

Shooting, Wrecking, Burning Hit Jerusalem

Jews Strike Back At Arab Mobsters

By The Associated Press
The fury of Holy Land Arabs against the impending partition of Palestine erupted Tuesday in shooting, wrecking and burning throughout Jerusalem and boiled over in threats and mass demonstrations in other parts of the Middle East.
Jews of Jerusalem counterattacked against the Arab mobs and struck Arab business quarters.
Reports of the day's casualties in Palestine, confirmed and unconfirmed, totaled three Jews killed and 22 Jews and six Arabs injured. A pall of smoke hung over Jerusalem, where a number of buildings were in flames. British forces, using armored cars and Bren gun carriers, braced themselves for new disorders in the current three-day Arab protest strike against the United Nations partition decision. A curfew was imposed on Arab quarters of Jerusalem.
United Nations officials kept a close watch on developments, but there were no indications in New York that action was planned to bring the disturbances before the Security Council.
Thousands of Egyptians demonstrated in Cairo against partition. They were promised an "abundance of arms" by Abdel Rahman Azzam Pasha, secretary general of the seven-nation Arab League. The demonstrators smashed windows of foreign-owned shops, wrecked posters advertising foreign movies and American soft drinks, and shouted "We want war!"
Vote Liberation Fund
The Syrian Chamber of Deputies authorized the government to pay a first installment of the equivalent of \$20,000 into an Arab League fund for the "liberation" of Palestine. It referred to the National Defense Committee a measure for compulsory military service. At Aleppo, Syria, a mob broke into the Jewish quarter, attacking and burning.
At Baghdad, Iraq, business was at a standstill as demonstrators for a second day violently expressed their opposition to partition. The full-scale fighting against the United States, Russia and other nations who voted in favor of the partition plan.
Demonstrators in Beirut, Lebanon, paraded through the streets for the second day, but there were no reports of violence.
A British government source said it "safe to assume Britain would authorize at least 50 per cent increase in the rate of legal Jewish immigration into Palestine between now and August 1, when British troops are scheduled to leave the Holy Land. Britain now admits 1,500 Jews a month into Palestine.

Aid Bill To Face Potent House Fight

WASHINGTON —(AP)—Over the hump of Senate approval, the Administration's \$597,000,000 stop-gap European aid bill faced potent House demands Tuesday that it be pared by some \$67,000,000.
The measure cleared the Senate by an 83 to 6 vote late Monday in substantially the form asked by President Truman two weeks earlier, but it still has a rocky road ahead.
Even the Senate version is \$7,000,000 more than the House Foreign Affairs Committee has recommended. And the House group's total includes \$60,000,000 for China, which the Senate measure did not include.
"Our fight will be to take out the \$60,000,000 for China," said a high House Republican who declined to permit the use of his name. "Even the President did not request emergency aid for China, and the Senate provided for assistance only to Italy, France and Austria."
However, the GOP leadership is split on the Chinese question.
Speaker Martin (R-Mass) said he favors giving some help to China immediately.
GOP Conference
But Republicans were virtually unanimous in their insistence that the stop-gap bill contain a provision, not in the Senate measure, stating that Congress is not committing itself to continued foreign aid.
The whole issue of foreign aid—both short and long term—was due to be reviewed at a conference of the 245 House Republicans later Tuesday.
The six "no" votes on final passage were cast by Senators Langer (R-ND), McKellar (D-Tenn), Moore (R-Okla), O'Daniel (D-Texas), Robertson (R-Wyo) and Taylor (D-Idaho).

Hunter Gets Two Bucks With One Shot
MASON, TEXAS —(AP)—Tois Jordan of Odessa realized the hunter's dream when he killed two legal deer with one shot. This feat of marksmanship took place on the Tom White Ranch, 13 miles southwest of Mason.
Jordan was hunting alone when he saw two bucks in perfect broadside alignment. The charge struck the foremost buck in the spine and the second in the heart.

Projected Tests Indicate New Atomic Weapons
WASHINGTON —(AP)—Projected atomic tests behind a curtain of absolute secrecy in the remote Pacific suggested Tuesday that American scientists may be preparing new weapons based on the same terrible power as the atom bomb.
A terse announcement from Atomic Energy Commission disclosed that the armed forces are making tiny Eniwetok Atoll—11 miles from the nearest large islands—into a closed-off proving ground for research on "new fundamental data."
What goes on there, the commission said, is expected to result in advances in "peaceful as well as in military applications of atomic energy."
Asked whether a reference to "atomic weapons" means this country's arsenal now includes a nuclear fission running mate for the atom bomb, one official replied: "You can draw your own conclusions."
Not Like Bikini
Unlike the surface and under water atom bomb tests at Bikini Atoll in the Summer of 1946, which were covered by several hundred reporters and foreign observers, new experiments will be under full security restrictions, Molotov's announcement said.
The area will be shut off from the world and the Security Council of the United Nations will be notified of this effect, as provided in the UN trusteeship agreement for the former Japanese-mandated islands.
The 145 native inhabitants of atoll islands of Aomom and Bora will leave for a permanent home which they will select.

New Postwar Round Of Wage Boosts Predicted

WASHINGTON —(AP)—Secretary of Labor Schwelienbach said Tuesday another postwar round of wage boosts is in prospect unless Congress acts to cut the cost of living.
Schwellenbach went to the capitol to back President Truman's broad economic controls program as increasing complaints came from some Republican legislators that the administration is not presenting sufficiently specific legislative proposals in that field.
The labor secretary testified before the House Banking Committee, while another Congressional group, the Senate-House Economic Committee, was hearing contentions from grain exchange men that the administration has unjustly singled them out for attack.
"The high prices of grain have been caused by unprecedented government purchases for export, rather than by speculation," J. O. McClintock of the Chicago Board of Trade said.
Hits At Margin Increase
McClintock objected to the administration's request for power to increase the amount of margin, or cash down payment, required in trading for future deliveries of grain. The administration contends low margins have encouraged speculation.
Senator Wherry (R-Neb) was one of those contending the administration is not sufficiently specific about what it wants as anti-inflationary measures.
He told reporters Congress has received nothing but "vague generalities" and declared Truman should lay down concrete proposals "if he's not just talking for political purposes."
In a speech in Philadelphia, Senator Taft (R-Ohio) also dropped a broad hint or two that he thinks McClintock has figured in the administration's economic proposals.
Ten-Point Program
When Congress convened two weeks ago in special session, President Truman outlined a 10-point anti-inflation program. This included authority for the administration to put on selective price and wage controls if it decides they are needed.
Cabinet officers and others are now engaged in giving Congress more details of what they have in mind.
On wages, Schwelienbach suggested a board be created to "watch and report" when pressures were developing for wage increases which might in turn force prices higher.
Schwellenbach told the House members he believes organized labor will cooperate in an anti-inflation campaign "if given some real assurance price rises will be checked."

Party Of Shell Officials To Visit In Midland Wednesday

A party of top-flight officials of Shell Union Oil Corporation from New York will visit the area headquarters of that concern's subsidiary Shell Oil Company, Inc., in Midland, Wednesday, and also make inspections of some of the company's properties in the Permian Basin during the day.
Alexander Fraser of New York, president of Shell Union will head the group. Accompanying the New Yorkers will be A. J. Galloway, regional vice president of Shell Oil, and T. E. Swigart, president of Shell Pipe Line Company, both of Houston. Galloway will become vice-president in charge of exploration and production of Shell Oil Company, Inc., on January 1. At that time he will move to the concern's headquarters in New York.
The visiting oil company executives will arrive in Midland by train Wednesday morning and depart Thursday morning in two special airplanes, to go to Houston for inspection of properties in that area, and to participate in the Friday dedication of Shell's new \$1,680,000 (Continued on Page 8)

Santa Claus Is Coming To Town Friday

Santa Claus will be here Friday, Lids.
That was the announcement Tuesday morning from Midland Jay-Cees, who are sponsoring the biggest and best welcome the Old Gentleman ever received in West Texas.
When St. Nick lands here Friday afternoon he'll find two or three high school bands, a number of floats, and nobody-knows-how-many boys and girls ready to escort him through Midland streets. It's to be by far the longest Christmas parade in the city's history.
And there'll be plenty of candy for Santa to distribute among his followers, which mean everybody, as he passes through the crowds. There have been numerous requests from businesses and organizations for space in the parade. Girl Scouts notified officials they propose to enter 500 girls in the march. Anybody who wants space in the parade, Jay-Cees said, should notify Keith Stewart.
Jay-Cees Tuesday were contacting Midland merchants to obtain help in financing Santa's welcome, which is one of the organization's principal Christmas activities. Jay-Cees will award prizes to best floats in the parade in addition to purchasing the candy.

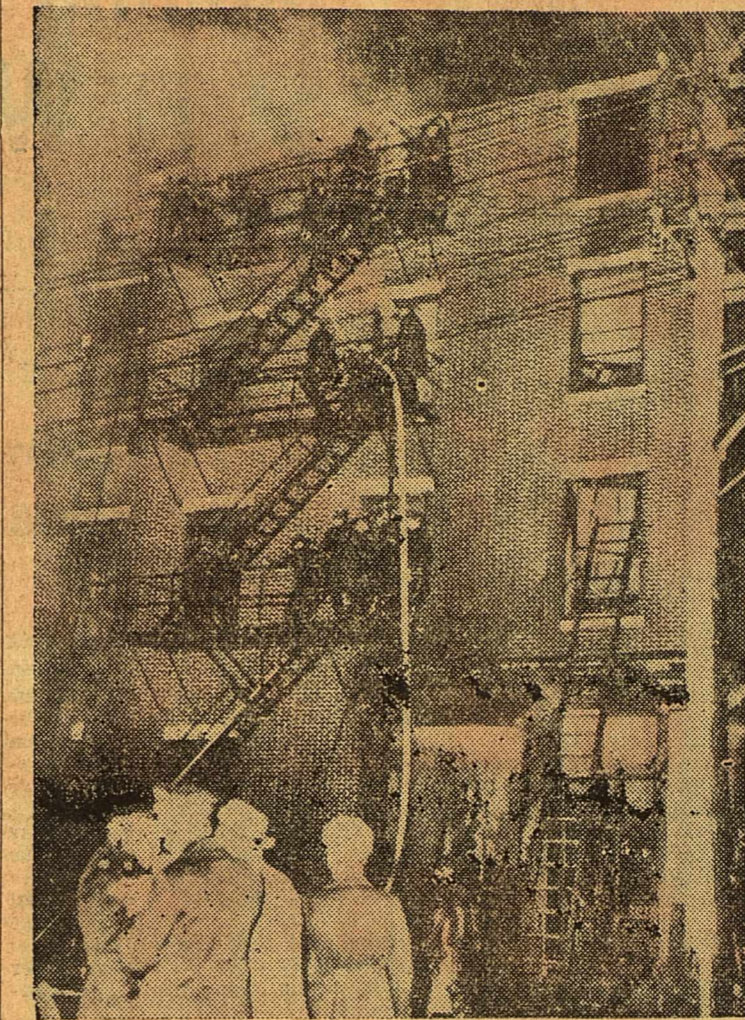

Huge Lighted Cross Again Shines From Petroleum Building

For the first time since the beginning of the war a great maifest cross, formed by hundreds of red light bulbs, shines on the Petroleum Building.
Soaring 135 feet in the air and visible for many miles to the South and Southwest of the city, the cross is a joint project of the Petroleum Building management and the Texas Electric Service Company. It was lighted Monday night and will shine throughout the holidays.
With the beginning of the war, the cross was not illuminated at Christmas time because of restrictions and shortages of bulbs, wiring and power. Last year, there was still a shortage of materials, which prevented its being lighted.

French Assembly Resumes Work On Anti-Strike Law

PARIS —(AP)—A 10-hour "silent filibuster" by Communist deputies was broken early Tuesday and the National Assembly was called back into session to enact a stringent anti-strike law requested by Premier Robert Schuman to fight work stoppages paralyzing the nation.
One stoppage was ended Tuesday morning when police cleared sit-down strikers from six power plants in the Paris area, permitting subways to resume operation after service had been suspended for several hours. More than 2,000,000 workers remained idle, however, stalling every major industry.
The Communists' "silent filibuster" against Schuman's anti-strike bill, which is aimed at breaking the Communist grip on the French labor movement, ended when Republican deputies ejected Communist Deputy Raoul Calas from the Assembly chamber.
Fifty other Communist deputies, who had occupied the otherwise empty chamber with Calas, followed him out. Calas made no effort to resist the guards and there was no disorder.
The Schuman anti-strike bill, which the Communist deputies are fighting so bitterly, would give the government power for three months to fine and jail strike agitators, and to apply doubly stiff penalties for sabotage.

Hospital Campaign Dinner To Be Held At 6:30 Tuesday

A progress report meeting of the Midland Memorial Hospital building fund campaign will be held at 6:30 p. m. Tuesday in the Crystal Ballroom of Hotel Scharbauer, with all division chairmen, team captains and campaigners invited and urged to attend. John W. House, Special Gifts chairman, will preside.
All team captains will be called upon for reports and the results are expected to push the totals past the half million dollar mark. Many workers have completed their assignments and will make final reports Tuesday night.
Campaign officials, at a conference Tuesday morning, expressed doubt the goal will be reached by Tuesday night since a number of workers have not been able to contact their prospects, due to various reasons, and since a number of oil companies and individuals still have not decided upon the amounts of their gifts. They said the drive will continue in full force and that the Victory Dinner and celebration will be held later this month when reports are more nearly complete.
The campaign opened November 13 and report meetings have been held in connection with meetings of the Lions and Kiwanis Clubs, Jay-Cees and Geological Society.
A total of \$485,593 in cash and pledges was reported at the last progress session November 25.
M. C. Ulmer, general campaign chairman; Dr. John B. Thomas, president of the Midland Memorial Foundation; John Butler, treasurer; and A. N. Hendrickson, Big Gifts chairman, are slated to speak briefly at the Tuesday night session.

Safe Taken In Robbery Found Near Air Field

A safe taken in the burglary of Service Drugs of Midland sometime Sunday night was found Monday in a field near Midland Airport, north of the city. The safe's knob had been knocked and most of the contents taken.
Missing from the safe was approximately \$1,200 in money, expensive perfumes and shavers, and some checks.
A portion of the narcotics taken from a locker in the store burglary was recovered near the safe. The morphine was missing.
The safe was discovered by a rural mail carrier and also by bird hunters in that area. The mail carrier saw the safe and reported it. The hunters saw papers blowing and investigated, also to discover the safe. They notified police. "The safe was partially hidden in weeds."
Left in the safe were business papers of the store and some of the checks.
Police and sheriff departments Tuesday were working on the case and some members of the forces went out of town on a clue.

Unconfirmed Report Says Missing Plane Crashed In France
FRANKFURT, GERMANY —(AP)—U. S. Air Force officials said Tuesday they had "an unconfirmed report" that planes searching for a missing C-47 transport had sighted a crashed aircraft near Bitche, France.
These officials, who stressed the fact that their reports were fragmentary, said they believed the information pertained to a Dakota transport missing since Friday on a flight from Pisa, Italy, to Frankfurt, with 20 persons aboard.
A French Press Agency dispatch in Strasbourg, France, however, said an American transport plane had crashed Tuesday near Bitche. The authorities said they are trying to determine definitely whether two planes were down, or only the C-47 which disappeared Friday. Radio signals received Tuesday morning indicated a ship was down with some life aboard near Kaiserslautern, in French-occupied Germany.

1 ALFORD TO PERFORATE; MAKE PRODUCTION TESTS

Slick-Urschel Oil Company, The Plymouth Oil Company, et al. No. 1 Alford, East-Central Upton County prospective discovery from a thick section of Ellenburger, 12 miles northeast of Rankin, and 2,173 feet from north and 4,813 feet from west lines of section 50 1/2, block Y, P. B. Scott survey, was preparing to perforate 5-inch casing, set at 12,018 feet, over total depth of 12,023 feet, and start making production tests of the petroleum yielding ability of the prospect.
Top of the Ellenburger is at 11,021 feet. The upper section of that horizon showed heavy gas flows and some distillate. The lower zone gave strong indications of making some oil. No successful drillstem tests on the lower horizon were obtained on account of the heavy mud pressure which operators were forced to carry when the testing was undertaken.
Operators have not reported where the first perforating will be done to investigate the oil and gas making strength of the wildcat.

HUMBLE IS TO COMPLETE POLAR FIELD EXTENDER

Humble Oil & Refining Company No. 2 Irene Elkins, southeast stepout from production in the Polar field in Southwest Kent County, and 1,980 feet from north and west lines of section 37, block 5, H&GB survey, had tested for 6.5 barrels of oil per hour flowing after the section at 7,855-7,903 feet had been treated with 500 gallons of acid. The flowing test continued for ten hours.
Operator has dismissed the drilling rig and is preparing to complete the well and put it on production.

HIGH JAMESON WELL GETS GAS, DISTILLATE, OIL

Sun Oil Company No. 1 C. E. Mathers, outpost to production in the Jameson field in Northwest Coke County, and 660 feet from north and 1,980 feet from east lines of section 459, block 1-A, H&TC survey, was taking a drillstem test in the crinoidal reef lime section of the Pennsylvanian at 5,998-6,023 feet.
A test was taken for 30 minutes at 5,940-60 feet. Gas showed at the surface in nine minutes. Volume of the flow was not reported.
Recovery was 85 feet of heavily oil and gas cut drilling mud—estimated to have been 10 per cent oil and five feet of distillate.
Open flowing bottom hole pressure was 550 pounds. Shut-in bottom hole pressure was 2,750 pounds.
This project is reported to be considerably high, on the crinoidal, to the nearest well which has penetrated that horizon.

PHILLIPS DRILLS AHEAD AT DEEP WELL IN NW ECTOR

Phillips Petroleum Company No. 2 Blakeney, Ellenburger wildcat in Northwest Ector County, between the Goldsmith field and the Frank Cowden-Ellenburger field, 1,980 feet from south and west lines of section 7, block A, psi survey, had reached 8,228 feet, in lime and shale and was making more hole.
This project was originally started to go to around 6,300 feet to test into the Clear Fork-Permian. It has not reported having log- (Continued on page 8)

Pure Oil Charged In Federal Court

SHREVEPORT, LA. —(AP)—Charges that they shipped 272,966 barrels of "hot oil" from Louisiana to Texas during three months of 1946 have been filed in Federal District Court here against the Pure Oil Company and two of its Houston, Texas, office employees.
The employees, C. C. Brown, division production superintendent, and H. T. Kirby, clerk in the Gulf Coast division office, are charged with knowingly causing shipment of the "hot oil" from the Gueydan oil field in Vermillion Parish to Smith Bluff, Texas.
At Houston, Brown declined comment on the charges. Kirby was not available for comment.
The complaint defines "hot oil" as "oil which has been produced within the state of Louisiana from any well or wells in excess of the amount allowed by any rule, regulation, or order of the (conservation) commissioner."

Horace O. Wooten, 82, Succumbs In Abilene

ABILENE —(AP)—Horace O. Wooten, 82, builder of a wholesale grocery empire in West Texas and longtime Abilene civic leader, died early Tuesday. He had been in ill health several months.
He was head of the Wooten Grocery Company, established here in 1898, and had many other holdings, including the 16-story Wooten Hotel.
Wooten was one of the prime movers in the building of McMurry College in Abilene and was first chairman of the school's Board of Trustees.
Born in Tyler July 15, 1865, Wooten came to West Texas by wagon with his family in 1879, settling at Buffalo Gap in Taylor County.
With \$2,000 borrowed capital, he made his business start buying grain and later established the wholesale grocery business with branch houses throughout West Texas.

Marshall Accepts Molotov's Invitation

LONDON —(AP)—Secretary of State Marshall, apparently anxious for a private conversation with Russian Foreign Minister V. M. Molotov, accepted Tuesday an invitation from Molotov for luncheon Friday.
The luncheon will afford the two their first opportunity for direct discussion of U. S. and Russian problems since the Moscow meeting early this year, when Molotov attended Marshall's conference with Prime Minister Stalin.
The Big Four were to meet later Tuesday, presumably to continue their discussion of the best way to write a German peace treaty.
Diplomats discounted the prospect of the council completing an Austrian treaty, saying there appeared to be no basis for agreement.

Fighting Irish Hold Top Spot In AP Gridiron Poll

NEW YORK—(P)—Notre Dame retained the top ranking among the nation's football teams Tuesday in the weekly Associated Press poll, but its margin over Runner-Up Michigan was cut to a mere eight points.

The unbeaten Irish, who close out their season against Southern California's Rose Bowl eleven Saturday, garnered 1,184 points to Michigan's 1,176. A week ago, the Irish led the Wolverines by 30 points.

Notre Dame drew 58 1/2 first place votes and the Wolverines 54 1/2. Three of the 129 writers who participated in the poll voted the two grid powerhouses as tied for the big top slot.

Southern California was a dis-

Layne Captures Pair Of Titles In SWC Statistics

DALLAS—(P)—Texas' Bobby Layne captured two titles—total offense and passing, and Southern Methodist's Doak Walker was the leading ball-carrier in Southwest Conference football for the season just closed.

Final statistics furnished by James H. Stewart, executive secretary of the conference, showed Layne to have made 1,061 yards in total offense—35 yards more than Walker and 123 better than Arkansas' Clyde Scott.

Here's how the total offense ranked:

Player	Rushing	Passing	Total
Layne	96	965	1,061
Walker	684	342	1,026
Scott	620	258	878

Walker, in leading the ball-carriers, rolled up 684 yards on 163 runs. Scott was second with 620 on 136. Dick McKissack of Southern Methodist was third with 477 on 144.

Ranking next to Layne in passing was Stan Hollmig of Texas A&M. Layne completed 63 out of 115 throws for 695 yards and nine touchdowns. Hollmig had 689 yards on 58 connections in 136 tries and passed for six touchdowns. Jack Price of Baylor was third with 52 completions in 127 tries for 569 yards and three touchdowns.

Landry Leads Punters

Tom Landry of Texas led the punters with a 41.1-yard average on 18 boots. Hollmig was second with 40.0 on 75, and Carl Knox of Texas Christian was third with 39.7 on 83.

In punt returns (only those with 10 or more considered), Aubrey Fowler of Arkansas ran 19 back for 371 yards—an average of 19.5. Billy Pyle of Texas was second with 273 on 19 for an average of 14.3. Byron Gillory of Texas was third with 209 yards on 15 for 13.9.

Morris Bailey, tall Texas Christian wingman, caught 16 passes for 307 yards. Barney Welch of A&M gathered in 20 for 262 yards and Jim Williams of Rice received 10 for 251 yards.

Texas led in team offense with 3,243 yards. Rice was second with 2,768, and Southern Methodist was third with 2,567. In defense, Texas Christian was tops with 181.8 average per game. Texas was second with 187.7.

Southwest Football Breaks All Attendance Records This Season

By The Associated Press

Southwest Conference football broke all attendance records in the season just closed, a survey of the seven member schools showed Tuesday.

The circuit went over the three-quarters of a million mark for the first time with 776,803 for 31 home games.

Last year there were 763,512 for 34 games. Thus 1947 showed a gain of better than 2,500 per game. The average was 22,456 for 1946 and 25,058 this year.

Baylor, Texas Christian, Arkansas and Texas A&M showed increases, but Baylor had one more home game than last year. Texas Christian had more than 30,000 above last year for the same number of games. Arkansas was 20,000 ahead, and Texas A&M was 27,885 better than last year.

Three Show Decreases

Southern Methodist was 11,000 behind but played one less home game; Also, SMU played three games in the 45,000-capacity Cotton Bowl last year and only two this year.

Rice lacked 40,000 but played two fewer games at home this year. Texas was 25,000 in arrears but played one less game.

Yanks Take Steps To Bolster Mound Staff For 1948

MIAMI—(P)—The New York Yankees, disturbed by the sudden turn of events which labeled the bankrolled Boston Red Sox as the team for the 1948 flag, have taken their first direct step toward making a staunch defense of their world championship.

Out of a maze of trade rumors involving nearly every major league team represented here, on the eve of the opening of the National Association's convention, has come the news that the Yankees have completed a deal for Pitcher Walter Masterson of the Washington Senators.

Manager Bucky Harris of the Yankees admitted a deal for a starting pitcher was on the fire, but added that no official announcement would be made until the major league conclave which begins next Monday in New York.

Johnny To Giants?

Masterson is the bespectacled righthander the Yankees were after in the Spring of 1947, together with First Baseman Mickey Vernon, but President Clark Griffith of the Senators refused to part with two of his key men.

The New York Giants, still searching for a pitcher, were offered Southpaw Johnny (Double No-Hit) Vandemeyer by Johnny Neun, manager of the Cincinnati Reds, who demanded a center-fielder in exchange. It was said Manager Mel Ott of the Giants was willing to part with Reserve Outfielder Lloyd Gearhart, but Neun preferred Bobby Thomson or Carol (Whitey) Lockman.

The Chiropractor and You

No. 11 in a series of articles published in the public interest to explain and illustrate the practice of Chiropractic.

What Will CHIROPRACTIC Do For Nervousness?

The brain is like any other organ in the body. It is dependent for normal function upon the proper supply of mental impulses to it. Tiny fibers convey these impulses from one part of the brain to the other. They pass out from the spinal cord and turn back into the cranial cavity, and are known as recurrent fibers. If anything happens to prevent these fibers from carrying the proper quantity and quality of vital energy then the tissues which they supply become abnormal in their function. Such a condition often exists as a result of slight displacement of the small bones which form the spinal column. When the vertebra is adjusted to its normal position and the pressure upon the nerve fibers is relieved, the cause of nervousness has been taken away. The reason that Chiropractic is of inestimable value in cases of nervousness is that the effects are lasting, and the effects are lasting because the cause of the condition has been eliminated.

CASE HISTORY NO. 988 — A child of nine suffering from Encephalitis—a disease of the brain—and pronounced incurable. She child's breathing had become abnormal; she had spasms resembling epilepsy; she was extremely nervous. She was placed in a hospital but discharged six months later in even worse condition. Believing that "where there's life, there's hope," the mother tried specialists recommended to her, but without benefit to the child. Eventually she was talked into trying Chiropractic. Spinal analysis revealed a severe nerve pressure at the base of the child's skull, and adjustments were given to remove it. Within two weeks she began to improve and continued improving. Three months later she was discharged as well.

We Need To Blow Our Horn

Several congressmen who opposed the State Department's Office of Information and Educational Exchange, and who voted to cut its budget by more than half last summer, have changed their minds. These are men who recently toured Europe, and who returned with the demand for some sort of propaganda agency to offset the stream of anti-American lies and vituperation that the Russian propagandists are pouring into Europe.

This does not necessarily mean that the legislators were shortsighted or dead wrong in their earlier opposition. Conditions have changed in the meantime. Also, one of the strategy of former Assistant Secretary of State Benton and some of the tactics of his assistants were open criticism.

There was nothing wrong with Benton's basic idea. It was his laudable intention to fight distortions with dispassionate truth, and to sell American democracy to the millions in Europe by such means as the Voice of America broadcasts, publications, libraries and traveling art exhibits.

But that was last Spring. At that time Benton's principal target seemed to be Russia. But the Russian people, who most needed to hear the truth about American life and policies, were and are almost hopelessly inflated from the truth.

The Russian people who are 35 and under have been bred from the cradle on the anti-capitalistic dogma of Marx and Lenin. The older ones have had a steady diet of such propaganda 30 years. Few Russians have radios which to hear the American side of the story. And it conceivable that even those who listen to it may simply get it down as false propaganda.

Furthermore, the picture has changed since Congress considered this State Department information bureau. The Soviet government has tightened its grip on the Balkans. There is now a Marshall Plan to be explained and defended, not behind the iron curtain but in the countries waiting American aid. Communist propaganda has now been stepped up to a high pitch. National pride is being appealed to. The threat of American imperialism and loss of sovereignty is dimmed into Western Europe ears and minds day after day.

What is needed now, it seems to us, is a more forceful presentation of the American story. There must be the same scrupulous regard for truth, but there must be greater emphasis. We must play up what we are doing now and what we have done to relieve hunger and hardship in Europe.

We must make it even plainer that the refusal of Russia and her satellites to participate in the European recovery program was Moscow's idea, not ours. We must spell the idea that we are seeking to dominate Europe, to stuff the capitalistic system down unwilling throats, to make war.

National modesty is no longer a virtue. The people of Europe must be shown the contrast between our generous but largely unpublicized aid and the niggardly Russian contributions which have been ballyhooed out of all proportion. It may go against the grain of Americans, individually and collectively, to blow our own horn. But that type of information service seems indicated under present circumstances.

Let other people get the best of you and keep the rest for yourself.

The thin person may have more to laugh about, but the fat one has more to laugh with.

George Caple's Father To Be Buried In Waco

J. E. Caple, 78, father of George Caple of Odessa, formerly of Midland, died Monday afternoon in Waco of a heart ailment. He had been in ill health about three years.

A pioneer Waco resident, Caple had been connected with the city transportation system there 57 years when he retired about five years ago. He was born Aug. 18, 1889, at Capleville, Tenn.

He was a past master of the J. H. Gurley Lodge and was grand master of the Masonic Order in 1925. He also was a Shriner.

Funeral services were to be held in Waco Tuesday afternoon.

Survivors include two sons, George Caple and B. T. Caple of Waco; two daughters, Mrs. Russell McEwen of Fort Worth and Mrs. Vernon Goodall of Waco; five grandchildren and one great-grandchild.

REIGERS BACK FROM TRIP TO MEXICO

Mr. and Mrs. W. D. Reiger, 901 West Texas Street, have returned from a trip to Saltillo, Mexico, where they visited their daughter, Mrs. Clarence Thieme, during the Thanksgiving holidays. Reiger reported the mountains in the Saltillo area covered with snow when they left there.

Finds Father's Body Through Pay Telescope

SAN PEDRO, CALIF.—(P)—Herbert Kraencke, 27, put a dime in the slot of a pay telescope on Point Firmin Monday, looked for a while and then spotted the object he was searching for—the body of his father floating in the ocean.

The son reported his find to the Coast Guard and, when the body was brought ashore, identified it as that of his father, Fritz Kraencke, 57, a scenic artist and film set designer who had been missing since Sunday.

Detective Lieutenants Donald Gray and Ralph Weyant said they were investigating the case and that an autopsy will be postponed.

SAVINGS DEPARTMENTS!

SAVE TIRES:

HAVE STEERING and WHEEL ALIGNMENT CORRECTED
If your front wheels are but 1/8th out of line you will reduce tire mileage 25% to 35%. It's a proven fact that 99 cars out of every hundred need wheel alignment every 5000 miles.

BALANCE ALL WHEELS
Tires out of balance cause cupped out places to appear on the tread. A tire 1 ounce out of balance will build up to 12 pounds at 60 miles per hour.

If Cadillac cars were built largely "by hand," in the Old World tradition, it is impossible to estimate what one might cost. Only when meticulous precision has been wedded to mass production, is it possible to bring so fine a car within reach of so many people. When you see the numerous Cadillacs on our streets and highways, you are witnessing a tribute to America's industrial supremacy.

MATCHLESS

If you are waiting for a new Cadillac—please be assured that every effort is being made to further production. Demand is so great, however, that some delay in delivery is still inevitable. But hold to your purpose! There is no substitute for a Cadillac.

Dutch Flyer Seeks Names Of Midlanders He Knew While Here

Addressed to "The Mayor of Midland," the following letter from a young Dutchman who still has happy memories of Midland was received recently by Mayor R. H. Gifford:

"Dear Sir,
"This probably will be a most unusual letter, and I did hesitate to write to you for a long time. I used to be in the Dutch Naval Air Service and received part of my training in the Midland Army Flying School. For approximately three months I had a wonderful time in your little town. I met two of the most charming families, one a garage owner (going to Dallas, on the right hand side) and one had a plumbing business, both in Midland. As I was posted several times, I lost their names and addresses and am anxious to find them back. My wife and child were killed during air raids on the United Kingdom and only a short while ago I married an English girl and settled myself in England, working for a firm of export merchants.

"Now the war is over, I had hoped that the world would have gone back to normal, but instead the world and food situation seems to be increasingly difficult. England is fighting to survive and will of course get out of the present difficulties, but when?

"My wife is sometimes envious when I tell her of all the things in America and as she is still very young and can't remember prewar conditions, does not believe me always and thinks I am exaggerating. In case you are interested I shall be only too pleased to write you a report about the conditions in England and also on the continent. I would be very pleased in case you could trace the two families mentioned, who will undoubtedly remember me. With my best wishes for your town and for yourself, Yours faithfully, W. C. van Haften, 16, Chandos Road, Eastcote (pinner), Middlesex."

It is said that hot water baths are effective in relieving the pain of a black widow spider bite.

Dear Santa Claus:-

"Dear Santa Claus:
"I am a little boy five years old. Will you please bring me a cowboy suit, a tool set, a gun holster, also some candy, fruit and nuts.
"I have tried to be a good little boy this year.

Lots of love,
DENNIS GRIFFITH

"Dear Santa Claus:
"I am a boy eight years old. I have tried to be a good boy this year.

"Please will you bring me a tool set, a football, an art set, and a gun and holster, also some candy, fruit, and nuts.

"And please don't forget other little boys and girls.
Thank you a lot, with love,
JIMMIE GRIFFITH

TECH STARS TO PLAY IN TWO BOWL GAMES
MONTGOMERY, ALA.—(P)—End Joe Smith and Center Roland Neighbors of Texas Tech are going to appear in two post-season bowl games.

Champ Pickens of the Blue-Gray Association said they would take part in the North-South game here on December 27, then fly to El Paso, Texas, to play with their team in the Sun Bowl.

McKenney on Bridge

By WILLIAM E. MCKENNEY
America's Card Authority

I had the pleasure of playing in a recent tournament with Irwin Fisher of Baltimore, Md. I consider him an exceptionally fine card player. My game with him confirmed that opinion. Here is one of the hands that Fisher played.

The king and ace of diamonds held the first two tricks for West, then he shifted to the queen of clubs. Fisher (South) won this in dummy with the king and took two rounds of trumps, winning the second round in his own hand. Then he led the six of clubs and

Are You A DISCOURTEOUS DRIVER?

12-2

Any motorist can perfect the technique of hogging the cross walk and may succeed now and then in getting a pedestrian clipped by traffic going in the other direction. Right from the start you collect a fine assortment of dirty looks from pedestrians.

But if you are a courteous driver we would like to write your automobile insurance, because courteous drivers are careful drivers.

played the eight-spot from dummy. East won the trick and returned a heart. Fisher won with the ace and led a low club. West put on the nine-spot, Fisher won in dummy and East showed out.

At this point Fisher led dummy's low club and trumped it, then made the play which he said gave him his only possible chance—one chance in a thousand, but it worked. He led a small heart and West had to win with the king. Now there was no way to keep Fisher from getting a ruff and a discard, as West had to lead a diamond. This gave him his contract of three-odd.

"I've got
a job!"
A brand new telephone operator—that's
me. Just started today.

Like it? Yes, indeed . . . especially one
thing . . . everybody is so friendly. I felt at
home right away. It's a nice clean place
to work, too; pleasant surroundings, and
the switchboard is really fascinating. I'm
going to enjoy working for the telephone
company.

And here's a tip, if you're looking for a
job. More operators are needed right now.
Experience isn't necessary because you learn
as you go along.

The chief operator at the telephone office
will be glad to tell you all about it. Why
not see her?

Leaders In Legion's Tiny Tot Personality Contest Announced

Interest was at a high pitch Tuesday in the Tiny Tot Personality Contest sponsored by the Woods W. Lynch Post No. 19 of the American Legion in connection with its musical show, "Cornzoppin," to be presented Thursday and Friday nights in the auditorium of the new Legion Home on South Colorado Street.

Patricia Petosky, Lu Ann Reeder, Mary Ralph Lowe and Jane Richards Tuesday morning were leading in the girls division of the contest, and Bobby Blaylock, Walter Fred Pate, Richard Allen Cole and Richard Wood were ahead in the boys division. More than 50 youngsters under six-years of age are entered.

Entries Will Appear
Votes are one cent each and may be cast in jars located in various downtown business establishments. The entries will appear on the stage both nights of the play just before the first curtain, and prizes will be awarded Friday night.

Rehearsals for the musical comedy will be concluded Wednesday night and the production will be ready for production Thursday. Proceeds will go to the American Legion's building fund.

College Enrollment Reaches New High

WASHINGTON — (AP) — College enrollment for the 1947-48 school year reached the record total of 2,338,226, almost 1,000,000 more than the pre-war peak of 1940 and 260,131 more than a year ago, the Federal Security Agency announced.

Included are 1,122,738 veterans of World War II, of whom 24,091 are women. The veterans comprise 48 per cent of total enrollment and their number increased 3.92 per cent over the year before.

The 1947-48 freshman crop of 592,846 is made up of 399,972 men and 192,874 women. It represents a sharp decrease from last year's record of 696,419 beginning students but still is far above the pre-war high of 528,590.

The figures were compiled by the agency as a result of a survey of 1,753 schools—every institution of higher education on record in this country.

Texas Ranks Sixth
The returns showed that New York had the highest student total, 280,874, followed by California, 178,663; Illinois, 163,725; Pennsylvania, 142,280; Ohio, 142,279, and Texas, 122,516.

Dr. John W. Studebaker, U. S. commissioner of education, said the survey disclosed that about 85 per cent of colleges will continue to accept students for the Spring semester or next Fall despite already record enrollments.

Some others have halted enrollments for the present and others are accepting registrations from veterans only.

"The study indicates," Studebaker said, "that colleges and universities are utilizing their facilities to the utmost so veterans and others desiring a higher education may attend college."

SLAKE CREATES STATIC IN NEGRO WOMAN'S RADIO

CENTER. — (AP) — A negro woman near here was having trouble with her radio. Static of some sort, she thought.

So she took it to a radio shop for repairs, carrying it to town in her lap. The radio repairman took one look and found the trouble.

Oil Report Shows Production Decline

TULSA — (AP) — The nation's crude oil production fell off during the week ended November 29, averaging 5,303,235 barrels daily for a decline of 11,215 barrels under the previous week's figures, the Oil & Gas Journal reported Tuesday.

The following states accounted for most of the decrease:

California, down 2,700 barrels to 923,700 barrels; Wyoming, off 2,420 barrels to 128,270; Michigan, 3,125 to 44,870; Kansas, 4,750 to 291,350; Oklahoma, 2,400 to 408,300; Mississippi, 1,700 to 109,565.

The following areas showed increases: the Eastern area, up 1,700 barrels to 63,450; Indiana, up 1,900 to 18,400; Louisiana, 2,110 to 461,360; Illinois, Arkansas and Montana, each increased under 1,000 barrels.

Production in Texas, New Mexico, Nebraska and Kentucky was unchanged.
