Strike Is Tough On Babies

(NLA Telephoto)
 Mrs. James McClelland feeds her two-week-old baby by lantern light and candle at her home in Mount Washington, Pittsburgh, Pa., where power was cut off by a line failure. Duquesne light officials say repairs can't be made until the strike is settled.

Tidelands Oil And Freight Rate Case Go Before Supreme Court

WASHINGTON—(AP)—The Supreme Court, restored to full strength, opens a new term Monday which will decide the Tidelands oil dispute and many other vital questions.

Mild And Brief Depression Seen At End Of 1947

By STERLING F. GREEN
 WASHINGTON—(AP)—Economists here noted signs Saturday night which they said could point to a depression for late 1947 or early 1948, but a mild and brief one.

Everett Hagen, chief economist of the National Planning Association, a non-governmental research organization, told a reporter that "there are forces which could bring a softening of demand in the first half of the year and possibly increase today's phenomenal low unemployment by 2,000,000 or 3,000,000 persons."

Louis Paradiso, Commerce Department economist, saw consumer demand strong enough to carry the high level of business activity well into next year and perhaps into 1948 but commented that "the situation is likely to be vulnerable next year."

Three Counties Vote On Sale Of Liquor

By The Associated Press
 Four Texas counties held local option elections on legalizing or outlawing sale of alcoholic beverages Saturday, and the status quo was changed in only one—Wichita.

Wichita County, dry since 1942, voted to legalize sale of alcoholic beverages. The ballot count Saturday night was 8,651 for sale of alcoholic beverages and 7,292 against.

For the third time in 16 years, Lubbock County turned down a proposal to legalize sale of beer. The vote was 4,041 for beer and 7,979 against. The total vote of 12,020 was larger than that of any election in the county's history except for the last July Democratic primary, which topped it by 700 ballots.

IF BIG FOUR FOREIGN MINISTERS OK RECOMMENDATION— Five Satellite States Must Pay More Than Billion Dollars For Aiding Hitler

By LOUIS NEVIN
 PARIS—(AP)—Fourteen tired, disheveled and unshaven delegates cried "hurrah!" Saturday as the Balkan Economic Commission ended a 28-hour session which completed the preliminary drafting of the five peace treaties with the former satellites of Nazi Germany.

When Commission Chairman Joseph Korbel banged his gavel in adjournment it meant that the commission had completed its share of the writing of a reparations bill which if approved will cost Italy, Romania, Bulgaria, Hungary and Finland \$1,350,000,000 for helping Adolf Hitler set the world on fire.

Reparations claims against Italy alone at one time totaled \$28,000,000,000.

Monday the delegates of the 21 nations of the European peace conference will meet in plenary session to begin the final stage of treaty writing that is scheduled to end on October 15. Then they will turn their treaty recommendations over to the Big Four foreign ministers, who will have the final say.

A special plenary session will be held Sunday to consider rules limiting debate and the schedule laid down by the foreign ministers council.

Yugoslav Craft Force British Plane To Land
 By JOHN P. McKNIGHT
 ROME—(AP)—A British airplane was forced down Friday near Nis, Yugoslavia, reports from both Belgrade and Allied Headquarters at Caserta said Saturday.

Allied headquarters said in a statement that advices received from Belgrade indicated there were no casualties and that "it is believed the craft landed as a result of signals from Yugoslav combat aircraft."

The reports were in conflict as to the type of plane. Allied headquarters said the craft was believed to be a courier plane.

A dispatch from Belgrade, however, said that a brief newspaper account of the incident had described the craft as a combat plane.

Dreamboat Pilot

Col. C. S. Irvine

Plane Wings Out Of Storm Near Crete

American Airplane Circles Half World
 CAIRO—(AP)—The U. S. Army's Pacusan Dreamboat radioed at 3:20 a. m., Greenwich mean time, Sunday that it had winged its way out of a Mediterranean thunderstorm and was over Crete on the last lap of its Honolulu-to-Cairo flight, the Army's Air Transport Command said.

Cruises At 15,000 Feet
 Flight control at Northolt Aerodrome near London said the Honolulu-to-Cairo plane failed to drop flares as expected, but its message over the field was signaled from communications planes, cruising over France and England.

The Dreamboat was maintaining altitude between 15,000 and 25,000 feet.
 Approximate distances from Hickam Field to various points as estimated by Lt. Vernon Zietler, Hickam Field navigation officer, along the Dreamboat's route include Sitka, 2,340; Reyjavik, Iceland, 6,068; London, 7,265; Foggia, Italy, 8,293; Cairo, 9,476; Wadi Halfa, 10,028.

The Dreamboat thundered down the runway at Honolulu at 10:21 a. m. Friday, CST, on its flight over the Arctic regions to Cairo. It carried the heaviest load ever lifted by a plane—148,400 pounds. Col. C. S. Irvine is commanding the flight.

Approximately half the total load was gasoline. The overload was 27,000 pounds at the takeoff.

Irvine said the chief object of the flight was to test the B-29 under Arctic conditions.

Porter Says U. S. Choice Is Steak Or Stabilization

WASHINGTON—(AP)—Price Administrator Paul Porter told the meat-hungry nation Saturday the issue is steak or stabilization.

Defending his price ceilings, he served new notice that "we shall maintain legal controls in the areas where shortages would produce runaway prices so long as we have the legal power to do so."

Porter also said, however, that he is "as upset as anyone" by the meat shortage, "and I can assure you we are working on it."

At the White House, too, Charles G. Ross, the President's press secretary, told reporters the whole matter was discussed at a cabinet meeting Friday but "all I can say is that no angle has been overlooked."

Neither Porter nor Ross mentioned any steps that might be taken.

Dangerous Psychology
 Porter reported in connection with the meat shortage "a dangerous public psychology that could result in nullifying all the gains that have been made" in the battle against inflation.

Police Nab Dog Poisoner And He Cringes From Accusations

By TANNER LAINE
 All the heart-tearing pleas of Midland youngsters about their poisoned and dead pets came back to the police station Saturday when police believed they had at least partially stopped malicious dog poisoning in the city with the arrest of a man, who confessed he bought poison for the purpose of killing dogs.

The man, who runs a business in Midland, broke down under sharp accusations by the city judge and Chief of Police Jack Ellington, who made the arrest.

When told by the judge and police chief that, as a willful poisoner of innocent pets, he should have the wrath of Midlanders who have lost dogs by poisoning put on him, the man cringed and begged for mercy from this.

The man said the barking and howling of dogs bothered him and he bought two bottles of strychnine in his neighborhood. He said he shot dogs at first but that was "too noisy."

The judge and police chief told the man of example after example of beloved pets being fiendishly poisoned in Midland. They told him of the many reports they had received of good dogs being killed by strychnine here.

Dynamite Explosion Buries Crash Victims
 STEPHENVILLE, NEWFOUNDLAND—(AP)—The charred remains of an American overseas airliner and the 39 persons who died Thursday when it crashed against the side of a Newfoundland mountain were buried Saturday night under an avalanche of rock tumbled off by 300 pounds of dynamite.

Ground crews blasted the stone base of a 1,200-foot peak, obliterating the ugly scar burned there by the exploding plane and the fire that followed.

Earl Carrol Kidnaped And Robbed By Gunman

BEVERLY HILLS, CALIF.—(AP)—Earl Carroll, leading producer of girl shows in Hollywood and on Broadway, was kidnaped and robbed Saturday by a well-dressed young gunman as he entered his luxurious home before dawn, but was released unharmed several miles away, almost in the heart of downtown Hollywood.

Soon after, police in San Bernardino forced Carroll's custom-built car to the curb after firing four shots, and arrested its lone occupant, booking him as Eugene Striplin, 26, on suspicion of grand theft and armed robbery.

Police Capt. James W. Ellis said Striplin admitted the robbery but said he had no idea whose home he was entering.

Weather
 Overcast skies and possible scattered showers Sunday morning with breaking weather in the afternoon. Maximum temperature Friday was 77 degrees, minimum 67 degrees.

LATE NEWS FLASHES

STOCKHOLM—(AP)—Per Albin Hansson, 61, Swedish prime minister, died suddenly Sunday on a Stockholm suburban street a few hours after he had participated in the cabinet meeting which approved the newly-signed Swedish-Russian trade agreement.

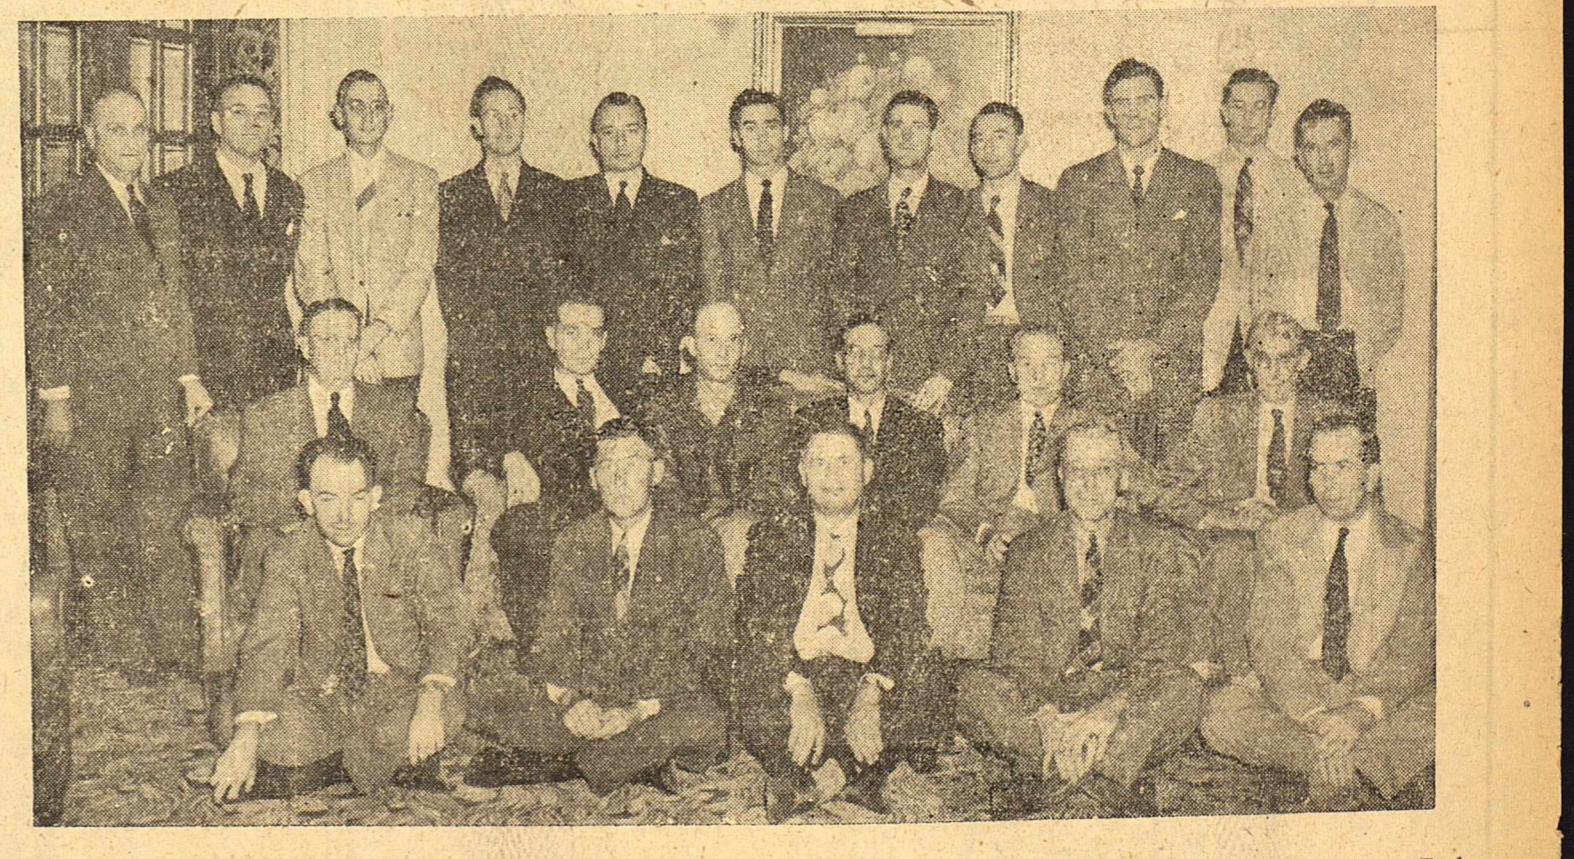

NUERNBERG—(AP)—Two of the three acquitted top Nazi leaders—Hjalmar Schacht, Hitler's banker, and Hans Fritzsche, propagandist—were spirited out of jail and given final freedom Saturday by United States military authorities amid a growing uproar among Germans that they and Franz Von Papen be tried in German courts for crimes against their own people. Von Papen remained in jail waiting formal word on whether he could enter the British zone. A British spokesman in the zone said entry was barred to all three.

Slow Rain Soaks Midland, Ranges

A good slow rain soaked Midland and its ranchland territory Saturday.
 More than an inch of moisture was estimated to have fallen by late Saturday. The gauge at Midland Municipal Airport recorded .78 of an inch at noon Saturday. The city gauge recorded .68 of an inch at 2 p. m. Saturday.

Rain was still falling Saturday night. Overcast skies and more showers were predicted for Sunday morning.

Cardinals May Throw Pollet Against Favored Sox In World Series Opener

By GAYLE TALBOT
ST. LOUIS —(AP)— St. Louis' own Cardinals, who survived a rough trip to the finals, and the highly-favored Boston Red Sox held their last skull sessions and workouts at Sportsman's Park Saturday preparatory to hooking up at 1:30

Barney Oldfield, 68, Racing Pioneer, Dies

BEVERLY HILLS, CALIF. —(AP)—Barney Oldfield, former famous automobile racing driver, died of a heart attack at his home here Friday. He was 68 last January. His wife, Mrs. Bessie Oldfield, found him dead in bed. She reported he was alive and apparently well when she arose and left the room to get the morning paper. When she returned a few minutes later, she was unable to arouse him. The former speed driver complained the day before, friends said, of a pain in the back of his neck but refused to have a doctor called, saying he would visit his physician Friday. His widow—and their adopted daughter, Mrs. Betty Kelly of Beverly Hills, survive.

(CST) Sunday in the opening game of the 1946 World Series. A sell-out crowd of about 34,000 was assured for both of the games which will be played here before the two clubs move up to Boston to continue the struggle, which was delayed for five days while the National League made up its mind whether to pit the Cards or Brooklyn against the waning American League champs.

Prospects were that a couple of Texas residents, left-handed Howie Pollet of Houston and "Tex" Hughson, a long right-hander from Kyle, would be nominated as the starting pitchers in the opener.

Pollet, who turned in 21 victories for the Cards during the season, including a vital 4-2 triumph over the Dodgers in the first play-off game, was certain to go for Freshman Manager Eddie Dyer if the strained shoulder muscle which has

hampered him recently is not too painful when he warms up Sunday. The slim portsideer took heat treatments Sunday and indicated he would be ready. Hughson is First Choice Although Manager Joe Cronin of the Sox had not stated a definite choice among his "big three"—Hughson, Dave "Boo" Ferris and Mickey Harris—the Cards felt it was a foregone conclusion they would have to look at Hughson. The big fast-baller won 20 this year, ripping off eight of his last nine starts and generally resembling a ball of fire down the stretch. Should Pollet decline the assignment, Dyer said his second choice

would be another lefty, Harry Brecheen. Then, if Brecheen also feels he could use more rest after his furious ninth-inning relief stint against Brooklyn two days ago, Dyer's reluctant third choice would be George Munger, a right-hander who only recently got out of the service.

No matter what Redbird flinger finally gets the call, the Sox will remain firm favorites to capture the series. The fence-busters who carried them to a runaway victory in the American League are figured to generate too much power for the Cards, who wound up the season with only two .300 hitters.

Pullig To Pitch For Dallas Rebels Sunday

DALLAS —(AP)— Tom Pullig, the former paratrooper from Arkansas, will attempt to pitch the Dallas Rebels within one game of its first Dixie Series baseball championship in 20 years Sunday when he takes the mound against Bill Ayers, ace of the Atlanta Crackers pitching staff. Starting at 3 p. m. the first of a possible three-game set here is expected to jam between 12,000 and 13,000 into Rebel Stadium if favorable weather prevails. The fourth game will be played Monday at 8 p. m.

SPORTS

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, OCT. 6, 1946-3

3-AA Swings Into Conference Action As All Play But Bobcats

By TANNER LAINE
Six of the 3-AA teams play in three weekend games Friday, with San Angelo resting.

The schedule:
Midland in Sweetwater.
Abilene in Odessa.
Big Spring in Lamesa.

The fur will begin to fly in the conference in these Friday night battles. From now on until the winner is under the wire the going will be tough for everybody.

MIDLAND - SWEETWATER: Something concerning the conference championship is on the balance. It can swing either way. Sweetwater has a big, rugged ball club, studded with veterans led by Lincoln, all-district center, and Doil Peagan, classy back. Mays, Pony end, is quite a pass catching threat. Pat Gerald's Ponies are going to be hard to head this entire season. Midland's slugging middle-weights will be in there fighting, to the finish. Midland, with its quick opening plays and dangerous passing attack has become the surprise and almost sensation of the district. The Bulldogs, for a change, are undefeated and untied and nobody's pushover.

ABILENE - ODESSA: Another contest with some hearing on the crown is this Eagle-Broncho battle. Odessa has enjoyed a high early season rating, number one in the state. This may have been exaggerated. Abilene, coached by Pete Shotwell, is a threat and could tip over Odessa. The Bronchos, hard pressed to beat Big Spring, will have to stir up more magic to gig Abilene. Abilene's Eagles feature a sharp passing attack to big ends.

BIG SPRING-LAMESA: Here is a battle of the second division clubs. But it will be a terrific one. Big Spring is long overdue in 3-AA and so is Lamesa. This tilt will be watched by all of the district for its indication of the strength of the lower bracket ball clubs.

SAN ANGELO: The Bobcats need the rest. They have played a wild schedule to date. Some day that big line of San Angelo is going to wake up and hurt somebody.

Crane Clips Stanton

CRANE—The Cranes of Crane High School had things their way here Friday night to down Stanton, 27 to 0, in a District 5-B contest.

Emancipator

Paul Douglas, president of American University, who named football at his institution on ground that players are slaves of "greatest black market" in sports.

Lubbock Edges 7-6 Win Over Lamesans

LAMESA—A touchdown pass in the last three minutes of play plus a place kick that split the goal posts gave the favored Lubbock Westerners a close 7 to 6 victory over the Lamesa Tornados here Friday night.

The game was scoreless until the final quarter when a Lamesan intercepted a pass and ran 35 yards untouched for a tally. Placekick was blocked.

With three minutes to go, Lubbock passed their way to a touchdown and Wayne Cobb, tackle, kicked the winning point.

FORSAN BEATS COURTNEY

FORSAN—The Forsan Buffaloes trampled over Courtney's Eagles, 20 to 12, in a six-man game Friday in Courtney.

Milam's Bulldogs Rally; Come From Behind; Win Going Away

By TANNER LAINE
The undefeated and untied Midland High School Bulldogs spotted Plainview's Bulldogs a touchdown here Friday night then divorced the visitors from the thinning ranks of undefeated Texas schoolboy elevens with a savage comeback that brought 24 points. It was Midland 24 and Plainview 6 at the gun.

Midland had fumbled at the start. After a scoreless first quarter, Plainview tallied early in the second quarter when Donnie Myers, 138-pound halfback, broke through the line on the Midland 45 and picked up a convoy of blockers and went all the way. Jack Bond's placekick for extra point was wide. The Plainview drive for this score carried 93 yards after Midland had punted out of bounds on the 7-yard line.

DOWN SPORTSLANE

TANNER LAINE

This is the honor roll:
Ben Olliff, end; Howard Mickey, tackle; R. A. Whitson, guard; Jimmy Edwards, center; Royce Higgs, guard; Morris Howell, tackle; Joe Birdwell, tackle; Jack Kidwell, end; Dewey Kirby, end; Eugene Burrow, guard; and Charles Moncrief.

These are Midland linemen, who did a swell job up front against Plainview. They didn't make the touchdowns but they made them possible.

The great big hand the fans were giving the Bulldogs during the game was in the major part to these fellows.

Now, tabbing the backs so far this season:

Player	TD	PAT	TP
Goode	7	5	47
Cole	4	0	24
Drake	3	0	18

Totals 14 5 89

And Barney Hightower, blocker, made most of these points possible.

Dunny, by the way, is the leading scorer in the district. Unofficial fabrications taken by Roy Scudday, Odessa sportswriter, show Goode out in front in the scoring department.

The women won't be denied. A number of fans have expressed a desire to have a day to shoot at the Midland Gun Club allotted to them. This will be done so the MGC heads tell us.

Dr. Homer Johnson is a Bulldog fan and a close follower of the game. Doc attends the practices

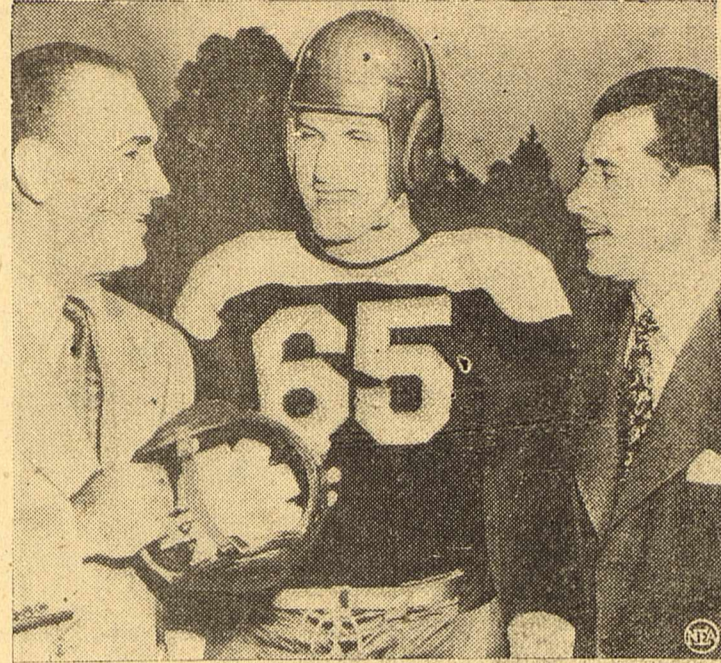

College Scores—Page 1

most every afternoon and he can pretty well give you the straight dope, on MHS football we mean.

Every sportswriter and would-be forecaster from Hades and gone has written a piece about what the returned veterans are doing for sports. Some of the theories they advance are disgusting and sickening. They say the vets will do this and do that. They say the vets will not take rigid training. They say the vets will call some of the practices boys' play after all they have gone through. This kind of writing is just like writing on the adjustments of veterans to civilian life. Nuts. All the veterans want to do if they come out for football is to play football. Period. They were boys and players before they were veterans.

ROUNDIN' UP THE STRAYS... Look for Dub King of Star-Telegram to put MIDLAND in the top 10 teams of Texas this week. . . . Skeet rules have been issued Midland Gun Clubbers. . . . Burns McKinney, oil scout, once little All-American at Hardin-Simmons, played high school ball at Wichita Falls. . . . Louie Yarbrough, now a Midlander, was a Greenville High griddy. . . . Phil Yeckel played ball in the Middle West. . . . The ex-football players around Midland now are too numerous to mention all. . . . Little Sandy Taylor, daughter of Bud Taylor, former Midland High coach and now official, saw her first football game Friday night. . . . She liked it. . . . Pretty little Lorraine Collins saw her first one from the press box two weeks before. . . . Congrats and repeat, "good deal" to the Midland High Band and girls drill squad for a "victory" as well as the Plainview game. . . . John Dublin, Sr., is a real football fan. . . . But hasn't yet said football was rougher than flanking a calf. . . . Football fever is at its highest pitch in Midland in history. . . . Plainview had drilled long and laboriously on that "sleeper" they tried to pull on the kickoff. . . . Their coach told them they would score on it. . . . And they might near did. . . . Goode is the fastest back in West Texas. . . . He showed some of it when he caught the little Plainview back. . . . Remember. . . . Goldsmith fans follow Odessa's Bronchos with close interest. . . . Stanton has its first night football this season. . . . If Bill Little, MHS back, will get a haircut and erase that Comanche hairdo, we believe Midland will beat Sweetwater. . . . Commenting on the 384 yards rushing in Plainview game by his Bulldogs, Coach Milam said: "Wish we had half of it to our credit for next Friday night." . . . Milam will have some new tricks for Sweetwater. . . . New Bulldog Boosters are: Hilton Kagerli, A. L. Armontrout, E. A. Johnson, Hughes Jewelry, Bob White, Bud Bissell, Howard Hodge, Casey Jones, William Cones, John Spurgers, Frank Ashby, George Byrne, Ernest Mears, Bob Dickey, Homer Epley, Paul Jones, A. G. Woody, Barney Bernard. . . . Roundup still on.

Bertelli and the Bosses

Angelo Bertelli reports to actors Pat O'Brien, left, and Don Ameche, co-owners of Los Angeles Dons of All-America Conference, in Pasadena. Notre Dame's famous passing star was ruled their property when he sought to jump to Boston Yanks of National League.

200 Persons Needed For Special Train To Sweetwater Ball Tilt

A special train, carrying Midland football fans, will run to Sweetwater Friday.

Texas & Pacific railroad officials announced Saturday the cost per roundtrip would be approximately \$4.83.

A minimum of 200 persons is needed to assure the special. It is expected that 300 fans will make the train trip to the game.

The special train will be sponsored by the Midland Bulldog Booster Club, a committee consisting of R. W. Hamilton, Lee Cornelius, Delbert Downing and Bill Collins will meet Monday to make further plans.

The train will leave Midland about 3 p. m. and arrive in Sweetwater at 6 p. m.

TCU Loses To Arkansas, 34-14

FORT WORTH—(P)—A strong south wind and a rugged Arkansas team licked Texas Christian 34-14 Saturday in a Southwest Conference football game featured by long runs and booming passes.

Four times the superbly conditioned Horned Frogs, whose line gave the Razorbacks a rough whipping, took short Christian punts and rolled to touchdowns. Three times it was the hard south wind that ruined the TCU kicking. Another time it was the charging Razorback line.

Skinney-legged Aubrey Fowler passed for one touchdown and set up another which he scored himself on a line plunge. Chunky Little Ken Holland raced for one score and passed for another, and Leon Campbell, fourth team back, whipped 85 yards with a kick-off to rack up the final counter.

TCU Scores First
The Christians scored first—a touchdown lead that stood up for a period. The wind swished an Arkansas punt down at the Horned Frog 30-yard line and Lucas scattered down to the two. Pete Stout in two plunges got the score and Tom Bishop converted.

Arkansas, with the wind to its back, took the lead in the second period and the Forkers never were headed from there.

Texas Christian got its second and final touchdown with less than a minute to go. Arkansas penalties and a pass interference ruling did most to put the Frogs on the Porker two-yard line and Stout in two tries went over. Bishop again added the extra point.

Sweetwater Game Duacats To Go On Sale Tuesday

Reserved seat tickets for the Midland - Sweetwater football game to be played Friday night at Sweetwater will go on sale Tuesday at the Chamber of Commerce here.

Midland ordered a large block of tickets for the game. These are choice duacats in a good location.

Marfa Beats Iraan

MARFA—The Marfa Shorthorns downed an Iraan squad, 20 to 6, in non-conference play here Friday night.

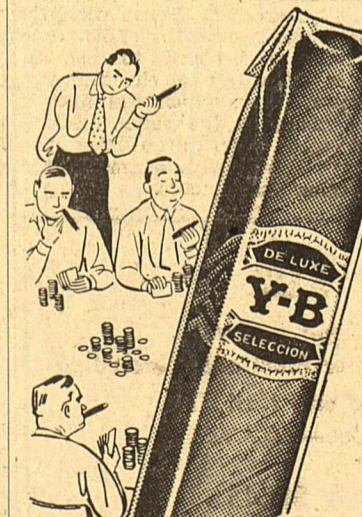

Sonny Rowe accounted for two tallies for the Marfa boys, McFadin made one, and W. A. Catman scored once. Whitfield kicked two extra points.

Iraan scored its touchdown on the first play of the ball game.

Pecos Gridders Smash Sanderson, 52 To 20

PECOS—The Pecos High School football machine of District 7-A rolled to its fourth consecutive victory of the year Friday night, submerging Sanderson under a flood of touchdowns, 52 to 20.

Pecos, playing its first string for only eight plays, rolled to three touchdowns and two extra points in the opening three minutes of play. Four men on the Pecos squad scored two touchdowns each, John Medanich carrying the ball only three times for his two counters, covering a total of 97 yards in the three carries.

Place your bet on the smoothest smoke of all—a Y-B Cigar. Made of fine imported Cuban and Puerto Rican filler tobaccos, Y-B Cigars win instant approval of smart smokers. Make your next leisure moment a full one. . . . Try a Y-B Today.

Abilene High Eagles Beat Brownwood, 6-0

BROWNWOOD—The Abilene Eagles defied the elements to score a fourth quarter touchdown and defeat the Brownwood Lions, 6-0, in a rain-swept inter-district game here Friday night.

Driving rain storm which began early in the first quarter and continued through the final gun kept both teams under handicap. Fumbles were frequent and ball handling sloppy.

Despite the unfavorable conditions the air minded Eagles employed their overhead game to set up their only score. Time was running short in the fourth quarter when the district 3-AA team started its offensive.

FORT STOCKTON DOWNS GRANDFALLS, 33 TO 6

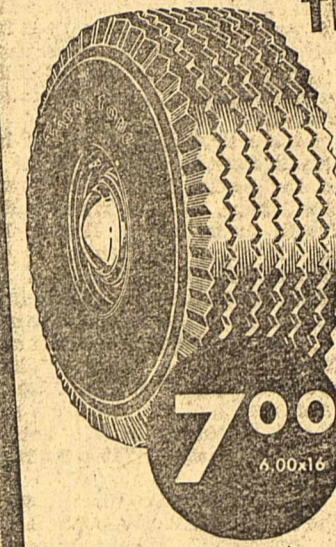

FORT STOCKTON—Bruce McKenzie toted the pigskin across the goal line four times here Friday night to lead the Fort Stockton Panthers to a 33-6 victory over the Grandfalls Cowboys.

Eddy Gets Two 6,000-Foot Wildcats; Roosevelt Given A Deep Prospector

HOBBS, N. M.—Locations for 6,000-foot wildcats in the central and in the northwest sectors of Eddy County, and for a 5,000-foot prospector in Southwest Roosevelt County, were reported Saturday. Drilling is to start on each exploration at once.

Richfield Oil Corporation No. 1 Lake McMillan unit, 1,900 feet from east and north lines of section 36-26-26e, is the Central Eddy County project.

Northwest Of Carlbad
It is about eight miles northwest of Carlbad; approximately 20 miles south of Artesia and in the vicinity of Lake McMillan.

Richfield and associates have a block of about 20 sections surrounding the drillsite. The wildcat is due to explore through the Permian formations.

Mass Retailers Corporation No. 1 Blind Snake, 330 feet from north and 2,982 feet from west lines of section 2-16s-25e, is the 6,000-foot project for Northwest Eddy County.

It is about seven miles northwest of Artesia and the contracted depth of 6,000 feet should take it into the lower Permian formations.

Continental Oil Company and Cooperative Refinery Association are to drill the Southeast Roosevelt County wildcat. It will be carried as No. 1 Alston unit and is 660 feet from south and east lines of section 20-7s-35e.

Southeast Of Portales
That puts it about 15 miles west of the Cochran County, Texas, line and approximately 35 miles southeast of Portales. The drillsite is on a block of about 9,000 acres. The spread is owned jointly by Conoco and Cooperative. Conoco has the big end of the deal.

The exploration will drill to at least 5,000 feet, to explore through the San Andres, middle Permian. Should subsurface geological information be favorable when the San Andres has been penetrated, the No. 1 Alston unit might be drilled deeper—possibly to granite. Operations are to start at once. Contract has been let to George P. Livermore, Inc., of Lubbock, Texas.

Barnsdall Oil Company No. 1 Hardy, new discovery for flowing production, in East-Central Lea County, one and one-third miles northwest of closest production from the lower Permian on the

northwest side of the Drinkard field, tested for 135 barrels of pipe line oil per day, flowing through a one-quarter inch choke, and is to be completed.

The oil came from open hole at 6,514-6,652 feet, natural. The new well is 1,980 feet from north and 660 feet from east lines of section 22-21s-37e.

Stepout Staked
Barnsdall has staked location for No. 1 Virgil Linam, as a quarter of a mile north stepout from the discovery. It will be 660 feet from north and east lines of section 29-21s-37e and is contracted to drill to around 6,650 feet to test for production in the Drinkard pay. Magnolia Petroleum Company is reported to own a three-eighths interest in the lease and the test. Barnsdall has five-eighths of the project. Drilling will start at once.

Rowan Drilling Company and Neville G. Penrose, Inc., No. 4 Walden on the southeast side of the north extension to the Drinkard field, and 660 feet from north and 2,130 feet from west lines of section 15-22s-37e, has been completed from pay at 6,460-6,518 feet, after treating that formation with 500 gallons of acid, through casing perforations. Four-hour test

In the first hour of a four-hour test it flowed 18,900 barrels of oil; in the second hour, 18,900 barrels; third hour, 16,200 barrels, and in fourth hour, again flowed 16,200 barrels. That was a total of 70,200 barrels for four hours. On that basis, the 24-hour calculated initial production would be 421,200 barrels. Amerasia Petroleum Corporation No. 1-A Hare, on northwest side to the Drinkard field, and 1,980 feet from west and 660 feet from south lines of section 22-21s-37e, tested at 6,495-6,518 feet, for three hours and 30 minutes.

It flowed oil for three hours at the rate of 19.3 barrels of 42.3 gravity petroleum per hour. It is drilling ahead below 6,599 feet.

Sun Oil Company No. 1-B McKinley, deep wildcat between Hobbs and Lovington and on the north side of the Hobbs shallow field, was making hole below 5,960 feet, in middle Permian lime.

The section at 5,596-5,680 feet, tested for sulphur water and no oil or gas. The formation there was the Gorieta. Top of that formation was at 5,580 feet. Surface elevation is 3,660 feet.

Three Caprock Completions
Three good producers have been completed in the Caprock field—two in the Chaves section of the area, and the third in the Lea County side of the producing area.

Malco Refineries, Inc., No. 1 Maxwell-State, 1,980 feet from north and 660 feet from east lines of section 12-13s-31e, flowed 100 barrels of oil in eleven minutes, natural from red sand pay which had just been entered when drilling stopped at 3,032 feet.

That was at the rate of 12,960 barrels of oil per day—if the well should produce full time at that same strength.

Maico No. 2 Maxwell-State, 1,980 feet from south and 660 feet from east lines of section 12-13s-31e, stopped drilling in the top of the pay at 3,026 feet, and flowed 100 barrels of oil in 12 minutes, and was completed. That figures at the rate of 12,000 barrels per day. These two wells are in Chaves County.

Sam Williams No. 1 Williams fee, 1,650 feet from south and 660 feet from west lines of section 8-13s-32e, and in the Lea County portion of the Caprock field, had pay in red sand from 3,030 feet to total depth at 3,072 feet.

It completed for 80 barrels of oil per day, flowing after a 110-quart shot at 3,031-55 feet.

Making More Hole
The Ohio Oil Company No. 2 Mark Owen, lower Permian exploration in East Lea, and 660 feet from south and west lines of section 35-21s-37e, had progressed to 6,083 feet in lime, and was drilling ahead toward 6,500 feet.

Magnolia Petroleum Company No. 1 Black Hills unit, Southwest Chaves County exploration, 25 miles west of Artesia, and in section 31-17s-20e, was drilling ahead from 4,461 feet in lime, possibly lower Permian, after a drillstem test for two hours, at 4,439-61 feet, had a slight flow of air for the entire period, and recovered 15 feet of drilling mud, with no shows of oil, gas or water. It is slated to go to at least 8,000 feet.

A string of 9 5/8-inch casing had been cemented at 3,000 feet, with 1,000 sacks of cement early last week.

Humble Oil & Refining Company No. 1 Northwest, Northeast Curry County wildcat in section 32-8s-37e, had progressed past 6,631 feet, in an unidentified lime, and was going ahead.

The prospector was originally started to go to around 6,500 feet. Operator has not revealed how much deeper it will be carried.

H. W. Snowden No. 1 Garrett, in section 26-5s-34e, 4,500-foot exploration in Curry County, about 20 miles southwest of Clovis, had reached 1,769 feet, in anhydrite, and was drilling ahead.

Some Pumpkins

Amusing contrasts at the annual World's Pumpkin Festival, at Eureka, Ill., are provided by 26-year-old Tiny White, left, and Raymond Allen, 29, both of Deer Creek, Ill., as they display exhibits. Tiny, three feet, four inches tall, weighs 76 pounds; Allen, five feet, 11 inches tall, scales 360 pounds.

was at 5,580 feet. Surface elevation is 3,660 feet.

Three Caprock Completions
Three good producers have been completed in the Caprock field—two in the Chaves section of the area, and the third in the Lea County side of the producing area.

Malco Refineries, Inc., No. 1 Maxwell-State, 1,980 feet from north and 660 feet from east lines of section 12-13s-31e, flowed 100 barrels of oil in eleven minutes, natural from red sand pay which had just been entered when drilling stopped at 3,032 feet.

That was at the rate of 12,960 barrels of oil per day—if the well should produce full time at that same strength.

Maico No. 2 Maxwell-State, 1,980 feet from south and 660 feet from east lines of section 12-13s-31e, stopped drilling in the top of the pay at 3,026 feet, and flowed 100 barrels of oil in 12 minutes, and was completed. That figures at the rate of 12,000 barrels per day. These two wells are in Chaves County.

Sam Williams No. 1 Williams fee, 1,650 feet from south and 660 feet from west lines of section 8-13s-32e, and in the Lea County portion of the Caprock field, had pay in red sand from 3,030 feet to total depth at 3,072 feet.

It completed for 80 barrels of oil per day, flowing after a 110-quart shot at 3,031-55 feet.

Making More Hole
The Ohio Oil Company No. 2 Mark Owen, lower Permian exploration in East Lea, and 660 feet from south and west lines of section 35-21s-37e, had progressed to 6,083 feet in lime, and was drilling ahead toward 6,500 feet.

Magnolia Petroleum Company No. 1 Black Hills unit, Southwest Chaves County exploration, 25 miles west of Artesia, and in section 31-17s-20e, was drilling ahead from 4,461 feet in lime, possibly lower Permian, after a drillstem test for two hours, at 4,439-61 feet, had a slight flow of air for the entire period, and recovered 15 feet of drilling mud, with no shows of oil, gas or water. It is slated to go to at least 8,000 feet.

A string of 9 5/8-inch casing had been cemented at 3,000 feet, with 1,000 sacks of cement early last week.

Humble Oil & Refining Company No. 1 Northwest, Northeast Curry County wildcat in section 32-8s-37e, had progressed past 6,631 feet, in an unidentified lime, and was going ahead.

The prospector was originally started to go to around 6,500 feet. Operator has not revealed how much deeper it will be carried.

H. W. Snowden No. 1 Garrett, in section 26-5s-34e, 4,500-foot exploration in Curry County, about 20 miles southwest of Clovis, had reached 1,769 feet, in anhydrite, and was drilling ahead.

Oil Reserves On Increase Despite Peak Consumption

By GEORGE TUCKER
NEW YORK.—(P)—America's oil pools are deepening.

Greedy as postwar demands are, the reserves continue to climb. If geologists are right, we are finding new oil or proving its existence faster than we are pumping it out of the ground.

On Jan. 1, 1946, the proved reserves in the United States was 23,000,000,000 barrels, a 15-day supply.

And outside of the United States we control at least 40 per cent of the world supply with the exception of that in Russia.

One reason why the reserve is increasing is "controlled" production. In the early days "gushers" spilled their riches on the ground. Gushers are outlawed now. A well's output is regulated for below actual capacity so as to avoid waste and insure more economic production.

Re-Evaluate Old Discoveries
Improved methods of re-evaluating old discoveries have also enabled geologists and oil operators to ascertain more accurately the quantity of oil the known deposits contain, with a result that revised estimates are invariably upward and in favor of the reserve.

For instance, in 1922 the United States Geological Survey, acting jointly with the American Association of Petroleum Geologists, estimated the U. S. reserve at 5,000,000,000 barrels. Revised estimates later placed it in excess of 8,400,000,000 barrels.

In 1932, the Federal Oil Conservation Board placed the reserve at 10,000,000,000 barrels; actually it was 18.4, or about 80 per cent higher than the original estimate.

The search for new deposits, restricted somewhat by the war, are proceeding now at a greatly accelerated pace, oil men say. They further claim the job of exploring territorial United States is only about half finished.

Stratigraphic Deposits
What makes it difficult is that geologists have not yet solved the riddle of locating stratigraphic deposits. Stratigraphic deposits lie along old shore lines of buried seas, and to date the only known way of finding them is to stumble on them by accident.

The great East Texas field is stratigraphic deposit. This type of field is believed to contain greater quantities of oil than the structural type, which are formed by wrinkles in the earth. Scientists know how to go after the structural type with seismographic and other instruments.

Wildcat In Northwest Scurry And Ellenburger Explorations In Crane And Andrews To Be Drilled At Once

By JAMES C. WATSON
Oil Editor

Location for a 4,000-foot wildcat in Northwest Scurry County, and for Ellenburger explorations in the Block 31 area of East-Central Crane County and in the Nelson district of West-Central Andrews County, have been reported for immediate drilling.

Seaboard Oil Company of Delaware No. 1 J. R. Randall, 440 feet from north and 761 feet from east lines of section 257, block 97, H&TC survey, is the Scurry County prospector.

Northwest of Snyder
It is nine miles northwest of Snyder and on a block of about 3,000 acres Seaboard has in that area. The location is on the edge of the block. Magnolia Petroleum Company and Phillips Petroleum Company own leases which offset the drillsite.

Contract to drill the test to 4,000 feet has been let to Joe Cannon of Kermitt. Derrick is being built and rig will be moved in early in the week.

The Atlantic Refining Company No. 1-W-31 University, 660 feet from north and east lines of northeast quarter of section 41, block 31, University survey, is the Crane County exploration. It is to drill to 10,450 feet, to test through the Devonian and the Ellenburger—both of which are productive to the north and east, in the Block 31 field. The new test is one mile west and one-half mile south of the discovery well of the Block 31 field. Drilling is to start at once. No drilling has been done in that region to the west or south of the new location to the deep zones.

East of Nelson Discovery
Shell Oil Company, Inc., No. 1 Celia A. McCrea, 1,985 feet from north and 661 feet from west lines of section 9, block A-40, psf survey, and 1,321 feet due east of same company's No. 1 Nelson, discovery for flowing production from the Ellenburger, in West-Central Andrews County, is to start making hole at once.

It is to go to 11,000 feet, unless it gets production, or water in the Ellenburger, at a shallower depth. The drillsite is about 10 miles southeast of Eunice, N. M.

Humble Oil & Refining Company No. 1 Mary E. Turner, East Midland, 1,985 feet from north and 661 feet from west lines of section 43, block 37, W. T. Holcombe survey, T-2-S, about 12 miles southeast of Midland, and two miles due south of the discovery well of the Midland field, had reached 10,316 feet, in the Strawn lime, and was circulating, while preparing to run and cement 7-inch casing.

Unofficial sources report that top of the Strawn was in vicinity of 10,306 feet. Elevation is 2,701 feet.

According to some correlations, that puts the Strawn top just slightly below the same mark in the Humble No. 1 Buchanan, the initial producer—and so far the only producer—from the Strawn in Midland County.

No Shows Logged
Operator has not reported having encountered any shows of oil or gas in No. 1 Turner, up to now. When the pipe is set, plug will be drilled out and the Strawn zone will be penetrated—with the hope that it will show production.

The next week should determine whether or not the exploration will produce, in the Strawn. It is understood, that if it should be barren in that formation, it will be drilled deeper to test the Devonian, and possibly other lower horizons.

Humble No. 1 Elkins, Southwest Kent County prospector, one-half mile northeast of the discovery well for production from the Ellenburger, in the Polar field, was coring from 7,821 feet in Ellenburger lime.

A drillstem test was taken at 7,791-7,810 feet, for 40 minutes. Recovery was 15 feet of drilling mud, carrying odor of gas and a rainbow of oil.

A core was taken at 7,810-21 feet. No description of the specimen has been received.

No water has developed in any of the cores or tests, so far taken in the prospector.

Slightly Low
Unofficial sources report that No. 1 Elkins is approximately 20 feet low on the top of the Ellenburger, at the same point in the discovery well of the area. Some geologists called that point at 7,787 feet. That call has not been verified.

The project is 1,980 feet from south and 680 feet from west lines of section 36, block 5, H&GN survey.

burger lime, topped at 6,045 feet. Elevation was 2,003 feet. It had no indications of oil or gas in the Ellenburger—but did have salt water in the bottom. It has been abandoned and plugged.

American Republics Corporation No. 1 TXL, West Ector County wildcat, in southeast quarter of section 7, block 45, TP survey, T-1-S, was drilling ahead below 9,198 feet in lime, in a side-tracked hole.

The project had to plug back when total depth was at 9,236 feet, to straighten crooked hole. Apparently that effort had been successful and drilling is to go ahead—possibly to the Ellenburger.

Northwest Andrews Wildcats
Shell No. 1-E Scarborough, lower Ordovician prospector in the Union area of Northwest Andrews, and in southwest corner of section 11, block A-31, psf survey, was drilling ahead below 8,442 feet, in chert and dolomite. The section has not been definitely identified—some geologists think it is lower Fusselman, and others are inclined to believe it might be Montoya, upper Ordovician.

Humble No. 2 H. O. Sims, in northeast corner of section 25, block A-39, psf survey, and near the west line of Andrews in the northwest part of the county, had progressed past 8,240 feet, in lime, and was going ahead to explore the Ellenburger.

Phillips Petroleum Company No. 1-J TXL, in West Ector County, and in southwest corner of section 9, block 45, TP survey, T-1-S, one mile northeast of nearest production from the Ellenburger, on northeast side of the TXL-Ellenburger field, had drilled to 11,167 feet, in lime, and was shut-

Reason for the suspension of operations had not been revealed. It is understood that the project has been in the Ellenburger for some time—and so far as has been reported, no indications of oil or gas have been encountered.

Still in Simpson
Humble No. 1-C R. B. Cowden, 660 feet from south and 1,980 feet from west lines of section 3, block 45, TP survey, T-2-N, one mile north of the discovery for flowing production from the Devonian in North Goldsmith field, in Northwest Ector County, had reached 8,802 feet, in lime and shale of the Simpson, and was continuing. No indications of oil or gas production have been encountered in the prospector.

Phillips No. 1 Millard, Southwest Ector County wildcat to test to the Ellenburger, in northeast corner of section 2, block B-15, psf survey, and four miles south of the TXL field, had made hole under 8,820 feet in shale, and was going ahead.

Humble No. 1-C Sawyer, Reagan County exploration to 10,000 feet, in southwest quarter of section 130, block K, TP survey, and 10 miles northeast of Big Lake, had penetrated past 7,775 feet, in shale—possibly Pennsylvanian—and was drilling ahead.

H. W. Snowden No. 1 Matthews, 660 feet from north and west lines of northwest quarter of section 421, block G, CCSD&RGNG survey, is a new exploration for the Russell field, in Northwest Gaines County.

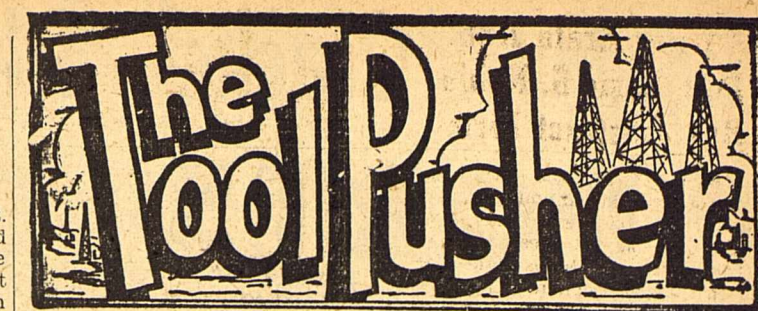

It is to drill to around 8,000 feet, to test through the Clear Fork of the Permian, starting by October 15.

Sullivan and Naylor No. 1 Wilson, South-Central Bailey County wildcat to 5,000 feet, in northeast corner of labor 12, league 123, Childress County School Land survey, had drilled below 4,655 feet, in lime, and was continuing.

A Low San Andres
Seaboard Oil Company of Delaware No. 1-A University, 660 feet from north and 1,984 feet from west lines of section 18, block 32, University survey, on the west side of the Block 12 field, in North-Southwest Andrews County, drilled to total depth of 4,470 feet, in San Andres lime, topped at 4,410 feet on an elevation of 3,300 feet.

The project has been plugged and abandoned. It started out to go to the Tubb, lower Permian, at around 7,200 feet, but on account of being 178 feet low on the San Andres.

Sharon Ridge Extension
T. S. Holden, et al, No. 1 Clark, 330 feet from south and west lines of north 140 acres in tract 3, Daventport subdivision of section 32, Kirkland and Fields survey, and a one-half miles northeast extension to the Sharon Ridge field, in Southwest Scurry County, tested for approximately 200 barrels of oil per day flowing, after a 220-quart shot of nitro-glycerine in the pay at 1,609-1,798 feet. It is being completed.

By JAMES C. WATSON, Oil Editor

SIX MIDLAND OIL FAMILIES HAVE MEAT
—The families of six Midland oil men should not suffer during the next few months on account of the shortage of meat.

—A party composed of W. D. (Bill) Lane of The Plymouth Oil Company; J. P. (Pat) Ruckman, of Humble Oil & Refining Company; Leif Olson of Olson Drilling Company; C. I. Holliman of The Texas Company; W. C. (Curly) Murphy of Carl B. King Drilling Company and Phil Yeckel of King, Warren and Dye, returned early last week from a seven-day hunt in the Teton region near Jackson Hole, Wyoming, after they had collected over two and one-half tons of wild game.

—The haul consisted of six elk, five moose, and some smaller animals. The bunch did not get a shot at a bear—however a grizzly slipped into camp on two different nights and carried off a moose ham, and some other food items.

—When the Midlanders started out of the mountains with their game it required 23 pack horses to take the stuff to a railroad station for shipment.

—The party went to Jackson Hole by automobile and packed into and out of the hunting country.

PIPE LINE TO PHOENIX IS BEING TALKED
—Latest report involving building of new pipe lines from the Permian Basin to outside points came in a press association dispatch from Phoenix, Ariz.

—That story credits backers of the new Phoenix Refining Company with announcing, during last week, that a 600-mile, eight-inch pipe line from West Texas to Phoenix would be under construction early in January, 1947.

—Those sources said the pipe line, and a proposed refinery at Phoenix, would cost an estimated \$10,000,000. No further information on the reports was available Saturday.

—This column has no definite information regarding the authenticity of a report printed several days ago, in a daily paper in another Texas city, that Phillips Petroleum Company was planning to lay a 12-inch crude oil line from Ector County to Cushing, Okla., by the way of Borger.

—The Texas Pipe Line Company

Charles G. (Buddy) Lehrer
LEASE BROKER
Oil Leases Royalty
222 Morris Bldg. Phone 7475
Abilene, Texas

has confirmed reports that engineering studies are being made with the view of constructing—along with other interests—a 400-mile, 20-inch line from the vicinity of Midland, to Cushing, by the way of Graham, and other North Texas oil fields. That line, when built, would have a capacity of 150,000 barrels of oil per day.

—It appears, from all information now floating, that the pipe line capacity from West Texas and shipping centers is due to be about doubled in the next 24 to 36 months, if all projects now being talked and planned are actually built.

EAST TEXAS VISITOR
—J. H. Peacock, Jacksonville, Tex., oil operator and business man, was in Midland last week, visiting with L. G. Yarborough, and other friends and associates.

NEW PHILLIPS EMPLOYEES MOVING TO MIDLAND
—Several members of the new regional production department of Phillips Petroleum Company, and of the new legal department the concern is establishing in Midland, are moving in. They are occupying some of the new company houses Phillips recently completed in Midland.

—Offices of the two new departments have not yet been put in operation. (Continued from page 7)

Barney Grafa And Mrs. Susie G. Noble Buy Abstract Firm

Barney Grafa and Mrs. Susie G. Noble Saturday announced the purchase of the West Texas Abstract Company at 205 West Wall Street from Mrs. P. J. Mims, James Mims, and Edwin Stephens.

Mrs. Noble, who recently retired as Midland County clerk after serving 16 years in the position, will manage the abstract business. Grafa has been a prominent real estate operator here for many years. The new owners have taken charge of the business.

The firm has one of the most complete abstract plants in West Texas, and Grafa, in inviting continued patronage, promises prompt, reliable and efficient service. Established in 1925.

The business was established in 1925 by John Birge and B. H. Blakeney, who in 1927 sold it to the late R. V. Hyatt, Margaret Edith Hyatt and the late P. J. Mims and Maurine Mims, who incorporated it. Until larger quarters are obtained, the firm will continue to operate at 205 West Wall Street. Mrs. Noble resigned as county clerk to become part owner and manager of the abstract concern.

"I feel that the 16 years which I was permitted to serve as county clerk have given me an opportunity to become thoroughly familiar with the handling of county records and have given me the training which should qualify me to serve efficiently in this new business connection," Mrs. Noble said.

The only way astronomers have of knowing what any of the heavenly bodies are made of is by studying the light that comes from them.

Hope You Can Bear This One

Bear in the picture above must have been able to read the want ads and sympathetic enough to sacrifice himself during current meat shortage. A Superior, Wis., market ran an ad in the newspaper offering to buy bear meat. Shortly thereafter the bear was seen waddling along a downtown street leading to the market, and police shot him. Above, meat market employees prepare the bear for butchering.

John Roueche Heads Job Department Of Reporter-Telegram

John T. Roueche has moved to Midland from Wichita Falls to become manager of the commercial printing department of The Reporter-Telegram.

In the printing business 23 years, Roueche has been connected with firms in Wichita Falls, Paris, Dallas, Cleburne and Shreveport. He served as foreman of shops in Paris and Cleburne.

Roueche served 28 months in the armed forces.

FOREST EXPERT DIES

NEW YORK — (AP) — Gifford Pinchot, former governor of Pennsylvania and conservationist, who spent a lifetime pleading for intelligent use of the nation's forests, streams and minerals, died here Saturday at the age of 81.

Webbs Attend Funeral Of Albany Pioneer

Nathan D. Webb of Midland, district manager for Dowell Incorporated in the West Texas and New Mexico area, and family went to Albany early Saturday to attend funeral services for his grandmother, Mrs. Sam Webb, who died Friday.

Mrs. Webb and her husband, the late Col. Sam Webb, moved to Shackelford County in 1883 and she had lived there since.

Scout Drive Heads To Convene At Breakfast

Campaign leaders of a drive for Boy Scout funds in Midland will meet at a breakfast at 7:30 a. m. Tuesday in the Scharbauer Hotel.

Plans for the extensive drive here will be made by the leaders. The drive is expected to begin October 17.

About 14 cubic feet of warm moist air weighs one pound.

McFarland Pushes For Redistricting

AUSTIN — (AP) — C. M. McFarland, representative from Wichita Falls and long an advocate for redistricting of the state, called on Gov. Coke Stevenson to convene the 49th Legislature to redistrict Texas.

Cause for the wide-spread and inequitable distribution of representation McFarland blamed on the legislature's "sneaky derelictions in failing to obey the constitution." The constitution calls for redistricting every ten years after publication of the U. S. Decennial census. The last adjustment of districts was in 1921.

Meet Tuesday Evening

A business meeting of the Permian Basin Chapter of Reserve Officers Association will be held at 8 p. m. Tuesday in the district courtroom.

All reserve officers in the city and area are invited and urged to attend.

San Angelo's Bobcats Tie Mexico City, 12-12

SAN ANGELO—The Bobcats of San Angelo were lucky to gain a 12-all tie with the Mexico City YMCA eleven here Friday night. San Angelo started strong but flickered. Roberts ran 33 yards for the first score for the Cats. Mexico City drove back and countered from the one-yard line.

Roberts tallied again for San Angelo shortly after in the second, going 47 yards, twisting and squirming.

The Spitfires tied it up in the fourth when they intercepted a pass and then went on to score. The touchdown play came on a pass from the three-yard line over the goal line.

Big Ben, the V-2 rocket developed by the Germans, reaches a maximum speed of about 3,650 miles per hour.

The sun is 400 times as large as the moon.

Announcing Purchase Of . . .

West Texas Abstract Co.

by

Barney Grafa

Also sale of an interest in the business by Grafa to Mrs. Susie G. Noble, who will be part owner and manager.

Effective Now . . . To Operate In Same Location

Statement By Mr. Grafa

I am proud to announce that I have purchased the West Texas Abstract Company from Mims and Crane. This business was established in 1925 by Messrs. John Birge and B. H. Blakeney, who sold the business in 1927 to the late R. V. Hyatt and Margaret Edith Hyatt and the late Percy J. Mims and Maurine Mims who incorporated the business upon purchase. It is at present owned and operated by Mrs. P. J. Mims and son, James, and Edwin Stephens from whom it was purchased by me.

I am also proud to announce the sale of part interest to Mrs. Susie G. Noble, who will be manager of the business, which will be operated in the same location until larger quarters are available.

Under Mrs. Noble's managership you may be assured of the same efficient, dependable, prompt service as you have received in the past. Her 16 years experience as county clerk of Midland County, from which position she has just resigned to accept this responsibility, will serve her well here. The many friends who have so loyally supported her and whom she has so loyally served during the past years are invited to call on Mrs. Noble for complete abstract service at the West Texas Abstract Company.

Statement By Mrs. Noble

I am very happy to become associated with Mr. Grafa in the ownership and operation of the West Texas Abstract Company. I feel that the 16 years which I was permitted to serve Midland County as county clerk have given me an opportunity to become thoroughly familiar with the handling of county records and have given me training that should qualify me to serve efficiently in this new business connection.

I want to assure our patrons that I will do my very best to render a reliable, prompt and efficient service, and I want to extend a hearty invitation to each of you to give us a chance to serve you here.

I want to take this occasion to thank my many friends throughout the county who have so loyally supported me as county clerk for the past 16 years. My reason for resigning before my term expired was in order to take advantage of the opportunity to become associated with Mr. Grafa in this business. I hope to be seeing and serving you often at the West Texas Abstract Co.

I am also happy to commend my successor, Mrs. Lucille Johnson, to you as your county clerk.

We Invite Your Continued Patronage And Assure You Of Prompt, Reliable And Efficient Service . . . With One Of The Most Complete Abstract Plants In West Texas.

WEST TEXAS ABSTRACT CO.

Colorful Prison Rodeo Opens Sunday

By JACK RUTLEDGE
HUNTSVILLE — (AP) — The colorful annual Texas Prison Rodeo, not only unique among rodeos but deemed by many the roughest and wildest of them all, will open here Sunday before an audience of fenced-in convicts and several thousand outsiders.

The rodeo began in 1931 and is held each October. It includes several events not seen in other rodeos. Injuries are frequent. This year's rodeo will be held each Sunday of October in the stadium next to the Huntsville Penitentiary.

Prison officials say they are beneficial to discipline and morale.

EIGHTH BLAST VICTIM DIES
MARCUS HOOK, PA. — (AP) — Clarence Fox, 40-year-old Sun Oil Company mechanic, died Saturday, the eighth victim of Thursday night's spectacular fire and explosions that ripped through a section of the Sun refinery.

While on the subject of new oil men moving to Midland, we urge all property owners who have, or will have houses or apartments—either furnished or unfurnished—to rent, to list them at the Chamber of Commerce, and/or advertise them in The Reporter-Telegram.

Wichita Falls Coyotes Tie Sweetwater, 14-14 WICHITA FALLS—The Wichita Falls Coyotes completely dominated play during the first half of the game Friday night, took a seven point lead in the second period and appeared headed for an easy victory, but Sweetwater came back to salvage a 14-14 tie.

PLYMOUTH CHIEF VISITS —W. M. (Mike) Griffith, of Sinton, vice president and general manager of The Plymouth Oil Company, made a short visit to the concern's West Texas division offices in Midland at the end of the week. He came by company airplane.

MOVE REVERSED —In this column last week, we reported that the Midland offices of University of Texas Lands had been moved from the fifth floor of the Thomas (Leggett) Building, to the fourth floor of the structure.

Texas Co. Rehearing On Keystone Set October 30 AUSTIN —(AP)—The Railroad Commission Saturday set the hearing on the application of the Standard Oil Company of Texas to establish an M. E. R. of 33 barrels per calendar day for the Keystone Colby Sand Field, Winkler County (rehearing), for October 30.

Texas Longhorns Smash Oklahoma Aggies, 54-6

By DAVE CHEAVENS AUSTIN —(AP)—The University of Texas' powerful Longhorns led by Bobby Layne overwhelmed the Cowpokes of Oklahoma A&M 54 to 6 before a capacity crowd of 44,000 in Memorial Stadium Saturday.

Football Scores HIGH SCHOOL Midland 24, Plainview 6. San Angelo 12, Mexico City YMCA 12 (tie). Lubbock 7, Lamesa 6. Sweetwater 14, Wichita Falls 14 (tie).

Wink Wildcats Beat Brady Bulldogs, 12-7 WINK—The Wink Wildcats defeated the hard-fighting Brady Bulldogs, 12 to 7, in non-conference play here Friday night. Gene Dow, fleet Wildcat quarterback, skirted right end for the first score in the first quarter while Bobby Gann plunged over tackle to score in the fourth period.

Monahans Rolls Over McCamey High, 20-7 MONAHANS—Monahans opened 7-A conference play with a 20-to-7 victory over McCamey here Friday night in a drizzling rain and on a rain-soaked field.

Tulsa Overpowers Drake Eleven, 48-13 DES MOINES —(AP)—Tulsa's undefeated football team had too much power for Drake's Saturday and won its second Missouri Valley Conference start of the season, 48 to 13, before 13,000 persons. It was the Bulldog's first defeat in three games.

Water Valley Spills Garden City, 38 to 12 WATER VALLEY —Water Valley's undefeated Wildcats spilled the previously unbeaten Garden City Bearcats in a six-man grid encounter here Friday afternoon, 38 to 12, scoring 20 points in the last quarter for their third win.

Making Hoopee

"How did great-grandmother ever manage to dress?" asks Peggy Miller of Valley Stream, N. Y., as she tries on an 1819 model evening dress, including wire hoop. Gown was exhibit at recent antiques fair in New York.

Army Takes Cornell After Trailing Once

WEST POINT, N. Y. —(AP)—Cornell Saturday puffed up more points against Army's footballers than any other grid outfit has done for three years, but not nearly often enough to stop the Cadets from careening to their 21st straight victory.

Not since Notre Dame kicked the Army mule all around the Yankee Stadium in 1943 has an upstart set of gridlers dared to do what the Cornells did this time, actually leading for a few moments in the first quarter. Then they came up off the floor to score twice more in the closing half.

Club Rules Issued To Gun Club Members The Midland Gun Club has issued a set of club rules to its members. An operation committee composed of Jim Mascho, Harry Lawson, Carl Westlund, Bill Chancellor, Jack Goddard, Sody Herrell, John Phillips, Ish McKnight and Bob White is charged with enforcement.

Odessa Bronchos Defeat Stubborn Big Spring Eleven By 12-0 Score

BIG SPRING—The Odessa Bronchos, rated one of the top AA teams in the state and favored to win by a wide margin, Friday night eked out a 12-0 win over the Big Spring Steers in District 3AA conference play.

Field Goal Gives Oklahoma Win Over Texas A&M NCRMAN, OKLA. —(AP)—With 40 seconds remaining, Dave Wallace, the University of Oklahoma's 172-pound quarterback, kicked a 19-yard field goal on fourth down to break a 7-7 deadlock and give the Sooners a 10-7 edge over Texas A&M College Saturday.

Notre Dame Smashes Pittsburgh, 33-0 SOUTH BEND, IND. —(AP)—Notre Dame, eyeing national football laurels, brushed aside the Odessa 33-0. Big Spring had a chance to score in the last quarter after a drive to Odessa's eight, but lost the ball on a fumble.

Fazio Passes Stranahan In Glen Garden Tourney FORT WORTH —(AP)—Amateur Frank Stranahan of Toledo, Ohio, lost his lead in the \$10,000 Glen Garden golf tournament Saturday after an uphill battle with George Fazio of Los Angeles.

Deafened People May Now Hear Clearly Science has now made it possible for the deafened to hear faint sounds. It is a hearing device so small that it fits in the hand and enables thousands to enjoy sermons, music, and friendly companionship.

Texas Tech Raiders Beat SMU Mustangs

DALLAS—(P)—Texas Tech's Red Raiders felled their second South-west Conference foe in two starts Saturday night as they beat Southern Methodist 7-0 in the fading minutes of a frenzied fourth quarter.

A shoestring catch by Ralph Earhart of a 47-yard pass from Dick Sandefer put the ball in scoring position on the Methodist five yard line and Ed Robnett plunged over for the score with Roger Smith converting.

HARDIN-SIMMONS BEATS SAN JOSE 34-7

ABILENE — (P) — Hardin-Simmons University's Cowboys Saturday night kept their place among the nation's undefeated and untied college elevens by crumbling the San Jose State Spartans from California 34 to 7.

MCURRY BEATS SUL ROSS SWEETWATER — (P) —

The McMurry Indians scored a first quarter touchdown to defeat the Sul Ross Lobos 6 to 2 on a water-soaked neutral field here Saturday night. The Lobos safety came late in the fourth quarter.

VISIT C. E. LINDENMUTH

Mrs. Henry Lindenmuth and Rhoda Lindenmuth, mother and sister of C. E. Lindenmuth of Midland, are visiting here from Hazelton, Pa.

To Address Bar

James L. Shepherd, Jr., of Houston, president of the State Bar of Texas, will address the Midland County Bar Association and District Bar Association at a banquet meeting in the Scharbauer Hotel at 7 p. m. Tuesday. The district association includes attorneys from Midland, Howard, Martin, Ector and Glasscock Counties.

Arabs And British Resent Truman's Palestine Policy

LONDON—(P)—Arabs and British officials openly nursed their anger at President Truman Saturday, but dissent within Britain over the government's Palestine policy entered the picture.

The Foreign Office, confirming previous reports, said Prime Minister Attlee had sent a personal note to President Truman and went even farther than Friday in expressing resentment over the President's refusal to delay publication of his statement advocating the immediate admission of a substantial number of Jewish immigrants into the Holy Land.

Winston Churchill, former prime minister, openly criticized the government's Palestine policy in a speech to a Conservative Party convention at Blackpool, declaring it was "vacillating" and an abandonment of "lavish promises" made to the Jews by the Labor Party before it took office.

RICE OWLS ROMP ON SOUTHWESTERN, 48-0

HOUSTON—(P)—The Rice Owls toyed with Southwestern University Saturday night to romp to a 48-0 victory. It was the Owls' first win in two starts.

**Marriage Vows Repeated By Myrtle Jean Butler
And Edwin L. Metzger In Candlelight Ceremony
Solemnized Saturday In First Methodist Church**

In a candlelight ceremony solemnized at 7:30 p. m. Saturday in the First Methodist Church, Miss Myrtle Jean Butler, daughter of Mr. and Mrs. W. H. Butler, became the bride of Edwin L. Metzger of Midland, son of Mr. and Mrs. L. I. Metzger of Wichita, Kan.

The Rev. Howard H. Hollowell read the vows for the double-ring ceremony as the bridal party stood at the altar decorated with baskets of white asters and pink and white gladioli. Tall white tapers in candelabra added soft illumination to the setting. The tapers were lighted by Hank Avery preceding the ceremony.

Nuptial music was by Mrs. J. Holt Jowell, organist, who played "Oh Perfect Love", "Love's Old Sweet Song", "Cantilene Nuptiale", and "I Love Thee". Mrs. Earl Glassie sang "Because" and "I Love You Truly". "Clair de Lune" was played softly during the ceremony.

Mr. Butler gave his daughter in marriage. She was attired in a white wool dressmaker suit with which she wore cherry cokes accessories. Her waist length veil was attached to a white calot and she carried a bridal bouquet of pink and white rose buds from which fell graceful streamers of white satin ribbon dotted with stephanotis. In the center of her bouquet was a white orchid. She carried out the traditional bridal custom of wearing something old, something new, something borrowed and something blue. Accenting her costume was a strand of pearls, a gift of the bridegroom. She wore a dollar gold piece, long to her great grandmother, and carried a white linen and lace handkerchief.

Attending the bride as matron of honor was her sister-in-law, Mrs. John F. Mitchell. She chose a gray suit and black accessories. Her corsage was of pink carnations. Charles Reeder served the bridegroom as best man. Ushers were Hank Avery and John F. Mitchell, brother of the bride.

Mrs. Butler wore a pecan brown dressmaker suit and a corsage of pink carnations. Mrs. L. I. Metzger was attired in a gray suit and wore a corsage of red carnations.

Reception Held
After the wedding a reception was held at the bride's home, 101 Butler. In the receiving line were Mr. and Mrs. Butler, the bridal couple, and Mr. and Mrs. L. I. Metzger. The reception rooms were decorated with arrangements of gladioli offset with burning tapers.

The dining table was covered with a white satin and rayon cloth and centered with a bouquet of pink and white carnations flanked with white tapers in crystal holders. At one end of the table was a rose-point punch bowl presided over by Miss Beth Prothro, and on the other end of the table was a three-tiered wedding cake topped with a miniature bride and bridegroom. The cake was served by Mrs. Mitchell.

Mrs. Charles Reeder was in charge of the bride's book. Mrs. L. L. Butler, aunt of the bride, and Mrs. Howard Atwater were in the gift rooms.

ERMA NICHOLS, Editor

Wed In Church Ceremonies Solemnized Saturday

Above is Mrs. Edwin L. Metzger who was Miss Myrtle Jean Butler, daughter of Mr. and Mrs. W. H. Butler of Midland. Mr. and Mrs. Metzger will make their home at 707 North Carrizo following a wedding trip to Santa Fe, N. M. To the left is Mrs. George Arthur Brown who was married Saturday in Brunswick, Me. She is the former Miss Louise Parker of Midland, daughter of Mr. and Mrs. C. E. Parker of Odessa.

Miss Louise Parker Becomes Bride Of George A. Brown In Maine Ceremony

Miss Louise Parker, daughter of Mr. and Mrs. C. E. Parker of Odessa, became the bride of George Arthur Brown, son of Rep. and Mrs. G. S. Brown of New Meadows Lake, Me., in a double-ring ceremony solemnized at 10 a. m. Saturday in the St. Charles Catholic Church in Brunswick, Me.

White gladioli decorated the church altar where the nuptial mass was read. White gladioli outlined the aisle and white tapers burned in the background.

Traditional wedding marches were played by the church organist, John Dalton. He also accompanied the vocalist who sang "Ave Maria".

The bride wore a white satin wedding gown designed with a sweetheart neckline, and leg o'mutton sleeves which ended at petal points over the wrists. The full skirt extended to a graceful train over which fell her veil of bridal illusion attached to a tiara of orange blossoms. Her only ornament was a single strand of pearls, a gift of the bridegroom. She carried a white prayer book topped

with a white orchid from which fell streamers of love knots and stephanotis.

Miss Priscilla Brown of New Meadows Lake and sister of the bridegroom was maid of honor. She wore a powder blue dress with a jersey bodice and full net skirt. The dress was fashioned with a high neckline and cape sleeves. She carried a bouquet of pink carnations.

Attending the bridegroom as best man was his brother, Albert Brown, also of New Meadows Lake.

Following the ceremony a reception was held at the Harriet Beecher Stowe House. An arrangement of white gladioli and a three-tier wedding cake decorated the bride's table.

Mrs. Brown was wearing a brown gabardine suit with brown accessories when they left for a honeymoon to New York City.

Among the out-of-town wedding guests were Miss Mary Kendrick and Ruth Stroud of New York City and formerly of Midland.

The bride is a graduate of Odessa High School and attended North Texas State Teachers College in Denton where she was a member of the Press Club and society editor of the college paper, Campus Chat. Before her marriage she was with The Reporter-Telegram. She is the niece of Mr. and Mrs. O. L. McNew of this city.

Mr. Brown attended Bowdoin College in Brunswick before entering the service in 1942. He was a pilot in the Army Air Forces and was stationed at Midland Army Air Field after his return from service in the Philippines, Okinawa and Japan. He is a senior student in the biochemistry school at Bowdoin College where he is a member of Delta Phi Epsilon.

They will make their home in the Bowdoin College Courts in Brunswick.

for a wedding trip to Santa Fe, N. M., she was wearing a two-tone wool suit. Completing her attire was an orchid corsage.

Wedding Guests
Out-of-town wedding guests were Mrs. Laura Wright of Long Beach, Calif., and Mr. and Mrs. L. I. Metzger and Mr. and Mrs. F. O. Baker of Wichita, Kan.

The bride is a graduate of Midland High School and before her marriage was employed at Vosatko's Jewelry.

Mr. Metzger is a graduate of East High School in Wichita, Kan., and attended Wichita University, also in that city. He was attached to the flight command with the Army Air Forces Technical Service Command in the civilian branch at Offiett Field, Omaha, Neb. He has been with the Skelly Oil Company as a geological draftsman with the Midland office since July 4, 1945.

They will make their home at 707 North Carrizo.

Mrs. John F. Mitchell and Mrs. L. L. Butler were hostesses for the rehearsal dinner Friday evening at the Ranch House. A centerpiece of mixed flowers decorated the table.

Those present were Messrs. and Mmes. L. I. Metzger, F. O. Baker, J. Holt Jowell, Charles Reeder, W. H. Butler, L. L. Butler, Mitchell, Rev. and Mrs. Howard H. Hollowell, Mmes. Laura Wright, Mary Butler, Earl Glassie, Mr. Hank Avery and the honorees.

Mrs. W. G. Attaway Teaches Bible Lesson At Belmont Class Meet

Mrs. W. G. Attaway taught the Bible lesson at a meeting of the Belmont Bible Class Friday at the home of Mrs. W. P. Collins. Prayers were offered by Mrs. H. E. Skipper and Mrs. Attaway.

Announcement was made that the next meeting will be held Friday at the home of Mrs. J. H. Burris, 708 South Loraine.

Those present were Mmes. J. P. Courtney, T. O. Midkiff, Frank Simpson, Skipper, Attaway, W. F. Webb and W. M. Craft.

Miss Helen Shelton Is Initiated Into Ko Shari Club At Tech

Miss Helen Shelton, daughter of Mr. and Mrs. J. R. Shelton of Midland, was initiated into Ko Shari women's social club at Texas Technological College in Lubbock September 29. Ceremonies were held at the home of Mr. and Mrs. W. C. Holden, club sponsors.

Miss Shelton is a sophomore student at Tech and is enrolled in the commerce division.

VISIT IN DALLAS

LOUISIANA VISITORS

Mr. and Mrs. George Barham of Shreveport, La., are visiting Mr. and Mrs. E. Turrentine.

Patsy Ruth Pope To Become Bride Of H. C. Brewer

Mr. and Mrs. C. P. Pope have announced the engagement and approaching marriage of their daughter, Patsy Ruth, to Herman Greer Brewer, son of Mrs. DeAlva Brewer. The marriage will be an event of October 26 in the First Baptist Church with the Rev. Vernon Yearby, pastor, officiating.

Mrs. C. G. Campbell of Austin will attend her sister as matron of honor. Other attendants will be Mrs. Joe B. Terry of Austin, sister of the bridegroom-to-be, and Mrs. Joe Terry Brewer.

Joe Terry Brewer will serve his brother as best man.

Miss Pope is a graduate of Midland High School and was formerly with the Lion Oil Company in Midland.

Mr. Brewer has been with Guy Mabee Drilling Company in Midland since his release from the U. S. Army Air Forces in February 1946. His overseas service was in England.

Carpenter-Floyd Rites Are Read In San Antonio

Miss Patricia Doyle Carpenter, daughter of Mr. and Mrs. Fredrick Thomas Hogan of Midland, became the bride of James Walker Smith, son of Mr. and Mrs. P. L. Smith of Floyd, Va., in a ceremony read at 9 a. m. Saturday in Alamo Heights Methodist Church in San Antonio.

The Rev. Kermit Gibbons performed the double-ring ceremony before a background of palms, tall candelabra holding white candles and white gladioli.

Mrs. Dave Young, organist, played the wedding music and accompanied Mrs. Charles H. Gunn, aunt of the bride, who sang the nuptial solo.

The bride wore a black faille two-piece dress trimmed with powder blue. Her hat of black felt was accented with matching powder blue feathers and veil.

Miss Nancy Jane Cole of Texas City was the bride's only attendant and Joseph Willis of San Antonio served as best man.

Following a short wedding trip the couple will live in San Antonio. Guests attending the wedding from Midland were Mr. and Mrs. Hogan, parents of the bride.

MARY ELIZABETH COLLINS IS CO-EDITOR OF PAPER

State Workers Come To First Baptist Church

One of the largest groups of outside workers to lead the activities in the First Baptist Sunday School Training Course will arrive in Midland. The classes will begin at 3 p. m. Sunday.

Four courses of study are presented to the membership of the church each year, two Sunday School courses and two Training Union courses.

Mrs. Raymond Wier of Odessa, who will direct the school, was formerly with the State Training Union Department. Mrs. Wier also will teach the book, "Art of Teaching Intermediates."

Others to give instructions in the school will be Mrs. J. C. Hamilton, Odessa, "The Nursery Department of the Sunday School;" Mrs. J. O. Skiles, Big Spring, "Beginner Sunday School Work;" Mrs. G. E. Frazier, Odessa, "Guiding the Primary Child;" Mrs. Ernest Hook, Big Spring, "Guiding Junior Boys and Girls;" Raymond D. Weir, Odessa, "Teaching Young People in Sunday School;" V. A. Reifel, Midland, "Adult Department of Sunday School;" Miss Mary Lou Dunn, Dallas, "Library Manual;" Mrs. Carl McEachern, Austin, "Extension Department of Sunday School."

Mrs. A. W. Wyatt will be in charge of the study hall for school children whose parents are enrolled for the study course.

Classes will be held from 7 to 9 p. m., Monday through Friday.

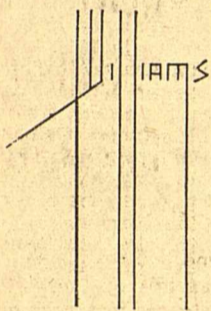

A pint of ice cream has been found to contain more than a milligram of vitamin G and almost half a milligram of pro-vitamin A.

Classes will be held from 7 to 9 p. m., Monday through Friday.

Conducts Meeting

Evangelist J. V. Davis of Brownfield, Texas, will conduct the gospel meeting being held at the South Side Church of Christ which opened with services Saturday. J. F. Lilly is minister of the church.

Three New Members Welcomed Into Girl Scout Troop 8

Three new members, Martha Scharbauer, Shirley Harrison and Mildred O'Donnell, were welcomed into the membership of Girl Scout Troop Eight Thursday at the home of Mrs. Don Johnson, leader.

Mrs. J. O. Simmons, new co-leader, was presented to the group.

During the business sessions plans were discussed for the year work after which the members went to the Tuberculosis Association office in the City-County Auditorium where they folded material for the Christmas Seal Sales. The girls folded 1,400 seals during the afternoon and were accredited with 17 hours of social work.

The year's work for the troop was opened with a social meeting the past week at the home of Mrs. Johnson.

One visitor, Jean Blackwell, and the following members were present: Gloria Anguish, Peggy Charlton, Sue Corser, Jean Ferguson, June Hazlip, Joyce Howell, Swan Hagler, Sue Johnson, Jerelen Jewell, Rassilyn Leggett, and DePhane Tabors.

The stars, on the average, are as far from each other as the nearest of them is distant from the earth.

Some of the moon's craters are more than a hundred miles across and thousands of feet deep.

Clerk Issues Seven Marriage Licenses

Seven marriage licenses have been issued so far in October, the county clerk's office reported Saturday.

Friday licenses were issued to Charles O. Rolison and Vera L. Rolison; Clan Boatwright and Bobbie Mabry; Ed Metzger and Myrtle Jean Butler.

Milk Mixture for Stomach Ulcers

A recent medical discovery now used by doctors and hospitals everywhere has proven unusually successful in the treatment of stomach ulcers caused by excess acid. It is a harmless preparation yet so effective, in many cases the pains of stomach ulcers disappear almost immediately. Also recommended for gas pains, indigestion, heartburn due to hyperacidity. Sufferers may now try this at home by obtaining a bottle of LURIN from their druggist. LURIN contains this new discovery in its purest form. Easy to take. Just mix two teaspoonfuls in a half glass of milk. Costs but little. Must satisfy or money refunded.

Lurin for sale by Midland Drug Co and drug stores everywhere.

Mrs. Taylor President Of Alathean Class

Mrs. Kyle Taylor was elected president of the Alathean Class of the First Baptist Church at a business and social meeting Thursday at the home of Mrs. Dot Price. Co-hostesses were Mrs. F. G. White and Mrs. V. L. Red.

Members present were: Mmes. Cody Fondren, C. V. McClatchy, Charles B. Woods, D. A. McClatchy, J. L. Jones, Paul Jette, L. F. Jones, Stephen Leach, Roy Owen, Jr., J. V. Ogle, J. L. Bozeman, J. C. Sewell of Kermit, Biggs, Hanks and West.

Before Or After

Photo courtesy New York Dress Institute
Pale blue combined with brown wool jersey, a maternity dress elasticized at the waist.

Far from wanting to look different, the expectant mother wants dresses "like everyone else is wearing." She wants to wear the new necklines, the new sleeves and the new colors. Also, since she won't be shopping for several months after baby is born, she is wise to choose such dresses as the simple wool jersey shown above—which will feel and look "right" during both periods.

Other equally useful daytime styles in the Fall collections of New York's designers of maternity clothes include the well-liked jumper in both crepe and wool, and the purposeful dressy black crepe discreetly embroidered and sometimes fashioned with side-draped skirt.

Evelyn Hejl Is Named President Of Musical Club

Evelyn Hejl was elected president of the Moment Musical Club at a meeting Saturday at the Watson School of Music. Claudie Hammer was named vice-president and Wanda Lou Steele, secretary.

Plans for the year's programs were presented during the business session.

Kenneth Feemster was the guest of John Charles Godwin; Charles Longcope attended the meeting with Carolyn Gray and Shirley Ann Campbell was the guest of Wanda Moore.

After members gave their names and grades in school, the following program was presented: Violin, "Mary Had a Little Lamb," Eddie Eubanks; violin, "Dream Waltz," Ann Simmons; piano, "The Carnival of Venice," Wanda Lou Steele; and piano, "Dolls Dream" and "Awakening," Barber Long.

Twenty-five members were present.

Midland AAUW Will Sponsor Production Of Hans Brinker

"Hans Brinker or the Silver Skates," which the Clare Tree Major Company will present here at 4 p.m. on October 15 and which is known all over the world as a classic in children's literature, began as a simple tale improvised by Mary Mapes Dodge, a young widow, for the entertainment of her two small boys.

In those days, almost a hundred years ago, even more frequently than now, mothers heard the pleading, "Tell me a story." Some of them repeated the same tales their parents had told them, while others, endowed with greater imagination and originality, improvised stories as they went along.

"Hans Brinker" was one of these and has become part of literature's storehouse of tradition.

In 30 years this book had more than a hundred editions, was translated into other languages and received a prize from the French Academy. Ironically enough, Mary Mapes Dodge had never been to Holland, where she placed the action of her story. It was not until after her book achieved success that she visited that country for the first time. While there, one of her boys went into a store and asked for a book about the life of the people. "Here is one of the most faithful stories of Dutch life known in Holland," he was told as a book was handed to him. It was "Hans Brinker" in Dutch.

The Children's Theater production of this famous tale will be staged at Midland High School Auditorium under the auspices of the American Association of University Women. Tickets may be purchased from members of A.A.U.W. or through the schools.

RETURNS TO MIDLAND

Mrs. H. C. Hannaford returned Thursday from St. Louis, Boston and Meredith, N. H. In Meredith she visited her son-in-law and daughter, Mr. and Mrs. Leon H. Clark, Jr.

Children Hear Fairy Tales At Story Hour

Midland children hearing stories told by Mrs. W. C. Cartwright at the regular Midland County Library's Story Hour Saturday were: Alvin Loskamp, Clyde Ray Dowdle, Don Summar, Troy Allen, Jerry Gerald, Harold Logan, Joe Campbell, Jr., Linda Davis, Gwendolyn Campbell, Wanda Bradshaw, Judy Ann Orson, Ronald Thomas, Roy Thomas, Fvangeline Hewgles, Jane Dowde, Dickie McHargue, Peter LeKish, Bobbie LeKish.

Mrs. Cartwright told several fairy tales: "The Magic Broom", "The Four Peas", and "The Queen's Hat". The children also enjoyed a new story, "The Ladybug Who Couldn't Fly Home," by Katherine Evans.

Next Saturday a story about a horse will be included at the request of the children. All children of Midland are invited to attend.

Mickey Fitting And Bill Pomeroy Will Appear In Play

Community Theater's October production, "The Torchbearers", is a George Kelly play. The cast will include such favorites as Mickey Fitting who plays the part of Mrs. Pampinelli, benefactress of the little theater movement and director of the play, and Bill Pomeroy who portrays the part of Frederick Ritter, husband of the "star" of the performance.

Dorothy Gates, who played the part of Grace Graves in "Junior Miss", will appear in "The Torchbearers" in the role of a housemaid. Other parts in the play will be portrayed by Heien Manning, Sally Hills, Edna Lou Prange, H. A. Ireland, Elwood Turrentine, Bub Brewer and Bob Fitting.

WANDA JEAN WEST, D. C. STROUD MARRY IN EL PASO RITES

WINK—Mr. and Mrs. Clifford West have announced the marriage of their daughter, Wanda Jean, to D. C. Stroud of Kermit.

The couple was married in El Paso September 28.

Following a short wedding trip they will live in Wink.

MRS. McCLANAHAN TO ATTEND DESIGN SCHOOL

Mrs. Jerry McClanahan, daughter of Mr. and Mrs. M. W. Vestal, will attend the Tommy Brice Design School in Chicago. She will visit her husband, F. O. McClanahan, who is in the oil industry in Havana, Cuba. She plans to resume her duties at the Vestal Flower Shop in the latter part of November or the first of December.

Parents Asked Not To Buy Drill Squad Suits

Parents of Midland High School students in the girls' drill squad are asked not to purchase uniforms for their daughters.

The Midland Bulldog Booster Club is raising funds to buy the uniforms, which will become property of the school.

To assure the uniforms all will be the same and can be retained by the school, the Booster unit urged parents not to make individual purchases.

Contributions to the Booster fund for this purpose are welcomed from parents.

Mars is 4,200 miles in diameter as compared with the earth's 7,900 miles.

SHOPPING NEWS

By BARBARA

BUY BASIC FURNITURE AT GREENE'S

So you want to give your home new life? Then, ladies, buy a basic piece of furniture and be sure of lasting usefulness and beauty as well as a welcome new note to start the winter. At Midland's new GREENE FURNITURE CO. is the answer to your problem . . . a basic lamp, end, cocktail and coffee tables with solid mahogany tops and cherry frames they're a piece to be proud of and with Greene's time payment plan you have the furniture when you want it and can enjoy it while you're paying for it.

BLACK SEQUINED MAGIC IN COCKTAIL HATS

"Five o'clock cocktail hats" of shimmering black sequins and featherly light plumes mean only one thing . . . madam is dressing up! You may not have 5 o'clock cocktails but these may be just what you need for that "special" hat for very special dressy occasions when your hat must blend with your dress . . . not your suits or coats. The millinery dept. at EVERYBODY'S has a beautiful selection of these fascinating hats you'll want to see . . . sequined black turbans, cassak sequined, and not just in black, but with multi-colored sequin combinations and feathers of every color.

METAL VENETIAN BLINDS NOW AVAILABLE

Just this last week SIMMONS-HALL CO., your paint and wallpaper store which has everything for the home, has added a new feature . . . metal venetian blinds! For the office or for your home, you'll want to investigate these guaranteed warp-proof flexible blinds. They're cream colored, easy to match with any interior decoration, light and easy to manipulate, and long lasting as you could want. Simmons-Hall has them in widths from 24" to 36", all are 64" long.

PRACTICAL AND BEAUTIFUL ALUMINUM

Confronted with the gift problem? Then may I make a suggestion . . . this year set the pace with practicality . . . and at a price within reason. For instance, had you thought of the useful Everlast aluminum found at VOSATKO'S? It is a useful, practical and yet lovely gift for any home. Unusual pieces that the average person wouldn't buy themselves are appreciated and prized highly. Aluminum coolers for all ice drinks, \$9.90; handy and attractively decorated silent butlers, \$4.90; and casseroles, \$6.50. These are just a few suggestions but you can take it from there when you shop at Vosatko's for your gift needs.

START GIFT SHOPPING NOW

While looking in CAMERON'S and HOTEL DRUG this week I noticed what a nice gift selection they had . . . and thought I'd emphasize again shopping early this year for Christmas and getting the pick of the nice selections. Especially nice this year are sets of every description . . . cosmetic sets, bridge sets, domino sets, chess sets, ash tray sets . . . something useful that makes an appreciated gift. Merchandise is none too plentiful as we all know so put those good intentions into use and start now . . . once you start it comes easy!

FIRESIDE SLACKS MEAN WINTER CHARM

What could be a better way to prepare for winter than by starting your winter wardrobe with a comfortable and good looking "Fireside Slack Suit." WILSON'S have just received these winter casuals. The jacket resembles the famous and popular Eisenhower model, designed in wool plaid with rich red black and tones of gold. The suits of black gabardine make a striking ensemble. Sleeves button at wrist to keep out cool breezes and jacket is trimmed with gabardine to match the set. You won't want to confine these to the fireside!

MAGIC CARPET SERVICE WAS NEVER LIKE THIS

Prince Ahmed and his trusty carpet might have gotten around all right in his day but modern Americans want comfort, dependable service, careful and courteous drivers as well as swift transportation . . . and that's the reason CHECKER CAB has become a by-word in transportation service. Prince Ahmed's carpet may have been drafty in winter . . . but not a Checker Cab. To get away from winter breezes and transport you swiftly to any destination, call 70 or 211 without hesitation. Don't take a chance . . . take a Checker!

ACCESSORY FURNITURE, TODAY'S CHOICE

As I was browsing happily through the gift dept. at MIDLAND HARDWARE a lady remarked to me . . . "I could spend the day in here looking around." And so could I! Among the many new gift items are light wood tables, trays, and new items in accessory products . . . truly in the trend of today's modern needs. Light wood bound with strong leather at corners adds style to any home as well as practicality of design and use. Also in Raymor are bean pots attractively designed in wooden frame holders, and trays with divisions for glasses. Drop in and browse around soon.

BOWLING IS EVERYBODY'S SPORT

Attention, bowlers! Here's a little news you may or may not know about bowling times at PLAMOR PALACE. Monday, Wednesday and Thursday the alleys are open till 7:45 . . . after that the bowling leagues take over, so plan your bowling parties on Tuesday, Friday, Saturday and Sunday nights, and you can't go wrong! Also a brief note to those of you who don't bowl but would like to try . . . Mr. Jones has plenty of time in the afternoon to instruct you in the fine points of the sport. Ladies, this is a grand opportunity to get your exercise as well as learn a grand sport.

GOOD FOOD, QUICK SERVICE, MODERATE PRICE

Want to hear something delicious? Good. How about tender steamed chicken and home made dumplings? . . . Or country fried chicken? At COLIN'S CAFE on South Main Street you'll find these delicious foods on the special Sunday 50¢ dinner. Colin's is the friendly cafe that offers you quick service, quality foods at a moderate price. And plenty of room for the whole family. Come down soon. You're always welcome at Colin's . . . and who wouldn't welcome chicken and dumplings!

STYLES ESPECIALLY FOR JUNIOR MISS

Good news for Junior Miss to Miss College . . . sizes 9 to 15! The MARY ANN SHOPPE has some really alive new California creations for winter. Wool dresses of bright solid reds and rich grays . . . in the very latest style trends that give you a look like to Miss! . . . a piece jumper effect with wide bands . . . like wide bands . . . so popular this year. And Mrs. Finch has some grand sport shirts to wear with them. Plenty of wonderful dress up dresses, too. Drop in soon and see them.

A LITTLE GOES A LONG, LONG WAY

If every penny counts, you know that's true . . . A little here, a little there, and before you know it . . . you've your own guaranteed savings fund. By saving a small amount of the desired total yearly, you have assured yourself of retirement with sufficient income to live comfortably. To decide on a Guaranteed Savings fund takes forethought and some serious deliberation, so have ROY MCKEE, your friendly Franklin Life Insurance Agent, discuss it with you, without obligation. Your savings now mean more later on.

SOLVING BEAUTY PROBLEMS A SPECIALTY

When you have electrical trouble you call an electrician, naturally, and when you have beauty problems call "Dammie" at NOBLITT-PARSON BEAUTY SALON. She's a nationally known hair stylist and she knows just how to give you a chic haircut, a soft natural permanent, and style your hair in a most becoming new coiffure . . . something smart for the football season. Pet Best will solve all your skin and cosmetic needs. Be sure and let her show you the lovely new shades of lipstick and rouges in Contoure, they're really beautiful, and so will you be if you solve all your beauty problems at Noblitt-Parson.

COMPLETE PHOTOGRAPHIC SUPPLY CENTER

If you're a real camera fan then you know that the MIDLAND STUDIO & CAMERA SHOP has everything you need and want in the way of available camera supplies. Cameras, equipment for your own developing, accessories for your camera . . . a complete photographic supply center. As well as all amateur photo supplies they supply Midland with commercial photography for all needs. Fine quality portrait photography, kodak finishing combining newest equipment and personal attention, copy reproduction, wedding and group photography . . . Phone 1003 for any photographic need.

Miss Louise Jones, Ray D. Donnell Wed

WINK — Miss Louise Jones, daughter of Mr. and Mrs. W. C. Jones, was married to Ray D. Donnell of Seattle, Wash., in a singlering ceremony read in the home of the bride's parents September 28 by J. C. Bristo, pastor of the Church of Christ.

Miss Eloise Jones, twin sister of the bride, attended the bride and Nolan Brooks served as best man. After a wedding trip to Fort Worth and Dallas the couple will live at the Pyote Army Air field.

Girl Scout Leader Training Course To Be Held Here

Mrs. Ivalee Hobdon, executive director for the Permian Basin Area Council of Girl Scouts, will conduct a 10-hour training course for leaders and troop committee members beginning Monday and lasting through Friday at the Children's Library in the courthouse.

Instruction will start at 9:30 a. m. daily and lasts to 11:30 a. m.

Miss Hobdon will be assisted by Miss McCaleb, field director of this area.

The course is open to all women interested in girl scouting. More leaders are needed in Midland and this course hopes to train them.

Mrs. C. E. Bissell, organizational chairman for Midland, urges attendance by Midland women interested.

For Brownie and Girl Scout memberships already signed up Midland needs 19 more leaders, Mrs. Bissell pointed out.

Mrs. Delbert Downing, training chairman, has charge of arrangements for the course.

The Midland County Girl Scout Council will meet for its regular monthly session at 8 p. m. Monday at the Presbyterian Church.

Cornwall, England was one of the world's earliest sources of tin.

Mrs. Payton Anderson Is Winner In Golf At Ladies Association

Mrs. Payton Anderson was winner in the games of golf played preceding the luncheon meeting of the Ladies Association of the Midland Country Club Friday at the club. Hostesses for the luncheon were Mrs. James H. Chapple and Mrs. E. A. Culbertson.

The tables were attractively decorated with pyracantha berries and Fall flowers.

Those playing golf were Mmes. W. I. West, Arch Clevenger, E. M. Miller, L. F. Shiplet, Leif Olson, Gordon Bird, Payton Anderson, J. C. Velvin, Ed Kent, Stanley Erskine, and J. L. Smith.

Hostesses for the meeting next Friday will be Mrs. Faye Cowden and Mrs. Foy Proctor. Golf will begin at 9 a. m. and games of bridge will be played during the afternoon.

New members of the association are Mmes. Gerald FitzGerald, Ed Kent, Warren Cantrell and John Scrogins.

Members present were Mmes. D. R. Dickson, L. E. Stewart, L. G. Lewis, F. J. Downey, John L. Smith, Velvin Kent, Cowden, Gordon Bird, Warren D. Cantrell, Harry Adams, Shiplet, Proctor, Roy Minear, B. R. Schabarum, Nelson Puett, Frank Johnson, W. D. Lane, Clevenger, West, C. E. Prichard, Olson, H. S. Forgeron, Clifford C. Cool, Ted

Entertaining Program Planned For Meet Of Civic Music Club

An entertaining program has been planned for the meeting of the Civic Music Club at 8 p. m. Tuesday in the home of Mrs. Ben Dansby, Jr., 723 Cuthbert.

Opening the program will be a talk on the life of Johann Sebastian Bach by Mrs. Dansby. A topic on "Historical Sidelights" will be presented by Mrs. George R. Grant.

The remainder of the program for the evening will be as follows: Choral preludes for the organ, "O Sacred Head" and "In Thee Is Gladness"; Mrs. Preston Lea; sonata for two violins and piano, "Canon and 'Gigue'"; Mrs. Benton Howell, Mrs. Edmund S. Hitchcock and Mrs. Dansby; piano, "Prelude in B Minor" and "Fugue in D Major"; Mrs. Lee Cornelius; flute, "Sonata for Flute in E Flat"; Miss Ruth Wehner; "Jesu, Joy of Man's Desiring", by a double trio with organ accompaniment by Mrs. Lea; flute, violin and piano, "Trio Sonata in G Major"; Miss Wehner, Mrs. Howell and Mrs. A. C. Smith.

Guests were Miss Joan Curtis of Taft, Calif., and Mmes. H. G. Stovall of San Angelo, A. E. Nash, of Houston, Lila Scrogins, John Scrogins, George Kidd, and J. E. Dickson.

Assailant Tortures With Cuts And Burns

CHICAGO—(AP)—Her clothing torn to shreds, a 24-year-old mother of two children told police Saturday she was seized by a man near her home, bound with rope and then tortured with a razor and a lighted cigarette.

The victim, Mrs. Thelma Breen, was treated at a hospital where physicians said eight stitches were required to close a cut in her right breast. The woman suffered also from cigarette burns. Mrs. Breen, who is expecting another child, told police her assailant fled when her moans attracted neighbors.

12 Wounded By Grenade In Shanghai Theater

SHANGHAI—(AP)—Twelve persons were wounded Saturday night by an unidentified assailant who hurled a hand grenade into the jammed lobby of the Strand movie theater on Ningpo Road in the populous central district of Shanghai.

Purpose of the attack was unknown. The hurler escaped by mingling with the crowd.

Venus, when closest to the earth, is 26,000,000 miles distant.

Take Off Ugly Fat With This Home Recipe

Here is an inexpensive home recipe for taking off unguainly weight and helping back alluring curves and graceful slenderness. Just get from your druggist, four ounces of liquid Barcozate (formerly grapefruit juice to make a pint. Then just take two tablepoonsful twice a day. Wonderful results may be obtained quickly. Now you may slim down your figure and lose pounds of ugly fat without back breaking exercise or starvation diet. It's easy to make and easy to take. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slender, more graceful curves, return the empty bottle and get your money back.

Flowers As Memorial To War Dead To Be Planted In City And County

The memory of brave and patriotic Midland County boys and girls who have made the supreme sacrifice for their country will be kept alive by the planting of "living" memorials throughout the city and county, if plans of local representatives of the Texas Roadside Council are carried out.

The plan was outlined Saturday by Mrs. A. E. Repecka, chairman of the Midland County branch of the state council. Mrs. J. E. Hill is vice-chairman.

Mrs. Repecka said that the official plant of Midland County—pyracantha—will be used in the program here.

Through the cooperation of city and county officials and various civic and service organizations, a number of the shrubs will be planted in city and county parks and grounds here. Citizens also are asked to plant one or more of the shrubs in their yards.

"We would like to see these living memorials growing in every yard in the county," Mrs. Repecka said.

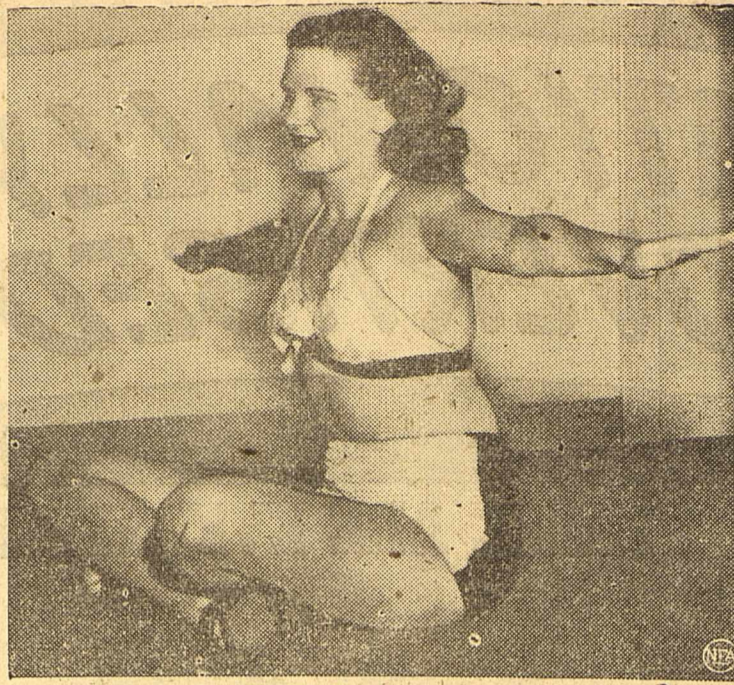

Garden Club Assists

The original plan was to set out the shrubs at each entrance to the city, but the plan was cancelled when it was learned that the state highway department would be unable to care for them.

The Midland Garden Club is assisting in purchasing the shrubs. Civic and service clubs have been asked to contribute to the fund which will be used to purchase the shrubs. The city will care for the plants set out in the city parks.

Similar programs are being conducted in each county of the state. The Texas Roadside Council is a citizen's organization sponsored by the Texas Highway Department.

Snappy Exercises Snips Inches

EUGENIA CASSE: Demonstrates "Hindu Roll."

By ALICIA HART
NEA Staff Writer

The "Hindu Roll" is a new hip-whittler worth adding to your repertoire, if you're in search of an exercise that unflinchingly snips off inches.

For this one, vouched for by trained-down junior hostesses of San Francisco's USO Club, you wear a bathing suit and take the exercise sitting cross-legged on the floor, tailor-fashion.

All set? Let Eugenia Casse, exercise instructor to hostesses-to-be, call your turns.

Stretch arms outward as far as they will go. Then roll from one side of your hips to the other, back and forth, at a rocking-chair pace. Do this about 10 or 15 times. Then increase the count until you can go through a daily 50-roll routine.

Hip control isn't all that USO club hostesses learn from charm-school instructors. Take the technique of getting into an automobile. Girls are taught to move in sideways and to sit down with one leg in, one out. Then they draw in the other leg, and there they are, sitting pretty.

This procedure takes care of the not uncommon fault of climbing into a car with hips beamed across the doorway. When a girl makes that kind of an entrance, instructors say, she shouldn't be surprised if hips are the target of playful slaps or shoves from the passenger who follows her in.

How do you hold your hands when they're not in use? Junior hostesses have learned to rest theirs on their laps with palms up and one hand lying serenely over the other.

These girls are also briefed in the kind of poise that keeps hands from jiggling with jewelry, patting hair, rearranging clothes or pawing the air to enforce speech.

Three Cattlemen Buy Famous Bell Ranch

ALBUQUERQUE, N. M.—(P)—The purchase of the famous 470,000-Acre Bell Ranch, one of the largest in the Southwest, was announced Saturday by Harry Leonard, E. T. Springer, and Albert K. Mitchell, manager of the ranch for years.

In addition to the vast land holdings which sprawl across San Miguel and Guadalupe Counties in New Mexico, the new owners acquired all livestock on the ranch, including 21,000 head of cattle.

Mitchell, former president of the American National Live Stock Association, will continue as active manager.

OPA Authorizes 15 Per Cent Hike In Cafe Prices

WASHINGTON (AP)—A 15 per cent price increase on meat meals in the nation's public eating places was authorized by OPA Saturday, effective next Thursday.

The announcement ratified a major victory for the restaurant and hotel industries. Many eating places had talked of shutting shop unless the rollback attempt were dropped.

Restaurant owners had bitterly complained that everyone else selling meats—from packers to butchers—had been allowed price increases since meat ceilings were restored after a two-month lapse. The restaurant ceilings generally are the prices of April, 1943.

OPA announced that individual restaurants and other eating places will compute their own new ceilings, both on meat meals and those containing items not under price lids, such as fish, poultry and dairy products.

It promised new regulations next Tuesday, two days before the meat price boost, detailing a new method of figuring prices for menu items based on decontrolled foods.

Actually the meat increase in many cases will be more than 15 per cent. OPA decided that meat costs can be rounded out to the nearest even nickel. If the present ceiling is above 20 cents, or to the even penny if the present cost is below 20 cents.

On items based on materials which have been taken from under ceilings, restaurants now compute prices by taking the actual cost of the ingredients, such as poultry or fresh fruit, then adding their current profit margins.

The new order will allow actual costs plus the margin used in the 1942 fiscal year, or if that is unavailable, the margin of the month nearest to that year.

When the meal contains both controlled and decontrolled items, OPA said the main dish or entree will decide whether a margin-plus-cost of the 15 per cent increase will be used.

Restaurants revising ceiling prices on the margin-plus-cost basis must file the new margin used with local OPA boards and keep records to substantiate the new prices.

Dr. Newton Sentenced To Prison Two Years

TULIA (AP)—Dr. W. R. Newton of Cameron Friday night was convicted by a 64th District Court jury on a charge of assault to murder Dr. Roy Hunt of Littlefield.

Dr. Newton, tried for the third time here on the charge, was assessed a two-year prison sentence.

Dr. Newton was convicted of the charge in the first trial at Olton, in August, 1943, but the case was reversed on appeal. In the second trial at Plainview last June, the jury failed to reach a verdict.

Dr. Hunt told hospital attendants at Littlefield on the night of May 21, 1942, that he had received gunshot wounds when he answered a call and drove several miles to a parked automobile.

Although having no connection with the trial of Dr. Newton, the bodies of Dr. Hunt and his wife were found slashed and trussed in bed at their Littlefield home October 26, 1943. An ex-convict, Jim Thomas, arrested the following day, was assessed the death penalty on a charge of murder in the death of Dr. Hunt after the first trial was declared a mistrial. The court of criminal appeals reversed the decision and Thomas is scheduled to come to trial for the third time in Sweetwater on October 15.

The largest solar spectrograph in the world is at the Mount Wilson Observatory in California.

This Glass Is Really Tough.

Ice, flame and the female form—three of the most devastating products of nature—combine in the photo above to test the strength of tuf-flex, a new extra-strong type of glass. In test, made at Toledo, Ohio, the sheet of glass (arrow) successfully resisted crackling flames on its lower surface and freezing cold on the other, plus the weight of three ice cakes and 120-pound Vivienne Howren. Used in the war for Army searchlight covers, the glass is being converted to peacetime uses.

The Midland Reporter-Telegram

FIRST WITH THE NEWS

MIDLAND, TEXAS, SUNDAY, OCTOBER 6, 1946

SECTION THREE

Resignation Of Draft Boards Have Slowed Operations

AUSTIN —(P)— Resignations of numerous draft boards, individually or as bodies, has slowed down but not crippled Selective Service operations in Texas, says Gen. J. Watt Page, state director.

While he could not confirm a report that there are now 41 boards whose memberships have quit in a group or where there have been individual resignations, he said the records showed 34 local boards have served since October 4, 1940, intact.

General Page said there have been "numerous" resignations, and that it is difficult to find replacements.

"When citizens consent now to serve as replacements for resigned local board members, they do so in a deeply patriotic spirit," the director said.

"The only credit they will get is the knowledge of having rendered a public service. Those who accept now are doing so in a supremely patriotic spirit."

The Selective Service Act expires next March 31, and board members who take the places of those who resigned will not be eligible for service citations. A board member must serve two years to be cited.

There are still 351 local boards functioning in Texas under the grouping system adopted after V-J Day. The effect of the grouping system was that while all the boards were preserved as units, in many cases one man served on as many as three boards.

In some cases, boards have walked out in a body and refused to answer letters or even sign payrolls for clerks.

"In one such instance recently, we had to send an officer to that community to authorize the clerk to act," General Page said. "Those have been unusual cases, although it has been difficult to get new members to take the places of resigned board men lately."

Texas had no call for men in July and August, and progress is being made in filling the September call.

Tennessee Farmer Wins Cotton Picking Title

BLYTEVILLE, ARK. —(P)— Eugene Shinault, 41-year-old tenant farmer from near Memphis, Tenn., plucked nearly a pound of cotton a minute to win the Seventh Annual National Cotton picking contest here and the \$1,000 grand prize.

Shinault stripped his assigned two rows in an hour and 45 minutes, gathering 109 pounds. This gave him the title of world's champion cotton picker.

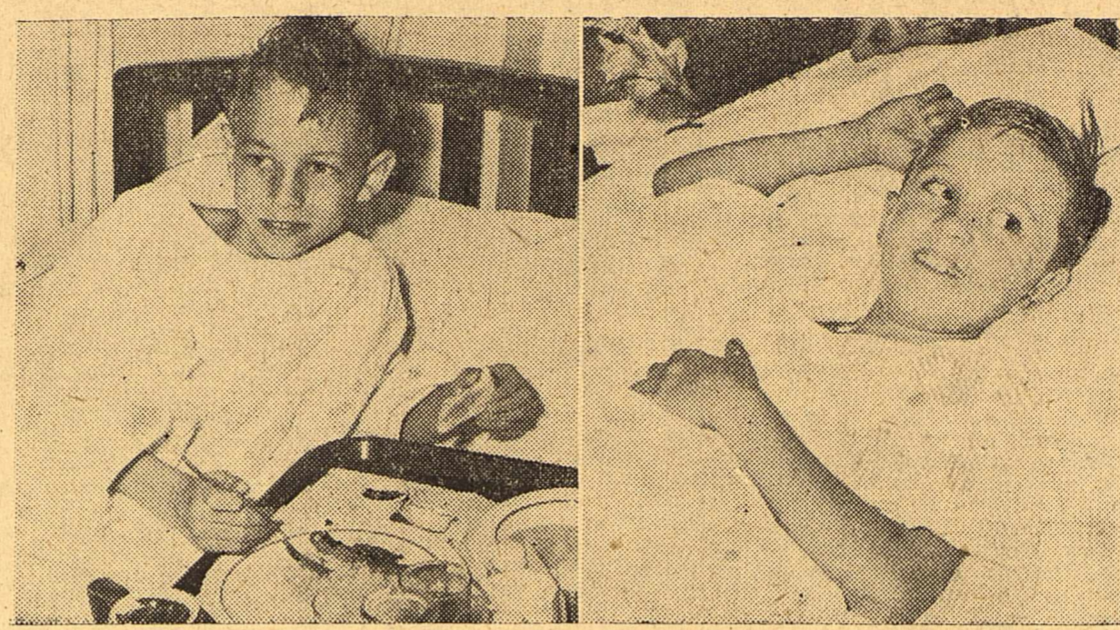

Approximately 9,000 persons attended the annual event in which 261 top ranking pickers from 11 states and Mexico participated. Prizes totaling \$2,500 were awarded.

Ralph M. Bailey, Hayti, Mo., won second place and \$250 and J. C. Andersons, Madison, Ala., negro, was third and received \$100.

Receiving awards of \$25 included L. A. Cote, Collingsworth, Texas; Ventura Comacho of Mexico, and Margarit Luna, Corpus Christi, Texas.

Coffee or tea stains on tablecloths will not stain if blotted immediately.

Injured In Freak Accident

Victims of the freak accident, injured when a test instrument fell from an XB-36 bomber on flight over Fort Worth, smile from their beds at Methodist Hospital here. The 50-pound instrument crashed through the roof of the Riverside Elementary School into the boys' rest room, fragments from which injured seven children. Shown are, Clark Jackson, left, who was cut on the ankle and struck by steel fragments on the face and arms, and Douglas Danford, whose right knee was broken.

Dirt, Squirt And Quirt

— FARM, DAIRY AND RANCH NEWS —

Dr. V. P. Lee, president of the Production Credit Corporation at Houston, and Claude Cotton, newly appointed field man for West Texas, were in Midland last week visiting the local Production Credit Association offices.

The local livestock auction had a run of around 500 head of cattle last week with prices steady. Good old cows with young calves brought up to \$11.00 a pair, two-year-old heifers with small calves brought up to \$118, while common cows and calves brought from \$85 to \$110 a pair. Canners brought from \$6 to \$7, butcher cows from \$8.50 to \$11. A few fat cows brought up to \$13.50, choice cows and heiferettes were not offered, butcher calves and yearlings from \$13.50 to \$17.25, stocker calves and yearlings from \$13.00 to \$15.50, common stocker calves brought from \$11.00 to \$13.50 while bulls brought from \$8.40 to \$12.40.

Out-of-town sellers included: Charley Martin, Lenora; Ed Garnett, Brownfield; Ray Hightower, Garden City; L. H. St. Clair, Andrews; Herman Chambers, Rankin; and Henry Barrow, Odessa. The sale had plenty of buyers but bidding was low to weak. There was a steady outlet for all livestock offered.

Guy Ed Branch, who ranches in the Rankin area, was in Midland on business last week.

R. O. Brooks and Vest Drake, Midland county dairymen, visited the Heep dairy farm and the Carlington Jersey farm near Austin last week. They report that grass is good in that area and that these two dairies have some outstanding cattle in their herds. Brooks purchased a Jersey bull from the Carlington farms to go on his herd of good Jersey cattle.

One reason for the lack of cotton pickers in this area is the fact that

in Central Texas pickers are being paid as much as \$3.25 per hundred. Reports say the area has a good crop, so most pickers figure they can make more by going to that section which leaves this part of West Texas needing pickers now.

The local cotton gins have reported ginning a total of 940 bales to date in Midland County.

National Fire Prevention Week has been set as the week of October 6-13 as announced by President Truman. According to a U. S. Department of Agriculture report received by the Texas A&M College Extension Service, the answer to the President's request must come to a great extent from the rural people. Last year, fire destroyed \$200,000,000 worth of rural property—almost half of the total losses in the United States. For every week, as well as Fire Prevention Week, the Department of Agriculture has made these suggestions to rural people for stopping fire losses: Keep handy at all times at least a few fire fighting tools, such as water pails, tall ladders and fire extinguishers. Establish fire breaks around feed stacks, farm buildings and maturing crops of high fire hazard and go over the farm carefully looking for fire hazards and get rid of them. Remember that the best way to fight a fire is to keep it from starting.

The local railroad reports 17 cars of livestock being shipped from the Midland pens last week.

Floyd Countiss, a long time Midland resident, has been appointed manager for the Midland Co-Op Marketing Association and is assumed his duties last week. Floyd farms in the Cotton Flat Community.

Many cattlemen are complaining of the horn fly situation. The flies seem to be pretty bad. A spray of two-tenths per cent DDT Wettable Powder will do the job of controlling these pests. Here are the directions for mixing a two-tenths per cent mixture. Use 4 pounds of 50 per cent DDT wettable powder to 100 gallons of water and keep in mind that you should keep this mixture well stirred as the powder will settle if not agitated. Some ranchers are using an oil emulsion DDT and getting good results but the user should be sure of the kind of oil base before he uses it on livestock. Several ranchers in Midland County are spraying their cattle now in order to rid them of the heel fly pest. Some plan a spraying program a little later to take care of lice and grubs.

The Texas Farm Bureau Federation has announced a regional meeting to be held at San Angelo on October 10 and have invited (Continued from page 5)

Teacher Was Right On Explosive Effects

CEDAR SPRINGS, MICH.—(P)—(P)—"Watch out now. This may blow us all sky high."

These words from Mrs. Fred Weaver preceded a test-tube oxygen-producing demonstration before her Junior High School class. She shook the tube, an explosion followed, injuring Mrs. Weaver and all 28 pupils. Two of the students required hospital treatment for eye injuries.

Mrs. Weaver, who received burns and lacerations, explained the experiment was to make pure oxygen and included mixing amounts of potassium chlorate and magnesium dioxide. "I guess I got the wrong mixture," she said.

Accidents have jumped to fourth place as a cause of death.

AP Berlin Reporter Marries Texas WAC

FRANKFURT—(P)—Godfrey H. P. Anderson, London-born Associated Press correspondent, and NaDeane Walker, Texas-born reporter for the U. S. Army newspaper Stars and Stripes, were married here.

Anderson, 37, was captured while serving as a war correspondent for The Associated Press in North Africa and spent more than three years as a prisoner of war in Italy and Germany. Previously he worked in Associated Press bureaus in London and Paris and is now a member of The AP staff in Berlin, where he and Mrs. Anderson will make their home.

The bride, 25, is the daughter of Mr. and Mrs. Charles H. Walker of Tyler, Texas.

After graduation from North Texas State Teachers College in Denton, she came to Europe as a member of the Women's Army Corps.

What You've Been Looking For!

GLASS

- ★ SHOWER DOORS
- ★ BATHTUB ENCLOSURES

SHOWER DOORS for baths that are lighter... lovely and more liveable. Shower doors reduce the cleaning time to a minimum because they will eliminate almost entirely the annoyance of damp and messy floors. Attractively designed of neatly extruded sections that last forever, these doors not only add the final note to bathroom equipment but they also bring to a shower stall all the light of the bathroom itself while still affording any amount of privacy desired through your selection of the glass with which the door is equipped.

BATH TUB ENCLOSURES add beauty and comfort to that important room of the house, the bath. The combination of clear or obscure glass, set in beautiful metal, either polished or satin finished, will provide permanent beauty and attractiveness. You will be able to enjoy either shower or tub bath with equal comfort. This is an investment that not only saves money, but gives you comfort, enjoyment and life-long service.

ALL IN PATTERNED OR CLEAR OR OBSCURE GLASS

When are you going to get your new car?

Until it comes, keep your old car on the job with Hudson Protective Service!

Have your car inspected regularly—and serviced expertly.

That's Rule No. 1 for motorists who are on the new car "waiting list."

It's a long list this year—for never before has there been so great a demand for Hudson style, quality and performance.

Of course we hope you're scheduled for a beautiful new 1946 Hudson one of these days. But until you get it, let us keep you in the driver's seat with prompt, expert Hudson service—moderately priced.

That's the commonsense way to assure safer, more dependable transportation, as well as higher value for your car when you come to trade it in.

HUDSON

MIDLAND MOTOR CAR COMPANY
Andrews Highway and West Wall Midland, Texas Phone 2431

Your neighborhood Hudson dealer is one of 3,000 selling and servicing this great new car... Choice of Super-Six and Super-Eight engines... All popular body styles... Nine standard colors, four 2-tone combinations.

THE BULLDOG

Written By The Journalism Class Of Midland High School

Coming Semester Students To Be Taught To Drive

Beginning next semester, provided a teacher is found, students of Midland High School will be able to learn to drive under an instructor at a regular class period.

Midland High will offer a course in safety education for a full semester in which a student may gain one half credit.

In this course the students, along with learning to operate a car, are taught general safety instructions. A student should learn something of his physical limitations, his responsibility as a citizen, and the knowledge and skill essential to the operation of an automobile before he is given the privilege of operating a car.

Those students who are taking the course and are over 14 years of age can get their driver's license by passing a special test under their instructor.

Many schools in the United States have adopted this course and thus have found that their accidents have decreased in a great proportion.

New Students Hail School Alma Mater

"All hail, all hail to dear old Midland Alma Mater true." These refrains rang through the halls of MHS Wednesday morning during advisory room periods.

The Midland High Alma Mater is only two years old and is very new to many students. It was adopted officially last year by MHS. The words were written by the A Capella Class of 1945. The music was written by a friend of Merl Vornelius, director of music two years ago.

Because the song is new, the advisory room period Wednesday was set aside especially to teach the Alma Mater to the students.

The student body is urged to acquaint itself with these words:

"All hail, all hail to dear old Midland Alma Mater true. You've brought us all the happiness in all our school days through. Our love will be your glory, Our faith is true and bold, Our spirit holds your banners high.

"The purple and the gold."

Current Best Sellers Received In Library

Several current best sellers in the fiction and biography class were received by the library this week. Miss Betty Crouch, librarian, announced when the Library Club met last Thursday during club period.

Among the new books are "The Black Rose," "The Robe," "Anything Can Happen," "Frenchemen's Creek," "Dragon Seed," "Green Dolphin Street," "Chad Hanna," "Peccos Bill," "Our Hearts Were Young and Gay," "Rickschaw Boy," "The Life of the Heart," and "Papa Was a Preacher."

Members of the Library Club, Frances Gibbins, Charlotte Shaffer, Patsy Charlton and Katherine Chisholm, will help in the cataloging of these books, which should be ready for checking out in two weeks.

The four girls in the Library Club, who are also assistant librarians, discussed with Miss Crouch plans for decorating the bulletin board in study hall to advertise the new books. They have several ideas and plan to start work on them sometime this week.

Spanish Club Elects Lois Eiland President

Miss Jackson organized the Spanish Club Thursday during club period. Those elected to offices are Lois De Eiland, president; Geraldine Fleming, vice-president; and Jane Hardison, secretary-treasurer.

The program chairman for this week is Betty Thompson. Games and parties are planned for the future meetings.

Echoing Halls

MONDAY: Classes were practically being assembled in front of Mr. Howell's office as everyone gathered in the hall for excuses. Some students hid in lockers trying to be last in line.

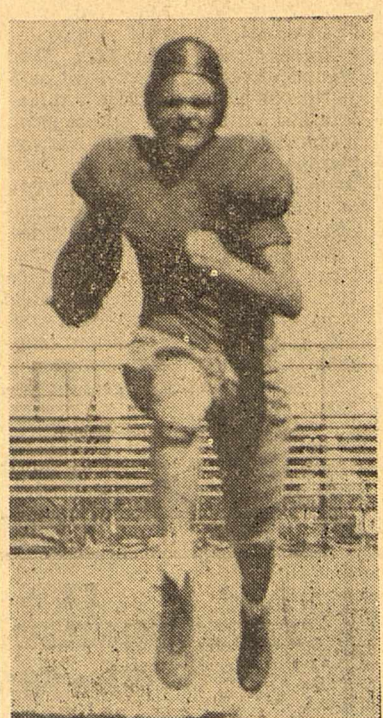

TUESDAY: Some bright pupils were seen crawling under the seats in assembly, trying in vain to find their rightful places. Little did they know everyone else thought of that, too.

WEDNESDAY: Little "sample" bottles brought back from El Paso were seen as everyone tried to distract their woes and forget all studies.

THURSDAY: Everyone was carrying little hatchets just in case teachers turned their backs. Then suddenly, no desks! Surprising what can happen with one little stroke of the hatchet!

Friday: Everyone that could whisper was thrown out after that mighty bonfire! More enemies tossed in. (Then tossed out again.) No one had any eyebrows or eyelashes. Next time let's not get noisy about what's cookin! Some fun!

Bulldog Of Week

Dunny Goode
William Frank Goode, better known as "Dunny," made his formal debut in Pampa, Texas, October 24, 1929. He's been in Midland since 1930.

At the moment he has no choice of universities, and quite honestly, admits having "no ambition." A good steak "hits the spot" with him, and "Symphony" is his favorite song. He's 5 feet 10 inches tall and tips the scales at a healthy 160 pounds. Believe it or not, there are sports in his life other than football and they are basketball and baseball. In the football lineup, he plays wingback position on the Midland High team, and has an excellent chance to be high-point man in the state this year.

He's literally being taken by English, Texas history, algebra and typing. He loathes concerted boys and is extremely shy around girls. One might add that he's a swell person.

Mashburn's Students Off To Good Start

Jack Mashburn's Laboratory of Industry and Woodwork boys are off to a fine start this year, in spite of their inexperience with the machines, tools, and drawing instruments.

The shop includes the electric machines, hand tools, and essentials for mechanical drawing.

The boys have been learning the safety rules for all the machines and are being instructed in their use and importance. Most of the L. I. students have bought their mechanical drawing equipment, and some have also started on their woodwork projects.

L. I. students study mechanical drawing and woodwork, whereas, those taking woodwork concentrate only on the latter. The L. I. boys are required to have 10 drawings each six weeks and one project in woodwork, but the other students' requirement is only work on their projects.

"Crazy People"

By JEANNINE STEPHENS
No; anything but that. Don't make me listen to another commercial! Everyone knows what a commercial is—slow torture with sound effects.

Not too long ago I was obliged to spend a few RESTFUL months in Terrell. Everyone was very formal there; they all wore white jackets. I wasn't exactly forced to go there, but I was having a terrible time convincing people that I was Napoleon.

It all started back in 1942 when Lucky Strike Green went to war. (You'll never make me believe the nation was that desperate.) Sunday after Sunday I was taunted by "green" going to war. Finally, my condition began to improve when all at once out came Don Wilson with LS/MFT, and I was back where I had started. As time wore on, the war ended, and peace was restored to the world. I felt fine now, and I was going to come home. Then, one Sunday it happened. I was listening to a comedian, whose initials are Jack Benny, when an announcer suddenly broke in: "Excuse me; this is Kenny Delamar with a special announcement for cigarette smokers." I reached for the dial, but I was too late. I braced myself for the shock. "Herbert Tareyton is back; I trust you will welcome Herbert Tareyton back. There's something about them you'll like." I held my aching head (this is hard to do). Yes, Tareyton was back, and so was I—right back where I had started.

Unpopular? Get a bottle of Oso Strong's Popularity Onions. I would like to present a young man to you who was unpopular before trying Oso Strong's. He's still unpopular, but now he knows why. Men, have you tried Mop Top, the new hair preparation? Mop Top keeps your hair in place. You simply pour it on your forehead, and spread it back over your head with an ordinary butter knife. For that greasy gloss, get Mop Top today. Day after day this goes on. I've endured a lot since '42, but now I'm toughened up. Commercials don't bother me—bother me.

MHS Girls List Qualifications Of Their Ideal Boy

"Make mine tall." "I'll have a short one, please." "I'm not proud." In a recent survey these phrases were voiced by the Slick Chick of MHS in determining the "ideal" male. Some of their answers follow:

Doe Pattison: "I'm not hard to please but it is fun to be with, likes the out-of-doors, has good common sense and is kind on the nice looking side."

Margaret Dpugherty: "Any boy will do—period! Just so he has got a few brains in his head and is kinda cute."

Susan Hemphill: "Tall, but not necessarily dark or handsome—must have a swell personality."

Jeannine Stephens: "Athletic, good-natured, fun to be with, and one who respects me and likes me for what I am."

Frances Gibbins: "I'm not hard to please—any boy who is tall, dark, and handsome, will do."

Pat Flanagan: "Sweet, a person (boy that is) who likes what I like and isn't spineless. Someone who shows respect for men and every-one else."

Elizabeth Ann Cowden: "Man hater."
Patsy Lou Arrington: "Sweet, cute, good personality, one who respects me and one who will rule me. He must also be good natured and have brown wavy hair."

"Tall And—"
"Tall, blond or brunette preferred. Someone who is sweet and is nice to everyone and is liked by all. One who likes to do the same things I do and respects me. I certainly hope he likes me too."

Maggie Murphy: "Preferably one with blond, brown, or red hair; blue, green, gray, brown, or hazel eyes; either shorter, taller, or the same height as I am, and—Oh well! I love 'em all."

Puddin' Sivals: "Someone sweet and very true, versatile, fun, and taller than I. Someone whom I can respect and someone who will respect me."

Bonnie Robertson: "Tall—5 feet 11 inches or 6 feet, but a shorter one will do. Athletic; one who doesn't put on and acts natural; well liked by everyone; lots of fun to be with."

Dorothy Harrison: "Height—5 feet 6 1/2 inches, green eyes, blond hair, cute, sweet, lots of fun, good dancer, likes me like I am."

Mary Faye Ingham: "Sweet, sincere and lots of fun. But most of all truthful and trusting. A little on the independent side, but there is always the limit. Also athletic."

Business Section Of Catoico Holds Meeting

The advertisement committee of the Catoico met last week to discuss plans for selling space in the forthcoming annual. Each member of this committee was assigned a number of local organizations and business houses to contact.

Members of the committee are: Dorothy Jean King, business manager and chairman of the committee; Pat Flanagan, Frances Gibbins, Florence Lash, Mary Martha Sivals, Dorothy Faye Holt, Marjorie Murray, Dorothy Barron, Tommie Darnell, Sara Lou Link, Barbara Ellis, Barbara York, Camden Chancellor, Janice Slough, Sara West, Mary Lou Price and Maggie Lee Murphey. Miss Miley, history teacher, has charge of this committee.

Booster Club Plans Special To Sweetwater

The Bulldog Booster Club of Midland is promoting a plan to pay for the costumes ordered for the new Drill Squad.

The club has also voted to charter a special train to the Sweetwater vs. Midland game at Sweetwater next Friday. However, no definite plans have been made about the train trip.

The costumes ordered for the Drill Squad are expected to arrive in the next week or so.

Who's Who—Joel

Joel Sims
The Who's Who for this week is the president of the Junior Class, Joel Sims, who made his first appearance on July 23, 1931, in Mexico, Texas.

Joel is a handsome blonde with green eyes and likes his girls the same way. But the lucky girl must be shorter than Joel's 5 feet 5 inches, and the sweeter she is the better "Joe" likes 'er.

Joel's schedule this year reads as follows: English, biology, Spanish, physical education, algebra and study hall. His favorite subject is biology, with Roy Howard and Earl Glasie his favorite teachers. Last year Sims was vice-president of his class and a member of the Student Council. Joel plays on the "B" squad, although he weighs only 120 pounds. His favorite sports, however, are swimming and baseball.

For hobbies Joel collects rocks and "just fools around." Sims, who is a good student, thinks that if he can pass algebra he'll graduate with the "class of 48."

Eleven Teachers Assume New Posts At Senior High

Eleven new teachers have been added to the faculty of MHS for the '46-'47 school term.

The new instructors include: Marcell Burleson, music; Mrs. Inez Cheatham, physical education; Madge Conger, business administration; John E. Cross, history; Ruth Donnel, distributive education; Gwendolyn Gordon, English; R. V. Johnson, English and journalism; Hardin Lawhon, band; and Clyde Farnelly, clothing. Mrs. Rex Russell, science, resigned last Tuesday. As yet the position has not been filled.

The teachers "left over" from last year are: Helen Craig, Betty Crouch, J. R. Cuffman, John E. Glasie, Verna Harris, Roy Howard, Harlan Howell, Minnie Jackson, Theresa Klapproth, Mrs. W. T. Magee, John I. Mashburn, Barnes Milam, Helen Miley, Lucy Moore, Aubra Nooncaster, Mrs. George Philippus, Evelyn Pyle and Josephine Weaver.

Midland High Ex Named College Magazine Editor

Marcell McClure, graduate of 1945, has made a name for herself by being elected the editor of "The Do-Do," the Colorado University humor magazine.

Miss McClure is the first girl ever to fill the editorship of this magazine. She is a sophomore major in Journalism.

Miss McClure was very popular in high school and took part in many school activities. During her freshman year she was a drill squad majorette, and was typist for the Catoico while a junior. As a senior she was a member of both the Bulldog and Catoico staff, was admitted as a member to the Quill and Scholl, National Honor Society, and was a member of the Science Club. She was also an attendant to the year in the Coronation.

WEAVER'S CIVICS CLASS ORGANIZES LEGISLATURE
Miss Weaver's Civics class at second period Monday organized a House of Representatives. Jeannine Stephens was named outgoing clerk; Patsy Charlton, speaker of the House; David Dickinson, chaplain; Pat Flanagan, sergeant at arms; Frankie Drake, postmaster; Joan McDonald, bookkeeper; Jane Hardison, clerk; Bill Hamilton, father of the House; and the remaining members of the class were representatives.

Spectators View Drill Squad And Band Formations

"P. H. S." symbolized Plainview High School as the first formation was given by the Midland High School Band and Drill Squad on their initial appearance Friday night. Following this was a horseshoe, a good luck symbol, bidding good luck to the Midland Bulldogs.

In the spur, the third formation of the evening, the band and Drill Squad joined in the singing of "Home on the Range."

Although three-fourths of its members are beginning students, the Midland High School Band has made much progress under the direction of H. N. Lawhon during the past three weeks. The Drill Squad, under the leadership of Mrs. Cheatham, has worked with the band. The drum major of the band is Jerry Roberts. Marti Murray is the drum major of the Drill Squad with Emma Sue Cowden as captain.

Bulldogs Receive New Uniforms And Numbers

The Bulldogs sported new purple and gold jerseys Friday night.

The name of each boy on the "A" squad and the number he will wear the rest of the season are as follows: Drake 22, Mickey 15, Scrogins 79, Higgy 59, Howell 69, Birdwell 49, Lowery 19, Baker 39, Durr 29, Whitson 56, Kirby 76, Bevins 45, Hightower 75, Edwards 96, Burrow 46, Boone 16, Goode 99, Moncrier 86, Little 65, Dickinson 95, Kidwell 26, Cole 55.

Oiliff 88, Davis 77, Cox 44, Sutton 68, Brichard 25, Barber 35, Leftwich 36, Rotan 33, Stevens 11, Hamilton 85, and Roripaugh 00.

Sobbing And Woe Emanates From 304

"Boo hoo! I don't know. I forgot how strange and far 'twould be, and I wish I were at home again with dear daddee!"

The lament of a suffering freshman? A homesick football player lost in El Paso? Perhaps one of the solid geometry students has gone mad? Sorry, it's just A. R. Nooncaster's phonographic Literature classes starting their study of poetry. The quotation is from "The Homecoming" by Thomas Hardy, a poem describing the woes of a bride on seeing her husband's tumble-down house.

Mr. Nooncaster has made recordings of several of Hardy's poems and plays them in his classes to save wear and tear on his tonsils. In addition to records he just joves sodern moonisms. He had Becky Watford reading the tragedy of the "Pea Little Thrigs." This tongue-twisting story didn't seem to affect Becky, she read it like a veteran.

By the way, if you want to finish the "Pea Little Thrigs" look in the April issue of the Deader's Rigist.

Cuffman's Ag Classes Make Observation Tour

The vocational agriculture teacher, J. R. Cuffman, chaperoned his fourth and fifth period classes on an observation tour of McCormick's pasture, southwest of Midland, Tuesday afternoon.

Mr. Cuffman divided the boys into groups of three to study the carrying capacity of the land. Afterward, the boys reported their findings to him.

The students had the opportunity to observe in action a machine which eradicates mesquite bushes and other undesirable plants in the pasture.

After watching the machine for a time, the boys learned to make an estimate of the ratio of grass to weeds in the pastureland.

Mr. Cuffman enjoys taking his agricultural students on field trips, because they learn things first-hand which will help them in later life. He plans to make many such field trips during the coming year.

SEATING PLANS MADE IN ASSEMBLY TUESDAY

In assembly, Tuesday, Harlan Howell, principal, endeavored to seat some 600 bewildered students in the auditorium. The surging mass of humanity scurried to their respective seats, most of them anyway, according to their home room classification.

Students are now expected to sit in their assigned seats, giving their teachers no trouble and enabling the students to enjoy the program.

Fourteen Midlanders Attend Dallas Fair

Fourteen Midland girls left Friday for the Dallas Fair. The girls won first, second, third and fourth places at the county fair here September 27 and 28.

A Monahans bus was chartered to take these and 30 other 4-H boys and girls to Dallas. They attended the fair, a dinner sponsored by the Chamber of Commerce, and the ACU-Arkansas football game. The girls were given free rides at the fair carnival. The Midland Chamber of Commerce donated \$100 for the trip and all the expenses are paid except meals. Rooms have been reserved at the Jefferson Hotel. The group plans to leave Dallas at 8 a. m. Sunday.

Those taking the trip are: Mrs. Nettie B. Messick, home demonstration agent; Jamie Manning, Julia Midkiff, Joan McDonald, Charlene Gregory, Lanelle Howard, Mary Lynn Manning, Pauline Norwood, Sammie Swails, Nadene Manning, LaVena Brooks, Leila Norwood, Donna Howard, Lena Marie Price and Essie Raggett.

Team Members Honored Tuesday With Dinner

A steak supper was given Tuesday night for the A and B football squads by Lloyd Mackey and Percy Bridgewater, prominent Midland businessmen and ardent Bulldog boosters.

Besides the players, others present were all the members of the coaching staff, Frank Monroe, superintendent, Harlon Howell, principal, and several members of the Bulldog Booster Club.

Mr. Bridgewater was in charge of the ceremonies. Coach Barnes Milam made a short talk and Jimmie Edwards, captain of the Bulldogs, responded in behalf of the team.

Be careful not to plunge linens from hot to cold water or you will set the soil. The temperature should be gradually decreased.

Two Food Classes Visit Midland Fair

The Home Economics Department visited the Midland County Fair, Friday, September 27.

The trip was divided into two sections. One class at 11 a. m., and the other at 1 p. m. The 1 p. m. class was accompanied by the sewing class and the vocational agriculture students.

Canned foods made by last year's foods classes were exhibited, along with garments made last year also.

The garments on exhibition were made by Joan Montgomery, Joy Mashburn and Dorothy Radrick.

On display also was a miniature model kitchen and a notebook concerning the different types of kitchen utensils.

La Vena Brooks Elected P. E. Club President

The Physical Education Club, sponsored by Mrs. Inez Cheatham, recently elected LaVena Brooks president. Other officers elected were Joyce Beasley, vice-president, and Ruth Glasie, secretary.

Members of the club will play baseball and volley ball, and will have a regular volley ball team to compete against other girls' volley ball teams. The club also plans to affiliate later in the year with the Girls' Athletic Organization, a national organization.

Birthdays

October 6—Bobby Cole, Bonnie Sue Reeves, Lareda Mae Reeves, W. J. Wooten.

October 7—Kingsley Blackman.

October 8—Frank Lane, Nan White.

October 9—Patsy Buckland, Virginia Ireland.

October 10—Marilyn Boynton, Jimmy McGraw, Joy Harrington, Ollie Marie Stevenson.

October 11—Nada Bramlett, Alex Noel Oates.

October 12—Charles Wayne Bailey, Norma Jean Hubbard, Wayne Roberts, Obie Stalcup.

A well-centered yolk is what every cook wants in a hard-cooked egg for deviling or stuffing.

Hannegan Scores Republican Party

LOS ANGELES—(AP)—The Republican Party is in "complete political bankruptcy," says Democratic National Chairman Robert E. Hannegan, adding that in the present campaign its spokesmen are carefully avoiding mention of the GOP's performance in the last Congress.

"A political party without creative and constructive purpose must either concede its own defeat, or resort—as a political party in Germany once did—to pure phantasy," the postmaster general told a rally of Southern California Democrats here.

He charged that in the last Congress the Republicans "stopped at nothing x x x neglected no opportunity to attain their purpose, whatever the cost to the people of this country."

He asserted the GOP Congressional record was against price control, against veteran housing, against full employment legislation and against the school lunch program.

West Texas Chamber Of Commerce Schedules Annual Referendum Meets

ABILENE—This mid-month will usher in the 1946—fifth annual—referendum convention season for the West Texas Chamber of Commerce.

On Tuesday, October 15, the WTCC will hold the first of eight district meetings, at Coleman, for directors and chamber of commerce delegations from the towns in its District 10. At this and following meetings, affiliates throughout the West Texas territory will receive and debate the eight policy planks making up this year's referendum ballot. The other seven gatherings include Sonora, Wednesday, October 16, for Districts 8 and 9; Midland, on Thursday, Oct. 17, for Districts 6 and 7; Anson, on Oct. 18, for District 5, closing out the first week. District directors will preside at the meetings.

Plan Referendum Convention
The regional chamber's executive board met at Colorado City September 27, on call of President H. Y. Overstreet of Farwell to plan the referendum convention. In addition to arranging for the district meetings the group set Friday, Nov. 8, as the date for holding the directors and referendum assembly, the clearance, wind-up gathering for taking final action on the referendum. Sub-committees were named to conduct that all-day business meeting in the chamber's headquarters building in Abilene. The board voted to turn the noon luncheon that day into a West Texas welcome to incoming state officials.

Referendum Planks
At the Colorado City conference the WTCC executive board voted to place eight policy planks in the referendum document. These will be submitted in ballot form with committee recommendations to affiliates for consideration at the district and local meetings, and will be passed on finally—yes or no—by the 175 directors at the Nov. 8 assembly. The board made it clear that, in submitting the planks as presented and recommended by chairmen of various commissions, it was not necessarily asking for adoption of the whole slate, but was only submitting the issues.

One exception was made. That was Plank 8, unanimously put forward with the board's recommendation for adoption. This, a proposed "Taxpayer's Code of Ethics," calls for all-out opposition to mounting federal expenditures with emphasis on the peacetime military budget of \$18 billion as being greater than the admitted need for national defense; for elimination of wartime bureaus; for cutting the federal budget back 50 per cent next year; and for a state budget not exceeding that for this fiscal year. The board is urging that all Texans, as individuals and through their organizations, adopt the taxpayer's code as a united voice for public economy.

Other Planks
The policy planks if adopted will be the nucleus of WTCC's program of work in 1947. As submitted by the commissions and passed on to the full board of 175 directors for final decision, the others are:

1. On liberalizing the coverage in old age insurance to make more West Texans eligible and, in old age assistance by the state, making need the sole basis for eligibility in the program.
2. On recommending changes in the motor vehicle law to provide that the state gasoline tax refund, now 4 cents per gallon, shall be refunded one-fourth to the rural school aid fund, one-fourth to counties for farm-to-market roads, and one-half to counties to be earmarked as a soil conservation fund solely.
3. On abolishing the state ad valorem tax permanently for general revenue purposes.
4. On helping promote a self-liquidating all-Texas and state fi-

nanced program of national industrial advertising.

5. On supporting a state program of chemurgic research into agricultural products and all other raw materials for industrial and marketing purposes.

Farm-To-Market Roads

7. On urging that in allocation of farm-to-market roads, a county's rural population, area, miles of rural and star routes and ton miles traveled in delivering farm and ranch products, in ratio to the state's, shall be the formula followed; also that these roads be built under point supervision of commissioners courts and the state highway department; and that no new taxes be voted in the lateral road building program.

7. On supporting a constitutional amendment for dividing revenues from the University of Texas land fund, to give 40 per cent to the university and Texas AM College, and 60 per cent to all the other state supported colleges.

This plank recommends opposing the use of any part of the 7-cent Confederate tax for the colleges' building needs, because it is an ad valorem tax, and—says the committee argument—will be removed anyway when Texas' last Confederate widow dies.

One other, a non-policy plank, provides the method for nominating local directors from the 155 affiliated towns. The nominations are to be wired or mailed to headquarters prior to the Nov. 8 assembly.

Shade of Sycamore

By PERCY MARKS Author of "The Plastic Age" "A Tree Grown Straight" Etc.

THE STORY: Gayle, daughter of a college professor, has just become engaged to handsome Bruce Bartlett, famous athlete and scion of wealth. Visiting his home and parents for the first time, she is frightened by the splendor in which they live. She is further dismayed when Mrs. Bartlett explains that formal announcements will have to be sent out, and the newspapers notified. She promises Gayle the help of her secretary, Miss Holland.

XII
BART and Gayle left Sycamore a little after 4 o'clock. It was Bart's plan to drive her back to New Haven, but Gayle was insistent that he put her on a train in New York. Finally he agreed on condition that she have dinner with him before she took the train and it was almost midnight by the time she got home.

Rose was asleep when she entered the apartment, and when she awoke the next morning, Rose had already gone.

Gayle was glad. There was much she wanted to tell Rose, but now she wanted to be alone. There was a letter, a very long letter, that had to be written at once to her mother, and she felt that she must be entirely by herself when she wrote it. An hour before she had left Sycamore, Miss Holland had given her the announcements to the newspapers. "It seemed simplest to me," the little woman had said, "just to type them out. The envelopes are addressed. All you mother will have to do is mail them. I think I'd better order the formal announcements too. It is late, but they will do them almost overnight for Mrs. Bartlett. I'll address those for Mr. Bruce's friends before I send them on to your mother. Then you'll have nothing but your own to attend to."

"You'll send the bill too?" Gayle had asked, grateful but ready to be offended. "Oh, yes. Don't you think that is the best plan?"

"Much the best. You're very kind to think of it. Thanks very much."

Well, Miss Holland had made everything just as simple as possible; that was sure. Social secretaries obviously had their uses. All the same, there was a lot to be explained. Just the thought of publicity would, Gayle knew, appall her parents. Outside of the local newspaper, the Kent name had never appeared in print except in learned journals. Suppose reporters came around. Gayle shivered. "They'll just hate it..."

SHE had a long hot bath and lingered over her breakfast. She washed the dishes, made her bed and Rose's, and then went to the living room prepared to write the letter; but she noticed that the drawing of Bart was still on the easel, and she paused to look at it.

Just brilliant! Rose had certainly been at the top of her form, at her very best, and her best was wonderful. Just the same... Just the same... Well, just the same, Gayle wasn't sure she liked that picture. There was something about it that made her uncomfortable. It was a perfect likeness of Bart—but what in the world was it that upset her? It wasn't as if Rose had made him look mean or sour or anything like that. She couldn't have given him a pleasant expression, and that little smile just breaking at his lips was a fully characteristic. She'd caught every bit of his little boy charm.

There! Now she knew! The face looked so immature; that's what she didn't like. It didn't look like a man at all; it looked like a kid about fourteen years old. And there was something else, too—yes, there was... a kind of arrogance in the tilt of the head; and there was a suggestion of petu-

lance too around the lips. "She's made him look like a spoiled brat," Gayle thought indignantly.

LA TE in the afternoon Rose returned. "Hi," she said, dropping into a chair. "Giving up art for Paradise?"

"Not by a long shot," Gayle replied. "I just felt like taking a day off."

Rose lit a cigaret, inhaled, and then blew long streamers of smoke out of her nostrils. "Well, how did it go?"

"I'll tell you all about it at supper," Gayle said, "but right now I've got a bone to pick with you. I've been waiting all day long to pick it, too." She pointed toward the drawing on the easel, and her lips grew tight in indignation. "I looked at that a long time this morning, and I saw what you did. That was a dirty trick."

Rose crushed her cigaret in an ash tray, ground it down, and then asked, "Dirty trick? What are you talking about? That's one heck of a good job."

"It's a libel, and you know it is. You meant it to be."

"What's libelous about it?" "You've made him look like a little boy. You've made him look petulant and—stuck up. You know you have." She looked around for her purse, found it, then snapped back the zipper with trembling fingers and fumbled among the clutter of small articles until she found Bart's check.

"Here," she said, holding out the check to Rose. "Look what he sent you. He would have made it five times as much if I'd let him. I hope his generosity makes you ashamed. It ought to, anyway."

Rose accepted the check, read the amount, and dropped it on the table beside her. Her pale eyebrows lifted in amusement. "Generosity? Oh, come off, Gayle. There's no generosity in writing a figure on a piece of green paper. He didn't earn the money. He won't have to give up anything because he's spent it. And I'll tell you something else: that's one heck of a good picture. It's worth anybody's hundred bucks."

(To Be Continued)

McKENNEY ON BRIDGE

By WILLIAM E. MCKENNEY American's Card Authority

Four interesting hands have come all the way from Dr. Paul Stern of London, England, whom we hope to meet before very long. Gen. Robert J. Gill of Baltimore, Md., now stationed at Nuernberg, is endeavoring to complete arrangements for an international match to be held in 1948. Members of the American Contract Bridge League hope to charter a plane and fly over to England and France for this match.

Today's hand from Dr. Stern was played by a Dr. Minton of London. Dr. Stern points out that Dr. Minton was in a bad contract, but I liked the way he played the hand. He gave the opponents a chance to make a mistake—and they made it. That is one of the things that make bridge interesting.

East opened the king of diamonds, upon which declarer was

Dr. Minton	♠ A 9 6	♥ K 9 8 4	♦ Q 10 9 8	♣ J 2
♠ K 10 5	♥ A 10 7 5	♦ 7 5 2	♣ 9 6 3	
♠ 8 7 3	♥ Q 6	♦ A K J 6	♣ 3

careful to play the nine-spot. Having received the deuce from his partner, East shifted to the eight of spades. Dummy played the jack, West the king, and Dr. Minton refused to win. He felt certain that West would return a diamond, and he did.

Dr. Minton played the 10-spot. East won with the jack, and cashed the diamond ace, on which declarer dropped the queen.

Now East made the fatal mistake. Instead of shifting to a heart, he led the six of diamonds, giving Dr. Minton his ninth trick.

Unless Dr. Minton could get the opponents to fall for his little deception, there was no way to make his contract.

When painting woodwork, coat door knobs, locks and other metals with vaseline, so that paint can easily be wiped off if it splashes on those surfaces.

Chocolate and cocoa stains are treated the same. For white cottons or linens, dip fabric up and down in hot water; wash in hot suds, bleach any remaining stain with hydrogen peroxide, rinse well. For any washable colored fabric, wash in lukewarm suds, and use carbon tetrachloride to remove grease spots caused by cream. With either type of fabric, remove stains before laundering.

MISTAKEN IDENTITY

BLOOMINGTON, ILL. (AP)—After Jean Crane registered at Illinois Wesleyan University the dean of women sent the customary letter to the parents of students asking their "wishes with regard to out-of-town permissions for her."

Dr. Dan G. Crane, Jean's father, replied: "Before you impose non-permissions, I would suggest that you consult his wife. I'm afraid we'd all get into embarrassment if we 'cracked down' on Jean."

Dr. Crane explained that Jean was his son—not daughter—and had served four years in the Army as a C-54 pilot.

Petrillo To Take On State Of Texas After Wars With John L. Lewis, Army, Mussolini

NEW YORK—(AP)—James C. Petrillo, who has taken on rival unions, politicians, John L. Lewis, former Vice-President Charles G. Dawes, Benito Mussolini, and the United States Army in 24 years of battling, now has challenged the State of Texas.

With single-minded determination to see that all the musical jobs available go to members of his American Federation of Musicians (AFL), Petrillo recently announced that the Texas State Fair would be placed on the "unfair list" if it presented the 85-piece Tipica band from Mexico.

Petrillo apparently won his Texas fight hands down, despite rumblings of discontent echoed from the Lone Star State. Columnists protested, critics commented unfavorably on the philosophy behind the Petrillo ban and a Society to Oppose Petrillo was organized at Arlington, Texas. But the ban on the Tipica players held tight.

As the Mexican musicians left California for Mexico City following a dispute between the San Joaquin fair management and the AFL Musicians union, Colonel Pablo Marin said, "we are not mad at America, but all our concerts have been terminated by official orders which were that Petrillo had the backing of his union."

His philosophy has always been simple and unshakable, in spite of the wrath of congressmen, bouts with broadcasters and symphony conductors, and the passage of a federal law known as the "anti-Petrillo bill." Summed up, it is this—any musician who wants to do business in the United States, whether he's Mexican, Hungarian, or any other nationality, must be a union man.

Back in the early 1930's, the then Vice-President Charles Dawes ran across some Hungarian musicians on a European trip and recommended that they come to Chicago. They appeared at a Chicago hotel and Petrillo protested in bitter anger.

"Where do these foreigners get off?" he demanded. "So they're coming in here when my boys are a-tion with both were most amicable."

As in other disputes, all indica-

until such time as we won't be humiliated any more."

"You might say," the Mexican musician explained, "that our orchestra was in the middle of the dispute between the fair management and Senor Petrillo's organization. We had no quarrel. Our rela-

walking the streets? Who does Dawes think he is?"

He finally permitted the Hungarians to play at the hotel for six months, under an agreement that union musicians would be hired for every function at the hotel thereafter, whether music was wanted or not.

Fought Chicago Italians
In 1931, Chicago Italians planned a jubilee and word got to Petrillo that a non-union band was to play. "No union card, no jubilee!" was the verdict of the 5 foot, 5 inch son of an immigrant Italian laborer.

The Italian consul-general took sides with the jubilee group, so Petrillo dictated a \$175 cablegram to Mussolini in Rome, informing the Duce that his union had 2,000 members of Italian blood, and that the consul-general was the only consul with whom the union had any trouble. "Write him a letter telling him to cooperate," Petrillo cabled.

Mussolini suggested that Petrillo visit Italy and discuss the matter personally. Jimmy refused. The issue was compromised—a union band shared the platform at the jubilee with the Italian club band.

In 1940, Petrillo tangled with the Army, refusing to permit amateur musicians of the 104th Engineers to go on the air with a series of programs because they would compete with his professionals. Two days later he gave the Army the right of way after radio network officials assured him no studio musicians would be discharged because of Army competition.

Petrillo fought John L. Lewis in the Chicago theaters late in 1939, threatening to take his musicians out of the pits unless three shows deleted references to or skits about Lewis from their lines.

In addition to disliking John L. Lewis, canned music and musical amateurs, juke boxes, actors and lawyers, Petrillo conducted a feud with the Boston Symphony Orchestra, which had been playing under open-shop conditions. Rebuffed by Conductor Serge I. Koussevitzky, Petrillo notified broadcasters and recording companies that the Boston orchestra was to be banned from the air and phonograph records.

In January, 1946, Petrillo took the most drastic action of his long campaign against what he regarded as the displacement of American musicians by foreigners. He demanded that American radio stations be prohibited from broadcasting musical programs originating in any foreign country except Canada.

He said religious broadcasts, such as the annual Christmas and Easter services from the Vatican and Jerusalem, and special overseas musical programs by the Army or Navy, would be exempted from the ban.

In a letter to the National Association of Broadcasters, he declared that during the war his federation had "waived its objections to network broadcasts of programs emanating from foreign countries, even though music for these programs was furnished by musicians who are not members of the American Federation of Musicians." With the end of the war, he said, such things had to stop.

Calls Chicago Strike
Petrillo's latest struggles include his testing of the Lea law, passed by Congress to prohibit compelling or attempting to compel broadcasters from hiring more employees than were "needed to perform actual services." He called a strike at radio station WAAF in Chicago last May 28, and was charged with intimidating the station owners in an effort to make them employ more persons than they needed.

Petrillo declared that he regarded the Lea law as unconstitutional, and planned to carry his fight against it up to the U. S. Supreme Court. The case is now pending.

Improper, He Says

Gustav Schwarz, director of War Assets' sales and planning division, gestures as he tells special House committee a midwestern radio firm was "improper and irregular" in disposing of surplus equipment below price set by government.

Nearly Half of Air Force Surplus Sold Since V-J Day

ON HAND AS OF V-J DAY	DISPOSED OF SINCE V-J DAY	BALANCE TO BE DISPOSED OF
VALUE AND QUANTITY	VALUE AND QUANTITY	VALUE AND QUANTITY
\$6,588,843,300 1,542,137 TONS 17,967,707 SQ. FEET STORAGE SPACE	\$2,581,693,300 717,137 TONS 13,318,707 SQ. FEET STORAGE SPACE	\$4,007,150,000 825,000 TONS 4,449,000 SQ. FEET STORAGE SPACE

The Army Air Forces have disposed of nearly half the surplus property on hand when the war ended, according to estimates by Air Materiel Command officials at Wright Field, Ohio. Chart above indicates amounts on value, quantity and amount of storage space used for surplus goods. It is expected that job will be about finished, with surplus disposal on a peacetime level, by June, 1947.

House To Inquire Trend Toward Big U. S. Corporations

By JAMES MARLOW
WASHINGTON—(AP)—The concentration of economic power in fewer and larger corporations will be examined, starting October 15, in hearings by a House Subcommittee on Monopoly.

The chairman—Representative Kefauver, Tennessee Democrat—says his committee wants to find out what steps are being taken, particularly by government agencies, to stop this trend.

It is a trend that has been going on more than half a century. It was increased by the war. Kefauver considers it one of the "gravest, basic issues of our time."

A few months ago the government's Smaller War Plants Corporation (SWPC) made a report on this subject—economic concentration among big firms—to the Senate's committee on small business problems.

The report was called "Economic Concentration and World War II." It did not pretend to be an up-to-the-minute study, for it pointed out:

No New Industry Census
No census of manufacturing industries has been made since 1939—before the war—so it is impossible at this time to prepare a complete and definitive report.

Kefauver's committee, therefore, may obtain some current information of economic power among the giants of industry.

Kefauver, as have many others before him, fears that too much of this kind of concentrated power among the giants will threaten the existence of small business.

Noting how the war added to the giants' power, the SWPC report said:

"What will be the effect of this wartime concentration upon the peacetime economy? This is the heart of the problem. Will the wartime gains in concentration be retained or increased, or will the economy return to its prewar state? which, it should not be forgotten, was already highly concentrated."

Grease spots on rugs can be removed by applying baking soda, rubbing in well and allowing to stand overnight. Remove with vacuum sweeper.

Farm Column

Girl Assembles Axis Plane Trophy

WASHINGTON —(AP)—The only American woman holding a CAA mechanics license for both aircraft and motors is assembling a German Bucker "Jungmann" biplane which was brought from Berlin as a trophy by Col. Dallas B. Sherman of Clemson, S. C.

Mrs. Joane VanMaltzahn, wife of a U. S. Navy lieutenant commander, is putting the former enemy training craft together without any engineering data to help her. Colonel Sherman intends to use it as a sports plane.

Aided by six AAF enlisted men, Colonel Sherman first assembled the trainer in Berlin, from abandoned German parts. He was attached to the Air Transport Command.

Later he flew the two-seater to Paris, had it crated and shipped at his own expense to the United States.

He believes the Jungmann was the first and last such "war trophy" authorized by U. S. military authorities. Soon afterward, regulations ruled out aircraft, tanks and automobiles as souvenirs.

Soviet Authorizes German News Agency

BERLIN —(AP)—The Soviet military government for Germany has authorized the establishment of a German news agency for newspapers in Berlin and the Soviet occupation zone called the Allgemeiner Deutscher Nachrichtenendienst.

This agency is separate from the Soviet News Bureau, which is the official agency of the Soviet military administration.

Use a sponge rubber pad to wash tiles in your bathroom. It will hold scouring powder and the cleaning will be easier.

Hail Ten-Year-Old as 'Genius'

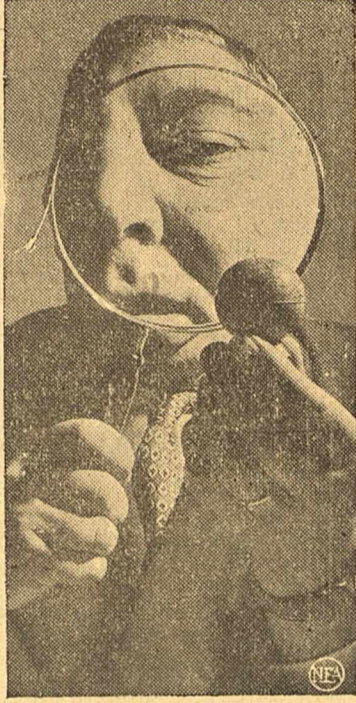

Hailed as a musical genius is Pierino Gamba, 10-year-old son of Piero Gamba, amateur violinist of Rome, Italy. Here, his father beats out the time as the boy plays the full score of Beethoven's Fifth Symphony. Only four feet tall, and frail from wartime malnutrition, Pierino needs a doubled-over cushion to reach the keyboard. He has already conducted Italy's Royal Opera House orchestra and will soon tour Europe and North and South America.

189 POUNDS OF BLACK MARKET BEEF DISCOVERED

FORT WORTH, —(AP)—City health inspectors have destroyed 189 pounds of uninspected meat discovered in a Fort Worth retail food store.

E. M. Race, food and general sanitation inspector, discovered the beef while on a routine check of the store. He was joined later in the investigation by J. M. Farrell, city meat inspector, and by members of the OPA's black market meat squad.

CONGRESS MUST APPROVE— Texas May Lose Largest-State Role As Alaska Votes On Statehood Tuesday

By C. D. WATKINS
WASHINGTON —(AP)—Alaska, purchased from Russia in 1867 and made a territory in 1912, will vote Tuesday on whether it wants to enter the union as the 49th or 50th state.

The voters will answer the question: 'Are you in favor of statehood for Alaska?'

The question has been on Alaskan tongues for 30 years. During those years the proposal has gradually been gaining adherents from the ranks of those who believed statehood would prove too costly for the territory.

Alaska is now operated by the federal government with a legislature to enact local laws and meet local problems but always subject to the approval of Congress. It is represented in Congress by one non-voting delegate.

A territories subcommittee of the House visited Hawaii and Alaska last summer and recommended approval of statehood for Hawaii, but withheld approval of a similar step for Alaska.

But the full committee did not act upon the report and when the next Congress opens, bills will be reintroduced to provide statehood for Alaska if the voters approve it.

Hawaii voted overwhelmingly in 1940 in favor of statehood and bills will be introduced to give it statehood regardless of how Alaska votes.

Even if such bills are enacted by Congress, it is a slow process to get new states admitted. It would take probably three years for each territory to adopt a proposed state constitution. It would then have to be approved by the voters.

Alaskans in favor of statehood have carried on an intensive campaign and have received the support of Secretary Krug of the Interior Department.

President Truman last year urged statehood for Hawaii and said he would be glad to welcome Alaska into the union.

Delegate Bartlett of Alaska and former delegates Wickershaw and Dimond waged an unceasing fight for statehood.

Proponents of statehood for Alaska say the additional cost of statehood for the territory would amount to only between \$1,000,000 and \$2,000,000 annually. They declare that as a state Alaska would get at least \$10,000,000 in road funds under the federal highway aid law, have much public land turned over to the new state, have control of its own fisheries which furnish millions of dollars worth of canned fish each year, its mining, some of its forests and solve its own transportation problems.

In addition, Alaska as a state would share in all federal aid programs now enjoyed by the states but denied in full to the territories.

The present expense of operating the territorial government is set by Delegate Bartlett at \$2,750,000 a year. This is met through small miscellaneous taxes, without imposing a property tax, income tax or other forms of revenue raising usually raised in most of the states.

Some New Expenses
Bartlett said the only new expenses statehood would bring to the territory would be those now met by the federal government—the cost of a judiciary, a police system, care of the insane and the conservation of fish, fur and game.

Proponents charge that the proposed statehood is being fought by absentee interests, which they assert have fought "every extension of self government to Alaska."

Secretary Krug during his recent trip to Alaska asked at each of many meetings if those in his audience favored statehood. In each instance there were affirmative replies and no opposition until finally a Texan said he was against statehood for the territory.

"Texas would oppose statehood for Alaska," he said, "because it would give the union a state bigger than Texas. Make it two or three states and we will favor it."

Named for Senate

Spessard L. Holland, 54-year-old wartime governor of Florida, has been named to the U. S. Senate to fill out the unexpired term of the late Sen. Charles O. Andrews. Holland, who was given the seat after Senator Andrews' widow declined the appointment, is the Democratic nominee for the full six-year term which begins in January.

Rayburn Predicts Era Of Prosperity In U. S.

BONHAM, —(AP)—Speaker of the House Sam Rayburn has predicted an era of unprecedented prosperity for the next five to eight years and asserted that there will be no depression "unless it is a man-made depression or becomes a political issue."

Rayburn, in an address before the Bonham Lions Club, added that there might be another shake-up in the stock market if some factions think they can gain control of congress in that manner.

On international matters, the Texas congressman asserted that the United States plans to maintain a large navy "not for aggression but to police the world. We're not going to sink our navy in the middle of the Atlantic this time, Rayburn said. He also called for a plan to reestablish soil fertility so as to meet future needs of food and feed.

O. C. Collins has made application for assistance in planning a conservation program on his farm nine miles southeast of Midland, in the Valley View Soil Conservation Group.

Democratic Executive Committee To Meet

AUSTIN —(AP)—The State Democratic Executive Committee has been called to meet here January 21.

Robert W. Calvert, of Hillsboro, chairman, said organization will be completed at the committee's first formal session on that date.

The committee will participate in ceremonies inaugurating Beauford H. Jester as governor.

Wax sides of drawers with ordinary floor wax to make them "pull" easier.

CABBIE DRIVES TAXI FOR 15 YEARS WITHOUT WRECK
CHICAGO —(AP)—Julius Wolf, taxicab driver who won a safety award for driving 375,000 miles in city traffic without an accident in 15 years, says there is more than luck in his record.

Wolf, 37, who does most of his driving in the Loop district, gave a tip on how to outguess the other motorist:

"Figure out what he's up to. Then figure he'll do it wrong. You've got to be ready for everything."

Chamber Of Commerce Directors To Meet

The October meeting of directors of the Midland Chamber of Commerce will be held in the Crystal Ballroom of the Scharbauer Hotel at 8 p. m. Monday. O. C. Harper, president, announced Saturday.

The meetings are scheduled the second Monday of each month, but due to conflicts, the October meeting will be held a week earlier.

Harper urged all board members to attend the important session. Efforts are being made to have a 100 per cent attendance.

U. S. Rids Garments Of Radioactivity

OAK RIDGE, TENN. —(AP)— A method of laundering clothes to get rid of radioactive contamination has been developed by Manhattan District, and it is being used to safeguard workers in the atomic research plant here.

The Oak Ridge public relations office announced:

"The operation is similar to all laundry operations. The clothing is put into a revolving cylinder and washed in a specially prepared solution designed to remove any radioactive material which might have clung to the clothing. After the clothing has been washed and dried, devices which detect radiation check the clothes and if any radioactivity is found the clothes are re-washed."

"Strength of the solution varies in the various plants. For instance, in the plutonium research plant, the radioactivity is much greater than in the plant concentrating U-235."

The Midland Reporter-Telegram

FIRST WITH THE NEWS

MIDLAND, TEXAS, SUNDAY, OCTOBER 6, 1946

SECTION FOUR

President Truman Appeals For Fight On Fire Hazards

In a proclamation Saturday, President Truman asked the nation to declare war on the hazards of fire.

October 6-12 has been designated national, state and local Fire Prevention Week.

President's Proclamation

WHEREAS fires threaten this year to exact the greatest toll of lives and the greatest waste of material resources that our nation has ever experienced; and

WHEREAS this destruction is taking place at a time when the entire world is faced with distressing shortages of food and housing and nearly every commodity essential to speedy reconversion to a peacetime economy; and

WHEREAS the vast majority of destructive fires are preventable by the exercise of greater caution on the part of all our citizens:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby designate the week beginning October 6, 1946, as Fire Prevention Week.

I ask every citizen to do his part by learning how to detect and eliminate all possible causes of fires in his home and in his business, in order to safeguard both lives and property from the holocaust of fire. I also request that the State and local governments, the Chamber of Commerce of the United States, the National Fire Waste Council, business and labor organizations, the churches and schools, civic groups, and the agencies of the press, the radio and the motion picture industry throughout the country cooperate fully in the observance of Fire Prevention Week; and I direct that the appropriate agencies of the Federal Government likewise assist in arousing the public to the awareness of the dread threat of fires.

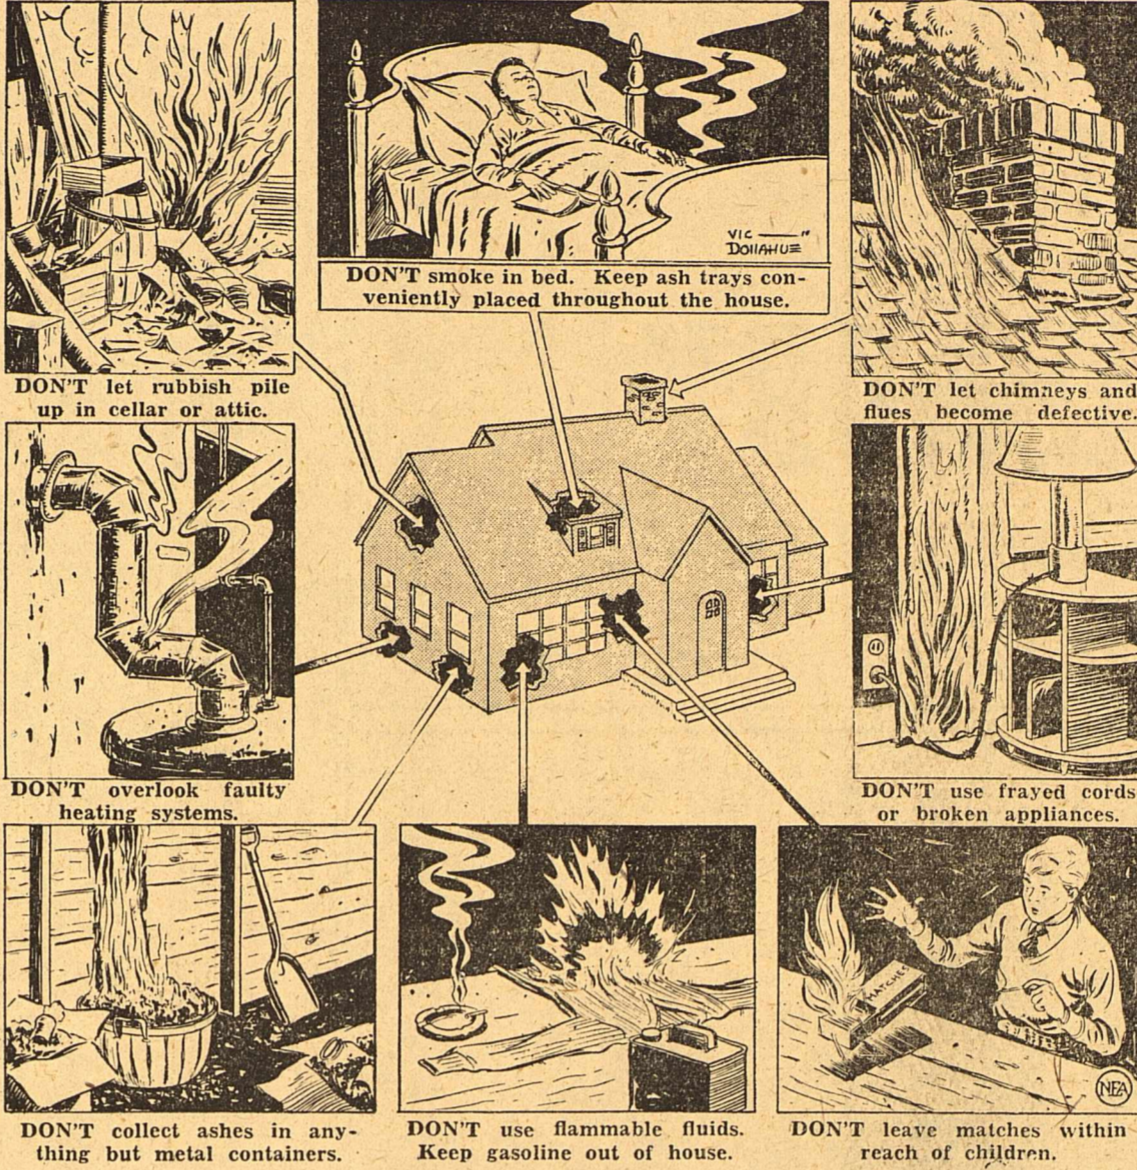

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 3rd day of September in the year of our Lord nineteen hundred and forty-six, and of the Independence of the United States of America the one hundred and seventy-first.

(Signed) HARRY S. TRUMAN

Fruit jelly depends upon pectin, sugar, and acid in proper proportions to form.

There Are Danger Zones in Your Own Home

If you were to make a tour of inspection of your home today, how many of the fire hazards illustrated above would you find? Last year, property damage from fires was approximately \$484,000,000, according to the National Board of Fire Underwriters. Much of this expensive loss could have been prevented if simple precautions had been taken in time. Last year's total was 11 per cent above that of 1944, and 59 per cent above the prewar 1941 figure of \$304,000,000. Authorities expect that this year, with a return to peacetime activities, adequate trained personnel in fire departments and industries, and more complete fire hazard inspections, the loss total will drop to \$300,000,000 or less—but only if individual caution and alertness are observed.

Safety Group Offers Prizes For Slogans

AUSTIN.—(AP)— Prizes totaling \$50 will be donated by the Texas Safety Association for the 13 best fire prevention slogans submitted from the seventh through the twelfth grades in the public schools. Marvin Hall, state fire insurance commissioner, said the rules provide that each slogan considered must be 15 words or less in length. The slogans may be on any phase of fire safety. The first prize is \$15. In 1945, Litchfield County, Conn., produced 2,750,000 pounds of cheese.

**Be Careful—
Don't Take Risks!**

If you are careless, fires as destructive as though caused by bombings can occur. Don't let them happen. See us for sound advice and financial protection.

Mayor's Proclamation

FIRE PREVENTION WEEK, 1946
OCTOBER 6-12

Citizens of Midland were called upon Sunday by Mayor Fred Hogan to take an active part in the nation's observance of Fire Prevention Week, starting October 6. The mayor drew attention to President Truman's proclamation setting aside the week for annual observance.

"President Truman," said the mayor, "has appealed to the nation to safeguard its resources against destructive fires. He stressed the danger of fire waste when this destruction is taking place at a time when our country is faced with a shortage of food, housing, and nearly every commodity essential to speedy reconversion to a peacetime economy and the fulfillment of our obligations to the war-torn countries and starving peoples of the rest of the world."

"Therefore, as Mayor of Midland, I earnestly request every citizen and every organization to heed the President's appeal and to unite their efforts under the leadership of the fire department, chamber of commerce, and other agencies in inspecting all properties and premises so that fire hazards may be promptly detected and eliminated. Furthermore, I call upon our people to acquaint themselves with all circumstances and situations that are likely to cause the outbreak of fire and with the steps that should be taken when fire occurs."

BUSINESS WOMAN'S WEEK

AUSTIN — (AP) — In recognition of National Women's Week October 13-19, Gov. Coke Stevenson has proclaimed the same week as Business Women's Week in Texas.

In the 50 years before World War II, Australia mined more than \$10,000,000 worth of opals.

**DON'T PLAY
WITH FIRE!**

Do everything you can to avoid loss by fire—
to life and property. Caution pays.

Better The Small
Trouble Of Precaution
Than The Large
Trouble Of A Fire!

This week the whole nation goes to war again in Fire Prevention Week, fighting to prevent the causes of ravages by this ancient enemy.

Heed the precautions set forth by our efficient Fire Department. It is distinctly a paying proposition.

How Recently Have You Checked Your Premises For Fire Hazards?

FIRE!

Worse Than You Can Imagine!

Each of us thinks 'it can't happen to me'. Then if it does, and you haven't protected yourself against loss by fire it's too late! Teach each member of your family the fire prevention measures we can all take. Then safeguard your possessions against loss through fire and you'll have double-barreled protection!

BURIED IN BRANDY

The captain of a ship heading from Saco, Me., died on a cruise in 1864. Not wishing to bury him at sea, his crew pickled the body in a barrel of brandy and buried the barrel and all when the ship returned to the home port.

OLLAND TUNNEL MOST EXPENSIVE ROAD IN U. S.

The Olland Tunnel, connecting New York and Jersey City, and built under the Hudson River, is the most expensive automobile road ever built in this country. It is only 1.6 miles long, but cost \$48,000,000.

VISIT HERE THURSDAY

Mr. and Mrs. John Marshall of Loraine, Mrs. Kenneth Day and son, Kenneth Wayne, of New Orleans, La., and Mrs. Arnold Marshall and daughter, Nancy, of Big Spring, were in Midland Thursday, guests in the home of Mr. and Mrs. A. C. R. bertson.

THREE SETS OF PRESIDENTS HAD SAME LAST NAMES

Three sets of American Presidents have had the same last names. They are John Adams and John Quincy Adams; William Henry Harrison and Benjamin Harrison; Theodore Roosevelt and Franklin D. Roosevelt.

Identical Twins Re-Enlist In U. S. Army After Like Service In War

By Tanner Laine
The recruiting sergeant thought he was seeing double. Standing before him to re-enlist were identical twins of Midland, Robert and Elbert Adams. The twins with their wives have lived in Midland about 15 months following their previous military training. They were born in Tyler, Oct-

ober 12, 1917, as war babies of World War I. They fought together in WW2. Now they are going back into military service—together as usual. They enlisted first in Dallas in January, 1941. For six months they served side by side in the Infantry. Then finished out their tours in the Army Air Forces. They made corporal on the same day in June 1941. They were promoted to sergeant the same day in September 1942. And together went to staff sergeant rating the same day in January 1943.

Put Out Home Fires; Eliminate Hazards

AP Newsfeatures
Many fires can be put out quickly if you don't get too excited. Stamp them out, smother 'em with rags, or douse them with a pail of water—all except burning grease. Water on hot grease will cause it to splatter and spread. If you're caught in a burning building, remember that the air is usually better near the floor. If you must dash through smoke or flame, try to cover your face with a water-soaked cloth. For fires that can't be put out immediately, call the fire department. You should know the location of the nearest fire box, and how to ring it when you get there. You may not be able to use the telephone because even a small fire can burn the wires.

The national Fire Protection Association says that the majority of fires in the home can be traced to seven major causes.

- 1. Rubbish. Clean out old papers, magazines, rags from closets, cellar, attic, garage.
- 2. Defective chimneys. Construct them of fireproof materials only, base them in the ground and not on timbers, clean them regularly.
- 3. Combustible roofs. Construct new roofs, and recover or replace worn, flammable roofs with fire-retardment materials, such as asphalt shingles.
- 4. Defective heating apparatus. Be sure yours is adequate to serve your home, without forced overheating in cold weather.
- 5. Matches and careless smoking. Be careful in their use. Have plenty of ash trays well distributed. Never smoke in bed. Keep matches from the reach of small children.
- 6. Gasoline, kerosene, etc. Never bring these or other combustibles in the house, for cleaning or any other purpose. Use only nonflammable cleaning fluids, and send big jobs to the cleaners.
- 7. Electrical defects. Check your wiring system for adequacy to carry the required load. Discard or replace worn or frayed cords and equipment.

Interior Secretary Krug Will Visit Texas Soon

WASHINGTON —(AP)— Secretary of the Interior J. A. Krug has announced he will take two airplane tours of the Western states this month to inspect some of the enterprises of his department.

He will leave Monday for a week in the northwest to study reclamation and power project needs. Late this month he will visit Texas, New Mexico, Arizona, Southern Oregon, Nevada and California. His itinerary includes Amarillo October 21.

Foodhandler School Is Offered In City

A foodhandlers short course of training will begin Monday at the City-County Auditorium. This is the fourth school offered foodhandlers of Midland.

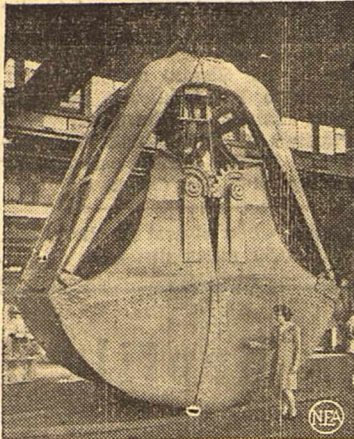

A first school was held in June, sponsored by the Junior Chamber of Commerce and 500 received credit. Refresher schools were held in July and August.

The course beginning Monday will last through Thursday, and will include two sessions daily at 9 a. m. and 4 p. m. Attendance at one session daily will qualify a person for a permanent foodhandlers' license.

The course is presented by the Midland City-County Health Unit and is approved by the State Department of Public Health. It will be taught by Graham Smoot.

There is no charge and every person interested in health conditions in Midland are urged to attend if they do not already have a permanent license, required by city ordinance. Cooperation of operators in arranging shifts to allow attendance will be appreciated by the health unit.

Big Biter

Young woman in photo above is dwarfed by giant clamshell bucket, one of two recently completed in Pittsburgh, Pa., for a Lake Superior coal company, and believed to be the largest of their kind in the world. The bucket, used to transfer coal from lake boats to dock storage, is 22 feet, 6 inches long when open. With one grab it picks up 23½ cubic yards of coal—enough to furnish the average home user with two years' supply and three bites will load a hopper car.

Yugoslavia And Greece Granted Pay From Italy

PARIS —(AP)—Greece and Yugoslavia were voted \$100,000,000 each in Italian war reparations Saturday at a meeting of a European peace conference commission which defeated a proposal to pay reparations also to Albania.

The proposal to pay Italian reparations to Soviet-supported Albania was defeated by a tie vote.

Russia officially reserved the right to fight the reparations question again when the Italian peace treaty comes before the four-power Foreign Ministers' Council for final approval. The Soviets lost a 10-hour battle to obtain for Albania reparations equal to those given Ethiopia, and to have Yugoslavia paid twice as much as Greece.

Vote Was 11 To 4

The final vote on the reparations issue was 11 to 4, setting Italy's total reparations at \$225,000,000, in addition to the \$100,000,000 awarded to Russia. Five nations abstained from voting.

France, China, India and Ethiopia joined the six Slav states in voting favorably to Albania's obtaining some outright reparations payments from Italy. The proposal advanced by the British disallowed Albania any reparations beyond Italian assets now in Albanian territory.

Before the vote was taken, Aruntian appealed to the United States and Great Britain in the name of the Allies' wartime "solidarity" to help end the conference deadlock over reparations to Yugoslavia and Albania. "We must find again the solidarity that led us to victory in the war if we want to win a lasting peace," he said.

Five Midlanders Are Released From Army

Headquarters of the War Department Personnel Center at Fort Sam Houston announced five Midlanders recently had been discharged from military service.

They were: Lewis E. Way, T/5; Samuel Davis, private first class; William T. Burrow, Jr., private first class; William P. Elledge, private first class; and Claude B. Nichols, T/4.

Gulf Cities Seek Faster Steamship Service Schedules

WASHINGTON. —(P)— Stormy financial seas buffet ships that ply the coastline from Maine to Texas. Officials of numerous cities along the Atlantic and Gulf have been calling on the Maritime Commission lately asking for faster and more frequent sailing schedules. A recent order curtailed this service.

Mayor Fred Stone of Beaumont headed a delegation which came here to discuss the shipping situation and other problems. Port authorities of Corpus Christi and

Brownsville are among others who have expressed concern.

Officials Pessimistic

Maritime officials don't hide their pessimism. In an open conference one of them suggested that the coastline steamer "may be going the way of the river packet." Hope is held out by others, however, that the Interstate Commerce Commission will grant the coastline steamship companies an increase in their rates. The ICC also has before it a request by rail carriers for a 25 per cent rate increase.

Here are some of the circumstances in the maritime cases: Ships in the coastline trade now are, in effect, heavily subsidized in that the government makes up their losses in operation. They are going up and down the seaboard only half loaded much of the time. They can not continue the service except through a contract with the government. Right now, when speed is of the essence in delivery of materials, many buyers are moving heavy commodities by rail even though at higher cost.

231 Nazis Besides 12 Big Shots Have Been Sentenced To Death

WASHINGTON. —(P)— Hanging Goering and the other top Nazis for war crimes won't set any record, in numbers.

They're just a round dozen of Nazis, even if the Allies catch Martin Bormann. He was sentenced in Absentia and may be dead already.

The job should be easy for the Army, which has had plenty of experience in this line.

Since the Army occupied the American zone of Germany in the spring of 1945, this is what it has done about bringing death to Nazis for war crimes:

Not including the 12 bigshots sentenced to death by the international court, 231 Nazis have been sentenced to death by military courts.

Of the 231 sentenced, at least 55 already have been finished off.

Of that 55, the Army sent 28 to the gallows last May for the death of more than 300,000 persons in the Dachau concentration camp.

Another 43 -- of the 231 sentenced to death -- have been condemned for the slaughter of 900 U. S. war prisoners and Belgian civilians in the Battle of the Bulge.

43 Would Be Record

(If those 43 die, that will be a new record in mass execution for

the Army. The 28 hanged for the Dachau crime did not set a record. (Up to date, the Army's record for executions was established in 1862 at Mankota, Minn. There the Army hanged 39 Indians for a massacre of a white settlement.)

Carrying out the execution of Goering and his teammates will be up to the Four-Power Control Council.

The Army, trying to be thorough about everything, didn't overlook hanging, even during the war.

For the benefit of commanding officers whenever the need arose, the Army's provost marshal general's office put together a little booklet called "Procedure For Military Executions."

It has a list of instructions and a set of diagrams on how to erect a gallows, even down to the number of hinges on the trapdoor and the kind of trapdoor.

The booklet prescribes the kind of rope -- Manila Hemp, 1 1/4 inches in diameter, and about 20 feet long -- and the material for the hood which is placed over the victims head before the noose is adjusted. It should be black sateen.

For some reason the booklet omits some details to which any experienced civilian hangman would pay strict attention.

The booklet seems to assume that any military men conducting a hanging will know how to make a hangman's noose and knot.

It neglects to say the knot should be placed behind the victim's ear. So that when he drops his neck will be broken sharply, bringing quick unconsciousness.

If the knot is placed beneath the jaw or chin, the victim slowly and painfully strangles.

But the booklet does not fail to mention that the victim's arms and ankles should be bound with leather straps.

From the time a victim climbs the gallows stairs until he is pronounced dead, it takes about 15 to 30 minutes.

Synthetic rubies and sapphires are practically identical by every chemical and physical standard with natural rubies and sapphires.

A new antibiotic substance derived from the tomato plant attacks the fungi that produce ringworm and athlete's foot.

Policy Is Needed

American shipbuilding fell to a dangerous low between the first and second world wars. In 1934, for example, the entire industry's non-naval output was two small merchant ships. Even so, there was a period of activity after the Armistice which permitted shipbuilders and government maritime officials to make some future plans for staffs, facilities and equipment.

Merchant tonnage constructed in 1919, 1920 and 1921 was 3,000,000, 2,000,000 and 1,000,000 gross tons, respectively. The carryover into 1922 was 164,000 tons, which is more than the construction prospect for 1947.

The outlook today, after the recently-announced slowdown, is about as follows: There are now 12 naval vessels under construction in private yards, which will be about 76 per cent completed by January 1. The 49 merchant vessels now being built should be 65 per cent completed by the same date.

This leaves an approximate gross tonnage of 144,000 for construction in 1947, or slightly more than one per cent of that constructed in 1944.

All these vessels are scheduled for completion next year, except for one experimental destroyer. Since it is estimated that all reconversion work now in sight will be finished by the same time, the building program for the entire shipbuilding industry 15 months hence—aside from work in the Navy Yards—seems to consist of the destroyer mentioned above, plus some repair work.

Navy Yards now have five warships in the process of building, plus a battleship and cruiser whose construction has been stopped for design changes. The slowdown schedule now calls for the last of these five to be finished in December, 1947. Thus the Navy Yards are assured of a longer period of work, though there will be added cost because of the slowdown. However, the role of the country's chief shipbuilder has not traditionally been assigned to the Navy, nor does the idea seem any more sound today than it has in the past.

No one expected, of course, that our mushroomed shipbuilding activities would be continued into peacetime. Yet it is doubtful that many believed these activities would be cut almost 99 per cent in less than two and a half years, as it appears they will be.

It may be argued that the atomic age will not require a big Navy or a large merchant fleet. It may be argued that the shipbuilders simply want to continue reaping their golden wartime harvest. It may be argued that we have the world's greatest Navy and, except for passenger vessels, more merchant ships than we know what to do with—which is literally true in the case of the Liberties, which we don't know what to do with.

Yet it cannot be said conclusively that, in the calamitous event of another war, we shall not need a shipbuilding industry. Troops might have to be transported and supplied at great distance and in great quantity, and with adequate protection against new weapons. Nor can it be surely said that today's ships are the ultimate achievement in navigation.

Until those things can be said, it would seem prudent that this country at least have a clear and definite policy toward an industry which has always been run pretty much by the government, for good and necessary reasons, even though present construction is drastically curtailed.

The Nazi Path To Glory

U. S. Gives Soviet Answer On Policy In Mediterranean

By GLENN BABE
The Soviet Union keeps the pressure on Turkey over the Dardanelles, and if the purpose is to find out whether American interest in the issue is genuine and lasting Moscow must have had its answer from the U. S.

Statements by two of the highest ranking spokesmen in Washington should convince anyone that American diplomacy is following every turn with the liveliest interest and that the armed forces of this nation are cooperating closely in the support of foreign policy. The lessons of the Wallace incident are evident in the close coordination of pronouncements of Naval Secretary Forrestal and Acting Secretary of State Acheson on our policies and the disposition of our forces in the Mediterranean and the Middle East.

They also make plain the policy of the United States, in keeping with its support of the United Nations, to take an active interest in any situation which might be a threat to peace anywhere in the world. Acheson emphasized this in a news conference. Like Forrestal he pointed out that American Naval forces have been operating in the Mediterranean since the beginning of the republic. He saw no reason why that should be changed now. This seems to imply that American interest in the Dardanelles and the Mediterranean is no new thing.

Acheson disclosed that discussions

are proceeding in the State Department concerning Moscow's latest demands on Turkey. While he did not indicate what action might be taken, other authorities said there was little doubt that if circumstances required the United States would repeat as strongly as necessary the stand taken in its note of August 19 to Moscow. That note emphatically opposed the Soviet proposals for joint Russian-Turkish defense of the strategic straits and elimination of non-Balkan Sea powers from the agreements governing control of the straits. Indications from London are that Britain takes the same stand.

It appears to be necessary still to convince the Kremlin that

American foreign policy is unified, supported by the majority of the nation and likely to proceed along fixed lines in spite of domestic political changes. Moscow either is skeptical of these things or is trying to undermine Washington's policy by appealing to prejudice against American intervention in far corners of the world. Russia continually raises questions as to why American troops are in China, American ships in the Mediterranean, why American administrations continue to govern Japan and Southern Korea. Washington's answer is that in helping destroy the Axis the United States incurred obligations to defend the peace so dearly won against any threat from any quarter of the globe.

Texas Weather Brings \$100 Deductible Clause To All Windstorm Insurance

AUSTIN—Texas weather, always a source of controversy, has become an object of more practical interest to Texas. The State Board of Insurance Commissioners announced a \$100 deductible clause will be added to all windstorm and extended coverage insurance policies, except farm properties, on which a \$50 deductible will be used, a change which is due to the unusual number of wind and hail storms during the past five years.

This plan was adopted in lieu of the 75 to 100 per cent raise in insurance rates justified by the past five-year record on which insurance rates are based. The board felt that the public would not be justified in paying the materially higher rate which the experience figures would require merely to secure protection for the first \$100 of the loss. The deductible has been used for many years in automobile insurance. The experience covering the past nine and one-half years show that all companies doing business in Texas lost a total of \$23,000,000 on windstorm business.

Veteran insurance men pointed out at the recent hearing that this experience is the most disastrous insurance experience suffered by insurance companies on windstorm business in any section of the United States within such nine and one-half year period of time. Some companies have withdrawn recently from Texas on account of this experience.

Higher Loss Ratio
"During normal times any unusual loss by storm would be compensated for by the years which were free from storm damage," Fire Insurance Commissioner Marvin Hall stated. "The period of 1941-45, however, showed a higher than average ratio of loss to premium income for every year with the total going above 100 per cent in two of the five years. The average loss for all classes of risks rose to 81 per cent during this time. Damage to dwellings, which make up over half of the property in-

sured against windstorm, was particularly heavy, rising to 416 per cent loss ratio in the sea coast area during 1943 and showing a total loss of 89 per cent for the entire state during the previous five-year period.

"There is little hope," Hall added, "that the record for 1946 will be any better. The hail storm in the early part of this year caused damage in San Antonio alone estimated at \$7,000,000, and the season of coastal hurricanes is approaching."

Two Benefits
"The use of a deductible clause instead of a raise in rates will have two benefits. The person who suffers no loss will have no change in the cost of his insurance as a result of this order nor be adversely affected in any way therefrom. The lowering of the losses to be paid will ultimately result in a reduction in the insurance rates," Commissioner Hall stated.

"At the August 1 hearing on windstorm and extended coverage rates it was pointed out that the area surrounding El Paso has a climatic condition different from other parts of the state which makes it less hazardous in respect to windstorms. Special treatment was asked for this area, and the board will make a study of this request," Hall concluded.

TO LEARN HOW TO GET—

Lovable
Natural
True To Life
Expressions

—IN YOUR CHILDREN'S PHOTOGRAPHS

WHAT is more desirable, more cherished, more heart warming on those ever so precious "early years" photographs of your children than a genuine "It's so like our child—his laughter can almost be heard" expression. If that is the kind of photograph you desire (and who doesn't) of your dear ones for yourself, relatives, and friends—then have it made in the logical place where the camera is most apt to capture **THOSE** natural expressions—**AT HOME**—where YOUR child is at ease in familiar surroundings rather than in a strange studio where all is **BEWILDERMENT** and wonder to him.

Now, before the rush, is the time to have those Christmas PHOTOGRAPHS made.

Legion Contends New Vets Now Pulling Hard

By P. D. ELDRED
SAN FRANCISCO (AP)—World War I veterans, although reluctant to see the decline of their regime, frankly admitted in off-the-record discussions here they will have to have solid support from World War II service men if they are to carry out objectives calling for adequate national defense, veterans' aid and Americanization.

World War II veterans, while they have increased Legion membership to approximately 3,300,000, still are not pulling their weight in the organization's activities.

The reasons are three-fold, old timers said. First, World War II has been over little more than a year and the veterans of that con-

flict have been concerned with matrimony and establishing homes. Secondly, they have been worried about jobs. And, third, many of them are more interested in completing their education than anything else.

Veterans of World War I encountered the same situation in the early 20s. It was several years after World War I before the Legion really got going.

The steel cables suspending Brooklyn Bridge are anchored in 60,000 tons of limestone masonry resting on a crib of pine timbers.

It took 13 years to build Brooklyn Bridge.

PRAAYER for a HOME

This picture will have a special meaning for many thousands of American families. Amid their packed belongings the family of Tom Darby kneels before the cross in their New York apartment and offers prayers for a place to live. They were ordered out after the father lost a job which entitled him to the apartment. Front row: Eileen, 12; Martin, 14; Mrs. Catherine Darby, the mother. Rear: Johnny, 5; Catherine, 10; Tom, Jr., 15; and the father.

The Cape of Good Hope still retains an early title, given it by mariners: "Tavern of the Seas."

English School Marm, On Exchange, Find Things In U. S. Just 'Ripping'

CHICAGO (NEA)—Two English school marm, who so little trusted the "land of plenty" that they brought their own tea with them "just in case" have settled down in suburban Cicero to teach American sixth-graders for the next 10 months.

They are Irene Munn of Manchester and Hilda Thorndike of Crewe, two of the 74 English school teachers who will be exchanged for 74 American teachers as part of a program sponsored by the English Speaking Union, the American Association of University Women, and the governments of the two countries.

Industrialist's Son To Pay \$22,500 Damages

JOIET, ILL.—(AP)—James T. Lincoln, Jr., son of a wealthy Cleveland, Ohio, industrialist, will pay \$22,500 damages for shooting and beating nine-year-old Carol Williams last Spring.

Probate Judge Fred R. Adams has approved an out-of-court settlement providing that \$20,500 go to the child and \$2,000 to her father, George Williams, Joliet. Williams originally asked \$55,000 damages.

Lincoln is now serving a prison term of 1 to 14 years on his plea of guilty to a charge of assault with intent to kill Carol. He was charged with striking the girl with a hammer and firing at her with a rifle when she resisted his advances.

Kleberg Says Free Cattle Market Needed

KINGSVILLE (AP)—Robert J. Kleberg, Jr., president of the million-acre King Ranch in South Texas, which during the war shipped 20,000 head of cattle annually, believes a market free of government control is the only solution to the nation's meat problems.

"There always was a sufficient supply of good beef in the country, prior to government interference with the industry," Kleberg told Eastern newspapermen who visited his ranch here.

If government controls are dropped, the King Ranch and other producers could supply ample quantities of meat "at prices in keeping with the general economy," Kleberg declared.

A new method has been perfected to depigment cottonseed hull shoes, or oxfords, appeared in Europe during the Middle Ages.
