

May Gets Big Hug From Garsson's Daughter—And Senate Subpoena

(Copyright, 1946, by New York Daily News from NEA Telephoto) Rep. Andrew J. May, Democrat from Kentucky, chairman of the House Military Affairs Committee, left, receives a big hug from Mrs. Muriel Garsson Herman, a daughter of Murray Garsson, while Garsson's second wife sits at May's left. Garsson, now reported in Cuba, is one of two brothers who headed several Illinois war material firms now being investigated by the Senate investigating committee headed by Senator James Mead, Democrat from New York.

Inquiry Board Takes Action Against Second Congressman

Justice Department Ordered To Deliver File On \$3,500 Check Paid Rep. Coffee

WASHINGTON —(P)—The Senate War Investigating Committee ordered the Justice Department Saturday to deliver its files on a \$3,500 check described by Rep. John M. Coffee (D-Wash) as a "campaign contribution"—an explanation bluntly termed by Senator Brewster (R-Me) a "belated alibi."

Brewster, a member of the committee, declared that Coffee would be asked for a formal explanation, saying that "the more quickly he appears, the better."

The senator said that Paul A. Olson, former secretary to the Washington legislator, probably will be asked to testify also.

The committee's attention fastened on the Coffee matter as it awaited, without much hope several members said privately, a response from its summons to Chairman May (D-Ky) of the House Military committee to explain Tuesday his wartime intervention on behalf of a munitions combine.

Brewster's office made public transcripts of two letters—as copied from photographs which appeared in The Tacoma, Wash., News Tribune on March 5 of this year—from Coffee and Olson to Edwin Anderson, contractor, dated in May, 1941.

Olson wrote that "John" was gratified "by reason of the assurance you gave at the foot of the stairs over in the Capitol Building" and said that if a few more people showed the "same sense of appreciation and understanding x x x then the going for John as a member of Congress would be made a lot easier."

The secretary discussed the financial problems faced by a congressman and the various drains on his purse.

Coffee himself wrote 16 days later that "Paul showed me the slip of paper you sent him a few days ago. It is impossible for me to express adequately my deep feeling of gratitude for your helpful cooperation."

There was no mention of any exchange of money in either letter.

But in Tacoma, Wash., Coffee acknowledged that he was the recipient of a \$2,500 check from Anderson, termed it a campaign contribution, and said that the Justice Department had investigated and found "no basis for action." He said he would "welcome" an inquiry.

Coffee said the matter was widely discussed in a mayoralty campaign in Tacoma in which Olson and Anderson were candidates. He said Anderson was eliminated, and characterized his action in disclosing the matter as "stooping to the lowest form of unscrupulous tactics."

Mrs. Brient said Saturday that her husband had been notified he would be transferred to Indianapolis, Ind., in a few weeks and at an amicable meeting Saturday, it had been agreed to allow the Brients to remain in their apartment—paying \$67.50 a month rent—until they left.

In a statement Mrs. Brient said the meeting "went off smoothly and everything is fine and dandy."

Other rents in the same apartment, the O'Danields said, were raised an average of less than ten per cent.

College Commission To Meet Thursday

FORT WORTH —(P)—First meeting of the bi-racial commission appointed by Governor Stevenson to work out a plan for establishment of a negro state university will be called Thursday morning in Austin, Mark McGee, chairman, announced here Saturday.

McGee said that the initial meeting will be of an organizational nature, with the commission members arranging a schedule and program.

(NEA Telephoto) Senator James Mead, Democrat from New York, chairman of the special Senate committee investigating war profiteering, signs the subpoena ordering the appearance of Rep. Andrew J. May, Democrat from Kentucky, before the committee for Tuesday questioning.

McNarney Warns Powers In Reich To Unite Zones

BERLIN —(P)—The United States bluntly advised the three other occupying powers in Germany Saturday to join their zones in a single economic unit or face a steady growth of "creeping economic paralysis."

Acting on instructions from Washington, Gen. Joseph T. McNarney, U. S. commander in Europe, placed the proposal for a single economic Germany before the four-power Allied control council in an attempt to break the long-standing deadlock on the reich's economic future.

But he warned that the United States would find a merger with any one zone preferable to the present system of four air-tight compartments and its noncommittal trade barriers.

Reiterating the offer made by Secretary of States James F. Byrnes to the Paris foreign ministers conference, McNarney proposed to join his zone with any or all of the others—French, Russian or British—to form an economic whole.

Then, in an unprecedented step, the U. S. military government made McNarney's statement public immediately—even while the control council, closed to the press, still was in session.

"The United States government proposes this arrangement," McNarney told the council in the 400-word statement, "because of its belief that Germany can no longer be administered in four air-tight compartments without free economic interchange, unless economic paralysis is to result."

"The United States government is unwilling to permit creeping economic paralysis to grow if it is possible to attain economic unity between its zone and any other zone in Germany as a prelude to economic unity for all Germany."

TWO DIE IN AUTO-TRUCK COLLISION NEAR HOUSTON

HOUSTON —(P)—Two men were killed instantly in an auto-truck collision on the Beaumont highway near here Saturday, and the automobile in which they had been riding was destroyed by flames.

The car burned after the bodies of Samuel Z. Compton, 21, of Pelly, and Robert H. Herrington, 22, of Goose Creek, were removed by ambulance drivers.

LATE NEWS FLASHES

WASHINGTON —(AP)—A House Civil Service subcommittee declared Saturday the nation's security is threatened by presence of persons of "questioned loyalty" on federal payrolls and urged immediate steps to remove the dangers which "seriously endangers the security of the country."

WASHINGTON —(AP)—A civilian commission which studied the air war against Germany and Japan urged Saturday night that the United States establish a super-air force with broad responsibilities for rocket and other defense.

BUENOS AIRES —(AP)—President Gualberto Villarreal of Bolivia named a new cabinet made up entirely of military men Saturday, the Bolivian embassy here announced, after an abortive revolutionary coup in which more than 100 persons were reported killed.

Conferees Agree To Revive Price Controls

U. S. WATCHES TEXAS AND OKLAHOMA RACES —

Rip-Snorting Campaigns Will Lead Up To Saturday Election

By D. HAROLD OLIVER
WASHINGTON —(P)— With 30 states already having chosen congressional candidates for the November 5 elections, Oklahoma and Texas will follow suit this week after rip-snorting campaigns.

It's a run-off in Oklahoma Tuesday for Democratic nomination for governor and for Democratic House candidacies in six districts undecided in the first primary July 2. Three of the House runners are incumbents—Reps. Jed Johnson, Lyle H. Boren, and Victor Wickersham—and indications are none will have it easy.

Texas voters, who go to the polls next Saturday, are torn between feuding Democratic factions. Sen-

ator Tom Connally, chairman of the Senate Foreign Relations Committee, is not taking his collective opposition seriously.

In primaries and conventions to date five Senate and five House incumbents have failed renomination. These shifts have resulted from selection of candidates for 21 U. S. Senate seats and 247 House memberships.

Oilman In Sooner Fight

Two high men in the first Oklahoma Democratic primary for governor, who will fight it out in Tuesday's run-off, are Roy J. Turner, 51-year-old independent oilman and rancher, and Dixie Gilmer, 45-year-old Tulsa county attorney. Turner led the first primary with 133,000 votes. Gilmer was next with 84,000. Gov. Robert S. Kerr (D) could not run again

for the same office under the state law.

Opponents of the incumbent congressmen who failed to get majorities in the initial contests are Toby Morris, district judge, contesting Rep. Johnson, dean of the state's delegation in Congress, 6th District; Glen D. Johnson, attorney, opposing Rep. Boren in the 4th, and Preston E. Peden, attorney, clashing with Rep. Wickersham in the 7th.

The Texas factional fighting is a hangover from the Democratic National Convention in 1944 when pro-Roosevelt and anti-Roosevelt delegations fought for seats at Chicago, and from post-convention presidential elector contests.

Gov. Coke R. Stevenson is not among the 14 candidates for governor.

Caught Heirens

Traffic Patrolman Abner T. Cunningham, Jr., 36, is credited with capturing William Heirens, No. 1 suspect in Chicago's Suzanne Degnan kidnap-murder and several other killings. Cunningham smashed three flower pots on Heirens' head after efforts of fellow officers had failed to subdue the youth.

Vote To Restore Rent, Meat And Dairy Controls

Measure Will Go To House Next Tuesday

WASHINGTON —(P)— Senate - House conferees agreed Saturday night on compromise legislation to revive OPA until next June 30, with a complex formula for handling price controls for various major food items.

In agreeing on the bill, Barkley said the conferees voted to restore federal rent controls without changes. Previously the Senate had voted to eliminate federal controls where states had entered this field, but the conferees struck this out.

In announcing the end of a stalemate over a bill to put OPA back in business, Senate Democratic Leader Barkley (Ky) said this would be done with major food items which the Senate had proposed to remove entirely from price controls.

Controls would go back automatically on August 20 on meats, dairy products, grains, cottonseed and soybeans, and food and feed products made from them unless a three-year decontrol board decided before then that they should be reimposed sooner—or should remain free of controls. If the board fails to act, the controls are reinstated.

Most Ceilings Returned

Price ceilings on general commodities would go back into effect immediately after the bill became law, at the level fixed by the OPA.

Poultry, eggs and tobacco would remain free of ceilings until the secretary of agriculture and the proposed new decontrol board agree that controls on them should be restored. Petroleum also remains free of controls until the decontrol board and the OPA administrator agree to restore ceilings on it.

Shortly before the committee completed its work an influential official said President Truman had indicated he reluctantly would accept such a compromise.

Whether the ceiling would be those in existence on last June 30, when OPA expired, or whether they would be fixed at some other level would be up to the price administrator to determine, Barkley said.

The conferees agreed also that the Administrator, in establishing maximum prices for wholesalers or retailers, should permit the current cost of purchase to them plus the percentage mark-up or discount in effect March 31, 1946. That represented a change in the date, from June 29.

Decontrol Board Standards

Standards set up for the decontrol board would let it restore controls if:

The price of a food item has risen unreasonably above the ceiling price in effect June 30, plus the amount per unit of any subsidy paid prior to June 30.

The commodity concerned is scarce and recontrol is "practicable and enforceable."

The public interest will be served by such recontrol.

The compromise version of the bill, will go first to the House for (Continued from page 5)

Gen Krueger Ends 48 - Year Career

SAN ANTONIO —(P)— General Walter E. Krueger reviewed three platoons of troops at Fort Sam Houston last official act in the 48 years of distinguished service during which he has commanded every type of military unit from a squad to a field army.

Promptly at 10:30 a. m., the hour set for the review in honor of his retirement, Gen. Krueger dismounted from a staff car with his old friend, Gen. Jonathan M. Wainwright, and walked to the point where the reviewing party, composed of generals and colonels, faced the 365th Army Ground Forces Band and a small detachment from the Fourth Army headquarters troops.

The general carried himself straight, without stiffness. First he trooped the line, after a 17-gun salute from the 105-millimeter guns of the Second Armored Division, and then stood at attention with Gen. Wainwright while the troops passed in review.

Weather
Some clouds and warm Sunday.

HEATED RACE ENTERS FINAL WEEK —

Candidates For Governor Turn In Expense Reports

By DAVE CHEAVENS
Associated Press Staff

All candidates for governor have officially reported to the secretary of state that they are still within legal bounds on campaign expenditures as one of the most heated races in Texas goes into its closing phases.

Legally a man cannot spend more than \$10,000 in running for governor, not more than four-fifths of which may be expended in the first primary.

Expenditures sworn to by campaign managers on the final day for the second expense reports showed these totals in the governor's race: Beauford H. Jester, \$5,986; Jerry Sadler, \$4,602; Homer P. Rainey, \$4,333; Grover Sellers, \$3,397; John Lee Smith, \$2,395.

The five candidates expected to be in the top five in the balloting next Saturday announced plans for their final say on Friday night before the voters get the last word July 27.

Two will close in radio addresses from Austin. They are Rainey and Sadler. Smith will wind up his campaign in Fort Worth. Jester will climax his at a rally in Dallas and Sellers will make his final appeal from Greenville.

Candidates for governor spent the next-to-last week of the campaign shooting at each others' pasts or programs. Sellers' charge that the State Democratic executive committee was backing Rainey brought quick denial from committee sources and it was recalled that committee officials months ago disavowed plans to participate in any one candidate's behalf.

Homer P. Rainey, speaking Saturday morning at Olney, Young County, where he spent his youth after leaving a North Texas farm, denounced the efforts of "desperate people" in seeking to inject racial questions into the gubernatorial campaign.

Carter Supports Jester

Claude Carter, Harlingen attorney and former president of the State Bar Association and former member of the Texas Legislature, (Continued from page 5)

The crucial vote was the one just before passage on an effect to send it back to committee. By that move opponents tried to kill the bill until next year. They failed by a count of 195 to 146. Their fight for the military representation and other amendments was won by the scant margin of 116 to 104.

Stricken from the bill by a standing vote of 62 to 45 was a Senate provision for a \$5,000 fine and two years imprisonment for violations of commission regulations dealing with reports, inspections, records and safety measures.

Funeral Set Sunday For Olliff Infant

Linda Nell Olliff, week-old daughter of Mr. and Mrs. William Olliff, 811 South Weatherford Street, died Saturday morning.

Funeral services will be held at 4 p. m. Sunday at Ellis Funeral Chapel. Interment is scheduled in Fairview Cemetery here.

Survivors include: the parents; one sister, Grace; and three brothers, John W., Donovan and Paul, all of Midland.

The child was born July 14. The parents came to Midland in 1909.

Majority Report Of Pearl Harbor Inquiry Board Vindicates FDR

By WILLIAM T. PEACOCK
WASHINGTON —(P)— A majority of the Congressional Pearl Harbor Committee, laying solely to military men the failures which contributed to the 1941 disaster, declared Saturday that the late President Roosevelt and his cabinet "discharged their responsibility with distinction, ability and foresight."

That finding in an eight-man report—signed by two Republican House members—brought a sharp dissent, however, from Republican Senators Ferguson (Mich) and Brewster (Maine) of the 10-member committee.

In a separate report, they asserted that Roosevelt "was responsible for the failure to enforce continuous, efficient and appropriate cooperation" in Washington "in evaluating information and dispatching clear and positive orders to the Hawaiian commanders."

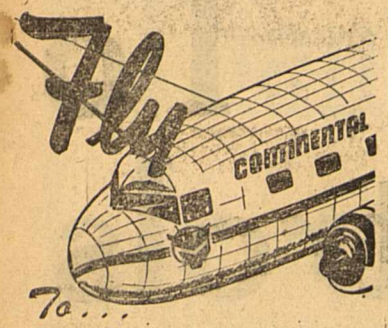

The majority hit vigorously at assertions they said had been made that Japan was "tricked" into her Dec. 7, 1941, attack.

Contending the President and then Secretary of State Cordell Hull "made every possible effort" to avert war, their report said: "The committee has found no evidence to support the charges, made before and during the rearings, that the President, the secretary of state, the secretary of war or the secretary of navy tricked, provoked, incited, cajoled or coerced Japan into attacking this nation in order that a declaration of war might be more easily obtained from Congress."

The majority, although saying there were failures among the military men in both Hawaii and Washington voiced no criticism in their conclusions of Gen. George C. Marshall, 1941 Army chief of staff, or Adm. Harold R. Stark, who was chief of naval operations.

Both the majority and minority reports agreed that Adm. Husband (Continued on Page 5)

MEN! GET PEP.. Do you want to feel young again? Why feel old at 40, 50 or more? Enjoy youthful pleasures again. If added years have slowed down your vim and vitality, just go to your druggist and ask for Casella tablets. Many men are obtaining remarkable results with this amazing formula.

Midland Boy May Be One Of Seven Kidnaped Marines

Mr. and Mrs. John C. Luccous of 1019 North Main Street are anxiously awaiting news of their Marine son, John C. Luccous, Jr., stationed as a guard on the Peiping-Mukden railroad in the Peitaho area of North China from where seven Marines were kidnaped July 13 by an unidentified band of 80 armed Chinese thought to be Chinese Communists troops.

The Luccous received a letter from him Saturday, written July 9, stating he had been assigned with a detachment of Marines to guard Bridges 73 and 74 on the railroad. The seven Marines who were captured were members of a bridge guard detachment which had gone to a village to buy ice. An eighth member of the detachment was in the ice house when the band struck and ended capture.

A wide search was made for the missing Marines in the area but no announcement has been made of their release. The War Department has not announced the names of the kidnaped Americans.

In his letter to his parents young Luccous expressed confidence the Communists would not bother the American troops.

"I don't think there is going to be any trouble up here because the Communists don't want to fight Marines. If any trouble does come, all I have to say is that the U. S. asked for it because Marines have no business guarding railroads."

ATTEND GREETERS MEETING

Mr. and Mrs. A. C. Hefner and Freda Wycoff of the Scharbauer attended a West Texas Hotel Greeters meeting in Abilene Friday.

(NEA Photo) Playmates are Jane Ann VanOrden and her yellow kitten with the big paws. "Fourteen toes on two front feet, and I'll bet that's more than on any other cat in Fort Worth," she says. Jane Ann is the three-year-old daughter of Mr. and Mrs. Marvin VanOrden of Fort Worth.

C. Of C. Committee Is Named To Solicit Funds For Highway

The appointment of a special committee to solicit funds for the purchase and fencing of right-of-way on the proposed Midland to Lamesa highway was announced Saturday by O. C. Harper, president of the Midland Chamber of Commerce.

M. C. Ulmer is chairman of the committee which has 27 members. County Judge E. H. Barron and Fred Wemple, chairman of the highway committee of the Chamber of Commerce, are vice chairmen.

Other members of the committee are: John P. Butler, R. M. Barron, J. R. Martin, Guy Mabee, J. W. Heise, Clint Dunagan, L. W. Sandusky, E. M. Erskine, L. F. Shiplet, John B. Mills, A. A. Jones, T. R. Wilson, I. G. Mackey, James L. Laugherty, M. F. King, Paul Howell, Paul McHargue, Austin Flint, J. N. Allison, R. T. German, W. H. Ground, P. F. Br. Grewater, Fred Girdley, and H. J. Phillips.

No. 1 Project

Personnel of the committee was named at a recent meeting of the Chamber's executive committee.

The Midland-Lamesa highway is the number one project on the highway program of the Midland Chamber of Commerce, and is considered to be most important to the continued growth and development of Midland and vicinity.

It is estimated that approximately \$30,000 will be required to finance the procuring and fencing of right-of-way on the proposed route outside the Midland County. Officials pointed out it is not legally possible to spend Midland County tax money outside the county, thus necessitating the raising of funds by public subscription.

A meeting of the special committee will be called soon to outline the campaign and to perfect plans for the drive, Chamber officials said.

Cards Win To Keep First-Place Tie

ST. LOUIS —(AP)— A three-run sixth inning sparked by Enos Slaughter's single with the bases loaded enabled the St. Louis Cardinals to turn back the Boston Braves, 3 to 1, Saturday night and maintain a first place tie with the Brooklyn Dodgers.

The score: R H E
Boston.....000 000 010—1 7 1
St. Louis.....000 003 008—3 6 1
Sain and O'Dea; Dickson and Garagiola.

Bridges Stops A's Rally As Detroit Wins, 4-3

PHILADELPHIA —(AP)— Relief Pitcher Tommy Bridges stopped a Philadelphia Athletics' ninth inning threat to give the Detroit Tigers a 4 to 3 victory over the A's Saturday.

The score: R H E
Detroit.....000 220 000—4 11 1
Philadelphia.....100 010 100—3 8 0
Hutchinson, Bridges and Hutchinson; Marchildon, Knerr and Rosar.

Rookie Helps Dodgers Defeat Pirates, 4-1

PITTSBURGH —(AP)— Rookie Bob Ramazotti's two-run single in the seventh inning helped Brooklyn trim Pittsburgh, 4-1, although the Pirates rapped out 11 hits.

The score: R H E
Brooklyn.....000 001 030—4 7 1
Pittsburgh.....000 100 000—1 11 2
Hatten, Herring and Edwards; Heinzelman, Lanning and Lopez.

Babe Easily Defends Broadmoor Golf Crown

COLORADO SPRINGS, COLO.—(AP)—They gave Babe Didrikson Zaharias 36 holes in which to defend her Broadmoor golf crown but the free-swinging Denver star accomplished the feat in 27 Saturday when she trounced Miss Margaret Gunther, Memphis, Tenn., 10 and 9, to retain her title in the fifth annual Broadmoor Invitation tournament.

The Babe won the title for the first time last year and Saturday's defense of her championship was merely a workout for her.

Mangrum Leads Golf Play By Three Strokes

CHICAGO—(AP)—Lloyd Mangrum, ignoring a war-wound twitch in his left shoulder, Saturday spanked a course record-making 67 to bound three strokes in front of the \$10,000 Victory National Open golf field at the 36-hole mark with a six-under-par 136.

Rimmer-up to Mangrum in the 72-hole scramble over Medina's 6,778-yard par 71 course was hard-hitting Chick Herbert, Northville, Mich. pro who turned in a 70 for a two-day total of 139.

Ten Texas Cities Enter State Boxing Tourney

FORT WORTH—(AP)—Ten Texas cities have entered the Texas State TAAF Boxing Tournament scheduled for August 14, 15 and 16, in Fort Worth. R. D. Evans, city recreation director, said Saturday.

The cities include Dallas, Austin, El Paso, Port Arthur, San Angelo, Waco, Abilene, Plainview, Tyler and Fort Worth. Several others are expected to enter.

Evans said that cities may conduct their own tournaments in any manner they desire. At Abilene, The Abilene Reporter-News is staging a district tournament and will pay all expenses of eight division winners to the state meet.

In ancient times, infant desertion was a legitimate practice.

Roy Rites Are Held In Midland Saturday

Funeral services for Wallace R. Roy, who died Tuesday in Midland, were held Saturday morning at Ellis Funeral Chapel.

The Rev. Howard H. Hollowell, pastor of the First Methodist Church, officiated. Interment was in Fairview Cemetery.

Girl Injured When Thrown By Horse

Sarah Ann Cameron, daughter of A. E. Cameron of Midland, was injured when thrown by a horse Friday.

She was treated at a Midland hospital and Saturday was taken to Abilene.

VISIT OKLAHOMA CITY

Fred Wycoff of Midland and his son and wife, Mr. and Mrs. Glenn Wycoff of Odessa, are visiting in Oklahoma City.

Livestock

FORT WORTH —(AP)— Cattle: compared close last week; good and choice fat cattle and calves 50-100 lower; canner to medium grades from 50-200 off; stockers steady; week's tops: good beef steers 17.50, choice yearlings 18.00, cows 17.50, bulls 14.00, calves 18.00, stockers 16.00; week's bulks: medium steers and yearlings 13.00-16.00, medium and good cows 10.00-14.00, common 8.50-10.00, bulls 9.00-12.00, good and choice fat calves 14.00-16.50, common and medium 10.50-13.50, medium and good stockers 12.00-15.00.

Redfern Attended Lions Convention

John J. Redfern, Jr., immediate past president of the Midland Lions Club, was expected to return to the city early this week from Philadelphia where he attended a Lions International Convention.

Redfern represented Midland at the parley.

Collins Returns From Dallas CC Institute

Bill Collins, manager of the Midland Chamber of Commerce, has returned from Dallas where he attended a Southwest Chamber of Commerce Institute.

Highlights of the session included discussion and lectures on public relations.

Chamber of Commerce officials from a large Southwest area attended the parley.

Miss Midland's Horse Injured During Rodeo

Miss Janet Hightower, riding as Miss Midland in the Scurry County Rodeo, was forced to withdraw from the sponsors contest because of an injury to her horse.

Miss Hightower ranked high when her horse suffered a cut on a leg from a wire.

The rodeo held at Snyder ended Saturday night.

Hanks Purchases C&H Food Store

Erasmus Hanks, well known in grocery circles in Midland, has purchased the C&H Food Store from Roy D. Jones.

Jones has operated the business for the past nine months. He did not announce future plans.

Hanks pledged customers of the store service and merchandise backed by his experience as a groceryman.

MORE GAS PIPE LINES

Natural gas pipe lines in the United States now total approximately 220,000 miles, as against about 141,000 for oil pipe lines.

OIL-BURNER SHORTAGE

The number of unfilled orders on the books of the oil-burner manufacturing industry now stands at more than half a million units.

Thank You

Thanks West Texans for your many courtesies extended to me during the months I spent with the Modern-Way Food Store. I want to express my sincere appreciation for your patronage and kindnesses shown. Your actions will be long remembered.

My congratulations to Jerry Phillips . . . I believe that the Modern-Way Food Store is one of the most modern, up-to-date food stores in West Texas. I am sure that this fine store with its new equipment and quality foods will attract more and more people.

Thank You Again—

EDDIE CONNER

Entries Listed For District 26 Softball Tourney

Twelve teams made entries in the District 26 softball tournament scheduled at Odessa July 29 to August 2. Among the entries, two of which are from Midland, are: Monahans Coca Cola, the West Texas Gulf, a combined Wickett and Odessa entry, McCamey All Stars, Fort Stockton All Stars, Crane Gulf, Midland JayCees, Goldsmith Shell Pipeline, Odessa Gabriel's Sporting Goods, Odessa Morrison Brothers, Midland Oil Scouts, Odessa Kessler Bottlers, Odessa Moore Brothers Skelly Service. Two other teams, the Pecos All Stars and the Stanton All Stars, have petitioned for admission to the 26th District.

St. Louis Browns Beat Red Sox, 5-4

BOSTON—(AP)—The troublesome St. Louis Browns pushed a pair of runs across the plate in the seventh inning Saturday on a trio of singles, a sacrifice and two walks, to edge the league leading Boston Red Sox, 5-4. The loss shaved a full game off the Red Sox's lead, leaving them 10 1/2 games ahead of the second place New York Yankees, who shut-out the Chicago White Sox, 7-0. The score: R H E St. Louis . . . 100 110 200—5 10 1 Boston . . . 010 110 100—4 10 0 Kramer, Ferrick and Mancuso; Hughson, Johnson and Wagner.

Cubs Beat Phils In Double Header

CHICAGO—(AP)—Andy Patko's single scored Don Johnson with two out in the ninth inning and gave the Chicago Cubs a 4-3 victory over the Philadelphia Phillies in the first game of a double-header Saturday. The Cubs had the bases loaded when Patko smacked a 3 and 2 pitch for a game-winning single. Chicago won the second game 3 to 2. The score: R H E Philadelphia . . . 100 110 000—3 11 1 Chicago . . . 030 000 001—4 11 0 Humphries, Hoerst and Hemsley, Semnick; Kush, Bithorn and Scheffing. Second game: R H E Philadelphia . . . 000 020 000—2 9 1 Chicago . . . 000 210 00x—3 8 1 Mullingan, T. Hughes, Raffensberger, and Semnick; Schmitz and McCullough, Scheffing.

INVESTIGATE COLLISION City police Saturday investigated an automobile collision at Illinois and Lorraine streets between J. R. Cantrell and J. W. Benton. No injuries were reported.

Shoots Birdies, Too

Betty White of Dallas was striking figure in shorts, literally and figuratively, in women's trans-Mississippi tournament in Denver, especially in eliminating Beverly Hanson of Fargo, N. D., with birdie four on 20th to advance to quarter-final round.

City Bus Drops One To McCamey

City Bus of Midland lost a tinging 7 to 6 softball battle in McCamey Friday night, dropping to a team of All-Stars in eight innings. It was a jam-up close contest that was in doubt until the finish. City Bus played without error behind the pitching of Henderson. McCamey's lineup from various teams of that city was potent when the blue chips were down.

Midland Skyscrapers Play Lubbock Here

A grudge baseball game is scheduled at 3 p. m. Sunday here when the Midland Black Skyscrapers take on the Lubbock Black Hubbers. Lubbock beat Midland recently, 8 to 7.

Rams Sign Harmon After Pro Dons Snub Him

LOS ANGELES—(AP)—The Los Angeles Rams of the National Football League Saturday signed Tom Harmon, fresh from a snubbing by the Los Angeles Dons of the rival All-America Conference, to a two-year playing contract.

SPORTS

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, JULY 21, 1946—3

Oil Scouts Have Rough Schedule Ahead In Softball Play This Week

The Oil Scouts have the toughest row to hoe in the JayCee City League this week. The tied-for-Red-lead Scouts play MAAF Tuesday and the JayCees Friday.

The leader of the other circuit, The Reporter-Telegram, has one game during the week, a set-off with Texas Electric Friday night.

Last week's results: MAAF edged Equitable, 10 to 9; Mackey trimmed Burl's, 16 to 13 (exhibition); the JayCees tramped City Bus, 19 to 2.

DOWN SPORTSLANE

TANNER LAINE

ELMER TARBOX, one of the greatest backs we have ever watched when he ran 'em ragged at Texas Tech, was at Odessa Friday night when TT Exes of West Texas gathered for a barbecue-dance. It was a pleasure to see Elmer again after all these years. He was a bomber pilot in the war and was wounded. He's a natural athlete. Made a touchdown in the first game he ever played. He was a star basket ball and track performer and could play baseball. They called him the halfback with the piano legs, which were indeed well moulded.

—SL— Good fishing to ISH MCKNIGHT and CON THOMAS, who left Midland for Colorado Friday for a little casting for the trout. You know, one of those WISH YOU WERE HERE deals.

—SL— Now it will be known as PHILLIPS 66. The former O'Neal's team of the city softball setup will continue to play under ownership of Dub Wilson and management of a couple of the boys.

—SL— A shutdown of Coach Barnes Milam's and Earl Glassie's boys recreation program is expected soon to allow the coaches to attend the big Texas Coaching School at Corpus Christi.

—SL— Unique at Jack's 80 Acres, a Midland golf driving range, is that swatters can practice approaches as well. Driving ranges usually cater to the drivers but this place also is attractive to those needing "lay up" practice. The range is open nights.

—SL— When Governor - Candidate HOMER P. RAINEY was in Midland recently he said, "My opponents have even brought into this campaign the allegations that my baseball pitching was not good." Rainey WAS a good pitcher, the records show. And speaking of athletes in politics, Jerry Mann, the "Little Red Arrow at SMU," when he was running for governor and attorney-general, used to have a mouthpiece which hooked over his head when he made speeches so he would have the free use of both hands and fists talking. At SMU he was remembered as the back who could pass with both hands at full speed.

—SL— ROUNDING UP THE STRAYS . . . Tabs on 3-AA ball clubs for the coming fall . . . SWEETWATER, tough, the team to beat, improved at fall of season last year, many boys back including Abe Lincoln, rugged all-district center, good coaching . . . ODESSA, Thompson gone, but Townsend back, changed coaching, still plenty tough, many new faces from Jr. H., runnerup possible . . . ABILENE, new coaching and good (Pete Shtwell), many boys on hand, will be strong at late season when good back DOBKINS becomes eligible, a threat . . . LA-MESA, new coaching, stressed blocking and tackling in spring drills, huge squad on hand, will have two good backs . . . BIG SPRING, three deep in places with many lettermen, predicting great things, wants to beat Midland more than anybody, dangerous . . . SAN ANGELO, with Hedrick at tackle is hard to beat, has green but heavy team, always tough, new coaching . . . MIDLAND, new coaching, "ambitious kids, looked good in spring drills, tired of being trodden past few years, has more reserve power, the surprise team of 3-AA? . . . That's the stray poop from here.

Cincinnati Reds Beat New York Giants 2-1

CINCINNATI—(AP)—Johnny Vander Meer turned back the New York Giants with three singles Saturday as Cincinnati eased out a 2-1 verdict over New York's Bill Voiselle on three singles and an outfield fly in the seventh inning. The score: R H E New York . . . 000 010 000—1 3 3 Cincinnati . . . 000 100 10x—2 7 1 Voiselle, Thompson and Lombardi; Vander Meer and Mueller.

Feller Wins 17th As Indians Beat Senators

WASHINGTON—(AP)—Bobby Feller won his 17th victory Saturday as Cleveland took full advantage of four Washington errors to beat the Senators 10-2. Hank Edwards and Ken Keltner hit home runs for Cleveland.

The score: R H E Cleveland . . . 010 002 322—10 12 0 Washington . . . 000 020 000—2 7 4 Feller and Hegan; Hudson, Curtis and Early.

Chandler Shuts Out White Sox, 7 To 0

NEW YORK—(AP)—Spud Chandler spun his 14th victory and fourth shutout of the season Saturday, blanking the Chicago White Sox with five hits, 7-0, as New York took the opener of the three-game series. The score: R H E Chicago . . . 000 000 000—0 5 2 New York . . . 000 003 22x—7 7 1 Smith, Papish and Hayes; Chandler and Robinson.

The Reporter-Telegram outlasted Phillips 66, 20 to 13; Elder skipped Texas Electric, 15 to 14; and Oil Scouts cleaned Burl's, 15 to 3. Friday night's games were postponed to a future date.

In intersectional play, the Oil Scouts blanked Monahans, 10 to 0; Midland girls beat McCamey 23 to 1, and the McCamey All-Stars beat City Bus 7 to 6.

In the girls league Midland Drug kept undefeated by subduing Grammer-Murphey, 28 to 3. Durrell Insurance forfeited to Crawford Hotel.

Two Midland teams, the Oil Scouts and the JayCees, sent in entries to the District 26 tournament to be played in Odessa starting July 29.

This week's card: Monday: Burl's vs. City Bus; Elder vs. Phillips 66.

Tuesday: Texas Electric vs. Mackey Motors; Oil Scouts vs. MAAF. Thursday: City Bus vs. Equitable; Phillips 66 bye.

Friday: JayCees vs. Oil Scouts; The Reporter-Telegram vs. Texas Electric.

Midland Girls Wallop McCamey

Midland All-Star girls walloped McCamey, 23 to 1, Friday night behind the two-hit pitching of Lucy Simmons, in an "intersectional" softball game at McCamey.

The game was called for time at the end of five innings. Midland hit lustily and played a bangup game in the field with Felba Ware, shortstop, turning in a fine performance.

It was sweet revenge for Midland because McCamey beat them here recently, 9 to 8.

The Midland team traveled by special bus.

'Variety Girl' To Be Shown In Fall

A story of the Variety Clubs of America, "Variety Girl," being filmed in technicolor by Paramount will be shown in Midland this fall. J. Howard Hodge of Midland is a member of the Variety Club of Texas.

Appearing in the film will be Bing Crosby, Bob Hope, Ray Milland, Betty Hutton, Alan Ladd, Dorothy Lamour, Paulette Goddard, Barry Fitzgerald, Veronica Lake, William Bendix, Sonny Tufts, John Lund, Gail Russell, William Demarest, Howard DeSiva, Marjorie Reynolds, John Hoyt, Billy DeWolfe, Cass Daley and many others.

The picture will be one of Paramount's outstanding musicals. Facts and romance go hand in hand in this story which began with the finding of an abandoned baby girl in Sheridan Square Theater in Pittsburgh, Pa., Thanksgiving Day, 1923.

The Variety Club was formed by 11 congenial men of the entertainment field who met because of their deep friendship for each other in a social way, but with the finding of the baby girl they took the responsibility of caring for the child. The baby was duly christened and for five years these men did all in their power for her but at the end of that time, and after careful selection, a home was found for her with a real mother and daddy.

News of what these 11 men had done spread throughout the country and other people wanted to ally themselves with an organization which could do so much good and on Jan. 28, 1934, the National Variety Clubs were formed. At the present there are 28 tents, all dedicated to the welfare of mankind.

OPA -

(Continued from Page 1)

its consideration. Previously the House had voted a 20-day extension of the OPA authority which expires July with President Truman's veto of an extension bill.

The Senate-House committee also made a minor change in a pricing provision the Senate had inserted in the bill as a substitute for the amendment by Senator Taft (R-Ohio) which President Truman had criticized as the "most damaging" of the sections of the original extension bill he vetoed June 29.

Discretionary Power Remains. As it came out of the conference this provision still contained discretionary authority for the OPA against which Taft had protested vigorously in the Senate. Under it the agency could make "reasonable adjustments" to meet abnormal production. In cases where ceilings were high enough to cover costs, it could refuse to raise them if this would not boost production or would reduce production of other necessary items.

Taft told reporters the agreement within the Senate-House committee on the final terms of the measure, which is expected to go before the House for action there Tuesday, was by no means unanimous.

He said he doubted that Republican members of the House group would sign the report, and that he thought Senator Millikin (R-Colo.) might also disagree with it. Taft added that while he believed he would subscribe to it, he was not certain.

Barkeley said in response to a question that he hopes President Truman will find the measure acceptable, but he added he did not know what Truman's views on it are.

"I have every hope that he will sign it," he said, adding, "that is based on my desire as much as on anything else."

He said the conference group will meet at 10 a. m., CST, Monday to look over the legislative counsel's draft of the bill and give its final approval to the language of the measure.

Some legislators indicated a belief that the decision to return many controls might cause a selling wave of products which would force prices down.

The Senate wrote this provision into the OPA revival bill as a substitute for a pricing amendment by Senator Taft (R-Ohio) which Truman severely criticized as the "most damaging" section of the original OPA extension bill which he vetoed.

Under the compromise reconrol section, the Senate's order to keep such commodities as meat, poultry, eggs, butter, milk, grain, tobacco and other products free of price ceilings in a revamped OPA would stand for only 30 days.

At the expiration of that time, controls automatically would return on these items. Then it would be up to the three member decontrol board to say when ceilings should be lifted from them.

Historian Wins Feature At Chicago Race Track

CHICAGO — (AP) — Historian, sturdy son of Lawrin, 1938 Kentucky Derby winner, nipped the nation's handicap champion Arrived, in one of the greatest stretch duels ever waged at Arlington Park Saturday to win the \$56,800 Arlington Handicap by a neck.

The five year old Historian, owned by Herbert M. Woolf, Kansas City, Mo., established a new track record of 2:01 for the mile and a quarter to blot out the former record of 2:01 1/5 established by the Great Discovery in 1935.

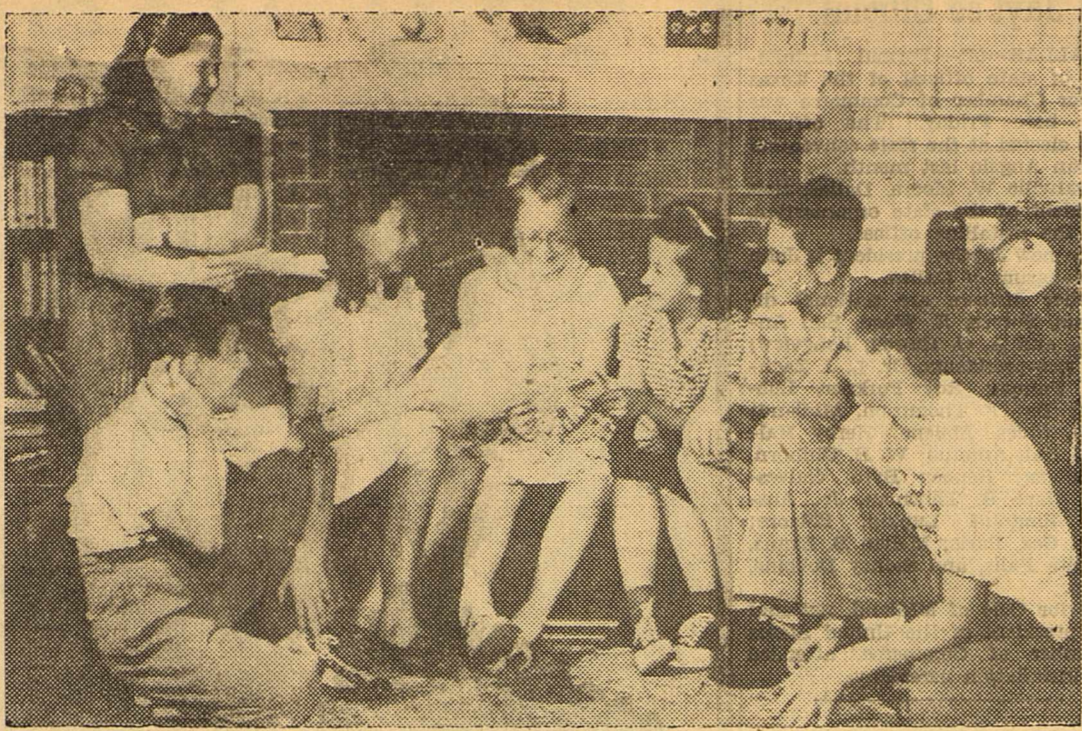

The winner, second choice in the wagering at odds of 7 to 1, returned \$16.20, \$4.20 and \$3.40. Arrived, the prohibitive favorite, paid \$2.60 to place and \$2.40 to show.

HOUSE CATCHES FIRE

City firemen were called Saturday afternoon to extinguish a fire in the Mexican sector of the city.

A residence was damaged.

'Secret Six' Comes Through

The "Secret Six" of Detroit, Mich., comes through with cash for the operation of Ruthie Erickson, 10, who needs an operation to keep from going blind. Left to right, Joyce Fraze, 10; Beverly Olmsted, 11; Emma Jane Zaccagnini, 10; president of the "Secret Six"; Ruthie; Yvonne Lee, treasurer; Donald Spodeck, 11, vice-president; and Johnny Zaccagnini, 11, are shown presenting Ruthie with the money obtained from donations and by working around the neighborhood.

Midland 'Stars' Beat Big Spring

Rosie Hart got a seventh inning "money" hit that scored the winning run for Midland All-Star girls over Big Spring's American Legion girls, 13 to 12, in a softball game here Saturday night.

Two were out and the score was tied 12-12 when Rosie came to bat in the last inning. She poked one safely out in left field. It scored Jewel Cook with the winning run.

Beasley and Hart pitched for Midland.

Scores by innings:

Big Spring 000 021 7-12

Midland 414 012 1-13

Dec. 7 Report -

(Continued from Page 1)

E. Kimmel and Lt. Gen. Walter C. Short, Navy and Army commanders in Hawaii, had not measured up to the responsibilities given them.

Their commands were acknowledged not to have been on an all-out alert when Japanese bombers, winging from carriers at sea, roared over the Hawaiian base early Sunday, Dec. 7, 1941, knocked out eight battleships and 10 lesser craft of the Pacific Fleet and killed 3,435 Americans.

The majority reported, however, that "the errors made by the Hawaiian commands were errors of judgment and not derelictions of duty."

The majority, in their conclusions, named no names of military men in Washington who in their opinion fell short in performance. But the report criticized the intelligence and war plans divisions of both the Army and Navy.

The majority also made this general observation: "Notwithstanding the fact that there were officers on 24-hour watch, the committee believes that under all of the evidence the War and Navy Departments were not sufficiently alerted on Dec. 6 and 7, 1941, in view of the imminence of war."

Their report made these recommendations:

1. Immediate action to insure unity of command at all military and naval outposts.

2. "A complete integration of Army and Navy intelligence agencies in order to avoid the pitfalls of divided responsibility."

3. Effective steps "to insure that statutory or other restrictions do not operate to the benefit of any enemy or other forces inimical to the nation's security and to the handicap of our own intelligence agencies." Congress, it was added, should study changes in the espionage laws and in the communications act. The latter law prohibits wire-tapping by military intelligence officers as well as by others.

4. That an appropriate Senate or House committee investigate "the activities of Col. Theodore Wyman, Jr., while district engineer in the Hawaiian department." Wyman was in charge of defense and other Army construction in Hawaii at the time of the Japanese attack.

5. That the War and Navy Departments consider adopting 25 "supervisory, administrative, and organizational principles" which were set forth.

DALLAS — (AP) — Maj. Gen. Walter C. Short, Army commander at Pearl Harbor when the Japanese attacked, said here Saturday the Pearl Harbor report "fully absolved me from any blame and I believe such will be the verdict of history."

"As I have stated before," he said in a prepared statement, "my conscience is clear."

He said a fair and impartial trial which "is the right of every American" had been denied him for four years.

Further, he said, quoting Rep. Keefe, "Kimmel and Short (had been maneuvered) into the position of exclusive blame."

Hot Again!

Friday the temperature reached 100 degrees, the fourth time it has gone that high this summer in Midland.

High for the summer here is 107 degrees.

Some people cannot hear opera singers when they hit high C.

New Mexico's Deepest Oil Exploration Plugged As Dry Hole At 12,535 Feet

HOBBES, N. M. — The deepest oil exploration ever drilled in New Mexico, Humble Oil & Refining Company No. 1-B Federal-Leonard, in the extreme southeast corner of Lea County, has been plugged and abandoned as a dry hole on a total depth of 12,535 feet, in a lime, under depth to be the Ellenburger, lower Ordovician.

Located 1,980 feet from north and 660 feet from west lines of section 12-266-37e, and one-half mile north of the discovery for Ellenburger production in New Mexico, this project developed salty, sulphur water in that formation. It is understood to have been extra low, geologically, on that horizon, and it failed to log any signs of oil or gas in the section.

No Signs of Production

After missing pay in the deep zone, operator tested all the way back up the hole to 5,167 feet, none of the horizons investigated showed any possibilities of production. In the interval at 5,167-5,440 feet, recovery was 2,100 feet of salty, sulphur water. After that developed operator representatives ordered the project abandoned.

DeKalb Agricultural Association, Inc., No. 1 Lewis, Central Chaves

Wyatt Blasts Lobbying Against Housing Bill

WASHINGTON — (AP) — "Shameful" lobbying by real estate interests and "parliamentary filibustering" are blocking a vote on the Wagner-Ellender-Taft general housing bill, Housing Expediter Wilson Wyatt charged Saturday.

Wyatt offered to forego all appearances by himself and his aides if it would speed the long-range housing measure through the House Banking and Currency Committee to a vote before adjournment. The opposition, he said, should be given "reasonable" time to state objections.

The national housing administrator denounced the use of "almost never-invoked technicalities" which he said have rendered hearings impossible. He referred to the point of order raised in committee hearings which prevents testimony-taking while Congress is in session.

Passage of the bill at the session now drawing to a close is "absolutely necessary if the veterans emergency housing program is to surmount present obstacles," Wyatt said. The bill has gained overwhelming approval from the Senate.

Two Texans Among C-47 Crash Victims

TOPEKA — (AP) — Army authorities Saturday released the names of five of 14 Army personnel killed in the crash of a C-47 Army transport near Goodland, Kan., Thursday night.

Names of the remaining nine servicemen probably will be released within the next few days.

The dead included: Flight Clerk Pfc. Baz W. Rogers, Honey Grove, Texas; and First Lt. Herschel E. Procter, Dallas, Texas.

Candidates -

(Continued from Page 1)

gave a radio address Saturday in support of Beauford H. Jester for governor.

A Kingsville speech was cancelled by Beauford Jester when the candidate found himself running late on a schedule that was to carry him from Corpus Christi to Brownsville.

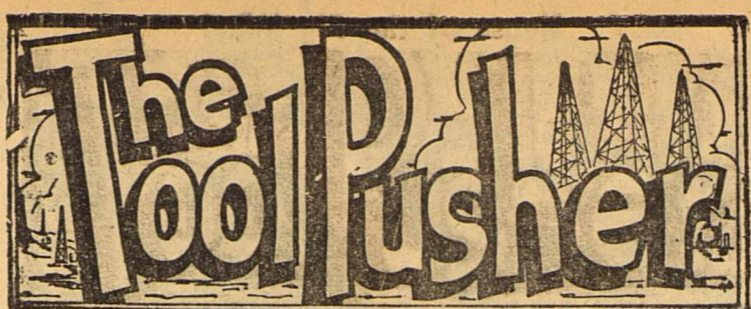

"I am running on my record as a private citizen and as a member of the Railroad Commission," he stated.

Former Attorney Gerald C. Mann took part in Grover Sellers' "for men only" meeting Saturday at Marshall, reading a University of Texas faculty report on the controversial book, "U. S. A."

23 MARRIAGE LICENSES ISSUED DURING MONTH

Twenty-three marriage licenses have been issued by the county clerk's office so far in July.

A license was issued Friday to Clyde Hardy and Doris Mae Alexander.

By JAMES C. WATSON, Oil Editor

TEXACO FOREMAN GETS MEDAL FOR SAVING LIFE OF GAS VICTIM

—Value of the safety programs, and particularly of the first aid training courses, sponsored by the oil companies among their employees, definitely was shown in Midland Tuesday night at a ceremony where N. E. Anderson, production foreman for The Texas Company in the North Cowden field in Ector County was awarded the President's Medal of the National Safety Council.

—The recognition was given Anderson for saving the life of Virgil Robert Green, Jr., of Odessa, March 8 by the Schaeffer prone pressure method of artificial respiration.

—The presentation was made by C. B. Williams, of Fort Worth, manager of the West Texas division, of the producing department of The Texas Company.

—Green, whose life was saved by Anderson, as a result of the first aid training he had received in company sponsored courses, attended the ceremony. Levi F. Shiplet, general superintendent of the production department for West Texas, C. L. Hollman, district superintendent, and Jack O. Cabness, district drilling and production foreman, also took part in the presentation.

—While attempting to open a tank valve, Green was overcome by gas fumes and collapsed on the walkway floor.

—He was discovered by his father, who was working on the job with him in cleaning out tanks. The Green boy was in a truck and started to the nearest hospital, 19 miles away at Odessa.

—After driving a short distance the truck was met by Anderson who immediately started administering the artificial respiration to the unconscious man.

—After working with him for 55 minutes young Green was breathing regularly. He was carried on to the hospital and after being kept there about two hours for observation, was released as being completely normal.

—Men, who were with Green at the time he was struck by the gas fumes, made affidavits that he did not breathe and that his pulse did not function for at least five minutes, prior to the time Anderson started administering to him. Those witnesses stated that Anderson's alertness and his first aid training, undoubtedly saved Green's life.

—The President's Medal of the National Safety Council is one of the highest awards given by that organization and is the 47th to be won by an employee of The Texas Company.

—Special guests at the presentation ceremony, held at a dinner at Hotel Scharbauer were first aid instructors in the producing department of The Texas Company, Don Check, J. V. Rogers, C. P. Howell, F. G. Barking, M. E. Crews, C. F. Jackson, Leo Hart and C. V. Hill, A. T. Starnes, another instructor, was unable to attend and was represented at the program by H. F. Sparks, Anderson, the honoree, is also a first aid instructor.

—Kraus Earhart, of Houston company safety supervisor, and B. O. Smith, representative of the company's industrial relations department, also were present.

STANOLIND INVOLVED IN PLANS FOR THREE GAS SAVING PROJECTS

—When plans of the Stanolind Oil & Gas Company for gas saving projects in West Texas, which now are contemplated, are realities, at least 100,000,000 cubic feet of gas per day may be flared in this region, will be used.

—The company is considering building of natural gasoline plants in the Fullerton, North Cowden and Foster-Johnson-South Cowden fields.

—In addition, Stanolind is slated to be the operator of a large gasoline plant being planned for the Slaughter field which will be a joint installation by that concern, The Texas Company, Magnolia Petroleum Company and Honolulu Oil Corporation.

—Informal sources reveal that all of the proposed new plants likely will be constructed as soon as materials are available.

JOHN A. PORTER MOVES BACK TO MIDLAND

—John A. Porter is now material pushing in the Midland division office of Humble Oil & Refining Company. In taking the new job, he returns to Midland, after living at the company's Andrews camp more than a year, while acting as district clerk at that station. His new job is a promotion.

—Ben E. Huttsell, who has been on the division managerial job, has been transferred to the New London district in the East Texas field.

KERMIT AND WINK FIRE DEPARTMENTS PRAISED

—C. V. (Cap) Lyman, Midland oil operator, thinks the members of the volunteer fire departments at Kermit and Wink are very good firemen, and he wants the world to know the organizations can put out burning gas wells in quick order.

—On July 13, one of "Cap's" gas wells in the Cowden lease in the Emperor field in South-Central Winkler County ignited from a spark, while cleanup tools were being broken down. The well was making between eight and ten million cubic feet of gas per day.

—The Kermit and Wink fire departments, and the Halliburton Oil

Well Cementing Company were called.

—The fire was extinguished after about ten hours. Lyman, and others who were at the well, said the volunteers did a good job.

—Harry Lee, one of Lyman's employees, was burned slightly.

SHELL DEPARTMENTS IN NEW OFFICE QUARTERS

—Offices of the scouting and paleontological departments of the Midland division of Shell Oil Company, Inc., now are located in the Reece Building at 110 South Lorraine.

—The space formerly occupied by those departments in the Petroleum Building will be used by other units of the company — which, Shell executives said, are all working in cramped quarters.

SUNRAY EXECUTIVES VISIT MIDLAND

—H. S. McClintock, vice president and Frank Bowser, chief geologist of Sunray Oil Company, were in Midland several days last week visiting with Ed A. McCullough, district manager for the company in the Permian Basin.

—It is understood Sunray plans to enlarge its personnel and activity in this area—as soon as additional office space and housing can be obtained.

McKNIGHT NOW SWAMPING FOR THE TOOLPUSHER

—Jack E. McKnight, who saw 12 months combat service in France and Germany as a member of the 206th Combat Engineer Battalion of the U. S. Third Army, now is associated with The Toolpusher.

—Jack, already being called "The Swamper" by some of the boys, is a younger brother of Ish McKnight, Midland independent oil operator, and of Dick McKnight, who recently came to Midland after serving in the Navy during the war.

—Jack went into the army shortly after finishing high school in Tulsa in February 1943 and came to Midland last March. He has made quite a reputation for himself as a member of The Reporter-Telegram softball team. He will work at this job in the same manner—hard, but clean.

—We will appreciate any courtesies shown McKnight by those he will contact, and the two of us are going to try to do a better job of reporting the activities of the oil industry and the persons in it in the Permian Basin.

UNIVERSITY GRANTS PIPE LINE EASEMENT

—A pipe line easement across five blocks of University of Texas Lands in Hudspseth County, will give the University Permanent Fund a total of \$10,042.54 for a 10-year period.

—The easement, approved by the board of regents in its last meeting, was in favor of the El Paso Natural Gas Company, El Paso.

The line will traverse Blocks G, H, J, K and L in Hudspseth County for a distance of approximately 30 miles or 10,042.54 rods.

Texaco's Southwest Andrews Wildcat Swabbed 166 Barrels New Oil In 21 Hours After 1,000-Gallon Acid Shot

By JAMES C. WATSON, Oil Editor

The Texas Company No. 1-P State, (University), North-Southwest Andrews County wildcat, six miles northwest of the Martin field, closest producing area from the Tubb, middle Permian, swabbed 166 barrels of new oil in 21 hours, from interval at 7,170-7,250 feet, in the Tubb, to prove that it is a new discovery. That was at the rate of 188 barrels per day.

The oil was produced after the perforated section had been treated with 1,000 gallons of acid. Operator was re-treating Saturday with 3,000 gallons of acid, in an effort to increase the oil yield, and to try to make the well flow.

The petroleum was cut with only one-half of one per cent sediment, and casing pressure built up to 400 pounds, during the swabbing.

Acid Helped

This wildcat swabbed at the rate of one-half barrel of oil per hour, natural, prior to the use of the first shot of acid.

The new field opener is 1,980 feet from north and 660 feet from west lines of section 15, block 12, University survey.

Humble Oil & Refining Company No. 1-B G. H. Cowden, East Crane County wildcat, in section 14, block X, CCS&ARGNG survey, ran a drillstem test three hours at 10,102-192 feet, and recovered 9,100 feet of sulphur water.

No shows of oil or gas were reported from the investigation. While operator has not released any official information in the formation, it is understood that the zone was Ellenburger, lower Ordovician.

So far as is known, no signs of production were encountered in that formation.

Operator reported that the exploration will plug back to approximately 8,700 feet. A string of 7-inch casing had been cemented at 8,707 feet.

Unconfirmed reports are that the casing was set in the bottom of the Devonian. Some observers have stated that some free oil was recovered from drillstem tests in the Devonian.

It is supposed that operator will perforate the casing and make production tests opposite zones in the Devonian which may have shown some signs of possible production.

Argo Oil Corporation, No. 1-C TXL, Loving County prospector in section 7, block 55, T-1, TP survey, 17 miles northwest of Montevideo, and one and one-half miles northwest of the Mason field, where the production is from the Delaware, had reached 3,856 feet, in Delaware lime topped at 3,852 feet, on an elevation of 3,931 feet.

Operator is moving in a cable tool unit to drill ahead into the section which might show production.

Argo No. 1 Roberts, Southwest Reeves County wildcat, in section 294, block 13, H&GN survey, about 25 miles southeast of Pecos, had drilled past 12,320 feet, in sand, and was drilling ahead.

Stanolind Oil & Gas Company No. 1-GG University, Northwest Crockett County exploration to around 9,000 feet, in section 12, block 39, University survey, had reached 7,417 feet, in shale, and was continuing.

Shell Oil Company, Inc., No. 1 Clark, North Glasscock County prospector in section 5, block 32, TP survey, T-4-S, and about eight miles north of Garden City, was making hole below 8,527 feet, in sand, likely Pennsylvanian, and was drilling ahead.

The Plymouth Oil Company No. 1 Alford, old East Upton County wildcat, now being cleaned out, to total depth at 10,384 feet, was bailing at 9,450 feet, and recovering drilling mud, a slight gum of oil or distillate, and a little gas.

Operator was to continue to cleanout, and if the open hole from the bottom of the casing at 10,002 feet, to total depth is in condition the exploration will be deepened.

Skelly Oil Company No. 1 Hudspseth, Southeast Fisher County wildcat, in section 11, block 19, TP

survey, was making hole below 4,312 feet, in the Canyon section of the Pennsylvanian.

A core at 4,256-74 feet recovered 16 feet and three inches of interbedded sand and shale. There were a few slight shows of oil in some of the recovery.

E. E. Fogelson and Cosden Petroleum Corporation No. 1-D-C University, Southwest Ector County Ellenburger exploration in the Penwell shallow field, and in the northwest quarter of section 1, block 35, University survey, had reached 7,755 feet in lime, and was drilling ahead.

American Republics Corporation No. 1 TXL West Ector prospector in southeast quarter of section 7, block 45, TP survey, T-2-S, one-half mile southeast of J. W. Murchison No. 1 Fraser, small pumping discovery, had penetrated past 9,040 feet, in lime. No markers have been reported since the base of the Permian was called at 7,810 feet, on an elevation of 3,353 feet.

William Y. Penn, et al, No. 2 W. T. Shearer, northeast stepout from production in the Lehn-Apco 1600 filed, in North Pecos County, is a new location on which drilling to around 2,000 feet will start at once, using cable tools.

It is 990 feet from northwest and 1,650 feet from northeast lines of section 41, block 10, H&GN survey, and 318 feet northeast of same operators' No. 1 W. T. Shearer, a recently completed producer.

Helmerich & Payne, Inc., No. 9-C White & Baker, East Pecos County semi-wildcat to around 8,000 feet to test for pay in the Strawn-Pennsylvanian, in northwest corner of section 44, block 7, TC survey, had cemented 10 3/4-inch casing on bottom at 1,879 feet, and will drill out the plug and drill ahead.

Cooper Gas Company No. 2-A Koy, 1,980 feet from south and west lines of section 38, block L, CH&SA survey and west, flanker to the section, discovery for flowing production from the Strawn-Pennsylvanian, on the north side of the Page gas field, in Schleicher County, had reached 3,631 feet, in shale and was going ahead to around 6,000 feet.

Stanolind No. 1 Kayser, Central Ector wildcat, in southwest corner of section 34, block 43, TP survey, T-2-S, one and one-quarter miles west of the South Cowden shallow field, had progressed below 12,129 feet, in lime and shale, and was continuing.

Stanolind and Westbrook-Thompson No. 35-A Hendrick, West-Central Winkler County deep exploration, four miles west of Kermit, and in section 33, block 26, ps. survey, was making hole past 13,128 feet in lime and shale of the Simpson, middle Ordovician.

Cities Service Oil Company No. 1 Turner, in northwest quarter of section 49, block M, EL survey, in the Welch field, of Northwest Dawson County, completed for a 24-hour pumping potential of 152 barrels of 33.8 gravity oil from pay at 4,805-4,920 feet, which had been treated with 5,000 gallons of acid.

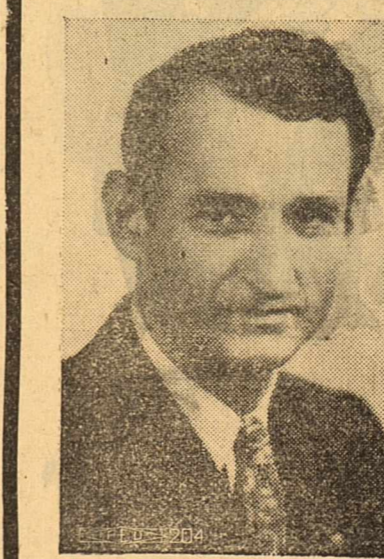

Cities Service No. 2 Cole estate, in southwest quarter of section 48, block M, EL survey, and also in the Welch area, made a daily pumping potential of 149.22 barrels of 33.3 gravity oil, from pay at 4,820-4,925 feet, which had been treated with 5,000 gallons of acid.

Two More Completed

Shell Oil Company, Inc., completed two Ellenburger producers on the northeast side of the TXL field. Both are in the southeast quarter of section 5, block 45, TP survey, T-1-S.

Shell No. 3-L TXL, 1,994 feet from south and 2,005 feet from east lines of the section made a 24-hour flowing potential of 603 barrels of oil flowing. The pay was between 9,525 feet and the total depth at 9,777 feet.

Shell No. 4-TXL, 1,994 feet from south and 668 feet from east lines of section 5, block 45, TP survey, T-1-S, made a 24-hour flowing potential of 2,590 barrels of 44.6 gravity oil, flowing, from pay at 9,418-9,772 feet.

House of the Big Wind

Latest development in scientific aviation research is this 12-foot low turbulence pressure wind tunnel, dedicated recently at Moffett Field, Calif. The tunnel is used for studying problems of flight at speeds of 720 m.p.h. or more. It was built by the National Advisory Committee for Aeronautics.

Phillips Buys Full Interest In Modern-Way

Jerry Phillips, a citizen of Midland since 1927, Saturday announced the purchase of the interest of Eddie Conner in the Modern-Way Food Store. With this transaction, Phillips became sole owner of the new and modern store at 605 West Texas Avenue.
The store was opened last March 14 by Phillips and Conner and carries one of the largest stocks of groceries, meats, and fresh fruits and vegetables in the city.
Phillips announced that excellent service and the best foods obtainable will be offered at the store under his ownership, continuing the policies followed since the store was opened.

Two-Way Bus Radio Demonstrated Here

Midland citizens Saturday witnessed a demonstration of two-way radio communication by two passenger buses of the American Buses.
One bus was parked at the southeast corner of the courthouse and the other was in front of the company's depot at 201 North Colorado.
Driver-to-driver and driver-to-terminal communication were demonstrated.
According to A. C. Watson, American Buses' manager in Midland, this was part of an experimental test the company is conducting to give the traveling public a first-hand glimpse of the newest post-war transportation development.

Election Calendar For Midland County

Follows the events leading up to the election Saturday, July 27:
Sunday: Tax collector delivers list of certified voters to the chairman of County Democratic Committee.
Wednesday: Last day for absentee voting.
Thursday: County clerk mails to presiding judges of the proper precincts all absentee ballots therein.
Friday: County Executive Democratic Committee distributes election supplies to presiding judges.
Saturday: Election.

Thompson Installed As JayCee Official

DALLAS—(AP)—Formal installation of state official of the Texas Junior Chamber of Commerce was held here Friday. The officers were elected at the state convention in San Angelo last month.
Granville W. Moore, Dallas, first president of the state organization, was the installing officer.
The new JayCee president is John E. Mangrum of Dallas.
Other officers are national directors, Forrest E. Wood, San Antonio, and A. C. Howell, Longview; and vice-presidents, Dr. L. J. Zachary, Pampa; Roy Forkner, Lubbock; Ted T. Thompson, Midland; A. C. Sides, Abilene; Herby Halstead, San Antonio; W. B. Uhlhorn, Harlingen; Reuben Byrd, Galveston; Mace B. Thurman, Jr., Austin; Emanuel Lupkin, Kilgore; Ward Cox, Paris; Melvin B. Evans, Wichita Falls, and Sidney Dobbins, Waco.
Taylor Cole of Midland, national vice-president of the United States Chamber of Commerce, attended the installation ceremony.

JayCees Will Sponsor Rodent Control Program

The Midland JayCees have made arrangements to carry on a rodent control program in cooperation with the Midland City-County Health Unit, A. A. (Posty) Jones, JayCee president, announced Saturday. This work will be started in the first part of August.

Those who are bothered with rat or mouse infestation are asked to call the Midland City-County Health Unit, phone 178, and leave their name, address, and type of premise. Complete arrangements of the program will be announced in the near future.

Ping-Pong Tourney Slated At Canteen

Ping-pong tournaments at the Youth Canteen in Midland have increased interest and a hot contest is scheduled at 8 p. m. Monday evening.
The table for the contest will be moved up to the front of the canteen to allow plenty of spectator space for the gallery.

Mrs. Sims And Son Visits In Kermit

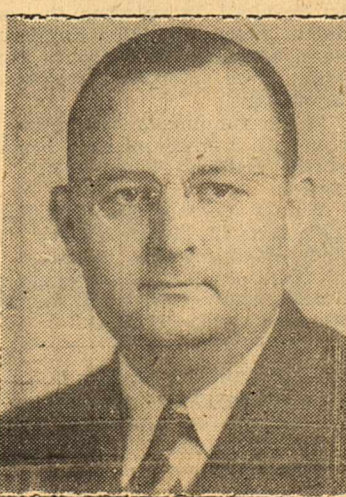

KERMIT — Mrs. Sherman Sims and her two-year-old son, Sherman, Jr., arrived this week at the home of her mother, Mrs. Marion Ellis, in Wink. Mrs. Sims is employed in the office of county and district clerk, J. W. Eisenwine.
Mrs. Sims and Sherman, Jr., arrived by plane from Lakeland, Fla., where her husband has been stationed while in the Army. He has received his honorable discharge and is to join his family in Wink within the next two or three weeks.
Mrs. Sims missed by only one day seeing her brother, Pvt. Floyd Ellis, who has been home on furlough. He had to leave before her arrival in order to report to New Jersey, where he expects to be sent to the Hawaiian Islands.

Trim Silhouette

MISS SIDNEY: Slender lines. By ALICIA HART NEA Staff Writer

You can snip off ten pounds from your silhouette, as movie stars dressed for a size-magnifying camera must, by heaving to a straighter line in clothes and focusing fashion interest at the top.

Willing to tell you more is Hollywood Designer Mike Woulfe, who togs out the style-wise movie stars. Like all studio wizards, Woulfe's job is to dress stars so that the ten pounds which a camera adds to a figure is neatly subtracted.

The straighter and more uncluttered the clothes-line—"We have to reject all figure-padding details," says Woulfe—the thinner you'll look. The curve-upholstery thumbed down in Hollywood includes bustles, peplums, drapery, whopping pockets, double-breasted panels, and girlish-like belts.

But like all good rules, this one has an exception. It's the diaphanous evening gown, which can veer from the straight-line in miles of net, says Woulfe, so long as you control the silhouette underneath with a taut, slim hip.

For top-of-figure interest—allowed because when centered there it doesn't pad the figure—Woulfe says almost anything goes. He tops shrewdly simple clothes with daffy hats. He engages needle women to make gala yokes for quiet dresses, handings of bright Frenchknot embroidery to criss-cross the top of a jacket. Color is slashed like a diplomat's ribbon across the shoulder of a suit. Even glitter sleeves are allowed, he says.

Barbecue Supper Held For Ex-Students And Graduates Of Tech

A barbecue supper served by the Chuck Wagon Gang of Odessa was enjoyed by graduates and ex-students of Texas Tech and their guests Friday evening at the City Auditorium in Odessa.

Elmer Tarbox of Lubbock, president of the Tech Alumni Association, and T. C. Root, also of that city and assistant to Tech's president, W. M. Whyburn, were present for the occasion and both gave short talks on the work being carried on at the college.

An orchestra from Big Spring furnished music for dancing after the supper.

Those attending the entertainment were Mr. and Mrs. Harold Huffman, Mr. and Mrs. Nugent Brasher, Mr. and Mrs. Fred M. Byrd, Mr. and Mrs. S. V. McCollum, Mr. and Mrs. Fadge Maddox, Mr. and Mrs. E. C. Buffington, Mr. and Mrs. K. E. McFarland, Mr. and Mrs. Roy Parks, Jr., Mr. and Mrs. Floyd O. Boles, Mr. and Mrs. Clarence Symes, Jr., Faye Frachiseur, Jimmie Katherine Kendrick, Maisie Coon, Edna Lou Prange, Ruth Simmons, Montez Downey, Erma Nichols, E. Al Goram, B. S. Cheesman, J. L. Sleeper, Jr., Buster Cole, Aldridge Estes, Bruce Medford, J. E. Menning, J. A. Graham, Jr., L. C. Wahlenmaur, all of Midland.

Also Elmer Tarbox and T. C. Root of Lubbock; Mr. and Mrs. W. E. Lyle, Crane; Mrs. J. B. Sowell, and Mr. and Mrs. P. C. Harmonson, Big Spring; Mr. and Mrs. J. B. Ratliff, Texon; Mr. and Mrs. J. L. Wilson and Mr. and Mrs. R. L. Dunagan, Monahan; Clarine Robson, Minot, N. D.; Oleeta Cummings, R. B. Cranfield, Jack Cecil, Tammie David, Frank E. Wentz, Jeannette Bowden, Donald Albright, Phyllis Runnestaud, Vernie Runnestaud, Austin Hare, Mr. and Mrs. Elwood Scott, Mrs. Lester Brister, Mr. and Mrs. C. Allen Dorsey, all of Odessa.

TWO SERVICES WILL BE HELD SUNDAY AT CHURCH OF CHRIST

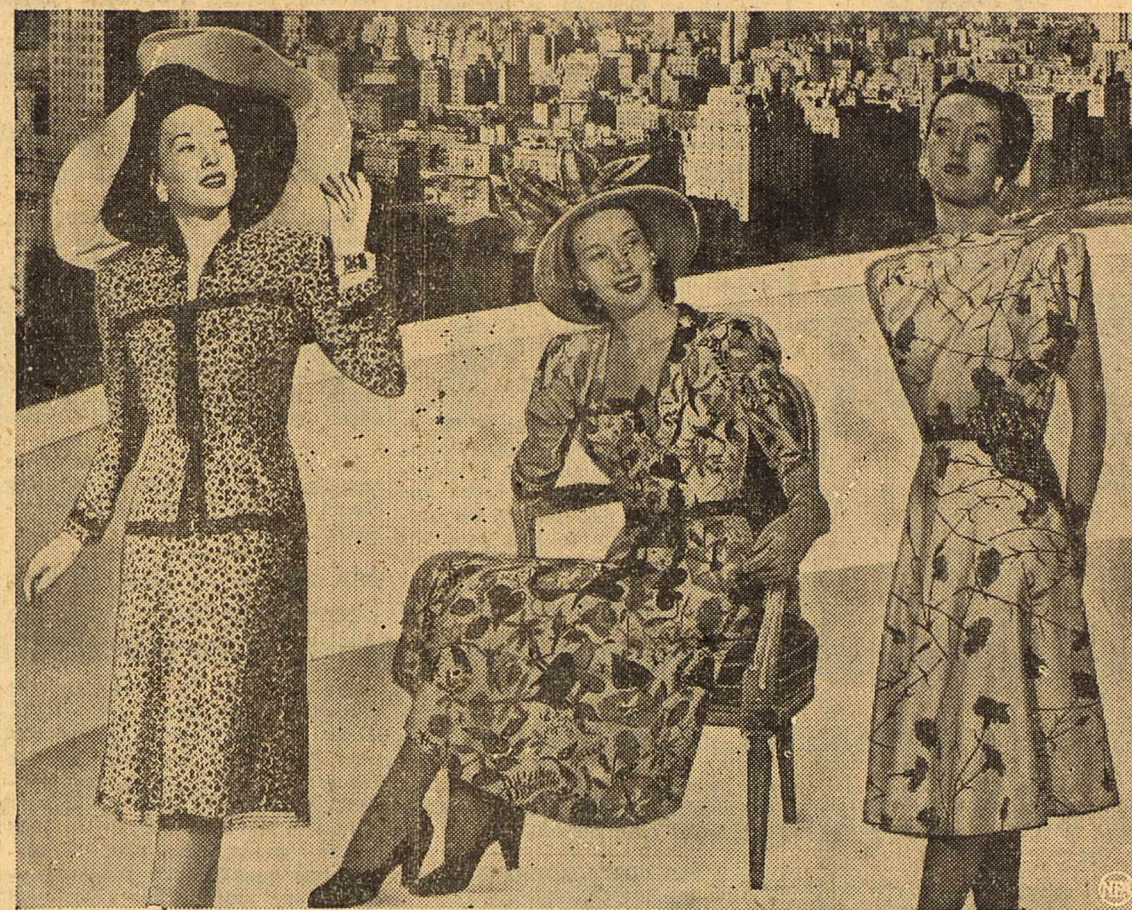

Two regular morning worship services will be held each Sunday at the Northside Church of Christ at Avenue A and Tennessee to accommodate the large crowds. The services will be at 9 a. m. and 10:50 a. m.

Beginning Sunday evening J. Woodie Holden, minister, will direct an open air meeting to be held at the corner of South Big Spring and West Florida Streets. Men from the Northside and Southside churches will be in charge of the song services. The programs will begin at 8:15 p. m.

MRS. THOMASON IS VISITOR IN MIDLAND

Mrs. R. E. Thomason, wife of Congressman Thomason, was a visitor in Midland Saturday. She was en route by automobile from Washington to her home in El Paso. With Mrs. Thomason were Mrs. Beth Cravens of Gainesville, sister of the congressman, and Mrs. Nancy D. Pelphrey, his secretary.

Rare Masterpieces In Print

Sophisticated are the pure silk dress prints created by master textile designer Brooke Cadwallader. Left, a stylized "eye" pattern is made up in black and white in a lace-trimmed jacket dress by Hattie Carnegie. Center, morning glories interspersed with caterpillars, beetles and ants show skillful use of many colors in a simple afternoon dress. Right, long-stemmed red carnations splashed on a white background are accented by a carnation cluster at waistline of this Pauline Trigere frock.

By EPSIE KINARD
NEA Staff Writer
NEW YORK—Dress prints signed by Brooke Cadwallader are to the world of textiles what masterpieces of painting are to the world of art. What this Manila (P.I.)-born

American, educated in Massachusetts and Paris, puts above a signature written into the selvage of a piece of fabric—sold as yard goods over the counter or on order to exclusive designers—is a masterpiece of textile design.

He brought first to the design of scarves, that rare as collector's items, and next to dress goods, which spotlight dress houses scramble to get, the trained eye of an artist. In his screened prints this former landscape painter reflects his feeling for brilliant images and palette-mixed colors. Composition is balanced. He makes a fetish of good spacing.

Three pet peeves in print are claimed by this fabric stylist. One is gaudy colors. The second is "conversation prints" which prattle in bad taste. The third is florals that make, he says, "the rose look like a rose which you could reach out and pick."

That they're as far removed from these travesties on design as he knows how to take them is Brooke Cadwallader's claim for his stylized patterns. His last year's chrysanthemum print, made much of by big-wig designers, was a subtle derivation from Degas' famous painting. This season Cadwallader signs a floral called "Marble and Roses." This print stimulates a marbleized black and white background against which stylized red roses are spaced in formal clusters. A recent success is his carnation print. Here, long-stemmed red carnations are seemingly flung into a background of pure white silk. Used and simply handled by dress-designer Pauline Trigere, this print, which rules style interference out of the print picture, makes one of the aristocrats of her summer collection.

As simply styled by Hattie Carnegie is the famous morning glory print, which is as far removed from the seed-catalogue variety as a Renoir painting is from a Christmas calendar. In this print Cadwallader proves that a textile designer can use tastefully as many as eight colors, if they're matched and mixed. He shows his sense of humor by tussling in among the glories some caterpillars, beetles and ants.

With another famous motif—"the eye," made up by Hattie Carnegie in a simple lace-trimmed jacket dress—Cadwallader shows what he likes in "conversation prints." "The eye" is a stylized human eye, reminiscent of Salvador Dali, used in a massed polka-dotted design of black and white.

UNDERGOES MEDICAL AID

Mrs. B. C. Cook left Friday to undergo medical treatment in a Fort Worth hospital. She is the mother of Mrs. Jim Cadenhead.

Merle Ione Scott Will Be Wed To Clifford Rebbing

Mr. and Mrs. H. T. Scott announced the engagement and approaching marriage of their daughter, Merle Ione Scott, to Clifford L. Rebbing of St. Louis, Mo., at an entertainment Friday evening at their home, 500 East Florida.

Entertaining rooms were attractively decorated with arrangements of spring flowers. The dining table was centered with a crystal chandelier which was surrounded with colorful miniature bouquets of flowers which were presented as favors. Napkins bore the names of the betrothed couple who will be married in rites to be solemnized August 21 in the First Presbyterian Church of Midland.

Tapers were on either side of the punch bowl and also flanked the cake which was on the buffet.

Green and pink predominated in the floral arrangements and other table appointments.

Guests calling during the evening were Mr. and Mrs. C. J. Kerth, Mr. and Mrs. Bob Burrows, Mr. and Mrs. Benny Cecil, Maxine Pitzer, Charlene Wood, Marguerite Lee, Margaret Haney, Lois Lynch, Mrs. Alice Paddock, Mrs. Elizabeth Wright, Mrs. Ella Ragsdale, Mrs. Stickney, Veet N. Rice, and Robert E. Lee.

Nelrose Horton And James Griswold To Be Wed In Corpus Christi

Miss Nelrose Horton, granddaughter of Mr. and Mrs. I. R. Clements of 314 Jones Avenue, Peary Place, Corpus Christi, Texas, will become the bride of Pharmacist Mate Third Class James A. Griswold, USNR, son of Mr. and Mrs. E. H. Griswold, 1000 North A, Midland.

The marriage will be solemnized at 7 p. m. August 2 at the South Bluff Methodist Church with the Rev. L. L. Roloff, pastor of the Park Avenue Baptist Church, officiating.

Pharmacist Mate Griswold is now stationed at the U. S. Naval Hospital in Corpus Christi.

Wiener Roast Is Planned By Young People Of First Methodist Church

A wiener roast has been planned by the Senior and Young People's departments of the First Methodist Church. The group will meet at the church at 6:30 p. m. Friday before going to the sand hills. Jean Richards is in charge of arrangements for the entertainment.

Mrs. Messick Gives Methods To Be Used In Removing Stains

Summer garments that hang unworn in the closet because of underarm perspiration stains, sometimes can be reclaimed. Often the stain can be removed by washing or by cleaning, Mrs. Nettie B. Messick, county agent, reported.

hold it for a few minutes over the fumes from a bottle of ammonia water, and for cotton, linen, and other materials that do not water-spot, dilute the ammonia water to half strength, apply a few drops directly to the stain, and rinse thoroughly. Ammonia water affects

some dyes, so have white vinegar handy to stop the action of the alkali if the fabric begins to change color.

Stains that have been allowed to "set" for a few days may become alkaline. Mrs. Messick recommends the use of vinegar when an old stain fails to respond to the ammonia water treatment. Sponging with vinegar sometimes restores color, though an old stain is more difficult to remove than a fresh one.

Yellow perspiration stains on white material will sometimes vanish when bleached in the sun after washing with soap and water. For stubborn stains, sponge with hydrogen peroxide or dip the stained spot into a solution of two teaspoons sodium hydrosulfite to one pint of water, and rinse immediately. "Test the cloth for colorfastness to this bleach before using," the agent said.

Winkler County Club Plans Watermelon Feast

KERMIT—Stockholders of Winkler County Country Club, totaling 175, are being invited to a watermelon feast Wednesday night and the invitations ask that all be present early enough to look over the nine-hole golf course which is under construction, and to see what is being accomplished on other projects.

Directors of the club planned the melon feed while in a called meeting this week, when they reviewed the work already done at the club site, and estimated costs for completion of the irrigation system, the swimming pool, and converting recently purchased buildings into a temporary club building.

MISS PRUDIE WOODWARD GOES TO SAN ANTONIO

Miss Prudie Woodward, who has been with the Stanolind Oil & Gas Company in Midland since Sept. 1, 1936, is being transferred to the San Antonio office and will assume duties there August 1.

Kermit Personals Briefly Told

KERMIT—Mr. and Mrs. Kenneth Burrows and family are spending a two weeks' vacation in Colorado.

Frank Dickerson, pharmacist, who is to be associated with L-B Drug, is in charge of the prescription department of the drug store while Burrows is away.

Mr. and Mrs. Art Skaer are on a vacation trip to a ranch near Silver City. Skaer is manager of the local Mid-Continent Supply office, and Mrs. Skaer is employed with Willott-Waldron Abstract Company.

Mr. and Mrs. W. M. McMurry are spending the weekend on a ranch 150 miles from El Paso.

The following officers have been elected by members of the local American Legion Auxiliary: Mrs. Irving Cole, president; Mrs. M. Fuller, vice-president; Mrs. W. G. Crowley, secretary; Mrs. S. H. Crumpton, treasurer; Mrs. Jack Kennedy, chaplain; Mrs. J. M. Hahn, historian; and Mrs. G. C. Olsen, sergeant-at-arms.

Mr. and Mrs. S. E. Burnett are spending the weekend visiting friends on a ranch near Sweetwater.

Mr. And Mrs. Roy McKee Leave For Estes Park To Attend Agency Meeting

Mr. and Mrs. Roy McKee left Saturday for Estes Park, Colo., where he will attend the Southwest Division of the Franklin Life Insurance Company's agency convention.

This is the first convention held by the company since 1942. Mr. McKee has qualified for the convention every year it has been held since he has been with the Franklin Life Insurance Company.

TO LEAVE FOR VACATION The Rev. and Mrs. Clyde Lindsley and children, Larry, Dwight, and Judy, will leave this week for a vacation trip to New Mexico, Colorado, and Mr. Lindsley's native state, Kansas. Mr. Lindsley will attend the International Convention for Disciples of Christ in Ohio August 6-11.

Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of liquid Barcinate (formerly called Barcol Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonsful twice a day. That's all there is to it.

Miss Ann Ulmer has returned from Abilene after visiting Pati Hunter, a classmate at Hockaday in Dallas. Miss Hunter accompanied Miss Ulmer home and will remain for a visit.

World crude oil production in 1946 is expected to be about 23 per cent greater than in 1941.

Fruits And Vegetables Keep Original Flavor In Quick Freezing

Quick freezing and storing in freezer lockers is the most desirable way to keep fruits and vegetables because more of the original flavor, texture, color and nutritional value of the fresh product is retained, according to Mrs. Nettie B. Messick, county home demonstration agent.

Blanch or steam all vegetables to the right stage for eating. Freezing does not improve, but will retain the quality. Wash well, drain, sort, trim and cut the vegetables as for eating or canning.

Blanch or steam all vegetables to the right stage for eating. Freezing does not improve, but will retain the quality. Wash well, drain, sort, trim and cut the vegetables as for eating or canning.

Lead In 'Junior Miss' Will Be Played By Mary K. Graham

The lead role in the Community Theater's production of "Junior Miss" will be played by Mary Katherine Graham. Curtain time for the two-night run will be at 8:15 p. m. July 25 and 26 at the City-County Auditorium.

Kermit To Play Host To Winter Convention

KERMIT—Kermit has been chosen as the host town for the mid-winter convention of the West Texas District Association of 20-30 clubs, according to Velford Lipham, governor of the West Texas district.

It is very important that the vegetables are not scalded too long because minerals, vitamins and flavor are destroyed. The immediate cooling stops the scalding action. Drain vegetables well after cooking. All food should be put in moisture-vapor-proof containers.

KERMIT—Kermit has been chosen as the host town for the mid-winter convention of the West Texas District Association of 20-30 clubs, according to Velford Lipham, governor of the West Texas district.

Students Asked To Call For Yearbooks

Students who have not received their high school yearbooks are urged to pick them up in the high school office as soon as possible, Harlan Howell, principal, said Saturday.

About 55 books remain to be distributed, he said.

County Agents Will Hold Radio Clinic

County agents from District 6 of West Texas will attend a two-day radio clinic in Midland Monday and Tuesday.

The clinic will be conducted by a field representative of the USDA radio service.

Tennessee originally was known as Franklin.

Animals Kept In City Cause Many Nuisance Reports

Complaints are coming into the Health Unit daily reporting nuisances created by the keeping of livestock, poultry, goats, rabbits, and other pets, M. Graham Smoot, acting director of the Midland City-County Health Unit, said Saturday. Many of the complaints could be avoided if the individuals concerned would observe a few basic principles in keeping lots and pens properly, Smoot pointed out.

City ordinances prohibits the keeping of hogs anywhere in the city limits or horses north of the railroad and west of Main Street. Animals and fowls anywhere in the city limits must be kept in such a manner that fly and mosquito breeding and rat feeding are avoided and so as not to create any other type of nuisance.

Films are naturally drawn to any area where animals and fowls are present and any filth will be where the fly will lay her eggs. Smoot pointed out that individuals who maintain livestock, poultry, goats, and other animals within the city limits owe it to the health of their own family as well as their neighbors to follow these rules:

1. Pick up all droppings daily and place in a covered receptacle. (An additional precaution against fly-breeding is to dissolve one pound of powdered borax in four gallons of water and use it at the rate of one quart per square foot of surface.)
2. Avoid dropping excess feed around feeding boxes because it attracts rats, and keep feed in rat-proof containers and place it in feed boxes carefully.
3. Use plenty of spray around sheds and pens. (With DDT spray use at least five per cent residual spray.)
4. See that watering places do not form mosquito breeding spots.
5. Make a daily inspection of the premises—avoid complaints being turned in concerning the premise.

COURT HOLDS 4 CASES

One child dependency case and three divorce cases were tried in 70th District Court in Midland for the week ending Saturday. No court is scheduled this week.

Congratulations To

Mr. and Mrs. Ben Weinstein of Houston on the birth July 14 of a son, weighing eight pounds and one ounce. Mrs. Weinstein is the former Frances Laughlin who taught in the Midland schools for several years.

Mr. and Mrs. J. E. Webb on the birth Wednesday of a daughter, Glenna Joy, weighing eight pounds and seven ounces.

Mr. and Mrs. C. J. Bosley on the birth Thursday of a daughter, Clenta Mae, weighing seven pounds and six ounces.

OZARKA WATER CO. welcomes these new arrivals. Phone 111 and a bottle of OZARKA will be delivered to you free.—Adv.

Politics Gets Hot In Winkler County

KERMIT—Winkler County's political pot, which has been rather lukewarm, is getting a bit hotter, and candidates, from precinct offices to the governorship are building the fires higher as they court voters in the county and district.

Winkler County is certain of having three new members in the official county family after January 1, including two county commissioners and a county attorney. G. C. Olsen, now serving as county attorney, has entered the race for district judge of 109th district, and two commissioners, L. B. Eddins of Wink, precinct 1, is seeking election as sheriff and tax assessor-collector, and W. K. Wharton, precinct 3, withdrew several weeks ago after announcing his reelection.

The two county races which probably are drawing the most attention from voters are the sheriff's race, and that for county attorney. F. E. Summers is asking reelection for the sheriff's berth, which also includes the duties of tax assessor-collector, and Eddins is asking for the same place. In the county attorney section W. T. Hair, local attorney, and H. L. Roberson are opposing candidates.

Seeking election for Wharton's county commissioner place are W. A. Townsend, S. H. Crumpton, Earl G. Smith, and I. C. Jarman. Names to appear on the Wink precinct include L. E. Franklin, Mack More, and Melvin Dow.

J. H. Meers is opposing incumbent E. M. Crutcher of precinct 3; J. A. Slaughter, asking reelection in precinct 4, has three opponents, including H. R. Horner, Jack Williams, and Ben Franklin.

Three holders of county-wide offices are unopposed for reelection, namely J. B. Salmon, county judge; J. W. Eisenwine, county and district clerk, and L. R. Tarver, county treasurer.

Other candidates and the positions sought are:

S. A. Bailey, justice of peace, precinct 2; F. W. Tollison, constable, precinct 2; B. F. Sandel (reelection), J. H. Holy and James L. Parker, justice of the peace, precinct 4; R. E. Lease, constable, precinct 4; H. L. Carr, precinct chairman No. 2, and Freeman Underwood, county surveyor.

AUTO PARTS BY AIR

Automobile manufacturers have been shipping scarce parts by air in recent months in order to keep production lines rolling.

Kermit Lions Plan Minstrel Show

KERMIT—Directors of Kermit Lions Club, in a called session, discussed plans for the activities of the club during the coming year, and reached a definite decision to hold a negro minstrel within the next few months.

Chairmen of all the committees are to be called together for a general discussion and laying out of the work program, according to Fred Pearson, president.

Charles Green, Chamber of Commerce manager, was named to direct the minstrel show, which is planned to be held annually.

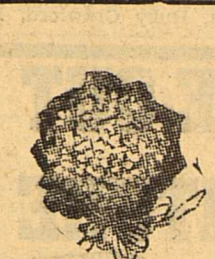

Milk Mixture for Stomach Ulcers

A recent medical discovery now used by doctors and hospitals everywhere has proven unusually successful in the treatment of stomach ulcers caused from excess acid. It is a harmless preparation yet so effective, in many cases the pains of stomach ulcers disappear almost immediately. Also recommended for gas pains, indigestion, heartburn due to hyperacidity. Sufferers may now try this at home by obtaining a bottle of LURIN from their druggist. LURIN contains this new discovery in its purest form. Easy to take, just mix two teaspoonsful in a half glass of milk. Costs but little. Must satisfy or money refunded. Lurin for sale by Midland Drug Co. and drug stores everywhere.

Volunteers Sought For Airborne Units

Master Sgt. James C. McNeil, Army recruiter, said Saturday that the recruiting service has been directed to make special efforts to obtain increased enlistments for airborne units.

Particular emphasis is being directed toward obtaining enlistments for the Eleventh Airborne Division in the Pacific theater and the 82nd Airborne Division, Zone of Interior. Enlistments for these divisions will be made for a three-year period only. Enlistments for airborne unassigned duty may be made for any period of time.

The enlistments do not carry a guarantee of service for any definite period of time in the area in which the unit for which the enlistment is made now is located. Continued assignment to airborne units will be contingent upon the individual's maintenance of the required qualifications for the unit.

McNeil is in Midland each Tuesday, Wednesday and Thursday, and may be contacted at the Selective Service office on the third floor of the courthouse.

For Committeeman, Voting Precinct No. 5

Citizens Urged To Exercise Privilege Of Voting Saturday

With only six days left before the July 27 Democratic primary, interest in county and precinct races is building up and the majority of voters are beginning to evidence interest in district and state races. The governor's race has drawn the most attention in recent weeks.

Candidates for several contested county and precinct offices are becoming more active, and this week is expected to see more of them contacting voters and handing out cards.

Civic organizations are urging that every eligible voter cast his ballot next Saturday.

"Do your duty and exercise your rights—vote!" is the keynote sounded, with the added plea, "Vote and vote intelligently."

Attention is directed by Democratic leaders to the proper method for marking the ballot, a reduced sample of which is printed at the left.

The ballot specifies that two persons are to be named for that place. All names in a race may be scratched if the voter so desires.

Don't Mutilate Ballots.

Absentee ballots may be voted if the voter will not be able for some justifiable reason to go to the polls Saturday. The ballots may be obtained from the county clerk. They must be voted by Wednesday, either in person in the office of the clerk, or by mail. If the ballots are mailed they must be postmarked not later than Wednesday. Absentee ballots will go to the election officials Thursday.

Voters are cautioned not to mark their ballots in any way except in the correct manner for voting. Mutilated ballots are thrown out and not counted.

Veterans may vote without presentation of poll tax or certificate if they meet requirements of age (21), and length of residence in the county (six months) and state (one year). If they are known to election officials they will not be contested; if unknown, they may be required to present a statement of eligibility. Few veterans are expected to be contested, however.

Midland County voting places:

Box 1: basement of the courthouse, with Mrs. Gladys Tolbert as judge.

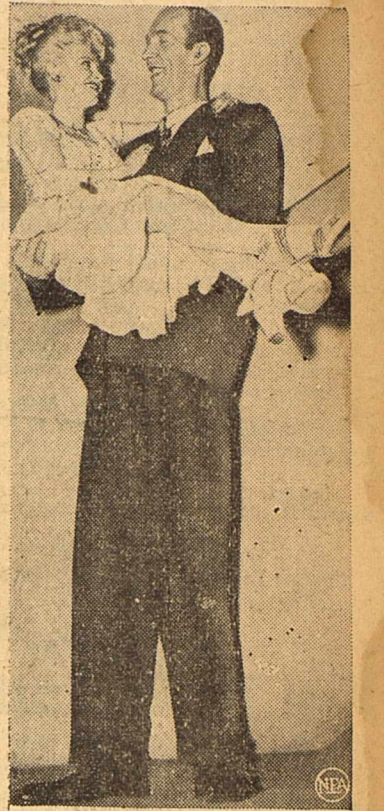

Box 2: Stokes Community; Oswald Ragget, judge.

Box 3: not yet announced.

Box 4: home of Mrs. Lee O. Manning, Warfield Community, Mrs. Manning, judge.

Box 5: City-County Auditorium; Ed. D. Richardson, judge.

Hi, Man!

Henry Hite of Atlanta, Ga., who claims his 7 feet, 9 inches make him the tallest living human, being, announces that henceforth he will eat only three meals each day, instead of his customary five, to help conserve food for starving Europeans. He's shown with his 5-foot, 3-inch wife.

Beards collect moisture, in freezing weather, leading to frostbite and colds.

Truman's Stump Plan Recalls Wilson's Tour

WASHINGTON —(P)—Democratic politicians forecast Saturday that if President Truman takes the stump this fall he and other party leaders will pick individual congressional contests rather than arrange a country-wide tour.

Associates said that so far as they know there is no thought in Truman's mind of trying to duplicate the grand tour of 1913 in which President Wilson carried his fight for off-year control of Congress to the people.

The Democrats lost control of Congress that year in a surge which carried the Republicans to full command of the national government in 1920. B. Carroll Reece, GOP national chairman, has marked this leaf in the political history books in concentrating 1946 Republican efforts on congressional races.

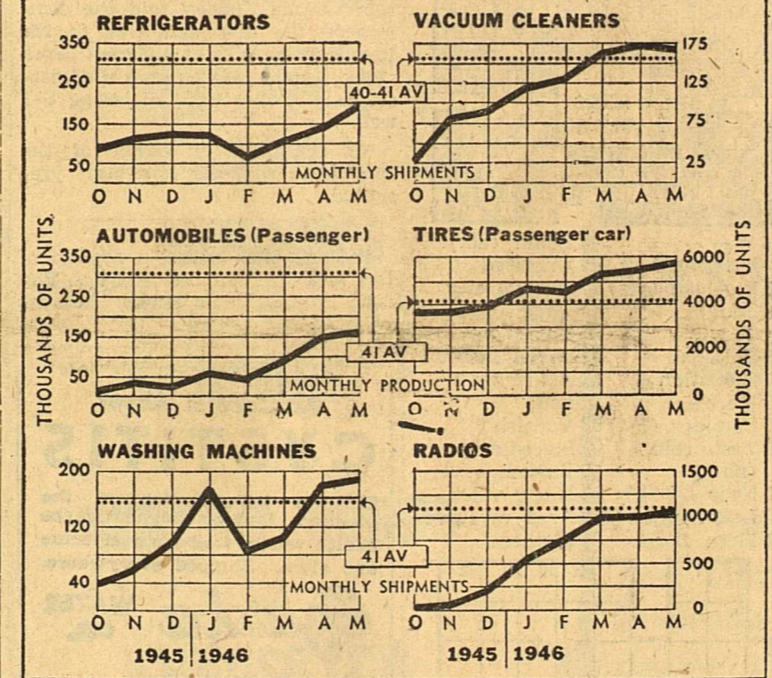

While Truman's personal political future thus may be at stake, he told his news conference Thursday no specific plans for a speaking tour had been made. He said he is willing to help out Democrats where he can.

He did not know whether he would speak in New York where Senator James Mead may be the Democratic nominee for governor in a contest with Gov. Thomas E. Dewey, the 1944 GOP presidential choice.

Some legislators, with the defeat of Senator Burton K. Wheeler fresh in mind, were not so sure that Presidential aid is the best political medicine.

Without reference to the Montana primary, Senator Elmer Thomas (D-Okla.) observed to a newsman that there is doubt in his mind whether any outsider—even the President—can influence the voters favorably for another candidate.

Trends In Supply Of Consumer Items

News charts above clearly show the uneven rise of postwar production in durable goods. Note that the categories where the 1940-41 average of production has been surpassed are the ones which have not been directly involved in major strikes. The auto industry, which was paralyzed by a long walkout, and refrigerator makers, stalled by lack of motors and other parts, are far behind the prewar level. Newscharts are based upon figures from Office of War Mobilization and Reconversion.

THIS STORY SOUNDS LIKE A LOTTA BULL

SLEAFORD, ENGLAND—(P)—Residents of this hamlet searched for two days through fields and woods for a missing three-quarter ton bull.

The bull finally was found atop a 60-foot tower of Kyme Castle. He had walked up a narrow starway and couldn't turn around to descend.

Ordered to back up, the bull wouldn't budge.

They tried to turn him around. Not enough room.

Farmers finally moved the bull into reverse by taps on the nose with a persuader. Reluctantly, he backed down the stairs.

Compliance With Food Ordinance Being Checked

H. R. Hancock and Rufus G. King of the bureau of food and drugs of the State Department of Health were in Midland this weekend to assist the City-County Health Unit in obtaining conformity of eating and drinking establishments with standard food ordinances recently passed by the city.

"The general level of sanitation here is much higher than it formerly was," Hancock said. "This has been accomplished by the work of the health departments in informing those concerned with the proper methods and by corrective steps by the general cooperation of the eating and drinking establishments, and by the intensive work of the state and national organizations in promoting better standards."

M. Graham Smoot, acting director of the City-County Health Unit, announced Saturday that permanent licenses for persons who have qualified for them through attendance at recent foodhandlers schools now are available at the health unit offices. All foodhandlers employed in eating and drinking establishments are required to have in their possession or in the place where they are employed either a temporary license or a permanent license, he said. Printed copies of city ordinances concerning health standards and requirements for foodhandlers licenses also are available at the unit.

Another foodhandlers school is scheduled to be held August 6-8, when persons employed in eating and drinking establishments may qualify for permanent licenses.

Officials Seize Four Illicit Liquor Stills

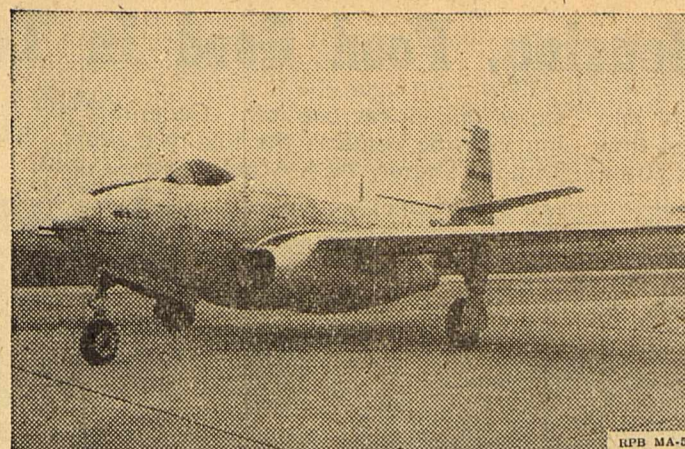

AUSTIN—(P)—Four illicit stills, two in Red River County and one each in Angelina and Marion counties, were seized last month by State Liquor Control Board inspectors, the board has announced.

Total cubic capacity of the four stills was 125 gallons and represented potential evasion of \$2,666 in state taxes. The inspectors seized 375 gallons of mash with the stills and made one arrest. One gallon of moonshine liquor was destroyed.

Liquor stamp sales accounted for \$889,401 of the total; beer stamps \$234,805; malt liquor stamps \$33,232; wine stamps \$42,261; prescription stamps \$45; permits and licenses \$43,687; confiscated sales \$16,844; and miscellaneous \$1,183.

International bridge collections were the following: El Paso, \$7,185; Laredo, \$8,609; Hidalgo, \$5,119; Thayer, \$728; Brownsville, \$5,167; Del Rio, \$778; and Eagle Pass, \$1,333.

Long-Range Jet Plane Latest Addition to AAF

The XP-83, shown above, combines long range and speed in excess of 500 miles an hour. It is also capable of flying at extremely high altitudes. This jet-propelled plane is manned by men of the Regular Army Air Forces. Young men with young ideas may now avail themselves of the finest technical schools by enlisting in the Regular Army. Qualified civilians, 17 to 34 years of age, inclusive, may become "Guardians of Victory."

Anthallan: A New Drug, Spells New Hope For Many Hay Fever Victims

By S. BURTON HEATH
(Copyright, 1946, by NEA Service)

NEW YORK—New hope is offered to some five million Americans, who suffer from various forms of "hay fever," by the drug Anthallan, which a refugee German scientist has developed after more than 25 years of effort, until now it is ready for general distribution in the near future.

Ordinarily six pills a day for a three-week period has brought persisting relief to a vast majority of those who have been privileged to use the new drug during its testing period. There are no injections.

Anthallan is the ninth in a series of chemical compounds that resulted from the curiosity of Dr. W. S. Loewe, now of the University of Utah, when he found that a synthetic substance did not react as he thought it would.

Carefully controlled clinical studies have indicated that Anthallan is beneficial not only for those seasonal types of "hay fever" that are caused by pollens, plant dust,

etc., but also for the year-around sufferers who are allergic to dusts, foods and other stimuli that know no seasons. It helps also in the case of asthma that is attributable to allergies.

A report on the hay fever tests, by Drs. Alexander D. Ghiselin, Jr., and John D. Kernan, of the Vanderbilt Clinic, appears in the June issue of the Bulletin of the New York Academy of Medicine.

Other tests, not yet released for publication, indicate that Anthallan is effective for dermatological disorders like hives, allergic eczemas and the like.

The studies by Drs. Ghiselin and Kernan show that of a group of carefully selected patients treated with Anthallan, at the end of the treatment period, 37 per cent showed complete recovery, 41 per cent showed 70 to 99 per cent improvement, 11 per cent showed 25 to 69 per cent improvement, nine per cent showed less than 25 per cent benefit.

The whole group averaged 73 per cent benefit by its members' own statements and 75 per cent by the doctors' estimates, taking physical indications into account.

Drs. Ghiselin and Kernan say that Anthallan differs from other "hay fever" remedies in two major respects that are of interest to victims of allergies:

1. It attacks the cause rather than merely the symptoms. Therefore it benefits persist after treatment has stopped. The duration of the benefit varies, and its limit is not known. Some patients treated two years ago have not yet suffered further recurrence of their hay fever. In re-examination about two months after treatment stopped, the doctors found that the full benefit persisted in about 70 per cent of cases, and in none had there been a complete relapse.

2. Anthallan is taken by mouth—as a pill—rather than by injection. It can be taken at home. It should be taken only under a physician's direction. But the patient need visit the doctor only often enough so that he can check upon the drug's effects and the progress of the cure.

To these, Dr. Ghiselin adds a third point. Anthallan can be administered at once without waiting to determine the nature of the patient's allergy. In most cases it proves effective. If it should not, in a particular instance, there still is opportunity for the long series of tests to try to isolate the victim's particular allergy and find a specific vaccine for it.

Normally the benefits of Anthallan appear inside the first week, though Dr. Ghiselin says that in a few cases relief came only after as much as three weeks of treatment. The normal duration of medication is three weeks.

When the United States was first established, there was no money in the federal treasury and no machinery for collecting taxes, no judiciary, no court system and no means of enforcing federal law.

Yanks' Wives Find Housing, Food Good In Tokyo

Army wives who arrived in Japan with their children recently, to join husbands on duty there, found housing difficult and soon learned that the best places went to higher ranks. But food is abundant in Army

stores and prices are low. Generally, life is comfortable, though lacking in some respects the luxury aspects. These pictures were made by Tom L. Shafer, NEA-Acme correspondent.

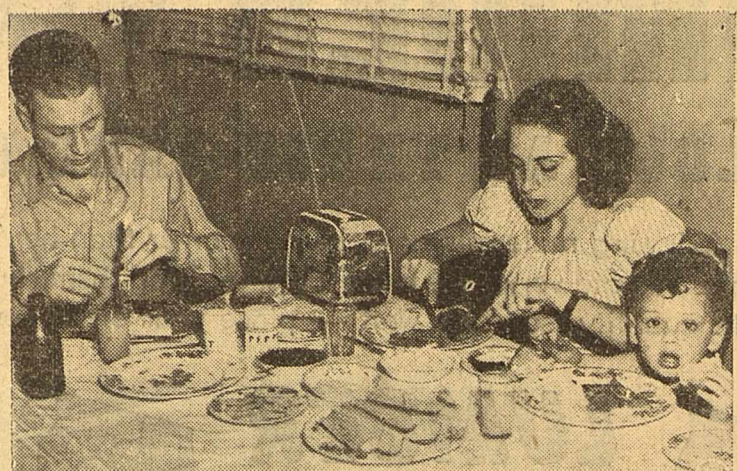

"Palace Heights," a new quonset hut development overlooking the Imperial Palace grounds, houses captains, lieutenants and enlisted men who have brought their families to Tokyo. Only a few of the buildings have modern improvements, bathing facilities being provided in separate huts.

Housing in Tokyo depends upon rank. The house above is occupied by a colonel and his family. It has seven rooms, complete with servants' quarters. A lieutenant-colonel will do almost as well, and a major probably will settle in a well-furnished apartment.

Food is plentiful at low prices in the Tokyo Officers' Sales Store. Sgt. William R. Smith of Louisville, Ky., left above, is displaying some chickens to 1st Lt. James L. Liddington and his wife of Alexandria, Va. Note the signs and prices in background.

Capt. Mike B. Davis of Santa Barbara, Calif., his wife, Andriana, formerly of Brooklyn, and their son, Michael Kim, lunch, comfortably in their quonset hut home. Wives of soldiers complain about the lack of housing but applaud an abundance of food and "under ceiling prices."

Adaptability and imagination in decorations and furnishings are prerequisites for life in a quonset hut. Mrs. Davis seems to have done well with her little home, above. Michael Kim looks on interestedly as his mother pretties up in their home in "Palace Heights."

Woman Boss Of Saratoga Ready For Re-Opening

SARATOGA SPRINGS, N. Y.—(AP)—Convent-bred, merry-voiced Mrs. Annie Murphy Clare expects her diary to become "more interesting" this summer at stylish Saratoga.

It has been "comparatively dull" the past three years, she concedes. Now she again anticipates exciting entries similar to such prewar passages as:

"Today Whirlaway arrived . . ."
Cr: "Bimelech is coming to Saratoga."

Mrs. Clare, a handsome Irish-woman, is superintendent of Saratoga's renowned race track, the only woman chief of a major racing plant in the country. She's directing a staff of 71 men getting the expensive layout primed and prettied for its 24-day meeting, August 5-31, the first since 1942, when war intervened.

"It will be wonderful to have racing again at Saratoga," she says. "It's the nicest place in the world for it."

She has been Saratoga superintendent since 1940, succeeding her late husband, Tom Clare, who had supervised the track 16 years before his death.

Anne Clare, born in New York City, has been interested in racing "since I was a little girl and my father brought me to Saratoga." She had assisted her husband since their 1927 marriage and took over the entire burden when he died in 1940.

Two Air Force Veterans File Discharge Papers

Two Army Air Force veterans filed discharge papers Friday at the county clerk's office.

They were John F. Mitchell, who was a flight officer and glider pilot, and Bobby J. Tidmore, who was a corporal and clerk typist. He was overseas in the Pacific and won two Bronze Battle Stars and a Distinguished Unit Citation.

GEOPHYSICISTS MOVE HEADQUARTERS TO TULSA

TULSA, OKLA.—(AP)—President J. J. Jakosky of Los Angeles has announced that the headquarters of the Society of Exploration Geophysicists will be moved to Tulsa from Hamilton, Texas.

FILIPINO PROPOSES TAX ON BACHELORS

MANILA—(AP)—An annual tax of 10 pesos (\$5) on bachelors has been proposed in the Philippine congress by Rep. Manuel Cases, unmarried himself. He suggested the levy on unmarried men and childless widowers between the ages of 30 and 50, exempting diplomats and members of the U. S. armed forces.

ELECT NEW OFFICERS CHILDRESS

CHILDRESS—(AP)—Node Loter was elected president of Childress County's Old Settlers Association at the end of the 58th anniversary celebration here.

Other officers include Mrs. Patti Woods, vice president, and Mrs. Ida Taylor, secretary treasurer.

Margaret O'Brien Takes Up Lipstick—Still Plays Jacks

By BOB THOMAS

HOLLYWOOD—(AP)—As it must with all child stars, Margaret O'Brien is growing up.

When a movie moppet reaches an advanced age (Margaret is all of nine), she begins to abandon her wide-eyed ways and adopt some glamor. That's what's happening to Margaret.

When I saw her on the set of "Ballerina" she was sporting her first permanent wave. And she was wearing lipstick and a little bit of rouge. She is playing the title role in the film and even her mother expressed surprise at her ability as a dancer.

Margaret interrupted proceedings to announce: "I'm giving up acting—I want to be a dancer." She didn't explain whether the permanent, lipstick and rouge had anything to do with her decision.

Mrs. O'Brien confided that her daughter is beginning to show signs of concern about her career. When the waitress brought her lunch, Margaret looked at her mother and asked: "Is this fattening?" Also, Mrs. O'Brien said Mag has given up her breakfast toast. Too many calories.

I was about to exclaim "What is Hollywood coming to?" when I chanced to gaze in Margaret's dressing room. There she was with another little girl—playing jacks!

Alleys Of City Will Be Sprayed Again This Week

Alleys in Midland will get another treatment of DDT this week as the city, the City-County Health Unit, and the Junior Chamber of Commerce continue their joint clean-up campaign. The city is supplying the labor and equipment for the spraying, and the DDT to be used is part of the supply purchased by the Jay-Cees for a similar campaign several weeks ago.

The Jay-Cees have authorized the purchase of additional DDT to continue the work.

M. Graham Smoot, acting director of the health unit, said Saturday that if residents will spray DDT on their premises, paint screens with the solution, and spray garbage cans regularly they will help make a complete job of the cleanup campaign. All areas where flies, mosquitoes and rats might breed should be treated thoroughly, he said.

Midland citizens are asked to clean up their alleys to aid in making the spraying effective.

Brandy is supposed to have been introduced into France from Italy in 1533 at Catherine de Medicis' wedding.

Dirt, Squirt And Quirt

— FARM, DAIRY AND RANCH NEWS —

Jim Withers, field man for the Production Credit Association of Houston, has resigned his position effective July 25. Many farmers and ranchers in this area know Jim, as he has worked in this section of the state for several years. Jim says he will continue to live in San Angelo.

Jack Smith and J. B. Pettit of Rankin were in Midland last week. They ranch down in the northern part of Upton County.

G. W. Barnes, livestock specialist with the Texas Extension Service, was in Midland last week visiting with the county agent. Barnes visited some of the 4-H Club boys' feeding demonstrations.

Dr. E. A. Grist, veterinarian for the Texas A&M College Extension Service, says that the season is at hand for "sleeping sickness" in horses. Peak months for the disease are July, August, September and October. Too often, farmers and stockmen wait until the disease becomes an epidemic before they vaccinate and then it is too late. Grist says that there are two types of the disease found in Texas, the Eastern type which is fatal in 80 to 90 per cent of the cases, and the Western type, which is fatal in only 20 to 30 per cent of the cases. The main thing is to vaccinate horses now for sleeping sickness. It's just good insurance.

With the small supply of calcium arsenate available at present, other insecticides will probably be needed to fight the cotton flea hoppers. Charles A. King, Jr., acting entomologist for the Texas A&M College Extension Service, says that a recent test using a DDT-sulphur mixture gave excellent control of the cotton flea hopper where there was a heavy infestation. Sulphur alone gave good results in a light to medium infestation. For economical control of the hopper, it is essential to examine cotton to ascertain the numbers of the insects present. Applications of from 12 to 15 pounds of sulphur per acre are sufficient to control light or medium infestations, while a five per cent DDT-sulphur is recommended for heavy infestations. The first application of sulphur alone should be made when from 15 to 25 hoppers are found on 100 cotton terminals. If the infestation rapidly increases due to the adults' migrating in, or if it reaches high numbers before being discovered, the DDT-sulphur mixture should be used to stop the damage as quickly as possible.

The Midland livestock auction had a run of between 700 and 800 cattle last week with the market fairly active but lower than the week previous. Killing calves brought 13.50 to 16.00, stocker calves quotable at 15.00; canner and cutters brought from 6.50 to 12.00 as no outstanding cows were offered. Low grade butcher yearlings sold from 10.00 to 12.00 with a few higher. Bulls brought from 9.00 to 13.50, there being no good heavy bulls offered. Cows and calves sold by the pair from 60.00 to 110.00 per pair. No cows with big calves were on the market. One package of horned two-year-old steers sold in the 12.00 bracket.

Out of town consignors included: J. B. Calverley, Cecil Wilkerson, Son Powell and W. H. Underwood of Garden City; Hence Barrow and K. E. Newell of Odessa; Roscoe Hazelwood, Johnny Sherman, Martin Gonzales, George Lewis and E. F. Ward of Stanton; H. R. Doty, M. M. Mathis and Tom Haislip of Andrews; Ed Garnett of Brownfield and W. T. Thomas of McCamey.

Don Elliott recently accepted a position as bookkeeper with the Midland Production Credit Association.

With all the letters of the alphabet being used by the various governmental agencies, one of the most well known to the farmers and ranchmen, the AAA, has been changed to the PMA (Production Marketing Administration). Administrator Shields, of the PMA announces that the State AAA committees have been designated State PMA committees. Hereafter an endeavor will be made to appoint to the committees farm producers with definite experience in other phases of agricultural operations, such as distribution, marketing, and processing of farm products. The five members of the Texas State PMA committee are B. E. Vance, College Station; George Slaughter, Wharton; Victor L. Cade, Lubbock; Howard T. Kingsberry, Santa Anna, and Romeo M. Korth, Electro; with Vance as director. Committeemen for Midland County are W. E. Pigg, Terry Elkins and Dwight McDonald.

Two Midland County 4-H Club boys are planning to attend the annual short course held at College Station the latter part of August. The records turned in by these boys on their last year's feeding demonstrations will be a big factor in the selection of the two who will attend the meeting.

Some reports of finding stomach worms in cattle have been heard among the cattlemen in this area. This has long been a topic for debate among many cattlemen. Some say that stomach worms in cattle, especially calves, cause them to be unthrifty and make small if any gains. Some work is being carried on in this field now and maybe the experimental boys will be able to give the answer.

Willys Woody, who farms and ranches in the northwestern section

of Glasscock County, says that he has sold most of his registered Rambouillet sheep, keeping only some yearling ewes. Willys says that he will have some of these ewes at the livestock show in Midland next spring.

Fish Pollard, another old timer who moved away, was in Midland the other day and reports the country around Fort Sumner, N. M., is getting pretty dry. Fish is in the abstract business at Fort Sumner.

STUDYING THE EARTH

A prominent geologist remarks that "it is self-evident that a study of the earth is fundamental to the enjoyment thereof." We agree. And we know of no better way to study it than on a quiet afternoon, under the shade of a tree and on the banks of a creek with a fish pole along to prove that we are there on business and not just fiddling away our time.

CIO Makes Plea For Labor-Industry Meet As Warning To Help Save OPA

By JAMES MARLOW

WASHINGTON —(AP)—Some of the CIO program for preventing inflation is clear, and the timing is obvious. But it isn't all clear.

This is clear: The CIO says there is a "demand and need for immediate wage increases." So it wants raises.

The reason: The CIO says living costs have gone up since the big CIO unions signed their contracts giving them wage increases a few months ago.

Up how much? The CIO says living costs have gone up 40 per cent in two months.

But this isn't clear: The CIO wants President Truman right now to call a conference of labor and industry and for a double reason:

1. To give "full and official recognition" to labor's demand for wage increases.

2. To set up "adequate guarantees for a stabilized national economy."

Right there the CIO program isn't clear.

How can an employer-labor conference, even though the government takes part in it, guarantee any kind of stabilized economy when:

1. There may be no OPA. With-

out an OPA, the government can't hold prices.

2. Manufacturers, the big em-

ployers of organized labor, are the ones who told Congress they want no controls on their products.

Without price control, there hardly can be a "guarantee" from anyone that prices and wages will be held even.

Even with price control during the war and up until last June 30, prices and wages went up.

The manufacturers told Congress an end of price control on their stuff would encourage them to produce more goods.

They said prices would go up but that when production was in full swing prices would come down.

Don't Say When, How Much

They didn't attempt to say how high prices would go or just when they'd start coming down.

Suppose at a labor-industry conference the employers agreed that:

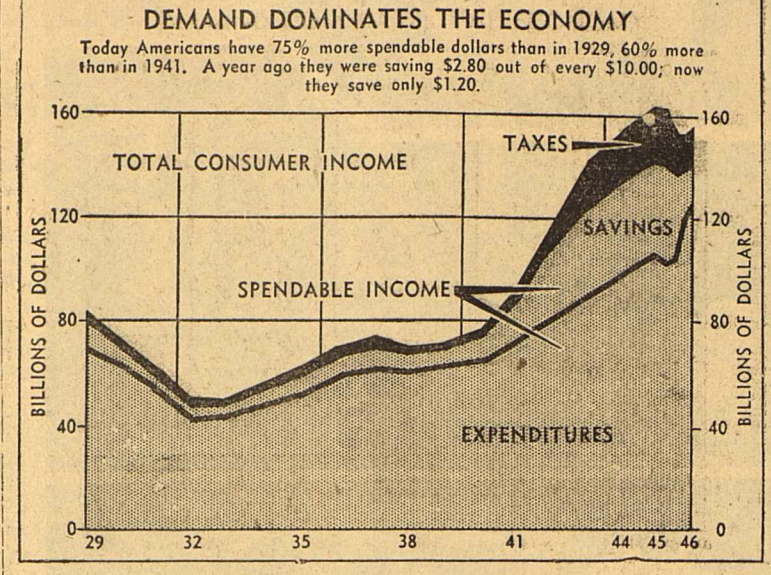

1. Prices, and living costs, have gone way up since organized labor got its raises a few months ago.

2. Therefore, labor is entitled to another raise now.

If employers agreed to that, wouldn't they then want to raise prices to make up for the new wage increase, thus keeping wages and prices unbalanced.

But the timing of this CIO statement is something to think about. It comes just when Congress is on the last lap of turning out an OPA

Indication of the tremendous pressure on U. S. economy of today's greatly expanded buying power is the Newschart above. Although a higher cost of living levels off to some extent the rise in income, the buying power of the U. S. nevertheless is expanded to the extent that it dominates the nation's economy. Newschart is based upon figures from the Office of War Mobilization and Reconversion.

Indication of the tremendous pressure on U. S. economy of today's greatly expanded buying power is the Newschart above. Although a higher cost of living levels off to some extent the rise in income, the buying power of the U. S. nevertheless is expanded to the extent that it dominates the nation's economy. Newschart is based upon figures from the Office of War Mobilization and Reconversion.

TO TEST PERFORMANCE

A new development is the "knockometer," a machine that will evaluate motor and fuel performance, that is, how the motor digests the fuel. It not only supplies an octane rating for fuels, but tells under what conditions an engine will knock with a given fuel, how much it knocks, and gives a record of knock characteristics at various speed levels.

bill, a bill which right now seems pretty weak.

So the CIO statement can be interpreted as a warning to Congress to turn out a strong OPA—or there's danger ahead. This is borne out by other parts of the CIO statement, all clear:

1. It calls upon Congress "in a final plea" to produce a workable OPA.

2. If Congress turns out an OPA which makes a "sham or pretense of price control," the CIO wants President Truman to veto it.

3. The CIO wants the voters to know which congressmen weakened OPA, or scuttled it, and take it out on them in the congressional elections.

4. It wants the people of this country to go on a buyers' strike to halt rising prices.

Measure To Settle Cimarron Dispute OKed

WASHINGTON —(AP)— Legislation settling land ownership disputes in the Cimarron territory along the Texas-Oklahoma border has been approved by the Senate Public Lands Committee.

Under the bill, already passed by the House, the secretary of the interior will issue patents to the land at \$1.25 an acre to those who have lived there for 20 years or more.

Involved is a triangular tract now in Oklahoma containing 4,900 acres. Survey discrepancies caused the confusion.

DIVIDED FEELINGS

This is the season of the year when the neighborhood filling station operator is a man of mixed emotions. He knows he's going to do a nice piece of business fixing up your car for that vacation trip—even some new tires, maybe, if he can get 'em. But then you'll be gone for a couple of weeks, dad gum it, and his station isn't on wheels.

Europe in frantic for cars and trucks, the Netherlands, for example, having only 30,000 today as compared with 100,000 before the war.

FARM SAFETY WEEK STARTS SUNDAY— Elimination Of Hazards On Farms Urged During National Campaign

(Editor's note: The following story has been prepared by the Martin-Howard Soil Conservation District in observation of National Farm Safety Week, starting Sunday.)

Death takes no holiday on the farm. Of all occupations, farming has the highest accident rate, because of the wide variety of tasks involved and the serious accident hazards present.

Picture a laughing little girl riding on a tractor with her father. In a few moments she is lying on the ground with her yellow curls drenched in blood after a disk plow passed over her small body.

Or watch a happy scene as two small boys playing around a farm home discover a 22 rifle. What fun it is to point the gun and pull the trigger! Yet suddenly one has fallen with a bullet through his head. You say it can't happen here? Maybe yes, maybe no, but death takes no holiday and plays no favorites.

These are only two of the many

hazards to be found on the farm, affecting the life and safety of farmers and farm families.

Farm Casualties High
The loss of life from accidents on farms is 25 per cent of all accidental deaths in the United States. Twenty-five per cent of all home accidental deaths occur in farm homes.

An analysis of the farm work accidental deaths shows 30 per cent happened while working with farm machinery, 24 per cent with livestock, 12 per cent by falls, seven per cent from excessive heat, and the balance of persons were killed by lightning, burns, explosions and various other ways.

For the third successive year, a National Farm Safety Week has been proclaimed by the President and endorsed by the secretary of agriculture. This year the Farm Safety Week is July 21 through July 27. The supervisors of the Martin-Howard Soil Conservation District commend the farm safety program and urge all district co-operators to lend their support to the movement for elimination of accident hazards on the farm.

The tragedy accompanying preventable accidents is no matter to pass over lightly. Remember, death takes no holiday on the farm.

Throwing the Bull—Out

Parisians who flock to Vel'D'Hiv Arena to see Paris' first bullfight since war see lots of bull but little fight. Beasts seem to know French law prevents killing, so thoroughly enjoy themselves that they refuse to leave at end of turns. These exclusive pictures show what happens at bullfight when bull doesn't want to get back into stall. Top, assorted fighters and assistants get rope around horns, the idea being to drag bull into stall. Middle, excited Spanish professional waves red cape to get bull to charge—right into stall. No dice. Bottom, completely overpowered by two dozen strong men, bull is finally pushed, kicked and dragged away.

Acclaimed By Horsemen, Assault To Enter Arlington

By FRANK ECK
NEW YORK—(AP)—He may not be a Whirlaway or a Count Fleet in his winning habits, but veteran horsemen see in Assault the greatest money-winning colt of all time.

In these days of rich purses Assault should have little difficulty in eclipsing Whirlaway's mark of \$561,161. Longtail compiled his record earnings by winning 32 races in 60 starts over a period of five years.

Assault, the King Ranch color-bearer with the malformed right forefoot, is fifth among the nation's money winners with \$200,000 less than Whirlaway's earnings. Assault's account, however, was compiled in less than two seasons.

The three-year-old chestnut, the seventh Triple Crown winner in turf history, has enriched his Texas owner, Robert J. Kleberg, \$356,970 by scoring in eight of 16 starts.

Assault won only \$17,150 last year. He earned the bulk of his booty this spring, winning six of seven

races. He began with the Experimental No. 1 at Jamaica and less than two weeks later won the Wood Memorial.

The only test he lost was the mile Derby Trial at Churchill Downs. It rained for a week and Assault didn't like the mud. Four days later he came back a galloping eight-lengths victor in the Derby and followed this with triumphs in the Preakness, Belmont and Dwyer.

Trainer Max Hirsch, a shrewd man with a horse, feels that Assault can pass Whirlaway's mark. However, Hirsch, who saddled Assault's sire, Bold Venture, 1936 Derby winner, will not barnstorm the latest terror of the turf.

"It looks like Assault could pass Whirlaway this season," says Hirsch, "but we're taking no chances. He's wonderfully made though not as heavy as Bold Venture. I'd say he weighs about 975 pounds."

"We passed up the \$50,000 Empire City and will run in the Arlington Classic (\$60,000) in Chicago on July 27. After that I don't know. We're taking one race at a time. If he's a sound horse next year we'll race him. But the horse comes first. When Assault retires we want a sound horse for breeding purposes."

About That Hoof
Assault's much discussed hoof was injured when he picked up a nail as a yearling. The deformity is comparable to an injured toe nail which doesn't grow properly.

The hoof is narrower than a normal one and instead of being smooth and straight is slightly concave and ridged in front.

"I've never seen anything like it," says Trainer Hirsch. "I don't know whether it hurts him; he gallops as though it might."

Then the man who has 33 horses under his care at Belmont Park lifted the hoof and pointed out a dwarfed malformed frog.

"A horse needs that frog for a cushion against the shock of his weight when he runs," said the amiable conditioner. He then picked up the other front leg and pointed out the normal frog. You could easily see the difference.

The veteran trainer then walked

Industry, Post-War Travel Keep Demand High On Texas' 104,192 Oil Wells In 1,074 Fields

By BO BYERS

AUSTIN—(AP)—Oil, the black liquid gold which some historians say has put Texas a quarter of a century ahead of the economic and cultural development it might otherwise have expected, is still a product in popular demand despite the end of wartime requirements.

During the war years, the need for oil placed the greatest stress on crude reserves in the history of both the nation and Texas.

Yet today's demands nearly one year after the end of the war are near that of the war-time peak, says Ernest C. Thompson, of the Texas Railroad Commission.

This year's production order for June allowed production of 2,293,092 barrels daily, the highest peak in history and 20,000 barrels higher than the top wartime allowable of 2,270,000 barrels in July, 1945.

However, the allowable has now dropped back to 2,164,526 barrels for August, apparently in line with Thompson's belief that demand is still slightly less than the wartime maximum.

Why Big Demand?

Simply put, the answer lies in the conversion to peacetime industry and the cry of travel-conscious Americans for gasoline with which to tour the country.

What has been the effect of the first postwar year on Texas oil production and on the policy of the Railroad Commission?

Production has remained high. Policy remains the same, indicated Thompson, the commission's essential purposes being to provide all the oil that is needed and to insure the operation of Texas oil fields at their most efficient rates.

The commissioner recently pointed out that the MER (maximum efficient rate) system, whereby bottom hole pressure is kept constant by increasing or reducing the oil flow rate, is the commission's method of conservation and waste prevention control in the major oil fields.

What are the future prospects of oil?

Thompson believes Texas oil business will stride forward if price controls are not restored on petroleum products.

Though Texas fields are producing in excess of current demand, we must look at the long-range picture in which new fields and more wells will be needed as present sources of oil are depleted, he says.

Observers of the oil situation declare that operators are holding

back on drilling and on production because of the current price of oil, which they describe as too low.

\$1.30 Is General Price
Today's generally accepted price is \$1.30 per barrel for crude, the government-controlled figure during the war, said Thompson.

He predicts that the incentive of a free price market will promote exploration and discovery of the new fields which he considers essential to the future success of the petroleum industry.

A check of Railroad Commission statistics shows 1,074 oil fields and 104,192 oil wells in Texas as of July 6 this year.

The total oil field acreage proven productive in the state is estimated to be 2,325,000 acres.

Total Texas production from the beginning of the war to June 1 was 9,904,395,355 barrels.

The state's estimated reserve as of January 1 this year was 11,740,651,000 barrels, or 55.7 per cent of the nation's reserve.

Exploration activity in recent months has continued in virtually all parts of the state, the four main areas being West Texas, East Texas, North Texas and the upper and lower Gulf Coast.

The East Texas oil field, the "big gun" brought in by Wildcatter C. M. (Dad) Joiner in October, 1940, had a total production of 2,222,749,872 barrels from the war's beginning to June 1, commission records show.

The estimated reserve on January 1 was 2,673,496,000 barrels.

Original proven productive acreage in the East Texas field was estimated at 1,333,000 acres, and of this number, 3,650 acres have been

abandoned or drowned out by water. The total number of East Texas wells abandoned to date is 3,700. East Texas' producing wells as of July 6 totaled 23,633.

Midland Geologist Tells Of Three Months On Bahama Islands Seeking New Oil Discovery

Rex McFall, geologist for the Superior Oil Company, has returned to Midland after spending three months in the Bahamas Islands as part of a crew drilling in an effort to bring in a discovery oil well in that chain of British islands 190 miles northeast of Miami, Fla. McFall was one of three Midland men working on the wildcat project in the islands made famous by the governorship of the Duke of Windsor. Bill Barry, mud engineer, is still on the island project, and Jack Taylor, toolpusher, like McFall, has returned to the United States.

Although the Bahamas Oil Company, a subsidiary of Superior Oil, is the only company drilling in the Bahamas, five other companies have bought concessions in the islands and are watching the project, McFall reported.

The spudding-off ceremony, performed April 24, was highlighted when the governor of the islands, Sir Harry Murphy, opened the throttle and let off the brake. The only witnesses at the ceremony besides oil men were members of the House of Assembly which was flown to Andros Island, 40 miles from Nassau, capital of the Bahamas, in three company airplanes. Nassau, a modern city about the size of Midland, is headquarters of the oil companies.

First Drilling In 600 Miles
The spudding ceremonies, which lasted from 9:30 a. m. to 2 p. m., marked the first drilling within 600

miles. McFall said only one or two native Bahamians had ever seen a rig before, and the occasion was a highlight in the history of the islands.

The well is now reported drilling ahead at 6,000 feet in dolomite and lime, and equipment has been provided for going down 10,000 feet. The fact that the company spent a million dollars before reaching a depth of 400 feet indicates the magnitude of the wildcat enterprise.

McFall reported that natives are being trained as roughnecks, and that four crews, one a relief outfit, are drilling 24 hours around the clock. The Americans live in Nassau and commute to and from the well by airplane. Equipment is flown daily from Nassau after barges have transported it from Miami.

Life Is Pleasant
The Americans found life in the Bahamas pleasant. There were no shortages such as found in the United States, McFall said. Nylons,

T-bone steaks, and other items at moderate prices were plentiful. Ninety-five percent of the cars are made in the U. S.

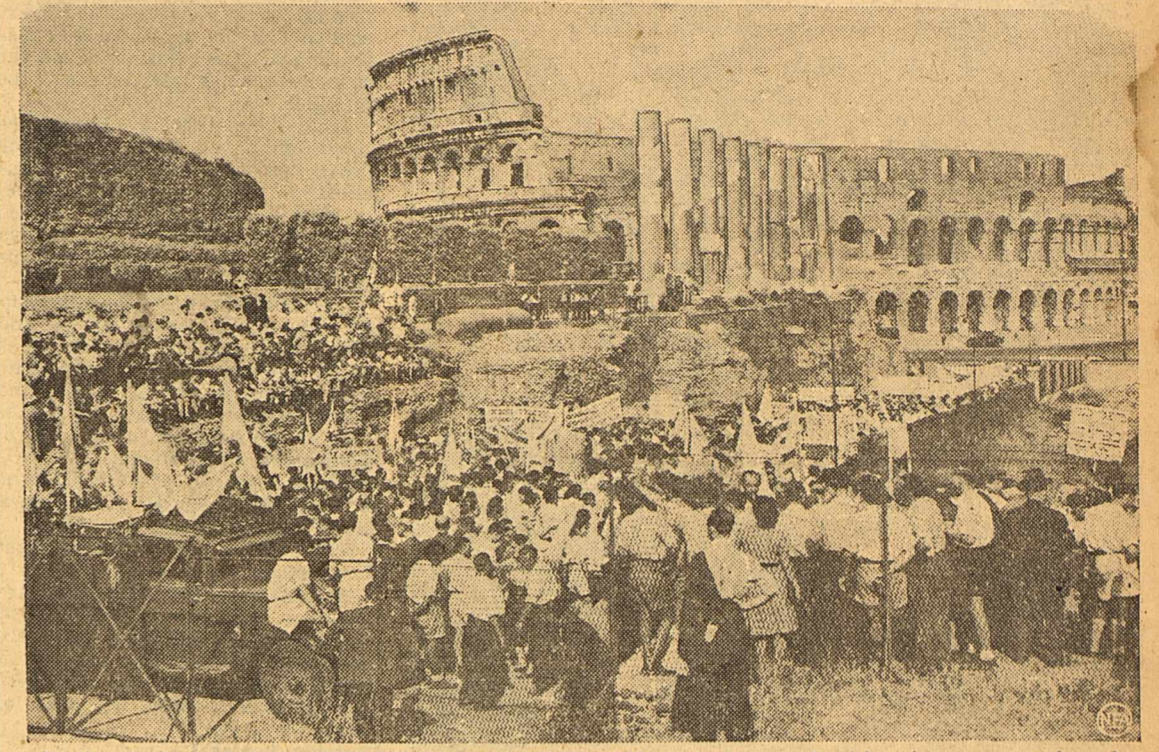

Chief recreations of the oil men are golf, boating and fishing. Man-attacking barracuda keep the would-be swimmers out of the water, except at private beaches which have been wired off to keep out the six-foot deep-sea fish.

Yachting races are held each Friday afternoon, when shops close for the weekly festivals, McFall said. He told of riding with the crew in one of the two and one half mile races in which the wind-pushed craft attained a speed of six knots.

McFall returned to Midland June 12, flying from the Bahamas to Midland in seven and one-half hours.

He studied geology at Texas Christian University and for several years prior to Jan. 15, 1946, was a geologist with the Gulf Oil Corporation in Midland.

Jews in Rome protest Palestine Policy

In the shadow of the Arch of Titus at Rome, where 19 centuries ago Jewish prisoners were forced to march as slaves by Emperor Titus, a crowd of 3000 Jews protests English policies in Palestine.

Freedom's Flag Rises in Pacific

Ambassador Paul V. McNutt, former U. S. High Commissioner to the Philippines, lowers the Stars and Stripes in the presence of U. S. and Philippine notables.

360 Texans Expected To Walk Themselves To Death This Year

AUSTIN—This year approximately 360 Texans will "walk themselves to death," predicts the Texas Safety Association. For the most part, they will walk with the traffic and will come from behind parked cars to be struck down. Others will meet death while crossing at intersections against the signal and while crossing diagonally across the street. These predictions are based on totals for the first six months of the current year in consideration of newly developing tendencies in the pedestrian accident field.

Pedestrian fatalities increase around the hour of sunset in all seasons of the year. The greatest number during the summer months is between 7 p. m. and 8 p. m. The Saturday and Sunday toll constitutes approximately 50 per cent of the total pedestrian accidents.

Three Men Receive 30-Day Reprieves

AUSTIN—(P)—Gov. Coke Stevenson has granted the customary 30-day constitutional reprieves in three death sentence cases.

Stays of execution were granted the following:

Joe G. Leza, convicted in Bexar County on a charge of murder in the death of Egon Foerster. Death sentence was affirmed by the Court of Criminal Appeals June 12. New execution date was set for September 1, changed from August 2.

Louis Jones, discharged service man, convicted in Gonzales County on a charge of murder in the death of John Vperault, also a discharged service man. The Court of Criminal Appeals affirmed the death sentence June 5. Execution date is moved August 3 to September 2.

Harold Lee Palm, negro, convicted in Bexar County on a charge of rape of a 15-year-old Alamo Heights High School girl. Death sentence was affirmed by the Court of Criminal Appeals June 12. Execution date is changed from August 2 to September 1.

Woman Gets Bearskin From Pens Of Minks

HELENA, MONT.—(P)—Mrs. Bill Osborne is a right handy person on her husband's mink ranch.

When a brown bear tried to break into the mink pens, she left the cake she was baking and shot the marauder.

"I didn't get nervous," she reported later, "until I skinned the bear and saw how big it was. Then I sure shook."

Tourist Party Rudely Introduced To Animals

MANITOU SPRINGS, COLO.—(P)—Game Warden A. Cooley tells about a tourist party that received a sudden introduction to the wild life of Colorado.

A deer leaped from a 25-foot mountain ledge to the top of an automobile bearing an Oklahoma license. The tourists were not injured, but the deer was so badly hurt it had to be destroyed.

Upside Down Cake Is Tops

THE appeal of an upside down cake is its surprise attributes, for it may offer a different fruit flavor every time or a combination of flavors. Both pineapple and apricot are favorites, but have you tried sliced canned peaches? These add delicacy to the cake illustrated above.

Cooked-dried fruits make excellent and inexpensive toppings, using one or two or a miscellany of apricots, prunes or figs, pears, nectarines and apple rings. A delicious combination is achieved by using halves of canned pears filled with halves of canned figs, filling the spaces between the pears with figs cut in a size to fit.

Most recipes for upside down cake stress a moderate or slow oven, which means either 350 or 300 degrees, the lower temperature naturally requiring a longer period. When a modern gas range does the baking, its heat control maintains such an accurate, even temperature that the cake bakes perfectly without watching or turning in the oven.

Take a State Policeman's word for it!

Get B. F. Goodrich—Safest Buy in Tires!

When you're traveling at breakneck speed on life-or-death calls, you've got to have a tire that's safe. That's why B. F. Goodrich had police of three states test the new B. F. Goodrich Silvertown. What's the verdict of millions of miles of recorded road tests? That the new B. F. Goodrich tire outwears prewar tires, that it is better than prewar tires in many ways.

Don't wait---See us NOW for the tire that
OUTWEARS PREWAR TIRES!

The sooner you order—the sooner you get your tires
You need "police car protection" for your family too. Why take chances with your tires when you can have complete peace of mind with the new B. F. Goodrich Silvertown?

This is the tire with the famous B. F. Goodrich-engineered "road level" tread that gives you more rubber where you need it—on the road! That means plenty of traction for driving, plenty of grip for stopping, more tread to share the wear. Yes, even at high speeds, the new B. F. Goodrich Silvertown actually outwears prewar tires!

Come in today and see if we have your size in stock. **1570** Plus Tax 6.00-16

When Latin-American Airways found it necessary to transfer families of some of its personnel to Guayaquil, Ecuador, there arose the problem of transporting 33 wives and children for the long distance from Newark, N. J. So they converted one of their airliners into a nursery with swings, playpens and toys to keep the youngsters happy. Expressions of the tots above indicate it was mostly successful.

Governor Expects Little Change In Parole System

AUSTIN—(P)—Gov. Coke Stevenson said Saturday he did not expect the next legislature would make "much change" in the existing system of pardons and paroles in Texas.

The reason for this, he said, was that "there are too many different views" of what constitutes a good system of parole.

The present system under which a convict becomes automatically eligible for parole after serving one-third of his term is good, the governor commented, "if exceptions were not made to it."

The parole system in recent months has been under severe fire from organizations of peace officers, and it has been anticipated the next legislature will face a strong movement for tightening up parole requirements.

Sons Will Remember

Demand Soars With Rise In Supply; Prices Going Uphill

By JAMES THRASHER
WASHINGTON—(NEA)—A lot of Americans who looked forward to the return of the T-bone are finding rediscovery of that delicacy isn't quite as much fun as they thought it was going to be.

The present high price is bad enough. But worse is the uneasy feeling that it is going to be higher. And that feeling is particularly distressing to those who have held the simple economic facts of life to be infallible.

These economists have always believed that full employment, full production and high wages combined to form an ideal condition of checks and balances in which peace and plenty were guaranteed and inflation or depression was impossible.

But now they find the country at a peacetime peak of wages and production, and an all-time peak of employment. They also find food prices, especially meat and dairy products, soaring and climbing in defiance of the laws of gravitation and economics.

According to all the rules in the book it just doesn't make sense. How come?

Take the meat situation: what has brought meat prices up?

According to Department of Agriculture officials and experts in the national retail field, there are two chief factors: the removal of subsidies, and a general atmosphere of uncertainty over the fate of OPA.

Subsidy Removal

It isn't difficult to understand about the subsidy removal in principle, although subsidy payments as reflected in various cuts of meats are complicated and variable. But putting it simply, we are paying over the counter now what we ultimately paid in taxes before.

As to the feeling of uncertainty, growers rushed their animals to the stockyards as soon as price ceilings were removed in order to cash in on high prices. They kept them coming because of fear that controls might go on again and a desire to cash in while the cashing in was good.

Large, established packers, especially the Big Four of the packing industry, were reluctant to rush in. OPA might be revived, and a misstep would cause more trouble than the immediate business was worth. So most of the meat that went on the retail market immediately after July 1 was simply black market

meat sold legitimately, but at all the traffic would bear.

Meat Prices Going Up

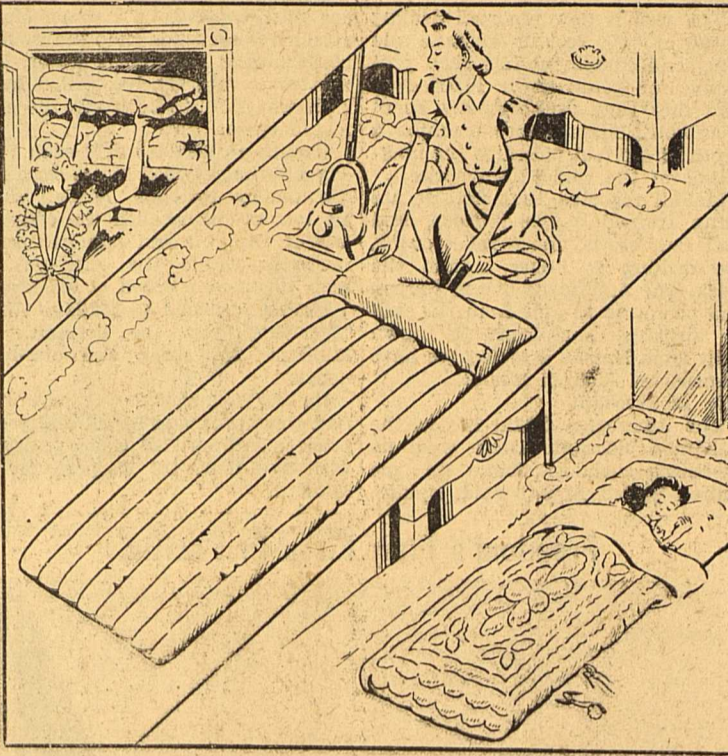

Are meat prices going still higher? A Department of Agriculture spokesman thinks "yes," and has an answer which contradicts the book still further, but which makes some sense all the same.

His theory is that meat prices are inflated not because the supply is small and the demand large, but because both supply and demand are great. Cockeyed? Well, hear the gentleman out.

"During the war," he says, "in spite of rationing and shortages, the American people achieved an unprecedented per capita consumption of meat which for a time exceeded 150 pounds. But we do not feel that the demand was ever satisfied. We don't know when it will be, or how long the consumer will bid up the price.

"But we do know this. The consumer has money in his pocket. And in spite of record production, many of the durable goods he wants haven't yet reached the retail market. And so he is concentrating his demand on the only commodity in decent supply—food, and particularly meat."

Guest Bed Stowaway

By NEA Service

The dilemma of the house-crammed hostess welcoming an unexpected overnight guest can be solved by pulling a bed off the closet shelf.

Thanks to an air-rubber stowaway mattress-bed, which takes up less space than a blanket, weighs only 11 pounds, and rests on the floor, a guest can be put up in comfort.

A deflated mattress of neoprene-coated cotton fabric is treated with synthetic rubber to give it resili-

Citizens Have Record Only When Rollcall Vote Used

By JAMES MARLOW
WASHINGTON—(P)—Unless you ask your representative or senator, you'll never be able to find out where he stood every time he voted in Congress.

The reason: no full record on all the votes of individual congressmen exists. It never has. Yet such information might help you make up your mind in the congressional primary elections now going on.

Your congressman can produce a record, if he wishes to, on some of his voting. For the rest you'll have to take his word. Why?

Because Congress has several ways of voting and in only one of them is it possible to keep a record of the individual's vote. This is called the roll call vote. Which means:

When one member requests it—and enough of the others agree—each congressman has to say "yes" or "no" by name. This then becomes a matter of record.

All the other voting is done in a group, without any personal identification. The congressman vote by standing up or by shouting their "yes" or "no." This voting is decided by numbers or volume.

Speeds Up Business

This group voting speeds up congressional business, since it's much faster than calling the roll.

Also, since no record of his individual vote is kept, it can save a congressman from embarrassment back home.

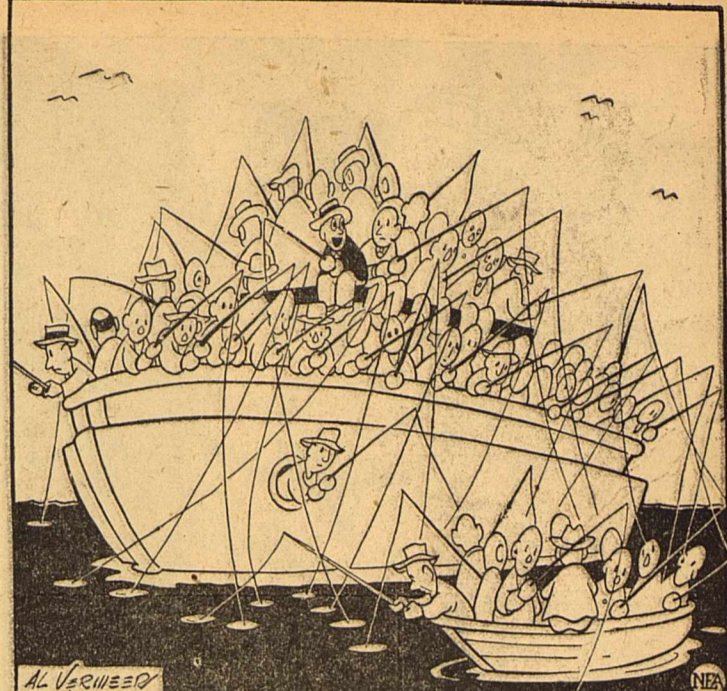

But Congress often takes pains to order a roll call vote when it's voting on something which can't bring a bad reaction back home.

For example: voting money to keep the Army and Navy strong. There's usually a roll call on things like that, although, since the result is a foregone conclusion, it would be quicker and easier to dispense with the roll call.

Of course, there are roll calls, too, on some very controversial matters. The British loan, for instance.

In fact, there are so many roll call votes that any voter back home can tell from them pretty well where his congressman stands on the things which are important to him, the voter.

Appointments Made In National Guard

AUSTIN—(P)—The following appointments in the Texas National Guard have been announced by State Adjutant General Arthur B. Knickerbocker:

Brig. Gen. Clayton P. Kerr, Dallas, commanding general of Combat Command B, 49th Division.

Col. Charles Holt Dobbs, Fort Worth public schools teacher, assistant chief of staff, 49th Armored Division.

Brig. Gen. Albert E. Crowther, San Antonio, commanding general, 36th Division Artillery.

Lt. Col. Vincent Lockhart of Canadian (Hemphill County), assistant chief of staff, 36th Division.

Col. Gaston S. Howard, Longview, chief of staff, 49th Armored Division.

Rudolf Besler's "The Barretts of Wimpole Street" was refused by 27 New York theatrical producers before Katharine Cornell accepted the play for production.

TRIED AND PROVEN

Texans will have the opportunity this Summer of returning to the Railroad Commission for a second term a man whose background and experience in connection with the affairs of the Commission probably has no equal. We refer to Olin Culberson, present chairman of the Commission.

In Culberson, the petroleum industry and Texas citizenry as a whole have a public servant whom they cannot afford to lose because, in addition to his qualified background and thorough experience, his service to the industry and to Texas and the nation has been tried and proven.

Chairman Culberson had several years of work in various departments of the Commission before offering himself as a candidate for one of the three Commission posts in 1940, and his work had demonstrated his good general knowledge, broad background and willingness and ability to do a hard job.

His first term as a commissioner has demonstrated his administrative ability to such an extent that he has represented Texas in Washington on several important occasions, the Texas Commission has become recognized all over the world as one of the best administrative bodies of its kind, and the Commission's position with the industry and the public has gained new recognition and stature.

This 60-year-old Texan's knowledge and experience is not limited to petroleum alone. He is the first railroad man ever to be elected to the Railroad Commission, having served the Katy as a switchman at Hillsboro. He has been a county clerk, a county judge, a merchant and a farmer. He is a veteran of World War I, a member of the American Legion, a church member, and a member of the Lions club.

Culberson and the Commission scored a major victory for Texas and the Southwest when his experience in rate matters enabled him to take an aggressive stand and to lead the fight for removal of discriminatory freight rates affecting this region. This fight proved successful in that the Interstate Commerce Commission entered an order providing for parity and equalization of rates to the Southwest and removal of discrimination that had so long held back the industrial development of Texas.

In 1941, shortly after becoming a Commissioner, Culberson steadfastly refused to agree to put into effect at once a six per cent increase on railroad freight rates on intrastate business as ordered by the ICC. All other states put the order into effect, costing their people plenty because Culberson argued and fought the ICC order for a year before it was finally suspended. That victory saved Texas shippers about \$5,000,000.

That fight proved Culberson was a true public servant, because he showed he was not afraid of political consequences when he was fighting for the people.

Culberson, as an employe of the Commission in the early days of proration, helped to bring order out of chaos in the petroleum industry. Under what the industry termed "The First Legal Order," Culberson was placed in charge of the enforcement of the production and accounting of oil for the entire state of Texas. He prepared the order providing for the Tender System and installed it in the 11 offices over the state.

Upon election to the Commission, his first official act was to have adopted by the Commission the practice of regular meetings of the whole Commission on Monday of each week for the purpose of hearing reports of examiners, making decisions and issuing official orders of the Railroad Commission covering all of its activities.

Culberson also instituted the practice of having issued notices of hearings on all matters considered by the Commission, thus bringing further regularity to the Commission's affairs and assuring all persons concerned that a full, complete and open hearing would be made available to them.

Another point on which Culberson has shown high courage as a public official is in the matter of exporting Texas gas into the eastern areas of the United States possessing an abundance of coal. He has strongly opposed the building of any further pipe lines for this purpose, contending that this great natural resource should not be dissipated in competition with the 2,000-year cheap coal fuel supply but that it should be retained in Texas and developed for the use of and by new industries which can utilize the gas in the production of chemicals and the many other by-products of natural gas.

When Texas' natural gas is gone, Culberson argues, we cannot expect to carry forward the progressive and progressing society which in the last 30 years has become so marked in this state because of the additional contribution which the oil and gas industry has made to our economy. In this stand, he has not had the entire approval of those having gas to sell, but with characteristic fairness he has conceded his opposition the right to contend for their viewpoint.

A man with such courage and determination, with broad knowledge and experience, and with a record of proven performance in the public interest such as Culberson holds cannot be ignored in his bid for a second term. The petroleum industry, and the people of Texas who benefit so greatly from it, cannot afford to miss the opportunity in the coming primaries to assure for themselves the continued services of this valuable man.

VOTE FOR OLIN CULBERSON

(Paid Political Advertisement; Paid by Midland Friends of Olin Culberson)

Food Is Where You Find It

This hungry Viennese man went on a reconnaissance mission during his "lunch hour" and ended at a refuse heap. He was fortunate enough to find one can not entirely empty. He's tasting the contents gingerly to see if they are edible.

Ballet Dancer Returning To Hated Japan To Dance Again, But For GIs

By NEA Service
NEW YORK—It won't be the first time Eileen O'Connor has danced in Tokyo. But it certainly will be the happiest for Eileen.

Eileen is a petite, dark-eyed colleen who is so proud of being Irish that she refused to be knuckled under to convention and add a "ski" to her name when she decided to be a ballerina.

She got her Irish up about the Japanese back in 1941, when she stopped at Yokohama and Tokyo on an Oriental tour. The Japanese weren't very polite. At Yokohama, 60 immigration officials swarmed over the ship, and gave all the women a "thorough" examination, even rolling back their eye-lids.

And if that wasn't enough, they stayed away in droves from the Imperial Hotel ballroom in Tokyo, where Eileen danced. Those were the days of stout Japanese nationalism and foreign dancers, even if they were young and beautiful, were frowned upon.

For GIs This Time
Eileen didn't like it at all, and on her way home via Manila she stopped long enough to give the folks back home a radio word-picture of what she thought of Japan and the possibility of war.

Now Eileen is going back to Tokyo, something she said she didn't think she'd ever do again. But this time she'll dance for the GIs under the sponsorship of the USO, and she is convinced the reception will be better. After all, she danced her way into the hearts of thousands of GIs in the ETO.

Eileen decided to be a ballet dancer when she was a wee bit of a tike. She lived in Denver in those days. By the time she was seven she had come to New York for dancing lessons. From then on it was strictly career.

She got bounced from a nightclub job in Hollywood when she

Eileen O'Connor: The Nips should have been more polite.

was 13—too young. She got bounced from London in 1938, that time by the U. S. State Department which was worried about Munich and its implications and wanted U. S. nationals home.

But the dancing she thinks she is going to like best is her return engagement in Tokyo. Those Nips never should have trifled with the Irish.

Italian Youth, 9, Conducts Symphony, Is 'Scooter' Demon

ROME—(AP)—Italian music critics may be divided over Pierino Gamba's ability as a symphony conductor, but there is no question that the nine-year-old lad is a demon with a "scooter."

Seeing him speeding up and down the sidewalk before his home on Rome Belluno Street, no one would imagine that this lad had conducted a symphony concert at the Royal Opera House—leading the 86-man orchestra in the "Sinfonia" from Verdi's opera "Forza Del Destino." Beethoven's first symphony, the overture of Mascagni's "Cleopatra," the prelude to Act I of Verdi's "Traviata," the intermezzo from Mascagni's "William Ratcliff," the interlude between Acts III and IV of Bizet's "Carmen," and the "Sinfonia" from Rossini's "William Tell."

The slender, blond, greenish-eyed lad who packed the opera house at the season's highest concert prices is a boy first and musical phenomenon second.

At home he acts like a nine-year-old. Driving his stepmother "frantic," she says, "trying to keep up with him," and "trying to keep his hands clean." (The hands, incidentally, are callused from riding that scooter.)

Pap Piero Gamba—who fiddles with a fiddle for fun—has a hard task keeping Pierino at his daily practice stint of three hours at the piano. "It is too easy for him," the father complains. "He gets it all too quickly, and wants to get outside and play with the other kids."

Pierino's concert performance, which bowled over a majority of the audience, did not deprive the critics of their faculties. None found flaws in the music as it was played, but most hesitated to use the term prodigy in the sense that it was used for Mozart. Pierino's performance, one or two said, smacked too much of a well-rehearsed trick.

STRANGE STATUTES
New York's statute books contain many queer don'ts. Among these are statutes prohibiting riding a bicycle with hands off the handle-bars; flying kites in city streets; and firing a cannon in the city except with the mayor's permission, the cannon to be no larger than a four-pounder.

COULDN'T EAT SIMPLE FOOD
The Roman epicure, Marcus Apicius, spent \$4,000,000 on odd and rare foods which he imported from every part of the world then known. His lavish living reduced his fortune to \$400,000 and he killed himself because "e would "rather be dead than eat ordinary food."

Style note for flyers is the new pressure suit worn by Army Air Forces air crew member above. It will enable airmen to live while flying as high as 62,000 feet. Previously, flying at this altitude would have meant instantaneous death.

Adult male gorillas in the Belgian Congo weigh as much as 500 pounds.

Company Financing Purchases Of Planes

For the first time in aviation history an air-minded person, anywhere in the United States, can buy his own airplane, new or used, land, sea or amphibian, as easily as he can buy an automobile, H. B. Welch, branch manager of the Universal CIT Credit Corporation, said Saturday in announcing his company's new nationwide plan by which buyers may buy planes and insure them on the installment plan.

Welch explained that his company had drawn upon 38 years of financing experience to develop a comprehensive plan that not only enables the plane buyer to finance the purchase of his plane for the same five per cent carrying charge that applies to automobiles, but also, at the cheapest insurance rates in history. The interested pilot need only consult his plane dealer who will arrange the insurance, the

financing and the protective services of the plan in one interview in a single signature transaction. "Heretofore, the prospective owner of a light, private plane has been hindered from buying by high insurance rates, high finance charges and complicated plans," Welch said. "Under the Universal CIT plan, he may finance the purchase of a new, completely insured plane priced, for example, at \$3,000 for \$1,000 down and 12 monthly payments for the balance including insurance. As in the automobile business, the corporation finances the flow of planes from the manufacturer to the distributor or dealer as well as retail sales to licensed pilots."

In winter, when cows eat dry feed, butter may be almost white before color is added.

Manchuria's Capital Remains City Of Tenseness And Wire Barricades

By JOHN RODERICK
CHANGCHUN —(AP)—Weeks after its return to Chinese Nationalist sovereignty this Manchurian capital remains a city of military tenseness and barbed wire barricades.

Still, in view of the multiplicity of armies—Japanese, Russian, Chinese Communist and Nationalist—which have streamed through her modern, well-paved streets in recent months, the fact that it has returned to anything resembling normal is astonishing.

From the air, Changchun's broad avenues, modern buildings and wealth of parks serve notice that this is a recent-day creation of the Japanese during 14 years of occupation. From the air, too, can be seen the effects of war—rows upon rows of former Japanese factories, now roofless shells of brick stripped even of floors and window sills.

No one may enter or leave Changchun through the barbed wire which bars the main highways without producing a pass. Vehicles bearing the American flag are an exception.

Inside the city, life appears to be approximately normal. The capital of Japan's Manchukuo—the beginning of the Greater East Asia co-prosperity empire—is badly in need of a general house-cleaning. Many large, modern

buildings, including the once impressive capital, have been gutted by fire or stripped and looted by succeeding armies.

Japs Do Menial Jobs
The city population still includes some 250,000 Japanese technicians. That China will need many of these in rehabilitation and eventually in any new industries developed goes without saying. For the most part Japanese now are doing menial jobs. Most of them are ill-clothed, unprepossessing and dressed in unkept army uniforms. All are very polite.

Since the entry of the Nationalist Army into the city May 23, large colored paintings of Generalissimo Chiang Kai-shek and Dr. Sun Yat-Sen have appeared everywhere on gaudy pedestals.

Troops of the Northeast China Command are clustered at every street corner with bayonets bared. The 8 p. m. curfew was lifted recently, but few people venture out after that hour because entertainments close at that time.

WHY STEAL CAR AND NOT LICENSE PLATES?

LEXINGTON, KY. —(AP)—Backstreet auto thieves have taken a back seat to the thief who entered a Lexington automobile display window and drove off with a 1946 car—after filling it with 20 gallons of gasoline from the dealers tank. The thief also took a set of license plates.

General Duty Nurse

By **LUCY AGNES HANCOCK**

Copyright by Lucy Agnes Hancock Distributed by NEA SERVICE, INC.

XLII
THE two girls entered Sally's room and Norma turned down the covers of her bed and lowered the shades, while Sally sat before her dressing table and thought what a simpleton she had been to make such a spectacle of herself.

"Why here," Norma said patting the pillow. "If you slip out of your uniform you'll rest better. It's terribly warm so I'll leave both windows up."

"You're being very kind, Norma," Sally murmured. "Why—why couldn't it have always been like this? Why have you hated me—"

And Norma slipped to the floor beside Sally's chair and buried her head in her lap. "I've never hated you," she sobbed. "I was just jealous. You had everything I—I wanted and—and—I—I had nothing."

"Everything, Norma?" Sally asked. "What do you mean?"

"You're beautiful—you're good—and—and popular. Sunderlin favors you. Willoughby's crazy about you and so's the Chief. I—I'm a good nurse, Sally, and yet no one ever tells me so. I don't get the private cases—the special cases like you do. No one cares if I'm hurt or not. I—I'm so—so miserable!"

And then Sally laughed gently and her arms tightened around the weeping girl.

"Don't be a goose, Norma. You're a good nurse. I heard someone say that just the other day. You have let your imagination run away with you. If I'm popular—and I'm not sure that I

tion room of the nurses' home. "You're thin, Sally," he said, "and pale. Have you been worrying over Canfield's coming here?" "What do you think?" Sally asked.

HE smiled into her troubled eyes. "No sense in that," he said. "I've found out that he's been ordered back to the Pacific. Winning the war seems to be more important just now than acquiring medals, and I, for one, am glad. Now you look more like yourself, my dear," as Sally uttered a sigh of relief. "Color good, eyes bright and even a smile for me. Carolyn wrote me that you and that fine Doctor Jim Hallock had apparently come to your senses. Allow me to wish you every happiness, Sally. You deserve it."

"Oh, I don't, Dick," Sally whispered, her voice choked.

"Well, anyway, it's yours, my dear, and take my advice and guard it with your life. It's precious. 'Bye for now.'"

And Sally's heart sang as she went back to her duties in Women's Surgical, which, as usual, was filled to capacity.

"Has someone left you a fortune, Miss Maynard?" asked middle-aged Mrs. Carson, a Nurse's Aide, just now acting as floor nurse. "It must be a big one from the stars in your eyes."

"No fortune, Mrs. Carson," Sally smiled. "Just grand news—wonderful news and I'm terribly happy about it. Anything happen while I was gone?"

"Hardly," the other said dryly. "You have been gone just 20 minutes. What could happen in this ward in that length of time? No, everything has been quiet."

"Good!" Sally replied and turned as the elevator whirred to a stop. Doctor Hallock stepped out and came toward her. And while neither one stopped, the look in both faces as their glances met and changed brought a glow to the heart of the watcher. What it was to be young and beloved!

McKENNEY ON BRIDGE

By **WILLIAM E. MCKENNEY**
America's Card Authority
"Sometimes murder happens to you when the cards are running badly," says Harry J. Fishbein, "but in most cases the reason for 'hard luck' is poor handling of the cards."

In today's hand the seven-spade contract could have been defeated if West had opened the deuce of spades, but when the jack of clubs

♠ A Q J	♠ 8 6 5 4

Opening—♣ J	20

was opened, declarer won with the queen and cashed the ace of clubs, discarding dummy's four of hearts. Now he cross-ruffed the hand out, making four trumps in his own hand and three in dummy, the ace and king of hearts, ace and king of diamonds and ace and queen of clubs.

When West doubled six no trump, North realized that the diamond suit was not going to run and that West had one of the other suits stopped. By going to seven spades he thought that the diamond suit might be established for discards and declarer still could pick up the trumps.

As it happened, South never led a trump—or he would have lost the contract.

VA Asks VHA For OK On Lumber PDQ
HONOLULU, HAWAII—(AP)—Proof that government red tape is no respecter of agencies was given when the Territorial Council of Veterans Affairs tried to purchase two pieces of plywood for a table top.

"Veterans Housing Administration has priority on all building materials," council officials were informed.

So the VA applied to the VHA for an OK.

Electrifying News For Hayfever Victims

NEW YORK—(AP)—Hayfever victims and people who just don't like smoky, dusty rooms now can use a new device of the electronic age to purify living room air.

The device (Raytheon Manufacturing Company) draws air into a compartment where the dust or pollen is given a slight positive charge of electricity. Then the air passes between plates that have been given a negative charge of electricity, and the result is that all electrified particles settle on the plates.

Texas University Not Alone Among Schools Blacklisted

WASHINGTON—(AP)—The University of Texas, which has become an issue in the present Texas gubernatorial race, is not alone among schools blacklisted by the American Association of University Professors.

There are 12 others on the AAUP's "censured administrations" list, denoting criticism of either the administrative officers or governing board, or both, of the schools concerned. One of the 12 has been on the list since 1935, four since 1939.

Placing of Texas on the list was the outgrowth of the dismissal of Homer Rainey as president. Varies In Numbers

The list of censured schools varies in numbers as names occasionally are added or withdrawn. On January 1 there were 70 cases pending before the AAUP, that is, investi-

gations under way of grievances of AAUP members. During 1945 it dealt with 117 cases, disposing of 47. Included in the 117 were 10 which were withdrawn by the complainants, eight which were rejected by the AAUP upon investigation. Adjustments were made or are sought in 44 cases. (The AAUP, which is not affiliated with any other organization, has 18,500 members, approximately 25 per cent of the total number of professors of accredited universities and colleges.)

The schools on the "censured administrations" list, besides the University of Texas, are Adelphi College, Garden City, N. Y.; John B. Stetson University, DeLand, Fla.; University of Kansas City, Kansas City, Mo.; Memphis State College, Memphis, Tenn.; West Chester State Teachers College, West Chester, Pa.; University of Pittsburgh, Pittsburgh, Pa.; St. Louis University, St. Louis; State Teachers College, Murfreesboro, Tenn.; University of Tennessee, Knoxville; Central Washington College of Educa-

tion, Ellensburg, Wash.; Winthrop College, Rock Hill, S. C., and the University of Missouri, Columbia, Mo.

Academic Freedom Issues
In five of these cases, including the University of Texas, the question of "academic freedom" is directly involved. In some it is a question of alleged dismissals without cause, and in some assigned reasons for dismissals are disputed.

The University of Missouri, like the University of Texas, is a newcomer on the censured list. Although the question of academic freedom there is indirectly involved, the case centers largely around a personality. Involved is Dr. Lee S. Hullzen, an associate professor of speech, who was dismissed in 1942. Now a faculty member at the University of Illinois, he had been dismissed at Missouri when questions of personal conduct were raised. The AAUP investigated and found that he had been dismissed without "reasonable or adequate grounds," and asserted that only rumors and not fact had prompted the discharge.

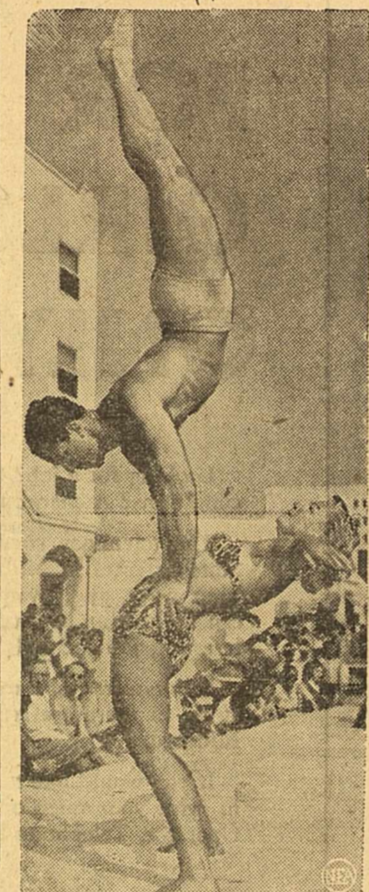

Once a school has been placed on the "censured administrations" list, it presumably is removed only when a change in personnel has been effected in a school's administrative or governing officials and to a degree sufficient to cause a change in policies.

GRANT OWNED SLAVE

General Grant was once a slave owner. He married Julia Dent when he returned from the Mexican War in 1848. Her father owned a number of slaves, and the newlyweds were presented with a slave boy as a wedding present. The Dent family kept their slaves until the close of the Civil War.

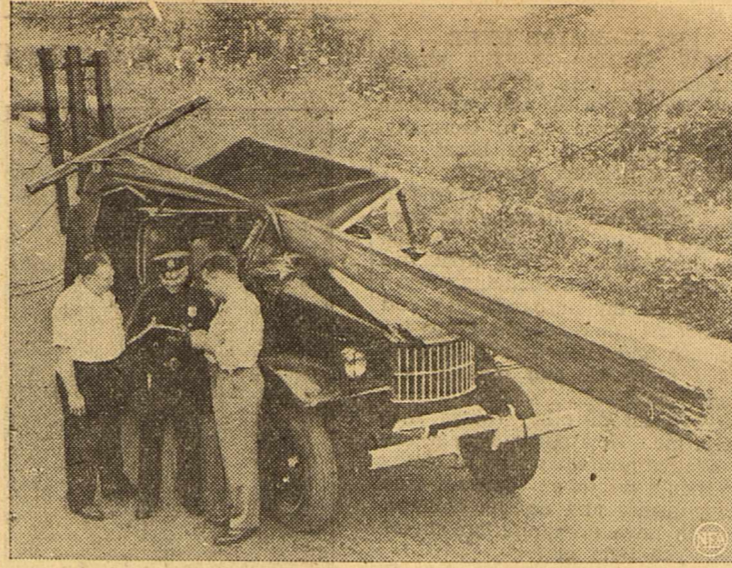

The extensive Gobi desert of Central Asia contains a number of lakes, fed by surface and underground mountain streams.

Muscle Maker

On balmy days, the air at Muscle Beach, Calif., is filled with acrobats, contortionists, tumblers, etc., such as movie stunt girl Evelynne Smith and Harold Zinkin, above. Muscle Beach, so named because of its popularity with acrobats, offers a platform and other body building equipment for the benefit of guests and spectators.

You Can't Take It With You

An official dressing-down, and maybe a ticket, is the fate of Nelson Carman, right above, 22-year-old former Seabee who hit a power line pole near Baldwin, L. I., with his coveted "recon" car, broke it off and carried it 350 feet before he could stop. No one was injured in the accident.

New Draft Set-Up Defers Youths Still In High School — But Not College

By JAMES MARLOW
WASHINGTON—(AP)—Here's the score on the new draft set-up. Selective service has made it tight and tough.

1. Draft boards will start calling men again September 1. (September 1 is the end of the two-month draft holiday. No men were drafted in July or August.)

2. Those drafted will be 19 through 29.

(Since May 15 no youths under 20 had been drafted. Last week President Truman told draft boards to take men 19 through 29.)

3. Youths still in high school can get deferred. Not so college youths. If called, they won't be allowed to finish out a quarter or semester, unless their draft boards make some special exceptions in individual cases.

4. Fathers will not be drafted, nor will men considered extreme hardship cases. But a man will not be deferred because of dependents.

5. Every man in the 19-29 age group who now has an occupational deferment will be re-examined. The rule here is very tough.

Selective service told the boards not to defer anyone unless he is "indispensable and irreplaceable to the national existence."

(This means that almost no one now will have an occupation that can be considered deferrable.)

6. But farm workers still will get the same special consideration—for deferment—that they got through the war. A special section of the draft law provides for them.

(Which means: deferment for farm workers undoubtedly will be far greater than for any other kind of work in this country.)

7. Draft boards will review the cases for men 19 through 29 who have been found physically unfit for military service.

(Which means: some men now excused from military service because of poor physical condition will find themselves drafted, if doctors think they're improved enough to fit requirements.)

8. There's no quota system based on age. For instance: draft boards will take whom they can in the group 19-29, and not try to pick just so many of one age, so many of another.

9. Draft boards will consider drafting war veterans if (a) they have not served outside the United States and (b) had less than six months military service.

(Which means: if a man served less than six months, but served them in the United States, and was then discharged, his draft board may draft him again.)

Senator Claghorn 'Does All Right' For Bostonian Yankee

By BOB THOMAS
HOLLYWOOD—(AP)—Senator Claghorn wants you all to know he is happy to be in southern, I say Southern California.

The senator, alias Radio Announcer Kenny Delmar, has announced the Southern Pacific and a cloud of mint julep to appear in a picture, called "It's A Joke, Son."

When I took him to lunch, he balked at entering Mike Romanoff's when he spied Cary Grant inside. He was convinced Cary was no relative of the general and besides, Romanoff is from Georgia in Southern Russia. South Brooklyn, anyway.

Over his corn pone, Delmar explained this is his second trip to California. Seventeen years ago he came to the state to see D. W. Griffith, but landed in San Diego. There he worked up to be bell captain in a hotel and returned to New York after seven months.

Because of all the ribbing he receives, I asked the Bostonian if he ever regretted dreaming up the senator.

"No, the old boy has done all right by me," he said, "and I am very fond of him. But not my wife and son, Kenny—they hate him."

Despite family disapproval, the gassy colon is paying off very well for the Delmars. Kenny will receive a sizable percentage of the profits from the Eagle-Lion picture. That's in union money, son.

There are more than 650 species of birds in New Guinea.

Ship To Furnish Power For Alaskans

WASHINGTON—(AP)—The stern section of the Steamer Sackett's Harbor which broke in two in Alaskan waters last March is going to furnish electric power for Anchorage, Alaska.

The stern section was towed to Adak and the bow sunk by the Navy so it would not be a menace to navigation.

Anchorage municipal officials learned that the stern section was intact with a steam turbine generating plant of 6,000-horsepower capacity and asked Delegate Bartlett of Alaska to obtain it for the city.

Bartlett got the maritime commission to declare the stern surplus and it was turned over to the Interior Department, which has leased it to Anchorage.

Maternity Nurses Decide To Have Own Babies

JOHANNESBURG—(AP)—A recent drive for non-European maternity nurses resulted in 15 native girls volunteering for one hospital. The authorities were very satisfied with their intelligence and keenness. After some months of training they were transferred to a maternity hospital for practical work. Here they showed even more promise and the matron was delighted. After a few weeks the secret of their keenness was revealed. The native nurses liked their work so much that they had all decided to become mothers themselves.

Harkrider Has Been Sending Blotters To Customers Ten Years

Customers of the W. B. Harkrider Insurance Agency have grown used to a regular advertising piece and now look forward to receiving it each month.

For about 10 years Bill Harkrider has been sending out attractive blotters printed in two colors to his customers each month. The blotters carry a calendar and a message from the agency.

Harkrider, whose office is in room 204 of the Thomas Building, started sending out the blotters about 10 years ago after he was attracted to similar advertising matter sent him by an insurance company for which he is agent. Since that time he has not missed a single month in issuing the pieces.

The Polish city of Lodz is built along a seven-mile main street.

Gay Crib Corner

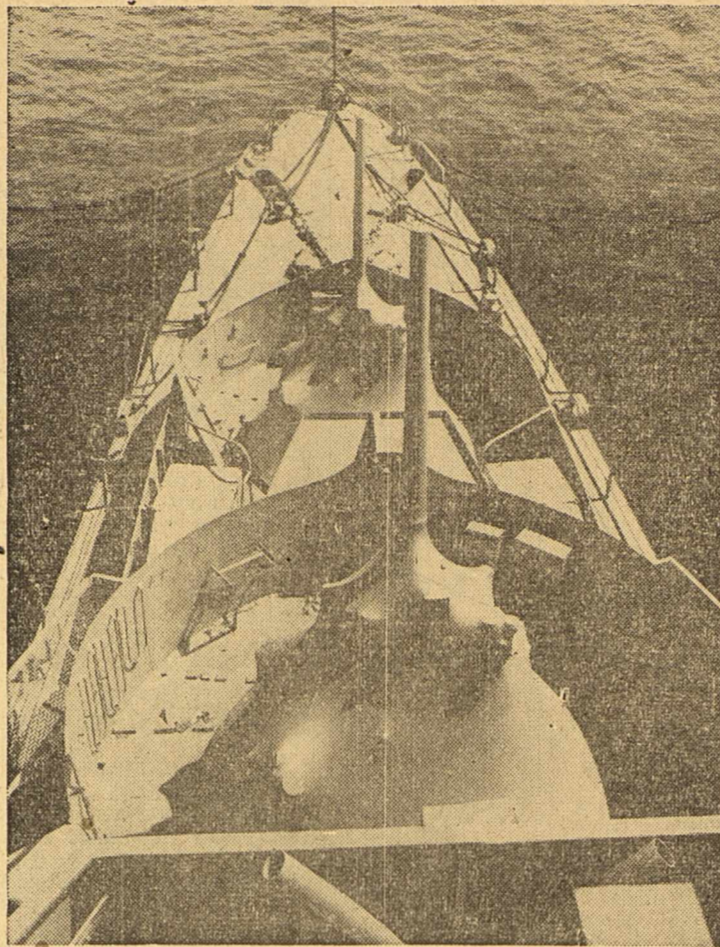

By NEA Service
If a housing problem faces Junior when he arrives—no nursery—it can be solved by sectioning off a corner of his mom's room and decorating it to identify it as baby's own.

turn the trick. To spruce up the corner, nursery-style, ready-pasted borders featuring the antics of Donald Duck and other juvenile favorites can be used to decorate the screen and waistcoat Junior's walls. Playful decals, pasted on the footboard of crib, other pieces of furniture and lamp base, will help to unify the nursery scheme.

American Women's Volunteer Groups Aid Wives Join Overseas Husbands

By ADELAIDE KERR
NEW YORK—(AP)—The plump, pink-cheeked wife of the private, now serving with the American Army of Occupation in Germany, spoke calmly, but her heart was beating a nervous tattoo.
"The children and I want to join my husband in Germany as soon as we can," she was saying. "We have four children from five to nine years old, including twins. We live on my husband's pay and dependents allowance—he keeps \$28 a month and altogether I get \$140. But I know we can manage the money part."
"It's a lot of other things that puzzle me. How much luggage are we allowed and what kind of clothing should we take? Can we take our furniture and do the children have to have immunization shots? Could you help me?"
She spoke to Miss Marion S. Gans, chairman of rehabilitation programs of the American Women's Voluntary Services in Greater New York, who founded recently a new type of "travel Bureau" to help service men's wives who are going overseas to join their husbands.
Swiftly Miss Gans gave the wife the information she needed, compiled from such sources as the Army Service Forces, Port of Embarkation, Second Service Command, and Army Personal Affairs. It covered a score of points such as transportation to the embarkation area, passports, personal baggage, household effects, clothing, laundry, postal information, pets and immunization shots which are required.

Head - hugging, back - slanted, young and gay—these are the new hats for fall, as presented in a summer preview by Sally Victor, who guarantees to keep your ears warm, come zero weather.
Her "cozycaps" in angora jersey, ermine and even mink, are really glorified scarfs fitted over a small front pal to give a flattery effect, and tied snugly under the chin. Sally says she used plain, ordinary shoulder pads and pin cushions for the padding, predicts that the caps will be copied in every price bracket.
Another new silhouette is the "bonnie," a smooth, head-fitting little hat slanting back to a peak, slightly reminiscent of the headgear of the Lily Maid of Astolat. It is done in felt, fur or fabric.
Third hit of the hat parade is the "drum bonnet," which has the same back-slant as the "bonnie," but a high, drum-shaped crown. It suggests the bonnets of the Elegant Eighties.
The hats depend more on lines and less on trimmings than in the last few seasons. They are head-fitting, staying on without benefit of elastic or hatpins. And most of them are youthful in feeling, pushed back to show the forehead.

A SHORT CHAPTER in the important history of MILK SANITATION!

FEW will remember the itinerant milkman who used to roam the city streets with a cart filled with 40-quart buckets. From these pails he would ladle milk, as he traveled from house to house, into the consumer's own pitcher or other container.

In many instances his cart would bear a legend reading, "from own dairy", although, as a matter of fact, he probably came as close to owning a herd of telephants as a herd of cows.

The source from which a milkman got his milk was apparently a matter of no very serious concern to anyone—most of all the consumer.

This rather free and easy attitude toward an extremely nutritive and healthful food which can be so easily contaminated by foreign matter in its transit from the source to the home apparently did disturb Dr. Harvey D. Thatcher of Potsdam, New York.

He began work on a method of protecting fluid milk, and in 1884 came up with the glass bottle.

The advent of the glass bottle was also the advent of the closure in the sense that we know it today.

The closure of Dr. Thatcher's first bottle was merely a glass stopper with a gasket, the whole thing held in place by a wire bale. It was not too satisfactory. Milk leaked out of it and the rubber gasket deteriorated with frequent washing and contact with the milk fats.

Out of the attempt to overcome these difficulties the first paper closure was born. This cap was essentially a paper plug, or disc cap, and so it remained for a number of years.

Early in the century, as milk pasteurization was accepted, there was a greatly increased demand for bottled milk. This led to a search for improvements in the closure for the milk bottle. One of the first steps was to discard the practice of using any kind of paper which happened to be available and to insist upon a special paper board scientifically adapted for the purpose of making paper caps.

Paper for milk bottle caps must possess certain characteristics, the most vital of which, of course, is absolute cleanliness.

This paper cap was precision-fitted for the various size bottles and designed for use in efficient automatic capping machinery. Adequate protection of milk against contamination in transit to the consumer was well under way.

As the use of bottled milk steadily increased, health boards naturally took a much closer look at the entire subject of milk protection and handling. Dairy herds were subject to health inspections; sanitary practices were established for milk barns and milk plants and for the employees of them. The time during which milk could be held between cow and consumer was also regulated, and the whole business of providing milk for the populace was surrounded with sanitary safeguards that were undreamed of at the beginning of the century.

Many alert public health officials became aware of the inconsistency of surrounding the protection and handling of milk from the dairy to the bottling plant with every conceivable safeguard and leaving one loophole through which the bottle of milk could become contaminated even before it reached the consumer. These men followed a milk bottle in its progress from the bottling plant to the home. They saw it placed on the delivery truck and generously iced to keep it fresh. They saw the trucks driven through dusty city streets. They saw the hands of the delivery man grasp the milk bottle in the logical place, around the top, and they saw him place it on the doorstep, readily accessible to more contamination, such as flies, etc.

And then, finally, they saw the consumer confidently pour every drop of milk in the bottle over this now dubiously "sterile clean" bottle top.

The logical thing to do was to insist upon some sort of protection, not only for the contents of the bottle, but for the pouring rim of the bottle itself.

The development of the hood type cap was inevitable.

Today in every state milk is delivered to the home protected not only by a hood, but by a plug cap and a hood to give the consumer the ultimate in milk protection through any amount of handling between the filling machine and the consumer's kitchen. During the years the milk bottle itself has undergone a number of modifications, changes and improvements. It has changed in shape to the convenient, space-saving square bottle with the smaller mouth and neck for extra sanitary protection. It has become lighter in weight for easier handling. These improvements in the Banner milk bottle together with the new, modern Banner equipment assure you of the maximum in cleanliness in your creamery products.

The consumer can be confident that the Banner Creamery will continue to be equal to its task and to provide that ultimate protection which a food article of such universal consumption and high nutritional value deserves.

Authorized By Army

Miss Gans is a slender little woman with friendly grey eyes, to whom people just naturally tell their troubles. The service she founded for Greater New York is known as Information Service for Army Dependents Proceeding Overseas and is authorized by the War Department. Mrs. Richard A. Pratel, good-looking, dark-eyed, dark-haired wife of a New York merchant, heads the Manhattan division.

The demand for the service has increased so greatly since its launching that AWVS now operates it in 27 other points, including Philadelphia, Washington, D. C., Atlantic City, Albany, Cleveland, St. Louis, Tulsa, New Orleans, San Francisco, Denver, Chicago, Indianapolis, Wichita, Omaha, Butte, Mont., Fairbanks, Alaska, Altoona, Pa., Trenton, N. J., Kearny, N. J., Summit, N. J., Harding Township, N. J., Roslyn, N. Y., East Rockaway, N. Y., and Xenia, Ohio. Both Miss Gans and Mrs. Pratel get many requests they cannot fulfill. The pretty blonde wife of a sergeant wanted the AWVS to get her a goat to take overseas because, she said, her baby could not take the canned milk which is supplied by the Army (since the American Army of Occupation does not live off the German land).

An auburn haired divorcee wanted help in getting to Europe so she could remarry her former husband, eggs to her husband in Germany. Miss Gans to arrange her trip to Germany so she could become engaged to her boy friend, and a business girl wanted the AWVS to arrange her marriage by proxy. (The AWVS could not tackle any of these problems, since all requests for families to be sent overseas must be made by the soldier himself to his commanding officer.) But Miss Gans and Mrs. Pratel helped more than 100 other women straighten out scores of perplexing details and smoothed their moves from a country of comparative plenty to one ravaged by war. The wife who gave them the biggest chuckle was the one who insisted on sending a crate of hatching eggs to her husband in Germany, so she would have chickens when she arrived.

MOSTLY WATER
Half of Holland's area consists of artificially drained and reinforced marshes. The land is traversed at regular intervals by a wide canal. Windmills pump the water from these canals to other canals of higher levels, and through these the water runs to the sea.

A STITCH IN TIME RENEWS OLD TOGS

By ALICIA HART
NEA Staff Writer

Reinforce new clothes at seams, hems, plackets, pockets and necklines before they're worn, and you can usually save yourself the chore of tedious mending later on and give many garments a much longer life.

For that reason, clothing specialists of the U. S. Department of Agriculture suggests overcasting raw edges of seams. Or better still, machine-stitching near the edges before overcasting. This advance stitching, the experts point out, saves seams that have been cut too close from fraying or coming apart. Tape applied underneath those points of a garment which come in for special strain—end of a placket for example—is also suggested. Another reminder is that necklines and collars not cut on the straight of the goods can be prevented from stretching or tearing by sewing tape on the underside of the outer edge or by ripping open the facing to reinforce with tape, sewed next to the edge, and re-stitching.

A stitch in time suggested for carelessly made buttonholes which never look the same after they tear, is a simple reworked blanket stitch used before the button goes in.

MANY TALENTS

Leonardo da Vinci, famous artist, spent more time in scientific study than in painting. He wanted to fly, and even built plans for a flying machine. He wrote all his theories and observations in reverse, so that they could be read only when held up to a mirror.

FOR GIRLS ONLY...

Looking for a job? Good pay? Pleasant working conditions? A chance to get ahead? Here it is!

The telephone company needs more operators. Starting rates in Midland are now \$26 for a 40-hour week, and, by the end of the first year, you can be making as much as \$32 a week at this interesting job for girls.

Supervisors' jobs are filled by experienced operators, so there are real opportunities for girls in Midland.

If you would like to find out more about it, drop in with your questions at the office of the Chief Operator, Telephone Building.
