Truman Requests Ration Powers

Group Will Discuss Oil, Coal Shortage

WASHINGTON—(P)—A Senate subcommittee asked 33 representatives of industry, labor, government and transportation to take part Tuesday in a closed door discussion of reported domestic oil and coal shortages.

John L. Lewis, president of the United Mine Workers (AFL), and Gov. Robert F. Bradford of Massachusetts were among those invited by the commerce subcommittee on oil and coal shortage, headed by Senator Tobey (R-NH).

Senator Hawkes (R-NJ), a committee member, issued a statement saying that he will recommend six conservation measures to the group. At the same time, he expressed the view that neither government rationing nor price controls would help alleviate the situation.

He recommended (1) a considerable reduction in the production of premium gasoline; (2) production of more fuel oil; (3) rationing of petroleum exports—"if any rationing is necessary"; (4) increased government efforts to put in service tankers not now in use; (5) a reduction in government use of petroleum products; and (6) the granting of some anti-trust immunity for the emergency period to permit oil company joint action for purposes of better distribution.

Hawkes said the shortages are caused by record demands for petroleum products. The United States, he added, "now is using as much oil as the entire world did a decade ago."

C. W. VanAlstyne Elected Midland Shrine Club Head

C. W. VanAlstyne was elected president of the Midland Shrine Club for 1948, succeeding Rep. Ken Regan, at the club's annual business meeting Monday night in Hotel Schubarber.

Sheriff Ed Darnell was named vice president, and Floyd O. Boles was reelected secretary-treasurer. Directors are L. R. Burnside, John W. Christian, Ed E. Watts, J. M. McDonald, H. L. Goodman, John P. Butler, Ish McKnight, Bill Kerr, Paul McHargue, Lester Short, Bob Scruggs and Barney Grafa.

By-laws were adopted by the members present.

Plans were perfected for the Christmas party for Shriners and their ladies at the Log Cabin Inn at 8 p. m. Monday. An interesting and entertaining program will be presented.

Club activities for 1948 were discussed, with members advocating an expanded program for the year.

Inquest Scheduled In Houston Death
HOUSTON—(P)—Justice of the Peace Tom Maes was to conduct an inquest Tuesday in the death of R. K. Murray, 40, Bloomington, Ill., whose body was found Monday in a pasture near a Houston airport.

A .32 caliber Savage automatic was found near the body, along with a note to Murray's wife, asking that he be cremated and his ashes scattered over the Gulf of Mexico.

Dayton, Ohio, city officials identified Murray as the city's former supervisor of recreation. Murray and his wife came to Houston about a week ago from New Orleans, La. They were recently married in Norfolk, Va.

★ LATE NEWS FLASHES ★
BEIRUT, LEBANON—(AP)—The Mufti of the Lebanese Republic declared a sacred war Tuesday to be an obligation upon all Moslems for "the liberation of Palestine."

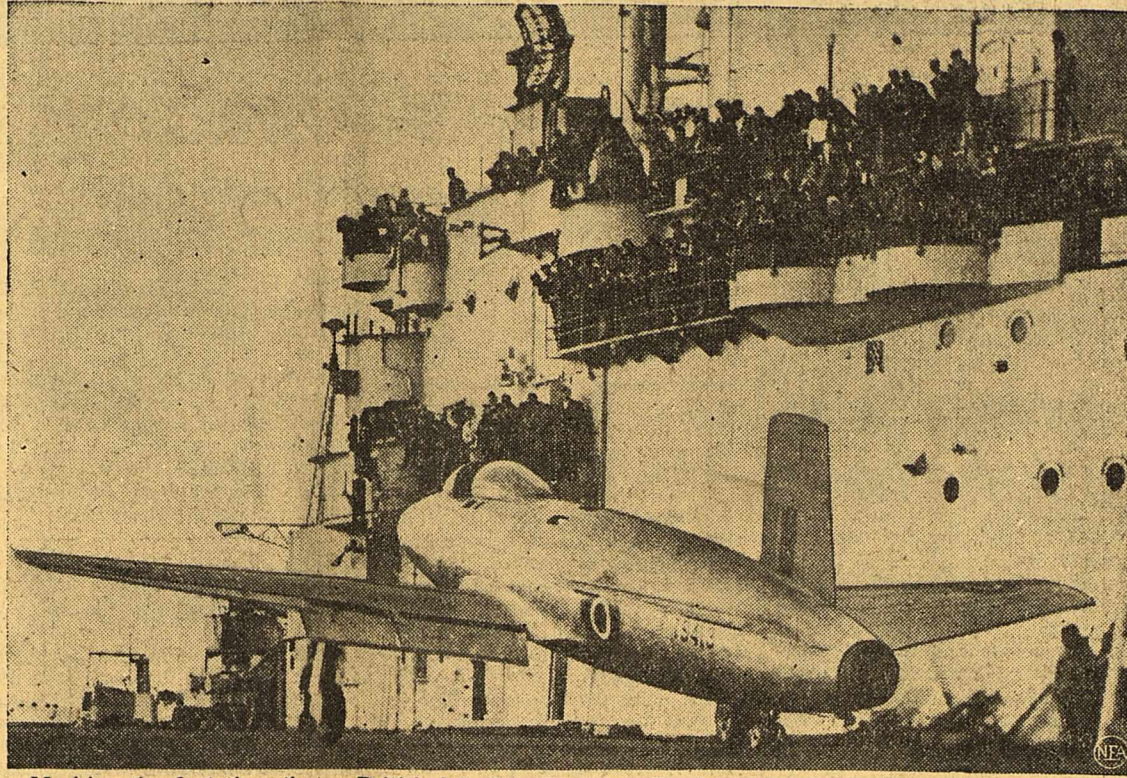

PARIS—(AP)—The 12 members of the Soviet Repatriation Mission in France were expelled late Tuesday for "subversive activities in France," a Foreign Ministry spokesman said.

NAPLES, ITALY—(AP)—The U. S. Aircraft Carrier Midway and an escort of three destroyers entered the Naples harbor on night Tuesday.

SHANGHAI—(AP)—Gen. Claire Chennault Tuesday was awarded the U. S. Navy Distinguished Service Medal for "exceptionally meritorious service as commanding general of the U. S. 14th Air Force" in the war.

PARIS—(AP)—The Communist-dominated French General Confederation of Labor Tuesday ordered France's 2,000,000 strikers to go back to work Wednesday.

British Jet Fighter Takes Off From Carrier

Marking the first time that a British jet aircraft with tail wheel-type undercarriage landed on a ship's deck, a Vampire fighter plane is pictured during tests in which it successfully took off and landed a dozen times from HMS Illustrious. Looking on are the plane's builders, military and naval observers and members of the carrier's crew.

Mackey Motors Is Parcel Post Mailing Place

Beginning Wednesday morning, all parcel post packages shipped from Midland will be accepted only at the post office's temporary facilities in the showroom of the Mackey Motor Company, 200 South Lorraine Street, Postmaster N. G. Oates announced Tuesday.

This means Christmas packages and all other parcel post packages.

The postmaster had announced several days ago that operations at the temporary location would begin Friday, but pre-Christmas mailings already is so heavy the date was moved up to Wednesday.

Other classes of mail than parcel post will be handled at the post office, the postmaster said. And all packages and other mail coming into Midland will be delivered at the post office.

The auxiliary department setup at Mackey Motor Company is for shipping parcel post from Midland during the holiday rush, and will be the only place in Midland from which packages can be mailed until the holiday mailing rush is ended, Oates said.

Committee Reports Heard At C. Of C. Directors Meeting

Committee reports were heard and future activities discussed Monday night at a meeting of directors of the Midland Chamber of Commerce in Hotel Schubarber. President John P. Butler presided at the session, the final meeting of the year. Robert L. Wood, chairman, told of plans for staging the organization's annual banquet and membership meeting January 27, when new officers and directors will be elected. Ben Wooten, Dallas banker, will be the principal speaker. A price of \$2.50 per plate for the banquet was established by the directors.

A report on activities of the Livestock-Agriculture Committee was made by Chairman R. L. Miller, who announced the Chamber of Commerce Saturday will sponsor a luncheon for Midland County dairymen.

To Issue Folder
The directors discussed the possibility of printing and distributing an illustrated folder on Midland, and authorized Fred Hogan, committee chairman, to continue work on the project. Several suggestions were made concerning its type and size.

Manager Delbert Downing told of attending a U. S. 80 Highway meeting in El Paso recently when organization of the highway's Texas Division was perfected. The purpose of the association is to influence additional tourist traffic through this section over U. S. 80. A national association will be organized later.

Butler expressed appreciation to JayCees for staging last Friday's Santa Claus parade which he termed the best in Midland's history, and thanked the Texas Electric Service Company for installing the Christmas lights in the downtown section. He also thanked the directors for their support and cooperation during the year.

Marshall To Seek Early Showdown

LONDON—(P)—Secretary of State Marshall was reported Tuesday to have determined to seek a showdown with Soviet Foreign Minister V. M. Molotov at the earliest opportunity on whether Russia actually is ready to negotiate a German settlement.

American officials said they were convinced, as Tuesday's meeting of the Council of Foreign Ministers got under way, that hints of concessions given in Molotov's actions Monday night would not be borne out on real issues.

Diplomatic experts of all three Western delegations considered the real state of relations between Russia and the Western Powers is represented more by developments in Europe than by the diplomatic maneuvers going on here.

Developments considered significant in this respect were Russia's angry note to France over repatriation, coupled with the disruption of Soviet-French trade negotiations, and Russia's action closing a section of its Austrian Occupation Zone to travel between the American Zone and Czechoslovakia.

The refusal of the Athens government to provide casualty lists to members of the appropriations committee who toured Europe last fall was cited by some of the lawmakers as indicating there has been little real fighting.

Committee members told a reporter that, in addition to further information on the anti-Communist fighting in Greece, they want explanations from administration officials on these other widely scattered developments:

Bombers Destroyed
The destruction of 2,000 four-engine American bombers on German flying fields at the time Greece was using American dollars to buy smaller second-hand British warplanes.

Evidence that American fishing boats, turned over to the Greeks, are lying idle in Greek ports.

Reports that Russia has refused to return 8,000 freight cars in which dismantled German industrial equipment was shipped from the Anglo-American Occupation Zones to the Soviet Union and its satellites.

The failure to distribute what some members said amounts to \$75,000,000 in United Nations Relief and Rehabilitation Administration (UNRRA) supplies that have been standing in European depots for months.

The reported dismantling and shipping to Russia of one of the two largest German soap manufacturing plants, leaving the populace with a monthly ration far too short.

Tom Sealy Named Chairman Of City Plan Commission
Tom Sealy, attorney, was named chairman of Midland's new City Plan Commission at its organization meeting Monday afternoon. An ordinance creating the commission was adopted recently by the City Council, which named the seven-member commission at a special session last Tuesday.

Fred Hogan was elected vice chairman, and H. Winston Hull, secretary. Other members are Barney Greathouse, Charles Vertrees, Frank Smith and J. D. Hunter. The commission will meet the last Monday of each month in the city hall.

Meat, Gasoline Controls Asked

WASHINGTON—(P)—The Administration Tuesday submitted proposed legislation to Congress which would permit the rationing of meat, gasoline and other commodities.

Undersecretary of Commerce William C. Foster told a Senate judiciary subcommittee that a bill handed to the group by Secretary Harriman also would permit the government to buy up the entire crop of wheat and certain other commodities.

Foster explained these rationing and crop-buying powers were contained in a bill designed to give President Truman authority to allocate and fix priorities of scarce items, including livestock and poultry, steel, grain and grain products, freight cars and other products and materials.

Moreover, the measure would give Truman authority to allocate other materials if he found, after public hearings, that a shortage was basically affecting "industrial production or the cost of living."

Extend Export Controls
Senator Cooper (R-Ky.) asked Foster whether implicit in such authority to distribute scarce items was the power to ration to consumers.

"It would include that power," Foster replied.

The measure presented to the committee would extend export controls, allocation and priorities powers through March 31, 1950.

The draft of proposed legislation apparently was submitted to increasing complaints by Republicans that the Administration had failed to be specific in outlining the powers it wants.

Quarantine Zone Proposed In Disease Fight

WASHINGTON—(P)—A 40-mile wide "no cattle" zone, well below the U.S.-Mexican border, was proposed Tuesday by Rep. A. L. Miller (R-Neb.) as the only effective quarantine against hoof and mouth disease now rampant in Mexico.

In an interview, Miller declared that merely establishing a quarantine "line" is not enough if the slaughter campaign against 1,000,000 infected Mexican animals is to be abandoned. Collapse of the program was conceded by both governments two weeks ago.

"What is needed is a protected belt 35 to 40 miles wide across the whole width of Mexico, some 20 miles south of the border," he said. "Every cloven-hoofed animal that ventures into that zone should be killed, whether it is infected or not. It might even be necessary to macthugum them from the air to make sure none escape to infect healthy animals."

Miller said Mexican peasants should be compensated for animals moved out of the quarantine zone but thereafter no indemnity should be paid for those slaughtered to keep the area clear.

A program much short of this severe measure is unlikely to win Congressional support, the Nebraska said.

Moslems Take Fight To United Nations
LATE SUCCESS—(P)—The fight of the Moslems against partition of Palestine moves into the United Nations Security Council Tuesday with two Arab nations demanding the right to participate in all debates about the turbulent Holy Land.

The appeals of Egypt and Lebanon for non-voting seats on the 11-nation council, the UN enforcement arm, which eventually may assume responsibility for maintaining peace in divided Palestine, apparently were the diplomatic steps of the Arab League program to prevent creation of a Jewish state in Palestine.

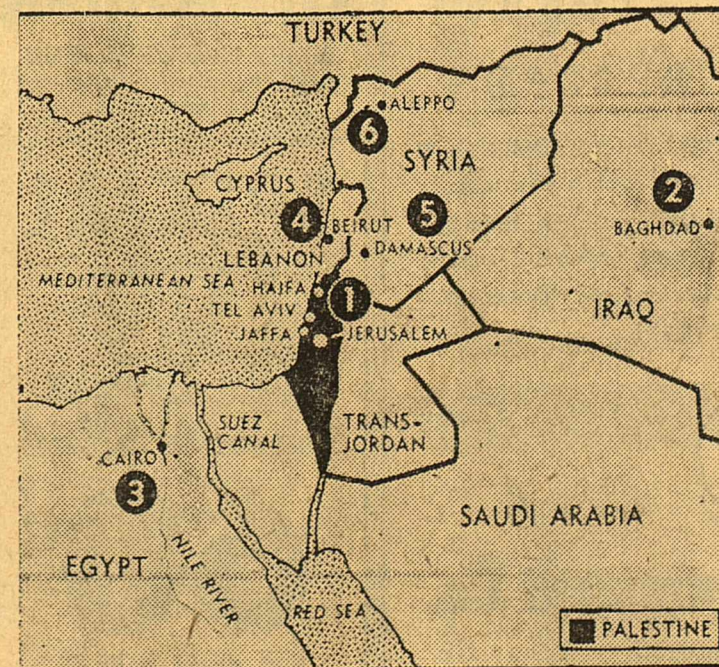

The two letters to the UN read here almost simultaneously with an announcement in Cairo, where the seven-nation league met, that plans were being drafted for "immediate" action to oppose creation of a Jewish state in Palestine.

Choice Steers Bring \$39 In Chicago Market
CHICAGO—(P)—Choice steers set at a new all-time record price in the regular market Tuesday at \$39.00 a hundred pounds. The lot included some prime grade material, the average weight running to 1,100 pounds.

The previous record was set week ago at \$38.50.

Developments In Palestine

This map spots the latest developments in the explosive Palestine situation. In four Palestinian cities (1), riots continued—Jaffa. Arabs attacking the Jewish city of Tel Aviv repeatedly. Arab demonstrations against the partition were held in Baghdad (2), Cairo (3), and Beirut (4), while other important Middle Eastern cities, such as Damascus (5) and Aleppo (6), were virtually shut down.

TOP OF ELLENBURGER BEING TESTED IN NE CROCKETT
Continental Oil Company No. 1-A-13 University, Northeast Crockett County wildcat, six miles southeast of the east side of the Barrhart-Ellenburger field, and 1,990 feet from south and 600 feet from east lines of section 13, block 47, University Land, was bottomed at 9,494 feet, in Ellenburger topped at 9,394 feet, and was taking a drillstem test. Elevation is 2,699 feet.

Sample through the 100 feet of Ellenburger so far penetrated did not show any noticeable signs of petroleum—but few Ellenburger samples do. The test now being run should determine whether or not the zone has any possibilities of production.

EAST PECOS PROSPECTOR GETS OIL IN TUBB ZONE

Stanolind Oil & Gas Company No. 8-B University, scheduled Ellenburger wildcat in the shallow Taylor-Link field in East Pecos County, recovered 15.7 barrels of 25-gravity, black sweet oil, in a one hour drillstem test in the Tubb-Permian at 3,938-4,008 feet.

That showing indicates the possibility of the development of a new and deeper pay for that region.

There was a steady blow of air throughout the period and gas showed at the surface just as the tool was closed at the end of 60 minutes. The recovery was 2,100 feet of oil in the three and one half inch drill pipe, which was equivalent to 15.7 barrels.

Operator cored at 4,008-15 feet. Recovery was six feet of dolomite with the bottom six inches having a fair oil stain.

Another core was taken at 4,015-30 feet. Recovery was 14 feet and the bottom one foot of the core had bleeding oil on fractures.

Operator representatives say an examination of the core showed there was no trace of water. Unofficial sources had reported that the bottom one foot of the 4,015-30 foot core had a slight indication of water. The tests showed there wasn't any. The project is due to go ahead to explore the Ellenburger.

NW COKE WILDCAT TESTING ON TUBB SAND SECTION

Sun Oil Company No. 1 J. B. Walker, Northwest Coke County prospector, four miles southwest of the Jameson field, and 660 feet from southeast and southwest lines of the C. Brockhuyzen survey No. 526, cored at 5,267-72 feet. Recovery was five feet of shale, with no shows of oil or gas.

The section at 5,260-67 feet had been sand, with some signs of oil and gas. Operator is now running a drillstem test on that zone.

ANDREWS VENTURE STILL HAS NO OIL IN DEVONIAN

Stanolind No. 1 E. C. Nix, 12 miles southwest of Andrews, in West-Central Andrews County, and 1,994 feet from north and 1,985 feet from east lines of section 21, block A-47, psi survey, was making hole below 9,345 feet in Devonian lime, after a drillstem test at 9,260-9,345 feet.

Recovery was the 1,440-foot water blanket and 330 feet of drilling mud, with no shows of oil or gas.

SW ECTOR PROSPECTOR FLOWS FROM 'BURGER'

The Texas Company No. 10 Ida McDonald, west stepout from the discovery well of the Jordan-Ellenburger field in Southwest Ector County, in the Penwell area, and 660 feet from south and east lines of section 27, block B-16, psi survey, was flowing to test in the Ellenburger on the section at 8,845-83 feet.

The well was swabbed until it kicked off and started flowing. It made 298 barrels of fluid in 14 3/4 hours, through a three-quarter inch tubing choke.

In the last seven hours of that period it made 155 barrels of oil, with an average shakeout of two per cent low water. At the end of the seven hour period the water cut had dropped to two-tenths of one per cent water. Testing was continuing.

Strength Shown For H-SU Joust

ABILENE—Strength of entries in the Hardin-Simmons invitation basketball tournament scheduled Friday and Saturday is given:

Abilene has six lettermen, led by Gene Landrum, a guard with two years experience. The locals have won the 3-AA championship eight

out of the past ten years, falling only in 1940 and 1944.

Only two lettermen return from Midland's second place club of 1947. Great prospect Fred Dunn, six-foot center, will be out with injuries for approximately three weeks. Lettermen are: Dunny Goode and Don Hamblit.

Sparkplug is expected to be Larry Messersmith, last year's B-team hotshot. Midland lost to State Trulist Woodrow Wilson in 1944 at Austin.

Coach Ken Newton had more than 20 boys working out this week. Sweetwater squad this week.

The 1947-48 Midland Bulldogs basketball team opened the cage season Tuesday night in the MHS gym. Kermit will be the opposition for three games—"C", "B" and "A" contests.

water will play its first game of the season in the first game of the tournament, when they meet Plainview in the curtain-raiser Friday night.

Lakeview's Chiefs, always a strong contender in Class A ranks, licked the San Angelo Bobcats, 29-21, last week in the San Angelo club's season opener. The Bobcats meet Abilene in the second game of Friday night's schedule.

Bill Howton, All-District 1-AA forward and leading scorer of the district, and Guard Bob Bogle, who scored over 100 points in conference play, will lead the five lettermen who will make up the nucleus of the Plainview team.

Lamesa has two lettermen around whom the 1948 edition of the Golden Hurricane will be built. Donald Hoover, fast-breaking center, is expected to be the sparkplug of the Hurricanes, who last year finished in fifth place in the district.

Truett Little's Throckmorton Greyhounds, 5-A winners of last year, will move into the tourney with four lettermen. Besides going to the regional last year, the 'Hounds beat Olney in the finals of their own invitational tourney at Throckmorton last December.

Polytechnic is looking forward to producing a team this year that can wallop Paschal, perennial winners of the 7-AA flag chase. Luther Scarbrough, All-District center last year, is back, as are four other lettermen.

Individuals Shine For Golden Cranes

CRANE—Summing up statistics on the 10-game schedule of George Crane's District 5-B Golden Cranes, who won every game for the district title, discloses interesting comparisons and the potentiality of individual gridsters. Seven of the boys placed on the All-District first team, and four on the second team.

The Golden Cranes scored 322 points in the 10 games for an average of 32 points per game, compared to 13 points scored by the opponents in the 10 conflicts. They gained 3,507 yards to opponents 818, making the average compare 350 to 82 yards per game. Crane made 143 first downs—14 per game—to 45 for opponents.

Individual scoring was tabulated as follows:

Player	Times Carried	Total Yds.	Average
Mathis	135	865	6 1/2
Henderson	83	574	7
Stacy	76	525	7
Pearce	32	217	6 1/2
McCully	20	35	1 1/2
Reynolds	9	39	4 1/2
Bradley	5	44	9

Points scored by Golden Cranes were made by: Mathis 132, Henderson 54, Stacy 54, McCully 18, Collins 15, Pearce 12, Zarafonetsis 11, Coker 6, Ward 6, Holcomb 6, Reynolds 6, Waller 1, Simon 1.

Mathis attempted 38 passes, completed 14 for 232 yards, McCully attempted 28 passes, completing eight for 221 yards.

Mathis kicked 19 times for 622 yards for an average of 32 yards per kick.

Odessa Bronchos Like Flying To Games

Flying is to the liking of the Odessa High School Bronchos. Twenty-three players and a coach of the Bronchos will fly to Wichita Falls Friday. Saturday, the Bronchos meet Wichita Falls Coyotes in a quarterfinal school-boy grid game.

Last week the Bronchos flew to El Paso for a bi-district tilt. The gridgers will leave Midland Air Terminal by Pioneer Airlines plane at 9 a. m. Friday.

Waco Jeweler Has Unhappy Day With Diamond Customers

WACO—(P)—Robert Armstrong, Waco jeweler, doesn't mind a little of the "now-you-see-it, now-you-don't" routine, but he thinks between \$15,000 and \$20,000 in uncut diamonds is too high an admission price.

Armstrong was happy Monday until a swarthy man came in his store and asked to see some ring mountings. Then he asked to see some stones that might be placed in the mountings.

Armstrong took out a wallet containing about 15 uncut diamonds and laid it out on the counter.

No. 2 Shows Up
The swarthy man got finicky and decided he didn't want to see ring mountings at all. He wanted to see a stick pin suitable for the uncut stones.

About this time another man appeared. He wanted to see a clock. Armstrong showed him a clock and returned to his first customer — except his first customer wasn't there.

Then he turned to his second customer — except No. 2 wasn't there. Then he looked for his diamonds — except they weren't there.

Tuesday, Armstrong isn't very happy.

Downing Represents Midland At Parley

Delbert Downing, manager of the Midland Chamber of Commerce, is representing the city at a meeting of rules committeemen of the Central Division of the Highway 30 Association at Colorado City Tuesday.

Promotion of U. S. Highway 80 as the main year around transcontinental route is the announced purpose of the organization. The central division organization was perfected in a meeting at El Paso on November 24.

Expected at the Colorado City meeting, which opened in the chamber of commerce directors' room at ten o'clock were Jim H. Greene, Big Spring; Oscar Jones, Marshall; Alton Hughes, Pecos; Charlie Cotton, Fort Worth; Delbert Downing, Midland; Chris Fox, El Paso. Those men compose a committee to set up working rules for the organization.

The group was entertained by the Colorado City Kiwanis club at a luncheon in the Crawford Hotel dining room.

Rumors Say Cox Bound For Chicago

NEW YORK—(P)—Despite vigorous denials by Brooklyn officials, the Dodgers Tuesday were expected to add a sequel to the six-man trade with Pittsburgh by sending Shortstop Billy Cox to the Chicago Cubs for First Baseman Eddie Waitkus or Phil Cavarretta.

Cox came to the Dodgers Monday, along with Pitcher Preacher Roe and Infielder Gene Mauch, in a deal that sent Outfielder Dixie Walker and Pitcher Hal Gregg and Vic Lombardi to the Pirates. No cash was involved, according to Brooklyn President Branch Rickey.

Notre Dame Wins National Crown Again

NEW YORK—(P)—Notre Dame's powerized Irish emerged Tuesday, for the second straight year, as the No. 1 team in intercollegiate football.

Punctuating an all-victorious nine-game schedule with a smashing 38-7 rout of Southern California, the men of South Bend pulled away from their closest challenger, unblemished Michigan, and laid stake to the mythical national championship with votes to spare in the final Associated Press poll.

Michigan, dated up with Southern Cal January 1 in the Rose Bowl, finished second in the decisive standings. Once-tied Southern Methodist, unspotted Penn State and once-defeated Texas followed in order.

Rounding out the titanic ten were Alabama, Pennsylvania, Southern California, North Carolina and Georgia Tech. Southern Cal's loss late Saturday tumbled the Trojans from third to eighth.

The Irish received 107 first place votes to 95 for the Western Conference kings and wound up with a total of 1,410 points to Michigan's 1,289. Ten points are awarded for a first place vote, nine for second, and so on.

The standings turned up some unusual twists. Alabama and Georgia Tech, a couple of Southeastern Conference powers, crashed the select group, while the Southeastern champion Mississippi, ran 13th.

Fritz Crisler Named 'Coach Of The Year'

NEW YORK—(P)—Herbert Orrin "Fritz" Crisler, who led Michigan's Wolverines to the Western Conference championship and into the Rose Bowl, was voted "Coach of the year" Tuesday in the New York World-Telegram's annual poll of college football coaches.

Crisler received 68 first place votes to beat out Matty Bell of Southern Methodist, whose Cotton Bowl-bound team had only a tie to mar its record. Bell got 40 votes.

Lynn Waldorf of California, who was voted the first "Coach of the Year" award in 1935, received 38 votes for third.

Quality Furniture Featured At Barrow's

Quality furniture, a gift to enjoy a lifetime, is stocked the year round at Barrow Furniture, 123 North Colorado Street in downtown Midland, but is especially featured during the Christmas shopping season. S. M. Vaughan, store manager, said furniture long has been a favorite Christmas gift, and that quality furniture, which costs less in the long run, truly is a gift to match the lifting spirit of the season. Shoppers are invited to visit the concern's attractive showrooms where stylish furniture is displayed in a most pleasing manner. Barrow's is known throughout the area as having the largest and best assorted stock of furniture in West Texas.

Former Wife Files Suit Against Rancher

BEAVER, OKLA. — (P) — Something different in breach of promise suits faced 50-year-old Hugh McFarland, wealthy owner of a 10,000-acre ranch near here. In a suit for \$50,000 filed in Oklahoma City Federal Court, Mrs. Sylvia Dick, 49, his ex-wife, said McFarland promised in 1936 to marry her again—but never did. The couple was divorced 32 years ago after little more than a year of wedded life, and the rancher is now married to another woman. Said McFarland: "It's a free country! Anyone can sue."

'New Look' Brings Increase In Alimony

LOS ANGELES — (P) — A superior court judge took judicial cognizance of the "new look" in awarding temporary alimony. "Didn't you tell me you had clothes enough to last a year or more?" counsel for William R. Wilkerson, Hollywood publisher and cafe owner, asked Mrs. Vivian Du Bois Wilkerson, actress and model. "But that was before I took stock," she replied. "You know very well I've had to let down hems on all my clothes. I can't even wear some of my suits. They're too short." Superior Judge Fred Miller awarded her \$600 a month. She had asked \$800. There are more than 700 million cattle in the world.

Reminder Issued By City Police

Arrival of the Christmas season and recent infractions have prompted the Midland police to again remind citizens that peddlers, house-to-house canvassers, or persons collecting for any charity should be certified.

Police remind this certification must be from the Chamber of Commerce or Midland Police Department.

"In the past and present, Midland citizens have been taken in by unauthorized sales people and we do not wish for this to happen," Chief of Police Jack Ellington said.

Suspect Cleared In Houston Slaying

HOUSTON—(AP)—Houston police Tuesday continued a search for the slayer of Barney Goldstein, dry goods merchant whose body was found last Friday in his flaming store building.

Late Monday officers cleared a 26-year-old Beaumont negro as a possible suspect. The man was arrested on the Orange Highway near Beaumont.

Goldstein had been stabbed several times with an ice pick before his store was set afire.

The use of cobalt is reported to be effective in treating certain types of animal anemia.

Murray To Address Presbyterian Men's Meet Tuesday Night

State Railroad Commissioner William J. Murray, Jr., of Austin will be the speaker at a dinner-meeting of Presbyterian Men of Midland at 6:30 p. m. Tuesday at the church. He will be introduced by the Rev. Matthew Lynn, pastor.

Ernest Sidwell, president of the group, will preside. C. Ed Prichard is vice president, and William Hester is secretary-treasurer.

Murray, a native West Texan, is a member of the First Presbyterian Church of Houston and is active in the University Presbyterian Church at Austin. He attended Hardin-Simmons University, Abilene, and graduated from the University of Texas.

Midland Man's Father Dies In Ballinger

BALLINGER—Thomas A. Crockett, 65, retired stock farmer, and father of Fletcher Crockett of Midland, died late Monday afternoon of a heart attack.

He was born in Lampasas County, and came to Runtless County from Mills County in 1925. He was a long-time member of the Methodist Church.

Funeral arrangements are incomplete. Survivors include the widow; three daughters, Mrs. Claude Simmons of Ballinger, Mrs. Williams Warren of Paint Rock and Mrs. O. C. Gwynon of Odessa; six sons, Fletcher of Midland, Earl of Ballinger, Walter of San Angelo, Ralph of Boulder, Colo., and Tom and Frank, both of Austin; two brothers; a half-brother; two sisters, and eight grandchildren.

Only 800,000 of the 6,000,000 farms in the United States are electrified.

Ultra-Modern Westex Service Store To Have Formal Opening Wednesday

There's nothing like it in West Texas.

In fact, according to a Houston representative of the Shell Oil Company's sales division, there's nothing like it anywhere else in the Southwest.

That's how the Westex Service Store, on West Wall at Carrizo Street, stacks up as an ultra-modern headquarters for automotive services of all kinds, as well as for electrical and other household appliances, a multitude of car accessories and supplies, sporting goods and toys.

Owned by Ted O. Groebel and managed by L. V. Bassham, the Westex Service Store opens Wednesday morning, and from then on it will be open 24 hours a day.

After having been under construction several months, the Westex Service Store in its finished condition presents an example of how attractive and lavishly modernistic a place where cars and trucks can be serviced may be designed.

Westex Service Store is built of brick and tile. Its gleaming interior, its architecture and general appearance are proof there is no conflict between beauty and efficiency.

As for stock and equipment, they, too, tempt one to indulge in superlatives. Nothing has been spared to make Westex Service Store a place where Midlanders can find exactly what they want in any line of merchandise handled by the store.

The big front sales room, which is encircled by the way, with big plate glass windows slanting outward at the top to reduce glare, interior heat from sun, and reflection, is a show place in itself. There customers may find sporting goods of various kinds. There also are electrical appliances and such things as china ware and a variety of home gadgets both practical and decorative. There are toys of all kinds and prices.

Automotive Department
Garden hose, vacuum cleaners, refrigerators—there isn't room to list the things sold by this Midland store.

Of course, all this is aside from the establishment's automotive department—and that's one of the outstanding features of the Westex Service Store.

"hydrolater" which removes non-ferrous liquid from tractor or maintainer tires, stores it in a barrel until the tire can be repaired, and then replaces it in the tire. Are other unique equipment installations.

All these things are housed in a shiny building with tile walls, beautifully-appointed rest rooms, and fluorescent lighting throughout.

George H. Peters is manager of the service department. An expert of long experience, he supervises a well-trained staff of men. C. E. Nelson is the office manager.

All citizens of Midland and vicinity are invited to visit this new, ultramodern service store.

No. 12 in a series of articles published in the public interest to explain and illustrate the practice of Chiropractic.

CASE HISTORY No. 274—A girl of 17 who came to a Chiropractor suffering from severe headaches which she attributed to her eyes. She had worn glasses for five years, changing to a stronger type of lens every six months. However, analysis revealed that the headaches were caused by nerve pressure at the base of the skull. A series of spinal adjustments released the nerves from pressure and the headaches promptly ceased. Further, eyesight so improved that within a short time she was able to discard her glasses and has not worn them since.

CASE HISTORY No. 742—A severe case of asthma resulting from dis-eased sinuses which had affected the bronchial tubes. This middle-aged man had tried every available means of relief without success. Brought to a Chiropractor "doubting that anything could be done," he was restored to normal health within a few weeks. The cause of his condition was simply nerve pressure of the brain and the sinuses. When this pressure was removed by spinal adjustment the abnormality quickly cleared up.

WHAT IS CHIROPRACTIC?
Chiropractic is based on the

fact that the brain is the human power house. It creates vital energy. Without brain energy no organ or part of the body can function. Brain energy is transmitted over the body's network of nerves. These nerves radiate from the spine, and it is in the spine that the nerves can be "pinched" by vertebrae, and the flow of energy over them impeded or cut off. When, in this way, the connection is broken between brain and one or more parts of the body, dis-ease is the inevitable result. By skillful analysis and precise spinal adjustments, the Chiropractor is able to locate and release impinged nerves and restore an uninterrupted flow of brain energy to the part affected. Health follows naturally.

FOR FURTHER INFORMATION concerning the modern Chiropractor and what he can do for you, phone 1256 for your appointment.

RRC HEARING SCHEDULED IN MIDLAND WEDNESDAY

The Railroad Commission of Texas will conduct a hearing, starting at 10 a. m. Wednesday, in the county courtroom of the Midland County Courthouse, on the possible revoking of the permit of Hardin-Houston Company to operate a treating and reclamation plant at Denver City, for handling residue from oil storage tank bottoms.

The hearing will be conducted by Jack K. Baumel, chief engineer, and Clark Lloyd, director of production, for the commission. Both are from the headquarters of the oil and gas division of the regulatory body at Austin.

William J. Murray, Jr., a member of the Railroad Commission, is slated to attend the Wednesday hearing.

New Italian Troubles Break Out In Sicily

ROME—(AP)—New disorders erupted in Sicily Tuesday, and the threat of a general strike hung over Rome's province as Premier Alcide De Gasperi's harassed government was peppered with queries in the Constituent Assembly on the recent rash of rioting throughout Italy.

Reports from Sicily said disorders broke out at Vittoria, a town of 40,000 in the southernmost province of Ragusa.

Several persons were reported injured, one critically. Police restored order at Vittori with reinforcements from nearby towns.

At Sicily, town of 20,000 near Ragusa, the Chamber of Labor called a general strike on behalf of 500 unemployed.

County Groups Will Assist In Solution Of School Problems

AUSTIN—(AP)—The citizens of Texas should have a direct part in the proposed revamping and improving of their public school system, the Gilmer-Alken Committee on Education decided Monday.

To encourage citizen participation, the committee voted to establish citizens committees in each of the 254 Texas counties.

These county groups will act as subsidiaries to the five major sub-committees now studying the problems of state organization of the educational setup; local administrative units; financing of public education; textbooks, curriculum and certification; and scholastic census, recodification of school laws, and school buildings.

Expansion of the organization on a statewide basis led the Gilmer Alken committee to authorize the hiring of an executive secretary, who will be coordinator of the study program.

Directors Of TB Association Hear Seal Sale Report

A report on the annual Christmas seal sale here was given by John J. Redfern, Jr., campaign chairman, at a meeting of the Midland County Tuberculosis Association Monday night. Dr. Homer B. Johnson, president, presided.

Redfern said the seal sale is progressing nicely and returns are ahead of last year. He expressed confidence the \$5,200 goal will be reached.

He also told of attending a meeting of directors of the Texas State Tuberculosis Association in Austin last weekend when it was decided to hold the 1948 convention in San Angelo. It will be the organization's first convention in West Texas in more than 10 years. Redfern reported the state and national associations are contributing to a model local association to be established in Galveston.

An educational film, "Time Out," produced by the national association, was shown.

Former Midland Woman Is Research Physicist At University Of Texas

AUSTIN—Ladies, if you're complaining about the complexities of household duties, put down your brooms and listen:

Miss Mary Gowen Foulks, Uni-

versity of Texas research physicist of Fort Worth and formerly of Midland, spends her day—not in the kitchen—but in a laboratory behind a pencil seeking a "mechanical determination of the zeros of classical orthogonal polynomials of three arbitrary parameters."

The only woman among 50 university physicists engaged in military and naval supported research, she holds a Master's Degree in physics and recently presented a paper to the annual session of the American Physical Society.

The attractive young woman acquired her scientific interests as a child when someone gave her a chemistry set.

During her college work, she became more interested in physics and continued her work toward a Bachelor's Degree in 1944 and a Master's Degree in June, 1947, one of two such physics degrees awarded to women by the university in the last five years.

Naval Research Project
She says her mother, Mrs. R. L. Foulks, field secretary for Austin College, always has been a little bewildered by daughter's scientific interests. Miss Foulks' father, now dead, was a Midland auditor and tax accountant.

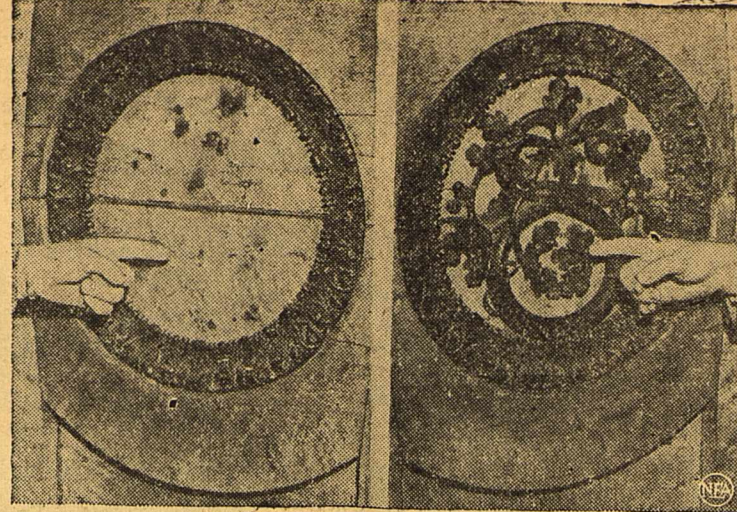

Miss Foulks is an active participant in the naval research project which is studying the mechanical harmony synthesizer, a machine invented by Dr. E. L. Brown of the physics department, which can work equations up to the thirtieth degree. Her job is to work complicated problems to a form in which they can be given the machine for final solution.

She is surprised anyone should think it unusual for her to be a physicist. "Physics has never been more difficult for me than any other subject," she says.

In February, she will begin work with the Atlantic Refining Company, Dallas, as research physicist in its geophysical section. She hopes to complete work for her doctorate later.

The versatile Miss Foulks can cook too! Included in her plans for the future are duties as a housewife. She is engaged to a fellow-physicist.

When Your Wife Gets That 'Fur Coat' Look-Look Out

By HAL BOYLE
NEW YORK — (AP) — My wife is mad at Santa Claus. He's never brought her a fur coat, and she's beginning to think he never will.

A few weeks before Christmas, the year we were married, I looked in Frances' eye and saw mirrored there a strange fuzzy image. I learned after consulting other husbands that what I had glimpsed in her eyes was the well-known "fur coat look."

It is a kind of affliction that gets in the eyes of most wives about the time cold weather comes on.

Since then, I have noted it in Frances every Winter about this time. She will be talking along good now, and then all of a sudden that queer "fur coat look" will come over her face.

Just before that first Christmas ten years ago, I asked her what she wanted Santa Claus to bring her and she said:

"A fur coat."
"But you've got a fur coat," I objected.

"Oh, that old thing," she said. "I've had that for years."
Christmas morning she went to the tree to try on her new fur coat, and—what do you think? There wasn't anything there but some perfume.

"Santa Claus must have had a touch year," I consoled her.

So she whacked down her old fur coat to a jacket. The next year Santa left her a new wing chair instead of a fur coat.

"You'll have to wear the old one another year," I said.

"If I do I'll have to wear it as a veil," she said. "You should see what the moths have done to it."

Each year after that she got the old familiar "fur coat look" in her eyes. And each time Kris Kringle got mixed up in his deliveries. One year he'd bring a new rug, and another year a new sofa. But somehow he never managed to crawl down the chimney with that fur coat.

I asked her why a fur coat was so important. She said I never would understand, but I got the idea that somehow a fur coat to a woman is a symbol of what everybody wants in life.

She has that "fur coat look" in her eyes again now. When I inquired if she was going to hang her stocking on the mantel this year, she said:

"No, I'm going to put up a coat hanger."

And I have the uneasy feeling that if there is another mistake—well, she's likely to start blaming somebody besides Santa Claus.

Borrowed Law Book
Born in North Carolina, he came to Texas in 1912 and found the end of his rainbow in a what was at that time a forlorn bit of territory. He arrived broke. He borrowed a law book from John Buchanan and set up office.

There were about 600 people in Ector County at the time, and Crane County, attached to Ector for administrative purposes, had 35 votes.

The area was dry—so dry that once when a tourist asked Judge Moss if it ever rained out there, he replied: "Yes, it rains sometimes. In fact, it rained Wednesday about 30 miles from here, but I was busy and couldn't go."

Like other business and professional men, he bought land, which was cheap. He began ranching as a hobby.

Then Came Oil
Then, of course, oil was discovered. The Permian Basin became a big name in oil—and Judge Moss was rich.

He bought more land, including 120 sections in New Mexico, near Alamogordo.

He wrote "Shadow of the Pot-rock" and "The Rock Was Free." He developed his ranches. His law practice grew.

He has not retired in any sense of the word, but is gradually turning over a lot of his work to his family and staff.

The cattle industry, for example, is now the job of his son, William, and actress daughter-in-law, Jane Withers.

Jane ought to be good at her job. After all, actresses know quite a bit about calves.

Chinese universities buy an average of 50,000 volumes annually from a London bookstore, which has customers in every country.

Western Attire Can't Masquerade Accent

HOUSTON — (AP) — Three young British seamen are sporting brand new cowboy suits but they probably will be wearing them back to England and not to Sweetwater.

The trio were picked up in the Houston Union Railroad Station after travellers were attracted by the clash of British accents with 10-gallon sombreros and cowboy shirts. Immigration officers said they were former members of the crew of the steamship Atlantic City, who left their vessel there and took off for West Texas.

Deportation proceedings were scheduled shortly.

The wild-west minded trio had picked Sweetwater as their destination after a man in a Galveston bar told them they looked like cow-punchers from that part of the country.

Moscow's "red" square was so designated long before the Communists.

McKenney on Bridge

A good player never gives up. He tries to reason out every possible angle for making a hand, as the declarer did in the hand shown today. His contract looked rather hopeless, but let's follow his line of play.

He won the opening heart lead in dummy with the king and cashed the ace of hearts, discarding a spade from his own hand. He ruffed a small heart, cashed the ace and king of spades, then led the third spade.

West decided to ruff in with the jack of clubs, so declarer discarded a diamond from dummy. West re-

turned a trump which declarer won, and now he led another spade. When West failed to trump, dummy trumped with the ten-spot. The fourth heart was led and trumped by South, and the outstanding trumps picked up.

South realized that he had to find both the club and spade suits split, or if the spades broke badly, the long trump honor had to be in the same hand as the two spades.

His reason for jumping to six clubs over four diamonds was to surrender the possibility of seven. His partner had shown two suits.

The likelihood that North would hold the queen of whichever suit South selected for trump was against him, and by jumping to six clubs, South more or less closed the bidding.

The Real Danger

When President Truman asked Congress for discretionary power to impose price controls and rationing, it was only political second nature for some Republican members to charge him with using "police state" methods. For Mr. Truman, in an offhand political conference remark a month ago, had said that such controls, though sometimes needed, partook of police state techniques.

Mr. Truman's remark was rather ill-considered, since government regulations operating within the American constitutional framework of checks and balances cannot be dictatorial. For the same reason, Senator Taft's charges that Mr. Truman's proposals marked "the end of economic freedom" and "a step toward a completely totalitarian nation" were both ill-considered and extravagant.

Whether or not the President's 10-point program to combat inflation is wise, it carries no threat to the orderly processes of our government. Congress will grant him only such powers as the majority sees fit. The President may veto that grant if he thinks it is inadequate, and try again for something nearer to what he wants. But Congress still has the last word.

The likelihood that Congress will withhold some of the discretionary powers that Mr. Truman requested is proof enough that dictatorship is not imminent. In a police state, the President would have a puppet legislature.

The real danger, then, is not totalitarianism. The danger is rather that both parties will sidetrack statesmanship in favor of politics. It was signaled by the reactions which reporters brought down from Capitol Hill after the President's speech.

Some congressmen said that Mr. Truman had pulled a fast one by asking for more than the Republican-controlled Congress would possibly grant him, thus putting the blame for high prices and growing inflation on the GOP. Others said that the smartest thing the Republicans could do would be to give the President all he had asked for and then let him stew in his own juice. Still others obviously figured that the charge of totalitarianism would be the strongest political weapon.

This situation arises from a condition the exact opposite of totalitarianism. Its basic cause is the freedom with which American citizens are permitted to change their political minds. The result in this case is a partisan division of authority which invites a partisan tug of war.

The fault is not in the system. But the question is whether the two parties will resist the temptation to indulge in a purely political game. There is the uneasy recollection that there have been such performances before that caused momentous repercussions far beyond the field of domestic political maneuvers.

There seems a chance that our Washington politicians may forget the simple truth that the mistakes which lead to domestic disaster or war are made in the quiet and apparent safety of peace. When disaster or war comes, there is nothing left to do but pitch in and work together. But the pound of cure is costly and tragic.

We cannot and would not adjourn politics or postpone elections. But we can hope that both parties will remember that there are more immediate concerns than the 1948 elections. The American people are less interested in the blame for our present fast ride toward inflation, than they are in a way of stopping it.

Our economic and financial health right now will have a profound effect on what remains of the twentieth century's history. It can do much to decide whether the world is to have prosperity and peace, or chaos and war. That decision demands selfless, partyless, statesmanlike thought and action from the entire government. The need is for cooperation and a sense of sober responsibility, not for name-calling and finger-pointing.

An Eight-Month Handicap

Spanish Newspaper In South Texas Celebrates Birthday

By JACK RUTLEDGE
Associated Press Staff

The Spanish edition of The Brownsville Herald was 13 years old last month. It is one of the very few Spanish editions of Texas dailies.

It has grown from a one-page paper into one of several pages daily, with a circulation of many thousands in the lower Rio Grande Valley, and in the Mexican border towns of Matamoros and Reynosa.

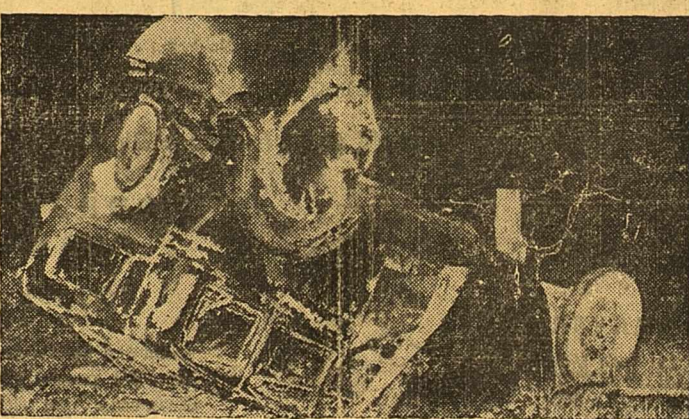

Oscar J. Del Castillo, the editor of "El Heraldillo de Brownsville," was also its originator. Thirteen years ago he suggested to the late J. M. Stein, then publisher of The Herald, that such a daily would click. Stein said okay, so Oscar went to work. He owned his own motorcycle and airplane, and worked them to death gathering news. He, the motorcycle and the plane got

in a lot of people's hair, but he got his news, translated items from the wire and news turned in by local reporters, wrote headlines, laid out the pages, nursed the paper through the composing room—and then went out for more news.

He also wrote a daily column, and occasional editorial. Incidentally, it is the only Spanish daily south of San Antonio and Laredo.

Bradley, Next Army Chief Of Staff, Is What Men Call 'Quiet Operator'

By HAL BOYLE

NEW YORK — (AP) — The U. S. Army's next chief of staff is what the men in the ranks call a "quiet operator."

Omar Nelson Bradley also wears the flawless armor of a good man—an incorrigible honesty that will let no consideration stand between him and the goal of duty.

His appointment to succeed his wartime boss, Gen Dwight Eisenhower, in the Army's key post, will be nowhere more popular than among the men who fought under him and dubbed him "the dough-boy's general."

No commander was more thoughtful of the welfare of his troops than this lean, six-foot, 54-year-old Missourian.

He showed this again when he accepted the tough job of setting up the new post-war Veterans Administration, to which 17,000,000 ex-servicemen turned for help.

Program Without Fuss

"I don't think there's any job in the country I'd sooner not have," General Bradley frankly told the Overseas Press Club here once, "nor any job in the world I'd like to do better."

The general set up his aid-to-veterans program without fuss, feuds or political fanfare. He made as good a record as an administrator as he had as a field commander overseas—and there was none better.

But he always considered it only as an emergency task, an interim

assignment until he could return to his professional army duties.

When he becomes chief of staff on the retirement of Eisenhower next February, he will reach the high point of 36 years of military service.

Deceptively Mild

The son of a school teacher and himself a former West Point mathematics instructor, Bradley is fitted by temperament and inclination for the task of welding a modernized American army. As commandant at the Infantry Training Center at Fort Benning, he personally trained thousands of the young doughboy leaders who served under him in Africa and Europe.

Bradley is modest, friendly and deceptively mild. He has a cool intelligence and a forthright simplicity of character confounding to devious men, who make the mistake of thinking he can be imposed upon or fooled.

He has a flexible mind, wide open to new ideas and new weapons—when they work. If the American Army ever has to fight a third world war under Bradley, it won't ride to battle in outdated tanks.

Of 1,000 rheumatic fever cases, 10 years later 439 of the persons afflicted will resume their normal activity, 209 will be slightly limited, 135 will be seriously limited, and 203 will have died. The records of 14 will be missing.

FOLGER'S

A Coffee Flavor Triumph

So Extra Rich...
It is Economical Too!

To get more enjoyment out of your cup of coffee, won't you try the coffee that is the established flavor favorite! For it is a fact that true coffee lovers throughout the great over-all-area where Folger's is sold have established Folger's Coffee as their choice of all brands of coffee, regardless of price, and in that area have made Folger's the largest selling brand of coffee bar none! That is truly a triumph of coffee flavor—a two-way triumph. A triumph in coffee enjoyment, for people have proved by their purchases that they like Folger's best... and a triumph in coffee economy for so many people could not choose one brand of quality coffee as their favorite if it were not economical, too!

Won't You Try This Special Mountain Grown Coffee!

Folger's is a special kind of coffee. It comes from the mountains of the Tropical Americas where Nature gives coffees the most sought-after flavor qualities. These rare coffees are selected and artfully blended to create the

Folger Flavor. No other coffee flavor is quite like it... It is vigorous... with a rare winey tang. Definitely different and delightful... Won't you try Folger's right away and discover how wonderful a cup of coffee can be!

Try using 1/4 less

A good way to prove the Extra Flavor and Economy of Folger's is to try making your coffee with 1/4 less of Folger's than you used with lesser-flavored brands. The extra flavor is provided—for both enjoyment and economy—
