

Wheat harvest begins, price outlook is dim

Farmers hauling truckloads of grain began their yearly pilgrimages to county elevators this week, kicking off the 1980 wheat harvest. Although the total yield will be the same or slightly lower than last year, the outlook for wheat prices has dimmed, with the market price almost a dollar lower than last year's \$4.20 per bushel.

As of Wednesday morning, market prices were holding steady at \$3.41 per bushel. According to local elevator operators, the drastic drop is primarily because of the surplus caused by the recent grain embargo on Russia.

"The market's pretty depressed right now," Fred Bruegel Jr. of Bruegel and Sons Elevators said. Bruegel added that the market would probably stay at the current price level "for a little while."

Lynn Ehly of Star Grain in Nazareth explained the price drop this way:

"Possibly the embargo had much to do with it, and the surplus had a lot to do with it too, because we couldn't sell to Russia anymore."

Gary Moore of Dimmitt Agri Industries echoed the surplus-embargo combination as the cause of the price drop.

Yields seem to be comparable to last year, but some elevator operators predict an overall decline in this year's harvest.

"The test weights are lower than usual so far," Fred Bruegel reported, but added, "this is just the beginning."

"Probably a few more acres were planted this year, but the yield will be down some," DeWayne Brown of Farmer's Grain in Hart said.

"It looks like our earlier wheat may be shriveled a little bit, probably because of the hot winds we had recently," he added.

Ricky Byers of Sunnyside Grain explained that the weather, "turned hot and dry about two to three weeks ago and it shriveled it (the wheat) up."

However, some operators believe that despite the adverse weather, the total yield will be about the same as last year's.

"There is very little change in total production," J.R. Brown of Flagg Grain Co.

said, adding, "if any, it will be slightly less than last year. The grain currently being harvested is the early, light, dry grain and could explain why test weights have initially been lower. According to Fred Bruegel, farmers are cutting "the dry stuff and the turn rows and haven't gotten into the good wheat yet."

Castro County's first reported load of wheat was delivered last Wednesday to Star Grain of Nazareth. Frank Sharp's dryland wheat tested at 58 lbs. per bushel and 12 percent moisture content. Sharp anticipates harvesting approximately 300 acres of wheat from the Jack Litsch farm three miles east of Nazareth.

Most farmers seem to be harvesting the wheat themselves with a few having custom-combining done, but

several elevator operators reported the ratio of self- and custom-combining at 50-50. Most operators predict a two to three week harvest.

Jack Hadaway brought in Flagg Grain Co.'s first load of the golden grain Friday. The wheat's test weight was 58 lbs. per bushel and had a 12.8 percent moisture content.

Saturday, Farmer's Grain received Hart's first load of wheat from Hubert McLain. The Tascosa variety weighed in at 53 lbs. per bushel and had a moisture content of 14.9 percent.

Dimmitt's first grain was delivered Monday morning to Castro County Grain from the Carlos Calvert farm. The irrigated wheat was 56 lbs. per bushel and had a moisture content of 13.2 percent.

County celebrations German Folk Festival

It's almost time to pull out your dancing shoes and your heartiest appetite and head for Nazareth's annual German Folk Festival scheduled for June 28.

The festivities begin at 1 p.m. with a free outdoor concert outside the community hall. Local musicians are scheduled to play throughout the day until 8 p.m. and any area bands or individual musicians interested in participating are urged to phone 945-2505.

For those of you who want to participate as well as listen, a round dance will also begin at 1 p.m. in the Legion Hall. Les and Alberta Grumke will be callers.

Arts and crafts lovers can get their fill during the arts and crafts show to be held in the cafeteria from 1 to 5 p.m. Area artists will set up booths to display their paintings and craftwork. There are still spaces available to interested artists, and can be reserved by calling Lucille Drerup at 945-2562.

Good, ol' fashioned square dancing will begin at 3 p.m. in the Legion Hall with callers Herreck and Bonnie Allen. The square dancing will continue through 4:30.

The Nazareth and Dimmitt fire departments will face off at 3:30 with a game of water polo. Be sure to bring a raincoat for the event which will be held at Nazareth's fire station.

German sausage with all the trimmings will be served in the community hall from 4 to 7 p.m., sponsored by the Catholic Daughters of Nazareth.

For \$3.50 per person, the meal includes sausage and sauerkraut, cold potato salad, relish dish, corn, homemade bread, German chocolate cake and apple crisp.

And to end the fun-filled day, Nazareth's own Rough Riders will be the featured band for the German Festival Dance. The action starts at 9 p.m. and will continue through 1 a.m. in the community hall.

Hart Days scheduled

This year's "Hart's Western Days," scheduled for July 23-26, are in the final planning stages and will feature a queen contest, parade, carnival and will honor two of its pioneers.

The festivities begin Wednesday night, July 23, with the carnival featuring games and rides from Great Southwest shows. The carnival will continue each day through July 26.

Miss Hart and Little Miss Hart will be chosen Thursday night and the winners will reign over the three-days' activities. The Miss Hart pageant will be held at the grade school gymnasium.

The Hart Days committee hopes to feature a bluegrass band Friday night. According to secretary Wanda Black, the committee is trying to finalize plans for a band.

Saturday, July 26, promises to be a fun-filled day for young and old alike. Featured activities include a beard contest sponsored by Chi Psi. The Good Neighbor Club will sponsor refreshments for Old Settlers in the community room of Farmers' State Bank and will hold a bake sale throughout the day.

A merchant's drawing will be held again this year. To be eligible, entrants must place their names in boxes located in each Hart business. Prizes

donated by the businesses will be given at the drawing.

Saturday's main event is the parade which begins at 10 a.m. in downtown Hart and will feature Archie Henderson as parade marshal.

Martha Bowden and Myrt Loman will be this year's honored pioneers.

Floats from across the county will participate in the parade and they will be judged in the same division on most unusual entry, originality, following the theme and showmanship. Prizes of \$35, \$25 and \$15 will be awarded the top three entries.

The most unusual entry will receive a \$15 prize.

Wanda Black, secretary of the "Hart's Western Days" committee urges all individuals, clubs or civic organizations in Castro County to enter floats in the parade. Those interested can contact Virginia Reed at 938-2171.

Also featured during Saturday's events will be booths from Hart organizations and clubs set up alongside the carnival. Hart Lions will also sell hamburgers between the post office and West Texas Gas in Hart.

The next organizational meeting of the "Hart's Western Days" committee will be held July 8 and plans will be finalized at that time.

Crop, property damage varies

Tornado, hail hit county

A tornado touched down near Dodd, softball-sized hail pounded parts of Bethel, and Dimmitt residents had their first "tornado practice" of the year as two funnel-bearing storm systems roamed over the county Tuesday night.

But the damage from the storms seemed varied, with some farmers reporting total crop loss while others

received minimal damage.

Heavy rainfall of up to two inches was reported at Dimmitt Feed Yards six miles west of town, and in the Bethel, Flagg and Dodd communities in the southwest part of the county.

Hail larger than softballs pounded the Milton Bagwell farm in Bethel, breaking out the windshields of five vehicles and causing other damage around the farm.

The Lucky 7 CB Club's "Weather Watch" team reported that hail ranging from marble to golfball size accompanied the heavy rain in the southern part of the county.

CB weather watchers, sheriff's deputies, state troopers and city police fanned out to monitor the dangerous storm systems. The main one moved in an unusual southeasterly direction, with funnels confirmed near Friona, Black, Dodd, Springlake and Olton. However, no loss of lives or major damage were reported from the funnels. The big storm

cells started building about 6 p.m. and reached their peak of fury from 9 to 10:30.

The Sheriff's office ordered the alarm sounded in Dimmitt after being notified that a tornado had been spotted in Deaf Smith County and was moving rapidly toward Dimmitt. The sighting was reported by the Farmer County law officers and the National Weather Service, and the warning was relayed by the Hereford Police Dept.

When the alarm sounded, many local residents headed for cover while others drove to the outskirts of town to keep an eye on the storm. Sheriff Granville Martin said the courthouse basement was "packed" during the alert.

But two weaknesses in the city's storm-warning system cropped up during the alert,

and as a result many people did not hear the sirens.

When the sheriff's dispatcher pushed the button to activate the city's two sirens, nothing happened.

"The city police dispatched a car to the fire station to tell them to turn on the sirens," [See TORNADO, Page 14]

Cloud-seeding's future still up in the air

The future of cloud-seeding here is still up in the air following last Wednesday's election in parts of Castro and four other counties.

On an area-wide basis, voters in the proposed target area favored the cloud-seeding proposal, 2,260 to 1,873, with Castro County posting

the highest percentage of "yes" votes.

But under the rules of the election, the boundaries are to be determined on a precinct-by-precinct basis. Those precincts favoring the cloud-seeding proposal could be included in the program, while those opposed must be exempted.

And in all four counties, the precinct-by-precinct results were mixed.

The final vote in Castro County was 245 in favor of the program and 69 against. The issue carried in Precinct 6 by

134-24, in Precinct 7 by 16-8, in Precinct 10 by 41-7, and in Precinct 16 by 32-4. But in Precinct 11—the southwest corner of the county—the proposal was defeated, 26-18.

By counties, the issue carried only in Castro and Lamb, while it lost in Hale and Floyd. Hale County voters cast more than half of the total ballots in the election, opposing the issue by 1,264 to 1,150.

In Hale County, the proposal carried in Hale Center, Cotton Center, Halfway, [See SEEDING, Page 10]

City aldermen review ordinances, rule on local dog-kennel dispute

Dimmitt's aldermen were asked Monday night to revise the city's liquor-sales ordinance, rule on a dog-kennel dispute, and take another look at the new garbage collection fees being charged to small businesses.

The board heard requests from Thomas Falcon and Jim Butler to repeal a city ordinance that prohibits the sale of beer and wine on Sundays, and from Ken Williams to permit the Colonial Supper Club to extend closing time from 12 midnight to 2 a.m.

Falcon and Butler said that two businesses just outside of the Dimmitt city limits began Sunday sales about six months ago.

No county law prohibits Sunday sales as long as the beer and wine are in a separate building or have a separate entrance away from other liquor. A city ordinance presently disallows such sales within its jurisdiction.

"For all practical purposes, the city of Dimmitt is wet," Butler said, adding that Sunday sales are "hurting our

business a lot." Butler said he would prefer to have no Sunday sales at all, in the county or city, but he felt he should be allowed to compete.

Alderman Doug Lapins felt that the present situation created discrimination against city businesses.

Alderman Fred Annen asked for the opinion of Police Chief Ron Mitchell.

"I can't see that Sunday sales in the city would create any more problems for us with someone just outside the city selling it already," Mitchell said.

The aldermen tabled the request until the next meeting, July 7, to allow time for discussion with county officials.

Williams, owner and manager of the Colonial Supper Club, said he wants to extend closing time from 12 midnight to 2 a.m. To do so, he must have permission from the city aldermen and acquire a "late hour permit" costing \$500 per year.

Williams said that Daylight Saving Time has hurt his

business. Many of his 160 members are not able to be at the club until well after dark, he said.

Police Chief Mitchell said, "We've had very few problems there" at the club. He felt that an extension of time would not cause any more problems than usual.

Lapins said he felt "no inclination" to permit the change, since there is no problem of discrimination as in the Sunday sales question.

Aldermen tabled this issue, also until the next meeting, with definite plans to finalize a decision then.

Larry and Cheryl Caldwell learned they could not keep a dog kennel at 117 NW 12th, even though the city had issued a "boarding and training" permit to them on May 13.

Mrs. Caldwell had told Police Chief Mitchell that she wanted the permit to keep two puppies until they were old enough to sell. Without a "boarding and training" permit, no resident is allowed to keep more than two dogs.

Mitchell said he felt the Caldwells "misrepresented their intentions" when he learned they established a kennel after receiving the permit.

The Caldwells felt the city officials should be held responsible for not letting them know what they could or could not do. They wanted the aldermen to make a settlement based on their expenses of nearly \$2,000.

"Studying the dedication deeds is not our responsibility," Lapins said.

"You are in violation of the zoning ordinance which prohibits retail business in a residential district," city attorney Jack Edwards told the Caldwells. "The permit is invalid and cannot be used."

Edwards said the Caldwells could get a variance only by going to the city zoning board, a process which would take about six weeks. Any complaints of area residents about barking, flies, etc., could prompt an injunction at [See ALDERMEN, Page 14]

View from the Library
By BRICK AUTRY
Notice: Explanation of last week's column; to wit: "... if you are library orientated, you are expected to support the ERA Movement." This surely is insulting to anybody's intelligence. The audacity of an organization such as the American Library Association requiring a certain response of a personal nature is infuriating but they do it anyway because some people will fall for anything (and, of course, some librarians will fall for anything). How seriously one takes the statement depends on how gullible one is. Similarly, the paragraph beginning with "Patrons who do not support the ERA may still check out books" and continuing on with the statement "... one may not check out books pertaining to Illinois" is

meant to be as asinine as they sound. The clue to the whole thing is the ending "That does seem right, doesn't it?" meaning that if the reader follows the train of thought and knows that if the American Library Association will not meet in Illinois because they do not support ERA, then it's right that we should not even read books about Illinois, right? Wrong. That's the most stupid train of thought ever to appear in this article and if it is not funny then someone has no sense of humor.

Now on to other things. However, if another explanation of the humor herein has to be written, then this writer is going to become a hack. One thing which is certain. Sometimes the articles here being written require their own space and their own being. Therefore, this writer does not often have much to say about the final outcome. If you, the reader, do not like the contents of the article, heavens if I know who you are to blame. Certainly not me.

There is a very thoughtful publication now that has gained recognition lately which I think readers will enjoy. It is called The Rockford College Institute. It originates from a small Midwestern college of conservative bent and is led by a very outspoken and a very thoughtful editor named Leopold Tyrmand.

The Rockford College Institute examines every aspect of our developing American culture — the music, the literature, the social changes, government, politicians, everything. There is a distinct change in our American point of view from times past and not the remote past at that, notes the Institute, and lots of the changes are unsavory and unwise. The latest issue notes the proportion between government involvement with the schools and effective results in the classroom finding that the more government involves itself in the schools, the less efficient they become.

The address for the Institute is: Rockford College Institute, 5050 E. State St., Rockford, Ill. 61101.

Nazareth seniors attend Boys' State

Perry Brockman and Joe Hochstein, both Nazareth High School seniors, returned from American Legion Boys' State held on the University of Texas campus in Austin. Held June 7-13, Boys' State's purpose is to teach the functional and practical aspects of American govern-

ment. The two seniors were sponsored by the Nazareth American Legion Post #528, Nazareth Lions' Club and the Catholic Order of Foresters. Brockman is the son of Mr. and Mrs. Cyril Brockman. Hochstein is the son of Mr. and Mrs. Eugene Hochstein.

Dimmitt students make dean's list

Among the 5,000 students at Texas Tech University who qualified for the deans' honor rolls during the spring semester, 24 are included from Dimmitt.

They include Scott Bagwell, Jim Bradford, Kerry Broderick, Beth Buckley, Cynthia Clatt, Jimmy Cleavinger, Joe Collins and Robert Collins. Also, Clinton Dawson, LeRon Ginn, Sue Rita King, Harold Love, Diane Love, Layne Myatt, Melanie Nelson, Reginald Quiett, Susan Sadler and Cinde Sides.

Also on the list were Randy Smithson, Brenda Underwood, Kathy Wales, Lisa Wales, Karen Wilson and Linda Wise. Anthony J. Brockman of Nazareth was also named to the dean's honor list.

To qualify for the dean's honor list, a student must make at least a 3.0 on a 4.0 scale.

Many students list Lubbock as their mailing address and the computer printout will not list them as Dimmitt residents. They may have been omitted from this list.

County gets \$18,000 in sales rebates

Castro County received a total of \$18,007.70 in June city sales tax rebates from sales in Dimmitt, Hart and Nazareth. According to State Comptroller Bob Bullock, a small decrease in the rebates statewide may indicate consumer caution about the economy and spending patterns.

Dimmitt received \$14,938.27, just above last year's rebate during the same period of \$13,316.98. 1980 payments in city sales tax to date are \$61,705.84, well over last year's total of \$49,413.60.

Hart June city sales tax rebates totaled \$1,569.71, less than last year's total of \$2,853.51. 1980 payments to date from Hart is \$7,404.36, relatively the same as last year's \$7,016.29.

Nazareth's city sales tax

rebate was down from last year, with the city receiving \$1,499.72, under the \$2,077.89 mark hit last year. 1980 payments to date from Nazareth are up to \$6,982.37 from last year's \$5,698.10.

The optional city sales tax is collected by merchants and businesses along with the state's sales tax and is rebated monthly to the cities in which it is collected by the comptroller's office.

Jackpot roping to start at 7 Saturday night

The Castro County Rodeo Association will host a jackpot roping Saturday with books open at 7 p.m. and roping to begin at 8 p.m.

The jackpot roping will be five for \$20 progressive after one.

A buckle will be awarded after the last jackpot roping. To be eligible for the buckle the roper must be present at three of the five ropings.

For more information, contact Luan Ebeling at 647-4197.

Driver is a 1972 graduate of Hereford High School and received his BA from Austin College in 1976. He completed the medical curriculum at the University of Texas medical school in San Antonio, including special studies at the UCLA medical school in Los Angeles, Calif.

agri-facts

Have farmers done anything for you lately? Probably not. At least, not since your last meal. Figures developed by researchers with the USDA indicate that American farmers' production last year was high enough that each man farming produced enough to feed 57 people. In the European Common Market countries one farmer produced enough to feed 23 other people, the average of all developed countries was less than half the productivity in the U.S. and in Russia the average farmer produced enough to feed only about 8 others. Not only is the American productivity important in keeping us all well fed (most too well) it's also significant in that it allows 96 out of every 100 people to work in areas outside food production. That makes possible the production of the wide variety of goods and services which constitute our unparalleled living standard. Keep it up farmers!

Chatter

[Continued from Page 2 at church and also for dinner with dad Ted and mom Dorothy Sheffy.

Swain and Katy Burkett are home from a recent trip to Arizona where they visited the sons and families and attended the graduation of granddaughter Kati who is David's daughter.

Mrs. Lucian Erskine of St. Louis, Mo. has been here on farm business and for a visit with friends Swain and Katy Burkett and Retta Cluck. They went to Clovis for dinner one day and a look at the town.

Beral Hance visited in Panhandle over the weekend with her daughter Beth Hodges and Jack. Also present from Dallas were Linda and Don Murphree who were returning from Denver to their home.

The Murphrees were hosts for dinner at the Amarillo Club Saturday evening. Boyd Hodges is working this summer in the office of Congressman Jack Hightower. Ivan Sinclair, former Dimmitt resident, is chief aide in Hightower's office.

Terese Dawson from Hereford spent a week with her aunt Ann Hays and family. The kids spent the week taking tennis lessons and swimming.

Mrs. Jerry Lance and Camille spent the day with Ann Hays and family, making final plans for the anniversary party.

Here is a note I received this week:

Hello Myrtle!!
Just a short note to let you know that I still follow your column religiously. I am so happy working here at the speech and hearing clinic at the VA Hospital. I have had quite a bout with cancer of the neck and nose, but with 36 radium treatments at the Scott and White Hospital, I believe they have it under

control for the time being. By the way, I believe we have two Dimmitt products working as nurses at the Scott and White Hospital. Susan Wise and a Birkenfeld from Nazareth. I am going to look them up. It is only half a mile from the VA to Scott and White, and believe me it is the most beautiful hospital I have ever seen.

I am enclosing a copy of the DOM newspaper that is published once a month. I write a column for the paper, called "Muse with Me." Thought maybe you would like to look it over.

Hello to everyone in Dimmitt — the town I love. Sincerely,
James "Rosy" Bates

The "Beat Cecil Crum Saturday Night Bridge Club" met at Polly Holland's house to play bridge and honor Ellen Hrabal's birthday. She wouldn't reveal her age, we think she is still having two digit birthdays. Polly is noted for her delicious cooking. She served Mexican chicken, a recipe a friend in Albuquerque gave her. The chicken was served with green beans being with almonds, diced spiced beets, broccoli and cauliflower with cheese sauce, green salad and hot rolls. Vanessa treated the club with a Mississippi Mud Cake. Of course the dinner was diet food, until you get on the scales.

Following dinner four tables of bridge got underway with the main objective to have a score higher than Cecil Crum. Joanis Robertson, is capable of performing miracles to beat Cecil. On two occasions in one evening, Joanis made game bids she bid with only six points in her hand each time. If you don't think that is difficult, try it sometime. Needless to say, Joanis ended the evening being high scoring lady.

J.R. Brown, ended the evening being high scoring man. Poor Cecil just couldn't get things going for himself, he sure has had better scoring nights. Other bridge players that enjoyed the evening were: Ruth and Kenneth Jackson, Earl and Betty Parish, Jim Hrabal, Ray Robertson, Virginia Crum, Betty Huckabay, Fawn Welker, Brenda Andrews, Mary Jo Brown and Garnett

Holland. The Club had truly a fun night, all but Cecil.

Jack and Myrna Cowsett were at the Annen party Sunday afternoon. Jack is doing fine from his recent illness.

Mrs. Gordon Bradley of Tucumcari was the birthday lady Sunday. She is 80 years, so her children served dinner at the Senior citizen's building to 73 people and Irene Bradley says a whole posse of grandkids and great-grand. The family are Weldon and Dent of Dimmitt and the girls are Anna Dee Gibbs and Emma Lou Hastings of here, a son Harold Bradley from Zapata, near Falcon Lake, Keith Bradley from West Fork, Ariz., and all their families.

Friends coming by were Robert Duke and his dad Ed Duke of South Hills, Mr. and Mrs. John McLain of Hart, the Ezell Sadlers, Mr. and Mrs. Lawrence Widner from Bovina and others, I forget who. The friends and family gave her a money tree. I knew the Gordon Bradleys years ago at Sunnyside and Flagg.

Lynna McGuire was the birthday girl Thursday and her friends threw her a "Happy 18th" party at Connie Nelson's house. They had homemade chocolate cake. Attending were Lynna's brother, Thomas McGuire, Kyle Wise, Laura Lapins, Barbara Snell and Connie Nelson.

The group also went to Amarillo Saturday night. They ate at Adam's Rib and saw the movie, "The Shining." Jim Birdwell went too.

Austin Dollar was here recently from Grants Pass, Oregon. He visited with brother Leonard and Clara and family.

Social Security in Castro County

By JANICE B. ULMEK

After looking through the society page on the first Sunday in June, it is obvious that this month belongs to the brides. Starting a new life involves many changes including a name change. Your social security record should be changed so that earnings are correctly reported to the right record.

To apply for a new social security card which will show your new name, but old social security number, you should come to the social security office because a personal interview is necessary. Also, two items of evidence showing your identity under both the new and old names must be submitted. Possible evidence includes: driver's license, state identity card, passport, court order for name change, report card, library card, welfare case record, insurance policy, voter's registration, marriage record, divorce decree, work badge or building pass, or any other document showing identification data such as a

physical description, photograph, or signature.

We are only allowed to accept original documents or copies certified by the issuing agency. We cannot take uncertified photocopies. It takes about two weeks to get a new card. When you receive your new card check the number. It is very important that the only change is in the name.

For more information about applying for a social security card, ask for a copy of the leaflet, "Applying for a Social Security Number," at your local office, 1401-B W. 5th St., Plainview, Texas 79072. Or call our toll-free number 1-800-392-1603 for additional information. Our representative is in Dimmitt at the courthouse the 1st and 3rd Thursday of each month from 10 a.m. to 12 noon.

U.S. DEPARTMENT of Agriculture researchers have developed a process for turning catfish waste into a high-protein animal feed.

WAGE EARNER PLAN

Under federal law, the new wage earner plan serves to protect many families and certain self-employed people who were previously not eligible. It may be possible to legally reduce payments to creditors by up to 50 per cent or more through the reduction of monthly payments. Certain items, such as your house, automobile, appliances, and furniture may not be repossessed when complying with this plan. The plan prohibits the payment of interest on many bills and may, thus, enable you to be debt free in three to five years. This plan will also legally prohibit creditors from contacting you or your employer.

BANKRUPTCY

Under the new Bankruptcy Code, federal and state exemptions protect most families' possessions. One needn't fear that they will lose their car, furniture, appliances, or house under certain exemptions which are now available to many families.

Hydroponic gardening is simple for kids

Get a "taste" of hydroponic gardening — by growing your own bean sprouts at home.

It won't really be the same, but it will give you an idea of what hydroponic gardening means, says Dr. Rose Tindall Postel, a foods and nutrition specialist.

Hydroponic gardening means growing garden crops in water and feeding the plants with nutrients added to the water, she explains.

Dr. Postel, on the home economics staff of the Texas Agricultural Extension Service suggests the following instructions, developed for kids ages nine to 12, from the '1979 Yearbook of Agriculture:'

1. Get these supplies together: beans, a screw-top jar, water and a little time. Wash a half cup of the beans
2. Drain off the water. Punch holes in the lid of your screw-top jar. Put the beans in it and screw on the lid.
3. Put the jar in a dark place. Rinse the beans with water and drain them two or three times each day. Each time, put the jar back in a dark place. Sprouts grow very fast — they'll be ready to eat in five days. They're really good in salads, or cooked with other vegetables.

Bean sprouts, of course, are only the beginnings of plants. If they were to grow much bigger and develop green leaves and stems, they would need more than just the water you would give them to make sprouts. Also, they would need soil, light and air.

KING-SIZE CRAPPIE—Tim Sims, left, shows his prize-winning fish caught recently during the Conchas Dam Lions Club Fishing Derby. Tim's fishing partner, C.B. Lunsford, holds the \$100 check.

Drinking unsafe during pregnancy

Pregnant? Don't drink! Pregnant women who drink alcoholic beverages can damage their unborn babies, says Dr. Mary Ann Shirer, a health education specialist.

Many children born to women who drink "excessively" while pregnant have shown recognizable patterns of physical and mental birth defects, known as fetal alcohol syndrome, she explains.

Dr. Shirer, on the home economics staff of the Texas Agricultural Extension Service says that no one knows what the "safe" levels of drinking for a pregnant woman are. Hence, her advice — "Don't drink."

Since safe levels of drinking are unknown, pregnant women and those likely to become pregnant should discuss their drinking habits — and the potential dangers — with their physicians.

The "do's and don'ts" associated with pregnancy may seem overwhelming, but underlying all the advice and recommendations you get is this important message: **WHAT YOU DO MAKES A DIFFERENCE**, the specialist stresses.

By making informed choices about alcohol use during pregnancy, you can increase your chances of having a healthy, normal baby, she says.

Whale of a fish nets championship

It's not often that a two-pound fish is worth \$100, but Tim Sims of Dimmitt managed to catch both a money-maker and a prize-winner recently at Conchas Dam in New Mexico.

Tim caught a two-pound crappie that netted the division championship of the Conchas Dam Lions Club Fish Derby. The derby is held for four months and features a different fish each month: April is crappie, May is bass, June is walleye and July is catfish.

Tim caught the fish in April while his family, along with the C.B. Lunsfords, were on a weekend trip to the lake. C.B. and Tim were fishing from a boat on the lake when Tim made his catch.

Tim's fish not only won the division contest, but is also the largest crappie caught so far at Conchas this year. He could possibly win an additional \$50 prize if a larger crappie isn't caught before the deadline.

So, with a \$100 check in his hands and another \$50 possibly rolling in soon, Tim is only faced with one problem: whether to eat his prize-winner or mount it.

More about

Cloud-seeding's future

[Continued from Page 1] Edmonson and two of the eight boxes in Plainview, as well as the absentee vote. It was opposed in Happy Union and in six Plainview boxes.

The proposal will go next to the State Water Board in Austin. After the results of the election are certified, directors of Plains Weather Improvement Association, Inc., will draw new boundary lines based on the election results, then will petition the State Water Board for a permit to conduct cloud-seeding in the revised target area.

The program's opponents, the Citizens for Natural Weather, will then have the option to file a motion with the Water Board to have the cloud-seeding program stopped. These hearings could take 60 to 90 days, which might carry beyond the hail season.

James Welch, a director of the Plains Weather Improvement Association, said that the Water Board will have the final say on whether the proposed program becomes a reality. The board will take the election returns into consideration, but will not be bound by them, Welch explained.

Welch said the program's planes and radar could still be based in Plainview, although Plainview opposed the issue. The PWIA planes would not be allowed to seed clouds over the precincts that opposed the issue, but could fly over these precincts to their destination as any private plane could.

James Wilhelm of the Citizens for Natural Weather

said he was "sort of pleased" with the way the election turned out, but is "hoping for better results" in the hearings.

"People are worried that this election will split the farmers in the county, but I personally don't think we'll have any problems with it," Wilhelm said.

Also clouding the issue is the possibility that there might not be a large enough target area left to bear the expense of the program. But Welch said the area was not broken up badly by precincts opposing the issue, and that the program can still work. The workability of the target area also will be decided by the Water Board.

History Book production in final stages

The Castro County History Book is now in the process of sizing pictures and fitting copy. Workers are needed for this, and the group will meet Friday at 11 a.m. at the museum.

There are still a few days left to get in Business or Organization histories. Work is being done on the special pages in the book.

Clara Vick, publicity chairman for the book said, "We were thankful and appreciative of some new recruits on this project. Jeff Isaacs and Laurie Ewing, both students at Dimmitt High School, and Kathryn Birdwell, Darlene Dowell and Elizabeth Huckabay, helped with the typing, sizing the pictures and fitting copy for the book."

For more about the work meeting and the History Book, contact Clara Vick or Helen Richardson.

Sheriff's office recovers vehicles

Two vehicles, a truck and a trailer, were recovered by the Sheriff's office this week.

Sheriff Granville Martin reported that a stolen pickup from Hereford was recovered Monday, and a gooseneck trailer was recovered last week. The trailer had been missing for over two months from Walter Graham.

A burglary was reported at the county barn in precinct 3. 50 gallons of gas were stolen, and the case is still under investigation.

Police calls

A plate glass window at Modern Carpet and Furniture was broken last week and damages will total \$150. Owner Larry S. Gonzales reported the incident to city police Saturday and said he was unsure when the window was broken.

In another case of vandalism, a glass door was broken at Dimmitt Consumers Thursday at approximately 10:30 p.m. The door, located on the west side of the building, totaled \$100 damage.

A Dimmitt man was apprehended Friday at 10:50 p.m. for public intoxication at the Colonial Inn Club. Sunday, police picked up a man for driving while intoxicated at 1:30 a.m. at 500 E. Bedford.

Monday police apprehended a 15-year-old and charged him with driving without a license. He was picked up at 1:03 a.m. and was fined \$100.

Quinten Baker Hawkins

Graveside services for Quinten Baker Hawkins, infant son of Mr. and Mrs. Quincy Hawkins of Hart, were held at 10:30 a.m. Monday in Hart Cemetery. Rev. Don Blackman, pastor of Hart First Baptist Church and Rev. Lanny Wheeler, pastor of Hart First United Methodist Church, officiated.

Burial was under the direction of Parsons Funeral Home in Dimmitt.

The child was stillborn Thursday night at Central Plains Hospital in Plainview.

Survivors include his parents; two brothers, Jeremy and Justin Ford, both of the home; grandparents, Mr. and Mrs. N.B. Stokes of Dimmitt and Willis Hawkins Jr. of Hereford; and great-grandparents, Mr. and Mrs. Willis Hawkins Sr. of Hart, Mr. and Mrs. N.W. Stokes of Westbrook, Mrs. John Guy Ford of Canyon and Mrs. F.M. Page of O'Donnell.

Rachel Charlotte Doan

Mrs. Rachel Charlotte Doan, 60, of Tulia, daughter of Mrs. Abbie Parker of South Hills Manor, died Sunday.

Services were held Wednesday in the First Presbyterian Church in Tulia. Dr. Murray Travis, pastor, officiated. Burial was in Rose Hill Cemetery, conducted by Wallace Funeral Home.

Mrs. Doan was born in Swisher County. She was a member of the First Presbyterian Church and a former member of Tulia Literary Arts Club. She married John Allen Doan in 1941 in Tulia.

In addition to her mother, she is survived by her husband; a daughter, Charlotte Tyler of Hereford; three sons, William Hatcher of Wilmington, Del., Robert Allen Doan of Houston and John Parker Doan of Tulia; and seven grandchildren.

Lillie Mae Williams

Services for Mrs. Lillie Mae Williams, 85 of Abernathy, mother of Mrs. Ola Joyce (Mrs. Joe) King of Dimmitt, were held Tuesday at the First Baptist Church in Abernathy.

Rev. Lloyd Riddles, pastor, and the Rev. Condy Billingsly, Church of Christ minister, officiated.

Burial was in Petersburg Cemetery under direction of Carter-Adams Funeral Home of Ralls.

Hearing Loss Is Not A Sign Of Old Age

Chicago, Ill.—A free offer of special interest to those who hear but do not understand words has been announced by Beltone. A non-operating model of the smallest Beltone aid of its kind will be given absolutely free to anyone requesting it.

True, all hearing problems are not alike . . . and some cannot be helped by a hearing aid. But audiologists report that many can. So, send for this free model now, and wear it in the privacy of your own home. It is not a real hearing aid, but it will show you how tiny hearing help can be. It's yours to keep, free. The actual aid weighs less than a third of an ounce, and it's all at ear level, in one unit.

These models are free, so we suggest you write for yours now. Again, we repeat, there is no cost, and certainly no obligation. Thousands have already been mailed, so write today to Dept. 42068, Beltone Electronics, 4201 W. Victoria, Chicago, Ill. 60646.

Fuel tax use discussed at Kiwanis meeting

Mel Pope, district maintenance engineer for the State Department of Highways, spoke to the Kiwanis Club Monday. He discussed where the money received for the state motor fuel tax goes. Farm to market roads get 20 percent of the five cent per-gallon tax, he said, adding that major highways get 50 percent, and the school systems get 24 percent of the tax.

Pope also stated that Texas' motor fuel tax is two cents lower than all other states,

and four cents lower than the average of nine cents per gallon.

President Bob Murdock discussed the State Babe Ruth baseball tournament to be held here in July, and the possibility of members keeping a visiting team in their homes. Final plans were also announced for the Fourth of July Firecracker sale, by Jimmy Davis, project chairman.

Karen Robertson to head campaign

Mrs. Karen Robertson has been appointed chairman of the Cystic Fibrosis 1980 Breath of Life Campaign in Dimmitt and will recruit volunteers within the community to help plan and carry out the campaign this fall.

The purpose of the campaign is to provide the community with information about Cystic Fibrosis and to raise funds to support research, education and care programs for Cystic Fibrosis patients.

The number one genetic killer of children, this disease is inherited and incurable. An estimated one in 20 Americans is a symptomless carrier of the recessive Cystic Fibrosis gene. One in every 1500 babies born in this country is a victim and, at present, half of all children born with the disease will die during their teens.

To volunteer for the Breath of Life Campaign, please contact Karen Robertson at 647-5477.

pet parade

... Labrador retriever, left, and Chihuahua held by Charles Whitman

Pet Parade Pups Purchased

Many dogs have received new homes since the Pet Parade began two months ago. Charles Whitman, city animal warden picks up an average of 25 dogs a month

and since the pet parade began, dogs have been adopted. Otherwise, the dogs are "put to sleep" after two weeks in the pound. The fees for the dogs go

toward the expense of keeping the animals. The \$7.50 pick-up fee and the \$1 per day charge are for room and board. The \$7 fee is paid to a veterinarian for the mandatory rabies shot given each dog. A \$2 tag fee is for all dogs kept in the city.

This week's dogs are both male and the deadline is next Monday. The Labrador retriever was picked up June 17 and the Chihuahua was found June 13. These dogs and many others can be purchased by contacting Whitman at 647-4545.

The junior high team won outright on Saturday morning. The high school team tied on the first day with a team from Wichita Falls and then was declared champions after a shoot-off Sunday morning.

Both teams will next compete in the Amateur Trap Shooting Association's Grand American Shoot in Vandalia, Ohio, in August.

This competition will have shooters from all 50 states and from countries throughout the world. Approximately 5,000 shooters will compete during the shoot.

High school team members are Adrian Stanton, Kent Kirby, Todd Hatla, Doug Schilling, Robert Boozer.

Junior high team members are Tim Kenworthy, Todd West, Robbie Hottel, Mike Stanford, Mark Standlee.

These teams will also represent Castro County in the district 4-H shoot in Lubbock on July 9 and in the state 4-H shoot in San Antonio on August 8.

More about City aldermen ...

[Continued from Page 1] any time, Edwards added. The aldermen went into executive session, then announced their official stand: "This license was void from its inception because it was in violation of its zoning ordinance." The aldermen were unanimously opposed to any settlement.

In other action, the city board: —Approved recommendations by the Castro County Appraisal Board to accept bids from McMorris & Co. and from Pritchard & Abbott for reappraisal of all property in the city, as required by the state.

—Heard several complaints from small businesses concerning the new trash collection fees. The new rates are \$15 for large containers and \$8 for small containers in commercial use. But the flat-rate fee for two or more businesses sharing one container was considered unfair by several small-business owners. City Manager Garnett Holland was asked to compile cost-use information for aldermen by their July 7 meeting.

—Decided to supplement aerial spraying of mosquitoes with the city's ground-spraying rig in early morning and evenings. Aldermen said they recognize that the spraying has not been very effective, but stressed that the maximum authorized strength of insecticide is being used. The city spends \$1,600 per

aerial spraying. (The aldermen and Police Chief Mitchell urged citizens to keep weeds mowed down on lots and in alleys, to keep cans and barrels emptied of collected water, and keep water storages covered. All such precautions by citizens will help in the fight against mosquitoes, they said.)

—Called for bids for repairing roof damages from the recent hail storm, for purchase of a lawn mower, and for filling and leveling of the city land fill site.

VETERAN'S SERVICES

By BEDFORD W. SMITH
County Service Officer

If there is a copy on file of a Veteran's DD-214 or its equivalent (an AGO Form for WWII veterans or WWI veterans) on file in our office, burial benefits, including a burial flag can be expedited. This document, necessary for any VA benefit is the Veteran's Service Record which came with his or her discharge. It is part of the separation papers.

Veterans should remind their families periodically that the Veterans Administration can provide from \$450 to \$1,100 toward their burial expenses, according to Jack Coker, Waco VA Regional Office Director. The amount depends on whether the death results from a service-connected condition and whether the veteran is buried in a national cemetery.

Awareness of VA burial benefits can often spare the family of a deceased veteran both anxiety and financial hardship immediately following the veteran's death.

VA provides up to \$300 toward the burial expenses of eligible veterans and an additional \$150 as a plot or interment allowance if the veteran is not buried in a national cemetery or other government cemetery.

If the veteran's death is service-connected, VA will pay an amount not to exceed \$1,100 in lieu of the usual burial allowances.

These VA payments will be reduced or eliminated in cases where the veteran's employer or a state agency has made such payments.

Veterans discharged under other than dishonorable conditions who served in the Spanish-American war, during the Mexican Border period, World Wars I and II, the Korean Conflict or the Vietnam Era are eligible for VA plot and burial allowances and for burial in a national cemetery.

Peacetime veterans with other than dishonorable discharges are eligible for burial in a national cemetery and for a headstone or grave marker. But peacetime veterans are not entitled to the burial or plot allowance unless they were receiving compensation payments or were discharged for disability reasons.

VA will also provide a headstone or grave marker for eligible veterans, and memorial markers will be furnished for certain members of the armed forces who die on active duty and whose remains are not recovered, or who are buried at sea.

An American flag will also be provided upon request for use in covering the casket.

With the exception of Arlington National Cemetery, burial is available to eligible veterans at all national cemeteries having space, and may also be authorized for an eligible veteran's wife or husband, minor children and, under certain circumstances, unmarried adult children.

More about Tornado, hail hit...

[Continued from Page 1]

Then only one siren worked—the one in West Dimmitt. The main siren downtown had burned out and been taken down for repair, but was scheduled to be re-installed Wednesday.

"We have a real elaborate warning system on order through the Civil Defense," City Manager Garnett Holland said. "Our application is in and we've set aside Revenue Sharing funds for it, but I'm not sure what the status of our application is, or when we'll get it."

Instead of continuing toward Dimmitt, the storm system veered toward the Bethel-Flagg-Dodd areas.

Fred Kuntz of Flagg Fertilizer said the storm delivered a strip of hail about six miles wide in the area of the Running Water Draw and the Castro-Parmer county line.

"It caused pretty much total destruction to crops," Kuntz said. "there were some skips in and around it, but not a lot."

Kuntz said he had heard rainfall reports ranging from a

quarter-inch to as much as three inches.

Spotters in the Flagg area reported visibility near zero at 10:30 p.m., and Sheriff's office units had difficulty getting to the community to track a funnel cloud that had been reported there at 9:55.

The funnel at Dodd was reported to be on the ground and moving southeastward at 30 mph. Later a funnel—probably the same one—was spotted near Springlake.

Meanwhile, Easter was receiving little or no rain and Sunnyside was getting showers ranging from a quarter-inch to an inch.

The "all clear" sounded in Dimmitt at 10:15 and the tornado watch expired at 11 as nervous residents climbed out of underground shelters and breathed sighs of relief.

Farmers in southwestern Castro County were still assessing their damage to their harvest-ready wheat and to young crops of milo and cotton.

Lions Club will install next Thursday

The Dimmitt Lions Club will install officers at its annual Ladies' Night Banquet next Thursday at K-Bob's Steak House.

The banquet will begin at 7:30 p.m., and will feature a program of music by Zella Ellison. A steak dinner will be served to Lions, their wives and guests.

Jack Edwards will be installed as the new Boss Lion to succeed Tommy Fowler. Other new officers to be installed are Joe Josselet, Marlos May and Chuck Braafladt, vice-presidents; Ron Burleson, secretary; Marvin Bryant, treasurer; Don Nelson, Lion tamer; Kenn Justice, tail twister; and Virgil Justice, Chet Braafladt, Kenn Justice and Bob Caddell, directors.

WHEN is enough not enough? By rearranging the letters to spell "one hug."

Coupons can save on food budget

You might save \$1,000 a year on your food budget — if you attack it with coupons, says Dr. Rose Tindall Postel, a foods and nutrition specialist on the home economics staff of the Texas Agricultural Extension Service.

"Manufacturers have offered special coupons and other saving devices for years, but until recently consumers may not have been diligent about using them," she reminds us gently.

A study by the Nielsen Clearing House found that in 1977 only 27 percent of U.S. households took advantage of coupons — although 74 percent of those same households were aware of coupons.

Of course, consumers should use coupons with wise-shopping tactics — make sure the refund offer actually ends up being a savings, Dr. Postel cautions.

Don't buy a much higher-

priced item just to get a small refund, she explains.

Here's a look at today's values compared to those a few years back:

In the 1960s, the average refund offer was worth about 30 cents. By 1977, it was about 80 cents. Now the average refund is about \$1.25.

Last year manufacturers offered about 7,000 different refunds. Most were for cash, about 62 percent. Another 22 percent were good for further food purchases, and the rest were for checks.

Where to find coupons is a question with four answers: About 41 percent of them appear in print — newspapers, magazines, supplements. Another 26 percent are on tear-off pads in grocery stores. Around 16 percent are in food packages — or on them.

A remaining 17 percent appear in a combination of the above methods.
