SCRAP DRIVE CLOSES WITH CELEBRATION

Last Thursday the community gathered on the school grounds to close the scrap drive with a big celebration.

About 50 soldiers from Camp Bowie were invited to bring their tanks and help us celebrate. The first event was a sham battle with tanks on a plot of rough ground below the school.

Then everyone that wanted to, went into the lunch room and ate "scrap stew." There was also a program at the football stadium beginning with a group of patriotic songs led by Rev. Floyd W. Thrash.

This week we are presenting something special as a feature of The Mirror. We decided to determine by voting the most popular song hits of H. H. S. students.

This Week in WASHINGTON

Washington, D. C. (NWNS)—The senate surprised the nation when, with only five days of debate, it passed the gigantic tax bill which is expected to bring in around nine billion dollars in revenue to the government.

The senate tax bill spent so long in committee before it was finally brought to the floor of the senate, and it involved so many controversial issues, that it was expected to spend several weeks in the senate before a final vote was taken.

The chief difference between the house and senate version of the tax bill is that the senate measure calls for a Victory tax, above and separate from all other taxes, which would consist of a payment of 5 per cent on all salaries and wages of \$624 a year or more.

As an amendment to the tax bill, the senate approved the freezing of social security payments at 1 per cent instead of increasing the social security levy to 4 per cent as requested by the President.

Although the new tax bill, if passed, will practically eliminate the possibility of any man retaining over \$25,000 a year, and will mean that families of even moderate incomes will pay up to 25 per cent of their total earnings in taxes.

Secretary Morgenthau has already indicated that large additional taxes will be requested as soon as the present tax measure becomes law.

One of the leading subjects of debate here this week, and one that is probably more complicated than any which has faced the government so far, is the problem of drafting man power to keep our war industries going at top speed and at the same time supply labor to farmers and to necessary home industries.

If it comes to a point of actually drafting all available man power and putting each man in the job in which he will be most productive, typical problems which will arise are these: Will men with good-paying jobs be transferred to low-paying jobs and be forced to accept whatever wage the government decides they should get?

The answer to these questions will have to be decided partly by legislation and partly by the War Manpower Commission, headed by Paul McNutt, which is expected to request legislation to fit the plans it is formulating.

Although inflation will continue to be a threat so long as the people are earning more money than the total value of goods being produced, the new Economic Stabilization board, headed by James F. Byrnes, is believed to have enough power to prevent inflation if it sets up the proper controls.

The first move of the board, to keep the prices of food from rising in order to stave off increasing the cost of livestock and poultry, is expected to be of major help in stabilizing food prices. However, approval of the National War Labor board policy of permitting "cost of living" wage increases amounting to 15 per cent above the first of the year, is going to mean another big jump in purchasing power and consequent increased danger of inflation setting in wherever prices aren't under strict control.

The anti-inflation program is still full of loopholes which must be stopped up before exorbitant prices can be eliminated. One of the most difficult price problems to control is that of the sale of second-hand items by individuals.

But the chief worry of the American people—the price of food—is expected to be kept well in hand under the stabilization plans which are now being put into effect.

JAIL FOR BONDISTS

Every time we hear of a member of a German-American Bund not being in jail, it worries us. In joining a Bund, each member pledges to subject all other interests to the requirements of the Bund, those requirements being concerned with the spread of National Socialism in America and loyalty to Hitler and the German Reich.

FRONTS . . . second

Maybe, before this column goes to press, a second front will have been launched in Europe. On the other hand, maybe it will be another year before an honest-to-goodness second front is under way.

So if our leaders still consider it unwise to launch a second front at this time, they must have very good reasons for arriving at that decision. It would be a tragedy if they were to be influenced by public opinion instead of acting entirely on the basis of their knowledge of conditions as they exist.

WILLKIE . . . dissent

This fighting among ourselves over the second front issue must be very comforting to Adolf Hitler. After reading all of the various statements on the subject—such things as Willkie telling a press conference that he would say "what I damn please," and Representative Rankin of Mississippi telling the house that "Marco Polo Willkie has already caused more embarrassment to the Allies than any other man abroad"—it appeared as if Hitler's prayers for unrest would come true.

COMMUNISTS . . . danger

In New York city recently I watched a group of communists parade down the street shouting "Open a Second Front Now!" They were the same group of people whom I saw, before Russia was invaded, parading through New York carrying signs demanding that the United States keep out of the war and shouting, "The Yanks Aren't Coming!"

DELAY . . . strength

It is probably time we stopped thinking in terms of a second front and anti-ate, instead a "FIRST" front of the United Nations. The war as a whole will not be won or lost in Russia. If Russia should be defeated—which seems more and more unlikely—the war would continue until the other Axis had destroyed Germany, and then Russia would share in that Allied victory.

FAILURE MAY LEAD TO SUCCESS

Have you ever worked desperately to accomplish something and had it fail, and then, suddenly, and unexpectedly, have it turn out an aid after all? I'll give you an example: A dentist in Yonkers, N. Y., wanted to become a writer. He moved to a small town in Pennsylvania and began. His money ran out, and they lived on his wife's money. In five years he sold only four or five short articles. You will recognize the dentist's name—Zane Grey.

Grey had an idea. "Take me out West with you and let me write up your exploits," he said. "Can you write?" "Yes," said Grey, and gave him a copy of his novel. For three days he did not have the courage to return. When he did "Buffalo" Jones seized his hand and shook it heartily.

Nothing into which you have put your best efforts ever is wholly a failure. Some day, when you least expect it, it may prove the factor that will be your greatest help.

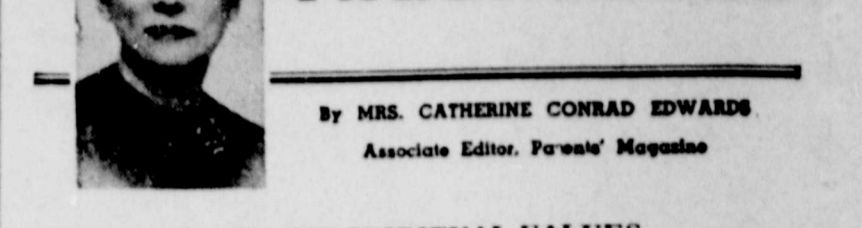

IT TAKES ONLY A MINUTE TO BE COURTEOUS

In 1936 a farmer near Marshall, Mo., drove to town, pulled over to the curbing to park and got out to do his "trading." As he climbed from his car, a car from another state drew into the white parallel lines near him. The man in the other car evidently had never been in the town before, for he called to two boys who were walking by and asked a question. The boys threw him a flippant answer and sauntered on. Again the man asked the question, and the boys made an even more ungracious response. The man had to inquire of some one else.

The club was to be open to all boys and girls between the ages of 10 and 18. There would be five judges who were to keep watch over the children, in their work and at their play as well as at school and on the streets.

Each was to function separately, and keep notes during the year. In November he called them together, to decide the winner. But the judges had had help, for every school teacher and club president was given a score card and requested to hand in notes and memos to be used by the judges. Thus with all the material before them, plus their own personal observation, the judges made their decision.

SUCCESSFUL PARENTHOOD

By MRS. CATHERINE CONRAD EDWARDS Associate Editor, Parents' Magazine

TEACHING SPIRITUAL VALUES

National Bible week gives us an opportunity to write about teaching your children spiritual values. Many of today's mothers and fathers missed such guidance in their childhood, for after the disillusionments of the last war a lot of parents hadn't sufficient grasp of spiritual things to pass them on to another generation. They hesitated to ask their children to accept beliefs of which they themselves were no longer sure.

As for church membership, that is an individual matter, but every child should have the Bible as part of his upbringing. The Bible stories in song, in reading, in motion pictures (there are excellent 16-mm shorts of Bible stories made and rented by Cathedral Films, Inc., Box 589, Hollywood, Calif.) are a

CHILDREN AND THE WAR

(This is a special article written by Janet Cupler substituting for Mrs. Edwards this week.)

How can we teach children tolerance? How can we help them not to be afraid? Shall we prepare them for victory? For defeat? These questions are asked with great concern by parents and teachers mindful of the fact that upon the children growing up now will probably fall much of the burden of the post-war period.

Children are afraid of the unexpected, the unknown, the unplanned. The little boy who says he is afraid of "the dark" is actually afraid of what he does not know about it. A first grader who was wavering between fear of, and a natural curiosity about, air raids was given a tin helmet to play with. He took it to school and

ABOVE the HULLABALOO

BY LYTTLE HULL Freedom for All Peoples?

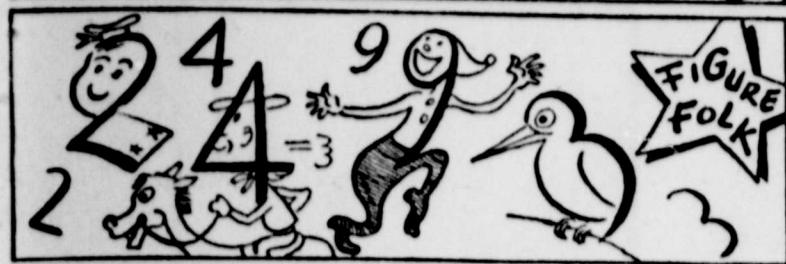

Wendell L. Willkie, in a statement issued in Chungking, China, on October 7, said: "We believe this war must mean an end to the empire of nations over other nations. . . . And we must say so now, not after the war."

Probably 90 per cent of Americans subscribe to this sentiment, though to work it out successfully and universally would seem, at first glance, to be an impossibility. Anything, however, which we are able to conceive, is possible of solution provided the Will exists.

The day will come—some time in the future after people have suffered sufficiently from the ravages of war—when they will decide to abolish this alternative to clever thinking; and in later ages even the memory of War will have ceased to exist. If this Heaven came into being tomorrow however, the "Freedom for all peoples" plan would still be faced with the question of economic competition among nations; that is—each nation striving for self-sufficiency; holding on to rich colonies; erecting tariff walls, etc.

The only solution this column can visualize would be the creation of one vast nation composed of every country on earth and of all the earth's population. Not so easy—and maybe not so pleasant! But this column's inability to solve these simple questions does not mean they can't be solved by some other column.

Unity

By Sam C. Price

This community was blessed with fine rains the past week, which gives a good season in the ground for the saving of small grain. Most crops are gathered, some cotton yet to pick. Several from this community have gone West to help in the gathering of crops there.

Owing to slippery roads attendance at church and Sunday school was light at this place Sunday. The Rev. Raymond Sims of Oglesby preached after Sunday school and again Sunday night. Mrs. Sims was also here with her husband and spent the evening visiting.

Mrs. Ila Adkinson is visiting relatives at Lamesa, Texas. Grady B. Robbins of Borger, Texas, who has been visiting his grandparents, Mr. and Mrs. Sam Price, for the past six weeks has returned home. His mother, Mrs. Wynola Robbins and his sister, Miss Phyllis Robbins, came for him before the gas rationing went into effect.

Grandmother Fellers of Hico was visiting in this community and attended church here Sunday. Several from this place were in Hico last week to attend the military maneuvers and patriotic program which climaxed the scrap metal drive.

Mr. Greer of Dallas was in this community last week looking after his property interests.

Mr. and Mrs. H. E. Price of Oklahoma City were visiting Mr. and Mrs. Sam Price last week.

Roy Adkinson purchased several tons of threshed maize from West Texas last week. It was delivered to him by his brother-in-law, Mr. Jameson, who spent the night visiting with the Adkinsons before returning to his home.

Mr. Ben Ince is at Hico working for the M. K. T. Railroad. Pvt. Archie Barker who is stationed at Waco in the Air Corps was at home a few days ago to see his parents, Mr. and Mrs. C. F. Barker.

It is a little off time of the year for anyone to have a craving appetite for something cold. Nevertheless, several neighbors and friends gathered at the home of Mr. and Mrs. Reason Fellers a few nights ago and had three freezers of ice cream. Believe it or not, there was one gallon left for no one seemed to be able to devour any more. Jackets and sweaters and overcoats soon became in demand. Then after warming up, Roy Adkinson and Hamp Rucker decided there was no need to let any cream waste so they licked the buckets clean.

We have Sunday school each Sunday at 11 o'clock War Time. Rev. Johnnie Hutchins of Spring Creek will preach at Unity at 12 o'clock Sunday. Prayer meeting every Sunday night. Everyone is invited to attend these services.

Rev. John Cundieff of Iredell was visiting in this community and looking after the interests of the church last Monday.

The KNOTHOLE

The recent Illini victory over Minnesota recalls their 1916 meeting. The Gophers were called "the perfect team." However, Illinois won 14 to 9 against a team whose lowest score in any other game was 46 points. Wisconsin has five left-footed punters. Lou Stiner, coach of Oregon State, 1942 Rose Bowl champions, says Midwest football is the best in the country.

Phil Rizzuto never has played on any team but a pennant winner in professional baseball: Bassett in 1937; Norfolk, '38; Kansas City, '39 and '40, and the Yankees in '41 and '42. Milwaukee had a price tag of \$25,000 on Hal Peck, newest Brooklyn outfielder, but it was cut in half when Peck accidentally shot off a toe.

Thirty-one minor leagues opened the 1942 season. Only 26 completed it. Right-handed pitchers won 91 of the Yankees' 1942 ball games. In its first two football games this year the University of Iowa made as many touchdowns on forward passes as it did in eight games a year ago.

Our men need tanks, ships and guns. The steel for these must be made from 50% scrap metal. But the Nation's steel mills don't have enough scrap on hand to last even 30 days more! Keep 'em running. Help build up a huge scrap stockpile—the bigger the better.

GO down into your basement—your storeroom. Climb up to the attic too. Look at the unused stuff you're sure to find, and realize how important these odds and ends can be.

Important to a kid half way around the world. Important to a blue-clad glib—to a flyer, racing to reach the target before some knifing Messerschmitt can find its mark.

That old metal means steel for these men. And steel means armor plate for safety—weapons and ships for Victory.

Without it they'll die. They're not afraid of that—but it's better to give a life for a cause than to be sacrificed by thoughtlessness. And it's better yet to live, knowing that the folks back home didn't let them down.

WE WON'T LET THEM DOWN!—Hico has an enviable record so far—don't let up now because you see a full junk yard or a brimming salvage depot. That's the way they've GOT to be to make sure the mills won't run out.

YOUR NEGLECT WILL COST SOME BRAVE BOY'S LIFE!

Former Hico Citizen Buried Here Wednesday

Funeral services for Mrs. Willie Ann Rhoades, who died Tuesday, Oct. 20, in San Angelo at the home of Willis N. Barbee, were held here Wednesday afternoon at the Hico Cemetery with Rev. Floyd W. Thrash, pastor of the Hico Methodist Church, officiating.

Willie Ann Rhoades, daughter of Labb and Isabel Taylor, was born near Hico in Bosque County on September 29, 1858. She was married to Samuel Russell Rhoades in 1884 and they moved from this community. Until his death about eight years ago, they had resided at San Saba, Roby, Sweetwater, and other places.

Mrs. Rhoades united with the Christian Church many years ago. She had no children of her own, but reared two children who were present for the funeral, one foster son, Willis N. Barbee of San Angelo, with whom she was making her home at the time of her death, and one foster daughter, Mrs. Dora Alice Mason of Fort Worth.

She is also survived by two nephews, Felix Shaffer of Meridian and C. W. Shaffer of Phoenix, Arizona, and two nieces, Mrs. J. T. Jordan of Waco and Mrs. F. E. Austin of Fort Cobb, Okla. Other Barbee children who survive are Jesse C. Barbee of Dallas, Claude Barbee of Los Angeles, Calif. and W. E. Barbee of Grand Prairie, Ark.

Felix Shaffer of Meridian and Mr. and Mrs. Jesse C. Barbee and daughter of Dallas were also out-of-town relatives here Wednesday to attend the funeral.

Dear Mr. Holford:

Hello, how does this find everybody at "Dear ole Hico"? Fine, I hope.

Just a word to let everybody know that I was transferred from Camp Walters to Fort Warren, I'm in the quartermaster division. It's a quartermaster replacement center. I really do like this part of the Army—if it was located in Texas—close to Hico would suit me a lot better.

I'm the only one from Hamilton County up here. There are very few Texans, so you see I get mighty lonesome at times and I'd appreciate it very much if you'd print my address with this.

Best wishes to the News Review and all Hico people.

Yours truly,
Pvt. George P. Morris Jr.

BOMB THE JAPS WITH JUNK!

Tribute Submitted In Memory of Mrs. Josie Blakley

Mrs. Josie Blakley passed away Oct. 11th in Methodist Hospital at Fort Worth, and was laid to rest in Fairy Cemetery Oct. 13th.

Susan Josie Flowers was born at Paris, Texas, to George W. Goyne and Malinda Caroline Goyne. At a very early age she came with her parents to the Poly Ross farm near Hico, four years later moving to the place near Fairy which remained the family home.

Josie attended the schools of Iredell, Falls Creek, and Fairy. She attended the first school ever held in Fairy, which was financed by private subscriptions, and was taught by Captain Battle Fort.

She grew into a sweet, lovable young woman, full of the joy of life. She was married to Walter Blakley at the age of eighteen. To this union were born five children: Othian, deceased, Jack Blakley of Iredell, George, a little daughter who died in infancy, and Von Blakley of Fort Worth. Her husband died in 1929, leaving her the responsibility of rearing the children.

Mrs. Blakley met life courageously. She seemed gifted in loving her fellow men. She united with the Methodist Church at the age of 8 years and honored the Lord and ever reflected His will. She knew many sorrows; she grieved with the sad, yet she rejoiced with the happy. While she loved to live, she always seemed to have Heaven in her grasp. Her wise counsel was often sought by the broken-hearted, and she never failed to give comfort and courage.

Her death was caused by a heart trouble from which she had suffered several months. She leaves three children, nine grandchildren, and one great-grandchild; three sisters, Mrs. R. J. Ogie and Mrs. O. E. Whitson of Hico, and Miss Zella Goyne of Fort Worth, and a brother, W. E. Goyne of Fairy.

A lovely chapel service was held in Fort Worth Tuesday morning by Rev. C. P. Jones, her pastor. Funeral services were held in Fairy Methodist Church, with Rev. G. C. Williams of the local church and Rev. A. S. Gafford of Coleman officiating.

Many beautiful flowers were brought by loving friends and relatives. The flower girls were Mary Ona Whitson, Dorothy Duncan, Nelda Joy Cunningham, Wynell Parks, Mary Frances Hunt, Dorothy Clements, Evelyn Richards, Mrs. Ruth Jameson, Mrs. Ovie Morrison, and Mrs. Lorraine Blakley. Pallbearers were M. E. Parks, W. E. Cunningham, Olga Duncan, T. L. Betts, Virgil Parker, J. J. Jones, Benn Cunningham, and Bill Lackey.

Among the out-of-town attendants were Mrs. I. E. Hunt, Misses Frances Hunt, Dorothy Clements, and Evelyn Richards, Mrs. Viola Griffin, Mrs. N. F. Fry and George Fry of Fort Worth; Mrs. A. L. Jones of Dallas; Mrs. Sally Purdum, Mr. and Mrs. Roy French, Mr. and Mrs. J. B. Ogie, B. B. Gam-

ble, and Rev. Floyd W. Thrash of Hico.

Interment was in the Fairy cemetery beside her husband.

THE BEST LITTLE MOTHER GOD EVER MADE

When twilight comes down
It is then, Mother dear,
I long for you most
And I feel you are near.
Tho far, far away
In a cot by the sea
You're waiting and watching
And praying for me.

God made you, Mother dear,
And then broke the mold
And gave you to me
With your heart of pure gold.
A lifetime of love
At my feet you have laid;
You're the best little mother
That God ever made.

And often in dreams
I see your dear face.
The love in your eyes
That no time can erase.
I know you are calling
For soft as dew
I hear a sweet voice
And I know it was you,
Mother of mine.

CONTRIBUTED.

CARD OF THANKS

We wish to express our deepest appreciation to our many friends and neighbors for the beautiful floral offerings and for their loving kindness shown us during our bereavement and sorrow in the loss of our loved one, Mrs. Josie Blakley.
