Good used garage doors are hard to come by. Fact of the matter is there is always a big demand for good used garage doors. I would almost bet that the demand always exceeds the supply. Garage doors are not like any other door, they stay in good shape longer and I have never heard of one showing any wear. Ordinarily a used garage door overhead door, four panels with one panel filled with glass windows, is hard to find.

★
Viola and I are doing a little remodeling on our house at Third and Belsher, and it just happens that we have a used garage door similar to the one mentioned above. If I were someone else and needed a double garage door I would go to Third and Belsher and see if I could afford the one in the front yard at that address.

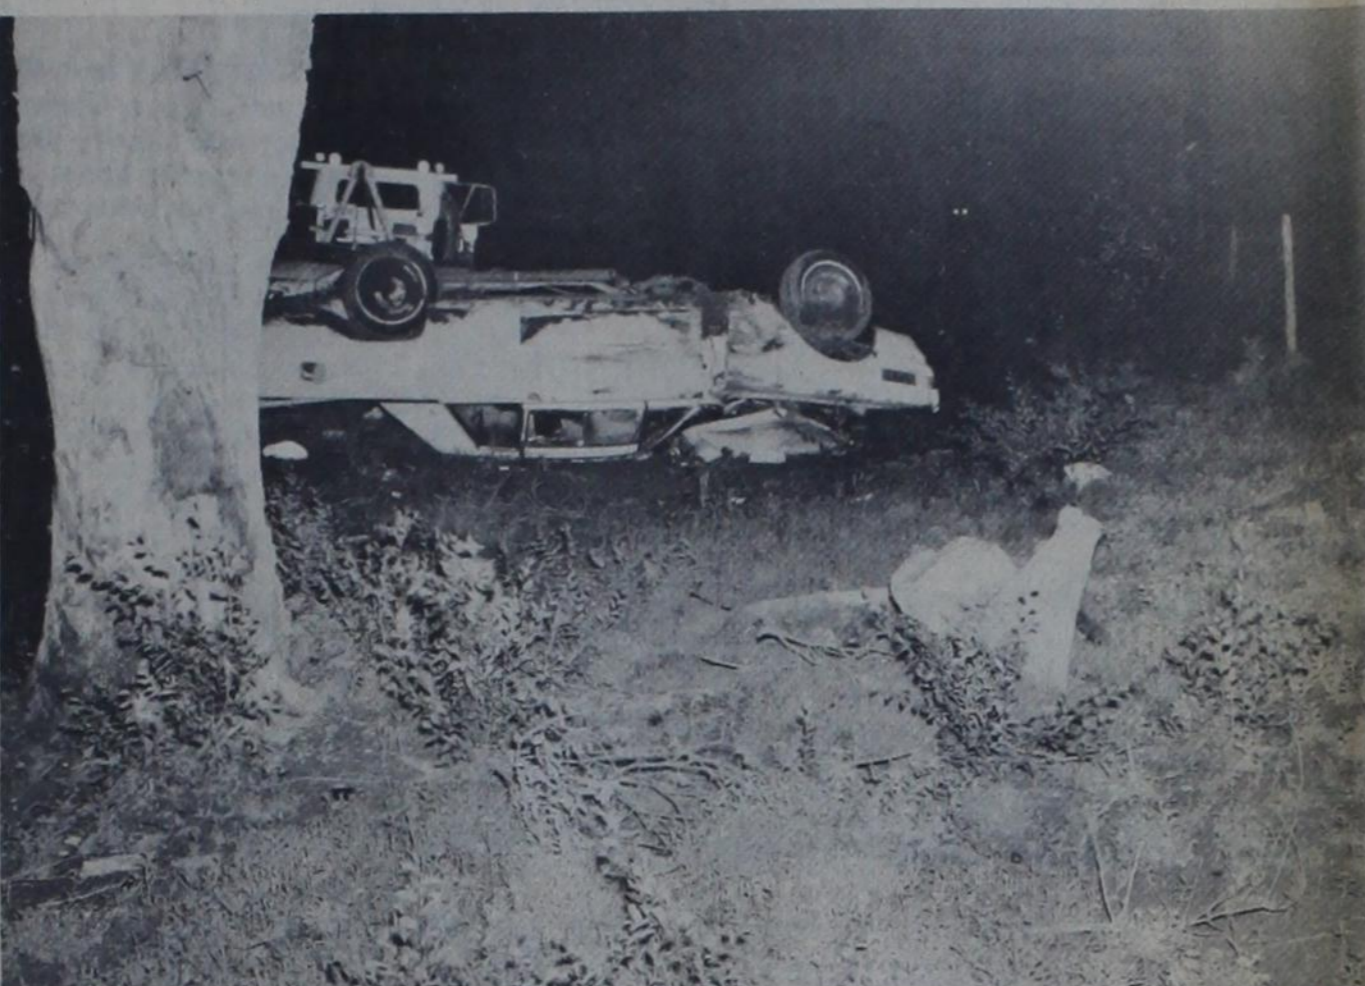

★
Everybody should get involved in a remodeling project every decade or so. Among other things, you correct mistakes made during previous remodeling efforts as well as being faced with the inevitable search for an old abstract that has been misplaced for years along with the last release, from the old mortgage filed by the courageous finance company that supplied the money for the last job.

★
If you are not nuts by the time you get the job started, just wait — you will reach the breaking point somewhere down the line.

★
If you don't want that garage door, come by anyway — we might just sell you the house and keep the door.

★
It would be well if everyone could be convinced that the Warren Report on the assassination of President Kennedy was substantially correct, and any reports or allegations to the contrary be immediately rejected as fraudulent. There may be those who have honest theories that differ with the official report, and they are entitled to their opinions, but the tragedy has made it possible for unscrupulous shysters to turn a quick buck or step into the limelight, whichever their motive, as the result of a fine man being cut down by a deranged assassin. Anyone who would seek personal publicity or financial gain through false claims and trumped-up evidence is no better than the man who committed the original crime.

★
Who knows, there may be some lasting good result from the meeting between President Johnson and Premier Kosygin. You don't have to be soft on Communism, as Wes Izzard claims, to look for, and hope for, a peaceful solution to the problems created by the cold war. It just could be that Russia has, or someday might, change her attitude toward the western powers if for no other reason than self preservation.

BILL YATES of Olton, 56, well-known stockbroker and retired bank president, was killed instantly at 11:25 p.m. last Thursday when his car ran off US 385 and hit this roadside elm tree 10 miles north of Dimmitt. His 1966 Mercury sedan was totally demolished as it hit the tree head-

on at its right front bumper while traveling at an estimated 55 to 70 mph. Since there were no skidmarks on the highway, patrolmen theorized that Yates either became distracted or dozed at the wheel before his car angled off the pavement.

HIGHWAY PATROLMEN Billy Scott of Dimmitt and C. V. Moore of Hereford investigate the wreckage of Bill Yates' car at the scene of last Thursday night's fatal accident. Sheriff Jack Cartwright and County Judge Raymond Wilson aided in the investigation. They reported that

there were no eyewitnesses to the fatal wreck. Mr. Yates, who was the father of Mrs. David Cole of Dimmitt, was buried in Olton Cemetery Sunday afternoon, following funeral services in the First Methodist Church of Olton.

June Goes Out With a Splash

A sopping 7.58 inches of moisture fell in Hart during the month of June, according to H. E. Loman, official US Weather observer there.

Proportionate amounts were reported all over the county.

MRS. JOE SMITH on the Flag Ranch, 18 miles southwest of Dimmitt, reported 3.45 inches of rain fell there between Thursday and Monday.

The Dale Winders farm near Flagg had 2.10 inches Friday and Saturday.

In Sunnyside J. C. Holbrooks reported 2.5 inches over the weekend, and at Bradley Butane the total reached 3.80 inches over a three-day period Monday through Saturday.

BETHEL WAS slightly drier than the south part of the county with 2.20 inches measured at the community building and only 1.40 inches on the Moss Howell farm eight miles west and one north of Dimmitt.

Paul Durbin, two miles west and one north of Nazareth, had two inches of moisture that fell Saturday through Monday.

The Dimmitt Wheat Growers office in Nazareth measured about an inch and a half over the weekend.

HOWARD COOK, US Weather Bureau observer in Dimmitt, reported 1.62 inches in the city Saturday through Monday with traces falling both Friday and Tuesday.

Brazilian Youth To Study at DHS

Jose Valentim Sartarelli, 18-year-old farm boy from Brazil, will be Dimmitt's American Field Service exchange student for the 1967-68 school year.

JOSE'S American home will be with the Lonnie Bell family, 714 Maple.

Jose, who will be 18 July 30, will arrive in New York from Rio de Janeiro Aug. 20 and will be in Dimmitt several days later, after his AFS orientation.

The son of a farmer-businessman, Jose is the youngest of six children. He lived on the farm for nine years, and began his education at a small country school. He has three sisters and two brothers — Aristeu, 31; Joao, 29; Maria, 27; Isuara, 24; and Luzia, 20. Their home town of Ribeirao Bonito is located on the southwestern Atlantic coast in the Brazilian state of Sao Paulo.

The 5-ft, 6-in. Brazilian, who asked that his family here call him by his nickname of Zito, is a first-year engineering student at a scientific institute near his home.

HE LISTED his preferred subjects as English, drawing and chemistry and his major interests as soccer, handball, basketball, music, art and science.

He expressed a definite interest in the United Nations and termed its structure as "very interesting."

Although his main language is Portuguese, he also speaks Spanish and has studied English for three years.

Jose will have three American "brothers" and one "sister" — Mike, 16, who will be a junior in Dimmitt High School; Rick, 13; Jeff, 7; and Lori, 2.

Pierce Services Held Sunday

Funeral services were held Sunday for Mrs. Cleo Belle Pierce, 48, Castro County resident, who died Friday in West Pains Hospital in Muleshoe, following a long illness.

Hammons Funeral Home of Littlefield directed the burial in Littlefield Memorial Park.

SURVIVORS include her husband, James, who farms south of Dimmitt; three sons, Billy of Salt Flat, Tommy of Littlefield, and Larry of Amarillo; three sisters, Mrs. L. D. Gera'd of Monahans, Mrs. Roe Price of Andrews and Mrs. Joe Edwards of Littlefield and eight grandchildren.

Grand Jury Indicts Nine

The Castro County Grand Jury returned felony indictments against nine persons Tuesday. **TWO OF THE** persons indicted, Freddie Morales and Bruce Folks, pleaded guilty when arraigned the same day and were sentenced by District Judge James Joy. Court action is pending against the other six.

In multiple indictments on forgery charges, the grand jury ordered Remo'o, Rachel and Betty Madrigal, Freddie and Arnold Morales and Adam Salazar to face trial.

The jury also returned a separate theft indictment against Salazar, Freddie Morales and Romolo Madrigal.

FOLKS WAS indicted on charges of forgery and passing a forged instrument.

Helden was indicted on a theft charge, and Mies C. Jackson was ordered to face trial on a charge of removing mortgaged property.

Two Men Draw Prison Terms

District Judge James Joy sentenced two Castro County men to prison terms Tuesday when they pleaded guilty after being indicted on separate charges by the county grand jury.

BRUCE FOLKS was sentenced to three years in the state penitentiary for forgery and passing a forged instrument. He pleaded guilty when arraigned earlier in the day.

Judge Joy sentenced Freddie Morales to four years' imprisonment when Morales pleaded guilty to one count of theft and four counts of forgery.

THE THEFT charge against Morales stemmed from a June 1 cotton theft from Dimmitt Gin Co. He was named in multiple indictments involving five others.

Schools Get Good Grade For 'Democratic Spirit'

Although Dr. Morris Wallace was mainly critical of Dimmitt's schools in his public report last week on the completed self-evaluation study, a full report released this week pointed out that the local schools have "commendable" strength in several areas.

DR. WALLACE'S report last week was a summary of findings and recommendations, by the 15-member visiting committee of educational specialists. He announced before the public report meeting that he would concentrate on the schools' weaknesses, and outlined seven areas where improvements are needed.

But in the published summary released this week, the "democratic spirit of students and teachers" was listed as the primary strength of the Dimmitt school system's program of studies.

Secondly, the report commended the staff of the Dimmitt school for their "initiative in developing outstanding special projects."

"EVIDENCE of many well-qualified, dedicated teachers" was the third basic attribute listed by the investigating committee and Dr. Wallace.

Finally, the report defined Dim-

DESCRIBES MIDEAST RIOTS

Refugee Awaits Word To Return to Arabia

A request from the Saudi Arabian government for evacuation of all Americans caused Mrs. Louise Nisbett to be one of 800 Americans to leave Dhahran, Saudi Arabia, during the height of the height of the conflict in the Mideast.

MRS. NISBETT, who is the mother of Mrs. Bob Anthony of Dimmitt, was a Saudi Arabia with her husband, who is a relay technician for the Arabian-American Oil Co. About 2,700 Americans live at the company's camp at Dhahran and two other camps are located nearby.

"The reason I left," Mrs. Nisbett said, "is that my husband might have to work out of the camp." She said he might have to be gone overnight, or even for a week and has apprehensive about leaving her alone with the unrest brewing among the native people.

IN REGARD to the possible Arab refusal to sell oil to the

United States, Mrs. Nisbett said the Arabs stopped oil production for a while, but have resumed production and trade but still hold economic sanctions against the US and Great Britain. Actually, very little of the oil produced by Aramco is used by the United States, she said.

The unrest among the Saudi Arabians was caused by radio speeches made by President Nasser, Mrs. Nisbett said. He claimed the US had sided with Israel. "This is not true," she added.

"THE SAUDIS (natives) quit their jobs," Mrs. Nisbett said, and rioted on Wednesday after the war broke out with Israel. She said they did not appear to want to harm anyone, but caused a lot of property damage — they burned cars, broke windows and flooded a house.

After both the Arab and Israeli governments had issued requests for evacuation of the Americans, the king's counsel met and

apologized for the disturbance in the camp and asked the Americans to stay, Mrs. Nisbett said.

Aramco chartered TWA planes to evacuate the families of their employees, she said.

"Priority was given first to pregnant women and mothers with small children," she said.

Mrs. Nisbett had been in Saudi Arabia for three weeks when the war broke out, and her husband, previously a relay technician in Lubbock, had been there since February.

THERE IS still unrest there, and I don't know what they will do about it," she said.

But she does plan to go back as soon as she receives word from her husband. This could take from one to three weeks, she said.

Mrs. Nisbett is visiting in the home of her daughter and family while awaiting word from her husband.

When questioned about recommendations already initiated, Golden said, "We are at work on those — one phase is the increase in teacher salary."

HE SAID the school personnel has also been changed to fit the program's recommendations.

He added that the school board "is working on the curriculum side he (Dr. Wallace) felt necessary." A choral instructor will be employed, perhaps in the next

school year. He said the board is trying to adjust to Dr. Wallace's thinking as fast as possible, but it may "take considerable time."

Golden said the school board wants to get at the most important point first, and "devote time to that point." (Dr. Wallace named the high rate of teacher turnover and mobility as the Dimmitt school system's main problem.)

Ralph Wayne, state representative from Plainview, will be master of ceremonies for the 1967 Miss Grain Sorghum Pageant.

Ralph Wayne, state representative from Plainview, will be master of ceremonies for the 1967 Miss Grain Sorghum Pageant, announced Tuesday.

BEAUTIES from four states are expected to compete for the crown and some \$1,000 in scholarships and awards in the pageant to be held August 4 and 5 in the high school auditorium.

Tickets for the pageant will go on sale in the near future and may be purchased from members of the board of directors of the Chamber of Commerce.

In its report of the business services, the committee commended the job being done by the employees, but said they were limited by "antiquated methods," for example, hand accounting.

DUE TO insufficiency of personnel, the report said, the superintendent is at present filling all the responsibilities of both his office and that of a business manager.

and suggested the employment of a full-time business manager to care for administrative details that presently hamper both superintendent and principals.

School Board Will Carry Out All Suggestions, Golden Says

School Board President Ward Golden said this week that the board has already put into effect several of the recommendations listed in last week's school evaluation report.

ALL POINTS will be implemented, Golden said, but the entire program of improvements will take two to four years to complete.

"The school board is very pleased to have the report Dr. Wallace produced for us, and we feel it is of great value to the school and community," Golden said.

When questioned about recommendations already initiated, Golden said, "We are at work on those — one phase is the increase in teacher salary."

HE SAID the school personnel has also been changed to fit the program's recommendations.

He added that the school board "is working on the curriculum side he (Dr. Wallace) felt necessary." A choral instructor will be employed, perhaps in the next

Bids Called For Airport

The City has called for bids on construction of Dimmitt Airport improvements, and they'll be opened July 17 at 7:30 p.m., according to City Manager E. B. Noble.

THE BIDS must then be sent to the Federal Aviation Agency in Albuquerque for study. Contracts will be awarded on FAA approval two or three weeks later, Noble said.

The city commission is hoping to award the contract by Aug. 1 and have construction complete by Oct. 1, Noble added.

THE AIRPORT project, which includes construction of a 4,000-ft. runway, turn-around taxiway, access road and miscellaneous work, was overwhelmingly okayed by Dimmitt voters, 470-102, in March.

Four Are Fined After Accident

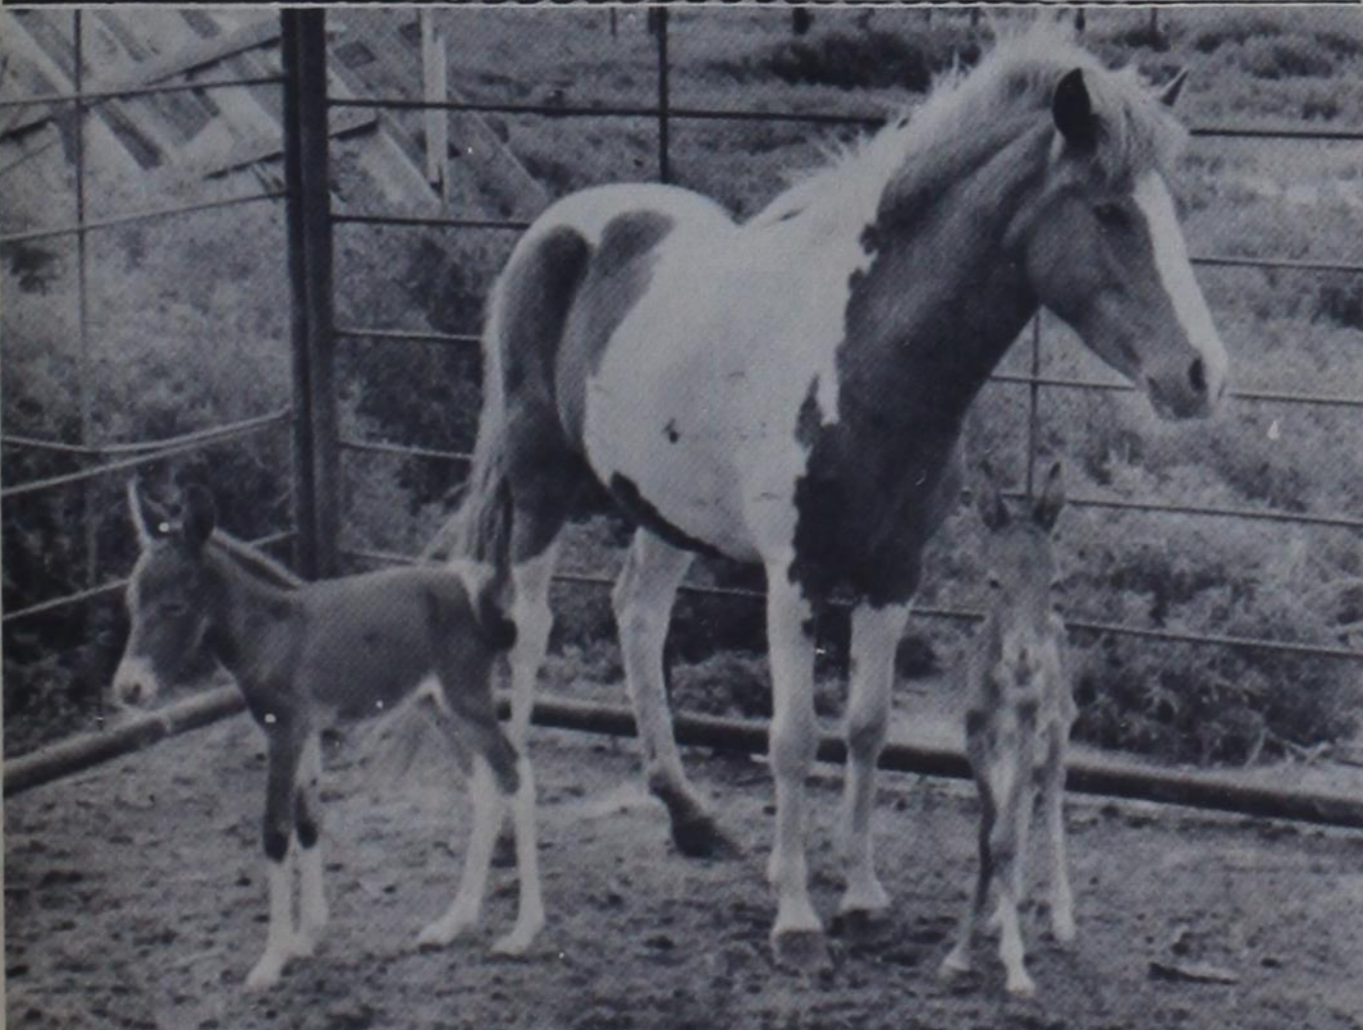

Four Negro men from Hart, Olton and Edmonson paid fines Tuesday after their car ran into the banister of the Sunnyside bridge at 3:30 a.m. Monday.

HIGHWAY Patrolman Billy Scott, who investigated the accident, reported that the car, a 1964 Chevrolet, ran off the road, hit the bridge banister, ricocheted across the bridge and crashed into the other side, totally demolishing the car.

He cited James Douglas of Olton, the driver, for intoxication and driving while intoxicated.

The three passengers, Raymond Robertson and Raymond Robertson Jr. of Hart and Herman Frazier of Edmonson were cited for intoxication.

DOUGLAS was fined \$127.15 plus \$100 in costs in County Court, and his driver's license was suspended for six months. The other three men were fined \$32 each in Justice of the Peace Court.

'SHETLAND MULES' is probably the most apt description of these unusual twin colts, born last week on the Noel Gollehon farm five miles east of Dimmitt. They're the first colts out of Gollehon's three-year-old Shetland mare, and their daddy is a donkey owned by M. L. Simpson. The long-eared

twins — one male and one female — are buff red with white stocking feet and freckled muzzles. Gollehon said he plans to build a parade wagon for the matched miniature mule twins to pull when they're grown.

THIS IS IT — Dr. James E. Wohlgenuth, left, president of the Castro County Recreation Association, Inc., shows a US Treasury check for \$192,220 that was received Monday to pay for construction of the new recreation center in West Dimmitt. At right, Gerald Harden, association secretary-treasurer, puts the corporate seal on the mortgage papers. This check and another for \$75,000 were delivered Monday afternoon by Donald Jennings, county supervisor of the Farmers Home Administration, who helped arrange FHA financing for the \$267,000 project. Final payment on the loan is to be due in July, 2007.

Social Security Pays Countians \$38,720 Monthly

\$38,720 a month in social security benefits were being paid to 665 residents of Castro County at the close of 1966.

THIS IS AN increase of 24 percent over the previous year, according to Bruce Grady, social security representative for this area. While the majority of these payments went to older persons, Grady pointed out that substantial payments were also made to young widows, children and disabled workers.

Nearly every young family in Castro County has survivors' protection under social security that can be worth \$75,000 or more, and equally valuable insurance in case they become disabled. "The average worker," Grady said, "can expect to collect more than the value of his own social security contribution just in benefits payable to him and his family in retirement. If he should die or become disabled before retirement, his family stands to collect for more than the contribution he has paid."

GRADY SAID all persons having questions about social security should contact him. He visits the courthouse in Dimmitt twice a month, and his next visit here will be Wednesday from 9:15 to 11:15 a.m.

CHEERLEADERS of Dimmitt High School earned their own "scholarships" last week by selling homemade pie (some of their own making, some of their mothers'), during the County Activities Committee carnival. Proceeds of their pie-by-the-slice sale will go to send several of the

girls to a special training school this summer to learn how to coax bigger and better yells from their fellow students. Thursday night's sales team, from left, are Poppy Byrnes, Kita Struve and Jill Braafladt.

Wood Announces Mailing Changes

Mailers will be able to send 25-pound parcels between first class post offices which are 150 miles or more apart starting July 1, Postmaster John Wood announced Monday. The present weight limit is 20 pounds, he said.

THIS IS the first of five increases scheduled to take effect annually until 1971, when a 40-pound, 84-inch maximum size will be authorized between all first class post offices. Size limitations

are now 72 inches in combined width and length.

Postmaster Wood also reminded mailers that parcels weighing up to 40 pounds can be mailed between first class post offices less than 150 miles apart. Packages addressed to and from second, third, and fourth class post offices, Alaska and Hawaii remain at 70 pounds and 100 inches.

Bible Thoughts

"DIVINE NAMES"

By Ronnie Parker

There is purpose in the names God has given HIS people to wear.

1. In them Christ and God are honored. "But if any man suffer as a Christian, let him not be ashamed; but let him glorify God in this name" (Pet.4:15). Human names honor men and organizations, while the name Christian honors the Lord.

2. In Bible names there is unity. No follower of Christ objects to the name Christian, so why not wear it alone? Division has come with the use of denominational names. It would not be possible to unite all men under the name of any man, whether it is found in or out of the Bible, but under the name of Christ we can all be one.

3. The name Christian is honorable. The "Disciples were first called Christians at Antioch." (Acts 11:26). Other terms by which the saved are called are: "Saints" (Rom. 1:7); "Children" (Gal. 3:26); "Disciples" (Jn. 15:8); "Priests" (1 Pet. 2:5); "Brethren" (Gal. 6:1). All of these terms are divinely given and they honor the saviour and show relationship to him and other followers.

There is something in a name!

The STRENGTH of a Nation...

At this time, our thoughts are turned to our nation and the war that was fought to bring freedom to our land. Pictured here is a monument to the leader of our people at that time. The people were willing to give their lives that we might be free from tyranny, and have the right to worship as we please. God was with us then as he was with the children of Israel when Moses led them from Egypt. Upon receiving their freedom they sang... "The Lord is my strength and song, and he is become my salvation: he is my God, and I will prepare him an habitation; my father's God, and I will exalt him." Exodus 15:2

Help keep our Nation strong by relying on the strength of the Lord. Attend Church Regularly.

EVERYONE IN THE CHURCH
THE CHURCH IN EVERYONE
The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Library Gets 15 New Books

The Castro County Library has received the following new books:

"The Case of the Worried Waitress," by Erle Stanley Gardner. This is a Perry Mason mystery about a young and beautiful waitress.

"Jubilee," by Margaret Walker. This is a Civil War novel based on the life of the author's great-grandmother's life on a Georgia plantation. The thing that makes it different is it is the story of the Civil War from the Negro point of view told by a Negro.

"The Source," by James A. Michener. The author has used the information dug up by the archaeologists at Tell Makor, a site in Israel, to recreate in a novel, the life in Makor starting from twelve thousand years ago. What happened at Makor is the history of the Holy Land itself and what happened in the Holy Land is bound up with the development of western civilization.

"Dibs in Search of Self," by Virginia M. Axline. This is the true story of an emotionally disturbed child. It is based on the actual recordings of weekly sessions between the child, Dibs, and his therapist, Virginia Axline.

"Capable of Honor," by Allen Drury. This is a new political novel about a Washington columnist. Mr. Drury poses a pertinent question with this book — how much do the columnists and their colleagues of press, television, and radio influence America's policies and what is their right to do so?

"Abraham Lincoln," by Carl Sandburg. Fifty years ago Sandburg undertook to reproduce Lincoln's life as it was lived, so as to give the reader the feeling that he himself was living in the times. The result was called "the greatest historical biography of our generation."

"Jacqueline Kennedy, A Woman for the World." This is a pictorial biography of Mrs. Kennedy.

"Tinkerbell," by Robert Manry. This book tells how a middle-aged, married copy editor of the Plain Dealer of Cleveland, Ohio, got the idea of sailing a 13½ foot sloop across the Atlantic Ocean and how he did it.

"The Hour of the Tiger," by Induk Pakk. Mrs. Pakk is a Korean who wanted to start a "Berea in Korea," a school fashioned after the well-known, self-help school in Becca, Kentucky. She tells how she did it. The school for boys was opened March 20, 1964, and its aim is to give training in agribusiness.

"The Rabbi," by Noah Gordon. This is Noah Gordon's first novel and is the story of a boy growing up in the huge ghetto of Jewish neighborhoods of New York.

"Marty Mann's New Primer on Alcoholism." The author is writing the facts of alcoholism. She gives unbiased and realistic information about the disease, its nature and its symptoms. She discusses in detail proven methods of treatment for both the acute and chronic stages.

"You Can't Hardly Get There from Here," by Willie Snow Ethridge. The author describes the maelstrom of confusion, schedules, nonschedules, and ticket-tape she has encountered in her career as lecturer, author, wife, mother and grandmother.

"Pinatas," by Virginia Brock. This book tells all about pinatas, the history (began in Italy with a humble clay jar called the pignatta), how to use a pinata and how to make a pinata.

"Abingdon Shower Parade," by Bernice Hogan. Showers for all occasions are described in this book, as are invitations, decorations, favors, food, entertainment, and gifts.

"O Ye Jigs and Juleps," by Virginia Cary Hudson. The author was 10 years old when she wrote this collection of amusing essays. It's a child's collection of impressions, it is an adult's hilarious come-uppance.

MORE TWIN CALVES appeared on the scene last week when this Holstein-Whiteface cow, owned by Mike Booth and pastured a mile south of Dimmitt, gave birth to twin heifers. It was the first calving for the three-year-old cow. Sire of the new twins is a registered Hereford bull owned by J. M. Wright.

More New Children's Books Available at County Library

The following children's books have been received by the Castro County librarian, and are now available:

"White Gloves and Party Manners," by Marjabelle Young and Ann Buchwald. This is an excellent book for young girls. The authors say that good manners is simply a matter of knowing "how to act with other people" whether it is a dress-up occasion like a birthday party or a simple overnight visit to a friend's home. Ann Buchwald lived in Paris for 13 years and had the opportunity to observe the customs and manners of the French while teaching her own three children.

"The Calling All Girls Party Book" by Rubie Saunders. This book is for the young hostess. It has suggestions for invitations, decorations, costumes and refreshments.

"Stormy, Misty's Foal" by Marguerite Henry. This is another book about the Chincoteague ponies. The author's first book about the ponies was "Misty of Chincoteague." As with the first book this book is based upon actual fact.

"I Need All the Friends I Can Get," and **"Love Is Walking Hand in Hand,"** by Charles M. Schulz. These are two new Peanuts books.

"Fred, Fred, Use Your Head," by Barbara Klimowicz. This is a book for preschoolers and is about a little boy who couldn't seem to do anything for himself.

"Fifteen," by Beverly Cleary. This book is for junior readers and is about a 15-year old girl's problems.

"Miss Pickereil Goes to Mars" by Ellen MacGregor. This is a delightful combination of science fiction and nonsense. Miss Pickereil goes to Mars quite by accident and against her wishes.

"Henry and the Clubhouse," and **"Henry and the Paper Route"** by Beverly Cleary. These are two new books in the Henry series by Mrs. Cleary. She humorously describes the predicaments of

Henry Huggins.

"Roller Skates," by Ruth Sawyer. This is a delightful story of old New York. This book won the John Newberry Medal.

"The Borrowers Afield," by Mary Norton. Mary Norton has written a series of books about the Borrowers and this is the second one. The book, first published in England, was awarded the Carnegie Medal as the outstanding children's book of 1952.

"Mary Poppins," by P. L. Travers. This famous story about an English nursemaid who can slide up banisters and turn a sane world topsy-turvy has become quite popular.

"The Story of Doctor Dolittle" by Hugh Lofting. Doctor Dolittle became the animal's own doctor and set sail for Africa when he had a call from the monkeys there about an epidemic. There is a series of Dr. Dolittle books and they are in their forty-ninth printing.

"Uncle Wiggly and His Friends," by Howard R. Garis. This is a book for preschoolers about that favorite rabbit of all, Uncle Wiggly.

Glass Stains Easy To Remove With Solutions

Cleaning and stain removal are often major problems for owners of antique glassware, but the problem can arise even with everyday glass articles.

Joy Arrington, Extension home management specialist with Texas A&M University, suggests the following solutions to common cleaning problems in glassware.

MINERAL in water often result in such cleaning problems as lime deposits and surface discolorations. To remove the lime deposits from the bottoms of, put tea bottles, or decanters, rub with a vinegar solution. For surface discolorations on decanters, rub the glass with half a lemon, or wash it with vinegar, or partially fill with uncooked rice and vinegar and shake vigorously.

A well-known research laboratory offers this method of removing hard water deposits which have dried in designs and etchings: Soak glassware in a solution of one part muriatic acid and four parts water. This acid, available at drug or hardware stores, should be handled with rubber gloves. After soaking in the solution, rinse the glass thoroughly and dry.

VINEGAR cruets often become stained and should be rinsed with diluted ammonia before washing. Stains in flower vases can be cleaned with a chlorine bleach solution.

Glass is never permanently stained, according to the Glassware Institute of America. It has a hard, smooth, non-absorbent surface that cannot be penetrated by stains, and the surface discolorations can be removed with these treatments.

Cost of Food Still Climbing
Total food expenditures last year increased seven to eight percent, according to Mrs. Gwendolyn Clyatt, Texas A&M Extension consumer marketing specialist. Mrs. Clyatt added that disposable personal income during 1966 was up approximately eight percent, so the actual percentage of income spent on food is about the same as in 1965. THE COST of food, like the cost of many other things, will continue to edge upward in 1967. The increase will not match that of 1966, however. The specialist pointed out that

West Texan at Expo We Arrive at the Fair

By JASPER C. SANDERS (Second in a Series)
We arrived in Montreal in a rain shower by auto from Lubbock. Our stops on the way included grandmother's farm in Arkansas, Detroit, Niagara Falls, and now our destination, the fabulous city of Montreal, Canada, site of Expo 67, whose central theme is "Man and his World."

WE DROVE through the center of Montreal with son David at the wheel, uninhibited motorists whizzing by on both sides. After several information stops and miles of big city driving we arrived at the apartment house of our genial host, Robert Lepine. We were received with the friendliness typical of Montreal and Canada in general.

It drizzled rain during breakfast next day but soon cleared up. We caught a bus two blocks from our lodging place, then exchanged for a subway tunnel ride which ended above ground at Expo 67. A memorable explosion of lights, colors, and unique architecture burst into view accompanied by the undercurrent of excitement felt at any fair.

WE ARE six, wife Mary Jo, our son David, daughters Nancy, Sharon, Betty Bob and myself. My first thought at the fairgrounds was, "Brother, this is an architect's dream (or nightmare)." There is an almost endless variation of size, shape, and color.

India's pavilion has smooth, classic lines, with ornate blue columns along the front of the large, white masonry building. The huge transparent geodesic dome of the US Pavilion on the Isle St. Helene is separated by a long bridge from Russia's silver gray pavilion on Isle Notre Dame. There are crowds of people from all over the globe.

THE TWO islands on which Expo 67 is being held are symbolic of these dynamic if troubled times and the enterprise of the driving spirits behind the fair. Isle St. Helene was doubled in size by dredging from the St. Lawrence River, and Isle Notre Dame was created with 15 million tons of rock and earth, much of it fill from the new subway.

Fifteen miles of subway run from the heart of Montreal to the thousand acres of Expo 67. No waiting, another train leaves every 90 seconds on quiet, pneumatic tires. In fact, noise is held to a low level throughout the fair.

As I write this, a formation of jet planes fly over and a large powerboat crammed with people blare by on the St. Lawrence. Oh well, you can't win 'em all!

TRYING TO get oriented the first day presents a problem or two. After we reached the islands we rode around on the free elevated Expo Express which gives a fine overall view.

From a large map of the Expo grounds we chose a number of things we were especially interested in. The kiddos all made a bee-line for La Ronde, the fun center of the exhibition. There they found 135 acres of rides thrills, and entertainment galore (and also a passel of souvenir shops that will take your money in any language).

That's another thing — don't forget to bring some folding money. There are a great many free attractions, but you can spend

Waggoner-Scott Vows Read June 3

Miss Donna Kay Waggoner and Erwin Gale Scott were married June 3 in Avenue Baptist Church of Hereford with Rev. Ronald Harpster, pastor, officiating. The double ring ceremony was read under an archway of jade greenery entwined with white mums, flanked by cathedral candles.

THE BRIDE is the daughter of Mr. and Mrs. Fred F. Waggoner of Dimmitt and the bridegroom is the son of Mr. and Mrs. Albert Scott, 320 Avenue J., Hereford.

Dale Scott, brother of the bridegroom, was best man and ushers were Marion Spain, Plainview and Pat Morkovski, Hereford.

Mrs. David Rettman, sister of the bride was the bride's only attendant and she was attired in a pink lace shift dress. She carried a pink carnation with white satin streamers.

The bride, given in marriage by her father, wore a gown of peau de soie trimmed in chantilly lace and seed pearls. The dress was fashioned with a boat neckline, chapel train and petal point sleeves. The bride carried a cascade of frenched white carnations. Her veil was the one worn by her sister at her wedding.

Miss Pat McCutchen presented traditional wedding music.

FOLLOWING the wedding, a reception was given in the fellowship hall of the church. Mrs. Ray Howell and Mrs. Pat Morkovski assisted at the bride's table which was laid with an ecru lace cloth with pink tapers. The centerpiece was of pink cabbage roses.

For traveling the bride chose a pink and white gingham suit with white accessories.

4-H Dress Revue To Be Wednesday

By IRENE A. KEATING
Home Demonstration Agent

The 1967 Castro County 4-H Dress Revue will be held next Wednesday at 2:30 p.m. in the assembly room of the courthouse. Everyone is invited to attend. About 25 4-H girls will model the dresses they've made. Narrator will be Mrs. Estelita Hottel. Judges are Mrs. Cricket Taylor, Farwell and Mrs. Rita Huckert, Hereford.

I HOPE that everyone has a pleasant July 4 weekend.

If you're having an outing, remember to take along sunburn lotion and first aid supplies, and be careful with any food you take. The micro-organisms that cause food poisoning grow at temperatures between 50 and 120 degrees. So keep cold foods cold and heat foods like casseroles, etc., before you eat them.

SINCE many girls will be brides this summer, I'd like to pass on some hints in the selection of china. Many brides and brides-to-be, when buying their first sets of dishes, will find themselves smothered in countless terms and styles.

"Sets" of dishes can be bought for as little as \$25 or \$30. But a "set" may mean 54 pieces of earthenware, 45 pieces of melamine, or 57 pieces of fine china. In fine china, incidentally, a single plate may cost \$100 — or a set may cost only \$20.

Prices are quoted in a variety of ways. A "six-piece place setting" consists of the same articles, plus a soup or fruit dish. A "starter set" has four four-piece settings, each consisting of a dinner plate, dessert or salad plate, cup and saucer.

"SERVICE for eight (or 12)" means anywhere from 45 to more than 100 pieces, depending on the number of pieces in each place setting and the assortment of serving dishes such as platters, creamer, sugar bowl and coffee pot.

"Open stock" refers to single pieces, individually priced. This enables you to start small and add gradually without buying extra you don't want — and to replace broken pieces. Most moderate, and higher-priced dishes are sold in open stock. If your pattern is not a current number, however, you may have to wait months for a special order. And "open stock" is no guarantee that a pattern won't be discontinued.

Figuring the average price per piece is one way to compare prices when the units are not alike. However, design has a significant effect on price. Price reflects the amount of skilled labor involved, too. Up to 70 percent of the cost of making fine china goes to craftsmen. Wares from comparatively low-wage countries carry lower prices, although certainly not all imports are cheap. Many are among the most expensive on the market.

DO YOU take special pride in the beauty of copper, pewter and silver accessories? If you keep them looking their shining best, they are a lovely addition to your home.

Copper utensils should be washed in hot soap or detergent suds, rinsed with hot water, then polished dry with a soft cloth. A little ammonia added to the suds will help to remove stains or corroded spots. Or, after washing and drying, rub spots with lemon and salt, the suds again. If the bottom surface becomes stained from heat, apply a commercial copper cleaner and wash again. Lacquered copper should be washed quickly without soaking, using warm suds. Then rinse and wipe dry.

Homemakers See Flag Program

Mrs. Dickie Holcomb presented a program on the American flag to the Dimmitt Young Homemakers in their June 15 meeting. She told the history and gave ways to care for the flag and how to display it in different places.

THE AVERAGE distance driven last year to see the Pioneer Amphitheater show, "Texas," according to a questionnaire filled out at several performances, was 380 miles.

Not Many Women Know How —but YOU Can Have an "Ageless" Look —and it's more fascinating than either youthfulness, beauty—or both!

We all know women who must be 60 years old but who look no more than 35 or 40 to an unknowing stranger. Such women just don't grow old according to the rules and the tape measure; their faces change so little between youth and sixty, it is impossible even for experts to come within 20 years of guessing their ages. Such people are said to have an "ageless look" simply because they are normal in appearance and their birth dates are not embroidered on their coat sleeves.

The "ageless look" is a relatively easy possibility for the woman willing to follow a simple nightly routine for a reasonable period, in connection with proper thought cooperation. You begin with chemosmoothing for your face and neck. This is done with sparse, nightly applications of 2nd Debut. You feel the action in just minutes after the start; a satisfying calm comes over your entire face while the 2nd Debut emulsion is in the process of being absorbed. The relaxed feeling continues for an hour or more as your skin's surface tension eases

to aid smoothness in its effort to regenerate itself. And to chemosmoothing, the immediate benefit gained from the potent moisturizing power of 2nd Debut and your "ageless" look is seen to be definitely underway. (In the meantime your skin dryness has vanished). Facial lines usually become a bit more difficult to find with each new day.

Thus, to carry your "ageless" look to full completion, a little thought on the subject of yourself will be of help. For example: turn your mind backward a couple of years. Recall some of the little mannerisms in which you indulged at that time. Put some of them into practice again. Associate yourself with as much as was attractive 2 years ago and be a part of them once more. These things will be noticed and admired anew to give extra emphasis to your "ageless" look.

Tonight is as good a time as any to begin with 2nd Debut. We have 2nd Debut in two potencies. Choose according to your present age. Unconditional Money Back Guarantee.

Pioneer Natural Gas Co. Asks For Increase in General Rates

Pioneer Natural Gas Co. has requested a general service increase that will hike the present residential bill an average of 72 cents a month or \$8.61 annually. THE ADJUSTMENT, being requested for all the 55 towns comprising the West Texas Distribution System, is necessary because the revenue provided by the present rate does not yield the company sufficient return on its investment, Pioneer said.

TV-10 Tigers Coming Sunday

A team of Little League fathers, sponsors, coaches and managers will "go to bat" for the Little League when they take on the top-rated TV-10 Tigers of KFDD-TV Sunday at 3 p.m. in a benefit softball game. The bout will be on the Little League diamond in East Dimmitt.

BOBBY ADAMS, chairman of the game, said the rematch will give the locals a chance to hand the Tigers their third defeat of the year. The Tigers won their first match here, 15-2, on a rain-soaked field.

A collection will be taken up during the game to help pay part of the Little League's \$500 indebtedness, Adams said. The Tigers will receive only their traveling expenses, and the rest of the contributions will go to the Little League, he said. The TV-10 Tigers are made up entirely of cameramen, announcers and technicians of the Amarillo television studio.

The company stated in a news release that "it is vitally important that the company be allowed to earn a reasonable return to enable it to attract necessary capital and adequately meet the need of its service area."

HOWEVER, no rate changes are planned for industrial and irrigation services.

Pioneer's last general service rate hike was in January, 1961, and produced a 10 percent increase in gross revenue.

Operating and maintenance expenses and general taxes per customer have increased in the last five years from \$34.28 per customer in 1961 to \$40.15 in 1966 — an increase of \$5.87 per customer or 17.1 percent, the company claims.

The requested general service rate would result in an increase of 11.5 percent to these customers served under this rate. The present minimum general service rate for domestic bills is \$1.65 per month for 2,000 cu. ft. or less. The requested increase would raise this minimum bill 20 cents to \$1.85 per month for 2,000 cu. ft. or less, with similar adjustments throughout the domestic rate schedule.

First Baptist News From My Heart to Yours

We are building a church! No, we have not yet started construction on the new building, although we need it desperately.

Yet we are building the church - a program that First Baptists have been involved in for 76 years.

We are building it with new life. There is a constant surge of new life in our old buildings. Thirty-two people were added to our church membership in June! Fourteen of these were saved in our services! How we do thank God for these new members.

We must build it with dedication. Our construction must be according to His specifications. Architects are expensive yet they save money by assuring that steel, concrete and wood are properly placed. In like manner the church must be built on the firm foundation of a people's common faith and commitment to Jesus Christ. On this foundation every member must fill his appointed place else the structure is shoddy and insecure.

The Word of God states: "In Him each separate piece of building, properly fitting into its neighbor, grows together into a temple consecrated to the Lord. You are all part of this building in which God himself lives by his Spirit." Ephesians 2:21 (Phillips). See you in your place this Sunday.

Your pastor and friend, Frank Pollard

Letters To The Editor:

Beware Magazine Solicitors - Not All of Them Are Honest

To the Editor: Have you had a call recently from a person who said you won a subscription to several nationally known magazines? All you have to do is pay postage, wrapping, etc. which is plenty. Let me tell you what happened in Dimmitt about four or five years ago.

This magazine group came to town, they contacted a child of a much-loved person who has since died, for their "front." This child took the alleged guarantee around for you to sign, saying you'd get the magazines, and all you had to pay was \$1 a month. Anyone would pay that to help a dear friend.

At this time the paper was signed, and the child was paid the only money he likely ever saw. Besides, I am sure he didn't know what the paper said. People didn't want to hurt his feelings by reading the paper he had for them to sign. So, they signed and paid \$2.

Within a few days, they received a notice that they must pay the rest of the "postage and wrapping charges" within two months, and since it was said to be for four year's subscriptions to \$6 more. And it had to be paid - they'd unknowingly signed a paper saying they'd pay it!

Some of the magazines never did come.

Now, if you've never been bitten by such a scheme, now is the time because they are busy again. But this time is 40 cents a

week, so that is \$1.60 a month, and for four years - we'll, you figure it out.

They've been calling the last few days, claim to be from Fort Worth, but they talk quite a while for a "long distance" call. So, rest assured they are nearby, and if you or your child are approached to collect the first money and get the guarantee signed, rest assured you or your child will be able to say you've influenced people and lost friends.

MRS. J. T. STEHR (Editor's Note: We, too, have received a "long distance" call from a solicitor for this "circulation guarantee" promotion - but he hung up fast enough when we started asking him the kind of questions he didn't want to answer. This campaign uses only a new twist to telephone solicitation, and it isn't likely that any local people will be asked to "front" for the company involved. The telephone company doesn't appreciate the use of phones for this purpose; the city doesn't appreciate a salesman who tries to sell here without buying a business license; and generally, the customers don't appreciate it. A few subscription firms are reputable, but the best way to get the magazine you want is to submit your subscription to the circulation department's address listed in that magazine.)
