

Child Survives Crash Killing 23

Two-Year-Old Boy Found Sitting Near Wreckage Of Airliner Which Split Open In Nevada Fall

ELKO, NEV.—(AP)—Splitting open when it struck a low hill only two miles from the Elko airport, a Trans-Luxury Airlines two-engine plane crashed Thursday, killing probably 23.

There was one survivor, a two-year-old boy who was found sitting about 100 feet from the shattered wreckage.

Airline officials at San Francisco said the plane had 24 persons aboard, including the crew, when it took off from New York Wednesday for the West Coast city, where it was due at 5:45 a. m. CST Thursday.

Bodies of many of the passengers were strewn in a 2,100-foot area about the wreckage. Rescue parties led by Deputy Sheriff Edward Lundberg, brought 17 bodies from the scene and Lundberg said other bodies were believed still in the twisted cabin.

The left side of the plane was split and fire broke out in the nose of the ship. Smoke continued to stream from the wreckage five hours after the crash, which occurred about 4 a. m. CST.

The plane, a DC-3, was piloted by Kenneth Campbell of North Dakota, and the co-pilot was Harry Leatherman of Miami. Marjorie Cox of San Francisco, stewardess.

Shortly before the crash, the pilot radioed the Elko airport for landing clearance. He gave no indication of any difficulties.

Then came word the plane had cracked up and the smoking wreckage was found an hour and a half later.

The plane, a Douglas DC-3, was reported to have made its last stop at Cheyenne, Wyo. It was on a chartered flight with a passenger list made up of applicants desiring to go to San Francisco.

The terrain is relatively flat in the immediate vicinity of Elko, although there are mountain ranges both east and west of the north-eastern Nevada town. The weather was reported favorable for flying.

Bodies, baggage and equipment were scattered in every direction. Both engines were hurled 100 feet.

Elko is 225 airline miles northeast of Reno. The hill which the plane struck is low with a flat top several acres in area.

Yugoslavia To Release Three U. S. Sergeants

WASHINGTON—(AP)—Yugoslav authorities have agreed to permit the departure of three American Army sergeants detained in Belgrade since early February, government officials disclosed Thursday.

These officials said the Yugoslav government finally had yielded to persistent American embassy demands that the men be granted safe conduct out of the country.

It was not known here whether the Americans have actually left the United States embassy in Belgrade where they have been under protective custody for nearly seven months.

The Yugoslavs had charged the trio with complicity in the shooting of a Russian soldier but the embassy and the United States War Department contended it was a case of mistaken identity.

The men were identified several weeks ago as S/Sgt. Kenneth E. Schussel of San Francisco; S/Sgt. Chester B. Scott of Nashville, Tenn., and T/Sgt. Theodore Nelson of Centerville, Calif.

Officials here said it is likely the three men will leave Yugoslavia as soon as possible, if they have not already done so.

Wednesday night Senator Knowland (R-Calif.) disclosed he had urged the Senate to place a complete embargo on all American shipments to Yugoslavia unless the three sergeants were released by 3 p. m. (CST), Saturday.

The 17-year-old student's newest attempt on his life came as the state prepared to close its presentation of evidence upon which Chief Justice Harold G. Ward, of the Criminal Court, will determine the penalty to be levied against him.

The state reportedly is not going to ask for the death penalty but will recommend that the University of Chicago sophomore with the rare dual personality be given a series of sentences which will insure his imprisonment for the rest of his life.

Heirens, without any apparent emotion, Wednesday entered pleas of guilty to 29 indictments, including the kidnap-killing of little Suzanne Degnan and the murders of two Chicago women.

Attend AAA Parley
James A. Boyd, executive, and Mrs. L. W. McSpadden, clerk, of the Midland County AAA office are attending a district meeting in Big Spring.

Seaboard Oil Company of Delaware No. 1, J. D. Jenkins, North-Central Lubbock County wildcat, in the Mogrore townsite and in north-west quarter of section 27, block D, LS&V survey, encountered light porosity and oil stain at 6,004 feet, in a soft lime and is now coring below 6,010 feet. The core is expected out of the hole late Thursday afternoon. It is reported that the No. 1 Jenkins is about 70 feet high on the Tubb to the same company's No. 1 Cravens, a small producer about two miles northwest.

Superior Oil Company No. 3-A-12 University, 1,980 feet from north and 660 feet from west lines of section 22, block 12, University survey, and three-quarters of a mile south of the discovery well of the Block 12 field, in Southwest Andrews County, tested for 336 barrels of oil flowing in 12 hours from the upper section at about 7,061-7,130 feet, and is preparing to complete and put on production.

Total depth is at 7,245 feet. The bottom formation has also tested for flowing oil of a commercial quantity.

Albaugh Lost Circulation
Ray Albaugh No. 1 Sutton, South-Central Lynn County wildcat, about seven and one-half miles northwest of O'Donnell, and in southeast quarter of section 22, block H, EL survey, was bottomed at 6,741 feet in lower Clear Fork lime, and was mixing mud to try to regain circulation.

Informal sources report that the circulation was lost when a soft, possibly porous section was encountered. So far no cuttings from the formation have been brought to the surface, and as a result it has not been possible to determine where there are any signs of oil in the horizon.

King George of Greece, victor in the recent Greek election, right, smiles broadly as he is congratulated by M. Basil Mostras, member of the Greek Embassy staff.

Kidnapped Girl Escapes Men After Wild Ride Across Nation

RICHMOND, VA.—A wild ride across half of the United States ended here Wednesday for an 18-year-old Sulphur Springs, Texas, girl and the arrest of two soldiers who admitted forcing her at gun point to drive them to Virginia from Texas.

The girl, Miss Ruth Teague, was unharmed.

The soldiers were arrested after a high-speed chase Wednesday night on U. S. Route 1, near Ashland, in which police shot a rear tire off the car in which the soldiers were riding.

Troopers E. R. Callis and O. C. Trice, who made the arrests, identified the soldiers as Frank Valentine Fannular, 20, of Jersey City, N. J., and Clarence F. Kummert, 19, of Pittsburgh, Pa.

The troopers said the pair admitted being AWOL from Camp Hood, Texas.

Callis said the youths were lodged in the Henrico County jail here, where they were charged with arming, holdup, automobile theft and kidnaping four persons in Texas.

At Farmville, Va., Police Sergeant W. J. Beasley said that Miss Teague came to police headquarters and reported that he had been forced to chauffeur the soldiers after they had been picked up by Miss Teague, W. S. Dosssett and Ruth Burney, all of Sulphur Springs, early Tuesday near that Texas town.

Miss Teague told Farmville police that the soldiers forced her companions from the car at Texarkana.

She said she escaped when the soldiers left the car momentarily at a filling station to buy gas. While the youths were absent from the car, she drove away, she said, and proceeded to Farmville where she reported her plight to the police.

Not Mistreated
She said she had not been mistreated during the long drive from Texarkana to Richmond but that she had been permitted to eat and sleep very little.

Police quoted the soldiers as saying that upon being stranded at the filling station they hitch-hiked into Richmond where they obtained a ride in a car driven by Wilson Abernathy, 21, of Richmond and occupied by his sister and another couple.

Abernathy told police that two soldiers pulled guns, said it was a holdup and told the driver to keep driving.

Later, one of the couples was ordered out of the car on the outskirts of Richmond, police said. They proceeded to a nearby filling station for assistance and a negro employe at the station followed the car north on Route 1.

When the negro caught up with and passed the car he did so without indicating recognition. In doing so, however, his rate of speed attracted the attention of Callis and Trice. When he was detained by the troopers he explained to them the situation as told him by the couple forced from the car he was pursuing.

The troopers then gave chase to the car occupied by the soldiers and effected the arrests by sending bullets through a rear tire of the fleeing vehicle.

At Texarkana, Dosssett told police that he had picked up two youths dressed as soldiers at Sulphur Springs early Tuesday and agreed to drive them to Texarkana after they had offered him \$12 to do so.

He said that he, Miss Teague and Ruth Burney had been riding around in Sulphur Springs when he picked up the pair.

Near the outskirts of Texarkana, he said, they picked up Condary Keith, who made the sixth occupant of the car.

Shortly thereafter the men suddenly pulled a gun and slugged Keith, knocking him unconscious. Later they forced Dosssett and Miss Burney from the car and fled with Miss Teague as their prisoner.

AFL Seamen Begin Nationwide Strike

Greece Charges Soviets Waging War Of Nerves

LAKE SUCCESS, N. Y. — (AP) — Vassili Dendramis, Greek representative to the United Nations, charged Thursday that the Soviet Union is carrying on a "war of nerves" against the Greek government. He vigorously denied accusations that Greece is threatening the peace of the Balkans.

Dendramis appeared before the United Nations Security Council to present Greece's answer to the charges made Wednesday by Dmitri Manuilsky, foreign minister of the Soviet Union, and outlined earlier by Andrei A. Gromyko, the Soviet Union delegate to the council.

The Greek representative called today's situation, in which Greece for the second time in the year has been called on to defend itself before the Security Council, a "bitter drama."

Denies Charges
Instead of threatening the Albanians and Bulgarians, Dendramis said, Greece is more than ever devoted to peace. He called the Albanians and Bulgarians "hideous collaborators" in the war.

Referring to the Ukrainian accusation that the Greek government has instigated incidents on the Albanian border, Dendramis said no armistice ever has been signed with Albania and that Greece and Albania still are at war.

Referring to the Ukrainian accusation that the Greek government has instigated incidents on the Albanian border, Dendramis said no armistice ever has been signed with Albania and that Greece and Albania still are at war.

Secretary General Trygve Lie announced Wednesday night the assembly would convene in New York September 23 as scheduled, despite Soviet Russia's action in proposing to the Big Four Foreign Ministers' Council in Paris Thursday that the session be postponed to November and be shifted to Paris or Geneva.

Lie emphasized that no formal request for a postponement had been received here and disclosed that President Truman had been invited to make the welcoming address.

Defense Takes Stand In Trial At Garden City

GARDEN CITY — Photographs and a "confession" were introduced by District Attorney Martelle McDonald Wednesday as Earl H. Williams, 48, went on trial for his life.

McDonald was asking the death penalty for Williams, who is under indictment for the slaying of his wife, Beulah, in a shanty on the Roy C. Davis ranch in northern Glasscock County on July 7.

At the outset of the trial, McDonald introduced ten photographs taken at the scene of the slaying, showing the woman's body lying on the floor of the ranch house. The pictures were shown to the jury over the strenuous protests of defense attorneys, who objected and later took exception when 70th District Judge Cecil Collins overruled them.

The first witness for the state was Dr. Clyde E. Thomas, Jr., son of the defense counsel, who made the medical examination of the slain woman. He testified that her death resulted from a broken neck.

Billie Ray Williams, 17-year-old son of the couple, told of quarrels between his father and mother and how they persisted in sobriety and warmed into physical violence when they were drinking. He visited their shanty the afternoon before the body of his mother was discovered and found them drinking.

The youth testified that his parents had been drinking at intervals "for a long time" and "easily quarreled when drinking" and "had fights in which mother hit father."

Other state witnesses included Sheriff Walter Teale, who told of the condition of the ranch house where Mrs. Williams' body was found on July 7, about the arrest of Williams, and about a written statement made by the defendant which was admitted as evidence.

Defense witnesses included two brothers and two sisters of the defendant, a café owner and waitress from Wink, the chief of police from Kilgore, and numerous other friends and relatives of the defendant. These witnesses told of several times when Mrs. Williams had hit her husband with a shoe or other instrument, and painted her as a woman who drank frequently and nagged her husband consistently.

Weather
Continued warm Friday with scattered clouds in the afternoon. Maximum temperature Wednesday was 91 degrees, minimum 69 degrees.

Railroads Order Embargo On Shipment To Ports

WASHINGTON—(AP)—The Association of American Railroads Thursday ordered an embargo on all railroad freight shipments to ports, with certain exceptions, as a result of the shipping strike.

The embargo is effective immediately. It applies to all carload and less-than-carload freight consigned or reconsigned to any port area and intended for export, coastwise or inter-coastal movement by water, including export freight intended for storage within the port area, with these exceptions:

1. Grain, soybeans, flax seed and malt in bulk.

2. Petroleum or petroleum products in tank cars to be unloaded from cars before overseas movement.

3. Coal or coke in bulk when moving to ports Hampton Roads and north.

4. Freight consigned to the Army, Navy, Marine Corps or Coast Guard.

5. Freight for storage when consigned to public warehouses or in care of the port terminal carrier for carrier storage, providing prior arrangements have been made for such storage.

6. Freight covered by numbered permits issued by district managers of the association.

The association said the embargo was issued as a result of "the threatened strike of maritime workers and to prevent congestion at ports."

On the contrary, May declared, he still has coming at least \$659,317 out-of-pocket expense.

The letter and accompanying statement were made public by Daniel J. Anderson, one of May's Washington attorneys.

"At the present time," May wrote Mead, "I am able to be out of bed a short time in the morning and afternoon. Should your committee desire to conduct further examination of me I would be very happy to meet with a subcommittee here in Prestonburg now, per your desire as expressed in a recent news release, or at any later date as determined by my physician, in formal session in Washington."

The Kentuckian became ill on the eve of his previous scheduled appearance.

DANIELS RANCH TO BECOME FARM TRACTS

GARDEN CITY — (AP)—Farmers are moving into the Glasscock county, long a paradise for ranchmen.

James Daniels, manager of the Daniels Ranch, 10 miles south of Garden City, said the ranch will be broken up and sold for farms.

On the contrary, May declared, he still has coming at least \$659,317 out-of-pocket expense.

The letter and accompanying statement were made public by Daniel J. Anderson, one of May's Washington attorneys.

Dispute Arises Over Ruling Of US Wage Board

NEGOTIATIONS FALL TO SECRETARY OF LABOR

NEW YORK—(AP)—AFL seamen struck in Atlantic, Pacific and Gulf ports at noon Thursday in a tieup union leaders predicted would stop all saltwater shipping.

President Truman announced that the dispute over limitation of negotiated wage raises by the Wage Stabilization Board was in the hands of Secretary of Labor Schweitzer.

In New York and Baltimore, members of the Seamen's International Union and the Seamen's Union of the Pacific began walking off ships several hours before the scheduled hour.

Shortly after noon John Hawk, vice-president of the SIU, announced here "the strike is on; it is in effect and 100 per cent effective."

The strike involved approximately 100,000 AFL seamen and 300,000 other AFL union members and the CIO National Maritime Union which has announced it would observe picket lines.

As Truman announced at his press conference that Schweitzer now was handling the problem but that he would act when it was put before him, the Association of American Railroads embargoed most railroad freight shipments to ports.

Picket Lines Friday
Longshoremen worked throughout the forenoon in New York but Charles Spender, secretary of the New York District Council, International Longshoremen's Association (ILA), said New York's 25,000 longshoremen would respect picket lines as soon as they were established Friday.

Hawk said he was unable to give definite figures on the number of seamen who had left their ships but asserted that seamen streaming into union headquarters here were men who had quit the ships ahead of schedule and were reporting for strike duty.

Strike plans "are rolling" asserted Hawk, adding: "We will stay rolling until the decision of the Wage Stabilization Board is reversed."

The strike call by the Sailors Union of the Pacific and the SIU came (Continued on page 4)

NEGRO SHOT FOUR TIMES IN AFFRAY

WIFE CONFESSES

A 42-year-old negro woman, the wife of Willie White, was held in the city jail Thursday after she came to police headquarters and reported she had shot her husband in a fight Wednesday night.

Police found White had been shot four times with a pistol. He was taken to a Midland hospital where his condition is serious.

The shots entered his stomach and side.

The negro woman said she shot six times.

She said there had been a fight. She has an injured hand, which was said to have been inflicted with a knife during the fight.

White is an employe of a tailor shop in the city.

ARMY CLEARS GARSSON COMBINE OF MAKING DEFECTIVE SHELLS

WASHINGTON—(AP)—The Army Thursday cleared the Garsson munitions combine of any responsibility for defective 4.2 mortar shells which killed 38 American soldiers and injured 127.

A War Department report attributing the shell defects to faulty fuses was given to the Senate War Investigating Committee. The report said there were four principal manufacturers who produced the defective fuses. The concerns headed by Henry M. Garsson, the report said, made only the shells themselves.

The report, released at the War Department, names these firms as the principal makers of the fuses:

William Fencil Company, Huntly, Ill.; Milwaukee Stamping Company, Milwaukee; Casco Products Corporation, Bridgeport, Conn.; National Fire Works Company, Westborough, Mass., described as a subsidiary of Casco.

Geological Field Trip To San Juan Basin Is Set For Sept. 20-22

A number of geologists of Midland and other Permian Basin oil centers are planning to join the field trip to the San Juan Basin in Northwest New Mexico, on September 20-22, according to Charles A. Shaw, secretary of the West Texas Geological Society. A supply of bulletins giving a detailed outline of the trip and all items connected with it was received by the society this week and they may be secured from William A. Waldschmidt, at Argo Oil Corporation, 202 West Texas Gas Company Building. The San Juan Basin has been getting a "hot" play, on leasing and mineral rights buying and that is causing widespread interest in the geology of the region. The field trip is to be conducted by the New Mexico School of Mines and the New Mexico Bureau of Mines and Mineral Resources.

 MIDLAND — Scharbauer Hotel, Sun. Sept. 8th—from 1 to 7 p.m.

Average School Attendance Grows

Average daily attendance at Midland schools has increased proportionately with the growth of the city and enrollment increases. The average daily attendance is charted since 1934-35:

Years	Attendance
1934-35	649
1935-36	763
1936-37	1,272.56
1937-38	1,496.54
1938-39	1,573.09
1939-40	1,750.31
1940-41	1,775.18
1941-42	1,882.5
1942-43	1,905.82
1943-44	1,946
1944-45	2,099.95
1945-46	2,224.19

Six Bus Routes Are Operated Into City

Six bus routes bring students to Midland schools from community areas. They are: the Pleasant Valley route from the northwest; the Warfield route from the west; the Cotton Flat route from the south or the Rankin Road; the Stephenson route which is from the southeast; the Valley View route also from the southeast; and the Tank Farm area route, which is from the northeast on the Lamera Road. Prairie Lee is the only school in Midland County besides the city system. There students go from the first through the eighth grade and then transfer to Midland High School. This is the second year Midland schools have operated a transportation system. Two new buses are on order.

Once Sentenced To Death, Man Now Free

SALT LAKE CITY—(AP)—Utah prison's "forgotten man" is now a free man, 20 years after he was supposed to forfeit his life before a legal firing squad. He is a gap-tooth Japanese named Masota Karumai, but everyone at the penitentiary called him Charley. When he was pardoned recently, Charley was given a new suit and \$53.83. The state gave him the usual \$10; he had earned the rest by odd jobs. Charley was convicted of killing another Japanese in a gambling quarrel at Helper, Utah, in 1925 and sentenced to death. He appealed to the state supreme

Most Of Texas Crop Lands In State Get Good Rains Recently

AUSTIN—(AP)—The United States Department of Agriculture reported Thursday that moderate to heavy rains in the last two weeks covered practically all cropland areas of the state, breaking the drouth. Western counties of the Edwards Plateau and a few adjacent counties of the high plains and low rolling plains were still deficient of moisture, although somewhat improved from the critical drouth situation of recent weeks. Some northeast and a few extreme southern counties were still short on subsoil moisture. All growing crops and grasses were benefited by weather conditions of the past week, said the USDA report. Wet fields showed harvesting and plowing activity. A crop-by-crop report: Late planted sorghums—all areas benefited, particularly those of the northwest. Late-planted cotton—Benefitted over most of the northern half of the state, with rains checking premature opening of the bolls. Plant growth and fruiting of young cotton was stimulated, but the threat of damage from boll weevils and other insects was increased. Cotton harvest was retarded in the southern half of the state by wet fields, and the quality of opened cotton was reduced in grade. The general rains renewed life of range and pasture grass, but rain was still needed to assure fall range feed in most of the western Edwards Plateau and trans-Pecos counties. Calves and lambs came through the summer drouth period in fair to good flesh, but some mature cattle and sheep were thin, the USDA reported.

court and was sent to the state mental hospital for examination. The prison and the courts forgot about Charley for more than eight years and even after he was returned to the penitentiary from the hospital, the death sentence seemed to have slipped official minds. Finally in 1942, the oversight was caught, but the pardons board commuted the sentence to life imprisonment. Good behavior and a talent for good-naturedly sticking to his dishwashing and other chores did the rest for grinning Charley.

Elementary School Zoning Is Outlined

New zoning for attendance at elementary schools was announced for this year. It is: New West Elementary School: All students of elementary school age residing north of the Texas and Pacific railroad, west of Pecos Street and south of Wall Street, including those on the south side of Wall Street, and all students residing north of Wall Street and west of I Street, including those residing on the west side of I Street. Students on the west side of Pecos Street also will attend this school. North Elementary school students residing north of the railroad. South Elementary School: All elementary school students residing south of the railroad. Students who ride buses will be assigned to one of three schools in a manner which will divide the load between the schools. Half-day schedules will be held at the North Elementary School until the completion of the West Elementary School to accommodate the students of both schools.

One-half of all traffic deaths occur during dusk or darkness.

Take Off Ugly Fat With This Home Recipe

Here is an inexpensive home recipe for taking off unpalatable weight and helping back ailing curves and graceful slenderness. Just get from your druggist, four ounces of Liquid Barocitrate (formerly called Barcol Concentrate). Add enough grapefruit juice to make a pint. Then just take two tablespoonsful twice a day. Wonderful results may be obtained quickly. Now you may slim down your figure and lose pounds of ugly fat without back breaking exercise or starvation diet. It's easy to make and easy to take. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slender, more graceful curves, return the empty bottle and get your money back.

WESLEY BIBLE CLASS IS ENTERTAINED AT ALLEN BAILEY HOME

Mrs. Allen Bailey entertained the Wesley Bible Class of the First Methodist Church with a dinner party Tuesday evening at her home, 607 North Colorado.

Various games were enjoyed during the evening. Miss Irene Bailey read two poems written by her mother, "Beauty in Christian Life" and "Post Not Far Away." After Miss Bailey and her mother, Mrs. Allen Bailey, sang "Sometimes He Answers No," the group sang "Blest Be the Tie That Binds."

Mrs. Mary S. Ray led the closing prayer. Those present were Meses, Minnie Crumley, W. A. Black, Allen Bailey, S. H. Gwyn, S. E. Hall, Lela Hedges, J. M. Hughes, H. S. Merriam, T. A. Fannin, Mary S. Ray, J. M. Reising, L. C. Stephenson, Mary Lou Snodgrass, F. H. Wilmoth, M. L. Wyatt, Ida Neeb, Amelia Hawkins, and Miss Irene Bailey.

Miss Faye Powers Attends Brother's Wedding

Miss Faye Powers has returned to Midland after attending the wedding of her brother, J. Truett Powers, and Miss Minnie Dear Schaffer, solemnized Monday in the Brook Avenue Baptist Church in Waco.

Vocal selections at the formal wedding were presented by Miss Powers. The wedding reception was held at the home of Mr. and Mrs. Cliver P. Chambers, uncle and aunt of the bride.

Mr. Powers had visited his sister in Midland on a number of occasions.

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, SEPT. 5, 1946-3

Mrs. Ivalee Hobden To Direct Girl Scout Work In Permian Basin

Mrs. Ivalee Newell Hobden, new executive director for the Permian Basin Area Girl Scout Council, was in Midland Wednesday to confer with local Girl Scout Council members.

The new director stated that much progress had been made in the local unit since its organization in 1934. She reported that an extensive program has been planned for the year for Midland and the other cities in the newly organized Permian Basin Area Council.

Members discussed the urgent need of a building to serve as a center for all Girl Scout activities. Another need of the organization is workers, and anyone interested in this work is asked to call Mrs. S. P. Hazlip, Mrs. William Wolmsley, or Mrs. C. E. Bissell.

Announcement was made by Mrs. Bissell, organization chairman for the council, that a majority of the troops plan to start regular meetings the second week after the beginning of school. New troops will be formed as soon as leaders and meeting places are obtained.

Mrs. O. L. Hearren, program chairman, reported that plans are being made for observance of National Girl Scout Week October 27-November 2. Mrs. I. A. Searles and Mrs. M. F. McDaniels are in charge of arrangements for the event.

Mrs. Hobden is enthusiastic about her first year's work in Girl Scout Activities. During the war she served with the American Red Cross as director of recreation in Army hospitals. Before that time she was state music specialist for Texas WPA Project. She has many years experience with choral work and is a talented violinist. She played one season with the Dallas Symphony Orchestra.

Midland Scout work was formerly under the supervision of Miss Mary Miller, director of the West Texas Area, before the organization of the Permian Basin Council.

M. A. Floyds To Entertain With Watermelon Supper Saturday At Cloverdale

Mr. and Mrs. M. A. Floyd will be host and hostess for a watermelon supper at 7:30 p. m. Saturday at Cloverdale Park honoring members of the Masonic Lodge, Eastern Star and Star Club.

All members of these organizations are invited to be present for the entertainment.

Exercise Wakes Sleepy-Time Gal

TEE MATTHEWS, Surf skimmer.

BY ALICIA HART NEA Staff Writer

The "11 o'clock morning glory" —sleepy-time gal who must not only be up and about before she mentally wakes up but must sparkle, seem alert and be glib-tongued—has her problems. Biggest is that of holding her own with early-rising and oh-so-cheerful office colleagues, boss, other house guests or vacationing companions.

What to do, if that's you, is to stir yourself out of your moth-like state. Exercise—brisk enough to wind up the mechanism of the body before it normally starts clicking—will do it.

A session on an exercise mat before coming down to breakfast is many a sleepyhead's method of speeding up a delayed action. A jog trot out of doors is as good an eye opener. So is a brisk climb up a hill or a few leaps through a jumping rope.

But swimming or water sports are best, if you're a lucky vacationer who finds water at your door. A sunny picnic need have no terrors for a girl who can first take a swim—or, like water-ski champ Tee Matthews, Cypress Garden, Fla., and New York City model, skim through the surf—to shock sleep out of the system and arouse a special brand of sparkle.

If there isn't time for exercise before you meet your public, the next best eye-opener is an icy shower bath. To rinse sleep from your system in the shower stall, focus the stinging spray at the top of your head and at the back of your neck.

MRS. D. H. CARDWELL TO RETURN FROM TYLER

Mrs. D. H. Cardwell and son, Bob, will return home Sunday from Tyler where they have been with her father, C. F. Cardwell, who was seriously injured in an automobile accident. Mr. Cardwell's condition is reported to be slowly improving.

CONGRATULATIONS TO

Mr. and Mrs. J. D. Woodruff on the birth Thursday of a son, Ronald Dale, weighing five pounds and nine ounces.

STAR CLUB MEMBERS STUDY CERTIFICATE WORK AT MEETING

Members of the Star Club studied A and B certificates at a meeting Wednesday evening in the Masonic Hall. The study was under the direction of Ima Joy McCoy.

During the brief business session announcement was made that the next meeting will be in form of a covered-dish luncheon at 1 p. m. September 18 in the Masonic Hall. Officers will be elected at this session.

Those present were Meses, Cora Moulton, Ima Joy McCoy, Florence Floyd, Minnie Crumley, Elsie Sarison, Elizabeth Wright, Dennis Stephenson, Jerry Cuveller, Pat Murphy, Lula Wycoff and Juanita Collins.

100 HEREFORDS SELL FOR ESTIMATED \$17,000

AMARILLO — (AP) — Sale of approximately 100 head of purebred Herefords here Wednesday realized an estimated \$17,000, officials of the Panhandle Registered Hereford Sales Company have announced.

Top cow in the consignment brought \$270. The top bull brought slightly over \$200.

It has been estimated that triplets can be expected once in 7569 births in the human family.

'Pigskin Preview' To Be Presented Saturday

A "Pigskin Preview" for 1946 will be held at the high school stadium Saturday evening and will be free to the public.

It is sponsored by the Bulldog Booster Club. Players, coaches, and other school officials will be introduced.

Also the coaches will put the 1946 Bulldogs through some paces for the public.

Officials probably will explain some of the new rule changes for this year.

This is a public presentation of the Bulldogs and all backers are urged to attend.

New Odessa Radio Station Authorized

WASHINGTON —(AP)—The Federal Communications Commission has authorized operation of a new radio station at Odessa, Texas. Southwestern Broadcasting Corporation received the permit for a station of 1450 kilocycles, 250-watts power and unlimited time. The application of the Permian Basin Broadcasting Company for the same facilities was denied.

Harding was the first President of the United States who drove an automobile himself.

Can't Keep Grandma In Her Chair

She's as Lively as a Youngster—Now her Backache is better

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Midland County TB Association Hears Activity Reports

Mrs. William C. Imbt was appointed to the board of directors of the Midland County Tuberculosis Association at a meeting Tuesday. Dr. Homer Johnson, president, was in charge.

John J. Redfern gave plans for the 1946 Christmas Seal Sale drive. Mrs. John Hills reported an extensive health education program would be carried out during the next two months, especially among the negroes and Latin-Americans.

Mrs. P. R. Schenk reported the eight Federated Women's Clubs had been contacted and they would each sponsor a health program with a speaker and movie.

Mrs. Nettie Romer made a treasurer's report. Mrs. Linnie Davidson, executive secretary, reported extensive patch testing conducted during the summer and reported that several patients had been admitted to a state hospital from Midland County.

A film was shown to the group titled: "Ease On Life."

Ceiling Lifted From Low-Priced Cosmetics

WASHINGTON —(AP)—OPA erased ceilings from low-priced lipstick, toothpaste and other cosmetics Thursday but put the lid back on meat.

This is the last step in preparation for the return of butcher shop ceilings on Monday.

Simultaneously, OPA promised full-scale warfare on the meat black market, declaring it is keeping a sharp watch on companies in New York and Chicago which are holding big stocks bought at "very high prices."

On still another price front, the Decontrol Board took a second look at ceiling-free milk and butter and apparently decided again that the cost of those items is not "unreasonable."

C-A expects to announce its retail prices for beef, lamb, pork and veal this weekend. They will average about three cents a pound higher than June 30 prices for pork, six cents higher for beef.

Face powder, face cream, foundation cream and similar cosmetic items, if they sell for 25 cents or less an item, are being suspended indefinitely from price control, OPA announced.

In discussing the impending drive against black marketers, Deputy CPA Director George Moncharch disclosed Wednesday night that between 5,000 and 6,000 investigators will be put into the field, to concentrate largely on meat.

Molotov Returns

PARIS —(AP)—Russian Foreign Minister V. M. Molotov returned to Paris Thursday after stopping over at Berlin, the Russian embassy said. Molotov flew to Moscow last Saturday for conferences.

Seamen Strike—(Continued from Page 1)

despite a last minute offer by the WSB to consider a rehearing of its disapproval of the pay boost.

The WSB notified the unions Wednesday it was willing to hold a hearing Tuesday to consider any additional information the unions would offer, and would decide then whether to reconsider the case and vote on its merits.

But Hawk declared in New York that "by Tuesday the ships will have been tied up for five days." He said the WSB had "all the information they needed or were going to get," adding that nothing but a complete reversal of its decision would now satisfy the seamen.

Similar union sentiment was expressed in San Francisco by Harry Lundeborg, president of the SUP, who said: "For my part the board can reconsider a decision to go back to sleep."

Seamen Walk Out Early

Almost 3,000 seamen quit work on the Pacific Coast Wednesday.

Union leaders claimed the strike would take 400,000 workers off their jobs and tie up every port in the United States.

Asked about accepting relief cargoes and troopships, Joseph P. Ryan, president of the AFL International Longshoremen's Association, a member of the trades department, said:

"There'll be no exemptions this time. The dispute is not between the union and ship operators but instead finds both arrayed against the WSB which refused to approve a \$27.50 monthly wage increase to which both parties had agreed. The board held that any raise over \$17.50 would be inflationary."

Secretary of Labor Lewis B. Schwellenbach Wednesday night "most earnestly" asked the AFL unions to call off their strike pending a WSB review next Tuesday.

Maritime Commission officials said no plans had been made for government operation of American flag ships.

N-W Mitchell—(Continued from Page 1)

County wildcat, about eight miles north of Garden City, had reached 10,659 feet in Ellenburger dolomite, and was understood to be making hole.

The Pure Oil Company No. 1 Federal, DeBaca County, New Mexico wildcat, about 13 miles west and north of Fort Sumner was reported to be on a total depth of 6,270 feet, in Pennsylvania lime and was making a drillstem test.

Phillips Petroleum Company No. 1-G TXL, West Ector County wildcat, in southwest corner of section 11, block 46, TP survey, T-1-S, and a west extension to the Wheeler-Ellenburger field, was bottomed at 10,625 feet in Ellenburger lime and was testing a perforated section at 8,460-8,520 feet.

That horizon is understood to be the Devonian and is just below a section which flowed distillate at the rate of 23.8 barrels per hour on a drillstem test.

Operator has not released any information on any shows in the Ellenburger. However, it is understood that the formation is expected to produce, as it is high to the nearest producers on the west side of the Wheeler field.

Cull Stock Stumble Into Chicago Markets

CHICAGO —(AP)—Some weird looking meat animals were strolling into the stockyards Thursday as arrivals at all livestock markets declined drastically in the first week of revived OPA ceilings on hogs and cattle.

Most of the cattle received here for slaughter were dried up cows, offering a highly unappetizing type of meat for consumers. They were practically lost in the great union stockyards which last week were jammed with bawling steers. All former low volume Chicago records were broken Wednesday when only 1,200 cattle, 700 hogs and 800 sheep and lambs arrived. Nearly all of the 8,000 pens were empty.

Father Of Midlander Dies In Oklahoma

J. M. Bradbury, father of George P. Bradbury of this city, died at 8:40 a. m. Wednesday in Chandler, Okla. He was born Oct. 4, 1857, in Tennessee.

He came to Texas with his parents and settled near Austin in 1885. While still a young man he joined the Texas Rangers and was stationed in Midland during the time the Texas and Pacific railroad was being built in West Texas. He had made his home in Chandler since 1892.

Mr. and Mrs. George P. Bradbury were on their vacation in Ojo Caliente, N. M., when they were notified of the serious illness of his father. They were in Chandler at the time of his death.

J. M. Bradbury is survived by his son, George P. Bradbury, who is associated with the Magnolia Pipeline Company in Midland.

Funeral services will be held at 10 a. m. Friday at the Curry Funeral Home in Chandler.

Stock Market Swings Smartly Upward

NEW YORK —(AP)—The stock market swung smartly upward Thursday, extending the late rally of Wednesday which changed the course of a downward plunge that had carved more than \$5,000,000,000 off the value of stocks traded in New York Stock Exchange in the last two days.

Strong plus signs showed up and down the "big board" as trading opened at so brisk a pace that the ticker tape almost immediately began to lag behind floor transactions.

The greater part of the list advanced from fractions to more than \$3 a share in the early burst. Then volume fell off and the market turned quiet, with a number of issues falling back a shade under the best marks.

U. S. Calls Off Air Show Above Athens

ATHENS —(AP)—Plans to parade American airplanes across the skies of Athens were called off Thursday as the U. S. aircraft carrier Franklin D. Roosevelt and escorting vessels reached Greece.

Rear Adm. John H. Cassady, commander of the task force, announced at Naples last Saturday that the Roosevelt would send up 120 planes to write FDR above Athens—"at the request of the Greek government."

A naval attaché of the U. S. embassy, said Thursday the air show had been called off because it could not be integrated into a jammed four-day program.

Persons aboard the carrier interpreted the action as a caution by the U. S. State Department to avoid any martial display while the ships were here. Russian Foreign Minister V. M. Molotov has called the carrier Roosevelt's visit an interference in Greek's internal affairs. The visit was announced prior to last Sunday's plebiscite returning

The international balloon race for the Gordon Bennett trophy is the oldest of aviation contests.

Ranch Hand Charged

SONORA —(AP)—Burley Harrigal, 32, ranch worker, has been indicted here by a Sutton County grand jury on charges of assault with intent to murder.

The charges were filed in connection with a beating received by his wife, Mrs. Harrigal, 24, is in a San Angelo Hospital.

Boles Installed As Price Board Member

Floyd Boles has been installed as a member of the Price Control Board of Midland County.

A meeting of the general board was held Tuesday with these members present: R. W. Hamilton, chairman, J. M. McDonald, John Cornwall, R. D. Scruggs and John Redfern.

The board heard a review of activities since the first of the year. Activities included: 79 conferences; \$676.74 contributed by violators; \$614.79 in refunds of over-charges to customers returned; 10 cases referred to district office, 3 settled to date; total of \$551.74 refunded to purchasers.

Two alleged violators are scheduled for conference Friday. Six cases are held for further investigation. Twelve grocery stores found to be in violation, have received warnings from the board.

U. S. Calls Off Air Show Above Athens

ATHENS —(AP)—Plans to parade American airplanes across the skies of Athens were called off Thursday as the U. S. aircraft carrier Franklin D. Roosevelt and escorting vessels reached Greece.

Rear Adm. John H. Cassady, commander of the task force, announced at Naples last Saturday that the Roosevelt would send up 120 planes to write FDR above Athens—"at the request of the Greek government."

A naval attaché of the U. S. embassy, said Thursday the air show had been called off because it could not be integrated into a jammed four-day program.

Persons aboard the carrier interpreted the action as a caution by the U. S. State Department to avoid any martial display while the ships were here. Russian Foreign Minister V. M. Molotov has called the carrier Roosevelt's visit an interference in Greek's internal affairs. The visit was announced prior to last Sunday's plebiscite returning

The international balloon race for the Gordon Bennett trophy is the oldest of aviation contests.

Barron Speaks At Rotarians Luncheon

T. Paul Barron, a real West Texan, who talks like a West Texan and whose homespun humor is well known in Midland, spoke to Midland Rotary Club members Thursday "on how his hobby developed into a business, saddlery."

His subject was "What a Saddle Is." He brought a saddle to illustrate his talk. George Glass, prominent Midland rancher, showed color films of ranch scenes. Allan Wemple presented accompanying western music.

Addison Wadley, who said he had known Barron all his life, introduced the speaker.

Livestock

FORT WORTH —(AP)—Cattle 1,900; calves 1,000; one lot of choice fat yearlings averaging 530 lbs. at 18.00; mostly steady prices. Common to medium slaughter steers and yearlings 11.00-16.00; medium to good fat cows 10.00-13.50; culler and common cows 8.00-10.00; canners 6.00-8.00; bulls 8.00-12.00; good and choice fat calves 14.00-16.25; common to medium butcher calves 10.00-14.00.

Hogs 50; active; top and bulk price on butchers and sows 16.05; feeder pigs 50 higher at 15.25. Sheep 4.00; active and steady. A few medium grade spring lambs 14.50 down. Bulk of receipts cut, common and medium shorn aged sheep 6.00-5.00; a few medium and good lots 6.75.

Hughes Makes Progress

BEVERLY HILLS, CALIF. —(AP)—The seemingly indestructible Howard Hughes, whose life was spared of for days after an airplane crash July 7, is gaining weight and able to leave his bed at intervals.

His physician, Dr. Vern Mason, made the announcement Wednesday in denying reports that the multi-millionaire sportsman-manufacturer-moviemaker had suffered a relapse.

Lights for night airmail were installed first between Cheyenne, Wyo., and Chicago, Ill.

RUPTURED?

Disillusion because you are not getting the proper support and comfort? Are you one of those unfortunate who has patiently tried all types of trusses only to find little or no relief, falling for the glib mail order ads, or the so-called cut-throat experts spending truly your time and money only to suffer greater disillusionment?

Midland High Offers Distributive Course

Frank Monroe, superintendent of Midland Public Schools, announced Thursday that Distributive Education, a co-operative part-time training program in the field of distribution, will be offered this year in Midland High School. Miss Ruth Donnell has arrived and has assumed the duties of coordinator.

Distributive Education gives boys and girls instruction in their chosen occupations, and at the same time actual job experience in Midland business houses. Many of the students who received training in the program last year are returning to continue their work.

Areas of training offered by the Distributive Education program are: department stores, florists, men's stores, shoe stores, auto accessory parts, grocery stores, specialty shops, furniture stores, wholesale houses, office supplies, women's dress shops, music stores, appliance shops, hardware stores, jewelry stores, advertising, display, and all other distributive businesses.

Dreamboat Pilot

Col. Clarence S. Irvine, above, will pilot the converted B-29 Superfortress "Dreamboat" on its attempted non-stop flight from Hawaii, across the polar ice cap to Cairo, Egypt. He will also be attempting to break his own distance record, set last November, by his 8198-mile flight between Guam and Washington.

Midland Schools Are Fine Plants Of Which City Can Be Very Proud

The Midland Independent School District has always been proud of its excellent and well-kept school plant. The first two school buildings in Midland were of frame construction. In 1896 they were replaced by a \$9,000 brick building which was paid for by public subscription. In 1926, this building was replaced by the present Senior High School building. At that time, it consisted of six regular classrooms, one science laboratory, and one home economics room.

The present plant of the Midland Independent School District is made up of the Senior High School, the gymnasium, the Junior High School, the North Elementary School, the South Elementary School, the West Elementary School, the Latin-American School, the Carver School, the athletic field, and the bus unit consisting of an iron and steel barn and a frame dwelling occupied by the maintenance foreman.

The material of which each school building is constructed is brick and tile. All are fireproof and are steam heated. The equipment on the playgrounds and the furniture in the buildings is as modern as is available at this time.

Senior High School
In 1926 the present Senior High School was built at a cost of \$150,000. It now consists of twelve regular classrooms, three well furnished home economics rooms, two commercial rooms for typing and book-keeping, one lecture room, one physics laboratory, one chemistry laboratory, an auditorium with a seating capacity of 612, three general supply rooms in addition to those in each department, a depository for free textbooks, an attractive teachers' lounge, a well equipped 5,000 volume library with a seating capacity of 120, two offices used by the superintendent of schools, and the office of the principal of high school.

The Senior High School enrolls all students of the ninth, tenth, eleventh and twelfth grades of Midland County. At the present time the Midland Schools have 60 units of affiliation.

Gymnasium
The second Senior High School unit, the gymnasium, was erected in 1938, at a cost of \$80,000. The building provides a 94x60 foot gymnasium with a seating capacity of 400, ample locker space for both boys and girls, a manual training shop, a room for diversified occupation classes, a band room, six practice rooms, an office for the athletic coach, one for the boys' physical education instructor, one for the girls' physical education instructor, one for the bank director, and store rooms for each department.

Junior High School
In 1928 the Midland Junior High School was erected at a cost of \$100,000. It consists of fifteen regular classrooms, an auditorium, a library of 2,500 volumes, a free textbook depository, the principal's office, a well equipped teachers' lounge, three supply rooms, one large storage room in the basement, a large athletic field, and a two-room stucco and tile building equipped with lockers and showers for the boys. The Junior High School enrolls all children of Midland County who are in the sixth, seventh and eighth grades.

North Elementary School
The Midland North Elementary School was built in 1937 at a cost of \$75,000. It has 13 regular classrooms, a hospital room, a teachers' lounge, a depository for the free textbooks, three supply rooms, a large store room in the basement, a combination gymnasium-auditorium equipped for the visual education program and with a seating capacity of 400, the principal's office, and a cafeteria which was added this year at a cost of \$6,000. Enrolled in the North Elementary School are a little more than one-third of the children of Midland County of the first, second, third, fourth and fifth grades.

South Elementary School
The Midland South Elementary School which is in the process of construction will replace the present building built in 1909 at a cost of \$14,000. The structure now in use consists of seven regular classrooms, the principal's office, a depository for the free textbooks, a cafeteria in basement, and three supply rooms. This building will be replaced by one which is being erected at a cost of \$167,000.

When completed it will have ten regular classrooms, a teachers' lounge, a depository for the free textbooks, the principal's office, a large cafeteria, four supply rooms, and a combination gymnasium-auditorium equipped for a visual education program and with a seating capacity of 500. In this building will be enrolled about one-third of the children of the first, second, third, fourth and fifth grades in Midland County.

West Elementary School
The Midland West Elementary School is being built at a cost of \$167,000. This building will consist of ten regular classrooms, a teachers' lounge, the principal's office, a depository for the free textbooks, a cafeteria, four supply rooms, and a combination gymnasium-auditorium equipped for the visual education program and with a seating capacity of 500. About one-third of the Midland County children in the first, second, third, fourth and fifth grades will be enrolled in this building.

Latin-American School
The present plant of the Latin-American School was completed in 1938 at a total cost of \$14,000. It now consists of four regular classrooms, a depository for the free textbooks, and two supply rooms. The Latin-American children of Midland County in the first, second, third, fourth, fifth, sixth, seventh and eighth grades are enrolled in this school.

Carver School
The Carver School as it is now was completed in 1942 at a total cost of \$14,000. It consists of four large combination classrooms and auditorium, a depository for the free textbooks, the principal's office, and two supply rooms. The colored children of Midland County are enrolled in this school.

Lackey Field
The present athletic field was completed in 1939 at a total cost of \$12,000. In connection with the field is a two-room building equipped with showers and lockers for the boys. The grandstands will seat 4,300 people.

Bus Unit
The bus unit was provided this year. It consists of a dwelling for the maintenance foreman constructed at a cost of \$3,900, and an iron and steel barn with garage equipment to provide storage and maintenance for nine school buses. The barn was built and equipped at a cost of \$9,025.

GI's Get Terminal Pay Through Furloughs
WASHINGTON (AP)—The War Department said Thursday the Army is making a practice now of granting furloughs to enlisted men when they report for discharge at separation stations.

The change was inaugurated on September 1, the department said, to comply with the new GI Terminal Leave Pay Bill which provided cumulated furlough at the expiration of enlistments. This is similar to terminal leave which previously had been granted only to officers.

Under the new system, a department official explained, an enlisted man is given the opportunity to volunteer for extended active duty when he reports to a separation station. The length of the extension corresponds to the number of days accrued leave which he has earned.

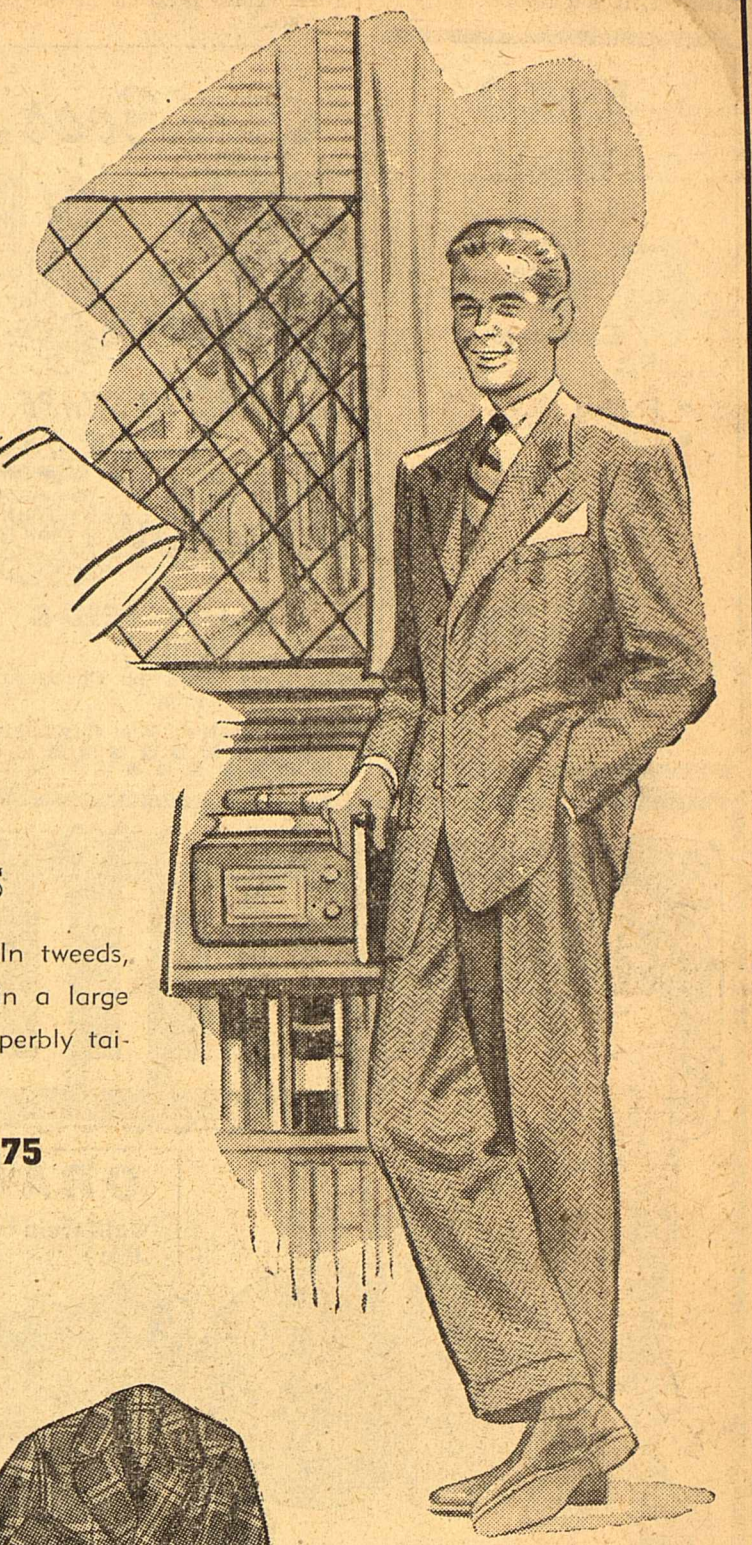

As soon as this is done, the GI is placed on furlough and permitted to go home. He draws full Army pay during that time and may, if he chooses, take a job. At the end of the period, he is discharged.

The process of volunteering for extended duty is required, the official said, to conform with law stipulating that a soldier must be on active duty status to draw his pay.

London plans a World's Fair in 1951 as a demonstration of Britain's recovery from the war.

Entrance REQUIREMENTS

School days are just around the corner as the summer comes to an end. Yes, it is time now to make preparations for the first timers, as well as the "experienced" juniors to go back fit, fine and equipped for a season of learning. Here are a few "entrance requirements" for the new school year.

It's Back To School Monday For Hundreds Of Midland Boys, Girls

It's back to school Monday for hundreds of Midland boys and girls. A record enrollment is expected and school plants will be taxed to capacity.

The system is ready to receive the students. Two new school buildings under construction will not be ready, but emergency plans will be utilized.

Buses again will bring in many students from the community areas of the county.

Everything was in readiness Thursday for the opening Monday. Offices of the superintendent and principals were buzzing with activity as last minute preparations were underway.

School opening time is 8:30 a. m.

Midland Graduates List Gets Larger Each Year

Midland High School expects to graduate its largest group next spring.

Here is the number of graduates by years since 1936-37:

Term Year	Graduates
1936-37	60
1937-38	64
1938-39	75
1939-40	93
1940-41	93
1941-42	93
1942-43	102
1943-44	92
1944-45	114
1945-46	120

Cotton

NEW YORK—(AP)—Cotton prices at noon Thursday were 45 to 60 cents a bale higher, October 36.14, December 36.13, March 35.86.

South Elementary: Inez Luce (principal), Dorothy Mudd, Iola Stiles, Mary Smoot, Mrs. Jack Ellington, Lida Beasley, Mrs. Orpha Littleblad, Mrs. L. M. Aldridge, and Wilda Samuelson.

West Elementary: Wesley Martin, Mrs. Grenade Peters, Mrs. Edwin Boggs, Mary Sue Owen, Mrs. F. B. Kingen, Mrs. Frances Milam, Annie Frank Sout, Marine Trigg, Doris

Wood Sells Interest In Western Company; Will Stay In Midland

Robert L. Wood has sold his interest in The Western Company, oil well acidizing concern operating five stations in the Permian Basin, to H. E. Chiles, Jr., effective September 1.

Wood will continue his association with the company until about the end of the year when he will become active in the management and operation of Frontier Chemical Company, which is now building a \$500,000 industrial plant at Denver City, in South-Central Yoakum County. He also plans to give more time to development of various oil properties in which he and associates are interested.

The Western Company was established by Wood and Chiles in August 1939 at Seagraves. The headquarters of the concern have remained there since. Wood came to Midland in 1941 to represent the organization here and about two years ago set up an office and laboratory for the company in the Thomas Building.

In addition to the original station at Seagraves, the concern now maintains units at Levelland, Frankel City (Fullerton), Eunice, N. M., and Odessa.

No change in the operation of Western will result from Wood's leaving the company. Chiles will continue to direct it.

The Frontier Chemical Company was organized early this year by Wood, Chiles and Curtis W. Cannon, to manufacture hydrochloric acid, caustic soda and commercial salt at the new plant at Denver City. The electrochemical process will be employed in the plant, which will use salt brine as its raw material.

The hydrochloric acid will be sold for use in acidizing oil and gas wells in the Permian Basin, and the soda and salt will be furnished to various petroleum industry operations of this region for various uses.

Wood is active in numerous civic and social organizations in Midland. He is president of the Midland Building Corporation, which has started work toward erection of the new eight-story office building at the corner of West Wall and South Colorado Streets.

He will continue to maintain his home and office in Midland after he discontinues his direct connection with The Western Company.

As School Enrollment Grows So Does List Of Midland Teachers

In keeping with the growth of the number of pupils in the Midland Independent School District, the number of teachers has increased at a corresponding rate.

Following is a table showing the number of teachers employed by the school since 1936:

Year	Teachers
1936	55
1937	61
1938	65
1939	65
1940	74
1941	74
1942	72
1943	72
1944	73
1945	76
1946	92

Four Cafeterias To Operate This Year

When all buildings are completed Midland schools will operate four cafeterias this year.

The 1946-47 term will start with two cafeterias in operation.

Breakfast and supper will be served the teachers at the South Elementary cafeteria until the North Elementary is completed.

Mrs. Edith Wilson of Midland has been employed as cafeteria director for the year. She will serve as food planner and dietitian.

Man Sentenced For Selling Stolen Cars

LAREDO—(AP)—William J. Bickel of New Jersey, charged with violation of the National Motor Theft Act, has been sentenced here in Federal Court to three years in prison in each of three cases.

The terms are to run concurrently. Bickel entered a plea of guilty before Judge Allan B. Hannay. He was accused of transporting stolen automobiles from San Francisco, Buffalo, N. Y., and New Jersey and selling them in Mexico.

WESLEY BIBLE CLASS IS ENTERTAINED AT ALLEN BAILEY HOME

Mrs. Allen Bailey entertained the Wesley Bible Class of the First Methodist Church with a dinner party Tuesday evening at her home, 607 North Colorado.

Various games were enjoyed during the evening. Miss Irene Bailey read two poems written by her mother, "Beauty in Christian Life" and "Post Not Far Away." After Miss Bailey and her mother, Mrs. Allen Bailey, sang "Sometimes He Answers No," the group sang "Blest Be the Tie That Binds."

Mrs. Mary S. Ray led the closing prayer. Those present were Meses. Minnie Crumley, W. A. Black, Allen Bailey, S. H. Gwyn, S. E. Hall, Lela Hedges, J. M. Hughes, H. S. Merriss, T. A. Fannin, Mary S. Ray, J. M. Reising, L. C. Stephenson, Mary Lou Snodgrass, F. H. Wilmoth, M. L. Wyatt, Ida Neeb, Amelia Hawkins, and Miss Irene Bailey.

Miss Faye Powers Attends Brother's Wedding

Miss Faye Powers has returned to Midland after attending the wedding of her brother, J. Truett Powers, and Miss Minnie Dear Schaffer, solemnized Monday in the Brook Avenue Baptist Church in Waco.

Vocal selections at the formal wedding were presented by Miss Powers. The wedding reception was held at the home of Mr. and Mrs. Cliver P. Chambers, uncle and aunt of the bride.

Mr. Powers had visited his sister in Midland on a number of occasions.

SOCIETY

ERMA NICHOLS, Editor

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, SEPT. 5, 1946-3

Mrs. Ivalee Hobden To Direct Girl Scout Work In Permian Basin

Mrs. Ivalee Newell Hobden, new executive director for the Permian Basin Area Girl Scout Council, was in Midland Wednesday to confer with local Girl Scout Council members.

The new director stated that much progress had been made in the local unit since its organization in 1934. She reported that an extensive program has been planned for the year for Midland and the other cities in the newly organized Permian Basin Area Council.

Members discussed the urgent need of a building to serve as a center for all Girl Scout activities. Another need of the organization is workers, and anyone interested in this work is asked to call Mrs. S. P. Hazlip, Mrs. William Wolmsley, or Mrs. C. E. Bissell.

Announcement was made by Mrs. Bissell, organization chairman for the council, that a majority of the troops plan to start regular meetings the second week after the beginning of school. New troops will be formed as soon as leaders and meeting places are obtained.

Mrs. O. L. Hearren, program chairman, reported that plans are being made for observance of National Girl Scout Week October 27-November 2. Mrs. I. A. Searles and Mrs. M. F. McDaniels are in charge of arrangements for the event.

Mrs. Hobden is enthusiastic about her first year's work in Girl Scout Activities. During the war she served with the American Red Cross as director of recreation in Army hospitals. Before that time she was state music specialist for Texas WPA Project. She has many years experience with choral work and is a talented violinist. She played one season with the Dallas Symphony Orchestra.

Midland Scout work was formerly under the supervision of Miss Mary Miller, director of the West Texas Area, before the organization of the Permian Basin Council.

M. A. Floyds To Entertain With Watermelon Supper Saturday At Cloverdale

Mr. and Mrs. M. A. Floyd will be host and hostess for a watermelon supper at 7:30 p. m. Saturday at Cloverdale Park honoring members of the Masonic Lodge, Eastern Star and Star Club.

All members of these organizations are invited to be present for the entertainment.

Exercise Wakes Sleepy-Time Gal

TEE MATTHEWS: Surf skimmer.

By ALICIA HART
NEA Staff Writer

The "11 o'clock morning glory" sleepy-time gal who must not only be up and about before she mentally wakes up but must sparkle and be glib-tongued—has her problems. Biggest is that of holding her own with early-rising and oh-so-cheerful office colleagues, boss, other house guests or vacationing companions.

What to do, if that's you, is to stir yourself out of your moth-like state. Exercise—brisk enough to wind up the mechanism of the body before it normally starts clicking—will do it.

A session on an exercise mat before coming down to breakfast is many a sleephead's method of speeding up a delayed action. A jog trot out of doors is as good an eye opener. So is a brisk climb up a hill or a few leaps through a jumping rope.

But swimming or water sports are best, if you're a lucky vacationer who finds water at your door. A sunrise picnic need have no terrors for a girl who can first take a swim—or, like water-ski champ Tee Matthews, Cypress Garden, Fla., and New York City model, skim through the surf—to shock sleep out of the system and arouse a special brand of sparkle.

If there isn't time for exercise before you meet your public, the next best eye-opener is an icy shower bath. To rinse sleep from your system in the shower stall, focus the stinging spray at the top of your head and at the back of your neck.

MRS. D. H. CARDWELL TO RETURN FROM TYLER

Mrs. D. H. Cardwell and son, Bob, will return home Sunday from Tyler where they have been with her father, C. F. Cardwell, who was seriously injured in an automobile accident. Mr. Cardwell's condition is reported to be slowly improving.

BYRNES IN BERLIN

STAR CLUB MEMBERS STUDY CERTIFICATE WORK AT MEETING

Members of the Star Club studied A and B certificates at a meeting Wednesday evening in the Masonic Hall. The study was under the direction of Ima Joy McCoy.

During the brief business session announcement was made that the next meeting will be in form of a covered-dish luncheon at 1 p. m. September 18 in the Masonic Hall. Officers will be elected at this session.

Those present were Meses. Cora Moulton, Ima Joy McCoy, Florence Floyd, Minnie Crumley, Elsie Sarison, Elizabeth Wright, Dennis Stephenson, Jerry Cuvelier, Pat Murphy, Lula Wycoff and Juanita Collins.

100 HEREFORDS SELL FOR ESTIMATED \$17,000

AMARILLO — (P) — Sale of approximately 100 head of purebred Herefords here Wednesday realized an estimated \$17,000, officials of the Panhandle Registered Hereford Sales Company have announced.

Top cow in the consignment brought \$270. The top bull brought slightly over \$200.

It has been estimated that triplets can be expected once in 7569 births in the human family.

'Pigskin Preview' To Be Presented Saturday

A "Pigskin Preview" for 1946 will be held at the high school stadium Saturday evening and will be free to the public.

It is sponsored by the Bulldog Booster Club. Players, coaches, and other school officials will be introduced.

Also the coaches will put the 1946 Bulldogs through some paces for the public.

Officials probably will explain some of the new rule changes for this year.

This is a public presentation of the Bulldogs and all backers are urged to attend.

Amazing lipid cream helps you to a firmer, younger-looking skin

Francis Demmy OILS OF THE WILDERNESS

If your skin is shadowed by lines, marred by roughness or lack of firm contours, it may be due to lipid deficiency. Lipids are present in a young skin, sometimes deficient in an older one. The skin can absorb lipids in OILS OF THE WILDERNESS in 20 to 30 minutes. See how it helps bring you younger-looking beauty.

Ticket Sales Go Well For Policemen's Ball

Ticket sales continue good for the annual Midland Policemen's Ball to be held at the Log Cabin Inn Tuesday evening of next week. Harrison's Texans will play for the dance, which begins at 8 p. m. Tickets are available from policemen.

FLORIDA WOMAN VISITS
Mrs. Joe McCall of Jacksonville, Fla., left for her home Wednesday night after visiting in Midland with Mrs. Buster Charlton and family.

New Odessa Radio Station Authorized

WASHINGTON —(P)—The Federal Communications Commission has authorized operation of a new radio station at Odessa, Texas. Southwestern Broadcasting Corporation received the permit for a station of 1450 kilocycles, 250-watts power and unlimited time. The application of the Permian Basin Broadcasting Company for the same facilities was denied. Harding was the first President of the United States who drove an automobile himself.

Midland County TB Association Hears Activity Reports

Mrs. William C. Imbt was appointed to the board of directors of the Midland County Tuberculosis Association at a meeting Tuesday. Dr. Homer Johnson, president, was in charge. John J. Redfern gave plans for the 1946 Christmas Seal Sale drive. Mrs. John Hills reported an extensive health education program would be carried out during the next two months, especially among the negroes and Latin-Americans. Mrs. F. R. Schenk reported the eight Federated Women's Clubs had been contacted and they would each sponsor a health program with a speaker and movie. Mrs. Nettie Romer made a treasurer's report. Mrs. Linnie Davidson, executive secretary, reported extensive patch testing conducted during the summer and reported that several patients had been admitted to a state hospital from Midland County. A film was shown to the group titled: "Lease On Life."

Ceiling Lifted From Low-Priced Cosmetics

WASHINGTON —(P)—OPA erased ceilings from low-priced lipstick, toothpaste and other cosmetics Thursday but put the lid back on meat at wholesale. This is the last step in preparation for the return of butcher shop ceilings on Monday. Simultaneously, OPA promised full-scale warfare on the meat black market, declaring it is keeping a sharp watch on companies in New York and Chicago which are holding big stocks bought at "very high prices." On still another price front, the Decontrol Board took a second look at ceiling-free milk and butter and apparently decided again that the cost of those items is not "unreasonable." OPA expects to announce its retail prices for beef, lamb, pork and veal this weekend. They will average about three cents a pound higher than June 30 prices for pork, six cents higher for beef. Face powder, face cream, foundation cream and similar cosmetic items, if they sell for 25 cents or less an item, are being suspended indefinitely from price control, OPA announced. In discussing the impending drive against black marketeers, Deputy CPA Director George Moncharsh disclosed Wednesday night that between 5,000 and 6,000 investigators will be put into the field, to concentrate largely on meat.

Molotov Returns

PARIS —(P)—Russian Foreign Minister V. M. Molotov returned to Paris Thursday after stopping over at Berlin, the Russian embassy said. Molotov flew to Moscow last Saturday for conferences.

Seamen Strike— (Continued from Page 1)

despite a last minute order by the WSB to consider a rehearing of its disapproval of the pay boost. The WSB notified the unions Wednesday it was willing to hold a hearing Tuesday to consider any additional information the unions would offer, and would decide then whether to reconsider the case and vote on its merits. But Hawk declared in New York that "by Tuesday the ships will have been tied up for five days." He said the WSB had "all the information they needed or were going to get," adding that nothing but a complete reversal of its decision would now satisfy the seamen. Similar union sentiment was expressed in San Francisco by Harry Lundberg, president of the SUP, who said: "For my part the board can reconsider a decision to go back to sleep." Seamen Walk Out Early Almost 3,000 seamen quit work on the Pacific Coast Wednesday. Union leaders claimed the strike would take 400,000 workers off their jobs and tie up every port in the United States. Asked about excepting relief cargoes and troops, Joseph P. Ryan, president of the AFL International Longshoremen's Association, a member of the trades department, said: "There'll be no exemptions this time." The dispute is not between the union and ship operators but instead finds both arrayed against the WSB which refused to approve a \$27.50 monthly wage increase to which both parties had agreed. The board held that any raise over \$17.50 would be inflationary. Secretary of Labor Lewis B. Schwellenbach, Wednesday night "most earnestly" asked the AFL unions to call off their strike pending a WSB review next Tuesday. Maritime Commission officials said no plans had been made for government operation of American flag ships.

Stock Market Swings Smartly Upward

NEW YORK —(P)—The stock market swung smartly upward Thursday, extending the late rally of Wednesday which changed the course of a downward plunge that had carved more than \$5,000,000,000 off the value of stocks traded in New York Stock Exchange in the last two days. Strong plus signs showed up and down the "big board" as trading opened at so brisk a pace that the ticker tape almost immediately began to lag behind floor transactions. The greater part of the list advanced from fractions to more than \$3 a share in the early burst. Then volume fell off and the market turned quiet, with a number of issues falling back a shade under the best marks.

N-W Mitchell— (Continued from Page 1)

County wildcat, about eight miles north of Garden City, had reached 10,659 feet in Ellenburger dolomite, and was understood to be making hole. The Pure Oil Company No. 1 Federal DeBaca County, New Mexico wildcat, about 13 miles west and north of Fort Sumner was reported to be on a total depth of 6,270 feet, in Pennsylvanian lime and was taking a drillstem test. Phillips Petroleum Company No. 1-G TXL, West Ector County wildcat, in southwest corner of section 11, block 46, TP survey, T-1-S, and a west extension to the Wheeler-Ellenburger field, was bottomed at 10,625 feet in Ellenburger lime and was testing a perforated section at 8,460-8,520 feet. That horizon is understood to be the Devonian and is just below a section which flowed distillate at the rate of 23.8 barrels per hour on a drillstem test. Operator has not released any information on any shows in the Ellenburger. However, it is understood that the formation is expected to produce, as it is high to the nearest producers on the west side of the Wheeler field.

Cull Stock Stumble Into Chicago Markets

CHICAGO —(P)—Some weird looking meat animals were studding into the stockyards Thursday as arrivals at all livestock markets declined drastically in the first week of revived OPA ceilings on hogs and cattle. Most of the cattle received here for slaughter were dried up cows, offering a highly unappetizing type of meat for consumers. They were practically lost in the great union stockyards which last week were jammed with bawling steers. All former low volume Chicago records were broken Wednesday when only 1,200 cattle, 700 hogs and 800 sheep and lambs arrived. Nearly all of the 8,000 pens were empty.

Father Of Midlander Dies In Oklahoma

J. M. Bradbury, father of George P. Bradbury of this city, died at 8:40 a. m. Wednesday in Chandler, Okla. He was born Oct. 4, 1857, in Tennessee. He came to Texas with his parents and settled near Austin in 1885. While still a young man he joined the Texas Rangers and was stationed in Midland during the time the Texas and Pacific railroad was being built in West Texas. He had made his home in Chandler since 1892. Mr. and Mrs. George P. Bradbury were on their vacation in Ojo Caliente, N. M., when they were notified of the serious illness of his father. They were in Chandler at the time of his death. J. M. Bradbury is survived by his son, George P. Bradbury, who is associated with the Magnolia Pipeline Company in Midland. Funeral services will be held at 10 a. m. Friday at the Curry Funeral Home in Chandler.

Boles Installed As Price Board Member

Floyd Boles has been installed as a member of the Price Control Board of Midland County. A meeting of the general board was held Tuesday with these members present: R. W. Hamilton, chairman, J. M. McDonald, John Cornwall, R. D. Scruggs and John Redfern. The board heard a review of activities since the first of the year. Activities included: 79 conferences; \$676.74 contributed by violators; \$614.79 in refunds of over-charges to customers returned; 10 cases referred to district office, 3 settled to date; total of \$551.74 refunded to purchasers. Two alleged violators are scheduled for conference Friday. Six cases are held for further investigation. Twelve grocery stores found to be in violation, have received warnings from the board.

U. S. Calls Off Air Show Above Athens

ATHENS —(P)—Plans to parade American airplanes across the skies of Athens were called off Thursday by the U. S. aircraft carrier Franklin D. Roosevelt and escorting vessels reached Greece. Rear Adm. John H. Cassady, commander of the task force, announced at Naples last Saturday that the Roosevelt would send up 120 planes to write FDR above Athens—"at the request of the Greek government." A naval attaché of the U. S. embassy, said Thursday the air show had been called off because it could not be integrated into a jammed four-day program. Persons aboard the carrier interpreted the action as a caution by the U. S. State Department to avoid any martial display while the ships were here. Russian Foreign Minister V. M. Molotov has called the carrier Roosevelt's visit an interference in Greek's internal affairs. The visit was announced prior to last Sunday's plebiscite returning the international balloon race for the Gordon Bennett trophy is the oldest of aviation contests.

Ranch Hand Charged

SONORA —(P)—Burley Harrigal, 32, ranch worker, has been indicted here by a Sutton County grand jury on charges of assault with intent to murder. The charges were filed in connection with a beating received by his wife, Mrs. Harrigal, 24, in a San Angelo Hospital.

Barron Speaks At Rotarians Luncheon

T. Paul Barron, a real West Texan, who talks like a West Texan and whose homespun humor is well known in Midland, spoke to Midland Rotary Club members Thursday "on how his hobby developed into a business, saddlery." His subject was "What a Saddle Is." He brought a saddle to illustrate his talk. George Glass, prominent Midland rancher, showed color films of ranch scenes. Allan Wemple presented accompanying western music. Addison Wadley, who said he had known Barron all his life, introduced the speaker.

Livestock

FORT WORTH —(P)—Cattle 1,900; calves 1,000; one lot of choice fat yearlings averaging 530 lbs. at 18:00; mostly steady prices. Common to medium slaughter steers and yearlings 11:00-16:00; medium to good fat cows 10:00-13:50; cutter and common cows 8:00-10:00; canners 6:00-8:00; bulls 8:00-12:00; good and choice fat calves 14:00-16:25; common to medium butcher calves 10:00-14:00. Hogs 50; active; top and bulk price on butchers and sows 16:05; feeder pigs 50 higher at 15:25. Sheep 4,000; active and steady. A few medium grade spring lambs 14:50 down. Bulk of receipts cull, common and medium shorn aged sheep 6:00-50; a few medium and good lots 6:75.

Hughes Makes Progress

BEVERLY HILLS, CALIF. —(P)—The seemingly indestructible Howard Hughes, whose life was spared of for days after an airplane crash July 7, is gaining weight and able to leave his bed at intervals. His physician, Dr. Vern Mason, made the announcement Wednesday in denying reports that the multi-millionaire sportsman-manufacturer-moviemaker had suffered a relapse. Lights for night airmail were installed first between Cheyenne, Wyo., and Chicago, Ill.

RUPTURED?

Disillusioned because you are not getting the proper support and comfort? Are you one of those unfortunate who has patiently tried all types of trusses only to find little or no relief, falling for the cheap money only to suffer greater disillusionment? Can't Keep Grandma In Her Chair

She's as Lively as a Youngster—Now her Backache is better

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 hints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

8—THE REPORTER-TELEGRAM, MIDLAND, TEXAS, SEPT. 5, 1946

Scouts Beat Reporter, 12-2 In Benefit Game For Crow

The Oil Scouts soundly beat The Reporter-Telegram, 12 to 2, in the last game of the Midland City League Wednesday night and the tilt was a benefit for Dopey Crow, Scout pitcher, who was hurt during the championship series.

The game had no bearing on the city championship of Midland, which was awarded to The Reporter-Telegram by the JayCee directors Wednesday morning after declaring a Tuesday night game forfeited to The Reporter-Telegram, although the Scouts won the game, 3 to 2, using an out-of-city pitcher.

A meeting of team managers was held August 9, before the championship series started, and the managers agreed that a team might use any player who had played in the Midland league during the season but no other in the championship series.

That is why the JayCee directors declared the Tuesday game a forfeit to the Reporter. The Scouts were represented at the August 9 meeting and voted for the rule.

In fairness many of their players did not willfully or flagrantly break the rule. They got the out-of-town pitcher in order to give the fans a good ball game. They realized the game would be forfeited.

Outfielders Sparkle
The fact remains the Scouts won Wednesday night. They hit lustily and won a ball game. Stringbean Pope of Odessa pitched again and he struck out 12 Reporters.

The Scouts got eight hits. One was a mighty homerun by Donk Roberts in the seventh inning. Bubba Gayle got three hits in four

trips. His base running was a feature. Two sparkling outfield catches were made by Donkey Roberts and Burns McKinney.

The Scouts got one run in the first inning by McKinney. They got three in the third inning on two home steals by Walker and Gayle. They added one in the fourth by Fowler after two straight hits by Fowler and McKinney.

In the fifth frame the Scouts got four runs by Gayle, Maedgen, Hart and Pope. Gayle got a single and Pope got a double in this frame.

In the sixth the Scouts got two more runs by Walker and Gayle. Gayle hit a double. Then in the seventh, Roberts homered.

The Reporter got one run in the second by Yarbrough. Whitworth's hit brought it in. They added another in the sixth on a hit and score by Taylor.

The scoreboard:
Oil Scouts 103 142 1—12 8 2
Reporter 010 001 0—2 3 6

VFW Hits Awarding Of Combat Medals To Non-Fighters

BOSTON —(AP)— Investigation of food shipments to former enemy countries "with a view to halting such shipments as long as one single citizen of the United States is unable to obtain sufficient food to maintain proper health," was recommended by the Veterans of Foreign Wars in convention here Thursday.

The resolution, unanimously adopted, called for investigation of United States food shipments to former foes—especially Germany, Japan and Italy—said the program appeared to be one of "apportionment" of the governments of these countries.

Declaring that "large segments of the population of the United States are undernourished and underfed because of the shortage of food," the resolution continued:

"The time has come to recognize to the fullest extent that 'charity begins at home'."

The opening business session of the convention—attended by about 1,200 delegates, also criticized "promiscuous" combat awards to those who were not at any time engaged in combat and specifically assailed such commendations to actors.

Pulling at the leash for 1946 battles, the Midland High Bulldogs worked on timing of plays in practice sessions Wednesday.

Coach Barnes Milam was shooting two full elevens on the offense, who plugged, ploughed, and ran at and around the defense.

One outfit looked like it might be the "blue ribbon" bunch. Its backfield was Danny Goode, Bobby Cole, Bobby Drake and Barney Hightower. Its linemen were Jack Kidwell, Ben Olliff, R. E. Whitson, Jimmy Edwards, Royce Higgs, Howard Mickey, and Morris Howell.

Buddy Norton looked good on the defense.

Wednesday afternoon the backs worked on punting and kicking off while the linemen toiled at pulling out to block.

The B Bulldogs worked and so did the Junior High Pups as Midland had its largest football turnout in its history.

Bowling Leagues To Be Organized Here

Plans for winter bowling leagues in Midland will be made at a meeting at 8 p. m. Friday on the mezzanine floor of the Scharbauer Hotel.

It is a session of the Midland Bowling Association, recently organized to sponsor the sport in the city.

Prospective bowlers, team managers and sponsors are urged to attend.

Midland annually has a good winter bowling league both for men and women. Matches are rolled at Plamor Palace.

Booster Club Will Meet Next Wednesday

The Midland Bulldog Booster Club is called to a meeting at 8 p. m. Wednesday in the high school auditorium.

Vice-president Stanley Erskine, who called the session, said it would emphasize the work to be done this football season by various functioning committees.

All members are urged to attend and any citizens wishing to join are invited.

Mansfield To Defend Title In New York

NEW YORK —(AP)— Toots Mansfield of Rankin, Texas, will defend his calf roping crown in the World's Championship Rodeo in Madison Square Garden September 25 through October 27, it was announced Thursday.

Mansfield, winner of his specialty in 1942 and 1943 as well as last year, will be aiming for the big chunk of the \$23,920 prize money allotted for lassoing and tying the little doggie.

The Texan won the title last year by roping 12 calves in 268 seconds for a 22.33 average.

Abilene Clinches WT-NM Loop Title

CLOVIS, N. M. —(AP)— The Abilene Blue Sox were breathing easier Thursday, realizing that regardless what happens between now and next Sunday when the regular season schedule of the West Texas-New Mexico League ends they will be in possession of first place in the final full-season standings.

The Blue Sox clinched first spot Wednesday night by defeating the Clovis Pioneers, 6-1, while the second place Amarillo Gold Sox were splitting a double-header with the Borger Gassers.

Abilene holds a five and one-half game margin over the Amarillo club. Each team has only five remaining games on the regular season schedule.

Cardinals Defeat Cubs While Brooks Turn Back Braves

By JOE REICHLER
Associated Press Sports Writer
George (Red) Mungler, who only six weeks ago, was wondering whether he would leave Germany in time to join the St. Louis Cardinals this season, may prove the deciding factor in the Redbirds' battle with the Brooklyn Dodgers for the National League pennant.

Mungler Wednesday night celebrated his second week with the Cards since his discharge from the Army by pitching the Redbirds to an 8-1 victory over the Chicago Cubs for his first triumph of the year.

The victory enabled the Cards to preserve their two game lead over the second place Dodgers who defeated the Braves in Boston 3-1.

In a battle between left-handers, Brooklyn's Joe Hatten had the better of Boston's Warren Spahn although the Braves outthit the Dodgers eight to six. Three bases on balls proved Spahn's undoing as all figured in Brooklyn's scoring.

Red Sox Five Tilt Away
The Boston Red Sox moved to within five games of clinching the American League pennant, defeating the Washington Senators 4-2 in the Capital City while Athletics were shading the New York Yankees 4-3 in Philadelphia. The Sox now lead the runner-up Yankees by 16 1/2 games, the biggest margin they have enjoyed this season.

Phil Marchildon gained his 12th victory for the As as Pete Suder drove in the tie-breaking run in the seventh with a single. Joe Dimaggio's 23rd home run went to waste for the Yankees.

Chet Laabs drove in all St. Louis' runs with two home runs and a single as the Browns took the measure of the White Sox in Chicago 5-1.

Bucky Walters and Joe Beggs cooperated to pitch the Cincinnati Reds to a 6-0 victory over the Pittsburgh Pirates in Cincinnati.

Although they collected only six hits, the Philadelphia Phils made five count for extra bases, including two home runs by Andy Seminick and one by Del Ennis, to down the New York Giants 6-5 at the Polo Grounds.

In the day's only daylight game, Hal Newhouser hung up his 24th pitching win as the Detroit Tigers whipped the Cleveland Indians 4-1.

WIFE OF ROBERT LEE MINISTER DROWNS

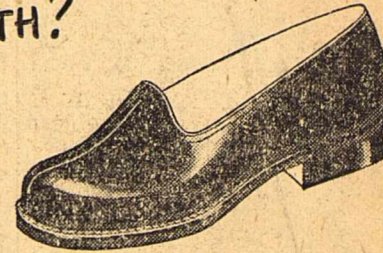

ROBERT LEE —(AP)— Funeral services for Mrs. M. J. Richardson, 51, wife of a Robert Lee minister, were pending here Thursday.

Mrs. Richardson's body was found Tuesday in a deep surface tank on the Richardson ranch. A coroner's verdict said she had died from accidental drowning.

Despite Barbed Wires Palestine Is Land Of Life, Labor, Music

By CARTER L. DAVIDSON

JERUSALEM—(AP)—Beneath the sound and fury of Palestine's politico-racial miseries, one thing is often forgotten: Palestine is a land where people live, love, labor and listen to music.

The world has a Palestine problem because the Jews and Arabs have religious and racial affinities that transcend national boundaries. But Palestinians are people and they have problems, too. They go to work in the morning, have tea in the afternoon and go to the movies at night. They hear symphony music and opera, they dance and gather in taverns, sometimes they get drunk, they baffle with the butcher and miss buses.

The land is a land of scenic beauty and healthful, sub-tropical climate. It has rock-crested mountains and verdant plains. Its scenic beauty is marred but little by the hundreds of miles of barbed wire entanglements and the sprawling military encampments.

Some call Palestine an armed camp. Some call it a battle ground. Some call it an incubator for World War III. All may be correct. Certainly there is tension, underlying every social endeavor. There's restlessness and an expectancy everywhere. But it is no less true that Palestine is a land where soil is tilled and crops harvested and where people water their flowers and play bridge with the neighbors. And go to church and pray in the way of their faith.

Rifles rattle in the hands of British soldiers and Jewish terrorists, and every cocktail party is a political forum. But these are but brush strokes on the picture of Palestine.

Here are two ancient peoples and a British mandate government in which neither have a substantial voice. The Jews have their Jewish Agency, and the Arabs their Arab Executive, shadow governments whose shadows fall across the mandate.

Big power polemics in the world's other capitals cause stirrings among Palestine politics. But what's said in London and Washington never changes the taste of gilled fish on the terrace by the Sea of Galilee nor stops the breakers on the Mediterranean beaches.

It's true that every government building and every house of a top government official wears its barbed wire skirt. But it's equally true, and just as significant, that there are many more apartment houses and private homes whose distinguishing mark is a clothes line full of laundry.

BOYS WRECK TRUCKS IN 'TANK BATTLE'

DENVER—(AP)—The truck terminal yard of the Red Dot Oil Company looked like a battlefield.

President Dick McCusker told police that several boys climbed into the fenced yard, found ignition keys in seven trucks and rammed the trucks all over the yard.

Three boys in custody explained, Policemen Merle Huttendorf and Jim Stombough said, that they had a "tank battle."

Russia's Direct-Action Tactics Have Produced Powerful Flareback in US

By DEWITT MACKENZIE AP Foreign Affairs Analyst

Russia's direct-action tactics in her post-war dealings with the Western Allies have produced a powerful flareback.

From the moment Russia joined battle with the Axis, the United Nations dropped all open expressions of hostilities to Communism. Russia was our ally, and nothing was to be said or done which would weaken the bond.

The spirit of comradery was so

strong that it continued after the cease-fire order was given. It was a regular love-feast, and it began to look as though we were all one fine, big family.

Then came the Red direct-action, which was registered not only in Moscow's unilateral methods of expanding the Soviet zones of influence, but in the Allied conferences. The meetings of the foreign ministers, the United Nations Security Council and the Paris peace

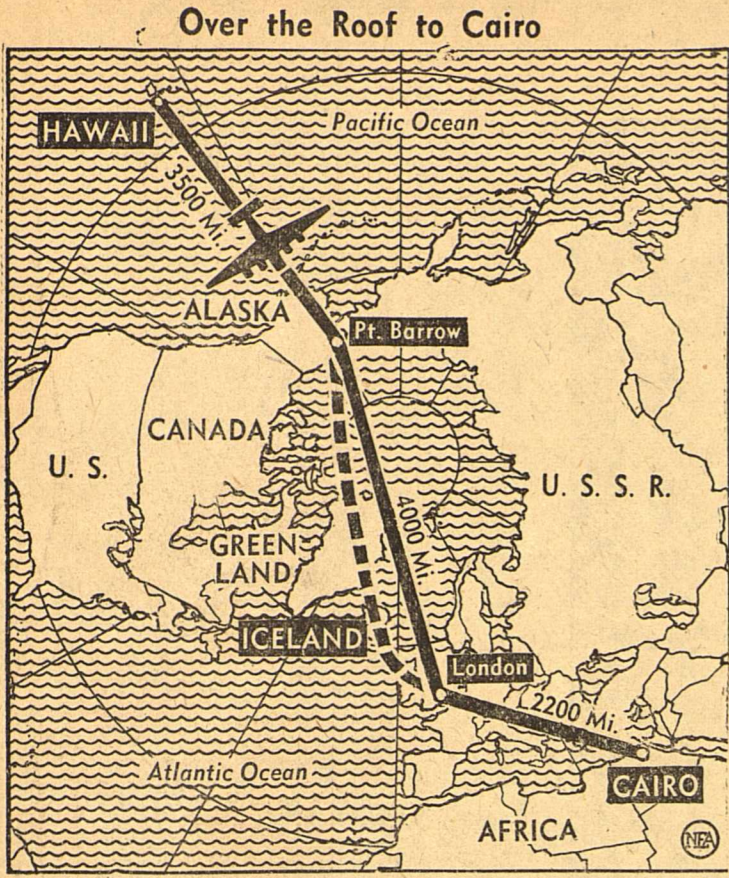

conference have been turned into bedlams.

The public reaction in the Western Democracies at first was one of amazement. This gave way to dismay and, shortly, to resentment and then anger. At the outset the anger smoldered, but recently it has broken into full flame.

MacArthur Gets Tough

A two-listed statement came from General MacArthur that Allied leadership in Japan "must adhere unerringly to the course now

charted," staying off "regimentation under the extreme, radical Left." He declared that the question of which political concept will prevail "profoundly affects the destiny of all men and the future course of all civilization." Not long ago the State Department indorsed a declaration by its ranking diplomat at Tokyo—George Acheson—that America does not favor Communism in either the United States or Japan.

Solid line on map above shows probable course of the 10,000-mile Hawaii-to-Cairo non-stop flight of the B-29 Superfortress "Dreamboat." Actual course will depend on weather conditions. Dotted line shows one alternative route.

CLOSE-UP OF A NERVE ?

No. It's just a rope . . . at the breaking point. But, frankly, it's a good illustration of how a man feels when his nerves are "worn to a frazzle."

The Church has never claimed that religion is a cure for frazzled nerves. But a man's Christian faith does *this* for him:

It shows him a Purpose in life more important than mere existence. It shows him a Power more effective than his own strength. It shows him a Future more rewarding than selfish gain. And it gives him courage more lasting than the sheer force of his human will.

With these spiritual resources, founded in the certainty that God understands and helps, a man never reaches "the breaking point." For when his human reserve is exhausted . . . he has only begun to tap the vast reservoir of Divine Strength.

THE CHURCH OF YOUR CHOICE CAN SHOW YOU THE WAY!

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the church of his choice. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church on Sunday.

Bus Driver To Spend First Night Outside Dallas

By WILLIAM C. BARNARD
DALLAS —(P)— Robert Roland Anderson explains it this way: "I never did have any kind of hankering to go anywhere. If the open road ever called at me it made mighty little noise."
At any rate, September 9 will be an event in the life of 34-year-old Anderson who averages better than 50,000 miles a year driving a city bus. On that date he will spend his first night outside of Dallas. Only once in his whole life has this six-foot two-inch slow-talking Texan ever been outside the city. That was June 16, 1933, his wedding day.
"Got up early that morning," he remembered. "I went over and picked up my girl and we drove to Marietta, Okla., where my mother was, and got married. Then we came right on back here . . . got here before sundown."
On the ninth of this month, Anderson will travel 19 miles to Forney to visit a sister, Mrs. Katherine Buice.
Anderson is a product of West Dallas. When he was in the fifth grade, a boy named Clyde Barrow sat to the left of him. Another school companion was Raymond Hamilton. Both became nationally notorious desperadoes. Both are dead.
"Those boys," Anderson said pointedly, "got around. I stayed in Dallas."
It is said that sunlight is fatal to rattlesnakes.

Gift House Completed For Blind Vet

(NEA Telephoto)
George Marquette, contractor, left, helps Jim Sanders, Houston blind vet, right, drive the last nail into his gift house which had been completed in the record time of three days in Houston. Watching Sanders, from left to right, are H. A. Hood, Adj. DAV; Sanders' daughter, Willie Mae; and construction officials J. L. Bryant, O. W. Rogers, and A. E. Gadberry.

Old Age Assistance Checks To Be Mailed

AUSTIN —(P)— Old age assistance checks are being mailed to 185,984 persons this week.

Average payment will amount to \$23.55, the same average as for August and \$2.30 short of the authorized grant, reported John H. Winters, executive director of the State Department of Public Welfare.

Recent amendment of the social security act by congress allowed the federal government to pay \$10 of the first \$15 paid to old age assistance recipients.

Anticipating the increased federal aid, which becomes available in October, the state public welfare department was able to hold this month's cut to \$2.30 by transferring

MIDGET HORSES

A band of midget horses, scarcely larger than dogs, found in the mazes of the Grand Canyon, was believed to be descended from normal-sized horses trapped in the canyon long ago by a landslide, but degenerated, due to a lack of body-building materials.

additional federal balances to the assistance fund.

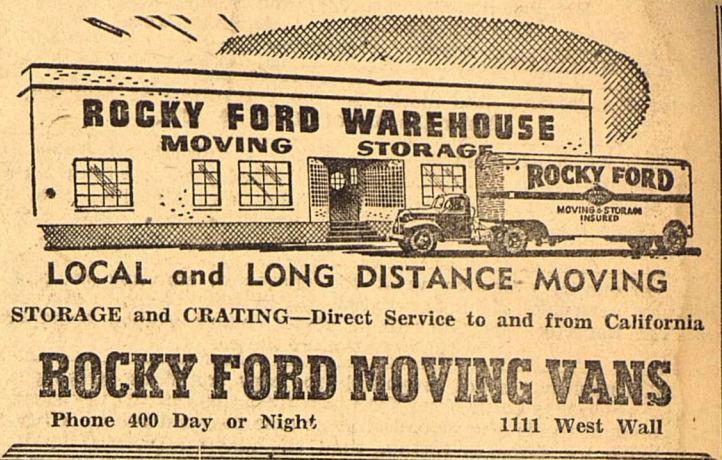

Winters said the m. in checks this month will be the last one that the aged will take this year.

He also reported that assistance applications of the aged, the blind, and dependent children, are continuing to increase rapidly. Approximately 3,500 new applicants were placed on the rolls in August.

Total assistance to the three groups in September will amount to \$4,759,237, Winters said.

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, SEPT. 5, 1946—11

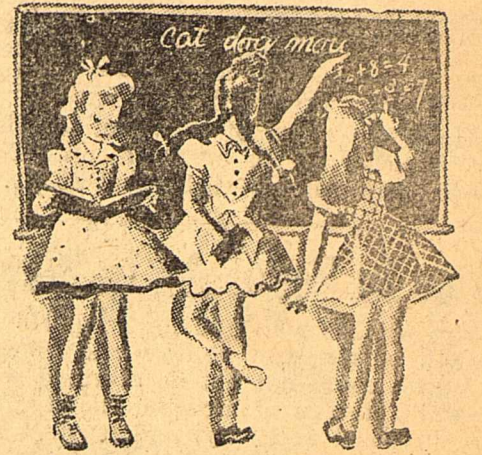

Carbon monoxide, deadly gas, is said to prevent steel scaling during heat treatment. Approximately 200 languages are spoken in the valleys of the Caucasus mountains.

Service In Peace As In War

Many citizens who had long felt sincere concern at the growth of machine politics and "boss rule" in the United States could not but be alarmed when, early last month, war veterans of McMinn County, Tenn., resorted to gunfire to oust a corrupt and insolent local organization. With the objective they fully agreed and in the result they rejoiced; but the violent means they simply could not condone.

Taking the law into one's own hands is often understandable—particularly so when that "law," as in the Tennessee case, is distant and at best uncertain. But the defiance of constituted authority can never, in a civilized nation, be very admirable. And it is ever a dangerous practice, for violence has a way of perpetuating itself and lawlessness of becoming chronic.

Good and thinking citizens feared, therefore, as they read of the warlike siege with which outraged ex-service men wrested control of "justice" in McMinn County from a band of deputized thugs, that less justified imitators might soon bring bloodshed to many another American county and town. They feared, too, that the example of the Tennessee voters in acting under the "veteran" label might prove a decidedly bad thing for the country, by driving a wedge which neither group desired between wartime service men and wartime civilians and encouraging the former to set themselves up as a privileged class, above the law.

For a time these fears seemed much too close to realization. Veterans in several districts of Arkansas organized political slates and announced that efforts of political machines to interfere with free elections in their respective areas would lead to reprisals which would make the Tennessee riot seem a "tea party". "Big Jim" Buttram, campaign manager of the victorious "GI Non-Partisans", announced that letters were pouring in to him from veterans in all parts of the country, and that "many of them want to know if they should do what we did".

The situation indeed seemed critical. Americans were being offered a choice, it seemed, between two brands of "boss rule", one scarcely more desirable than the other.

Then, with striking speed, the threat passed, and in its place stood a promise of civic reform perhaps unparalleled in American history.

Said Jim Buttram to his many correspondents: "I don't advise the same drastic action that we had to take. We tried every way in the world to avoid violence. . . . I want to see a Good Government League function in McMinn County. An organization like that might be the answer for other communities which have been writing me."

A statewide convention of Tennessee war veterans was told to "go back to your counties and form organizations—not mobs—to preserve the ballot so a man can run for office in Tennessee without the blessings of Ed Crump".

Unfortunately, the reform-minded veterans continue to speak and to act as veterans. But now that peaceful industry has replaced armed terrorism as the means to be employed, there can be no doubt but that military service will soon be discarded as a qualification for enlistment in the modern crusade against corrupt government. The Tennessee discharges have, in fact, already appealed for the support of all citizens interested in clean elections and good government.

If, as seems likely, the campaign is carried into every boss-ridden section of the United States, veterans have a magnificent opportunity to serve their country in peace as in war. Whether they organize independently or inject new life into already existent reform groups, they offer hope of a new era of political decency.

The Common Interest

Ralph E. Flanders, Republican senatorial candidate in West Virginia, recently voiced a sentiment which, perhaps because it seems so obvious—or so unattainable—is all too seldom expressed. Said Flanders: "The task of peace-makers is to serve the interests of peoples, not of nations."

How very true that is! And how simple its general acceptance might make the tasks of the Paris peace conferees! For while nations may have many and conflicting aims and desires, the peoples of the world have a common and commanding interest.

When the Paris delegates tire of searching in vain for a common interest, they might well settle on that of their peoples—peace.

A New York girl admits shooting her husband—but she's so good-looking they may not believe her.

It takes a lot more than hot air to keep things breezing along.

A good sport is a fellow who thinks fun is worth the trouble.

Most people's trouble seems to be that they would like to have things as they want them instead of as they should be.

Do you remember what you were worried about a year ago? We don't! Fed do! So, what's the use?

Bald Headed Men Form Club In Port Arthur

PORT ARTHUR —(P)— Things are rocking along smoothly between the United States and Mexico despite the fact the United Baldheads of America selected the American bald eagle in preference to the hairless Mexican Chihuahua dog as their mascot.

"The choice," said Joseph P. Landry, Port Arthur, president of UBA, "must not be construed as a gesture which would violate the good neighbor policy. The eagle barely won. I personally know many solid members who love the Chihuahua like a brother."

The selection was made some time ago, and the UBA has kept a wary eye on diplomatic relations since.

The UBA was organized last year. Members are bald. They scorn hair restorers, tonics and refrain from such contrivances as wigs and toupees.

Exalted high domed Landry refers to such things as "shameful creations of shaven-pated fifth columnists."

Referring again to the mascot, Landry said members of the non-dues-paying, non-political, non-hairy organization had quite a hair-pulling fight in choosing between the eagle and the canine nudist from below the Rio Grande.

DALHART AIRBASE LUMBER IS USED FOR HOUSING

DALHART —(P)— The Dalhart Army Air Field's 180 buildings have been turned over to the Federal Public Housing Authority which is having them torn down and moved to Colorado and Oklahoma for college or community housing.

It is possible for chinch bugs, in all stages, to live for 12 hours under water.

MATERIAL SHORTAGES ARE SLOWING US DOWN

Delays in production throughout the nation have caused a critical shortage of pole hardware, transformers, wire, insulators and all the other items essential to electric service. Some are harder to get than ever before. Yet, demands for electric service are rapidly increasing.

If you are planning on building a home, business house, or expect to need new electric service or any change in your present service, we urge you to let us know as far in advance as possible.

If you are waiting for electric service, you can rest assured that we are doing the very best we can with what we have to get electricity to you.

We are engineering, improvising and conserving to stretch our materials as far as they will go. We'll bring you electric service just as fast as conditions permit. Your understanding and cooperation are appreciated.

R. L. MILLER, Manager

NFA Photo) Alice Henley, 19, of Beaumont, greets her sweetheart, Roman Bruce, of China, Texas, at the Parker Foundation for Speech Correction and Re-education in Dallas, where Alice recently learned to talk for the first time in her life. To regain the use of her vocal chords which had been impaired by an operation after Alice had contracted diphtheria while still a baby, two major operations and several minor ones were performed by Dr. Claude C. Cody of Houston. Expenses for the operations and the training at Parker Foundation were paid by John B. Goodhue, Beaumont oil man, who had observed Miss Henley working at his son's laundry there.

Governor Studies Budget Requests

AUSTIN —(AP)— Gov. Coke Stevenson Thursday took under consideration the largest state budget requests in his memory.

He reported that requests for the state judiciary, eleemosynary, educational and departmental budgets for the fiscal year beginning September 1, 1947, and ending August 31, 1948, total 74,500,377.

Requests for the 1947-48 year are more than double the appropriation of \$35,488,256 for the fiscal year September 1, 1946, through August 31, 1947.

The educational appropriation for schools of higher learning during the present fiscal year has been established as \$11,781,000. Requests submitted for each of the next two fiscal years are \$34,741,000 and \$30,618,000.

Comparisons of other budgets as to appropriations for the present fiscal year and requests for the two following years are as follows: Judiciary—\$2,311,000 appropriation for 1946-47 fiscal year; \$2,380,000 requested for each year of next biennium.

Eleemosynary—\$7,770,000 appropriation; \$11,975,000 and \$10,612,000 requested in 1947-48 and 1948-49 fiscal years, respectively.

Departmental—\$23,604,000 appropriation; \$25,402,000 and \$25,923,000 requested for following two years.

The request of the board of control is not included in these totals. The Board of Control and the governor will study the requests and make their recommendations concerning the budget to the new legislature next year.

SAN ANGELO—(AP)—Many hunters are bagging the daily limit of 10 doves in Tom Green and Concho Counties.

DEVIL'S LAUGHTER

By Alice M. Laverick

Copyright, 1945, NEA SERVICE, INC.

THE STORY: For the next few weeks there are two invalids in the house, Charlotte as well as old Mrs. Fitzgerald. The old lady finally receives Beatrice Harrington but does not acknowledge her engagement to Colin. Charlotte writes Cecelia never to fall in love. Colin and Mark continue their interminable wrangling.

SOMETIMES the two brothers sat at the table for an hour, too often taken up with their arguments to eat, and Ellen would very sad that they were not eating their food while it was nice and hot. Why they couldn't let their discussion wait until later on, when they had got settled comfortably in the living room, she couldn't imagine.

Father Gene's visits were a welcome relief from the usual stormy evenings we spent at Innisfail. He had a way of leading the conversation into harmonious channels and both brothers respected his opinions and decisions. To be sure, each put his own interpretations on these opinions and decisions, interpretations which were apt to vary so that when one of them quoted him on the following night, the other had an entirely different conception, and they would be off again.

Father Gene's music was enchantment. I would sit on the stairs and listen to him playing "I Dreamt I Dwelt in Marble Halls" and feel faintly nostalgic, though the only hint of a marble hall in my home was the front vestibule, where you were apt to slip on roller skates and toy trucks, if you were not careful.

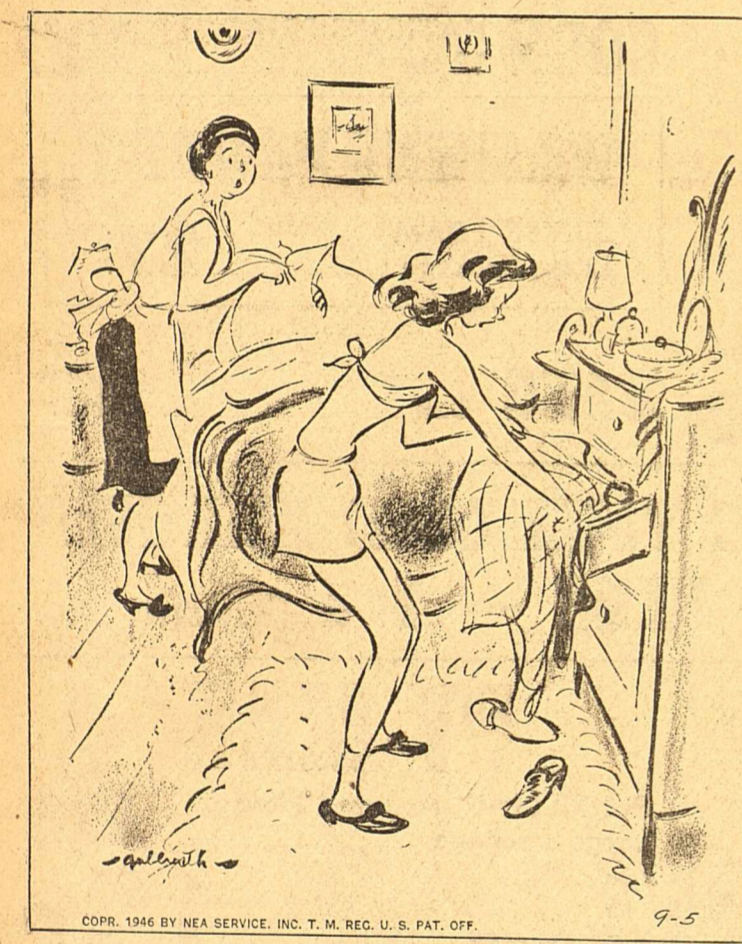

They sang sometimes, the three men. Not one of them had a really good singing voice but they could at least carry a tune and, like all true Irishmen, could not resist joining together on "Danny Boy" and "The Rose of Tralee" and, of course, "Mother Machree," being delighted when they worked in a bit of harmony more or less successfully.

Ellen was in a reminiscent mood and inclined to tell long, "WETTEST" STATE Alabama has the highest normal amount of annual rainfall, with 61.6 inches of precipitation. Louisiana ranks second with 57.5 inches, and Mississippi third with 51.9 inches.

First published in 1914, the "Star-Spangled Banner" was not officially designated as the U. S. national anthem until March 3, 1931.

quill, pointless stories about people in Ireland that I never and was quite sure I would care for if I did. She was not, in fact, up to her usual standard in my mind kept wandering to Beck Sharp and Amelia Sedley and all the other much more interesting people in "Vanity Fair," who were waiting for me in my little room. I escaped to them as soon as I could.

CHARLOTTE'S health continued to improve during the next week, so much so that, to my delight, she now brought up the subject of our long-delayed picnic. The first really good day we would go, she promised, the first day it was fairly cool. For though there was a slim convention, asking what breeze there was, by the end of July we were well into the hot weather and even the big maples drooped.

The day finally came, a perfect summer day with a faint breeze. Ellen very obligingly gave me the day off and cooked chicken for sandwiches and even made tarts and little cup cakes. It would do Miss Charlotte a world of good, she said, to get out in the sun on the river, and it wouldn't do me any harm, either, to get away for a while.

We took our lunch basket and started for the boat house at the foot of the hill. Miss Charlotte as gay as a 12-year-old and not looking much older in her checked gingham dress and wide hat. And I, of course, walking on rosy clouds.

"Do you think we can manage to get the canoe out of the boat house, Cecelia?" Miss Charlotte said.

I assured her confidently that we could, though I hadn't the faintest notion how, to either launch or paddle a canoe. However, it was not necessary for me to know, for when we reached the boat house, we found the canoe had already been taken out.

And Colin Fitzgerald was lying on the grass beside the river, the canoe bobbing serenely in the water.

(To Be Continued)

McKENNEY ON BRIDGE

By WILLIAM E. MCKENNEY

America's Card Authority
I cannot put down S. J. Simon's book, "Why You Lose at Bridge," before giving you the hand about the palooka and the club expert. Every club has its expert who thinks that all the others are palookas. When he loses, he is just unlucky. He always plays scientific book bridge.

The bidding shown is the way this hand is bid in Mr. Simon's book. In the United States the four no-trump bid would in all probability be a slam convention, asking for aces and the response would be five clubs, showing no aces.

Mr. Simon says that in London the sign-off bid would be five hearts. But the palooka forgets they are playing Blackwood, and, when

AKQ7	AKQ876	AJ986
K2	A54	None
A1054	54	AKQ109
K87	None	AKQ72
J1018	Dealer	
3	A109543	
632	632	
A63	A63	

his partner bids four no trump, he goes into a huddle and bids a timid five spades. . . obviously hating the whole business and wishing he had not come to the club that night. The expert should know that five spades cannot be the correct conventional response because he holds three aces himself, but now, Mr. Simon says, he makes a master bid—six clubs. Following a conventional bid of four no-trump, this is a cue-bid indicating that the spade suit has been more or less agreed upon, and maybe a grand slam can be made. But the palooka gives a sigh of relief and passes. Down seven undoubled!

Do you think this happens only in London? I can tell you that it happened on two different occasions when two of our great players played a hand at a slam with declarer void of trumps.

HUGE CUBE
If placed together, all the known stars of the universe would fill a cube measuring 60,000,000,000 miles each way, according to an estimate.

INTO BATTLE UNARMED
Rifles were so scarce in the Russian army during World War I that soldiers were sent into battle unarmed, with instructions to arm themselves with the guns of comrades who had been killed.

Airplane service is said to be taking more than a million dollars worth of business from railroads entering New York City.

WORLD BICYCLES
According to 1943 figures, Germany had more bicycles than any other country. The figures show 17,000,000 for Germany, 12,000,000 in the United States, and 10,000,000 in the British Isles.

Fifteen per cent of the automotive products of the United States are sold outside of the United States.

Fine Seafood Cuts Table Costs

All-American family treat—deviled crab.

By **GAYNOR MADDOX**
NEA Staff Writer
Here are two super-tasting seafood and fish recipes. They supply less-expensive protein for the family menu, plus taste-thrills aplenty.

Deviled Crab
(Serves 6)
Three tablespoons butter or fortified margarine, 3 tablespoons flour, 2 tablespoons Worcestershire sauce, dash cayenne, 1/2 teaspoon salt, 1/4 teaspoon pepper, 1 cup milk, 2 1/2 cups cooked crab meat, 1/4 cup chopped mushrooms, 1 teaspoon minced onion.

Crumb Mixture
Two cups corn flakes, 1 egg, yolk, slightly beaten, 1/2 teaspoon dry mustard, 1 teaspoon lemon juice, 1/4 teaspoon salt, butter, paprika.
Melt butter; add flour and sea-

sonings, stirring until smooth. Add milk gradually. Cook until thickened, stirring constantly.

Add to flaked crab meat, mushrooms, parsley and onion; mix well.
Place in buttered shells or ramekins. Top with crumbs made by combining finely crushed corn flakes, egg yolk, mustard, lemon juice, and salt. Dot with butter and sprinkle with paprika.

Bake in moderately hot oven (400 degrees F.) about 10 to 15 minutes, or until golden brown.

Whitefish Baked With Fine Herbs
(Serves 6-8)
Three pounds whitefish in one piece, 1 onion, 2 whole cloves, 1 tablespoon minced parsley, 1/8 teaspoon powdered thyme, 1 teaspoon salt, 1/2 cup white wine or vinegar, 4 cups boiling water, 2 tablespoons butter or fortified margarine, 1 tablespoon bread crumbs, 1 tablespoon cornstarch, 1/8 teaspoon powdered basil, 2 thin slices lemon.

The fish in piece of cheesecloth. Stud onion with the 2 cloves. Add, with parsley, thyme, salt, and vinegar, to boiling water. Simmer 2 to 3 minutes.

In this place the fish. Cover. Simmer gently 15 minutes. Remove fish from water; remove cheesecloth.

Place in shallow baking pan or casserole. Sprinkle with crumbs; dot with one tablespoon of the fat. Brown in very hot oven (450 degrees F.) or under broiler heat, while preparing sauce.

Strain bouillon in which fish was simmered. Measure out one cup. Mix butter or margarine with cornstarch to smooth paste; add to liquid.

Stir over low heat until clear and creamy. Add basil and lemon slices. Reheat.

HELPFUL STORKS
Before the days of her concrete dikes, Holland gave much credit to storks for saving the land from inundation, since a favorite food of the birds was an insect that tunneled through the mud and reed dikes of that time.

Blimps of the U. S. Navy were helpful in maintaining our food supply during the war. While watching for subs, they located schools of fish, and notified fishermen.

COMPARATIVELY NEW
Midway, and many other Pacific islands which made history in World War II, are only about 20,000 years old. Apparently, a five-foot upheaval of Pacific land after the last Ice Age brought these coral atolls above the surface.

AIDS STUDY
An inverted periscope in a bear's den at Yellowstone national park enables scientists to study the habits of the animals during hibernation.

Residents of foreign countries bought 427,274 American-made motor vehicles during a single year before the war. The practical limit for transport or other large aircraft flying below 20,000 feet is said to be between 350 and 400 miles an hour.

MIXED CREEDS
The 4,850 non-aboriginal inhabitants of the vast Northern Territory of Australia, 523,620 square miles in area, include Buddhists, Confucians, Mohammedans, Theosophists, and Christians.

Only the females of the mosquito family suck blood.

U. S. Citizens Send Germans Relief Gifts

BERLIN—(AP)—More than 600,000 private gift parcels arrived from the United States for German civilians in the American occupation zone during the month of August, the American Military Government has disclosed.

The number of relief parcels from America is expanding steadily, the report noted. During the past week, it said, this type of relief also extended to the British zone, with the arrival there of an initial shipment of 10,000 parcels for German civilians.

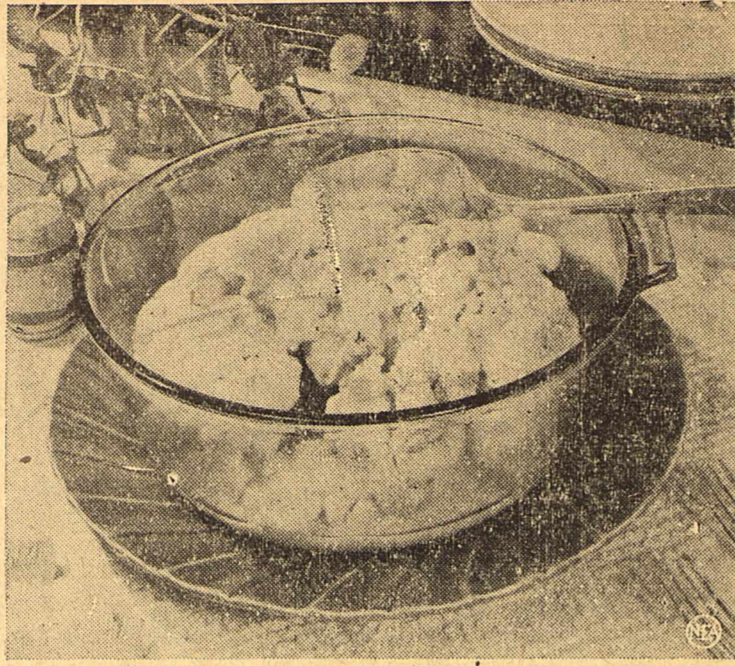

The Export-Import Division announced that during the first three weeks of August, 8,600 tons of bread grains and 10,700 tons of other foods from the United States for the German population were unloaded at Bremen.

The division said that exports from the U. S. Zone now are permitted to Switzerland and Sweden, two wartime neutrals. Imports already have been received from Sweden, notably shipments of fish. Plans are being rushed for the re-establishment of the silverware industry in Germany, to afford another product for export. Ingot silver will be released by the Military Government for this purpose.

The report also disclosed that unemployment has declined in the American Zone to a new low of 416,000. During the month of July employment rose three per cent to a new peak of 5,638,000.

DUAL-NAMED
The ancients called the planet Venus "Hesperus" when it was an evening star, and "Phosphorus" when they saw it as a morning star, not knowing it was the same body.

Try Cauliflower Combination

Superb vegetable dish—cauliflower with mushroom sauce

By **GAYNOR MADDUX**
NEA Staff Writer
For a de luxe vegetable dish, combine condensed mushroom soup, cheese and cauliflower.

Cauliflower With Mushroom Sauce
(Serves 6-8)
One large head cauliflower, 2 cups water, 1 teaspoon salt, 2 cans condensed mushroom soup (two 10 1/2-ounce cans), 1/4 cup top milk, 3 tablespoons coarsely grated cheese.

Wash and clean cauliflower and place in a 2-quart heat-resistant glass saucepan of boiling salted water. Cook 10 to 15 minutes, or until cauliflower is tender. Drain cauliflower and pour hot sauce over it.

Sprinkle with cheese and take to the table in the glass saucepan, after removing the handle.

Sauce: Thin mushroom sauce with top milk to make a smooth sauce. Place over low heat, stirring constantly until sauce is right consistency, adding more milk if too thick.

Here's another delicious vegetable surprise:
Steamed Curried Tomatoes
Six large firm ripe tomatoes, 1/4 teaspoon garlic salt, 1 teaspoon curry powder, 2 tablespoons butter or fortified margarine.
Scald tomatoes; skin. Cut "plug"

from bud end into heart of each tomato. Sprinkle into cut surface the garlic salt and curry powder.

Divide butter or margarine among the six tomatoes. Replace the cut-out piece. Sprinkle outside of tomatoes with salt and pepper.

Cook over steam until heated through (but not soft).
Or, place in oven pan, covering bottom of pan with very small amount of boiling water. Cover; cook over low heat or in oven until heated through.

Serve as a hot vegetable, or chill and serve as salad.

POWER SOURCES

Coal provides 70 per cent of all the energy produced in the United States. Natural gas and natural oil provide 25 per cent, while water power accounts for only five per cent.

COMPARISONS

The earth's diameter is only four times that of the moon, but its volume is 50 times greater, and its mass is 80 times greater.

Rabbit Skin Exports Boom In Australia

SYDNEY—(AP)—Rabbit skin exports, which have increased in value since 1939 from \$1,398,000 to \$20,560,000 a year, are now Australia's sixth most valuable product in the overseas market, Australian Government statistics reveal.

Only exports of greater value in the year ended June 30, 1946, were wool, \$205,379,000; meat, \$39,120,000; flour, \$35,800,000; butter, \$32,600,000; wheat, \$20,792,000.

The United States, which uses the skins for felt hat manufacture, was the largest buyer, followed by Canada and the United Kingdom.

Big sheep farmers still class the rabbits, which eat out their pastures, as their worst pest, but smaller sheep farmers find them more profitable than sheep. Good rabbit trappers have been earning from \$163 to \$244 a week.

GOOD RECORD

All of the 18 kidnappings which occurred in the United States during the fiscal year 1945 were solved, and resulted in 34 convictions.
