The new prospector will be Sun No. 1 J. B. Walker, and is 660 feet from south and east lines of section 526, C. Broekhuysen survey, and a short distance south of the Colorado River. Drilling is to be started immediately.

Sun drilled one exploration in the Jameson area to the Ellenburger. It developed water and was plugged back and completed from the crinoidal. The No. 1 Walker will test through the Jameson field pay zone, but operator's present plans are to carry it on down to the deep formation-irregardless of what it may show in the upper beds.

It is understood that the flow was through a one and one half inch opening in a bit, which was the bottom of the tubing.

In the first hour the well made 45 barrels of fluid, with casing pressure of 550 pounds. Recovery in the second hour was 30 barrels of fluid, and casing pressure was 300 pounds. During the third 60-minute period of flowing a total of 11 barrels of fluid was produced. Casing pressure remained at 300 pounds—but the flow stopped at about the end of the

Operator has shut the project in again, to allow it to pressure up. Informed sources reported that the 86 barrels of fluid which was flowed out during the three hours of test was approximately 90 per cent oil and 10 per cent load water. There is no verification of reports, in some quarters, that the well developed some formation water dur-

Apparently the wildcat produced a net of 77.4 barrels of oil, of 41 degrees gravity, during the three hours. That was an average of 25.8 barrels per hour. Should the well produce at that rate for a full 24 hours, it would show for a daily production of 619.2 barrels. However, the three-hour test was taken after an 18-hour shutin. Full value of the apparent discovery cannot be determined until it is thoroughly cleaned out and an extended pro-

#### CROCKETT DISCOVERY IS COMPLETED BY HUMBLE

Humble Cil & Refining Company No 1 Mitcham East Crockett County wildcat discovery from the Ellenburger, 14 miles northeast of Ozona, and 810 feet from north and 660 feet from east lines of section 12. block AB, D&SE survey, has been officially completed for a calculated 24-hour flowing potential of 487.6 barrels of 41.6 gravity oil

The production is from perforated sections in the Ellenburger, at 8.092 - 8.105 feet and at 8,112-22 feet, in the 51/2-inch casing which had been cemented on bottom at 8,165 feet.

The completion test was taken through a one-quarter inch tubing choke, Gas-oil ratio was 1,105-1. The oil was cut with two per cent sediment and drilling water.

The potential was based on an actual flow of 121.9 barrels in six hours. Flowing tubing pressure was 255 pounds and flowing casing pressure was 660 pounds.

Operator is moving in spudder to start its No. 1 Ethel C. Smith, a direct northeast diagonal offset to the Mitcham discovery.

Magnolia Petroleum Company No. Wheeler, Central-East Winkler County wildcat, 660 feet from south and east lines of section 13, block 40, psl survey, and five miles west of the Wheeler field, was making the third attempt to run a drillstem test to total depth of 9,-386 feet in Devonian chert. Packer is at 9,332 feet.

On the two previous efforts mechanical failures had resulted in unsatisfactory tests. However, on both those investigations, some gas cut drilling mud was recovered. No water has been developed from the formation.

Tentative, unofficial top of the Devonian was picked at 9,340 feet. Illovation is 3,009 feet. ## Thanks To Our Commissioners

The Commissioners Court of Midland County is to be commended upon its recent decision to join with property owners in the paving of the road to Fairview Cemetery.

It indeed is a forward step and surely citizens of this progressive city look with favor upon the court's action. As pointed out previously, Midland has never been a community to quibble over the costs of necessary improvements and most citizens consider this a needed project.

Fairview is Midland's only cemetery and a paved road connecting it with the city long has been needed. Members of the Commissioners Court, by their action, have shown a progressive and a cooperative spirit. Citizens appreciate their interest in civic matters.

Thanks also should go to others interested in the project and to the property owners along the route who was remembered. We remembered are willing to pay their share of the paving expense. This is particularly noteworthy since none of the developed property fronts on the proposed route. The county will share 50-50 with the property owners, the county's part will always be. amounting to approximately \$6,400.

Thanks again to the commissioners and to all who have worked on the project.

The Golden Text is: "Lo, this is our God; we have waited for Him, Lord; we have waited for Him, we will be glad and rejoice in His

salvation" (Isaiah 25:9). Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Yea, in the way of Thy judgments, O Lord, have we waited for Thee; the de-sire of our soul is to Thy name, and to the remembrance of Thee"

(Isaiah 26:8). The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The Science of being reveals man as perfect, even as the Father is perfect, because the Soul, or Mind, of the spirtual man is God, the devine Principle of all being, and because this real man is governed by Soul, instead of sense, by the law of Spirit, not by the so-called laws of matter" (page 302).

It isn't that either Shreveport or Tulsa—the clubs hooked up in a struggle for fourth—can't finish higher, but at the moment the three top teams are fairly comfortable. Dallas, in third place, is a game and a half ahead of Shreveport, which is a half-game to the good over Tulsa.

Thursday night Shreveport and Tulsa used five hours and 25 minutes scrapping over the fourth place and when the smoke of a double-header had cleared they were status quo-they divided the twin bill. Shreveport winning the first 6-5 in 10 innings and the Oilers taking the nightcap 7-4.
Meanwhile Dallas licked Houston

8-5, cellar-dwelling San Antonio trimmed Fort Worth 3-2 and Beaumont beat Oklahoma City 2-1.

## McKenney on Bridge

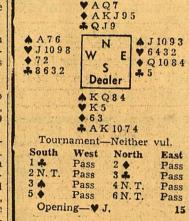

By WILLIAM E. McKENNEY

America's Card Authority All bridge writers probably reother type of hand, because players are quite proud, and justly so, whenever they successfully execute a squeeze.

Squeeze plays are not too difficult when you see them, but they are difficult to recognize an actual play. Many writers have attempted to establish a formula for the correct handling of a squeeze play. Sometimes the early development of the play will tip you off to the possible squeeze.

In today's hand, declarer won the opening heart lead with the king, and started to run the club On the second club trick suit. East showed out, discarding a heart. Now declarer knew that East was going to try to protect spades and diamonds.

South proceeded to cash the remaining clubs, discarding the nine and five of diamonds from dum-

my. East let go the eight of diamonds, showing his partner a high diamond—not necessarily a wise disclosure, as it told declarer not to take the diamond finesse.

South's next play was a small diamond to dummy's king. A spade was led from the board and East put on the nine-spot, from which declarer surmised that East held the jack and ten. The queen forced West's ace, and another heart came back. Declarer won awaiting the arrival of relatives. this with the queen and cashed the ace of hearts.

Dummy now was down to the five of spades and the king-jack of diamonds, while declarer had the king-eight of spades and three of diamonds.

Poor East! If he let go the ten of spades to protect the queen-ten of diamonds, South's king and eight of spades would be good. If he threw away the ten of diamonds to protect the spades, declarer could cash dummy's kingjack of diamonds.

One of the first rules to remember in connection with the squeeze play is to conserve a card of entry into either hand.

#### Africa Described To JayCees Friday

The health and wealth of Africa was decribed to Midland JayCees at a luncheon meeting Friday noon in the Scharbauer Hotel by Dr. H. G. Walker, former medical missionary to that country.

Walker was in Africa when war

came and he joined the Medical Corps of the U. S. Army. The speaker said Africa was as

rich potentially as any country the world. Resources are virtually undeveloped, he commented. Ernest Neill and Nub Jones, Jay Cees, were put in charge of selling Harold Webb Night tickets to other members.

THE KRAZY TRADER SAYS, ARE ALL USED

CAR DEALERS CROOKS?

Not by a long shot !!! We do have a hard time getting good used cars since most cars on the road are old enough to vote. But it can be done and May Motor Co. does it.

ANOTHER thing, when you look at a car here, youall get as complete a lineup on its condition as is possible. I'll see that you get Honest Top Value for every one of your automobile dollars. My alm is to buy and sell a lot of cars and make a little on each.

This is my lineup of "steamooat Buggys" for this week.

Heading my list is a 1947 Ford convertible, with every Extra that you can put on a car. Red. This will make somebody happy.

I just received the cutest green Studebaker Champion 4-door Sedan you ever seen. People say these cars can't be beat and I agree with them; the price is \$2575.00. This is too high ibut try and buy one from somebody that owns one.
