Million Dollar Crop Is Threatened

MIAMI, FLA .-- (AP) -- The entire west coast of the Florida peninsula was placed on an urgent alert Monday with hurricane warnings flying as far north as Cedar Keys as a vicious tropical storm with winds of more than 100 miles an hour bored into the Gulf of Mexico and placed Florida's

\$100,000,000 citrus crop in jeopardy. The weather bureau said the present course of the hurricane will send it along the resort and cropproducing section of coast. The storm center which has veered slightly in its direction at least twice since it surged to hurricane strength, very likely will tween Fort Myers and Tampa, but may howl inland north of Tampa, it was indicated.

100 Miles Out The center of the hurricane was about 100 miles due west of Key West at noon Monday. Top winds of 60 miles an hour at Key West began to diminish, and unless a radical change of direction develops, the Florida Keys and the rich Miami-Palm Beach "gold coast" will miss anything stronger than heavy

rainsqualls and moderate gales. A record citrus crop is nearing harvest with some picking already going on, and a hurricane could wreak maximum damage on it at this time. Wind whipping through the

## Master Plan Is Necessary

Two prime requirements of our national safety in this chaotic period are a sound economy and an adequate national defense. The first depends largely on a balanced budget and efficient, economical conduct of the government. The second demands sufficient government planning and spending to avoid repeating the errors which caused us to be unprepared for both world wars.

How to reconcile these two requirements is a difficult problem. This country cannot afford to continue spending on anything like its wartime basis. At the same time, it cannot afford to continue budgeting for the national defense in what seems to us the rather capricious and ill-considered manner evident in the examples which

 A brand new telephone operator... that's me. Just started today.

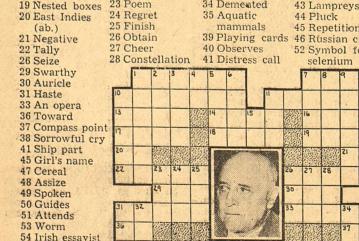

Like it? Yes, indeed...especially one thing...everybody is so friendly. I felt at home right away. It's a nice clean place to work, too; pleasant surroundings, and the switchboard is really fascinating. I'm going to enjoy working for the telephone

And here's a tip, if you're looking for a job. More operators are needed right now. Experience isn't necessary because you learn as you go along.

The chief operator at the telephone office will be glad to tell you all about it. Why not see her?

The eyes of Texas will be upon Midland when the Bulldogs trot onto Sweetwater's turf Friday night. This is the game-the payoff-the test-the game to win.

DALLAS-(P)-Atlanta's Crackers make their last stand Monday night in the battle for the baseball championship of Dixie with Earl Mc-Gowan, the Southern Association's leading pitcher, to take the mound against Dallas' Hank Oana in the Station 0

Expected stiff competition failed to mature as the Longhorns of Texas University galloped to a 54 to 6 victory over Oklahoma A&M in the game at Memorial Field, Austin, Texas. Here, Bobby Lane (41), Texas flash, drives through a huge hole in his right tackle to score Texas' touchdown in the second quarter. Oklahoma Aggie tacklers are noticeably absent on this play.
