

Four Die In Kermit Collision Dewey Calls For Universal Training

Three Autos Crash

TEXACO TO DIG WILDCAT TO 'BURGER' IN SE CRANE

The Texas Company has filed an application with the Railroad Commission of Texas, requesting a permit to drill its No. 1 Richard King as a wildcat to 8,000 feet, in Southeast Crane County.

It will be 660 feet from north line and 660 feet from southwest line of section 83, block X, GC&SF survey, and approximately 10 miles south of the town of Crane.

The projected depth of 8,000 feet is expected to take the prospector into the Ellenburger. Drilling with rotary will start at once.

SUN SPOTS SOUTHWEST FLANKER TO JAMESON

Sun Oil Company has staked location for a 7,500-foot exploration on the southwest side of the Jameson field in Northwest Coke County. It will be Sun No. 3 Homer H. Jameson, and is 660 feet from north and 1,980 feet from east lines of section 316, block 1-A, H&TC survey.

That puts it 2,952 feet southwest of the farthest out west producer from the crinoidal line zone of the Pennsylvanian in the Jameson field.

That formation is generally drilled to about 6,450 feet, for completion. Should No. 3 Homer H. Jameson go to 7,500 feet it probably would test into the Ellenburger. Operations are to begin at once.

PERMITS FOR TWO PROJECTS IN REEVES REQUESTED

C. & B. Oil Company of Odessa, and M. G. Hansbro of Houston, have filed an application with the Railroad Commission of Texas, asking for a permit to start drilling at once on their No. 1 Monroe, as a 5,000-foot wildcat in North Pecos County. It will be 330 feet from south and west lines of section 13, block 2, H&GN survey.

The same operators have requested a permit to drill their No. 1 George C. Frazer, Jr., et al, as a 3,500-foot exploration, in the extreme north end of Reeves County. It will be an offset to the Texzona Producing Company No. 1 Tunstall, which is showing for some sort of a discovery from the Delaware above total depth of 3,308 feet in limestone.

The No. 1 Frazer will be 330 feet from south and 1,650 feet from east lines of section 3, block 53, TP survey, T-2. It will also start making hole immediately.

Both these projects have previously been reported from unofficial sources.

UPTON EXPLORATION DUE TO ENTER DEVONIAN SOON

Slick & Urschel and The Plymouth Oil Company No. 1 Alford, East Upton County exploration, 2-173 feet from north and 4,813 feet from west lines of section 50 1/2, block Y, Scott survey, was making hole below 9,970 feet in Foodford shale.

It is expected to enter the Devonian in a short time. The old hole drilled at this location some time ago, topped the Devonian at 10,031 feet. The present project is a side-track from that development.

Considerable free oil was developed in a Pennsylvanian section at 9,410-94 feet. The exploration is scheduled to go to about 12,000 feet to test into the Ellenburger.

MAGNOLIA IS CORING AT NE HOWARD WILDCAT

Magnolia Petroleum Company No. 1-A Guffee, Northeast Howard County wildcat to 5,750 feet, located 660 feet from north and 1,980 feet from west lines of section 58, block 20 Lavaca Navigation survey was coring from 5,474 feet in an unidentified formation.

HOAR STILL DRILLING SHALE IN NE MITCHELL

Humble Oil & Refining Company No. 1 Pratt, wildcat to 8,000 feet, in Northeast Mitchell County, about four miles northwest of Loraine, and 780 feet from north and 660 feet from west lines of section 28, block 25, TP survey, had reached 6,990 feet in black shale, and was making more hole.

This project has not reported having logged any signs of oil or gas, in any zone which has been penetrated.

Mysterious Contents Of Hooper Boy's Safe Unknown By Sister

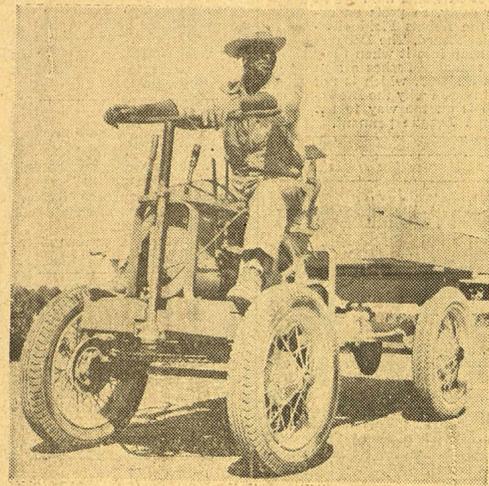

Mrs. J. Frank Clark, sister of the Hooper boy who buried a recently uncovered safe here, was a visitor this week in Midland for the first time in 19 years. She could give no additional enlightenment on the contents of the safe nor why her brothers buried it.

"It is as much a mystery to me as to anyone else," Mrs. Clark stated.

Dr. and Mrs. J. Frank Clark of Beaumont, Texas were married in Midland in 1913 and left in 1915, returning only once since then in 1928. They said they saw not a single familiar land mark. The Murray Young Motor Company is now on the lot where their home once stood.

Dr. and Mrs. Clark visited Mrs. Minnie H. Dozier, county treasurer, who was a childhood friend of Mrs. Clark of Midland.

Beat Automobile Prices

Unbothered by present inflationary prices on motor vehicles, Eddie Brown of Pine Bluff, Ark., proudly shows off his homemade truck which he built in his spare time. He paid \$15 for a 1917 model one-cylinder engine and \$185 for various pieces of steel, four Model A Ford wheels and new tires, and lumber from which the body is fashioned. The truck will make 35 miles an hour and go 45 miles on a gallon of gasoline. When Brown applied for a license for the vehicle, puzzled collectors finally issued him a three-quarter-ton truck license, recording the model as "1917" and the make as "homemade."

'Blue Skies' Texas Weatherman's Theme Song Following Big Storm

Texans can quit singing "Stormy Weather" and start humming "Blue Skies" now, the Weather Bureau said Thursday. The rains and floods are over, and temperatures will climb.

Truman And Pope In Peace Idea Exchange

ROME—(P)—In an exchange of letters made public Thursday President Truman said the world's moral forces must unite against those who seek to destroy them, and Pope Pius XII replied peace was jeopardized by nations which would reduce men to serfdom.

The exchange was made public by the Vatican and the office of Myron Taylor, presidential representative to the Pope. The Pontiff received the President's letter from Taylor in an audience Tuesday and replied the same day.

"I seek to encourage renewed faith in the dignity and worth of the human person in all lands," President Truman wrote. "The times demand faith that is strong enough to struggle, if need be, for the right."

The Pontiff's reply said: "Once the state, to the exclusion of God, makes itself the source of the rights of the human person, man is fourthly reduced to the condition of slave; of a mere civic commodity."

WEATHER
Clearing and warmer Thursday afternoon and into Friday, some scattered thundershowers in West Texas Thursday night. Maximum temperature Wednesday was 88 degrees, minimum 70 degrees. Minimum Thursday was 70 degrees.

LATE NEWS FLASHES

OSLO, NORWAY — (AP) — A Norwegian Airlines flying boat Thursday crashed in the Lofoten Mountains, killing all 35 persons aboard, the company announced.

LAKE SUCCESS — (AP) — The Security Council Thursday rejected a Brazilian proposal calling on Egypt and Britain to resume direct negotiations in their dispute over the presence of British troops in Egypt and the future of the Sudan. The motion fell one vote short of passage but was opposed only by Poland.

STOCKTON, CALIF. — (AP) — Four persons were killed and 25 injured Thursday when a Greyhound bus and a grape truck collided 10 miles south of here.

SHANGHAI — (AP) — The body of Cpl. Leonard D. Faktor of Plymouth, Iowa, last of the missing Doolittle Tokyo Raiders, has been found by a U. S. graves registration field team nearly 450 miles southeast of Shanghai, Col. Charles F. Kearney announced Thursday.

BUENOS AIRES — (AP) — The municipal administration closed the printing plant of the Socialist weekly La Vanguardia Thursday. It charged the newspaper with unloading newsprint on a heavily traveled street in violation of regulations and with lacking first aid facilities.

Republican Party Leader Tells American Legion 'Genuine Peace Far Away'

NEW YORK—(P)—American legionnaires filed by the thousands into flag-draped Madison Square Garden Thursday for the opening of their 29th convention as Gov. Thomas E. Dewey unequivocally endorsed universal military training.

Dewey, 1944 Republican presidential candidate and a possible candidate for the nomination again, came out for military training in a speech prepared for delivery before the convention.

Offices Close Monday, But No Rodeo Here

This year, for the first time in several years, there will not be a Labor Day calf roping or a rodeo in Midland.

Officials of Midland Fair, Inc., sponsor of the rodeo events, said Thursday every effort to match outstanding ropers for a Labor Day card here had failed and that a show will not be presented this year.

Toots Mansfield, who has been presenting in championship calf roping matches here the last several years, originally was scheduled to meet another outstanding roper in a holiday match, but in the meantime Mansfield accepted an invitation to rope in another Labor Day show. Midland Fair officials were not aware of his decision until a few weeks ago.

Most retail business establishments and city, county and government offices will be closed Monday in observance of Labor Day, officials of the Midland Chamber of Commerce announced. Practically all oil company offices also will be closed. The Labor Day holiday is one of five observed each year by business houses here.

Then special efforts were made to match other top-notch ropers in a championship contest, but plans failed to materialize. Rodeo officials expressed regret, but said they felt it would be better not to have a show than to present other than world championship contestants. The Labor Day date is not being given up permanently, they said, and a show is planned for next year.

Midland Rodeos formerly were staged on the Labor Day weekend, but were succeeded by the one-day championship calf roping events when the rodeo dates were changed a few years ago to the first week in June.

Leonard Proctor is president of Midland Fair, Inc., and John Dublin and Clarence Scharbauer, Jr., are the rodeo committeemen.

New Grade School At Midland Air Terminal

The establishing of an elementary school at Midland Air Terminal to take care of children of families residing there was announced Thursday by Frank Monroe, superintendent of Midland public schools.

A school census made this week revealed more than 75 children of elementary school age reside at the airport, and this figure is expected to increase as additional buildings at the former bombardier school are converted into dwelling units.

Monroe said the new elementary school will include the first five grades and that junior and senior high school students will be transported to schools in the city.

The plan is to house the classes in one of the former cadet school buildings on the field.

Presidential Advisor Wants Science Funds

WASHINGTON—(P)—Presidential Assistant John R. Steelman declared Thursday "national survival" demands the United States sharply increase its spending for scientific research.

In his first report as chairman of the President's scientific research board, Steelman said "no responsible person can fail to recognize the uneasy character of the present peace."

And a nation which falls behind in fundamental scientific knowledge, he advised Truman, "would be severely handicapped in any future war."

Union Files Affidavits

Paul R. Hutchings, left, president of the Office Employees International Union of AFL presents R. N. Denham, general counsel for the NLRB with affidavits sworn to by each of the union's officers stating individually that they are not members of the Communist Party. This union was the first to comply with provisions for non-Communist affidavits under the Taft-Hartley Labor Bill.

Black Markets Make It Impossible To Gauge Europe's Food Resources

WASHINGTON—(P)—Black market operations make it "difficult, if not impossible," for European nations to survey their food resources accurately, an Agriculture Department report contends.

The document, bearing a "confidential" label, was prepared for a congressional investigating committee which sailed for Europe Wednesday to make a first-hand study of foreign needs.

A copy of the 97-page report was made available to a reporter.

The foreword says the report has been classed as confidential because "the production figures x x x for some countries will not agree with the official estimates supplied by the minister of agriculture."

No countries in this category were listed by name. But the report itself says throughout Europe "government intervention is general, in the production collection and distribution of most agricultural products."

"This intervention has been linked with a system of compulsory farm collections and fixed prices to farmers x x x."

"Because of the shortages of food, this system of distribution has made it profitable for farmers in most countries to market its surplus products through black markets."

RANGERS IN ALICE

AUSTIN—(P)—Texas Ranger Capt. Alfred Allee and several other Texas Rangers have been in Alice several days "for the purpose of preventing any violence" between the CIO and oil field roughnecks, Department of Public Safety Director Homer Garrison said Thursday.

Cool, but Conspicuous

While women's skirts are headed downward, Stanley Pomal, Chicago tailor, favors bringing men's trousers above the knees—on hot days, at least. Here he saunters down a busy street in sport shirt, shorts and sandals while men behind perspire in normal attire. Says Pomal: "Women dress comfortably . . . why shouldn't men?"

Hagman Infant Dies In Dallas Hospital

Sandra Lee Hagman, six and one-half-months-old daughter of Mr. and Mrs. George F. Hagman of Midland, died Wednesday afternoon in a Dallas hospital of pneumonia. The baby was taken to Dallas Tuesday.

State Prison Board Called To Session

AUSTIN—(P)—The State Prison Board Thursday was scheduled to meet here Saturday with Gov. Beauford H. Jester after the seething Texas prison situation, reportedly "unparalleled in 20 years," erupted anew Wednesday.

Jester called the meeting upon receipt of a telegram from Austin H. McCormick, executive director of the Osborne Association, Inc., of New York, who in 1943 made a survey of the Texas prison system at the direction of the prison board.

WAR BRIDE CLEARED OF SHOOTING CHARGES

CRESTVIEW, FLA.—(P)—An Okaloosa county grand jury today freed Mrs. Margaret Irene Poland, British war bride, of charges in the fatal shooting of her American soldier husband at Fort Walton on July 24.

KERMIT—(P)—Four persons were killed about midnight Wednesday when an automobile and pickup truck collided head on and another car plowed into the wreckage a few seconds after the collision.

Two other persons were injured, one critically.

The accident occurred eight miles south of here on the Wink Highway.

The dead are Fern Ruth Smith, 17, daughter of Mr. and Mrs. John A. Smith, and Clara Faye Hendricks, 16, both of Kermit; C. W. Green, Jr., 24, Fort Worth, who had been employed by the Humble Oil Company for the past two months in Wink, and Nathan Homer Daniels, 24, an employee of Hoernbeck Construction Company, Lubbock, who also had been working in Wink.

Odin G. Turner, son of Mr. and Mrs. C. E. Turner, Wink, was driving the pickup en route to Wink. He suffered a broken leg and possible internal injuries.

A hitchhiker, Jacinto Villarreal, 16, was picked up by Turner shortly before the accident. Villarreal, a Latin-American, was given little chance to survive extensive injuries. He is being treated in the Kermit Hospital.

A few seconds following the collision between the car and the pickup, an automobile, being driven toward Wink by Mrs. R. D. Widner, smashed into the wreckage.

Daniels died on the way to the hospital. The others were dead when officers reached the scene.

E. M. Taylor, Winkler County deputy sheriff, said the body of the Smith girl was recovered from under Mrs. Widner's car. Mrs. Widner had no passengers in her car. Her injuries are not regarded as critical.

State Highway Patrolman J. D. White reported the first car involved belonged to Green, but officers have not been able to determine who was driving.

Funeral rites are pending and the bodies are being held in the Maples Funeral Home here.

Chinese Reds Advance Toward Strongholds

NANKING—(P)—Communist raiders under one-eyed Gen. Liu-Po-Cheng, driven from Southwestern Shantung Province, have cut a wide swath through the Honan-Anhui border country to reach areas within 150 miles of Hankow, field reports said Thursday.

The official Central News Agency said defending forces had inflicted severe casualties on Red forces in the mountains along the border, but admitted loss of several towns to the Communists.

Reports indicated the lightly burdened Red troops marched more than 200 miles in one week from Western Shantung into Southern Honan. Liu's forces apparently were bent on doing as much damage as possible before they are forced Northward into Red strongholds in Shansi Province.

Federal Grand Jury Indicts Realtors

WASHINGTON—(P)—A federal grand jury which already has indicted two real estate organizations on anti-trust charges was called back into session Thursday to dig deeper into the national housing price situation.

The National Association of Real Estate Boards and the Washington Real Estate Board were accused in indictments returned Wednesday of conspiring to fix commission rates on property deals in the district of Columbia.

SOME PEOPLE JUST DON'T RESPECT EARLS

LONDON—(P)—The 800-year-old skull of an Earl was the only loot taken by vandals who rifled the vaults in the 13th Century Church of the Knights Templars last week-end.

The librarian of the middle temple an ancient "inn of court" on whose property the blitzed church stands, said Thursday the skull was that of the first Earl of Essex, who was killed in 1144.

UN BUDGET CUT ASKED

LAKE SUCCESS—(P)—A United Nations budgetary committee has recommended \$1,108,098 be lopped off a suggested 1948 budget of \$39,403,792 for operation of the peace agency.

Shreveport Is Just About Out Of Fight

By The Associated Press
Shreveport's battle for a spot in the Texas league play-off faded to a dull whisper Thursday while Fort Worth's Cats closed in on Houston in the scrap for first place.

The Cats used Shreveport as a stepping stone, clipping the injury-ridden Spors in a doubleheader 4-3 and 2-5 while Houston was being tumbled by Oklahoma City 9-3. Fort Worth is only a game and a half back of the stumbling leaders.

Meanwhile, Shreveport fell three games away from fourth-place Tulsa which lost to cellarite San Antonio 11-1.

Dallas and Beaumont fought to a stand-off in a doubleheader, the Rebels taking the first game 6-0 and Beaumont capturing the nightcap 8-7.

Eleven days remain in the regular season drive.

MAJOR LEAGUE LEADERS
By The Associated Press

NATIONAL LEAGUE
Batting—Walker, Philadelphia, .347; Cavaretta, Chicago, and Reiser, Brooklyn, .316.
Home runs—Mize, New York, 33; Kiner, Pittsburgh, 38.
Pitching—Janzen, New York, 15-4, 7.89; Blackwell, Cincinnati, 20-5, 7.69.

AMERICAN LEAGUE
Batting—Williams, Boston, .339; Boudreau, Cleveland, .330.
Home runs—Williams, Boston, 25; Gordon, Cleveland, 24.
Pitching—Shea, New York, 11-3, 7.43; McCahan, Philadelphia, 8-3, 2.72.

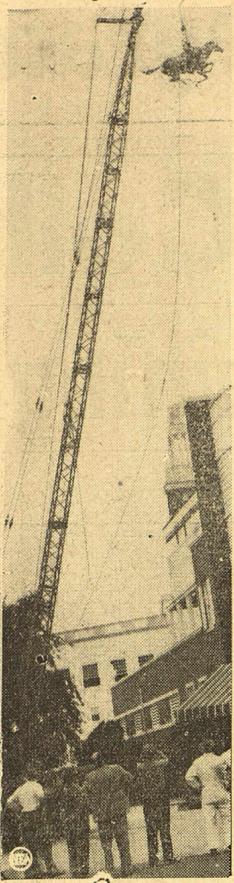

FROM FORT WORTH
Harry Ratliff of Fort Worth was a Midland business visitor Thursday.

Tired Kidneys Often Bring Sleepless Nights

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause racing headache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's gives happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Flyin' In

Sports

2—THE REPORTER-TELEGRAM, MIDLAND, TEXAS, AUG. 28, 1947

Play Two Thursday

The Midland Indians meet the Ballinger Cats in a doubleheader of Longhorn League baseball starting at 6 p. m. Thursday.

Wednesday night's scheduled twin-bill only went for six innings of the first game before being called because of rain.

In an abbreviated game, called at the end of the sixth because of rain, the Ballinger Cats beat the Midland Indians, 5 to 0, in Indian Park Wednesday night.

The short tilt was played in a drizzle and the Indians never fired up at all. Ballinger wasn't on eight cylinders either but managed to get:

five runs, with Midland errors helping them as much as anything.

Os Kolwe, leading Longhorn League pitcher, twirled for Midland but his support lagged. Sooter of Ballinger had the Indians hitting into the hands of mates.

The box score:

Softball Tournament Starts In 'Angelo

SAN ANGELO—(AP)—San Angelo's defending champions will meet Huron's All Stars in the opening round of the Texas Amateur Athletic Federation's state softball tournament here Thursday night.

Twenty Texas cities were entered in the meet, which ends Saturday.

Other first-round games include Magnolia of Temple vs Hub Motors of Lubbock; Southern Select of Fort Worth vs Abilene, and Ayers Feed Store of Slaton vs Taylor Furniture of Kilgore. Regal of Galveston has been advanced to the second round by default of Goose Creek.

Quarter-finals are slated Friday night and semi-finals and finals Saturday.

SOME GUYS CAN DO ANYTHING

LUBECK—(AP)—Bobby Lane, the University of Texas star gridiron passer and baseball hurler, sank a hole in one at the Lubbock Country Club. It was on the 125-yard No. 17 hole. Bobby used an eight iron.

land but his support lagged. Sooter of Ballinger had the Indians hitting into the hands of mates.

The box score:

Player	AB	R	H	O	A
Isbell, rf	3	0	0	3	0
Geiger, 2b	3	0	0	0	2
Williams, 1b	3	1	1	1	0

Ballinger 001 202-5

Midland 000 000-0

Errors—E. Mellilo 3 Ramsdell.

Runs batted in—McMillan 2, Smithhart, Hancken. Sacrifices—Harrison, Hixon. Left on bases—Ballinger 4, Midland 5. Strike outs—by Sooter 1; by Kolwe 3. Bases on balls—off Sooter 3. Umpires—Rissell and Dinneen. Time—1:05.

At Detroit, the Red Sox and Tigers were dividing their second straight twin bill and taking turns keeping the second place seat warm.

The Tigers ascended after beating Lefty Earl Johnson, 7-2, in the first game, after he'd held them to one hit for six innings.

The Red Sox came back in the after piece to win, 5-4 and resume second place, with ex-Tiger Birdie Tebbetts scoring once and batting in two more.

Mize Hits 43rd Homer

Home runs accounted for all the scoring at Cleveland as the Indians and Bob Feller triumphed over the Philadelphia Athletics, 2-1.

Milo Candini's relief pitching gave Washington a 6-5 victory over the Chicago White Sox in the remaining American League contest.

These developments highlighted National League play:

1. Brooklyn, St. Louis and Boston, the three top clubs, all were beaten.

2. Johnny Mize cracked his 43rd home run of the year as the Giants beat the Cards 6-4 to go five games and four days ahead of Babe Ruth's 1927 circuit smashing schedule.

3. Ewell "The Eel" Blackwell of Cincinnati became the first major leaguer this year to win 20 games as the Reds stopped the Braves, 4-2 in 10 innings.

The Chicago Cubs beat the Dodgers 6-3, running their string to four straight over the loop leaders.

In the remaining National League game, Dutch Leonard achieved his 10th victory for the tail-end Philadelphia Phillies by out-pitching Mel Queen of the Pittsburgh Pirates, 4-3.

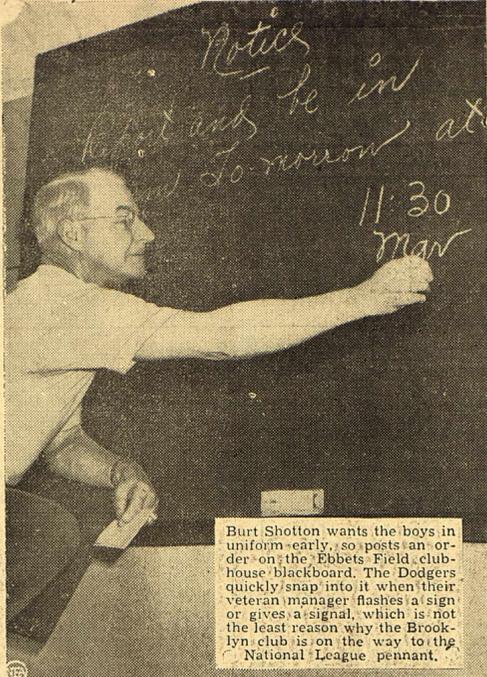

ROBERTS WILL ATTEND REUNION OF BUDDIES

C. W. Roberts, Jr., of Midland, a member of the Midland Police Department, will attend a reunion of his war buddies in San Antonio, Friday through Sunday.

Roberts was a member of Company B, 13th Armored Division, in World War II.

In 1939 Britain was importing between seven and eight million tons of livestock feed annually.

Orders From the Top

Burt Shotton wants the boys in uniform early, so posts an order on the Ebbets Field clubhouse blackboard. The Dodgers quickly snap into it when their veteran manager flashes a sign or gives a signal, which is not the least reason why the Brooklyn club is on the way to the National League pennant.

MAJOR LEAGUES Relief Pitcher Is Big Help To New York Yanks

By GAIL FOWLER
Associated Press Sports Writer
What with a healthy 12 1/2-game lead and an unhealthy pitching staff, Manager Stanley "Bucky" Harris of the New York Yankees would like to turn another page these days—if it's a page like Lenzy Joe Page.

The stellar stalwart of the Yankee bullpen wound up a busy road trip with the Yanks at St. Louis Wednesday working in his seventh game of the 11-game western swing.

He took over in the sixth inning with the score tied at 6-all and held the Browns to three singles and no runs the rest of the way as the Yanks salvaged their fifth win in 11 invasion tries, 7-6 in 10 innings.

At Detroit, the Red Sox and Tigers were dividing their second straight twin bill and taking turns keeping the second place seat warm.

The Tigers ascended after beating Lefty Earl Johnson, 7-2, in the first game, after he'd held them to one hit for six innings.

The Red Sox came back in the after piece to win, 5-4 and resume second place, with ex-Tiger Birdie Tebbetts scoring once and batting in two more.

Roberts was a member of Company B, 13th Armored Division, in World War II.

In 1939 Britain was importing between seven and eight million tons of livestock feed annually.

Dowell Preps For Tourney

Dowell, Inc., Midland softball team and one of the best in West Texas, will play Joe Roberson's Sinclair team at 8 p. m. Thursday at the Midland Softball Park.

Dowell is preparing for the state TAAF tourney in San Angelo this week. Dowell drew a bye in the first round of the state joust and will play the winner of the Temple-Lubbock game at 3:30 p. m. Friday in San Angelo in the second round.

The stellar stalwart of the Yankee bullpen wound up a busy road trip with the Yanks at St. Louis Wednesday working in his seventh game of the 11-game western swing.

He took over in the sixth inning with the score tied at 6-all and held the Browns to three singles and no runs the rest of the way as the Yanks salvaged their fifth win in 11 invasion tries, 7-6 in 10 innings.

Grid Tickets Put On Sale

Season football tickets went on sale Thursday and business was good. A line quickly formed at 8 a. m. when the doors opened. The 1947 home game tickets are being sold at the Midland Chamber of Commerce office in the Scharbauer Hotel.

Longhorn League—Broncs, Cats, Oilers Take League Wins

By The Associated Press
Big Spring boasted a comfortable lead in the Longhorn League Thursday. Ballinger helped the Broncs do it by licking second-place Midland 5-0 while Big Spring was meeting out Sweetwater 3-2 Wednesday night.

Big Spring's margin now is four and one-half games. Odessa beat Vernon 10-3 to keep its hopes barely alive of getting into the play-offs. Odessa is four games behind fourth-place Sweetwater with six games to do.

Joe Cindan of Big Spring won his twenty-third game of the season as he took the decision over Sweetwater.

Firemen Hold Annual Event

Rain did not dampen the spirit of Midland firemen, their families and friends at an annual chicken barbecue held Wednesday evening at Cloverdale Park.

Approximately 60 persons attended the event.

It is now possible to photograph human vocal cords in action.

Buents are good for five home games of the MHS Bulldogs. The Bulldog Booster Club is sponsoring the sale of tickets. A special desk is set up in the Chamber of Commerce office.

It is first-come, first-served, with no reservations. And the Booster Club says "please, no telephone orders."

The ticket campaign will continue several days.

KERRS RETURN
Mr. and Mrs. William L. Kerr and children have returned from a vacation trip to the West Coast.

From 1867 to 1913 the arable acreage of Britain fell from 17,700,000 to 14,500,000.

THIS SUMMER SURE HAS BEEN TOUGH ON ME, TOO!

"These are the days when I put in many hours of extra work for you every day.

"In a great many homes, fans, room coolers and attic ventilating systems have been going full blast around the clock—twenty-four hours a day for days at a time. Electric refrigerators have been calling on their reserve power to keep food fresh and wholesome at constant temperatures under 40 degrees and to maintain ready supplies of ice cubes and cooling beverages.

"Some electric service bills may be a little higher during the extreme hot weather because of my extra work, but now is when your electric service really proves to be the biggest bargain in your home."

Open House Fetes Crane Couple On Golden Wedding Anniversary

CRANE—An open house Sunday at their Crane home honored Mr. and Mrs. J. V. Neely on their golden wedding anniversary. They were married Sunday, August 24, 1897, at the parsonage of the First Baptist Church in Fate, Texas.

Mrs. Neely is the former Miss Ethel McCord. They have three children, Mrs. Clyde Callaway of Midland, Mrs. Eddie Hawkins of Crosbyton, and Leon Neely of Crane. Four generations were present at the open house, including Mrs. Clyde Callaway and daughter, Mrs. Tommy McMullin, and her daughter, Lynn, of Midland.

The reception rooms were decorated with bouquets of gold flowers in crystal vases. Serving in the house party were the hostess, her two sisters, Mrs. Jessie Wesberry of Crane and Mrs. Joe Cross of Royce City, assisted by Mrs. R. V. Wilson, Sr., and Mrs. John E. Clark. At the guest register was Willie Callaway, Mrs. Neely's niece. The register was of white leather embossed in gold and inscribed with gold ink.

Carrying out the gold color scheme was the lace table cloth over a gold mat. Mrs. George Clark poured gold punch from a crystal service.

More than 59 guests registered during the evening.

RETURN FROM VACATION

Ronald Jarrett and Gerald Self have returned from a vacation trip to various points in Colorado.

James C. Jones Named Head Of Vet Offices

AUSTIN—(AP)—James C. Jones of Austin Thursday was permanent executive director of the State Veterinarians Affairs Commission's headquarters office, a position he has held on a temporary basis by appointment of Gov. Beauford Jester since shortly after creation of the new commission by the 50th Legislature.

Jones' position was made permanent Wednesday by the State Affairs Commission.

Commission Chairman Joe M. Daniel of Corsicana said the commission will hold its next meeting here October 6, when representatives of all veterans organizations and other interested parties will be asked to advise with the commission. He said representatives will also be present from the commission's five sub-regional offices in Lubbock, Fort Worth, Waco, Houston and San Antonio.

VISITORS

Mr. and Mrs. Horace Wood and daughters, Beverly and Margaret, of Spur, visited in Midland Wednesday with Mr. and Mrs. Bill Laine and Tanner Laine. Mrs. Wood is their sister.

FORT WORTH VISITOR

Wyatt C. Hedrick of Fort Worth was a visitor here Thursday.

The first Red Cross field hospital was set up at the battle of Shiloh during the Civil War April 7, 1862.

Five Hostesses Fete Mrs. O. W. Orson With Pink, Blue And White Shower

Mrs. O. Wilton Orson was feted with a pink and blue shower Wednesday morning at the home of Mrs. John C. Luccous, 1019 North Main Street. Mrs. Luccous was assisted by four other hostesses, Mrs. E. W. Caudee, Mrs. Willene Smyers, Mrs. Tom Yates, and Mrs. J. W. Campbell, all former classmates of the honoree at Hardin-Simmons University.

Carrying out the color scheme, members of the house party wore white, pink and blue corsages of baby asters, while the honoree's corsage was of tiny pink rosebuds. The period antique secretary, where Mrs. Thomas Yates registered guests in a blue "Log of Life" baby book, held a floral arrangement of pink rosebuds in crystal vases. Other rosebud decorations were distributed on the grand piano and on the lace-laid table set in appointment crystal. The "baby" theme was carried out with bassinet pictures on invitations, napkins, and mint cups.

For Afternoons

By Sue Burnett

What could be more appropriate for afternoon wear than this smart frock? The off-center closing is so popular—the brief half peplum drapes prettily over one hip. Circle your waist with a wide purchased belt.

Pattern No. 8197 is for sizes 12, 14, 16, 18 and 20. Size 14, 35/8 yards of 35 or 39-inch.

For this pattern, send 25 cents in COINS, your name, address, size desired, and the PATTERN NUMBER to Sue Burnett, Midland Reporter-Telegram, 530 South Wells Street, Chicago 7, Ill.

Ready now—the new Summer FASHION, 52 pages of style, color, fashion news for every woman who sews. Send twenty-five cents for your copy today.

Cash, Courage And Good Tools Are Needed For Long Drive Over Famous Warbuilt Alaska Highway Lanes

This is the reason the Canadian Government insists every traveler along it's stretch of the Alcan Highway carry two spare tires and a good set of tools. Few complete the trip without one blowout.

FAIRBANKS, ALASKA (NEA)—It takes cash, courage and a good set of tools to travel the Alcan Highway. The Canadian government sees that you have all three, plus legitimate business on the war-built road, from Dawson Creek 1,221 miles north to the Alaska-Canada border, before they will even let you try it. An inspector at Edmonton examines every car for road fitness, sees that it has two spare tires, a first aid kit, spare parts and repair

channel of tourist traffic will not be achieved.

A traveler trying to repair a shock absorber smashed in one of the many holes along this road described it better.

"My cow would break her leg crossing the ruts in the road. And in wet weather she'd sink out of sight before I could drag her out." A trip up the highway has its advantages. There's lots of wild game (but you can't shoot it; firearms are sealed by Canadian Mounties). In Canada's Yukon territory you can fish without a license; you need one in British Columbia or Alaska.

Gasoline, which costs 36 cents an imperial gallon in Edmonton, increases in price as you move north to Coal River, 553 miles up the highway, where it costs 65 cents. Then the price drops gradually as you move into Alaskan territory.

Prices generally are cheaper on the Canadian side of the border, however. A ham sandwich costs 20 cents in Edmonton, 25 in Dawson Creek, 50 at Coal River. Along the Canadian section of the highway, a meal costs \$1, steak \$1.25. But at Tok Junction, Alaska, a cheese sandwich is 75 cents, ham 90 cents, and if you want jelly on hot cakes, it costs 25 cents extra.

There are a number of shelters available to travelers along the highway that cost nothing to use. Originally these shelters were seven miles apart, north of Whitehorse, says Nash. "Travelers are free to use them if they replenish the firewood they burn and leave the places clean."

Some contain a wooden bunk, an axe and a lamp. These are the luxurious ones. In others the only furniture is a stove made of a 50-gallon oil drum.

Some day the Alcan Highway may become a tourist mecca. The Canadian government already is considering making a national park three times the size of Yellowstone at Klunane Lake.

This Summer, however, it is just a rough road through a wilderness.

tools. Travelers must carry \$200 cash for emergency purposes. In each car must be a shovel and an axe or a pick for fighting fires. And each passenger must carry enough emergency food for two days.

If a traveler is foolhardy and desperate enough to try the trip in winter, he can skip the fire-fighting equipment, but the inspector sees that he has sufficient winter clothing and that his car is winterized.

The Canadian government is just trying to make sure travelers get through their section of the highway. Last winter, an Anchorage businessman broke a piston in his truck 300 miles south of Whitehorse. The temperature was 70 below. It was 11 hours before another car showed up and a week before he could get the truck repaired in Whitehorse.

The Alcan Highway was an emergency war measure and even at its best it never resembled the average highway in the States.

Today the Alaskan end of the 1,568-mile road is about like it was when the Army engineers were maintaining it. But Canadian officials admit that the 200 or so men they are using to maintain their 1,221-mile section can't keep the road in repair.

When it rains, the road is a sea of mud. When it's dry, the swirling dust sometimes reduces visibility to zero.

A Canadian Mounted Police truck broke down 20 miles from its base and waited over seven hours for aid. Few cars survive the trip without at least one blowout from the rough gravel.

"It's a long trip and travelers are likely to be disappointed unless they know what to expect," says Frank Nash, commissioner of the Alaskan portion of the road.

"Patrols cut down speeding and help those in serious trouble but there just aren't enough facilities of any type for the great distances involved."

And a Canadian government official adds: "A further consideration is that access to the south end of the highway at Dawson Creek is made over a dirt road from Edmonton which is only passable in dry seasons. Until this connecting road is improved, the full value of the highway as a through route to Alaska or as a

Senator Says He Believes U. S. Faces 'Suicide'

WASHINGTON—(AP)—Senator Downey (D-Calif.) said recently the United States faced a "serious menace of race suicide."

Hence, the California lawmaker told a reporter, he is "very sympathetic" to President Truman's proposal to admit some 400,000 of Europe's displaced persons.

Senator Revercomb (R-WVA) declared in a separate interview, however, efforts are underway to "break down" this country's immigration barriers and "this must not happen."

Revercomb is chairman of a special senate committee which plans to investigate Truman's proposal and other immigration problems. He said his group will have specific recommendations ready for Congress after "we get all the facts" by means of public hearings to the occupied countries of Europe.

The Senate authorized the committee inquiry in lieu of acting immediately on a bill to authorize the admission of 100,000 European refugees a year over a four-year period. A \$50,000 fund was made available for the study.

In advance of his committee's report, Revercomb said he believes at least three safeguards should be written into any plan to admit additional immigrants:

1. They must not displace United States citizens in either jobs or housing.
2. They must go to locations where they are needed and "not just be dumped into our large cities."
3. All must be carefully screened "to see that they can fit into our scheme of government."

admission of 100,000 European refugees a year over a four-year period. A \$50,000 fund was made available for the study.

In advance of his committee's report, Revercomb said he believes at least three safeguards should be written into any plan to admit additional immigrants:

1. They must not displace United States citizens in either jobs or housing.
2. They must go to locations where they are needed and "not just be dumped into our large cities."
3. All must be carefully screened "to see that they can fit into our scheme of government."

LEGION TO FIGHT RED PROPAGANDA

WASHINGTON—(AP)—The American Legion announced recently a "multimillion-dollar" campaign for 1948 to fight Communist propaganda in the United States.

Paul H. Griffith, national commander, said at least 10,000,000 American homes will receive a booklet each month telling the facts about some fundamental advantages of American life.

Plans call for the distribution of more than 120,000,000 pieces of literature.

Oil & Gas Log-

(Continued from page 1)
ACID WASH WAS USED ON STERLING DISCOVERY

The Plymouth Oil Company No. 1 Frost, Ellenburger discovery in North-Central Sterling County, about 12 miles north and slightly west of Sterling City, and 1,980 feet from south and west lines of section 30, block 2, H&TC survey, was due to be swabbing through tubing, after washing perforated section at 8,356-76 feet, with 500 gallons of mud acid.

The acid was used in an effort to unclog the perforations. This well flowed at the rate of seven and one-half barrels of oil per hour, through a McCullough test tool early in the week.

Operator has not released any report on the fluid being recovered since the acid wash.

At noon Thursday there was no confirmation of unofficial rumors that the project had kicked off, after the acid, and was flowing considerable amounts of oil.

The acid was used to unclog the perforations.

It is understood that after the acid load was lifted the well kicked off and flowed 34 barrels of fluid the first hour; six barrels the second hour and approximately three barrels the third hour, and then died.

Shakedown of mud and drilling water in that fluid was not reported.

After the flow died, when the operator undertook to change the size of the choke through which the fluid was coming, swabbing was resumed.

American Legionnaires are sure of a warm reception when they arrive in New York for their convention. Twenty-five girls are stationed in metropolitan hotels to greet the visitors. Here, Gladys Joseph, center, and Penny Bellingham try out their technique, pinning badge on Legionnaire Berthold Lowy of New York.

Tropical Storm Helps Pastures But Damages Several Other Crops

AUSTIN—(AP)—The tropical storm which recently swept inland through Galveston hurt crops but helped pastures, the U. S. Department of Agriculture indicated in a weekly crop report.

Heavy rains accompanying the storm damaged rice, cotton and other field crops but supplied much-needed moisture for pasture grasses in the path of the rains.

USDA said it was too early to appraise the extent of damage or benefits created by the tropical disturbance.

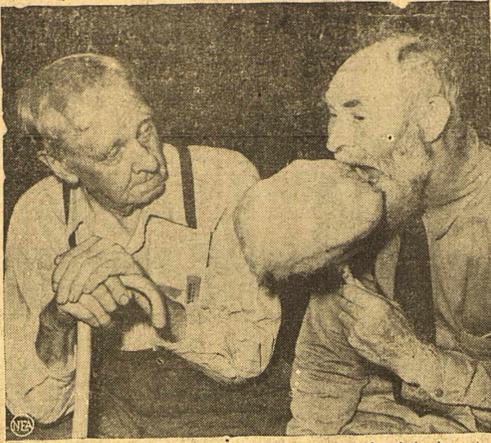

Crops and pastures continued to deteriorate over much of the Northern half of the state during the week ending August 25.

Rains interfered with cotton harvest in upper coastal counties and parts of South Texas. However, cotton in most of the state was in urgent need of good general rains. Continued excess shedding and premature opening of bolls was reported.

Some harvest started in extreme North Central counties, and Wichita County reported its first bale. Harvesting of sorghums made good progress, and corn harvest was under way in all areas except Northwest Texas.

Cattle were gaining flesh on the new green feed in the South but showed considerable shrinkage where the drought continued. Marketing of cattle and calves was about normal, but sheep and lamb marketing remained on a limited scale.

Kids for a Day

State Fair time in Sedalia, Mo., brings out a couple of the boys to enjoy the sights, sounds and sweets on the midway. A. W. Way, 78, left, looks as if he would like to help his young friend Albert Trautwein, 62, wade-through that ball of cotton candy.

Hint Johnson To Run Against Lee O'Daniel

MALLEN—(AP)—The visit here of congressman Lyndon B. Johnson of Austin Thursday led to speculation as to whether he would run for W. Lee O'Daniel's position as U. S. Senator.

He said in reply to a question if he did intend to run, "I won't keep it a secret."

Johnson spent two days in the valley. While here he said he considered his appointment to the joint Senate-House atomic energy committee as "most challenging and the most important thing that has ever happened to me."

Texan Climbs To Top Of Mexican Volcano

MEXICO CITY—(AP)—The name of Donald Skaggs, San Antonio, Texas, hotel owner, was on the list Thursday of persons who have scaled the Popocatepetl volcano, 40 miles from here.

The peak is 10,300 feet above the level of Mexico City. Skaggs, an amateur photographer, said the climb was "one of the most interesting adventures of my life."

Hartley Wants More Teeth In His Law

WASHINGTON—(AP)—Chairman Hartley (R-NJ) of the House labor committee said recently the Taft-Hartley act "does not have enough teeth in it to give the public real protection against nationwide strikes."

The co-author of the new labor measure said he will try to have Congress remedy the situation next year.

Hartley told reporters the measure of necessity was a compromise document, adding that its machinery to stop strikes "does not go far enough."

Under the act the government is authorized to obtain court injunctions against nationwide strikes endangering health and safety.

"At the very best," Hartley said, "this only stalls a strike off for 85 days. There may be some means of extending the injunctions for additional 85-day periods but even this is doubtful."

The Labor Committee head said he plans to press for enactment of the monopolistic strike section of the original Hartley bill.

CONTINENTAL
Air Mail - Air Express - Air Freight

Continental Sets Air Cargo Record

DENVER—A new record for the amount of air cargo flown by Continental Air Lines in a six month period was reported by John A. Smith, cargo sales manager, with an announcement that up to June 30 the airline had carried 49,855 ton miles of freight.

This figure represents a 359 per cent increase over the total of 10,752 ton miles carried during the first six months of 1946.

Revenue derived from freight and cargo traffic during the first six months of 1947 totaled \$14,449.73 and represented an increase of 308 per cent over the figure of \$3,543.72 for the same period of last year.

U. S. mail transportation varies from great ocean liners and helicopters through dog teams and men on skis.

IS IT GENUINE? From Bavaria Comes A Plaintive Plea For Food Addressed To Postmaster

Midland Postmaster N. G. Oates this week received an unexpected—and thus far unanswered—letter of distress from Coburg, Bavaria.

Signed "Francis Mourek," and addressed simply to "the postmaster of Midland, Texas," the letter described the writer's poignant need of food for himself and his wife. Oates read the letter, then took it to the Rev. Howard Hollowell, who wrote a letter of inquiry to the Methodist Overseas Relief, New York City. This organization presumably will check on the writer to see if his need is genuine, and if it is, shipments of food probably will go from Midland to Coburg.

There have been several instances in which unscrupulous persons have used American generosity to further blackmarket operations in hunger-ridden Europe, Oates said. Therefore, even though he and many other Midlanders would be glad to send food to starving persons abroad, it has become necessary to make sure such shipments reach proper hands, he said.

Following is the letter:
"Sir:
"You will be very surprised to receive a letter from someone whom you are unacquainted with. I am an Austrian citizen and

postmaster clerk and moved in 1942 from Vienna to Coburg, the residence of my parents-in-law. As Austria has got her independence again, I intended to return to my homeland in order to maintain my rights resulting from my 35-year service there as well as I should get any pension only in case of my going back there. However, I soon had to renounce all hope of a sheltering roof in Vienna due to the disastrous need of housing in the Austrian capital and my former apartment having been bombed there during this horrible war. Besides, things are going from bad to worse in Vienna and if the Russians keep on exploiting the most productive districts of Austria occupied by them. I suppose the ruin of my country can be stopped by no means.

"So, I still have to stay here and resign myself to the will of Providence. Having not got any salary here, I support myself and my wife by giving lessons in foreign languages, however, this is pretty enough to buy what we are entitled to on the food ration card basis, and to pay the rent to my landlord. That's why I have already lost my energy. I have need of now more than ever. Moreover, I am suffering from a pleurisy and my wife from a splitting neuralgia partly due to her 20-year service as operator at the telephone and telegraph office of this town, so I think this must be anyhow due to the disastrous undernourishment. Especially the need of fat is most alarming and there is no prospect of increasing the fat ration at present and it cannot be said definitely that it would even be possible to meet the present fat ration.

"I therefore cannot help applying to you, Sir, in my distress by asking you whether you would be so kind to help me by sending me some food you can do without if possible some shortening and a little coffee as it is the only palliative which brings soothing comfort and relief for the aching nerves of my wife.

"I am afraid I have inconvenienced you by my distressed situation and am sorry I can do nothing but pray to God He may bless you for what you would do for me and my wife.

"With my heartiest thanks in advance I am, Sir, with the kindest regards, yours very respectfully, Francis Mourek, Postinspector, Coburg, Bavaria."

QUITE A HAUL
On being searched after being arrested for shoplifting, a Tokyo thief was found to be carrying a bottle of whiskey, purse, tin of butter, two forks, cuff-links, tin of beef, dictionary, powder compacts, four pencils and pocket-knives, in a stolen suitcase.

Refugees Pour Into Turkey From All Countries Nearby; Some Can Stay

ISTANBUL, TURKEY (AP)—A swelling stream of political refugees, pouring into Turkey by land, sea, and air, are receiving increasing attention.

Both Moslems and Christians have been arriving for months. Late last week Foreign Minister Hassan Saka told newsmen that refugees from Bulgaria and Rumania could stay if they wished and that Turkey would protect "racial brothers."

His statement followed by one day an assertion by a Yugoslav

Foreign Office spokesman in Belgrade that Yugoslavia had protested to Turkey and Syria against their reception of emigrant Yugoslav Moslems from camps in Italy, Austria, and Germany.

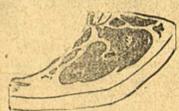

The influx of refugees reached a spectacular stage with the arrival in the highly militarized Dardanelles fort-city of Chankale, of a Romanian civilian plane commandeered in the air by three army officers who killed the pilot after the takeoff. Seven civilian passengers aboard the plane were released, reportedly with permission either to remain or return. The three officers are being held in the Istanbul central prison pending what Hassan Saka said was a careful inquiry into "this question of crime."

Police said the young officers frankly admitted shooting the pilot when he refused their demand to leave the scheduled course and fly to Turkey. One of the officers then took control of the plane and fled Rumania.

Small boats are landing frequently along the Black Sea coast, while other refugees have crossed the frontier from both Bulgaria and Greece. Those fleeing the latter country are of Turkish origin and told stories of leaving their farm homes and all their possessions to escape the guerrillas.

Imperialists Are Putting Up Stiff Fight For Lands

By MAX HARRELSON
Associated Press Analyst

One of the most spectacular political trends since the end of the war has been the growing rebellion of dependent peoples against the great imperial powers that have ruled them.

The old fashioned brand of imperialism has been taking a terrific beating. But the colonial powers are still in there swinging. The Dutch struggle to hold Indonesia is a case in point. And it is noteworthy that other nations which own colonies, such as Belgium and France, are more than a little inclined to back up the Hollanders in United Nations debates.

It is not without justification Winston Churchill and other leaders of the nations that won the last war have shown concern over the liquidation of empires. Among the victors no whole empires have been liquidated yet, but some big chunks of territory have been whittled away. Among the losers the Japanese Empire is gone, of course, and Italy's chances of retaining much of her overseas possessions are not bright.

British India has just won independence and has been reorganized as two new dominions.

Indonesian Promises
The Philippine Islands previously had been cut loose from the United States and became an independent republic on July 4, 1946.

Indonesia has been promised freedom by the Dutch and the Republic's President Soekarno now is demanding the United Nations force the Dutch to go through with the plan.

Egypt has appealed to the Security Council to get British troops out of the Nile Valley and to give her a free hand to take over the British-dominated Sudan.

Burma, Ceylon and the Malay States are struggling for freedom and it seems likely they will at least be given a greater degree of autonomy.

France has agreed to the incorporation of the two Indochinese states of Tonkin and Annam into the Republic of Viet-Nam within the framework of the French union.

Important groups in French North Africa and Madagascar are demanding independence.

Changes Important
These changes obviously are important. It may be premature to say that imperialism is dead or even on its way out but certainly it has changed its forms. The imperial powers are revising their tactics in various ways and they are not surrendering without a struggle. It is noted in almost every instance, the ruling power has succeeded in keeping in the pie.

The two new Indian states, for instance, are dominions of British and are being wooed with intentions to keep them in the British Commonwealth. Indonesia would remain under the Dutch crown. Viet-Nam will continue as a free part of the French Empire—called a union.

Then also there are millions in Africa who will continue as British, French and Belgian dependents with little or no voice in their own governments. It is to these territories, rich in natural resources, the colonial powers are expected to turn in the future for major exploitation.

The main hope for the subject African peoples seems to lie in the United Nations trusteeship system. Under the UN Charter, they are assured their freedom and self-government are the eventual goal.

It is significant, however, in the nine trust agreements so far submitted to the UN for old League of Nations mandates, not one mentions a specific date for the attainment of self-government.

BET HE FIGURES HE GOT HIS MONEY'S WORTH

CLINTON, IOWA (AP)—Annoyance at a soap opera program was the reason given in municipal court by Esra E. Adams for his behavior which police chief Herman Thomsen says included:

1. Ramming his fist completely through the family radio.
 2. Taking a hammer to really finish the job.
 3. Throwing eggs at random around the one-room trailer in which the Adams family resides.
- His antics cost him a \$10 fine when he was arraigned in court on a charge of disturbing the peace. In judging guilty Adams explained to Judge W. A. McCullough he works nights, sleeps during the day and the offending radio is located only five feet from his bed.

In 1975 the U. S. post office had 75 postmasters and a yearly gross business of \$38,000 compared with 450,000 employees and a gross income of \$1,314,159,000 in 1945.

High Prices And Hot Weather Take Hughes' Place In Headlines

By MAX HALL
WASHINGTON—(P)—Once again, high prices are big news in Washington and the nation.

Howard Hughes and Senator Brewster have gone home, but the cost of living and the hot weather remain in everybody's home. The weather may improve, but price forecasts are gloomy.

The Bureau of Labor Statistics recently announced its "consumers' price index" reached a new record high of 157.1 on June 15 after leveling off in April and May.

In the year since June 15, 1946, when a roaring fight was going on over the OPA, retail prices of living essentials in large cities had risen 17.9 per cent. Foods had risen 20.8 per cent, apparel 18.1 per cent, house furnishings 17 per cent, rents less than one per cent, and gas and electricity actually dropped.

Not Easy To Understand
It's not easy for the average American to understand or accurately judge the various causes of the continued rises.

Labor unions blame the killing of the OPA and price controls, and they also say business is taking too much profit.

Many people blame labor unions and their wage increases.
A congressman says: "We're sending too much of our production to Europe."

The National Federation of Small Business blames big business monopolies.

One man says it's the government's financial policies. Another says it's our horse-and-buggy system of distribution.

Even more important than assigning blame is the question of what to do.

It isn't only that all of us suffer the discomfort of paying high prices. There is also the peril that if prices keep rising and rising—blam!—one of these months they may fall suddenly and factories may be shut down and people may be out of work.

Here again, the average American finds it hard to decide what ought to be done.

Congress' approach is to send out committees this Fall and try to discover why prices are high.

The Truman administration's approach is to turn loose the Justice Department bloodhounds to smell out any illegal conspiracies to raise prices—and drag the guilty parties to jail.

Both of those approaches are admittedly not likely to bring about much price reduction—at least not soon.

Among some New Guinea tribes, no self-respecting girl would marry a man who has not proved his courage as a head hunter and taken a head.

NEW ALASKA LAND SETTLEMENT TALKED
 WASHINGTON—(AP)—Settlement on newly opened land along the Alaska highway in Alaska might begin Oct. 31, the bureau of land management said.
 Secretary of the Interior Krug last week approved an order removing military restrictions from 2,750,000 acres along the route withdrawn from the public domain early during the war for construction of the highway.

However, the bureau explained a public land order does not become effective until nine weeks after its approval, in order to provide sufficient public notice.
 The land lies along 338 miles of the highway within Alaska. It includes large tracts of unsurveyed areas, and about 12,000 acres in 12 localities set aside for surveys, as small tracts for veterans of World War II.

UN Will Bar Two Egyptian Rioters

LAKE SUCCESS—(AP)—Secretary-General Trygve Lie said Wednesday two Egyptian demonstrators, who have been ejected twice from the security council chamber, were barred henceforth from entering the United Nations headquarters area and would be handed over to Nassau County police if they should slip in.
 "If it happens again we will have to give them over to the police," Lie told a news conference.
 Lie said the UN still was without definite procedure, pending the conclusion of pacts with the United States government, but the security guards here would in effect invoke the right of "citizens arrest" to hold and hand over any disturbers to local authorities.

POCKETS OF HOST PICKED BY GUEST

TOKYO—(AP)—Japanese police said recently Tomonaka Namba, newly elected member of Numata town assembly, picked 9,500 yen (\$193) from the pockets of three Japanese attending a banquet.
 Among the victims was the host of the banquet, held to celebrate Namba's election.

This Is On the Record, Baby

Robin Morgan, 5, country's youngest disc jockey, discusses a solid platter with baby Mary Bonde at record players' national convention in Chicago. Robin has a 15-minute Saturday program on a New York station.

Senator Taylor Case Brings Up Talk Of Just Where Texas' Legislators Should Draw Line In Private Life

AUSTIN—(AP)—Just where should members of the legislature draw the line in accepting jobs which might have bearing on their functions as public servants?
 Should any lines be drawn at all? These are delicate but pertinent questions recently brought into focus by the future that followed appointment of Senator James E. Taylor of Kerens as public relations director for the Texas Manufacturers' Association.
 Several House members joined in demanding that Taylor resign, Taylor, without referring directly to the demand, replied that his own private views coincided with the objectives of the association, that he saw no inconsistency in his position, and that he would not quit his senatorial post.
Constitution Is Firm
 The Constitution draws one firm line. In Article 3, Section 22, it says:
 "A member who has a personal or private interest in any measure or bill, proposed or pending before the legislature, shall disclose the fact to the House of which he is a member, and shall not vote thereon."
 The Constitution also forbids a member of the legislature to hold any other public office. Members are forbidden to be interested directly or indirectly in any contract with the state or any county authorized by law passed during the term for which he shall have been elected.
 In the case of the governor, the

HARRIMAN SAYS FOOD WORLD'S GREATEST NEED

SPCKANE—(AP)—W. Averell Harriman, Secretary of Commerce, recently told the Spokane Chamber of Commerce "food is the greatest problem in the world today."
 Addressing the group after flying here from Portland, Ore., Harriman said that Communism "thrives on chaos, hunger, cold and disease."
 He said also that German coal production can not be increased unless more food is sent to the miners.

SABLEFISH HAULED IN BY WASHINGTON

MONTEREY, CALIF.—(AP)—The first run of sablefish that ever hauled here, has been going on since July 11.
 Men, women and children stand shoulder to shoulder on Fisherman's Wharf, hauling in sablefish as fast as they can handle their lines.
 Boxes, sacks, 5-gallon cans and washbasins fill up with fish 12 to 20 inches long.
 More than 100 tons have been taken, estimates the state patrol. Although slack periods occur, the fish come back, seemingly in greater numbers than before.

Children Naturally prefer Naturally sweeter

TEXSUN
 America's No. 1 GRAPEFRUIT JUICE

More people buy Texsun because more people like Texsun. That's because Texsun is a pure, wholesome natural juice. We do not add sugar because we believe that artificial sweetening spoils the fresh natural taste.

TEXSUN CITRUS EXCHANGE...WESLACO, TEXAS

Cattle Marketings Rise Is Forecast

WASHINGTON—(AP)—A sharp increase over last year in fall and early winter marketings of beef cattle fattened in the corn belt was forecast by the Agriculture Department.
 But the number of cattle on feed in the corn belt Aug. 1 was the smallest for that date in the present decade and about 25 per cent smaller than on Aug. 1, 1945.
 The department did not estimate the actual number but fixed it at 40 per cent larger than last year's unusually small total.
 Last year, with price controls removed, July marketings of fed cattle were exceptionally heavy and replacements were light.
 Normally, the bulk of the fall and early winter beef supply is provided by cattle from ranges and pastures, rather than by corn belt feed lots. The latter supply most of the beef during the late winter, spring and early summer.
 The largest increases this year in cattle feeding on corn ranged from 50 to 75 per cent in Iowa, Minnesota and Illinois.
 Feeders have indicated that a larger proportion of their cattle will be marketed before December 1 and smaller amount afterward than was reported last year.
 The percentage change in the number on feed from a year ago by states: Ohio 10 per cent decrease, Indiana unchanged, Illinois up 75 per cent, Michigan up 20, Wisconsin up 45, Minnesota up 60, Iowa up 50, Missouri up 35, South Dakota up 20, Nebraska up 15, and Kansas up 5.
 In Colorado and California, the leading cattle feeding states in the West, numbers on feed August 1 were described as considerably larger than a year earlier.

DENVER—(AP)—R. B. Cartwright, clerk of the U. S. Circuit Court of Appeals, disclosed appeals had been filed by A. M. Bartlett and Mrs. Trudy Edwards, of Hobbs, N. M., on their convictions on charges of violating OPA sugar rationing regulations.

Bartlett, manager of the Dr. Pepper Bottling Co. of Hobbs, was sentenced to five years in prison and fined \$30,000. Mrs. Edwards, former employe of a Hobbs bank, was sentenced to one year in prison. She was charged with falsifying ration records to enable Bartlett to purchase sugar.

Kids Always Welcome Grape Jam, Jelly Treats

Use Concord grapes for best color and flavor.

By GAYNOR MADDOX
NEA Staff Writer

Turn those purple grapes into jam and jelly for hungry kids to spread on bread when they come home from school.

Grape Jam

(Makes about 12 six-ounce glasses)
Five and one-half cups prepared fruit, 7 cups sugar, 1 box powdered fruit pectin.

To prepare the fruit: Slip skins from about 3 pounds fully ripe Concord or other loose-skinned grapes. Add 1 cup water to pulp; bring to a boil and simmer, covered, 5 minutes. Sieve to remove seeds. Chop skins and add to pulp. Measure 5 1/2 cups into a very large saucepan.

To make the jam: Measure sugar and set aside. Place saucepan holding fruit over high heat. Add powdered fruit pectin and stir until mixture comes to a hard boil. At once stir in sugar. Bring to a full rolling boil and boil hard 1 minute, stirring constantly. Remove from heat, skim, ladle quickly into glasses. Paraffin at once.

Grape Jelly

(Makes about 10 six-ounce glasses)
Four cups juice, 7 cups sugar, 1/2 bottle fruit pectin.

To prepare the juice: Stem about 3 pounds fully ripe grapes and crush thoroughly. Add 1/2 cup water; bring to boil and simmer, covered, 10 minutes. Place in

jelly cloth or bag and squeeze out juice. Measure 4 cups into a very large saucepan. (Concord grapes give best color and flavor. If wild grapes, Malagas, or other tight-skinned grapes are used, use 3 1/2 cups grape juice and add 1/4 cup lemon juice.)

To make the jelly: Add sugar to juice in saucepan and mix well. Place over high heat and bring to a boil, stirring constantly. At once stir in bottled fruit pectin. Then bring to a full rolling boil and boil hard 1 1/2 minutes, stirring constantly. Remove from heat, skim, pour quickly into glasses. Paraffin at once.

New Fashions To Make Ladies Look Large, Says Male

By HAL BOYLE

NEW YORK—(AP)—A glance at Fifth Avenue style windows discloses women this fall looking pretty much like a horse collar trying to fight its way out of a horse-blanket.

Speaking merely as a mere male, I think women at last have gone too far. The wisecracks among them have always insisted prettily they never dressed to please men but only to impress each other. This year they are really going to live up the boast, and as a slogan for their new "wagonwheel hip" outline I suggest:

"All wool and a yard wide." Signs Of Revolt

There have been signs of revolt among the ladies against the new fashions, but—by and large—they'll buy them and look large. But when the fashions change again, I'll bet my grandmother's best bombazine against a bobby pin the girls will go back to looking more like mother Eve and less like Queen Victoria.

What's so disturbing about the new fashion? Well, for years the girls have looked like brandy glasses. Sometimes the added shoulder effect was too, too Notre Dame, but—there was always a pleasant view of the stems.

Now they have turned the brandy glass upside down to achieve the effect of an underslung hour glass. The stems are skirt-hidden so far below the knee a Pekinese would have to lie down to bite the hem. And the padding has come out of the shoulders and has been restuffed around the neckline.

This changed feminine contour will have melancholy economic and social hazards for the crowded world of today.

"How will a man know what he is getting?" asked a realistic young friend of mine. "They've been wearing false chests for years. Now they're going to add false hips, choked-to-death waists, and dresses so long you can't tell whether a girl is bow-legged or even hear her knees knock."

PROF DEPLORES STUDENTS' "SOPHISTICATED TENDENCY"

AUSTIN—(AP)—A growing "sophisticated tendency" on the part of University of Texas graduating seniors to belittle tradition by not attending the university's graduation exercises was openly criticized recently by Professor Everett G. Smith.

"Life without any ceremony or tradition is a rather dull and materialistic thing," said Smith, who is to serve as marshal of this Summer's commencement exercises at the university.

Urging graduating seniors to attend their ceremonies, he declared such ceremonies are "only the formal conclusion of the student's college work—the visible recognition of their academic work."

The roots of foxglove are poisonous and the leaves of the true plant yield digitalis, a heart medicine.

Rubber Growing Study Conducted For West

WASHINGTON—(AP)—The Agriculture Department believes development of a major rubber-producing industry in the tropical regions of the Western Hemisphere is a possibility.

It expressed this opinion in a survey of the joint efforts by the United States and Latin-American countries to free this hemisphere of its prewar dependence on Far East natural rubber.

Dr. E. W. Brandes, chief of the Department's rubber investigations, said that as a result of the Western Hemisphere program, large rubber plantings have been made in Brazil, Colombia, Costa Rica, Guatemala, Haiti, Honduras, Mexico, and Peru. The co-operating governments, he said, are establishing central rubber tree nurseries and are modifying and co-ordinating their farm credit, colonization, and educational pro-

grams to meet the requirements of the long-term rubber crop.

The Agriculture Department maintains natural scientists and technicians in various centers to conduct research and to train local workers.

ONE-TIME SILENT MOVIE STAR TERMED DESTITUTE

LOS ANGELES—(AP)—Helene Costello, 40, once a \$3,000 a week star of the silent film era, recently was awarded \$200 a month alimony by Superior Judge Louis W. Kaufman, who described her as "deserted."

He ordered her husband, George LeBlanc, to make the payment pending trial of her divorce suit. Her attorney told the court Miss Costello "is now an object of charity."

PRODUCTION ON SCHEDULE FOR THESE PARENTS

WORCESTER, MASS.—(AP)—Mr. and Mrs. George J. Bouthiller have good reason to remember August 16.

On that date in 1942, a seven-pound, four-ounce boy was born to Mrs. Bouthiller. Five years later to the hour, Mrs. Bouthiller had another baby. Same room, same hospital, same weight and same doctor.

There was one difference. This time it was a girl.

TWO-STORY FALL CALLS FOR PHILOSOPHY

CHICAGO—(AP)—Henry Packer fell out of a window of his second floor apartment and landed in the grass below. Examination at a hospital disclosed he had suffered only a cut on the face. He attributed the accident to a dizzy spell, and said:

"I must be getting old." Packer is 74.

Britain was producing less than one-third of the food she consumed in 1939.

Plan good eating for Labor Day weekend
by Carol Drake

Nothing quite like good food, especially good that is, to give the Labor Day weekend a holiday air.

WHOLE KERNEL CORN FOLDED INTO SCRAMBLED EGGS with some chopped chives or parsley is a sunny surprise! (Sure, leftover roasting ears can be dekerneled for corn, but who ever has any left over?)

TAFFY ROLL UPS—the tasty finale. Roll biscuit dough 1/4-inch thick. Spread with butter, cinnamon, sugar and raisins. Roll jelly roll style; slice. Bake at 400° F. 15 minutes; remove from oven; spoon on Taffy Sirup: 1/2 cup molasses, 1/2 cup water and 1 tablespoon butter cooked to softball stage (236° F.).

CHOCOLATE MINT WAFERS—Nice for bidding farewells and closing cottages, lunch boxes or teas. Make chocolate ice box cookie dough. Shape rolls about 50-cent piece size; wrap in waxed paper; chill several hours. Slice thin and bake. Put together sandwich-style with minted green powdered sugar frosting.

SPEAKING OF SANDWICHES, Carol Drake has a free Tea Sandwich leaflet, suggesting ways of filling and cutting sandwiches. Write P. O. Box 2110 Dept. TS, San Francisco 26, Calif.

A LABOR SAVING WAY WITH SPAREBIES—APPROPRIATE TO THE DAY. Simmer spare ribs until tender, about 1 hour. Remove bones (they practically fall out) and cut in serving-size pieces—we use 4 ribs per person. Refrigerate until 15 minutes before eating time in barbecue sauce—ready bottled or your own special tomato paste-cayenne-vinegar-brown sugar version. Remove from sauce; broil, basting frequently with the barbecue sauce. Ribless ribs mean easy eating.

Carol Drake, Director
The Homemakers' Bureau
An Extra Safeway Service

P. S. GIVE A BACK-TO-SCHOOL PARTY. For refreshments—pop corn balls with a handle and a surprise inside! Press freshly caramelized popped corn around lollypops to form balls. Arrange bouquet-fashion in low vase or bowl for easy serving.

Hollywood's International Role

Just as American movie producers were deciding to stop shipping films to Britain because of the confiscatory new tax, the Soviet newspaper Trud, always on the ball, came out with a story that Britain and France were "in the yoke of Hollywood." When news of Hollywood's latest decision seeps beneath the iron curtain, Trud no doubt will be delighted to find out how wrong it was.

This decision will probably reduce the presence and influence of American films abroad to a new low in recent peacetime history. Nor can Hollywood be blamed too much. Its films grossed about \$400,000,000 in Great Britain last year. The producers say that \$332,000,000 of this was left in Britain as taxes, salaries, operating costs and other charges. The rest represented Hollywood's profit. And the only profit made by many pictures was realized from these overseas bookings.

Now Britain's government has decided to take 75 per cent of that profit, which, on the basis of last year's figures, would cut the Hollywood harvest from 17 to 4.25 per cent. That might be all right if the 4.25 were uniform and guaranteed. But a film's drawing power is so uncertain that the West Coast studio heads apparently decided that the gamble wasn't worth it.

So the British government, in a move of doubtful wisdom, has lost some \$332,000,000 for itself and its citizens in an effort to get an extra \$51,000,000. Britons have lost some more enjoyment from their already bleak lives, since their film industry's production doesn't begin to satisfy their movie appetite. The British government has lost more precious dollars through a probable boycott of British films by American distributors. And the American film industry has lost a profitable market.

All this may not seem too important. But the great pity is that just as Hollywood seemed about to face life as it is, its most important foreign market is closed. So the film people have missed a chance to do an important job of selling America to Britons and Europeans.

Eric Johnston, president of the Motion Picture Association of America, has been around to the various film studios peddling the government's idea that Hollywood should picture the American scene more realistically. The producers seemed to take to the idea.

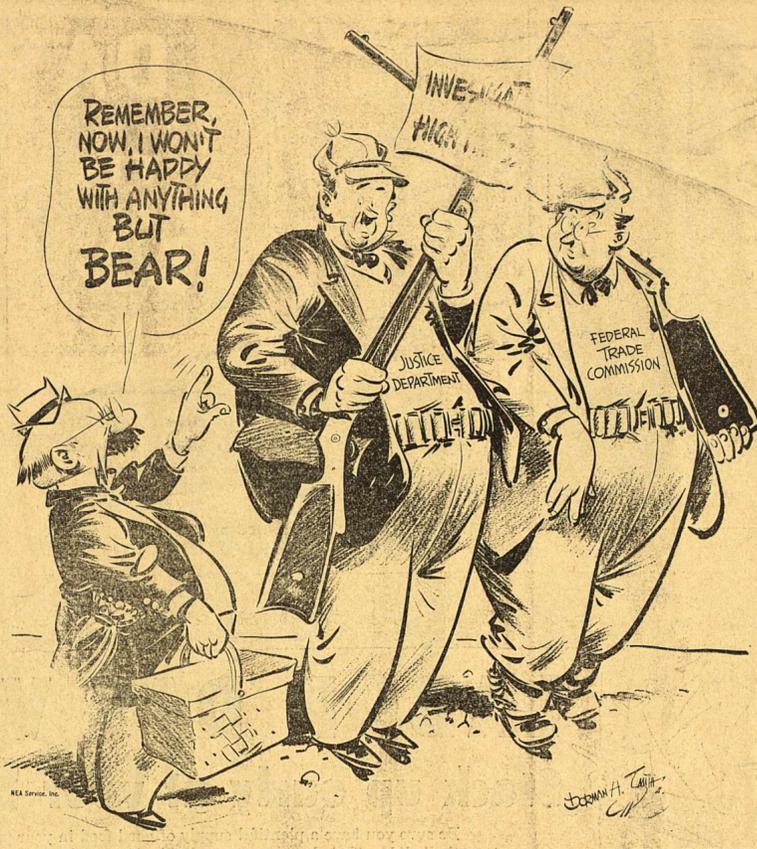

A true, as-is series of pictures on real American life would be valuable right now. Maybe propaganda is the word. But the fact remains that the world political struggle is spilling over into the economic field. This government obviously is not going to try to force capitalism down Europe's throat, as Russia is trying to do with communism. At the same time it is clear that the government is not keen about financing socialism through the Marshall Plan.

American movies could surely put a little less accent on wealth and penthouses, and a little more on the essential happiness and freedom enjoyed under our government, and still contrive to the entertaining. Such films, with the wide audience appeal that American pictures already have, could fill a worthwhile assignment.

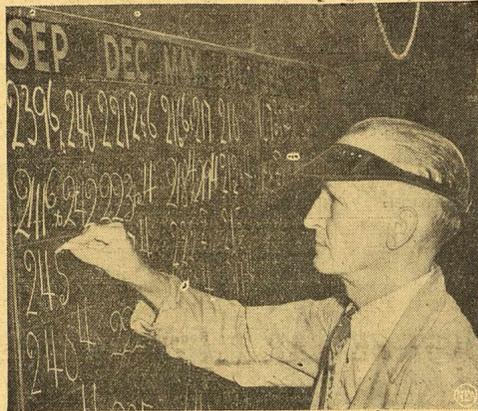

Maybe folks who save money by not taking a vacation figure a roll is better than a loaf.

A Texas farmer of 88 says he smokes 20 cigars a day. If he gave them away he could be elected sheriff.

Yeh, We're Fed Up With Rabbit

Chalking Up a Record Corn Price

For 30 years Frank E. Rys has been marking corn prices at the Chicago Board of Trade, but never before has he written the figure above. Corn hit an all-time high of \$2.45 per bushel and kept rising as heat wave scorched mid-west fields.

Underground Water Is Problem Facing Both Washington And States

WASHINGTON — (AP) — Slowly but persistently, the problem of ground water control is creeping up on Congress and state legislatures. It came out from time to time during hearings last session of Congress on legislation to waive the 160-acre limitation for reclamation units.

In hearings on a bill to authorize the Central Arizona irrigation district, assistant Secretary of the Interior William E. Warne declared Arizona must establish a ground water code if the project is to be effective.

Arthur Johnson, reclamation engineer familiar with the problem, told a reporter while current legislation has emphasized the ground water troubles of Arizona and California, signs of trouble had been found in New Mexico, Nebraska, Kansas and parts of Texas.

The New Mexico situation, he said, impelled the state legislature to adopt a comprehensive ground water code, which is being studied by many other states.

Source Of All Wells
Ground water is the subterranean source from which wells are supplied.

The importation of water from the Colorado River, as proposed by the Central Arizona bill, is intended

Anybody See Stray Cornerstone About?

SAN DIEGO, CALIF. — (AP) — There's a mystery here—the county courthouse's cornerstone is lost.

Newspaper files show that on Aug. 12, 1871, there was a cornerstone laying ceremony with sealing in of the usual papers and charters.

But the San Diego "Tribune-Sun" now discovers that the stone has disappeared, possibly long since. The best guess is that it was "sealed in" itself by one of the several jobs of remodeling and adding to the venerable structure.

not only to provide surface water for irrigation but to raise the ground water level and to store some of the Colorado River water in the underground reservoirs. Improvement in the ground water supply would, if regular legislation is lacking, benefit wells outside the district as well as those inside who have agreed to repay the cost.

Johnson thinks the situation might be met by regulation of the ground water use on a basin basis.

He says the extent of a subterranean source can be fairly well defined and it should be possible to control the pumping from such an area to the advantage of all users.

HARDY DISH

In addition to ancient eggs and birds' nest soup, the Chinese are particularly fond of dogs' flesh, marmalade made from roses, preserved oysters, ducks' gizzards, and canned earthworms.

Imported Bohemian Hops blended into Silver Fox to give you finer flavor—finer beer

To those who would enjoy a finer glass of beer:
OUR POLICY is to brew always the very FINEST BEER IT IS POSSIBLE TO MAKE.
That is why Silver Fox Extra Pale is blended with the FINEST IMPORTED BOHEMIAN HOPS—the world's best—containing no seeds—no stems.
Only SPECIALLY SELECTED IMPORTED HOPS—combined with skilled brewing and slow, careful ageing—can impart that distinctive aroma, mellow smoothness and light, bright flavor so characteristic of Silver Fox Extra Pale.

Imported hops are costly—in fact, they cost almost 3 times more than ordinary domestic hops. But no expense is too great to give you beer worthy of the reputation of Silver Fox: the VERY FINEST... ALWAYS DELICIOUS, ALWAYS SATISFYING.

For a FINE BEER OF FINE FLAVOR, I sincerely urge you to try Silver Fox Extra Pale. Judge for yourself what a difference blending with imported Bohemian hops makes in a beer.

Frank G. Zil, President
Silver Fox Breweries—Chicago

The Happy Look

From a porthole on the S. S. Ernie Pyle two immigrants from Yugoslavia get their first look at America. Tamara Matassov, 6 months, and her father were brought to the U. S. by a displaced persons organization.

For Desserts On Summer Menus

By CHARLOTTE ADAMS
Associated Press Food Editor
Almost everybody likes salad in the summer. It's light, cooling in appearance and effect, and appears well at almost any point in the meal.

Californians serve it first. Through the rest of the country it's served along with the main course. In elegant houses where dinner runs to five courses (there aren't many any more) salad comes by itself.

between the main course and dessert. Salad, at least occasionally, makes an excellent substitute for dessert. See whether these recipes won't convince you.

Fruit Dessert Salad
Two cups flour; 1/2 cup grated sharp cheese; 2/3 cup butter or vitaminized margarine; 1 teaspoon salt; 5 tablespoons water; assorted fruits in season; 6 mint sprigs.
Sift flour; stir in cheese and salt and cut in butter or margarine until coarse crumbs are formed. Add water and stir with fork only until ingredients are moistened. Turn out onto floured cloth, press into mound with hand, roll out with floured rolling pin to 1.8-inch thick. Cut into squares as big as your individual pie plates are across bottom from rim to rim. Pinch little pleat in middle of each side so crust will fit pan. Bake in very hot oven (450 degrees) 5 minutes. Press crust back to pan or pricktops of any bubbles that form. Continue baking for 10 minutes. Fill with assorted fruits, such as grapefruit, pineapple chunks, peach halves, strawberries. Garnish with mint sprigs. Serve with dessert mayonnaise.

Dessert Mayonnaise
One-half cup real mayonnaise; 1/2 cup whipping cream; 1/4 cup crushed strawberries or raspberries; 1/4 cup sugar or honey.

To mayonnaise, add cream chilled and whipped stiff. Fold in berries, mixed with sugar. This makes a cup and a half.

Here's a wonderful dressing to serve with a regulation fruit salad—that is to say, mixed fruits of the season, served on a bed of crisp lettuce and other greens.

Avocado Fruit Dressing
One-half cup sieved avocado; 1/2 cup pineapple juice; 3 tablespoons lemon juice; 1/2 teaspoon salt; few drops Tabasco sauce.

Cut avocado in halves and remove the seed and skin. Force fruit through a sieve. Blend this sieved avocado with other ingredients.

Makes about 3/4 cup of dressing. A salad of mixed greens makes a perfect ending for a meal. Vary the greens. Include occasionally things like dandelion, nasturtium leaves and such—and fresh herbs if you can possibly find them. Hard-cook egg, sliced or sieved, is nice to add to such a salad and so are a few filets of anchovy, cut up. A good cheese dressing adds just the right touch. If you can't find, or afford, real French Roquefort, our own Wisconsin blue does nicely.

Roquefort Cheese Dressing
Six tablespoons olive oil; 2 tablespoons vinegar; 1/4 pound Roquefort cheese; salt to taste; freshly ground black pepper.

Beat the oil into the vinegar, pouring gradually, and add seasonings. Crumble the cheese and stir it in. Beat well just before pouring over salad, and toss the salad gently but thoroughly after the dressing is added.

AUSTRALIAN VISITS MacARTHUR, IS SURE OF PEACE IN PACIFIC

BRISBANE, AUSTRALIA—(P)—Deputy Prime Minister Herbert V. Evatt said on his return from conferences with General Douglas MacArthur in Japan the way was clear to making a peace settlement which would be a "stable foundation for the security of the Pacific."

"My consultations with General MacArthur," Evatt said, showed a broad agreement on the steps to be taken in preparing a treaty."

CHANGE LEADERS
Wild geese flying in "V" formation do not have one leader constantly at the head. The leadership is rotated among the geese, since that position must overcome more wind resistance.

A fish has no eyelids.

Tire Tier

Who says the WAA doesn't know how to sell stuff. With \$3,500,000 in war surplus to unload at Port Hueneme, Calif., they promptly piled up tires of many sizes, took a picture, and now you know about it. For further information about Francene Lanteri, on top, see your local surplus center.

Red Cross Seeks Blood Gifts To Supply All Hospitals In Nation

WASHINGTON—(AP)—The blood of Pennsylvania miners, Wall Street bankers, Iowa farmwives, Hollywood stars and D. C. government girls saved the lives of millions on the front lines of our world-encircling battlefields during World War II. The wartime program was a spectacular success. Now the Red Cross is embarking on a peacetime program to provide blood and its derivatives to the nation's hospitals without cost for all the people.

Some 6,600,000 persons, averaging two pints each, donated blood during the war years. By January 1945 each week 100,000 persons—church groups, labor unions, students, housewives and soldiers and sailors—were giving blood at the 35 donor centers or to the 63 mobile collecting units which the Red Cross was operating throughout the country for the purpose.

This project, the largest singly-controlled medical undertaking in history started out in a small way back in 1941.

The surgeons general of the Army and Navy had requested the Red Cross and the National Research Council to cooperate in collecting human blood to be processed into dried plasma and used by the army and navy medical departments, chiefly in combating traumatic shock.

Such shock frequently follows severe injuries, loss of blood or burns and is accompanied by an alarming fall in blood pressure and general collapse of the patient. Blood transfusion had been the essential feature in shock treatment. New properties of blood were then discovered. Their usefulness in a wide variety of diseases became revealed.

May Keep Five Years

Plasma can be preserved for one year in the liquid state. Better still, it can be frozen and kept at least three years. But, best of all for modern military use, it can be dried and later dissolved in water. Its life-giving power can be held in dry form for five years in intense heat or cold, and there is no need for expensive, space-taking refrigerators.

On the basis that any beneficial knowledge that can be gained from war should be turned to the aid of all people in time of peace, the Red Cross is embarking on its new program.

The Red Cross will seek an estimated ultimate peak of 3,700,000 blood donations annually.

The program is headed by Vice Adm. Ross T. McIntire, wartime Navy surgeon general and former White House physician. The program was approved by the Red Cross Board of Governors at a meeting in Cleveland a few months ago.

Dr. McIntire points out that the source of blood is confined to the veins of people. It cannot be compounded or manufactured as are certain other biological products, medical supplies and drugs.

Dr. McIntire estimates that when the program gets under way one person in every 35 will have to give blood at least once a year to supply the need.

It will take time—three to five years—before reaching its fullest achievement. It will also take money. The cost for the first year is estimated at between \$3,000,000 and \$5,000,000 dollars.

The Bear, the ship which Byrd took to the Antarctic on his first expedition, was first used by the U. S. Navy to go to the relief of the Greely Arctic Expedition in 1884.

McKenney on Bridge

By WILLIAM E. MCKENNEY
America's Card Authority

I was very pleased to learn that Uniontown, Pa., is back on the tournament map, with championship events scheduled at the Summit Hotel for Saturday and Sunday, September 27th and 28th. This brings back pleasant memories, as one of my first trophies was won at Uniontown.

In those early days of contract, we did not have the accurate bidding that we have now. If we had a lot of high cards, we bid them. Today's hand is an example of that type bidding. Several pairs reached

six no trump on the hand, but most of them made a very bad error and lost the contract.

They won the opening lead with the ace of diamonds and led a spade to dummy's jack. The jack of hearts was led. West refused to win, so the six of hearts was led next, and the ten-spot finessed. West took this trick and led another diamond. Now South suddenly realized that he could not get back to his hand to cash the good hearts.

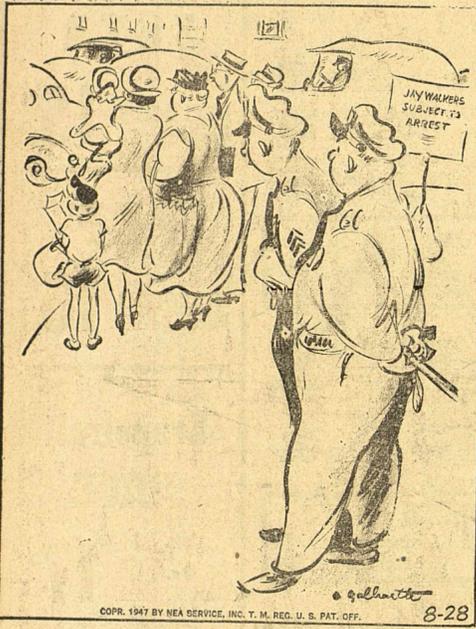

The hand was not difficult to make. Declarer should have been careful to win the first diamond trick in dummy and lead the jack of hearts. If West did not win, another heart should be led, and declarer would still have the ace of diamonds for entry to his hand to cash the hearts.

Mr. Pro And Mr. Con Discuss Chairmanships

By J. FRANK TRAGLE
 WASHINGTON—(AP)—The congressional "seniority system" which is almost constantly under fire, has this to be said in its favor:
 It enables every member of Congress to become a committee chairman if he does three things—
 1. Is reelected often enough.
 2. Lives long enough.
 3. Is a member of the party in power when the fellow just ahead of him dies or is defeated.
 Of course, if a member is ambitious he isn't happy in the thought it might take him 25 years to win his letter.
 When Congress voted last year to change its ways of doing business

it was suggested the seniority system be shelved in the archives beside the early photographs of Washington's muddy streets.
Nothing Came Of It
 But other attempts to do away with it undoubtedly will be made. What's been said in defense of it?
 1. It eliminates squabbles and petty fights.
 2. It eliminates log-rolling ("You vote for me for chairman of armed services and I'll vote for you for chairman of banking and currency.")
 3. It ensures the work of Congress will be directed by persons experienced in the ways of Congress and of its committees.

What's been said against it?
 1. A member becomes a chairman, not because he is necessarily qualified for the position, but because he comes from a safe district and has managed to stay alive a long time.
 2. Ambitious men often are discouraged from running for Congress because they feel their education and experience won't count for anything.
 3. A man who heads a committee solely through seniority is not under control of the party.
 Among suggested remedies are chairmen be elected by (1) the committees themselves; (2) party membership of the House or Senate; (3)

FROM OIL TO POP

DALLAS—(AP)—Leonard M. Green, high-ranking sales official of the Texas Company, has resigned to become vice-president of the Dr. Pepper Company in charge of company-owned bottling plants, it was announced recently by the Dr. Pepper board of directors. Green will assume his duties Sept. 20. The office has been newly-acquired by the Dallas carbonated beverage company.
 Bell weevils destroy about one-seventh of the potential average U. S. cotton crop.
 A special committee of the party, or they be appointed by the presiding officers or the majority leaders of the two chambers.

Nazis Are Still Loose In China

WASHINGTON—(AP)—The State Department reported recently a number of key Nazis who might constitute the basis for re-education of Nazi power in the Far East still are at large in China.
 In a formal statement, the department said the United States is deeply interested in seeing them returned to Germany. The department said a number of Germans are repatriated in June, 1946, and in February, but "many of them, however, managed to escape repatriation and still remain in China."
 It said the United States and China plan to send others back to Germany in a U. S. Army transport which will arrive at a Chinese port soon. The statement said it understood the Chinese authorities have plans under way "to roundup and detain many obnoxious Germans pending the arrival of this repatriation ship."
 American authorities in China have been in contact with Chinese government on detailed plans. The statement said that in view of the incomplete results obtained in such previous projects "the United States government particularly hopes that full and effective measures will be carried out to assure the success of the present repatriation."
NEW JEEP PEAK
 SWITZERLAND—(AP)—A jeep, driven by a local owner, climbed a mule path over the Sametsch pass at 6,140 feet above sea level. It was the first time a car went that high here.

It Takes 500 Workers, Strange Machines And Six Years Hard Work To Produce Hybrid Seeds

Twelve Girls on a Rig: This machine was invented by Lester Pfister to speed de-tasseling the 4523 acres of seed corn he plants each year. Rig moves at speed of one-half mile per hour. De-tasseling must be completed within three weeks.

Hand Pollination: Lester Pfister demonstrates first step in producing hybrid seed corn.

chine. It's operating 40 of these machines now. Each carries 12 persons in standing position. As it moves slowly along the rows workers snatch heads off the corn stalks.

The first year the stalks of corn are hand-pollinated. This in-breeding process stresses the best qualities of the selected corn. For the next five years it must be permitted to cross-pollinate.

And here's where the girls come in.

When the pollen-carrying tassels is removed the stalk becomes a "female". The tassels must be removed during a three-week period each year, in time to prevent the pollen from dropping onto the silk and the stalk from pollinating itself.

12 Girls, 12 Rows
A dozen girls on a Pfister rig can work 12 rows at a time. The tractor pulling it moves one-half mile an hour while the girls remove each tassel in a row. The seed from these rows is re-planted for five years until the desired product is achieved.

The next four rows are allowed to remain as "males", so that they can pollinate the silks in the de-tasseling rows. Corn from these rows is used as feed.

Pfister uses small paper bags which are placed over ear and tassel in the first year hand-pollination. Part of the silk is cut off the top of an ear and a bag placed over the ear to prevent any pollen from being blown on it from another stalk. The bags are left on 24 hours. When the silks are removed the silk has grown about 1 1/2 inches. A second tassel bag on the same stalk captures pollen, which is poured onto the silk. The ear is bagged again, to fend off other pollen.

This bag covers the ear until it is picked in the fall. For five years it is replanted and cross-pollinated until the proper strain has developed.

Pfister's activities provide an annual payroll of something more than \$400,000 a year for this town of about 1600 persons. But it really is a community project, requiring the cooperation of farmers and farmhands and women and girls from the surrounding countryside.

Farmers within a radius of five miles supply the land and tend the crops, but when it comes time to plant, de-tassel, spray or pick, Pfister's own forces go into action. With a trained crew of supervisors, help from farmers and seasonal labor brought in from Chicago and Peoria, the job is done quickly.

His fields look good this year despite poor production over much of the corn country. He credits a part of this success to his excellent corn soil. Much of it is due to the speed with which his mechanized forces take advantage of every weather break they get.

WATCH FOR THE MAN AFTER SHAUGHNESSY

ALAMEDA, CALIF.—(AP)—Local nominee for the title of "World's Meanest Man" is the guy who asked Frank C. Todhunter if he had seen "Mr. Shaughnessy."

Todhunter is 83, an old-age pensioner, and carries a white cane to show he is nearly blind. Todhunter told police somebody stopped him on the street and asked him if he had seen Mr. Shaughnessy. When Todhunter said he didn't know anyone by that name, the man told him he had something on his coat and proceeded to brush it off. Did quite a job, too.

Todhunter went on to a store to buy something, found his wallet missing.

FUSSIAN'S SEIZE SILVER, FURS

HANNOVER, GERMANY.—(AP)—Two boxes of silver weighing more than 100 pounds and a crate of four coats were seized by Russians frontier guards from the interzonal train between Berlin and the British Zone. Passengers said when they reached Hannover six hours late recently.

LEGAL NOTICES

CITATION BY PUBLICATION THE STATE OF TEXAS
TO: THE UNKNOWN HEIRS OF ELLIS F. DREW, DECEASED, THEIR HEIRS AND LEGAL REPRESENTATIVES:
GREETING:
YOU ARE HEREBY COMMANDED to appear before the County Court of Midland County, Texas, at the Court House of Midland County, Texas, at Midland, Texas, on or before 10 o'clock A. M. of the first Monday after the expiration of forty-two (42) days from the date of issuance of this citation; that is, at or before 10 o'clock A. M. on Monday, the 6th day of October 1947, then and there to answer the petition filed in said court on the 18th day of August, 1947, in a suit numbered 12345, on the docket of said court, wherein Beatrice B. McCool is plaintiff and Christ Gamble, Juanita S. Simpson and W. L. Jones and the unknown heirs of Ellis F. Drew, deceased, their heirs and legal representatives are defendants, the nature of said suit being as follows:
Plaintiff alleges that Ellis F. Drew died intestate on the 9th day of December, 1946, unmarried and without issue; that he left personal property in Midland, Texas, and an interest in real property in Runnels County, Texas, being Lots 3 and 4, Block 37, Original Town of Ballinger, Runnels County, Texas; that plaintiff and the named defendants are heirs of the decedent; that the names and residences of the unknown heirs of the decedent, their heirs and legal representatives, are unknown to plaintiff or her attorney; that administration is being had upon the estate of the decedent in the County Court of Midland County, Texas, in cause No. 12345, but no final disposition of the real and personal property belonging to decedent's estate

REICHSTAG RUINS TO BE REMOVED

BERLIN.—(AP)—The ruins of the Reichstag building, burned out by the Nazis in 1933 and struck by bombs during the war, finally are to be removed, according to plans adopted by the city planning commission. Its huge stone blocks are to be used in reconstruction work elsewhere.

The massive, roofless old Reichstag has stood like a dark haunt at the Brandenburg gate, just opposite the Tiergarten, these post-war years. For a time in 1945, just after the western powers joined in the occupation of Berlin, it was fenced in to keep the black-marketers out.

Many American soldiers once did a thriving business there selling watches to Russian soldiers and cigars and candy bars to the Germans.

has been made; and that plaintiff desires said court to determine the heirs of the said Ellis F. Drew, deceased, and their respective interests in the decedent's estate.
If this citation is not served within ninety (90) days after the date of its issuance, it shall be returned unadvised.
ISSUED this 19th day of August, 1947.
LUCILLE JOHNSON, CLERK OF THE COUNTY COURT OF MIDLAND COUNTY, TEXAS (Aug. 21-28; Sept. 4-11)

U. S. FOODS MAY END JAP BLACK MARKET

TOKYO.—(AP)—General MacArthur released to the Japanese a huge amount of imported foods which his top rationing expert predicted would take the nation's housewife out of the black market. MacArthur authorized distribution of 374,000 tons of imported food in September and 286,000 tons in October as the result of substantial quantities of imports recently from the United States. It will supplement the Japanese ration of home-grown food.

HOMOLKA SUES EX-WIFE FOR MISSING LIQUOR

LOS ANGELES.—(AP)—Twenty-eight cases of fine wines and spirits was a keenly-felt loss listed by Oscar Homolka as he filed suit for \$22,442 damages against his divorced wife, Mrs. Florence Homolka. The actor charged Mrs. Homolka—daughter of Banker-Publisher Eugene Meyer, Washington, D. C.—had "consumed and otherwise converted the liquor to her own use while he was away on Broadway. They were divorced in 1946 after seven years of marriage.
