Escaped Gls Captured In Paris, France

(NEA Radiophoto

One of three dangerous killers-all American soldiers who escaped from a Paris, France, detention barracks and staged a running gunfight with MPs whom they impersonated and swore to kill on sight-is captured and returned to his cell. This man's name is Gomer C. Blackburn, of Wheelwright, Ky. The other two men, one a negro, were also captured. A Frenchman was killed in the gun battle between the prisoners and the MPs before the three were re-captured.

Iceland Cramps U.S. Defense Layout

WASHINGTON — (AP)

- American plans for an elaborate system of offshore defenses met a sharp reverse Saturday night when

Prime Minister Olafur Thors of Iceland declared his government could not grant the United States air base rights on that strategic island. A base on Iceland, which is on

the direct air route between Wash- | record. ington and Moscow, is one of the key positions of the defense system Hawthorne, Calif slowly being developed in cooperation between the State, War and lossal boomerang, with no fuselage Navy departments.

The system is designed both for or exposed engine nacelles. Crew, the security of the United States engines, fuel and armament are and to tie in with international security arrangements yet to be comters are pressurized. pleted by the United Nations Se-

curity Council. Thors, now involved in an Icelandic political campaign, spoke on a broadcast to his island nation Saturday night after the State Department had released earlier in the day a review of its base pro-posal. This showed that the United States had asked for air base facilities last October, at the same time promising Iceland support for membership in the United Nations which when necessary, would have access to the proposed base. Iceland's reply in November vir-

tually ignored the base proposal but indicated a desire to take up the UN membership question.

Meanwhile the United States is prepared to go ahead at the proper time in support of United Nations membership for Iceland regardless

Rivals For Love Fire On Siaht

HOUSTON —(AP)—The present and past husbands of an attractive brunette were shot to death here Saturday in what police said was a midnight pistol duel. The tragedy was described by Mrs. Eula Orelia Winkelman as the climax to a long series of "interferences with my married life" by her former husband, identified as an ex-convict by Edward J. Moellering, Houston police superintendent of identification.

Dead are Arnold Gus Winkelman, 32, who had served three years overseas with the Navy, and Frank Cutler, the former husband.

This is the story as told by Mrs. Winkelman in a signed statement to Homicide Detectives L. L. Watts and W. P. Brown, who investigated: The Winkelmans had visited Mrs. Winkelman's mother, and had returned home late, about 12:50 a. m They entered the front door and went into their bedroom. Mrs. Winkelman heard a noise in the living room.

"I immediately knew it was Frank," she said. "We had had so much trouble with him I just knew **JayCees Win Two** it was him."

She ran to the bedroom door and closed it. Her husband got a pistol and went into the living room. Mrs. Winkelman ran into the bathroom. No Words Spoken

"No words were spoken between Arnold and Frank. I think they began shooting on sight."

No Communists Wanted

The new Utility Workers Union of America (CIO) contented itself with some self-evident truths in explaining why it barred Communists from membership at its first convention. One of the union officers stated that 99 per cent of workers in the utility industry are opposed to communism or any other ism, and explained their stand thus:

"We feel that communism is opposed to Americanism and to all free institutions. . . . Members of the Com-munist Party always put their lovalty to the party ahead of the union or any other interests."

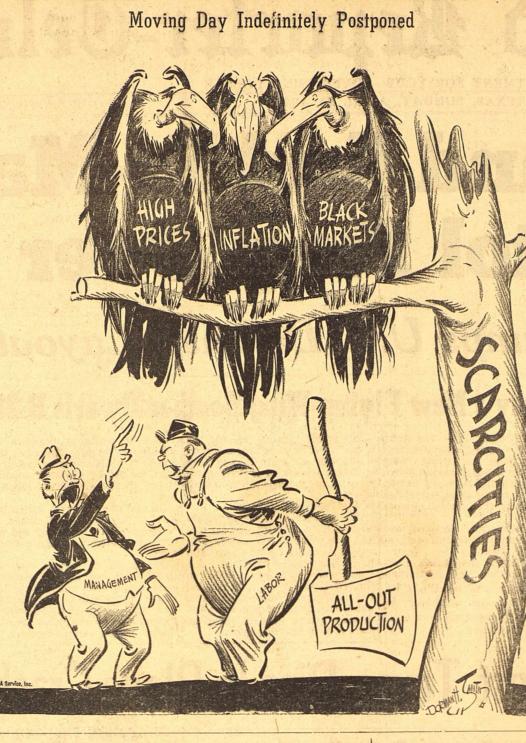

These facts are familiar in and out of organized labor. And surely no one knows them better than the membership of unions that harbor Communists in their bosom. Yet it is significant that none of these unions has seen fit as vet to curb its Communist members. And it is particularly significant that the first such move should come from a union of utility workers.

workers threaten a strike, they are threatening a shut-off of light or nower or water. They are threatening health and life. And they are threatening their union's future by inviting strong public condemnation.

It may well be that the new UWUA has decided on in educational achievement among a program which will seek economic advancement by others of its size or larger, the a program which will seek economic advancement by others of its size of larger, the beaceful and patient means and thereby win more public midland Independent School Dis-brict's teacher salary schedule is ing in Alpine, which closes Sun-Crystal Ballroom of the Scharsupport than other organized utility workers-notably the well below that of nearly all schools nower-plant workers in Michael Quill's Communist-tinged of comparable size in West Texas, transport union in New York-have been able to rally, and lower even than many schools Certainly, one of the best ways to launch such a program much smaller.

Communists seek to enlighten and prepare the pro-letariat and hourgeoisie for better times through violence. They work like beavers for a spot within a union where in the system and it is not a bard it is not They work like beavers for a spot within a union where in the system and it is not a hard they can foment unrest and promote violence. But their job to determine why teaching potactics don't set well with most Americans.

Why, then, do other unions tolerate and encourage Communists? Perhaps because of their great organiza-tional zeal. Perhaps because they have a showshow like a structive here from the

Cookery Badge A sick spell was turned to good use by Kathryn Mygdal who, dur ing convalescence, studied for and won a merit badge in cookery. Few Girl Scouts wear the draw-

ing and painting merit badge, but Christabel Heidelberg was given one by her leader Thursday.

her third merit badge to her col-

lection for the day with one on

Pedal-pushers in the troop are numerous. Those who won cyclist badges were Lynn Griffith, Joan Turner, Jane Beakey, Madelon Schabarum, Shirley Pulliam, Kathryn Mygdal, Mary Ann Searles and Jeannine McDaniels.

Mothers of troop members pre-sented corsages to the leaders, Mrs. Searles and Mrs. M. F. McDaniels, Mothers present were Mmes. Joe Beakey, George Turner, C. S. Griffith, B. R. Schabarum, Karl Mygdal, Joe Heidelberg, Austin Flint and one guest, Mrs. John Weston. The troop gave handkerchiefs as token of appreciation to Mrs. Griffith for her assistance in work on the home nursing badge, and Mrs. Weston for her help with study for the wood badge

Refreshments Served Second class Scouts served refreshments. For a while pop was more important than their leader then they discovered she had donned her old Girl Scout uniform. The consensus of Troop 12's opinion was "It's a dilly." A far cry

from the neat green uniforms of 1946, Mrs. Searles' was a khaki twopiece suit, topped with a big droopy hat into which 1918 Tulsa Girl Scouts could pin up their pigtails while hiking. "We wore under all this black sateen bloomers," Mrs Searles recalled.

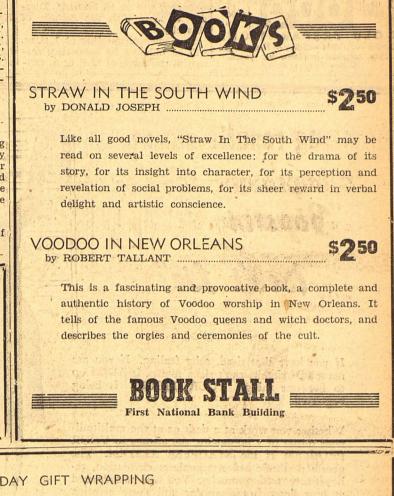

A charter member of Tulsa's first troop, Mrs. Searles has been active in Scout work since that time. She moved to Midland from Kilgore, where she also had a troop. This was her final meeting of the year with the troop, as she leaves Sunday for Rogers, Ark., to spend the tinue the activity of the troop.

Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe your-self. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of liquid Barcentrate (formerly called Barcel Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonsful twice a day. That's all there is to it. If the very first bottle doesn't That's all there is to it. If the very first bottle doesn't much better you feel. More alive, cational Building under the spon-

Shopping Views by and News

WELL, WE CAN'T HELP IT if we like THE REAL convenience—can we? We can't help it if we try to cut down our shopping steps to a minimum, for we're only "one" not a "dozen"! So we can't help it if we like to shop at Morris Food System while we're family's collective tummies are demanding!

Located on the cor. of W. Texas and Loraine, we find Mor-ris' the ideal place to shop. . . And we do love the name brands, such as famous "Libby's", "Heart's Delight", "Monarch", etc. No, we just can't help it if we like shopping at the Morris System!

LITTLE "MAMAS" out strolling with their "babies" in doll buggies these fine spring mornings . . . boys playing with metal trucks and metal scooters, scooting by you on the streets. . All these are signs that our country is getting back to normal once more.

Mr. Cox, at Harris-Luckett's says their toy counters, while still not complete, are ever so much more full than they have been in a long time. The children are remembered once more with toys and games galore.

It takes so little to make them grin Just a new toy now and then. . . . Right?

POLISHING SILVER isn't my idea of fun . and Vosatko's idea is to use one of their new silverware trays that prevents tarnishing! Only \$5.95, it holds up to 88 pieces of flat-

wear, including 12 place settings. This tray is portable and can be kept conveniently in your buffet drawer.

The silverware may be taken out without removing the tray for there's no top—just a folding cloth cover. And—best of all—it positively and absolutely prevents tar-

nishing for it's made of the famous Pacific silver cloth!

THERE'S NO EXCUSE now-a-days of having sickness or accident eat a terrific hole in your budget, when hospitalization insurance can be purchased for only a few cents per day!

Mr. McKee showed me two insurance plans that should "fill the bill"-one plan is direct hospitalization, the other includes both hospitalization and surgical benefits.

The blessed assurance that this insurance gives you is worth much more than the actual low cost. There's several plans and rates, so see Roy McKee for further info.

"CORSAGES DESIGNED TO ENHANCE

a special costume . . . a special occasion . . . not flowers to match a dress, but a flower combination that will bring out the beauty of the outfit, is what I strive for in my corsages," says Virginia E. Nelson, of

the new "combine", McDonald-Nelson Florists. Virginia has taken a course in floral designing from Lillian Simons, leading floral decorator of the southwest, and is just full of lovely original ideas for your corsages. Keep her in mind for those special occasions.

realists.

to him

THERE'S A

LOT OF GOOD

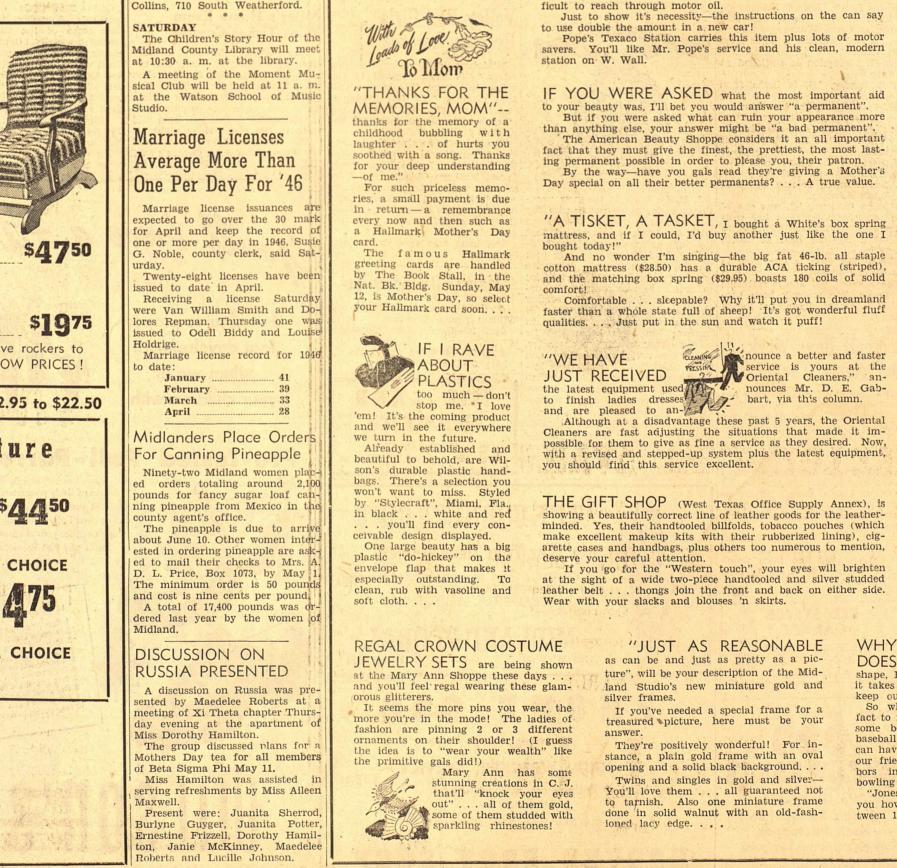

DID YOU EVER

HEAR of "baby-beef tur-They're the "latest keys"? thing" in the fowl line-just chock full of tender white meat!

Almost 3 times as large as the average turkey, the percentage runs about 2 parts dark meat to 8 parts white

meat Baby beef turkeys are raised on the plains of W. Texas and marketed the country over. Colin's Cafe, South Main street, is featuring these new turkeys on their menu today for 50c an order. So hie yourself down

for a grand meal!

JUSTIFIABLE PRIDE, Mamie, of Midland Hardware PACS' and Furniture Co., showed me signify smartness to your guests. They add that little the first solid copper console

Nothing shows off prettier in a rich, darkly furnished room than shiny pink gold brass ornaments. One complements the other . . . to-gether the effect is rich and glowing.

To match this console set, there are brass bon-bon dishes and a beautiful vine wall bracket and flower-pot holder. . . . Their beauty and brightness will do much to set off mahogany. . . .

THINGS MADE EASY

the "Wemple way" -Seems as though they're just one step ahead of big city music stores with their 3 soundproof record rooms. Instead of trying out a record, going to the front, selecting another, there is the trickiest telephone system you ever saw. Each booth is equipped with a phone . . . you just buzz for "room serv-

ice" tell them what you want and your next selection is rushed back to you. Perhaps you need a new

needle—just buzz for "room service". It's great fun and a real service!

CUTE CRAWLERS FOR CUTIES between the ages of 6 to 18 months! Yes, you can put the Kiddies Toggery's cham-bray crawlers on your little youth without fear of holes in the knees appearing after a few wearings-and still have him look "cute as a bug". You see, there's an embroidered doggie patch on each knee

that does double duty . . . makes the crawler decorative, and re-inforces the much used knee section!

Always to-the-fore in children's modern togs, the Kiddies Toggery has scored again!

> EVERYBODY that needs the splashy Sun and Fun Play Togs at Everybody's! If you haven't heard the "cotton story" go-

ing around about Everybody's, it's high time you did—and since it's "prints-able", here it is:

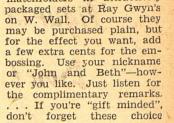

"The short, short story in shorts is brief-s to pedal pushers. . . . There's a matchmaking - combination of a one-two piece bathing suit and a jaunty beach robe. The slack in the slacks is definitely out - they're tailored to fit and in a gorgeous array. . . .

It's a fine sturdy "contraption" consisting of 2 swings and a trapeze hung by chains from a strong steel frame!

IF YOU WERE ASKED what the most important aid to your beauty was, I'll bet you would answer "a permanent". But if you were asked what can ruin your appearance more than anything else, your answer might be "a bad permanent".

The American Beauty Shoppe considers it an all important fact that they must give the finest, the prettiest, the most last-ing permanent possible in order to please you, their patron.

By the way-have you gals read they're giving a Mother's Day special on all their better permanents? . . . A true value.

"A TISKET, A TASKET, I bought a White's box spring mattress, and if I could, I'd buy another just like the one I bought today!"

And no wonder I'm singing-the big fat 46-lb. all staple cotton mattress (\$28.50) has a durable ACA ticking (striped), and the matching box spring (\$29.95) boasts 180 coils of solid comfort!

Comfortable . . . sleepable? Why it'll put you in dreamland faster than a whole state full of sheep! It's got wonderful fluff qualities. . . , Just put in the sun and watch it puff!

fries appeals to you (and who doesn't it?), then you'll watch for the opening date of King's Drive - In "like a

> hawk". There's going to be lots of days this summer you and your family will "skip it" and drive down to King's (400 block, W. Wall), to munch on their grand sandwiches, barbecue and chicken. If you've eaten King's picnic styled Chicken before you don'e need to be told, do you!

Production Dates Set For May 8 And 9 William P. Estes, Jr. Of Community Theater Play, 'Uncle Harry' Wed In Eunice Rites

May 8 and 9 have been set as the production dates for the Com-munity Theater play "Uncle Harry" to be presented in the Midland High School Auditorium under the direction of Art Cole. An evening of entertainment is in store for holders of theater mem-berships and others who plan to attend one of the performances of "Uncle Harry" Word has been received here of the marriage of Miss Patsy Dean

'Uncle Harry".

The plot centers around Uncle Harry, a mild and placid man, who is bullied by his sisters, jilted by his sweetheart and patronizingly liked by his neighbors. Everyone thinks ?

he is an admirable fellow, but there is a certain scorn mingled with approval, because there is something timid and spineless about everything he does. In truth, the real indication of what his home town with spring flowers and greenery. thinks of Harry is that, despite his Vows were repeated by the bridal comparative youth, everyone speaks of him as "Uncle." For all his meekness, however, there is a qual-

ity of the turning worm in him, and For her wedding the bride chose a murderous spirit is concealed by an aqua blue street length dress his friendly mask. So, when his unwith which she wore a corsage of pleasant sisters, Lettie and Hester, Miss Mildred Flemming of Hobbs, push him too far, Harry arranges an ingenious vengeance, and his crimes are so skillfully managed that no breath of suspicion is raised against him. That, in fact, is the only trouble. For when Harry wants to confess no one will believe

him. The description of characters: white tapers in crystal holders and Miss Phipps, young, stout and very much the barmaid; Mr. Jenkins, a

small commercial traveler; Hester, 48, a large, domineering woman

Lettie, 42, smaller and less obviously aggressive, though she has a touch of waspishness that can be effective enough when she chooses to use it; Uncle Harry, a quiet, unobtrusive man who gives the impression of being little and has a warm hesitant way of talking.

Characters Other characters will be: Nona, the maid, the solid retainer type, as chatty as you might expect, fresh, hearty and about 50; George Waddy, good looking, oractical man about 40, dressed in tweeds, a bit self-conscious; D'Arcy, the town lawyer, small, precise, and neat; Albert, short, a bit on the portly side and quite the sporting gentle-man in his loud checked suit; Blake, a typical tavern owner, big healthy, and hail-fellow-well-met; Ben, a young sociable fellow, obviously accustomed to being the life and soul of the party; the Gover-

nor, a decent unimaginative man; (Continued on Page 4)

League Will Vote On Entry **Of New Team To Blue Circuit**

Directors of the Midland City Softball League will meet at 2 p. m. Sunday at Barney Grafa Park to vote on the proposed entry of another team into the Blue division replacing Log Cabin Inn, which did not field a team.

Managers and players need not attend the league session as it is strictly for the directors, one representative from each of the 11 clubs, and other officials.

Elder Chevrolet and Mackey Motors will play an exhibition game following the directors' meetgame following the directors' meet-

In games Friday night, the Equi-table Life Insurance beat Burl's One-Stop Standard, 7 to 2, despite good pitching by Barney Hightower of the Dead-End Kids, who whiffed nine batters. Equitable's fielding was above par for the night. Elder Chevrolet forfeited to Midland Hardware. This week's schedule:

Monday night: Mackey Motors Reporter-Telegram; Midland VS. Army Air Field vs. JayCees. Tuesday night: New team VS

Midland Hardware; Oil Scouts vs. Equitable Life. Thursday night: Mackey Motors vs. O'Neal's 66; Midland Army Air

Field vs. City Bus. Friday night: Elder Chevrolet vs. in the century, and fourth in the 440-yard dash against the best in Reporter-Telegram; Burl's One-

Bulldogs Have One More Week Of Drill

Stop vs. JayCees.

One week and two days remain of spring football training for the Midland High Bulldogs, who scrimmaged twice, Thursday and Friday, to climax the third week of drills. Vicious blocking of the game-

winning variety was evident in the Friday head-knocking. Timing was better than it had been during the spring sessions, and tackling had improved. Plans are for a finale scrimmage

probably next Tuesday afternoon with the public invited to witness the climaxer. It still is a wide open fight for

team positions next fall. The coaches have experimented all during the three weeks of practice seeking the right combination of players.

JUST TAKING A CHANCE CAN YOU IN PUT THIS PICTURE!

950,000 people were killed of injured in auto accidents last year! And the menace is growing! In the first 4 months after gas rationing ended, auto deaths jumped 36%! Remember, accidents come from carelessness . . . from

the "little" chances we all take, unthinkingly, every daythe little repairs we neglect to make! Yes, it's up to you! You can cut down America's accident rate simply by not letting an accident happen to you!

Check on Yourself! HOW MANY CHANCES DO YOU TAKE EVERY DAY?

I let pedestrians watch out for me. □ I drive twice as carefully at night.

Do you forget how difficult it is to see a pedestrian at night? Are you unable to stop within your headlight vision? Then you may kill a man this year-for careless drivers strike down the most pedestrians during the first 3 hours of darkness. Do you want such tragedy?

-your life is worth it! An official public service message prepared by The Advertising Council in coopation with the National Safety Council.

I believe courtesy pays

Do you try to bluff your way through

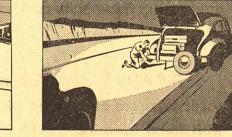

intersections...takeoff likea P-38...or beat

another driver out of his "right-of-way?"

You're playing against dangerous odds -

15% of fatal accidents in cities involved

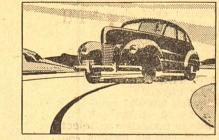

failure to give right-of-way. Give in a little

☐ I'm stubborn about the right-of-way. 🗌 I change tires on the road. □ I pull completely off the road.

> When you change a tire do you pull only part way off the road ... especially after dark? Do you risk blowouts ... neglect needed repairs on your aging car? With the average car over eight years old, accidents involving defective equipment have more than doubled today! Why welcome trouble?

> > PUBLISHED IN THE INTEREST OF PUBLIC TRAFFIC SAFETY IN MIDLAND BY

I drive in the middle of the road. I keep to the right at all times.

Do you habitually "straddle center" . especially on curves? Do you turn right from the left hand lane ... or pass on a hill? Then you're risking frightful collision every day - for such actions played a part in half of last year's auto deaths. Will carelessness claim your life this year?

Superior's Andrews Wildcat Flows Oil From Fullerton Zone; Prospector Locations Staked In Four Counties

By JAMES C. WATSON **Oil Editor**

Superior Oil Company, and others, No. 1 Coopwood, Central-West Andrews County wildcat, about 12 miles west of the town of Andrews, and one and one-half miles south of nearest production on the southeast side of the Fullerton field, flowed oil for 30 minutes in a drillstem test in the top of the Fullerton pay at 6,834-6,974 feet, and indicates a new discovery from the lower Permian formation.

Gas came to surface in three minutes after the tool was opened. Oil cut drilling fluid came to surface in 13 minutes, and the drill pipe started flowing oil in 14 minutes. It flowed to pits for 30 minutes. The oil was cut with six per cent drilling fluid.

The tool was closed at the end of 30 minutes of flowing and the drill pipe continued to unload oil for 30 minutes more. Corrected gravity was 39,2 degrees. Flowing pressure was 1,100 pounds at the start of the test and increased to 1,200 pounds at the end of flowing. Operators were to core ahead. Locations for five new wildcat

petroleum explorations for the West Texas section of the Permian Basin were reported Saturday.

Winkler County gets two of them. Loving, Howard and Hockley are to have one each. North of Wheeler Field

The Texas Company No. 1-G G. C. Fraser, 2,004 feet from east and 664 feet from south lines of southeast quarter of section 9, block 46, TP survey, T-1-S, will be about one mile north of nearest produc-tion on the north side of the and is making new hole below 11,-Wheeler field

It is just inside the east line of Winkler County from Ector County. Operator filed application with the Railroad Commission to drill to at least 9,000 feet to explore the Devonian—and it is understood that field, had reached 8,126 feet, in the project might drill ahead to lime and chert, possibly in the Dethe Ellenburger.

In Southeast Winkler, 11 miles southeast of Kermit, and about two and one-half miles west of closest production in the North Monahans field, Ralph Lowe is to drill his No. 1 Sealy-Smith Foundation to 6,500 feet to explore through the Tubb zone of the middle Permian.

Location is 660 feet from south and west lines of section 71, block G&MMB&A survey. Stanolind Oil & Gas Company owns offsets south and west of the drillsite, and has considerable other acreage in the area. Magnolia Petroleum Company also owns leases in the vicin-

Lowe expects to test through the Colby, San Andres, Holt and Tubb zones of the Permian, and may carry the wildcat to the Clear Fork section of that horizon. Each of the sections could be productive. Argo Will Try Another

to test for pay in the Delaware in West Loving County. to be 1,980 feet and 660 feet from south lines of section 7, block 55, T-1. The project is 17 miles northwest of Mentone, and one and one-half miles northwest of nearest production in a lesser depth. the Mason field. Drilling is to Checking Favorable start soon.

to drill No. 1 O. E. Hamlin, 12 miles northwest of Big Spring, in Northwest Howard County, to 4,000 feet, starting at once. It will be 330 feet from south and east lines of section 15, block 33, TP survey, T-2-N. Rotary will be

used. American Republic Corporation has a south offset to the drillsite, and Stanolind Oil & Gas Company own an east offset. Buttram Petroleum Company, Schermerhorn Oil Corporation and Kenwood Oil Company have leases in the vicinity. In extreme Northwest Hockley County, Stanolind Oil & Gas Company has reported location for No. 1 G. L. White, to be a 5,500-foot wildcat to test the San Andres-

Permian. The wildcat is contracted to 4,000 feet, and is being drilled ahead to that level. Operators plan to run tests on the oil stained formation after total depth is reached. The test is being drilled with rotary by Taubert & McKee of Fort Worth. John W. Murchison No. 1 Fraser, West Ector County exploration, in section 7, block 45, TP survey, T-2-S, between the TXL and the Penwell fields, had progressed below 8,050 feet, in broken

chert, and was continuing. No picks on markers have been reported recently. It is understood that the project has drilled by the base of the Permian, and some observers think it has entered the Devonian.

Stanolind No. 1 Kayser, Central-West Ector County exploration, in section 34, block 43, TP survey, T-2-S, had recovered stuck drill pipe, 483 feet in lime and chert.

Still Making Hole The Texas Company No. 1-F Fraser, in southwest quarter of section 39, block 45, TP survey, T-1-N, a wildcat north of the TXL field, had reached 8,126 feet, in vonian, and was continuing.

Argo Oil Corporation No. 1 Roberts, Southwest Reeves County exploration, in section 294, block 13, H&GN survey, about 13 miles northeast of Balmorhea, had reached 10,650 feet in lime and sand, and was still drilling. No recent shows of oil or gas have been reported.

Richardson & Bass No. 24-E M. J. Bashara, 660 feet from north and west lines of northwest quarter of section 21, block 77, psl survey, ie toi be a 10,000-foot exploration to the Ellenburger, on the northeast side of the Keystone field. It is 1,320 feet due north of near-

est completed oil well from the Ellenburger, and is to start drilling immediately

Stanolind Oil & Gas Company and Westbrook-Thompson No. 35-A Hendrick, West-Central Winklar County wildcat, in section 33, block 26, psl survey, four miles west of Texas Pacific Land Trust, (TXL) is slated as a 4,000-foot exploration to test for new in the Deploration East Andrews County exploration, about 15 miles east and slightly

Midland Employes Of Gulf Get Service Awards

LETTERS"

Model Airplane Department

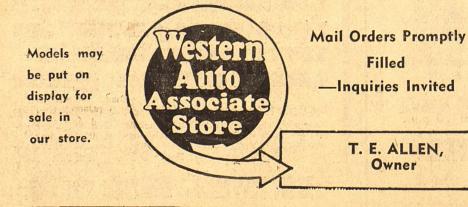

"LOVE

Because of the many requests we have received in the past for model airplane supplies and equipment we are pleased to announce that we now have in stock a very complete assortment, and more will be added from time to time. If you do not find just what you want in the way of kits, motors, equipment or supplies let us know and we will order it for you.

Among The Many Supplies In Stock Are-

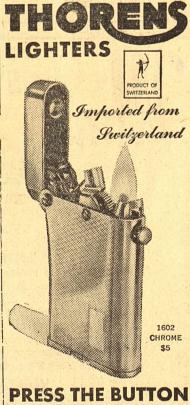

- 19 Different Gas Model Kits
 - 4 Models Rubber Band Propelled Kits
 - Several Solid Model Kits
 - Several Types of Gas Motors
- Complete Line of XActo Modeling Supplies
 - Condensers, Coils, Switches, Controls, Balsa Wood, Etc.

Anyone interested in joining a Model Airplane Club please leave your name and address at our store.

Average Family Spends \$466 Yearly For Food

quarters at Nanking during war.

In January of 1946 the average family of three was spending at the rate of \$466.84 annually for food, according to the United States De-partment of Agriculture. This was at the rate of about \$11.00, or 2 1/2 per cent, more a year than at the same time last year.

All fruits and vegetables includper cent of the average expenditure, third, with the average spending and winter, when production is expected to be far short of demands.

U.S. To Buy Sixty Million Pounds Of Butter For Army

WASHINGTON -(AP)- The government plans to re-enter the butter market about May 1 to buy 60,000,000 pounds to supply the armed services and military hospitals during the next 12 months. To assure itself of this quantity,

the government probably will re-quire manufacturers to set aside a portion of their output during May and June.

Last summer it purchased 325,-000,000 pounds under a set-aside order, but later turned 75,000,000 pounds back to civilian markets when supplies became very scarce. Government buying for the year ahead will be concentrated in the May-June period when butter production normally reaches its peak for the year. By obtaining a year's needs in this period, the government thus eliminates itself as a competitor with civilians during low

production periods. Estimates on May and June production of butter were not available. At least year's production rates for that period, the 60,000,000-pound government requirement would be equivalent to about 13 per cent of the combined May-June production of creamery butter. Civilian Outlook Glocmy

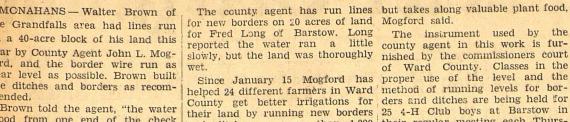

But despite the government's plan to secure military needs during the flush production season, the outlook for civilian supplies of butter next fall and winter are not bright. First, total production is expected to fall below last year's level and below pre-war output.

Second, consumer demand is at | record levels. Because of this, it is ing fresh, canned, and dried, led quite likely that the great bulk, if the list with \$133.38 spent per year, not all, of the production of the or 28.6 per cent of the average famheavy production season - May ily food budget. Meat products were through July-will be consumed as in second place with \$100.90, or 21.6 rapidly as it is produced. If this happens, none from the and dairy products were a close flush season's output would be reserved for consumption next fall \$90.72 or 19.4 per cent of their total

During the war, rationing limited consumption during the flush production season, and some of the spring and summer output was forced into storage for sale later. In normal times, the butter industry itself stores a part of the summer output for sale during the fall and winter season of low pro-

Opportunities in Education, Specialized Trainings and Travel

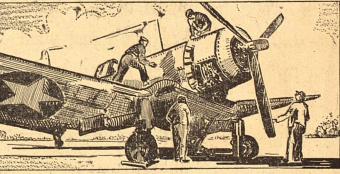

High School and College Courses

are available to Marines thru the Marine Corps Institute. A wide range of subjects is covered and a formal diploma is issued at the completion of each course. More than 80,000 Marines have already enrolled in these courses to broaden their education.

Aviation Training

is an important factor in the training program now being launched. Marines have not only served on land and the sea but have made an unexcelled name for themselves in the air. Aviation is playing a big part in post war activities of the U. S. Marine Corps.

Enlistments are Now Accepted for Terms of 2, 3 or 4 Years

The new plan of short term enlistments has a lot to offer right now, when conditions in civil life are quite unsettled. These short term enlistments offer you two things right away. First, they offer the immediate advantages of good pay, good food, healthy and interesting living, and a chance to learn a useful and profitable trade. Second, they offer you a chance to settle in your own mind whether or not you want to make the

Marine Corps a permanent career, as many young men do. You do not need to interrupt your education, for the Marine Corps Institute offers you the chance to complete your High School courses and to qualify for College credits if you wish. You can almost literally "write your own ticket" in respect to what studies you want to pursue and how far you want to carry them. And these courses are free.

Youths Must Register With Selective Service

Because a large number of youths are failing to comply with regulations, Mrs. M. B. Arick, clerk of. the Selective Service office, Saturday again emphasized that all youths reaching the age of 18 are required to register with the office on their birthdays. If the birthdays fall on Sundays or on holidays, they must register the following day.

Ford mechanics are, by necessity, highly trained experts in the autombile industry. Though they have no "shingles" with "Dr." on them-they are here to aid your car in any of its troubles.

1945 were \$164,470,414, and current liabilities \$73,010,544 (including \$5,-400,000 of long-term debt maturing in 1946), leaving net working capital of \$91,459,870, or \$10,176,032 less than in 1944. In the meantime the company's continued extensive program for the expansion of the properties, plant, equipment, and related investments, cost \$104,000,000.

Penalties And Costs Accrue On Property Taxes After July 1

Unpaid 1945 property taxes go delinquent July 1, J. H. Fine, county tax assessor-collector, said Saturday, and after that date penalty, interests and costs will be added. Property owners are urged to make their payments soon to avoid the additional costs. Any half-payments on city property taxes also should be paid be-fore July 1, Fine said.

Walker Succeeds Knickerbocker As Commander Of Texas State Guard

AUSTIN-(P)-Brig. Gen. Arthur, to his other duties as commanding B. Knickerbocker, Texas adjutant general of the Texas National general, by his own request has been | Guard.

relieved from duty as commanding general of the Texas State Guard. Orders issued by the State Guard appointed Maj. Gen. Fred L. Walker to succeed Knickerbocker. Walker will hold this command in addition

Meanwhile, it was learned on good authority that Maj. Gen. Preston A. Weatherred of Dallas will become commanding officer of the 36th Division when it is recognized as a

Kermit Receives War Housing Unit

KERMIT-The first of the emergency war housing units for World War II veterans was brought here this week by the W. M. Walker Trucking Company, sub-contractor for moving the buildings here from Fort Sumner, N. M.

These living quarters were alloted to Kermit by Federal Public Housing Authority on application made by the Chamber of Commerce. W. H. Henry, assistant superintendent for Harmon Construction Company, prime contractor for the project, arrived here this week and has employed local contractors for

the laying of foundations, plumbing, electrical, and other work. When the project is completed
