

Pictures of Tornado Which Left Untold Wreckage

The two top pictures are excellent photos of the tornado which devastated the area south of Detroit and moved on into Canada late Monday night. The photo on the top left shows the twister as it struck near Windsor, Ontario, and the top right photo shows the storm as it died out in the distance. The bottom aerial view of the many wrecked and mangled houses in Ojibway, Ontario, is but a small part of the untold wreckage caused by a tornado which swept through Detroit, Mich., and the surrounding Ontario area. Heaviest damage was believed to be around the area south of Detroit.

Solons Shun Truman Arms Merger Plan

Foreign Ministers Take Up French-Italian Border Issue

PARIS —(P)—The Big Four foreign ministers, still deadlocked on the touchy problem of Italian reparations, moved on Wednesday to less difficult phases of the Italian peace treaty, with several minor economic clauses and

the French-Italian border question on the agenda. Wednesday's session was started for an hour earlier than usual to permit French Foreign Minister Georges Bidault to attend a session of the Chamber of Deputies at which he might be called upon to form France's new government. The deputy foreign ministers were

directed to meet before the session of their chiefs to finish their reports on the Bulgarian and Finnish treaties. The deputies' reports on the Italian and Romanian pacts already have been submitted.

The pessimism which has enveloped the current session of the British, French, Russian and U. S. foreign ministers since they reconvened last Saturday deepened Wednesday following Tuesday's dead-end on reparations, which saw the same negotiators repeating virtually the same arguments which led them into blind alleys a month ago. The deadlock was eased only slightly by Russia's offer Tuesday to put the question of Yugoslav, Albanian and Greek reparations claims—which Soviet Foreign Minister Vyacheslav M. Molotov sets at \$200,000,000—up to a full, 21-nation European peace conference, which French sources said might convene about July 15.

Molotov refused to submit Russia's reparations claim to the 21-nation conference, expressing belief that the foreign ministers should settle it. British Foreign Secretary Ernest Bevin proposed that all major powers abandon reparations claims on Italy, to assist the new Republican government of that nation, but Molotov refused. Russia is the only one of the major powers seeking reparations from Italy.

USSR Vetoes Proposal To Refer France Question To Assembly

NEW YORK —(P)—The Polish delegation to the United Nations Security Council marshalled its forces for a new showdown on Franco Spain Wednesday after Soviet Russia had vetoed a proposal to refer the Spanish problem to the general assembly.

Oscar Lange, head of the Polish delegation, who brought the Spanish question to the attention of the Security Council last April by charging that Franco was a threat to world peace, followed up the Russian veto Tuesday by seeking an immediate vote on his original resolution calling for a break with Franco Spain by all members of the United Nations.

Radioed Vote In Favor Of Draft Breaks Deadlock

WASHINGTON —(P)—Rep. Walter G. Andrews' dramatic vote radioed from a ship far out in the Pacific appeared Wednesday to have broken the Senate-House committee deadlock over the teen-ager draft.

The New York Republican's revised proxy—declaring in favor of a conditional moratorium on the induction of 18-year-olds—was sent from the USS Panamint, carrying Andrews and other observers to the Bikini atom bomb tests.

Andrews thus swung over to the Senate compromise offer to make 18-year-olds subject to the draft only as a last resort. His previous proxy called for no restrictions on inducting teen-agers, with the result that the House group first rejected the compromise, 4 to 3.

The actual showdown on the issue is not scheduled until Thursday when the seven Senate and six House conferees—Andrews is the seventh—reassemble for their third try at adjusting differences in separate draft extension bills. The Monday-to-Thursday delay was set to allow the contact with Andrews aboard the Panamint.

Wallace Pleads For Retention Of OPA Controls

WASHINGTON —(P)—Secretary of Commerce Wallace pleaded Wednesday against letting down "our guard against inflation" as Senate-House OPA conferees met for their first session to chart the future of price control.

Wallace said in a statement that business can enjoy unprecedented prosperity in the years just ahead "if we can avoid rocking the economic boat right now."

But he added that "to weaken or destroy price and rent control would be to ask for the same kind of boom and bust that began just about this time after the last war."

The cabinet officer's statement was issued without explanation. But its timing coincided with the initial meeting of the Capitol Hill conferees named to compose differences on OPA extension bills that have drawn sharp criticism from stabilization officials.

Wallace confined his statement to the effects of inflation on business.

125 Attend Water Works Parley In Midland Tuesday

City government leaders and waterworks officials of a wide West Texas area were in Midland Tuesday for the regular monthly meeting of the Permian Basin Waterworks Association. Approximately 125 persons attended.

A barbecue was held at Cloverdale Park at 6:45 p. m. and a business session followed at the courthouse.

A. B. Cole of Midland, president of the association, was host to the group at the barbecue.

The association favors legislation to control ground water and will be presented with resolutions on that matter at the next meeting at Brownfield July 16.

Speakers at the parley included: Joe Stanley of Lubbock, vice-president of the association, who presided at the business meeting; Homer A. Hunter, city manager of Lubbock, who discussed "The Value of Well Records"; W. D. Hudson of New York, representative of the Pliometer Company, who talked on "Methods of Finding and Correcting Distribution Systems' Problems."

Cities represented were: Lubbock, Brownfield, Seagraves, Kermit, Slaton, El Paso, Lamesa, Comstock, Chis, Odessa, Big Spring, Amarillo, McCombs, O'Donnell, Morton, Spur, Dallas, Sundown and Midland.

Marines To Aid China In Defending Tsingtao

TSINGTAO —(P)—The U. S. Marine commander in Tsingtao declared Wednesday his forces would help Chinese authorities "maintain peace and order" in this vital Shantung port should the Communists attack.

The commander, Brig. Gen. Walter T. Clement, declined to say at a press conference, however, whether the Marines would defend the city itself should the Communists attack.

Now reported on the move on all sides of Tsingtao—move against the port's defenses.

COMMITTEE APPROVES McNUTT NOMINATION
WASHINGTON —(P)—The Senate Foreign Relations Committee Wednesday approved the nomination of Paul V. McNutt to be ambassador to the Philippine Republic when the islands become independent July 4.

Army Allowed To Build Atomic Weapons

WASHINGTON —(P)—The House Military Committee Wednesday voted to strengthen the Army's control over atomic bomb production by giving it power, under certain con-

ditions, to make its own atomic weapons.

The committee wrote into Senate legislation authority for the President to direct the proposed atomic

Sixth British Officer Missing As Jerusalem Disorders Continue

JERUSALEM —(P)—Palestine police said late Wednesday that another British officer was missing, possibly bringing to six the number of Britons kidnaped in a wave of disorder sweeping the country.

A large force of troops and police began scouring several Jewish settlements along the Lebanese frontier Wednesday. Troops also started a systematic search of the

modern Jewish city of Tel Aviv at dawn, combing the Haticah and Shapiro quarters and the neighborhood of the Yarkon River for traces of the kidnaped officers.

Superior To Dig 8,500-Foot Test In S-W Andrews

By JAMES C. WATSON
Oil Editor

Superior Oil Company filed application to drill an 8,500-foot wildcat in block 12 region of Southwest Andrews County. It will be the concern's No. 12A-3 University, 660 feet from west and 1,981 feet from north lines of northwest quarter of section 22, block 12, University survey, and 19 miles west and a little south of the town of Andrews County. Drilling will start immediately.

The exploration will be about one and one-half miles south of The Texas Company No. 1-P State, (University), which has shown for some sort of production in the Tubb-Perman, and which was on a total depth of 7,717 feet, in June Wednesday, and was to take a drill-stem test.

3 Parker Completed
Humble Oil & Refining Company No. 3 Parker, third Ellenburger producer to be completed in the Parker field, in Central Southwest Andrews, reported official 24-hour potential of 1,257.44 barrels of 42.5 sour oil, flowing natural, through a 3/16-inch tubing choke, from perforated sections between 8,774 feet and 8,938 feet.

Flowing tubing pressure was 500 (Continued on Page 4)

French Officials Raid Communists

PARIS —(P)—Communist headquarters were attacked Tuesday night and 68 persons were arrested, Interior Minister Andre Le Troquer told the French cabinet Wednesday. A police officer was wounded.

Bands of youths roamed the boulevards Tuesday shouting "De Gaulle to power" and "Thorez to the stake" during celebrations of the sixth anniversary of Gen. Charles De Gaulle's 1940 resistance broadcast from London.

Other bands cried their support for the Communist Party secretary general, Maurice Thorez, who fled to Moscow when France entered the war and escaped the army draft.

Houston Woman Crawls Out On Ledge 13 Stories High, Hangs By Hands

HOUSTON —(P)—A 70-year-old woman who had been under a doctor's care Wednesday crawled out of a window of a ladies' rest room on the 13th floor of the Medical Arts Building and then changed her mind and hung on with her hands until pulled back.

"I don't know why I did it," she was quoted by police as saying, "but at the time I thought it was the best thing to do."

The woman was first seen by Mrs. Frances Norris, 23, a nurse in the office of the doctor. The doctor's office is so situated that one of the windows of his office faces the one in the rest room.

"I happened to glance out the window and I saw the woman, completely out of the window and hanging on by her hands," Mrs. Norris told reporters. "I just simply could not believe it. But when I looked again I knew it was true; I was never so scared in my life."

In the meantime Mrs. Anna Johnston, 61, a janitress happened to go into the rest room and saw the woman who by that time had pulled herself partially back through the window.

Oh-No No Know: Is Yes Or No?

OH-NO, JAPAN —(P)—Oh-No township courts don't know whether to say "yes" or "no" to this one.

Five dagger-armed robbers rapped on the door of Mrs. Ko Nagashima, demanded 100,000 yen. She offered them 2,000 yen—all she had.

"We can't take a paltry sum like that," snorted the leader. "I'll go next door and borrow from my neighbor," quavered the obliging woman.

Three robbers went with her. The neighbor forked over 10,000 yen.

Now the question is, was Mrs. Nagashima the only one robbed? Or were both she and her neighbor robbed? Did the neighbor lend her the money? Or was she an accomplice?

Nobody in Oh-No knows.

Weather

Partly cloudy with somewhat cooler temperatures Thursday.

Appropriation Group Votes More Money For Naval Forces Than For Army Aviation Unit

By WILLIAM F. ARBOGAST

WASHINGTON —(P)—Congressional plans for separate big Army and Navy air forces provided an indication Wednesday that President Truman's unification plan is destined for a pigeon hole.

In fact, the Navy's air arm stands to get a bigger pile of cash than the Army's.

"That's the way we planned it," one House Appropriations Committee member said of the contention by W. Stuart Symington, assistant secretary of war for air, that the Army Air Force "is being relegated to a secondary position."

Symington made his assertion in a speech before the Detroit Economic Club in which he said the budget for the fiscal year starting July 1 provides \$369,000,000 for the Army's air branch and \$385,000,000 for the Navy's. That, Symington said, represents the purchase of 1,020 planes for the Army and 1,359 for the Navy.

A member of the Naval Appropriations Subcommittee told a reporter privately the committee approved the large Naval aviation fund "because we don't want the Navy, or any major component of it, relegated to a secondary position."

The Army Appropriations Subcommittee put the finishing touches Wednesday to a War Department bill carrying Army Air Forces funds. While members would not say in advance of final committee action what they had decided, they indicated the Air Corps allotment would not exceed budget estimates.

Some rain fell in the eastern part of Midland County, but reports received at Midland failed to indicate its extent. The majority of the farmers and ranchers in that area have not yet planted crops because of the extreme dryness. It was reported that many plan to plant feed crops, mainly hegrita and maize, following the rain there.

Most areas of Glasscock County received beneficial rains. At Garden City, .61 inches was reported, and about three-quarters of an inch fell west of the town and one-half inch to the east.

Showers up to about a quarter of an inch were reported at Andrews in Andrews County. A heavier rain fell east of the city, and good precipitation was reported to about 12 miles south.

Borden County, one of the driest areas of the state this year, received good rains in most sections, reports from that area said.

Attendance At Swimming Pool Reported Good

Attendance has been good at the municipally-owned Pagoda Park Pool for the first four days of operation this season, Carl Covington, manager, said Wednesday. The pool was opened Saturday.

On the opening day 313 admissions were paid, and 308 persons enjoyed the pool Sunday. More than 200 admissions were registered Monday and Tuesday.

The pool opens at 1 p. m. Sundays. Week-day hours of operation are from 9 a. m. to 8 p. m. Admission prices have been set by the City Council as follows: persons up to 12 years of age, nine cents; from 12 to 16 years old, 18 cents; and more than 16 years of age, 30 cents.

The pool was completely cleaned Monday night and fresh water was run in. The water at the pool circulates at all times and is chemically treated with chlorine.

The Saturday admissions include 130 persons of the younger bracket, 90 in the 12-16 age group, and 93 persons over 16 years of age. Sunday admissions in the three groups were 98, 70 and 140, and Monday groupings were 88, 75 and 68.

Guards at the pool at Dunne Goode, David Hyatt and Bill Shaw.

Truman Confers With Arms Board On Preparedness

WASHINGTON —(P)—President Truman conferred Wednesday with the Army and Navy Munitions Board on industrial preparedness in the event of another emergency.

Discussing the 15 minute conference later, Chairman Richard R. Dupree, told reporters that "industrial preparedness is very important for the assurance of a lasting peace."

Navy board is charged with the responsibility of stockpiling materials and for keeping a constantly modernized program for throwing the nation's industrial machinery into action for the government whenever necessary.

In a statement following meeting with the President, Dupree said Truman "seemed most interested in problems of preparedness and understood that certain things must be done if we are able to keep our nation strong industrially."

"These things, he said, must be done 'so that we may be equipped to meet the difficulties and uncertainties of the future.'"

Boy Burned By Grease Reported Improving

The condition of Richard Harmon, 10 months old son of Mr. and Mrs. William M. Harmon of Midland, was reported as improved somewhat Wednesday. The child is in Western Clinic Hospital where he is being treated for severe burns received when hot grease was spilled on him Tuesday.

The boy suffered burns on the head, face, chest and arms.

LATE NEWS FLASHES

PARIS —(P)—Georges Bidault was elected president of France's interim government by the Constituent Assembly Wednesday. The new president has been serving as foreign minister.

MOSCOW —(P)—The Army newspaper Red Star said Wednesday that Generalissimo Stalin has signed a decree establishing new disciplinary regulations for the Red army and navy, including a requirement that military personnel fulfill strictly the orders of their superiors and be prepared to suffer hardships and deprivations and give their lives if necessary in carrying out their duties.

NUERNBERG —(P)—Franz von Papen, dropping his suave manner after four days on the witness stand, angrily told the international military tribunal Wednesday that he helped exert "pressure" on the Austrian government prior to the Anschluss in 1938.

Police Nab Burglar With Phony Traits

DALLAS —(P)—Police nabbed a man here they said had robbed a Dallas liquor store of \$389 Tuesday.

They said the man had threatened the proprietor with a phony bottle of nitroglycerin, brandished a phony pistol and claimed a relationship to a dead desperado—which also was phony.

BANK AT MORTON DESTROYED BY FIRE

MORTON —(P)—The First State Bank here was destroyed by fire Tuesday.

W. N. Williamson, president, said the bank plans to open temporary headquarters in the courthouse.

NEW POLIO CASE

HOUSTON —(P)—Another county polio case, Joe Jim Hill, 11, who lives in Greens Bayou Addition, was reported by the City Health Department Wednesday.

July Oil Allowables Reduced In Fullerton, Wasson, Yates Fields

AUSTIN — (AP) — The Railroad Commission Tuesday issued its statewide proration order for July calculated to result in daily production of 2,256,562 barrels of crude oil, easing back only slightly from

its all-time record allowable for June.

Decreases were made from the June allowable principally in only three West Texas fields: Fullerton, Wasson and Yates.

Commission Chairman Olin Culberson said Fullerton was reduced 7,337 barrels to 26,250 barrels per day to conform with a newly established maximum efficiency rate for the field. Wasson was reduced 8,159 barrels to 66,964 barrels per day in accordance with nominations for crude from that field. Yates was reduced 7,877 barrels to 42,000 barrels per day because of transportation facilities being limited to that capacity.

The commission's July proration schedule permits a maximum daily production in all Texas fields of 2,386,381 barrels of crude oil, but estimated under production of 5.44 per cent of the allowable would reduce the probable average daily flow to 2,256,562 barrels.

This was 146,562 barrels daily more than the U. S. Bureau of Mines estimate of needed production of crude alone.

Indicated production of 173,346 barrels daily of natural gasoline and distillates would increase the total liquid petroleum production in Texas to 2,429,908 barrels daily.

The production pattern for July includes 27 general producing days in Texas except in East Texas which was given 21 producing days. The Panhandle remained exempt.

The Yates field was granted its reduction effective July 1, Culberson said, because of that field reaching its maximum storage capacity on June 21 and because of its inability to obtain transportation facilities for the additional allowable.

The net allowable by districts as of June 15, compared with the July allowable:

1. Southwest Texas, 21,411, 21,434, up 23.
2. Southwest Texas, 169,691, 170,459, up 768.
3. Gulf Coast, 550,076, 552,498, up 2,422.
4. Southwest Texas, 241,661, 242,612, up 951.
5. East Central Texas, 46,519, 46,701, up 182.
6. East Texas (outside), 114,206, 114,530, up 324.
7. West Central Texas, 36,531, 36,615, up 84.
- 7C West Central Texas, 30,553, 30,648, up 95.
8. West Texas, 625,073, 603,652, down 21,421.
9. North Texas, 149,533, 149,935, up 402.
10. Panhandle, 97,975, 97,980, up five.

VISITS BROTHER HERE

Charlie Hall, locomotive engineer on the Frisco lines at Hugo, Okla., is visiting his brother, W. H. Hall, at the Scharbauer Hotel.

Education Pays

Bob Nussbaumer, University of Michigan baseball and football star, proves it pays to go to college by receiving \$15,000 bonus for signing to play with the Philadelphia Phillies.

GEOLOGISTS HEAR TALKS AT TUESDAY LUNCHEON

R. E. Gile of the Rotary Engineering Company, and Jerry Blythe of the Baroid Well Logging Service, explained the use of portable well logging units to check for shows of oil and gas in drilling mud and in formation cuttings in oil and gas tests at a Midland Geological Society luncheon Tuesday in the Scharbauer Hotel.

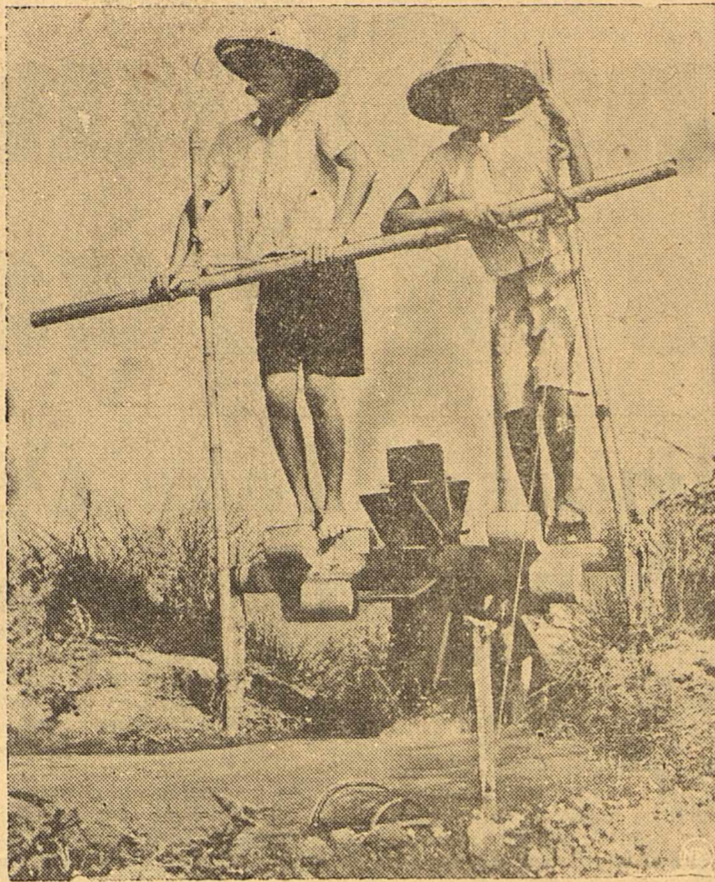

LEGAL NOTICE

The Board of Trustees of the Midland Independent School District invite sealed bids for the purchase of the two room Cotton Flat School building, situated approximately seven miles south of Midland. All bids are to be received at the office of the Superintendent not later than Monday, June 24, at 4 p. m. The Board of Trustees reserve the right to refuse all bids, or accept any bid which they deem to be in the best interest of the school.

Child Labor In Sorely-Pressed Formosa

Liberated after 51 years of Japanese rule, Formosans today are not sure whether bondage to the Jap was not preferable to the "freedom" of their last six months, under Chinese rule. Famille, widespread unemployment, black markets and economic robbery impose heavy burdens. These exclusive pictures, showing young children toiling to make their meager living, were taken by Harlow Church, NEA-Acme correspondent, first Occidental photographer to visit Formosa since 1936.

About bobby-soxer age, these Formosan girls work all day in the hot sun, tread-milling on a primitive irrigation ditch.

Children of Taihoku, Formosa, labor with picks and shovels in the ruined city's streets, removing and salvaging wartime wreckage.

Senator To Push For Full Report On Justice Feud

WASHINGTON — (AP) — Demands that four Roosevelt appointees be swept from the Supreme Court were coupled Wednesday with a proposal that all eight justices tell the full story of the tribunal's "feud."

Senator Eastland (D-Miss.) announced his intention to push for an open investigation of discord between the jurists which he claimed has produced "inexcusable chaos" in the high court.

The suggestion that all present justices be called on for public testimony came as a follow-up to the move by Eastland and Senator Bridges (R-N. H.) aimed at virtual dismissal of half the present court.

Eastland told a reporter he will ask the Senate Judiciary Committee to question the justices at hearings he insists be held on the constitutional amendment he and Bridges introduced.

The amendment would force retirement of four of the present justices by limiting to three the number of court members who could hold appointment by any one President. The places of those retiring would be filled temporarily by House election of lower court judges until a new President chose successors.

The amendment faces an admittedly hard road. To become effective, it must win two-thirds approval by Congress, then ratification by three-fourths of the state legislatures. Most senators doubted it could make the grade.

It would not affect President Truman's appointment of Fred Vinson as chief justice, a nomination expected to receive early Senate confirmation.

Eastland informed a reporter he is uninterested in the fact that his amendment would leave Hugo Black on the court, while retiring Jackson, who recently asserted publicly that Black declined to disqualify himself in a case in which his former law partner was interested.

LATIN-AMERICANS PLAN BENEFIT DANCE SATURDAY

Latin-Americans of Midland will entertain with a dance at the City-County Auditorium Saturday night, with proceeds to go to the fund for construction of a modern 75-bed memorial hospital here.

All Latin-Americans are urged to attend and make the event a success, persons in charge of arrangements said.

COWS GO INTO SUDAN

Dairymen who planted early crops of sudan now are turning their cattle into the plots, and milk production is increasing somewhat. Bundle feed is becoming extremely scarce in this area, it is reported.

HIGH DEATH RATE

There is a higher death rate among stable hands and hostlers between the ages of 15 and 64 than in any other gainfully employed group.

12 Texans Appointed To National Oil Council To Advise U.S. On Oil, Gas

WASHINGTON — (AP) — An 85-member national petroleum council has been named to advise Secretary of the Interior J. A. Krug and the

department's Oil and Gas Division on oil and gas matters.

The peace-time council, which includes 55 men who served at some time on the petroleum industry war council, will be purely advisory. Members will serve without compensation.

In selecting the members of the council, Krug said in a statement, special attention was given to assuring a well-balanced representation as between large and small companies in all parts of the country and from all phases of both oil and natural gas industries.

The purpose of establishing the council, Krug added, is "to continue the government-industry teamwork that proved so important a factor in the success of the war program."

Ralph K. Davies, who served throughout the war period as deputy petroleum administrator for war, is head of the Oil and Gas Division, created after the Petroleum Administration for War was discontinued some time ago.

Members of the national petroleum council include the following from Texas: J. S. Bridwell, president, Bridwell Oil Company, Wichita Falls; E. De Golyer, Dallas; J. H. Dunn, president, Natural Gasoline Association of America, Amarillo; Jake L. Hamon, Dallas; G. A. Hill, Jr., president, Houston Oil Company of Texas, Houston;

H. L. Hunt, Hunt Oil Company, Dallas; J. R. Parten, president, Premier Oil Refining Company of Texas, Houston; H. J. Porter, Houston; C. F. Roeser, president, Roeser and Bendleton, Inc., Fort Worth; A. H. Rowan, Rowan Drilling Company, Fort Worth; G. L. Rowsey, president, Gulf Coast Refineries Association, Taylor; and Grady Vaughn, Dallas.

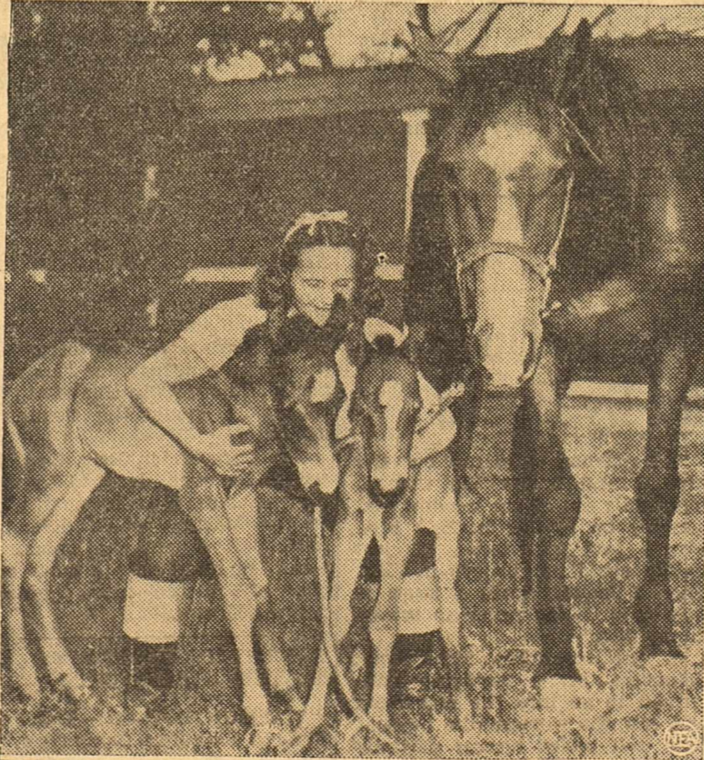

City Council Meets

The City Council was scheduled to meet in regular session Wednesday afternoon. A proposal for the re-zoning of a part of North Front Street as a business district was scheduled to be taken up at a public hearing at 3:30 p. m. Only routine business was expected to occupy the remainder of the docket.

FETED HORSE

Caligula, Roman emperor, held his horse, "Incitatus," in such high esteem that he gave banquets for it. Prominent Romans were required to attend and dine with the animal.

Rare Pair

Twins, a rarity among thoroughbred horses, were foaled at Sleepy Hollow Stables, San Anselmo, Calif. Baby-brother and sister, Rex and Regina, left to right, are shown with proud mother, Bonny, and owner Mrs. Ella Gianinni.

Cooler Weather Due For Texas

By The Associated Press
There'll be a hot time in most Texas towns Wednesday, but not because of the weather. The weather, for a change, will be cooler.

Wednesday is Juneteenth.

The U. S. Weather Bureau said winds and thunderstorms struck the Panhandle region Tuesday night and should reach throughout the state by mid-afternoon Wednesday. Temperatures were tumbling after several days of high 90 and 100-plus readings.

Amarillo recorded a 52 low at 6:30 a. m. Wednesday, after Wink had registered a 104 Tuesday.

High for Wednesday is predicted at near 86, with Wednesday night's low to fall in the mid-60s.

Other high points for Tuesday included Big Spring with 99, Abilene and Wichita Falls with 98, Laredo, Dallas and El Paso 96, and Tyler 91.

One woodchuck may eat as much as two pounds of greens in a day.

Martha Preston Gives Devotional At Baptist YWA

The program for the Margie Shumate YWA of the First Baptist Church was opened with a devotional on the subject "A Ladder for Discipline" by Martha Jane Preston. Hostess was Mrs. J. S. Griffith, counselor.

After the group sang "O Zion Haste," Faye Shelburne offered a prayer. Members responded to roll call by giving a verse of scripture. Mrs. Griffith led in a special prayer for the YWA Camp at Ridge-Crest, N. C. A talk on "Stewardship Testimony of a Tither" was presented by Dorothy Raines, stewardship chairman, and concluding the program was a discussion on "Marking My Measure" by the group. The discussion included remarks on social and spiritual rating.

During the business period three new members, Betty Wood, Elsie Lee Colvin, and Peggy Rowan, were initiated into the organization. Plans were made for the GA camp to be held at Big Spring June 26-28. Members voted to contribute to the missionary offering to be taken in July. Plans were made for the slumber party to be held Friday.

Refreshments were served by the hostess to Ruby Gilbert, Ruby Hale, Joan Easley, Lurline Ponder, Dorothy Raines, Wilda Drake, Euzella Comer, Faye Shelburne, Martha Jane Preston, Peggy Rowan, Rosella Green, Helen House, Betty Wood, Elsie Lee Colvin, Nellive Clark, Alma Ruth Streeter, and Mrs. Jimmie Johnson.

MRS. NETTIE MESSICK RECOMMENDS OLD HENS FOR CANNING

"Fat lazy hens that eat more grain than they are worth are fine prospects for home canning," said Mrs. Nettie B. Messick, county home demonstration agent.

She reported that old hens and roosters are better for canning than the young birds as they have more meat which is more strongly flavored. Meat on young birds often lacks the chicken flavor when canned. Chickens can be canned either on the bone or off and both cans and glass jars are suitable as containers. Mrs. Messick continued by saying that information for canning and freezing chickens is available at her office.

A. C. HEFNER UNDERGOES EMERGENCY APPENDECTOMY

A. C. Hefner is reported to be doing nicely following an emergency appendectomy at the Western Clinic Hospital. Hefner is manager of the Scharbauer Hotel.

GO TO CHICKASHA

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, JUNE 19, 1946—3

Coming Events

THURSDAY

Members of the B & PW Club will meet at 12 noon in the Private Dining Room of the Scharbauer Hotel for a luncheon.

Group Two of the Children's Workshop of the Community Theatre, Inc., will meet from 10 to 11:30 a. m. in the City-County Auditorium.

Poland To Offer Plan On Atomic Energy Soon

NEW YORK —(AP)—Dr. Oscar Lange, Polish delegate to the United Nations atomic energy commission, will offer Poland's plan on atomic energy at an early date, it was reported authoritatively Wednesday.

An informant who would not permit use of his name said that Poland had a plan which the informant regarded as somewhat "simple and startling." He would not hint as to details of the Polish proposal, however.

TODAY IS JUNETEENTH

No special observances by Midland negroes of Juneteenth, Emancipation Day, had been reported Wednesday, although several games and get-togethers were expected to be held.

Most of the colored population will be listening to the Louis-Conn fight Wednesday night, it was reported.

Congratulations To

Mr. and Mrs. Geremah Patrick Henry McMullan, Jr., on the birth Tuesday of a daughter, Diane, weighing six pounds and 12 ounces.

OZARKA WATER CO. welcomes these new arrivals. Phone 111 and a bottle of OZARKA will be delivered to you free.—Adv.

atre, Inc., will meet from 10 to 11:30 a. m. in the City-County Auditorium.

East Side Home Demonstration Club will meet at 2:30 p. m. with Mrs. George Morgan, 506 West Indiana.

Tryouts for the next production of the Community Theatre, Inc., "Junior Miss," will be held at 7:30 p. m. at the City-County Auditorium. All interested persons are urged to be present.

FRIDAY

The public is invited to attend open house at the Junior Canteen from 7 to 10 p. m.

Mrs. Y. D. McMurry and Mrs. Ralph Lowe will be hostesses for the luncheon meeting of the Ladies Association at 1 p. m. at Midland Country Club. Golf will begin at 9 a. m. and foursome bridge will be played during the afternoon.

SATURDAY

Members of the Junior Workshop will meet from 10 to 11:30 a. m. at the City-County Auditorium.

A meeting of the Moment Musical Club will be held at 11 a. m. at the Watson School of Music Studio.

Children of the county are invited to attend the Children's Story Hour at 10:30 a. m. at the Midland County Library.

Midland Demonstration Club Women Are Invited To Frank Elkin Farm

Home demonstration club women of Midland County are invited to the Frank Elkin farm, two miles on the Stanton Highway at 10 a. m. Thursday to make a tour of his grape vineyard.

A representative of the Welch Grape Juice factory recently visited the Elkin vineyard. He highly praised the vineyard and the juice made from the Zinfandel grape without the use of sugar.

MRS. ALMA THOMAS LEAVES FOR MEXICO

Mrs. Alma Thomas is leaving Thursday for Guadalupe, Jalisco, Old Mexico, where she will be hostess for study groups in that city.

RICHARDSON'S NURSERY

Concert-Lecture Drive Continues For Memberships

The soliciting committee of the Midland Concert-Lecture Association is continuing the drive for a minimum membership in the organization.

Committeemen report that although the minimum has not been reached, enough paid memberships have been sold to assure the organization of four outstanding attractions to be presented during the fall and winter seasons.

It is hoped that by the first of July, the temporary organization can go into its permanent form and necessary committees appointed. The most important of these will be the selection committee to be appointed by the president of the Midland group.

Members of the selection committee will choose the four programs from the list of attractions to be submitted by the Dixie Bureau of Entertainments of Dallas. Top notch programs are assured, and schedules will be arranged in order not to conflict with other outstanding entertainments.

The programs will be presented in the Midland High School Auditorium.

Anyone who has not been visited by a representative of the soliciting committee and would like to be affiliated with this organization is asked to mail a check for \$10 to Roy McKee, treasurer. Membership for the year will entitle the holder to two admissions for each attraction.

Sigler, Kennedy, Coolidge Win In Political Races

By The Associated Press

Kim Sigler, an attorney who made a reputation campaigning against graft "in high places," easily led a four-man field Wednesday for Michigan's Republican gubernatorial nomination and two names well known to Americans showed up in the victory columns in Massachusetts primary returns.

John F. Kennedy, 29-year-old Navy veteran and son of former Ambassador Joseph E. Kennedy, corraled the Democratic nomination for Congress in the Bay State's 11th district while Arthur Coolidge, distant cousin of former President Calvin Coolidge, snared the GOP nomination for lieutenant governor.

Kennedy's victory in the predominantly Democratic sector apparently assured him of the House seat now held by Boston's mayor, Rep. James M. Curley, who is retiring. In trying his hand at politics for the first time, the former PT boat commander bested two veteran campaigners—topping his nearest opponent by more than 8,000 votes.

In Massachusetts, Gov. Maurice J. Tobin won Democratic renomination by a one-sided margin over Francis D. Harrigan, Boston lawyer. Tobin's opponent in the general election will be Lt. Gov. Robert F. Bradford, unopposed Republican nominee.

Senator David I. Walsh (D-Mass) and former Republican Senator Henry Cabot Lodge, Jr., were nominated automatically, as were Senator Arthur H. Vandenberg (R-Mich) and his Democratic opponent James H. Lee, former Detroit corporation counsel.

Rep. Philip J. Philbin (D) of the third Massachusetts district, only Bay State House incumbent who had a contest, was renominated.

Vacuum Cleaner Agency Being Opened In City

M. C. Engquist has opened an authorized Electroflux vacuum cleaner sales and service agency in the Cox Appliance building at 613 West Wall Street.

Engquist, who came here from Fort Worth, recently was discharged from the Air Forces where he served five years as a pilot.

His wife and 10-month-old child will join him here soon.

Smooth bark trees, such as birch, shed their bark annually.

Foreign Affairs Group Meeting Ends In Row

WASHINGTON —(P)— A House Foreign Affairs Committee meeting broke up in a row Wednesday over a tentative report by four of its members calling for a stiffer policy in diplomatic dealings with Russia.

Chairman Bloom (D-NY) and Rep. Mundt (R-SD) engaged in a sharp verbal tiff after Bloom accused the latter of letting the report "leak" to newspapermen Tuesday. Bloom said he thought the "leak" violated a confidence and was a "highly improper" step by a committee member seeking "publicity and notoriety."

Mundt denied giving out copies of the report, and added that he was out of town Tuesday. The flare-up came when Rep. Ryter (D-Conn) urged that action be taken by the full committee on the report.

Bloom replied that "action has been deferred" and said the committee would stand adjourned. Members shouted for recognition, and one of them, Rep. Vorys (R-Ohio) asked "does this mean that the attempt to suppress this report will continue?"

Bloom shouted back "there is no use to suppress it, since it has already been given out." He added that "if the proper information is obtained as to who let the report out the chair will act."

MRS. HODGE ON RADIO

Mrs. J. Howard Hodge of Midland, who is in Chicago in connection with a federated clubs meeting, was interviewed on Don McNeill's "Breakfast Club" radio program Wednesday morning.

LEGION DID NOT MEET

The American Legion post in Midland did not hold a regular weekly meeting Tuesday as scheduled when only a small number of members showed up for the session.

Convention Report Made To Lions Club

Frank Stubbeman, deputy district governor, gave a report on the recent state and district convention held in Big Spring at the weekly meeting of the Midland Lions Club Wednesday at the Scharbauer Hotel.

He reported that District 2-T, of which the Midland club is a member, voted to be divided. The new division was not described.

Eddie Frank Conner was inducted as a new club member.

Ellis Conner announced plans for a Lions carnival to be held the last week in June, and Ted Thompson told of the Midland Bathing Revue to be held soon at Pagoda Pool.

Inaugural Banquet Program Announced

The program for the Midland Junior Chamber of Commerce inaugural banquet scheduled at 7:30 p. m. Friday in the Scharbauer Hotel's Crystal Ballroom was announced Wednesday.

U. A. Hyde of the state organization and former Midlander will attend the meeting which will use as its theme: "JayCeas Get the Job Done."

Retiring president, Hubert H. Hopper will call the meeting to order after which R. E. (Rusty) Gifford will lead a sing-song. W. B. Neely, Jr., will give the invocation.

Brief talks will be made by: L. W. (Sandy) Sandusky, representing Midland JayCeas; Hyde, representing the state JayCeas; Clint Dunagan, the national JayCeas; R. L. Miller, the senior Chamber of Commerce; Fred Hogan, city government; and E. H. Barron, the county government.

The following new officer and directors will be installed: A. A. (Poosty) Jones, president; W. B. Neely, Jr., vice-president; Tanner Laine, vice-president; Ted Thompson, secretary-treasurer; Newnie Ellis, state director; Thompson, state vice-president; Ellis, Murray Fassen, Gifford, Clyde Garrison, Ernest Neill, Dr. Henry Schlichting, and Frank Woods, directors.

It is a ladies night event.

Superior To Dig--

(Continued from Page 1)

pounds and gas-oil ratio was 139-1. The well is 1,980 feet from north and west lines of section 23, block A-41, psi survey, and between the two previously completed Ellenburger producers in the field.

The Texas Company No. 1-F Fraser, West Ector County Ellenburger discovery, two miles north of the TXL field, and in southwest quarter of section 39, block 45, TP survey, T-1-N, flowed to storage for four hours and made 301 barrels of oil, cut with four per cent drilling mud and drilling water. The flow was through open two-inch tubing, and the production came from perforations in casing between 9,750-9,786 feet. Gas-oil ratio was 1,110-1. It was indicated that operator would complete the well as it is. The test was natural.

Good Devonian Test
Cities Service Oil Company No. 1 Wheeler, in northeast quarter of section 10, block 46, TP survey, T-1-S, and on the east side of the Wheeler field, in East Winkler County, was making hole below 8,469 feet, in Devonian chert and lime.

A drillstem test was taken at 8,366-8,460 feet, with tool open for one hour and 15 minutes. Gas estimated at 500,000 cubic feet per day showed a surge in 16 minutes. The fluid in the drill pipe did not reach the surface during time the tester was open.

Recovery was 830 feet, or 8.36 barrels of oil, cut with drilling mud, and being 80 per cent oil, and 200 feet, or 2.4 barrels of clean oil. The exploration is to continue to test the Ellenburger.

Conditioning Mud
Humble No. 1 Harris, Southeast Sterling County wildcat, in section 114, block 6, H&TCO survey, and 12 miles southwest of Water Valley, was on total depth of 8,015 feet, in lime, conditioning drilling mud. Operator did not reveal what was the next activity billed for the prospector.

Humble No. 1 Crespi, East Midland County exploration testing shows of oil in the Devonian, flowed 40 barrels of fluid in last 24 hours—80 per cent salt water and 40 per cent, or about 16 barrels of oil. Testing was continuing.

Gaylord H. Chizum, et al, No. 1 University, Northwest Ward County wildcat to test the Delaware, was making hole below 5,030 feet, in anhydrite and lime. A string of 7-inch casing had been mudded at 5,030 feet.

Koy Shows Gas
Cooper Gas Company No. 1-A Jess Koy, which early last week flowed 100.375 barrels of high gravity crude hourly from two acidized Strawn zones to become Schleicher County's first major oil producer, developed dry gas Wednesday from an upper Strawn horizon.

It gauged 4 1/2 million cubic feet daily through open 2-inch tubing against 1,050 pounds back pressure and was estimated good for 15,000-20,000,000 cubic feet daily on open casing. The flow was through perforations at 5,350-5,410 feet. The section had been treated with 3,000 gallons of acid, as was each of the lower oil sections. A Railroad Commission gauge of the gas was scheduled this afternoon.

Cooper will apply for dual completion and turn the gas into Lone Star's 8-inch, 48-mile pipeline that currently delivers 6,000,000 cubic feet of Strawn gas daily from five Cooper wells in the Page field to the West Texas Utilities Company plant at San Angelo. No. 1-A Koy is 3/4 mile north of the nearest Page gasser, and eight miles east of Eldorado. Cooper is starting a quarter mile west offset.

Tiny Infant Completes First Week Of Living

ROCKWELL, N. C.—(P)—A baby girl, weight one pound, one ounce, when born last Thursday to Mrs. Earl Cranford of this farm community, Wednesday had completed a week of hazardous living.

The infant, about nine weeks premature, is fed hourly with a medicine dropper. She is at home, current hot weather having made the use of an incubator unnecessary.

DOOLITTLE SETS RECORD IN TEXAS-CHICAGO FLIGHT

CHICAGO—(P)—Jimmy Doolittle, former commanding general of the 8th Army Air Force, flew from Houston to Chicago—938 air miles—Tuesday in three hours and 37 minutes—cutting almost in half the commercial air line time between the two cities.

NEGRO IS STABBED

Edward Noble, Midland negro, was hospitalized following an affray in which he was stabbed Tuesday night.

Norman E. Jackson, another negro, was fined \$25 in city court Wednesday for affray.

MARRIAGE LICENSE ISSUED

A marriage license was issued Tuesday at the county clerk's office to Paul L. Hestenstein and Dorothy Jean Gay.

Branch Rickey assumes his best professional look as he poses in cap and gown in which he received honorary degree from University of Rochester for outstanding contribution to field of sports and athletics.

SAN ANGELOANS VISIT

Mr. and Mrs. Gus Jones and Mr. and Mrs. Jake Harper of San Angelo were visitors in Midland Wednesday. The Jones are parents of Poostie Jones of the Ranch House. Harper is county commissioner of Tom Green County.

Bread Ceiling Price Is 12 Cents Per Loaf

The office of price control in Midland County announced Wednesday it was notified by the district office in Fort Worth that the retail ceiling price of bread here is 12 cents per loaf.

The office here had been besieged with inquiries regarding the price.

LIFE SENTENCE AFFIRMED

AUSTIN — (P) — The Court of Criminal Appeals Wednesday affirmed a life sentence given Earl Ridgeway in Orange County on a charge of rape.

The appeal was before the court without a statement of facts or bills of exception.

WINS PLACE ON ROLL

Mildred Wreyford of Midland was among the 61 students to earn a place on the honor roll for the second semester at McMurry College, Abilene, Dr. H. S. Von Roeder, acting registrar, has announced.

SCHOOL GROUND WORK ON

Work is underway on levelling part of the Junior High School grounds east of the football field, preparatory to resodding the area. The space will be used as a practice field by the football teams this fall.

NAVY DISCHARGE FILES PAPER AT COUNTY OFFICE

Naval discharge papers of Lewis Cecil Hobbs, former yeoman second class, were filed Wednesday at the county clerk's office. Hobbs saw service in the Pacific and won two stars. He served aboard the USS Beckham.

More Than 100 Persons Die In Germany Blast

HANNOVER, GERMANY —(P)— More than 100 Germans and displaced persons are believed to have lost their lives in an explosion which followed a fire in an ammunition dump at Haenigsen, 15 miles northwest of Hannover Tuesday.

All types of German ammunition had been stored in an old salt mine on three levels at 470, 70 and 100 feet below the surface.

The ammunition was being removed but it was estimated that 10,000 tons of explosives were still in the mine at the time of the blast.

The fire broke out on the 70-foot level and about half of the stored ammunition exploded.

At the time of the explosion 80 Germans and 23 displaced persons were working underground. All were believed to have been lost.

One British soldier working on surface was slightly injured.

COUNTY CHAIRMAN RULES NEGROES MAY MAKE RACE

DALLAS —(P)— Dallas County Democratic Committee Chairman Arthur Stevenson has announced that negroes cannot be barred as candidates for the July 27 Democratic primary.

One or more negroes have filed as candidates for party precinct chairman.

Read the Classifieds.

Suspect Absolved Of Suspicion In Texarkana Case

TEXARKANA—(P)— A man arrested at Carthage, Texas, and earlier described by a Texas Ranger as "the hottest suspect yet" in Texarkana's so-called "phantom killings" Wednesday was absolved of all connection with the case.

Five persons were murdered at Texarkana over a period of six weeks without a single tangible clue as to the identity of the killer. The man's alibis have proven he could not have been involved, officers said here Wednesday.

The man, a 22-year-old war veteran who had been hospitalized as a mental case at Little Rock, about 140 miles from Texarkana, was arrested in Carthage Saturday night on a stolen car charge filed in Shreveport. Sheriff Corbett Akin of Panola County said the man readily admitted to car theft charges.

His connection with the Texarkana phantom killings was first suspected when a bus ticket dated April 14, the night of one of the killings, was found in his pocket. The ticket was for a trip from Shreveport to Texarkana.

Texas Rangers immediately went to Carthage, questioned him, and

Canned Goods Costs To Increase Shortly

WASHINGTON —(P)— Housewives will pay more for part of the 1946 pack of canned fruits and vegetables put up by processors who have granted approved wage increases.

Announcing this Wednesday, OPA said it had scarcely any information on the number and extent of such pay raises, and thus could not predict the general effect on prices that the higher costs will exert.

The Wage Stabilization Board said approval of pay hikes for canning industry workers is being handled almost entirely by its regional offices, and that reports have not reached Washington.

The 1946 pack of canned fruits and vegetables will begin to appear on store shelves soon.

SCOUT UNIFORMS FREED OF OPA REGULATIONS

WASHINGTON —(P)— OPA Wednesday suspended price ceilings on Boy Scout and Girl Scout uniforms, except shoes.

then went to Caddo Parish to check his alibis.

Wednesday they announced that all alibis proved true, and that the man could not have been involved in the Texarkana killings.

He is still held in the Carthage jail on the car theft charge.

SPORTS

6—THE REPORTER-TELEGRAM, MIDLAND, TEXAS, JUNE 19, 1948

Oil Scouts, Reporter Win Playoff Openers

The Oil Scouts and The Reporter-Telegram went one up apiece in opening Shaughnessy playoff games Tuesday night at Barney Grafa diamond. The Scouts beat MAAF, 7 to 3, in a game played under a protest by the Army on Crow's

pitching delivery. The Reporter blanked O'Neal's 6 to 0.

The four clubs tee off again Thursday evening in the second game, which will be the sugar tilts provided the two winners can do it again. If not, then third games will be played Friday night.

Bo Mitchell's Pressmen weren't in such a slugging mood but they had the stuff to win. A walk and an error scored Pierce in the first inning. In the second they got another tally with hits by Brown and Morrow, with Brown scoring. Going scoreless in the third, the R-T made three in the fourth when Brown hit and scored, Morrow walked and scored, and Whitworth hit and scored. Two hits by Truelove and Brown again in the fifth gave Reporter one more run, with Truelove crossing the plate.

Shorty O'Neal's gang played good ball, but it was not their night. They loaded the sacks in the fifth but two men were put out at home plate. Two men died on base for O'Neal's in the seventh. Wise got a hit. But Stevenson, who had walked, was nipped at second base.

Scoreboard: R H E
O'Neal's.....000 000 0-0 3 2
Reporter.....110 310 x-6 7 1

Bubba Gayle's Scouts got only two hits but they quieted the Army. Jim Maedgen, third sacker, got 'em both. One was a too-hot-to-handle drive in the first inning, which scored two runs and the other was a long triple to center field in the seventh frame.

Right off the bat the Scouts got two runs on two walks by Fowler and McKenney when Maedgen poked them in. The Gaylemen got one run in the second on an error by Army and a walk. Roberts scored. Then in the third the Scout added two more runs by Cones and Roberts as MAAF erred. The Scouts racked two more runs in the seventh on Maedgen's triple. Cones had walked and he galloped home ahead of Maedgen, who later scored.

Errors hurt the patched-up nine of MAAF. Dunlap pitched good ball but his support was erratic. The Khaki boys got one run in the fourth as Milbut scored on Chapas' double. MAAF made two more runs in the seventh when Plummer hit a triple and scored on Shelton's bingle right after him. Dunlap, first up, had singled, and he scored on Plummer's knock.

The scoreboard: R H E
MAAF.....000 100 2-3 7 5
Oil Scouts.....212 000 2-7 2 1

Odessa Named Site For Women's Golf Tourney

ABILENE—(P)—Odessa was selected as the 1947 site of the Women's West Texas Golf Association tournament in the annual meeting of the association directors here Tuesday.

Mrs. Dan A. Gallagher, president of the Abilene golf club, was elected president of the West Texas group. Other officers elected included Mrs. Logan Creager, Mineral Wells, vice-president, and Mrs. Ted Huestis, Odessa, secretary-treasurer.

New directors include Mrs. Guy McAfee, Lubbock; Mrs. Sam O'Neal, Odessa; Mrs. Obie Eristow, Big Spring; Mrs. J. W. Day, Fort Worth; Mrs. W. K. Powell, San Angelo; Mrs. J. W. Ross, Amarillo; Mrs. R. B. Leavitt, Abilene.

TEXAN ADDED TO U. S. DAVIS CUP TENNIS TEAM

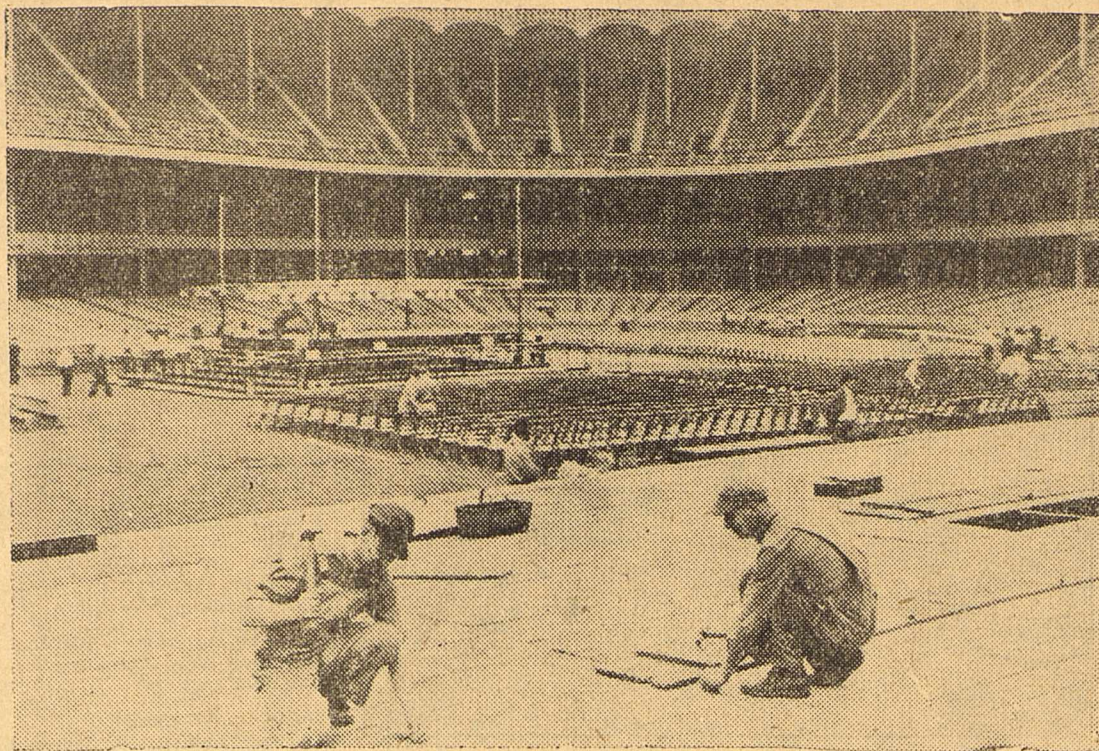

NEW YORK—(P)—Don McNeill, tennis veteran who at one time or another has held or shared the national outdoor and indoor singles and doubles championships, has been added to the United States Davis Cup squad for the North American zone finals with Mexico at South Orange, N. J., June 28-30.

SOME FAMILY TREE

A family tree started by one pair of humans could contain 2,000,000 persons in just 2,000 years, if there were no wars, epidemics and other agencies that cause untimely deaths.

The standard writing pencil is seven and one-half inches long.

Yankee Stadium Prepared For Louis-Conn Fight

The lucky people who hold \$100 tickets for seats in the last row of "ringside seats" for the Louis-Conn fight may be looking at the fight platform which will hold these prized seats. The ringside can be seen in the center background.

Louis Expected To Enter Ring At 8 P. M. As 3-To-1 Favorite To Whip Conn Second Time

By GAYLE TALBOT

NEW YORK—(P)—Joe Louis, a ring-weary veteran of 32, will defend his heavyweight title for the 22nd time Wednesday night at the Yankees' ball park, and he very likely will leave Billy Conn a quivering mass in the resin somewhere about the fourth round.

The indelible impression after watching the big negro and his slighter but dead-game 28-year-old opponent from Pittsburgh train for the past 10 days is that Louis still carries too many bazookas for Billy, just as he did on another June night five years ago.

Although he has not fought seriously for four years, Louis will enter the ring Wednesday night a

beautifully trained specimen. Veterans of the fight game who doubted that Joe could bridge the chasm of time and whip himself into anything approaching his pre-war form have watched his closing and with paralyzing force. His legs work out in open-mouthed amazement.

The big man who has held the crown for nine years still hits fast

How Wednesday's Fighters Compare

Billy Conn

Joe Louis

blazing night when he went down under a hurricane of blows in the 13th round. Billy still has a fighting heart the size of a pumpkin, he is utterly fearless of Joe Louis, he is fast—and he thinks he can win.

Also possibly on the credit side, Billy has put on a few rugged pounds, which might help him take a punch better and hit a little harder.

Billy and his handlers insist he is ready to step around Louis Wednesday night and box him

Permian Basin residents may hear the broadcast of the Louis-Conn fight at 8 p. m. over Station KCRS, Midland.

dizzy. Billy points out he was well ahead on points when Joe tagged him in their other fight, and he has sworn by all the coal in the Pittsburgh district that he will not try to slug with the lightning this time.

"Louis' punches don't leave you dead, anyway," he said one day recently. "He hits, hard, sure. But don't forget he had to hit me about 20 more times after that first right to the jaw before he put me down. He won't get the chance this time."

Louis Gets Faster

The only thing against Billy's sober argument is that Louis hasn't looked in recent days much like a man who might be evaded for more than a few split seconds, much less 15 rounds. In his final training sessions he jammed on the speed and fairly overwhelmed his sparring partners.

Louis has made only one promise: that he will "go out throwing punches" tonight. But he expects to win in an early round, and all his training has been toward that end.

For publication he has predicted that "Billy won't be around for long." Privately, he has picked the third round as the one in which he might catch up with his elusive rival.

"I trained for a knockout," he sums it up. "Conn trained for the newspapers."

With the two gladiators due to weigh in at Madison Square Garden shortly after noon Wednesday, the only important question remaining was the choice of a referee. The third man never is named until just before the fighters enter the ring. Eddie Joseph, who worked the last Louis-Conn scrap, and Benny Leonard, the old lightweight champion, have been the most prominently mentioned for the job. Louis is expected to weigh about 208 to Conn's 182.

In the event of rain Promoter Mike Jacobs will not refund the \$2,000,000 said to be in his till, but will shove the boot up to Thursday night. Ten thousand general admission tickets will go on sale at \$5 apiece when the gates open at 4 p. m. CST, four hours before the main event at 8 p. m. CST. The odds against Conn being the new champion were 11-10, and it was thought they might soar above 1-to-3 by night-fall.

The fight will be broadcast by the American Broadcasting Company and televised by the National Broadcasting Company.

League Directors Meet Wednesday

A meeting of JayCee City League directors has been called by Willard Opp, director, at 7 p. m. Wednesday on the mezzanine floor of the Scharbauer Hotel.

Several issues will be put up to the managers or representatives of each of the league's 12 teams.

The matter of payment of umpires will be decided and a protest by MAAF of a game played Tuesday night with the Oil Scouts will be taken up. C. G. Oliver, manager of the MAAF team, presented a written protest to the league secretary Wednesday morning.

Opp said the meeting will be over by 8 p. m. in time for the Conn-Louis fight broadcast and that a radio will be available on the mezzanine for those who wish to listen there after the meeting.

TUESDAY'S RESULTS

American League
New York at Chicago, postponed, rain.

Washington at Cleveland, postponed, wet grounds.
St. Louis 1, Boston 0.
Philadelphia at Detroit, postponed, rain.

National League
Pittsburgh 6, Brooklyn 3.
Cincinnati 10, New York 0.
Chicago 7, Philadelphia 0.
(Only games scheduled.)

Texas League
Houston 5, Fort Worth 4.
Tulsa 6, Beaumont 4.
Shreveport 6, Oklahoma City 5.
San Antonio 6-7, Dallas 5-2.
West Texas-New Mexico League
Abilene 16, Albuquerque 11.
Clovis 10, Lamesa 3.
Lubbock 2, Pampa 1.
Amarillo at Borger, postponed, light failure.

City League Playoff
Reporter-Telegram 6, O'Neal's 0.
Oil Scouts 7, MAAF 3.

Girls To Meet Odessa Wednesday

A Midland girls combination softball team from the Crawford Hotel and Midland Drug clubs will take on an invading Odessa aggregation at 8:30 p. m. Wednesday on the Barney Grafa diamond.

At 7 p. m. Durrell Insurance and Grammer-Murphy cross bats in a league game. This tilt will be unrec'd before the "intersectional" fracas.

Midland all-star girls have won one and lost two against "foreign" clubs. They lost one to Stanton and one to Odessa, then beat Stanton.

Cleveland Paper Says Indians May Be Sold

CLEVELAND—(P)—The Cleveland News said Wednesday that major stockholders had agreed to sell the Cleveland Indians to Bill Veeck, 32-year-old former owner of the Milwaukee Brewers, and a group of Chicagoans.

Meanwhile, however, stockholders of the Indians and others with interests in the club maintained a tight-lipped silence on the reported transactions.

President Alva Bradley said he "did not know a darn thing about" the report and John Sherwin, Jr., another major stockholder, declared he knew of no sale under way.

U.S. Soldier Tourists In Switzerland Have Earned 'Good Conduct' Ribbons

By HAL BOYLE
ZURICH, SWITZERLAND—(AP)—American soldiers, whose free and easy ways have brought them strong criticism in some European countries, have earned their "good conduct" ribbons in Switzerland.

Here touring GIs are genuinely serving as good will ambassadors for the United States. In the past 11 months almost 250,000 American troops have taken eight-day tours of scenic Switzerland at a special \$35 rate which covers food, hotel rooms and travel expenses. Each soldier is also allowed to bring along \$50 spending money.

When the project first was broached many Swiss were alarmed at the prospects of hundreds of thousands of foreign soldiers flooding their small country.

After nearly a year of association with these American tourists in uniform the Swiss people have voted them to be more gentlemanly than their run-of-the-mill peace time visitors. They have caused little property damage and their "wolfing" has been on a higher plane than during the war years.

"Out of one quarter of a million soldiers we have had only one half

dozen cases of misbehavior," said Florian Neiderer, Swiss manager of troop tours. "These were mostly watch and camera thefts. We have had no cases of crimes against women, we feel this is an exceptional conduct record."

Aid Mutual Understanding
Neiderer said the tours have done more "for mutual understanding between our countries than anything else possibly could."

Jimmy Brugger, veteran guide, who has also escorted almost 8,000 soldiers through Switzerland, says the first thing troops ask is "where are the watches?" After that they buy souvenir wood carvings and music boxes.

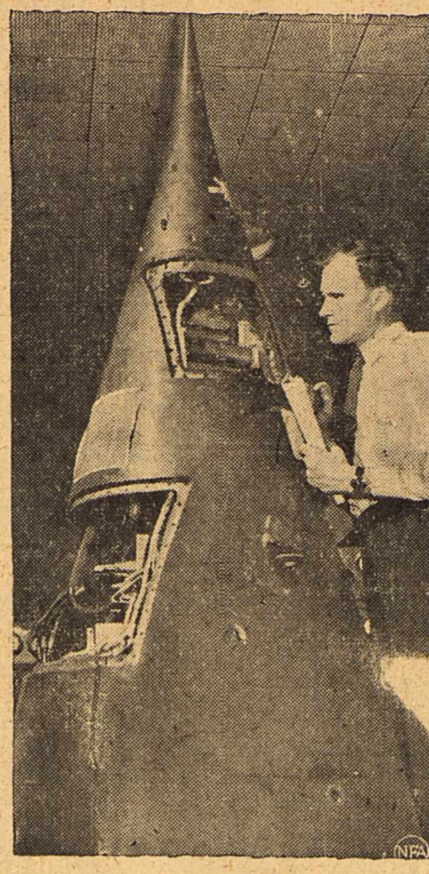

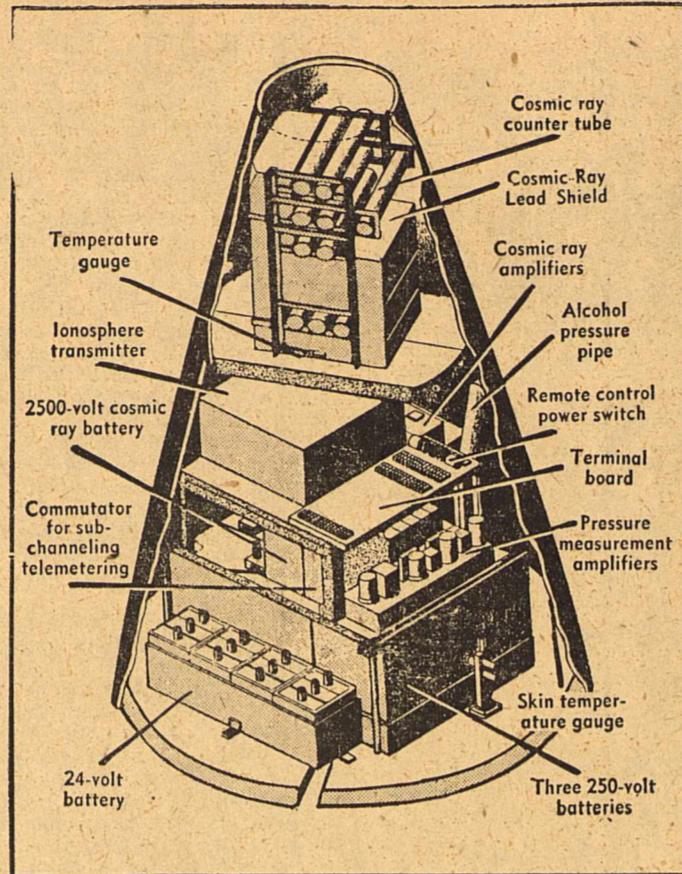

Brugger says American soldiers generally prefer Swiss cities to Swiss scenery, because of the night life they provide. Jimmy sometimes can't understand why boys should rather play cards than look out of train windows at mountainsides.

"Before the war we saw only the ritzy class of Americans," he said. "The Swiss people like your soldiers because they are more typical of the United States."

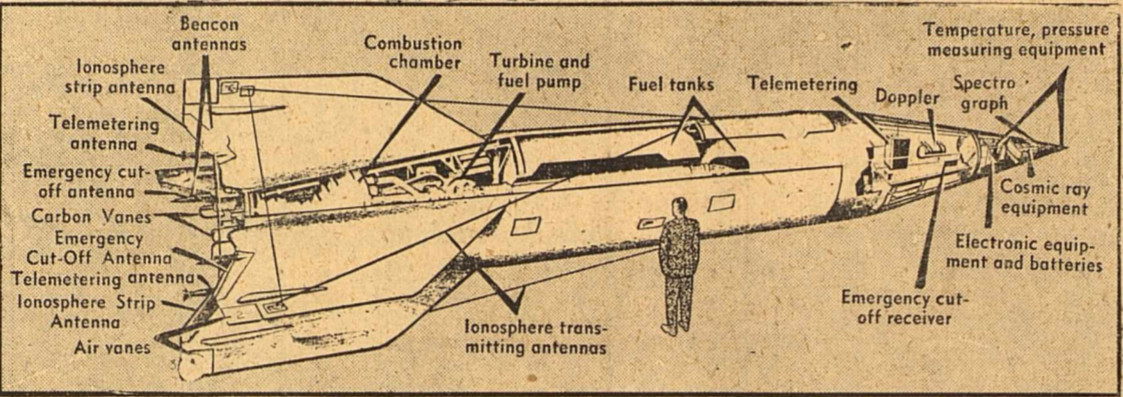

This Woman Knew What She Wanted

GREAT FALLS, MONT.—(AP)—One pair of nylons, one pair of rayon, three slips and six items loosely catalogued as "unmentionables" disappeared from a clothesline recently and a woman's footprints were found at the scene.

Rocket 'Laboratory' To Probe Ionosphere

To explore a region of the atmosphere never before successfully investigated, the Navy, in collaboration with Army Ordnance engineers, will send a miniature scientific laboratory shooting 100 miles up into the ionosphere at White Sands Proving Ground, near Las Cruces, N. M. Photos and diagrams above show the "lab," which will be contained in the warhead of a V-2 rocket. Scientists at many observation posts will operate a massive array of equipment to track the rocket on its six-minute flight and record the data that it automatically radios back to earth. Diagram at upper left shows recording and radio transmitting devices in the warhead. At left, Dr. E. H. Krause, head of the Rocket, Sonic Section of the Naval Research Laboratory, makes a final check on the instruments. Bottom diagram shows complete rocket, with figure of man for size comparison.

Smoking-Car Story: Air Will Be Clean

NEW YORK—(AP)—Railroad cars free of odor despite tobacco smoke, spilled drinks and the other incidents of long-distance travel are promised as another transportation improvement by a New York firm or air research engineers. Apparatus developed for installation with ordinary air conditioning equipment which controls only temperature and humidity, is a sort of enlarged gas mask. Principal ingredient is carbon, which has a long-known affinity for absorbing gases (all smells are gases) and other air impurities.

According to W. B. Connor Engineering Corporation, 80 per cent of the several thousand new passenger cars under contract include carbon air purification in their design. When materials can be obtained in sufficient quantities, manufacture of carbon air purifiers for home and office is promised.

Pan-American Pilot Reports On Island

NEW YORK—(AP)—Pan American World Airways says one of its pilots, Capt. G. F. Maxwell, had given the United States Navy a report on his observations of Urania, the new volcanic island in the Pacific.

The island, which was discovered some months ago by a British cruiser, had been reported disappearing. But Maxwell, on a recent charter flight to Shanghai, reported sighting the island estimated it was 150 feet high and 150 feet in diameter. He said the water around the cone was discolored, indicating continued volcanic activity beneath the surface.

Bird To Be Stuffed, But Not By Cook

RIVERTON, WYO.—(AP)—Lowell Coan thought the meat shortage had hit a new bottom when he found a peacock in the bulk storage room of his frozen food locker. But an attendant explained that the bird wasn't for eating, its owners had left it there while making arrangements for a stuffing and mounting job.

Industry in Panama is limited largely to brewing, distilling, and the production of evaporated milk, furniture, clothing, soap and candles.

If You're Sensitive, It May Be Because Your Feet' Too Big

NEW YORK—(AP)—If you're a moody fellow or don't like the social life it may be partly the result of being underweight or having big hands.

In a research investigation conducted with 258 young men as specimens and reported in the Journal of the American Medical Association, studies were made of the possible relationship between body build and personality.

Men with bodily disproportions including unusual height for weight, shoulders broad for chest circumference, head large for size of chest and oversized hands "were found to have a greater frequency of certain dominant personality traits, indicating lesser stability, lesser integration, greater sensitivity and complexity of personality and lesser capacity for making easy social adjustments," the report said.

Conversely, it was found that men with traits indicating personality soundness or stability had fewer disproportions in physique than the average of the whole group.

The experiment report carried a warning, however, that the theory requires verification and further study.

Ideas Wanted By Army In Germany

FRANKFURT—(AP)—In an attempt to spur American soldiers' interest and understanding of occupational problems in Germany the U. S. Army has offered prizes for the best suggestions for improving occupational troop performance.

For ideas on such subjects as "relations with the Germans; relations with our allies; what to do about Displaced Persons; or improvements in Military Government" soldiers may win prizes as high as a 15-day trip and \$100 in merchandise.

Civilians may compete, too, for awards ranging up to \$250 in merchandise.

How Many Truces In A Peace?

Once again, reports tell us, the drums of war have stopped rolling in Manchuria. Once again a truce—this one for a few days—has been signed by Chinese Nationalists and Communists. Once again the "good offices" of America's Gen. George C. Marshall have affected a cessation of fire.

It's a hopeful situation, they tell us. While the conflicting interests which have periodically burst into armed conflict for more than a decade have not yet been reconciled, the "breathing spell" is at least a decided improvement on the status quo, which has pitted brother against Chinese brother in warfare the more horrible for its seeming senselessness.

Yes, it's a hopeful situation, all right. Hopeful, that is, until one gives a little thought to recent Chinese history—history as recent as that of last April—and to the curious reaction publicly displayed in both Nationalist and Communist quarters to this latest pacific development.

The Nationalists, it seems, are not very hopeful that from this truce will come at last an enduring peace. They speak guardedly of "bitter disappointments" which have followed other recent Manchurian flights of the dove of peace. They fear the possible significance of the fact that the current cease-fire order applies exclusively to Manchuria, while fighting continues elsewhere in China.

No, the Nationalists are not very hopeful. But the Communists are less so. They are in an angry and threatening mood. And, strangely perhaps, their anger seems directed not so much at the Chinese government forces as at the American truce-sponsors.

There can be no peace, warn the Reds, until American troops have been withdrawn from China. The United States cannot be accepted as a peace-maker in good faith, read their bitter statements, in view of her obvious and overwhelming aid to Chiang Kai-shek, for whom, the Reds claim, she has armed 40 divisions since V-J Day and from whom she must be seeking something tangible in return.

We can't share the Communist suspicion of American motives, nor can we side with them in their avowed "holy war" against the Nanking government. But we have little difficulty in understanding their hostile attitude toward a nation which, posing as a disinterested arbitrator, heavily weighs the military scales against one of the parties to the dispute.

And we are inclined to feel that the Chinese in both camps know a little more about the realities of their civil war than does any American intruder, however well-intentioned and however able. If Nationalists "doubt" America's ability to effect an agreement, and if Communists demand our withdrawal as an indispensable prelude to their coming to terms, perhaps we should oblige our Oriental friends.

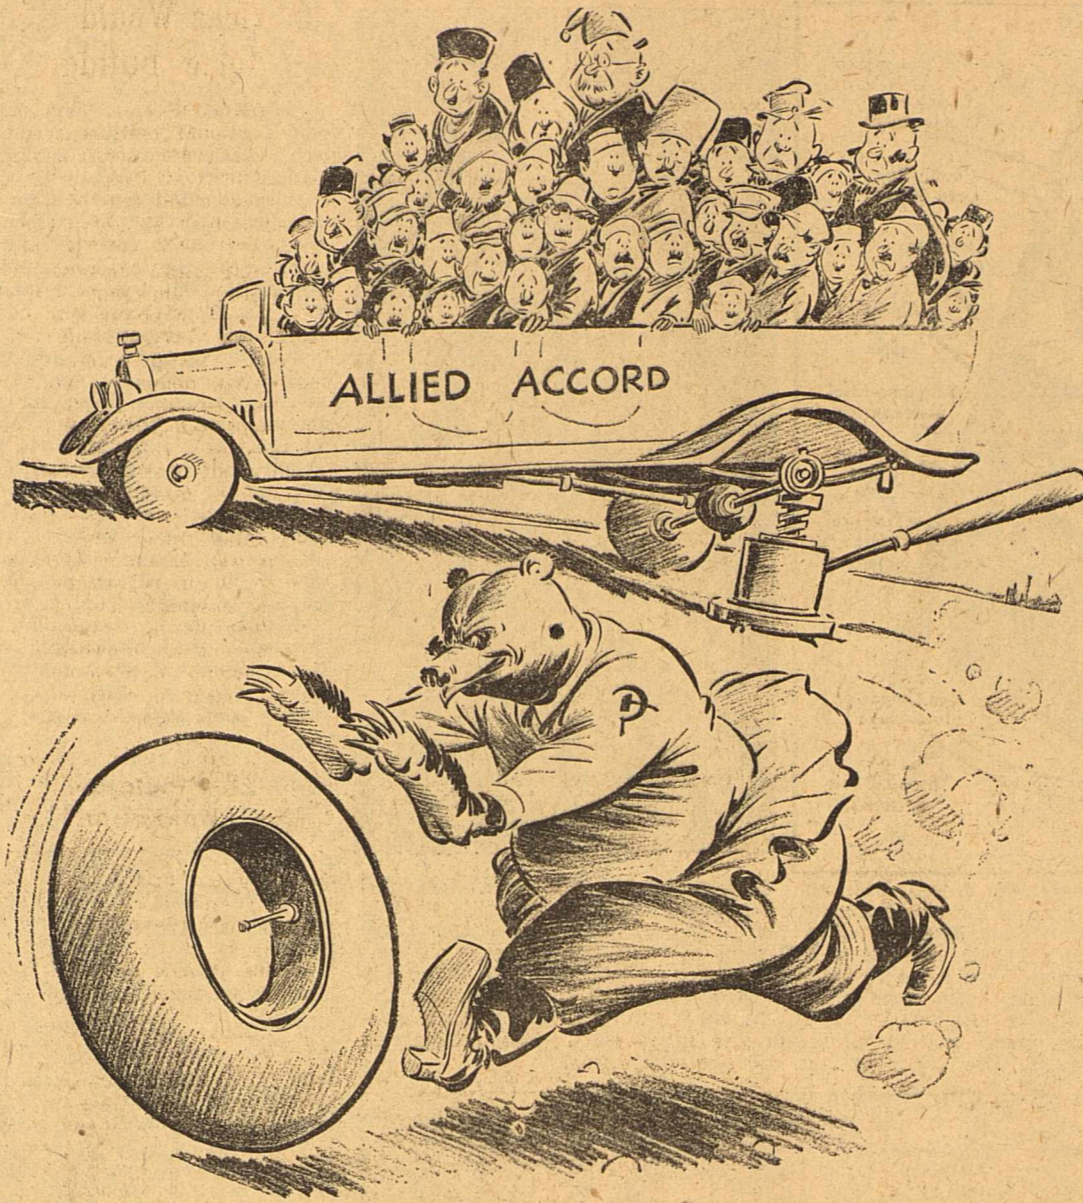

As we've said before, while America remains in China she seems destined to make only a series of truces. And, in China, how many truces make a peace?

Shucks, Henry

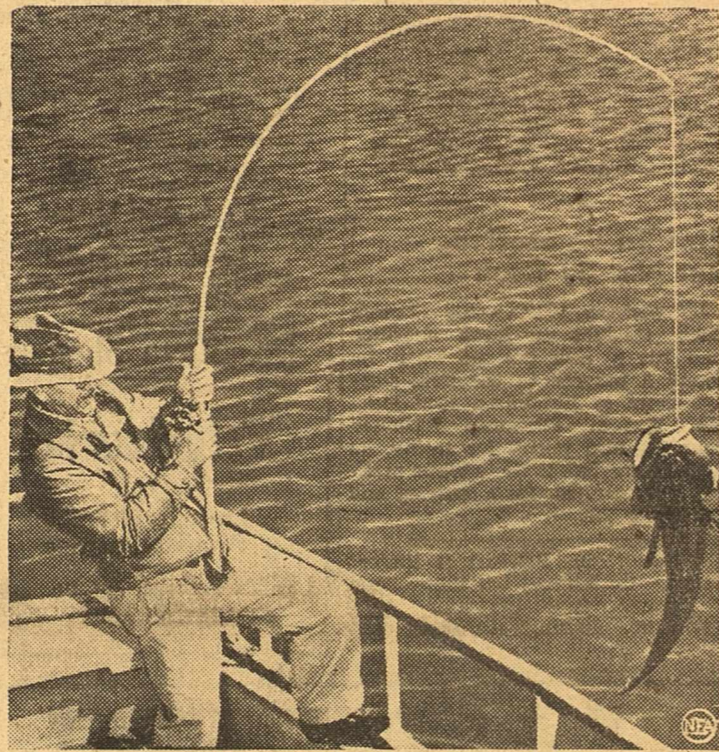

Since even Presidents are subject to ordinary human emotions, we can imagine Truman's feelings when he read that Secretary of Commerce Wallace had told a reporter in New York that "President Truman is going to run for President in 1948, and I am going to support him."

Dollars to doughnuts, the Presidential reaction was something like this: "Shucks, Henry, why did you have to go and give it all away? I wanted to surprise them myself."

All Aboard For Utopia

Give and Take

There's plenty of give to this angler's rod but it will take any fish he can hook. Pole made of conolon, new airplane plastic—four times stronger than steel, is lighter than wood.

Home Gardeners Will Find Time To Do 'Must' Work If Good Timing Used

By HENRY L. FREE
Written for NEA Service
When the home gardener fails to do the many necessary jobs he ought to do each week it is not always through lack of knowledge but usually the lack of timing. According to the old gardener your garden work for June should include the following:

The asparagus bed should receive a liberal top dressing of old manure after the cutting season is over and that should be about the middle of the month. If manure is not available, scatter a 10-6-4 fertilizer, at the rate of two pounds per 100 square feet of area. Cultivate it into the soil after the last stalk has been cut or snapped off. Spray the foliage with arsenate of lead to prevent damage by the asparagus beetle.

Many gardeners prune their staked tomatoes as the plants grow, confining them to one or two main branches. This method produces fewer but far better fruits and allows more working space about the plants.

Late or succession plantings of lettuce, beets, beans, sweet corn and other short season crops will increase the harvest. Those who plant everything in early spring and then forget about succession crops never realize the possibilities of their garden. As soon as any row has given its complete harvest, fertilize the soil and sow another crop. It is too late for peas in most places.

Still Time For Tomatoes
Hot weather crops like tomatoes, peppers, egg plant, melons and squash can still be planted, but only melons and squash can be matured from seed. The other vegetables must be grown from seedling plants.

Starting solutions are recommended to help overcome the shock of transplanting, and quicken the growth of the plants moved. Any good complete commercial fertilizer will do. The solution is made by dissolving five tablespoons of the fertilizer in a gallon of water and applying a cupful to the soil about each plant immediately after planting. For larger quantities use one pound of fertilizer for each 10 gallons of water.

Peony and iris plants which you have decided to lift and divide next September should be labeled now, while you still remember the color. When cutting peony blooms, leave some of the foliage on the base of the stalk from which the bloom was cut.

Pinch off at the ground all but the main stalk of each dahlia. But the buds appear it will be noted that they usually come in clusters of three. The one in the center is generally the strongest, and removal of the other two will allow the plant to expend more effort to the terminal bud which is left. If a bushy plant is desired pinch out the top of the plant when it is about 18 inches tall.

Incidentally, dahlias produce better blooms if the fertilizer used is weak in nitrogen and strong in phosphorus and potash. Commercial growers use an 0-20-20 fertilizer at planting time and a 4-12-4 fertilizer as a light side dressing later in the season, after the buds have formed. A soil rich in nitrogen reduces the keeping quality of the tubers.

It is almost impossible to find a person 40 years of age, man or woman, who has perfect sight.

39-Year-Old Widow Serves As Queen Of Tokyo's Black Market

TOKYO (AP)—A 39-year-old widow wearing western-style clothes—and an Occidental air of assurance to match—has moved in as queen of Tokyo's black market. Yoshiko Matsuda claims the high office in the underworld by right of succession. An ex-member of her husband's mob rubbed him out and made her a widow.

The defunct husband, Giichi Matsuda, was the boss of Tokyo's underworld up until the time he announced that henceforth the black market would be "legitimate, ethical and business-like."

Those who didn't want to live under his new ukase of honor among thieves could go back to honest toil, he said.

One, however, forthrightly decided that bumping off the king of the black market could be counted as an honest day's toil.

The killing caused great consternation in Matsuda's umbrageous empire.

Oriental aplomb was quickly restored, however, among Tokyo's estimated 5,000 black marketeers.

They voted to make Mrs. Matsuda the new ruler of the association, and she accepted with alacrity.

In an interview in the room where the last rites were performed for her husband, Mrs. Matsuda—flanked by flowers and funeral wreaths—declared: "I will try to do what my husband failed to do."

Eventually, she said, the black market could go legitimate, buying and selling at equitable prices.

Meanwhile, Mrs. Matsuda added with confidence, she would handle both her "association" members and rival racketeers, even if she was the first female ruler Tokyo's tenderloin ever had.

Meanwhile, also, the 5,000 members will keep right on paying her a total of 1,500 yen (\$100) daily for rental, cleaning, and protection—that is to say, "vigilance" service.

GOP Money Man

Up to the 16th century, Sweden had an elective monarchy under which the people had the right to depose as well as elect their kings.

Census By Airplane Counts 48,043 Antelope

CHEYENNE, WYO. (AP)—A recently completed aerial survey by the state game and fish department set Wyoming's antelope population at 48,043, in contrast to an estimated 5,000 forty years ago. But the department warned that an antelope kill of 42,579 in the past three years was far too heavy and this year's permits will be limited to 11,000. Antelope still are outnumbered by deer which the census estimates at 64,058.

TOO DANGEROUS

Rubber tires for vehicles were invented in London in 1876, but the public turned them down on the theory that "silently moving vehicles were hazardous to pedestrians."

In Case Of Turkey, Police Get Bird

HANOVER, N. H. —(P)—The cops didn't hold this bird very long. A citizen presented Police Chief Andrew J. Ferguson with a roasted turkey, saying he had found it in his car. The chief and his men made inquiries for 24 hours for the owner. So, said the chief: "Ok, boys, let's go to it."

Beau Catching Bonnet

BETTY CARGYLE: Sews her own chapeau.

By **ALICIA HART**
NEA Staff Writer

If you need a new scene-shifter for a background dress or suit, turn your talents loose upon a beaucatcher bonnet which can be whipped up in a twinkling and taxes clever fingers but not your budget.

If young movie starlets, whose stock in trade is chic, can make rave hats out of a length of taffeta ribbon, so can you. One who does, and is willing to spill secrets, is Betty Cargyle. All she invested in her trick bandeau-and-bow head-

piece, she says, were the price of three yards of taffeta ribbon and a tuck comb.

To turn these into a hat, follow her technique:

Holding one end of the ribbon behind one ear, measure head size across the crown to the other ear to make the bandeau. At that point shirr, tack, and press fullness into four tiny pleats to distribute it over the bandeau and make it curve with the head.

Loop remaining length of ribbon into a big bow and sew in place. Shirr and tack the other end of the bandeau to a tuck comb, which is for anchoring the "hat" to one side of the head. To hold it secure on the other side, plan to use hatpins under the bow.

Warning Note

SYDNEY, AUSTRALIA —(P)— Appropriate telegraphic address of the New South Wales Police Department is "Nemesis," chosen by Commissioner James Mitchell.

SETTING IT STRAIGHT

Little blue herons, when little, are not blue, but white. When they are blue, they're not little, but two feet in length.

Priscilla Lane To Return To Movies

By **BOB THOMAS**

HOLLYWOOD—(P)— War veterans aren't the only ones returning to the movie sets. At least one war wife is coming back, too—Priscilla Lane.

Three and a half years ago, Priscilla, youngest and most successful of the five talented Mullican sisters from Indianola, Iowa, disappeared from the Hollywood scene after making "Arsenic and Old Lace." "This week it was announced she would return in Andrew Stone's "Strange Bedfellows" with Eddie Bracken. I hunted her up for an explanation.

"After the war started I found out other things were more important than making pictures," said Priscilla, who is 29, and is looking as pert and beautiful as ever. The "important" things were her husband, Maj. Joseph Howard, and her life with him.

So during the war years the actress followed the Army flier through almost every state in the union. Finally he went overseas, returning just two days before the birth of their son five months ago. Since her husband is now stationed at March Field, she decided to try the films again.

"I'm going to free-lance," she said, "because in that way I can pick my own pictures and work when I want to. Your time is never your own when working for a studio and I want to have time for my family. That's the important thing in my life."

Crier Of Court Is Royally Confused

KINSTON, N. C. —(P)— Judge, lawyers, witnesses and spectators sat in amazed silence when the crier of recorder's court here concluded his intonation with a cry that had not been heard in a Kinston court for 170 years.

"And God save the King," cried the crier, Policeman Guy Langston, until recently a captain in the Army.

Langston explained later that he served for a while in England and "the British influence" might have caused the slip.

Texas Cities Intensify Hotel Fire Precautions

By **The Associated Press**

Texas cities, prompted by the disastrous Chicago and Dubuque hotel fires, are intensifying precautions and inspections so it won't happen here.

Included in the inspections are Texas hotels, apartment houses, rooming houses and other public places.

At Fort Worth, fire inspection of hotels was redoubled. Formerly inspections were made at three-week intervals.

Fort Worth also expects a fall delivery of two new 100-foot aerial ladder trucks for use in fires in tall buildings.

At Wichita Falls, where nine persons have died in fires in the past 16 months, a special check of hotels, rooming houses and apartment buildings is expected to be completed this week by Fire Chief George O'Steen.

San Angelo reported that the fire chief and fire marshal are conducting a rigid inspection of all hotels and rooming houses this week, with particular attention to fire hazards in basements.

Corpus Christi fire department is giving more than usual attention to its hotel inspections as a result of the fires, and Amarillo says inspections there are more rigid, too.

Dallas City Fire Marshal B. C. Hilton said an intensified drive is underway in Dallas on not only hotels and apartments, but all places of public assembly.

"There is more panic now among residents of hotels and apartments, as a result of those two big fires," he said. "There are 27,000 hotels in the country, and we can expect such fires. The average is pretty low."

Fire-Watered Indian Soon Became All-Wet

BILLINGS, MONT. —(P)— A too well "fire-watered" Indian was racing a "borrowed" team of horses and a farm wagon madly across yards and gardens when a police patrol car rolled up. The rambunctious redskin leaped from his Ben Hur mount, outran the police automobile several blocks to the turbulent Yellowstone River, leaped in and swam swiftly to an island, where he added insult to the officers' injured prestige by waving a battered straw hat he had worn at a jaunty angle all through his escapade.

Seafaring New Englanders were so strongly opposed to the War of 1812 that they talked about seceding from the union.

CONFIDENCE Well Placed

When you hand your doctor's prescription to us, you can be confident that your health is in safe hands. Why? Employers Need Workers In Brazilian Industries

RIO DE JANEIRO —(P)— There is no unemployment in Brazil. This largest South American country is seeking workers for all types of new industries as well as additional farmers, miners and construction workers. Immigrants are being sought to help solve the labor shortage. Although wages are not high, there are jobs to be filled in every kind of employment.

Maine was part of Massachusetts until 1820.

Jay N. Emerson, of Pullman, Wash., has been elected president of the International Kiwanis clubs at the organization's first peacetime convention in Atlantic City, N. J. He has been a Kiwanis member for 24 years.

UNDERGROUND CITY

The Witwatersrand gold mine, in South Africa, is the world's largest underground city. It has 4,000 miles of subterranean shafts, streets and avenues, and can accommodate approximately 150,000 workers.

Perfect rubies are much rarer than good diamonds.

Wyatt Says Breakdown On Prices Would Hit Vet Home Builders

WASHINGTON —(P)— Wilson W. Wyatt, national housing administrator, said here that a "breakdown" of price controls almost certainly would eliminate the hope of producing moderate or low cost homes in the next year or two.

It "would mean inevitably that the veterans emergency housing program, as now planned, would be unattainable," Wyatt said in a statement. This program calls for 2,700,000 new homes by 1948.

Without any direct reference to CPA extension legislation now being considered by a House-Senate committee, Wyatt continued:

"When we make a decision on price controls, we are deciding among other things whether veterans, as well as many others, are going to obtain satisfactory housing in a reasonable length of time or whether they are going to have to double up in crowded, makeshift quarters, or wander from place to place for what may well be good many years to come."

June 28 Proclaimed Texas Annexation Day

AUSTIN —(P)— Governor Coke Stevenson has proclaimed June 28 "Texas Annexation Celebration Day" to mark the one hundred first anniversary of the ending of the functions of the congress of the Republic of Texas.

Seven Of Eight Youths In Barvaria Jobless

MUNICH —(P)— Roughly 87 per cent of 81,000 Bavarian youths, boys and girls, leaving school this term will go jobless, according to the Bavarian labor ministry.

The government employment agency has been able to find only 11,000 vacancies for apprenticeships. Plans are being made hurriedly by the Babarian Youth relief organization to put the majority of the school-leaving youngsters to work on farms and in bombed cities clearing away rubble. Most of the job-seeking girls will become housemaids in farmers' households.

Ancient Slav Relics

WARSAW —(P)— Two Polish boys, bathing in the Vistula River, found strange bronze vases in the sand. They carried them to the national museum in Warsaw. The museum sent a crew of excavators to the spot and uncovered a pre-historic Slav burial ground dating from the eighth century, B. C.

The American Red Cross was founded in 1881.

DEPENDABLE SERVICE

Helpful Hints for Better Refrigeration

- Defrost regularly.
- Cover warm foods.
- Don't open door more often than is necessary.
- Keep controls set for normal temperature.

• Electric refrigerators are designed and built to give many years of dependable, economical service.

Right now, the need for adequate refrigeration is more acute than ever. It is vitally important that scarce food items be carefully conserved during the present emergency.

Help your electric refrigerator to continue to bring you the benefits of proper refrigeration by taking special care of it. The better care your electric refrigerator receives, the better service it will render.

Should your electric refrigerator need adjustment or repair, call the dealer from whom it was purchased, or some other reliable service man who is experienced with your make of refrigerator.

TEXAS ELECTRIC SERVICE COMPANY

R. L. MILLER, Manager

OLD HI COST OF LIVING

LIVING COSTS UP—UP—UP

ELECTRIC RATES DOWN AGAIN

The new low electric rates mean that you can operate your electric refrigerator at still lower cost, right at a time when the cost of living is going up.

General Duty Nurse

By **LUCY AGNES HANCOCK**

Copyright by Lucy Agnes Hancock Distributed by NEA SERVICE, INC.

THE patient in 327 smiled at her nurse. It was apparent she was feeling very much better.

Spring always did something to the patients in Linton Memorial. Perhaps the long rows of scarlet tulips that bordered the walks were responsible, or the pussy willows that flaunted their plump gray kittens beside the tennis courts, or it might possibly be the fact that the hill on which the hospital stood caught the first warm rays of spring sunshine and gathered unto itself every bit of soft April air. Anyway, Marcia Beach—badly ruptured appendix—smiled for the first time in the four days Sally Maynard had been on duty in room 327.

"O-h, you're better!" Sally cried softly, smiling in return. "I am so very glad! And today we have planned for you to have a visitor or two. I can imagine the two you are going to choose."

"Go ahead," the patient suggested. "Let me see how good you are." Her voice was surprisingly strong.

"Well," Sally said judiciously, "one will be your mother, of course, and the other—that good-looking lieutenant who has been haunting the place ever since you arrived and who is trying desperately to bankrupt himself by filling your room with flowers—not to mention the quantities of fruit and sweets, which, of course, you can't eat—at present. Right?"

"Right." The girl in the narrow hospital bed laughed softly. "Isn't he a darling, Nurse? What's your name—besides Maynard? I will

plan on spending your life here among the sick. It isn't right—it isn't—"

SALLY laughed softly. "A life is made up of days, my dear," she said with what seemed to the patient unnatural logic in one so young and lovely. "And days are made up of minutes. When one is busy as I am, the days pass quickly and soon run into years. One is scarcely aware of their passing."

"For heaven's sake, Sally Maynard!" Marcia cried indignantly. "How old are you?"

"Twenty-two. Why?"

"You talk like a woman of eighty," Marcia said, impatiently. "And somehow it all sounds phony—affected, and I simply don't take any stock in it. I bet you're like the average girl—dreaming of the prince who will one day come and sweep you off your feet into an enchanted world. Only in your case he probably will turn out to be a patient or, perhaps, a doctor—maybe a famous surgeon. A lot of nurses marry doctors."

"Well," Sally protested, "here's one who won't or a patient either. You see, I'm not interested in men—never was."

"Rats!" Marcia exclaimed inelegantly. "You only think you're not. But deep down in your subconscious there lurks a dream such as every normal girl has and I'll never believe otherwise."

"Okay," Sally shrugged. "That's your privilege. You asked for it and I gave it to you. What you do with it is your own affair. Now how about a short nap—a beauty sleep so that when your lieutenant arrives he will be completely bowled over—"

Marcia laughed gleefully. "There! See? You're romantic. I knew it. What's the matter with that nice young interne—what's his name—Hallock? And I believe there's another one here, too. Hallock looks as if he might be fun to know." Her bright eyes mocked the other girl. "I bet they're both crazy about you."

"If they are they manage to keep it well hidden," Sally said and was annoyed at herself for blushing.

(To Be Continued)

McKENNEY ON BRIDGE

By **WILLIAM E. MCKENNEY**
America's Card Authority
Lt. Col. Richmond H. Skinner of Chestnut Hill, Mass., past president of the American Contract Bridge League, dropped into my office in civilian clothes. He is busy starting a new charter airline business specializing in newspaper photography. Dick presented me with today's hand, in which there is an interesting duplicate bridge problem.

When the opening spade lead held the trick, East cashed the ace of hearts and North's king dropped. East continued with the heart queen which North trumped. Declarer realized of course that sweep you off your feet into an enchanted world. Only in your case he probably will turn out to be a patient or, perhaps, a doctor—maybe a famous surgeon. A lot of nurses marry doctors.

queen, or to play the diamond suit two-two. The colonel correctly reasoned that if East held only one diamond, four hearts could have been made, while if the diamonds were two-two, four hearts could have been defeated. To go down one trick at five diamonds against a makeable four-heart contract would not be a bad score. Therefore, by cashing his high diamonds, the colonel protected himself against a bad score in duplicate in case East and West could not have made their contract.

Of course the diamond suit broke two-two, which gave him six diamond and five club tricks for his contract.

PICTURE SIGNS
On the Khyber Pass, India, signposts are made in pictures, since most of the travelers cannot read. Automobiles are routed one way and camels and horses another.

Country Store Piano Goes Bing

HAMILTON, MON. —(P)—Country storekeeper Harry W. Johnson, who writes songs as a hobby, had a field day recently when he played piano accompaniment to his "Have You Ever Seen Montana," while a tourist sang the refrain.

The tourist was Bing Crosby, just passing through town.

Swords Into—?

SYDNEY —(P)—Surplus war material is being put to unusual uses in Australia. A man who bought a captured Japanese tank planned to exhibit it and then use it to tow his pie stand. A breakfast food firm is said to be using obsolete ack-ack guns for puffing wheat.

Prairie Pests Are Dying Like Dogs

PUEBLO Colo. —(P)—Prairie dogs, long a pest to Western farmers, are being warred on in earnest. One colony estimated to number 40,000 inhabitants has been wiped out at the Alpert Ranch north of here.

Poisoned oats are used, and by dyeing them a brilliant yellow, the exterminators claim they get the birds to leave all the grain for the little rodents. They say birds dislike bright yellow.

CARNIVAL By DICK TURNER

"And now, having voted the employees such a large increase in wages, I tender my resignation to accept a position on the assembly line!"

THIS CURIOUS WORLD By William Ferguson

NOT ALL OF CALIFORNIA'S GIANT REDWOOD TREES ARE ABOVE THE GROUND. TIME AND TIME AGAIN, FORESTS OF THESE GIANTS OF THE PLANT WORLD GREW UP ONLY TO BE COVERED WITH VOLCANIC ASH AND LAVA... AND NOW LIE BURIED DEEP BELOW THE SOIL.

Midland Plumbing Co. Features New Type Panelray Heating Unit

The Midland Plumbing Company, 203 South Main Street, is introducing to Midland the latest and most modern of gas heating equipment, the Panelray gas wall heater. This new principle of heating radiates infra-red heat rays which travel at the speed of light and actually penetrate one's blood stream before the air is warmed. This means instant heat radiated at body height warms occupants of a room from head to toe. In the installation of Panelray there is no necessity for cutting of floors or rugs. The floor is warm and safe for children to play on. There are six models for every heating need, a size for every room in the house. The installation looks well in any room and can be placed conveniently about the home to provide individual heat control. Panelray costs less to install because it fits any wall, old or new, upstairs or down. Its vented flue prevents "sweating" windows, metal surfaces,

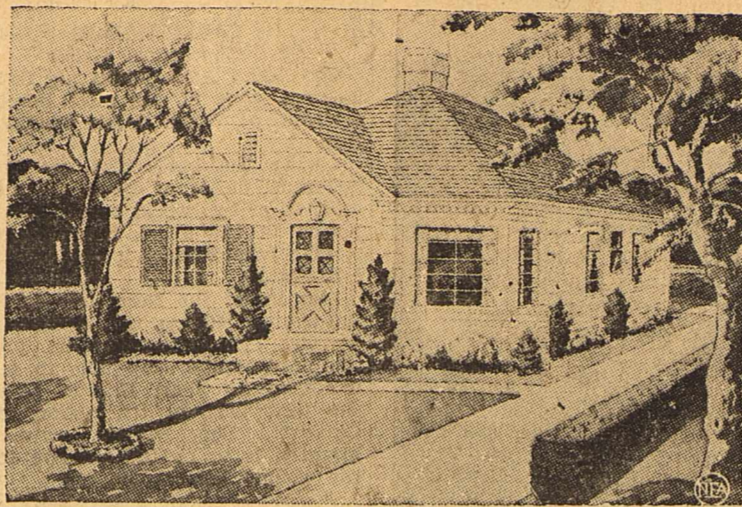

walls, and home furnishings. With Panelray there is no waiting for room air to warm up. Its sunlike warmth is available at the turn of a handle. There is no glow, but the units produce millions of healthful, penetrating infra-red rays. The Midland Plumbing Company, owned by C. E. Smith and C. A. Trauber, has some of the units in stock now, and expects to have adequate supplies within a short time. The owners invite inquiries regarding the new method of heating. An adequate stock of Ward floor furnaces also is expected to be available within a short time. Water softeners now are in stock, and the company will install and service them in Midland homes and buildings. The company, which holds a contract for installation of plumbing and equipment in the two elementary schools now under construction here, expects boilers for the building to arrive soon. Fixtures already are here, and the work is expected to be completed by the opening of the school term.

Roberson's Station Specializes In Wash And Greasing Jobs

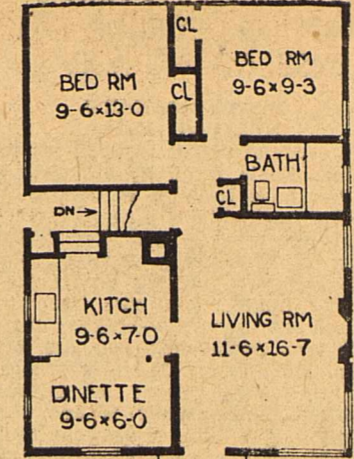

Washing and greasing jobs get extra attention at Joe Roberson's Service Station, 320 West Wall Street, where good service is a specialty. Employees take an especial pride in turning out good work in this department. The station handles Sinclair products, including the widely recognized Opaline and Pennsylvania motor oils and Sinclair HC gasoline. The staff of the station is experienced and capable of giving expert treatment to preserve the life and improve the operating conditions of automobiles.

The partners have been in the plumbing business about 20 years each. In their organization they have several highly-skilled journeymen, and they are prepared to bid for and take on any type of heating or plumbing work. C. C. Hamlin is foreman of the plumbing shop, and A. W. Booth is heating installation foreman. E. G. Moeller, master steamfitter with more than 20 years of experience, takes care of this type work. Journeymen plumbers employed by the firm include Rush Rotan, Earl Hill, J. M. Grady, C. A. Gray, W. A. Brazell and F. H. Jobe. Apprentices are W. D. Chandler and Foy Rotan. In addition, the company employs four laborers and special workers when needed.

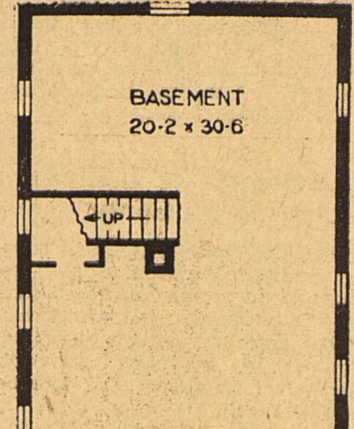

Decorative Doorway And Window Add Charm To Home

A very attractive small cottage home with colonial characteristics, especially well designed for a narrow lot. The attractive entrance doorway and featured corner living room window give individuality and character to the exterior. The interior consisting of two bedrooms, bath, living room, kitchen, dinette and basement is simply but well arranged for comfort and convenience.

GROUND FLOOR PLAN

BASEMENT PLAN

All-Night Service Feature Of Burl's One-Stop

All-night service is a feature note at Burl's One-Stop Standard Super Service, owned and operated by Burl H. Self. Employees will grease cars, fix flats or fill tanks with Standard gasoline on a 24-hour basis. The station, located at 601 West Wall Street, is handy to residents of Midland and a convenient stopping place for tourists through the city. For customers who find they haven't time during the day to leave their cars to be serviced, the Standard Super Service operates an overnight service—the car is washed and greased and ready to be called for next morning. The station is an agent for Standard products, Chevron Supreme gasoline and Chevron Regular; RPM motor oil and Standard Penn;

and Atlas tires and batteries. The greasing rack also is a Standard certified lubricating service with a high grade of grease and oil used to stop squeaky protests of cars.

Southern Ice Company Helps Combat Weather

Hot weather, especially the West Texas variety, naturally makes one think of something cool—a cold drink, which quickly quenches thirst. The Southern Ice Company, Inc., at 310 South Main Street, supplies part of the ingredients for those heat-beaters. From its convenient service platform one may obtain cracked ice, ideal for drinks or for freezing ice cream and for innumerable other uses. This already-chipped ice is sold in bags and is ready for use without the disadvantage of waste and the necessity of chipping large blocks. Ice in blocks also is sold at the platform, and is delivered on regular routes throughout the city.

Sun Never Sets On British Publicity

WARSAW — (P) — Youthful Patrick Howarth, press attache for the British embassy here, isn't running competition with Polish political parties, but his work is getting the "play." He has placed big billboards with pictures of British news events and life in the windows of tourist bureaus in principal cities. In Cracow, for instance, there's often a crowd of people eight to 10 deep gazing at British photographs. Across the street, usually only two or three interest themselves in a display by the Communist-backed Polish Worker Party of anti-British and anti-capitalistic cartoons.

Secretaries Think Tydings Debonaire —O'Daniel Not Likely To Be Missed

WASHINGTON — (NEA) — The grandest guy in the Senate, so say the senators' secretaries, is their own boss. The secretaries handed their bosses the bouquet in a confidential poll.

That doesn't mean that the secretaries didn't have very definite ideas on other senatorial and non-senatorial attributes.

For instance, Sen. Scott Lucas of Illinois, despite his 54 years, got the nod as the gentleman with the best figure. Senatorial robes or leopard skins, the ladies thought they'd love him.

Millard Tydings of Maryland is the most debonair, the secretaries voted, but only a little more so than Lucas.

The girls had a hard time agree-

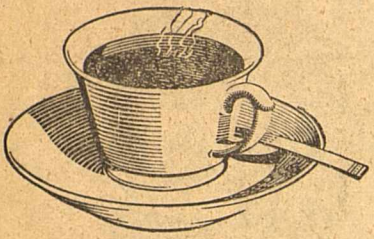

ing on the most likeable. They had 30 different answers among the 35 who cast ballots, but Nebraska's wise-cracking Kenneth Wherry won the jolliest classification in a walk-away. Next highest was Majority Leader Alben A. Barkley of Kentucky.

When it comes to using their feminine wiles, the secretaries found they worked best on Kansas' octogenarian Arthur Capper. He won a sweeping 70 per cent victory as the senator "most easily influenced by the soft words of a glamorous woman." George Radcliffe of Maryland came in second.

As to strictly senatorial qualifications, more than half the secretaries thought Arthur Vandenberg of Michigan had the best speaking voice. But when it came to long windedness, Claude Pepper of Florida, Theodore Bilbo of Mississippi and William Langer of North Dakota finished in that order.

As for Bilbo, half the secretaries pencilled him in as the Senator "least likely to be missed by Congress if he went fishing for a year or so." Some of the ladies said the same of "Pappy" O'Daniel of Texas, Pennsylvania's Joe Guffy and Langer.

Please TASTE your Coffee Critically!

BECAUSE it is so easy to get into the habit of putting up with what you have if you don't know what you're missing, it might be a wonderful idea to check up on the taste qualities of the coffee you are drinking.

You might even find you are denying yourself a lot of coffee enjoyment.

One very best way to check up on coffee flavor is to try Folger's —because it always has been a better kind of coffee... because it has maintained its own individual Mountain Grown Folger Flavor through wars, depressions, shortages, and difficulties and because it is a recognized standard of excellence in coffee.

As you discover the enjoyment of the Folger Flavor, you should also discover the economy that goes with that flavor.

Most folks hereabouts will readily admit that Folger's is the most delightful coffee. They prove it by buying it themselves. In the great over-all area where Folger's is sold, it is the largest selling individual brand... the acknowledged public choice. That couldn't happen if the coffee were not very superior.

Test your coffee critically by comparing it with Folger's... next time you need coffee!

THE COFFEE WITH THE FLAVOR ADVANTAGE

OVER-SERIOUS GIRLS SHOULD DEVELOP GAY SENSE OF HUMOR

By ALICIA HART
NEA Staff Writer

A sense of humor is a gift which some people come by naturally—others have to work to obtain. You can cultivate a sense of humor—or what passes for it—by, first of all, brushing chips off your shoulders and ousting grudges.

The minute you can learn to laugh at yourself—shortcomings, mistakes, foolishness—you are off to a flying start. On the way, look for the funny side of the solemn subject—there usually is one. It takes only a little digging to find it. Many a lass owes her reputation as a wit to the trick of kidding solemnities.

The ability to toss off a clever pun on words has helped other girls to impress people that they have a fine sense of humor, but it is just as well to lay off puns, unless they're clever. Poor ones have the effect of making people wince and sometimes groan.

Passenger Tire Ceilings Increased 50 Cents

WASHINGTON — (AP) — OPA Tuesday authorized an immediate increase of 3.3 per cent in retail ceiling prices for passenger car tires.

The same percentage increase, granted to manufacturers and wholesalers. It also applies to motorcycle tires.

The new retail ceiling for the popular size 6.00-16 4-ply passenger tires, which OPA said represents 60 per cent of all passenger tire sales, is \$15.70 on a nation-wide basis. This is an increase of 50 cents.

YES, BUT SHE GAVE CURREN A HEADACHE

SPRINGFIELD, ILL. — (AP) — State's Attorney John W. Curren reported the telephone awakened him shortly after midnight.

"This is Mrs. —" began the late caller. "I've got fallen arches, swollen ankles, varicose veins, diabetes and a bad heart." Curren gulped.

"Someone threw a brick into my yard," the woman continued, "and I want you to investigate."

Promising action, the prosecutor went back to bed—with a headache.

OLD BELIEF
The ancients believed the tides were caused by a great hole near the edge of the sea, from which water rushed at intervals to fill the ocean and flood its beaches.

INVENTED CELLULOID
A New York printer, who was trying to win an award from a billiard ball manufacturer seeking a substitute for ivory, is credited with the development of celluloid.

Fill in the application below and mail it to A. N. Griffith, Water Safety and Swimming Chairman, 1805 W. Illinois, Midland; or call 2270.

Name _____
Address _____
Age _____ Male () Female ()
Phone No. _____

Upon completion of the course you may become qualified as an American Red Cross Instructor.

NO COST WHATSOEVER FOR THE COURSE

Once a leading French cinema star, hailed as a "second Garbo," Corinne Luchaire is pictured above after a Paris court sentenced her to 10 years of "national indignity" for her part in entertaining Nazis during the German occupation. Her father was recently executed as a collaborationist.

HOW WAS SHE TO KNOW BANK COP WASN'T KOPP?

KANSAS CITY — (AP) — A woman approached a policeman in a bank here and asked him about a loan.

He explained she would have to talk to one of the bank officers. She replied she already had, and had been told to "talk to the cop."

He was the only one she had seen around.

The bewildered policeman checked up. It developed she had been told to see George Kopp, a vice president of the bank.

COP FINDS SINATRA'S PANTS OK IN PART

CHICAGO — (AP) — Police Sgt. Joseph Briatta is wearing a pair of Frank Sinatra's pants—without hip pockets.

It's not that Sinatra doesn't have pockets in his pants.

But Briatta, who was given the pants by Sinatra as a souvenir, is wider around the hips than "The Voice," and had to sacrifice the pockets to make the cloth go around.

Heroic Ships Meet Fate Next Month At Bikini Atomic Test Rendezvous

By CARLE HODGE
AP Newsfeatures Writer

The Bikini Atoll guinea pig fleet includes some of the most heroic veterans of Uncle Sam's wartime Navy.

Among the battleships are the Arkansas, oldest of them all, and survivor of two world wars. "Arky" helped in the Allied invasions of North Africa, Normandy and Southern France.

Also in on the Normandy landing was the Nevada, first of the oil-burning super-greynoughts; and the only capital ship able to get underway at Pearl Harbor. Later she took part in the action off Okinawa. The Nevada, painted brightly, is to be the bullseye for the atomic bombardier.

The veteran New York is another two-ocean veteran who helped out in the North African invasion, then at Iwo Jima and was the only major ship to stay on the job at Okinawa without relief for the entire engagement. Fourth of the erstwhile naval queens is the Pennsylvania, peacetime flagship which participated in 13 amphibious landings.

Then, of course, there is the Saratoga, oldest carrier afloat which fought all the way through the war although officially "sunk" by the Japanese seven times. The other guinea pig carrier, the Independence, won fame as a night carrier.

The heavy cruiser Salt Lake City sank or helped to sink 15 enemy ships, damaged 10 others. The heavy cruiser Pensacola fought her way from Australia early in the war

tire war; the Stack, survivor of many attacks and participant in major Pacific campaigns; the Trippe which twice escorted the late President Roosevelt on conference trips; and the Flusser which was in the group which tried to intercept the Pearl Harbor attackers.

Other destroyers are the Bagley, which won eight engagement stars, downed 11 Jap planes and rescued 465 survivors of the First Battle of Savo Island; the Hughes, participant in 25 occupations or raids. All the others, the Wainwright, Mayrant, Smith, Lamson, Anderson, Conyngham and Mustin set enviable fighting records.

As for the subs, there are the Parche, which sank or damaged 108,220 tons of Jap shipping in six patrols; the Dentada, one of the newest type subs; the Skipjack which sank four Jap ships; the Searaven which rescued 32 Auss-back through the Pacific to Tokyo.

Among destroyers in the supporting cast are the Ralph Talbot with 14 operational and engagement stars to her credit; the Mugford that helped down three Pearl Harbor attackers; the Helm, which missed only two months of the en-

of Italian aviators, and the Tuna, Pilotfish, Skate and Apogon. Among the foreign element in the cast, the German heavy cruiser Prinz Eugen is best known for taking part in the fateful engagement with the British battlecruiser Hood, and for making a successful dash through the English Channel. The Nagato was best known as the former flagship of Admiral Yamamoto, ed to the bomb test.

Ninety-seven vessels, ranging from landing barges up to battleships, make up the fleet. Some 32,000 Navy men are in the contingent needed to move the fleet into position for the big blast and to man supporting vessels. About 2,100 Army-Navy task force assigned to the bomb test.

GOING PLACES?

There's a welcome waiting for you at every **HUMBLE SIGN**

You will enjoy your vacation trip more if you stop for service where you see the Humble sign. There's a friendly Texas welcome waiting for you; ice water; genuinely helpful service; clean, sanitary restrooms; and products second to none.

This summer, break your trip with refreshing stops at Humble stations — Humble station men invite you to be their guest on Texas highways to vacation.

TWO FINE GASOLINES!

You'll find Esso Extra the best gasoline you ever used. It's the premium gasoline with the Big 3 of quality: high octane rating for knockfree performance; controlled volatility for extra power; a patented solvent oil to keep your motor clean. Humble Motor Fuel is second to none at regular price — you'll like its performance in your car. Contains the same patented solvent oil that's in Esso Extra.

Ask for a FREE Humble road map of Texas at any Humble sign. Write to Humble Touring Service, P. O. Drawer 2180, Houston 1, Texas, for a FREE Humble map of Mexico, revised this year. No obligation, of course.
