

Truman Council Asks Continuation Of High Taxes

Brewers Begin Grain Saving

WASHINGTON—(AP)—The nation's brewers began Saturday a three-month program of shorter rations of grain in the Feed-Europe Campaign, while the first threat against the liquor industry shutdown was lifted.

Some 450 brewers of beer and ale launched a voluntary program designed to save 1,000,000 bushels of grain a month, under a pledge signed by the United States Brewers Foundation and the Small Brewers Committee.

Chairman Charles Luckman of the Citizens Food Committee made a formal announcement of the withdrawal of a court proceeding which would have required a Kentucky distillery to keep running during the 60-day liquor-making "holiday."

Starting at midnight Saturday, the brewers cut the use of corn by 25 per cent and will use no wheat or wheat products, no table quality rice or rice products, and no feeding barley for 90 days. The industry already has reported halving all purchases of sorghum grains.

Spokesmen for the brewers groups said they expected little change in taste or quality of beer, unless difficulty arises in finding starch substitutes for the curtailed grains.

The agriculture and state department meanwhile hailed as "internationally noteworthy" tests which they said showed that a corn-substitute cattle feed for milk production has been developed from the waste pulp of the coffee bean. The tests were conducted jointly by technicians of the United States and El Salvador. Coffee pulp is the fleshy covering of the coffee bean and has been largely a waste product.

Also Saturday, Luckman started a drive to provide grocers with merchandising suggestions helping them to feature foods in plentiful supply as substitutes for grain-consuming foods. Several thousand leaflets will be sent to food stores this week, he said.

Each week new foods will be promoted, depending on local supplies.

Industrialists Oppose U. S. Tidelands Claim

NEW ORLEANS—(AP)—Directors of the Southern States Industrial Council, ending their two-day session here Saturday, opposed the federal government's tidelands claim as a violation of states rights.

The board, by resolution, voted to petition Congress to approve a current plan of attorney general of several coastal states, under which the states would retain rights to oil and gas found off their mainlands.

Under the ruling in the recent California case, which recognized the federal claim, the board said the government is taking an enormous step toward centralization of power in the federal government.

Campaign Chairman

Max David, oil man and civic leader, is general chairman of Midland's first Community Chest campaign, which opened Saturday. Volunteer workers hope to complete the drive by next Saturday night. The goal is \$22,000, which will be used in financing Boy Scout, Girl Scout, Junior Canteen, Salvation Army and Goodwill programs in Midland. Actual solicitation work will get underway Monday.

AAL Inaugurates Regular Service To Midland Area

American Airlines Saturday inaugurated regular scheduled flights to Midland and the Permian Basin area when its first Eastbound flight set down on the smooth surfaced runway of Midland Air Terminal at 9:05 a. m.—on time to the minute.

This was climaxed a project launched years ago by the Midland Chamber of Commerce and the City of Midland to have this city included as an American Airlines port. It also marked another forward step in the ultimate goal to make of Midland the commercial airline terminal of the South-west.

Another Eastbound ship landed at 5:05 p. m., and Westbound flights at 10:27 a. m. and 8:32 p. m.

A large crowd of Midland civic leaders, headed by Mayor R. H. (Rusty) Gifford, John W. House, chairman of the Aeronautics Committee of the Midland Chamber of Commerce; D. L. Bert, Downing, Chamber of Commerce manager; and City Councilmen Bob Dewey, Robert I. Dickey and W. F. Heil were at the airport to greet the first flight.

A delegation from Odessa was headed by City Manager John Wilson and M. J. Benefield, manager of the Odessa Chamber of Commerce.

Flowers To Hostess
Miss Kay Avery of Fort Worth, hostess on the inaugural flight, was presented with a bouquet of carnations by Downing.

Captain George Patten and S. M. Reed, both of Fort Worth, were at the plane's controls. Harry Wiseman of Fort Worth, district traffic manager for American, was on the first flight.

A brief-ribbon cutting ceremony was staged, with Mayor Gifford severing the ribbon, allowing passengers to board the plane.

Mr. and Mrs. H. B. Dunagan were among Midland citizens boarding the plane for its first flight out of Midland. They were bound for Chicago.

W. W. Campbell is manager of operations for American at Midland.

Ken Regan To Visit Several Area Cities

Congressman Ken Regan of Midland said Saturday he will go to Fort Stockton early Monday to address a meeting of the Pecos County Chamber of Commerce there at noon. He will continue on to Alpine and Marfa for visits before going to El Paso to transact business in his office there.

He will be the speaker at a meeting of the Monahans Chamber of Commerce Friday noon. Next weekend the congressman plans to visit in Odessa, Crane, McCaney, Rankin, Iraan, Big Lake and other points in his district.

Mr. and Mrs. Regan will leave for Washington about November 10 to attend the special session of Congress called by President Truman.

UN Adopts Trusteeship Resolution

NEW YORK—(AP)—The General Assembly Saturday night again called on the government of South Africa to place the Territory of Southwest Africa under United Nations trusteeship. South Africa did not comply with a previous appeal from the 1946 Assembly.

The vote was 41 to 10. Britain was the only big power to oppose the move, with the United States and Russia joining in support.

The ballot came after a Danish amendment to water down the proposal was accepted. The modification struck out a one-year time limit for compliance and left the Assembly merely expressing "hope" that South Africa would submit the agreement by next fall.

Delegate Francis B. Sayre, former United States High Commissioner to the Philippines, insisted South Africa was not legally bound to take such action and specifically objected to setting a one-year deadline on compliance. He expressed hope the Union government eventually would take such steps but held that the UN had no authority under the charter to order such a course.

Debate over the trusteeship issue held up a final vote in the Soviet "warmonger" case, where the 57-nation Political Committee threw out the original Russian charges and substituted a resolution condemning all propaganda "designed or likely to provoke or encourage any threat to the peace, breach of the peace, or act of aggression."

The "peace-calling" proposal was adopted 56 to 0 in committee and now must be approved by the full Assembly. However, Soviet Deputy Foreign Minister Andrei Y. Vishinsky announced that he would speak again.

William Johnson Dies In Marshall Hospital

William Johnson, night telegraph operator at the T&P railway station here the last six years, died Friday in the T&P Hospital in Marshall, according to information received here.

Johnson entered the hospital in Marshall about two weeks ago. He had undergone surgery there.

Funeral services will be held in Dallas.

Survivors include his widow and a son.

Father And Son Die Within Short Period

SAN ANGELO—(AP)—W. E. Gibson, 54, Cossden Oil Products distributor here, and his father, W. W. Gibson, 75, died here Saturday within seven and a half hours of each other.

Neither knew the other was critically ill.

The father died of a heart attack and the son of jaundice and complications.

Hospital Site Ready For Campaign

This attractive signboard, 10 feet high and 30 feet long, was unveiled Saturday on the site of the proposed Midland Memorial Hospital at the intersection of Illinois Street and the Andrews Highway. It was rushed to completion by the Bryant Stern Company in order to be ready this weekend.

Representatives of Walker's Nursery started setting out shrubs at daybreak Saturday, completing the job by nightfall.

The Texas Electric Service Company kept workers on the job Friday night putting up floodlights and installing poles on each corner of the tract to light the entire area. The night scene at the hospital site is a spectacle.

The seven-acre tract, donated by E. P. Cowden and the late Clint Dunagan, is being marked by cedar posts, supplied by Rockwell Brothers and Company.

The Midland Tractor Company provided a post hole digger which was mounted on a tractor furnished by Arnold Scharbauer. The holes were dug rapidly and the posts installed. Colorful pennants are interspersed between the fence posts.

The hospital tract was cleared by equipment furnished by Midland County.

Billboards similar to the one on the building site have been placed on all highways leading into Midland.

Partial Controls Advised

WASHINGTON—(AP)—President Truman's top economic advisers called Saturday for continuation of present federal taxes to pay the costs of long-range aid to Europe.

Also, they advised a partway return to wartime inflation controls and said that by doing so, the United States could safely support the Marshall Aid Plan and still reduce the national debt.

A report to the President from his Economic Council noted: "The main fiscal impact of a foreign aid program is its effect upon taxes."

In calling for some renewed anti-inflation rules, it said: "Serious inflation of grain and food prices xxx is already here."

A report to the President from his Economic Council noted: "The main fiscal impact of a foreign aid program is its effect upon taxes."

Unless the nation does assume a vast share of the requested \$22,000,000,000 program of long-range European aid, the President's Council of Economic Advisers added, "industrial paralysis" abroad will wreck the hope for stable prosperity here and overseas.

The council urged "outright gifts," as well as loans, to meet some of Europe's emergency needs. And it called on the U. S. taxpayer to pay the way through continued high tax rates.

It hinted at price controls over grain, steel and other goods in world scarcity, declaring Congress should provide "at least the minimum powers" to attack rising prices directly, if less drastic measures fail.

And even the less drastic measures it recommends, the council said, add up to a "vigorous program xxx to protect all our people against the disaster of demoralized business and uncontrolled inflation."

Propose Five Steps
The steps—virtually the only outright recommendations made since the council was created by Congress in 1946 to promote full employment and production—include:

1. Allocation of grain, scarce foods, steel and other world-shortage commodities among U. S. industrial uses.
2. The curbing of speculation and hoarding of goods" — which presumably means federal power to govern down payment requirements on the commodity exchanges, plus inventory control of the wartime type.

3. Export controls, which will expire February 29 unless Congress renews them.
4. Penalties to discourage "misuse or excessive use" of scarce essentials and measures to promote "efficient transportation and distribution."

5. The expansion and "aggressive use" of credit controls. Consumer credit control expired at midnight Saturday.
No Consumer Ceilings
The council made no recommendations for consumer price ceilings or rationing, implying that allocations and price controls, if adopted, should be restricted to producers and distributors as a means of channeling scarce goods into essential foreign and export uses.

Truman asked the council—made up of Edwin G. Nourse, chairman, Leon Keyserling and John D. Clark — to submit the report as background for his recommendations to Congress on the Marshall Plan.

Texas Weekend Violence Kills Twelve Or More

By The Associated Press
Violent deaths climbed to 12 in Texas Saturday night after a grim Halloween in which 11 of the victims died.

Traffic accidents led the death parade, resulting in at least 10 deaths. One person was found dead on railroad tracks and another apparently drowned.

Officers of the Brownwood sheriff's office Saturday night were searching for the body of 45-year-old Henry Allen of Duncanville, who apparently drowned in Lake Brownwood while riding in a boat with two other Duncanville men.

Five persons died in Halloween night traffic crashes in the San Antonio area. Two others died in Houston auto mishaps.

At Waco, a 17-year-old Bruceville-Eddy High School senior, Lawrence McKee, was killed late Friday night when he fell beneath the wheels of a moving truck while celebrating Halloween.

Body of a man identified as R. E. Walton, 30, of Graham, was found on railroad tracks near the depot at Electra Friday night. Officers said the man apparently was killed by a freight train.

PCA Protest Rally Ends In Near Riot

PHILADELPHIA—(AP)—A rally protesting the House Committee on Un-American Activities investigation of Communism in Hollywood Saturday evoked a near riot—in the shadows of Independence Hall — punctuated by scuffling, booing, stench bombs and shouts of "Send them back to Russia!"

More than 30 policemen paraded through the milling throng of 2,000 gathered to cheer and to heckle the rally, sponsored by the Progressive Citizens of America. There was no police club-swinging but several noisy objectors were forcibly removed from the scene.

The 40-minute long meeting was held under sanction of two Federal Courts, which reversed a decision by the City of Philadelphia refusing the PCA members the right to use Independence Square. The placid square, fronting on Independence Hall, should be used only for patriotic gatherings, the city contended.

A PCA statement said the rally was held to demand "abolition of the Washington investigation into Communist infiltration in Hollywood," declaring the House committee has "no right to question citizens as to their political beliefs."

Wallace Is Member
Police twice climbed the speakers platform and bodily ejected hecklers, three of whom had bowled over the public address microphone.

The PCA, with which former Vice President Henry A. Wallace is associated nationally, is described by members as a group of "independent voters for progressive political action."

The rally was opened by Joseph Myerson, chairman of the Eastern Pennsylvania PCA Chapter, but his words were drowned out in boos.

Finally he could be heard to say: "The freedom of American citizens is becoming a burning issue."

House Committee Hears Texas Farmers, Ranchers

TEMPLE—(AP)—The House Agriculture Committee heard here Saturday in no uncertain terms what is on the minds of Southwestern farmers and ranchers—prices and conservation.

Each of the speakers heard brought out those two points.

More than 70 farmers and ranchers were scheduled to be heard by the committee during the all-day hearing, the only one west of the Mississippi and south of Kansas City.

Speakers agreed that if farm prices are right most of agriculture's other prices will straighten themselves out.

Stress Farmers' Control
Most of the farmers held out for 100 per cent parity and testified they wouldn't resent some manner of crop control.

They all urged that soil conservation be broadened, and stressed that they want it controlled by farmers themselves who are elected and not appointed.

One speaker pointed out that the present soil conservation program is good but doesn't go far enough.

But it was Mrs. Henry Brown of Route 2, Killeen, a trim woman in a flowered hat, who brought down the house.

"What Good Is It?"
Emphasizing "equal rights," the fiery Mrs. Brown drew a parallel between the hardships of the tenant farmer and the "luxury" of city dwellers.

She attacked the Rural Electrification Administration, demanding "What good is it if you can't afford it?"

She pointed out that millions have been spent telling farmers how to improve the land—"It's so much hot air," she snapped. "What good is it to know when you can't pay for it?"

"Farm machinery is a blessing sent by God to aid the land," she said quaveringly, "but the devil has put such a high price on it that we can't buy it."

Everybody Benefits, Everybody Gives — Community Chest

Solicitation Of Chest Funds To Begin Monday

Midland's first Community Chest campaign opened Saturday but will actually get underway Monday when solicitation begins.

By action of the Midland Chamber of Commerce, a Community Chest Board was appointed and charged with the task of organizing and putting into operation this Fall, a Community Chest. It made this report to the people of Midland County:

"A Community Chest must belong to the people of the community which it serves. Your Midland County Community Chest belongs, then, not to the Board but to the participating agencies, the Boy Scouts, Girl Scouts, Junior Canteen, Salvation Army and the Good-fellows and also to every person who makes a contribution of time or money to the Chest."

"Every person who contributes becomes a contributing member of the Midland County Community Chest, and his or her name and address are kept on file. Next year, each contributing member will have an opportunity to vote for new replacements on the Board."

"In the past years, each of the above agencies has solicited the public independent of the others which has meant many hours of labor by voluntary workers and many separate calls on you, the contributing public. By means of the combined Chest drive we will relieve the burden on voluntary workers and serve you by calling upon you only once."

"This is your Community Chest, and to function effectively it must have the support not only of your dollars but also of your interest and cooperation. The Community Chest Board itself is a part of the Community Chest organization, and its only reason for existence is to serve the people. It welcomes any suggestions from you."

The Board is composed of: R. I. Dickey, chairman; H. Winston Hull, vice-chairman; Don Johnson, treasurer; Mrs. Drue Dunn, secretary; Mrs. Iva Noyes, W. D. Henderson, W. J. Pratt, P. V. Thorsen, and H. Sloan.

Max David is campaign director.

Good Irrigation Well Completed On Bizzell Farm East Of Midland

H. O. Allen, water well contractor here, Saturday reported that a recently-completed well on the Elmer Bizzell, Jr. farm five miles east of Midland on the Garden City highway, is proving one of the best irrigation wells in Midland County.

A test pump was being used on the well Saturday, he said, and although testing will not be completed until Tuesday, indications now are that the well will produce 600 to 700 gallons of water per minute. The well is 107 feet deep.

Midland County residents interested in irrigation prospects can see the well under test Tuesday, Allen said.

Truman Gets Texas Ten-Gallon Hat

WASHINGTON—(AP)—President Truman Saturday was presented with a "lucky" ten-gallon hat, which its donors said had been rubbed with the left hind foot of a Texas jackrabbit.

At the same time he was made an honorary member of the U.S. Junior Chamber of Commerce.

The presentations were made by a delegation headed by John Ben Sheppard of Longview, Texas.

Child Killed When Car Hits Milk Truck

LUFKIN—(AP)—Charles Travis Fink, age four, was fatally burned Saturday when the car in which he and his parents were moving from Fort Worth to Lufkin and a milk truck collided headon near Wells, Texas.

The Fink automobile burst into flames, and the child was fatally burned before he could be rescued. The father, Joe Fink, a flying school instructor, had both legs broken.

Mrs. Jim Bob Thompson of Lufkin, also an occupant of the car, suffered a broken ankle.

WOMAN FOUND DEAD IN PARKED AUTOMOBILE
CLEBURNE—(AP)—The body of Mrs. Carrie Lorene Graham, 53, was found slumped in her automobile in the Cleburne business district shortly before noon Saturday by Police Officer R. L. Luck, who had placed an over-parking ticket on the windshield.

Justice of the Peace R. L. Berryberry returned a verdict of death from natural causes. A physician said she had suffered a stroke.

Mrs. Graham, a Cleburne housewife, had been missing from her home since Friday afternoon.

Man O' War, America's Foremost Thoroughbred, Dies In His Stall

LEXINGTON, KY.—(AP)—Man O' War, America's foremost Thoroughbred, died of a heart attack Saturday.

Death came to the big red 30-year-old stallion in his stall at the Faraway Farm of his owner, Samuel D. Riddle of Lexington and Philadelphia.

Starting in 1919 as a two-year-old, he won 20 of the 21 races he entered, established five world records and retired after two years to become the leading money winning sire of all time. His third career was to his public who regarded his life as an open book.

"Pops," the name the stable boys tagged on him, had been ill since last Summer.

He was retired to a rocking chair life last May 23 to spend his last days in the quiet of the Faraway Farm paddocks where he had lived for most of his 30 years.

Bought As Yearling
Man O' War's life span was compared to the equivalent of 105 years in a person.

Riddle, who remained the horse's greatest fan, purchased him as a yearling. He paid the late August Belmont \$5,000 for the son of Fair Play-Mahubah.

Man O' War repaid his owner, winning 20 of his 21 starts and going undefeated as a three-year-old.

His lone defeat was by Upset in the Sanford at Saratoga.

Excavation Work On New Building Nears Completion

By STANLEY FRANK
Just as "wags" around town were beginning to make cracks about the distance to China and how much farther it was to the Ellenburger, men working on the basement excavation for the McClintic Building announced Saturday the hole was almost finished.

Fred M. Burleson and Son, contractors, have come within sight of completion of the city's biggest excavation project.

It is 156 feet long, 110 feet wide, it is 22 feet deep around the edge, 33 feet deep in the center. It is to be a foundation and basement adequate for a 14-story building, though only five stories will be constructed immediately.

Much Dynamite Used
Approximately 16,000 cubic yards of earth have been hauled from the huge hole. A ton and a half of dynamite has been used to blast loose the earth and dirt so bulldozers, a power shovel, and dump trucks could be used to remove it.

Ralph Geisler, manager of the Petroleum Building and of the McClintic Building as well, said Saturday the excavation work is well ahead of its expected schedule. Workmen began digging about seven weeks ago and have accomplished the big job two or three weeks faster than the time usually required for tasks of this size, he said, and yet there have been no injuries among workmen thus far.

While considerable material has yet to be removed from the pit, the hole has reached the specified depth, Geisler said. The ramp up which trucks have climbed with their thousands of loads must be removed, and a sizeable amount of loosened dirt in the center of the pit will be hauled out. But crews of men who will install the concrete and steel foundation are expected to be on hand ready to go, sometime this week.

Latest Type Equipment
When the basement is completed—when the hole is whole, you might say—it will be provided with elevator and air-conditioning equipment large enough to serve a 14-story structure. Discussing this, Geisler said that if and when it is decided to increase the building from five to 14 stories, the job can be accomplished without interrupting occupancy of the five stories.

Gas, automatic elevators and Carrier year-round air conditioning will be installed. The building will be one of the most modern office structures in existence, with rubber tile floors, sound-treated ceilings, and fluorescent lighting throughout. Construction will be of limestone and aluminum.

District Court In Session At Kermit

KERMIT—The first week of 109th District Court, which opened here last Monday was devoted to civil cases, and this week is criminal week, according to Judge G. C. Olsen.

The grand jury was called Monday.

Grand jurors are Cecil Atwood, foreman; Earl C. Smith, Charles D. Hubbard, Bert Ross, M. Rogers, Claude Aylesworth, C. H. Moore, V. G. Davis, Wayne Adams, Kenneth Burrows, B. F. Meek, and T. C. Hurst.

FPB Suspends Two Required Reports

KILGORE—(AP)—The Federal Petroleum Board announced here Saturday the suspension of two monthly reports previously required from 294 oil fields in Texas, Louisiana and New Mexico.

Discontinued were the producers monthly report (Form P), formerly submitted by lease operators, and page 1-A transporters and storers monthly report (Form T) pertaining to detailing of runs from individual leases.

The notice does not affect the East Texas field, the board said.

P-TA Hallowe'en Carnivals Termed Most Successful

Establishing new records in attendance, interest, profits and fun and gaiety, the annual P-TA sponsored Hallowe'en carnivals were held Friday night in the South, West and North Elementary Schools, while John M. Cowden Junior High School staged its celebration on Lackey Field.

The high school carnival was held Saturday night in the gymnasium, with a huge, colorful and holiday-spirited crowd in attendance.

Both adults and children enjoyed the shows, which were designed for the entertainment of the entire family. The youngsters attending were attired in typical Hallowe'en costumes, and had the "time of their lives."

No Vandalism
Police Chief Jack Ellington said Saturday it was a quiet and peaceful Hallowe'en night with no vandalism or serious damage reported. He attributed the lack of boisterousness and vandalism to the school carnivals which were started several years ago as a means of providing wholesome entertainment for youngsters and to keep them off the streets.

Each carnival featured special booths including the familiar cake and candy walks, spook shows, fish ponds, fortune tellers, cat racks, sandwiches and others. A special feature of the West Elementary show was the "Fairyland Exhibit."

Proceeds from the carnivals, reportedly in excess of last year's profits, will be used in financing activities and providing special equipment by P-TA units within their respective schools.

Chairman of the various school carnivals Saturday expressed appreciation to all individuals, firms and organizations who cooperated and assisted in the staging of the successful events.

Building Permits Are \$36,000 With Year, \$3,403,220

Midland's building permits pushed on toward three and one-half millions during the week ending Saturday with \$36,000 added to bring the 1947 figure to \$3,403,220.

Largest permit of the week went to John Mills to build a \$10,000 residence at 501 East Broadway Street. Size will be 41 by 56 feet and materials will be lumber, concrete and brick. The residence will be veneer-type.

Another residence permit was issued to J. K. Redden for an \$8,000 brick veneer. Size will be 69 by 25 feet and location is 606 East Broadway Street.

Bob Scruggs Motors took an \$8,000 remodeling permit. The front of the 42 by 30 feet business structure will be completely remodeled with brick and glass. Location is 624 West Wall Street.

Other permits of the week: N. G. Baker, \$2,200, move a frame structure for a business to 605 South Terrell Street, size 20 by 30 feet; H. S. Scott, \$3,500, rock garage at 406 East Broadway Street, size 32 by 37 feet; Paul Brooks, \$2,000, add to business structure at 120 South Main Street, size 25 by 40 feet, material to be concrete blocks; Will Jones, \$600 to move frame residence to 911 North Mimosa Street, size 13 by 36 feet; and E. V. Jennings, \$1,700, frame residence at 107 East New York Street, size 20 by 24 feet.

Highway Bids Due November 13-14

AUSTIN—(AP)—Bids on highway projects estimated to cost \$4,175,000 will be received by the State Highway Department November 13 and 14, State Engineer D. C. Greer announced Saturday.

It was the smallest volume scheduled for bids at any one letting since last May. It includes 172 miles of farm roads and 91 miles of primary highway improvements.

Projects on which bids will be received (by counties) include: Midland—Farm 715, 5.38 miles grading, drainage structures, flexible base and double asphalt surface treatment from a point two miles southeast of Midland on State 158 South.

Winkler—Farm 703, 20.96 miles grading, stabilized foundation course and double asphalt treatment from Kermit to Andrews County line.

Louis Bartha Heads Accountants, Sets Tax Clinic Opening

Louis A. Bartha, recently-elected president of the Midland-Odessa chapter of the Texas Association of Public Accountants, announced an income tax clinic to be conducted in the Midland High School at 5 p. m. each Saturday, beginning November 8.

The purpose of the clinic, Bartha says, is to discuss such income tax problems as the membership may select.

The first lecture will include income tax problems of the oil industry. All accountants and attorneys in this area are invited to attend.

'Duel In The Sun' Is At Cactus Theater

Starring Jennifer Jones and Gregory Peck, "Duel In The Sun," said to be one of the greatest motion pictures Hollywood has produced, will be shown at the Cactus Theater on the West outskirts of Odessa Sunday and Monday.

Told against a background of post-Civil War Texas, the screen play was written by David O. Selznick as suggested by Niven Busch's novel. King Vidor is the director.

The picture is in technicolor.

TRAVEL

Your Travel Agent in Dallas should be the Fred L. Haskett Travel Service for ours is a home concern and the oldest exclusive firm in Texas which maintains an open office during the war.

Your Travel Agent is the local booking office where Travel and Vacation information is available and never a service charge.

We enable you to arrange everything under one roof. We sell airplane, steamship, railroad and bus tickets, too.

We can save you time and money by having at our fingertips information and data on all transportation companies and hotels, that would take you hours, perhaps days to obtain.

We know routes, hotel rates and accommodations. We can suggest all-expense tours, and cruises, or sit down with you and plan a personal tour.

For these benefits you pay the published tariff fares of the transportation companies, regular hotel rates, and sightseeing charges. All inclusive tours sold at published rates. Remember, Fred Haskett never makes a service or extra charge.

You get a dividend—in convenience, in personalized travel service in the confidence that your trip is planned right from start to finish. An individual trip or tour will be arranged for you at no service charge.

You will have lots more fun and enjoyment if you will permit the FRED L. HASKETT TRAVEL SERVICE, 211 North St. Paul St., Dallas Athletic Club Building, Dallas, Texas, plan the itinerary. Telephone C-3577 or R-1460.

COUNTY JUDGE RESIGNS

SHERMAN—(AP)—Collin County Judge Jim C. Cantrill has resigned to accept a position with the Central National Bank at McKinney, effective January 1.

TUNA RECORD

WEDGEPORT—(NEA)—Nova Scotia's tuna angling season ended with a record total of 481 bluefinns captured. The total weight boated was 229,864 pounds.

ANOTHER ALDRICH

HOUSTON—(NEA)—Joe Watson, Rice's 230-pound sophomore center, is reminiscent of Kl Aldrich, former Texas Christian All-American. Both hail from Temple.

Two Wildcats Will Be Drilled Deeper

STANOLIND FILES APPLICATIONS FOR TESTS

Stanolind Oil & Gas Company has filed applications with the Texas Railroad Commission to deepen two wildcats, one in Cochran County to 12,300 feet and one in Pecos County to 7,400 feet.

The exploration in Pecos County is No. 1 Hinyard Land & Cattle Company, 660 feet from south and west lines of section 29, block 144, T&STL survey, and 18 miles east of Fort Stockton. The original contract depth was 6,400 feet, rotary is being used. It is now drilling lime and shale below 5,903 feet.

The No. 1 M. J. Hall, in Cochran County, 660 feet from north and 538 feet from west lines of section 13, block 5, pd survey, is the deeper test to 12,300 feet. It is now drilling beyond 10,960 feet in lime and shale, which is 960 feet below the first contract depth.

OLSON-WAHLENMAIER TEST TO SET CASING SOON

Olson Drilling Company and E. M. Wahlenmaier No. 1 Arthur Sturart, 660 feet from south and 1,930 feet from east lines of section 63, block 7, TW&NG survey, and 18 miles southeast of Sonora, of Sutton County, is going in the hole to plug back to 4,175 feet and set 5 1/2-inch casing at 4,135 feet.

A one hour and 40 minute drillstem test was taken at 4,213-4,240 feet. Gas was at the surface in 22 minutes at an estimated rate of 150,000 cubic feet per day. The recovery was 140 feet gas cut drilling mud.

SLICK-URSHELL TEST IS DRILLING AHEAD

Slick-Urshell Oil Company No. 1 D. L. Alford, 2,173 feet from west lines of section 50 1/2, block Y, P. B. Scott survey, in Upton County is drilling ahead below 11,606 in lime.

A drillstem test was taken at 11,505-588. The tool was open for six hours. Gas was at the surface in 18 minutes. Recovery was 1,000-foot water blanket, 1,800 feet of

Continental Airlines Air Freight Increases

DENVER — Reflecting the increased reliability of air freight throughout the six Western and Rocky Mountain states served by Continental Air Lines, a total of 14,254 ton miles of cargo for September was announced by John A. Smith, cargo sales manager, compared to 6,777 ton miles of air express carried during the same month.

Smith said this is the first time in the history of air transportation that a so-called "regional" carrier has doubled its air freight traffic over the air express shipments.

Popularity of air freight with today's shippers is due to increased services, better handling, and larger airport facilities to expedite the more bulky shipments, Smith said.

New Wildcats To Drill Soon In New Mexico

HOBBS, N. M.—Locations for wildcat petroleum ventures in Northeast Lea County and in the west-central section of the same county, have been reported for immediate drilling.

Magnolia Petroleum Company No. 1-A Santa Fe, located 660 feet from south and east lines of section 30-9s-36e, is the Northeast Lea County prospector. That puts it about six miles north of a recently completed dry

had indicated slight possibilities of developing some sort of production from those streaks. The project drilled to a bottom of 9,152 feet in the Ellenburger and found only salt water in that formation. The zone has been plugged back. Prospector Drills Deeper

Amerada Petroleum Corporation No. 5 Phillips, deep prospector in the Monument shallow field of Central-East Lea County, and 660 feet from north and east lines of section 1-20s-36e, had reached

9,905 feet, in an unidentified horizon, and was drilling ahead toward 12,000—or the Ellenburger—which comes first.

Amerada No. 2 Record, another deep wildcat, in Central-East Lea, and 1,880 feet from north and 663 feet from east lines of section 25-19s-36e, had penetrated below 8,761 feet in an unidentified lime, and was continuing to make hole.

Amerada No. 8 Andrews, 589 feet from north and 731 feet from west lines of section 12-20s-36e, and a scheduled 12,000-foot wildcat, in an old shallow oil field, had progressed under 4,769 feet in lime, and was drilling ahead.

Make More Hole

Emperor Oil Company No. 1 Amerada-State, wildcat to 4,500 feet, about three and one-half miles west of the Eunice field, and in southwest quarter of section 20-21s-34e, had drilled past 3,345 feet in anhydrite, and was making more hole.

Barnsdall Oil Corporation No. 9 Alaska Cooper, wildcat to 7,500 feet to explore through the lower Permian, in the old Monument shallow field, and 554 feet from north and 766 feet from east lines of section 12-20s-36e, had reached 3,536 feet, in anhydrite and lime and was drilling ahead.

Richfield Oil Corporation No. 1-A Trigg, Southeast Chaves County prospector to approximately 9,000 feet, and 660 feet from south and 1,980 feet from west lines of section 35-14s-27e, had penetrated below 6,667 feet in dolomite and lime, and was boring ahead with rotary.

Permian Basin OIL & GAS LOG

James C. Watson
oil Editor

drilling mud, 2,400 feet of mud, and 2,400 feet of 50.8 gravity oil.

HUMBLE COMPANY COMPLETES NO. 2-F R. B. COWDEN TEST

Humble Oil & Refining Company No. 2-F R. B. Cowden, in the Andector-Ellenburger field, 660 feet from south and east lines of section 11, block 45, T-2-N, T&P survey, in Ector County completed on a 24-hour flowing potential, through 1 1/4-inch choke, for 389.75 barrels of 43.1 gravity oil. The gas-oil ratio was 550-1.

The pay section between 8,608 feet and 8,635 feet was treated with 500 gallons of acid.

CROUCH-TEXZONA WELL COMPLETES 24-HOUR TEST

Louis Crouch and Texzona Producing Company No. 1 John Camp, 330 feet from north and west lines of section 14, block 56, T-2, T&P survey, and five miles northeast of Orla, in Reeves County, finished flowing, through 10/64-inch choke, natural, on a 24-hour test for 65.40 barrels of 42 gravity oil. The gas-oil ratio was 620-1.

The productive section was at 3,280-3,298 feet. The suggested field name for this producer is "Orla", the same which was suggested for the same operators No. 1 Tunstill.

SHELL'S NO. 3-A COWDEN FLOWS 88.8 BARRELS ON TEST

Shell Oil Company, Inc. No. 3-A Cowden, 661 feet from north and 680 feet from west lines of section 1, block 45, T-1-N, T&P survey, in the Andector field of Ector County completed flowing, through 1 1/2-inch choke, on a 24-hour test for 88.8 barrels of 44.1 gravity oil. Gas-oil ratio was 468-1.

The pay section at 4,998-8,589 feet was acidized with 500 gallons.

STANOLIND AND SHELL COMPLETE NEW PRODUCER

Stanolind and Shell No. 4-C R. A. Wheeler, 660 feet from south and 1,988 feet from west lines of section 12, block B-7, pd survey, completed on a 24-hour potential for 117 barrels of 35 gravity oil. The gas-oil ratio was 947-1. It flowed through 20/64-inch choke.

The pay zone between 8,465 feet

and a plug back depth of 8,595 feet was treated with 7,000 gallons of acid.

PRODUCER COMPLETED BY SHELL AND STANOLIND

Shell and Stanolind No. 2-B R. A. Wheeler, 1,980 feet from north and west lines of section 16, block 46, T&P survey, in the Wheeler-Ellenburger field of Winkler County, finished flowing, through 12/64-inch choke, natural, on a potential test for 270 barrels of 45 gravity oil. The gas-oil ratio was 1,272-1.

The production zone was between 10,532 feet and 10,572 feet.

Cocky? And How

This New Hampshire rooster has a right to be cocky. It was recently purchased at the ROP cockerel auction in Peoria, Ill., for \$300, reportedly the highest selling price ever recorded for any similar bird. The rooster will be used for breeding purposes.

Baylor Files Suit In \$1,000,000 Will Dispute

SAN ANTONIO —(AP)— Baylor University has filed suit for declaratory judgment against Mrs. Raymond Briggs Ogilvie, and others, involving almost \$1,000,000 left in the will of Dr. Henry Houston, Ogilvie, prominent San Antonio doctor who died June 15, 1945.

The Baptist school at Waco has asked judgment on the ground that due to various contentions of persons named in the will it is impossible for the doctor's will and estate to be administered.

Attorneys of the university claim the school became the principal beneficiary following the death of Virginia Ogilvie, daughter of the doctor, on July 22, 1946.

Mrs. Raymond Briggs Ogilvie contends that the will and trust agreement is null and void and should be annulled.

Lone Star Oil Roundup

Texas Motorists Facing Gasoline Price Increase

By MAX B. SKELTON

HOUSTON —(AP)— Texas motorists, with sufficient living cost worries already, this week are facing another boost in retail gasoline prices.

While only three Texas operators, Texas, Gulf and Magnolia, had announced the boost resulting from the 25-cent October 15 jump in crude oil prices, through Thursday night, it is known that practically all others have the step under consideration and that announcements can be expected momentarily.

Gulf Oil Corporation and Magnolia met Texas Company's announcement of a five-tenth cent per gallon boost in tank wagon prices of gasoline. Texas' boost was effective Wednesday.

Gulf also jumped kerosene tank wagon quotations by six-tenth cent per gallon.

Prior to the Texas Company announcement, premium grade gasoline over the state sold generally at 23 1/2 cents a gallon, including 5 1/2 cents state and federal taxes.

Spokesmen for Attorney General Price Daniel at Austin termed the Supreme Court's striking the word "proprietaryship" from the California Tidelands judgment "the first real victory for the states in the tidelands case."

The Supreme Court took the action Monday while striking out two stipulations, previously entered into among Atty. Gen. Tom Clark, Secretary of the Interior J. A. Krug, and Atty. Gen. Fred N. Howser of California, as "irrelevant."

The Austin statement said the Monday decree "shows the question of ownership was definitely not decided" by the California case and the whole matter is now up to Congress.

Daniel, meanwhile, was in Boston, where he urged the National Association of Attorneys General to seek congressional legislation to establish state dominion over tidelands waters.

Back in Austin from the Southern Governors Conference Gov. Beauford Jester said at least 28 other governors have contacted members of Congress from their respective states, urging such legislation as advocated by Daniel at Boston.

Texas' 105,000 oil wells are at maximum production at present and probably will be unable to increase output to meet an anticipated additional demand during 1948, William Murry, member of the State Railroad Commission, said in Austin.

Pointing out that the East Texas allowable will drop 18,000 barrels daily in November, the commissioner said "if we are producing all we

OIL MEN COOPERATE IN HOSPITAL DRIVE

—Many Midland oil men, both independents and representatives of oil companies, have pledged their cooperation to assure the success of the campaign to obtain \$600,000 for the Midland Memorial Hospital. A number of these men already have rolled up their sleeves in the task to assure construction of a modern hospital for Midland and the Permian Basin area, and others will join the campaign forces in a few days.

OIL MEN ALSO ARE BUSY IN COMMUNITY CHEST

—A number of important positions in Midland's first annual Community Chest are held by men from the oil fraternity of the Permian Basin capital. When names of workers on civic projects are released, the names of men from the petroleum industry become more numerous as Midland develops as the major oil center of this vast area.

MORE AIR SERVICE NOW AVAILABLE IN MIDLAND

—With the advent of service Saturday here by American Airlines, three airlines now serve Midland and the Permian Basin and its huge oil industry. They are Continental, Pioneer and American.

—The oil industry long a pioneer user of airplanes and air transportation has been cooperative in every phase of Midland's efforts to make this city the air capital of the vast area.

COMMON HEAD COLD FLOORS OLD MAESTRO

—James C. Watson, Reporter-Telegram oil editor and proprietor of this column, was ordered to bed by his physician Saturday until he recovers from a serious cold. Meanwhile, his associates and friends are carrying on his activities as best they can until he recovers completely from the ailment.

MAGNOLIA PRODUCTION HAS NEW CHIEF CLERK

—R. P. Turman is the new assistant chief clerk of the Magnolia Petroleum Company's Midland Division of the production department. Mr. and Mrs. Turman who moved here from Dallas have obtained an apartment.

ELDERKIN IS MANAGER OF KARGL AERIAL SURVEYS

—Kargl Aerial Surveys continues to operate and serve oil companies for maps.

—Gordon K. Elderkin, who was assistant engineer on the construction of the original Midland base map made in 1937 and has been in charge of production of work for the company with the exception of the time he served in the Navy during the war, is manager of the organization.

—The company, at present, has regional base map coverage on West, Central and Northern Texas, Eastern New Mexico, Oklahoma, Kansas, San Juan Basin, Eastern Utah, and Wyoming. It has aerial photographic coverage on portions of West Texas and Southeastern New Mexico.

—Maurice Crawley, who is known in Midland for his work in the reproduction business is in charge of Kargl's reproduction plant.

Senate Committee Studies Tidelands Case

WASHINGTON —(AP)—The staff of the Senate Judiciary Committee is studying all angles of the problem of ownership and development of minerals in tidelands in preparation for possible legislative action.

A measure, introduced last session by Senators Moore (R-Okla.), McCarran (D-Nev.) and Knowland (R-Calif.), calls for the federal government to renounce and disclaim right and title to the tidelands. It would provide for quitclaim of title to such lands.

In view of the recent Supreme Court decision, holding that the federal government has a paramount interest in the tidelands off the West coast, some of the committee staff members believe that the legislation, may have to be amended or an entirely new measure introduced.

This revised legislation, one member suggested, should provide for transfer of title to the state in view of the Supreme Court's ruling.

Bobcats Beat Bulldogs In Scoring Spree, 33-13

Sports

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, NOV. 2, 1947

★
Down
SPORTS
Lane
★
with TANNER LAINE

Dunny Goode of Midland is the fastest back in District 3-AA, and why limit it to such small geography—the fastest back in West Texas.

The fleet Bulldog griddy electrified a huge audience at the San Angelo-Midland game Friday night with an 86-yard sprint for a touchdown from a kickoff. In high gear for the last 50 yards, Goode simply shot ahead with his pursuers failing, failing, failing.

We will get some static from West of here on this, but we stick by the guns of our opening assertion, Gerald Campbell and Byron Townsend, notwithstanding. In fairness to a couple of fine young athletes we concede: Campbell is a faster starter than Goode; Townsend has more power in his runs. But Goode is still faster than either.

Run every back in the district from one end of the gridiron to the other, post to post, and Dunny Goode will be first. And we don't care if you run them in football uniforms or track suits.

Last Spring Campbell nosed Goode in the 100-yard dash in a track meet at Odessa. Two weeks or so later Goode beat Campbell a full stride in a 99-second century dash in the district meet here at Midland. Townsend was a few steps back in third place. A hot sprint battle was predicted in the regional meet but it failed to materialize when Goode jumped the gun and was disqualified.

We dare say Townsend could give Goode the hardest run in a football suit for the distance of a football field because the Rose is larger. Big men carry football suits better than do little men, and that is why Campbell would trail them both. Goode weighs 160, Townsend 180, and Campbell 140. Football gear weighs 22 pounds or so.

There are many good and fast backs in the conference, including Dobbyn of Abilene, Gray of San Angelo, Lambert and Dulaney of Sweetwater, Berry of Big Spring, and one or more Lamesans. But for ole speed, Goode is the boy.

With a change of pace, side-stepping, knack for missing tacklers, and—most of all—downfield blocking help from his mates, Goode would have run wild this season. On the Odessa eleven he would be all-state.

The Midland back still is a strong contender for all-district honors. He's fast, brother; he's fast.

Golden Gloves is not the punch-drunk, cauliflower ear type of boxing. Golden Gloves stands for clean and sportsmanlike "manly art of self defense."

Midland has a program of Golden Gloves now, and it is good for the boys down that way are taking part at the nightly workouts in the high school gymnasium.

Joe Shell, coach and director, and his volunteer assistants, Pat and Tommy McMillan, deserve a big hand for their fine work with the boys. And the Midland VFW post merits praise for buying equipment for Golden Gloves and sponsoring the sport in our city.

As soon as his fighters can make a fair showing Shell is going to get matches with Odessa, Big Spring and probably other cities.

We venture every school in 3-AA is working out now for basketball except Midland. We know San Angelo is. We caught the Bobcats in the act while down that way Friday. We know Odessa also is cage drilling. So is Big Spring. For sure that Lamesa, Sweetwater, Abilene are, we don't know, but would bet. However, let them... Coach Jack Mashburn is going to have a real band of basketeers at Midland and don't you forget it. The return of Herman Hankla recently was a cheering note in the Midland basketball song. He, Hot Harris, Dunny Goode, Larry Messersmith, Fred Dunn, and others, are going to give the Purple a cruck cage team.

On the subject of basketball, Continued on page 7

Dunny Goode Races For Long 86-Yard Touchdown

By TANNER LAINE

BOBCAT STADIUM, SAN ANGELO—A wild offensive football battle raged up and down this turf Friday night, and when it was over the San Angelo Bobcats had outscored the Midland Bulldogs, 33 to 13.

It was a 3-AA conference game and it was a thriller. A gay Hallowe'en crowd saw the cutting of all kinds of offensive capers. First one, eleven, and then the other, would roll.

Look here: First downs, Midland 17, San Angelo 21, yards gained rushing, Midland 285, San Angelo 462; add this kind of action to seven touchdowns of scoring, long drives, tingling passes, and Midland's Dunny Goode's brilliant 86-yard return of a kickoff to a tally, and you have a lulu of a ball game, regardless of which team won it.

San Angelo deserved to win, but Midland had its spotlights. And one of these was at halftime when the MHS Band and Gold Jackets electrified the stands with a clever performance, which brought as many cheers as the high-scoring ball game produced.

Fullback Goode made both of Midland's touchdowns. His first was in the third quarter when he ran wide to his right, then cut back sharply over tackle for four precious yards and a touchdown. Charles Ruckman, reserve back, came in to droklick goal, but his effort was futile. This touchdown parade was 63 yards long.

In the fourth quarter, Goode really put on a show. He took a Bobcat kickoff on his own 14-yard line and went all the way to a score, a center of 86 yards. The fleet Bulldog applied to the sideline, turned on his dazzling speed, got good blocking from his mates about the middle, then fairly shot away from the bunch and over the line, all alone and churning like a locomotive in full-throttle. R. A. (Zull) Whitson, blocking back, booted the extra point.

San Angelo tallied the first time it got the ball in the first quarter. After Midland could not go with the initial kickoff and had to punt to the Bobcat seven-yard line, the home boys were off for their parade of touchdowns. The punt was returned to the 13-yard line. From that point the Cats drove on down to the Midland 42. Then little Tommy Gray, Bobcat left halfback, bolted into the open and ran all the way. Gray began the dash through a graining hole at tackle and side-stepped his way through the secondary.

Midland was still very much down there on that gridiron, and the Bulldogs drove 43 yards, to the Bobcat 23-yard line, before faltering. That was the first quarter.

The second quarter was scoreless, leaving the San Angeloans only a slim 7-0 margin at halftime. In the second period Goode and Company swept to the Bobcat eight-yard marker after a sustained push of more than 60 yards, but were stymied.

It was developing into a battle of crash the tackle, spin into the open and run, run, run. Three minutes had elapsed in the second half when San Angelo was off again.

The Bobcats rolled 73 yards for a touch. A roughing penalty set Midland back to its 10, and a line stab by San Angelo got to the six. Fullback Lanny McKinney took a wide lateral and galloped around left end for the score.

Midland was not fully recovered and fumbled the kickoff on its 45. San Angelo gobbled it up and was off again to the promised land. Eddie Mee, right halfback, made the counter with a dash of 21 yards over center, then wiggling across. This made it 20-0 as the third quarter waned. Midland then scored.

Here came Goode. San Angelo opened the fourth with a touchdown. A 60-yard drive paid off. Mee made the last three yards and the score straight over center. The Bobcats had a 26-6 lead. Then they kicked off, and this was when Goode came flying back through them for the second Midland touch. Score: San Angelo 26, Midland 13.

The Cats said goodnight with a final tally in the late fourth. McKinney, on that squinting lateral and run wide, crossed the mark from any yard out, after a 44-yard drive with a roughing penalty on Midland setting it up.

Don Wells, substitute Bobcat back, kicked three of five conversion tries, coming into the game for that purpose and then exiting. Midland was not whipped by any means. The Bulldogs wouldn't say out and drove to the San Angelo 14-yard marker as the game ended with Goode hitting Bill Little with a pass to that point as the high blood pressure contest closed.

The scoreboard:

Shoot For Turkeys At MGC Event

Midlanders will be shooting for their Thanksgiving turkeys Sunday in the first turkey shoot of the year at the Midland Gun Club on West Highway 80.

The event is sponsored by the Midland Rifle Club, an affiliate of the Midland Gun Club. Starting at 10 a. m., shooters were allowed to use .22 rifles, deer rifles, shot guns, or even muzzle loaders. Guns were available for those without weapons. Men, women and children were invited to participate in the shoot. Many spectators were expected to attend and watch the shooting.

Notre Dame Sinks Middies, 27 To 0
CLEVELAND—(AP)—Notre Dame's alert and magnificently equipped gridirers turned three Navy fumbles and an intercepted pass into touchdowns Saturday to sink the Middies, 27 to 0, and rolled on toward the national championship with their fifth straight conquest.

The South Bend sensations scored in each of the first three periods, and only a fumble on the goal line kept them from hitting pay dirt in the final stanza with a lineup of third and fourth stringers.

Altar fires in Aztec cities were so numerous they provided good illumination at night.

Permian Basin Roundup— Monahans, Seminole Are Locked In Hot Stretch War

It's Monahans and Seminole in the stretch battle of Permian Basin A-class football. The Loboes and Indians respectively have five wins against no losses. When these two standouts meet November 14 the impact will be terrific.

Friday Monahans kept its slate clean with a 21-12 licking of Andrews, a stubborn aggregation. Seminole was doing all right too with a 25-0 blanking of Kermit.

Monahans Bumps Andrews, 21-12

MONAHANS — The Monahans Loboes kept their District 7-A slate clean with a hard-earned 21-12 victory over the Andrews Mustangs here Friday night.

Waldo Young scored for Monahans in the first quarter and Arlen Donaldson added the extra point to give the Loboes a lead they never relinquished. Jack Young reared 65 yards for an Andrews touchdown in the first quarter but the extra point try failed.

The second quarter was scoreless and Monahans led at the half, 7-6. Wendell Uechi took the opening kickoff in the second half on the Monahans 18-yard line and ran it back to the Andrews 20. On the first play from scrimmage Carl Griffin scampered 20 yards for a touchdown and Donaldson again added the extra point.

Andrews took the next kickoff and on a series of line plays rolled to the Monahans 15 where Young passed over the goal line to Farris Hamilton in the end zone for an Andrews touchdown. Again the try for extra point failed.

In the fourth quarter Monahans moved to the Andrews 30 and Carl Griffin took a lateral from Uechi and went the distance for another Lobo touchdown. Donaldson again added the extra point.

Monahans scored two touchdowns that were nullified by penalties. The victory leaves the Loboes with five wins against no losses.

Seminole Trims Kermit By 25-0

KERMIT—The Seminole Indians kept step with the Monahans Loboes in the District 7-A title chase here Friday night, scalping the Kermit Yellow Jackets 25 to 0 to remain in a tie with the Loboes for first place. Both clubs have five district victories.

Val Joe Walker and Bobby Hunter reeled off several long dashes for the Indians, although the touchdowns came on short gainers. Walker rang the scoring bell twice for the Warriors, and Hunter racked up one touchdown. James Powell accounted for the other Seminole score.

Wink Wildcats Claw McCamey Badgers, 19-0

MCCAMEY — Wink's Wildcats blanked the McCamey Badgers 19 to 0 in a rather listless ball game here Friday night in which the Badgers never mustered a scoring threat.

The Wildcats punched over touchdowns in the first and second periods to take a 13-0 lead at halftime. The Wildcats scored their final tally in the third quarter and substituted freely in the latter part of the game.

Crane Sews Up 5-A, Beats Iraan, 39-0

IRAAN — Crane High School's football team beat Iraan 39 to 0 here Friday night, clinching the District 5-B championship for the Cranes.

The easy victory, in which Crane piled up 346 yards gained rushing to Iraan's 58, made the fourth win for the Cranes. Iraan racked up four first downs to Crane's 16.

Scorers for Crane were McCully, Henderson, Mathis, Pearce, and Reynolds. Collins kicked three extra points after touchdown. Whatley, Simon and Coker, linemen, were outstanding on defense.

COLLISION REPORTED
Police reported a collision Saturday at the intersection of Fort Worth Streets between cars driven by Mrs. Ira Louellen and D. M. McPeak. No injuries were reported.

U. S. Wins Four Ryder Cup Matches

PORTLAND, ORE. —(AP)—The United States swept all four matches of the Ryder Cup golf series Saturday to go into a 4-point lead over Britain in the revival of the International competition.

HURT IN FIGHT
Pat Knight of Florida, an employee of a carnival now showing in Midland, was treated at a Midland hospital Saturday following a fight in which three Midlanders were involved, police reported.

Mustangs Humble Longhorns In 14-13 Thriller

South Teams Win Over North In Elementary Sports Games

Last Thursday afternoon at the South Elementary School campus playing fields, it was all "South" as this school's boys' football team beat North Elementary, 36-0, while the sisters were beating out the North girls in kickball, 20-12.

The South boys did not tarry in barring the North. Duke Fry intercepted a North pass and set up the next play, which was Woodie Baker's touchdown over the middle. Jimmy Garvin, South, took over after an exchange of punts and raced around end for six more points. Tommy Johnson, South captain, raced over four touchdowns as the landslide continued. David McKinney, Cleon Brown,

Mrs. Harkrider Fires 93 Low In Women's Meet

Mrs. Bill Harkrider fired a low 93 to pace the 17 qualifiers in the Midland Country Club's women's tournament Friday.

Matched play begins next Friday and continues on three weekends.

Other qualifiers are: Mrs. H. S. Forgeron, Mrs. James Chapple, Mrs. Arch Clevenger, Mrs. Francis Flournoy, Mrs. Bob Payne, Mrs. Leif Olson, Mrs. Payton Anderson, Mrs. Pete Neisel, Mrs. Phil Yeckel, Mrs. Paxton Howard, Mrs. A. Knickerbocker, Mrs. Van Ligon, Mrs. Warren Cantrell, Mrs. Morris Norton and Mrs. Bill Pomeroy.

TCU Defeats Baylor, 14-7

WACO — (AP) — Texas Christian's Horned Frogs stayed in the Southwest Conference flag race Saturday by whipping a fumbling Baylor team, 14 to 7, before a Baylor homecoming crowd of 16,000 at Municipal Stadium.

Baylor's always-dangerous ground game kept the first outcome of the contest highly in doubt until past midway of the fourth quarter, when a pass from Berry to Bill Moorman clinched the game for Texas Christian.

Both teams fumbled frequently, and at crucial points, with Baylor losing the ball several times after drives that were near pay dirt or threatening to develop into dangerous offenses.

Berry's touchdown, the first of the game, came in the second period on a sweep to the left following a Baylor punt that went for only 9 yards.

Baylor tied the score in the third on a march that started deep in its own territory. Line plunges and end sweeps carried to the TCU 32, with Lyle Blackwood doing most of the work. Then Jack Price faded to pass, stumbled, whirled and threw to George Sims. Sims kicked up dust at the flag as he went over to score. Henry Dickerson place-kicked the extra point.

The Frogs scored again in the fourth. Line plays put the ball on the Baylor 20, then Berry passed to Charlie Jackson on the Baylor five, and pitched to Bill Moorman over the heads of the Baylor defenders for the final score. Pitcock's kick was good.

SMU Only Southwestern Team Undefeated, Untied

DALLAS — (AP) — Magnificent Doak Walker passed, ran and kicked Southern Methodist to a 14-13 victory over Texas Saturday in a thrilling offensive duel that left the Methodists the only undefeated, untied team in the great Southwest.

The chunky little man from Dallas bested Bobby Layne, his schoolboy pal of yesterday, in the heralded individual battle of stars, but even in defeat Layne, Texas' passin' man, was a glittering standout in a battle that had the crowd of 45,000 in a continuous uproar.

A Walker pass set up the first touchdown, and he took a pass to lead to the other. Then he planted both extra points between the goal posts as SMU took over leadership in the Southwest Conference race and started eyeing the Cotton Bowl, where the conference champion is the host team.

The Methodists broke in front three minutes after the game started and never were headed, although Texas drew into a tie early in the second period. It was short-lived, however.

Paul Page romped 81 yards with a hand-off from Frank Payne on the opening kickoff, racing to the Texas 19-yard line, and it required only six plays for SMU to score. Three line tries failed, but Walker passed to Dick McKissack on the four, McKissack made a yard at the line, then Walker handed off to Page, who circled left end for the score.

Layne passes led to both Texas touchdowns.

Landy Climbs Over
Late in the first period, after Byron Gillory ran a punt back to the Southern Methodist, Layne pitched to Dale Schwartzkopf for eight and to Max Bumgardner for a first and on the SMU 13. Jim Canady hit left guard for four, and Tom Landry rapped left guard to drive to the three. Canady then made two at right guard, and Landry climbed over the same position for the score. Frank Guess kicked the extra point.

Southern Methodist grabbed the lead back midway of the second period. It was on a 73-yard drive, with a 54-yard pass play from Gilbert Johnson to Walker eating up most of the distance. Walker was knocked out of bounds on the Texas one-yard line by Gillory. McKissack crashed center for the touchdown.

The final Texas score came early in the fourth period. Texas drove from its 28-yard line on Layne's great passing. First he flipped to Schwartzkopf for 21 yards, then to Peppy Blount for 26. Three line tries failed, and Layne passed to Gillory for a touchdown. Guess' try for extra point was wide.

Walker, who played the full 90 minutes, did the following: Carried the ball 17 times for a net of 47, completed two passes out of two for 24 yards, received one pass for 54 yards, returned two punts for 30 yards, returned one kick-off for 13 and intercepted a Layne pass that was labeled "touchdown" on the SMU seven-yard line.

Layne had a good day at passing, throwing 15 and completing nine for 120 yards, but he was rushed viciously on all his throws and at one time was hit as he attempted to pass and dropped the ball with SMU recovering. Layne also carried the pigskin six times for 21 yards.

It was a crashing, bruising game but penalties were few. There was not a single roughing assessment.

Texas got 76 yards on the ground and 120 in the air for nine first downs. Southern Methodist made 108 rushing and 91 passing for seven. SMU bested Texas in the overall gain by three yards.

Texas' final chance to win the game was late in the fourth period, when Gillory ran a punt back to the Methodist 41. The Longhorns smashed down to the SMU 31 and had a yard to go for a first down, but Quarterback Layne chose a fumble rather than a pass, and SMU stopped the Longhorns and took over.

A brilliant punting duel was staged by Southern Methodist's Ed Green and Texas' Frank Guess. The former averaged 39.5 yards and Guess an unbelievable 51.8.

BRUSH FIRE DESTROYS HOUSES NEAR ROCKPORT
ROCKPORT — (AP) — A brush fire pushed by a brisk wind destroyed at least seven houses in the Fulton Beach Community and menaced Rockport before it was brought under control late Saturday.

The fire swept a path about five miles long and three miles wide on both sides of Highway 35.

The fox wraps his tail about him, like a comforter, while he sleeps.

Aggies-Arkansas Play 21-21 Tie At Fayetteville

FAYETTEVILLE, ARK. — (AP) — Texas A. and M. and the Arkansas Razorbacks teeter-tottered to a 21-21 draw, and Clyde (Smackover) Scott, slippery-hipped Arkansas spark, staged a sensational offensive show in a Southwest Conference football game here Saturday.

Scott ran 53 yards for one touchdown, passed for another and, netting 115 of Arkansas' 124 yards rushing, dealt the Aggies misery all afternoon. But A. and M., cashing in on two breaks and passing with deadly accuracy, wouldn't be beaten.

All of the scoring except the Razorbacks' last touchdown, which set the tie, came in a dizzy first half. Arkansas jumped off to a 14-0 lead in the first five minutes—the first two times it touched the ball—but the Aggies fought back to lead 21-14 at halftime.

Here's how the touchdowns were scored:

Shortly after the kickoff, Melvin McGaha, Arkansas end, intercepted a pass from the Aggies' Buryl Baty and raced 47 yards untouched for a score. Aubrey Fowler converted. Aggies Block Punt.

After the Aggies received again and punted, Scott, on the first Arkansas scrimmage play, skirted his own right end, evaded a half-dozen Aggies and sprinted 53 yards for a second Razorback touchdown. Again Fowler converted.

Before the first period ended, the Aggies tallied after Stan Holmgren had kicked out of bounds on the Arkansas one-foot line. Fowler's punt from the end zone was blocked by Aggie Guard Charles Overly, and End Merle Prokop covered the ball for a touchdown. John Ballentine converted.

The Aggies went ahead with two touchdowns in the second period. Baty passed to Barney Welch for 35 yards and a score. A few minutes later, Ken Holland's pass was intercepted by Aggie Charley Wright, who ran to the Arkansas 11. Ed Dusek drove to the six, then passed to End Wray Whitaker for a touchdown. Ballentine converted both times.

The tying Arkansas touchdown came on a 33-yard scoring pass from Scott to Ross Pritchard in the final period. Duval Thornton converted.

Sports

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, NOV. 2, 1947-5

Rice Owls Maul Texas Tech, 40-7

HOUSTON — (AP) — Rice's Owls waited an entire quarter Saturday before rolling out a powerful ground and air attack that enabled them to completely overwhelm the Texas Tech Red Raiders, 40 to 7.

The Border Conference eleven, hoping to gain its first victory in four starts this season against Southwest Conference teams, took to the air in the opening minutes of play to take a 7 to 0 lead and gave indications they would not permit repetition of the rout handed them on the same field just a year ago.

Rice did not move into Tech territory the first period, and the tight Red Raider defense was not broken until Halfback Huey Keeney booted a punt that was good for a net 65 yards.

Tech kicked out on the Rice 44 and from that point on the Houston eleven dominated the game.

The Owls drove 56 yards for the first score and followed up with another 58-yard march, mostly through the air, to lead 12 to 7 at the half.

A blocked punt by Guard S. J. Roberts led to a third period score, while in the final stanza, with third and fourth stringers dominating the play, the Owls drove 39 and 34 yards and cashed in on an intercepted pass.

The tight Owl defense held the solution to the one-sided victory. The Red Raiders were permitted a net of only seven yards gained rushing, as compared with 116 in the air.

Rice, however, moved 257 yards on the ground and added another 67 on passes.

Michigan, Georgia Tech, SMU, Notre Dame Turn In Triumphs

By HAROLD CLAASSEN
NEW YORK —(AP)— Michigan, Georgia Tech, Southern California, Penn. Southern Methodist, Penn State, Notre Dame and Army all triumphed Saturday as college football teams turned into November and attendant crucial contests.

Michigan and the SMU Mustangs subdued stalwart conference opponents, the former downing Illinois by 14 to 7 to strengthen its big nine title hopes and virtually assure the Wolverines of a January 1 journey to the Rose Bowl.

Southern Methodist tumbled loose its great back, chunky Duke Walker, who guided his mates to a 14 to 13 decision over Texas that all but decided the Southwest flag winner.

While those two unbeaten powerhouses were disposing of their foes, Notre Dame and Army completed arrangements for their climactic grudge battle at South Bend next weekend. The Irish, making use of every break, capped Navy, 27 to 0, and the Cadets started on a new win streak by punishing Washington & Lee, 65 to 13.

Southern Cal Wins
Georgia Tech overcame bad weather and had punting to down Duke, 7 to 0, and remain unbeaten; Penn State used its entire squad in routing Colgate, 46 to 0. Penn got a measure of revenge for last year's spectacular upset by grinding down Princeton, 26 to 7.

Southern California virtually clinched the Rose Bowl berth opposite Michigan by defeating Washington, 19 to 0, as the surprising California Bears spilled UCLA, 6 to 0.

Michigan's triumph gave Bob Chappuis and his playmates a tight grip on Big Nine laurels, but a revived Wisconsin eleven moved into contention with a 29 to 0 verdict over crippled Northwestern. Third place now is occupied by Purdue's Boiler-makers, who shackled Iowa, 21 to 0. Indiana shoved Ohio State into the loop cellar, 7 to 0, and Minnesota bounced Pittsburgh, 29 to 0, in a non-conference affair.

Missouri Leads Big Six
Missouri took over the Big Six lead with a rousing 47 to 6 conquest of Nebraska, and Kansas remained in the unbeaten list with a 55 to 0 rout of neighboring Kansas State. Oklahoma celebrated its Homecoming with a 27 to 3 verdict over Iowa State.

Alabama, with Harry Gilmer doing the passing and Lowell Tew the running, ended its football relations with Kentucky by downing the Wildcats, a September Southeast Conference title prospect, by a 13 to 0 score. Shorty McWilliams helped Mississippi State to a 20 to 0 edge over Tulane.

Vanderbilt's Commodores had absolutely no trouble with Auburn, 20 to 0, and moved into temporary third place.

William & Mary climbed into third place in the Southern circuit by surpassing Wake Forest, 21 to 0, while Duke and Washington & Lee, circuit leaders, were spilled in their non-conference skirmishes. North Carolina, a title possibility, knocked off Tennessee, 20 to 6, and Furman bowed to Florida, 34 to 7. Maryland lambasted West Virginia, 27 to 0. Vernon Morgan, newly re-instated, played for Richmond, but his team lost to Virginia, 34 to 0.

Lions International Official To Speak At District Meeting Here

R. Roy Keaton of Chicago, assistant secretary-general of Lions International, will be the guest speaker at an area meeting Wednesday night in the Crystal Ballroom of Hotel Scharbauer, when the Midland Lions Club is host to representatives of clubs of District 2-T-2.

James L. Daugherty, president of the Midland club, said more than 100 visiting Lions likely will attend the session. District 2-T-2 extends from El Paso to Loraine and from Lamesa to Alpine. Martin Neill is in charge of program arrangement.

The Midland Lions Club Philharmonic Hill Billy Orchestra will tend the session. District 2-T-2 extends from El Paso to Loraine and from Lamesa to Alpine. Martin Neill is in charge of program arrangement.

Keaton served as secretary of the Lions Board of International Relations and recently attended its meeting in Panama.

He is an outstanding speaker and is one of the most popular men in the Lions organization.

The Wednesday night dinner-meeting, a stag affair, will start at 7:30 p. m.

Keaton returned to Texas in 1939 to become Lions state secretary, a position he held until his appointment as assistant secretary-general in 1945. He established 151 new clubs in Texas during his six years as state secretary.

He has a wide knowledge of Lionism, having traveled extensively and worked with Lions clubs in Mexico, Central and South America, Cuba, Canada and the United States. He was in San Francisco during the formation of the UN Charter and was in New York City at the formal opening of the UN there. He also has attended meetings of the powerful Security Council.

Keaton serves as secretary of the Lions Board of International Relations and recently attended its meeting in Panama.

He is an outstanding speaker and is one of the most popular men in the Lions organization.

The Wednesday night dinner-meeting, a stag affair, will start at 7:30 p. m.

Roy Keaton

Denison Humbles Big Spring, 36-7

DENISON — Without Back Roy Jackson, their pride and joy, the Denison Jackets beat the Big Spring Steers from 3-AA here Friday night, 36 to 7.

The game started slowly with nine penalties called in the first quarter. But the Denison eleven piled up two counters in each of the last three stanzas.

Denison scored in the second quarter with Hill crashing 14 yards, climaxing a 68-yard drive. Next counter came when Ball ran 47 yards to the 10 and scored on the next play. Bowling took the second-half kickoff and ran 90 yards for a Denison tally. A few plays later a pass from Vincent to Lamb took the ball to the Steer one, and Bowling bowled over.

In the fourth quarter, Vincent passed to Powell on a play which netted 46 yards and a touchdown. Finally, Henderson intercepted a pass and ran back to the 14-yard line of Big Spring. Then Vincent tallied after two thrusts.

The Big Spring score came in the third period. Ed Hauser fell on a fumble on the Jacket seven-yard line and on fourth down, Madison banged over from one yard out.

Abilene Bounces Sweetwater, 14-7

SWEETWATER—In a bitter battle, the Abilene Eagles nudged the Sweetwater Mustangs, 14 to 7, here Friday night.

Abilene won the hard way from the stubborn Mustangs, who stormed back to knot the count at 7-7 in the fourth quarter.

Jim Doherty, Eagle ace, ran a punt back 55 yards for the first Abilene score in the opening stanza. King booted extra point.

Jackie Sheets and Baxter Lambert teamed up with Bob Dulaney to drive the ball close for the Mustangs in the third quarter, and Sheets crossed over tackle standing up. Jim Ronemus booted the extra point, and it was tied, 7-7.

Lloyd King began throwing passes and Abilene got near in the fourth quarter. Then King slipped outside tackle to score standing up. He added the point.

Border Motor Vehicle Agreement Effected

AUSTIN —(AP)—A new reciprocal agreement on the operation of motor vehicles in Texas and New Mexico became effective Saturday, State Highway Engineer D. C. Greer announced.

Texas recently abandoned a reciprocal agreement because of New Mexico's refusal to grant full reciprocity to commercial motor vehicles, but that disagreement has been satisfactorily settled, Greer said.

New Mexico operators will not be required to register in Texas, and Texas operators will not be allowed to use Texas license plates without being required to register or to pay the New Mexico road mileage tax.

Greer described the new agreement as a "step forward in the elimination of trade barriers."

UN Council Demands Java Hostilities End

NEW YORK —(AP)—The Security Council Saturday called upon the governments of The Netherlands and Indonesia to enter into negotiations looking toward ending hostilities on Java and, in effect, issued a third cease-fire order to the two countries.

The vote was 7 to 1 with three abstentions. Russia opposed the resolution but withheld its right to veto and abstained along with Syria and Colombia. Poland voted no.

The affirmative group included the U. S., Belgium, Britain, China, France, Australia and Brazil.

Former Texas Attorney Dies in California

LONG BEACH, CALIF. —(AP)—Charles H. Vesje, 60, assistant U. S. attorney here for the last five years, died in a hospital Saturday. He had been ill a week.

He was admitted to the bar in Texas and practiced in El Paso and Amarillo before coming to California.

His widow and two children survive.

Kermit CC In Rental Business On Large Scale

The Kermit Chamber of Commerce is in the housing business in a big way, providing living units for scores of residents of the bustling oil field city, Charles Green, manager of the Kermit Chamber, said here.

The organization now owns and operates 80 apartments, which range in size from efficiency units to three-bedroom dwellings, and is in the process of moving in 48 additional units from Amarillo. The present buildings were moved from Army air fields at Fort Sumner, N. M., and Pecos.

The first 20 units, Green said, were obtained in February, 1946, and were ready for occupancy August 1 of last year. Other buildings were brought to Kermit earlier this year. The former Army buildings have been converted into attractive and modern apartments, each with private bath. One large apartment house is occupied by Kermit school teachers. A dormitory has facilities for 60 single men.

Green said the project, located on five blocks of land owned by the chamber of commerce, has been a life-saver for over-crowded Kermit. Every apartment is rented, and there is a waiting list of approximately 500 persons. From four to 12 applications are received daily. Financed by Merchants.

Many West Texas chambers of commerce have listed housing as a major project, but few have gone into the housing business on such a scale as has the Winkler County capital.

The veterans housing project was financed through loans from Kermit merchants who are being repaid on a quarterly basis. Green said the program is based on a two-year payout. Rentals and collections are handled through Green's office.

The buildings and furnishings were provided by the government, under the Veterans Housing Program, at no cost to the sponsoring organization. The Kermit Chamber has paid for moving and converting the structures. A full-time maintenance man is employed by the organization.

Rental fees, depending on the size of the unit, range from \$29.50 to \$50 per month, Green said. Operating expenses average about \$19.10 per unit per month.

Green, formerly with chambers of commerce at Stamford, Vernon and Abilene, said the need for housing in Kermit still is critical, but he does not look for further expansion of the chamber of commerce project.

"It's just about all we can handle in the way of real estate," he said.

Gift Tea Fetes Mrs. Minter King

Mrs. Bill Jennings, 508 South Main Street, and Mrs. Richard Cautie were hostesses Thursday afternoon at a pink and blue gift tea honoring Mrs. Minter King.

Included in the house party were Mrs. Darrell Welch who presided at the punch service and Mrs. Pat McMullan who had charge of the baby book in which the guests registered. The book was made by Mrs. G. B. Hallman.

Fall floral arrangements decorated the entertainment room.

Guests attending and sending gifts were Mrs. Elwood Hisey, Mrs. F. C. Wheeler, Mrs. Fred Jones, Mrs. L. G. Simon, Mrs. J. C. Mayes, Mrs. S. C. Hanks, Mrs. James D. Wilson, Mrs. G. W. Wright, Mrs. J. P. H. McMullan, Mrs. Grady Jennings, Lucille Johnson, Mrs. Mack Richards, Josephine Skeen, Mrs. S. R. McKinney, Jr., Mrs. Joe Whitmore, Mrs. Tommy McMullan, Mrs. E. M. Watkins, Kathleen Duckworth, Mrs. Thomas Wright, Mrs. Gene Tabor, Mrs. G. H. Higdon.

Another Oil Loading Rack For McCamey

McCAMEY—Work began Thursday morning on a new loading rack for the Texas-New Mexico Pipe Line Company, west of McCamey, which will be increased to 32-car capacity.

Shipments were started by the company the latter part of August from a 14-riser rack. Two 5,000-barrel storage tanks were erected at that time along with the racks to facilitate oil shipments. Crude shipped by the Texas-New Mexico travels by rail to Houston refineries. The bulk of the crude shipped comes from fields near Iran.

But It's Still Not Enough

For the first three-quarters of 1947, America's steel mills produced 32 per cent more steel than in the corresponding nine months of 1946, according to the American Iron and Steel Institute. The January-through-September 1947 production, 62,611,051 tons, was only 6 per cent less than the entire year of 1946, but the demand, both domestic and under the Marshall aid-to-Europe plan, still far exceeds the supply.

COTTON

West Elementary Has Intensive Training Program For Students

Students of the West Elementary School have been busily engaged during the last month in an intensive training program on fire prevention, safety and Halloween gaiety.

The second grade students of Mrs. Barnes Milam and Mrs. F. E. Kingon recently presented an assembly program on fire prevention. Miss Lottie Wilson's fourth grade room last week gave a program on holidays of the year.

Climaxing the Halloween study, Mrs. H. N. Lawhon's third grade students presented an original play, "The Halloween Dream," at an assembly program. Every student participated as spooks, witches, Indians, Spaniards and cowboys.

The following students had parts: Edmond Bailey, Tommy Brown, William Colvin, David Duffield, Gerald FitzGerald, Douglas Hatfield, Carl Hyde, Paul Jones, Mike Lillis, Kenneth Martin, Pat Parker, John Porter, Jerry Robinson, Jean Paul Scott, Kurt von Osinski, Mike Watlington, John Wynn, Dolores Burkett, Jackie Ann Collie, Jan Covey, Diana David, Nancy Forman, Linda Gardner, Nancy Jo Hughton, Carol Ann Truman, Zola Morgan, Jane Neill, Susan Osborn, Nancy Patterson, Jere Ann Price, Wanda Smith, Pat Wilkerson, and Marion Conn.

Midland Lions Join In Sponsoring Texas Food For Peace Train

With the battle cry, "Texas Cannot Be Ignored," Texas Lions were busy Saturday arranging their own "Food for Peace Train" which will travel through Texas picking up food supplies for shipment to the hungry peoples of European nations.

James L. Daugherty, president of the Midland Lions Club, was advised Saturday the original Friendship Train, starting in California, will miss Texas completely, and that Texas Lions will sponsor a train of their own. The Midland club is asked to cooperate.

Food Stuffs will be assembled at central points for immediate shipment so as to reach New York during the second week of this month. All food, except perishables, will be accepted.

Daugherty said Midland Lions are glad to join in the project, and urged Midland citizens to contribute to the worthy cause.

Citizens are requested to leave food stuffs at the Police Station anytime this week. The full cooperation of all citizens is urged, Daugherty said.

Livestock

FORT WORTH—(AP)—Cattle: compared close last week; most slaughter cattle unchanged, stockers and feeders were steady to 1.00 higher. Week's tops: steers and yearlings 26.50; heifers 25.00; cows 16.50, bulls 16.50; feeder steers and yearlings 21.50.

Calves—compared week ago; slaughter classes closed about steady, stockers steady to 1.00 higher; good and choice all weights 16.50-20.00, best heavies 21.00-22.00; good and choice stocker steer calves 18.00-21.50, heifers 18.50 down.

Hogs—for week; butcher hogs 2.00 lower, sows 1.75 lower, stocker pigs 1.50 lower. Week's tops: butcher hogs 27.25, sows 25.75, stocker pigs 26.00.

Sheep—for week; slaughter lambs and ewes 25-30 higher, some good lambs up more, slaughter yearlings 1.00 higher, feeder lambs strong. Week's tops: fat lambs 22.50, yearlings 18.00, fat ewes 8.50, feeder lambs 16.00.

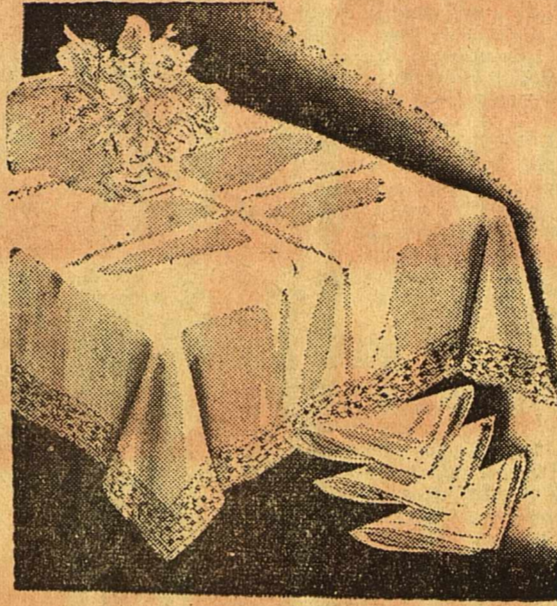

VISITS PURINA FARM

E. D. Williams of Williams Feed and Supply, dealer in Purina feeds here, was one of 225 Texas feed merchants who traveled by special train recently to visit the 738-acre research farm of the Ralston Purina Company at Gray Summit, Mo.

The present geologic era is estimated to have extended over a time period of 50,000,000 years.

Eva Carol Barton And Mal Kidwell Exchange Vows In Recent Ceremony

Miss Eva Carol Barton became the bride of Mal Kidwell, son of Mr. and Mrs. O. L. Kidwell, in a ceremony October 24 in the home of the bride's parents, Mr. and Mrs. C. A. Barton, with the Rev. Raymond Hall, assistant pastor of the First Baptist Church, officiating. Marriage vows were exchanged before an improvised altar of white chrysanthemums and fern in tall, silver urns, and candelabras containing tall, white tapers. The bride, given in marriage by her father, wore a grey wool crepe suit with a shoulder corsage of white gardenias. Her hat was grey beaver, fashioned with a gold veiling, and her shoes and bag were of matched grey snakeskin. She was attended by her cousin, Dorothy Thomas of Dallas, who wore a two-piece wool tunic dress of melon pink, fashioned with a silver sequin trim, with navy accessories and a white carnation corsage. Jack Kidwell, brother of the bridegroom, was best man. Ushers were B. L. McDearmon and Allan Posey. Candles were lighted by Virginia Breedlove, who wore a beige crepe dress with brown accessories and a pink carnation corsage. Mrs. Yates Brown offered special pre-nuptial music, "Always" and "Because." The mothers of the couple were attired in grey wool suits and wore corsages of pink carnations. Immediately following the ceremony, a reception was held. The bride's table, which was laid with a white linen cloth, held a crystal punch service and a three-tiered wedding cake embossed with white roses and topped with a miniature bride and bridegroom. The napkins were inscribed in gold with "Eva and Mal." Out-of-town guests were Mr. and Mrs. Jack Phillips of Borger, and Miss Thomas and Allan Posey of Dallas. The couple are graduates of Midland High School. The bride is employed by the Atlantic Pipe Line Company, and Kidwell is employed by Shell Oil Company. Following a short wedding trip the couple will live in Midland.

Annie Ruth Long, Robert Merriman Wed In Stanton

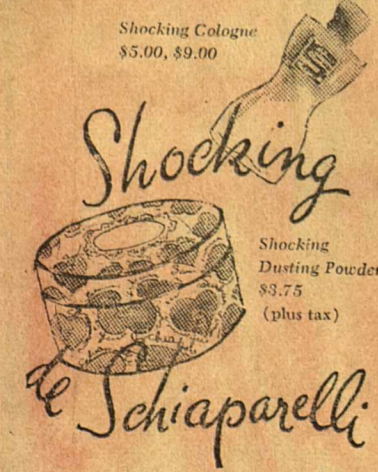

Miss Annie Ruth Long, daughter of Glynn Long of Andrews and granddaughter of Mrs. M. D. Long, 500 North Main Street, became the bride of Robert Merriman in a double-ring candlelight ceremony 8 p. m. Friday in the parsonage of the Stanton Methodist Church, with the Rev. Mr. Smith, pastor, reading the marriage vows. The bride, who was attended by Wilma Jean Hall, wore a grey suit with black accessories and a white carnation corsage. For something old, she wore her grandmother's pearls. She carried a white Bible. Sterling Farris was best man to the bridegroom. Immediately following the ceremony, a reception was held in the home of the bridegroom's brother, Jim Merriman, where a three-tiered wedding cake topped with a miniature bride and bridegroom was served to members of the immediate families and friends. The couple attended Midland High School, and the bridegroom, who is the nephew of Mrs. Bessie Roten of Midland, served with the Air Corps in the Pacific theater. The couple will reside at 604 South Weatherford Street.

Joan Looney Becomes Bride Of Tom Leslie Ingram Of Midland

WEWOKA, OKLA.—Miss Joan Looney, daughter of Mr. and Mrs. Joe Looney of Wewoka, Okla., became the bride of Tom Leslie Ingram of Midland, son of Mr. and Mrs. Tom Perry Ingram of Fort Worth, in an impressive ceremony October 25 in the First Methodist Church of Wewoka, with the Rev. Virgil Alexander of Tulsa, assisted by the Rev. Poe Williams, pastor, reading the nuptial vows. The bride, given in marriage by her father before approximately 400 wedding guests, wore an original heirloom gown of ivory slipper satin, fashioned with illusion neckline, long sleeves and a bouffant skirt extending into a cathedral train. Her double veil of imported tulle extended from a seed-pearl tiara. Her colonial bouquet of white satin roses showered with lilies of the valley was carried atop a prayer book. Bridesmaids Genevieve Willet of Perry, Betty Ingram of Fort Worth, Carolyn Webster of Oklahoma City, and Helen Denner of Enid, wore identical dresses fashioned with divided skirts, capped sleeves, rounded necklines, and gold mesh belts with matching bows. They carried colonial cascade bouquets of giant white chrysanthemums showered with stephanotis and tied with white satin. Mrs. George Defenbaugh of Oklahoma City, cousin of the bride, was matron of honor, and Roseane Looney, sister of the bride, served as maid of honor. Best man was Maurice Lewis, Jr. of Sarré, and ushers were Mr. Defenbaugh of Norman, Joe Owens of McAlester, Wednell Cates of Atoka, Dan Phelps of Oklahoma City, and Dale Grubb of Henryetta. Wedding Music Pre-nuptial music was presented by Ralph Myers of Yukon, while Mrs. Vinson, organist, offered the traditional wedding music. Immediately following the ceremony, a reception was held in the Community Building which was decorated with giant white chrysanthemums with pompon arrangements encircling the punch bowl and wedding cake. Following the reception, the young couple left on a wedding trip to New Orleans, after which they returned to Midland to reside, where the bridegroom is employed by the Stanolind Oil and Gas Company. The bride is a journalism student at the University of Oklahoma in Norman, a member of Delta Gamma, and the Beta Zeta chapter of the PEO Sisterhood. Ingram is a graduate of Paschal High School in Fort Worth and the University of Oklahoma, where he was a member of Delta Tau Delta and appeared in the 1947 "Who's Who." He is also a member of Checkmate, Engineers' Club, Pi-eta, Phi Eta Sigma, Scabbard and Blade; Sigma Gamma Epsilon, Sigmatou, and Tau Beta Phi.

Along The Garden Path In November

Have you visited the Midland Flower Show, yet? Sunday is the last day to visit the show, which has been judged by out-of-town flower experts. Special music will be presented throughout the afternoon, while Midlanders tour the displays in the City-County Auditorium. The Midland garden clubs request that people ordering pansy plant call for them Monday morning at 1209 West Indiana Street. To have paper-white narcissus blooms by Christmas, plant bulbs indoors November 15 and keep them in a dark place for approximately 10 days or until roots are established. Now is the time to divide Shasta daisies, perennial phlox, and other perennials. Plant roses, shrubs, and trees this month for excellent root growth and Spring bloom. J. H. Green will present a discussion on roses and perennials at the Midland Garden Club meeting Thursday in the home of Mrs. Arch Clevenger, Andrews Highway.

RETURN FROM CALIFORNIA

Mr. and Mrs. Reese Cleveland have returned from a visit in California.

Mrs. J. W. Carroll To Preside At Meet Of Westex Librarians

Mrs. J. W. Carroll, Midland County librarian, will be chairman of a meeting sponsored by the Texas State Library in San Angelo November 7-8, which will be attended by public, college and school librarians of El Paso, Winkler, Hockley, Ector, Midland, Tom Green, McCulloch, and Howard Counties. "Library Service in West Texas Today" is the theme of the meeting, which will feature as speakers Mrs. Robert H. Wilson, director of extension, and Francis H. Henshaw, librarian, both from the Texas State Library. Serving as leaders of round-table discussions will be Velma Barrett of Ector County and Margaret Akroyd, assistant librarian of the El Paso Public Library.

Mrs. R. Chanslor Entertains Belmont Bible Class Members

Mrs. R. Chanslor, 605 West Ohio Street, entertained eight members of the Belmont Bible Class at a meeting Friday. The lesson from Mark 8 was presented by Mrs. W. S. Sutton, and Mrs. H. E. Skipper offered the benediction. Refreshments were served to Mrs. O. L. Harper, Mrs. W. M. Craft, Mrs. Chanslor, Mrs. Sutton, Mrs. Skipper, Mrs. A. B. Stickney, Mrs. Roland Gray, and Mrs. W. P. Collins. The class will meet at 3 p. m. next Friday in the home of Mrs. Craft, 711 South Weatherford Street.

Engagement Of Clara Belle Kelton, W. B. Johnston Revealed At Tea

Mrs. W. S. Kelton, 704 North Main Street, announced a Saturday afternoon tea the engagement and approaching marriage of her daughter, Clara Belle, to William B. Johnston, son of Mr. and Mrs. J. M. Johnston of Crane. Marriage vows will be exchanged in a double-ring, candlelight ceremony.

Johnnie Anderson, Jerry James Fete Mrs. Raymond Warren

Johnnie Anderson and Jerry James, 410 North Main Street, were hostesses Wednesday for a gift tea, honoring Mrs. Raymond Warren, the former Helen Stephens, daughter of Mr. and Mrs. W. M. Stephens of Texas. Arrangements of yellow and orchid chrysanthemums and yellow candles were used throughout the entertaining rooms. Serving punch and individual rosebud-decorated cakes from a lace-covered table, were Mrs. Vina Beal and Juarrell Greene. Mrs. James presided at the guest register, while Mrs. Warren, Mrs. Stephens, and Johnnie Anderson served in the receiving line. Special music was presented throughout the evening by Glenda Hambleton and Anna Bess Doyle. Out-of-town guests were Mr. and Mrs. Stephens of Texon. SCOTCH FOURSOME SCHEDULED SUNDAY The Scotch Foursome will begin at the Country Club at 3 p. m. Sunday. Mrs. Bob Payne urges everyone attending to bring picnic suppers.

Barbara Nickler Weds Rev. J. L. Pickering, Former Midlander

INDIANAPOLIS—Miss Barbara Nickler of Indianapolis and the Rev. James Luther Pickering, pastor of the Lamesa First Christian Church and son of the Rev. and Mrs. John E. Pickering who formerly held the Midland First Christian Church pastorate, exchanged vows in a recent double-ring ceremony here, with the Rev. Myron Taylor of Gosport officiating. Vows were read before an altar lighted with seven tall, white candles. Special pre-nuptial music was presented by Mrs. Grace Lundy. The bride, who wore a long-sleeved aqua crepe dress with brown accessories, was attended by Jeannie Shive. Best man was Morris Dutton. Immediately following the ceremony, a reception was held in the home of Mr. and Mrs. Carr Stanger. The bridegroom is a graduate of Midland High School and Texas Christian University.

Streun-McKinney Vows Exchanged

Miss Frances Streun and James McKinney were united in marriage Thursday night in the parsonage of the Church of the Nazarene, with F. W. Rogers, pastor, officiating. The bride wore a grey suit with black accessories. Special pre-nuptial music, including "I Love You Truly" by Mrs. Rogers, was presented. The only guests at the quiet ceremony were members of the families. The couple, both Midlanders, will continue to reside here.

What's New And Where To Find It

BY BARBARA

36 Sterling Patterns At Kruger's—

If there's a "someday" in your silver chest, move it out! For only one dollar deposit, at KRUGER'S, you can take that empty echo out of the chest and in its place you'll have a shimmering, lifetime occupant. There are 36 beautiful sterling patterns awaiting your choice. Such quality famous names as Gorham, International, Wallace, Whiting, Alvin, Watson, Blackington, and Smith. Northern Lights, simply styled, the new pattern by International, is truly outstanding.

Mother Goose Didn't Know—

Poor Jack Spratt and his buxom wife were the victims of a one-sided diet. Had Mrs. Spratt served meals on Old English Imported China, their unhappy fate might have been avoided. Every morsel looks so temptingly delicious on this beautiful china—they couldn't have resisted. If you are having appetite trouble, too, see these dishes designed in the Hampton pattern at MIDLAND HARDWARE. The fragile border in pastel blue and beige will lend charm and distinction to your table.

The Women's Exchange Saves Your Dollars—

In these days of swirling prices we're all looking for ways to save and earn. How better can we do it than by helping each other? The WOMAN'S EXCHANGE, 103 S. "D", provides an excellent means of accomplishing this. Bring clothes you'd like to sell or trade to the shop . . . and see the stock of new-looking ensembles for women and children. The Exchange means extra dollars for you.

From Wall To Wall—

The most attractive home is the one that reflects the personality and individual love of beauty of the family it houses. So, put a bit of yourself into the decoration of your "shelter." Whether it's a tiny cottage or a sprawling mansion, personality counts. At SIMMONS PAINT AND PAPER COMPANY, the vast quantity of samples on hand assures you of finding exactly what you want and need—in both design and price. Plan now to have a more beautiful home during the coming holiday season.

It's Two-For-One At Cameron's—

When you see flocks of people rushing down the street Monday do get excited! They'll be on their way to CAMERON'S two-for-one sale to begin "economically" Christmas shopping. Popular fragrances of cologne, body powder, and perfume, also cosmetic sets are being two by two. You'll find items by De Heriots, Guinlan, 4711 Orloff, Colonial Bouquet, Renee Thornton, Mem, and L'Orle. See Cameron's display ad for further information.

Casually Speaking, They're Casually Yours—

Confidentially, there's a real bargain in store for you at EVERYBODY'S. Just what you've been needing . . . wanting. . . . casually—priced from \$2 to \$8. Touching the subtle softness of this downy black felt will thrill your finger tips. You'll find saucy off-the-face styles and those "new" cuped-around-the-head creations. With either self-trim, a bit of fascination veil, or rich glowing brilliants. Be sure to see the little hand-crocheted capeaux—gaily adorned with metallic threads.

New Sewing Classes At The Singer Center—

Knowledge that will enable you to make clothes easily, skillfully . . . that's what the SINGER SEWING CENTER offers you. Under the guidance of an expert instructor you will develop the "knack" of hanging a sleeve, putting in a zipper, and all the other details that contribute to the resulting fine garment. Call 1488 and register for the morning class beginning November 12 or the business women's night class which opens November 18.

'Name Power' For Christmas Gifts—

She'll like seeing her name in print. So, stop by THE BOOK STALL this week and select a personalized gift for her (or his) Christmas. Match folders, Congress playing cards, napkins, Rytex stationery—four original, thank-bringing presents. And for that party you are planning—match folders and napkins stamped with your name or a greeting will add a festive note to the occasion. You can't go wrong when you select one of these gifts from The Book Stall . . . they're economical too . . . priced from \$1.75 to \$2.75.

For The 'Trim Fem'—

You'll "skirt" the town when you wear an ensemble from FRANKLINS. Eye-catching, budget-pleasing—that's the short of the long story about the delightful selection of blouses and skirts. Just name the style, the fabric you prefer . . . in skirts there's woolen, crepe, strutters cloth or crash. Some for little girls, too. Among the wide assortment of blouses, be sure to see the sequin trimmed Caron Mode originals.

Half-Price Sale At Dunlap's—

The beauty-wise, economically minded Mrs. or Miss will follow the oft-trod path to DUNLAP'S this week. There's a bargain that lovely ladies can't afford to miss. Dorothy Gray's popular skin preparations . . . Special Dry Skin Lotion and Blustery Weather Lotion . . . are on sale for half-price. Yes, the large, two dollar size for only one dollar . . . just one bottle will keep your face, hands, arms, and legs soft, smooth, and chap-resistant for months. Also Dorothy Perkins' dollar size of Weather Lotion now, for a limited time, sells for fifty cents.

It's Shrub-Planting Time—

A house standing squarely on a barren lot looks lonesome and starved. Picture that same house, now nestled midst spreading evergreens and colorful plants. Quite a difference. This is the time of year to "get your roots into the ground." So call the WALKER NURSERY at 2010 this week. They have a complete stock of shrubs, evergreens, and bulbs. These plants will add immeasurable beauty to your home.

Brunch Coats For Mothers-To-Be—

The expectant mommy will look just as sweet and fresh as a dew laden rose when she dons one of the gaily printed percale brunch coats from the MOTHERS-TO-BE SHOP, 1800 West Texas. Available in sizes from ten to twenty these wrap-around robes are ideal to slip on for the morning breakfast rush. Stark Dater designed the daily robe and pattern, the set-in belt, and the attractive, useful patch-pocket. They're sudsable—They're economical. See these coats in blue, green, and rose.

A Dream Of Dancing—

"Flow gently sweet Afton," disturb her not, she's dreaming of an evening at the LOG CABIN INN on West Highway 80. Ah, "tis a beautiful dream . . . she hears the lilting melodies of Jerry Roberts' new seven-piece orchestra. Perhaps she's remembering that delicious food prepared by Frank Reynolds—West Texas most famous Mexican chef. Now open every day for luncheon and in the evening, the Log Cabin is indeed a dream come true.

Water Will Roll Off Your Back—

No need to cry, "rain stay 'way from my door," when you and your clothes are safeguarded by THE HAT CLEANERS' dependable waterproofing process. Whether the weatherman's disposition is stormy or sunny, clothes stay new longer when they receive expert dry cleaning. It's so easy to drop garments by the Habit—located at 107 North Pecos—on your way to town. Just a minute . . . that's all the time necessary for the speedy, courteous attendants to take your order and start your clothes on the way to expert, capable operators.

Magic Slacks At Wilson's—

Here's a really unique shopping suggestion from Wilson's . . . Magic Croch slacks designed by Hydi Hyde of Oklahoma. They are designed with a handkerchief-like inside croch that snaps into place in an instant—saves laundering—slacks last longer. Also see the Gibson Girl ties and the new pajama and robe sets at Wilson's. Fashioned in cornflower blue and dusty rose, these sets are ideal Christmas gifts.

Car Styles Of '47—

If copies of "Car Vogue" were on the newsstands, they would probably feature two-toned side door panels for the very best dressed auto. Designed with handsome leatherette and quality mohair, these custom made panels available at MILLER BROTHERS TRIM SHOP, 114 East Wall (rear), are "high fashion". In the shop you'll find the most complete array of car upholstery fabrics in West Texas. Arm rests, doors, and seat covers all made to harmonize with the color, style, and make of your car. Call 744 for complete information.

The Work Of Master Craftsmen—

That discarded chair has probably been a good friend in days gone by. Don't make it sit in a dark corner now just because it's a bit rickety. After a trip to the MASTERCRAFT FURNITURE SHOP, 505 South Colorado, it will be as good as new. And if you have some other piece of furniture that needs to be repaired or refinished just call 1565-W or 832-J for prompt pickup service.

Develop Your Technique—

Friends will chime, "For she's a jolly good sport," as you send that ball crashing into the pens at PLAMOR PALACE. It's lots of fun . . . exciting, too. When you've experienced the thrill of developing a precision technique, every line will be a new challenge. And if you're just a little bashful, visit Playmor in the afternoon. While most of the men in your life are in the office, that's the time to practice and have instruction. Don't forget, bowling is also a "figure friend."

Suppose Baby Sparkle Came Here—

If Baby Sparkle lived in Midland in place of "Dick Tracy land," Gertie and B. O. Plenty would probably take their precious bambino to the MIDLAND DAY NURSERY, 306 North "D". There, when mommy and daddy wanted to step out, Mrs. Freddie LePate would care for "the little one." And if Gertie had a job, she could take advantage of the low rates for working mothers—also the special weekend reservations.

Kruger's For China And Pottery—

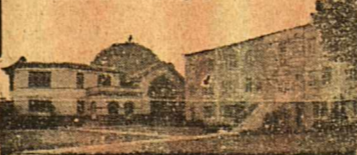

KRUGER'S, your credit jewelry, offers Midlanders the very finest china and pottery for the lowest possible prices. By taking advantage of their easy-payment-plan, you can have the dishes of your heart's desire. The interested clerks at Kruger's will be happy to help you select a pattern. See the china by Royal Daltou, Castleton, and Haviland, pottery by California Rustic, and Winfield. You'll also find just the right crystal to harmonize with the china you select. Visit Kruger's this week and get ready for Christmas dinner.

EVERYBODY'S
NATIONALLY FAMOUS FASHIONS FOR HER

Homemaking Club Of Stanton Has Meeting

STANTON — The Homemaking Club of Stanton met with girls from Big Spring at the Stanton Park at 6 p. m. Wednesday for a picnic. Mothers and teachers sponsored the event.

Halloween refreshments were served to 82 guests.

The Stanton club is sending presents to overseas children. An initiating meeting was held Monday, October 24, and a program was presented by the following: Mr. and Mrs. Hamrick, Elmore Johnson, Edith Davie, Lois Standefor, Nona Wells, Ernie Haynie, Jo Ann Jones, Patsy Kelly, Patricia Roquemore, and Betty Carroll Bennett.

Sixteen Midlanders Are Attending H-SU

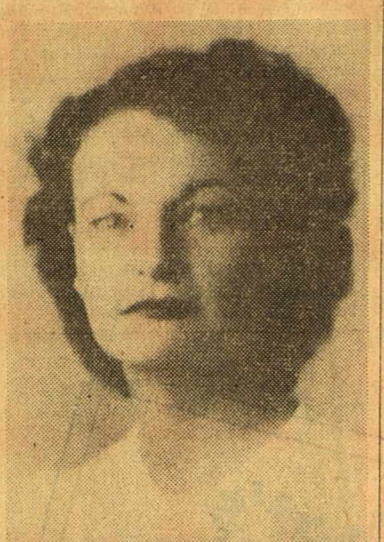

ABILENE—Among the more than 2,000 students enrolled in Hardin-Simmons University this term are 16 from Midland, according to Mrs. J. A. Beard, registrar.

The current enrollment is the greatest in the history of H-SU. Mrs. Beard said, and represents both the resident students and those who are taking extension courses.

Those from Midland enrolled are: Joe Snow, Henry F. Scott, Saralyn Teaff, Gene Nathaniel Estes, Virginia Dunagan, Garland Lee Erwin, Leroy Hall, Barbara Brown, Pat Johnson, Margaret Dougherty, E. H. Howell, Bert Conly, Nadine Irene Clement, Edith Raye Collins, Ruth Hall, R. Lewis Wingo.

Federated Clubs President Cites Hospital Needs

Mrs. W. G. Epley, president of the City-County Federation of Women's Clubs, said Saturday, "Midland is a city, but its hospital facilities are far below our needs."

Mrs. W. G. Epley

"I think it is disgraceful," Mrs. Epley said, "for a city which has grown from 9,000 to 19,000 people in seven years not to see that hospital facilities are expanded accordingly. Midland has beautiful church buildings and fine schools, which are being enlarged to meet the need, but Midland has hospital space and equipment to meet the needs of a town one-third its size."

"We have an iron lung, oxygen tent, and polio pack equipment stored in the courthouse. Why? Because there is no room or space to set them up in readiness for use elsewhere. Testers are supposed to keep these machines in order twice a year. If sudden needs arise, and these machines were set up, they would not be in order for service. Midland needs a large hospital to take care of these demands, where every type of equipment plus the lung, oxygen tent and polio pack equipment will be available. I think the proposed Midland Memorial Hospital is the only solution to a pressing need for hospital space."

Risk Unnecessary
"The risk that people take by depending on ambulance or airplane to get them to Big Spring, Dallas or elsewhere is unnecessary."

"If one of the hotels or an office building caught fire, Midland would be on the spot. Unnecessary deaths would be the result. I think Midland must grow in its civic responsibility along with its business and population expansion. "I can in no way see anything but improvement by having a modern, general hospital in Midland. I see no chance of anyone's money being wasted. I see nothing detrimental in the proposed hospital. "I hope," Mrs. Epley implored, "that every citizen cooperates to the fullest when called on to help build Midland Memorial Hospital right here in our wonderful and unusual city."

Midland Student Is Named Staff Sergeant

KERRVILLE—Thomas R. Kimbrough, student at Schreiner Institute and son of Mr. and Mrs. T. D. Kimbrough of Midland, was listed as staff sergeant on the year's first promotion order, released by Col. Raymond Orr, U. S. A. (ret.), Schreiner professor of military science and tactics.

Midland Career Women—

Mrs. Ima K. Watson: She Began With A Family And A Needle

When Mrs. Ima K. Watson was 12 years of age, she made her first dress while her mother was at a church women's meeting. That started her on a career in which she now serves as head of Dunlap's alteration department.

Mrs. Watson says she never received training in her art. "I guess I was practically born with a needle in my hand."

Her talents go far beyond altering the clothes of other people, for she wields her needle in many directions and the benefits she receives from it are numerous. "When a person can sew," says Mrs. Watson, "she can remodel styles and even do interior decorating." She can cite many examples of interior decorating of her own in which she has made lamps of cider jugs, tables, cushions, and curtains. At present, in her "spare" time, she is making a "chest-on-chest," a clever bedroom piece that will serve many purposes. Of course, Mrs. Watson designs her own clothes. She has designed patterns for herself which she saw a year later in popular pattern books.

Has Four Sons

Many well-known designers began at home, fashion editors are noting, and so did Mrs. Watson for she is a mother of four grown sons and grandmother of a three-year-old girl. After sewing so long for boys,

who now range from 20 to 25 years of age, the attractive woman who wears her gray hair in an up-sweep is getting much enjoyment from making girl's dresses.

Mrs. Watson has worked for Dunlaps one and a half years, but has been in Midland seven years. She is originally from Big Spring, but claims Colorado City as the home to which she will return soon.

Mrs. Watson, who lives at 1703 West Kentucky Street, avows tailoring as both her vocation and avocation, but she has delved into many other types of work. During the war, for instance, she helped her husband in the taxi business. "We were desperate when all our drivers were called into service," she says, "so I just got me a chauffeur's license and pitched in."

B&PW Club Member

Mrs. Watson, member of the Business and Professional Women's Club and its former publicity chairman, is assisted in her department by Mrs. Bertha Reed. She says her work has a great deal of variety which she enjoys extremely.

Of course, Mrs. Watson is in a position to get all the opinions on the 1947 Fall fashions and to form her own opinions. She believes the new styles are a little extreme and much too extravagant "since the old and new just don't mix." Mrs. Watson, though, has altered few dresses to the extreme length, for the woman of average height is demanding average lengths of 13 or 14 inches. And as for the padded hips—she has found few women who like them.

Spears-Slaughter Nuptials Announced

KERRMIT—Miss Wino Jean Spears, daughter of Mr. and Mrs. W. H. Spears, and Bobby V. Slaughter, son of Mr. and Mrs. Cecil Slaughter, were married Saturday night, October 25, at 7:30 o'clock. The ceremony was read in the home of the Rev. Hugh Adkinson, pastor of the Berean Baptist Church.

Attendants of the couple were the bridegroom's uncle and aunt, Mr. and Mrs. Leslie Livingston, and Mr. and Mrs. Bud Parker.

The bride's costume was a soft blue wool dressmaker suit, with brown accessories, and her flowers were a white bridal corsage.

Immediately following the wedding, a reception was held in the home of the bride's parents, with members of the two families attending. Guests included two sisters of the bride, and their families, Mr. and Mrs. W. C. Sheffield and daughters, and Mr. and Mrs. Don Nolen, all of Monahans.

The bride has lived in Kerrmit a number of years. Mr. Slaughter was in the Army almost three years and was stationed in Japan. He is employed with the county.

After a short wedding trip the couple will make their home in Kerrmit.

McCamey HD Club To Sponsor Book Review

MCCAMEY—The McCamey Home Demonstration Club will sponsor a book review next Thursday in the First Christian Church Annex. Mrs. Ralph Daugherty of Rankin will review "Prince of Foxes." Violin and piano selections and vocal numbers will be other features of the program. A social hour will follow. The public is invited.

VISITS DAUGHTER

Mrs. J. F. Price has returned from Rosenberg where she visited her daughter, Mrs. Pauline Luckie, who is recovering from an operation.

Patricia Garner Named College Dance Chairman

LORETTO, COLO.—Miss Patricia Garner, member of the sophomore class at Loretto Heights College, has been named co-chairman of the annual Christmas dance sponsored by the students mission board of the college. She will be assisted by Miss Catherine Murray of Denver in making arrangements for the holiday dance which is one of the highlights of the college's social calendar.

Miss Garner is the daughter of Mr. and Mrs. N. Bradford Garner of the Maefair Apartments, Midland. She is a graduate of Midland High School.

Bobbie Atchison, Bob Hill Joined In Midland Rites

Mrs. Bob Hill

STANTON—A double-ring ceremony in the parsonage of Midland's Church of Christ October 25 joined Miss Bobbie Lou Atchison, daughter of Mr. and Mrs. Forq Atchison and Bob Hill, son of Belton Hill and grandson of Mr. and Mrs. B. T. Hill. J. T. Davis, pastor, read the marriage vows.

The bride wore an aqua suit with black accessories and a corsage of red sweetheart roses.

Attending her as matron of honor was Mrs. Fred Cook. Fred Cook was best man to the bridegroom.

Immediately following the ceremony and dinner at the Ranch House, the couple left on a wedding trip, after which they plan to live in Stanton.

The bride is a graduate of Stanton High School and attended Abilene Christian College. At present, she is employed at the Martin County Memorial Hospital.

The bridegroom is a graduate of Stanton High School and served two years in the Pacific theater with the Navy.

North Elementary Has Assembly Thursday

Students of the North Elementary School attended a regular assembly Thursday.

The following program was presented: a song, "Hallow'en Parties," by students of three first grade classes; choral readings by the first grade classes; a reading, "The Meanest Boy," by Alicia Waldrep; piano solo, "Harvest Moon," by Judy O'Neal; story, "The Shoo, Shoo Man," by Herbert Munson; piano solo, "When I Grow Too Old to Dream," by Martha Marks; piano solo, "Song of the See-Saw," by Leta Diane Burnside; story, "Nosey Learns a Lesson," by Joy Davis; piano solo, "All in a Day," by Jeanne Powledge; violin solo, "Robin's Lullaby," by Joel Smith, accompanied by Mrs. Smith; and poem, "Rain in the Night," by Judy Pogue.

Girl Scout Leaders Meet Monday In Crane

CRANE—Brady Nix, president of the county organization of Girl Scouts, stresses the importance of a meeting at 4 p. m. Monday in the high school auditorium, urging mothers and other parties interested to attend.

"With lack of leadership, an enthusiastic organization is at rock bottom," Nix said, "and the important youth program is destined to die unless response is favorable at the meeting Monday."

RETURN FROM DALLAS

Mrs. John P. Butler and her daughter, Jane Butler, have returned from a trip to Dallas.

Advertise or be forgotten.

Graves-Lind Vows Exchanged In Stanton

STANTON—Miss Dorothy Graves of Stanton and Arthur Lind of Phoenix, Ariz., exchanged vows October 20 in the home of the brides' parents, Mr. and Mrs. Lonnie Graves. The Rev. T. R. Hawkins, pastor of Stanton's First Baptist Church, officiated at the double-ring ceremony.

Wedding guests were Mr. and Mrs. Graves, Mrs. Walter Graves and son, Granville, and Mr. and Mrs. Bill Bund of Big Spring.

Following a short wedding trip, the couple will live in Phoenix.

MARRIAGE LICENSES

Bonnie Ray Statter and Lorene Thurman; and Delmer Stapp and Wilma Vaughan have been issued marriage licenses by the county clerk's office here.

AAUW To Sponsor 'Little Women' By American Theater Of New York

The AAUW-sponsored production of "Little Women" will be presented by The American Theater of New York November 12 in the Midland High School Auditorium, with matinee and evening performances, under the direction of Daisy Belmore.

A cast of 10 young actors and actresses, with colorful scenery and costumes, will present the modern adaptation of Louisa May Alcott's novel which has become an accepted classic since it was first produced in 1912. Statistics compiled by publishing houses and public libraries show the lasting popularity of this 65-year-old romance of home life in America, and 20,000,000 people in this country alone are said to have read the book during the last 15 years.

The play has its setting in the

home of a Massachusetts family in the 1860s. The adaptation is by Richard Stretcher and Phillip Field, with dancing staged by Ellen Albertini and costumes designed and executed by "Laura."

The matinee performance is scheduled at 3 p. m., and the curtain will rise on the evening performance at 8 p. m. Tickets may be purchased from any AAUW member or at the box office.

AAUW members heading committees responsible for the show are Mrs. Earl A. Johnson, Mrs. John N. Lesko, Mrs. H. G. Parkinson, Mrs. W. T. Magee, Mrs. Otto Wink, Mrs. W. C. Fritz, and Julia Rindsig.

Lions live chiefly in sandy plains and rocky places. They are not entirely jungle inhabitants.

Crane Lions To Sponsor Dance

CRANE—Arrangements have been completed for the Lions' Club sponsored dance, Monday night, November 10, it was announced at the meeting last week in the community hall.

Billy Gross' orchestra from San

UNDERGOES SURGERY

Mrs. R. O. Smith, who recently underwent surgery in a Stamford hospital, is recuperating in the home of her mother, Mrs. W. R. Logan, in Anson. Mrs. Smith will return to Midland next Saturday.

Angelo will play for the dance, to be held in the Community Hall.

'Music By Masters' At VFW Hangar

"Music by Masters" will be heard at the VFW Hangar at Midland Air Terminal November 11 when the Midland Veterans of Foreign Wars Post stages its big Armistice Night celebration. Masters and his 20 musicians will play a one-night stand at what is expected to be the biggest holiday event in this section of West Texas. Pictured are Masters, his band, vocalist Phyllis Myles, and the talented Holly Sisters quartet. VFW officials said only 1,000 tickets will be sold in advance.

Crane Women's Group Installs Officers

CRANE—"Looking Into the Future" was the theme of an impressive ceremony installing officers of the Woman's Missionary Society of the First Baptist Church Wednesday afternoon. Benevolent boxes are to be packed next Wednesday afternoon.

All contributions of clothing will be packed for Buckners' Orphans Home, and to send to foreign needy. Regular Bible study from Acts 20 will follow with the Rev. H. D. Christian in charge. Mrs. Gilbert Griffin presided for the installation. To look into the future the group took an imaginary train trip. Mrs. Griffin introduced her roster as follows:

Vice president, Mrs. L. L. Greenfield, also periodicals chairman; Mission study chairman, Mrs. W. V. Stell; junior G. A. leader, Mrs. T. N. White; Mrs. J. R. Boyd, Sunbeam leader; Mrs. J. R. Robinson, benevolence chairman, missions chairman; Mrs. J. R. Boyd, community missions; Mrs. K. H. Gray, secretary-treasurer; Mrs. Griffin, president; and C. L. Byrd, leader of the junior Royal Ambassadors.

Whitefield-Myers Rites In McCamey

MCCAMEY—Sue Whitefield, daughter of Mr. and Mrs. C. B. Whitefield, Sr., of Iraan, and Hayden Myers of Salina, Kan., were united in marriage October 25, in the Baptist parsonage in McCamey. The Rev. W. I. Lee read the marriage vows in the presence of Mr. and Mrs. Vernon Shook, only attendants of the young couple.

The bride wore a brown and white street length dress with brown accessories.

A member of the class of '46, Mrs. Myers is secretary for the West Texas Utilities Company in Iraan and will continue in her present position. The groom is employed by the Val and Carroll Oil Company. The couple will make their home in Iraan.

SLOWDOWN—NEW TYPE
OKAYAMA, JAPAN—Police arrested a locomotive engineer for a "slowdown" which had nothing to do with strikes. They said he slowed his freight train while accomplices looted the boxcars.

Achloropsia is the inability to perceive the color green.

BROWNIE TROOP 16 TOURS COTTON GIN, BAKERY, DEPOT

Brownie Troop 16 elected Roberta Donnell president at a meeting Wednesday in the Church of Christ. Other officers are: Mae Whitson, secretary-treasurer; and Mary Belle TenEyck and Nancy Mayfield, telephone committee chairmen. During the meeting, the troop members were taken on a tour of a bakery where they learned the principles of making bread, to a depot where they were shown the giving and receiving of train signals, and to a cotton gin where they saw the steps taken from the unloading of the cotton to the finished bale. The tour was under the direction of leaders, Mrs. Joe Roberson, Mrs. Bill Mayfield, and Mrs. Charles TenEyck. Brownies present were Mary Jane Cox, Roberta Donnell, Patsy Guyton, Lu Wertha Holt, Gail Peters, Janice Roberson, Joanna Sewell, Marie Spiars, and Mae Whitson. Refreshments were served by Mrs. John Allen Sewell after the group returned to the church.

'Angel Street' Cast Chosen; Victorian Period Sofa Needed

Rehearsals are in progress now for the Midland Community Theater's production of the mysterious Victorian thriller, "Angel Street," which is scheduled November 17 and 18.
The cast includes: Loretta Marsh as Mrs. Manningham, the wife who is being tortured into insanity by her husband; Shepard Menken as Mr. Manningham, her handsome, middle-aged husband; Bob Boyle as Detective Rough of Scotland Yard; Carolyn Menken as Nancy; and Edelle Dailey as Elizabeth.
The stage crews are working on the mood-creating sets, but the property committee is faced with the all-important problem of obtaining a Victorian period sofa. Other large and ornate pieces of furniture needed are a table with massive legs, chairs, gas lights (the play was called "Gas Light" in the screen version starring Ingrid Bergman and Charles Boyer), and a large secretary.
The property committee is composed of Mrs. D. E. Jemerson and Mrs. Olin Prather, co-chairmen, assisted by Mrs. R. Gates, Mary Lee Cooper, Mrs. C. Snure, Mrs. Ray Snyder, Mrs. H. A. Gossett, Mrs. E. E. Reigle, Mrs. Lynch, and Miss Billie Spencer.

Baptist Convention Slated In Amarillo

DALLAS—Five thousand Texas Baptists will attend the Texas Baptist General Convention in Amarillo November 11-13 to hear reports on denominational work of the past year and messages from outstanding Baptist ministers and laymen.
Featured on the three-day program will be Robert S. Kerr of Oklahoma City, former governor of Oklahoma; Dr. Louis D. Newton of Atlanta, Ga., president of the Southern Baptist Convention, and Dr. J. M. Dawson of Washington, D. C., public relations secretary for the Baptists of America.

Baptist Revivalist

Dr. A. B. White, pastor of Dallas' East Grand Baptist Church and former assistant secretary of the Baptist General Convention of Texas, will conduct revival services at Midland's First Baptist Church at 10 a. m. and 7:30 p. m. each day, Monday through Sunday, it was announced.

Mrs. Hedrick Fetes Daughter At Party

STANTON—Mrs. Cecil Hedrick honored her daughter, Mary Frances, with a birthday party recently. The decorations, favors, and refreshments were in Halloween colors.
Refreshments were served to Homer Henson, Wayne Cornelius, Granville Graves, Charles Blocker, Rufus Tom, Billy Charles Burns, Gail Roberson, James Mashburn, Leonard Hedrick, Harriet Echols, Carol Sue Mashburn, Evelyn Coggins, Mary Ivy Johnson, Virginia Cray, Sandra Martin, Martha Baugh, Mary Frances Hedrick, Mrs. George Cornelius, and Mrs. Elmer Mashburn.

County Officials Attend Convention In Laredo This Week

County Judge Clifford C. Keith and Commissioners J. C. Roberts, Frank Mickiff and John King will represent Midland County at the state convention of county officials which opens Sunday at Laredo.
The commissioners, preferring ground travel, left Midland Saturday afternoon and planned to stay overnight in Del Rio before continuing to Laredo Sunday. Judge Keith, however, took advantage of an offer from Phillips Petroleum Company to transport county officials to the convention in company planes. He said Saturday he planned to catch a Phillips plane which will stop here en route from the Panhandle with a load of convention-bound officials.
The convention, which continues through Wednesday, will be addressed by a number of prominent personages in the state government, including Rep. Lyndon Johnson, Ex-Gov. Coke Stevenson, John Winters, director of the State Department of Public Welfare, Lt. Gov. Allan Shivers, Attorney General Price Daniel, and others.

Kiwanis Club Slates Ladies Night Party

A gala ladies' night banquet commemorating the first anniversary of the organization of the Midland Kiwanis Club will be held at 7 p. m. Monday in the Crystal Ballroom of the Scharbauer Hotel, club officials announced Saturday.
Ammon Bradshaw, program chairman, promised an evening of "gaiety and laughter." He said a surprise program will be presented, and urged all Kiwanians and their ladies to attend.
Dr. H. A. Ireland, president, will be master-of-ceremonies.
The night meeting will supplant the regular club meeting Monday noon.

Regional Meeting Of Delta Kappa Gammas Is Held In Kermit

KERMIT—A regional meeting of Delta Kappa Gamma, covering an area from Big Spring to El Paso, was held here Saturday. Hostess chapter was Gamma Mu, which includes Winkler, Ward, Reeves, and Loving Counties.
Presidents of the regional chapters, representing Monahans, Midland, El Paso, Alpine, and Monahans, met here Friday night in the home of Miss Winifred Walker, chairman of general arrangements, Mrs. Ivah Lee Brown, Monahans, is president of the hostess chapter.
Mrs. Willie Mae Hathcock of Plainview, Delta Kappa Gamma state officer, was one of the prominent visitors attending. Mrs. Edna Graham, of North Texas State Teachers College, Canyon, was guest speaker for the luncheon meeting held in the school cafeteria.
Miss Rose Nelson of Wink had charge of the initiation ceremony held in the high school library. Mrs. Theilma Barnes, Grandfalls, was chairman of the decorations committee, and music was furnished by Miss Aileen Love Nabor of Pecos, and Miss Kathryn Polliver of Monahans.

Another New Business Opened In Midland—It's Poe's Paints

Poe's Paints, Midland's newest business concern, will observe formal opening ceremonies at 8 p. m. Monday, Homer W. Poe, owner and manager, has announced.
The firm, located at 121 East Wall Street, will feature a complete line of paints manufactured by the Glidden Company, as well as wallpaper of patterns designed by Birge, Longren, United, and Varlar; wallpaper stocks also include the new washable Varlar.
Painters' supplies, picture framing, canvas and other construction and decoration needs are stocked.
Poe brings to his business a background of 20 years' experience as painter and contractor; he served three years in the Armed Forces, including two years overseas in ordnance service.

STANTON NEWS

STANTON—Mr. and Mrs. Jim McCreeles brought their grandson, James Lewis, home with them from Sweetwater for a visit. James' father, R. S. Lewis, is in the hospital there following an operation.
Ode Hazelwood of Austin was here last week on business and visited his parents, Mr. and Mrs. Hazelwood of Courtney, and other relatives.
Mr. and Mrs. Jack Turner and son, Larry, and John Atchison, Sr., made a business trip to Pivote Thursday.
The sophomore class elected Roselle Appleton and R. S. Higgins as class favorites. The sophomores held a Halloween party at the high school gym Wednesday.
Bob Davenport is ill this week.
The Melody Music Club of Stanton had a special meeting Friday, when plans were discussed for the district convention of Federated Music Clubs in Midland. Doris Howel was chosen to represent the Stanton club at the convention.
Mr. and Mrs. Bill Clements and Mrs. White left Sunday for Dallas and returned Wednesday.
Mrs. J. J. Coats and daughter, Mrs. T. E. Bentley, left Wednesday for Crowell. Mrs. Bentley returned Thursday.
Mrs. Leonard White left last Sunday to visit her mother at Burkburnett.
Mrs. W. E. Neill and son are here visiting Mrs. Neill's mother, Mrs. Morris.
The following were admitted to Stanton Memorial Hospital last week: Mrs. Lus Morales, Stanton; Mrs. E. J. Cobb, Midland; Mrs. Concepcion Botello, Lenorah; Jimmy Weldon, Tarzan; Lidje Winters, Lenorah; and Juanita Leija, Lenorah.
The following were discharged from the hospital: Billy Charles Dean, Polero Hernandez, Mrs. Ramon Valdez, Jimmie Weldon, Juanita Leija, and A. C. Eidson.
Cecil Bridges, manager for Texas Electric Service Company, is in a Big Spring hospital.
Turner Kaderli, employed at the regional office of the Veterans Administration at Lubbock, is here visiting his parents, Mr. and Mrs. N. Kaderli. He will be transferred soon to a similar position in San Antonio.

Crane News

CRANE—Mr. and Mrs. Ed Bowen are at home after a vacation. He spent most of his time in the hospital at McKinney for a checkup, while Mrs. Bowen stayed with relatives in Fort Worth.
Mr. and Mrs. W. E. Hogsett, Jr., have named their new daughter Rebecca Kay. She was born in a Midland hospital last Wednesday night. Her weight was five pounds, six ounces. Mrs. Hogsett and the baby were due to be removed to the home of her parents, Mr. and Mrs. Joe Hewitts, Midland, the last of the week.
Holding its second session, the Nimble Thimble Club met Tuesday afternoon at the Phillips Recreation Hall with Mrs. T. W. Hill and Mrs. J. H. Edwards as hostesses. Those present were: Meses. Tommy Phenister, B. C. Smith, A. T. Stark, Herb Schlittler, T. D. Husted, H. R. Hunter, H. O. True, and the hostesses.

Leroy Hall Accompanies H-SU Band To Grid Game

ABILENE—Leroy Hall of Midland, Hardin-Simmens University cheer-leader, traveled with the 46 members of the H-SU Cowboy Band which flew with the university's football team to Corpus Christi Saturday morning for the game with Houston.

Officials of the school believe this is the first time in the Southwest and one of the few times in the nation that a band has flown with the football team.

New Apartment House Completed; Occupied

Completion of the two-story Ann Juan Apartments at 1101 West Wall Street was announced Saturday by Houston Hill and Sheriff Ed Darnell, owners. They said all apartments are occupied.

The attractive apartment house is of brick construction and has 12 units—eight singles and four doubles.

Construction of the building was started by Hill about five months ago.

Crane Baptists List Church Activities

CRANE—Announcement will be made Sunday at the First Baptist Church concerning subscription to a building enlargement program approved Wednesday night at the regular monthly business meeting.

The men's Bible class will start work to remove a petition in their separate building, enlarging to take care of their increasing enrollment.

The church will send its pastor, the Rev. H. D. Christian, to the state convention in Amarillo November 10-14.

Sunday evening, and mid-week services will begin 30 minutes earlier, starting at 7 o'clock.

Coming out of the recommendation of the deacons, the church voted over protest of W. R. Crownover, to present him a suit as an expression of appreciation for 15 years of service rendered as church treasurer for which he does not accept pay.

Midland Flower Show Winners Are Named; Event To Close Sunday Night

The annual Midland Flower Show opened at 1 p. m. Saturday amidst alcoves of greenery, beautifully-arranged flower gardens, and outdoor living room scenes. The show will be open from 1 p. m. to 10 p. m. Sunday, with special music presented throughout the afternoon and evening.

Large crowds attended the event Saturday, with Sunday's attendance expected to set a record.

The federated show was judged by out-of-town judges, who used the national handbook and the point system. Judges were headed by Mrs. A. J. Berggren and included Mrs. H. A. McCall, Mrs. Dick Hodges, and Mrs. Charles Francis, all of Odessa.

As guests, entered, they were presented with corsages of pyrantha, the city's official flower.

An unscheduled arrangement attracting attention was an Okinawa plant grown in Midland from seeds brought from Okinawa. This plant, entered by Mrs. Robert L. Clarke, is shown in the various stages of its growth and is augmented by a drawing by Mrs. Clarke.

Winners chosen before the show's formal opening are as follows: rose class—pink, Mrs. George Abell, first; Mrs. J. W. Christian, second, and Mrs. C. P. Yaden, third; red, Mrs. J. W. McMillan, first; Mrs. Yaden, second, and Mrs. M. S. Dickerson, third; yellow, first unnamed; two-toned pink, Mrs. L. W. Leggett, first; annuals—daisies, Mrs. Jack Jones, third; marigolds, Mrs. A. P. Shirey, first; Mrs. Ralph Lowe, second, and Mrs. Frank Johnson, third; petunias, Mrs. T. F. Linebery, first in the doubles, Mrs. J. W. Campbell, first in the singles, and Mrs. Ira Cole, second in the singles; tithonia (Mexican sunflower), Mrs. Dickerson, first, and Mrs. Abell, second; Mexican poinsettias, Mrs. Campbell, first, and Mrs. Abell, second; Mrs. Abell, first, and Mrs. Campbell, second; Mrs. Campbell, third; perennials—gardenias, Mrs. Abell, first; carnation, Mrs. J. L. Tidwell, first, and Mrs. Leggett, second.

Verbena, Mrs. Linebery, first, and unnamed, second; gerber daisy, Mrs. F. H. Lanham; shasta daisy, Mrs. Abell; large flowered chrysanthemum, Mrs. V. E. Collins, first, Mrs. Bob Hill, second, and Mrs. Neva Stovall, third; pompons (large), Mrs. Ralph Lowe, first, Mrs. Lanham, second, and Mrs. Abell, third; small pompons, Mrs. Bob Hill, first, and Mrs. Abell, third; dahlia, Mrs. E. V. Mitchell, first; Mrs. W. F. Hejl, second, and Mrs. H. H. Nicholson, third; Cannas, Mrs. Butler Hurley, first; Iris, Mrs. Abell, first; berry-bearing shrub, Mrs. Lowe, first, Mrs. I. C. Link, second, and Mrs. Roy Minear, third; flowering shrubs, Mrs. Abell, first, and Mrs. Linebery, second; foliage, Mrs. C. W. Herndon, first, Mrs. Henry Oliver, second, and Mrs. Hejl, third; succulent and cacti, Mrs. L. O. Baggett, first, Mrs. Hejl, second, and unnamed, third; unscheduled, unnamed, first, Mrs. Robert L. Clarke, second, and Mrs. Abell, third; unscheduled club entry, a luncheon table setting, the Midland Garden Club; flowers—chrysanthemums, Mrs. Abell, first.

Mrs. J. R. Carr, Crane, Is Buried In Cisco

CRANE—Mrs. J. R. Carr, 22, died in a local hospital at 6:50 p. m. Tuesday. The body was taken to Cisco for burial.

Mrs. Carr was admitted to the hospital earlier Wednesday. She is survived by her husband, and a brother of Crane.

The Carrs moved to Crane from Cisco about a month ago. Mrs. Carr was originally from Breckenridge.

McCamey News

McCAMEY—F. O. Center, Sr., and son, Rollins, of Wichita Falls, visited friends in McCamey Friday. Center is operating frozen food lockers in Wichita Falls and Rollins is engaged in the finance business.

J. J. Phillips of Crane is undergoing treatment in a McCamey hospital.

Reports from the bedside of Mrs. N. C. House who underwent a major operation in San Angelo, are that she is improving nicely.

Mrs. Elton Joyce of the Rio Pecos Station, had a "come as you are" party recently, to organize a sewing club and to discuss plans for a Halloween party. Mrs. C. O. Holt was selected as president and Mrs. George Wetzel secretary-treasurer. Coffee and cookies were served to the following: Mmes. Ray Duncan, W. L. Porch, Jack George, Robert White, G. S. Marsh, Leon Strickland, Jack Andrew, W. L. Strickland, C. O. Holt and George Wetzel. The next meeting will be on November 5.

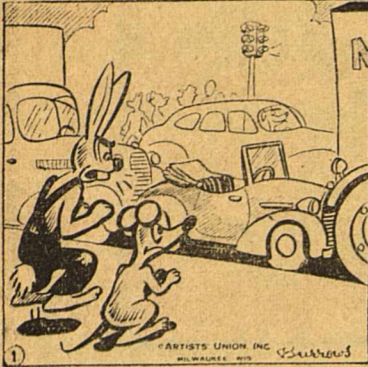

Mrs. Ray Duncan of Rio Pecos Valley, entertained her son, Jack on his eleventh birthday with a theater party Saturday. Those attending were: Darrel Graves, Johnny Joyce, Bruce George, Gary Joyce and Larry Duncan.

Mrs. Lenna Wilkerson has returned home from San Saba where she spent a week attending to business.

Cats cannot see in absolute darkness. Their vision is unusually acute in the dusk, however.

The area drained by the Mississippi river system is the greatest fertile plain on earth.

Kennel Club Show Slated Next April

SEMINOLE—Confirmation of the date for the all-breed championship point show for the West Texas Kennel Club was made public recently when representatives of Midland, Ward, Gaines, and Ector Counties met here for their monthly meeting.

The American Kennel Club has verified April 4, 1948, as the date, with Odessa as the host city. This marks the beginning of a series of big-time dog shows for the West Texas area, as the Rocky Mountain Sunshine Circuit has made Odessa the turning point for its series of 10 consecutive point shows.

The next meeting will be held in Odessa November 30 with an informal puppy exhibit open to the public. Any pup either registered or subject to registration (AKO) from any county in West Texas is eligible to enter.

Congratulations To

Mr. and Mrs. J. W. Cohorn of Eurice, N. M., on the birth Friday of a son, Lonnie Carl, weighing seven pounds.

LOST 42 POUNDS WITHOUT DIETING

The following remarkable story shows conclusively that Barcentrate DOES take off fat.

It contains nothing harmful. In fact, it contains ingredients that make you feel better. No starvation diet—no weakness—no hunger.

Barcentrate, the original grapefruit juice recipe takes off fat quickly, safely and you can eat plenty.

Here Is Proof
 "When I started taking Barcentrate, I weighed 212 pounds and wore size 46 dresses. Now I wear size 18 and weigh 165 pounds. I started taking Barcentrate in March and by June I had lost 47 pounds. I would have lost more weight had I left off fattening foods, but I was anemic at that time and afraid to diet. People who snow me before I started taking Barcentrate are amazed at the weight I have lost. My flesh is firm; I have never become flabby or wrinkled and I am 40 years old.

"Before taking Barcentrate I couldn't do my house work without getting dizzy and my head and back hurt constantly. I was so short winded, I was miserable. But now all

FRESH BLOOD A MUST FOR FREE ENERGY

Do you feel like you are tied to a drag ever time you try to do something? If so, don't let a low blood count hold you down when you may release vibrant energy to every muscle, fibre, cell.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get bulky with gas, bloating and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Sturdy Health.

This poor little Chihuahua gazes upon a cruel world. Somebody put the tiny dog in a Rochester, N. Y., ash barrel, and it wasn't until passers-by heard his whimpers that the police were summoned to rescue him.

State Highway Department To Let Contract For Kermit-Andrews Road

KERMIT—Kermit and surrounding area welcomed the long-awaited announcement Wednesday that the State Highway Department is to award contract for construction of 20.965 miles of the Kermit-Andrews highway in Austin November 13. Gene Kelly, resident engineer with the District State Highway Department in Pecos, made the announcement in Kermit.

Kelly stated the Department expects the contractor to be moved into Winkler County and ready to start work by December 15. The enormous amount of dirt work which will be required is to be done in the winter months, with asphalt topping and finishing to be done next summer. The contractor will be allowed 250 days to complete the project.

Farm-To-Market

Designated as farm to market Highway No. 703, the road will be a vital link in the proposed Broadway to Big Bend Highway, and when the route from Andrews to Lamesa is completed, the distance from Kermit to Lubbock will be approximately 40 miles shorter than at present.

Charlie Roberts, former Andrews County judge and now manager of Andrews County Chamber of Commerce, reported in a telephone conversation Wednesday the section of the road in his county already is complete from Andrews to the Winkler County line.

Roberts stated that within the next two weeks the Highway Committee of his Chamber of Commerce and of the Lamesa organization are to meet with county officials of Andrews and Dawson Counties and map out a co-ordinated plan for completion of the road into Lamesa.

The Dawson County attorney has been authorized to draw up a petition calling for a bond election for construction of the 12 miles needed in that county to reach the Andrews County line. Andrews County will need a bond issue for approximately 22 miles, Roberts stated. If present plans materialize the bond elections in each of the counties will be held the same day.

Many Delays

Voters of Winkler County placed their approval on the highway in 1945 when a \$700,000 bond issue was approved. Considerable delay resulted in starting construction when the county was forced to condemn the greater part of the right-of-way. After these and other details had been cleared, Winkler County entered into contract with the State Highway Department whereby the county paid to the Highway Department the sum of \$300,000, and it took over construction of the road.

Still further delay was caused when the State Highway Department revised plans and specifications, but the result is that the

Kermit School Homecoming To Be Held Friday

KERMIT—The Kermit-Monahans football game scheduled next Friday night, has been designated as the first official homecoming game for Kermit High School alumni, according to Tommy Thompson, assistant superintendent of Kermit schools.

The entire day will be dedicated to activities of former school students.

Registrations will begin at 10 a. m. Friday in the American Legion Hut. Coffee and sandwiches will be served throughout the day, and the group will take part in a pep rally at 3 p. m., which will be an important part of the pre-game parade to be staged at 6:30. All ex-students present for the celebration will attend the game Friday night in a group.

A dance in the Legion Hut following the game will wind up festivities for the day.

The homecoming is sponsored by the Kermit Alumni Association, with Harold Kaley, president, J. R. Conce, vice president, and Mrs. Mary Dean, secretary-treasurer.

Registrations will begin at 10 a. m. Friday in the American Legion Hut. Coffee and sandwiches will be served throughout the day, and the group will take part in a pep rally at 3 p. m., which will be an important part of the pre-game parade to be staged at 6:30. All ex-students present for the celebration will attend the game Friday night in a group.

A dance in the Legion Hut following the game will wind up festivities for the day.

Contract Let For Winkler Fence Job

KERMIT—Winkler County Commissioners, have awarded contract to John Haley for construction of nine and eight-tenths miles of fence along Highway 115. Haley's bid of \$95 per mile was low of a number submitted.

Highway 115 runs between Kermit and Wink.

FEW GREEK PLANTS REACH PRE-WAR PRODUCTION LEVELS

ATHENS—(AP)—Ninety per cent of Greece's pre-war industries are now in operation, but only a few of the 5,000 plants have reached pre-war production levels, Reginald E. Gilmore, of New York, director of the Industry Division of the American Mission for Aid to Greece, says.

highway will be of better construction than originally planned.

Tra R. Thus, senior resident engineer with the Highway Department in Pecos, announced two weeks ago that plans and specifications of the highway have been drawn to meet requirements of the regular highway system, which provide an adequate facility for the heavy oilfield traffic which is expected.

Dirt, Squirt And Quirt

— FARM, DAIRY AND RANCH NEWS —

By STANLEY FRANK

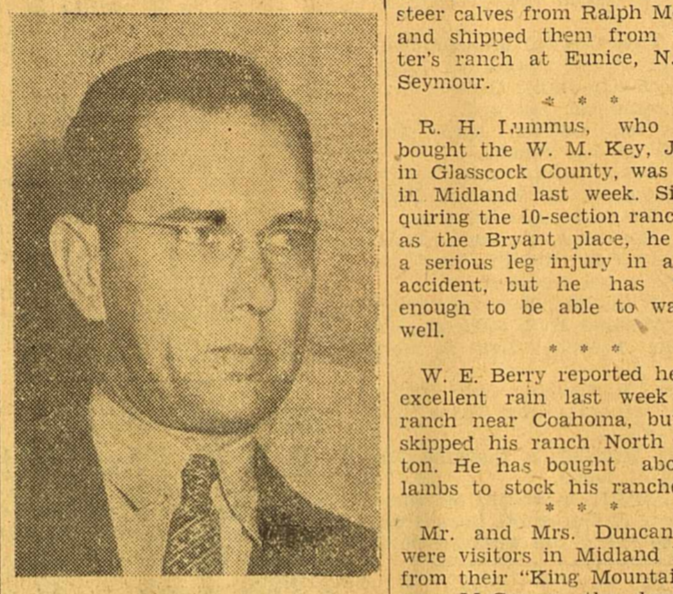

Midland's three gins had processed a total of 5,715 bales of cotton at noon Friday.

The county's crop is coming in as fast as had been expected, considering the labor situation, it was reported. Cotton from some sections of the county was showing some stain as a result of last week's wet weather.

About 400 head of cattle sold at the Midland Livestock Auction Thursday on a market steady to stronger than the previous week. Butcher calves brought up to \$23 per hundredweight, fat bulls up to \$16, fat cows to \$17, and canners and cutters \$8 to \$11. Stocker calves and yearlings showing any quality at all brought \$17 to \$19.30. No good cows with calves were

Maley Says Midland Hospital Facilities Are Most Inadequate

Vaughn C. Maley, geologist and president of the Board of Education of the Midland Independent School District, said, when questioned as to Midland's need for a modern and spacious hospital. "We find ourselves today without adequate hospital facilities for normal requirements."

Vaughn C. Maley

"What would we do in case of emergency?" Maley queried. "Midland has experienced an unusual growth in population during the last 12 years, and this growth has overcrowded all our buildings and taxed every institution to the limit. More than any other, our hospital facilities are absolutely inadequate. While our population has more than doubled in seven years, we have, by comparison, fewer hospital beds now than we had a few years ago.

"Our shortage of hospital facilities is pointed up by the fact that no hospital of any size exists within 100 miles of Midland. There is no place within 300 miles where we can have assurance of getting hospitalization without dangerous delay. Some may be able to seek hospital care at distant points, but there are many of our people who, because of added cost, fail to get proper medical care at all.

"With the firm belief that Midland will grow and is permanent, we citizens have sufficient reason to see that Midland gets a modern, general hospital as soon as possible."

Kermit To Get New Business Building

KERMIT—The list of new buildings and business firms for Kermit was increased this week when J. C. Sewell announced he is soon to start construction of an ultra-modern structure to house a jewelry store and flower shop.

The building will be 25 by 85 feet, and located between the Winkler County News building and Edwards Home Appliance Company. It will be of brick and tile and is being designed, Sewell stated, by a prominent architect who specializes in modern store fronts.

Plans for the building are soon to be completed, Sewell said, and construction will begin as soon as contract is let and materials purchased.

FORD EMPLOYEES TO BE PERMITTED TO SMOKE ON JOB

DETROIT—(AP)—Another vestige of the regime of the late Henry Ford will disappear November 15 when office and plant employees of the Ford Motor Company will be permitted to smoke on the job.

The founder of the industrial empire, who died last April, always considered smoking a fire hazard and time-wasting.

All's Well That Ends Well

Clifford Tommey, 12, of East Point, Ga., displays a model plane to two new friends after promising a Juvenile Court judge that he would "straighten up and fly right." Ben Epps, center, owner of the plane Clifford "borrowed" and Glenn Miller, right, were so touched by his eagerness to fly that they persuaded the judge to suspend sentence and allow the boy to spend his afternoons at the airport where they will see that he receives flying lessons.

Study Shows Need Of Competitive Price For Cotton

WASHINGTON—(AP)—If cotton consumption is to be maintained at present levels, an Agriculture Department study concluded, it must have a "competitive price," and be supported by an intensified merchandising program and continued research as to wider use.

The conclusion was based on a series of cotton studies made the last year by the Southern Regional Research Laboratory at New Orleans.

Summaries of these studies are to be included in the department's annual report.

These studies, the department said, also showed:

1. That manufacturing processes alone account for 49 per cent, and wholesalers' and retailers' margins alone averaged about 40 per cent of the consumer's dollar paid for cotton clothing and household products.
2. That a total of 7,700,000 bales of cotton will be consumed in the United States in 1950 if cotton is priced at 25 cents a pound and business conditions are moderately good.
3. That cotton has lost important end-use markets during the last 15 years to paper and rayon and faces the prospect of intensified competition from these and other materials.

School Dismisses Early For Many To Attend Game

A large group of Midland students attended the football game in San Angelo Friday night. School was dismissed at 3 p.m. Friday, in order for them to drive to San Angelo in time for the game.

Some of the students going were: Eddie Richardson, Bernal Pemberton, John Dittmer, Donald Kirk, Reed Gilmore, Harry Baur, Don Whigham, James Barber, Jeanne Devereux, Shirley Cooper, Dale Sice, Charles Wheat, Roy Mann, Billy Secor, Don Morrow, George Mayes, Dick Morrison, Joe Anderson, Leon Cline, Fred McMurry, Sue Johnson, Peggy Charleston, Jean Blackwell, Joan Nelson, La Vella Tuggle, Marianne Tidmore, Alfred Baze, Henry Floyd, Cecil Wells, Dan Dickinson, and Louis Brooks.

Ralph Arnett, Frank Ashby, Candace Chancellor, Charlotte Schaefer, Barbara Brashears, Otho Burt, Tommy Staiger, George Byrd, David Weaver, Oscar Otho, Clyde Adams, Charles Chambers, Ben Gray, Mazie Secor, Janice Jones, Yates Brown, Fayne Wilkes, Arnold Drake, Billy Briggs, Dickie Jackson, Frank Shepherd, Burl Timmons, John Scrogin, Leroy Colyar, Bill Gilmore, Bob Johnston, Herman Hankla, Dean Wade, Jimmy O'Neil, Jerry Culp, James Culp, David Anguish, and Eugene Harris.

Mary Faye Ingham, Billy Prothro, Jereilyn Jewell, Gloria Anguish, Donna Ward, Susan Hemphill, Rosalynn Leggett, Toya Chapple, Peggy Foreman, Jean Blackwell, Betty Richards, Billy Glaze, Frances Tredaway, Donald Johnson, Bill Newsom, James Dickinson, Wilma J. Hall, Donald Story, Jimmy Chaucey, Archie Row, Alan Olson, Eugene Johnson, Mole Price, Melba Clarke, C. C. Tull, Alex Oates, and T. A. Devore.

Tuesday's Assembly Features Femininity

The assembly program Tuesday was presented by girls. This is the first of its type this year.

The first number on the program was an imitation of a speaker at a woman's club, given by Virginia Bredelove. Her topic was "Flowers of America."
Betty Jean Luckett did a ballet dance called "To Spring." She wore a white satin ballet costume trimmed with silver sequins and black ballet slippers. She was accompanied in the piano by Sue Johnson.

Deephane Tabor did an imitation of "Minnie Pearl," who appears on the "Grand Ole Opry" program, and following, she sang "Temptation," Jo Stafford style.

"What Girls Think of the Boys' Styles" was the last part of the program. Barbara Ellis introduced the different styles. Delores Franklin, Nancy Trauber, and Pat Pryor represented typical high school boys—Patsy Bray the sporty type of boy, Jean McMillan, the dressed-up boy at a tea, and Patsy Ratterson, the odd water boy, wearing three coats, hat, ear-muffs, and a scarf.

Maggie Murphy announced the program.

Following the program, Principal Mathews made announcements, and Coach Milam made a brief speech.

FHA Plan For Special Homemaking Week

November 2-8 is National Homemaking Week. Each of the Future Homemakers this week include the following things:

- Sunday—Participate in church services.
- Monday—Decorate stage for the opera.
- Tuesday—Assembly program.
- Wednesday—Radio program at 5:15 p.m. over KCRS.
- Thursday—Club meeting and decorate stage for junior play.
- Friday—Decorate stage for junior play.
- Saturday—Plant red rose bushes (the red rose is the national flower of the F.H.A.).

How Are Your Manners?

(An Editorial)
How are your manners in assembly? Your school is reflected in what you do. In matters which are of concern to the whole school we should be able to act for the best interest of everyone. Here are a few suggestions for your behavior in assembly:

1. Be prompt to reach your assigned seat.
2. Stand until the middle of the row is filled to avoid confusion.
3. Give attention as soon as the chairman stands.
4. Remain quiet even if you cannot hear.
5. Do not read, eat, or whisper incessantly during an assembly.
6. If you arrive late, take your seat quietly, disturbing as few people as possible.
7. Avoid turning to stare as late comers enter.
8. Wait until the end of a musical selection to applaud.
9. Never stamp your feet or applaud in rhythm.
10. Do not prolong the applause if an encore is not readily given.
11. Refrain from cleaning your finger nails and combing your hair during the assembly meeting.
12. Help to make the singing or cheering a success.
13. Do not leave until the close of the meeting unless it is absolutely necessary.
14. When you leave, lift your seats so that those who follow will not stumble over them.

Who Is It?

Fill in the blanks with the first letters of the words that describe the persons and you will have their names.

- un- -retty

Gold Jackets Make First Out-Of-Town Trip To Game Friday

The Gold Jackets made their first out-of-town trip Friday, to the San Angelo game. They went on buses provided by the school. There are 102 members in the Gold Jackets.

Majorities are: Betty Bobo, Royce Raye McKee, Joan McDonald, Jean McMillan, and Peggy Lou Whitson.

Emma Sue Cowden is major, and those working under her, according to their rank, are as follows: captain, Sarah Low Link; lieutenants, Dolores Franklin and Mary Lynn Manning; sergeants, Lady Kidwell, Barbara Ellis, Nancy Trauber, Mona McGraw, Patsy Patteson, Carolyn Schaeffer, Patsy Bray, Peggy Whitson, and Betty McCain.

Other members of the drill squad are: Willa Mae Baker, Lynette Barlow, Patsy Bates, Furla Bates, Faye Alexander, Eleanor Boyd, Marilyn Brashton, Virginia Brooks, Joyce Brown, Gloria Bryson, Melodese Burris, Barbara Burnham, Helen Caffey, Patsy Carrell, Nell Cole, Carline Cowan, Evelyn Croven, Gloria Crowe, Jane Ann Curd, Maurine Denton, Dorothy De Wolf, and Joy Emfinger.

Other Members
Vi Jean Fluglar, Phyllis Gifford, Nancy Gray, Wilma Green, Shirley Gunter, Wilma Jean Hall, Shirley Hambricht, Helen Harrison, Kathleen Harwell, Melissa Heidelberg, Ruby Hudgins, Jo Ann Hunt, Virginia Ireland, Helen Leslie, Wanda Lewellyn, Darlene Livingston, Bobbie Jean Logan, Faye Manville, Joy Mashburn, Aurora Meija, Faye Montgomery, Wanda Moore, Etta Ruth Murray, Betty Nix, Pauline Norwood, Marie Ollif, Martha Ollif, Betty O'Neil, Velda Pigg, Pat Pryor, Frances Puett, June Pyle, Patsy Pyle, Mildred Rasco, Pauline Rasco, Ester Pearl Reeves, Dorothy Rodercraft, and Nova Rogers.

Lois Shelburne, Mary Sherrod, Soney Smith, Ruth Struen, Lillie Lee Taylor, Willetta Tekell, Mary Thompson, Wanda Vest, Betty Vineyard, Patsy Wallace, Mary Frances Wallis, Joy Webb, Ann Wells, Beth Whatley, Enid Wheeler, Fannie May White, Helen Whitlin, Thia Williams, Dorothy Wolfe, Lowetta Wreyford, Joan Wyche, and cheer leaders, Bob English, Norma Jean Hubbard, Betty McCain, Bob Short, and Lucille Wemple.

The Gold Jackets are under the direction of Mrs. Inez Cheatham.

GAA Is New Name For Girls' PE Club

"He who possesses health and a knowledge of how to enjoy leisure holds the key to happiness" is the motto of the Girls' Athletic Association, the new name of the girls' P. E. club.

Club aims are: to better the physical education department to keep physically fit, to increase knowledge and enjoyment of girls' sports, and to enlarge the physical education library.

Officers of the club are: Kathleen Harwell, president; Marie Ollif, vice president; Darlene Livingston, secretary-treasurer; Patsy Bates, reporter; and La Ven Baxter, librarian.

Year books for the G.A.A. were distributed to members of the club at the meeting Thursday.

Laverne Estes, Richard Clarke, Star Cast Brings 'Barber Of Seville'

Laverne Estes, junior, and Richard Clarke, senior, were chosen as most representative girl and boy in Midland High School, in a run-off held Friday.

Miss Estes recently was chosen band sweetheart. Clarke is on the A football squad, and is president of his home room.

Others who were competing in the run-off were Betty McCain, Sarah Low Link, Bob Short, and Charles Moncrief.

Other nominees
Others nominated for the most representative girl were Genora Brown, Lucille Wemple, Swan Hagler, Ann Stephens, Shirley Gunter, Billie Glaze, Maurine Denton, Wilma Green, Dorothy Turner, Susan Hemphill, Norma Jean Hubbard, Jacquelyn Schneider, Marylee Cowden, Anne Upham, Betty Joyce Gerald, Patsy Collins, Virginia Ireland, Patsy Bray, Lois Black, Shirley Cooper, Sarah Hunter, Enid Wheeler, Betty Marie Nix, Jo Ann Nelson, Emma Sue Cowden, Mary Lynn Manning, Helen Cartwright, and Royce Faye McKee.

Other boys nominated were Jim

Estes Clarke

McGraw, Fred McMurry, John Tolbert, Bob Hot, Reed Gilmore, Joe Anderson, Richard Hull, Maurice Cox, Bill Gilmore, Fred Dump, Joel Sims, Don Whigham, Kenneth Wright, Neal Adams, Edwin Pritchard, Lynn Nicholson, Dale Sice, Tom Sloan, Allen Olson, Alton Straggins, Jimmy O'Neil, Pat Sellers, Bill Vanlandingham, and Bob English.

FORMER STUDENTS

Matt Sweeney, Johnnie Morelan, Dean Cox, Richard Burly, Bill Davis, Stanley Hall, Ervin Reecer, and Dorothy Harrison were among the former students home from Texas Tech, Lubbock, for the weekend.

Royce Higgs and Howard Mickey came home from Hardin-Simmons, Abilene, to spend the weekend in Midland.

Alma Faye Cowden brought Joan Slaughter of Fort Stockton, home from Hockaday Junior College, Dallas, to spend the weekend.

Guy Tom Cowden spent the weekend on his ranch.

Jack Bryon and Billie Moore, both graduates of Midland High School, are to be married soon.

Gene Shelburne, graduate of '42, is home from Hardin-Simmons, Abilene, for the weekend.

Edna Willis and Mary Lou Price, former Midland High students, are attending Paschal High in Fort Worth.

Robert Roripaugh and Buddy Anguish are home from Texas University, Austin.

Johnnie Morelan is spending the weekend at home.

Jane McMillan brought Margaret McMurray of Galveston, home from O.L.U. to spend the weekend here.

Personals

Red Scrogin returned to football practice Monday, but received injuries Tuesday, which will keep him out for the rest of the year.

Bob Johnston returned to school last week, after being out with the flu.

Barbara Brashears is spending the weekend in San Angelo with some friends.

Bernal Pemberton took his car to San Angelo for the football game Friday night. With him were Don Morrow, Fred McMurry, George Mayes and Eddie Richardson.

Students Attend Game
Ben Gray, Dick Morrison, Bob English, and Joe Anderson went to San Angelo for the game, in Anderson's car.

Leon Cline also took a car load of boys to San Angelo.

Don Hamblett was out from football practice last week and didn't play in San Angelo because of a leg injury.

Barbara Keeling, from Abilene, was the house guest of Frances Puett this weekend.

Shirley Biggs won a corsage last Sunday for being the first to call in and give the correct answer to the Mystery Tune over KCRS.

Fred McMurry gave a talk about the junior play over KCRS, on Tuesday night.

"Hi Neighbor" program, Tuesday night.

Gordon Reigle, graduate of '47, who is attending an Army and Navy academy in Carisbad, Calif., spent this weekend.

Shirley Biggs won a corsage last Sunday for being the first to call in and give the correct answer to the Mystery Tune over KCRS.

Fred McMurry gave a talk about the junior play over KCRS, on Tuesday night.

"Hi Neighbor" program, Tuesday night.

Star Cast Brings 'Barber Of Seville'

Laverne Estes, junior, and Richard Clarke, senior, were chosen as most representative girl and boy in Midland High School, in a run-off held Friday.

Miss Estes recently was chosen band sweetheart. Clarke is on the A football squad, and is president of his home room.

Others who were competing in the run-off were Betty McCain, Sarah Low Link, Bob Short, and Charles Moncrief.

Other nominees
Others nominated for the most representative girl were Genora Brown, Lucille Wemple, Swan Hagler, Ann Stephens, Shirley Gunter, Billie Glaze, Maurine Denton, Wilma Green, Dorothy Turner, Susan Hemphill, Norma Jean Hubbard, Jacquelyn Schneider, Marylee Cowden, Anne Upham, Betty Joyce Gerald, Patsy Collins, Virginia Ireland, Patsy Bray, Lois Black, Shirley Cooper, Sarah Hunter, Enid Wheeler, Betty Marie Nix, Jo Ann Nelson, Emma Sue Cowden, Mary Lynn Manning, Helen Cartwright, and Royce Faye McKee.

Other boys nominated were Jim

McGraw, Fred McMurry, John Tolbert, Bob Hot, Reed Gilmore, Joe Anderson, Richard Hull, Maurice Cox, Bill Gilmore, Fred Dump, Joel Sims, Don Whigham, Kenneth Wright, Neal Adams, Edwin Pritchard, Lynn Nicholson, Dale Sice, Tom Sloan, Allen Olson, Alton Straggins, Jimmy O'Neil, Pat Sellers, Bill Vanlandingham, and Bob English.

Matt Sweeney, Johnnie Morelan, Dean Cox, Richard Burly, Bill Davis, Stanley Hall, Ervin Reecer, and Dorothy Harrison were among the former students home from Texas Tech, Lubbock, for the weekend.

Royce Higgs and Howard Mickey came home from Hardin-Simmons, Abilene, to spend the weekend in Midland.

Alma Faye Cowden brought Joan Slaughter of Fort Stockton, home from Hockaday Junior College, Dallas, to spend the weekend.

Guy Tom Cowden spent the weekend on his ranch.

Jack Bryon and Billie Moore, both graduates of Midland High School, are to be married soon.

Gene Shelburne, graduate of '42, is home from Hardin-Simmons, Abilene, for the weekend.

Edna Willis and Mary Lou Price, former Midland High students, are attending Paschal High in Fort Worth.

Robert Roripaugh and Buddy Anguish are home from Texas University, Austin.

Johnnie Morelan is spending the weekend at home.

Jane McMillan brought Margaret McMurray of Galveston, home from O.L.U. to spend the weekend here.

Junior Civic Music Club Holds First Meet

The Junior Civic Music Club had its first meeting since its reorganization this year during club period Thursday.

The club discussed plans for future meetings, dues, and selected Charlotte Sherer and Jeanne Devereux to appear in the Junior Session for the Civic Music Club District Meet in Midland, Saturday.

Meetings will be held monthly.

The next meeting will be at 7:30 p.m., Monday, November 3, at the home of Jeanne Devereux, 1709 W. W. Club dues are fifty cents a year.

Members of the Junior Music Club are Laverne Estes, Shirley Bunt, Joanne Glass, Deephane Tabor, Joy Guyton, Eddie Jo Bryan, Sue Johnson, Shirley Winter, Anne Upham, Charlotte Schaefer, Shirley Biggs, Mazie Secor, Jeanne Devereux, La Vella Tuggle, Janis Jones, Wanda Burnside, Lynn Dell Moore, Joan Wyche, Joyce Howell, Jereilyn Jewell, and Ann Boring.

Anyone else interested in becoming a member of the club should see Don Moore, the sponsor of the club. It is open to both boys and girls.

History Classes Debate Universal Training

"Resolved: That The United States Should Adopt Universal Military Training," was the subject for the debate given in Miss Weaver's History class Friday.

The first period debaters were: Shirley Bunt and Charlotte Schaefer, affirmative; Larry Loskamp and Bernal Pemberton, negative.

The fourth period debaters were: P. D. Smith and W. L. Thompson, affirmative; Charles Wheat and Leroy Han, negative.

Correction

David Sikas, junior, accidentally was omitted on the honor roll last week. He made the A and B honor roll for the first term.

France is about three times the size of Missouri.

Echoing Halls

MONDAY—Same old "Blue Monday." It was cold and rainy and very hard to get up this morning. Students jumped mud puddles on their way to school and it took them about 30 minutes to "thaw out" after they arrived.

TUESDAY—Seniors could be seen with combs, mirrors, and any other device they might have for improving their looks, for annual pictures. Had a good assembly. Our parents attended P-TA at 7:30 Tuesday night.

WEDNESDAY—Home rooms met and students enjoyed programs. Drill squad and band had a special practice to work up formations for the San Angelo game.

THURSDAY—Clubs met. Students began talking about going to San Angelo.

Junior Canteen To Receive \$5,700 When Chest Goal Is Reached

The Junior Canteen is to receive \$5,700 from the Community Chest if the \$20,000 goal is reached. "Students could be helpful in urging their parents, to give as much as possible for the support of the canteen and other youth activities supported by the Community Chest," Dr. H. A. Ireland, chairman, stated.

Ninety per cent of the \$22,000 goal has been designated for youth activities, including the canteen.

A housing committee for the Youth Canteen has been selected. Members are George Abel, Holt Jewell, Mrs. Iva Noyes and Frank Monroe. The committee has investigated several possibilities, in a search for a building of sufficient size and suitability.

Applications are being received for a full-time director. The Junior Canteen will be operated by students, under supervision of the Senior Advisory Council and director.

Home Ec Class Will Decorate Opera Stage

First year Clothing girls are studying colors and combinations suitable for individual coloring and clothes. They are also studying interior decorating. They plan to clean and decorate the teachers' lounge.

The second year Clothing girls had a field trip Wednesday to shop for new draperies. These girls are decorating the stage for the opera, "The Barber of Seville," and the junior play, "A Date With Judy." They are draping the windows and the doorway, also making flower and furniture arrangements.

The third year Foods girls had a novel experience this week. Some of the members of the class wrote a script giving minute directions for setting a table to be transcribed on a tape recorder. Sonya Little transcribed it. Later the girls, listening to the recording, set the table. They used linens which had been made in class.

Eugene Cooper made a picture of some of the girls, to be sent in to a state home-making magazine with a story on the visual-aid program of the Home Economic Department of MHS.

That delicious odor in the halls the fifth period Wednesday came from room 302. The First Year Foods girls were cooking oatmeal cookies.

Admission is 74 cents.

Ruth Donnell Attends Convention In Lubbock

Miss Ruth Donnell, distributive education instructor, attended the Mid-Western Distributive Education Convention in Lubbock, October 25.

The convention was held from 8:30 a.m. to 5:00 p.m. Saturday, and was carried on in the form of school. B. W. Cecil, assistant to the state director of distributive education, was present.

Plans were made to have a district convention in Lubbock next Spring. There are now 168 programs in the state of Texas.

Plans were made to have a district convention in Lubbock next Spring. There are now 168 programs in the state of Texas.

Journalists Request Ideas From Students

The journalism class has provided a box in the front hall, by the office, for suggestions for stories and personals from other students.

Any ideas for stories or personals are to be written on a slip of paper and dropped in the box. Gossip columns are not permitted in The Bulldog, so refrain from submitting gossip.

Thespan Club Plans Reception For Opera

The Thespan Club met and discussed plans for arrangements for the opera company that will arrive Monday to perform in the High School Auditorium. The stage crew was elected to help out with the stage set, lights, and curtains.

Denis Rhodes, Jimmy Fitzgerald, Jim McGraw and Charles Wheat were selected for this job. Shirley Cooper and Dorothy Turner were put in charge of a floral arrangement.

Advertise or be forgotten.

Many Assist With Hallow'een Carnival

The Midland High School P-TA sponsored their annual Hallow'een Carnival Saturday night in the high school gym.

Those in charge of the booths were: Mrs. Bill Wyche, pie booth; Mrs. S. P. Hazlip, ping pong booth; Mrs. R. L. Denton, coffee booth; Mrs. J. I. Morrow, drink booth; Mrs. Delbert Downing, candy and popcorn booth. Mrs. Bob Franklin was in charge of the cake walk; Mrs. W. H. Gilmore, bingo; Mrs. F. Hunter, doll rack; Mrs. J. C. Ashby, penny pitching; Mrs. T. W. Meador, chairman of white elephants committee; Mrs. Tom C. Bobo, chairman of the door committee; Mrs. Robert M. Turpin, fortune telling, and Mrs. E. W. Anguish was in charge of the bean bag.

Boys Build Booths
Jack Mashburn and boys in the mechanical drawing classes built the booths.

Mrs. C. E. Neison was publicity chairman for the carnival. Miss Josephine Weaver and Enid, Sonya and Bill Little made posters to advertise the carnival. Mrs. L. G. Mackey was soliciting chairman.

Mrs. A. Cowden, general chairman, expressed her appreciation of the cooperation of Principal Matthews and the teachers in helping with the carnival.

Thirty-five girls started work Tuesday for the volleyball season. Girls on the B squad team just year who are back again this year are: Darlene Livingston, Joy Webb, Ruby Hudgins, Wanda Moore, Marie Ollif, and Wilma Smith.

Other girls going out for practice are: Glendene Hudson, Martha Ollif, Virginia Broeze, Dorothy McQuerry, Bobbie Jean Logan, Betty Wozencraft, Mary Frances Wallis, Betty Leftwich, Billy Glaze, Beth Whatley, Nancy Trauber, Lowetta Wreyford, Frances Tredaway, Gloria Bryson, Wilma Jean Hall, Dorothy Driver, Lilly Lee Taylor, Betty O'Neil, Myrna Faye Johnson, Elsie Mae Young, Patsy Pyle, Carrel, Shirley Sherrod, and Yvonne Driver.

Gold satin uniforms with numbers and letters will be provided for the team this year.

'Jigs' Is Newest Arrival At MHS

Yes, "Jigs" has arrived. He arrived in Room 309 at 2:24 p.m. Wednesday, October 29.

Everyone in the journalism class, especially Mrs. Rowland, has been anticipating the arrival of "Jigs." "Jigs" has been needed by the journalism class for quite some time.

Now that he is here, there is a place to put the cuts where they can't be bothered by inquisitive hands. Also, there now will be a place to put the back issues of The Bulldog, and other papers.

So you can see why "Jigs"—who is a cabinet, by the way—is welcome to MHS.

Driving Class To Study Automobile Engine

The driving class of Midland High School is going to the Ford Agency on Tuesdays and Thursdays to study the engine and its functions.

The agency has an engine which has been cut down. It is possible to turn it to view it from every angle. Howard Meening, head of the service department, explains all the parts of the engine and encourages the students to questions on anything they do not understand.

The class leaves for the plant at eleven o'clock and has discussion until twelve o'clock.

CIVICS CLASS STUDIES PARLIAMNTARY PROCEDURE

Miss Weaver's civics class has been studying parliamentary procedure for the last week. Thursday they formed a replica of the U. S. Senate and tried to pass a bill.

The bill was approved by the senate after much debate, which included a filibuster by Duane Fritz, the Senator from Michigan. It was killed when vetoed by the President.

Dean Waddle was the Senate page-boy. Dicky Jackson was president of the Senate; Charles Ruckman, the chaplain; Jimmy Fitzgerald, President of the U. S.; and the rest of the class represented senators from various states.

'Sir' Mike Plays Santa Year 'Round To Needy Families

By RICHARD KLEINER
CRESTLINE, O.—(NEA)—"Sir" Michael Bibich has just climaxed a lifetime of goodness by giving away—free—30 building lots to ex-GI's, and promising to give away 12 more. The 30 are valued at \$15,000.

'Sir' Michael Bibich

Everybody in Crestline calls him Mike, although he's only been living there for eight years. He runs a meat market, but that's just a sideline. His real business is doing things for others.

Crestline has a youth center, to keep its youngsters off the streets. Mike built it and equipped it.

Lots of people in Crestline, as elsewhere in the nation, are finding it harder than ever to make ends meet nowadays. Every once in a while, a hardship case will wake up in the morning and find a big basket of food on his front porch, topped by a big ham. They don't have to wonder who sent the basket—it was Mike. His hams are almost a trademark.

Plans 30-Home Unit

Mike had a tract of land on the south side of Crestline. He decided, he says, "I'm going to do something for my fellow man. I'm going to give away those lots."

But Mike didn't just give them away. He had an architect draw up a modern plan for a 30-home community, complete with plenty of recreational areas for the children and the best possible arrangement of home sites.

Then he notified the newspapers that the 30 lots would be available, free of charge, to any ex-GI in the four surrounding counties who

who were amazed that somebody was doing something for the ex-GI.

One wrote: "I think this is one of the nicest things Americans could do for us. Thanks and God bless you."

Another said: "It's hard to believe there are still people in this world good like you."

Twelve of the letters so appealed to Mike that he decided the writers were going to have lots, even if they didn't win them in the lottery. He exempted them from the draw, but, so as not to go back on his word that 30 lots would be available, he decided to make these 12 extras. He still doesn't know where he'll buy the land, but those 12 can rest assured that Mike will find it.

Makes Touching Speech

When the drawing was held, some of the 316 didn't show up, but most did. All the names were called, so there would be no question of dishonesty. Each man (and one or two women) put their names in the box themselves. Then little Sharon Sue Rickle drew out 30 slips.

Appropriately, the first name drawn was that of the local American Legion commander, Harvey A. Whipple, who served in the Pacific with the Navy as a Chief Petty Officer.

Mike's short speech was touching. He's Yugoslavian by birth, and his accent is still noticeable.

"This day," said Mike, "and this hour are going to make me the happiest man in the world. I'm doing something for my fellow man. Those who didn't win—have faith in yourself, faith in your fellow man and faith in God, and you'll have a home some day."

"We have the best government in the world today. You fought for us, now we are going to fight for you. I'm going to try to see that each and every one of you get a home. Don't be afraid to ask me for what you want."

Came From Yugoslavia

That's Mike Bibich, who came here in 1912 from Vovodina, a part of Hungary that's now in Yugoslavia.

Giving things away and making others happy is, Mike says, "just in me." Back in Yugoslavia, his people always helped out needy students and the sick and hungry. He sees no reason to change.

Perhaps his philosophy is catching. At any rate, one of the lucky 30, Alexander Cohen, turned around and gave his newly-won lot to another ex-GI, Harry Vaughan, who needed it more.

College Moves Games And 'Goes To Town'

By DEL BOOTH

DUE WEST, S. C.—(P)—Night play in the nearest urban center is the "only salvation of football for small colleges located in small towns," says Coach Johnnie McMillan of Erskine college.

McMillan has carried his belief and his Flying Fleet team to neighboring Anderson, a city of 25,000, about 20 miles away, for night football games and the first financial stability the college's gridiron program ever has enjoyed.

The night games at Anderson replace the usual home games and have proved "satisfactory to all concerned," McMillan reports. Four games were slated there this year to inaugurate the program.

Coaches Second Season

McMillan, 28, is in his second season of coaching college football. In his first, as a wartime relief coach in 1945, he spurred an under-sized University of South Carolina Gamecock football team in the first New Year's Day Gator Bowl to be generally recognized as the Southern Conference coach of the year.

Now he's back again as a college coach, this time at little Erskine college, directing a squad of gridiron hopefuls gleaned from the educational student body of 300.

"We played to alumni and faithful friends in our first two games, but as Andersonians found out we offered interesting football, there was more interest and an increasingly better attendance in prospect," McMillan says.

Play Saturday Nights

Although only breaking even financially on their first two games at Anderson, McMillan explained that "if we had played them at home (Due West has a population of 600), we would have had to pay our guarantees to the visiting teams almost entirely out of our pockets."

Contrary to the usual practice in major college night football of playing on Friday nights, McMillan has moved all his games over to Saturday nights "to avoid conflicting with Friday night high school games and to offer an added attraction to fans from daytime games at larger colleges in our territory."

The mechanics of playing home games away from home are "more complicated than they would be for a performance here, but the extra headaches are worth the results."

Students Like It

He has to handle everything from long distance—the programs, arrangements for dressing room facilities, transportation and other details. It's all worth it, he insists, because:

"The students like it. They regard the trip over to the games as a carnival and travel by chartered bus or in their own cars. The faculty and alumni like it. The players like it because it gives them a chance."

"It is the salvation of the game for us. Otherwise, we might have to drop the sport permanently—a sport that all hands here seem anxious to keep going."

Wealthy Widow, 80, Adopts General, 57

NEWPORT, R. I.—(P)—A 57-year-old retired Army commander has been adopted by an 80-year-old wealthy Newport widow and social leader, with all the rights of a natural son under inheritance tax laws.

The adoption of Brig. Gen. Ralph C. Tobin by Mrs. Hamilton Fish Webster was disclosed by John M. Dring, clerk of the Newport Probate Court. He said the papers completing the adoption were filed by William A. Peckham, Newport attorney.

Mrs. Webster's husband died in September, 1939, leaving her an estate valued at \$1,250,000 to be held in trust during her lifetime. The will also granted her lifetime use of the Wester's \$120,000 Newport estate, Pen Craig.

Armed Services Will Hold Surplus Goods

WASHINGTON—(AP)—The armed services have decided to hang on to \$5,000,000,000 worth of goods they once planned to dump into the war surplus market.

This decision to increase "military stock levels" has been disclosed by War Assets Administrator Robert M. Littlejohn, who also reported that some goods already declared surplus have been withdrawn from public offering.

The withdrawals include clothing and other supplies now being used to relieve distress abroad and at home and to carry out this country's \$400,000,000 Greek-Turkish Aid Program aimed at stemming Communist advances into Southern Europe.

At the Army Department it was said the decision to keep more materiel does not represent "a new strategic situation" but only a policy change relating to stocks on hand.

McCamey News

MCCAMEY—Visitors in the home of Mr. and Mrs. A. O. Beavers last week were his brother and sister-in-law, Mr. and Mrs. W. M. Beavers of Dallas, and his sister and brother-in-law, Mr. and Mrs. S. L. Tarrant of Dallas.

Virgil Herring of Mineral Wells was a guest this week of Mr. and Mrs. John Reed.

Mr. and Mrs. Cecil Carr are the parents of a son, born October 27 at the Shannon Hospital in San Angelo. Weight 8 pounds, 13 ounces. The baby has been named Donald Wayne. Maternal grandparents are Mr. and Mrs. C. K. West of McCamey and paternal grandparents are Mr. and Mrs. Carl Carr of Abilene. The Carrs, formerly of McCamey, are residing at the Humble Camp, Station A, between Sonora and Ozona.

Mr. and Mrs. John Reed returned Thursday night from Tyler, where they visited for a week with Mr. Reed's father and brother, R. L. and A. R. Reed.

Miss Ruby Nelle Braly was a recent visitor to Odessa.

Industries To Spend Billions To Increase Fuel Supplies

"Biggest Inch." At left, will cost \$70,000,000, carry natural gas from Texas to California, be ready this winter. The petroleum industry will spend \$4,000,000,000 this year and next for pipelines like those pictured at right for refineries, etc.

By S. BURTON HEATH

NEW YORK—(NEA)—Four industries are expected to spend between \$20,000,000,000 and \$25,000,000,000 in 1947 and the next four years, mostly to make sure that there will be fuel to heat your home, run your factory, and keep your automobile and the boss' trucks operating.

Perhaps \$2,500,000,000 is being spent this year. Orders covering more than half of the huge total have been placed. Others will be placed as fast as supplies, materials and manufacturing capacity permit.

It is necessary to say "about" and "perhaps" in discussing these vast expansion projects of the petroleum, electricity, gas and railroad industries, because they are victims of our national slowness in getting reconverted.

What has happened, actually, is that the companies making up these industries have decided how much they should and can spend; they have placed all the orders they can get accepted for delivery soon; and now they are waiting for machinery, supplies, building materials and the like to come through.

Petroleum: 4 Billions
The petroleum industry is spending \$4,000,000,000 this year and next,

for refineries, pipelines and other plant and development. Insiders believe that as much more will be spent as fast as it can be. This would total almost half as much as the industry has invested from its birth down to this year. But it will not add 50 per cent to capacity, because costs have increased enormously.

The natural and manufactured gas industries are spending \$730,000,000 this year. Of this \$143,000,000 is for Big Inch and Little Inch pipelines, now bringing hundreds of thousands of cubic feet of natural gas east every day. Other pipelines head west. One informed source estimates that the industry will spend at least \$7,500,000,000 in the next five years if they can get the materials and equipment they want.

Electricity: 1 Billion
The electric power industry has a \$5,000,000,000 five-year program. Slightly under \$1,000,000,000 is being spent this year, because of steel shortages and delayed output of manufacturers who went through long strikes last year. If production permits, they will spend more than \$1,000,000,000 in each of the next two years, and then taper off.

Class I railroads have 851 locomotives and 105,261 freight cars on order, of which almost half are open top cars. If they can, they want to spend about \$300,000,000 a year for five years on locomotives and freight cars, plus as much more on roadway and structure, in addition to passenger train equipment. This would buy, among other things, the hopper cars needed to haul coal.

They were supposed to begin getting 10,000 cars a month in the middle of last Summer. On the ground of steel and other shortages, the delivery schedule was cut in half. Meanwhile cars are wearing out, beyond use, faster than they can be replaced.

War Slowed Plans
All of these industries have been criticized somewhat for lack of vision or of daring in not anticipating these needs and preparing against them. There is no sure way of knowing whether they would have expected what has happened. But they offer the unanswerable defense that during the war they were not permitted to build for today's peacetime needs. They could use materials and manpower only for pressing war needs.

After years in which they could not legally or patriotically order plant equipment, they have come into a postwar boom that almost nobody expected. The demand for their products has skyrocketed.

Since 1939 the use of gas for cooking, water-heating, house-heating and operating refrigerators has increased by 12,600,000,000 therms a year, or about 80 per cent.

More Farms Use Electricity
Since 1939 some 5,800,000 homes have added electricity. The number of electrified farms has doubled. And each customer uses half again as much current as he did then. As a result, demand has doubled while private companies were able to step up capacity by only about 20 per cent.

Whether they would have kept up if the war had permitted is anybody's guess; but it is a fact that they not only could not buy new generators—they even had equipment taken from plants where it already was installed, and moved to Navy ships and turned over to our hard-pressed allies.

After allowing for replacement of worn-out units, there will be some 550,000 more oil-burning home furnaces in use this winter than a year ago. Since the war began, the number of homes heated with oil has increased by 40 per cent.

Others Increase Appliances
Figures on equipment using these fuels, and thus contributing to the tightness of supply, are not very complete or reliable. But in the 18 months ended June 30 about 2,600,000 gas water heaters were delivered, and there were more than 600,000 orders on file.

More than 250,000 house heaters of various types, using gas, were delivered in the first seven months this year. This was not quite up to the 1946 rate, because of the ban imposed by many companies on such installations.

From Pearl Harbor through 1946 some 630,000 ranges, 400,000 water heaters, 500,000 radiators and 2,000,000 refrigerators were among the new electrical items put into homes.

The Ceylon cotton tree drops its leaves in dry weather to prevent its stored water from evaporating.

Patton's War Journal Accuses Montgomery Of 'Momentous Error'

NEW YORK—(AP)—Gen. George S. Patton, Jr., stormy wartime commander of the United States Third Army, vigorously criticized Britain's Field Marshal Montgomery and also directed barbs at top American officers in an abridgement of his war journal published recently.

In pungent, crisp phrases, Patton declared his belief the war in Europe would have been shortened and thousands of lives saved but for "the momentous error of the war" which he blamed on Montgomery's influence with SHAEF, Gen. Dwight D. Eisenhower's headquarters.

Excerpts from the informal journal, written during the Third Army's campaigns, were published posthumously in the Saturday Evening Post. They covered only the fighting in France and Germany.

Supporting views of some other officers and observers who have written of the Third Army's historic dash across France as far as Verdun in August, 1944, Patton asserted his forces would have pushed across the Rhine in 10 days had it not been for a change in high command strategy "implemented, in my opinion, by General Montgomery."

"The twenty-ninth of August, (1944) was, in my opinion, one of the critical days in this war," Patton wrote. "It was evident at this time that there was no real threat against us as long as we did not allow ourselves to be stopped by imaginary enemies."

Writing about the same matter after hostilities had ended in Germany, the general said:

"I feel that had I been permitted to go all out, the war would have ended sooner and more lives would have been saved. Particularly I think this statement applies to the time when, in the early days of September, we were halted, owing to the desire or necessity, on the part of General Eisenhower in backing Montgomery's move to the north."

Patton specified his respect for and friendship with Gen. Omar Bradley, his superior as commander

Most Of Nation Enjoys Warm 'Golden' October

By MAX HALL
WASHINGTON—(AP)—Most of the country has enjoyed a golden October of phenomenal warmth and dryness.

It was great for golf but it also brought about a thing of crackling horror—the forest fire.

Finally big changes are occurring in the nation's weather.

Rains and cold masses of air are cutting down on the golf and picnics.

Rains have also cut down on forest fire hazards in the West and Midwest, and are expected to ease the situation in New England, which has had its worst fire season in years.

Drought Sets Scene
A Weather Bureau official here said a really heavy, general rain over New England would "probably solve the problem" for this year.

Nearly all bad forest fires come out of a partnership between human carelessness and drought. The drought sets the scene of the crime, and some inconsiderate person comes along and does the rest.

Nearly all of the country has been having unusually warm weather.

East of the Rockies, October was the third straight month when temperatures averaged above normal.

August was a scorcher, September of the Twelfth Army group, but he did not hesitate to tell of disagreements.

Discussing the post-hostilities news conference which he said "cost me my command of the Third Army," Patton wrote, "my chief interest in establishing order was to prevent Germany from going communist. I am afraid that our foolish and utterly stupid policy in regard to Germany will certainly cause them to join the Russians and thereby insure a communistic state throughout Western Europe."

At the conference he had been quoted as saying: "This Nazi situation in some ways is like the Democratic and Republican fight back home. You always find the 'Outs' x x x making charges against the 'Ins'."

Just arrived—Carload No. 1 Specimen Shrubs, and now is the time to start your Fall planting. Free landscaping estimates gladly given. No job too large or too small. We also do pruning of all kinds, and spraying. We welcome your visit at any time.

2 Blocks East Rankin Highway at City Limits, PHONE 530
1506 S. COLORADO

ber was above normal, and October was almost as warm as September. In the East, South, and Midwest, the coldest snap of the season hasn't been in October at all. It came in the final week of September. October brought warmer weather.

For example: Boston's average temperature in the last week of September was 52. In the first three weeks of October it climbed like this: 58, 60 and 71. In the fourth week of October, it fell back to 61.

Figures Show Pattern
New York's average in the last week of September was 50, and in the four weeks of October it ran on up—60, 62, 69, and 64.

Chicago's average for those five weeks was 53, 62, 62, 68, and 62; Detroit: 50, 60, 58, 66, 62; San Antonio: 73, 77, 77, 77, 75 (Remember, it's supposed to get cooler and cooler at this time of year).

Hairdressers Called Essential To Morale
LUTON, ENGLAND—(AP)—The Luton and District Branch of the Hairdressers Federation has decided that hair-dressing is "vital" to the national morale.

"Hairdressers are producers because they often produce order out of chaos," President W. T. Smith said at a federation conference.

At Nottingham, before the Incorporated Guild of Hairdressers, member Jack Pride forecast a new style he said.

Your newspaper — serving freedom by serving you.

tonio: 73, 77, 77, 77, 75 (Remember, it's supposed to get cooler and cooler at this time of year).

Makings for a Royal Cake

Gathered from all over the British Empire, ingredients for the towering four-tiered wedding cake, planned for Princess Elizabeth's Nov. 20 wedding, have reached London. They include flour from Britain, sugar from Trinidad, butter, almonds and eggs from Australia, and syrup from Barbados.

Rochester Teen Agers Have Own Night Club—'The Barn'

By HAL BOYLE
ROCHESTER, N. Y.—(AP)—Teen-age kids have their own night club here—a modern fun spot run by themselves where soft drinks replace highballs.

They call it "The Barn," and it's a big glossy redesigned Quonset hut structure with all the interior trimmings of a Manhattan night club.

This unique experiment in recreation for high school children, praised by religious organizations and civic clubs here, originated with a mother who sent a \$250 check to Publisher Frank Gannett in a letter asking:

'Good Time Without Drinking'
"Why isn't there a place for our children to go and have a good time without drinking?"

Gannett investigated and found that problem was worrying many parents who didn't want their children exposed to adult temptations.

"Then I made a check to find out what the children themselves wanted most in the way of entertainment," said the 71-year-old publisher. "They said they wanted a place with a night club atmosphere—dancing, food and good music—but without liquor."

"The Barn" was the outcome. County gave land.

Monroe County officials donated the use of county land on a hill outside the city. Gannett put up \$40,000 to erect "The Barn." It has a soft drink bar with low-priced food, tables, a band platform with microphone and a dance floor that any metropolitan night club might envy.

On opening night last May 16 it was jammed, and it has drawn capacity crowds of 500 to 600 teen agers ever since. A terrace is now being added.

"The Barn" is governed by the board of the Gannett Youth Club, made up of a representative from each of thirty public and parochial high schools in the Rochester area. Executives of two Rochester newspapers act as advisors, but the teen-age board members make and enforce the rules.

Put On Own Shows
The board voted that no stags would be allowed and set the price at a dollar a couple. Dances are held each Friday and Saturday from 9:15 p. m. to 12:30 p. m.

The kids put on their own shows. Each week a different high school trots out its best talent in the way of singers, specialty dancers, magicians and choral groups.

"There has been no misbehavior of any kind," said Gannett. "The club isn't an agency for the reformation of juvenile delinquents. It was set up primarily to provide a wholesome place of play free from liquor and poor surroundings. High school children in every city need such places."

He'd like to see the idea spread.

Hollywood Writers' Contempt Cases May Reach U. S. Supreme Court

By MAX HALL
WASHINGTON—(AP)—Last week a group of Hollywood writers were charged with contempt of Congress because they wouldn't give "Yes-or-no" answers to the question "are you a Communist?"

That means a court trial is possible. Ultimately the case may go to the Supreme Court.

Already, in the yelling and pounding of one of the noisiest committee hearings ever held on Capitol Hill, both sides are preparing for this court trial.

You can see it in the asking of the questions by the committee attorney, Robert E. Stripping, and in the way the witnesses reply.

What is contempt of Congress? It's a violation of a law which says—

Whenever a person who has been summoned as a witness before a congressional committee ignores the summons or refuses to answer any question pertinent to the question under inquiry, he shall be guilty of a misdemeanor.

He can be fined \$1,000 and jailed for one year.

Question On Refusals
A subcommittee of the House Un-American Activities Committee—in citing John Howard Lawson, Samuel Ornitz, and others for contempt—has stated flatly that they have "refused" to answer questions and therefore have violated the law.

Now, if the full committee, then the House of Representatives, and finally a federal grand jury all agree with this view, the case will go to trial in the Federal District Court here.

If this happens, the jury must decide the issue of whether these men legally did "refuse" to answer.

The witnesses haven't admitted they "refused." Some have insisted they weren't refusing—they only wanted to answer in their own way.

May Go To Supreme Court
Each witness would begin talking about his right under the Con-

stitutional and the committee's right to ask such a question, and Chairman J. Parnell Thomas would begin banging his gavel and demanding a "yes-or-no" answer.

If a trial is held, the defendants—judging by their testimony this week—will argue that the question "are you a Communist?" is unconstitutional and the committee had no right to ask it. They have insisted that their civil rights are invaded by an inquiry into their political beliefs.

There have been several recent jury convictions for contempt of Congress. None of them has yet reached the Supreme Court.

Abilene Woman Will Share Estate Millions

NEW YORK—(AP)—Three daughters of the late Mrs. Jennie Moberly, including one who lives in Abilene, Texas, received life interests of one-third each in their mother's residuary estate, according to an estate tax appraisal filed recently.

The gross estate was listed as \$1,034,136 and the net at \$982,729. The principal asset consisted of \$921,884 in securities. Other assets were cash and bank accounts totaling \$96,752 and personal effects appraised at \$15,500.

Mrs. Moberly died Jan. 16, 1946. The daughters are Margaret M. Weathers, (1241 Highland St.) Abilene; Florence M. Addinsell, Glen Cove, N. Y.; and Edna M. Moberly, New York City.

17 Recruited To Move 700-Pound Woman

JOLIET, ILL.—(AP)—The services of 17 men, including 10 policemen, were required to remove Mrs. Elizabeth Ebner, 70, who weighs 700 pounds, from her home to a hospital.

Mrs. Ebner, bedridden for 20 years, broke her hip when she fell out of bed and was taken to a hospital. Ten policemen, unable to place Mrs. Ebner in a police ambulance, summoned an undertaker, who took her to a hospital in a hearse.

The policemen, two undertakers and five hospital employees were required to lift Mrs. Ebner from the hearse to the cart. She was placed in two hospital beds, bolstered up with lumber.

Mexican Railroads To Spend \$200,000,000

SAN ANTONIO—(AP)—Mexico will spend a total of \$200,000,000 for railway improvements during the next five years, Francisco Alatorre, general agent for the Mexican National Railways, said here when he spoke before a committee of the San Antonio Chamber of Commerce.

He indicated vast improvements in the country's rail system are being accomplished.

Mexico's total of 13,750 miles of trackage will be increased considerably with several new lines built to cities not now served, he stated.

"New railroad stations will be built at Nueva Laredo, Monterrey, Guadalajara, Durango and Mexico City," he asserted.

He said through bills of lading for shipments of less than carload lots soon will be available to exporters and importers. The practice was abandoned during the war.

New Wheat For South Texas Is Announced

COLLEGE STATION—(AP)—A special winter wheat adapted to extreme southern Texas has proven successful, the U. S. Department of Agriculture and the Texas Agriculture Experiment Station reported.

In a report on "Seabreeze" wheat, the Texas Experiment Station said the disease-resistant variety is adapted to the Lower Rio Grande Valley, the Coastal Bend, the Winter Garden area below the Edwards Plateau and a fringe of the Coastal Prairie about 50 miles wide from Corpus Christi east to the Louisiana line.

Commercial planting of the wheat over a five-year period has demonstrated its general adaptation, the experiment station said.

Although the wheat was developed for use as a feed crop, it may also be acceptable as a milling wheat, the station reported.

Low Cost Home Held Back By Regulations

HOUSTON—(AP)—William J. Farrington of the Houston real estate board told the joint Congressional housing committee here that with modifications of housing regulations builders could erect homes suitable for the Texas coastal climate and that low cost homes could be built to sell for \$4500.

"I mean two-bedroom homes with all conveniences," Farrington said. "The existing regulations force builders to erect more expensive houses, out of reach of some brackets."

Optical Membership Plan Offers People Low-Cost Eye Care

By ADELAIDE KERR
AP Newsfeatures Writer

The little stenographer unbuttoned her threadbare jacket and laid the broken pieces of her spectacles lens before the technician. What would he charge her to replace them? The man, who had made her glasses, would charge her \$4 for a new lens. And her purse held only \$5.17 which must buy her food until pay-day. But weren't her glasses essential to her work and to her livelihood? She shivered in her thin coat as she weighed the problem.

The technician took the broken lens, neutralized it and found it to be little more than window pane glass. The second proved to be like it. He passed her on to specialists in the same office for examination. After their work was finished, they told her:

"There is nothing wrong with your eyes. You don't need any glasses at all."

They offered to hold her spectacles for her for two weeks and told her that if she had any difficulty to come back. She never returned. The little stenographer now is a member of the non-profit Optical Membership Plan at 11 West 42nd Street, New York. Since it began in 1940, 56,663 subscribers have used its service. From April 30, 1946, to April 30, 1947, the Plan serviced 6,819 subscribers with 13,000 examinations and collected fees of \$9,268.

The Plan was founded seven years ago by a woman who might have spent her time wintering in Florida and summering in Maine, but who chose this work instead. She is tall, blonde, good-looking Lila Ricard Etinger, one-time star of Broadway musicals such as "The Music Box Revue" and now the widow of David Etinger, the late president of the Riggs Optical Co. of Chicago.

The Optical Membership Plan operates like this: Those who wish to use it pay a fee of \$1.50 a year, which entitles them to as many eye examinations as they require in that time. Individuals in group memberships pay \$1.00. First, one of the Plan's ophthalmologists examines the patient for eye disease. (If he finds any disease the patient is advised to see his own doctor for medical treatment, for the Plan does not include this type of service.)

If the case is the more usual one of healthy eyes requiring properly fitted eyeglasses, the patient is tested for visual correction by an office optometrist. If glasses are called for he gives the prescription. An office optician then fills it and makes the glasses, which cost the patient from \$8 up and for which he pays in addition to his initial \$1.50 fee. Mrs. Etinger declares that both glasses and frames are of first-class quality.

If the patient's eyes require no attention, but have been affected by illness of the body, he is so informed and a physician's care is recommended.

After David Etinger's death his wife turned to the study of eye glass problems which had interested her for years. She decided to establish a non-commercial optical laboratory, furnished the funds for it herself, and got the following people to serve as sponsors of the Optical Membership Plan: Dr. Ernst Boas, New York physician; Mrs. Henry Breckenridge, director of the Eye Bank for Sight Restoration, and Shelby M. Harrison, general director of the Russell Sage Foundation.

Stanton Homemakers Observe 'FHA Week'

STANTON — The Homemaking Club highlighted "FHA Week" with a picnic recently which was attended by members and teachers of the Big Spring Homemaking Club.

During the meeting under the direction of President Lila Winters and Secretary-Treasurer Betty Blissard, it was announced that boxes would be packed for European children and that yearbooks soon will be distributed.

Following the playing of games, refreshments were served to Mrs. H. G. Hamrick, Edna McGregor, Mrs. Helen Williams, Mrs. Harry Montgomery, Mrs. Lee Ona Chandler, Eula Pearl Hildreth, Lillian Ringner, Bobbie Davenport, Martha Fuquay, Joyce Petree, Lila Winters, Edith Davis, Lois Standerfer, Donna Wamaack, Pat Roquemore, Yvonne Avery, Betty Bennett, Lola Faye Rohus, Ermine Haynie, Jeannie Ashley, Pat Kelly, Shirley Ache, Marilyn Buford, Marilyn Carpenter, Lillian Rowe, Billy Ashley, Judith Beene, Floune Coss, Jo Ann Burns, Juanita Cox, Venice Southard, Mary Frazier, Donna Bunn, Vera Ache, Beverly Jones, Glenn Barfield, Elizabeth Kenney.

Dolores Kimsey, Melba Jenkins, Peggy McMurray, Lou Ann Nall, Darlene Montgomery, Keleta Haisager, Betty Lodean Hayworth, Cathryne Frasier, Nona Camble, Carolyn Williams, Jean Munselle, Patsy Ann Neal, Lileans Southard, Laverne Trelinder, Edith Thompson, Lavryn Lindsa, Thelma Tucker, Jean Wood, Jean Harris, Marie Love, Bettie Berdwell, Jo Nell West, Patricia Loyd, Dee Dee Mastus, Melva Allen, Mildred Holbs, Beverly Trapnell, Lela Holbs, La Donna Skiles, Ann Brown, Ruby Bledsoe, Jean Stratton, Jo Ann Rogers, Ann Crocker, Peggy Midgett, Betty Milan, Mary Lindsey, Gayla Masier, Mona Wood, Mary Holbs, Darlene Coulter, Rita Wright, Mrs. Floyd Kinsey, and Mrs. Wright.

The club's initiation was held October 24, during which a play was enacted. Those participating were Mr. and Mrs. Hamrick, Mr. Johnson, Edith Davie, Lois Standerfer, Nona Wells, Ermine Haynie, Jo Ann Jones, Patsy Kelly, Patricia Roquemore, and Betty Bennett.

Fountain and Luncheon Service

We are indeed proud of our Fountain and Luncheon Service. Every school day hundreds of school children come to us for their noon lunches. We recognize the responsibility this has placed upon us and we have spared no effort to see that they are supplied with the best foods obtainable and that the edicts of sanitation and cleanliness are strictly adhered to.

West Texas CC Meeting Slated For November 11

ABILENE—Proposed policies and work program for the West Texas Chamber of Commerce in 1948 are being debated by town groups in the area served by the regional organization as its 1947 convention season—sixth annual of the referendum type—nears the climax.

Announcement from the headquarters office Saturday said reports had been received of local referendum meetings held during late October in 22 of the 140 affiliated West Texas cities. The number is expected to exceed 100 before November 11—when the directors' assembly will convene here to register the final and binding vote on all planks in this year's referendum ballot.

Banker To Speak

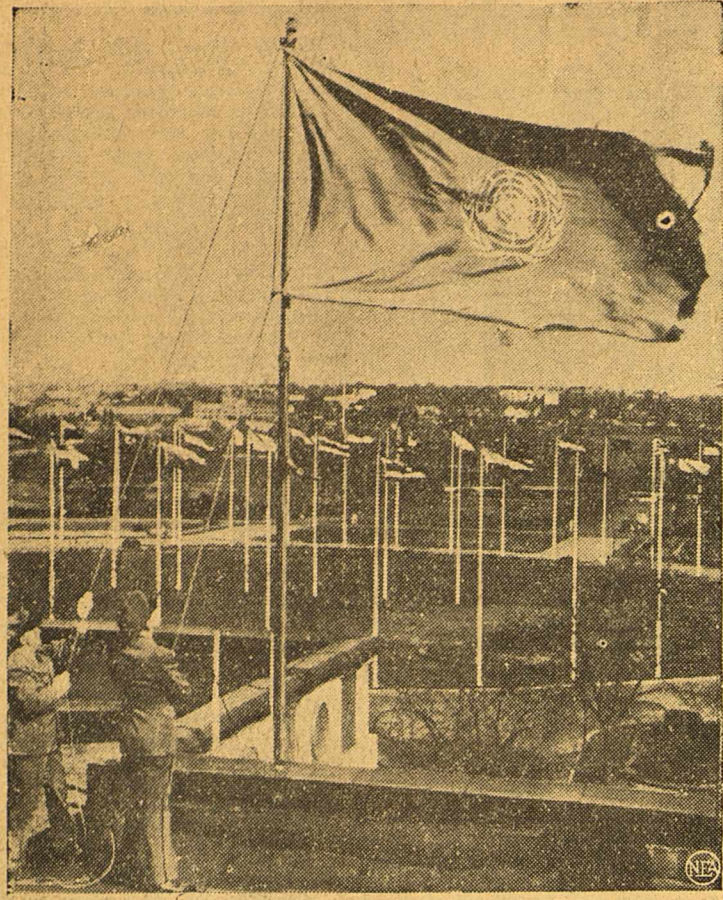

H. C. Custard of Cleburne, WTCC president, will preside at the 7-hour windup session. It will be an all-business affair with an hour's time-out for the annual assembly luncheon at which C. W. Bailey, banker of Clarksville, Tenn., will be speaker. Bailey is the immediate past president of the American Bankers Association.

Policy planks in this year's ballot as presented and recommended for adoption by various WTCC commissions call for work for enhancement of Texas rural economy and life; for parity in freight rates with new comprehensive studies of commodity rates moving raw materials produced in volume; continuation of the West Texas industrialization campaign; security benefits for full-time workers in the area's local chambers of commerce; and promotion of better relations with Mexico.

'THIS IS LAST OF \$10,000—WINE, WOMEN, AND RACES'

PHILADELPHIA—(P)—The Philadelphia city treasurer's office reported a one-dollar bill has been received with the following message written across it in pencil: "This is the last of \$10,000—wine, women and races."

An iron ore mine in Lebanon County, Pa., has been in continuous operation since 1740.

Two attendants raise the new standard of the United Nations for the first time over UN headquarters in Flushing, N. Y. The blue and white flag shows the globe's northern hemisphere encircled by two olive branches symbolizing peace. In the background fly the different flags of the 57 member nations.

Texas Tie Clip Is On Display With Royal Wedding Gifts

LONDON—(P)—The powers that usually put a royal shush on the preparations for Princess Elizabeth's wedding have flung open a side door to ancient St. James Palace and admitted a brigade of newspapermen for a look at the first flood of the princess' wedding gifts.

Nobody would make an official guess at the worth of all the heaped gifts.

Mauri Mave-ick, former mayor of San Antonio, Texas, and his wife, presented the princess with a silver trinket box and added a touch of Texas for her bridegroom-to-be, Lt. Philip Mountbatten—a tie clip with a Texas emblem.

Churchill Sends Book

Winston Churchill sent along a six-volume set of his book, "The World Crisis," all done up in tooled red morocco leather with golden edges on the pages of his golden oratory.

About 400 presents were laid for

the press' special preview — and about 500 other gifts which have flooded in since then were left in their boxes.

Among them was President Truman's glass vase, done up in a merry-go-round motif.

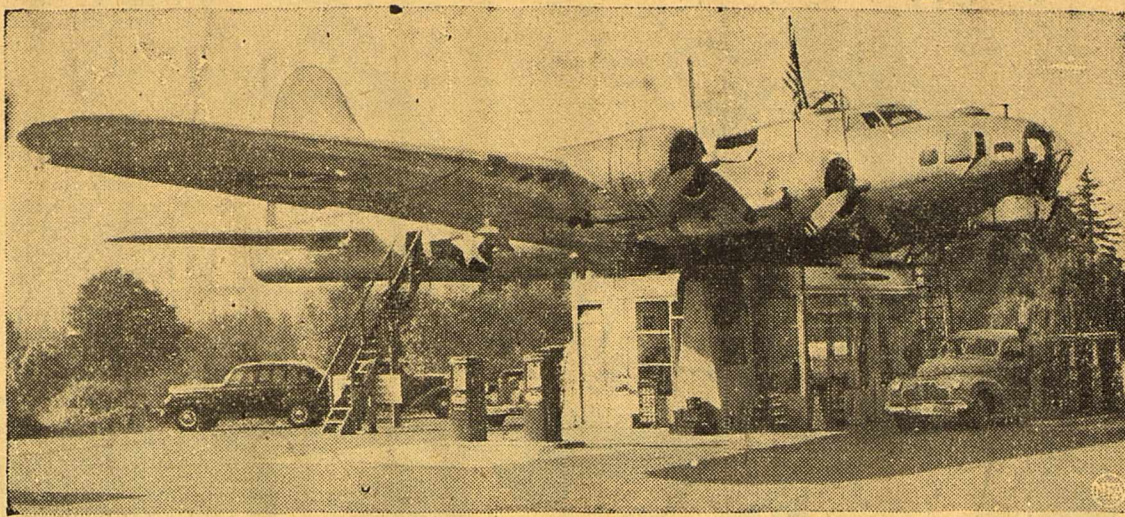

Rich Gifts Unopened

Ambassador Douglas' daughter Sharman remembered the princess' practice of writing heaps of letters. She sent a neat little antique silver inkstand.

The gifts were spread before some 500 reporters in two second floor rooms of St. James' Palace, built by Henry VIII and now used to house some of the royal administrative offices and as a show place for King George's infrequent levees.

The richest gifts—jewels, most of the gold and silver, and such—still are under wraps, but probably will be brought out for the king's wedding present party three days before the wedding.

Retired Bomber Goes From Skyway to Highway

This is not a crash landing, but actually a novel filling station made from a B-17. Art Lacy, a former Air Force pilot, bought the bomber from War Assets Administration and mounted it on his filling station near Milwaukie, Ore. The plane is fully equipped except for guns and bomb-sight, and motorists can inspect the craft while their cars' tanks are being filled.

Labor Demand At All-Time High

Midland is suffering from a labor shortage as serious as at any time during World War II, and prospects are the situation will become more acute.

The same applies to the rest of the state, according to Texas Employment Commission officials.

Warren Reynolds, manager of the TEC office here, said Saturday he received calls for 52 skilled and unskilled workers, but was unable to supply any workers.

On file here are 105 applications for work. A month ago the active applications numbered 150. Skilled and unskilled construction workers, draftsmen, typists, stenographers, comptometer operators—all are urgently needed here, Reynolds said. At least 50 maids could be placed in jobs here immediately, he added.

Of the 105 applicants who have listed their availability for jobs with the TEC office here, 91 are drawing unemployment compensa-

tion. Many of these 105 will go to work as soon as they can be contacted, Reynolds said. Others are seeking jobs which now happen to be scarce. However, the file of employment applicants is smaller now than ever before.

All-Time Low

During October, the office here placed 187 persons in jobs; a total of 304 persons were referred to employers. A total of 117 veterans were placed in employment during the month, and 211 orders for employees were received. The office received 125 claims for unemployment compensation, which was an all-time low.

Personnel of the TEC office here visited 160 employers during the month, including 52 never contacted before, in order to keep abreast of labor demands.

From a statewide standpoint, the labor situation is similar to that in Midland. Harry Benze Crozier, chairman of the TEC, announced from Austin this week that job applications are fewer than ever before in the history of the commission.

Recruiting Drives Start

"For the first time since 1945, we are conducting intensive recruiting drives for common and semi-skilled labor, secretaries, clerks and typists," he said.

Speaking of unemployment compensation, which frequently draws complaints from employers who cannot obtain relief from the labor shortage, Crozier said:

"Our records show that, of the 11,000 now claiming insurance, 3,000 have not been applicants long enough to draw benefits. Four thousand are in small communities where jobs are not as plentiful as in the larger cities. This group has a place to live and will not move to larger cities to accept jobs because no housing is available.

"This, too, is true of Midland, Reynolds said. "Obviously an employed worker living in another city will hardly move to Midland to work unless he can obtain housing here."

The Texas Employment Commission placed more people in jobs in September than during any month since 1945. When figures on state totals for October are computed the number is expected to be even larger, Crozier said.

Texas ranks among the top five states in the nation in demand for labor, while it is among the 15 lowest states in point of unemployment compensation demands.

Greeks Exhibit Ancient Art On Island Of Delos

DELOS, CYCLADES —(P)— A wealth of new archaeological objects uncovered during the past year by the 101-year-old French Archaeological School of Athens have been put on public exhibition on this Cyclades island which lies in the nucleus of 224 "white islands."

The discoveries include chiseled Mycenaean nodules of columns in ivory which date back to 1,400 B. C., little ivory figures representing animals in pairs fighting one another, samples of tiny ornate freizes in bas-relief, and a statue of a Mycenaean warrior dressed in loin cloth and bracelet.

Other new objects unearthed are jewels of gold and silver, and various precious stones, as well as little tools and fragments of bronze and pottery.

Mythological Birthplace

Delos, the mythological birthplace of Apollo and Artemis, is where Greek music, poetry, and medicine were invigorated under the brilliance of Apollo's sun and tempered under Artemis' moon.

One time religious center of Ionian culture, and seat of the treasury of the Ionian league, Delos today is a three-mile rocky-ridge of granite with almost no vegetation.

Excavations of the ancient city of Delos 200 years older than Pompeii, on the site which was completely destroyed by pirates in 69 B. C., were begun by the French archaeological school. Thomas Homolle undertook the first exhaustive exploration of the island.

Exploration Continues

Patent work has continued throughout 70 years. After 1901 the school concentrated all its activities to excavating Delos. More complete excavations from that date throughout both periods of war and the occupation of Greece resulted in the excavation of an entire city.

Delos is a boat trip of seven hours from the port of Piraeus. From the entrance to the harbor one can still see the portico of Philip of Macedon, the old warehouses half-imbedded now in the sea, and the peak of Mount Kynthos, with remains of the temple of Zeus. There are ruins also of temples to Apollo, Artemis, Dionysius, one to "foreign Gods" and numerous others.

Remains of a theater, market place, gymnasium, Ionian treasure house, and the sacred lake enclosure are standing.

Slaughter Of Nova Scotia Fawns May Lead To Tighter Game Laws

DIGBY, NOVA SCOTIA —(NEA)— Five Massachusetts hunters staged a blood bath among the fawns of Nova Scotia that may bring about a swift and sharp tightening of game laws in the province.

The Bay State nimrods bagged 10 deer that ranged down to three little Bambi babies no longer than 26 inches from shoulder to tail. Three others measured up to 28 inches. The remaining four were under two years old. On each of the six tiny ones the white markings that denote a very young fawn were clearly in evidence.

"I've shot jackrabbits that were almost as big," commented a Nova Scotia sportsman.

Since Nova Scotia lacks a rule covering minimum size and age, the only law broken was that of good sportsmanship.

Hunters Delayed

The slaughter of the fawns probably would have gone unnoticed except for the fact that the home-bound hunters were temporarily delayed on a wharf near Digby. There bystanders had an opportunity to see the size of the dead animals. Most of them looked twice, for this was the first time going home with deer as small as house dogs.

"There were big bucks in the woods, but they wouldn't come out," one of the hunters explained. "They were probably afraid

you'd use machine guns," commented an onlooker.

The four largest deer were lashed to the front fenders of the Massachusetts car. The six Bambi babies were stretched out on top like a half-dozen legs of lamb.

"Hunting is supposed to be pure sport," read a bitter editorial in a Halifax newspaper. "When it becomes sheer massacre, its victims the smallest and most helpless types to be found, the hunter becomes little more than an exhibitionist demonstrating to the sporting world both his lack of wood-lore and a mere desire to show off."

The unanimous demand is that a law be written to protect fawns. A Canadian guide, who turned away in disgust at the sight of the deer-packed car on the wharf near Digby, put the final stinging crack to the orgy.

"Put all the hides together, and you'll have five good pairs of moccasins," he remarked.

"You can use the little heads for door knobs—and shut the door on the good name of sportsmanship."

CHARACTER, WITNESSES LOSE THEIR REPUTATIONS

SHANGHAI —(P)— Military authorities seeking out three character witnesses to pay them for testimony at a court-martial found two in jail in Shanghai, the third in jail in Peiping.

Don't Gamble WITH YOUR SAFETY

The casualties of peace . . . of motor accidents . . . were greater in one year, 1946, than the casualties of war from Pearl Harbor to V-J Day.

Too large a percentage of these motor accidents were caused by mechanical defects that could have been avoided by proper maintenance.

Check These Points For Your Safety!

BRAKES

Defective brakes are the chief reason for accidents caused by mechanical failures and defective brakes develop frequently without warning. The hydraulic brake system should be checked frequently for leaks and drums for wear.

STEERING

Worn bushings and pins, wheels out of balance and alignment, conditions causing loose control and shimmy, anything less than perfect control of steering can cause serious accidents.

TIRES

Replacing worn tires before they can cause trouble is much wiser than risking an accident. It's cheaper in the long run.

LIGHTS

Night accidents cause 61% of total fatalities. Lights out of focus, burned out bulbs, glare that blinds on-coming drivers . . . all are causes of accidents.

Our Community Chest

Midland's first Community Chest campaign is underway, with actual solicitation starting Monday. The goal is \$22,000, which campaign leaders hope to attain by the end of the week.

The appeal of the Community Chest is to responsible citizenship. The early Greek democracy flourished in individual cities, and American communities preceded the establishment of states and the United States. So today the town and city remain the root of American democratic life which nourishes and preserves our national freedom.

If we desire a better, healthier, happier city, it is primarily our responsibility as its residents to make that desire a reality. No outside source, however welcome its aid, can relieve us of our responsibilities.

Our nation cannot remain strong if its communities are neglected through indifference. We cannot be good American citizens if we are not first good citizens of our home town. It is our responsibility.

America has need today of strength and good citizens. Those needs, too, must be met first of all in our own communities. The Community Chest provides one of the best means of meeting them. We can prove ourselves good neighbors and good Americans by giving to it freely.

The Midland Community Chest includes the annual budgets of five worthwhile organizations—Boy Scouts, Girl Scouts, Junior Canteen, Salvation Army and Goodfellows Fund. The combined budgets of the participating agencies seems small as compared to the good they do for the community and for its citizens.

A noteworthy fact is that approximately 90 per cent of the \$22,000 goal is earmarked for youth programs in Midland. This fact alone warrants the over-subscribing of the goal.

Another important factor is that the Chest eliminates individual drives by the five groups, saving time and effort for the volunteer workers and for busy citizens.

The success of the Community Chest campaign depends upon the cooperation and generous gifts of Midland citizens. It is our responsibility. Let's put it over-the-top quickly.

That Awful Law Again

Under threat of \$10,000,000 worth of damage suits, striking Railway Express drivers withdrew their secondary picket lines which had paralyzed deliveries in New York City's huge garment industry and threatened lay-offs for thousands of the industry's unionized workers.

The threat of these damage suits was made possible by the Taft-Hartley Law. This law restricted a union's right to interfere seriously with businesses against which it had no grievance. Maybe that's slavery. But we would say the law did a distinct service to the garment workers who weren't forced to take a payless holiday because of a quarrel which didn't concern them.

Low Cost Inflation

The editor of an El Paso paper reports from Shanghai that a drink and a substantial lunch cost \$54,750. Ah, the poor Chinese—terrible, isn't it? But the only catch is that 54,750 Chinese dollars came to a little less than one American dollar at the time of writing. And try to beat that price in any American city.

European Royalty Will Assemble For English Wedding

LONDON—(AP)—European royalty, sobered and depleted by two wars and 30 years of unprecedented political upheaval, has an important rendezvous in London for the wedding of Princess Elizabeth November 20.

Virtually every throne remaining on the continent will be represented at the first such gathering since the coronation of King George VI and Queen Elizabeth in May, 1937. But it will be an assemblage without the full regalia, medieval pageantry and lavish spending which characterized such regal occasions in the palmy days of monarchy.

It will not be possible to spot a king or a prince by coronet, robes and purple and gold, or other trappings of pre-war potentates. Ordinary civilian clothes or military uniforms have been specified for the wedding ceremonies. The women of the royal entourages will wear stylish frocks instead of rich raiment as of old.

Costly Gifts Are Foreign
Tiaras will be worn—but not as headress. Most of them have been made over into bracelets, brooches, clips or necklaces.

Whatever might seem ostentatious or unduly extravagant is being discouraged.

From foreign royalty will come some of the liveliest and most costly wedding gifts for Princess Elizabeth and Lt. Philip Mountbatten. Yet these presents will be tokens compared with the dazzling treasures laid out for royal brides aforesaid. Crown revenues are not what they used to be.

The largest royal contingent will be from Scandinavia. Young King Frederik IX and Queen Ingrid, of Denmark, will arrive a few days before the wedding.

Navy To Equip Planes With Catapult Seats

WASHINGTON—(AP)—The Navy expects to equip all its new fighter aircraft eventually with the pilot ejection seat by which a flier can extricate himself when in trouble at high speeds.

As the result of tests at the Navy Materiel Center at Philadelphia, an official disclosed, it has been decided to incorporate the device in planes which have been planned but not yet put into production.

The ejection seat shoots the pilot out and clear of his plane before his parachute opens. The official pointed out that the high speeds at which jet planes operate make such a device "practically essential" for the pilot's safety.

Deer Has Drink On Weatherman

COLUMBIA FALLS, MONT.—(AP)—Meteorologists at the weather station operated in connection with the \$100,000,000 Hungry Horse dam project were baffled by extremely erratic humidity and evaporation data—until they found a deer was using the evaporating pan as a drinking place. A fence now surrounds the station.

Southern Farm Leaders Plan \$15,000,000 Fertilizer Plant

GREENVILLE, MISS.—(AP)—Plans to build or acquire a \$15,000,000 plant to manufacture anhydrous ammonia as a fertilizer were made here by farmers and farm leaders of five Southern states.

The ammonia plant proper would be constructed at a cost of \$10,073,000 and an ammonium nitrate and nitric acid plant would be added for an additional \$1,951,000.

Robert Hand, industrial engineer for the Mississippi Agricultural and Industrial Board, told a meeting his studies show that anhydrous ammonia can be manufactured for \$30.84 to \$41.67 per ton, a cost far below that of nitrogenous fertilizers now used by farmers.

Experiments at the Mississippi State Experiment Station have shown the substance can be placed in the ground in liquid form and that as it becomes gaseous it releases unusually large quantities of nitrogen into the soil.

M. T. Reed, Belzoni, Miss., contractor, said he could obtain a \$10,000,000 loan on a first mortgage on the plant and that he would subscribe \$500,000 in stock if he is given the contract to erect the plant.

Italian Salesman Leads Symphony—Fulfills His Life-Long Dream

ROME—(AP)—An old, old dream came true Sunday for Vittorio Abbati, 52, Rome perfume salesman.

Abbati, a lover of music, hired himself a hall and a 93-piece symphony orchestra and conducted a full-dress program of symphonic and operatic music—although he can't read a note.

After it was over, the little man, perspiring and his hands shaking so he could hardly hold the baton, said simply:

"I've wanted to do this since I was a baby."

He did in fact, do all right, helped along as he was by a small but enthusiastic audience, a sure-fire program, the artistry of the Rome opera house orchestra and occasional coaching from Luigi Casciani, the rotund, smiling concertmaster.

Of the inside of an egg, 47 1/2 per cent is yolk and 52 1/2 per cent is the white.

Texas Gives Alabama Governor Long Bed

MONTGOMERY, ALA.—(AP)—All six feet and eight inches of Alabama's Gov. James E. (Big Jim) Folsom can stretch out comfortably in the bed presented him by the Corpus Christi, Texas, furniture dealer.

The walnut bed was described as "about eight feet long." Mrs. Ruby Ellis, the governor's sister and official hostess, said it would be sent to the family home at Elba, Ala.

The Alabama chief executive requires special beds because of his height. He now has six extra-size beds located in places where he is likely to want to sleep.

'Tired Gentleman' Will Have To Work Now

LOS ANGELES —(P)— Jacklyn Cudaby Black, former wife of the late Michael Cudaby, of the packing family, won a divorce recently from William B. Black who, she said, she supported although he criticized her frequently.

"Didn't he work at all?" queried Superior Judge Kurtz Kauffman.

"No," Mrs. Black replied, "he's a Southern gentleman."

"Retired?"

"No, just tired."

The judge granted her \$75 monthly and ordered Black to repay \$2,150 she said she spent on him. A former actress, Mrs. Black is now a fashion and beauty consultant.

Policemen Find Deer Is Store Marauder

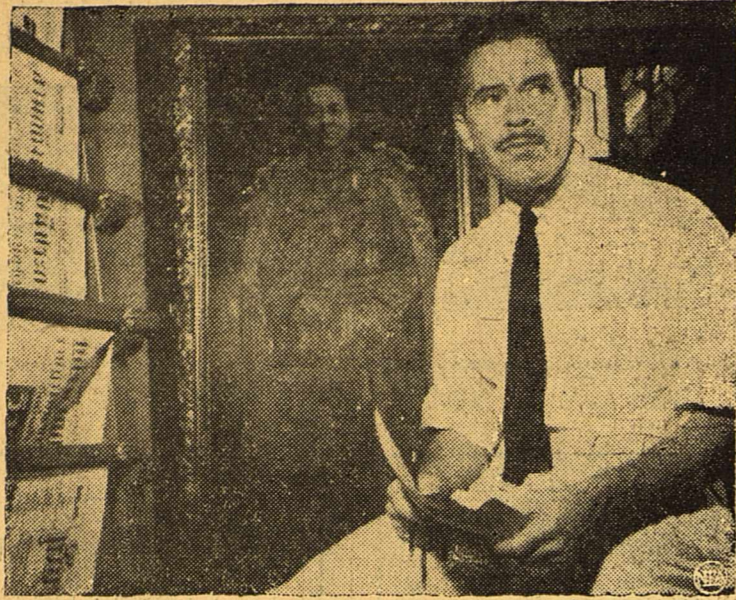

CLEVELAND —(P)— Fourteen policemen in seven cars rushed to the Variety Flower Shop when a man phoned that the establishment's show window had been broken.

A bloody trail led away from the shop.

Investigation disclosed a stray deer had caused the damage.

In the Nile Valley of Egypt, largely an agricultural community, there are about 700 people for every square mile, about 15 times the population density of Iowa.

'Prachakorn' And 'Post', Make American Leading Editor Of Siam

Alexander MacDonald: He found the Siamese appreciate objective reporting too.

By BERT BRANDT
BANGKOK, SIAM—(NEA)— In just over a year, an American ex-sailor has overcome many obstacles to create the leading English-language newspaper in southeast Asia, plus the second largest Siamese-language newspaper in Siam.

Alexander MacDonald, native of Lynn, Mass., graduate of Boston University, and a veteran of several American city rooms, rose from apprentice seaman to lieutenant commander during the war, and for a time headed the OSS detachment here.

As soon as he was discharged he got financial backing from Siamese friends, leased a printing press that the Japs had used for propaganda purposes, and started his Siamese edition July 1, 1946. A month later he branched into an English-language daily. Now he is thinking about adding a weekly magazine.

Prachakorn (People), the Siamese daily, has a circulation of 6000, which is exceeded only by one sensational blood and sex paper. The Post has only 2000 buyers, principally because that covers almost every family here that can read English.

MacDonald had two big problems with Prachakorn. First was for an American to know what Siamese want to read. He solved that by the simple expedient—learned on newspapers in Pawtucket, R. I., Bridgeport, Conn., and Honolulu—of presenting facts objectively, but standing up for Siam in its arguments with Indo-China and any others. Second he had to pay about \$66 for every 500 sheets of newsprint in the beginning, and even now he pays about \$8, which is from six

to eight times the cost in the United States.

With the Post, MacDonald adopted the same formula of objective news reporting. French residents do not like that so well, but Americans and British do. Here, too, he had the extreme cost of newsprint as an obstacle. But one other thing caused him even greater trouble: None of his printers speaks, writes or reads English.

Set By Hand

The Post is set by hand, one letter at a time, as some American country weeklies were until recently. But because the compositors do not know English words—or even English letters—they have to select each letter by its appearance on the type-written copy. So MacDonald has to keep a very close eye on every word, and the entire paper must be proof-read and corrected at least three times to eliminate all errors.

Prachakorn is printed on an old flat-bed press, again such as most country weeklies in the U. S. still use. Such a press, hand-fed, ordinarily is capable of about 1,200 copies an hour. But the Post is printed on the only rotary press in Siam, brought here by the Japs for their wartime propaganda publications.

In one feature, at least, MacDonald's plant is ultra-modern. It is produced under residential conditions quite unlike the old-fashioned factory—in what used to be the home of a wealthy merchant. The compound has a lily pond and statuary.

Owens Half Interest

There is no house-to-house delivery. The papers are sold in stores and hotels.

In the beginning MacDonald had only 35 per cent of the stock in his venture. Now he says, the papers have made enough money so that he has acquired a full half interest.

In addition to being publisher, MacDonald writes all editorials, prepares a daily front-page column, makes up the front page, and checks all copy after it has been written.

Decatur Woman Has No Worries Over Hemlines

By JACK RUTLEDGE
DECATUR —(P)— Mrs. Nella Franklin of Decatur is up to her neck in stitches. She's busy supervising the manufacture of 600 garments a day, and says to heck with the "little below the knee" squabble.

"Thank the Lord we don't have to worry about the length of dresses," she said. "We make garments for girls from three to twelve years old, and their clothes are always above the knee."

The Decatur plant is busy, with 58 women bending over sewing machines, using 23,200 yards of thread per day.

Not Exclusive

They don't worry about style changes, either. There are few basic alterations of style for the young ladies. There's no premium on exclusiveness—since June, the staff has turned out 9,498 dresses from a single pattern.

The employees of Mrs. Franklin's plant live in small towns around Decatur and come to work by bus. One lone man is employed—Frank Nemeec, maintenance man. He succeeds an elderly man who got caught on a whirling shaft under a battery of machines.

"He leaned over the shaft to slip a fan belt in place and the shaft caught his clothing. I had to scissor him loose," Mrs. Franklin said. "Poor guy. It popped all the buttons off his long underwear."

Mrs. Franklin has been sewing for more than 20 years. Even her hobby is sewing. She makes clothes for relatives and friends. She makes her husband's shirts.

Greenhands Best

As to her women employees, she says those who can't sew a lick make the best operators. They may be awkward at first, but they catch on.

"A woman doesn't make a good operator until she's sewn her finger."

Some, however, are victims of sewing machine fright. They freeze to the treadle and, "first thing I know, they're sewing all over the place. They're so petrified they can't even turn the machine off."

Mrs. Franklin hopes Paris leaves girls' styles alone. She's doing all right, the way things are now.

Texan Returns To Recruit Agricultural Aid

By TEX EASLEY
WASHINGTON —(P)— A former Texas farm official, returning from a year's work in Arabia, says that country is on the threshold of great agricultural expansion.

Kenneth Edwards of Gainesville, who was an extension service agent at College Station before heading an agricultural mission to Arabia under the sponsorship of the Arabian-American Oil Company told a reporter:

"I am back in the United States to line up about 20 county agricultural agents to enlarge the farm program now underway in Arabia. **Back To Recruit Helpers**

"I probably will recruit most of them in Texas, but some may come from Arizona or California because of their experience in such specialized crops as the production of dates. Among other crops that we are raising over there on irrigated farm lands are tomatoes, carrots, onions, watermelons and potatoes."

Edwards said that King Ibn Saud has taken a great personal interest

in the demonstration projects which he and five other Texans have been conducting on a 3,000-acre tract of irrigated land, and has encouraged expansion of the program.

Thousands of additional acres will be put into intensive cultivation and numerous demonstration plots will be operated under the county agents he recruits, Edwards said.

Water Comes From 'Ains'

Much of the water for irrigation, Edwards related, comes from underground water reservoirs called "Ains," which crop out at the surface at places, forming a sort of pool approximately 100 feet in diameter and 300 to 400 feet deep.

The temperatures range up to 130 degrees in midsummer, and for about six weeks it is too hot for crop production. A low of about 40 degrees above zero is reached in winter, giving the country a long growing season.

Edwards told of cutting alfalfa 10 times from a field during the past year.

While here he is conferring with

H. H. Williams, extension service official who also hails from Texas, and others at the Agriculture Department.

He said he would go to College Station to begin checking prospects for the Arabian jobs.

The other Texans who are still in Arabia, he said, are Bennie Gray of Canton, former Van Zandt County agriculture agent; Sam Logan, Sonora; former Bailey County agent; R. E. Nolan, former Polk County agent; John Carrilly of the Rio Grand Valley, near San Benito, and Joe Smith of Floydada.

Frogs spend the winter buried in the mud, near a body of water.

GRANTED AMNESTY

Washington was the first of nine U. S. presidents to grant amnesty to minority groups. The first president pardoned members of the Whiskey Rebellion in 1795.

SKIN-BREATHER

Telmatobius microphthalmus, a frog of the Andes mountains, breathes through its skin, and rarely, if ever, comes to the surface of the water.

Makes 4000-Mile Mercy Flight Alone

Chubby, 16-month-old Maurits H. Van Eck is pictured in New York after flying alone from his Amsterdam, Holland, home, en route to Philadelphia for a delicate operation. He swallowed some paint flakes which lodged in his windpipe and lungs. There were no medical instruments in the Netherlands to remove the slivers, so the 4000-mile mercy flight was arranged. Holding Maurits is a family friend, Dr. H. P. Laquer, who accompanied the boy to Jackson Clinic of Temple University.

'Wheatleggers' Invade Oklahoma Granaries

OKLAHOMA CITY—(P)—Golden grain at \$3 a bushel is very golden, and Oklahoma farmers are finding that high-price wheat has all the allure of bullion itself. The rough-and-ready western half of the Sooner State, which once produced a series of notable bank robbers, has moved with the times and created the "wheatlegger." This operator brings metropolitan skill into the countryside. First he "cases" a remote granary or wheat bin. Then on a quiet night—presumably Sunday—he backs a truck up to the wall. A hole is bored, and the wheatlegger inserts a power auger which effortlessly fills his truck. HI-Jack \$30,000 In Wheat In the last 30 days wheatleggers have hi-jacked up to \$30,000 worth of grain in nine western countries. Once they tapped a boxcar parked on a railroad siding. When county sheriffs found themselves powerless, they called in the Oklahoma State Bureau of Investigation. "They've got a better racket than bank robbery this time," declared Jake Sims, bureau director. "It's not only safer—there's more money in it."

McKenney on Bridge

By WILLIAM E. MCKENNEY
America's Card Authority
(Last in a series of six special Lesson Hands.)

One of my pet theories is: when in doubt, lead a spade. Of course that is not actually a theory. My idea is that if you have to guess on an opening lead, always give consideration to a spade opening. Naturally you will not open a spade if the bidding indicates that it would be wrong, or if your partner has made a bid, or if you have a sound suit to open.

Look at the bidding of today's hand. South originally passed, then bid two no trump. He ought to have a minimum of a trick and a half, plus some honor cards. If he has a trick and a half, it

FUNNY BUSINESS

"I think the maid needs glasses—she used the lawnmower instead of the vacuum!"

Do You Like To CRUMPLE FENDERS?

If you do, this is an easy stunt: just turn right from the left lane. You'll probably hear swearing and the screech of brakes. Try it at high speed on the highway and you'll be the death-of-the-party. But if you want to be a safe driver, turn from the correct lane and signal first. That's the courteous thing to do. We like to discuss automobile insurance with courteous drivers because they are the careful drivers. May we talk to you?

should be distributed among two or three suits. It would not be two aces. In all probability it would be king-jack and king-ten combinations. Therefore West knows that if he opens a diamond, in all likelihood he will lead into South's king and probably into a tenace position. North did not bid spades, nor did South bid spades over one heart. This would indicate to West that his partner has something in spades. With a spade opening, the eight was played from dummy, East won with the ten, and he had no course except to shift to a diamond. As a result East and West cashed the first six tricks. If a diamond had been opened, North and South would have cashed the first ten tricks. Let me remind you not to open a spade just because you do not know what to open. Reason out the situation and see if a spade is not the most promising opening. A study of the hand from that standpoint will indicate, surprisingly often, the correct suit to open. Not all lightning strokes reach the earth, some of them being from cloud to cloud.

Lizard Joins Group To Drink 'Moscow Mules'

LOS ANGELES—(AP)—Two couples sued a bottling company for \$10,000 because a lizard crept out of a ginger beer bottle while they were having their second "Moscow Mule."

A Moscow Mule is composed of ginger beer, lime juice, lots of ice and, as you might guess, vodka.

Mr. and Mrs. George Horsman and Mr. and Mrs. Harvin White claimed they saw a lizard or salamander stick its head out of the neck of the ginger beer bottle last September 10.

The complaint stated they became violently nauseated, since then have been unable to sleep soundly and are troubled by dreams of "mules and lizards which leer at them from the necks of ginger beer bottles."

Gunpowder, optical lenses, and the game of chess were invented by the Chinese.

Tall Grows The Royal Family Tree

By JACK WARFEL
NEA Special Correspondent

Historians, genealogists, hobbyists, and others intrigued by royal family trees are all snarled up by the forthcoming marriage of Princess Elizabeth of England to the former Prince Philip of Greece.

So interwoven are the ancestral lines of the happy couple that Encyclopaedia Britannica and the Almanac de Gotha both have announced special supplements to clear up the situation.

But even if they make us understand, the royal pair still must struggle with problems in etiquette and protocol that would have Emily Post muttering through a mouthful of English muffin and stirring her tea with a fork.

At royal breakfasts Elizabeth will pour tea for her husband—who is her third cousin. Each refers to Queen Victoria as great-great-grandmother. The ceremony will make Philip son-in-law as well as second cousin to the King of England. Elizabeth's children will also be her third cousins, once removed, and fourth cousins to their own brothers and sisters.

Munch some aspirin and consider the Duchess of Kent. She used to be Princess Marina, daughter of Prince Nicholas of Greece, who was Philip's uncle. So she and Philip are first cousins. But by marrying the Duke of Kent she became Princess Elizabeth's aunt. Children of Philip and Elizabeth will have to determine whether to regard the duchess as Great-Aunt Marina or as a first cousin once removed.

These are only a few of the complications the wedding will cause in a world where protocol is almost all-important.

Of course the newlyweds, faced with a royal banquet, always can smile brightly, order the orchestra to play, and announce: "We will now be seated during a game of musical chairs."

One family, occupants of the basement apartment, won't make the trip. The basement is being left behind.

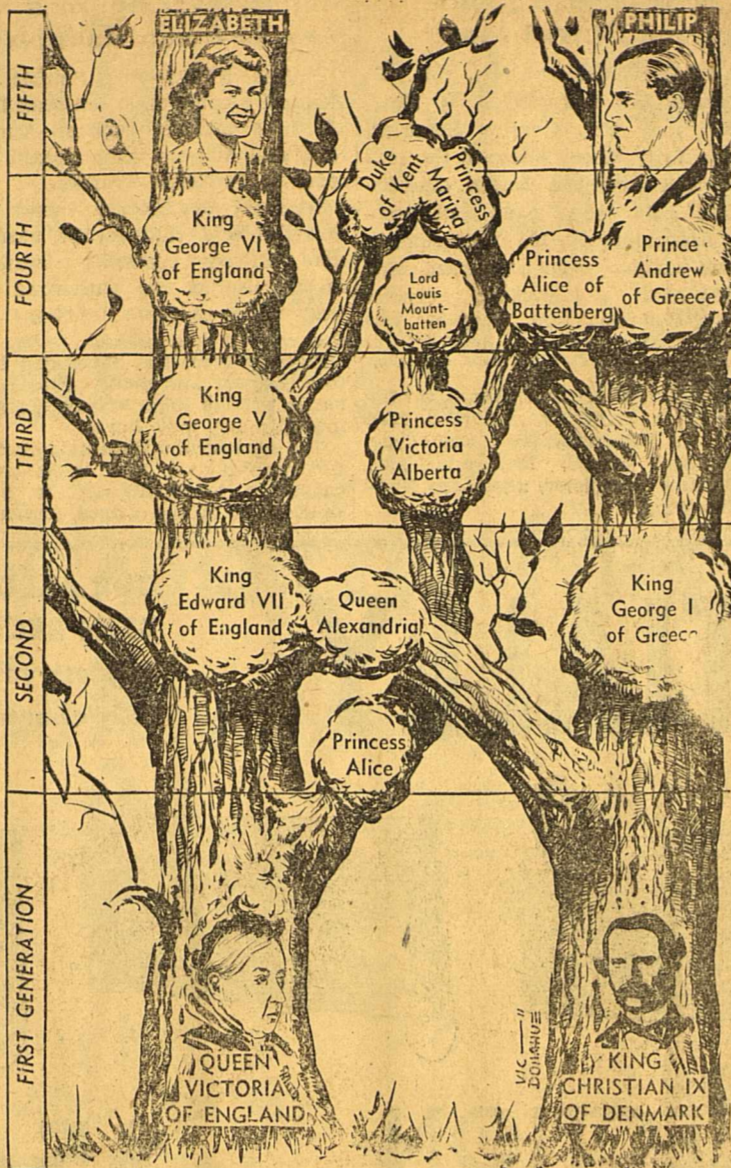

The sheriff of Prince George County, Md., is named Sheriff.

The marriage of Princess Elizabeth and Lt. Philip Mountbatten will join for the fourth time the intertwining branches of their family trees. This chart shows some of the principal descendants of their two common ancestors, Victoria and Christian IX.

Texan Cannot Stay In Occupied Zone With German Wife

FRANKFURT, GERMANY—(AP)—Bronson R. Alexander of Cushing, Texas, was officially notified he can not remain in occupied Germany with his German bride, even though the U. S. Army did—by mistake—authorize her return from Texas to Germany.

Army officials ruled that continued residence here would violate at least the intent of Army regulations which permit Americans to marry Germans only shortly before the end of their stay in Germany.

Alexander, a former U. S. soldier now employed here as a business executive by the Coca-Cola Bottling Company, married his German bride in Nacogdoches, Texas, last June. He obtained her entry to the United States under the Allen Finance Act.

When they applied for re-entry to Germany to accept employment here, Mrs. Alexander listed her nationality as "stateless." Army officials approved the application without inquiring to discover her German nationality.

The mistake might never have been discovered if Mrs. Alexander were not so photogenic.

When she boarded a plane for Germany, an air lines photographer took her picture—and it was printed here in the Army newspaper Stars and Stripes, revealing her German nationality.

Other Americans wanting to live in Germany with their German brides immediately began inquiring, "Why can't we, if he can?"

City Turns Out For 'Fish-Catching' Time

REHOBOTH BEACH, DEL.—(AP)—Catching fish—baskets of them—became a city-wide occupation for a few hours at this seashore resort. Thousands of sea trout appeared pursuing smaller fish in close to shore in the 80-degree weather while on their way to southern waters.

As the word spread, housewives, merchants and school children alike rolled up their skirts and trouser legs to wade out in quest of the unexpected catch.

Residents, with enough trout on hand to last for several Fridays, reported the sea gulls didn't do badly either.

STRANGEST AFFLICTION

Melanosis is one of the strangest afflictions known to mankind. It is a morbid deposition of black matter, often of a malignant character, in the tissues, causing pigmented tumors.

ONE AS DEADLY AS TWO

A health survey shows that as many children are killed annually by whooping cough as by infantile paralysis and scarlet fever combined.

"IRON" DERBIES

Politicians of the late nineteenth century used to line their derbies with iron as a protection in election disputes, hence "iron hats" as a name for derbies.

Sardine Hatch Is Affected By Saltiness Of Sea

WASHINGTON—(AP)—The Fish and Wildlife Service said it has determined that the size of the Pacific sardine hatch each year is closely correlated to the saltiness of the sea.

When the ocean's surface salinity increases, the number of sardines spawned that year increases in almost the same degree, the agency said in a report. In recent years, salinity has been declining, and the sardine hatch similarly has gone down.

Dr. Lionel A. Walford, Fish and Wildlife Service biologist who surveyed the sardine statistics of eight years in determining the correlation, said the sea's salinity also may reflect the production of the plankton or minute organisms upon which sardines feed.

Sardine Industry Declines
Walford told a reporter salinity studies are particularly significant in view of a decline in the Pacific sardine or pilchard industry, which until two years ago supported the largest fishery in the Western Hemisphere.

"Until the mysterious recent decline," said Walford, "nearly 25 per cent of all fish caught in the United States were sardines."

"They were the cheapest source of protein food for human consumption, the most important source of fish meal and oil needed as nutrition for poultry and other livestock, and they yielded the largest volume of canned fish produced in the United States, exclusive of Alaska."

Sources Of Vitamins
"They are important sources of vitamins A, D, B and G (B2)."

The greatest known pilchard spawning grounds were those off San Pedro, Calif. Catches this year for the season, normally from July to March, have been negligible in Northern California and only fair off Central California.

The San Francisco Bay area seasonal sardine catch, up to October 9, was 79 tons, compared with 503 tons in the same period of the slim season last year.

The Central California or Monterey district has 9,372 tons to date, compared with 17,719 last year, and the Southern California area, which started its season October 1, 26,804 tons—compared with 15,546 to date last year.

THE SIMPLE ABC'S OF BANKING

The way we think of banking is very plain. Upon these strong beliefs The First National Bank was built; upon them it offers service to you.

(A) The various phases of the life of each community depend upon the passing of the medium of exchange from hand to hand. Where artificial blockage stops the normal flow of money, an unnatural, unwholesome condition exists.

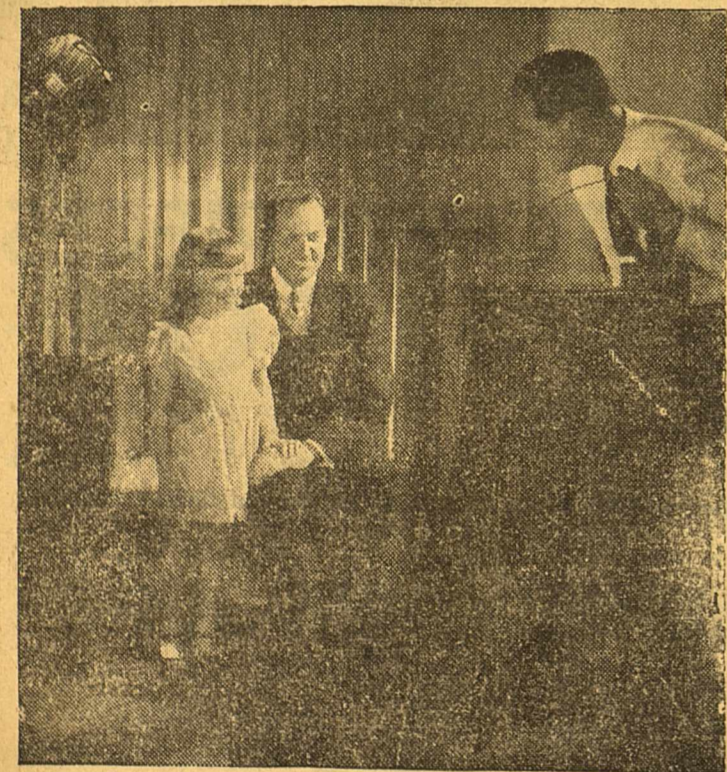

(B) Where normal, free and uninhibited exchange of money occurs, this flow requires an ample channel just as the waters of a river do.

(C) This is the chief function of a bank, and the remainder of its services are contingent on it.

Such is dependable banking in its simplest form, the kind of service we offer you.

The FIRST NATIONAL BANK
Since 1890
MIDLAND, TEXAS

United States Depository—Member Federal Deposit Insurance Corporation

Can you think of a grander gift?

Wouldn't you rather have a new portrait of your favorite than any gift you can think of?

(Your "favorites" may be your children, your parents, or any other loved one.)

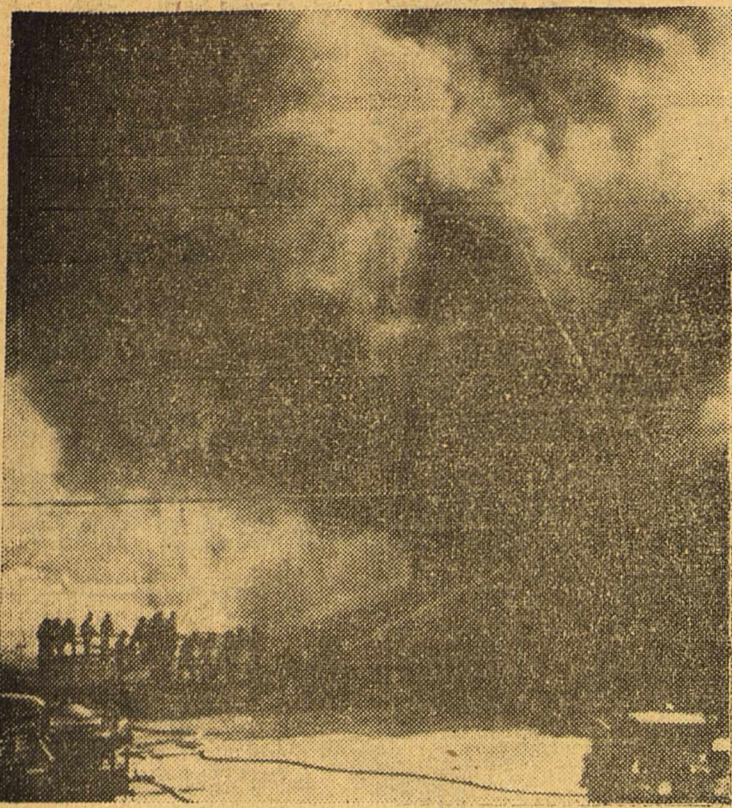

They undoubtedly feel the same way... so arrange right now to let us do a portrait of you for their Christmas. By doing it now, you'll give us plenty of time to get every bit of your charm and personality into your portrait.

And your lucky favorites will get exactly what they most want—your Christmas portrait—the gift that only you can give.

Before you forget, call telephone number 1003, and make an appointment.

Fire Engulfs Woodward

(NEA Telephoto) Smoke billows up as fire companies pour water on a fire which threatened the entire business section of Woodward, Okla. Before the fire was brought under control, flames did estimated \$150,000-\$250,000 damage to the town which suffered a tornado only seven months ago. Eight people were injured in the blaze.

Fire Chief Makes Timely Phone Call

CONNEAUTVILLE, PA. — (AP)— Fire Chief James G. Manross of the Conneautville Volunteer Fire Company is accustomed to picking up the telephone and receiving a fire report—but normally he has to wait for the phone to ring first. Recently Chief Manross picked up his phone to make a call and was informed by Mrs. Hilda Uher, the town's telephone operator, that her switchboard was on fire. The blaze was caused apparently when a crane on a highway job a mile from the telephone building tore loose an electric wire and sent current over telephone lines to the switchboard. The fire was extinguished in short order, but four communities were without telephone service for several hours.

Surprise Dinner Fetes Crane Family

CRANE—A surprise dinner party was held recently for three members of the Miller family of the Phillips Camp; Claude Miller, the father; Gene, 17, a son; and daughter, Mickey, 15. The house was decorated with bouquets of white chrysanthemums. The birthday cake, decorated in white with pink rosebuds, was served following a chicken dinner to the following: Mr. and Mrs. L. D. Laine, Mr. and Mrs. W. R. Swimney of Goldsmith, Odell Swimney of Odessa, honorees and other members of the family—Mrs. Miller and children, Ann and Jim. Other guests who called were Mr.

Crane Legionnaires Attend District Meet

CRANE—Mr. and Mrs. W. D. Gooch, Mr. and Mrs. J. R. Karr, Mr. and Mrs. Charles Hendrick, and Betty Moody attended the 16th District American Legion Convention held recently at Sanderson. Approximately 100 Legionnaires and auxiliary women attended. Mrs. Hendrick is auxiliary district president and Mrs. Karr is vice president. and Mrs. H. C. True, Mr. and Mrs. Herbert Schlitter, Mr. and Mrs. V. T. Patterson, Mr. and Mrs. Horace Terrell, Mr. and Mrs. Tommy Plemister, all of the Phillips Camp.

Military Evening Tags May Be Made Uniform

WASHINGTON—(AP)— Similar or identical evening dress uniforms for all three military services—Army, Navy and Air—are being studied by order of President Truman. Secretary of Defense James V. Forrestal said that in the meantime officers possessing evening dress uniforms are authorized to wear them at state functions in this country and abroad. Evening dress was suspended before the war and many officers no longer possess them or can not get into the one they have. The idea behind the single-standard uniform, it was understood, would be to emphasize the new unification of the armed services.

Only Third Of Vets Use Training Benefits

WASHINGTON—(AP)— The Veterans Administration announced that nearly half of the 14,500,000 World War II veterans have applied for education or training benefits but less than one-third actually have started their courses. Veterans have until July 25, 1951—or four years from their date of discharge, if that is later—to start their training.

Hitler's Secretary Describes Boss As Lacking Knowledge

NUREMBERG—(AP)— Adolf Hitler was the "worst-informed man in Europe." This blunt appraisal of the Fuhrer was made by his own secretary, Johanna Wolf. Wedded to her work in the Nazi Party for many years, Fraulein Wolf still doesn't know what happened to crash down her house of cards. United States prosecutors have no interest in her as a defendant. They are holding her only as a witness. The German Denazification Court, well aware of her gold party badge, will have the last say about her future. Her slant on Hitler is a first-hand one. She worked as secretary to him and before that to Rudolf Hess, the deputy Fuhrer now serving a life sentence.

Like Old Legend
She is inclined even yet to give Hitler the best of it in her appraisals, except for his knowledge—or rather lack of it. Fraulein Wolf told interrogators it was "amazing" how little the Fuhrer really knew. After he became all powerful, his supply of knowledge stopped, because he wouldn't listen to anyone. That probably explains Hitler's idea that Germany was strong enough to push over Russia, Britain, and the United States rolled into one. The secretary likens Hitler to an old legend in German history. It is the story, she said, of the man who strode to the edge of Lake Constance and kept walking.

"He didn't sink," she said. "No one had told him it was water." That's how she explains Hitler's early successes. No one told him—or could—that he was walking dangerously on water. In sublime ignorance he made it... for a while. Last Saw Him April, '45

Fraulein Wolf said she last saw Hitler in Berlin the night of April 20 or 21, 1945. Hitler made it plain, she said, that he "did not want to be captured by the Russians." "That's all he said," she asserted. Martin Bormann, too, was supposed to have been killed in Berlin, but Fraulein Wolf said she knew nobody who ever saw evidence of that. She contradicted Hans Kempka, Hitler's chauffeur, on one point. Herr Kempka told the international military tribunal he saw Bormann leaving Berlin behind a tank when a shell hit directly and Bormann's body "disappeared."

She said she joined the Nazi Party in 1929 and in 1938 Hitler awarded her a gold party badge. At the same time, she said, the Fuhrer bestowed the same decoration on Capt. Fritz Wiedemann, his adjutant, who served as Consul General in San Francisco.

TROUBLES OVER!

This wise motorist doesn't worry any more about quick stops. He had our specialist check his brakes. Now he drives with confidence! Let us make your brakes safe, too! No time like the present. While you're waiting for your new Chrysler, we'll keep your old car in tip-top shape!
