCullough.

Mt. Zion H. D. Club Met With Mrs. Tom Griffith

The Mt. Zion H. D. Club met with Mrs. Tom Griffith May 20, with a cooking school. Chicken pie, stuffed onions, peach cottage cheese salad was the menu for the afternoon, together with cake and iced tea. A delicious luncheon was served to the eight club members and six visitors.

Names were drawn and four visitors received prizes. Games and contests were played and all had a wonderful time.

Our next meeting was held with Mrs. J. L. J. Kidd May 27. New ideas for cutting a pajama and petticoat pattern was the diversion for the evening, also fitting Mrs. Nachtigall a foundation pattern.

Refreshments were served to Mrs. Honeycutt and daughters and granddaughter, Mrs. Walker and children. Mrs. Hathcock, Mrs. Simpson, Mrs. Griffith, Mrs. Nachtigall and children.

The next meeting will be with Mrs. Walker June 10.

To Preach On Streets.

After I announced I would preach on the streets last Saturday afternoon, some unexpected work came up, so will preach, the Lord willing, next Saturday on the subject I announced for last Saturday.

Say, dear reader, how much thought have you given to your Eternal Home since you read my announcement in last week's paper?

M. P. WALKER.

News Of The World Told In Pictures.

Boom of Southern Industry Aids War Veteran, Gassed at Verdun

WAR-SCARRED Bill Holcombe of Cedartown, Ga., credits the growth of Southern industry for putting him back on the comeback trail today after he had spent hopeless years in a United States veteran's hospital.

Gassed at Verdun during the World War, Holcombe spent several years in the government hospital. His shattered health interfered with his efforts to eke out a living and his responsibilities were increased when a daughter, Nellie May, nicknamed "Little Star," was born.

The slight compensation from the government wasn't enough. However, Cedartown began to thrive—industry came to the South. Then he learned that the National Oil Products Company of Harrison, N. J., had bought a plant in his home town as a base for Southern operations. The new plant was near the Goodyear Rubber Company plant, both far from a restaurant or refreshment stand.

"There ought to be some kind of restaurant for the workers out near those plants," Bill mused one day. The next day he drew his meagre savings from the bank, and was ready to begin on his day-dream conceived restaurant. He named it "Little Star" after his pretty, seven-year-old daughter, and was ready for business.

Bill serves hamburgers and hot dogs as well as a complete line of groceries and beverages. Mrs. Holcombe does the cooking, but Bill

has a way with hamburgers, too. But pretty Nellie May has scored more of a hit among the men than her father's hamburgers. After school she takes orders, acts as a hostess and sometimes sings and dances for her favorites. She has aspirations for the stage, she confessed.

"Business is fine," said Bill. "My dream is coming true, thanks to Little Star. We are hoping to save up so Little Star can go to college. After she becomes a famous actress, we—ma and I—are going to quit work."

NEW USES FOR BY-PRODUCTS OF MILK

It certainly would astonish little Miss Muffet if she knew how ma uses science has discovered for milk since the days of curds and whey.

Suppose, for example, that Miss Muffet's modern granddaughter is invited out to a bridge luncheon. Her ivory-like vanity case,

The belt buckle and clip on the young lady's dress, the vanity case, hat ornament, manicure stick and other articles are made from casein by-products from milk.

cigarette holder, lipstick container and her pocket comb are made from milk by-products.

She shuffles cards that owe their gloss to milk, keeps score with a pen, whose barrel is derived from milk, on a pad of glazed paper whose glaze is a by-product of the same universal fluid.

The little ornament that adds gaiety to a chic sport hat may be manufactured from a dairy by-

product. So are the buttons on a new blouse or father's sport suit, or mother's shining belt buckle. For there are innumerable articles in daily use that derive from the original atelier of Madame Moo.

Milk by-products enter into the process of making such dissimilar articles as dominoes, book bindings, buttons, wallpaper and knitting needles.

To find wider uses for the so-called "surplus" milk and thereby further aid the dairy farmers income is a widening activity.

Butter-making extracts from milk the fat and a small proportion of the soluble constituents. The remaining milk solids are left in the skim, buttermilk and whey. In producing the butterfat for the 1,650,000,000 pounds of creamery butter which this country found use for in a recent year, there were some 3,000,000 pounds of milk solids left over. In addition to that, the cheese-makers had 300,000,000 pounds of milk solids not included in the cheese.

The important by-products of milk are casein, which comes from skim milk, and the various chemicals contributed by the whey, such as lactic acid, sodium lactate and calcium lactate.

Lactic acid may play a part in making the appetizer at dinner and the pastry at the end. It is used in leather goods and in paints and may also have helped make the soft drink at your soda fountain.

The vigorous youth of the milk by-products industry is strikingly shown by government figures. As recently as 1920, this country produced only a third of the casein it needed. By 1934 imports were a mere four per cent. American milk

companies furnished the rest, with Wisconsin and California sharing honors as the largest producers.

Used in plywood for airplanes, casein helps man to fly, in chemical sprays, it helps insects lose interest in flying. Experiments have even been made with it as a synthetic fabric resembling wool, an undertaking that must make the cow feel rather sheepish.

Casein products are of two sorts—the plastics and the glue family. Beads and buckles, pocket combs and poker chips belong to the former group. Casein glue figures in

Coat, vest and sleeve buttons of the busy executive, cigarette holder, pencil, calendar pad base and blotter are made of milk plastics.

paper and paint, linoleum and leather, upholstery and book binding—to mention just a few.

Magazine paper acquires its glossy finish by being dusted with fine china clay after being surfaced with casein glue.

Community Honors Steel Man

Left to right: George M. Verity, veteran steel executive; D. E. Harlan, chairman of citizens' committee; and Mrs. Charles R. Hook, artist who designed plaque.

HAPPY RELATIONS in business, civic and industrial life are not impossible, George M. Verity, chairman of the board of The American Rolling Mill Company, said in accepting a bronze plaque presented him by citizens of Middletown, O., on the occasion of his seventy-second birthday.

The plaque was given the veteran steel executive on behalf of the community by a committee, representing labor, industry and business and professional men, in appreciation of his "example and encouragement in the development of a higher type of citizenship in our community."

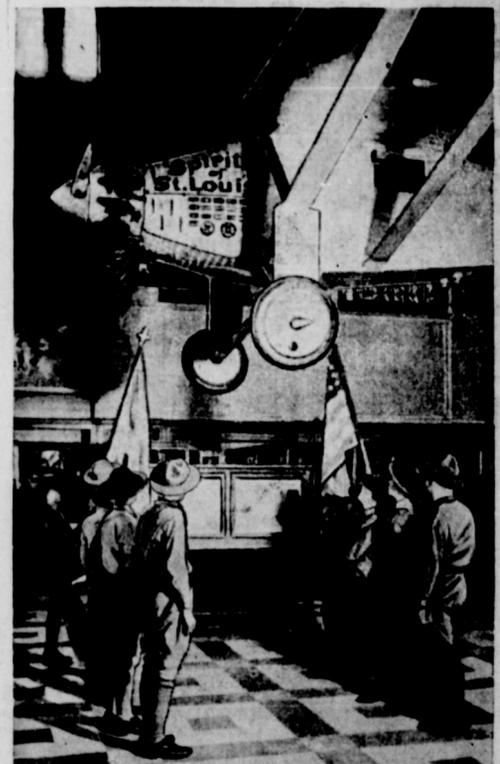

"It has been assumed—but

wrongly so—that happy relations in business, civic and industrial life are impossible," Mr. Verity said. "You, as friends, neighbors and associates, have taken up the battle-cry that you want peaceful, happy communities, and you have in your own hearts approved such business and community life. That is the reason it has come about."

The plaque was designed by Mrs. Charles R. Hook, a talented artist.

Last year citizens of Middletown declared a community holiday to honor Mr. Verity for his leadership in community development.

Lindbergh's 'Partner'

THE "Spirit of St. Louis," the other half of the famous Lindbergh team—"We"—will be visited by more than 25,000 Boy Scouts of all parts of the nation when they converge on Washington, D. C., for their first National Jamboree, June 30 to July 9, on their own 350-acre tented city on both sides of the Potomac River.

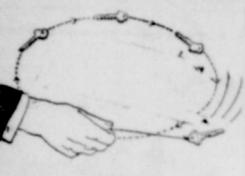

The famous plane, in which Col. Lindbergh made his epic flight from New York to Paris ten years ago May 21, is housed at the Smithsonian Institution in Washington where Boy Scouts are shown inspecting the craft. The St. Louis Jamboree Contingent will make a special pilgrimage to the plane.

Max, Gentle Bull-Of-All-Work

SEATTLE, Wash. . . . Max, an amiable three-year-old bull on the farm of George Oakes near here, will plow, haul hay or wood, and pull stumps out of the ground. Mr. Oakes, who is driving Max, says that hard work is a sure way to keep the fight out of a young bull.

FUN with FACTS

THE FUN

Fasten one end of a three or four foot piece of elastic or string to a key or other object of similar size and weight. Taking the other end of the elastic, draw the key slowly across a desk or table. Draw it across rapidly. Now draw it slowly in a direction following the circumference of a circle a foot or so in diameter. Draw it around this arc rapidly. In this last case you will see that the weight goes tumbling out of the circle. Try it at various speeds, and over the imaginary circumference of circles of varying widths.

THE FACTS

Inertia is the tendency of bodies in motion to remain in motion in a straight line. On a curve, the car, tending to continue in a straight line, exerts considerable force in the direction of the outer edge. At low speeds there is more time in which to change gradually the direction of the car. At high speeds the car continues in a straight line and goes off the road at the curve. There is no way of evading the laws of inertia.

Types of buttons and belt buckles in many colors that are made from by-products of milk.

Hands Across the Rio Grande

Prelude to the June 15 opening of the Pan American Exposition at Dallas, Josephus Daniels (left), U. S. Ambassador to Mexico and Dr. Francisco Castillo Najera, Mexico's Ambassador to Washington, were honor guests at a dinner in Dallas. Of the coming fair, Dr. Najera said: "It shall be a new milestone in the ever-widening road leading to complete friendship, understanding and cooperation among the countries and the people of the Americas."

On Dime Tour

LOS ANGELES . . . Sir Harry Lauder, now 67, arrived here from New Zealand on a round-the-world cruise which he is financing with dimes saved during his long stage career.

John D. Dead at 97

ORMOND BEACH, Fla. . . . John D. Rockefeller, Sr., died here May 23, little more than a month before his 98th birthday.

JOE GISH

YOU GOTTA START T'DAY T' BUILD T'MORROW

His Honor Goes to Town

An ardent devotee of swing, Mayor John S. Hutton of Opelika recalls off a number with the assistance of Texasita Helen Young at the Pan American Exposition opening in Dallas, June 12-October 31. Mayor Hutton made the trip to rehearse Texasitas for the East Texas Fiddlers Reunion, Athens, May 28. The best fiddle band in the contest will be invited to the Exposition.

Scouts At Jamboree

WASHINGTON, D. C. . . . Boy Scouts greeted Congressional leaders who came to attend their jamboree breakfast at the capitol. More than 25,000 scouts from every state in the Union and 24 foreign countries were present.

Hints For Homemakers

By Jane Rogers

THE next time you start out on a shopping tour put a few pieces of candy in your handbag. Sugar is one of the world's greatest energy foods, and it's simply marvelous how a couple of pieces of candy in the midst of a long afternoon in the shops will drive away that exhausted feeling, giving you plenty of energy to carry on.

A Turkish towel placed in the bottom of the dishpan or sink will greatly lessen the chance of breaking fragile glass or chinaware while it is being washed. The glass and china should not be placed in the dishpan until it has been filled with as much water, of the desired temperature, as you need.

Three Little Words—"Can You Cook?" Led Him to the Ends of the Earth

Martin Johnson, who photographed thousands of lions in the wilds of Africa, killed only two. He told me that during twenty months of his last stay in Africa, he saw more lions than he had ever seen before; yet he never fired a gun once. In fact, he didn't even carry a gun.

Some African explorers like to come back and tell about their blood-curdling experiences; but Martin Johnson believed that he or any other man who really knows the wild animals of Africa can walk from Cairo to the Cape armed with nothing more deadly than a bamboo walking stick and never suffer any harm.

Martin Johnson started roaming the world when he was fourteen years old. His father was a jeweler in Independence, Kansas, and when Martin was a boy he used to unpack the crates that came from the farflung corners of the compass. He was fascinated by the strange colorful names on the labels—Paris, Geneva, Barcelona, Budapest—and he determined to put the dust of those towns under his heel. So one day he ran away, tramped over the United States and finally shipped on a cattle boat to Europe. Landing in the old world, he worked at anything he could find, but he couldn't always find work. He went hungry in Brussels; in Brest, he stood gazing across the Atlantic, discouraged, and homesick; and in London, he had to sleep in packing boxes. In order to get back to America and Kansas he hid himself as a stowaway in the lifeboat of a steamship bound for New York.

Then something happened which changed the course of his whole existence and set him out on trails of glamorous adventure. An engineer on the boat showed him a magazine containing an article by Jack London. Jack London in this article told how he intended to make a trip around the world in a little thirty-foot boat called the Snark.

As soon as Johnson arrived home in Independence, he wrote a letter to Jack London. He poured out his soul in eight feverish pages, and begged to go along on that trip. "I've already been abroad," he wrote. "I started from Chicago with \$5.50 in my pocket, and when I got back, I still had twenty-five cents."

Two weeks passed—two weeks of nerve-racking suspense. And then came a telegram from Jack London. It contained only three words—three words that changed Martin Johnson's life. "Can you cook?" the telegram inquired with telegraphic abruptness and brevity.

"Could he cook? Why, he couldn't even cook rice. But he wired back precisely three words—"Just try me"—then he went out and got himself a job in the kitchen of a restaurant.

And when the Snark finally sailed across the rippling waters in San Francisco bay, and nosed across the Pacific, Martin Johnson was broad as chief cook and bottle washer.

Almost thirty happy years have passed since then—years packed with action, for Martin Johnson sailed the seven seas and roamed all over the world from the coral island of the South Seas to the jungles of dreary, darkest Africa. He made the first pictures of cannibals ever shown in this country. He has photographed pygmies and gnomes, elephants and giraffes, and made pictures of all the wild life in the African veldt. He has brought back a whole Noah's Ark of fantastic creatures—brought back spoils of celluloid film that have been shown upon thousands of moving picture screens. He has captured and imprisoned a record of a perishing wild animal life—a photographic record that your great grandchildren may enjoy generations from now, when the many wild animals of Africa no longer exist.

Martin Johnson told me that a well-fed lion that has never been molested by man will pay no attention whatever to the scent of a human being. He has driven his automobiles into the midst of a bunch of fifteen lions and the lions just lay there and blinked like pussy cats. One lion even came over and started to chew the front tire. Another time he drove his car so close to a lioness that she could have reached out and touched it with her paw—but she didn't even so much as twitch a whisker.

I asked him: "Are you trying to tell me that a lion is really a good-natured beast?"

And he said: "Good heavens, no! The best way I know to commit suicide is to trust a lion. Why, you never know when he's going to become suspicious and turn on you. And there's nothing in the world more dangerous than a charging lion. It's just like having a hundred pounds of dynamite coming at you."

I asked him what he considered his narrowest escape and he said: "Oh, there have been lots of close calls. But they're all fun."

One of his closest calls was in the South Sea Islands, when he nearly ended up in a kettle of soup. That was when he was getting the first pictures of cannibals ever made.

White traders had been raiding the cannibal island, kidnaping the natives and selling them into slavery. The cannibals were hostile and suspicious—and hungry. They had already killed a number of white men and seized their goods; and after sizing up Martin Johnson, they figured that this chap from Kansas would make a nice tender pot roast for Sunday dinner. So while he was busy talking to the chief and laying out the presents he had brought along dozens of cannibals began to gather out of the forest and surround. Help was miles away. He had a revolver, but he was outnumbered a hundred to one. A cold sweat of fear stood out on his forehead. His heart raced and pounded but there was nothing to do but appear calm and keep on talking. And all the time he was being crowded in

A Lion Chewed up the Front Tire of His Auto.

by a ring of greedy cannibals licking their chops in anticipation. For the first time since he had left Independence, Kansas, Martin Johnson began to think it might not have been a bad idea if he'd gone into the jewelry business with his father.

And then, just as the cannibals were about to rush, a miracle happened. Into the bay far below steamed a British patrol boat. The cannibals started. They knew what that meant. Johnson stared, too, hardly able to believe his own eyes. And then, with a low bow to the chief, he said: "You see my ship has come for me. Glad to have met you all. Good-bys." And before anyone summoned enough courage to stop him, he made a dash for the shore.

NUMEROUS REQUESTS FOR FIELD TRIPS OVER PROJECT

Mr. W. R. Heizer, Soil Conservationist on the Dublin Soil Conservation Project, states that numerous requests for field trips over the project area are being received. These requests are from vocational agriculture teachers, county agents, rural schools and civic organizations. "It is evident that one or more visiting groups will make trips over the project each day of the special visiting period during the last two weeks in May," Mr. Heizer reports. Special features requested during this designated visiting period are "son, father and neighbor" groups sponsored by FFA Chapters. Several of these chapters now have dates designated for field trips. On May 28th, newspaper men, bankers and other interested business men were guests of the Dublin Development Club for a field trip and luncheon consisting of home grown and home processed products. Members of the project staff accompanied visitors to explain the various erosion control measures used.

Marvin Bell of Groesbeck was in Hico a short time Wednesday visiting old friends and visited the News Review office to have the paper sent him for a year. Mr. Bell, who is in the contracting and lumber business had been to Iredell to bid on the new school building which will be erected soon. Recently Mr. Bell contracted buildings amounting to \$250,000. His wife and twin daughters, Annette and Janette, came as far as Carlton with him and visited her mother, Mrs. Callie McKenzie.

Mr. and Mrs. Joe C. Gladney of Henderson came in Thursday for a few days' visit with Mr. and Mrs. R. L. Holford and daughter, Mrs. Gladney and Mrs. Holford are sisters.

'These Texas Gals,' Sighs Andy-'Oh, Me'

When oil business brought Charles Correll flying to Texas, a welcoming Texanita of the Pan American Exposition prompted him to repeat the sigh that, as Andy, of Amos and Andy, he has given on the radio networks many nights lately—"These Texas gals, Oh, me!" Victim of a "Texas gal" and her father in an oil promotion in the radio skit continuity, "Andy" gave out no details of reason for his hasty trip. He was greeted at Dallas airport by Eleanor Akers, pretty hostess of the international fair opening June 12, in Dallas.

MARY JANE CLARK TO GO TO FORT WORTH SATURDAY AS 'MISS HICO' REPRESENTATIVE

Following the Beauty Pageant, held at the school auditorium Tuesday night, May 25, in which Miss Mary Jane Clark was selected as the winner in the beauty contest, arrangements have been made by a Hico Chamber of Commerce Committee to have Miss Clark enter in the Texas Sweetheart No. 1 contest to be held at Fort Worth Saturday night, June 5.

The winner of this contest will be awarded a place in the Casa Manana Revue at the Frontier Fiesta, opening the latter part of this month, and will receive many opportunities such as were offered Miss Faye Cotton of Borger who won last year's contest.

The entrants numbered 69 Wednesday, according to announcement from headquarters, and the number was growing so that the place for the event to be held was changed to Municipal Auditorium. Miss Clark will be accompanied by her parents and other local parties, and it is hoped that as many as possible will be on hand for the judging and attendant events.

A letter from Boyce House to the editor of the News Review stated that he had seen a photograph of the Hico entrant, shown him by Miss Mary Winn, and both were very complimentary of the young lady's appearance and optimistic over the possibility of her being toward the top in the judging.

Ray D. Brown of Josephine, Texas, was a visitor in Hico on Tuesday of this week. Mr. Brown, superintendent of the Josephine Schools, has been elected superintendent of the Hico Schools for the next three years. He and his wife and baby will move to Hico the first of July, having rented an apartment from Mrs. Porgy.

Roline Forgy is recovering from a tonsillotomy operation performed by Dr. H. V. Hedges on Tuesday of last week at his office here.

BITS OF PHILOSOPHY

Dean E. V. White
Texas State College For Women

Plenty of sleep is wise, but wisdom is not attained while one sleeps.

We can learn much from those less successful than we.

Troubles stay longer when you are companionable with them.

Education is more than an admirable vocabulary.

NOTICE!
I have moved to the Bill Hardy Barber Shop, and invite my old customers, and new ones as well, to come there for work. I appreciate your business.—J. T. Gregory.
