tain - and so - unappreciative of sister's hand. your love. But I can't seem to think tonight!"

He was a wise young man and he saw that he couldn't get any further tonight.

He studied her for a moment and then his Hps set in a firm line of determination.

"Very well," he said quite cheerfully. "I am just your friend for but a very special friend, you know. One whom you may call upon for anything. Will you feel that?

She smiled with relief.

"Yes," she said. "Thank you! Good night!" and she put out her hand and gave his a brief impersonal clasp. Marjorie found she was too ex-

cited to sleep when she laid her head on her pillow. But strangely enough it was not on the eager protests of love that her mind dwelt most during that night's vigil, but more on his insistence that she should not search out her people. And the more she thought of it, the less she thought of Evan.

She awoke in the morning with the definite purpose in her heart to get the matter over with at once. She would start right away, before anything else could possibly delay her. If any more people came in and tried to turn her from her purpose she would become bewildered again.

that left the city a little after six tone of this hostile sister. Marjothat night.

She took her check book and glance. plenty of money, carefully stowed "Are you really my sister?" as she had been taught to do when "I suppose I must be," said the traveling. She left no address with other girl listlessly as if it didn't anybody. She did not want anyone in the least matter, "there's your coming after her to try and hin-der her in whatever she should Maybe you'll recognize that. If you

self! 'Does Mrs. George Gay live here?"

She said the words because she had prepared them on her lips to say, but she was so startled at the apparition of herself in the flesh standing before her that she did not realize she had asked the question. She just stood there and stared and stared at this other girl who was so like and yet so unlike herself.

The other girl had the same cloud of golden hair, only it was flying in every direction, not smoothly waved in the way it ought to be: the same brown eyes. only they were full of bitterness and trouble, and a kind of fright in the depths of them; the same

One of the things which makes this newspaper business that I have been following for half a century so fascinating is the friendships one makes among other members of the craft. There is something real and enduring in the comradeship which makes all of us ready to help out a fellowworker in time of need.

I happened to be within earshot when Mrs. Lawrence W. Robert, Jr., called for help a few days ago. Mrs. Robert is the wife of a distinguished engineer, who is also a political figure in Washington. In her own right, however, she is a newspaper woman, whose daily column, "Eve's Rib," appears in the Washington Times and other papers.

"Evie," as all Washington calls her, is going to have a baby soon. How to keep her daily column-going while she's in the hospital is a problem which she solved by calling on her newspaper friends to pinch-hit for her. We all responded, and this week I'm passing on the column I wrote for Evie Robert.

IMPROPER . . . . . . weapon

It certainly seems to me that it is improper for any government to collect taxes for any other purpose than that of supporting the government. There is a growing tendency among politicians to use the taxing power as a weapon to discipline people or institutions they don't like.

the

rolls.

parties These real Washingtonians have never been greatly concerned a-bout the political complexion of the Administration in power. They are used to all kinds, and would as soon shake hands with a Republican as a Democrat.

There was a great deal of curiosity. I recall, as to what sort of people Democrats were, when Mr Cleveland first came to the White House in 1885, after 25 years of Republican rule. It did not take long for Washington folk to discover that Democrats were as human as Republicans, even if the newcomers did have different table manners.

Among the old friends of the District, whose forebears were of Maryland and Virginia pioneer stock. I think there has always been a more friendly feeling toward Democrats, by reason of the traditional Southern dominance of that party.

Now, after six years of oneparty domination, the new Republican members of Congress are almost as strange beings as were the Democrats who came in with Cleveland. Some Washingtonians are still waiting to be convinced that Republicans are human.

GOSSIP . . . . . . malicious In one aspect Washington has definitely not changed in the memory of living men. It is still the hottest hotbed of gossip in America, most of it malicious,

Newcomers to Washington are frequently appalled by the tales they hear, told as gospel truth, about the morals and conduct of officialdom, from the White House family down.

Most of such gossip is dis-counted about 100 p-r cent by those who have known Washrg. ton through a dozen administrations. People told the same stories, or worse, about every President from Washington down. oue is the sort of person who lends a ready ear to scandal, you can hear any sort of slander you want to hear, about the President or any member of the Administration or Congress.

Since I came back to Washing-'on last Fall I've heart the identical scandals, dressed up in modern verblage, about the people now in high places, that I used to bear half a century ago about their pre-Gecessors

I don't believe them now any more than I did then. Having had. in one degree or another, some personal acquaintance with every President since Grant, I don't beleve any of them could have got to the White House if he had been the kind of a person the gossip-mongers would make him appear

#### for couboy clothes or anything western a couple of weeks ago, and now comes word from Fort Worth, Texas, that he has been booked to play the Southwestern Exposition and Fat Stock Show there from March 10 to 19. That will give Mr. P. W. a chance to renew old acquaintances, ride the range on Amon Carter's ranch and do two of his network shows from the Lone Star State.

Paul Whiteman Ride 'em Couboy

Connie Vance, secretary to madcaps Gill and Demling, is the only steno we know who doesn't raise an eyebrow when told to report for work dressed in hip boots, bathing suit or jodhpurs. She follows her hosses from beach to bridle path, jotting down quips as they let them fall.

We mentioned Paul Whiteman's penchant

John J. Anthony has been signed for another year to conduct the Original Good Will Hour on Mutual and is readying a newspaper column along the same line.

Latest addition to the popular Betty & Bob cast is Stanley Harris in the role of a newspaper man. Harris has done everything from play ball to crack up in an army plane and still hasn't quenched his thirst for adventure.

Bob Trout celebrated his sixth anniversary of helping President Roosevelt celebrate his birthday when he introduced him on the air the other week on that occasion.

The characters and atmosphere in The Story of Mary Mariin are really authentic, whether the action be in this country, Europe or Asia. Authoreus Jane Crusinberry spent many years on each Continent and writes from first-hand experience.

When Bob Hope insisted that bandleader-singer Skinnay Ennis also do comedy lines on his broadcast he almost had a war on his hands. Ennis finally gave in

and as a result he has a new motion picture contract. Bob is still kidding him. Benny Goodman and his swingsters head for the west coast to do a two weeks' stand at the San Francisco Fair, starting March 15. Their cut will be \$12,500 per, plus percentage. Who said swing is on the wane?

## and GEAR-GRIP TREAD

CAR OWNERS everywhere are acclaiming the extra blowout protection and non-skid safety of the new Firestone Champion Tire. And automobile manufacturers, knowing its outstanding performance, have adopted it for their new 1939 models. On every hand you hear, "It's the most effective tire we have ever had on wet pavement and in mud and snow!" It's the hit of 1939!

The Firestone Champion Tire is a completely new achievement in safety engineering and the result of a new and revolutionary means of locking greater safety into the cord body of a tire. This is accomplished first, by the use of a new type of tire cord called "Safety-Lock," in which the cotton fibers are more compactly interwoven to give greater strength. And then the fibers in each individual cord, the cords in each ply and the plies themselves are all securely locked together by a new and advanced Firestone process of Gum-Dipping, which provides amazingly greater strength-and greater strength means greater safety.

The new Safety-Lock cord construction gives the added strength that makes ossible the use of the new thicker, tougher, deeper Firestone Gear-Grip Tread, which provides remarkably longer non-skid mileage. This sensational new

tread is called "Gear-Grip" because of its unique design which has more than three thousand sharp-edged angles that grip the road with a surefooted hold to protect\_against skidding and to assure a safe stop.

World's Safest Drive

Come in today and equip your car with a set of new Firestone Champion Tires, the only tires made that are safety-proved on the speedway for your protection on the highway.

THE HICO NEWS REVIEW

Editors: Daphine Hoover and Katharyne Cunningham

There is something about working hard and preparing a report and not having it published that just gets in my hair. I guess it is a good thing, though, because it seems that every time I open my mouth I put my foot in. I announced, with appropriate fanfare that the staging of our play was to be last Friday night. It seems the elements got together, took a vote, and decided "No!" with al the trimmings. This time I'm glancing around while I exclaim "We will present that play Friday February 24, providing the sky doesn't fall open as it did last Fri day. (Do any of you hear any thunder?)

this week so it's time to stop playing around and really get busy. If some one doesn't hurry and write down the answers to all the questions for further reference it makes me ill to think of the consequences.

#### Freshman News

We are very much excited this week because this is examination week. Some of the students are Those who are coming out for sof lette Abel, Wyvonne Arrant, Connie Mae Robinson, Nellie B. Brum mett, Mary Burney, Myrtle Duncan, Leona Simpson, and Thelma Anderson. We're hoping to win something this year. We haven't selected our captain yet, but we will soon. Miss Cook is our coach again this year.

We have been taking the tem perature and other weather re ports in Science. We found that the coldest day was last Friday, February 17, and that the average temperature is about 40 degrees

#### Sophomore News

The Sophomores are studying for the six weeks 'tests so we can make good grades. There are sev eral girls in the Soph class wh are entering in volley ball this year, and we hope we win some thing in that event.

Seventh Grade We had a basketball game with Iredell Monday night, Feb. 13. The girls were defeated by a score of 20-24. The boys were defeated by a score of 9--16. We enjoyed both

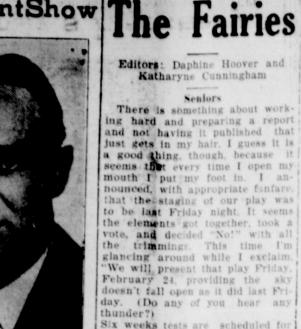

ready for six weeks' tests; we hope we make good grades. Fifth and Sixth Grades
