Pictured above is Capt. Herbert W. Underwood, 55-year-old expert on naval experience and techniques, who has been appointed to head the women's naval auxiliary school, "Waves." The school will be opened at Smith college, Northampton, Mass.

Second Front?

Hint of a second front was seen in the arrival in London of four American air force generals who will be responsible for operations of our fast-growing aerial armadas over Europe. Shown above is Maj. Gen. Walter H. Frank, heading the U. S. air service command.

Phil Cavaretta, outfielder and first baseman with the Chicago Cubs, is in his ninth season as a major leaguer, although he's only 23. The first fight in the present Madison Square Garden saw Paul Berlenbach win a 15-round light-heavyweight title over Jack Delaney on December 11, 1925. Babe Ruth's lifetime major league salary totaled more than \$896,000. Lefty Grove, Rube Walberg and George Earnshaw each won 29 or more games for the 1931 Athletics. Average time for American association games this season is 1 hour and 59 minutes. Last season it was 2:08. Joe Walcott, former welterweight champion, is employed as a janitor in a New York apartment building. Grover Alexander is tending bar in a New York tavern. Twenty-eight of the 49 players on Northwestern university's 1942 football team hail from Illinois. Strangler Lewis, almost blind a few years ago, is attempting a comeback. Weighing 340 pounds while inactive, he's back to 270.

HERE'S A PINCHER MOVEMENT WE CAN ALL USE ON THE AXIS

THIS AND THAT

By JOE SMITH DYER

In life most of us have to work but what we really want to do, is play. Therefore the short time that we are given here is made up almost constantly with protest. Millions of people think the millennium will be reached when the hours of labor will be less and less as machines do more and more. The disturbing truth is that idleness is very much more dangerous than slavery. Inactivity of body is a physical, mental and moral menace. In the future we are all going to work harder than ever because we will have to. So when, in these trying times, it comes our chance to play we should know how to do it right. A good idea would be for all of us to become so interested in whatever it is we are doing that we might call our work "play." When we are not interested in our work life becomes a monotonous, tiring, dull grind. When achievement is reached life becomes the most interesting game that any of us will ever play.

WOMEN IN THE NEWS

By JANET CUPLER

WOMAN of the Week: The heroine of this week's column is not an individual. She is a sort of composite picture of a group of women who are doing their dangerous part for victory. For many months one of the strongest weapons of the Russian army has been the guerrilla fighter, and some of the best have been women. As you know, the Russian women do actual combat duty with the army and are among the most courageous of Russia's bomber pilots. They have even learned to use bayonets for hand-to-hand fighting. But equally valuable has been their eternal vigilance, their willingness to risk their lives to keep the Nazi military machine from running smoothly.

ENGLAND AT WAR: Here is another item about rationing. England's clothes allowance has just been cut 15 per cent. With her 51 coupons an English woman may now buy, in one year, one winter coat, one winter dress, one pair of shoes, one set of lingerie, two pairs of stockings and four handkerchiefs. By substituting a summer dress for the winter one she may also buy a slip and a corset. And instead of the winter coat she may buy a skirt, a sweater and a pair of ankle socks.

RESERVE NURSES: During the remaining part of 1942 the Red Cross must enroll 1,000 nurses a month. Why? Because the Red Cross Nursing service is the reserve of the army and navy, and every nurse called to service with the armed forces must be replaced by a student. The need is urgent, the opportunity great. Now more than ever Uncle Sam needs nurses.

SUNNY SIDE UP: Washington officials have announced that women registering for sugar may now give their age simply as "over 21." The rubber formerly used in a month for the manufacture of baby pants would make 2,800 rafts for war planes. A girl who works in a shoe factory wanted to send a message to her sweetheart in Iceland. So she found out when the next shipment of shoes was to be made to his base and slipped a note into every pair his size!

ON THE "WAVES": Chairman Carl Vinson of the house naval affairs committee has been quoted as saying that the duties of the newly authorized naval auxiliary corps may include some "culinary assignments." However, most of the work of the corps will probably be clerical and stenographic, as its purpose is to release able-bodied men from "desk" jobs. The first officers' training course is scheduled to begin early in October, probably at Smith college, Northampton, Mass. Enlisted women will be trained later at a middle western university. Northwestern has been mentioned as a possibility. It was thought earlier that the corps would be called the WANR (Women's Auxiliary Naval Reserve), but it is currently referred to as "Women Appointed for Volunteer Emergency Service," a clumsy title which leads one to suspect that it was made up to fit the nickname "Waves."

MARGINAL NOTES: Washington, D. C., has 23 policewomen. Women are working as life guards at many pools and small lake beaches, but so far they have not proved equal to the strenuous job of guarding the big ocean beaches.

WAAC DOCTORS: Two women have been appointed by the war department for duty as surgeons with the WAAC. They are Dr. Elizabeth Garber of Chicago and Dr. Mary L. Moore of Rifle, Colo.

SUNNY SIDE UP: Prof Ivan E. McDougle of Goucher college will probably never hear the last of this. You may remember that not long ago he said that the only way we can maintain our standard of living is by putting wives as well as their husbands to work. He thinks life has been too easy for the women, but they are certainly making it hard for him now!

gram, supplied with no charge, 9,768 Bibles, 382,587 New Testaments, and 156,877 religious tracts to men in the service for the year ending June 30th, 1942.

Besides these distributions the Society has supplied 718 large pulpit Bibles for Army Chaplains, and 336 similar Bibles for Navy service.

Last spring this Society started supplying Bibles to Russian prisoners of war and also to Japanese and Italian internees in the United States. The Italian branch of the Society in Rome has been kept open all during the present war and funds have been established for the publication of the Slovak Bible which will probably be published in Prague.

"PEARL HARBOR IS 'WROTE IN MY HART'"

"I've got Pearl Harbor wrote in my hart," says Mrs. Sarah Ditson of Cedar Grove, Mo. Mrs. Ditson wrote a letter to the Mounty Hazel Auxiliary of the American Legion, saying:

"I pledge myself that I will double the amount of hogs I raise in 1942 to what it was in 1941. If I can get the hogs and the wire to keep 'em in I'll raise four for the boys at war and two for myself here at home."

Mrs. Ditson is the mother of eight children, seven of whom are living. Her husband has been in bed for nine years and Mrs. Ditson has had full responsibility of raising her family. She lives on a one-year lease at \$35 a year. The income from her small farm will be around \$300 this year.

What better can be said of you than that you have friends?

To have friends is positive proof that you know how to be a friend. Friendship, as I have stated before, is a game of "give and take" and its root is reciprocity. Its growth is interdependence, its fruition the result of interchangeableness.

BARHAM, the Man and His Platform:

If You Feel That 12 YEARS IS Long Enough for the Present Co. Judge, and Feel that Clint Barham Is Qualified, Then Vote to Promote Barham.

THE MAN: Born and reared in Erath County. Married to Erath County girl and supports his widowed mother. Worked way thru school. Because of limited means has had to practice economy and thrift all of his life.

HIS RECORD: Served as County Attorney of Erath County for 3 1/2 years. Brought about convictions on pleas to over 90 per cent of cases. Shown already to people of county that he can handle their financial affairs in an efficient and judicious manner, as he has recovered over \$3,500.00 in money and property that swindlers and thieves took from them and handled over \$5,000.00 in official fees from fines through this office as your County Attorney.

HIS PLATFORM: Believes in economy in county government. Favors the final liquidation of the county's present indebtedness as soon as conditions will permit. Is for the securing of highways for the county when needed and for the improvement of lateral roads. Intends to work in harmony with the four other members of the Commissioners' Court.

By his energy, resourcefulness, and his experience, he believes that he can make you a good County Judge and will try by diligence and proper use of these qualifications to make you a better County Judge during this time of crisis.

BY VOTING FOR CLINT BARHAM YOU WILL BE VOTING FOR A MAN OLD ENOUGH AND EXPERIENCED ENOUGH FOR THE JOB, AND YOUNG AND ENERGETIC ENOUGH TO ATTEND TO IT.

CLINT BARHAM Will Greatly APPRECIATE Your Vote and Help for the Office of ERATH COUNTY JUDGE (Pol. Adv.)

What You Buy With WAR BONDS

Essential in the equipment of every Soldier, Sailor, Marine or Flyer is a first aid kit, consisting of bandages and antiseptics for instantaneous use. These materials are packed into a compact box and cost about \$1.50 each.

We need millions of these first aid kits for emergency treatment. They are also used by Red Cross workers, in field hospitals and wherever needed until hospital treatment may be obtained. Even a child could buy one or more of these kits through purchase of War Stamps. Buy War Bonds and Stamps every pay day and invest at least ten percent of your income in these government securities. On Guard... ROUND THE CLOCK to safeguard your family food supply

SUMMERTIME is vacation time, but not for your electric refrigerator. During the winter months it loafed along, using a minimum of current, but now it must work longer and harder to keep foods fresh and wholesome and to supply extra quantities of ice cubes and frozen desserts. Naturally, your refrigerator is using a little more electricity these sizzling hot days, but the added cost is small compared to the food savings it makes possible. Electric pennies save food dollars.

- Electric Refrigerator Economy Hints 1. Defrost regularly - at least once a week. 2. Do not crowd shelves - circulation is vital to efficient operation. 3. Do not open door oftener or hold it open longer than necessary. 4. Do not store hot foods in refrigerator - let them cool first. 5. Cover all liquids before storing them in refrigerator. 6. Avoid quick freezing as much as possible.
